GET A MILLION PIGS FOR BELGIANS

Belgium, March 22.—One German pig has been killed in the civilian population of Belgium. The pig must be fed and cared for by the Belgians, without distinction as to class. One of the most important inhabitants of Brussels has been compelled to take twelve hogs on his premises, reduced rates by the city. His poorest neighbors have at one time there have been a shortage of fodder in any, whereas the amount in Belgium is nearly normal. Belgians are concerned lest the face of the pigs results in a further depletion of the already scanty supply of food necessary for the people.

German authorities have developed an elaborate system of billeting and obtaining reports as to condition. The distribution system is broken down occasionally, however, with the result that occupants of the apartments and flats have themselves saddled with the care of several animals. Billeting regulations include provisions for compulsory health and vital statistics.

CANCER IS INHERITED; EUGENICS AS A REMEDY.

Chicago, March 22.—Miss Maude medical research worker at the city of Chicago, declares that cancer is frequently an inherited disease and that the remedy for its elimination from the human race apparent in eugenics. Miss Slyde has conducted experiments dealing with cancer for the last ten years and explain her conclusions in the Journal of Medical research this week.

NO HOMES FOR THE REFUGES

London, March 22.—The problem of providing employment and proper habitations for the Belgian refugees both in Holland and in England, is daily growing more urgent, in the opinion of Percy Alden, member of parliament, who has represented the British government in its dealings with the refugee question since the beginning of the war.

The number of Belgian refugees in England is now officially estimated, according to a government statement in the House of Commons, at 180,000, not including 18,000 wounded soldiers in British hospitals. This total consists of 65,000 men, 69,000 women and 46,000 children under sixteen.

"I feel very strongly," says Mr. Alden in a statement to the public, "that, through lack of work and proper housing, these Belgians run a serious risk of returning home at the end of the war in a demoralized and deteriorated condition. In Holland especially, the method of dealing with the refugees is still of a temporary and unsatisfactory nature; they are living in churches, schools, barns, sheds and barges, and the food they are receiving is none too good. As to the employment question, little or no attempt has been made to deal with it, either in Holland or England."

"I have made several visits to Holland at the request of the president of the local government board, to investigate conditions there. England and Holland are faced with a very awkward task, but a serious attempt will have to be made, and that soon, to provide remunerative work and adequate residence for these people.

"My belief is that the next step should be the building of some thousands of wooden huts, each containing three rooms, which could be constructed by the refugees themselves, and could be taken to pieces at the end of the war and transferred to various parts of Belgium to be used as dwellings until permanent homes can be built. The building of the huts could be made to provide work for many thousands of refugees. I calculate that at least \$500,000 will be required for the adequate launching of this scheme. It is the only way I know in which a proper semblance of family life can be restored to these Belgians during their temporary exile from their own country."

COMPENSATION BILLS FRAMED

Lansing, March 22.—As a result of consideration of the various measures introduced in the legislature for amendment of the workmen's compensation bill, the best features in all the bills.

Among the principal points in the new bill are the change of the period of medical, surgical and hospital care from three weeks to three months; inclusion of all occupational diseases except lead poisoning; provision for the defense in all courts by the attorney general of the industrial accident boards decisions; bringing subcontractors within the meaning of the law; include loss of ear or nose under the list of compensatory injuries; to provide that 90 per cent loss of vision shall draw some compensation as complete loss of sight; limit the compensation for foreign dependents to 50 per cent and provide that where a workman is intoxicated when injured he shall not be entitled to compensation.

WRIT IS SIGNED IN THAW'S BEHALF

New York, March 20.—As the result of various writs and orders sworn out in his behalf, and the resultant legal battle, Harry Thaw is in no danger of being returned to Matteawan for at least a month.

Supreme Court Justice Burr is the signer of two writs of habeas corpus in Thaw's behalf. Thaw's counsel could, by means of securing adjournments, delay the final hearing upon the first writ obtained early in the week until April 19, and Thaw's chief counsel said he intended to make such a move.

Justice Burr last night signed the second writ of habeas corpus, bringing up the issue that Thaw's commitment to Matteawan is illegal. The first writ is designed to bring about a test of Thaw's sanity.

TRAVELS 33,740 MILES ON \$45 STEAMER TICKET

New York, March 22.—Excluded from America, rejected by Brazil, and due apparently to travel the ocean as a guest of the Lanport and Holt line steamers until the United States immigration authorities concede that he has recovered his mental equilibrium, Nathan Cohen is in New York again today after having completed two round trips from New York to Buenos Aires. Since last May Cohen has been a wanderer upon the face of the ocean.

Asserting that Brazil was his native country, he first arrived in New York in May, 1912, and went to Virginia to set up a little store with a relative. His sanity was questioned and the immigration officials ordered his deportation to Rio Janeiro, whence he came. Brazil rejected him and he was carried to Buenos Aires and thence back to New York. Efforts to land him here were futile and again he made the round trip to Buenos Aires, returning Thursday on board the steamship Vasari. In all he has traveled 33,740 miles on a \$45 ticket.

It is now asserted that his mental balance has been restored and an effort was again to be made to land him here. If it fails he must start south again March 27.

WILSON DEMS NOT WORRYING

Washington—Friends of President Wilson express themselves as not perturbed over the speech-making activities of William J. Bryan and Champ Clark, or the rumors that both men, through their friends, are beginning to line things up for next year, says an article in The Star. The Wilson men stand pat on the belief that the president will succeed himself, and that Secretary Bryan, Speaker Clark, Senator Underwood and other big men of the party will not care to bring on a contest under the circumstances.

While the president has made no announcement of his purposes next year, the Democrats of the country will demand him as the nominee and as the only man who will have a chance against the Republicans.

TUBS "FOR TOMMIES" NOW GRY IN LONDON

London, March 20.—The thought of the British soldier going unattended affects the British public so much that "Tubs for Tommies" is now the cry of a group of patriots, which has raised a fund sufficient to provide 30 tubs with 12 stoves and plenty of soap and towels. Five of the baths and two stoves were recently sent to Soissons by motor car, and within seven hours 100 men had enjoyed the delights of a hot bath.

The bathing scheme was initiated by Lady Lethbridge, Mrs. M. James Burns, and Allen H. P. Stoneham. It is warmly endorsed by the medical officers, who say that cleanliness will do much to prevent the infection of wounds.

Another movement in the interest of cleanliness in which the committee is engaged is an emergency disinfectant. The type selected costs \$250 and disinfects 250 suits of clothing a day.

AMONG THE THEATRES

THE DELFT

The appearance at the Delft theater of "A Pair of Sixes" Saturday, matinee and night, March 27, is especially noteworthy for the reason that the presenting cast includes the original company which made the play so justly celebrated during its run of a year at the Longacre Theater, New York City, and six months at the Cort Theater, Chicago. It has also recently appeared at the Metropolitan in St. Paul for the week of January 3rd, and in Minneapolis for the week of January 10th, where its success equalled its triumph in the East. The company will shortly appear for a week each in Omaha, St. Louis, Kansas City, Denver, Salt Lake City, etc., so that the inference becomes obvious that the forthcoming engagement here will furnish all that is desirable both in matter of production and the ability of the actors concerned in the play, as it is quite evidently not an inferior number two company which so many producers sometimes send to the theaters on the so-called "small time circuit." This is something which Mr. H. H. Frazer, has been very careful not to do. He considers the money of the patron in the smaller city of a great value as that which is laid down at the box office of the Metropolitan play house, and also thoroughly appreciates the good opinion of the entirely capable theatrical devotee who sees his productions in the "one night stands."

THE DELFT

The feature at this house today is Haggerty and LeClair in a comedy act called "Casey, the Butcher." This act comes to Manager Jacobs highly recommended and should draw a large house at both the afternoon and evening shows.

The pictures for today at this house are "Hearst Solig News Pictorial," "Where is My Wondering Boy tonight," a two part Edison drama in which Marc McDermott and Mariam Nestbit are featured. The comedies for today are: "He Gave Him a Million" and "What He Forgot."

THE BLOU

There is a five reel program at this house today and combined in this schedule are two parts of "The Master Key." A Rex drama of real merit is "The Temptation of Edwin Swayne."

For Friday Manager Mines has "A Daughter of the People."

THE ROYAL AND GRAND

The mystery is solved. At last, the public may rest easier. No more will the pulse of the world be quickened by the thrilling mysteries of the "Million Dollar Mystery" as the solving reels are to be shown at the Royal and Grand tonight. The prize winning reel will be shown, including the announcing of the winner.

People who followed through the many reels of "The Million Dollar Mystery" will flock to tips chouses today to see the real solution of the problem and mystery.

CARD OF THANKS

We wish to express our most sincere and heartfelt thanks to all our many friends who so willingly aided us at the time of the death of our beloved husband, and father, George Lippold. We wish to thank all those who sent floral offerings. We wish to especially thank the men at the C. & N. W. shops who by their many kind acts, helped to alleviate our sorrow. While the death of our husband and father will be hard to bear, yet the memory of all these kind acts will be ever remembered.

Mrs. Anno Lippold and family.

Mrs. H. E. Robinson of Wells returned to her home yesterday after attending the ninety-fifth birthday anniversary celebration of her mother in Marinette.

J. F. Foley of Menominee arrived in the city yesterday.

Herman Salinsky left last night for Chicago on business.

Miss Elizabeth Clark, of Chicago, an experienced milliner, has arrived in the city to take a position at the store of Mrs. L. A. Kaufman.

ANTI-TIPPING BILL

TIPS GIVEN QUIETUS

Lansing, Mich., Nov. 22.—Representative E. B. Follett, of Isocoe county, had a battling average of 600 for the Thursday afternoon session of the house. The only two measures for which he stood sponsor were given their quietus in the committee of the whole and almost without a struggle.

The Follette anti-tipping bill was characterized by Representative Charles Floyd as "a bill to legalize public graft." Representative Culver added insult to injury by pointing out to the house that the bill had come in under a misleading title. The title mentioned employees of agricultural societies and the bill does not even mention an agricultural organization.

It provides that unless a placard is displayed in any institution or car stating that tips are expected and permitted, it shall be unlawful to give or receive tips.

Representative Follette's other failure was the amendment to the law relating to state superintendent of weights and measures. This bill was designed simply to eliminate the word "knowingly" from the law in the interests of easier convictions.

When the Oakley bill amending the workingman's compensation act came up on the order of third reading, the author announced that the committee's substitute bill is about ready and soon will be introduced and for this reason asked that his bill be re-referred to the committee.

Representative Herman McMillan, of Charlevoix, chairman of the house committee on fisheries reported out the bill amending the law under which anglers are licensed. As reported out the bill provides that persons fishing in the state and outside the boundaries of their own counties must pay a general angler's license of \$1. Non-resident anglers must pay \$1 for general or lake fishing and \$3 for trout stream angling. The law also includes border waters such as Lake Michigan and Lake Huron shores that were excluded under the old law.

Representative James Jerome's attempt to resuscitate the general pharmacist bill which was tabled by the house Tuesday afternoon failed Thursday by a vote of 28 to 48.

FATHER IS KILLED AS SON IS BORN

Iron Mountain, Mich., March 22.—While Oscar Johnson lay dying just outside the rear door of the saloon of Emil Carlson a son was born at his home a few blocks away. He was found by a brother who went to tell him the good news.

Victor Anderson, a bartender has been placed under arrest. According to the police an altercation arose in the saloon and Johnson was hit over the head with a club. It is claimed Johnson was struck while being ejected, after breaking glasses behind the bar. Police say he was allowed to lie in the alley two hours before attention was given by a physician, called by the victim's brother.

When the physician arrived he found life almost extinct. He was rushed to the hospital, where he died seven hours later. An autopsy was ordered.

Johnson served with company E, Thirty-fourth Michigan volunteers, in the Spanish-American war and later served three years with the regular army in the Philippines.

MASONS HOLD FIRST BANQUET

(Continued from page one.)
 Fead, Grand Junior Warden of the Grand Lodge of Michigan, of Newberry. The address of Judge Fead was one of the real features of the evening, his address being one of real merit. Prepared spontaneously, Judge Fead, by his address, brought smiles

where tears had been and tears where smiles had been.
 Tonight the new temple will be formally dedicated, the formal and impressive Masonic Dedicatory ceremonies taking place from 7:30 o'clock until 9 o'clock. Among those who have been intensely interested in the progress of the temple, who will present this evening is Derrick Hubert, of Menominee, the architect. Mr. Hubert designed the Menominee tem-

ple and, as the local building, is in some particulars, patterned after that one, Mr. Hubert was engaged. He has displayed great interest in the local building and it will be with a sense of great pride that he witnesses the formal ceremonies this evening that dedicates that building for which he was architect.
 At 9 o'clock a reception will be tendered in the lodge room by the Delta lodge to the officers of the Grand

Lodge of Michigan. At this hour the invited guests will arrive at the building.
 At 10:15 o'clock all Masons, their families and the guests are invited to the informal dancing party in the ball room of the building.
 It is desirable that it be thoroughly understood by all that the event of tonight will be entirely informal and that full evening dress will not be in good form.

LAKE LINDEN WINS MEETING

member of the Big Lakes, of Lake Linden, third, with 616, Keuhl, of Marquette, fourth with 623 and Jenks, of Marquette, fifth, with 666.
 The prizes amounted to \$143.
 In acknowledging third prize in the singles, Mr. Hennes, of Lake Linden, a former president of the association, extended the bowlers' an invitation to visit Lake Linden for the 1916 tournament. It was accepted, with the understanding that Backus pin spotters will be installed at the Lake Linden alleys prior to the dates of the tournament. In case the installation is not made, the association voted to hold the event at the Cubs alleys at Calumet.
 The features of the tournament Saturday were special matches between picked teams from the Iron country and copper country in the evening and between the Cubs, of Calumet, and the Crystal Falls five in the afternoon.
 The iron-copper country match was won by the copper country men by 6 pins. Floods of Crystal Falls, with high, with 623 pins, and Barbeau, of Lake Linden, was second with 620. The match was watched with interest by a crowd that more than comfortably took up all available space at the alleys, and the cheering was deafening at times. The copper country has won this event for four consecutive years.
 The Crystal Falls bowlers won from the Calumet Cubs by more than 200 pins.
 The only thing that detracted noticeably from the pleasure of the tournament was the absence of Captains Mansen, Bast and Minnear, of the Million Dollar team, of Laurium. These players arrived Friday, but did not like the outlook and left a short time later, leaving Captain Hcatsen alone to fight the battle. Mr. Hcatsen was rolling in good form, having scored 533 in the singles and 602 in the doubles.

Remarkable Values

Womens' New Garments

Unapproachable values in this, our special Easter Sale of Women's Coats, Suits, Dresses, in a wide variety of choice models and materials demonstrate the unusualness in every point of style, quality and selection of the new spring garments priced under \$25.00.

DRESSES
\$4.95

Most remarkable dress value ever offered—They are made of silk Poplins, high waist effect, beasted and shirred below waist, embroidered voile collars in black, navy, and copenhagen blue in sizes 16 to 44.

ASKS SUPPORT FOR CITY BAND

The following communication, asking for support for the Escanaba Military Band, was received by the Press yesterday from Gene DeArmond Brouillard, trombonist with the local band:

Escanaba, Michigan, March 22nd, 1915

Dear Sir:—I have invariably found that the best way to reach the masses is through the columns of our daily papers and if you will allot me space sufficient to voice some of my views for the good of our musical organization, I will consider you have done much to further the interests of the band.

The S. O. S. signal would be quite in keeping with the contents of this letter, which means one and the same thing.

To be or not to be. Is our ship to sink in sight of shore? Being mindful of the fact that the robins will soon be heralding the coming of real summer, what might be your thoughts regarding the 'Sunday afternoons' thru out those beautiful months?

A pessimistic citizen would say—What's the use of thinking so far ahead. Any way I don't see any difference in the Sunday afternoons in summer from those in winter only sit around and wait for Monday to come and then grind another six days. Encouraging is it not? An Optimistic citizen would say: I am always glad when Saturday night comes so that I can see my friends and arrange to go to Ludington Park and listen to the entrancing music rendered by our band. Such people are always anxious to get their Sunday Press; curious to look over the programme, and see what the band has in store for them. I'm sure the pessimist is a male factor in this biggest and best city in U. P., so what is there to hinder us from enjoying splendid band concerts in the fine new band pavilion erected last season in Ludington Park? Little, yet much, when all is considered.

Our plan is very simple and as will be possible to maintain the band without imposing upon any particular individual. I am conscious of the fact that in reaching the public in this manner, I am also departing from the customary course, but feeling justified I am open to criticism at any time.

Thanking you in advance for space I beg to remain
 Yours Musically
 Gene DeArmond Brouillard.

MURDERS ARE NOT TAKEN IN MEXICO CITY

(Special to The Press.)
 Washington, March 22.—After eleven days of negotiations with the Zapatistas, at Mexico City, Secretary Bryan admitted today that he had no report to show who were the murderers there of John D. McManus. Bryan said he had nothing new on the subject.

There is no such thing as a string tied to our prices. You may buy five cents worth and you may buy all we have at the same rock bottom prices. No restrictions. No misleading below cost prices. No such thing as making good a loss on a bait two on items you are not so well posted on as to the worth thereof, at the Central Cash Market. Fair and square, open and above board are all of our dealings. No man can do business by selling at or below cost. There is the rent, taxes, light, heat, water, clerks, automobiles and gasoline to be paid for. You cannot buy all of above selling everything at or below cost. The merchant who baits you with a few below cost prices is not honest with you. He tries hard to have you believe he is saving you a lot of money with a few low prices in order to lead you on and put one over you when and wherever he can. Without profit, no business can live. How many of the merchants who carry on the baiting game of doing business will come across to you with their bills and show you first cost to them. Not one. The mask would fall instantly and show them up in naked truth. You can call for first cost to us on anything and everything we sell at the Central Cash Market. We are not afraid to produce our bills. They are open to you at any and all times. We do business on the square—but a small profit on everything which we sell you. Well merit quality nor ounces. The thousands of satisfied customers cannot be hoodwinked with the quality cry and as to the 16 ounce cry will say we never have been nor will be ever be fined for selling less than 16 ounces to the pound.

Trade at the Central Cash Market. You can safely do so with both eyes shut for we will never take advantage of you, not even to the extent of one red copper.
