

ATTORNEYS DO HONOR

BAR OF DELTA COUNTY PAY GLOWING TRIBUTE TO MEMOIRY OF ATTORNEY MYRICK DAY MEAD.

Memorial services were held yesterday morning in the Circuit Court room, Judge Flannigan presiding, for the late Myrick D. Mead. As a year ago the Delta county bar united in a testimonial to the ability and high character of the father, so yesterday they united in a tribute no less feeling to the son, whose promising career had been so suddenly cut short. Rarely anywhere has a bar association shown such deep and sincere appreciation of its members or a community such universal sympathy as has been shown by the attorneys of this county and city and by citizens generally in the death of this father and son.

There had been many recent deaths of older members of the bar of the circuit, but they had lived their lives as Judge Flannigan expressed it. But in the case of Myrick Mead, life was just beginning—a life full of usefulness and promise, and there was a special sadness, a special loss to the community, a great pity, when a young man of such ability, of such a character was taken away.

The service opened in the presence of an audience comprising members of the bar and other friends of the young lawyer, with the reading of a memorial, prepared by a committee of which Joseph F. Cuddy was chairman. The memorial was unanimously adopted on motion of Mr. Rushton, who spoke of Mr. Mead as a young man of the highest ideals and of large capacity.

He was followed by Raymond G. Empson, who briefly sketched the life of the young lawyer, who had grown up from boyhood in the city, telling of his nobility of character and speaking feelingly of the mysterious ways of Providence, hard for the human mind to understand, in blotting out such a life, just as it was really entered upon. Associated as he was with his father, he could have no greater privilege in entering upon his professional career, with such a man and such a lawyer.

Mr. Empson related an incident in connection with one of the last important law suits with which Myrick Mead was connected. It had been won by his father in the lower court, and the supreme court had reversed the judgment. But the young man was satisfied that his father's judgment was right and secured a hearing from the supreme court, finally vindicating the judgment of his father as well as his own. It was a pity, said Mr. Empson, that he should have died before he heard the supreme court had granted the rehearing.

(Continued on page four.)

MILITARY BAND NOT ENGAGED

The following communication was received by the Press:

To the Editor: We notice that the Escanaba Military band was advertised to play Sunday July 18th and beg to say this was not true as the above named band was not engaged for that event. The Escanaba Military Band still holds forth at band headquarters and the management is doing its best to keep the property together which the business men so generously donated and are also trying to show their appreciation of what the business people have tried to do for them. We recognize that all this property belongs to the people who paid for it, and that its ownership is not to be assumed by a disgruntled individual, who was the object of their charity. All orders for the Escanaba Military Band should be addressed to J. C. TOLAN, Manager.

PICNIC HERE IS POSTPONED

Members of the G. I. A. to the Brotherhood of Locomotive Engineers, who had planned a picnic to be held at South Park on Thursday of this week, have postponed the event because of the Chautauque programs that are to extend throughout this week. The picnic instead will be held

ARNOLD WINS FORFEITED GAME

The following communication was received by the Press yesterday:

"Please give us a write-up in your paper concerning a baseball game between Arnold and Cornell at Arnold, Arnold winning by the score of 4 to 0, game being forfeited in the 10th inning. Cornell refusing to finish the game.

Features of the game were the pitching of Young of the locals by striking out 19 men. Stevens also played star ball.

"A dance in the evening finished one of the many good times at Arnold, the liveliest and busiest little town north of Escanaba.

"Watch for the big farmers picnic. Date will be announced later."

FELL OVER DOCK SIDE

A local man, who refused to give his name, fell over the side of the Stephenson dock early last night and for the fact that two little girls saw him plunge into the water, death might have followed. He was walking close to the edge of the dock and apparently did not see a slanting runway in front of him. He stepped over the edge and plunged headlong into nearly 15 feet of water. Marie McGillis and Lillian Turner were on the other side of the dock but heard the splash and as the man was about to go down for the third time, rushed to the steamer Saugatuck, lying near, and gave the alarm. The boat's fireman leaped into the water and pulled the nearly drowned man to the surface and swan to a nearby piling, to which he clung until a rope was lowered. The accident victim was hoisted to the dock and as soon as he had regained his strength left for his home, refusing to give his name.

LADS BRAVERY SAVES LIVES

But for the bravery and presence of mind displayed yesterday by William Harvey, a number of the members of St. Patrick's Boys Brigade, massed on the Stephenson dock, would have been either killed or seriously injured when a fear maddened team of horses dashed down Ludington street and on the dock yesterday morning. Seeing the horses coming toward the dock at a terrific pace and realizing that should they rush down the dock many would be run down on the narrow plankway, Harvey started to run toward the dock approach. Rev. Father Barth and other men attempted to stop him from the apparent mad effort but he persisted. As the horses swung into the dock approach Harvey leaped before them. The team swerved and crashed through the railing over the side of the dock. The team and wagon dropped on the sand ten feet below and neither the horses nor the rig were injured. The team hitched to a heavy truck and owned by Harry Barkell, had been scared by a boy while the owner was loading lumber on the wagon at the Arntzen mill at the upper end of Ludington street. For the entire length of the street the team raced at a mad pace, without being stopped and had it not been for Harvey he would have torn through the crowd of boys gathered on the dock and undoubtedly would have leaped into the bay at the dock's end.

NORTHERN BEAUTS DOWN RIDGERS

The Northern Beauty baseball team defeated Maple Ridge on Sunday by a score of 5 to 2. Carroll was on the hill for the Beauts and had his left plants working in great shape for the game, holding the Ridgers to scattered hits. Roth did the backstopping for the Beauts while White and Thompson made up the battery for Maple Ridge.

Mr. and Mrs. Fred R. Bowers of Auburn, N. Y., arrived in the city last evening for a visit at the home of Mr. and Mrs. Charles A. Bowers, of

SEVEN MEN GET SENTENCE

AT 2 O'CLOCK YESTERDAY AFTERNOON THOSE WHO PLEAD GUILTY SENTENCED BY COURT

With sound fatherly advice and admonitions to follow a path of better living, Judge R. C. Flannigan yesterday afternoon imposed sentence upon a total of seven prisoners who had pleaded guilty during the opening and morning session of Circuit court.

The first man to be brought before the court for sentence was Dalma Grolean, who pleaded guilty to the charge of violating the liquor law. After a brief talk to the man the judge imposed a sentence of a fine of \$200 together with the costs of \$18 and in default of both that the man be imprisoned in the county jail not to exceed 40 days.

Charles Burke who had plead guilty to the charge of assault and battery, with intent to do great bodily harm, less than the crime of murder, was then called before the court and after a severe lecture, was paroled under the care of Parole officer T. J. Curran for a term of two years, during which time he is not to enter a saloon or take a drop of liquor. The court stated, after he had paroled the man, that only the precarious conditions of his wife saved him from

MOOSE PICNIC BIG SUCCESS

A tremendous crowd of people on Sunday attended the second annual picnic of the Escanaba Lodge Loyal Order of Moose at the new Moose park on the bay shore between Escanaba and Gladstone. The park was formally dedicated with appropriate exercises during the day and throughout the afternoon the great crowd made merry at the park grounds.

PITT PARKER Who Appears at the Chautauque This Afternoon and Evening.

Pitt Parker of Boston, chalk talker and clay modeler, humorist and philosopher.

opher; his landscapes are particularly celebrated.

NOTICE

The Public Library will close Wednesday morning for a week or ten days, for renovating and repairing. People wishing to have books during that time, may draw as many as desired before 6 o'clock Tuesday eve., July 20th. The reading room in the basement will be open every afternoon from 4 to 6.

HUNDREDS SEE BIG PROGRAM

BIG LINCOLN CHAUTAUQUE TENT PACKED TO HEAR COL. GEARHART

TUESDAY'S PROGRAM

MORNING—Entertainment, The Arden Drama Players; Crayon Recital; Pitt Parker. (Admission, 15 and 25 cents.) Children's Hour at the playground. NIGHT—Caton Lecture, Pitt Parker, Dramatic Recital, The Arden Drama Players. (Admission 15 and 35 cents.)

Monster crowds were attracted to the second day program of the Lincoln Chautauque yesterday afternoon and evening at the Ludington park.

Col. G. A. Gearhart was the principal attraction yesterday while the Mason Jubilee Singers filled in the remainder of the program.

In his two addresses yesterday Col. Gearhart established an enviable reputation with local people. By hearing Col. Gearhart yesterday afternoon and last evening Escanaba people find themselves better able to cope with the propositions of life. His messages of yesterday were particularly directed to the young men and women of today. In his quotations from famous poets and writers and in his burst

PAI DE UMA TO GIVE LAST PARTY

Members of the Pai de Uma club will give their final dancing party of the season at South Park on Friday evening. Every effort is being exerted to make the function one that will measure fully up to former events given by the organization. Olmsted's orchestra will furnish the musical program for the evening. A special street car service has been arranged for guests of the club to and from the park on Friday evening.

Baseball News of Day Tersely Told

DETROIT WINS AGAIN PHILLIES HOLD LEAD

American League

(Special to The Press.) Detroit, July 19.—The Tigers crept within two points of second place, Mack used three pitchers but all were wild. Philadelphia—6. Detroit—12. Batteries: Wyckoff, Maas, Davis, Lapp and McAvoy; Iubuc and Stan? age and Baker.

(Special to The Press.)

Cleveland, July 19.—What's believed to be the world's record was established when Washington stole eight bases in the first inning. Wholesale pilfering helped the Nationals to pile up six runs. Washington—11. Cleveland—4. Batteries: Johnson, Altrock and Ainsmith; Hagerman, Jones, Coumbe and O'Neill.

(Special to The Press.)

Chicago, July 19.—The Red Sox tightened their clinch on first place. Fournier's home run drive scored three for the Sox. Boston—6. Chicago—6. Batteries: R. Collins, Leonard and Carrigan; Benz, Scott, Russell and Schalk.

(Special to The Press.)

St. Louis, July 19.—The Yankees made a clean sweep. In the eighth inning of the first game Cook filled the bases, James who relieved him, forced in a run and clouted six more. Sisler and Hamilton forced in three runs in the eighth inning of the second game. First game: New York—10. St. Louis—3. Batteries: Caldwell and Nunnamaker; Hamilton, Cook, James, Koob and Agnew and Ruel. Second game: New York—4. St. Louis—1. Batteries: Loudermilk, Sisler, Hamilton and Ruel.

National League

(Special to The Press.) Brooklyn, July 19.—Rucker pitched a gem and hit the Dodgers in

American League.

Detroit 12, Philadelphia 6. Washington 11, Cleveland 4. Boston 6, Chicago 4. New York 10-4, St. Louis 3-1.

National League

Brooklyn 3, Pittsburg 0. New York 4, St. Louis 3. Boston 4, Cincinnati 1. Philadelphia 5, Chicago 4.

STANDINGS OF THE LEAGUES

American League.	W.	L.	Pct.

Cincinnati	32	43	.432

for second place. Pittsburg—0. Brooklyn—2. Batteries: Kantlehner, Conzelman and Gibson; Rucker and Miller.

Batteries: Toney and Wingo; Rudolph and Gowdy.

(Special to The Press.) Philadelphia, July 19.—Alexander rescued Mayer in the eighth inning and fanned Williams, leaving Saier stranded on second when a run meant a tie. Chicago—4. Philadelphia—5. Humphries, Standridge, Archer and Bresnahan; Mayer, Alexander and Killifer.

SUNDAY'S GAMES

American League

Cleveland, July 19.—By a ninth inning rally Washington took two more games from Cleveland. In the ninth inning of the first game Walter Johnson, acting as pinch hitter, drove in the tying run. Washington then won 4 to 2, in the thirteenth on a combination of errors and hits. Cleveland led 3 to 1 in the second game until the ninth inning, when, with two out and two men on bases, two singles and error sent the winning run across. Cleveland—2. Washington—4. Batteries: Morton and O'Neill; Gallia, Engle, Ayers and Henry. Second game: Cleveland—3. Washington—4. Batteries: Mitchell, Harstad and Egan; Ayers, Engle, Johnson and Ainsmith.

Chicago, July 19.—Erratic playing behind Faber cost Chicago first place when Boston was handed a 6 to 2 victory. Chicago made five errors and all these misplays resulted in runs for the visitors. Boston—6. Chicago—2. Batteries: Wood and Thomas; Faber, Cicotte and Schalk.

Detroit, July 19.—Detroit's heavy hitting in the first and eighth innings, coupled with Bressler's wildness, gave the home club an 11 to 7 victory over Philadelphia. Batteries: Bressler and McAvoy; Coveleske, Boland, Baker. Two-base hits—Vitt, Yeach and Young, Detroit, Lajoie, Philadelphia.

AGED RESIDENT CRITICALLY ILL

Mrs. Michael Lyons, of 116 North Georgia street was suddenly stricken with paralysis Saturday afternoon and was immediately removed to the St. Francis hospital where she lies in a precarious condition, hovering between life and death. Mrs. Lyons is one of the oldest residents in point of years and residence, in the city, having lived here continuously for over 40 years. Mrs. Monica Quirk of over waukee and Mrs. Anna Gilmet of Green Bay, daughters of the aged lady are at her bed side, and her sons, Hugh of Peking, Ill, and Stephen of Duluth are expected to arrive here this morning.

ARCH-BISHOP IS PLEASED

The visit of Archbishop Sebastin Messmer, of Milwaukee, to St. Patrick's church, on Sunday, made Brigade Sunday at that church, a red letter day in the history of St. Patrick's Boys Brigade. The high church dignitary took occasion, in delivering his sermon at the High Mass service of Sunday morning to highly commend the work of Father Barth among the men and boys themselves for their evidence of singleness of purpose and devotion to a worthy cause, not surpassed by a similar group of youths in another city in the United States. Archbishop Messmer called the worth of Father Barth among the young men and boys of his parish one of the most commendable efforts ever brought to his attention for the betterment of mankind. He said that the great problem of the age lies in the proper training of the young men for their life work and asserted that could movements similar to that inaugurated by Father Barth here be launched in every city of the country the stability of the nation's future citizenship would be assured.

Archbishop Messmer warmly complimented the members of the three companies of the brigade for their interest in the work of Father Barth and remarked on the fact that the movement had long ago passed its experimental stage through the work of the pastor and the cooperation of those whom he sought to serve. The high praise given by the Archbishop to the Brigade of St. Patrick's church is a worthy recognition of a wonderful work that has a tremendous future.

The ceremonies of Brigade Sunday, at St. Patrick's church, were marked by the presence of a large number of visiting priests and the appearance of Brigade members in full dress uniform. Members of Companies B and C appeared in khaki uniforms while Company A members, in white uniforms, formed a guard of honor to Archbishop Messmer. The body of nearly 300 young men and boys in uniform made up an unusually attractive scene at the church, which was packed to its capacity by the people of the parish and visitors.

INVITATION IS ISSUED HERE

A general invitation is issued to the public to participate in the excursion to be given to Fayette next Sunday aboard the steamer Saugatuck by the men of St. Patrick's parish. An exceptionally low rate has been fixed for the trip and an effort will be made by those in charge of the plans to make it one of the most successful excursions ever arranged out of this city. The boat will leave the Stephenson dock at 8:30 o'clock, giving the excursionists a large part of the day to spend at the beautiful resort place.

MAN IS SURPRISED BY LARGE NUMBER OF FRIENDS

Nels Ahlquist was surprised by a large number of his friends at his home at 520 South Oak street on Sunday evening in honor of his forty-fourth birthday. The evening was spent in a most pleasing manner during which time elaborate refreshments were served.

Mr. and Mrs. George Truckey of Nahma, are visiting with Mr. and Mrs. Joseph Charlebois for a few days.

KAISER ASKED TO CONFORM

NOTE IN COURSE OF PREPARATION WILL DEAL WITH LEGAL ASPECTS

(Special to The Press.) Washington, July 19.—Germany will be told substantially in a note that is being prepared, that she must not use the present crisis as a club to force settlement with England. This decision was made today at a conference between President Wilson and Secretary of State Lansing. The President has no reasons to again discuss the physical facts with respect to the Lusitania. The history of that is complete and unchangeable so far as the facts are concerned. The subjects of discussion between the President and Sec. Lansing, it is asserted, were solely on the legal aspects of the issue. The reply, therefore, is to be a document dealing with the international law and the "obligation of Germany to conform her submarine war practices to that law."

(Special to The Press.) London, July 19.—Vienna dispatches state that reports have reached the Austrian capital from the front that the evacuation of Warsaw has been ordered by the Russians.

(Special to The Press.) Important developments in the fighting for Warsaw are seen in a sudden cloak of silence which has been shown over the events in the eastern theater. For over 24 hours no word of any sort has been allowed to leak through concerning the three great battles which are raging. At the last report the Germans had pierced the Russian front at three points. London advices tonight state that the military critics are pessimistic over the outlook for the Russians and believe that the events of ominous nature from the standpoint of the allies, are impending.

LOCALS ARE BEATEN

The much touted Manistique baseball team on Sunday proved their real worth and that they are a team of the peninsula to be reckoned with when they defeated the local aggregation by a score of 3 to 0.

The game was one of the fastest ever seen at the Lake Michigan City hundreds of fans who gathered to witness the contest, went wild with joy when the game was over and their team had won.

Garland, of local fame, worked on the hill for the locals until the end of the seventh session when he was replaced by "Buck" Nolden, who demonstrated that he could "come back" by holding Manistique hitless and runless for the remainder of the game.

If the United States remains neutral to the end of this war it will not be Germany's fault.

There's this one thing about Thaw and his state of mind: If he isn't crazy after nine years of legalized hectoring, he never was and never will be.

From the rapid influx of autos this season one of the grave economic questions of the near future is bound to be whether it cheaper to support a two year old twin six or two six year old twins.

Escanaba's second Chautauqua is on. Last year Escanaba was one of the few peninsula cities to make the Chautauqua a success and just to prove that it was not a mere flash in the pan we've got to make good this year.

Guess probably it was just pure cussedness that incited that German submarine captain to fire a torpedo as a vessel bound for America, with Americans aboard and with no possibility presented that she was carrying either munitions of war or any contraband article.

It usually is just bound to happen that about the time you have landed back from an expensive vacation some generous lover of the human race sends you a nice little booklet that plainly shows the handsome profits that will accrue from a few dollars a month left in his care indefinitely.

When the history of this war is written one of the great features is bound to be the things Germany did not do to get the United States in-

do not now begin to hear end of accounts of his domestic relations, how he wears his hair, when he takes his bath and what his favorite poetry is. Maybe he will have the sense to realize that the public has heard enough of him, and is willing he should be free if he will keep quiet. Let's hope so.

AUTO AND HIGH LIVING IS AID

Ann Arbor, Mich.—Automobiles and high living, not John Barleycorn and cigarettes, are the things that transform the tired business man into a long and lugubrious funeral, according to Dr. J. H. Carstens, of Detroit, one of the speakers at the forty-second annual meeting of the Northern Tri-State Medical association here Tuesday.

"You talk about alcohol being a contributing cause to sudden deaths among prosperous men of middle life," said Dr. Carstens. "Did you ever see an old soak die of arteriosclerosis? Some say hardening of the arteries is due to the use of tobacco. Down in South America they use cigarettes to wear babies from their mothers' breasts, but did you ever hear of one that died of hardening of arteries?"

"High living is the cause of nine-tenths of these cases—too rich and too much food, using an automobile instead of one's legs."

Pallagra is not confined to the south and has invaded Michigan according to Dr. H. H. Martin, of La Porte, Ind., and by Dr. A. W. Hewlett of the University of Michigan. "We have had two pellagra cases in Michigan," said Dr. Hewlett. "Neither had eaten maize and neither had ever been in the south."

The doctors favored the theory that the disease is caused by malnutrition, overwork and insufficient clothing. Its principal symptoms are skin lesions, diarrhoea, mental disturbances with suicidal tendencies, and sores in the mouth.

TO MANUFACTURE FUSES FOR ALLIES

New York, July 19.—Most of the leading typewriter and adding machine companies in the east and middle-west, it was stated today by the Journal of Commerce, have formed a new corporation, under the title of the American Ammunition company, to take up contracts for the manufacture of fuses for high explosive and shrapnel shells for the English, French and Russian governments.

The shell commission of the militia department of the Canadian government, acting for the British war office, is said to have awarded to the American Ammunition company within a week a contract for the manufacture of fuses amounting to \$20,000,000.

"It is understood that the balance of the order is to be apportioned as soon as other companies can qualify for the business. An additional contract also amounting to \$10,000,000 it is stated, has been given by the Canadian shell commission to the same group of manufacturing concerns.

The Canadian militia department is reported to have given in addition a \$7,000,000 contract for shrapnel and high explosive shells to a financial group, which will undertake to sub-let the business among a number of industrial concerns.

Detroit, July 17.—C. W. Gooch, vice-president of the Burroughs Adding Machine company of this city does not believe that any of the leading typewriter and adding machine companies in the east and middle west have formed a corporation for the manufacture of war munition, as reported in New York today.

"The Burroughs company does not know of any such combination; we have not been approached on it and do not believe any such corporation has been formed," said Mr. Gooch. As for ourselves, he would not handle that kind of business. Since February of this year we have refused large quantities of business of that nature in every case, and will continue to do so."

Credit.
Credit is an estimate of your capacity to worry about paying your bills which is held about you by a lot of total strangers. Credit is also a belief held of your ability to pay for something long after you have ceased to derive any benefit from it. Credit is likewise a gauge of your willingness to deceive yourself into the belief you can afford to buy something because you cannot pay cash for it. If everybody paid cash there would be no bond issues, no huge clerical forces, no national debts, no armies or military systems, no schools such as exist today, no war, no degenerate fashions—nothing but plain, everyday living. Credit enables everybody to live a fictitious existence. Nothing exceeds like credit.—Lita.

WAR

London, July 19.—The Russian front, running from the Baltic in the north, to Bessarabia, in the south, a distance of nearly a thousand miles, is being subjected to violent attacks by the Germans and Austrians, and, in places, has, according to German official reports, been pierced. In the Baltic provinces General von Buelow is using a large force of cavalry and has crossed the Windau river and is moving toward Riga.

In the region of Przasnysz Field Marshal von Hindenburg, who is making his fourth attempt to reach Warsaw, twice has broken the Russian line and compelled the defenders to retire toward the Marow river.

In southern Poland, after a period of inactivity, Field Marshal von Mackensen again is on the move and claims to have captured some Russian positions which stand between him and his objective, the Lublin-Cholm railway.

Simultaneously with these attacks, which are the main ones, the Austro-German armies are on the offensive west of the Vistula river in central Poland and along the Dniester river in Galicia. As was the case in the drive through western Galicia, the Russians are fighting stubbornly and, on occasions, are turning and delivering vicious blows at their opponents. Whether they will be able to hold their present line is problematical.

The probability of the Russians having to evacuate Warsaw, which is threatened by von Hindenburg in the north and von Mackensen in the south, seriously is being discussed. The possibility of a further retreat, however, is being considered calmly in Russia, where the old theory that the farther the enemy is drawn into the country the worse it is for him buoys up their hopes of final victory.

For the present Berlin is the only capital celebrating and again Field Marshal von Hindenburg is being lauded.

With the enormous number of German troops being used for the offensive in the east, the greatest movement of the kind ever undertaken in the history of war, the military critics here do not look for an event of outstanding importance in the west for some time to come. The official reports issued today show that thus far, at any rate, no important move has been undertaken by either side. There have been artillery engagements but they were infinitesimal in comparison with the operations in the east.

Unofficial reports continue to refer to the fighting on the Gallipoli peninsula, but these reports are not confirmed by the headquarters concerned. News from the peninsula anxiously awaited, as the effort to clear it of Turks is about due.

With Field Marshal von Mackensen proceeding against the other flank, the maintenance of communication offers a serious problem for the Russians. The breaking of the Russian line near Kasnostav, thirty-four miles south of Lublin, brings the Germans dangerously near Cholm and Lublin, both of which points are of the highest importance to the Russians in maintaining their positions in the Vistula region.

Berlin, via London, July 19.—German officials decline to discuss the Austro-Hungarian proposals to Roumania, which have as their object assurance of Roumania's friendly neutrality, and perhaps even participation in the war against the entente powers. No denial is offered that such proposals have been made, but Germany's knowledge of the nature of the territorial and other concessions offered by her allies is regarded as confidential and inquiries are referred to Austro-Hungarian sources for details.

It is an open secret that one phase of the negotiations has to do with shipments of munitions to Turkey passing through Roumania. These negotiations have not reached a decisive point and it is considered certain that a negative answer from Roumania has not been received.

The negotiations between Turkey and Bulgaria have not yet been concluded. Turkey is willing to make certain territorial concessions in the Adrianople district to give Bulgaria the desired railroad route to the sea, but a point escaping general attention is the fact that Turkey demands in return not merely passive neutrality, as heretofore, but participation in the war, or at least some form of pressure against Turkey's enemies.

London, July 19.—An Austro-German ultimatum will soon be sent to Roumania, according to the Moscow Ruskoye Slovo, which is quoted in dispatches received here. It is added that large bodies of the Teutonic troops are massing on the Roumanian frontier to give emphasis to the ultimatum, which, it is declared, will demand unimpeded transit for munitions of war.

London, July 19.—"A ministerial order was issued today," says the Times, Sofia, Bulgaria, correspondent, under date of last Thursday, "definitely suspending railway communication with Turkey. The step appears to have been taken in consequence of continued Turkish interference with traffic and may probably be regarded as marking the collapse of the negotiations for the cession to Bulgaria of the Dedegatch railway."

FRANK MAY LIVE THOUGH GASHED

Milledgeville, Ga., July 19.—Leo M. Frank lay in the Georgia state prison hospital tonight with what attendants said was a fighting chance for recovery. Physicians has succeeded in stopping the flow of blood from a jagged wound in the throat made with a butcher knife in the hands of William Green, a fellow convict, also serving a life term for murder. The blow was struck as Frank slept in his bunk in a dormitory late last night.

An investigation of the attack probably will be made by the Georgia prison commission. Reports from Atlanta were that Governor Harris intimates today he would start such an investigation to ascertain whether reen acted entirely of his own volition.

Green said today, when taken from solitary confinement and questioned, that he planned the attack along and that no one knew what he intended to do. He was not communicative today and gave as his only excuse that he "thought it should be done." He said, however, he regretted his act.

Frank at night was quartered in a dormitory with about one hundred other prisoners, and occupied a bunk about forty feet from one of the two doors at the large room. Green's bunk was fourth from Frank's. No prisoner is allowed to leave his place without permission from one of the guards stationed at the dormitory at night. Shortly after 11 o'clock last night Green called out for permission to get up and it was granted. He started down the line of bunks toward the one occupied by Frank. As he reached it he grabbed him by the hair and delivered one blow with the knife he had concealed. A guard rushed to the bunk and prevented Green from striking again.

Among prisoners who rushed to Frank's aid were two physicians, one of whom also is serving a life sentence for murder. They gave first aid and treated the wound until Dr. Guy Compton, the prison physician was summoned from his home half a mile away. The three men put twenty-five stitches in Frank's neck. Dr. H. J. Rosenber, the Frank family physician arrived from Atlanta today with nurses. He said that while the patient's condition was precarious he had a chance to recover.

The cut extends from the front of the neck around the left side to almost the middle of the back of the neck. Neither the windpipe nor the spinal cord is hurt, but the jugular vein is partly severed. The physicians greatest fear tonight was that some of the stitches might slip, causing more loss of blood.

Frank has benefited a great deal by the outdoor life since being brought to the farm June 21. Though a small man, he always has had a rugged constitution and that, coupled with the exercise of the last three weeks, is in his favor, the doctors say. He took some nourishment today.

Frank knew of the demonstration against the action of Governor Slaton, whose term recently expired, in commuting his sentence, and also of threats to take him from the prison farm by force. Those who reached his side first after he was founded believed he had all this in mind when he said: "I guess they've got me now."

Queer English Custom.

It is customary in the Peak district for the unmarried girls to peer through the keyhole of the house early on St. Valentine's morning before any one else in the house is astir. They believe that if this is done fasting, omens of the year to come will be seen. For instance, should a cock and hen pass together, the girl may be sure that she will be married ere the year is out; if she sees a robin alone it is a sign that she will have a fortune left her; if a sparrow flies up to the door and pecks about as though for crumbs, she may take it as a warning to be careful, and that her good name will be in danger unless she take heed; while, if a hen strolls by, it is a sign that she will be an old maid.

Death by Freezing.

It is not clearly understood how severe cold causes death, remarks the Journal of the American Medical Association. A variety of causes have been assumed to be at work—accumulation of carbonic acid, paralysis of the vasomotor centers, loss of heat, accumulation of blood in the heart, anemia of the brain, destruction of red corpuscles—all of which tends to show that we really do not know anything definite as to the precise cause. The signs of death caused by exposure to cold are also poorly understood. This is especially unfortunate in view of the fact that in all northern countries cases of death from freezing frequently present themselves for investigation.

WANTED NOW.

Right now, when nay fever is attacking its victims and when asthma is causing so much distress, there is a demand for Foley's Honey and Tar Compound—the remedy that brought relief to thousands in previous years. Don't continue to suffer. It will help you. Contains no opiates. Sold everywhere.

CAN EFFECT CURE OF NEAR INSANE

Cadillac, July 19.—On eof the most important addresses made before the probate judges' convention here was that of Dr. Albert M. Barrett of the University of Michigan, who told the judges of the field of work and the functions of the state psychopathic hospital. The medical expert declared that near insane persons could be saved providing they were sent to the hospital at Ann Arbor before they became violently insane. Dr. Barrett declared that the counties badly neglected their indigent patients and he said the contract system of providing for he county's cripples was barbaric. "The cripples and the poor receive little attention at the hands of the contract doctor," declared Dr. Barrett.

MINES ARE TAKING ON LARGER FORCES

Iron River, Mich., July 19.—The local mining situation showed marked improvement this week when nearly all properties now operating commenced taking on more men and other signs of renewed activities were noted in the yards and about the premises. Indications for further resumption in mining are very favorable and an opinion is expressed from many authoritative sources that mines of the Iron-River district will be working on full times in the near future.

The James mine added about 35 to its force the first of the week and commenced shipping from the pocket last Monday.

The Chatham has a shovel at work in its stock pile this week, and ore from other mines is being moved from stock piles and pockets.

A switch into the Homer mines will be finished next week and that mine will then be added to one of the shippers of this district. The Homer also has been taking one more men recently and the indications are that that property is entering the field as a big producer of ore.

An additional force was added to the Hiawatha this week to make up for a shortage of shipments that the Rogers is unable to handle at this time.

The Caspian, Tully, Dober, and Zimmerman are also in lively action and the Forbes and Hall mines keep hammering away.

A shaft and power house at the McGillis mine will soon be finished and preparations are being made by the United States Steel corporation to develop that property.

Altogether the mining outlook is exceptionally bright and it is believed that rush orders for ore will characterize the close of the navigation season.

It seems hardly possible but the big Gary steel plant, which has been increasing in production right along for several weeks, will now start to operate 100 per cent. Only last winter the plant was shut down and many of its mills boarded up. The transformation from an idle piece of property to one of eight active blast-furnaces, forty-two open-hearth furnaces, 560 by-product coke-ovens (equal to 4,480 Connellville ovens), rail, exile and other rolling mills is a great change. Actively there also affects adjacent industries—such as rail and water transportation, meaning especially heavy pressure at the Kirk railway yards and the E. J. and E. longer hauls railroads. Thousands of men are now busy, where a few months ago they were without work. Gary plant full capacity will have a brightening effect on the whole Calumet region—Gary (Ind.) Times.

One hundred and sixty-two cars with a total tonnage of nearly eight thousands tons of ore, were loaded at

the "K" shaft stockpile of the New port Mining company in the ten working hours last Saturday. Credit for this remarkable record in ore loading by steam shovel is largely due to Dennis Harrington, shovel runner, Dominic Liberetto, crane, Russell Harrington, fireman, John Sullivan, train foreman, and George Rowe, assistant. Six pit men loosened the dirt for the shovel, while only the one engine "spotted" the cars. The best previous record run was made at the Colby mine at Bessemer, when one hundred and fifty cars with a tonnage of forty-two tons to the car were loaded in a ten hour shift.—Ironwood News Record.

Daily Thought.
The mind that is cheerful in its present state will be adverse to all solicitudes to the future, and will meet the bitter occurrences of life with a placid smile.—Horace.

PREDICTS A LIMITATION OF ARMAMENT AFTER WAR

Paris, July 17.—The ministers of finance in the belligerent countries will be the most forceful advocates of the limitation of armaments after the war," asserted Marcel Sembat, Socialist leader, and French minister of public works in a statement to a representative of the Associated Press today. M. Sembat occupies the first actual cabinet post held by a Socialist in France. Continuing the minister said: "If we leave aside the philosophical considerations that might incline us to desire a limitation of armaments, it seems to me that during the war and after it financial considerations alone will suffice.

"I have come from an interesting session of the chamber. M. Metin (A. J. Meisner), general budget reporter of the chamber of deputies emphasized the extent of the sacrifices that the war has imposed on us. You know that M. Metin calculated the war was costing France 50,000 francs (\$10,000) a minute. The expenditures of the English are not less than ours, while the Russians and Italians are feeling a heavy burden on their shoulders. On the other side our adversaries, the Germans and the Austrians, are crushed by financial burdens. You have noticed recently the failure of the Austrian loan. If the war proves to be long, which is not an improbable conjecture, endeavor to form an idea of what will be the state of the public finances of the belligerent countries at the conclusion of peace. We must expect that the public debt of each of those countries will be augmented by a considerable number of billions. I ask then of any one capable of seriously examining a financial situation how it will be possible to pay the debts contracted or the interest on the loans, and at the same time keep up as costly armies and fleets as in the past without renouncing expenditures for social reform, which impose themselves upon all civilized people?"

Romance.

They were at a tea on Morningside—she extremely pretty and engaging despite the fact that she was in Teachers' college, and he an earnest student of the law. They had really gone quite far along the pleasant road of romance. He inquired civilly what degree she pursued. "I aspire to be an M. R. S.," she replied demurely. "I dare say it's hard," he answered absent-mindedly. Hours afterward under the green-shaded light in his own room it all came to him suddenly.

AMONG THE THEATRES

THE STRAND

Hundreds of local people will this afternoon again be attracted to the Strand theater when the submarine moving pictures are to be displayed for a third time by Manager Hines. The pictures are without a doubt the most stupendous and mystifying ever to be shown in this city. The picture is itself, made possible by an invention by the Williamson brothers that will furnish enough light for the taking of moving pictures under water. The weird, unknown, in the bottom of the sea is brought before the eye in a moving picture with a truly wonderful clearness. The sponge industry and fishing are graphically outlined through undersea moving pictures.

The pictures are to be shown at this afternoon's performance only.

MONEY COMES; LOVE DEPARTS

Topeka, Kan.—Love fled from the hearts of William Weber and his wife Mary, when riches came. Then the riches took wing.

When the wreckage of the matrimonial capture was cleared away William possesses recollections of sore black and bitter memories. Mary shared equally in the bitter memories, but was given the custody of their two children in addition to 77 cents.

Recently William came to Topeka from Westmoreland to try to find his wife so that he may visit his two daughters, Oralla, 6 years old, and Luvania, aged 4.

Mr. and Mrs. Weber first met seven years ago when Mrs. Weber, then Mrs. Mary Wiberg, was employed as a domestic on a farm near Manhattan. Weber worked on the same farm as a laborer. They were married and lived in Randolph, a small town in Riley county. Weber worked wherever he could find employment.

Two years ago Weber's father died, leaving an estate.

Weber's share was \$1,500, and he says as he received it his wife announced that she intended to sue him for divorce. One day when Weber was sleeping on a cot under a tree in front of their home someone poured gasoline over his back and lighted the fire.

Weber said that he believed that his wife did it. He was unable to work for several months, as a result of his burns.

When the divorce suit was heard Weber did not appear. There was more litigation concerning the property and by the time it was divided, the shares of Weber, his wife and two children was 77 cents each. After the divorce Mrs. Weber left Randolph and is believed to have come to Topeka.

FRENCH LOSE 74,800 AT ARRAS.

Berlin, July 19.—The Overseas News agency announced today that the German authorities have succeeded by various means, especially by questioning the numerous prisoners taken, in obtaining accurate figures of the French losses in the great Arras battle. "These," the agency announcement says, "reached the grand total of 74,800 in killed, wounded and captured."

KNITTED BEADED BAG

EASY TO MAKE, THOUGH PRETTY AND DURABLE.

According to Taste, It May Be Constructed of Entirely Black Material, or Colored Silk May Be Employed—Directions.

I saw a knitted, beaded bag which the owner told me was at least 25 years old. It was so pretty but so simple that anyone who knows how to do the plain knitting stitch could make one like it.

This bag was made entirely in black, but one could use a colored silk with white beads, or beads in gold or silver. One needs a spool of knitting silk, a pair of steel needles and several bunches of beads. To make the bag cast on say 108 stitches and knit back the second row plain. Break off the silk and thread on about three feet of beads, choosing those that go through the silk easily but not loosely. If the holes are too small the beads will wear the silk, while, if loose, they will stand away from the silk. Tie the spool end and the loose end of the silk together at end of second row and start the third row. Knit off the first two stitches and then knit a bead into every stitch all the way across except the two end stitches. These are plain.

The fourth row is knitted plain all the way back.

The Fifth Row—Knit in the beads as the third row and come back plain.

Then go on knitting alternate plain and beaded rows until the piece of work is half its width. It is impossible to give the exact number of inches, but when the piece is folded once it should be a square. Also, do not forget to leave two plain stitches at each end and two rows of plain knitting at the beginning and the end of the work. This plain, narrow strip makes the seams (when the bag is sewed up) strong, flat and firm. The bottom can be finished with a fringe of beads.

Cut the lining to fit and catch it in

Knitted Beaded Bag.

with the bag seams. This will keep the lining from slipping. At the top of the bag make a beading of silk, brocade or satin, about three inches deep, to draw strings of ribbon.

Any size bag may be made to suit the taste of the knitter. If a larger or a smaller bag than the one described is desired, set on less or more stitches and knit until the work doubled makes a square.

More than three feet of beads will be necessary, of course, but one must always take care to get the join of the silk at one end, not when working the row across.

Then the loose ends or knots can be taken into the seam. I fancy the knots which come so frequently prevent the knitting being done on three needles, as one would form a stocking, going around and around until the bag were the desired length. This would be quite as easy as knitting with two needles and would also do away with the seam down the side.—Boston Globe.

RECEPTACLE FOR THE TOYS

Better to Keep Them on the Porch Than Have Them Dragged In and Out of the House.

Shoo! Chase the children out of doors this lovely weather. Let them take all the toys they possess. This will be the means of keeping them on the porch. To make it unnecessary for the children to drag the toys in and out of the house, make a receptacle into which the youngsters can put their possessions when playtime is over. A most convenient receptacle can be made by tacking stout oilcloth or denim to the side of the house. If the entire railing of the porch is protected from the rain, it might be well to cover it all with the material used for the receptacle. Provide sufficient material to form a flap and furnish the flap and the pocket with snap fasteners so that the contents of the receptacle can be snapped out of sight and the porch will present a neat appearance. An old raincoat might be used for the toy receptacle. It will prove durable and waterproof. It is advisable to make the pocket very deep so that toys of all sizes can be tucked into it.

Haversack Wrist Bag.

The haversack wrist bag is one of the most notable fashions brought into being by the war. Made in soft khaki leather, this bag is fitted with mirror, powder puff, purse and all the various accessories that can be stowed away in its capacious depths. It is shaped something like the soldier's military bag, with a narrow strap to band it around the wrist or over the arm.

LIVE ITEMS OF INTEREST

Miss Florence Lusardi of Trombly returned to her home today, after a two weeks' visit with friends at Iron Mountain and Spred Eagle.

Miss Jessie McDonald, one of the instructors in the Miles City, Mont. schools, has arrived in the city for a visit at the home of her brother, J. P. McDonald at 1023 Third street.

Mrs. William McDonald and son, William, of Gladstone, spent Sunday in the city as the guest of J. P. McDonald.

WILL BRING BODY TO BATTLE CREEK

Battle creek, July 19.—The funeral of Mrs. Ellen White, one of the founders and for many years head of the Seventh Day Adventists church, who died on Friday at St. Helena, California, will be held in Battle Creek, her former home, July 24. Mrs. White had never recovered from the effects of the shock when she fractured one of her hips in February.

Mrs. Ellen G. White was one of the converts of William Miller who in the early '40s aroused thousands to a belief in the speedy advent or second coming of Christ. According to information given out by the North American Division conference of the Seventh-Day Adventists as their prophesies.

Born in Gorham, Cumberland county, Maine, November 26, 1827, she had lived to the advanced age of 88 years. Her name was Ellen Gould Harmon, and she was one of eight children who like their parents became staunch Methodists in New England.

In March, 1840, she first heard William Miller, a Baptist evangelist, tell of the second coming of Christ, which he was then predicting for 1843. She was greatly stirred by the evangelist's message, and consecrated her life to the spreading of it, and, as she claimed in December, 1844, God gave her a vision of the second coming of Christ, and added as her interpretation of the Bible that it was her duty to observe the Seventh-Day Sabbath as she believed it was so observed by Christ.

She believed in the ultimate annihilation of the wicked and in the sleep of the dead until the final judgment. She traveled extensively. Besides covering all of the United States, she spent two years in Europe and nine years in Australia, seeking converts to her faith. She wrote some forty books whose aggregate circulation is said to have been upward of one and one-half million copies, and her writings were translated in forty different languages.

CHURCHILL IS QUOTED AS ADVISING HOLLAND TO BE READY FOR WAR

London, July 17.—The Daily Telegraph today prints what purports to be an interview granted by Winston Spencer Churchill, former first lord of the British admiralty, to the London correspondent of the Nieuwe Rotterdamse Courant. It deals mainly with the question of Dutch neutrality. Mr. Churchill was emphatic in stating that the allies would not under any circumstances attempt to exert pressure on the Netherlands to make it abandon its neutrality, but while there was no danger from the allies the Dutch are doing well to be prepared, for, he declared, "a free Netherlands cannot exist with a German Antwerp, and Germany may be forced to attack Holland."

Benefited by Chamberlain's Linctament, Traveling Man's Experience

"Last winter I used Chamberlain's Linctament for rheumatic pains, stiffness and softness of the knees, and can conscientiously say that I never used anything that did me so much good."—Edward Craft, Elba, N. Y. Obtainable everywhere.

TWO KINDS OF WHEAT LACKED

Lansing, July 19.—Prof. V. M. Shoensmith of the Michigan Agricultural college is recommending the Red Rock and American Banner wheats. He reports as follows:

"The Red Rock is a red wheat of somewhat better milling quality than the American Banner. It is also especially winter hardy, and has given us an average yield of 40 bushels to the acre. This wheat may be safely recommended for general use all over the state where fall seeded varieties are used.

"The American Banner is a white or rather pearl colored wheat of good milling quality, which gives an average yield of 40 bushels per acre. This is recommended for sections where white or beardless varieties are preferred. It is especially well suited to the moist fertile, soil of the Saginaw valley and the thub district.

"We shall be able to furnish a considerable quantity of American Banner, but Red Rock being comparatively new the seed is as yet somewhat limited.

Another white wheat which has given us practically the same results is the Early Windsor. Another good red wheat, much better than the ordinary, but not so good as the Red Rock is Shepherds Perfection.

"All of these wheats are pedigreed wheats that have been developed from individual plants in our breeding plots."

FERRIS URGES GRAND JURY LIQUOR PROBE

Lansing, Mich., July 19.—If the suggestions of Governor Ferris and Attorney General Fellows are carried out, a grand jury will be called in Baraga county to clearly the atmosphere relative to alleged violations of the liquor laws by certain prominent politicians of that county.

Some time ago a representative of the United States Indian service filed with the governor a number of affidavits requesting the governor to investigate conditions at LAnse, Baraga county, where the United States representative alleged certain politicians were guilty of violating the state law by furnishing liquor to Indians in order to secure their votes. The governor referred the matter to the attorney general and Assistant Attorney General James A. Green was sent to make an investigation. According to reports from the executive office, Green found that the alleged violations had never been placed before the county prosecutor, who bore an excellent reputation and that a special prosecutor was unnecessary until matters had been investigated more fully.

However, in his report Assistant Green says that the calling together of a grand jury would help undoubtedly to clear up matters to the satisfaction of all and this action may be taken. The governor concurs in the general and will so advise the prosecuting attorney and other officials of Baraga county.

SWINDLER, UNDER SENTENCE, GOES TO PRISON UNGUARDED.

New York, July 19.—Unaccompanied by guards, David Essacson, convicted of swindling, leaves here today to serve sentence of a year and a day in the federal penitentiary at Atlanta, Ga. The experiment of allowing Essacson to go to prison alone and unguarded is a new idea of the federal authorities here. The United States marshal urtiss Essacson to appear at the penitentiary on time chiefly because he is 60 years old, in feeble health and because his ball bond does not expire until he delivers himself to the warden. Essacson was headed of the Kalos Manufacturing company and is said to have derived about \$500,000 from the sale of outfits for making medallions.

Baking Powder Biscuits

Light as a Feather
By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

Baking Powder Biscuits made by this recipe are so far ahead of ordinary baking powder biscuits that, if once tried, you will never use any other recipe. Try it the next time you run short of bread. Save this recipe.

Three cups flour; 1/2 to 3/4 cup shortening; 1/2 level teaspoon salt; 1/2 level teaspoon baking powder; 1/2 level teaspoon cream of tartar; 1 level teaspoon sugar.
Sift three times, the flour, salt and baking powder. Work into the flour the shortening, using lard or butter for shortening. Then mix to a very soft dough with the milk. The softer the biscuit enters the oven, the lighter it comes out. Never knead baking powder biscuits; press the dough into shape and roll lightly. Cut in small shapes and bake on a sheet or very shallow pan in a hot oven. In placing biscuits in the pans place well apart, not allowing edges to touch. Small biscuits are better than large ones. Large biscuits do not have the proper amount of time to raise and bake.
Have you seen the new E. C. Cook's Baked Biscuits, an appetizing recipe that simply cannot be successful every time if the few simple directions are carefully followed. You would hardly pay 30 cents for this valuable book, yet we would like to send you a copy of it free of charge. It is a beautiful little book, and it is packed in every E. C. Cook's Baking Powder. Jacobs Bros. Co., Chicago, Ill. Use the old E. C. Cook's Baking Powder.

U. S. BATTLESHIPS MAKE FIRST TRIP

Panama, July 19.—The Panama canal was used today for the first time by large battleships of the United States navy, when the Missouri, Ohio and Wisconsin, carrying naval cadets from Annapolis to San Francisco made the trip from the Atlantic to the Pacific. The battleships, which compose the naval academy practice squadron, are in command of Rear Admiral William Fullam, superintendent of the naval academy at Annapolis.

The squadron left Cristobal at 10 o'clock this morning and was scheduled to reach Gallatrad cut and pass the slides there about 2 o'clock this afternoon. The battleships are due to reach Balboa, the Pacific terminal of the canal at 6 p. m.

The Panama canal has been used by warships before. The Peruvian gunboat Teniente Rodriguez passed through the waterway on August 17 last year and a flotilla of American submarines on February 25 of this year navigated the canal during battle practice.

ATTORNEYS DO HONOR

(Continued From Page One.)
Mr. Empson spoke with great feeling of the peculiarly close relations and affection of the mother and son; of the last days of the son and of his anxiety rather for the interests of others than for his own; of his hope that he might live, not so much for his own sake, but because he felt his mother needed him. He told of Mr. Mead's trip to New York, where he was entrusted with important business, which although his fatal illness was already upon him, he attended to, and returning home really very sick he sought to make light of his illness to prevent anxiety on the part of his mother. In the final week which remained to him, showing his fine courage and telling his nurse "Now I am up against it, but I will make a good fight."

"It is a pity," said Mr. Empson, "that a life so promising, with such a future opening should come to such an untimely end," and he quoted these lines:

CAN IT BE?
Matter immortal? and shall spirit die?
Above the nobler shall less noble rise?
Shall man alone, for whom all else revives,
No resurrection know? Shall man alone,
Imperial man! be sown in barren ground,
Less privileged than grain, on which he feeds?

Show us the truth and the pathway of duty.
Help us to lift up our standard sublime,
Until earth is restored to its order and beauty
Lost in the shadowless morning of time.
Teach us to sow the seed of many a noble deed,
Make us determined, undaunted, and strong,
Armed with the sword of right,
Daunted amid the fight,
Helped us to level the bulwarks of wrong.

The service closed with a few words by Judge Flannigan, who had known the father as a close friend and lawyer, he said, for many years; also, had known the wife and children in their home. He spoke with much emotion and great feeling. He had had to preside on many such occasions, as other judges had. It was surprising with what rapidity members of the bar of the circuit had been struck down. "But on all these occasions, none," he said, "seemed so sad as this." He spoke of the death of the father, of Mr. Jennings and of Mr. Cumlisky. But all these and others had lived their lives. He and Myrick's father had been closely associated for years, the warmest of friends, and he had seen Myrick grow up to manhood. In all his experience at the bar and on the bench he had never seen a young man start out in his profession showing quite as much ability or higher professional ideals. His father had handled a large and complicated business, yet Myrick took it over, and conducted it in a manner to satisfy his clients in every way. He was given this business not on account of friendship, but in recognition of his ability, which was really marvelous in one so young.

It was with the greatest difficulty that Judge Flannigan could control his feelings, so personal evidently was the loss of the young attorney. There were other things he said he had meant to say, but he could not "It is the greatest pity in the world that such a boy should be taken away," he concluded, announcing that when the calendar was cleared, court would adjourn in memory of Mr. Mead. The resolution of the bar were as follows:

MYRICK D. MEAD
In Memoriam
Myrick D. Mead, a beloved and highly esteemed member of the Bar of Delta County, whose memory is here sought to be perpetuated in a humble way, was born in the City of Escanaba, Michigan, on the 7th day of April 1891. He was the son of Frank D. and Sarah F. (Myrick) Mead. His father, the late Frank D. Mead, was a member of this Bar, a fine lawyer, a man of influence and prominence in his community, having won for himself a high place at the Bar of this State both for ability and integrity.

Myrick D. Mead's preliminary education was acquired in the schools of the City of Escanaba, from the High school of which he graduated in the Class of 1908. In the fall of the same year he entered the University of Michigan, and in June 1913, completed the combined literary-law course at that institution. Immediately following his graduation he returned to Escanaba and entered the law office of his father, who was then in practice here. After the death of his father, which occurred February 20, 1914, he took over and held the extensive and important law practice which had been established by his father, and managed it in a way that won for him the confidence and approval of many clients, and from lawyers old in the profession, the opinion that had been spared

his career as a lawyer would have been honorably successful.

In the fall of 1914, he was elected one of the Circuit Court Commissioners of Delta County, and held that office at the time of his death, which occurred on the 20th day of April, 1915.

In the death of our esteemed brother, Escanaba has lost one who promised to achieve an eminent place in his profession. He had spent all of his life in this city; as a boy he was studious, and well behaved, and as a young man he was one after whom others might pattern with profit. He was always a gentleman. It might safely be said that no young man of this city was possessed of more exemplary habits than Myrick D. Mead.

Therefore, as a perpetual evidence of the high esteem in which our brother Mead was held by those who knew him best, and whose fortune it was to come in daily contact with him, and as an acknowledgment of the debt the legal profession owes to one whose life, private, public and professional, dignified and illumined it, the Bar of Delta County does hereby unanimously resolve:

That its members keenly regret and deplore his untimely death and sincerely lament the termination of his promising career; that in his passing, we have parted with a friend; that the profession has lost a careful and painstaking practitioner, and the community has been deprived of the services of a citizen who surely would have performed, to the fullest measure of duty, every civic obligation.

AND IT IS FURTHER RESOLVED, That this Association present this Memorial for the record in the Circuit Court for the County of Delta, and the Supreme Court for the State of Michigan; and that an engrossed copy hereof be sent by the Secretary of our Association to the Mother of our deceased brother, in token of our sympathy for her great loss and bereavement.

H. J. RUSHTON,
T. E. STROM,
JOS. F. CUDDY,
Committee.

GAME OF THREE TENNIS PLAYERS

A new tennis game has been invented for use when three players want to use a court at the same time. The game is called "Spike" and solves a troublesome problem.

This is the idea: The three players toss up their racquets and the odd player plays the single court, taking the service. If he wins the first game he scores two points. If his opponents win, they score one point each.

At the finish of the game the players move up, as in the old baseball games of Numbers and One Old Cal. We'll designate A as the player who served in the first game. He moves to the "odd" court on the opposite side. B, who had the "even" court, crosses and takes the service, playing alone. C takes the "even" court and has A for his partner.

After the second game every one moves up again. Each player keeps his own score and the first to score 10 points wins.

Each player, in the new game, has one service in three, no player goes it alone enough to become fatigued and each player has an equal opportunity. In the old three-handed game the odd man serves twice as often as either of his opponents.

This game gives a man a good chance to play with two women and gives a beginner a chance with the good players. Also, it is not necessary for one party to stand around while two others play a singles match or to wait for the fourth player.

BEST TIME FOR MILE EVER MADE BY MAN THE FEAT OF N. S. TABER

Cambridge, Mass., July 17.—The fastest recorded mile ever run by a man was the athletic feat of Norman S. Taber, formerly of Brown university, in the Harvard stadium today. His time was four minutes, twelve and three-fifths seconds. Taber was paced by three fast middle-distance runners. W. H. Meaux, formerly of Colby college, set a new world's time of fifty-four and three-fifths seconds for the 440-yard hurdles. Both Taber and Meaux ran under the colors of the Boston Athletic association. The former mile record of 4:12 3-4 has stood since 1886, having been made by W. B. George, of England. The former 440 hurdle record of 56 4-5 seconds was made in 1910 by Anderson, of England. Taber seemed scarcely blown after the finish and offered to run a half-mile for the benefit of the crowd. Meaux had two pace-makers for the hurdles and did not knock down a single hurdle.

DAILY LETTER

After a weak opening the market showed considerable strength caused by short covering, this was quickly followed by liquidation. Recent victories reported by the Germans are not well taken in Wall St. United Verde Extension was in good demand with an advance to 6 per share. The strength in this issue, brought about more inquiries for Jerome Verde, and it may mean the forerunner of a new option.

London Copper was off 1 pound 5 shillings and the consumers state producers will have to shade their quoted price of 19 3-4 at 20 before any buying movement starts. Most of the companies have sold-futures sufficient to take care of their production for 60 days or more, so apparently are in no hurry to cut prices. Tamarack was strong without any particularly reason, while Greene declines from profit taking. When Copper Companies begin to increase dividends, stock prices will be considerably higher than the present level. Buy good copper.

BOSTON MARKETS

The Copper share market very dull and featureless. Zinc stocks under pressure most of day. Market merely dragging along waiting for something to turn up to stimulate activity. Stocks bought on recessions should show a profit.

ARE YOU FEELING FIT?

Do you know the man or woman of untiring energy, strong body and happy disposition? All these depend upon good health, and good health is impossible when the kidneys are diseased. Foley Kidneys Pills help the kidneys cast out poisons that cause backache, rheumatism, and other symptoms of dangerous kidney and bladder troubles. Sold everywhere.

LOST—baby's one strap slipper, size 3 1-2. Finder kindly return to 417 South Georgia street. 2284-199-3t.

SOUTHERN GIRLS IN BOXING GLOVES

New Orleans, La., July 19.—Working a tantalizing left jab that kept her opponent at bay, Miss Ada Eline of Bossier Parish, La., last night outpointed Miss Mary McDonald of Issa, Queen county, Miss., a rapid three-round fight with 10-ounce gloves before an audience of 500 women and

CROWDS of men in every community using the *Real Tobacco Chew*—because it satisfies them better than any of the old kind.

When men who for years have tried brand after brand get started on the *Real Tobacco Chew*, you can bet that they're glad they've got it.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS! W-D CUT IS LONG SHRED, RIGHT-CUT IS SHORT SHRED!

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco-satisfied. That's why it's the *Real Tobacco Chew*. That's why it's the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste!

FEED WHIPPED CREAM TO DOGS

Stettin, Germany, July 19.—The discovery that Stettin women have been feeding whipped cream to their pet dogs while mothers have had a hard time procuring a sufficient quantity of unskimmed milk for their babies, has aroused a storm of protest.

Stettin recently attempted, unsuccessfully, to have its allowance from the government for the support of soldier's families increased. In opposition it was declared that Stettin women were too liberal purchasers of cakes and whipped cream, things that are not considered essential to the maintenance of life and health.

Some idea of a magistrate's opinion of the Stettin women and their dogs may be gleaned from the following notice by him recently published in the local papers.

"Since the present shortage of milk leaves much to be desired in the supply for wounded, sick and babies, every effort should be made to avoid diminishing the existing supply. While on this account persons actuated by feelings of intelligence and duty, have imposed upon themselves restrictions in their consumption of cream and whipped cream, because an extraordinary amount of unskimmed milk is necessary for them, it has unfortunately been noticed in the public stores that individual female customers are ordering special portions of whipped cream to set before their dogs.

"Such a contemptible proceeding, which makes of self-sacrifice and renunciation of a mocker, fits, it is to be hoped, the exception and not the rule, and therefore does not warrant official action. In the meantime those who have not suspected the existing state of affairs must be shocked and confounded that Stettin must thus be exposed to shame."

GAVE PORTER SHOE AND LEG WITH IT

Latter Was Wooden and Sleeping Car Passenger Had It in His Berth.

Spokane Wash.—C. E. Cranke of Colville for years has had a well-established reputation as a practical joker, but his latest exploit in this line, which he is relating to his acquaintances with great glee, created such a commotion in a Pullman sleeping car on an O. W. R. & N. train near Pendleton recently that the crew had to take a hand to quell the disorder and quiet the passengers.

Awakened during the night by some one rummaging around under his berth Mr. Cranke discovered the colored porter down on his knees poking into the recesses under the seats with a cane. The Pullman con-

Dropped it and Ran Screaming.

ductor about this time thrust his head out from the curtains of his section and remonstrated with the porter for making so much noise.

The porter explained that he could find but one of Mr. Cranke's shoes to shine and was endeavoring to locate the other, which happened to be still on the foot of Mr. Cranke's artificial leg, which he had carefully deposited in the net in the berth. Reaching into the net he got the leg and passed it foot first through the curtains, just in front of the colored man's face. The latter took hold of it, but when he drew it out into the light and saw there was a leg attached he dropped it and ran through the train screaming at the top of his voice.

"I never heard such a commotion in my life, and the passengers came tumbling out of their berths pell mell, imagining there was a hold-up," said Mr. Cranke. "It required the combined efforts of the entire train crew to quiet them and get them back to bed and it was almost impossible to induce the porter to return to the car."

PUTS OUT BOMB; LOSES NOSE

Pittsburgher Gets a Close Shave and Extinguishes Harmless Fuse Thrown by Joker.

Pittsburgh, Pa.—William White had just been talked to sleep in the barber shop of John Beymer on the North side when with a crash of glass through the front window came a piece of lead pipe with a burning "fuse" attached. Scattered was Beymer that a quick movement of his razor shaved White's nose. All except White fled.

White grabbed a towel to stop the blood, and noting the lighted "bomb," drenched it with a mug of water. Barbers and patrons cautiously crept back and found the bomb dead.

Police who were summoned found the bomb's fuse was rope and that the lead pipe was empty. The ends had been hammered together to hold the rope in position.

White lost a good portion of his nose. The police are searching for the "bomb" thrower.

BIG COON ATTACKS COPPER

Policeman Has Lively Tussle With Furry Animal Who Jumps Him While on Beat.

Seattle, Wash.—Pedestrians out late recently on Queen Anne Hill were astonished to see Patrolman A. H. Ellis, revolver in hand, chasing a large, furry animal down McGraw street, between Sixth and Seventh avenues West. The two dashed around the corner and up an alley. A moment later there came three shots, and the patrolman emerged from the alley dragging by the tail a monster raccoon.

Ellis was walking his beat about ten o'clock when the animal sprang from the ground and clung to him. He shook it off. It lunged at him again and this time got under his coat and sunk its teeth in the patrolman's thigh. He again shook the animal off and pursued it down the street and up the alley, where he managed to shoot it.

He Was Accommodated. New York.—Oliver J. Lakean, charged with forgery, begged the court to change his suspended sentence to two years in "delightful Sing Sing." He was accommodated.

LIKENS WILSON TO LINCOLN

Denver—That President Wilson is the equal of Abraham Lincoln is the opinion of Assistant Secretary of State John E. Osborne, expressed in an interview here.

"I know of no man in all history who is more worthy of comparison to Lincoln than Woodrow Wilson," said he. "In many ways their characters are almost identical so far as statesmanship is concerned. Men criticized Lincoln because the rebellion was not ended; so they criticized Grant for the delay before Richmond, and they have criticized Wilson because he has not ended the trouble in Mexico and put a stop to aggressions on the seas by Germany and the embargo which Great Britain has declared against trade with Germany.

"I am firmly convinced that when all these troubles are over the verdict on President Wilson will be one of approval by every man who is disposed to treat fairly an honest, capable man irrespective of political alliances."

UNITE BOTH PARTISE

Minneapolis, July 19.—The Washington correspondent of The Journal, a Republican paper, writes thus in discussing the next campaign and the war:

Adly enough the country desires Root for the same reasons that the Democrats will give for the re-election of Wilson, the stark necessity of a foreign policy which will unite the country. This is the first year in the history of living men when a single foreign question has controlled American politics. It does so today. It may continue to do so. If it does the president has the whip hand. Such a thing as a crisis which would unite both old parties is possible. The Younger members of the Republican party would not be wholly averse to it. It is only the older presidential possibilities who would see their names wiped from the slate.

WILLIAM FINDS WHATS IN HYDRANT

Appleton, Wis., July 19.—Young William Hobbins had burning desire to know what was inside that big green hydrant on the corner of Lawrence and Elm streets. After viewing it awhile, he decided to investigate for himself, for William is about 10, says the rescuer.

Turning the iron cap, he found that it would unscrew. Discovery No. 1. Slowly he turned the cap and found that it was coming off in his hands. Discovery No. 2. This was getting interesting and William decided to go the limit in his researches.

Suddenly Williams burning desire was squelched in a literal wave that spurted from the green monster of a hydrant. A stream of water that seemed a foot thick struck William square adirship and he reeled backward, pursued by the stream of water which carried him twenty feet across the street.

William tried to evade the villainous shot, but could not get away, the stream having such a velocity that when he was across the street it whirled him around and around much like the whirling dervishes seen at the circus. Finally he collapsed in a wet bedraggled heap near the sidewalk, to receive a comforting bath in the meantime. When he arose, his face was a picture, a desire to cry battling with astonishment at what he had found in the hydrant.

After a new suit of clothes had been put on and William had had time to think the matter over, his face suddenly brightened; he had made a great discovery. Discovery No. 3. It was this. The blamed old hydrant was full of water.

POLICE "RAILROAD" CROWE IN THE CITY OF DETROIT

Detroit, July 19.—In spite of his protests that he was lecturing on a method to reform drunkards, Pat Crowe, notorious kidnapper of Eddie Cuahy, son of the Chicago and Kansas City packer, was given six hours in which to get out of town when arraigned Thursday afternoon before Judge Connolly charged with loitering. Crowe was picked up by Detective Wilkinson and hustled into court. He declared he had reformed and was leading an honest life.

ow Mrs. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for ears and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

The Morning Press

Is read daily by more people than all the other newspapers in Delta County combined.

WHY?

Because

The Morning Press prints the news when it is news

Because

The Morning Press presents each morning the news of the entire previous day and previous night.

Because

The Morning Press, with its unsurpassed telegraphic service, gives each morning the complete story of the great European war, up to the early morning hours.

Because

The Morning Press guards its columns from all matter not fit to be read in the home.

Because

If its news and is right and fit to print, you see it first in *The Morning Press*.

Daily since the first issue of the *Morning Press*, its army of readers has steadily increased. Each day brings its new names to the circulation list, people who want their money's worth of newspaper.

There's a Reason

The Reason Is---The Press Itself

GOMPERS SCENTS EFFORT TO CLOSE

Washington, July 19.—That organized labor has been approached by persons interested in hampering the work of manufacturing munitions of war in this country for sale to the allies, was admitted here today by President Gompers of the American Federation of Labor. Mr. Gompers has just returned from Bridgeport, where officials of the Remington company have charged German attempts to stop shipment of arms from this country. He admitted that leaders of organized labor had been approached in connection with the troubles at the Remington plant, and at the same time served notice that organized labor must take steps to guard against attempts to make it the tool of two partisans.

Mr. Gompers, by strong inference served notice on Representative Buchanan, Illinois, and his so-called labor place council, that organized labor not only is not in favor of his propaganda to prevent shipments of arms to Great Britain, France and Russia, but that he regards Buchanan's activities with suspicion.

At Bridgeport, where 20,000 workers are threatened with a tie-up over differences of a mysterious nature, Mr. Gompers believes money was used to start the trouble.

"I have reason to believe that the Bridgeport trouble will be settled peaceably in a few days," declared Mr. Gompers.

"Labor organizations and disputes will not be permitted to be manipulated to serve purposes of a European belligerent. I can say that our leaders have been approached in this trouble by parties, interested in preventing the shipment of munitions, who have been watchfully guarded against, ferreted out and repudiated. "Labor is interested in working within the law. Labor has no interest in the destination of material upon the manufacture of which it is employed. Labor knows only that it is employed upon the manufacture of water material which someone has ordered and paid for. As long as these materials are manufactured under conditions fair to labor, labor does not propose to serve as the cat's paw for either the one belligerent or the other."

Bridgeport, Conn., July 18.—The refusal of Maj. Penfield, U. S. A., retired, general manager of the Remington works, to meet the labor leaders representing the machinists' unions which voted to strike Monday unless their demands are granted, caused predictions by international labor men that, if necessary, all New England, where the immense war orders are largely concentrated, would be involved in a general labor war. Maj. Penfield has intimated he will not take a hand in the present Bridgeport strike of Stewart Construction Co., employes until his own men walk out.

Menominee, Wis., July 19.—Miss Estelle MacCauley, formerly a Menominee girl, and daughter of the late T. W. M. MacCauley, one of the pioneer residents of this city, is distinguished as being the first woman passenger agent in the United States. Portland is the first city in the country in which a woman is to practice this profession. Says the Portland Oregonian of recent date:

WISCONSIN WOMAN FIRST AGENT

Beginning tomorrow Miss Estelle MacCauley will be a regularly credentialed passenger and ticket agent for the O. W. R. & N., with headquarters at the city ticket office.

While the duties of these young women will consist primarily in catering to women patrons in city ticket offices, it is intended that soon they will take their places as passenger solicitors, particularly where women travelers are concerned.

The Belle C. Will make a regular trip every Sunday leaving the Merchant's dock at 10 a. m. and running to both docks at Stonington. Returning the boat will leave Stonington at 5 p. m. 2024-163-17.

NOTICE. From City Treasurer. Notice is hereby given that the city's portion of Taxes for the year 1918 is now in my hands for collection. The taxes therein levied can be paid in the city Treasurer's Office at the City Hall at any time before the 15th day of September, 1918, without any charge for collection. Four per cent collection fee will be charged upon all taxes remaining unpaid upon said 15th day of September, 1918. CARL E. ANDERSON, City Treasurer. Office Hours: 9:00 to 12:00 a. m. 2:00 to 5:00 p. m. 2273-198-101

You make no mistake when you get your job printing at the *Morning Press*. Nothing but first class work

Everybody should go and enjoy an outing at this beautiful spot.

Special rates to large parties.

ESCANABA TRACTION CO.

COMPANY 'B' BEATS CO. 'A'

Members of Company B St. Patrick's Boys Brigade on Sunday triumphed over the Company A players at South Park in one of the most exciting base ball games staged there this season. After twelve tight innings the juvenile players clinched a 10 to 9 victory by a rally that carried the older diamond stars off their feet. From the start to the finish of the game a great crowd of fans rooted consistently for the younger players and the victory won by them was a popular ending to an annual conflict in which unusual interest was centered. The Company B players got away to a bad start, allowing Company A to pile up their entire final score almost before they had begun to count. Germaine, on the hill for Company B, was inclined to be wild in the early innings and

coupled with loose support made it appear that Company A was to win with a walk. In the latter innings Germaine settled down and with a shift in the lineup was provided bang up support. It was then that the balloon of Company A took its ascension and it was near the counting of time with Company B three runs to the lead and two men on the paths that McCarthy connected for a home run drive over the park fence tying up the score. Up to the twelfth inning the teams battled with neither able to score, but in that session Company B runner was shoved over the pan and that Company had accomplished what previously had been thought impossible. All much to the delight of the big crowd of fans as well as the discomfiture of the older players.

M. J. Corbett and family arrived in the city yesterday and are guests at the home of Mr. and Mrs. George Craver at the Chemical Plant Location. The Corbetts motored here from Binghamton, N. Y.

CONDITION IS STILL VERY GRAVE

(Special to The Press.)
Milledgeville, Ga., July 19.—The condition of Leo M. Frank is still exceedingly critical. Pains in the vicinity of his stomach are causing grave speculations as has the swelling below his ear.

(Special to The Press.)
Atlanta, Ga., July 19.—Blood poisoning from infection of his wound is the chief danger confronting Leo M. Frank in his fight for life at the state prison farm hospital in Milledgeville, according to attending physicians. William Green, the life timer who cut Frank's throat, is still in chains and under guard. Chairman Davidson of

the Prison Commission sat tonight that the only punishment the board can inflict if Frank recovers, is to remove his eligibility of a parole.

OKLAHOMA IS FIRE STRICKEN

(Special to The Press.)
Philadelphia, July 19.—Ready for her trial trip, the battleship Oklahoma, was seriously damaged by fire of a mysterious origin tonight. The fire was discovered at six o'clock, was under control at 9. An investigation will be made tomorrow. The blaze has started many rumors about the ship building yards. One report is of an explosion but it could not be verified. Others were that the fire was of an incendiary origin.

BAY VIEW CLUB MEETS

Members and officials of the Bay View Golf Club last evening gathered at the office of the Delta Title, Land and Loan Company at which time it was definitely decided to improve the local golf course through natural courses and not to attempt immediate improvements at this time. It was shown, through a report last evening, that the Bay View club now has a total of 61 members and that a number of others have signified their desire to become members of the local organization.

The report of the golf course architect, Bendelow, of Chicago, who recently visited the local links, was read last night in which Escanabas grounds were lauded as the "ideal course." It was definitely decided to adopt the measures included in the recommendations of the course architect.

A report from the grounds committee showed that a number of improvements have already been made this summer which will materially benefit the future welfare of the club. The matter of sprinkling the greens daily was taken up and disposed of in a satisfactory manner.

A decision was reached by those present by which at least one, and possibly two, five man teams will be sent to represent Escanaba at the annual Upper Peninsula Tournament to be held at the Riverside links at Menominee on August 5, 6 and 7. At the same time it was decided to hold local tournaments here at least once each month, and to purchase a cup that will be allowed to rotate among the members, according to the winners of the tournaments.

Rules will be printed immediately to be presented to the cadets who have badges. Thus far, this matter has not received the attention of the organization and it has been found necessary to do so now.

OGONTZ MAN IS TAKEN FOR NETTING BASS
Frank Provo, a fisherman at Ogontz has been arrested by Deputy Game Warden Leisner, charged with catching bass in nets. The man will be arraigned in a local court, probably today.

SEVEN GET SENTENCE

(Continued From Page One.)
prison. Costs of the case were paid by Burke.

John and George Britz, who plead guilty to the charge of robbing box cars at Lathrop, were also paroled for two years with the stipulation that they pay the \$120 cost in the case. It developed in the sentencing that the younger of the two Britz men, is but 19 years of age, that he had been married three years and that he is the support of one child. The elder of the two men is also married and the father of a family.

Probably one of the most touching scenes to be enacted in the local circuit court room was that of yesterday afternoon when Fred Higgins and Fred Durmal, aged 18 and 19, the two Soos laid charged with the burglary of the Rosenblum store at Gladstone and implicated in the theft of the MacMartin auto in this city were called before Judge Flannigan for sentence. They aged and grey fathers sat just outside the railing with heads bowed awaiting the decision of the court that might send their sons to states prison.

When they appeared for sentence yesterday the lads were just two boys again and were sorry and deeply repentant for their wrongs, their early defiance entirely disappeared. As they stood before the judge with bowed heads, they asked for the mercy of the court that they might start life anew and lead more righteous lives. The stern but fatherly talk given those boys yesterday afternoon, will long remain firmly imprinted upon the minds of those present. He impressed upon them the seriousness of crime and of their nearness to prison where every man becomes "marked."

The lads were finally allowed to go upon a two years parole during which time they must attend church regularly, keep out of saloons and poolrooms and remain entirely obedient to their parents. With words of thanks the lads left the courtroom with their parents.

John Berrigan was also paroled for one year, under T. J. Curran, after he had plead guilty to carrying concealed weapons.

Following the passing of sentence upon the men the court was adjourned until 4 o'clock when naturalization matters were taken up which occupied the remainder of the afternoon. The jury is called for this morning.

TOO LATE TO CLASSIFY.

CITY EVACUATION IS CONFIRMED

(Special to The Press.)
Washington, July 19.—The evacuation of Mexico City by the Carranzas, General, Pablo Gonzales, is officially confirmed. The information has produced a new, and unpleasant complication for the administration as indicating that no success of either faction appears to be permanent, or showing a way to solve the situation.

THAW REJOICES AT HIS HOME

(Special to The Press.)
Pittsburg, July 19.—Harry K. Thaw is at home tonight for the first time in nine years. A tremendous ovation was tendered him on his arrival this evening. Almost at the end of his journey Thaw, in a conversation with reporters, gave expression to his sentiments which may be interpreted as meaning that he feels, as a sane man, he had ample justification for the tragic event of June 25, 1906. Tonight an old fashioned family reunion is in progress. At no time since his arrest for the murder of Stanford White has Thaw appeared in better condition, than this afternoon.

Mrs. A. Delosh and daughter Anna of Trenary are guests at the Delta hotel, and will remain here for a few days.

MANY SEE PROGRAM

(Continued From Page One.)
of oratory Col. Gearhart praised the boy from the farm, his stability of character and real manmaking qualifications. In his address of last night he directed his talk from his topic: "The Coming Man." He urged that boys give up school; that he fight, if necessary for an education and in closing he spoke of the future generation that must be governed, not only by men of experience, but by men of college educations.

The Sunday's program met with almost equal success as did that of yesterday and today a monster crowd is expected at the park at both afternoon and evening performances. Pitt Parker will appear in a crayon recital while the Arden Drama Company will render a program that has been much lauded in other cities.

Miss Louise Williams has charge of the Junior Chautauqua each morning and will this morning entertain children of the city at the Chautauqua grounds. From 9 to 10 o'clock this morning she has charge of the boys between the ages of 10 and 15 years and from 10 to 11 o'clock, the girls and small boys. During the afternoon she conducted a class in story telling.

Mrs. R. C. Hathway Chapter No. 49, O. E. S. will hold a regular meeting at Masonic Hall, Tuesday evening, July 20th, at 8 o'clock. 201-11.

After and Before THE CHAUTAUQUA hear the grand opera singers and warblers at our store.

"CHAUTAUQUA WEEK"

Special Surprises At Our

July Clearance Sale

After and Before THE CHAUTAUQUA hear the grand opera singers and warblers at our store.

At the half-way place in the Great July Clearance Sale, it is only fitting that with many new economies in evidence and many new low prices in force, this great out-clearing should start upon a new campaign of extraordinary value-giving.

In all the years this store has been in business no more important clearance event than this has ever been held.

This spring we opened the season with by far the largest spring and summer stock we had ever gathered. Then came the unfavorable weather conditions that all over the country have retarded the distribution of summer merchandise.

Naturally stocks are over-heavy and the necessity for immediate and absolute outclearing, more than ever imperative. Already the great July clearance sale has made wide inroads and in many departments are accumulations of broken assortments, small lots and odds and ends that necessitate still greater price reductions.

Every day during this week there will come hundreds of new economies. In practically every department there has been a general overhauling of all remaining summer stocks and in reality the great clearaway is starting all over again this week.

Here Are a Few New Ones!--Many More Will Be Published Every Day--Watch For Them!

Final Cut
