

## WILD EXCITEMENT REIGNS AS MORE COUNTRIES PREPARE FOR WAR

### GERMANS JOYOUS AT ANOTHER VICTORY

#### Germans Break Through Russian Front In Western Galicia---Take 8,000 Prisoners and Many Guns---President Wilson and Secretary Bryan Confer.

**BULLETIN**  
Bucharest, May 3.—A great movement of troops is going on in Italy. Between Milan and Rome, numerous trains of young and well equipped soldiers are passing. Similarly there is a movement of Austrian troops to the Austrian frontier.

**BULLETIN**  
Rome, May 3.—Direct information from the German embassy confirms the report that negotiations between Austria and Italy have been broken off. The city is in excitement of the wildest sort. Commerce is suspended awaiting the result of cabinet meetings.

**BULLETIN**  
Vienna, May 3.—An official statement says:  
The Austro-German forces yesterday attacked the fortified positions in west Galicia and repulsed the Russians along the entire front. They captured 8000 prisoners and a great many cannon and machine guns at Malastov, Gorlice and Gromnik. Simultaneously they forced a crossing of the Danajec.

**BULLETIN**  
Rome, May 3.—Premier Salandra suddenly called a meeting of the cabinet today. Gravest of interpretation is placed upon the abandonment of a trip to Quarta, where the king promised to be present at the unveiling of a monument for Garibaldi.

**BULLETIN**  
Athens, May 3.—It is reported from Mitylene that the disembarkation of British troops is continuing in two points. All forts protecting Madois are destroyed.

**BULLETIN**  
London, May 3.—Six neutral ships have been sunk by the German submarines since the attack on the American Oil Tanker "Gulf Light."

**BULLETIN**  
Paris, May 3.—An official statement says:  
"There were two German attacks today, one against the British north of Ypres, and the other against the French in the Lepetre woods were repulsed."

**BULLETIN**  
Berlin, May 3.—It is official stated:  
"In the fighting in west Galicia, we took over 8,000 prisoners, the enemy retreating across the lower Danajec. The city is celebrating the receipt of news that the Germans had broken through the Russian front in western Galicia."

**BULLETIN**  
Rome, May 3.—Ambassador Von Buelow's messenger delivered a note to foreign minister Baron Sonnino this evening. Sonnino immediately rushed for a second time visit to the king.

(Special to The Press.)  
London, May 3.—A Pekin dispatch to the Exchange Telegraph Company reports that Count Pappenheim, who recently started overland through China, with a party of filibusters, bent on destroying a bridge on the trans-Siberian railway, has been murdered by the Mongolians.

(Special to The Press.)  
Petrograd, May 3.—In recent fighting on the Vistula the German guns, during a period of 24 hours, fired 30,000 shells. Military authorities believe the only purpose of the German attack in the Shabl district is to cut communications between Libau and the Kevne railway. Communication with Libau are not cut off for access is still provided by the way of the Baltic under protection of the Russian fleet.

(Special to The Press.)  
London, May 3.—Exchequer Chancellor Lloyd George will introduce his budget to the House of Commons tomorrow when the enormous financial problems must be tackled. The national expenditures will be at least \$1,000,000,000. His requests are looked forward to with considerable interest.

(Special to The Press.)  
Constantinople, May 3.—An official

statement says:  
"Yesterday the French armored cruiser Henry VI, while shelling our batteries, was hit by 10 shells and did not return to action today. In semi-official attacks during the night yesterday by the enemy, the torpedo boats on the narrows were easily repulsed. The Russian Black sea fleet, after an hour's demonstration before the Bosphorus, sailed northward. The enemy is unable to improve the situation on the Gallipoli Peninsula."

(Special to The Press.)  
Washington, May 3.—President Wilson, Secretary of State Bryan and international law experts of the Department have decided to suspend judgment in the case of the American tanker ship "Gulf Light," which was torpedoed off the Scilly Island Saturday with the death of Captain Alfred Gunter and two sailors. Bryan and Wilson conferred tonight at the White House. It is understood that the incident was gone into thoroughly and the question of future action discussed. The cabinet members consider the sinking of the Gulf Light a matter of serious moment. An investigation by Ambassador Page at London, Ambassador Gerard at Berlin is ordered.

### CARMAN JURY IS SELECTED

(Special to The Press.)  
Mineaola, L. I., May 3.—Five were selected on the Nassau county jury to try Mrs. Florence Conklin Carman, the Freeport woman, accused of murder of Mrs. Louise D. Bailey, on the evening of July 30. A panel of a hundred talesmen, including millionaires, is called for tomorrow. Alert, seemingly confident, nattily dressed and looking at least five years younger than at her last trial, Mrs. Carman directed the selection of jurors.

### NORTHERN BEAUTS GIVEN TRIMMING

Maple Ridge slipped one over on the Northern Beauts pill tossers by handing them a 6 to 2 trouncing Sunday. The Ridge crew put up a fast fielding game and by stellar work on the part of their hurler managed to keep the visitors at check. Of the game the Maple Ridge correspondent says:

The Maple Ridge sluggers beat the Northern Beauts of Escanaba by a score of 6 to 4. The game was exciting from start to finish. Lottey of the Sluggers, struck out 19 men and had the Beauts at his mercy all through the game. Truckey of Garden pitched for the Beauts and did well until the eighth, when the Sluggers got to him for four runs and clinched the game. A large crowd of fans turned out to see the game. Maple Ridge plays Flat Rock next Sunday at Flat Rock and a good game is looked for.

### THE GAME PLAYED NORTH ESCANABA

The All Stars and North Escanaba waged a hot 1 to 1 battle at the latter's field Sunday. The exhibition was on the de luxe order with Germane and McCarty on the firing line. Germane was invincible and the All Star gang could not secure a single off his offerings. The batteries: All Stars—McCarty and Kostaky. North Escanaba—Germane and Belanger.

John Green left last night for Roemer, Minn.

### BOWERS HAS A SURPRISE

(Special to The Press.)  
Syracuse, N. Y., May 3.—Both Barnes and Roosevelt were called to the witness stand today. Bowers called Barnes but before he was seated the Judge told him to wait till tomorrow. Roosevelt was called to further testify regarding malicious intent. He was also told to wait. Bowers sprung a surprise by proving that the minute book of J. B. Lyon Company, who did the state printing and in which Barnes was interested, which was introduced, was not the original, but a copy. He proved this by a water mark.

### COUPLE SURPRISE MANY FRIENDS

The announcement of the marriage of Miss Rose Dupey and Ewald C. Beck by Rev. Father Julius on last Thursday evening has come as a decided surprise to local people, who, though knowing that the couple intended marriage, had not expected it at this time.

Mr. Beck is employed as a bookkeeper at the Kurz Bros. Sales Stable and is highly respected by scores of local people. He is a prominent member of the local Military Band. Miss Dupey also numbers her friends by the score and both will receive the congratulations of all.

### TELLS OF COMING OF MAYOR BEGOLE

Of the coming visit of Mayor Begole of Marquette to this city on Friday, when he will deliver an address before members of the Escanaba Business Men's Association, The Mining Journal says:  
"Mayor Begole has accepted an invitation to visit Escanaba and address the business men's association May 7 on the subject 'The City of Marquette Under the Commission Form of Government.' He will outline the advantages of the plan and the tangible benefits that have followed on its introduction here. Escanaba voted on the commission plan about a year ago, and it was rejected. However, interest in it is not dead, and it is said to be likely that another commission charter will be drafted in the city within the next few years."

### Baseball News of Day Tersely Told

**CHAMPS CONTINUE WINNING STREAK** **DETROIT WINS AGAIN**

**SUNDAY GAMES**  
**American League**  
Cleveland, May 3.—Cleveland defeated St. Louis, winning in the ninth inning by a score of 7 to 6.  
Batteries Cleveland—Steen, Coumbe and O'Neill. St. Louis—Wellman, Baumgardner, Loudermilk and Agnew.  
Chicago, May 3.—Playing in a drizzling rain Detroit defeated Chicago 4 to 3. After Daus' one bad inning, the fourth, when five hits enabled the White Sox to score three runs, Cicotte eased up and in the sixth two runs, enough to win, were put across.  
Batteries: Detroit—Daus and McKee; Chicago—Cicotte, Faber, Wolfang and Schalk.  
**National League**  
St. Louis, May 3.—St. Louis, playing errorless ball and using its new pitcher, Lee Meadows, took the last game of the series from Cincinnati here by a score of 3 to 1.  
Batteries: Cincinnati—Lear and Clarke. St. Louis—Meadows and Snyder.  
Chicago, May 3.—Vaughn had the Pittsburgh batters at his mercy, while McQuillan was hit hard and Chicago won an easy victory 7 to 1. Rain fell through two-thirds of the contest and terminated it after the visitors had batted in the eighth.  
Batteries: Pittsburgh—McQuillan, Marnaux and Gibson. Chicago—Vaughn and Bresnahan.

**American League**  
New York 8, Philadelphia 4.  
Washington-Boston, rain.  
Other games not scheduled.  
**National League**  
Chicago 5, Pittsburg 1.  
New York 3, Philadelphia 2.  
Brooklyn 3, Boston 2.  
Other game not scheduled.

**YESTERDAY'S RESULTS.**  
**American League**  
New York, May 3.—The Yankees won their sixth straight game today by a score of 8 to 4. Bush and Bressler gave out 14 bases on balls so the Yankees had little difficulty. Fisher was tight in the pinches.  
Batteries: Philadelphia—Bush, Bressler and Schang. New York—Fisher and Sweeney.

**National League**  
(Special to The Press.)  
Chicago, May 3.—After playing five full innings on a soggy field this afternoon, the Cubs-Pittsburg game was called. In the last inning Mer Julian grew wild and pitcher Pierce, who was at bat, had to duck twice to escaped being beamed. Angered, he threw his bat at the twirler and was chased by the umpire. The score: Pittsburg 1, Chicago 5.  
Batteries: Pittsburg—Cooper and Gibson. Chicago—Pierce, Humphries and Bresnahan.  
(Special to The Press.)  
Philadelphia, May 3.—In a ninth inning rally, the Giants scored three runs on three singles and a double and won the game 3 to 2. Robertson of New York made 4 hits.  
Batteries: New York—Fromme, Ritter and Meyers. Philadelphia—Chalmers and Burns.  
(Special to The Press.)  
Brooklyn, May 3.—Rudolph pitched a great game today for the world champions, but lost the game by a score of 3 to 2. Dell, of the Dodgers has kept up good work since the season opened.  
Batteries: Boston—Rudolph and Gowdy. Brooklyn—Dell and Miller.

### WILSON MAN WAS BURIED YESTERDAY

Funeral ceremonies over the body of August Mace were conducted yesterday afternoon at Wilson. Mr. Mace passed away on Saturday following a long illness. But recently he returned from a trip during which time he had been seeking medical assistance from specialists.  
Mr. Mace is well known in this district and the announcement of his death comes as a fit subject for sorrow. Mr. and Mrs. H. T. Hansen of this city attended the funeral.

### FIRE REPORT IS SUBMITTED

Fire Chief William Meiers has prepared his annual report for the members of the council and the statement which is a most exhaustive one, sets forth that \$28,977.98 was the fire loss in buildings and their contents during the last fiscal year.

During the same length of time No. 1 division of the local department answered 108 calls, laid 15,550 of hose used 350 gallons of chemicals and had 20 false alarm calls. No. 2 station had 76 calls, laid 2000 feet of hose, used 42 gallons of chemicals, had 20 false alarm calls and raised 602 feet of ladder. No. 3 station had but 47 calls during the year, laid but 4550 feet of hose and had nine false alarm calls.

### MUSICAL CLUB TO MEET TONIGHT

The Music Club meets this evening at 8 o'clock at Grinnell's Music store. All members are to answer roll call by some musical current event. A study of Russian writers of the new school will be taken up, the composers being Rimsky, Korsokof, Balakiref, Glazounow and Rachmaninoff.  
Mrs. Lint, leader for the evening, will give the piano numbers, assisted by Mrs. Lund, Miss Morrell and Miss Lambert, vocalists.  
Rimsky-Korsokof: Song of Shepherd Lehl. Chanson Indoue. Romance in a Flat.  
Glazounow: Love Tide of Spring.  
Balakiref: O Come to Me Amid the Flowers. The Lark (Transcription).  
Rachmaninoff: Morning Melodie—Opus 2, No. 3. Polchinnelle—Opus 3, No. 4.

Dr. W. B. Boyce, eye, ear, nose and throat specialist, has moved his office quarters to 1109 Ludington street, over Olson's clothing store. 124-267.

### FINAL SERVICE IS HELD HERE

**MULTIPLICITY OF BEAUTIFUL FLORAL OFFERINGS ARE MUTE TESTIMONIALS OF GREAT ESTEEM FOR MR. MEAD**

Scores of local and outside people gathered at the home of Mrs. Sara F. Mead at 609 Michigan avenue yesterday afternoon at 2:30 o'clock, to pay their final respects to Myrick D. Mead, prominent young attorney who passed away on Friday evening, after just one week's illness of typhoid fever.

The simple, but beautiful Episcopal service was carried out by Rev. William J. Datson, rector of St. Stephen's Episcopal church, who officiated at the final ceremonies.

The library of the home where the body of the young attorney lay, was a veritable bower of flowers of practically every known variety. Floral pieces of exquisite splendor were in evidence everywhere, one of the especially beautiful and touching tributes being presented by the members of Mr. Mead's graduating class of 1908. It was a blanket of Killarney roses. Every rosebud and every flower in evidence yesterday was a mute testimonial of the high esteem in which the young man was held.

Following the service the body was followed to Lakeview cemetery, where interment took place, by nearly a hundred mourners.

Those from out of the city, who here to attend the funeral yesterday, were: Mr. and Mrs. F. C. Reynolds, Milwaukee; Judge and Mrs. R. C. Flannigan of Norway; Charles I. Shaddick, Ishpeming; Miss Catherine McLaughlin, Chicago and Mr. and Mrs. H. W. Coburn, Atty. G. R. Empson and Richard Mason of Gladstone.

The friends of the young man who bore the body to its final resting place were: Andrew J. Perrin, Herbert Hughtit, James Frost, Carder Turner, William L. Davidson and George B. Norton.

In paying their respects to Atty. Mead, all Justice courts of the city were closed throughout the city yesterday and all cases to be heard were postponed until today.

The laying to rest yesterday afternoon of Mr. Mead, marks the close of an earthly career which was most promising and in his death the city has lost a most estimable citizen. His friends and relatives who are left behind will comfort themselves by reviewing his exemplary life.

**VOCAL STUDENTS WILL GIVE RECITAL THIS EVENING**  
The vocal students of Mrs. Wilcox will this evening stage a recital in the parlors of the Columbia Music store. Several prominent local vocalists have places on the program. Friends of those who take a part in the program have been invited.

Mr. and Mrs. Richard Roth enjoyed a Sunday visit with relatives at Harris.

### MISSES FIRST DAY OF SCHOOL IN 12 YEARS

Miss Isabell Winegar, daughter of Mr. and Mrs. B. D. Winegar is ill at her home on Park avenue with typhoid fever. Miss Winegar was to have graduated in June and when she was taken to her bed with the fever missed her first day of school during her 12 years in attendance at local schools.

Miss Winegar's many friends about the city hope for her speedy recovery.

### LAUNCH SMITH, FOR PRESIDENT

Lansing, Mich., May 3.—Senator William Aiden Smith's boom for president of the United States has been formerly launched.

Permanent organization of the "William Aiden Smith for President of the United States" tonight was formally launched in Representative hall in the state capitol.

Permanent organization of the "William Aiden Smith for President" club was effected and the following officers were unanimously agreed upon by the club: General chairman, Congressman Patrick H. Kelley, of Lansing; vice-chairman, Albert H. Petermann, Houghton; George P. Godd, Detroit; Leonard D. Verdier, Grand Rapids; Nicholas J. Whelan, Holland; William B. Ormsbee, James Henry Battle Creek, Robert E. Walter, Traverse City; Joseph Bayliss, Soo; general-secretary, J. Frank Stevens, Muskegon; general treasurer, Philip H. McMillan, Detroit.

An executive committee of approximately 50 member from all over the state also was chosen.

Floor and galleries of the chamber were packed when the meeting opened and the crowd at all time was enthusiastic.

Congressman Kelly introduced Senator Smith, after predicting that the next president would be a Republican who would be elected on the doctrine of protection and after reviewing the career of the senator; said:

"Michigan need make no apology when it presents the name of William Aiden Smith for president in the next national convention."

Congressman Kelley called the meeting "the opening of the 1916 campaign." The subject of the introduction also reviewed briefly his political experience and though he deprecated the possibility of his getting the nomination, announced his receptiveness thus:

"If it is wise for Michigan to have a native son on which to unite in the national convention, and thus assure the state a voice in the selection of a Republican standard bearer, then I shall be the last to discourage my people in their honorable and kindly effort."

"I was never a candidate for this high office," he continued, "nor am I now; but if the 3,000,000 people in this state voluntarily extend me their backing—then by the eternal Gods I am not going to run away from it." Several times Senator Smith skirted the topic of the administration's course in Mexico, and at last he let down the barriers and cut loose.

"In my judgement," he said, "America has forfeited the respect of every country south of us by the pursuit of a pusillanimous, thoughtless and selfish policy. They all doubt us, because we haven't minded our own business; have not looked after our own people, murdered in valley and hilltop, in cabin and castle, with the very guns we furnished their murderers.

"We have observed one policy with Mexico and another with Peru. We refused to recognize Huerta, but when the president of Peru was kidnapped we recognized the pretender within seven days.

"Tonight our soldiers are in the capital of Nicaragua upholding a puppet government established by the consent of the secretary of the United States. The property of Wall street bankers is being protected in Nicaragua, while the property of American farmers in Mexico was left to be destroyed.

Resolutions were adopted as follows:  
Resolved, That we heartily indorse Senator William Aiden Smith for president of the United States as an example of the American spirit which transcends any party, and pledge our best efforts for his nomination."

### ALL STARS HIT FAST AND HARD CLIP THESE DAYS

The clip which the All Stars are hitting looks as though they are trespassing on the city title held by Co. B. The Brigadiers, who are anxious to take on all top notch teams, would like to clash with the All Star aggregation at any time convenient.

Chas. Sundeen of Isabella has sold his interests there and is in the city looking up some profitable investment proposition.

### SWAN WAS HONORED

**PIONEER OF COUNCIL IS NAMED PRESIDENT PRO TEM FOR THE COMING YEAR**

Ald. C. G. Swan, one of the pioneer members of the Escanaba city council, was last night elected as president pro tem of that body for the ensuing year.

Action to complete the organization of the city's force of employes, was last night deferred until tonight when Mayor MacKillican's appointments will be announced and the council committees will be named.

It was planned to make the appointments last night but the finance committee had been unable to complete the ordinance fixing salaries for the coming year. Salaries of all officers, it is provided by the charter, must be fixed before the appointments are made and the ordinance will be completed before tonight's session. When the election of a president pro tem was brought before the council the names of Ald. C. G. Swan, Ald. C. N. Wood were proposed. A secret ballot was called for and Aldermen Noreus and Sheehan were named as tellers. On the first ballot Ald. Swan received 10 votes, Ald. Wood 2 and Ald. Carl Johnson 1.

The petition of the Escanaba Woman's club for the appointment of the full time health officer, was again brought to the attention of the aldermen. A communication from the members of the club was accompanied by letters from the state board of health and secretary of state, strongly endorsing the full time health officer plan and in each letter advantages that are being gained in other cities through the enforcement of the idea, were pointed out.

A decision will be reached by the council tonight as to whether the idea shall be carried out in this city.

### KNIGHT TEMPLAR MEET AT CALUMET

Calumet, Mich., May 3.—It is doubtful if any fraternal gathering held in the copper country in recent years has meant as much to the district as will the annual convocation of the Michigan Knights Templar to be held the second week in June.

From 1,200 to 1,500 Sir Knights and their ladies, most of them from the southern part of the state, are certain to be in attendance. The proper entertainment of that many visitors is a matter that involves considerable work of preparation, and in many cases individual expense, especially when the difficulty of securing hotel accommodations is added and where the whole body cannot be entertained in one town, but the copper country Sir Knights of Montrose and Palestine commanderies have undertaken the project and pushed it to a point where success is assured.

Were it not for the desire on the part of Sir Knights from other parts of the state to visit and study conditions in this district, it might have been a difficult matter for the copper country to land the big meeting, but now that it is secured the members feel it is the duty of the whole community to assist the visitors in viewing the copper country at its best.

The visiting Sir Knights will be a representative body, men who are recognized as leader in their respective communities and men of influence. Their friendship for this district cannot fall to be of value, and the cultivation of closer understanding and cooperation between the people of the northern and southern parts of the state will be of mutual benefit. This knowledge of mutual interests acquired by personal contact, should do much to promote the idea of fair play.

It is within the power of every resident of the copper country to assist visitors to see the district to its best advantage and to extend the warm hearted hospitality for which this district is noted, so that the impressions gained may be lasting.

### KINGS SONS HOLD BUSINESS MEET

Members of the Kings Sons society of the First Presbyterian church met last evening at the home of Mr. and Mrs. F. W. Aronson on Ludington street. A business meeting was carried out after which the hostess served refreshments.

Miss Catherine McLaughlin of Chicago was in the city yesterday to attend the funeral of Atty. Myrick D. Mead.

JAMES S. DOHERTY, President and Business Manager. JOHN P. NORTON, Secretary and Managing Editor.

The Escanaba Morning Press Co. will not stand responsible for any indebtedness incurred except on an order signed by the president of this company or by the secretary.

UNITED STATES DEPARTMENT OF AGRICULTURE

Local Office Weather Bureau

Escanaba, Mich., May 4, 1915. For Escanaba and vicinity: Tuesday probably fair; moderate, possibly fresh north to north winds. Highest temperature yesterday 45 degrees. Lowest temperature yesterday 42 degrees. Precipitation yesterday .14 inches. Temperatures at even hours yesterday: 2 a. m. 43, 4 a. m. 43, 6 a. m. 45, 8 a. m. 44, 10 a. m. 43, 12 noon 44, 2 p. m. 45, 4 p. m. 44, 6 p. m. 43, 8 p. m. 43. Temperatures at even hours one year ago yesterday: 2 a. m. 46, 4 a. m. 44, 6 a. m. 43, 8 a. m. 44, 10 a. m. 45, 12 noon 49, 2 p. m. 49, 4 p. m. 54, 6 p. m. 50, 8 p. m. 50. Precipitation one year ago yesterday .01 inches.

Wont it be nice, when this war is over, to pick up a newspaper and find that no one contradicts?

That minority in the council is learning how little it profiteth to be just ordinarily obstinate.

Just when Escanaba was all set for a grand old clean-up day the weatherman had to butt in and make a mess of the whole business.

Wouldn't this be a grand old world if we didn't have to die to have others recognize some of the good that is really in us?

The way those fallenders are coming back this season is a caution. Even the Turks are reported to have whipped the Allies.

Those April showers were simply delayed until May. And all because "Dad" Hull failed to get here to start the spring season properly.

Nothing can stop a really good thing so the weather man's effort to muss up Escanaba's clean-up day will but result in a greater and a busier effort when the new date rolls around.

Escanaba has a lot of patience, but if there is one thing she does like to do is to spend baseball money when she has it. This thing of keeping money in a baseball treasury is an entirely new sensation and one that Escanaba doesn't relish.

Marinette and Menominee are each \$600 short of the necessary baseball guarantee. It's to be hoped that the failure to make good of merely reputed good towns won't keep a really good town off the baseball map.

Another American ship has been torpedoed and sent to the bottom. Now, if we protest, Germany will say we're discriminating against the Teutons and if we don't protest England and the Allies will say we are par-

GOMPHERS CALLS UNION BLESSING

Philadelphia, May 3.—Organized labor has been the wage-earners' greatest protection in the crisis that has come to America's industry and labor through the European war, in the opinion of Samuel Gompers, president of the American Federation of Labor, who addressed the American Academy of Political and Social Science here today.

"The initiative resourcefulness and self-reliance in the organized labor movement have been their greatest protection," Mr. Gompers said. Through organization they have dealt constructively with unemployment, have made effective protest against excessive prices, have prevented wage reductions that would have had cumulative effect in disorganizing business and have demanded that construction work by municipalities and other governmental authorities shall be continued and more undertaken wherever possible.

Civilization's purposes and ideals, Mr. Gompers asserted, had been ruthlessly reversed by the European war. The spirit of civilization had been to establish the sacredness of human life; thought, the energy, the skill that had been to glorify life, to the task of destroying life.

"The labor movement of the world," Mr. Gompers continued, "is the one agency whose members have been loyal to fatherlands in the time of peril and yet have with insistent emphasis and appeal upheld the sacredness of human life and opportunity and the brotherhood of man. While bearing burdens of the war they are still maintaining standards that dignify human life and are creating and directing influences that will have an important part in establishing peace and the constructive work that shall make for greater justice in international relations.

"The United States as well as the whole world has suffered through the disrupting influence of the war. In the United States the organized labor movement has dealt constructively with the needs and emergencies created by the war.

"The effectiveness of organized self-help has been emphasized by the inarticulate helpless misery of the unemployed.

"The organized labor movement is planning to protect the wage-earners against the tide of immigration of unparalleled proportions that undoubtedly will follow the war. It will be the great steady force in the transition period through which industry must pass at the close of the war. It will be the great opposing force to reaction that always results from the brutalizing influences of war. It will be the most potent force to compel relations that subordinate all else to human warfare.

"The wisest policy our nation can pursue is to provide to guarantee opportunities for wage earners to organize for their own protection and welfare, which must have beneficent influence upon all our people."

Let the government ascertain what immigration America will need to work the country's mills and shops and mines when the great industrial revival starts at the close of the European war; and having ascertained the country's needs, restrict immigration to fit them—such was the plan outlined today before the American Academy of Political and Social Science by Dr. Frank Warner, expert on foreign-born population for the last United States census.

Dr. Warner's plan provides for the creation, by federal legislation of the governmental machinery necessary to make a measurement of American immigration needs for the revival of industrialism, which, he said, "is just around the corner." The body-board or commission—thus created should co-operate with now existing state and private employment bureaus, and the needed immigrants should be employed at standard American wages.

Nationalism must be done away with, the entity of the state must pass and sovereign governments must become mere boards of administration if peace is to reign world-wide and eternal, according to August Schvan, expert on international affairs, who addressed the academy.

Mr. Schvan is a former Swedish diplomat, and was recently attached to the staff of international experts to be sent by the Carnegie endowment to leading colleges of the country to organize clubs for the study of international affairs.

Inflation in Europe of the prices of both labor and commodities will probably follow the war and this country need not fear that its manufacturers will be unable to meet the competition of the "pauper labor of Europe" when the war is over, said Theodore H. Price, economist.

Mr. Price said that because of this fear—which included anxiety over the possible loss of international trade—the voice of the protectionist was already heard.

The putting of the problem of unemployment directly up to industry and treating it primarily as an industrial matter was the solution of the question advocated by Miss Frances A. Kellor, vice chairman of the committee for immigration, in an address at the meeting.

First English Field Marshal. The first English field marshal was created so long ago as 1726.

IRON TRADE REVIEW

Cleveland, O., April 29.—The Iron Trade Review says:

Favorable developments continue to dominate the iron trade, although there are some weak spots. There is a growing conviction that much greater activity will soon prevail, but both buyers and sellers are cautious about making contracts involving deliveries at distant dates. It is probable that the next report of the unfinished tonnage by the Steel Corporation will show little change, as its shipments and bookings have been about equal at from 30,000 to 35,000 tons daily.

Pig iron buying shows very gratifying increase in volume. Orders aggregating about 100,000 tons have been placed very quietly in New York. Buying of basic includes 50,000 tons by the Youngstown Sheet & Tube Co., 10,000 tons by the American Steel Foundries and round tonnages by the United Steel Co., American Rolling Mill Co. and other consumers in the central west. The purchase by an eastern steel company of 13,000 tons of low phosphorus iron for delivery to begin at once was based on the belief that the steel companies will have all the domestic business they can take care of in 60 to 90 days and that now is the time for buying pig iron. In the Chicago district, sales of the past week are estimated at from 50,000 to 80,000 tons of various grades.

Buying of Lake Superior ores during the past week has been confined to a large extent to companies affiliated with the leading or producers. Blast furnace operators not so connected are showing a disposition to proceed slowly. This attitude was expected by the sellers. The action of the interstate commerce commission in reducing the carrying rates from mines to upper lake docks 5 cents per ton, making the rate 55 cents, is regarded as indicating a conservative policy. A considerably heavier cut would not have caused surprise.

Weakness in plates prevails at Chicago and Pittsburgh, but in eastern territory and at Cleveland, mills are busy and prices are being well maintained. Three eastern Pennsylvania plate makers will furnish from 5,000 to 6,000 tons for the 144 locomotives to be built by the Pennsylvania in its shops is still pending.

Liberal buying of machine tools, largely by companies which have taken orders for shrapnel, continued last week. A contract for a million rifles is pending and several companies which are figuring on the business have sent out inquiries for rifle-making machinery. Buying of machine tools for domestic use is increasing in the Chicago district. Pittsburgh machinery dealers have turned out a larger product this month than in any month during the past two years. Cincinnati continues to do a large business in machine tools.

Washington, D. C.—Even the callous staff of secret service headquarters, long familiar with all the tricks of the counterfeiting trade, was shocked into a show of surprise when Acting Chief Moran strolled into the office with what proved to be two four foot long counterfeits tucked under one arm.

The counterfeits are duplications of the faces of a \$5 and a \$10 United States note with the numerical portraits and lettering woven into the texture of an ordinary bath towel. The workmanship was extraordinarily good in the judgment of Mr. Moran, and its precision made him believe the work was done by machine.

One note was done in the yellow familiar to the happy possessor of \$10 gold notes, and the other, the \$5, in dark brown. No attempt was made to reproduce the backs.

Mr. Moran expressed the opinion that the work was done somewhere outside of the United States, because most people in this country know that it is against the law to make any

thing resembling money. He is anxious to discover who made the towels, not to prosecute, but to have their manufacture stopped. The two in possession came from Director Ralph, the bureau of engraving and printing where the nation's paper money is made. Mr. Ralph got them from an employe.

CLEVER SCHEME BRINGS A BOOST

Lansing, Mich., May 1.—Thomas Kearney of Ann Arbor and George B. Horton tendered their resignation to Governor Ferris Tuesday night as members of the state tax commission and Governor Ferris reappointed them and sent their names to the senate for confirmation.

This unusual procedure was brought about by the fact that Kearney and Horton could not get the benefit of a bill passed by the legislature two years ago increasing the salaries of members of the state tax commission from \$2,500 to \$3,500, during their present terms.

There is a constitutional provision providing that the salary of a state officer shall not be increased or decreased during his tenure of office. Kearney's term does not expire until January, 1919, and Horton's until January, 1917.

A Seventy-Year-Old Couple.

Mr. and Mrs. T. B. Carpenter, Harrisburg, Pa., suffered from kidney trouble for many years, but have been entirely cured by Foley Kidney Pills. He says: "Although we are both in the seventies we are as vigorous as we were thirty years ago." Foley Kidney Pills stop sleep disturbing bladder weakness, backache, rheumatism and aching joints.—Sold everywhere.

STATE OF MICHIGAN,

The Circuit Court for the County of Lucy Lawrence, complainant.

vs. Joseph Lawrence, Defendant. Suit pending in the Circuit Court for the county of Delta in Chancery, at the city of Escanaba in said county, on the 27th day of March, A. D., 1915.

In this cause it appearing from affidavit on file, that the defendant, Joseph Lawrence, is not a resident of this State, but resides at Milwaukee, in the State of Wisconsin.

On motion of Torval E. Strom, solicitor for the complainant, it is ordered that the said non-resident defendant, Joseph Lawrence, cause his appearance to be entered in this cause within four months from the date of this order; and in case of his appearance he cause his answer to the Complainant's Bill of Complaint to be filed, and a copy thereof to be served on said Solicitor for the complainant, within fifteen days after service on said non-resident defendant, of a copy of said Bill and Notice of this order; and that in default thereof, said bill be taken as confessed by said non-resident defendant.

And it is further Ordered, That within twenty days the complainant cause a notice of this order to be published in the Escanaba Morning Press, a newspaper printed, published and circulating in said county, and that such publication be continued therein at least once in each week for six weeks in succession, or that she cause a copy of this order to be personally served on said non-resident defendant at least fifteen days before the time above prescribed for his appearance.

ALFRED P. PIERSON, Circuit Court Commissioner, Delta County, Mich. T. E. Strom, Complainant's Solicitor. 89-96-103-110-117-12

The Power behind the dough K-C Baking Powder You may use an old favorite recipe and the best of materials and make it carefully, the oven may be just right, yet you will have a failure. The Power behind the Dough is not the right one to leaven it properly and make it light, digestible, wholesome. Good baking without good baking powder is out of the question. K-C Baking Powder has wonderful leavening power, and the double action—in the bowl and in the oven—makes good results doubly certain. Take no chances of failure—use K-C and have "good luck" every time. At all Grocers.

Reclar two part western drama

FRIDAY  
"The Arrival of Perpetue"

### GIRL BURIED ALIVE CLAIM

Muskegon, Mich.—That Evelina Mary Steel, 17 years old, stepdaughter of Mrs. Martha Steel 17 years old stepdaughter of Mrs. Martha Steel, who is awaiting trial in jail here for the child's murder, was buried alive by Mrs. Steel after an attempt to cause the girl's death by administering acid had failed, was the belief of Friday officers, who have been gathering evidence against the woman.

Mrs. Steel has entered a plea of not guilty to a first degree murder charge. The trial has been set for the present term of the Circuit Court.

The theory that the girl was buried alive in sand beneath woodshed at the rear of the Steel home was accepted when officials learned that the girl's nostrils and mouth were clogged with sand when the body was discovered.

The tongue protruded beyond the lips and there were other evidences, the officials declared, that Evelina's death was caused by strangulation rather than from the effects of the acid.

### LIVE ITEMS of INTEREST

F. D. Davis has returned from a business trip to Negaunee.

Henry Jaegers visited in Negaunee on Saturday.

Mr. and Mrs. R. C. Flannigan of Norway were in the city yesterday to attend the funeral of Myrick D. Mead.

The latest improved combination Steel Range is the best in the market. I invite you to come in and inspect it. C. A. Baum, 1018 Ludington street. 1733-93-261

Miss Grace Clement has returned to her home here, following a visit with relatives and friends at Chicago, Milwaukee and Neenah.

I will guarantee you a saving of \$1.00 on every 50 feet of moulder Garden Hose you buy from me. C. A. Baum, 1018 Ludington street. 1733-93-261

J. Wade Weston will leave this morning for Selney on business. Mr. Weston will be absent from the city for several days.

A. C. Marvin will leave this morning for Iron River on business.

Ladies 50c and 75c silk hose, selling now at 39c. Margaret Gallagher 1400 Ludington St. 1809-113-11.

Kevill Murphy returned last evening from a visit with friends and relatives in DePere and Green Bay.

Anyone having cows to pasture on the south side of the city notify Dick Plath, Phone 331-W. 1861-122-31.

Jack Berry, formerly with the Manistique Pioneer Tribune, was in the city Saturday evening enroute to Marquette for a visit with friends. From Marquette Mr. Berry will go to Detroit where he will accept a position as linotype operator on one of the leading daily papers.

Mrs. George Terrien of Glemore, Wis., was in the city Saturday visiting friends. Mrs. Terrien is returning home after making an extended visit with relatives in St. Ignace and Cornwell. Her son William of St. Ignace, accompanying her as far as this city.

Charles Dahlin, prominent farmer of Bark River was in the city Saturday on a business mission.

Mrs. Ole Rood and son of Bark River were in the city Saturday.

Mr. and Mrs. H. W. Coburn of Gladstone were in the city yesterday to attend the funeral of M. D. Mead.

John McCarthy of Manistique spent Sunday in the city visiting at the home of Mr. and Mrs. Michael Quinn.

Samuel Rogers spent Sunday in Ishpeming, being called there by the illness of his father, James Rogers, one of the oldest mining men of that district. Mr. Rogers states that the condition of his father is yet grave and that little hope is held out for the recovery of the age man.

Mr. and Mrs. Thomas Shanahan and children visited with relatives at Harris over Sunday.

Henry Macky leaves this morning for Green Bay, where he will visit with relatives for a few weeks.

Mrs. John Cass was a visitor with Bark River friends over Sunday.

#### Young Woman Surprised

Miss Marie Seidle was delightfully surprised at her home on Hale street on Sunday evening by a large number of her friends, the event being arranged in honor of her sixteenth birthday anniversary.

The evening was spent with a program of games and music after which refreshments were served by the hostess and her mother.

#### HELMES IS RE-APPOINTED BY VOTE OF SENATORS

Lansing, Mich., May 3.—The re-appointment of James W. Helme, pure food and dairy commissioner, was confirmed by the Senate in executive session, 23 to 8.

The Senate confirmed all the appointments of the governor except Andrew J. Short of Sault Ste. Marie named a member of the board of trustees of the Newberry state hospital. Senator James Wood successfully opposed this appointment.

Dr. John L. Burkhardt, as secretary of the state board of health, also was confirmed.

The house passed the Verdier bill providing pensions for school teachers.

Miss Isabella Cass visited with friends in Bark River over Sunday.

### LIGNESES BRING IN A HUGE TOTAL

Nets receipts by the nation, by states and by counties and cities from liquor licenses and taxes in 1913, tabulated by the United States Department of Commerce.

United States	\$230,146,532
States	20,992,857
Counties	6,600,010
Incorporated places having a population of 2,500 and over	\$1,600,010
	309-694,200

#### PER CAPITA CONSUMPTION OF TAX PAID LIQUORS MADE IN THE UNITED STATES.

Year	Gallons
1896	16.52
1900	17.22
1905	19.58
1910	21.34
1914	22.12

NOTE—These figures from the reports of the United States Commissioner of Internal Revenue, do not take cognizance of imports of domestic liquors.

tic wines or of "moonshine" products. Students of the liquor problem say that, while the per capita consumption of liquors has increased, there has been a marked decrease in the intemperate use of liquors throughout the country.

#### NOTICE

The Childs Welfare Committee will not meet tonight, but each member is asked to attend the council meeting as a matter of importance to each member will be discussed.

Signed: COMMITTEE.

William Mulvany, local painter and decorator, leaves this morning for Milwaukee, where he has accepted a position with Wertz and Bruns, decorators.

## IRON TRADE IS IMPROVING FAST

Of recent improvements in the iron and steel trade an exchange says: Decided improvement in the steel and iron industry is indicated in the financial statement of the United States Steel corporation for the first quarter of the calendar year, issued Wednesday. Taking the report by months, it is shown that March's earnings were \$5,046,136, as against \$4,511,058 in February and \$2,567,176 in January.

The earnings for the three months were \$12,457,809, a gain of \$1,524,539 over the preceding quarter. The net income showed an increase of \$339,315. This left the small balance of \$315,058 applicable to payment of the preferred dividend which required an outlay of \$6,304,919. To meet this deficit it was necessary to draw on last December's dividend surplus to the extent of \$5,389,861.

Contrary to his usual custom, Chairman Gary refrained from any public discussion of trade conditions, but it is said that the mills of the company are now operating at from 65 to 75 per cent of capacity. The foreign business is said to show a considerable gain over the last quarter of last year.

All news from the iron and steel centers has an encouraging tone. Operations are on a more extensive scale, than during any time since the outbreak of the European war and with recent advances in quotations for a number of lines, it is said that steel plants are now earning fair profits.

The steel companies are now making efforts to clean up the Lake Erie docks in preparation for fresh ore supplies from the Lake Superior district. The Bessemer and Lake Erie railroad, for example, is engaged in moving from 900 to 1,000 cars of ore from Conneaut Harbor on Lake Erie to the Pittsburgh district.

The Jones & Laughlin company is reported to be operating thirty-two ton mills in Woodlawn, Pa. The company's steel plant is operating about 75 per cent of capacity, and within a short time all departments will be running at full blast.

Practically every steel mill in the Mahoning valley is running at close to capacity and mills in general in that district are estimated to be operating at 90 per cent of capacity. Many more men will soon be employed in the finishing departments and hundreds of additional men will be required when the ore movement is in full swing.

## JAM'S SPORT COLUMN

Fight fans have taken different stands in regard to the victor of the Clabby-Chip tilt. The Press who gave the victory to Chip was supported by the Milwaukee Sentinel, Evening Wisconsin, Chicago American, Chicago Tribune, Menominee Herald Leader, and the Marinette Eagle Starr.

Ziggy Garland who is to do the heavy for the Beatts has brought along a good supply of silperry elm in order to dish out a few splitters. Duke Campbell and Slim Burton have brought the big war club along so Ridge beware of the "Big Two."

Dreamy Scanlon was used as an emergency Thurs. and Fri. but the big Moose could not check the terrific swatting of the Indianapolis club and was obliged take his medicine with the rest of the clan.

Andy Slight was handed an unconditional release by the Milwaukee club. Slight came in a part payment for Felch from the White Sox.

The Sox gave the blue envelope to Baker and Lathrop. Baker is a third sacker and goes to the Little Rock club in the Southern League. Bill Lathrop was shipped to Kansas City with a strong string tied on him.

The Cubs let out Shorr, Robbins and Tyree, in order to get down to the 21 player limit.

P. S. Ball players seem to be at large this year because of the fact that all clubs have reduced their rosters in order to make a little kale.

Jacques Fournier is sure lambasting the old leather. The big Kanuck is topping the American League with an average of .463. His mighty welding has won him a berth on Mgr. Rowlands machine in preference of Happy Felch, the slugging Dutchman from Milwaukee.

Charlie Herzog, Mgr. of the Reds and Umpy Rieger staged a tilt in St. Louis yesterday. The Cincin pilot got peeved when nHuggins pulled off the hidden ball trick on Leach. The mix up will cost Chas. a big lump beezed giving him a long vacation. Sherwood Magee came nearly being laid on for the entire season for clashing with an arbiter. This incident may cause the Reds the rag and when Gary Herman sticks his fingers in the pie it will be a big rumpus.

A suggestion—it is about time for Tom Leach to get next to some Stone Age stuff after being in the big show for 12 years.

**The Batting Averages**  
Jacques Fournier, the slugging gardiner for the Chicago White Stocking is leading the American League in hitting with an average of .463. Ty Cobb is next in line with an average of .420 and is followed by his brother gardiner Bobby Veach, who is punishing the leather for .428. The men who are clubbing .300 or better in Ban Johnson's circuit are:

Fournier, Chi. White Sox	.463
Cobb, Det. Tigers	.420
Veach, Det. Tigers	.428
Lapp, Phil. Athletics	.417
Jacobson, Det. Tigers	.400
Crawford, Det. Tigers	.380
Strunk, Phil. Athletics	.379
McInnis, Phil. Athletics	.378
Turner, Cleve. Indians	.378
Jackson, Cleve. Indians	.333
Hartzel, New York Yanks	.333
Thompson, Phil. Athletics	.333
Thomas, Boston Red Sox	.333
William, Wash. Senators	.333
Tyrus J. is the biggest base thief, pilfering nine. Dauss of the Detroit Benglers is the leading slab man with four wins and no defeats. Bernie Boland is next in the line with three on the right side of the ledger.	

**National League.**  
Hinie Groh of Cincy Reds, tops the National League with an average of .429. Among the top notchers in Tener's organization are:

Groh, Cincy	.429
Luderus, Phila.	.425
Connolly, Boston	.407
Whitted, Phila.	.400
Schmidt, Boston	.396
Clarke, Cincy	.376
Good, Chicago	.361
Killifer, Cincy	.365
Smith, Boston	.362
Cravath, Phila.	.359
Bob Beecher is leading base runner with five sacks. Fred Snodgrass also pickled five. Grover Alexander is the best mound dartist with 5 victories with no losses chalked up against him.	

**MR. AND MRS. SWANSON ARE SURPRISED BY THEIR FRIENDS**  
Friday evening a delightful party was held at the home of Mr. and Mrs. Fred Swanson, 313 So. Norris street when they were pleasantly surprised by a host of friends in honor of their 5th wedding anniversary or as known as a wooden wedding.

The evening was spent in a most enjoyable way and a dainty luncheon was served in which everyone participated with eagerness. Mr. Henry Carlson delivered a suitable address and presented to the couple a handsome dining room table, as a token of sincere friendship from the guests.

**Lame Back.**  
Lame back is usually due to rheumatism of the muscles of the back. Hard working people are most likely to suffer from it. Relief may be had by massaging the back with Chamberlain's Liniment two or three times a day. Try it. Obtainable everywhere.

**Rezell Orderlies**  
Sick headache, biliousness, piles and bad breath are usually caused by inactive bowels. Get a box of Rezell Orderlies. They act gently and effectively. Sold only by us at 10 cents. Ellsworth's Drug Store.

## AMONG THE THEATRES

### THE DELFT

The celebrated "Cabrira" is shown again at the Delft this afternoon and evening. There will be but one show at each performance. To afford a little variety for the big audience, Manager Jacobs has secured the "Nauthaum Brothers" in their clever roller skating act, to appear at the first intermission. This should prove attractive to local people.

You must see "Cabrira."

In no other way can one get a true conception of how people lived so many hundreds of years ago—the hardships to be endured, the menacing dangers of those ages when might was right and no measures too harsh for a great conqueror to use; no mountains too high to command his forces to scale; no walls so strong as to withstand their attack.

The times when armies stoned each other and slung molten lead in each other's faces—all this is vividly portrayed in this great picture play.

Barbarous Carthage! How can we in this age imagine that such were your religious ceremonies; to suffer thousands of little children to be placed in the flaming jaws of the monstrous idol Moloch, which sat glowering down upon the masses of worshippers come to pay tribute inside the lavishly ornamented temple.

Dwellings and draperies of fravishing color and primitive designs. Great safety corridors supported by huge pillars, and beautiful, selfish, luxury-loving women reclining, surrounded by slaves. Such a woman is Sophonisba, daughter of Hasdrubal, the Carthaginian Sufete, and in such a palace does she live upon the screen.

Poor little Cabrira's varied and perilous life is exciting, interesting and holds one spellbound from the dreadful eruption of Mount Etna to the time when peace was declared between Rome and Carthage, when Fulvius Axilla (and his slave Maciste) rescued her from the temple of Moloch for the second time and took her from these alien shores back to Rome and her heartbroken parents.

Words are wasted attempting to describe "Cabrira." All that needs to be said is that it was written by Gabriele D'Annunzio, the great Italian author, whose international fame leaves no doubt in the mind that "Cabrira" is an excellent piece—beautiful, interesting and true to the period it portrays.

Delft Theater today, matinee and night.

### THE BLJOU

Today there is a five reel program at this house, the feature of which will undoubtedly draw scores of people. The feature picture is "The Black Box." This is shown in multiple reels which should induce proof of a highly interesting nature to all who are following this splendid picture.

Los Angeles, May 3.—The duty of a woman as a citizen and as a wife was extended by Judge Monroe today to paying alimony to her husband. It was in the divorce suit of Mrs. Mary F. Krause, sixty years old, against H. H. Krause, 31 years her junior. They have been wedded since 1902.

Krause testified that his wife has a rooming house and that he makes the beds, sweeps out the rooms, washes dishes and performs other work usually done by a maid.

"If you stay at home," said the Judge, "she must feed you properly. Else you are to notify me."

Then he ordered Mrs. Krause either to support her husband during the pendency of the trial, or to pay him alimony of \$40 a month if he preferred to leave the house.

### GRANTED DIVORCE ON HER DEATHBED

Ann Arbor, Mich., May 3.—As she lay on her death bed, Mrs. Laura Swinnerton of Milan, was today granted a divorce from her husband, George Swinnerton now living somewhere in Ohio. The custody of their 3-year-old child was given to the parents of the wife, Mr. and Mrs. Holcomb of Milan.

Neither Mr. or Mrs. Swinnerton was in court, Mrs. Swinnerton being too ill, and her case was presented by two witnesses who told of Swinnerton's drinking and the abuse the frail wife suffered during her life with him.

As soon as Judge Kline ordered a decree in the favor of the wife, the father left for home, fearing he might find his daughter had died before he could bring news of the decree to her.

That's the First Requisite. Young man, don't take a girl's hand in yours and tell her you could die for her unless you are willing to earn a living for her.—Exchange.

# Morning Press Want Ads

Advertisements of Lost, for Sale, Wanted, to Rent, etc., not exceeding 25 words, inserted in this column three consecutive days for 25 cents, or one week for 50 cents, if paid in advance. If charged, price will be 40 and 75 cents, respectively. For each 5 words or fraction over 25 words, add 5 cents.

Telephone the Morning Press if you are in need of job printing of any description. First class work guaranteed.

## ASKS CZAR TO PERMIT U. S. TO AID

Washington, May 3.—President Wilson has interceded personally with Czar Nicholas for an amelioration of the condition of Austrian prisoners of war in Siberian detention camps, writes Arthur Sears Henning in The Chicago Tribune.

The president has asked the czar to permit American consular officers to distribute food, clothing and money from the Austrian government to the prison camps and to allow the Red Cross to establish a Siberian station.

The president acted at the instance of Dr. Dumba, Austro-Hungarian ambassador, who submitted representation concerning the plight of more than 100,000 Austrian civilians who were transported by the Russians to Siberia with large number of captured soldiers.

According to Dr. Dumba, the civilians were transported to Siberia with only the clothes on their backs and subjected to privations from which thousands have perished.

Dr. Dumba informed the president these prisoners are not provided with sufficient food and clothing and that thousands more will die unless they can be secured without delay.

## BRITAIN MISTREATED PRISONERS FIRST

Berlin, April 30.—Statements made in the house of commons and the house of lords by Winston Spencer Churchill, first lord of the admiralty Premier Asquith and Lord Kitchener regarding treatment of captured crews of German submarines and German retaliation on British officers, prisoners in this country, are regarded here as a well-defined case of imputing to Germany responsibility for measures which were inaugurated by Great Britain.

It was pointed out that Lord Kitchener's reference to the provisions of The Hague convention barring solitary confinement of prisoners of war except as an indispensable measure of security, applies with full force to Great Britain's treatment of submarine crews and that the Germans had not resorted to similar tactics until the British had set the example.

It was stated that Mr. Churchill's announcement that American representatives would be allowed to visit the imprisoned Germans only if similar facilities were granted in Germany was rather disingenuous in view of the fact that Great Britain and Germany had signed an agreement authorizing American visitations to prisoner camps and that Germany has given no intimation that she would violate the agreement.

**EIGHT YOUNG MEN TAKE INITIAL PLUNGE**

With the thermometer hovering only 10 degrees above the freezing mark, eight young men took their May dip in Bay de Noquet's waves Saturday afternoon. Headed by Coach Louis Hutto, eight lovers of the "aquaduck" sport, namely Ray Buell, Fred Baldwin, Hugh Coughlin, Rudy Lambert, Harold Lindsay, Stephen Murphy, Robert Degnon, enjoyed their initial plunge. The young men assert that the water was fine and issued an invitation "Come on Skinnies" but the thought of seeing the icicles on the young athletes met with refusal.

**REZZEL ORDERLIES**

Sick headache, biliousness, piles and bad breath are usually caused by inactive bowels. Get a box of Rezell Orderlies. They act gently and effectively. Sold only by us at 10 cents. Ellsworth's Drug Store.

**Lame Back.**

Lame back is usually due to rheumatism of the muscles of the back. Hard working people are most likely to suffer from it. Relief may be had by massaging the back with Chamberlain's Liniment two or three times a day. Try it. Obtainable everywhere.

**IT'S a double-riveted cinch to get tobacco satisfaction from the Real Tobacco Chew. All the good of the rich tobacco—and a small chew satisfies.**

Next to getting it themselves the thing men like best is to tell a friend about the Real Tobacco Chew.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

“Notice how the salt brings out the rich tobacco taste.”

## SETTING FORTH FACTS FLOUT PREJUDICES

The anti-Catholic publication that is known as the Menace recently became a subject of discussion in Congress, many members of the House of Representatives favoring the enactment of a bill excluding from the mails it and similar vehicles of slanderous assaults upon religion and religion's chosen representatives of different denominations. The conclusion of the majority after the matter had been debated was that legislation of the character proposed might have the effect of restricting the liberty of the press, and that the best solution of the problem would be found in the well-known saying of Jefferson—"Let Truth be free to combat Error and Truth will prevail."

That Jefferson's method will prove efficacious in dealing with the Menace and with purveyors of anti-clerical slanders generally is suggested by the appearance of a special issue of the Catholic Citizen, appropriately entitled the Cock-and-Bull-Story Edition, exposing the falsity of mendacious tales which have been afloat by unscrupulous persons desiring to injure the Catholic church. The good temper of the Citizen in its devoted undertaking is commendable. The following editorial which appears under the caption, "What's the Use?" is one of several printed in the special issue that will be read with interest and pleasure by fair-minded Americans irrespective of denomination:

That people get very earnest over religious quarrels that they imagine great issues are at stake does not prove that such quarrels are not—as they certainly seem to the hindsight of the historian—exhibitions of very bad judgment and worse Christianity.

In the great sea of American population, Catholics are in a minority. The people who enroll in anti-Catholic movements do not include the better and more intelligent Protestants. The anti-Catholics are also in a minority. It is a quarrel between minorities.

Even that might be serious, if there were any issues at stake. But where is "the irrepressible conflict" coming? Not over the public school system, for the Catholics decline to make an attack. Upon this and other matters, Catholics claim that their assailants are putting up straw men and labeling them "the Catholic position." If there is no tangible point of conflict—aside from the transitory one of holding the petty offices—there can be no ultimate trial or verdict.

The phenomenon is merely the edifying of a purposeless current of prejudice. It has come upon the surface many times before; it has even taken its present secret and proscriptive form before, and in this very land. But the result has never been anything tangible or permanent.

And upon each reappearance it finds the forces of progress, liberality and the religious indifference of the modern world increasingly unfavorable condition; though, of course, it may prosper for a time upon some accidental circumstances.

Instead of bearing anything like a serious message to the age, it is the ghost of a lost issue coming among us merely to annoy. The annoyance, however, is none the less real, that it is not alarming. And the people who have to endure the periodic plague of intolerance, are properly concerned in finding experiments that will lay the ghost for good. Well-tempered discussion is one of the best methods.

The number of copies of the Cock-and-Bull-Story edition of the Citizen which will be placed in circulation exceeds one hundred thousand. The Catholic Citizen is to be congratulated upon its dignified and effective contribution toward a fuller understanding of Catholic by non-Catholics, in the interest of broad tolerance and better Americanism.

When Physician Looks Wise. Even when the doctor doesn't know what is the matter with the patient—but he usually knows enough to keep his lack of knowledge to himself.

WARMTH FROM THE HEART. Heart warmth is generated by the friendly touch of another's hand.

## LECTURE PLEASED LARGE AUDIENCE

Of the address delivered by Rev. Father Barth of this city, under the auspices of the congregation of St. Patrick's church at Hancock on Wednesday night the Calumet News says: "The divorce evil, its operation to the detriment of the nation and the necessity of its abolishment was the theme of an address in St. Patrick's church last night by Rev. Fr. Barth of Escanaba. The subject of the lecture was 'The Power of Christian Parents Love,' and during the hour of its duration, the speaker held his auditors spellbound. In substance, Fr. Barth paid a beautiful tribute to motherhood citing that fathers often banish their children, but the mother never bars the child from her heart or home."

The address was the principal number of a program of a sacred concert given by the ladies of St. Patrick's church. It was attended by an audience that filled the spacious auditorium to capacity. In part, Fr. Barth said:

"Children of good parents cannot be lost, and while you perhaps think it strange that a priest should stand before you tonight and advocate such a thing as suffering, yet that is exactly what the Christian parent must undergo. Our love for our mothers is greater than for our fathers and so it is true that the love of a mother for a child is greater than that of the father. Exceptions may creep in but the sovereign law planted in our hearts by the Creator cannot be denied. Love for our mothers must predominate and if necessary conquer the law of the father."

"Fathers often banish their children from their homes, refuse to see them and disinherit them because of some offense. But the mother never bars the child from her heart or home. Exigencies may occur where she bows to the wishes of her husband, but in her heart is that unconquerable love that knows no insurmountable barrier."

"Mothers will travel to foreign lands to save their children, seeking the wayward. Fathers seldom have been known to visit a scaffold while the mother even in the hour of disgrace when all the world is against her is present, and that is the reason the world today doffs its hat to motherhood."

"The rank and file of humanity today renders homage to the mother that gave them birth. No matter what the stage in life may be, it may be the lowest or reached the loftiest summit the love for mother is the most powerful in the world. It is just then to think that a mother cares for the body of the child alone, that she thinks only to clothe and nourish and its station in life? Do you think God consecrated a mother's life only for the body and left the child a victim to temptation like a ship without a rudder? No but it is the mother's fond wish to help and enable that child to pass all spiritual dangers because nothing can interfere when a mother's love is faithful."

"More depends upon the mother than the father even though the latter be the head of the family, the administrator of affairs in the household, for the indefinable influence is the mother's love; in her heart is a love that knows no defeat. We may follow the young man and woman from the time they approach the altar to take those sacred vows. For the maiden their lives are happy and joyful, when the whole world seems bright and the sun total has been filled with aspirations. Then comes the day when the mother refuses to leave the cradle in which her infant lies, the father is filled with a great responsibility and ranks next to God."

Charging that no country, even the United States, can go on and be a great nation so long as the government permits mothers and fathers to be separated through the divorce courts, Father Barth cited the city of Detroit as a spectacle of where homes have been shattered so that statistics show 100,000 divorces have been granted in one year. "That bond, which has been reproduced by the child cannot be severed and it is not the will of Him that man and wife remain total strangers. Parents must pray as well as suffer. If you would have a great nation you must make sacrifices for every great deed is born of suffering even though it is the doctrine that modern women may not tolerate."

"If there are old parents here this evening that have a child who has gone astray let them get on their knees and pray for the erring one. If there are young parents present watching their young in the cradle let them take strength in the instructions to exercise their priestly offices God's heart will be moved to pity by prayers. There is something wonderful in woman's maternal love that her name should be the watchword in every household. You must suffer more in keeping your children true to life for the price of a child's soul is the parents' integrity. Never will we be a great nation while the country has damned the portals of homes. Today we stand as the most lawless, boastful and disdainful. Let us at all times remember the spirit of St. Monica and may this spirit be invoked on every home in this parish."

Warmth From the Heart. Heart warmth is generated by the friendly touch of another's hand.

## BREITUNGS PUSH ANNULMENT SUIT

New York, May 3.—Suits to annul the marriage of Juliet Breitung, millionaire heiress, to Max Kleist, young Marquette, Mich., gardener, whose \$250,000 alienation suit against his wife's parents was twice thrown out of court, will be brought within a few weeks, it was reports today.

Edward N. Breitung, Michigan Millinaire and father of the bride, will bring action in her behalf, it was reported. He will allege that the girl was misled and that the marriage was never consummated, despite Kleist's testimony in the alienation trial.

Mrs. Juliet Breitung-Kleist today declared that her parents were in no way responsible for her break with her husband. Kleist himself killed her love for him a short time after the secret marriage, she said, and she recalled quickly that he was not the ideal husband she had pictured, she told.

"It isn't true that I taught him to smoke cigarettes and to drink, said the millionaire's daughter. "In the first week after the marriage I saw him just once. That was in Central park."

"I know now that Max never loved me," said Juliet in an interview given in the present and under the watchful eye of her mother.

"It was he alone who convinced me that he did not love me and made me realize that I did not and could not love him. He never showed by the little things that mean so much to a woman that he loved me. He never comprehended my attitude to him; I never could make him understand what I was doing for him." He himself made everything hopeless."

## RAILROADS SEEK HELP IN COURTS

Lansing, May 3.—One by one the six big railroad corporations of Michigan are to enter the courts for redress from the present two-cent fare law, according to announcements made here again today. They have accepted the advice of Representatives Symonds and Wiley to "fight it out in the courts."

The Ann Arbor road began suit last November and recently revived those proceedings in the United States court in Detroit after the state legislature refused to increase the fares charged. The Pere Marquette will be the next to move. On May 10 there will be a hearing before Judge Tuttle on the petitions of creditors to foreclose mortgages to the amount of \$32,000,000. Not until disposition has been made of these petitions by the court will there be a decision as to what action will be taken.

Railroad men who were here watching until the close of the session declare that of all the roads who have a grievance against the state the Pere Marquette stands in the front ranks. They say under the decision in the West Virginia rate case this Michigan line, without question, could come in the three-cent class.

The railroad committee of the senate refused by a vote of two to three to report on the Herye rate investigation bill which passed the house last week, and thus killed all railroad legislation of any kind. It is said that those who are opposed to the roads, combined with one member who is known as a railroad supporter, put the time-lock on this bill because should the roads go into the courts the information to be gathered by the commission would be a duplication practically of what the courts bring out in the way of evidence.

Without the state conducting an investigation, it is figured the court will be in a better position to act quickly on the railroad's petitions to hear the cases.

**How Mrs. Harrod Got Rid of Her Stomach Trouble.**

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

**WILSON LEAVES NAGEL AS RAIL ARBITRATOR.** Washington May 3.—President Wilson has concluded that there is no good reason for the withdrawal of Charles Nagel, former secretary of commerce and labor, from the arbitration board handling the wage dispute between the western railroads and their firemen and engineers, because of the railway employees' protest that as a trustee of the Busch estate of St. Louis he is interested in railroad securities.

## OPERATING UNDER DIFFICULTIES

Stalled in an Alaskan Snowdrift. Digging Down to the Railroad Through 40 Feet of Snow. Rotary Snowplows Like This Are in Almost Constant Use on Alaskan Railroads in Winter for Keeping the Line Open.

## ON ALASKAN RAILROAD HAS MADE ITS SLOGAN GOOD

Eastern Railroad Able to Regard With Pride the Success of Its Safety-First Movement.

Safety first is more than a phrase, at least on one of the leading Eastern railroads. In the last two years this line has transported, without an accident fatal to one of them, passengers to the number of 370,000,000 over its 26,000 miles of track. In four of the last seven years the lines east of Pittsburgh carried 558,000,000 passengers without a fatality. Moreover, these records are not the result of good luck. They are the fruit of intelligent efforts to safeguard life, and to redeem, so far as one railroad may, the generally bad reputation of American transportation companies for disasters and loss of life.

Not only have the roads devoted study and time to the protection of passengers, but their officers have endeavored, with increasing success, to save the limbs and lives of their employees and of trespassers who intrude on their rights of way and endanger themselves. Throughout New York one prominent company has carried on a campaign of education for its own employees and the public generally to bring about the observance of necessary caution and the enforcement of laws and ordinances intended to keep the right of way clear. Other important roads have aided notably in the conservation of human beings. If the public would contribute as much as the companies do, the death toll would be reduced far below its present aggregate.

Prevention of a great number of accidents is beyond the power of the railroads. It rests with their employees and the public. When train hands, shopmen, travelers, motorists, drivers and pedestrians learn to take care of themselves, the list of maimed and dead will soon shrink to inconsiderable proportions.

**ICELAND LINE IS ASSURED**  
Project That Has Been Contemplated for Many Years Soon to Be Accomplished Fact.

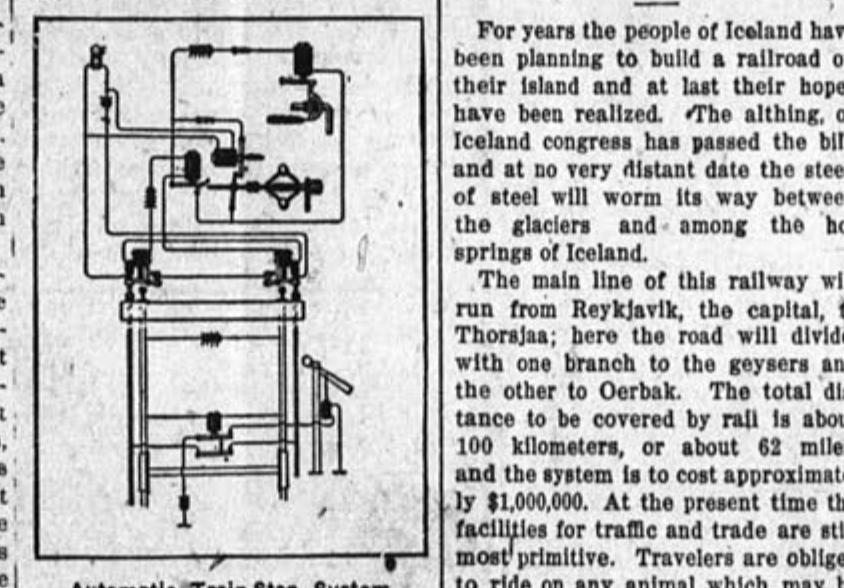

For years the people of Iceland have been planning to build a railroad on their island and at last their hopes have been realized. The althing, or Icelandic congress has passed the bill, and at no very distant date the steel of steel will worm its way between the glaciers and among the hot springs of Iceland.

The main line of this railway will run from Reykjavik, the capital, to Thorsjaa; here the road will divide, with one branch to the geysers and the other to Oerbak. The total distance to be covered by rail is about 100 kilometers, or about 62 miles, and the system is to cost approximately \$1,000,000. At the present time the facilities for traffic and trade are still most primitive. Travelers are obliged to ride on any animal which may be available, while freight is moved in rude carts. The roads are for the most part very bad and they are often made impassable by mountain torrents.—Scientific American.

## MAKES FOR FURTHER SAFETY

Automatic Train-Stop System for Use in Connection With Block Signals on Railroads.

This train-stopping apparatus is adapted for use in connection with a block-signal system, whereby a train is automatically stopped or slowed down or a signal given when a train enters a block already occupied by another train and a stop signal is disregarded, or when the train travels at excessively high speed or when part of the circuit is interrupted or deranged for any reason.—Scientific American.

**Dead Year for Railroads.** The year 1914 was the deadliest in a generation for the railroads. Mileage construction fell from an average of 4,450 miles during the preceding 15 years to 1,531 miles. Only 3,691 steel passenger cars were constructed, as against 4,246 in 1911, 4,412 in 1910 and 5,457 in 1909. Only about half as many freight cars, 104,541, were built in 1914 as in 1913, when the number was 207,684. The number of locomotives constructed in 1914 was only 2,235; in 1913 the number was 5,332 and in 1912 it was 4,915.

This loss in constructive business meant a difference in expenditure of many millions of dollars and it meant thousands of men idle.

**The Oldest Metal Things.** The oldest metallic objects are thought to be those found in a royal tomb in Egypt, supposed to have been that of King Menes. In one of the chambers were some bits of gold and a bead, a button and a fine wire of nearly pure copper. These objects are believed to be 6,300 years old.

**Improved Railroad Gates.** The Canadian Pacific railroad is erecting seven gates that will be operated by electricity to safeguard traffic across its tracks along the waterfront in Vancouver. They are of the portcullis type, and the pressure of an electric button will lower or raise them.

**Naming Tunnels After Engineers.** A well-deserved and too seldom accorded honor is to be given to engineers by the Baltimore & Ohio railroad. The four tunnels on the Magnolia cut-off between Orleans and Little Cacaton, W. Va., are to be named after four of the road's chief engineers—James L. Randolph, J. M. Graham, D. D. Carothers and Francis Lee Stewart.

## RAILROADS FIGHT TO GET PRIVILEGE

Philadelphia, Pa., May 3.—The trans-continental railroads are fighting for the privilege of transporting the Liberty Bell and its escorts across the continent to the Panama-Pacific exposition. A decision is expected as soon as the route is selected.

The bell will make the journey on a car built after a special design and equipped with air cushions to offset any possible injury to the relic from jarring.

An overhead framework to be constructed of light steel will provide for suitable covering between stops and bad weather. The railings and ornamental work will all be in brass.

This will be the ninth journey of the bell since it was hung in the Old State House 160 years ago. During the Revolutionary war it was hurried away to Allentown to keep it from the British when they captured Philadelphia, but after its restoration it was unmolested until 1835, when it was sent to the New Orleans exposition.

With this as a precedent five other world's fair succeeded in getting the bell as a patriotic attraction—New Orleans in 1885, Chicago in 1893, Atlanta in 1895, Charleston in 1902 and St. Louis in 1904. It figured also in the Bunker Hill celebration in Boston in 1903.

It tolled amidst war to announce the first Fourth of July celebration ever held in the United States. This was in 1777, when but one year of independence had been recorded. In October, 1791 it was tolled again, when the surrender of Lord Cornwallis was announced, and in the following month it welcomed Washington to the city. A little later it helped to proclaim the treaty of peace with Great Britain.

## SUPERVISE ALL SCHOOL BUILDING

In the future, under a law recently passed by the state legislature, plans for all school buildings erected in Michigan must receive the approval of the department of public instruction before work is started. The superintendent of public instruction is also given authority to inspect and condemn school houses that are not in a safe and sanitary condition. All outlays on building of over \$300 must be approved.

The provisions of the law follow: "No school house shall hereafter be erected in any school district in this state, and no addition to a school building in any such district shall hereafter be erected, the cost of either of which shall exceed \$300, until the plans and specifications for the same shall have been submitted to the superintendent of public instruction and his approval indorsed thereon. Such plans and specifications shall be submitted in duplicate and shall show in detail the ventilation, heating and lighting. Provided, that the said superintendent of public instruction shall have authority to inspect such building or buildings during the process of construction in order to determine that the provisions of this act are being complied with.

"The superintendent of public instruction shall have authority to inspect and condemn school houses. After an inspection of a school house, if in the judgment of the said superintendent of public instruction such building, or any part thereof, is not in a safe and sanitary condition, notice thereof shall be given to the district board, or board of education of the district in which such building is located, said notice to be given at least six months preceding the first day of August. On the first day of August following such notice given, if said building has not been placed in a safe and sanitary condition by the district board or board of education, said superintendent of public instruction shall have authority to close such building, or part thereof, and such building, or part thereof, shall

not again be opened for public use until such building, or part thereof, shall have been placed in a safe and sanitary condition to the satisfaction of the said superintendent of public instruction. Provided, that after such building, or part thereof, has been closed for public instruction shall be authorized and he is hereby required to have such building, or part thereof, placed in a safe and sanitary condition at the expense of the district. "Provided, that any district board or board of education, being dissatisfied with the order of the superintendent of public instruction determining such school house to be in an unsafe or insanitary condition, may within thirty days of the issuance of such order and notice thereof commence an action in the circuit court in chancery for the county in which such schoolhouse is located, against the superintendent of public instruction as defendant, to vacate and set aside such order on the ground that said order is unlawful or unreasonable; in which suit the superintendent of public instruction shall be served with subpoena and a copy of the complaint.

"No tax voted by a district meeting, or other competent authority, in any such school district, exceeding the sum of \$300 for building purposes, shall be expended by the district board or board of education of such district, until the superintendent of public instruction shall certify that the plans and specifications for the same comply with the provisions of this act.

"This act is ordered to take immediate effect."

## DEMOCRATS UNITE IN SUPPORT OF WILSON

Washington, May 1.—President Wilson will be renominated by the Democratic national convention next year. It is my opinion he will be unopposed.

This statement was made by ex-Representative A. Mitchell Palmer, national committeeman from Pennsylvania.

President Wilson received a teletype for a second term, Mr. Palmer said, "I think there is a general understanding among Democrats and possible candidates that Mr. Wilson should lead the party in 1916."

"I find business conditions are improving throughout the country, and this is affecting the political situation. In Pennsylvania times are rapidly returning to normal. This is especially true of the steel business. By another year we will have forgotten the bad times occasioned by the war and the country will be on the wave of prosperity."

## UMPIRE RIGLER AND MANAGER ARE FINED

(Special to The Press.) St. Louis, May 3.—Umpire Charles Rigler and Manager Charles Herzog, who fisticuffed Saturday on the ball park, were fined \$5 in police court for disturbing the peace. Neither made a personal appearance.

What It Cost Him. "My darling," she murmured, "you were so grand, so noble, when you proposed to me that day in the taxi! Shall I ever forget how touchingly you spoke of your future, of the sacrifices you would make for me? It must have cost you something to speak those words." "It did, Mabel," replied the young man, a shadow creeping over his face. "It cost me about two weeks' salary for the hire of that taxi."

## MAKING PLANS FOR BIG MEETING

Active plans are already under way in Marquette for the entertainment in that city of hundreds of teachers from all parts of the peninsula at the annual convention of the Upper Peninsula Educational Association.

Of plans that are being made the Mining Journal says:

While the annual meeting of the Upper Peninsula Educational association, to be held in the administration building of the Northern State Normal school the first of week of October, is more than five months away, plans are now on foot to provide for the accommodation of one thousand or more teachers who will be here for the gathering. President Kaye, of the Normal, has charge of the arrangements for the numerous meetings that will be held during the three-day session, and Superintendent Watson, of the Marquette schools, and Principal McClintock, of the high school, will arrange for the housing of the visitors.

"The meeting will open Wednesday, Oct. 6, with the dedication of the new administration building," President Kaye said yesterday, when questioned as to the preparations being made for the gathering. "The meeting at which Governor Willis will be the speaker will be held that evening in the auditorium.

"The association officers and the Marquette committee are especially desirous of seeing the largest attendance of any meeting of the association to date. Last year 1,100 names were, I believe, registered, and we hope to exceed that number. For admission to all meetings the registration fee will be fifty cents for ladies and one dollar for men. It should be understood that the enrollment is not limited to teachers. Any person may enroll, and may attend all meetings without any other charge. The new auditorium has seating accommodations for several thousand persons, and we hope to have it filled for all of the evening meetings.

"I want the people of Marquette to open their homes to the visitors, as this is essential to the success of the meeting. I would like to see large numbers join the association and attend all of the meetings. Speakers of national prominence will be here and the expense involved in securing this talent is considerable. Several of the meetings will be of general interest.

"The week of the meeting will see the formal opening of the new administration building, although the auditorium will have been used prior to that time, for the 1915 commencement exercises.

"It is the intention of the officers of the association to hold the meeting in Marquette every other year, if the visitors can be properly cared for by the Marquette people. The association is incorporated as of Marquette—Marquette is the official home."

As the meeting this year is being arranged by the Normal school, it will be necessary to raise but little money to finance the meeting. The greater part of the expense will be met by the money obtained from reg-

istrations of the teachers and townspeople.

The sessions will continue Wednesday, Thursday and Friday, Oct. 6, 7, and 8. One of the features of the week will be a banquet of the alumni of the Northern State Normal school, to be held in the new school gymnasium, a room that is admirably adapted to this use. As the greater number of the alumni of the school will be here for the association's meeting, it is expected that the gathering at the banquet will be the largest on record for the event.

**Horseshoes as Bringers of Luck.** Sailors cherish horseshoes as luck-bringers, and before the days of dreadnaughts it was Jack's practice to nail a horseshoe upside down on the mast of his ship. Nelson hailed a horseshoe with the points upwards on the mast of the Victory before he took the ship into action at Trafalgar.

**Correcting Childish Defect.** Most children at some time or other will contort their faces or cross their eyes. If this habit is allowed, frowns become permanent and eyes glide. It is a good thing to let a child see himself when pulling his face he will not be proud of his looks. It is a good plan to appeal to a child's pride, as proper pride is an excellent quality.

**The Men Who Get Credit.** In the writings of Leonardo da Vinci one will find suggestions of many modern inventions, including the flying machine, the submarine boat, and other devices. Hero of Alexandria actually built a steam engine, and yet the first idea did not originate with him. Scientists and writers on scientific subjects make it a rule to give credit to the man who first patents an idea or who first publishes a discovery in some journal.

**Roumanians Fond of Dress.** The men of Roumania are very fond of dress, and they have a popular saying which runs, "The stomach has no mirror." Its meaning is that rather than be shabby a Roumanian should go hungry. The peasant costume of Roumania is very artistic, every village having its own set of colors. By the hue of his dress a peasant shows the locality he hails from.

**Whooping Cough.** "When my daughter had whooping cough she coughed so hard at one time that she had hemorrhage of the lungs. I was terribly alarmed about her condition. Seeing Chamberlain's Cough Remedy so highly recommended, I got her a bottle and it relieved the cough at once. Before she had finished two bottles of this remedy she was entirely well," writes Mrs. S. F. Grimes, Crooksville, Ohio. Obtainable everywhere.

**Best Thing for Bilious Attack.** "On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to get any relief from any other treatment. I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin, S. C. Obtainable everywhere.

**DIVORCE GRANTED WIFE OF BILL LANG, OLD CUB.** San Francisco, May 3.—Mrs. Grace Lange, wife of "Bill" Lang, once famous ball player, has been granted a divorce by Superior Judge Crothers on allegations of extreme mental cruelty. Her mother, Mrs. Anna Giselman, and Mrs. Lange's maid, Grace Nichols, substantiated the charges. They were married in 1900 at the height of Lange's popularity with the Chicago Cubs. For 13 years the marriage was a happy one, according to Mrs. Lange's testimony. "Bill" was one of the most popular outfielders in the game at the time of his retirement, and is said to have been one of the first baseball players to be offered a vaudeville engagement. "What something? Ask for it with a Morning Press 'want ad.' They always bring results."
