AWARD IS HANDED DOWN

(Special to The Press.) Chicago, April 30.—The Western arbitration board has handed down an award in the wage raise request of 66,000 engineers of 33 western roads. Louis LaPoint, aged 43, passed away at his home at 515 South Georgia street last evening at 5:30 o'clock after but one day's illness. BELLE ISLE BRIDGE DESTROYED BY FIRE

Detroit, Mich., April 30.—Belle Isle bridge, connecting Belle Isle and Detroit at East Grand boulevard and Jefferson avenue, three miles from the center of the city, was practically destroyed by fire late this afternoon. Shortly after the outbreak of the fire the entire center of the bridge collapsed and fell into the river. The fire is said to have caught from a tar on crossing the bridge. No loss of life is reported. A city engineer estimated the total damage at \$250,000 and said the bridge, the only one which links Detroit to Belle Isle, will have to be entirely rebuilt.

OFFICERS ELECTED

JAN. P. CLEARY IS NAMED TO HEAD LOCAL BASEBALL ORGANIZATION

A move that positively assured Escanaba of a league baseball team this summer was that of yesterday when directors of the local organization gathered at the Elks Temple and elected the following officers.

The meeting of yesterday afternoon at the Elks Temple was a love feast from start to finish and every official who was elected was chosen by the unanimous vote of all present.

An idea which originated with Mayor B. J. MacKilloan, was proposed yesterday which met with instant satisfaction among those present. It is proposed to print about 2500 or 3000 tickets good for 25 of the first week day games and on a certain day the city will be canvassed and the tickets sold for \$1 each, thus giving to the public an opportunity to see the first 25 week day games for the small sum of four cents a game.

Entertainers at Her Home Mrs. Frank Hartwick entertained a company of friends at her home at 629 Maple street on Thursday afternoon. A program of five hundred was enjoyed, the honor winners being Mrs. Nicholas Stockemer, Mrs. George Specht and Mrs. Susan Wells.

NEW MOTOR COP IS ON THE JOB

While being pursued by Motor Cop Elmer Swanson down Stephenson avenue last evening, for running with out lights, John Carlson, of the town of Perkins, crashed through the Northwestern crossing gates practically wrecking his car. Though the car was badly broken up no one was injured. Carlson will probably be arraigned on a charge preferred by Swanson today.

PROCLAMATION WAS ISSUED

Gov. Woodbridge N. Ferris has designated Sunday May 9 as Mother's Day in the State of Michigan and has called upon all people of the state to join in an observance of that day. The proclamation follows: There is one word in the English language that commands the attention of the proud and the humble, the great and the small, the virtuous and the depraved, the old and the young. That word is Mother. It appeals to the hearts of all men.

Children need to be impressed with this everlasting truth. Read the tribute of Lincoln to his mother; read the tribute of Henry Grady to his mother; read the recent tribute of John Burroughs to his mother. Fathers are great and noble in proportion as they are loyal to the mothers and in proportion as they guard and protect the mothers of the land.

Given under my hand and the Great Seal of the State, this twenty-eighth day of April, in the year of our Lord one thousand nine hundred and fifteen, and of the Commonwealth the seventy-ninth.

BUSINESSMEN IN MEETING

HOLD FINAL SESSION BEFORE BIG ANNUAL GATHERING ON MAY 4

The final meeting of the directors of the Escanaba Business Men's Association before the big annual meeting on May 4, was held last evening. Following the completing of plans for the annual meeting which will be held at the Elks Temple, a new plan was adopted in the membership department whereby all heads of labor organizations of the city are made honorary members of the Business Men's Association.

In addition a letter was directed to the President of the Trades and Labor Council in which it was stated that the Escanaba Business Men's Association was not affiliated with any merchants organization of the city and that the purpose of the combine was to promote the future welfare and upbuilding of the city.

On the night of the big annual banquet the Escanaba Military Band orchestra will be out in full to furnish the music and Mayor Begole of Marquette will address the meeting on "The City of Marquette Under the Commission Form of Government."

Dear Sir: Thank you very much for your kind invitation of April 28th to address the Escanaba Business Men's Association on the subject of "The City of Marquette under the Commission Form of Government."

I am pleased to accept this invitation and hope that I may be able to say something that will exert an influence for Commission Government in Escanaba. Will you please advise what time Friday the meeting will be held?

I perhaps have the distinction of being the only mayor in the United States who is totally deaf. I depend entirely upon lip reading and using a scratch pad.

GREEN BAY TEAMS SOLICITING FUNDS

Of the progress of work in soliciting for the support of Green Bay's team in the new Wisconsin-Michigan league, the Green Bay Gazette says: "If the fans of this city want baseball they will have to come across faster with the money than they have the last few days. The only thing that is needed now to make the league a go is money which the club is depending on from the fans. In Marinette the soliciting committee reported favorably, more than half the amount being raised. Oshkosh fans are also being approached for funds and are meeting with favorable results. Today subscription lists have been placed in various places in the city and small subscriptions of a dollar and up are solicited. The baseball proposition in this city as well as in the other cities now rests in the hands of the fans.

FROST FEARED FOR EARLY VEGETATION

Now that the trees and shrubs have budded at an unusually early date, many are wondering if they will escape killing frosts. For a time Wednesday evening it looked as though there would be a fall of snow. The temperature had fallen more than twenty degrees and the wind had shifted from the southwest to the northwest. There was an almost continuous downpour of cold rain Wednesday night and yesterday.

...all the land-... repulsed, but... which are very... content themselves with th... statement that progress is being made... and ignore entirely the Turkish... claims of victories.

From the Turkish version it would appear that the Anglo-French land invasion has resulted in disaster for the allies. It is said the forces which landed near Kaba Tepeh were driven back along the whole front with heavy losses, four brigades being driven in to the sea and others surrendering. One transport is said to have been sunk.

An unofficial dispatch from Athens states that the allies were victorious in a battle on the west side of the peninsula, inflicting serious losses on the Turks and capturing one battalion.

London, April 30.—"It is reported from Mytilene," says the Exchange Telegraph company's Athens correspondent under date of Thursday, "that the French on the Asiatic side of the Dardanelles, where there have been sanguinary battles at various points, have captured five thousand Turks and continue their advance successfully."

London, April 30.—A Mytilene dispatch to the Times, dated Thursday, says:

"From credible informants, who have just arrived from Tenedos and Lemnos, and who are also to a certain extent, eyewitnesses, the following details have been learned of the terrific fighting that has been going on in the Dardanelles almost incessantly since 4 a. m. last Sunday:

"Forces have already been landed on both shores of the strait, and additional troops are to follow where and when they may be required.

"Several lines of trenches between Cape Helles and Kallid Bahr, on the European side, have been carried by assault and about twelve hundred prisoners have been taken. On the Asiatic coast the French have captured some eighteen hundred men around Kumkale."

Budapest, via London, April 30.—The Pester Lloyd prints a Dardanelles dispatch which says that the Turkish batteries at Kaba Tepeh sank twelve sloops in which the allies were landing corps which were retreating.

London, April 30.—A dispatch to the Exchange Telegraph from Ipswich says that five houses there were virtually destroyed by airship bombs and that three others were badly and two slightly damaged. The dispatch adds that as far as known there were no casualties in Ipswich.

Cambridge, Eng., April 30.—The Daily News says that an enemy aircraft appeared over Ipswich shortly after midnight and dropped a number of bombs, setting several buildings afire.

Ipswich is in Suffolk county and is a town of considerable commercial importance. It has a population of some seventy-five thousand.

Belfort, France, April 30.—Three German aeroplanes flew over Belfort at 5 o'clock this morning and dropped a dozen bombs. Four workmen were wounded.

BATTLE GAS NOT DEADLY
CHICAGO CHEMIST SAYS.

Chicago, April 30.—Chlorine or bromine is the gas with which the Germans emptied the enemies trenches north of Ypres, in the opinion of three chemists, Prof. J. H. Long, Northwestern university, Prof. W. D. Harkins, Chicago university, and William Hoskins. Either gas can be made quickly and in almost unlimited quantities. "Enough chlorine will kill, of course, but if any army will just get a little sniff the stinging effect would render the men useless for fighting for the time being only," said Mr. Hoskins.

Cases Cause Bronchitis.

London, April 30.—Dr. J. S. Hal-dane, who was sent to France to observe the effects of the gases used by Germans at Ypres, reports he examined several Canadians who had been incapacitated by the fumes. "These men," he said, "were struggling for breath and were blue in the face. They were suffering from acute bronchitis."

An Escanaba woman who conducted her own case in court claims she was slighted in press reports of the trial. Such probably also is the claim of John S. Kinney, so she shouldn't feel badly.

Now it's said Austria will halt Italy's effort to join the Allies in the war. Just now Austria has her hands full with those Russian hordes and little enough time left to bother with Italy's latest move.

A reading of Roosevelt's testimony given at Syracuse causes one to stop and marvel that the colonel, could have associated with all of those bad characters and remained so pure.

A Chicago bachelor found a woman under his bed. Even we who are no longer bachelors must insist, this feminist movement is being carried a bit too far.

Anyway, for once in her life the Escanaba woman who pleaded her own case in court, had a chance to talk all she wished to, but it isn't likely that others who simply want to talk will emulate her example.

Down in Greece they're having a lot of trouble over who to help in the war. One faction wants to aid one side and another faction the other. Greece will be happiest if her factions will compromise by helping neither and keeping out altogether.

T. R. told on the stand in Syracuse how he ended the panic of 1907. Quite naturally, were he in the executive chair at this time the recent depression would not have occurred, or if it did occur he could handily blame it on the war.

AFTER THE WASH IS OVER.

The Barnes-Roosevelt trial is a private suit, but nevertheless a great deal of public and political interest attaches thereto. To a great many people the trial was aptly caricatured by McCutcheon in the Chicago Tribune recently when the artist had Col. Roosevelt and Col. Barnes playing on each other with high-power rifles while the good old republican elephant stood between the trenches directly in the line of fire.

But if the first effects of the Barnes-Roosevelt trial be injurious to the republican party its second and lasting effects are going to be good. It very likely will be similar to the insurance investigations in New York city nine years ago. Undoubtedly the companies concerned had been doing things not exactly to the best interests of themselves or their policyholders. About all that could be offered in extenuation of their doings was that it was common practice not only among New York companies, but among companies in general.

Beyond any question bossism existed in the republican party in the last 15 years. For that matter it existed in the democratic party also. But one thing seems to be pretty generally established now; that is that bossism is now repudiated by the file of both parties in the future, whether those bosses be Col. Barnes, Col. Roosevelt, Murphy, Ryan, Parker Wilson or Bryan.

Of course it's the republican wash that is now out on the line. But the democrats need not evince any high glee. They have in their own closets hampers full of overflowing and washing day is sure to come around for them also.

WAR

London, April 30.—With the battle in Flanders seemingly at an end the interest of the public has turned to the Dardanelles where French and British forces have been landed, and with the co-operation of the fleet, are making attempts to force the straits and open the way to Constantinople.

How far these operations have progressed only those on the spot and the highest authorities at home know. The British have landed at three points on the Gallipoli peninsula and have thrown a line across the outer point

LOST MONEY ON HAVANA BATTLE

Chicago, April 29.—The promoters of the Johnson-Willard fight lost money. The exact amount is shrouded in the maze of many conflicting statements concerning the receipts, but the estimate as to the loss range from \$3,000 to \$43,000.

Jack Burley, chief promoter, after being asked a half dozen times for the real receipt figures, said two days after the fight:

"I can't give the exact figures now, but we are saying that the receipts were \$110,000."

Curley, as will be noticed, didn't make the direct statement that the receipts were \$110,000. He said, "We are saying."

Dick Klegin, director general of the affair, said on the day after the fight "The receipts will not reach \$70,000."

On the night following the fight, Tom Jones, manager for Willard, said:

"I don't know what the receipts are exactly, but I understand they are somewhere around \$60,000. I make that statement because I know that Willard's share will be around \$15,000, and he was to get 25 per cent of the gross receipts, including money taken in at the gate and money received from concessions."

Jack Robinson, who acted as press agent for the fight, said: "I learn that the receipts were \$56,900."

It cost close to \$70,000 to stage the fight. That sum included the \$33,000 that was paid to Johnson. To this figure must be added about \$15,000 more than was lost through the Jantzen fizzle.

LOSES IN LAWSUITS; ARGUES THIS HIMSELF.

Shleboyan, Wis., April 30.—The Rev. August Lutz is trying his thirty-second law suit himself. He has lost thirty-one since the disruption of the Evangelical church in Batavia in 1911, and now his lawyer, Attorney Wyseman, Manitowoc, has withdrawn in the case of Liebenstein against Lutz, in which false arrest and malicious prosecution are charged.

The first witness today, Justice of the Peace W. M. Root, said Mr. Lutz offered him \$50 for a warrant for perjury for W. J. Liebenstein, a parishioner. He refused, but Justice of the Peace William Friedrichs issued it. Mr. Lutz has two more cases on the calendar which he says he will conduct, as he is tired of lawyers.

DARDANELLES ATTACK TO BE COSTLY

London, April 30.—The Times points out that Great Britain now, with the attack on the Dardanelles in progress has seven campaigns on her hands, and that, after the Flanders battle, the advance against the defenses of the Dardanelles promises to be the most costly in men and material, especially, it declares, as blunders made in the spring have deprived the allies of all the advantages of a surprise and given the Turks ample time to strengthen their defenses.

"The operations appear to have begun successfully," says the Times correspondent. "Nothing as yet has been revealed as to where the troops were landed, but it was probably at the southwest end of the Gallipoli peninsula, the reported landing at Enos having been a feint. Neither is

anything known concerning the number of troops landed.

"Advancing from Enos, Gen. Ian Hamilton would be obliged to meet all the Turkish armies and insure other disadvantages; but with troops posted across the peninsula and his flanks covered and protected by the fleet, he will be in much stronger position, although the task to be accomplished is far from easy.

"It is now, however, being carried out as it ought to have been begun, namely, conjointly by the two services, and not by one alone.

"It is now more than ever important to realize that Gen. French's movements have been hampered by a casualty lists tell their own tale. The consumption of ammunition by the troops is immense and is certain to increase rather than diminish. At the front they are asking when the new armies are to take the field."

The correspondent says: "England is literally crammed with troops at the moment when decisive operations in the western theater are imminent, and if our operations are not successful, the blame will be with the cabinet who ought to know what preparations the Germans are making in the west."

With regard to the battle in Flanders, the correspondent says the German attack was successful beyond anything that can be hoped for, but that there is no sign that there is any general attack.

"We may therefore reasonably hope," the correspondent says in conclusion, "that the allies, by a combined and energetic action, will re-establish their line."

PROHIBITION TO BE 1916 ISSUE

Lansing, Mich., April 30.—State-wide prohibition will be the big issue in the general election to be held in Michigan in the fall of 1916.

It was definitely decided at a meeting of the Michigan Anti-Saloon league Monday afternoon attended by representatives of the state grange, gleaners, and several other organizations interested in the temperance movement, to initiate a constitutional amendment providing for state-wide prohibition. The vote in favor of submission of this question at the general election next year was unanimous.

While the initiatory petitions for a constitutional amendment require approximately 50,000 signatures, the prohibition forces are determined to obtain 150,000 names. Definite plans for obtaining the signatures will be outlined at a state-wide mass meeting of the "dry" forces to be held in Lansing, June 3.

Encouraged by their successes in the recent local option election the "dry" forces are satisfied that the time is ripe for a state-wide campaign and the leaders appear confident that the saloons and breweries will be eliminated at the November election in 1916.

Interest in legislative circles at the present time centers in the course to be taken by former Governor Chase S. Osborn in the coming campaign for state-wide prohibition.

In the general election last fall the liquor men throughout the state delivered the "wet" vote to Governor Ferris so far as they were able to and in Wayne county they were particularly active in behalf of Ferris.

Many of Osborn's friends in the legislature would like to take the stump in behalf of the prohibition forces and it is predicted that thousands of his followers throughout the state, tired of the attempts of the liquor forces to dictate nominations and elections, will vote for prohibition for the simple purpose of eliminating the brewers and saloonists from the political arena.

Now that the prohibition forces have shown their hand and have made definite announcement of their intention to stage a state-wide fight in Michigan next year, it is practically certain that the liquor men will counter by initiating an amendment to wipe out all local option laws in force at the present time.

Leaders among the "wets" have announced that this plan will be pursued and it is expected that the liquor men soon will begin the work of obtaining the required number of petitions to initiate the amendment calculated to put the "drys" on the defensive and at the same time give the "wets" in the "dry" counties of the state something that will interest them in the general

battle against the temperance forces.

CHAPPELL, \$18,000 REAU, COMES BACK TO BREWERS.

Milwaukee, April 30.—Laverne (Larry) Chappell, outfielder, purchased by President Comiskey of the White Sox from the Milwaukee Brewers two years ago at a reported price of \$18,000, is back with Milwaukee. The Ald Roman yesterday announced the sale of Chappell to the Milwaukee club and an unofficial report gave \$5,000 as the amount involved.

President Timme of the Brewer city club, who was in conference with Comiskey for several days, also wants Outfielder Ray Demmitt.

During his career with the Hose, Chappell failed to live up to his advance notices. An injury to his foot in the spring of 1914 practically shattered his chances to become a regular in the outfield. Larry joins the A. A. champs today at Minneapolis.

Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

KC BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use KC never have "bad luck" with their baking. Try KC at our risk. Your grocer will refund your money if you are not pleased in every way.

REINDEER MAY SOLVE THE MEAT PROBLEM IN U. S.

Washington, April 29.—Under the wing of the Department of the Interior, the Alaskan Eskimos are becoming serious contenders for the meat business of the United States. Reindeer, which are thriving with less care than cattle in Alaska, are being put against these deer by the natives of the far north. The government is aiding in the education of the Alaskans in the raising of reindeer, and the herd has increased rapidly in the past two years. There are now 60,000 reindeer, an increase of 22 per cent in one year.

BARNES GETS HARD BLOW

(Special to The Press.)
Syracuse, April 30.—Senators Davenport and Newcomb, of New York, and Hinman of Binghamton and Henry F. McMillen, a newspaperman, were the chief witnesses today for Roosevelt. Davenport said he saw Barnes conferring with an organization of Republicans on the night of a conference on the primary bill. The bill was beaten by a bi-partisan vote. McMillen said while the primary bill was up for passage he saw Barnes in the clerk's room apparently directing the fight, sending the speakers to the floor. The trial closes tonight until Monday.

ROBBERY ATTEMPT IS FRUSTRATED

What is believed to have been an attempted robbery was frustrated last night at the home of F. H. VanClerke at 411 Hale street by Phillip Beath who was passing that way.
As Mr. Beath passed down Hale street he saw a man jump from the roof of the home and attempt to open a window on the porch. When the marauder saw the pedestrian he fled into the alley. Mr. Beath immediately turned in the police alarm but no trace of the robber could be found when officers arrived.

HUNT FOR THE INDICTED MEN

Chicago, April 30.—United States deputy marshals today began hunting for the contractors, electrical fixturers and labor leaders who were named in sensational indictments by a federal grand jury here yesterday charged with violating the interstate commerce and the anti-trust laws.
While a variety of specific charges were made, including conspiracy, the basic allegation is that the defendants conspired to keep nonunion articles and articles manufactured outside Chicago from coming to the city. It was expected that most of the defendants would surrender voluntarily. There are 100 of them, the largest number ever indicted here by a federal grand jury on one charge.
Eighteen labor leaders, forty-one employers and forty-one firms, headed by these employers were named.
