

WHITE BOOK IS ISSUED

GERMAN GOVT. MAKES REPLY TO REPORTS OF AWFUL CRIMES ON BELGIAN POPULACE

BULLETIN

Rome, May 29.—It is officially announced that the Italians have captured Ala.

BULLETIN

Rome, May 29.—On the Trentino frontier the Italian artillery at Aonale and Asago continued the bombardment of the enemy forts which still reply us vigorously. Three forts were damaged seriously.

(Special to The Press.)

Washington, May 29.—Until the official text of German reply to the American note is received probably tomorrow, President Wilson will reserve comment. This word came from the White House tonight. It is known, however, that the United States is prepared to controvert every one of the points mentioned in summary of the German reply received from Berlin. Evidence of indisputable character was gathered by the Washington government prior to the sending of its note May 13 to prove that the Lusitania carried no guns, either mounted or unmounted, that she carried no explosives within the meaning of American statutes and that no British vessels had cleared from American ports for several months carrying guns of any character.

The British Ambassador here is prepared to transmit assurance from the British government that the Lusitania was unarmed and that she could not be carried on the naval lists as an Auxiliary cruiser unless she were armed and commissioned, the latter change from peaceful merchantmen to an Auxiliary cruiser being possible, according to the British practice, only in home ports.

(Special to The Press.)

Paris, May 29.—Official—North of Arras we have realized further progress. After repulsing completely the German counter attack against our trenches at Ablain-St. Nazaire, which was reported this morning, we took the offensive and at first carried a greater part of the Ablain houses, still held by the enemy. Subsequently we carried the rest of the houses, so that we now are masters of the entire village. We annihilated or put to flight three German companies during the engagement.

Near Thiloucourt we brought down an aeroplane which caught fire as it fell before our lines.

(Special to The Press.)

Washington, May 29.—The British Embassy issued a statement tonight reminding the purchasers of merchandise in Germany that the shipment of these cargoes will not be permitted after June 15.

(Special to The Press.)

London, May 29.—Despite the violent Russian counter attacks the Austro-German armies are slowly closing a circle around Przemysl according to advices from Vienna and Berlin. The Russians brought up heavy forces from the Caucasus in an effort to stem the teuton drive on the Lemberg railway. These reinforcements were released by a lull in that theater.

(Special to The Press.)

Amsterdam, May 29.—The German Government just issued a white book in reply to the charges of extreme and unwarranted cruelty to civilians in Belgium, which was made against the German troops in two official reports. The white book declares that immediately after the opening of war in Belgium there was a "wild fight of the entire people against the German troops." This, it declares is "Flagrant violation of the international law."

"That the Belgian civilian population of every rank, age and sex, with the greatest fury, participated in the ranks against the Germans, is proved by overwhelming testimony," the white book declares.

"Beyond doubt it has been proven that the German wounded soldiers have been robbed and murdered, nay, even mutilated in the most horrible manner and that even the women and young girls took part in such horrible crimes. The German wounded soldiers have had their eyes gouged out, ears, noses, fingers and sexual parts cut off, their abdomen cut open while in other cases the German soldiers have been poisoned, hanged in trees, sprinkled with burning fluids and burned in other manners so that they died in the most painful way."

It takes particular exception to the portion of the Bryce report, which declares that women were violated and

CHURCH SUPPER IS ARRANGED

The Swedish Mission church, corner of Wells avenue and Sarah street, will give a supper on the evening of Monday, May 31st. Supper is to be served from 5 p. m. to 8 p. m. A charge of 25c for adults and 15c for children will be made. It is hoped a large number of patrons will attend.

AGGIES ARE CHAMPIONS

(Special to The Press.) Lansing, May 29.—The Michigan Aggies copped the state intercollegiate baseball title by defeating the University of Michigan 4 to 2 in the final game of the series. Sisler, the Michigan star southpaw, tried to save the Wolverines in the sixth when he replaced Ferguson, but the farmers got to him for three runs in this frame.

RIDGES ARE HERE TODAY

The crack Maple Ridge baseball team will travel to Escanaba today to open the local baseball season at South Park in a game with the Northern Beauties. The Riders this season have collected an unusually fast team while the Beauts have in their lineup some of the fastest young players in the city. The game will open at 2:30 o'clock and with fair weather prevailing a big crowd of fans should be present.

BECKER LOSES FAITH AS TIME IS NEAR

(Special to The Press.) New York, May 29.—Having abandoned all hope of escaping death in the electric chair week on July 12, Charles Becker, ex-police Lieutenant convicted of the murder of Herman Rosenthal, bitterly defiant threatens to publicly repudiate the efforts of his wife or friends to appeal Governor Whitman for Clemency. "I'm through, I don't want anything done. I have lost faith in God and man."

NO PAPER ISSUED TUESDAY MORNING

That employees of the Morning Press may join in a fitting observance of Memorial Day no paper will be issued from the Morning Press office on Tuesday morning.

POST OFFICE WILL CLOSE HALF DAY

There will be one full delivery of the mail in the forenoon of Monday. The post office will be open from 9 a. m. to 11 a. m. and from 7 to 8 p. m.

children were grossly mistreated.

"Whenever even suspected, infants, aged men and women were spared as far as possible," it declares.

Refuting many claims made in the Bryce report, the white book states: "Tales told by refugees and collected from them by the Belgian commission which called them absolutely unbiased, have every appearance of untruthfulness, if not of vicious fabrications. As matters stand, the commission was absolutely unable to test the correctness of the stories told to its members. Its accusations against Germany, therefore, were nothing but base libel." It declares that the Belgian Government is blamable for the violation of the international law by the Belgian civilians. It gives many instances to prove that the Belgian government contemplated, incited and encouraged the civilian population to rebel against the conquering Prussians and had provided them with arms and ammunition in huge stores to carry on attack.

INSANE COSTS STATE MUCH

NEXT TO EDUCATION COST OF KEEPING INSANE WAS STATE'S HEAVIEST EXPENSE FOR PAST SIX YEARS

Next to the cause of education, the care of the insane of the state, has cost the taxpayers of Michigan more than for any other single purpose in the last six years. Statistics that have been compiled by Auditor General O. B. Fuller show that the total cost of supporting the institutions for the insane of the state from 1909 to 1914, inclusive, was \$7,685,136.72. The cost of supporting the educational institutions of the state for that period was \$10,680,105.10.

For all purposes in six years there was spent in support of the state government the enormous total of \$37,352,817.95.

Following are the amounts spent in the six year period for different purposes:

Table with 2 columns: Purpose and Amount. Includes Educational purposes (\$10,680,105.10), Charitable purposes (2,737,665.80), Penal purposes (2,500,586.80), Public Health (242,191.25), Insane (7,685,136.72), Military purposes (1,246,541.89), Highway purposes (1,956,000.00), State Boards and Commissions (1,126,935.48), Legislature (316,800.00), General purposes (8,361,570.00), Miscellaneous (399,294.91), Total (\$37,352,817.95).

TO HOLD FUNERAL MONDAY MORNING

Funeral services will be conducted Monday morning at 9 o'clock at St. Patrick's church over the body of Mrs. John Murphy, who passed away on Thursday evening after but a short illness. Rev. Father Barth will officiate. Interment will be at St. Joseph's cemetery. The sudden death of Mrs. Murphy has come as a shock to all who knew her and it is expected that the funeral of tomorrow morning will be largely attended. Those who will serve as pall bearers are: Patrick McCauley, Francis McCauley, James McKittick, Thomas Quinn, Charles Chelson and P. F. Gannon. Those who have arrived in the city to attend the funeral are: Peter and John Harrington and Miss Julia Harrington of Arcola, Ill.

Scores of beautiful floral offerings have been received at the Murphy home mutely attesting the high esteem in which the woman was held by all.

ORDER OF PROGRAM MONDAY

- Decorations of graves of comrades sleeping in St. Anne's and St. Joseph's cemeteries at 9 a. m.
Ritual service at Lakeview cemetery by G. A. R., W. R. C., Sons of Veterans and Spanish War Veterans, at 10:30 a. m.
Parade of G. A. R. Spanish War Veterans, School Children, Boy Scouts, Boy's Brigade and organizations, 2 p. m.
Public services at Ludington park, 2:30 p. m.
Marshal of the day--A. G. Gerdel
Speaker of the day, Atty. Jos. F. Cuddy.

TO OBSERVE MEMORIAL DAY

LOCAL PEOPLE WILL JOIN ON MONDAY IN GENERAL OBSERVANCE OF CUSTOM

The Memorial Day exercises will be opened tomorrow morning at 9 o'clock when committee's will gather at the Armory and go to St. Joseph's and St. Anne's cemetery to decorate the graves of the soldier dead in those cemeteries.

At 10:30 o'clock the C. F. Smith Post of the G. A. R. The Woman's Relief Corps, the Spanish War Veterans and the Sons of Veterans will go to Lakeview cemetery, where the ritual service will be carried out. Mrs. A. H. Rolf, president of the Woman's Relief Corps will read Lincoln's Gettysburg address. Following the service all will return to the Armory where dinner will be served by Women of the Relief Corps.

The parade to the park to be participated in by the various organizations of the city will be started at 2 o'clock and the program at the park will start at 2:30 o'clock.

The program at the park is: Double Quarter, selected--Mrs. F. L. Graham, Miss Vera Morrell, Miss Myrtle Lambert, Mrs. J. R. Andrews, Robert Johnson, C. R. Price, Kenneth Morrell and James Frost. Song, "The Flag Without a Stain," by Fesdames Wm. Ramspeck and A. F. Embs.

Lincoln's Gettysburg Address, by Herbert J. Rushton.

Speaker of the Day, Attorney Joseph F. Cuddy.

Benediction, Rev. G. V. Hoard. Marine services will be held after the exercises at the park from the dock at foot of Dousman street, by C. F. Smith Corps No. 224, W. R. C.

Owing to the unavoidable damage to the cemetery property adjoining the G. A. R. burial plot, the Post deems it advisable to discontinue publication of the program.

SHRINERS HERE TOMORROW

PUBLIC WILL WITNESS RED FIRE PARADE IN EVENING THAT IS TO BE HISTORY MAKING

Shriners of Marquette will arrive in this city on Friday morning amid the roll of the drum and the blast of the horn.

The Lake Superior City Shriners will be received at the station by the Escanaba Shriners who will be ready to set to royally entertain the visitors in honor of the elevation of A. J. Young of this city to Grand Potentate of the Shrine.

The guests will be taken to the Ludington hotel where they will receive lunch with members of the local organization. At 2 o'clock Monday afternoon fully a hundred autos will convey the Marquette Shriners about the city, visiting points of interest. At 6:30 o'clock will occur the big dinner at the banquet hall at the Masonic Temple.

At 7:30 o'clock will occur the main and most stupendous event of the entire day. It will be at this time that the grand parade will be staged while red fire is burned up and down Ludington street. The parade will be headed by a squad of policemen who will be immediately followed by the Patrol band. Following the musicians who will be rendering fitting selections will be the carriage containing Grand Potentate A. J. Young. The carriage will be drawn by four snow white steeds and at the side will march the guards. Following the carriage will come the Shriners in full dress. This parade will be one of the most elaborate ever arranged in this city on a similar occasion.

In addition to the red fire, the street arch lights will be turned on for the occasion. The line will march from the Masonic Temple to Sarah street and return, doing their drilling at each block.

Nothing has been left undone by local Shriners to make the coming event a most memorable one for both the participants and the public.

PLAN EVENT FOR MONDAY EVENING

The Epworth League of the Swedish M. E. church will have an auction sale Monday night, May 31, at 8 o'clock. Ice cream, cake, coffee, etc., will be served. A cordial invitation is extended to all.

Alphonse Dubord of Harris was in the city yesterday on a business mission.

NUNN SAID TO HAVE ESCAPED

Reports gained circulation in the city last evening that Roy Nunn, who was recently captured by Marquette County officers in a cafe at Little Lake, had effected his escape from the Marquette jail. A telephone call to the Marquette sheriff last night failed to verify the report which was declared groundless by that official.

BUCKBEE HAS WAR RELICS

Cheever Buckbee of the Escanaba Granite and Marble Works, has on display in the windows of his establishment war relics from every war since 1812.

The collection which Fr. Buckbee has, is a most notable one and is doubtless worth thousands of dollars as curiosities. One of the most remarkable of his collection is a newspaper printed on wall paper at Vicksburg on July 4, 1863. The paper has yellowed with age, but sets forth in a concise manner the feeling of the south at that time. In one section, on July 2, it tells that Gen. Grant will never reach Vicksburg or at least he will not eat his July 4 dinner there, as he had said he would. In another section it says:

Two days bring great changes. The banner of the Union floats over Vicksburg. Gen. Grant has caught the rabbit. He has dined in Vicksburg and he did bring his dinner with him. The Citizen lives to see it. For the last time it appears on "Wall paper." No more will it enliven the luxury of mule meat and fricasseed kitten-urge southern warriors to such diet never more. This is the last wall paper edition, and is, excepting this note, from the types as we found them. It will be valuable hereafter, as a curiosity.

Mr. Guckbee also has other newspapers and many other war relics. Most of those of the civil war were secured by J. E. Buckbee, father of the local man, who served in the First Michigan Sharpshooters.

Among other things Mr. Buckbee has a flag sling which carried the Union flag into Petersburg, four men being killed and eleven wounded in the dash, carrying the flag.

He has a letter from the Daily and Weekly Express of Petersburg to Brig. General Wise, asking the release of a newspaper pressman who was fighting in the trenches. The letter stated that no other pressman was available at that time and it was of necessity that the epistle was written. Mr. Buckbee's father found the letter in the newspaper office when he took Petersburg.

Mr. Buckbee, himself a veteran of the Spanish American war, shows some copper shells used by the Spaniards. They were deadly poison.

The local man has a score or more of most valuable relics but one of the most important is a flintlock musket carried by a Buckbee in the Revolutionary war. It still has the powder horn attached.

It is worth the time of any man, no matter how busy he may be, to enter the marble works and view the war relics.

SALVATION ARMY PLANS PROGRAM

Members of the local Salvation Army corps are making elaborate plans for a special service to be held on Friday evening of this week when Col. Stephen Marshall, of Minneapolis and Major Boyd, of Milwaukee, will come here. Fajor Boyd is known as a great singing evangelist while Col. Marshall is a speaker of ability. Both will take part in the special program that will include in addition several numbers by local talent. The program promises to prove to prove one of the most interesting yet arranged by the local Salvation Army Corps. A feature of the evening will be the swearing in of several new soldiers and the "giving away of a baby" an annual function in the army organization.

Peter Larson of Danforth was in the city yesterday on business.

G. Hinderson of South Ford River was in town yesterday on business.

Sam Hoy came over from Gladstone yesterday.

G. W. Orblson of Appleton spent yesterday in Escanaba on business.

ESCANABA IS DOWNED

FIRST GAME OF SEASON FIND LOCALS BITING DUST AT THE HANDS OF MANISTIQUE TEAF

In their opening game of the season the Escanaba City baseball team yesterday met defeat at the hands of Manistique, at the Lake Michigan City by a score of 10 to 7. Until the eight inning the game looked like Escanaba's, but at this juncture the locals weakened and Manistique tightened, giving them the game by a good margin.

Garland served n the mound for two and a half innings when Van Effen was sent in but he pitched but two balls. Carroll finished the game, allowing but six blows.

The box score follows:

Box score table with columns: Team, ABR, H, E. Includes Escanaba (5-0-3), Manistique (10-7-7), and individual player stats.

Total 39 7 11 4

Three base hits--Freeland. Two base hits--Carroll, Hoffman, Walker.

Struck out--by Carroll, 2; Garland 1. Hits off--Garland 3 in 2 1/2 innings; off VanEffen 0. off Jarrol 6 in 6 innings; off Freeland 11.

WILL SHOW REAL ART

At South Park at 10 o'clock this morning one of the most momentous games in the history of baseball will be staged, when the Mirror and Press teams will clash in a near bloody conflict. The Press team is made up in its entirety of players who this spring and for several years past, have steadfastly refused big league contracts. In fact their ability on the diamond is so marked that it is seldom they can be induced to play in public and it was only for the edification of a few select connoisseurs in baseball that the team finally decided to allow the Mirror squad to compete with them in an exhibition game. Naturally, as a baseball game, the affair of this morning will be too one sided to be classed as a contest. But the real art displayed by the Press squad will fully recompense any who visit the park this morning and those who do attend should bear in mind that the opposing team is but a make shift aggregation that will be making a weak attempt to appear as competing with an entirely superior force.

It is for this season it was insisted by the members of the Press team that no admission fee of any kind should be charged for the entertainment of this morning.

Miss Alicia Nevenseller of Marinette is in the city visiting at the home of Mr. and Mrs. P. L. Utley.

A. V. MacGillis left last night for Menominee to attend the Knights of Columbus convention.

MANY TAKE PART IN EXCURSION

A large number of Gladstone and Escanaba people will go to Garden today aboard the steamer Saugatuck on the first excursion of the season arranged out of this port. The boat will leave the Gladstone dock at 8 o'clock this morning and will leave the Stephenson dock here at 8:40 o'clock. The Gladstone baseball team will accompany the party of excursionists and in the afternoon will meet the strong Garden team in a game in that city.

Baseball News of Day Tersely Told

DETROIT UP A NOTCH GIANTS WIN AT BROOKLYN

American League (Special to The Press.) Philadelphia, May 29.—Philadelphia and Boston played a double header today. In the first game Ruth had the Athletics shutout up to the ninth, with only one hit. Furphy walked Lapp singled with two out, Davis singled, scoring both runners and winning the game 2 to 1.

Batteries: Boston—Ruth and Corrigan. Philadelphia—Wyckoff and Fe-Avoy.

In the second game Philadelphia threw a scare into Boston, falling one shy in the ninth.

Batteries: Boston—Shore and Cadjy. Philadelphia—Bressler and Mc-Avoy.

(Special to The Press.)

St. Louis, May 29.—Detroit won the first game today and tied the score in the second, which was called in the ninth on account of darkness. Dauss, who was married this morning, held the Browns safe in the pinches. Wallace, the veteran shortstop was given notice of his release. The score of the first game: Detroit 7, St. Louis 1.

Batteries: Detroit—Dauss and Bakler. St. Louis—Wellman, Perryman, James, Hoch and Severoid.

The score of the second game: Detroit 3, St. Louis 3.

Batteries: Detroit—Covaleski, McKee and Baker. St. Louis—Loudermilk, Perryman and Agnew.

National League (Special to The Press.)

Pittsburg, May 29.—The first game

American League Philadelphia 2-5; Boston 1-6. Detroit 7-3, St. Louis 1-3. Other games rain.

National League St. Louis 0-5, Pittsburg 0-3. Brooklyn 1, New York 5. Philadelphia 4, Boston 9. Chicago 3, Cincinnati 1.

Table with 4 columns: Team, W, L, Pct. American League: Chicago (24-12-667), Detroit (24-14-682), New York (17-15-516), Boston (15-15-506), Washington (14-14-500), Cleveland (14-19-424), St. Louis (14-21-400), Philadelphia (12-24-333).

Table with 4 columns: Team, W, L, Pct. National League: Philadelphia (19-14-576), Chicago (21-14-600), Boston (18-17-514), Brooklyn (16-17-485), St. Louis (18-18-500), Pittsburg (16-18-471), Cincinnati (13-18-419), New York (13-18-419).

was stopped in the fifth inning with the score standing 0 to 0. Meadows pitched good in the second game until the ninth when he weakened, but managed to stop the rally of Pittsburg after they had scored two.

Batteries for the first game:—St.

Louis—Griner and Snyder. Pittsburg—Adams and Gibson.

The score of the second game: St. Louis 5; Pittsburg 3.

Batteries: St. Louis—Fendows and Snyder. Pittsburg—McQuillan, Kautlehner, Conzelman and Gibson.

(Special to The Press.)

New York, May 29.—Before a crowd of 15,000, Pfeffer pitched airtight ball until the fourth, when he was hit thrice, which, with two errors and a sacrifice fly, gave the Giants four runs and the game by a score of 5 to 1.

Batteries: Brooklyn—Pfeffer, Appleton and McCarty. New York—Tesreau and McLean.

(Special to The Press.)

Boston, May 29.—Running to first in the eighth, Rudolph suddenly stopped and crumpled to the ground. His physician said it was swollen tendon. He will be out of the game for some time.

Philadelphia outbatted Boston today but made five errors, losing the game by a score of 9 to 4.

Batteries: Philadelphia—Demaree, Chalmers, Baumgartner and Killifer and Adams. Boston—Rudolph, Crutchner and Tregresser.

(Special to The Press.)

Cincinnati, May 29.—Wild throws in the fourth gave the Cubs two runs. Saier had doubled when Williams went to bat. Two singles and an infield out, scored the Reds run in the fourth. Chicago won the game by a score of 8 to 1.

### A FORCE FOR PEACE.

When nearly all the great nations of the earth are bending all their energies to make destruction more efficient, it is cheering to read of a movement that gives promise of better understanding, and therefore of peace. It is a movement more hopeful than those which attempt to induce nations to cease doing the things they are now trying hardest to do, because it follows natural lines and promises to hasten a natural development. We refer, of course, to the Pan American conference, in itself evidence of a friendly spirit among American republics, and making for still closer relations and mutual benefit. As President Wilson said in addressing this conference:

"If there is any one happy circumstance arising from the present distressing circumstances of the world, it is that it has revealed us to one another; it has shown us what it means to be neighbors."

How easy it is to see that it is only natural that American commonwealths should find themselves knit together by a community interest. We need our Central and South American neighbors, and they need use. To-

gether we are charged with the responsibility for making the continent of America yield its best to the service of mankind. Better transportation, better commercial facilities, more visiting in each other's territory cannot but make us better friends. One recent circumstance is an especially hopeful thing. It is the decision of the South America, Argentina, Brazil larger and more advanced republics and Chile, to adopt the plan of maintaining the peace among themselves that is found in Mr. Bryan's peace treaties. To this is added a plan of doing something in the way of mutual defense against foreign aggression. The realization of these republics of their need will mean that they also realize the friendly service this country has performed.

All these things mean that the nations of America are beginning to base their relations on the need of friendship and mutual helpfulness, and not the mutual fear and jealousy which is wreaking havoc in Europe.

### INDUSTRIAL AND OTHER UNRESTS

Frank Walsh, chairman of the federal commission on industrial relations is an investigator who uses unique, or at least unusual methods. Very likely he has made some mistakes, but he has been steadily digging for facts, and with success. Hitherto, federal inquiries into industrial unrest have been conducted by judicially-minded people who filed noncommittal reports which were read only by the committee clerks who wrote them and the proofreaders who read proof on them, and which were hauled out and sold for waste paper.

Mr. Walsh's inquiry has been of a different character. While expert investigation, quietly carried on, was given its proper place, the chairman conducted public hearings which in one month gave the public more information as to the causes of industrial unrest than all the previous state or federal hearings put together.

Men who dominate the industrial and financial affairs of the country were put on the stand and quizzed as they had never been quizzed since the

days when they were schoolboys and robbd apple orchards. The commissions' agents dug up private records and letter files and men like the Rockefeller heard the bones of their business skeletons rattle, not in the closet, but in the ears of the American people.

The result is that industrial unrest is not the only sort of unrest which we observe. The Rockefellers are noticeably restless and are showing it by protesting and forcing their henchmen to protest against the commission's work. The latest complaint is against Mr. Walsh's audacity in telling the nation how the Rockefeller's managed the affairs of Colorado and how the governor of the state let them do it.

The character of the opposition which Mr. Walsh is constantly meeting is one thing in his favor. It indicates that his offense has been his success in putting facts before the people instead of into so safe and inaccessible a repository as a government report. The unrest of Big business, due to Mr. Walsh's activities, may be very annoying to it, but the situation produces conditions and fact which are giving the people information which they want and which they ought to have.

## WAR

London, May 29.—Although called upon to face another enemy in Italy, whose troops have crossed the northeastern border, the Austrians and Germans have not relaxed their efforts on the other fronts.

In middle Galicia they have assumed the offensive against the Russians along the river San and claim to have met with further success, while in Flanders and Artois the Germans continue, according to the French report, to make furious attacks in an effort to regain the ground taken from them in recent weeks and to hold that which they took from the British in the region of Ypres.

Except for the German admission that the British have captured part of their trenches to the northeast of Ghent, the reports of the belligerent headquarters continue to contradict each other, one side claiming gains while the other says that all attacks were repulsed with heavy losses. So far as the west is concerned, however, the fighting as has been the case for months, consists largely of trench warfare.

Successful progress still continues in the Galician district near Przemyel according to Vienna tonight, with the capture of additional men, guns and war material. In Russian Poland and south of the Dniester the situation generally remains unchanged.

On the west an engagement of extreme violence is in progress north of Arras, where the Germans are trying to retake captured positions, and a similar condition prevails at the northern outskirts of the wood north of the road from Aix-Noulette to Souchez where the French report a slight advance. The British are reported by Paris to have made a fresh advance near LaBassee. The British war office says that in this region, since May 1, the British have pierced the German lines for a total front of over three miles.

London, May 29.—The Times' Petrograd correspondent says the Russian military observers consider Przemyel at the present time quite safe and think there is no reason to apprehend

the envelopment or blockade of the fortress. The Times' correspondent with the Russian forces, in a dispatch dated at Ivangorod, gives a description of the Russian retreat to the river Dunajec to the San.

"The German attack on the Dunajec was unparalleled in history," says the correspondent. "Their batteries were massed first in tiers of field guns, then in howitzers and then in the heaviest of mobile artillery, which, by a torrent of uninterrupted shell fire, destroyed the Russian center. But in spite of the fury of the attacks, the Russians retired undemoralized and, when the San was reached, the gap was closed, the armies were stiffened by reserves, and the Austro-German onslaught was stayed. The Russian retreat, as a maneuver, will rank equal to the retreat from Mons.

"The German check on the San appears to have been due to the impossibility of supplying ammunition fast enough." London, May 29.—British aviators have destroyed the big railroad bridge over the Scheldt at Ghent, besides wrecking the railroad station and freight depots, says a Rotterdam dispatch to the Mail. The raid is believed to have spoiled German plans for a new railroad center at Ghent.

## WANTS BASES IN SET FLUSH

John H. Prentiss, a writer in the Baseball magazine, urges a number of changes in the baseball rules, one of which, he thinks, would improve baserunning. Prentiss' idea is not a new one, however, for it is none other than the scheme to have first, second and third base set flush with the ground. This plan has been talked over a number of times, but has never received any real consideration from the magnates.

"Why not have first, second and third bases set flush with the ground like homeplate," writes Prentiss. "The bags now used as bases lie on top of the ground."

"They have twisted and sprained many a knee and ankle. They slow up base running. A player dashing past a base must hesitate and catch his step, so that he can put his foot down safely on the bag. Otherwise he is thrown off his stride or misses the base entirely. A player sliding into a base often catches his foot or his spikes. In the bag and wrenches himself more or less seriously. He must run these chances or slow up and be careful.

"The fear of the twist or the sprain keeps back the development of all base running. These present bags are a holdover from the past. They belong to the time when there were no regular, permanent, baseball grounds. When teams wanted to play, they laid down their diamonds and put down bags to show where the bases were. With permanent grounds these bags should not be tolerated.

"The bases should be marked by squares set in the ground, not by bags laid on top of it. Then a runner could dash to and past first, second or third without hesitating or altering his step, making the strike with which he touched the case the same as any other stride. He could slide into bases without fear of catching his foot and wrenching himself. The change would improve base running, make it faster, commoner and less dangerous."

## STEEL CONDITIONS STILL IMPROVING

Of rapidly improving conditions in the iron and steel trade an exchange says:

The daily average of orders placed with the United States Steel corporation have so far this month been considerably larger than in April. There was a fair gain in railroad buying, and contracts for steel to be used in the manufacture of war munitions helped to swell the total.

During the past week or two, hundreds of additional hands have been taken on by plants in the Pittsburgh district. The United States Steel corporation is reported to have booked contracts to the value of \$5,000,000 from the American Locomotive company, for steel to be used in the manufacture of shrapnel and high explosive shells. Officials of the Steel corporation now believe that earnings for the present quarter will be between \$22,000,000 and \$23,000,000.

The Russian government is in the market in this country for 100,000 tons of rails, and it is said that more than one-half of this tonnage has already been covered by contracts.

"There is hardly a steel man today but expresses confidence in the future of the industry," says the Pittsburgh correspondent of the Wall Street Journal. "The sanguine ones declare that the trade is not far off from the most prosperous period it has ever enjoyed."

"To get an understanding of the situation one has to go back many months. The European war followed a long period of liquidation here and brought about the most stringent economies in every line. The public stopped buying. The small consumer of steel, the man who used nails, wire, etc., kept out of the market, and the demands from jobbers and others in consequence fell off. And the same things were evident in the case of the larger consumers. This led to a gradual using up of stocks and their practical depletion. For steel, of course, was being used all the time. The increase in buying that has been noticed during the last few months, it is claimed, means that there are practically no stocks of steel in the country now and that consumers, small and large, are buying from day to day just what they need for the work immediately on hand. The character of the buying proves that this is the fact.

"Within the past five months orders have been heaviest, but the increase in orders and production has not meant that stocks were being increased again. It really meant that stocks were so low they could no longer be drawn upon. If, then, actual pressing day to day needs of steel are sufficient to keep the steel mills running at from 65 per cent to 85 per cent of full capacity, it is felt that present operations represent the lowest equivalent of necessary consumption and that only a slight impetus is needed to bring about marked improvement.

"A decided increase of activity in any one important line, say railroad buying, would bring the mills to capacity operations, it is asserted by many authorities, and this would mean that consumers, for fear of not being able to get their needs filled in time, would have to place orders several weeks ahead at least. And full operations and good orders booked spell prosperity."

The Poetry of Woman.  
Man is like disconnected and uncouth prose, without harmony or beauty. That is why poets have always compared women with song, poetry, flower and river, but have never thought of comparing man with any of these. Woman, like most beautiful things in nature, is connected, well-developed and well-restrained.—The Craftsman.

## SAYS SALANDRA FOOLED BEULOW

Paris, May 29.—All France is awaiting Italy's opening moves. The newspaper bulletin boards were surrounded by crowds; the Italian embassy attaches were cheered wherever they made a public appearance and there were shouts of "Long Live Italy!" and "Long live Salandra!"

Salandra, the Italian premier, has become the idol of the hour. France is laughing at the way he outwitted the suave von Buelow, who attempted to overthrow him and his cabinet. Here in Paris they call Salandra "the foxy one."

Italy's program is being carried out as forecasted on May 22. On that day it was declared that Italy would enter the lists against Austria six weeks thence, barring international developments.

On May 4, six weeks later, plus just one day, Italy denounced the triple alliance, thus preparing the way for war. The 'international development' since have developed and are now history.

About March 20 Italy transmitted what was tantamount to a kid glove ultimatum to Austria. The message was communicated verbally through Duo d'Avarna, the Italian ambassador at Vienna. In effect he stated that Italy was vexed by Austria's procrastination and would strike unless her just claims were recognized within a reasonable time.

Austria was informed that Italy was unwilling to wait much longer than May 1, though no absolute date was set. Italy made it plain that she was not asking for concessions, but desired the cession of territory she considered rightfully belonged to her.

The Italian ambassador almost immediately became convinced that Austria would not cede the territory Italy demanded. He so stated to Rome and preparations went forward for war.

The delay since May 4 has resulted from the desperate eleventh hour efforts by Prince von Buelow the German ambassador at Rome, to steam the tide. Austria at first refused to take Italy seriously and attempted to put the matter over until after the war. When von Buelow finally realized that Italy meant business the matter was not only out of his hands, but out of the hands of the Italian government. The people of Italy had taken charge of the situation and they were demanding war.

In one last effort von Buelow asked more time to enable Austria to pre-

pare final offers. The Italian parliament, accordingly adjourned from May 12 to May 20.

It is understood here that instead of seeking new overtures from Austria the German ambassador used time granted him in an attempt to overthrow Salandra. The Italian premier knew of his efforts and smiled up his sleeve.

Salandra's resignation was the master coup. He offered it for a three-fold purpose; to test his own strength before parliament met, to prove to von Buelow that the jig was up and to furnish fuel for popular demonstrations in favor of war. The Garibaldi celebrations and the orations of the poet, Gabriele d'Annunzio, set the country clamoring for action.

Salandra had no doubt of the result when he tendered his resignation to the king. He knew he would return to power under highly dramatic circumstances with the country and parliament behind him. He proved quite as foxy as Anthony on another celebrated occasion of Roman history.

### Best Thing for Billious Attack

"One account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin, S. C. ## MRS. ALDRICH IS VERY ILL

New York, May 29.—With the announcement that the will of Nelson W. Aldrich had been probated at Warwick, R. I., it became known that his widow, Mrs. Abby P. Aldrich, is so seriously ill at her home here that she has not been told of her husband's death.

Mrs. Aldrich collapsed when her husband was stricken, and her condition has not perceptibly improved. Under the will she and three children, Edward B. Aldrich, Lucy T. Aldrich, and Richard S. Aldrich are executors and become trustees of the estate.

The estate is worth approximately \$5,000,000, and the heirs and legatees of the estate are the only persons interested, inasmuch as there were no public bequests and only members of the family figured in the probating of the will. The entire estate is left to members of the family.

## BEST PAID MEN IN ANY SPORT

Will the wonderful record made by the incomparable Alvin Kraenzlein, the greatest all-around track athlete who ever lived, be shattered at the Intercollegiate track and field meet today and tomorrow on Franklin field. Little more than a decade ago Kraenzlein scored 18 points in one afternoon in the Intercollegiate championships, winning first place in the 100-yard dash, the 120-yard hurdle and the 220-yard hurdle and second place in the broad jump.

This is a record that has never been equalled.

Now Cornell brings forward Alma Richards, the gigantic high jumper holder of the Olympic high jump championship. Richards has been priming himself all spring to enter a great many events in the Intercollegiate, but up to date has confined himself to three events. However, it is known that he has been hurdling every day at Ithaca, so the supposition is that Trainer Moakley expects to spring him as a surprise in the hurdles, where the competition is not very keen.

Richards has been high jumping 6 feet 4 inches in recent meets, broad jumping well over 23 feet in the same meets and putting the 16-pound shot over 47 feet. There is nobody in the colleges who can bet Richards in the two jumps and he is virtually sure to win both.

In the shot put only the champion Whitney of Dartmouth can surpass his work. This would assure him of two first and a second.

This puts it up to the hurdle races. If Moakley needs the points badly he will throw Richards into these two events and with his great strength and speed he will probably be able to get away with a first or second in each. This would give him the most marvelous record ever known in track and field athletics.

**Instinct and Reason.**  
The term "instinct" is supposed to refer to the intelligence which leads to the performance of actions that are adaptive in character, but, pursued without necessary knowledge of the relation between the means employed and the ends attained, while "reason" is supposed to be aware of such knowledge and to work accordingly.

Dr. J. O. Groos left last night for a business trip to Appleton.

J. Wade Weston returned to the city last evening after spending the week at Sidnaw and Marquette.

W. L. Davidson motored to Flat Rock yesterday.

## SALARIES HAVE REACHED LIMIT

Cincinnati, May 28.—That the time has come for the money men of baseball to which their step is the belief expressed by August Herrmann, chairman of the National baseball commission and president of the Cincinnati baseball club in an interview printed today.

Herrmann predicted that big league club with one or two exceptions, can not continue paying present high salaries to players. He says that many long-term contract holders face the alternative of accepting a reduced salary or seeing their club reach the place where it cannot pay its obligations.

Herrmann said he favored cutting down club rosters wherever possible and creating a "reserve list" players, to be drawn upon by owners or managers whenever it might become necessary to fill vacancies caused by sickness, injury or release.

Baseball owners are not taking in the money, with a few exceptions. Most of the plants are being run at a loss and a heavy one. This cannot be kept up indefinitely.

"The era of high salaries is passing. Next season will see a readjustment—not because owners are desirous of cutting their players' pay, but because it is either that or give up the ghost."

"How can any club pay less money than is called for in a contract with a player as long as that contract is in force?" Herrmann was asked.

"The reply was in the form of another question:

"Do you not think that if a player were confronted with the alternative of taking less money or seeing his club quit business he would appreciate the seriousness of the situation and accept a cut in salary?"

There is positively no feeling against the player in this matter. It is a business proposition. Men who operating losing baseball plants can't go on like this forever. This promises to be a disastrous season to many clubs. One favorable element in the National league is the close race for the pennant. On the other hand, the unfavorable weather has already lost a great deal of money."

## PASTOR OFFERS LIFE IN PLACE OF FRANKS.

Oakland, Ca., May 29.—Rev. Alonzo G. Mills, pastor of Emmanuel Presbyterian church, has written to the family of Leo M. Franks and the governor of Georgia, volunteering to take Franks' place at the impending execution, it is learned.

In his letter to the family Fr. Mills says he is confident that Franks is innocent and adds:

"I am well up in years; our youngest child is seventeen years old and well able to take care of himself, and I remember well how dear were life and loved ones when I was a young man like Leo Franks."

## How Mrs. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. obtainable everywhere.

## COLLEGE GETS \$10,000,000

Miss Mary Carey Thomas, president of Bryn Mawr college, will receive the bulk of the \$10,000,000 estate left by her friend, Miss Mary Elizabeth Garrett, daughter of the late John W. Garrett, president of the Baltimore & Ohio railroad. Miss Thomas is named executrix and residuary legatee under the will which has just been probated. Bryn Mawr receives no specific bequest, but the terms of the will indicate that Miss Thomas and Miss Garrett, who had been close friends for years, had an understanding that the college was to receive substantial benefits. The picture shows Miss Thomas and Baron Russell Briggs of Radcliffe college at recent college exercises.

## AMONG THE THEATRES

### THE DELFT

This house today has "The Return of Richard Neal" which will be displayed in three complete reels. Francis X. Bushman is appearing in the leading role in this picture. A comedy is "Sophie's Fighting Spirit" while another picture of note is "An Amateur Nurse."

For his Monday feature, Manager Jacobs has Mary Pickford, the highest salaried movie actress in the world, in Cinderella the century old story. The picture is a most beautiful one and must be seen to be appreciated.

### THE BIJOU

Manager Hines has an especially attractive program to offer the public today. The featured picture is "The Bombay Buddah." The Nestor comedy for today is "All in the Same Boat."

This program today should attract hundreds to this house and bring splendid results to this house manager.

For Wednesday "the house that Jack" will present "Your Girl and Mine."

### By Proxy?

A well-known metropolitan choral conductor was once holding voice trials preliminary to the organization of a colored choral club of jubilee singers. One of the soprano applicants was extremely reticent, when asked to sing a scale. Finally the director, becoming impatient, asked: "What's the matter—don't you sing?" "Well," she hesitatingly replied, "not personally."

### Lively Town.

First Boomer—"You fellows have no git-up about you at all. Why don't you have photographs of your town taken, like we did? Are you ashamed of it?" "Naw, that ain't the reason at all. I want you to understand, young fellow, that our town don't stand still long enough to be photographed."—Terre Haute Express.

## MAY BECOME NEW EPISCOPAL AREA

The amalgamation of the three Methodist Episcopal conferences of Michigan into a new Episcopal area with Detroit as its seat, is entered as an order of business at the general conference of the M. E. church to be held in Saratoga Springs, New York in May of next year. Concerning the project, the Detroit News says:

Detroit probably will be designated as the seat of a new Episcopal area, to include the two peninsulas of Michigan, and be assigned a bishop by the approaching quadrennial general conference of the Methodist Episcopal church, which convenes in Saratoga Springs, N. Y., May next. At present Detroit and the two conferences of this state are included in the Episcopal area, of which Buffalo, N. Y., is the seat.

The designation of Detroit as an Episcopal seat would be a tribute to the marked progress that Methodism has made throughout the state, and especially in the city of Detroit during the last six years. So successful has been the administration of the present Detroit district superintendent, Dr. Charles Bronson Allen, in gathering souls and building new churches and missions, that plans are being perfected to retain him in the

office although the discipline of the church forbids the re-election of a superintendent to the same district.

Dr. Allen's term expires at the next meeting of the Detroit conference in Port Huron, Sept. 15. To retain him in office it will be necessary to change the bounds of the present Detroit district. This may be done by taking out the territory beyond the limits of this city and adding practically the whole of the present Ann Arbor district to form a new Detroit jurisdiction. The plan includes the elimination of the present Ann Arbor district, making seven instead of eight districts in the conference. The territory taken out of Detroit district will be added to other areas. The plan is in accord with the wishes of the present presiding bishop of the Michigan conferences, Bishop William Burt of Buffalo, to reduce the number of district superintendents by enlarging the territory of some districts and eliminating others.

Cleveland already has entered the list of cities desiring designation as residences for new bishops to be elected at the next general conference, but the claims of Detroit are much stronger than those of Cleveland. Ohio already has a bishop resident at Cincinnati, Michigan, with a greater area of territory, has none. Officials of the church here say Cleveland has not a ghost of a show, despite the boosting the newspapers of the Ohio metropolis are giving the proposal.

There are at present on the board of bishops of the Methodist Episcopal church two who held pastorates in this state before their elevation to

the episcopate. They are Bishop Berry and Bishop Leete. Their familiarity with Michigan church problems may occasion the designation of one of them to Detroit. If not, Detroit would be assigned one of the six new bishops to be elected. Four Methodist bishops have died during the quadrennium—Bishops Warren, Smith, McIntyre and Walden, Bishops Hamilton and Cranston probably will retire on age limit.

The elimination of the Ann Arbor district is made possible this year by the retirement of Dr. Ramsdell, who has been Ann Arbor districts superintendent for the last six years. Other district superintendents who retire this year are, Dr. Leonard, of the Flint district, and Dr. Palmer, of the Port Huron district.

The annual fall convention of ministers and laymen of the Houghton district of the M. E. church will be held in Crystal Falls shortly after the Detroit conference. The date and program for the gathering have not been arranged because of the possibility of changes in pastorates though these details will be given attention as soon as District Superintendent W. E. Marvin returns from lower Michigan.

Rev. Marvin will go to Lansing next week to attend a conference of district superintendents.

# BIJOU THEATRE

MATINEE AND NIGHT

## Wednesday, June 2nd

The World Film Corporation, Presents

UNDER THE AUSPICES OF THE NATIONAL AMERICAN WOMAN SUFFRAGE ASSOCIATION

# "YOUR GIRL AND MINE"

A Dramatic Feature in Seven Reels

Not only as an argument for suffrage, but as a play with a story, a "punch" and a mission. "Your Girl and Mine" was produced under the direction of the National American Women's Suffrage Association.

Olive Wyndham forsook the "legitimate" stage for the time to pose as the heroine of the play. Katherine Kaelred, leading lady of "Joseph and His Brethren," took the part of a woman lawyer battling for the right. Sydney Booth of "The Yellow Ticket" company, posed as the hero of the experiment. John Charles and Katherine Henry played the villain and the "honest working girl." About three hundred secondaries were engaged along with the principals.

It is melodrama of the most thrilling sort in spite of the fact that there is a moral concealed in the very title of the play. But who is worried by a moral in a play which has an exciting hand-to-hand fight between a man and woman in one of the earliest acts—when the quick march of events range from a wedding to a murder and an automobile abduction scene that breaks all former speed records. "THE CAUSE" comes in most subtly and poetically, a symbolic figure that "fades in and fades out" at critical periods in the plot. Dr. Anna Howard Shaw, the famous suffrage leader, appears personally in the film.

"Your Girl and Mine" is a big play with a big mission built on a big scale. It is a whole evening's entertainment and a very interesting evening at that.

### FIRE MARSHALL ISSUES ORDER

The era of the wooden barrel as a garbage receptacle has passed. In an order received today by C. N. Dewey of Ishpeming, deputy fire marshal from the head of his department, it is made plain that galvanized or metallic garbage receptacles must be provided by each householder and that the practice of throwing paper and other combustible waste material in the alleys must be stopped at once. Deputy Dewey states he has received instructions to enforce this ruling and where it is not observed to start prosecutions. He calls attention to the state law bearing on this subject which reads:

Sec. Every person who shall deposit any rubbish, inflammable or combustible, or any ashes, burning coals or embers within ten feet, of any building, fence, sidewalk, pavement or other structure made of wood or other combustible material, or within ten feet of any wooden wall, partition, casing, floor or other woodwork of any brick, stone or iron building, or within ten feet of any lumber, timber, wood, hay, straw, shavings, rubbish or combustible material or substance whatever within the State of Michigan, except in metallic, earthen or other non-combustible vessels or receptacles, or in places especially designated for that purpose by the Chief of the Fire Department, shall be deemed guilty of a misdemeanor.

**W.E.R., Box 150, Escanaba, Mich.**

**Lincoln's Gettysburg Address**

Forty and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, so conceived and so dedicated, can long endure. We are met on a great battle-field of that war. We have come to dedicate a portion of that field as a final resting-place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But, in a larger sense, we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from the honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that that nation, under God, shall have a new birth of freedom; and that government of the people, by the people, for the people, shall not perish from the earth.

THE STATE SAVINGS BANK

### CANCER CURABLE IF TAKEN IN TIME

New York, May 28.—That ninety five per cent of cancer cases are curable in their early stages, that there is no specific for the treatment of all cases, that radium is overrated greatly as a curative agent, that the removal of facial blemishes is a prolific cause, of cancer and that the disease is increasing were statements made last night at a meeting of the medical Society of the Country of New York. The meeting was held with the cooperation of the American Society for the Control of Cancer. The subject discussed was "The General Practitioner's Responsibility in the Early Diagnosis of Cancer."

Dr. Sigmond Pollitzer, discussing skin cancers, said this disease had increased steadily for thirty years. Cases in men exceeded in number those of women in a proportion of two to one. Mistakes in diagnosis were frequent he declared, patients often being treated for other diseases with symptoms similar to those of cancer. He strongly condemned electrolysis and like methods of removing moles and other facial blemishes as dangerously conducive to the contraction of cancer. The X-ray likewise was potentially perilous he said. Hundreds of cases of successful treatment by radium had been reported, Dr. Pollitzer stated, but thousands of cases in which radium failed had not been reported. He advocated cutting out cancerous growths, and said that any hard protrusion on the skin was suspicious.

Dr. A. R. Robinson, professor of dermatology of the Polyclinic Hospital, advocated the burning out with caustic of skin cancer instead of cutting it out.

"Cancer is a pathological and anatomical condition caused by a wide variety of agents" said Dr. Robinson. "Each case requires separate and individual treatment. No single agent in the form of toxin or serum will cure all curable cases. The public must not be misled by statements or announcements that a cure has been discovered. Practically all cases of skin cancer, which constitute the vast majority of all cases, can be cured, if treated in time. All will kill if they are not treated in time. Cutaneous and buccal cavity cases are fatal because treatment has been applied too late. The value of an early diagnosis is great."

Slap at Chicago Culture. Miss Ritta—"Aren't you fond of dialect poetry, Mr. Dreestbeep?" Mr. Dreestbeep (of the Chicago Browning society)—"Well, James Whitcomb Riley and Eugene Field do very well; but I came across some poems by a fellow named Chaucer the other day, and he carried it too far."—Life.

**Lame Back.**

Lame back is usually due to rheumatism of the muscles of the back. Hard working people are most likely to suffer from it. Relief may be had by massaging the back with Chamberlain's Liniment two or three times a day. Try it. Obtainable everywhere.

**HAS TRADE SCHOOL FOR MEN**

Great Britain Fits Growth-Ups for Jobs Which Require Skilled Labor.

London.—One of the most interesting employment experiments in England is a trade training school for men, enabling them to shift from a trade temporarily stagnant owing to the war, into one where skilled labor is urgently needed. The experiment is being carried out by the Prince of Wales Relief fund, and if successful may be indefinitely extended.

Furniture trade was one of those adversely affected by the war, and a large number of skilled furniture workers have since become skilled laborers, on military equipment.

The school was opened December 7, last. In the first five weeks of its existence it enrolled 139 men, 64 of whom already have "graduated" and obtained employment as leather stitchers.

More than half of the men placed have been more than forty years old, and the report of the first five weeks' work in the school says men more than forty, "and indeed over fifty," are as quick and adaptable as the younger men.

**DODGED SCHOOL, MADE 'PILE'**

Country Boy Returns Home After Few Weeks' Absence Driving a Racing Car.

Hutchinson, Kan.—Henry Koehn, a country boy from Galva, McPherson county, was sent to Hutchinson a few weeks ago by his father to get an education in a business college. His father gave him \$250 and good advice.

"Now, Henry, be careful," his father advised. "This will be enough money. You can't have extras." Henry came back home, driving a 1915 model racing roadster. He wore a tailor-made suit and a diamond ring. Also he had in his pocket a bank book showing that he had \$2,500 or more on deposit in a bank.

A few days after his arrival in Hutchinson with his \$250, he fell in with a friend of his father, a grain man. Henry was tempted. He invested his \$250 in wheat. Usually it pans out the other way. In Henry's case it didn't. Some say he cleaned up as much as \$7,000. Henry is not going to school.

**Cat Mothers Chickens.**

Connersville, Ind.—A motherly cat has taken a brood of chickens belonging to L. A. Watson of Spring Hill into her keeping. She sleeps with the chicks, watches over them and when one runs astray from the others overtakes it and carries it tenderly, by the nape of its neck, back to its mate.

### RECOVERS FAMILY HEIRLOOM

Man Also Gets Apprenticeship Papers of Grandfather Binding Him to Temperance.

Santa Fe, N. M.—Supt. J. H. Wagner of the public schools of this city has just come into possession of interesting heirlooms that had passed out of his family, but which he relocated in eastern Indiana, where they had been taken from Lancaster county, Penn. They include an old-fashioned walnut chest, made over a hundred years ago, when each piece of furniture represented the work of an individual craftsman, instead of being a mere collection of pieces made by machinery and assembled in a warehouse; a colonial walnut bureau and other pieces of furniture.

In one of the bureaus was found an old indenture of apprenticeship, binding out Mr. Wagner's grandfather as a millwright apprentice. Contrary to prevailing opinion, there were pronounced temperance ideas in those days, for the indenture bound young Wagner to keep away from public taverns and gambling places.

These heirlooms had been sold at public auction years ago, but were recovered through the agency of friends. The walnut chest still has upon it shipping instructions via the old Erie and Maumee canals, in the days before the railroads.

### CHILD DANCER A SENSATION

Virginia Myers, daughter of Jerome Myers of New York, made her first public appearance as a dancer when she was four years old. Her dances are original, unrehearsed and spontaneous. Virginia is now nine years old.

### HAS TRADE SCHOOL FOR MEN

Great Britain Fits Growth-Ups for Jobs Which Require Skilled Labor.

London.—One of the most interesting employment experiments in England is a trade training school for men, enabling them to shift from a trade temporarily stagnant owing to the war, into one where skilled labor is urgently needed. The experiment is being carried out by the Prince of Wales Relief fund, and if successful may be indefinitely extended.

Furniture trade was one of those adversely affected by the war, and a large number of skilled furniture workers have since become skilled laborers, on military equipment.

The school was opened December 7, last. In the first five weeks of its existence it enrolled 139 men, 64 of whom already have "graduated" and obtained employment as leather stitchers.

More than half of the men placed have been more than forty years old, and the report of the first five weeks' work in the school says men more than forty, "and indeed over fifty," are as quick and adaptable as the younger men.

Father Marceau, pastor, Father Blin, assistant. Sunday, Low mass at 8:00 a. m. High mass at 10:00 a. m. Vespers and benediction at 7:30 p. m. Daily, mass at 7:30 a. m.  
Father Marceau, Pastor, Father Blin, Assistant.

**St. Patrick's Church**  
Sodality Mass, 7:00 a. m. Parish Mass and Sermon 8:00 a. m. Children's Mass and Instructions 9:15 a. m. High Mass and Sermon 10:30 a. m. Sodality Conference and Benediction 2:30 p. m. Meeting of Co. B., 7:30 p. m. Meeting of Co. C., Monday 7:50 p. m. Meeting Co. A., Tuesday 8:00 p. m. Holy Hour Friday 7:30 p. m. Daily Masses 7:15 and 8:00 a. m. Rev. F. X. Barth, pastor, Rev. E. N. Feldhaus, assistant.

### LIST OF LETTERS.

List of letters remaining unclaimed at the Escanaba, Mich., postoffice for the week ending May 29, 1915.

Ayotte, Theophile.  
Cooper, Mrs. W. H. Cumberland, D.  
Gereau, Mrs. Medrick  
Henrichs, Mrs. Herman.  
King, J. E.  
Lavattin, Mrs. Jack  
McDonald, Mrs. Frank  
Miller, Mrs. Fred  
Millet, Arthur (2)  
Mdon, Tom  
Stanton, E. A.  
Scheviff of Jpignitieldi-7, Yu  
Stage, Jas.  
Square, Deal (2)  
Taylor, John  
Willet, E. S.  
Woller, Edward H.  
Zonder, Mrs. Jno.  
Persons calling for any of the foregoing letter will please say advertised and give date.

M. DOHERTY,  
Postmaster.

### Election Notice Relative to Bonding the Township of Cornell for Highway Purposes

A petition having been filed with the Township Board of the Township of Cornell County of Delta State of Michigan, signed by twenty-five or more free holders of said Township requesting that the matter of bonding said Township in the sum of \$2500.00 to build a turn pike road from Paquetts Farm to True Farm in said Township be submitted to the qualified electors within ninety days after the filing of said petition, in accordance with law;

Therefore, Notice is hereby given to the Qualified Electors of said Township that a Special Election will be held at The Town Hall within said Township, on Monday, the 21 day of June A. D. 1915 for the purpose of voting upon the proposition to bond the said Township of Cornell for the sum of Twenty-five hundred dollars (\$2500.00) at a rate of interest not exceeding five per cent. All women having property assessed for taxes within the township and having the qualifications of male electors, can vote upon this proposition, provided their names are duly registered.

Said turn pike road to commence from the N. E. corner of Paquetts farm running west on Section line (4) miles to True's Farm.

The election will be by ballot in the following form:

For the Issuing of Township Bonds to build 4 miles of turnpike road ( ) YES.  
For the Issuing of Township Bonds to build 4 miles of turnpike road ( ) NO.

The Polls of said election will open at 7 o'clock a. m., and will remain open until 5 o'clock p. m. of said day of election, unless the Board of Election Inspectors shall, in their discretion, adjourn the polls at 12 o'clock noon, for one hour.

Dated this 26 day of May A. D. 1915.

By order of the Township Board of said Township.

FRED HOLM,  
Clerk of Said Township.

NOTE:-This notice must be published once at least in a newspaper printed within the Township, if any there be at least two weeks before the election. Otherwise in a newspaper printed in the County and circulated in the Township.

The exact improvements to be made can be given; also the time bonds are to run and other information regarding loan.

1975-147-44.

### First Presbyterian Church

The morning services will be held the usual hour, 10:30.

Special attention is called to the change of the Sabbath School hour. In place of meeting at 9:30, we shall meet from now on promptly at 12 o'clock. Our bible study and prayer service will be held as usual in the church, Wednesday evening at 7:30. Our study next meeting is of the life and character of Jacob, Gen. 25-35.

This Sabbath we expect to begin the work of a men's Bible class in connection with the Sabbath School work. Our study at the beginning will be concerning the life and development of the early christian church. The lesson for this week is in the 14th chapter of the book of the Acts. The invitation is to all men who wish to come. You will not be alone when you come for a goodly number of men have already promised to lend their support and try to win the blessing.

**Christian Science Society.**  
325 So. Fannie St.  
Services at 10:45 a. m.

Wednesday Evening Meetings at 7:45 p. m.  
Sunday School at 9:30 a. m. All are Welcome.

**St. Stephen's Episcopal Church.**  
Corner Ayer and Wolcott Streets.  
Morning Prayer and Sermon at 10:30.

### THREE KILLED TRAIN HITS AUTO

Racine, Wis., May 28.—Mrs. Christian Hansen and her two children were instantly killed this afternoon when their automobile was struck by the 1:25 o'clock northbound passenger train on the Chicago & Northwestern railway.

The automobile came to a stop on the Durant road crossing, directly in front of the train.

The husband, who was driving the car, was so badly injured his recovery is doubtful.

Apparently the engine had balked after the car had taken the elevation necessary to cross the grade. The machine was thrown over sixty-feet and its occupants scattered along the right of way.

When passengers reached them the woman and two children were found to be dead. The husband was put aboard the train and brought to this city.

The family lived on the Durant road and were returning from a marketing trip to the city.

### WANTED

**WANTED TO BUY—A five or six room cottage with modern conveniences in good location in city. Not over \$1200 and easy terms. Address all particulars to "X. Y. Z." Morning Press. 127-81.**

**WANTED TO PURCHASE—at the right price, second hand five passenger automobile. Must be in good condition. State make of car, horsepower, condition and lowest price in first letter. Address X. Y. Z. Morning Press. 134-ft.**

**WANTED—To hear from owner of good farm for sale. Send cash price and description. D. F. Busu, Minneapolis, Min. 87-108-122-126-157-171**

**WANTED—Any intelligent person may earn a good steady income corresponding for newspapers. We request subjects. No experience required. Address Press Correspondence Bureau, Washington, D. C. 122-124-125-126-138-139-150-152-153.**

**WANTED—To rent, 3 or 4 furnished rooms for light housekeeping, by married couple with baby girl two years old. Modern preferred. Address, stating price and location, C. R. R. care, Morning Press.**

**WANTED—Place to room and board with good family by young woman holding responsible local position. Must be centrally located. Inquire at Press. 3t.**

**WANTED AT ONCE—Good girl for general housework. Enquire either 929 or 930 Stephenson avenue. 1979-148-3t.**

### FOR REST

**FOR RENT—6 rooms, modern conveniences. Rent \$10.00 per mo. Inquire Neil Gallagher 1329 Ludington street. 1873-126-ft.**

**OR RENT—Nicely furnished room in modern house, with private family. Inquire at 1005 Jacob street. 133-ft.**

**FOR RENT—Rooms at 1018 Ludington St., Upstairs. Inquire of A. Baum. 1915-133-ft.**

THE DIAMOND BRAND

For Constipation, Biliousness, Indigestion, Headache, Neuralgia, Rheumatism, etc.

Take one or two pills after each meal, and before going to bed.

DIAMOND BRAND PILLS are the only pills known to the world. Always reliable.

SOLD BY DRUGGISTS EVERYWHERE

# WAR HAS CUT CREOSOTE OFF

Owing to a falling off since August 1 of nearly 30 per cent in shipment of creosote from England and Germany, when comes all but a small part of the imported oil used by wood preserving plants in this country, American manufacturers have taken steps which, says a report compiled by the forest service, it is estimated will increase production of the domestic article by about 25 per cent.

The imported oil ordinarily forms about 65 per cent of the total used in the United States, where creosote is the most important wood preservative.

The statistics gathered show that wood preserving is one of the most rapidly advancing industries in the country.

In 1895 there were fifteen plants in the United States; in 1914 there were 122 plants of all kinds, 100 being of the pressure-cylinder type.

Ninety-four of these plants last year used more than 79 million gallons of creosote oil, more than 27 million pounds of dry zinc chloride, and nearly 2 1/2 million gallons of other preservatives, such as coal tar and crude oil, treating a total of nearly 160 million cubic feet of timber, an increase of about 7 million cubic feet over 1913, and of 35 million cubic feet over 1912.

The most important consumers are the large plants in which railroad ties are treated. The preservatives materially lengthen the ties' period of service, lessen the labor cost involved by renewal, and decrease the drain upon the forests due to tie-cutting.

To some extent the treatment of fence posts and other forms of farm timber is being taken up, an inexpensive apparatus and method having been devised by the department of agriculture; but as yet the use of wood preservatives by farmers is on too small a scale to have any importance in the total while the practice of treating telephone poles is in its incipiency in this country.

"With the rapid advance of this industry as a whole," says the report "the choice of preservatives has been fairly well established, but the kinds and classes of materials to be treated need development along certain lines. In Germany and other European countries practically all cross-ties laid by the railroads are treated with chemicals or preserving oils. In this country 30 per cent of the ties purchased by the railroads are subjected to such treatment. The number of poles treated in this country is a very small per cent of the total in use."

# JESS' VICTORY WAS DECISIVE

Milwaukee, Wis., May 29.—A statement appeared in a Toronto paper the other day, purporting to be an interview with Tom Flannigan, former advisor to Jack Johnson, ex-champion in which he was quoted as saying that Johnson was not knocked out by Jess Willard, and that the colored man made a monkey of the white hope until his strength was all gone, when he gently laid down and pretended to be counted out.

There must be something wrong with the alleged interview, for it is not believed that Flannigan is the kind of a man to make such a foolish statement. If Johnson "gently laid down" then it was the nearest bit of acting seen in many a day, and completely hoodwinked a large bunch of boxing critics about the ringside and thousands of enthusiasts near by. It sure would be an awful shock to have the many experts at the ringside believe that Lill Arthur had turned such a

trick on them, but it would require more than the Toronto story to convince even one of its correctness.

After the battle Tom Flannigan told friends that Johnson had gone down fighting the best he could; that his strength was gone, and that he could not further defend himself. That part is true, for Johnson was all in when Jess Willard did put on the finishing touches; but as to Johnson making a monkey out of Willard and beating him about as he pleased, is absolutely incorrect.

Big Jess even out-boxed Johnson at times, and as Jack Welsh, the referee, said, he could have beaten the colored man any time he cared to push the fight after the eighth round. Willard played a safe game, and proved a better waltzer than Johnson himself, for in the past Jack was always the waiter and made his opponent go to him. Jess was urged by his manager, Tom Jones, to play safe and that no doubt held him back longer than necessary. When Willard did cut loose in the twenty-sixth round it was evident to all that Johnson was weakening fast. Jess just turned on full steam and drove a right-hand body blow under Johnson's heart so hard that the colored man began to double up, but before he had a chance to get down, Willard stepped back an instant and then let his right go again—this time to the point of the jaw. It was a terrific blow, and Jack went down like a shot and rolled over flat on his back. He did not lie down "gently," but went down full length with a thud, and it was 20 (not 10) seconds before he was picked up by his seconds. Willard beat him fairly, and Johnson's handlers should be men enough to admit it.

The decision of Dr. J. Tortorich, the New Orleans promoter, to join hands with Tommy Burns, the former heavy weight champion, will, no doubt mean a boost for the game in the Crescent City. Last fall Burns entered the boxing game in New Orleans after Tom McCarrey. Then began a war for matches between the man who really has kept the boxing game alive in New Orleans for the last 10 years and the newcomer. It promised to prove disastrous to both.

It was the same old story of one trying to outbid the other, with the result that the boxers got practically all the receipts and the promoters did the "digging." It was Dominick Tortorich who worked his head off to get the boxing bill passed, but the boxers never gave him a thought when it came to making matches.

Then both Tortorich, and Burns began to realize what "fish" they would be for the fighters and managers, so they wisely concluded to stop bidding sky high prices and join forces. Tommy Burns had announced that he would stake a Clabby-Gibbons title match, but it developed that Tortorich had Gibbons signed to a contract that was binding. It is planned by Tommy and Dominick to stage three big championship matches next winter during the race meet and Madri Gras, the first to be between lightweights, the second a battle of middleweights and wind-up of the carnival with a title match between heavyweights—Jess Willard defending the crown. It means a betterment of the boxing game in the Crescent City.

The first match of importance under the new agreement at New Orleans will in all probability, feature Jimmy Clabby and some star middleweight for the middleweight title. Mike Gibbons is under contract to Fr. Tortorich to fight Clabby or any one he may select, but the chances are that this carnival of championship matches is held. July 4 will be the date of the Clabby match and the distance will be 20 rounds at the middleweight limit.

Stephen Posinsky of Ford River was in the city yesterday on business. Mr. Posinsky is an up-to-date farmer, and reports, that the recent frost did very little damage to growing grain crops, but injured the fruit crop somewhat.

For horse races: 1st. prize, a fine pipe, donated by Blomstrom & Peterson; 2nd. a horse net, by Jos. Beauchamp; 3rd. prize, a lap robe by L. Sheedlo and 4th. prize, a beautiful horseman knif, by the Escanaba Hardware Store.

It is understood that the first winners will be given the choice of the prizes.

Two of the peal of bells ordered for the new church to be built next summer, are here now. Carpenters are at work to mount them on a temporary stand and they will be heard on the 6th of June for the first time and will greatly help to the coming celebration. The bells are from the famous Menelly Bell Co. of Troy, N. Y. The first bell is 1200 lbs. key of A-flat and the small one is 350 lbs. key of E-flat. A middle bell, key of C will be ordered later and will complete the chimes.

# ARRANGE FOR GREAT RECEPTION

Particularly elaborate plans are being made at Menominee for the entertaining of the Royal Neighbors of Delta county when they go to that place on June 10 to attend the annual district convention.

The Menominee Herald Leader says:

Mrs. C. B. Slade, vice oracle of the Michigan Royal Neighbors of America was in Menominee yesterday in regard to the extensive preparations in progress at the present time for the convention of the Menominee and Delta county societies to be held here Thursday, June 10. More than 400 people from the two counties are expected to be in attendance.

The convention was held in Escanaba last year. About 125 were initiated into the society at that time. This year a class of 200 will be initiated into the two camps of the organization, the Royal and Capitola.

The Menominee and Delta societies were organized four years ago at Gladstone by Mrs. Slade. The second convention of the Royal Neighbors was held at Rapid River. Escanaba was the meeting place last year. Menominee will have the largest initiation class in the district.

The visitors and local members of the organization, will convene in the Odd Fellow's hall. They will arrive in a special coach at 9:20 o'clock on the Chicago and NorthWestern road. Representatives from the five camps, Gladstone, Rapid River, Escanaba, Royal and Capitola camps will be in attendance.

Mayor F. H. Lloyd will deliver the address of Welcome to the visitors. The Rev. F. A. Kuder will give the invocation. Mrs. D. M. Wilcox and R. A. Packard will render vocal solos at this session.

# OBSERVE MEMORIAL DAY

(Continued on page one.)

services at the cemetery.

The various patriotic organizations of the city will be present this morning at the First Methodist church at the regular service. The program that will be given here follows:

Offertory ..... Orchestra

Hymn ..... "Rock of Ages" Congregation

Memorial sermon—Rev. Guy V. Hoard Men's Chorus

"The Call of the Roll on High" ..... Congregation

"America" ..... Congregation

Benediction

# WOMAN'S LETTER IS CENSORED

Marinette, Wis., May 29.—Sugar is 28 cents a pound, and

Such was the aspect of the last page of a letter received by Mrs. John Lambeau, 1412 Elizabeth avenue, from her sister in Lintz, Austria.

What was the message which caused the mail censor to reach for his brush? Was it a further enumeration of high food cost in Austria? Or did it say that food was becoming scarce at any price? The black brush of the censor has done its work well, and under its strokes the sister's message never can be deciphered.

This war is no abstract thing of maps and headlines for Mrs. Lambeau. It is to her a vital thing, with a nightmare's horror, but with a stern reality to face instead of a dream. For Mrs. Lambeau has four brothers, all of whom are fighting in the German army.

Three of the brothers are in the same regiment. From these Mrs. Lambeau has had news. Two of them were wounded, but after a stay in a hospital, have gone back to the battle again.

Of the fourth brother nothing has been heard since the early weeks of the war, when Germany was still invading Belgium. He was with one of the first columns.

# RACES WILL BE CHEIF ATTRACTION

The horses and motorcycle races to be held in Schaffer on the 6th of June are already causing lots of excitement. Every evening some of the ambitious races are practising around Schaffer and surely the prizes will be warmly contested. The Rev. Father Poulin, who does not neglect any opportunity to raise the ambition of his people was in town the other day and now announces that the following the prizes he has secured for the winners:

For motorcycle races 1st. prize, a Khaki uniform suit, donated by the Fair Store; 2nd. prize, a fancy shawl donated by the Grand Dept. Store; Menominee; 3rd. prize, a fine sweater, donated by Young & Fillion and 4th. prize, a pair of auto gloves by the Ed. Erickson Co.

For horse races: 1st. prize, a fine pipe, donated by Blomstrom & Peterson; 2nd. a horse net, by Jos. Beauchamp; 3rd. prize, a lap robe by L. Sheedlo and 4th. prize, a beautiful horseman knif, by the Escanaba Hardware Store.

It is understood that the first winners will be given the choice of the prizes.

Two of the peal of bells ordered for the new church to be built next summer, are here now. Carpenters are at work to mount them on a temporary stand and they will be heard on the 6th of June for the first time and will greatly help to the coming celebration. The bells are from the famous Menelly Bell Co. of Troy, N. Y. The first bell is 1200 lbs. key of A-flat and the small one is 350 lbs. key of E-flat. A middle bell, key of C will be ordered later and will complete the chimes.

# NOTICE

All Spanish War Veterans are requested to meet at Judge Glaser's office Sunday morning, May 30th at 10 o'clock to attend Memorial services at the Methodist church. On Monday, May 31, all Spanish War Veterans will meet at the Armory on South George street at 9 o'clock a. m. to assist the G. A. R. in their services at Lakeview cemetery.

# BIG CORPORATION HAS REORGANIZED

The Lake Superior Iron and Chemical Company, with plants at Manistique, Marquette, Ashland and Elk Rapids, has been re-organized under the name of the Charcoal Iron Company of America. Of the re-organization of the corporation and plans that are being made to resume operations at two of the plants an exchange says:

A re-organization of the Lake Superior Iron and Chemical company has been effected under the name of the Charcoal Iron Company of America, and this week a meeting of the officials was held at Manistique to formulate plans to put into operation the plants in both the upper and lower peninsulas. The foreclosure proceedings against the Lake Superior Iron and Chemical company, now pending in the United States district court, are in compliance with the requirements of the law, and within a few weeks time the reorganization will be complete. It is the intention that all of the furnaces, with the exception of that of Elk Rapids, shall be down in by Oct. 1.

"Repairs are now in progress at the Manistique and Ashland plants," said General Manager G. J. Webster yesterday, when questioned as to the plans of the company. "I expect that the Ashland furnace will be blown in about Aug. 15, and the Manistique plant Sept. 15.

"All the plants with the exception of that of Elk Rapids will be running by October. At Elk Rapids the wood supply has become exhausted, and the plant will not be operated unless there should be experienced an unusually high iron market. The same is true of the Chocloy furnace near this city.

"My recent trip to England was to perfect the finances of the company. The capital necessary to get operations under way at all of the plants is now available. The arrangements were made through J. P. Morgan and Co."

At the meeting of the officials at Manistique contracts were let for the erection of a solvent plant to be operated in connection with the furnace. It will have the largest capacity of any in the country.

The new plant will manufacture a solvent that, prior to the European war was imported from Germany in immense quantities. The solvent, which is a by-product has a ready sale in this country and abroad. The foundations of the new plant are ready, and the necessary apparatus has been ordered. The laying of the brick work will be commenced within two weeks. The plant will cost approximately \$90,000.

Following are the officers present at the meeting in Manistique: George J. Webster, general manager; C. J. Wilson, traffic manager; F. W. Hutchins, treasurer; H. O. Bingham, auditor; R. F. Richard, purchasing agent; E. R. Phelps, land agent; H. B. Webster, chemical expert; A. R. Cussell, secretary to general manager; W. E. McRandle, manager of the Yale mine; James C. Edmundson, manager at Manistique; R. W. Durrett; Newberry, manager; H. C. Magoon, Elk Rapids, manager; E. Bisett, Ashland manager and J. D. Dunn, Boyne City manager.

# NOTICE

The Public Library will be closed all day Memorial Day with the exception of two hours in the afternoon from 4 to 6 o'clock, when the reading room will be open.

# TOO LATE TO CLASSIFY.

LOST—Book street car tickets. About 20 had been used. Printed for between Escanaba and Flat Rock. Finder return to Gross Drug store and receive reward. 150-3t

FOR RENT—House at 420 South Oak street. Inquire at same number. Phone 221-J. 1991-150-3t.

# YOUNG MEN WANTED

For Government Positions, \$60.00 to \$125.00 a month. If you are over 18 and in good physical condition address W. E. R. Box 159, city. 1989-150-3t.

# PAPER SAYS U. S. IN DIFFICULTY

New York—A survey of economic and political conditions in the United States appears in a recent issue of The Hamburger Fremdenblatt. "Lack of employment is steadily on the increase, it says. "In New York City alone there are said to be 300,000 people out of work, and the troubles in Mexico and the China-Japanese war make matters still worse. The Germans and the British have turned against the government because its attitude is favorable toward England. The Americans, on the other hand, object that the country would be ruined if the gigantic export of weapons, ammunition, horses, clothing, wool and provisions had not served the situation.

Their attitude in the east continues to be anti-German, but in the south there is also a great animosity to England because cotton cannot be exported; the west is for the most part pro-German.

"The Press is no real guide to the feeling amongst the people. The conflict between China and Japan, which is of such great importance to the feeling amongst the people. The conflict between China and JaPan, which is of such great importance to the United States, does not affect the people at all. This shows how their political instinct is to be estimated. President Wilson's re-election seems to be out of the question; the whole country will feel it badly if they make Germany their enemy. The day of reckoning will not fall to come and Germany will not be the loser."

## WHITE BOOK IS ISSUED

### GERMAN GOVT. MAKES REPLY TO REPORTS OF AWFUL CRIMES ON BELGIAN POPULACE

#### BULLETIN

Rome, May 29.—It is officially announced that the Italians have captured Ala.

#### BULLETIN

Rome, May 29.—On the Trentino frontier the Italian artillery at Agnole and Astago continued the bombardment of the enemy forts which still reply us vigorously. Three forts were damaged seriously.

(Special to The Press.)

Washington, May 29.—Until the official text of German reply to the American note is received probably tomorrow, President Wilson will reserve comment. This word came from the White House tonight. It is known, however, that the United States is prepared to controvert every one of the points mentioned in summary of the German reply received from Berlin. Evidence of indisputable character was gathered by the Washington government prior to the sending of its note May 13 to prove that the Lusitania carried no guns, either mounted or unmounted, that she carried no explosives within the meaning of American statutes and that no British vessels have cleared from American ports for several months carrying guns of any character.

The British Ambassador here is prepared to transmit assurance from the British government that the Lusitania was unarmed and that she could not be carried on the naval lists as an Auxiliary cruiser unless she were armed and commissioned, the latter change from peaceful merchantment to an Auxiliary cruiser being possible, according to the British practice, only in home ports.

(Special to The Press.)

Paris, May 29.—Official—North of Arras we have realized further progress. After repulsing completely, the German counter attack against our trenches at Ablain-St. Nazaire, which was reported this morning, we took the offensive and at first carried a greater part of the Ablain houses, still held by the enemy. Subsequently we carried the rest of the houses, so that we now are masters of the entire village. We annihilated or put to flight three German companies during the engagement.

Near Thioncourt we brought down an aeroplane which caught fire as it fell before our lines.

(Special to The Press.)

Washington, May 29.—The British Embassy issued a statement tonight reminding the purchasers of merchandise in Germany that the shipment of these cargoes will not be permitted after June 15.

(Special to The Press.)

London, May 19.—Despite the violent Russian counter attacks the Austro-German armies are slowly closing a circle around Przemysl according to advices from Vienna and Berlin. The Russians brought up heavy forces from the Caucasus in an effort to stem the teuton drive on the Lemberg railway. These reinforcements were released by a lull in that theater.

(Special to The Press.)

Amsterdam, May 29.—The German Government just issued a white book in reply to the charges of extreme and unwarranted cruelty to civilians in Belgium, which was made against the German troops in two official reports. The white book declares that immediately after the opening of war in Belgium there was a "wild fight of the entire people against the German troops." This, it declares is "flagrant violation of the international law."

"That the Belgian civilian population of every rank, age and sex, with the greatest fury, participated in the ranks against the Germans, is proved by overwhelming testimony," the white book declares. "Beyond doubt it has been proven that the German wounded soldiers have been robbed and murdered, nay, even mutilated in the most horrible manner and that even the women and young girls took part in such horrible crimes. The German wounded soldiers have had their eyes gouged out, ears, noses, fingers and sexual parts cut off, their abdomen cut open while in other cases the German soldiers have been poisoned, hanged in trees, sprinkled with burning fluids and burned in other manners so that they died in the most painful way."

It takes particular exception to the portion of the Bryce report, which declares that women were violated and

## CHURCH SUPPER IS ARRANGED

The Swedish Mission church, corner of Wells avenue and Sarah street, will give a supper on the evening of Monday, May 31st. Supper is to be served from 6 p. m. to 8 p. m. A charge of 25c for adults and 15c for children will be made. It is hoped a large number of patrons will attend.

## AGGIES ARE CHAMPIONS

(Special to The Press.)

Lansing, May 29.—The Michigan Aggies copped the state intercollegiate baseball title by defeating the University of Michigan 4 to 2 in the final game of the series. Sisler, the Michigan star southpaw, tried to save the Wolverines in the sixth when he replaced Ferguson, but the farmers got to him for three runs in this frame.

## RIDGES ARE HERE TODAY

The crack Maple Ridge baseball team will travel to Escanaba today to open the local baseball season at South Park in a game with the Northern Beauties. The Ridgers this season have collected an unusually fast team while the Beauts have in their lineup some of the fastest young players in the city. The game will open at 2:30 o'clock and with fair weather prevailing a big crowd of fans should be present.

## BECKER LOSES FAITH AS TIME IS NEAR

(Special to The Press.)

New York, May 29.—Having abandoned all hope of escaping death in the electric chair week on July 12, Charles Becker, ex-police lieutenant convicted of the murder of Herman Rosenthal, bitterly defiant threatens to publicly repudiate the efforts of his wife or friends to appeal Governor Whitman for Clemency. "I'm through, I don't want anything done. I have lost faith in God and man."

## NO PAPER ISSUED TUESDAY MORNING

That employees of the Morning Press may join in a fitting observance of Memorial Day no paper will be issued from the Morning Press office on Tuesday morning.

## POST OFFICE WILL CLOSE HALF DAY

There will be one full delivery of the mail in the forenoon of Monday. The post office will be open from 9 a. m. to 11 a. m. and from 7 to 8 p. m.

children were grossly mistreated. "Whenever even suspected, infants, aged men and women were spared as far as possible," it declares.

Refuting many claims made in the Bryce report, the white book states: "Tales told by refugees and collected from them by the Belgian commission which called them absolutely unbiased, have every appearance of untruthfulness, if not of vicious fabrications. As matters stand, the commission was absolutely unable to test the correctness of the stories told to its members. Its accusations against Germany, therefore, were nothing but base libel." It declares that the Belgian Government is blamable for the violation of the international law by the Belgian civilians. It gives many instances to prove that the Belgian government contemplated, incited and encouraged the civilian population to rebel against the conquering Prussians and had provided them with arms and ammunitions in huge stores to carry on attacks.

## INSANE COSTS STATE MUCH

### NEXT TO EDUCATION COST OF KEEPING INSANE WAS STATE'S HEAVIEST EXPENSE FOR PAST SIX YEARS

Next to the cause of education, the care of the insane of the state, has cost the taxpayers of Michigan more than for any other single purpose in the last six years. Statistics that have been compiled by Auditor General O. B. Fuller show that the total cost of supporting the institutions for the insane of the state from 1909 to 1914, inclusive, was \$7,685,136.72. The cost of supporting the educational institutions of the state for that period was \$10,680,105.10.

For all purposes in six years there was spent in support of the state government the enormous total of \$37,352,817.95.

Following are the amounts spent in the six year period for different purposes:

Educational purposes	\$10,680,105.10
Charitable purposes	2,737,665.80
Penal purposes	2,500,356.80
Public Health	242,191.25
Insane	7,685,136.72
Military purposes	1,346,541.89
Highway purposes	1,956,000.00
State Boards and Commissions	1,126,935.48
Legislature	316,800.00
General purposes	8,361,570.00
Miscellaneous	399,294.91
Total	\$37,352,817.95

## TO HOLD FUNERAL MONDAY MORNING

Funeral services will be conducted Monday morning at 9 o'clock at St. Patrick's church over the body of Mrs. John Murphy, who passed away on Thursday evening after but a short illness. Rev. Father Barth will officiate. Interment will be at St. Joseph's cemetery. The sudden death of Mrs. Murphy has come as a shock to all who knew her and it is expected that the funeral of tomorrow morning will be largely attended. Those who will serve as pall bearers are: Patrick McCauley, Francis McCauley, James McKittrick, Thomas Quinn, Charles Chaison and P. F. Cannon.

Those who have arrived in the city to attend the funeral are: Peter and John Harrington and Miss Julia Harrington of Arcola, Ill.

Scores of beautiful floral offerings have been received at the Murphy home mutely attesting the high esteem in which the woman was held by all.

## SHRINERS HERE TOMORROW

### PUBLIC WILL WITNESS RED FIRE PARADE IN EVENING THAT IS TO BE HISTORY MAKING

Shriners of Marquette will arrive in this city on Monday morning amid the roll of the drum and the blast of the horn.

The Lake Superior City Shriners will be received at the station by the Escanaba Shriners who will be ready to set to royally entertain the visitors in honor of the elevation of A. J. Young of this city to Grand Potentate of the Shrine.

The guests will be taken to the Ludington hotel where they will receive lunch with members of the local organization. At 2 o'clock Monday afternoon fully a hundred autos will convey the Marquette Shriners about the city, visiting points of interest.

At 7:30 o'clock will occur the main and most stupendous event of the entire day. It will be at this time that the grand parade will be staged while red fire is burned up and down Ludington street. The parade will be headed by a squad of policemen who will be immediately followed by the Patrol band. Following the musicians who will be rendering fitting selections will be the carriage containing Grand Potentate A. J. Young. The carriage will be drawn by four snow white steeds and at the side will march the guards. Following the carriage will come the Shriners in full dress. This parade will be one of the most elaborate ever arranged in this city on a similar occasion.

In addition to the red fire, the street arch lights will be turned on for the occasion. The line will march from the Masonic Temple to Sarah street and return, doing their drilling at each block.

Nothing has been left undone by local Shriners to make the coming event a most memorable one for both the participants and the public.

## PLAN EVENT FOR MONDAY EVENING

The Epworth League of the Swedish M. E. church will have an auction sale Monday night, May 31, at 8 o'clock. Ice cream, cake, coffee, etc., will be served. A cordial invitation is extended to all.

Alphonse Dubord of Harris was in the city yesterday on a business mission.

## TO OBSERVE MEMORIAL DAY

### LOCAL PEOPLE WILL JOIN ON MONDAY IN GENERAL OBSERVANCE OF CUSTOM

The Memorial Day exercises will be opened tomorrow morning at 9 o'clock when committee's will gather at the Armory and go to St. Joseph's and St. Anne's cemetery to decorate the graves of the soldier dead in those cemeteries.

At 10:30 o'clock the C. F. Smith Post of the G. A. R. The Woman's Relief Corps, the Spanish War Veterans and the Sons of Veterans will go to Lakeview cemetery, where the ritual service will be carried out. Mrs. A. H. Rolf, president of the Woman's Relief Corps will read Lincoln's Gettysburg address. Following the service all will return to the Armory where dinner will be served by Women of the Relief Corps.

The parade to the park to be participated in by the various organizations of the city will be started at 2 o'clock and the program at the park will start at 2:30 o'clock.

The program at the park is: Double Quarter, selected—Mrs. F. L. Graham, Miss Vera Morrell, Miss Myrtle Lambert, Mrs. J. R. Andrews, Robert Johnson, C. R. Price, Kenneth Morrell and James Frost.

Lincoln's Gettysburg Address, by Herbert J. Rushton. Speaker of the Day, Attorney Joseph F. Cuddy. Benediction, Rev. G. V. Hoard. Marine services will be held after the exercises at the park from the dock at foot of Douglas street, by C. F. Smith Corps No. 224, W. R. C.

Owing to the unavoidable damage to the cemetery property adjoining the G. A. R. burial plot, the Post deems it advisable to discontinue publication of the program.

(Continued on page six.)

## NUNN SAID TO HAVE ESCAPED

Reports gained circulation in the city last evening that Roy Nunn, who was recently captured by Marquette County officers in a cafe at Little Lake, had effected his escape from the Marquette jail. A telephone call to the Marquette sheriff last night failed to verify the report which was declared groundless by that official.

## BUCKBEE HAS WAR RELICS

Cheever Buckbee of the Escanaba Granite and Marble Works, has on display in the windows of his establishment war relics from every war since 1812.

The collection which Fr. Buckbee has, is a most notable one and is doubtless worth thousands of dollars as curiosities. One of the most remarkable of his collection is a newspaper printed on wall paper at Vicksburg on July 4, 1863. The paper has yellowed with age, but sets forth in a concise manner the feeling of the south at that time. In one section, on July 2, it tells that Gen. Grant will never reach Vicksburg or at least he will not eat his July 4 dinner there, as he had said he would. In another section it says:

Two days bring great changes. The banner of the Union floats over Vicksburg. Gen. Grant has caught the rabbit. He has dined in Vicksburg and he did bring his dinner with him. The Citizen lives to see it. For the last time it appears on "Wall paper." No more will it eulogize the luxury of mule meat and frittaced kitten-urge southern warriors to such diet never more. This is the last wall paper edition, and is, excepting this note, from the types as we found them. It will be valuable hereafter, as a curiosity.

Mr. Guckbee also has other newspapers and many other war relics. Most of those of the civil war were secured by J. E. Buckbee, father of the local man, who served in the First Michigan Sharpshooters.

Among other things Mr. Buckbee has a flag sling which carried the Union flag into Petersburg, four men being killed and eleven wounded in the dash, carrying the flag.

He has a letter from the Daily and Weekly Express of Petersburg to Brig. General Wise, asking the release of a newspaper pressman who was fighting in the trenches. The letter stated that no other pressman was available at that time and it was of necessity that the epistle was written. Mr. Buckbee's father found the letter in the newspaper office when he took Petersburg.

Mr. Buckbee, himself a veteran of the Spanish American war, shows some copper shells used by the Spaniards. They were deadly poison.

The local man has a score or more of most valuable relics but one of the most important is a flintlock musket carried by a Buckbee in the Revolutionary war. It still has the powder horn attached.

It is worth the time of any man, no matter how busy he may be, to enter the marble works and view the war relics.

## SALVATION ARMY PLANS PROGRAM

Members of the local Salvation Army corps are making elaborate plans for a special service to be held on Friday evening of this week when Col. Stephen Marshall, of Minneapolis and Major Boyd, of Milwaukee, will come here. Fajor Boyd is known as a great singing evangelist while Col. Marshall is a speaker of ability. Both will take part in the special program that will include in addition several numbers by local talent. The program promises to prove to prove one of the most interesting yet arranged by the local Salvation Army Corps. A feature of the evening will be the swearing in of several new soldiers and the "giving away of a baby" an annual function in the army organization.

Peter Larson of Danforth was in the city yesterday on business. G. Hinderson of South Ford River was in town yesterday on business. Sam Hoy came over from Gladstone yesterday. G. W. Orbison of Appleton spent yesterday in Escanaba on business.

## ESCANABA IS DOWNED

### FIRST GAME OF SEASON FINDS LOCALS BITING DUST AT THE HANDS OF MANISTIQUE

In their opening game of the season the Escanaba City baseball team yesterday met defeat at the hands of Manistique, at the Lake Michigan City by a score of 10 to 7.

Until the eight inning the game looked like Escanaba's, but at this juncture the locals weakened and Manistique tightened, giving them the game by a good margin.

Garland served n the mound for two and a half innings when Van Effen was sent in but he pitched but two balls. Carroll finished the game, allowing but six blows.

The box score follows:

Escanaba	ABR. H. E.
Flath, cf.	5 0 3 0
Olmsted, 2b.	4 1 1 1
Hoffman, rf.	4 2 3 0
Aronson, 3b.	4 2 1 1
Bourke, 1b.	5 0 1 0
Lantz, ss.	4 0 0 1
Loeffler, lf.	5 1 0 0
Murray, c.	4 1 0 1
Garland, p.	1 0 1 0
VanEffen, p.	0 0 0 0
Carroll, p.	3 0 1 0
Total	39 7 11 4

Manistique	ABR. H. E.
McDougal, cf.	3 1 0 1
Freeland, 2b.	3 2 1 1
Blackmore, rf.	3 2 1 1
Johnson, 3b.	3 0 0 1
Wolfert, 1b.	5 1 2 0
Beaudreau, ss.	4 1 2 2
Walker, c.	4 1 1 1
Bratchell, lf.	4 1 1 0
F. Freeland, p.	4 1 2 0
Total	33 10 10 7

Three base hits—Freeland. Two base hits—Carroll, Hoffman, Walker. Struck out—Carroll, 2; Garland 1. Hits off—Garland 3 in 2 1-2 innings; off VanEffen 6, off Carroll 6 in 6 innings; off Freeland 11.

## WILL SHOW REAL ART

At South Park at 10 o'clock this morning one of the most momentous games in the history of baseball will be staged, when the Mirror and Press teams will clash in a near bloody conflict. The Press team is made up in its entirety of players who this spring and for several years past, have steadfastly refused big league contracts. In fact their ability on the diamond is so marked that it is seldom they can be induced to play in public and it was only for the edification of a few select connoisseurs in baseball that the team finally decided to allow the Mirror squad to compete with them in an exhibition game. Naturally, as a baseball game, the affair of this morning will be too one sided to be classed as a contest. But the real art displayed by the Press squad will fully recompense any who visit the park this morning and those who do attend should bear in mind that the opposing team is but a makeshift aggregation that will be making a weak attempt to appear as competing with an entirely superior force.

It is for this reason it was insisted by the members of the Press team that no admission fee of any kind should be charged for the entertainment of this morning.

Miss Alicia Nevenseller of Marinette is in the city visiting at the home of Mr. and Mrs. P. L. Utley. A. V. MacGillis left last night for Menominee to attend the Knights of Columbus convention.

## MANY TAKE PART IN EXCURSION

A large number of Gladstone and Escanaba people will go to Garden today aboard the steamer Saugatuck on the first excursion of the season arranged out of this port. The boat will leave the Gladstone dock at 8 o'clock this morning and will leave the Stephenson dock here at 8:40 o'clock. The Gladstone baseball team will accompany the party of excursionists and in the afternoon will meet the strong Garden team in a game in that village.

## Baseball News of Day Tersely Told

### DETROIT UP A NOTCH

American League (Special to The Press.) Philadelphia, May 29.—Philadelphia and Boston played a double header today. In the first game Ruth had the Athletics shutout up to the ninth, with only one hit. Furphy walked Lapp singled with two out, Davis singled, scoring both runners and winning the game 2 to 1. Batteries: Boston—Ruth and Corrigan. Philadelphia—Wyckoff and Fe-Avoy.

In the second game Philadelphia threw a scare into Boston, falling one shy in the ninth. Batteries: Boston—Shore and Cady. Philadelphia—Bressler and Mc-Avoy.

(Special to The Press.) St. Louis, May 29.—Detroit won the first game today and tied the score in the second, which was called in the ninth on account of darkness. Dausa, who was married this morning, held the Browns safe in the pinches. Wallace, the veteran shortstop was given notice of his release. The score of the first game: Detroit 7, St. Louis 1. Batteries: Detroit—Dausa and Bakl er. St. Louis—Wellman, Perryman, James, Hoch and Severoid.

### GIANTS WIN AT BROOKLYN

American League Philadelphia 2-5, Boston 1-6. Detroit 7-3, St. Louis 1-3. Other games rained.

National League			
	W.	L.	Pct.
Philadelphia	19	14	.576
Chicago	21	14	.600
Boston	18	17	.514
Brooklyn	16	17	.485
St. Louis	18	18	.500
Pittsburg	16	18	.471
Cincinnati	13	18	.419
New York	13	18	.419

was stopped in the fifth inning with the score standing 0 to 0. Meadows pitched good in the second game until the ninth when he weakened, but managed to stop the rally of Pittsburg after they had scored two.

Louis—Griner and Snyder. Pittsburg—Adams and Gibson.

The score of the second game: St. Louis 5; Pittsburg 3. Batteries: St. Louis—Fendows and Snyder. Pittsburg—McQuillan, Kandlehner, Conzelman and Gibson.

(Special to The Press.) New York, May 29.—Before a crowd of 15,000, Pfeffer pitched airtight ball until the fourth, when he was hit thrice, which, with two errors and a sacrifice fly, gave the Giants four runs and the game by a score of 5 to 1. Batteries: Brooklyn—Pfeffer, Appleton and McCarty. New York—Tearau and McLean.

(Special to The Press.) Boston, May 29.—Running to first in the eighth, Rudolph suddenly stopped and crumpled to the ground. His physician said it was swollen tendon. He will be out of the game for some time.

### A FORCE FOR PEACE.

When nearly all the great nations of the earth are bending all their energies to make destruction more efficient, it is cheering to read of a movement that gives promise of better understanding, and therefore of peace. It is a movement more hopeful than those which attempt to induce nations to cease doing the things they are now trying hardest to do, because it follows natural lines and promises to hasten a natural development. We refer, of course, to the Pan American conference, in itself evidence of a friendly spirit among American republics, and making for still closer relations and mutual benefit. As President Wilson said in addressing this conference:

"If there is any one happy circumstance arising from the present distressing circumstances of the world, it is that it has revealed us to one another; it has shown us what it means to be neighbors."

How easy it is to see that it is only natural that American commonwealths should find themselves knit together by a community interest. We need our Central and South American neighbors, and they need us. To-

gether we are charged with the responsibility for making the continent of America yield its best to the service of mankind. Better transportation, better commercial facilities, more visiting in each other's territory cannot but make us better friends. One recent circumstance is an especially hopeful thing. It is the decision of the

of South America, Argentina, Brazil larger and more advanced republics and Chile, to adopt the plan of maintaining the peace among themselves that is found in Mr. Bryan's peace treaties. To this is added a plan of doing something in the way of mutual defense against foreign aggression. The realization of these republics of their need will mean that they also realize the friendly service this country has performed.

All these things mean that the nations of America are beginning to base their relations on the need of friendship and mutual helpfulness, and not the mutual fear and jealousy which is wreaking havoc in Europe.

### INDUSTRIAL AND OTHER UNRESTS

Frank Walsh, chairman of the federal commission on industrial relations is an investigator who uses unique, or at least unusual methods. Very likely he has made some mistakes, but he has been steadily digging for facts, and with success.

Hitherto, federal inquiries into industrial unrest have been conducted by judicially-minded people who filed noncommittal reports which were read only by the committee clerks who wrote them and the proofreaders who read proof on them, and which reposed in a quiet nook until they were hauled out and sold for waste paper.

Mr. Walsh's inquiry has been of a different character. While expert investigation, quietly carried on, was given its proper place, the chairman conducted public hearings which in one month gave the public more information as to the causes of industrial unrest than all the previous state or federal hearings put together.

Men who dominate the industrial and financial affairs of the country were put on the stand and quizzed as they had never been quizzed since the

days when they were schoolboys and robbed apple orchards. The commissions' agents dug up private records and letter files and men like the Rockefeller heard the bones of their business skeletons rattle, not in the closet, but in the ears of the American people.

The result is that industrial unrest is not the only sort of unrest which we observe. The Rockefellers are noticeably restless and are showing it by protesting and forcing their henchmen to protest against the commission's work. The latest complaint is against Mr. Walsh's audacity in telling the nation how the Rockefeller's managed the affairs of Colorado and how the governor of the state let them do it.

The character of the opposition which Mr. Walsh is constantly meeting is one thing in his favor. It indicates that his offense has been his success in putting facts before the people instead of into so safe and inaccessible a repository as a government report. The unrest of Big business, due to Mr. Walsh's activities, may be very annoying to it, but the situation produces conditions and fact which are giving the people information which they want and which they ought to have.

## WAR

London, May 29.—Although called upon to face another enemy in Italy, whose troops have crossed the northeastern border, the Austrians and Germans have not relaxed their efforts on the other fronts. In middle Galicia they have assumed the offensive against the Russians along the river San and claim to have met with further success, while in Flanders and Artois the Germans continue, according to the French report, to make furious attacks in an effort to regain the ground taken from them in recent weeks and to hold that which they took from the British in the region of Ypres.

Except for the German admission that the British have captured part of their trenches to the northeast of Ghent, the reports of the belligerent headquarters continue to contradict each other, one side claiming gains while the other says that all attacks were repulsed with heavy losses. So far as the west is concerned, however, the fighting as has been the case for months, consists largely of trench warfare.

Successful progress still continues in the Gallician district near Przemysl, according to Vienna tonight, with the capture of additional men, guns and war material. In Russian Poland and south of the Dniester the situation generally remains unchanged.

On the west an engagement of extreme violence is in progress north of Arras, where the Germans are trying to retake captured positions, and a similar condition prevails at the northern outskirts of the wood north of the road from Aix-Neulette to Souchez where the French report a slight advance. The British are reported by Paris to have made a fresh advance near LaBassee. The British war office says that in this region, since May 1, the British have pierced the German lines for a total front of over three miles.

London, May 29.—The Times' Petrograd correspondent says the Russian military observers consider Przemysl at the present time quite safe and think there is no reason to apprehend

the envelopment or blockade of the fortress.

The Times' correspondent with the Russian forces, in a dispatch dated at Ivangorod, gives a description of the Russian retreat from the river Dunajec to the San.

"The German attack on the Dunajec was unparalleled in history," says the correspondent. "Their batteries were massed first in tiers of field guns, then in howitzers and then in the heaviest of mobile artillery, which, by a torrent of uninterrupted fire, destroyed the Russian center. But in spite of the fury of the attacks, the Russians retired undemoralized and, when the San was reached, the gap was closed, the armies were stiffened by reserves, and the Austro-German onslaught was stayed. The Russian retreat, as a maneuver, will rank equal to the retreat from Mons.

"The German check on the San appears to have been due to the impossibility of supplying ammunition fast enough."  
London, May 29.—British aviators have destroyed the big railroad bridge over the Scheldt, at Ghent, besides wrecking the railroad station and freight depots, says a Rotterdam dispatch to the Mail. The raid is believed to have spoiled German plans for a new railroad center at Ghent.

## WANTS BASES IN SET FLUSH

John H. Prentis, a writer in the Baseball magazine, urges a number of changes in the baseball rules, one of which, he thinks, would improve base-running. Prentis' idea is not a new one, however, for it is none other than the scheme to have first, second and third base set flush with the ground. This plan has been talked over a number of times, but has never received any real consideration from the magnates.

"Why not have first, second and third bases set flush with the ground like homeplate," writes Prentis. "The bags now used as bases lie on top of the ground."

"They have twisted and sprained many a knee and ankle. They slow up base running. A player dashing past a base must hesitate and catch his step, so that he can put his foot down safely on the bag. Otherwise he is thrown off his stride or misses the base entirely. A player sliding in to a base often catches his foot or his spikes. In the bag and wrenches himself more or less seriously. He must run these chances or slow up and be careful."

"The fear of the twist or the sprain keeps back the development of all base running. These present bags are a holdover from the past. They belong to the time when there were no regular, permanent baseball grounds. When teams wanted to play, they laid down their diamonds and put down bags to show where the bases were. With permanent grounds these bags should not be tolerated."

"The bases should be marked by squares set in the ground, not by bags laid on top of it. Then a runner could dash to and past first, second or third without hesitating or altering his step, making the strike with which he touched the case the same as any other stride. He could slide into bases without fear of catching his foot and wrenching himself. The change would improve base running, make it faster, commoner and less dangerous."

Want something? Ask for it with a Morning Press "want ad." They always bring results.

## STEEL CONDITIONS STILL IMPROVING

Of rapidly improving conditions in the iron and steel trade an exchange says:

The daily average of orders placed with the United States Steel corporation have so far this month been considerably larger than in April. There was a fair gain in railroad buying, and contracts for steel to be used in the manufacture of war munitions helped to swell the total.

During the past week or two, hundreds of additional hands have been taken on by plants in the Pittsburgh district. The United States Steel corporation is reported to have booked contracts to the value of \$5,000,000 from the American Locomotive company, for steel to be used in the manufacture of shrapnel and high explosive shells. Officials of the Steel corporation now believe that earnings for the present quarter will be between \$22,000,000 and \$23,000,000.

The Russian government is in the market in this country for 100,000 tons of rails, and it is said that more than one-half of this tonnage has already been covered by contracts.

"There is hardly a steel man today but expresses confidence in the future of the industry," says the Pittsburgh correspondent of the Wall Street Journal. "The sanguine ones declare that the trade is not far off from the most prosperous period it has ever enjoyed."

"To get an understanding of the situation one has to go back many months. The European war followed a long period of liquidation here and brought about the most stringent economies in every line. The public stopped buying. The small consumer of steel, the man who used nails, wire, etc., kept out of the market, and the demands from jobbers and others in consequence fell off. And the same things were evident in the case of the larger consumers. This led to a gradual using up of stocks and their practical depletion. For steel, of course, was being used all the time. The increase in buying that has been noticed during the last few months, it is claimed, means that there are practically no stocks of steel in the country now and that consumers, small and large, are buying from day to day just what they need for the work immediately on hand. The character of the buying proves that this is the fact."

"Within the past five months orders have been heaviest, but the increase in orders and production has meant that stocks were being increased again. It really meant that stocks were so low they could no longer be drawn upon. If, then, actual pressing day to day needs of steel are sufficient to keep the steel mills running at from 65 per cent to 85 per cent of full capacity, it is felt that present operations represent the lowest equivalent of necessary consumption and that only a slight impetus is needed to bring about marked improvement."

"A decided increase of activity in any one important line, say railroad buying, would bring the mills to capacity operations, it is asserted by many authorities, and this would mean that consumers, for fear of not being able to get their needs filled in time, would have to place orders several weeks ahead at least. And full operations and good orders booked spell prosperity."

## SAYS SALANDRA FOOLED BEULOW

Paris, May 29.—All France is awaiting Italy's opening moves. The newspaper bulletin boards were surrounded by crowds; to test his own strength before parliament met, to prove to von Buelow that the jig was up and to furnish fuel for popular demonstrations in favor of war. The Garibaldi celebrations and the orations of the poet, Gabriele d'Annunzio, set the country clamoring for action.

Salandra had no doubt of the result when he tendered his resignation to the king. He knew he would return to power under highly dramatic circumstances with the country and parliament behind him. He proved quite as foxy as Anthony on another celebrated occasion of Roman history.

Italy's program is being carried out as forecasted on May 22. On that day it was declared that Italy would enter the lists against Austria six weeks thence, barring international developments.

On May 4, six weeks later, plus just one day, Italy denounced the triple alliance, thus preparing the way for war. The 'international development' since have developed and are now history.

About March 20 Italy transmitted what was tantamount to a kid glove ultimatum to Austria. The message was communicated verbally through Duo d'Avarna, the Italian ambassador at Vienna. In effect he stated that Italy was vexed by Austria's procrastination and would strike unless her just claims were recognized within a reasonable time.

Austria was informed that Italy was unwilling to wait much longer than May 1, though no absolute date was set. Italy made it plain that she was not asking for concessions, but desired the cession of territory she considered rightfully belonged to her.

The Italian ambassador almost immediately became convinced that Austria would not cede the territory Italy demanded. He so stated to Rome and preparations went forward for war.

The delay since May 4 has resulted from the desperate eleventh hour efforts by Prince von Buelow, the German ambassador at Rome, to stem the tide. Austria at first refused to take Italy seriously and attempted to put the matter over until after the war. When von Buelow finally realized that Italy meant business the matter was not only out of his hands, but out of the hands of the Italian government. The people of Italy had taken charge of the situation and they were demanding war.

In one last effort von Buelow asked more time to enable Austria to pre-

pare final offers. The Italian parliament, accordingly adjourned from May 12 to May 20.

It is understood here that instead of seeking new overtures from Austria the German ambassador used time granted him in an attempt to overthrow Salandra. The Italian premier knew of his efforts and smiled up his sleeve.

Salandra's resignation was the master coup. He offered it for a three-fold purpose; to test his own strength before parliament met, to prove to von Buelow that the jig was up and to furnish fuel for popular demonstrations in favor of war. The Garibaldi celebrations and the orations of the poet, Gabriele d'Annunzio, set the country clamoring for action.

Salandra had no doubt of the result when he tendered his resignation to the king. He knew he would return to power under highly dramatic circumstances with the country and parliament behind him. He proved quite as foxy as Anthony on another celebrated occasion of Roman history.

### Best Thing for Bilious Attack

"One account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to get to the case for two days. Falling to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin, S. C., Obolniah everywhere.

## MRS. ALDRICH IS VERY ILL

New York, May 29.—With the announcement that the will of Nelson W. Aldrich had been probated at Warwick, R. I., it became known that his widow, Mrs. Abby P. Aldrich, is so seriously ill at her home here that she has not been told of her husband's death.

Mrs. Aldrich collapsed when her husband was stricken, and her condition has not perceptibly improved. Under the will she and three children, Edward B. Aldrich, Lucy T. Aldrich, and Richard S. Aldrich are executors and become trustees of the estate.

The estate is worth approximately \$5,000,000, and the heirs and legatees of the estate are the only persons interested, inasmuch as there were no public bequests and only members of the family figured in the probating of the will. The entire estate is left to members of the family.

## BEST PAID MEN IN ANY SPORT

Will the wonderful record made by the incomparable Alvin Kraenzlein, the greatest all-around track athlete who ever lived, be shattered at the Intercollegiate track and field meet today and tomorrow on Franklin field. Little more than a decade ago Kraenzlein scored 18 points in one afternoon in the Intercollegiate championships, winning first place in the 100-yard dash, the 120-yard hurdle and the 220-yard hurdle and second place in the broad jump.

This is a record that has never been equalled. Now Cornell brings forward Alma Richards, the gigantic high jumper holder of the Olympic high jump championship. Richards has been priming himself all spring to enter a great many events in the Intercollegiate, but up to date has confined himself to three events. However, it is known that he has been hurdling every day at Ithaca, so the supposition is that Trainer Moakley expects to spring him as a surprise in the hurdles, where the competition is not very keen.

Richards has been high jumping 6 feet 4 inches in recent meets, broad jumping well over 23 feet in the same meets and putting the 16-pound shot over 47 feet. There is nobody in the colleges who can bet Richards in the two jumps and he is virtually sure to win both.

In the shot put only the champion Whitney of Dartmouth can surpass his work. This would assure him of two first and a second.

This puts it up to the hurdle races. If Moakley needs the points badly he will throw Richards into these two events and with his great strength and speed he will probably be able to get away with a first or second in each. This would give him the most marvelous record ever known in track and field athletics.

**Instinct and Reason.**  
The term "instinct" is supposed to refer to the intelligence which leads to the performance of actions that are adaptive in character, but pursued without necessary knowledge of the relation between the means employed and the ends attained, while "reason" is supposed to be aware of such knowledge and to work accordingly.

## LIVE ITEMS of INTEREST

J. Wade Weston returned to the city last evening after spending the week at Sidway and Marquette.

W. L. Davidson motored to Flat Rock yesterday.

## SALARIES HAVE REACHED LIMIT

Cincinnati, May 28.—That the time has come for the money men of baseball to which their step is the belief expressed by August Herrmann, chairman of the National baseball commission and president of the Cincinnati baseball club in an interview printed today.

Herrmann predicted that big league club with one or two exceptions, can not continue paying present high salaries to players. He says that many long-term contract holders face the alternative of accepting a reduced salary or seeing their club reach the place where it cannot pay its obligations.

Herrmann said he favored cutting down club rosters wherever possible and creating a "reserve list" of players, to be drawn upon by owners or managers whenever it might become necessary to fill vacancies caused by sickness, injury or release.

Baseball owners are not taking in the money, with a few exceptions. Most of the plants are being run at a loss and a heavy one. This cannot be kept up indefinitely.

"The era of high salaries is passing. Next season will see a readjustment—not because owners are desirous of cutting their players' pay, but because it is either that or give up the ghost."

"How can any club pay less money than is called for in a contract with a player as long as that contract is in force?" Herrmann was asked.

The reply was in the form of another question:

"Do you not think that if a player were confronted with the alternative of taking less money or seeing his club quit business he would appreciate the seriousness of the situation and accept a cut in salary?"

There is positively no feeling against the player in this matter. It is a business proposition. Men who are operating losing baseball plants can't go on like this forever. This promises to be a disastrous season to many clubs. One favorable element in the National league is the close race for the pennant. On the other hand, the unfavorable weather has already lost a great deal of money."

## PASTOR OFFERS LIFE IN PLACE OF FRANKS.

Oakland, Ca., May 29.—Rev. Alonzo G. Mills, pastor of Emmanuel Presbyterian church, has written to the family of Leo M. Frank and the governor of Georgia, volunteering to take Frank's place at the impending execution, it is learned.

In his letter to the family Fr. Mills says he is confident that Frank is innocent and adds:

"I am well up in years; my youngest child is seventeen years old and well able to take care of himself, and I remember well how dear were life and loved ones when I was a young man like Leo Frank."

## How Mrs. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. obtainable everywhere.

## COLLEGE GETS \$10,000,000

Miss Mary Carey Thomas, president of Bryn Mawr college, will receive the bulk of the \$10,000,000 estate left by her friend, Miss Mary Elizabeth Garrett, daughter of the late John W. Garrett, president of the Baltimore & Ohio railroad. Miss Thomas is named executrix and residuary legatee under the will which has just been probated. Bryn Mawr receives no specific bequest, but the terms of the will indicate that Miss Thomas and Miss Garrett, who had been close friends for years, had an understanding that the college was to receive substantial benefits. The picture shows Miss Thomas and Baron Russell Briggs of Radcliffe college at recent college exercises.

## MAY BECOME NEW EPISCOPAL AREA

The amalgamation of the three Methodist Episcopal conferences of Michigan into a new Episcopal area with Detroit as its seat, is entered as an order of business at the general conference of the M. E. church to be held in Saratoga Springs, New York in May of next year. Concerning the project, the Detroit News says:

Detroit probably will be designated as the seat of a new Episcopal area, to include the two peninsulas of Michigan and be assigned a bishop by the approaching quadrennial general conference of the Methodist Episcopal church, which convenes in Saratoga Springs, N. Y., May next. At present Detroit and the two conferences of this state are included in the Episcopal area, of which Buffalo, N. Y., is the seat.

The designation of Detroit as an Episcopal seat would be a tribute to the marked progress that Methodism has made throughout the state, and especially in the city of Detroit during the last six years. So successful has been the administration of the present Detroit district superintendent, Dr. Charles Bronson Allen, in gathering souls and building new churches and missions, that plans are being perfected to retain him in the

office although the discipline of the church forbids the re-election of a superintendent to the same district.

Dr. Allen's term expires at the next meeting of the Detroit conference in Port Huron, Sept. 15. To retain him in office it will be necessary to change the bounds of the present Detroit district. This may be done by taking out the territory beyond the quadrangle of the present Ann Arbor district to form a new Detroit jurisdiction. The plan includes the elimination of the present Ann Arbor district, making seven instead of eight districts in the conference. The territory taken out of Detroit district will be added to other areas. The plan is in accord with the wishes of the present presiding bishop of the Michigan conferences, Bishop William Burt of Buffalo, to reduce the number of district superintendents by enlarging the territory of some districts and eliminating others.

Cleveland already has entered the list of cities desiring designation as residences for new bishops to be elected at the next general conference, but the claims of Detroit are much stronger than those of Cleveland. Ohio already has a bishop resident at Cincinnati, Michigan, with a greater area of territory, has none. Officials of the church here say Cleveland has not a ghost of a show, despite the boosting of the newspapers of the Ohio metropolis are giving the proposal.

There are at present on the board of bishops of the Methodist Episcopal church two who held pastorates in this state before their elevation to

the episcopate. They are Bishop Berry and Bishop Leete. Their familiarity with Michigan church problems may occasion the designation of one of them to Detroit. If not, Detroit would be assigned one of the six new bishops to be elected. Four Methodist bishops have died during the quadrennium—Bishops Warren, Smith, McIntyre and Walden, Bishops Hamilton and Cranston probably will retire on age limit.

The elimination of the Ann Arbor district is made possible this year by the retirement of Dr. Ramsdell, who has been Ann Arbor district superintendent for the last six years. Other district superintendents who retire this year are Dr. Leonard, of the Flint district, and Dr. Palmer, of the Port Huron district.

The annual fall convention of ministers and laymen of the Houghton district of the M. E. church will be held in Crystal Falls shortly after the Detroit conference. The date and program for the gathering have not been arranged because of the possibility of changes in pastorates though these details will be given attention as soon as District Superintendent W. E. Marvin returns from lower Michigan.

Rev. Marvin will go to Lansing next week to attend a conference of district superintendents.

**NOTICE.**

## AMONG THE THEATRES

### THE DELFT

This house today has "The Return of Richard Neal" which will be displayed in three complete reels. Francis X. Bushman is appearing in the leading role in this picture. A comedy is "Sophie's Fighting Spirit" while another picture of note is "An Amateur Nurse."

For his Monday feature, Manager Jacobs has Mary Pickford, the highest salaried movie actress in the world, in Cinderella the century old story. The picture is a most beautiful one and must be seen to be appreciated.

### THE BIJOU

Manager Hines has an especially attractive program to offer the public today. The featured picture is "The Bombay Buddah." The Nestor comedy for today is "All in the Same Boat."

This program today should attract hundreds to this house and bring splendid results to this house manager.

For Wednesday "the house that Jack" will present "Your Girl and Mine."

### By Proxy?

A well-known metropolitan choral conductor was once holding voice trials preliminary to the organization of a colored choral club of jubilee singers. One of the soprano applicants was extremely reticent when asked to sing a scale. Finally the director, becoming impatient, asked: "What's the matter—don't you sing?" "Well," she hesitatingly replied, "not pubsonally."

### Lively Town.

First Boomer—"You fellows have no git-up about you at all. Why don't you have photographs of your town taken, like we did? Are you ashamed of it?" Rival Boomer—"Naw, that ain't the reason at all. I want you to understand, young fellow, that our town don't stand still long enough to be photographed."—Terre Haute Express.

The World Film Corporation, Presents

UNDER THE AUSPICES OF THE NATIONAL AMERICAN WOMANS SUFFRAGE ASSOCIATION

# "YOUR GIRL AND MINE"

## A Dramatic Feature In Seven Reels

Not only as an argument for suffrage, but as a play with a story, a "punch" and a mission. "Your Girl and Mine" was produced under the direction of the National American Women's Suffrage Association.

Olive Wyndham forsook the "legitimate" stage for the time to pose as the heroine of the play. Katherine Kaelred, leading lady of "Joseph and His Brethren," took the part of a woman lawyer battling for the right. Sydney Booth of "The Yellow Ticket" company, posed as the hero of the experiment. John Charles and Katherine Henry played the villain and the "honest working girl." About three hundred secondaries were engaged along with the principals.

It is melodrama of the most thrilling sort in spite of the fact that there is a moral concealed in the very title of the play. But who is worried by a moral in a play which has an exciting hand-to-hand fight between a man and woman in one of the earliest acts—when the quick march of events range from a wedding to a murder and an automobile abduction scene that breaks all former speed records. "THE CAUSE" comes in most subtly and poetically, a symbolic figure that "fades in and fades out" at critical periods in the plot. Dr. Anna Howard Shaw, the famous suffrage leader, appears personally in the film.

"Your Girl and Mine" is a big play with a big mission built on a big scale. It is a whole evening's entertainment and a very interesting evening at that.
