

1500 LOST WHEN VESSEL TURNS TURTLE

CHICAGO BOWS HEAD IN MOURNING AS BODIES ARE RECOVERED FROM MURKY RIVER

MOTHERS WAIL AND WEEP BEFORE GHASTLY MORGUES

Practically All of Chicago's Largest Theatres Are Dark--Cabarets Are Closed--City is Wrapped in Cloak of Mourning-- Divers Work All night In Recovering Bodies

BULLETIN

Chicago, July 25.—At 1 o'clock this morning the Western Electric Company announced that 1,009 of the passengers aboard Eastland had been accounted for as alive. Of the 919 bodies at the Second Regiment Armory at that hour, 161 have been identified.

(Special to The Press.)

Chicago, July 24.—While steel workers were melting off the hull of the excursion steamer Eastland with acetylene torches which threw a ghastly light upon the scene and while divers groped in the black hold and submerged staterooms, to bring up more bodies of women and children, Chicago tonight counted her dead in history's greatest marine disaster.

"There are more than 2000 dead," said the police and fire officials in charge of the gruesome task. Estimates ran from 1,700 to 3000 while the exact figures probably will never be known. Unparalleled horror and grief marked the throwing open of the Second Regiment Armory at 10 o'clock tonight where 600 bodies were arranged for identification. While the police clubbed weeping and shrieking throngs into lines, women were crushed and men fainted.

The 2,000 or more who perished on the Eastland were members of Hawthorn Club, composed of 6,500 employees of Western Electric Company, who had chartered five boats for picnic at Michigan City, Ind.

Two federal government investigations and a combined inquiry by Coroner Pefer Hoffman, States Attorney Hoyne and City officials were set on foot tonight.

The Chicago Federation of Labor wired President Wilson at his summer home demanding a full investigation.

- ♦ The loss of life on the Eastland is the greatest of any disaster to a single ship in history.
- ♦ The Lusitania loss was 1,134.
- ♦ The Titanic 1,490 and the General Slocum, burned in East River in 1904, 1,000; while the Eastland loss was 2,000.

Practically all Chicago was in mourning tonight. American and Federal league games this afternoon were postponed. Nearly every theater in the city is dark and many cabarets are closed.

It is expected that ministers tomorrow are to preach concerning the disaster and offer special prayers. All night huddled groups stood around the undertaking establishments awaiting news.

"Some one must go to jail," said states Attorney Hoyne tonight. It was impossible tonight to get what even were called to be accurate figures on the number of dead.

W. Greenebaum, general manager of the Indiana Transportation Company lessee of the ship, for whom the Federal subpoenae has been issued for his appearance before a special Federal Grand Jury, said that exactly 2,488 were aboard, he based his estimate on the government inspectors count. Officials of the picnic committee disclaimed, however, that over 1000 were aboard when the inspectors began the count. W. J. Wood, Naval Architect, who in 1902 was consulted by owners of the Eastland in remodeling the boat, declared the ship was "the crack of the lake."

It is most important that the water ballast compartments be kept filled," he said, "and that passengers should not crowd on one side of the upper deck." Tonight Captain Peterson, under arrest, told Hoyne he never carried water ballast in his ship while in the river.

The coroners jury early Sunday morning estimated the known dead at from 1,000 to 1,200. It is not known how many bodies remained in the hull and the river. The police believed the figures as low as 919 bodies were tagged at the Second Regiment Armory only.

Assuming that these persons are in error who insist there were more 2,500 on the boat and that the official count of 2,500 is correct, and accepting the Western Electric Co. figures on known survivors, there would still be a possibility that 1421 passengers perished.

W. K. Greenebaum, general manager of the Indiana Transportation Company issued the following supplementary statement: "The Indiana Transportation Co. expresses deepest sorrow and sympathy for the bereaved in the Eastland catastrophe. The Eastland was not overloaded."

"At this time the Indiana Transportation Co. is unable to voice an opinion on the cause of the accident because the Eastland was hired for the day only and captain and the crew were not employees of the Company. "We are doing everything in our power and will continue to do so, both in work of rescue and in aiding all the investigations, both by legal authorities and by the press."

(Continued on Page Six.)

SUCCESS ASSURED

Fair weather conditions are promised for today insuring the success of the excursion arranged by the men of St. Patrick's church aboard the steamer Saugatuck to Fayette. The boat will leave the Stephenson dock at 8:30 o'clock and will run direct to Fayette, delivering the pleasure seekers there well before the noon hour. All will carry well laden lunch baskets on the outing of today and the event will be made an old fashioned basket picnic at Fayette. Today those who take part in the excursion will find at Fayette, nearly 250 members of St. Patrick's Boys Brigade, encamped there, a fact that will make more pleasant the program that is to be provided.

DEFEND AMERICANS AGAINST DEATH

(Special to The Press.) Washington, July 24.—General Carranza and General Villa, were notified by the state department today that the United States army will defend Americans from any attack, accidental or otherwise by the forces of either the Mexican leader at Naco and at Nogales, or at towns on the Mexican border.

BATTLE WITH WATER CO.

RESIDENTS OF MENOMINEE FACING SAME KIND OF PROPOSITION AS IS ESCANABA

The city of Menominee is today in the midst of a battle with the water company of that city, such as Escanaba is facing with the North Michigan Water Company. The city of Menominee has two propositions before it, as will be the case in Escanaba, to either buy the present plant or to construct a new system.

Experts have been at work for that city for several months to determine the value of the old plant and the actual cost of an entirely new plant and water system.

Complete figures have now been submitted to the officials showing that the total cost of an entirely new plant would be but \$6,000 more than the price asked for the old plant.

The figures follow:

Cost of New Plant	
Lake Intake	\$ 27,720.00
Central Station	39,820.00
Distributing System	170,033.82
Grand total of plant, exclusive of filter plant and clear water basin	\$237,573.82
Cost of Filter Plant	
Filter Plant Complete	\$ 22,500.00
Clear Water Basin	14,000.00
Supervision, contingencies	6,650.00

Total cost of Filtration Plant and clear water basin	\$ 40,150.00
Grand total of cost of new plant, inclusive of modern Filtration Plant	\$277,723.82
Cost of Present Plant	
Amount offered by City to Water company for present plant	\$200,000.00
Improvements in water recommended by former Sherman report	31,322.08
Filtration plant and clear water basin	40,150.00
Total cost of purchasing the old plant for \$200,000 and adding improvements including modern filtration plant	\$271,472.00
Total cost of building new plant with thoroughly modern system and filtration plant	\$277,723.82
Difference between cost of old plant and new plant	\$ 6,251.82

GERMANS WIN GREAT BATTLE

(Special to The Press.) Rome, July 24.—A great battle for Georgia is still raging on the Osonofront, Austrian reinforcements having arrived. Numerous counter attacks have been delivered against the Italians.

TEN BOYS IN FAMILY

(Special to The Press.) London, July 24.—Two great battles have been won by the Germans. One in North Poland and one due north of Warsaw, where Von Hindenburg has crossed the Narew. While the Austro-German armies to the immediate west of the Polish capital and along the Lublin-Cholm railway so far appear to have been unable to break the Russian resistance of the two disasters to the north lead military critics here and in Petrograd to practically concede the early fall of Warsaw.

EGG MATINEE SWAMPS JACOBS

Manager Jacobs of the Delft is swamped with eggs and he doesn't know what to do with them. Now this here swamping business all came about because the Delft manager ran an "egg matinee" yesterday and as a result, collected something over 15 dozen of the chicken producers.

It looked fun for awhile but when the number grew so rapidly, the manager simply didn't know what to do. He said last night that he was going to give an "egg party" for his friends in the near future.

One boy got into the matinee with the price of an egg shell. He opened both ends with a pin and after blowing the inside out, took the shell to the Delft and saw the picture program.

TEN BOYS IN FAMILY

Thomas H. Harris, of the Detroit Life Insurance Company, of Detroit, who is in the city working in conjunction with F. D. Davis of that organization, is the father of 10 children, all of whom are boys. Eleven boys have been born in the Harris family, but one met with an accident that brought his end.

No man could be more proud of a family of 10 sons than Mr. Harris. He carries in his pocket a recent picture of his family, showing every lad in the lot to be sturdy and strong. In the winters the Harris' live in Detroit, where the boys attend school, but in the summer their place of residence is moved to a summer resort at Port Huron, where every boy is allowed to have his full share of the big out of doors.

FAIR DATES ARE GIVEN GLADSTONE

Residents of Gladstone knew that something unusual was going on last night in their city but they didn't know just what until Arthur Peterson of this city appeared there with his banner bedecked auto, billing the county fair here in September.

The auto that carried the crowd of advertisers to Gladstone was literally covered with tags and banners giving the dates for the fair. Gladstone was well covered.

BIRTHDAY BRINGS SURPRISE PARTY

Miss Geneva Devost was delightfully surprised yesterday afternoon at her home at 1218 Ludington street by 11 of her friends, honorary to her eleventh birthday anniversary. During the afternoon a program of games and music was carried out, much to the enjoyment of all. Refreshments were served.

Those present at the function were: Beatrice Boyce, Elizabeth Peterson, Jennie, Anna and Edith L'hereux, Hazel and Mildred Thompson, Eva Perron, Marie Devost of Gladstone, Miss Ethel Perron served.

ST. STEPHEN'S SUNDAY SCHOOL TO ENJOY AN OUTING

At 8 o'clock next Wednesday morning the members of St. Stephen's Sunday school will go aboard the steamer Saugatuck to go to Stonington for their annual picnic and outing. It will be a big day for every member of the party and all are eagerly looking forward to the day.

FOUND DEAD AT GARFIELD HOUSE

After no previous illness, Leonard Brown, aged 30, was found dead at the Garfield house yesterday, shortly after noon.

The man is married and has three children. He came to Escanaba one year ago and has worked here as a painter. He has a brother, Alfred Brown here.

The body was removed to the Allo undertaking parlors where it was prepared for burial.

COMPANY IS ORGANIZED

The Garden Produce Company, with a capital stock of \$10,000, has just been incorporated and will do business at Vans Harbor. The company was organized with the evident intention to boost that favored part of Cloverland and to secure a ready market for farm products the year around. The company has already established a retail lumber yard and will handle building material complete such as lumber, shingles, doors, windows, lime, cement, brick, etc.

The company's future has been assured by the election of the following officers:

- H. P. Bourke—President.
- J. C. Wood—Vice-President.
- A. F. Begole—Secretary.
- C. F. Ewald—General Manager.

EAGLES ARE INDIGNANT

Officers and members of the Escanaba aerie of Eagles are justly indignant over a scurrilous and unwarranted attack made upon that organization in the current issue of the Escanaba Journal. It was stated in the local weekly that the Escanaba lodge of Eagles was to give a picnic on Sunday and a warning was given local officers that beer and liquor would be sold there. Neither the officers nor members of the local lodge of Eagles have arranged a picnic for today and the attack made against the reputation of the lodge and its members was an unwarranted and a malicious attack against their good name.

Charles Folio, head of the local lodge of Eagles, yesterday made the following statement: "I consider myself and every member of the Escanaba aerie of Eagles basely insulted by an article that appeared in this week's issue of the Escanaba Journal. Our lodge has arranged no picnic for today, but we had already discussed plans for an outing to be held on Aug. 22. And in addition an inviolate rule had been established that no intoxicants of any kind would be allowed on the grounds. While some may have attacked the dolings of our lodge several years ago, I wish to insist that the standing of the Escanaba aerie of Eagles today is on a par with that of any fraternal order in the city of Escanaba and any one who so wantonly attacks our good name, does an injustice to every member of the order in the city."

MRS. J. R. McDONALD SERIOUSLY ILL

Word from the bedside of Mrs. J. R. Macdonald on Wells avenue is that she is in a very critical condition and physicians hold out little hope for her recovery.

Mrs. Macdonald has been ill for the past few weeks but nothing of a serious nature was looked forward to, but yesterday morning the patient took a sudden change for the worse and it was thought advisable to call relatives in time for the last hours of her life.

MANY GO TO FAYETTE

Father Feldthaus, assistant pastor of St. Patrick's church returned to the city yesterday from Fayette where he has been in camp with St. Patrick's Boys Brigade. Father Feldthaus last night declared that the camp had proven the biggest success of years and that not one unpleasant incident had occurred to mar the smoothness of every department.

There has been no sickness in camp and the boys are eating like they are hungry at every meal.

LOCALS BEAT MENOMINEE

BUCK NOLDEN CELEBRATES RETURN TO HILL BY TROUNCING FAST "GOOD TOWN" TEAM

The Escanaba Independent baseball team yesterday afternoon defeated the fast Menominee aggregation that two weeks ago took two games from the locals, by a score of 9 to 8, in what was pronounced one of the most spectacular games to be played at South Park in three years.

Though Menominee ended the game with a total of eight runs, secured by spurts, the bangup pitching of "Buck" Nolden did not warrant them and they were only due to loose playing behind the veteran pitcher. For the eight innings that he held the hill position, Nolden pitched conservative and workable ball but his teammates behind him failed to give him the proper support.

By the close of the second round of the battle with Menominee yesterday, Escanaba was credited with five runs while Menominee had not yet scored one tally and by the time that she did secure her first run, which occurred in the seventh, Escanaba had added two more to her list. It was in the eighth inning that Menominee started hitting the pill for positions in the field that counted for a total of five runs before the session closed.

In the ninth Menominee came across with two more runs, leaving Escanaba in the rear by one run. However, in the final half of the ninth the locals demonstrated their ability as run getters when they smashed the ball for two more runs, enough to win the contest.

"Stelney" Aronson came into his own yesterday when he smashed a line drive over the left field fence. The drive was one of the prettiest to be seen at the local park in years.

"Stelney" was on the job constantly yesterday and in addition to his homer, got a two bagger and a single out of four times to bat.

Ernie Bourke celebrated his return to the hard hitting class by securing four hits out of five times to bat.

Today, with fair weather prevailing, the grand stand will be packed with rooters when the same two teams again appear for battle. Krause (Continued on Page Six.)

ESCANABA MORNING PRESS

JAMES S. DOHERTY, President and Business Manager.
JOHN P. NORTON, Secretary and Managing Editor.

8 a. m. 67	6 p. m. 75
10 a. m. 72	8 p. m. 72

Precipitation one year ago yesterday 0 inches.

Why not avoid this constant trouble by pairing Mount Lassen with the Calebra cut and let them fight it out?

Withal the final note of this government to Germany is a studied reflection of the united sentiment of this nation on one of the most important matters to develop in the history of the United States.

Now that weather experts have declared that one season is much like another, that corn crop will probably now take a spurt to make for its error in imagining his particular season bit cold and damp.

In one matter at least Secretary Lansing differs from his predecessor. Lansing is so busy living the strenuous life that he's too busy to talk about it while Bryan was so busy at strenuous talking that he had little time for ordinary work.

One Chicago woman sold her husband for \$500 cash and there are certain other women who own husbands they would sell for a jitney down and an unsecured note, without interest for life for the other five cents.

would seek the positions. At least there is reason to believe this would be true. It seems to be the case that the smaller the division of the electorate the smaller the calibre of the men chosen to represent it.

By establishing an efficient and permanent legislative reference and bill drafting bureau in conjunction with such a legislature there seems to be no room for doubt that we would secure that which we have so vainly sought under the present system—more quality and less quantity.

WAR

London, July 24.—The Austrians and Germans are pushing their great attacks against the Russian armies defending Warsaw with undiminished energy, and at some points report that progress has been made.

They are operating, however, through country which the retiring troops have laid waste, and what roads there are, are little suited for the movement of the heavy artillery which is necessary for the bombardment of the great fortresses that bar their way. It is not expected, therefore, that decisive actions on any of the fronts will be fought for a few days yet, although the battle between the Vistula and the Bug rivers, where the German field marshal von Mackensen's army is advancing toward the Lublin-Cholm railroad, has about reached a climax. Here, according to the German official communication issued this afternoon, the Germans have succeeded in breaking the obstinate resistance of the Russians at several points, and forced a retreat.

The Russians, however, have had plenty of time to prepare a series of positions and it is believed that they will make every effort to hold them until, if it becomes necessary, their army is able to retire from Warsaw. To the south of Warsaw, in front of the fortress of Ivanogrod, the Russians have retired to the Vistula river, which, with its forts and a lack of bridges, it is believed, must form a barrier which the Austrians and Germans will find it difficult to overcome.

The northern Germany army, under Field Marshal von Hindenburg, also is reported to have made progress; but it is stated that it has not yet been able to cross the Narow river, another natural defense of the Russian triangle behind the Polish capital. In fact, all along this front the Russians have resumed their counter attacks from the fortress of Novogorod, but these, according to the German accounts, failed in their purpose. Before Rosan, another of the river fortresses, the Germans declare they have stormed and taken two villages and captured a number of prisoners.

Opinion here is still divided as to whether Grand Duke Nicholas, the Russian commander-in-chief, will accept a decisive battle, or is simply trying to inflict as heavy losses on the enemy as possible before withdrawing from Warsaw and the whole Polish salient to Brest Litovsk and the Bug river line.

Severe fighting is still going on in the Argonne and in the Vosges, on the western battlefield, but without bringing any very material changes in the positions of the opposing armies. It is reported unofficially that the Germans are massing troops at St. Mihiel for a more extended offensive, but the official communications do not indicate that anything in the nature of a serious engagement has occurred there as yet.

That the Germans will attempt an offensive is considered by the military observers as quite likely, as they assert that the recent activity of the German crown prince's army shows that they are hoping to weaken the French hold on Verdun.

WOUNDS FATAL TO MAN BURNED

Grand Rapids, Mich.—Samuel Peterson died Tuesday of burns he received Monday when his clothing caught fire from a pipe in his pocket.

Peterson's garments were burned and his entire body seared by the flames because of a peculiar mental disorder which made him unable to respond to impulses or natural demands when subjected to great excitement, his mother said today.

A crowd of pedestrians watched the flames licking about the young man's body but did not realize the seriousness of the accident until Edward DeRuyter pushed him into the river in a fruitless effort to save his life.

A pathetic feature of the tragedy is the double bereavement of Peterson's sister whose fiancé died a week ago.

WANTED NOW.

Right now, when hay fever is attacking its victims and when asthma is causing so much distress, there is a demand for Foley's Honey and Tar Compound—the remedy that brought relief to thousands in previous years. Don't continue to suffer. It will help you. Continue to suffer. Sold everywhere.

GERMANS SOUGHT TO AID BRYAN

The course pursued by Mr. William J. Bryan during the latter days of his occupancy of the office of secretary of state, and his open appeal for German support since his retirement, make it proper at this time to present a little known phase of diplomatic history.

German official influence was wielded in favor of the election of Mr. Bryan in 1900 because of his anti-imperialistic views, and that actively led to the effacement as a diplomatist of the German ambassador, Dr. von Holleben.

Dr. von Holleben in January, 1905, left New York for Germany on "an indefinite leave of absence granted because of his ill health." Two circumstances of peculiar interest were reported in connection with his journey; first, that before leaving Washington he did not call upon President Roosevelt to bid au revoir, as would usually be done by a diplomatist temporarily leaving the country, and second, that in his appearance, the Ambassador gave no signs whatever of the illness because of which the leave had been granted. It was recorded also in the newspapers of the time, that Ambassador was decidedly testy when asked to discuss his trip. In fact, he refused to speak a single word to any reporter during the two days he remained in New York before his steamship cleared.

Dr. von Holleben in March, 1902, was accused by Herr Emille Witte of having interested himself improperly in the domestic politics of this country during the McKinley-Bryan campaign of 1900. At the time these accusations were made Prince Henry, of Prussia, was drawing to a close his memorable journey to the United States. The Kaiser was doing all in his power, through his trip of his brother and in other ways, to cultivate the friendship of the United States. The charges of Herr Witte caused a profound sensation. Had Dr. von Holleben been recalled at that time, and particularly had his recall been due to any suggestion from the United States, a most critical diplomatic situation must have resulted. However, since Herr Witte had been an employe of the German embassy, and moreover had in his possession, papers which he said proved the activities of the Ambassador, his assertions could not be ignored.

Accordingly an investigation was ordered by the United States secret service. The state department remained silent. The German ambassador himself issued a statement in defence of his conduct, stating therein that the investigation conducted by the secret service had shown these charges to be groundless.

In the excitement caused by the trip of Prince Henry, and the declarations of friendship for the United States which emanated from so many German sources at that time, this incident of the Ambassador was forgotten in a comparatively brief time. Gossip was reported showing that Dr. von Holleben's activities were suspected, but officially Washington apparently did all in its power to quiet the affair.

A more serious offense could hardly be committed by an Ambassador than that of which Dr. von Holleben was accused. For advising one American to vote, a British Ambassador, Lord Sackville-West, was obliged to leave the United States. Yet it was asserted against Dr. von Holleben that he worked on a large scale to throw the entire German-American vote for Mr. Bryan.

It was alleged that the German Ambassador was closely affiliated in this work with Mr. John L. Lentz, of Ohio, a German-American and a democrat. Mr. Lentz was one of the most active Bryan men and was a power among his own people. The republicans concentrated extreme strength against him and retired him from Congress by the narrow margin of twelve votes. And the records of the efforts which the republicans made to effect this insignificant victory testify to the influence Mr. Lentz had with the German-American vote throughout the country. Many prominent German-Americans were alleged to be involved in this political propaganda, including Professor Hugo Munsterberg, of Harvard. And at their head, according to Herr Witte, was Dr. von Holleben.

But if the chances which the German ambassador took in this extraordinary venture were great so were the chances for gain. It is well known that in German diplomacy the plums fall to those who succeed and few questions are asked of methods. At that time Germany was endeavoring to obtain control of some coaling stations in the Caribbean. Lack of these coaling stations always has been a great weakness to German naval power. That has been demonstrated even to the mentally blind in the present war. Germany always has sought to obtain such coaling stations since the birth of her naval policy. The United States was involved in this issue with her at the beginning of the present war, and every trained diplomatist expects to see it arise again if ever Germany is restored to her former naval power.

At the time of the Von Holleben incident Germany was making an especially determined effort in this direction. The "imperialistic" policy of the United States was just budding and Germany no doubt realized that unless she could get the coaling stations then she probably never would get them except through a defeat of the United States. And in the political arena in the United States there were two candidates, Mr. McKinley, who was frankly an expansionist and favored a vigorous defence of American interests in the Caribbean and Mr. Bryan who was attacking Mr. McKinley on a platform of anti-imperialism. Mr. McKinley's platform meant a closed door for German aspirations in the Caribbean. Mr. Bryan's meant obviously quite the contrary.

And it was on the heels of this situation that an employe of the German embassy accused the German ambassador of meddling in American politics to effect the election of Mr. Bryan.

Chiefly, no doubt, because of the presence in this country at the time of a brother of the Kaiser this incident was passed by the press with comparatively little comment. Also it is probable the lack of interest then displayed neglects the smaller public appreciation at that time of the great importance of such an incident. Certainly official Washington did everything in its power to quiet the sensation. The denial of the German ambassador himself was most vigorous.

But eight months later, this same ambassador, Dr. von Holleben, announced that he had been granted leave of absence because of illness. Some recurrence there was of the reports of his political activities, and it was suggested that he never would return to the United States. But the German foreign office effectually stopped these reports by an official announcement that there was no truth in the rumors of the Ambassador's recall and that he would return.

Yet he did not return. He never since then has been back in the United States. A charge d'affaires remained in control of the German embassy here as the months dragged on despite the fact that important negotiations over the Venezuelan situation were pending. Finally Germany took the somewhat unusual course of sending Baron Speck von Sternburg, with the rank of minister, as special charge d'affaires to her Embassy at Washington.

Philadelphia, July 24.—The United States torpedo boat destroyer Ericson was almost sunk at her slip in the yards of the New York Shipbuilding company by the opening of a sea-cock, which flooded two compartments of the vessel on Tuesday night following the mysterious fire aboard the battleship Oklahoma, anchored on the other side of the same slip. The most powerful pumps obtainable had to be used before the vessel could be pumped clear of water.

Officials at the yard would not discuss the incident, but it was admitted that the vessel had been flooded, although it was stated that the water came from a hose.

TEX RICKARD IS SPEEDWAY KING

Chicago, July 24.—Tex Rickard, for years a prominent figure in American sporting circles, who transferred his fealty from the United States to the Argentine Republic after the Jeffries-Johnson prizefight which he promoted at Reno, arrived in Chicago yesterday as the representative of a syndicate of business men of Buenos Aires to inspect the Chicago speedway. The syndicate, according to Rickard, will build a two and one-half mile track at the South American metropolis this winter.

Rickard will remain in Chicago several days for the purpose of getting acquainted with all the features of the oval. He then will go to New York to inspect the track being erected on the site of the old Sheephead Bay race course. He will return to Buenos Aires in September with his report. The South Americans will decide on the type of track to be erected after hearing Rickard's statements.

It is planned to make Buenos Aires the center of racing in the southern hemisphere, according to Rickard. The inaugural meet will be 500 miles in length. All drivers and cars must be imported for the race, which may be held on Christmas day.

"More than \$25,000 will be necessary to bring the best of European and North American pilots to Buenos Aires," said Rickard. "The city is ripe for just this sort of thing. We already have the greatest jockey club in the world and I believe we have the best horse racing. The people would go mad over motor casing. We have contemplated building a speedway there for more than a year. There is no doubt our plan will go through."

NOTICE.

From City Treasurer.
Notice is hereby given that the city's portion of Taxes for the year 1915 is now in my hands for collection. The taxes therein levied can be paid in the city Treasurer's Office at the City Hall at any time before the 15th day of September, 1915, without any charge for collection. Four per cent collection fee will be charged upon all taxes remaining unpaid upon said 15th day of September, 1915.

U. S. TORPEDO NEARLY SUNK

Philadelphia, July 24.—The United States torpedo boat destroyer Ericson was almost sunk at her slip in the yards of the New York Shipbuilding company by the opening of a sea-cock, which flooded two compartments of the vessel on Tuesday night following the mysterious fire aboard the battleship Oklahoma, anchored on the other side of the same slip. The most powerful pumps obtainable had to be used before the vessel could be pumped clear of water.

Officials at the yard would not discuss the incident, but it was admitted that the vessel had been flooded, although it was stated that the water came from a hose.

CHICAGO HAS A NEW LOVE AFFAIR

Chicago, July 24.—Chicago developed another of those triangular tragedies today, in which the love of two women for the same man has once more set away the normal trend of three lives. Here's the story, from facts given to the United States representative by the man and the "other woman."

Seven years ago 18-year-old Julia Millahr, fresh from Germany, went to work for Ralph B. Brumbaugh, wealthy furniture dealer, and owner of \$200,000 worth of Chicago real estate.

About a year later Brumbaugh confessed his affection for the child. With Mrs. Brumbaugh's permission according to Brumbaugh and the girl, she was given every care at a local hospital. When the baby came—a boy—the little mother was established in a fashionable apartment on Prairie avenue.

Brumbaugh, childless by his first wife, was permitted to spend much time with his "love-wife" and the baby, according to his story. He spent his afternoons and the early evenings at the cot he established for his love wife, as Julius Millahr. The remainder of the time he was R. B. Brumbaugh and could be found either at his office or his home on exclusive Drexel boulevard.

Two years and a half ago another baby arrived at the Millahr apartment. This time it was a girl baby. The couple was delighted.

We have planned great things for our babies," said Mrs. Julius Millahr today. "That other woman—she is not

ODD FELLOWS ARE TO MEET

Of the big joint meeting of the Odd Fellows of Delta and Schoolcraft counties to be held at Gladstone on Wednesday, July 23, the Delta County Reporter of Gladstone says:

The local I. O. O. F. lodge is to be the host at a big gathering of the triple link fraternity of this vicinity on Wednesday night, July 23. The lodges are as follows: Lodge No. 460, Escanaba; No. 464, Rapid River; No. 206, Payette, and No. 353, Manistiquette.

Grand Master, Myles F. Gray and Grand Secretary, F. A. Rogers are conducting a state wide campaign among the lodges of Michigan with the two-fold mission of greater enthusiasm among the rank and file of the membership and more efficiency and uniformity in the conduct of lodge affairs.

The meeting is to be a "get-together" proposition and it is to be hoped that every Odd Fellow in this vicinity will make it a point to be present. The evening's program will be both entertaining and instructive and some numbers will be of special interest to all.

The grand lodge officers are "good fellows" to meet and they wish it understood that they are not coming to this meeting as critics, but will be loaded with hints and suggestions that will be helpful to all. Make a note of the date and "forget it not."

The meeting will close with a banquet and smoker.

L. J. C. NOTICE

Members of the L. J. C. are requested to meet at St. Anne's Hall Monday at 7:45 a. m. to attend the funeral of Chas. Racine. 2216-206-11.

GREEN CATCHER TIPS OFF SIGNS

Charley Dooin tells a story which may give an insight into the "sign tipping" which the fans have been reading so much about. It indicates how a little observation may help a ball club. It shows that it is not necessary for a wise team to have a fellow with field glasses in center to know when to swing on a fast one, and when to watch the curve float outside the plate.

The Phillies were playing in a western city when a young catcher was behind the plate for the opposing club.

"Gosh, but that catcher has a funny habit," remarked one of Dooin's young men to nobody in particular. "He holds his glove in front of his face with his fingers pointed upward for a fast one. He holds the mitt at his knees—with the fingers pointed toward the ground for a curve."

"Well, now that is a funny habit, isn't it?" remarked Dooin. "And I would suggest that, having observed such peculiarities, you might have thought that they would be of value to this club. I'll show you something."

Whereupon Dooin, after from the bench of the catcher's box, watched the position of the catcher's mitt. If he held it high for a fast one, Charley shouted some such word as "peaches," and the batsman dug his toes into the dirt, took a healthy swing and slammed the ball. With such sluggers as Magee, Cravath, Luderus, Becker, Lobert and Paskert at bat, the result was a neat collection of extra base hits.

"We used to laugh at that club," said Dooin. "They changed signs every inning. They watched how we were getting their signs. It never dawned upon them that their catcher was handing us the sign on a silver plate. It was so easy that we were afraid of some of the other clubs would get on to it, and we told the young catcher what he was doing—after we had hammered the ball for several vic tories, of course."

NINE HUNDRED COKE OVENS GOING IN BLAST.

Connellsville, Pa., July 24.—Nine hundred ovens were this week added to the producing capacity of the Connellsville coke region, bringing producing possibilities to \$400,000 tons a week if all were in blast. That point, however, was not reached, reported production having been 371,990 tons, with shipments 5,000 tons over the preceding week. Fernace ovens in operation are 76.5 per cent of the total and merchant ovens 62.6. Labor is sufficient and operators are not yet worrying on that score.

BARNES' LAWYER, WILLIAM IVENS, GOES TO DEATH.

New York, July 24.—William Ivens well known lawyer and politician, head of the counsel for William Barnes in his recent libel suit against Theodore Roosevelt died here today. He was 64 years old. He was taken ill at the conclusion of his ardent labors in behalf of Barnes in the long drawn out trial of the libel action and took to his bed several weeks ago.

LIVE ITEMS of INTEREST

Miss Georgia VanMatre who has been visiting at the J. P. Norton home on South Campbell street for the past week, will leave this evening for her home at Cassopolis, Michigan.

Miss Eunice Shaw and Miss Nona Robertson, who have been visiting at the home of Rev. and Mrs. P. B. Ferris at Petoskey for the past three weeks, have returned to their homes in this city.

Mrs. W. A. Roland of Carney is visiting with friends and relatives in the city.

Mr. and Mrs. J. L. Moersch are the proud parents of a ten pound son.

AMONG THE THEATRES

ROSE COGHAN IN "THE SPORTING DUCHESS"

Rose Coghlan, an actress who needs no introduction in this city, plays the leading role in the motion-picture adaptation of "The Sporting Duchess" from the famous play of the same, at The Strand Tuesday night.

"The Sporting Duchess" is the best work of Cecil Raleigh and calls for acting of unusual skill and completeness, in consequence of which a cast of marked ability had to be chosen to properly interpret the fascinating but difficult roles. Dainty little Ethel Clayton plays the part of Muriel, the wife, while to George Soule Spencer is entrusted the part of Lord Desborough, the husband. Surely with such a notable trio, this photo play must naturally strike a new standard.

"The Sporting Duchess" is a tremendously powerful photo play of intrigue and diplomacy, and unfolds opportunities aplenty for some of the most clever tableaux ever shown on the screen. The incidents around the race track and the stables are strikingly realistic, the climax being a horse race with a thousand and one thrills—a real horse taken at one of the biggest tracks in the world.

Rose Coghlan is seen at her best in this splendid vehicle, which seems to have been purposely written to give her unlimited opportunities to unfold her remarkable talents. She plays the part with rare discernment and skill and has thus made it possible for her motion-picture interpretation to compare favorably with her best efforts on the stage.

Pictures like "The Sporting Duchess" have made the photoplay truly a production of the highest artistic attainment—an entertainment that is as illuminating as it is distinctive and interesting.

"The Sporting Duchess" is a fascinating play not only because it touches a spectacular side of sporting life, but because its chief characters are English army officers, and the plot carries one from picturesque England to India and back. Where marching soldiers are required to emphasize an episode whole regiments of grenadiers swing by, thus making the story both complete and alluring.

A rare treat in store for all who see "The Sporting Duchess."

THE STRAND

The featured picture at this house today is "The Witch of Salem Town." This is a Victor two reel feature picture that should attract hundreds here today. The picture deals with the self sacrifice of one woman for another. It will be a lesson to many who have not witnessed this sort of a picture for a time.

The comedy offered here today is "On His Wedding Day." It is a scream from start to finish.

Another drama of no minor importance is "Their Golden Wedding."

THE DELFT

One of the latest and greatest of stage celebrities to be converted to the screen is William H. Crane, who has enacted his popular role of "David Harum" before the camera, the Famous Players-Paramount five-part film version of which appears at the Delft Monday.

More than any other contemporary drama, "David Harum" abounds in the sentiments and homely principles associated with rural life in America. Presenting a type of rural business man with whom nearly all are familiar as its central character, the drama weaves about him and his life a romance as sweet and tender as a child's dreams.

"David Harum" is a character that will live in dramatic history as long as honesty and truth continue to be virtues, for these qualities dominate the subject. The story progresses from its inception to its denouement with a rare charm, and discloses one of the greatest character develop-

From among the many specials offered by Hoyler's Soda Shop, we suggest the following as being especially delicious: Melba Pudding, Fresh Raspberry Mousse, New York Ice Cream, Lemon Ice, Fresh Strawberry Mousse. Hoyler Baking Company, 607 Ludington Street.

ments ever presented in a work of the drama. William H. Crane is admirably supported by a big cast of Broadway favorites, including Kate Meeks and Guy Nichols and the popular Harold Lockwood and Hal Clarendon. The atmospheric adherence of the film subject to the original drama makes the photo adaptation impressively realistic. The scenes on the farm, in Harum's house, in the horse market, and the other environments of the play provide a colorful setting for the story. But above every other factor in the absorbing production towers the superb personal achievement of the star.

GLADSTONE EAGLES TO HOLD PICNIC

Members of the Gladstone aerie of Eagles will hold their eighth annual picnic at Maywood on Sunday and many from this city will go to the upper bay resort to participate in the program. The Escanaba Traction Company has arranged a special round trip rate for the day between this city and Maywood, offering excellent accommodations for all who wish to make the trip.

Of the big picnic of Sunday, the Delta County Reporter of Gladstone says:

On Sunday, July 25, all lines of travel will lead to Maywood Park, where the eighth annual picnic of Gladstone Aerie, Fraternal Order of Eagles will be staged. This event is always the one big success of the summer season and a record breaking crowd is looked for Sunday.

For weeks the various committees in charge of the event have been working hard to make the event a greater success than any held in past years. A fine program of races and games has been arranged for and there will be plenty of amusement for old and young. There will be a baseball game played between two teams picked on the grounds and this event is sure to be a good attraction. For those who do not care to go to the bother of preparing lunch for that day, there will be an abundance of refreshments to be had on the grounds. Scores will take luncheon and enjoy the entire day at the park.

The committee in charge of the event state that the park will be amply policed and that no act of rowdism will be tolerated. The rowdys who have in the past detracted from the pleasantness of the day at similar events at Maywood, will find themselves in the hands of the law, if they do not conduct themselves in a proper manner.

The Little Bay de Noc Ferry & Transportation company is amply prepared to handle the crowds. Several boats will be used to convey the picnickers. The Gladstone City band will discourse music throughout the day and evening.

Announcements of the Churches

BEGIN CAMPAIGN FOR NEW BANKS

Plans for a campaign to increase the membership of the Minneapolis Federal Reserve bank, of which the upper peninsula is a member were laid at a meeting of the directors in Minneapolis this week, at which John W. Black of Houghton was in attendance. At the meeting it was pointed out that the federal reserve bank is at work in a field of 1,200 state banks in the Ninth reserve district, 616 of which, with capital and surplus of \$32,229,500 and deposits of \$191,440,000 are eligible for membership in the new banking system. The reserve bank also is at work among the trust companies which are eligible. There are 35 of these in the district with capital and surplus of \$6,654,700 and deposits of \$11,900,000.

Washington has been watching developments in the Minneapolis district. The federal reserve board has declared that it does not so much desire mere numerical increase as that the stronger state organizations shall come into the system. The Minneapolis reserve bank, now has 725 member banks, all national and its paid in capitalization is \$2,422,890. Its resources are \$15,057,000.

No other district in the United States has so wide a field to work in relative to total banking strength, as the Minneapolis district. This is largely because there are many notably strong state institutions in Minnesota and Montana, as well as North Dakota, South Dakota, Wisconsin and northern Michigan. Washington has been looking to the Ninth district to start a movement of state banks into the system and the application of the German-American of Minneapolis is said to be peculiarly welcome because of the probable influence on other state banks.

William McAdoe, secretary of the treasury, and David F. Houston, secretary of agriculture, who, with John Skelton Williams, controller of the currency, comprised the organization committee when the federal reserve system was shaping, expressed surprise at the strength of the state institutions in the northwest.

John H. Rich, federal reserve agent of the Minneapolis Reserve bank, completed the figures favoring the state institutions in the Ninth district that are eligible to membership. About 600 of the 1,200 state institutions have capital too small for consideration. Of the 616 that are large enough to join the total strength makes this showing.

STATE BANKS.

No.	Capital	Surplus
Montana.....94	\$4,680,000	\$1,622,000

TRUST COMPANIES.

No.	Capital	Surplus
Montana.....6	\$900,000	\$134,000
North Dakota.....6	600,000	241,000
South Dakota.....11	575,000	68,700
Minnesota.....7	2,950,000	655,000
Wisconsin.....4	300,000	41,000
Nor. Mich.....1	150,000	50,000
Totals.....35	\$5,475,000	\$1,797,000

Total capital and surplus, \$6,654,700. Total deposits, \$11,900,000.

It is not the expectation of the officers of the Minneapolis bank that the full availability represented by these figures will be realized, Mr. Rich says. But it is expected, he said, that there will be applications received from the larger state banks and trust companies in the group, and that the Ninth district bank will soon show an important part of its strength in the form of such membership.

BOSTON OR CHICAGO TO BE ELIMINATED

Boston or Chicago, will be eliminated from the pennant race by the middle of August.

This prediction was made by Hugh Jennings this week. The close of the next eastern trip of the western clubs (a trip that starts Sunday night is the time set for the rubbing out of the pennant chance of one of the named teams. Jennings is inclined to believe the White Sox will fall. He supports his argument this way he states—

"Chicago has been given quite a jolt by the eastern teams during the present invasion. This shock, coming on the heels of the trimming we handed, has, without question, reduced Chicago's confidence. Boston has already won a series from Rowland's men and Chicago will have another fight on its hands when it entertains New York.

"I fear Boston more than Chicago. The Red Sox, when under way, are harder to beat and they have a month at home in September. This will help them. Chicago, on the other hand, has seldom been a good road club. Detroit usually plays harder when in front of strange faces and my men can be depended upon to stick in the fight until the final count."

BRITISH PAPER ADVISES PURCHASE OF U. S. COTON, THUS AVOIDING FRICTION.

London, July 24.—Advocating the purchase by the British government from southern cotton exchanges of the amount of cotton that would normally have gone to Germany and Austria-Hungary at an outlay of \$150,000,000, and also of American cotton exports to Holland, Denmark, Norway, Sweden and Switzerland representing 25,000,000, and at the same time declaring cotton absolute contraband, the Times in a social article declared that such a solution would be acceptable the United States and would remove a serious cause of friction.

"Along our present lines," The Times continues, "we are heading straight for a very sharp difference of opinion with the citizens and government of the United States. Such a disturbance of American sentiment cannot be to our interests."

DAILY LETTER

Slightly lower prices were the rule today. The buying power of the market seems to be limited and especially in the coppers and it is this that is causing the fractional declines and not any volume of selling. Wee-wee-wee called an assessment of \$1.00, and Phoenix \$2.00. In some quarters it was hoped that a larger assessment would be called. Additional shafts put down and more extensive development work done than at present. We are those of the opinion that Wee-wee-wee will make good, if worked on a larger scale. The Copper market has been quiet of late, but one of the news agencies announced today large sales at 19 1/2c. The unfortunate catastrophe in Chicago River to the Steamer Estland was much discussed. The latest report indicate that several hundred lives were lost. There was a little profit taking in Verde Extension today which is only natural considering the big advance

ENGLAND CALLS INVENTOR'S AID

London, July 24.—Following the organization of a naval inventions board in the United States, the news in published here of the appointment of an "invention board," as it is to be called, to assist Lord Admiral Fisher, selected as chairman. Fisher is the first sea lord and an experienced naval man.

On the invention board will be some of the most eminent scientists in Great Britain. Sir William Crookes, the well known scientist; Sir Oliver U. Lodge, principal of the University of Birmingham; Sir John Thomson, professor of experimental physics at Cambridge university; Sir Charles A. Parsons, an expert on turbines; Gen. T. Bellby, chairman of the Royal Technical college at Glasgow, and many other prominent scientists will co-operate on the new board.

WANTED

WANTED—Boarder or Roomer in quiet and respectable home with modern conveniences. Apply 1221 Escanaba avenue. 170-tf.

WANTED TO BORROW—\$2,000.00, will pay 6 1/2 per cent interest, security first class. Addresses "Borrower," care Morning Press. 2283-199-tf.

Diarrhoea Quickly Cured.

"About two years ago I had a severe attack of diarrhoea which lasted for over a week," writes W. C. Jones, Buffalo, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Obtainable everywhere.

MUNITION WORK MEANS TREASON

Berlin, via Wireless to Sayville, L. I., July 24.—An official declaration is published here calling attention to the fact that "Germans working in factories in neutral countries, particularly in the United States, producing war supplies for the enemy, render themselves liable to prosecution for treason, under paragraph 89 of the penal code, penalizing such assistants to an enemy with a maximum of ten years' imprisonment."

Another paragraph of the penal code authorizes prosecution in the case of such offenses even when committed abroad, and it is understood that the German courts will proceed against offenders.

Washington, July 24.—The declaration from Berlin calling attention to the German penal code authorizing prosecutions for treason of Germans working in factories of the United States which produce war supplies for enemy countries was received here too late tonight to obtain authoritative comment.

Officials who could be reached could not see how it would be possible for prosecutions to result in the extradition of the accused. The only effect of such prosecutions, it was believed, might be the stimulation of naturalization and the prevention of some Germans from returning to their fatherland. It was pointed out that the offense charged probably would be held to be a political nature.

The Best Recommendation

Recently a local business man said to us: "I have an opening in my office, and have under consideration a young man by the name of _____ He gives you a reliable reference. Do you know him?"

"Yes," we replied, "We know that he has a healthy savings account with us, and makes regular deposits."

The young man got the position.

The State Savings Bank

ESCANABA, MICH.

William H. Crane in "DAVID HARRUM" at the Delta Monday. Produced by the Famous Players.

STATE DIVIDES WOMEN TO FAIRS

Lansing, Mich., July 24.—The new state agricultural fair commission today decided upon a large portion of the state and county fairs which are to get a slice of the \$50,000 premium money voted by the last legislature.

In all, \$23,472 was voted to the county and sectional fairs, while two state fairs, the one in Detroit and the one in Grand Rapids, draw \$25,000 between them.

Several meetings and much correspondence with the officials of the various fairs were necessary before the commission could arrive at a definite conclusion on some of them. A few spurned the offer of state aid while the books of others and their reports showed that the fairs had made lots of money last season and did not need any help this year.

As nearly as possible the fairs were given about half what their premium lists last year totaled. Where a fair was notoriously a money loser it was given a little more, while the big money makers found their share cut down.

The Upper Peninsula awards were as follows:

- Marquette, \$525.
- Houghton, \$400.
- Chippewa, \$484.
- Delta, \$448.
- Iron, \$375.
- Schoolcraft, \$300.
- Menominee, \$287.
- Cloverland (Stephenson), \$235.
- Ontonagon, \$222.
- Dickinson, \$184.
- Luce, \$169.
- Alger, \$100.
- MacKinnon, \$100.

TOURING STATE FOR PENSION ACT

Calumet and other copper country towns likely will be visited soon by Judge Henry Nell, known throughout the land as "the father of mothers' pensions." Judge Little is touring Michigan in behalf of the pension law, encouraging a wider use of the measure and urging the organization of a great mother's pension congress to meet in San Francisco Sept. 21 and 22. His campaign is receiving wide support in lower Michigan and it is likely it will be supported by women's clubs and various civic organizations of the upper peninsula. His mission in the Wolverine state is to arouse to secure the appointment of a delegation to the convention.

Judge Nell's plan is to discuss the evils of child-poverty and to convince the whole country that it is bad policy and a waste of public money to allow any child to suffer from poverty. At the San Francisco congress, he will advocate a plan for having the mothers' pension system administered by the public school system.

Judge Nell considers that the mothers' pension is not a charity any more than the public school is a charity. Thousands of children are prevented from obtaining an education, he declares because their fathers are dead or for some reason, failed to provide for the children. The pension system he further declares, provides food, shelter and care by the child's own mother without which the public schools cannot do their work. If the children have a good home, with their own mother, juvenile crime decreases. Children raised in poverty recruit the police stations, jails, courts, hospitals and asylums, because they do not get a good start. The best way to rapidly decrease the expense of corrective institutions, he believes, is the mothers' pension system which attacks child-poverty the cause of feeble mindedness and insanity.

Judge Little receives no remuneration of his services of cities in he spoken in hundreds of cities in behalf of the pension system. His plan has been adopted in twenty-five states, Tennessee, New York and Wyoming recently joining.

U. S. ARMY IS WITHOUT OBSERVERS WITH TEUTONS.

Washington, July 24.—Colonel John Riddle and Captain Berkeley Engochs, until recently attached to the embassy at Vienna as army observers, have been assigned to the war college. With their return the European battalions are left practically without American military observers with the Teutonic allies.

While both officers and also the war department refused to discuss their return, it is believed to be a fulfillment of Secretary Garrison's policy to withdraw officers where their presence caused friction and embarrassment.

It is said that the popular idea among officers in the armies of the Teutonic Allies of the destruction wrought by American arms and ammunition made the position of the American observers uncomfortable.

WILSON TO STUDY NATIONAL DEFENSE

Washington, D. C., July 24.—President Wilson has called report on the subject of national defense. These will be given both by the heads of the navy and war departments. The fact that this action had been taken became known here after the release for publication of the note to Germany relating to submarine warfare.

Without regard to present day controversies, the president, with various heads of departments, has been giving consideration for some time to the preparation of a reasonable and adequate naval program which he will propose to congress at the proper time. He will study this subject on his visit at Cornish, N. H., and when he again returns he may be prepared to discuss it with his advisors.

Men of the army and navy who have been most directly in touch with contracts of defenses that have been evolved out of modern experience have been called upon for their views. The president not only wishes advice from those who have knowledge of actual conditions of war fare existing in Europe today, but he is seeking light from those who are able to understand and comprehend all possible phases of altered conditions on both land and sea.

He particularly wishes the navy to stand upon equally with the most efficient and serviceable fighting sea force maintained by any power. As to the army it is known here that the president is preparing to incorporate in his next message to congress a definite program relating to the development and equipment of this branch of the service. It will provide a plan for the proper military training of citizens in every way consistent with American traditions and national policy, and which, the president believes will commend itself from patriotic consideration.

EX-MAYOR NOW WORKS IN JAIL

Leavenworth, Kan.—Being mayor in a prison is an entirely different proposition from being mayor of Terre Haute. Such is a discovery made by ex-Mayor Donn Roberts.

Especially is this true when the prisoners don't give a rap whether you are mayor or not and haze you just the same. Mayor Roberts began prison life as a right-hand man for Superintendent of Construction William Carroll.

He is now working the prison laundry and will remain there until Ward Morgan decides that he has become acclimated so to speak, with prison discipline.

Letters of protest from relatives and friends of the Terre Haute man have made no difference. Mayor Roberts is still working in the prison. Other Terre Haute prisoners have caused prison officials no trouble.

To begin with, Roberts would not stay in the superintendent's office and would be found in the hallway, in the dining room and other places without a permit. He seemed unable to grasp the fact told him after time that he must abide by prison rules.

Then the prisoners took a hand, officials believe. The sheets at the prison are perfectly clean, but are not as white when they leave the laundry as those in the home of Roberts at Terre Haute.

"If you take your bedclothes over to the laundry in the morning," said a prisoner one evening, "and call for Jones he will wash them with some special soap that will bleach them out more."

So the next morning the ex-mayor picked up his bedclothes, walked out into the hall and across the prison yard. A guard stopped him and asked him where he was going.

"I'm taking these sheets over to get them washed," he replied.

The next morning Roberts began work in the laundry and is endeavoring to whiten the sheets. Roberts is not looked upon as a man who is desirous of stirring up trouble, but he is nervous and can't get accustomed to prison rules. In time, it is believed he will be assigned to a different job.

Each day the Terre Haute newspapers are printing stories, alleged to come from Leavenworth. One was to the effect that Roberts was working with a bunch of Chinese and another that he is losing his mind.

COMMENT OF PRESS ON GERMAN NOTE

The Chicago Herald: Woodrow Wilson has spoken for everyone of the 100,000,000 Americans worthy of the name.

The Chicago Tribune: The door of the discussion is closed. There can now be no doubt of the duty of press and public, and that is to accept the stand taken by the government without cavil or reservation.

Illinois Staats-Zeitung, Chicago: As we stated before the present note to Germany had been published, apparently our government had a secret agreement with England to force a break with Germany. We now have the text of the note at hand and it justifies our anticipations. Germany can never submit to the tone of it and will, as much as we are sorry for it, find no other answer than the breaking off of diplomatic relations. We, as well as the Germany government, know full that with such a step she fulfills not only the wish of this government, but that of England and will create a very painful situation for German-Americans. The note shows the president will break with Germany at all hazards. He should first ask the people of the United States if they are satisfied to be driven into war. The note is unworthy of the republic. We hope Germany will not blame the people for the present government's action.

Milwaukee Germania-Herald: The latest note bears no more the nature of an ultimatum than can be said of its predecessors. That the tone is distinctly sharper cannot be denied, nor does that disturb us, for we can find consolation in the possibility that perhaps those parts in which Mr. Wilson uses the most energetic language are intended more for "home consumption" than for Germany.

St. Louis Westliche Post: Even at the cost of indefinitely hurting its own cause Germany must concede every point if it wants to evade an open break with the United States. To talk of friendship in this last American note is the climax of hypocrisy, on a par with Washington's alleged neutrality.

New York Press: President Wilson's forced German note gets right down to business at the very outset in its flat declaration to Berlin that the recent imperial answer is not satisfactory because it fails to meet the differences between the two governments. But it would have had a hundreds times the force if it had been slammed straight back at Berlin as soon as con Jagow's irrelevant and unresponsive reply was received.

New York Times: With courage and firmness President Wilson and Secretary Lansing have responded to the hopes and the deep conviction of the American people. The keeping of our relations of amity and peace with Germany is now committed into the hand of Germany. It is for her to choose which path she will follow. Our self respect, our honor and our safety we have reserved to our own keeping.

New York Herald: Probably no diplomatic note that did not precede war ever so brutally hammered in facts. It warns Germany that further attacks on Americans "will be deliberately unfriendly." Language could not be stronger. It is impossible for the German foreign office long to misunderstand.

New York Tribune: American citizens will have that the bandage will now fall from German eyes. They will hope that German ruler will at last perceive that no nation can consent to the murder of its citizens, the invasion of its rights, the destruction of its liberties, merely because of real or fancied advantage to Germany by such injuries. The president's message is an admirable American document. It expresses in temper and in content the whole mind of his fellow citizens.

New York Sun: There can be no misunderstanding, no misinterpretation of the message detailing with firmness and admirable clarity our dissatisfaction with the German course that went to Berlin yesterday. The German answer may come in the words. It may be expressed in deeds. Whatever the tenor the United States has done neither more nor less than its obligations demanded, and confronts the future confident and with conscience clear.

New York World: The United States is no longer concerned with what Germany says. It is concerned only with what Germany does. The issue now rests with Germany. Even the military mad autocracy of Berlin can have no excuse for mistaking the meaning of these serious and measured words.

New York Staats-Zeitung: Emphatic as is its language so far as the Lusitania incident is concerned, the American government now seems to be equally as energetic in its intention to protect the rights of neutrals against any and every belligerent nation. The diplomatic note which was sent to Berlin yesterday is meat at the same time for London.

Indianapolis Star: There is a noble and almost majestic restraint about the note, which puts to shame the excited utterance of extremists on either side.

Louisville Herald: The past must be accounted for. The future cannot be determined by good wishes. Boston Advertiser: The time has come to stop these attacks of submarines on American property or lives without warning. We want to end it. We shall end it. Pittsburgh Post: President Wilson crystallizes the sentiment of the American people. It is a strong stand but what else could be taken? The president would have said nothing less. St. Louis Republic: In this note speak at once the will the thought, the heart of America. Come what may, the nation will stand upon it as one man. St. Louis Globe-Democrat: There can be no misunderstanding of this note. It is as plain as a pikestaff. Baltimore Sun: Germany is given her choice between the neutrality of the United States or its hostility. Memphis (Tenn.) Commercial-Appeal: The note has the force of an ultimatum without bellicose threatening. St. Paul Pioneer Press: It is a great American charter of rights. Raleigh (N. C.) News and Observer: President Wilson states the position of the United States as Americans would have him. He speaks as the red-blooded representative of a red-blooded people. Toledo Times: Plain, clear and per haps a trifle strong, the opportunity for the German imperial government to beat about the bush has been eliminated. Philadelphia Record: Our case is stated. There is nothing left to argue. The die is cast. What will Germany choose?

AT THE STORE AHEAD A Harvest Of Bargains In Summer Goods Awaits You Here At The July Month-End Clearance Sale

Splendidly ready in every imaginable way for a week of record-breaking business. There's never any cessation at ERICKSON'S STORE. You must visit the big store tomorrow (Monday) to obtain the fullest conception of that fact.

The Ed. Erickson Company

NEW WAR POSTS ARE CREATED

Paris, July 24.—The passage of the law framed by Deputy Jean Hennessy, empowering the French government to appoint two more under secretaries of state for war, in addition to the one now charged with overseeing the production of munitions, is still another step along the line of centralized development of the government's military organization. The new under secretaries will be under Mr. Millerand, the Minister of War.

The two posts just created include the sanitary service of the army on the one hand, and the feeding and clothing the fighting men of France on the other. The administration of both has been the subject of some little parliamentary criticism of late; it has therefore been thought wise to give the parliamentary critics some definite personality to whom address their observations.

Justin Godart, himself a deputy and one of the vice-presidents of the Chamber of Deputies, a Radical-Socialist, who has made a specialty of legislation dealing with labor problems, and especially those phases having to do with the hygiene of labor, has been appointed the under secretary of state for war with the control of the military sanitary service. His job is to be a sort of civil Colonel Gorgas in the French conduct of their great task. Mr. Godart is a lawyer and a young man, having been born in Lyons in 1871. He began his political career as deputy for the Rhone in 1906.

The man who is to be a sort of civil quartermaster for the French army is known as "Thierry of Alsace." He was born in Alsace, at Haguenau, in 1857—when Alsace was still a part of France. After the seizure of Alsace by Germany in 1871, Joseph Thierry moved to Marseilles, where he practiced law until elected to the Chamber of Deputies in 1898. He is a distinguished economist, and has been chairman of the tariff committee of the Chamber of Deputies as well as vice-chairman of the budget committee.

On March 21, 1913, in the cabinet of which arthou was premier, Joseph Thierry was Minister of Public Works, a post for which he was considered eminently fitted.

MOTHER CAN'T BEAR TO SEE SON

New York, July 24.—"My boy is defective. There seems to be no hope, so I do not want him to live. All the children make fun of him, so I decided to end it all. Dr. Beiling treated him and me. The boy is eight years old. I have tried everything but this." Thus wrote Mrs. Freda Manthy, 27 years old, of North 39 Ashland street, Newark, N. J., immediately after giving her feeble minded son bichloride of mercury tablets and attempting to kill herself by swallowing some of the poison.

It was stated yesterday at the City Hospital, where the mother and son were taken, that the condition of both was critical, but their chances of recovery could not be determined yet, as the full effect of the poison would not be revealed for several days.

In the meantime the mother, moaning in misery of mind and body, is depressed, by the dread that boy may live and she die, or that he will recover and she will go to her death and leave him to meet alone the ridicule and unconscious cruelty of other children.

Mrs. Manthy's obsession concerning her son began in January.

Benefited by Chamberlain's Liniment. Traveling Man's Experience. "Last winter I used Chamberlain's Liniment for rheumatic pains, stiffness and softness of the knees, and almost conscientiously say that I never used anything that did me so much good."—Edward Craft, Elba, N. Y. Obtainable everywhere.

WANAMAKER SUGGESTS THAT U. S. BUY BELGIUM FOR A HUNDRED BILLION.

Philadelphia, July 23.—The purchase of Belgium from Germany by the United States and the imposition of high duties on imports and exports by this country were among the suggestions made by John Wanamaker in an address here tonight at a meeting at which prominent business and professional men formed a local branch of the National Security League. Mr. Wanamaker said it is now the duty of the business men of this country to do all in their power to restore normal conditions in Europe, and, and proposed that a hundred billion dollars be loaned without interest to the government for the purchase of Belgium. He suggested that later the government of that country could be turned over to its own people.

LINER ORDUNA SAILS; PASSENGERS ARE CALM.

New York, July 24.—With 195 passengers on board, including eight Americans, and with ten thousand tons of general cargo, the Orduna, of the Cunard line, sailed from Liverpool.

There was no evidence on the part of the passengers or Captain Thomas Taylor, her commander, that they thought an attack by a German submarine would again occur, and also there was not attempt to prevent friends of departing passengers from going on board before the steamship departed. There were no Americans in the first cabin.

New York—8.
Batteries: Harmon, Kautlehner and Schang; Strand, Marquard and Doolin.
Second game:
Pittsburg—6.
New York—4.
Batteries: Cooper, McQuillan and Gibson; Perritt and Doolin.

WOULD PROVIDE A MONUMENT

Hon. E. O. Wood, of Flint, Michigan member of the Democratic National Committee, has issued an appeal to the Democrats of the state asking for contributions of \$1 for the purpose of erecting a monument on Mackinac Island in honor of Gen. Lewis Cass.
Mr. Wood's letter to Democrats follows:
The Michigan Historical Commission and Mackinac Island State Park Commission have given names to prominent points of interest on the State Park at Mackinac Island. The names chosen relate to missionaries, explorers and those actively identified with the early history of Michigan and the Old Northwest. One of the most sightly places, the East Bluff or Cliff, where all of the thousands who come to the island are sure to visit, has been named Lewis Cass Cliff in honor of General Lewis Cass, one of the greatest of Michigan statesmen.

may know that Michigan is not ungrateful to its distinguished public servants. It is hoped it may be a gift from the Democrats of Michigan to the State, and it has seemed this is the appropriate year to complete the work. We have a Democratic President, a great statesman whose wise patriotic leadership is commanding the admiration of the entire world. Michigan has a Democratic Governor, a sincere and able executive beloved by all of our citizens. And Mackinac Island has a Democratic Mayor, the Dean of our party councils, Colonel Wm. P. Preston, Mackinac county officers are all Democrats, and it was the only county in the state which at the last election gave a plurality for every candidate on the Democratic state ticket.

This letter is an invitation to you to join in this Lewis Cass Memorial movement. No person will be permitted to contribute more than one dollar (\$1.) If you are in accord with the above outlined, will you please send at once one dollar (\$1) to Colonel Wm. P. Preston, Mayor's Office, Mackinac Island, Michigan.

The hope is to order a bronze tablet without delay, and place it in position with appropriate exercises in August of this year. It will be a distinct and merited compliment to Mayor Preston whom we all love. The desire is to place a lasting memorial in honor of one of Michigan's foremost statesmen, and to bring it about during the term as Mayor of one of our loyal Democrats, and in this the year, when the affairs of nation and state are in the hands of two such superb leaders as President Woodrow Wilson and Governor Woodbridge N. Ferris.

The Committee on selection of memorial and program, is as follows: Governor Woodbridge N. Ferris; Judge Wm. F. Connolly, of Detroit, and Mayor Wm. P. Preston, of Mackinac Island.
Assuring you I will greatly appreciate your co-operation, I am,
Faithfully and sincerely yours,
EDWIN O. WOOD.

Capt. R. G. Tilley and wife of Milwaukee are in the city visiting at the home of Mrs. J. H. Tilley.
Edward Stone and Oscar Hansen and a party of fishermen, will, this morning early, motor to Stonington in the former's gasoline boat, to spend the morning fishing at that place.

With sensational Wind-Up clearance sale offerings Wednesday, Thursday, Friday and Saturday. Last days of the Big Sale.

IRON TRADE IS BOOMING

According to reports from all centers of information conditions in the iron trade were never more favorable than at the present time.

W. A. McGonagle, president of the Duluth, Missabe and Northern railway, is one of those highly optimistic about the future in the iron and steel trade.
At a meeting of the public affairs committee of the Duluth Commercial club, Mr. McGonagle said that this year bids fair to surpass the record of 1910, the banner year in steel business, and everything points to a resumption of active and prosperous business in steel.

The following statement from Mr. McGonagle, in which he speaks principally of the iron and steel industry is of particular interest:

"The iron ore season of 1915 bids fair to equal, if not to exceed, the extremely prosperous years of 1907 and 1910, and there is the usual hustle that always precedes a general wave of prosperity. The steel plants of the United States Steel corporation and of many of the independent companies are now running at practically full capacity, and there are orders ahead for many months to warrant the continuous operation of all the plants.

"The plant of the Minnesota Steel company, in the city of Duluth, will be in operation on or before No. 1, 1915, and there are abundant orders to keep it busily employed, and to furnish employment to a large number of wage earners who will start the way of prosperity that is surely at hand for our city, and for Northern Minnesota.

"I was in Gary, Ind., a few days ago and witnessed the change of shifts in the great steel plant of that place. About 5 p. m. the stream of workmen began to leave the gates of the plant and start for their homes. Many thousands of men either walked or rode in electric cars, jitneys, carryalls or other forms of conveyance, and an equal number of men moved toward the plant to begin their labors on the night shift. It was an inspiring sight, and was in such sharp contrast to the conditions in December last when I visited the plant, as to be almost startling.

"In talking with business men a few months ago on the Pacific coast they told me that business was materially better than the corresponding period of last year, and that it was growing better day by day, and that they looked for lively times before the close of the present year. The same ideas were expressed to me a few days ago by conservative business men of Chicago, and as these ideas correspond with the signs of the times

there can be no doubt that we are entering upon a long period of general business prosperity, which, to an extent, we can make doubly sure by relegating the pessimists, croakers and knockers to the discard, and replacing them by men with public spirit, enterprise and faith.

"This is a time when all classes should co-operate, for the general good; when we should lay aside selfish ambition, political prejudice and all the other barriers to progress, and with full faith in the future do our part to bring about the conditions that we all desire. It is time to forget Mr. Wilson, the politician, and to remember in our thoughts, our actions and our prayers, our President Wilton, who is carrying our burden and who needs our help to solve the serious problems now confronting our country. May our work, in so doing, unify us in all things for the betterment of mankind, and may this spirit leave our business lives so that in full and loyal co-operation we may bring about a return of prosperous times that we can have if we will."

ALL READY FOR THE BIG PICNIC

A representative of the Fair Savings Bank, who last evening returned from Fayette, Garden and Nahma, where he has been making arrangements for the Employee's Second Annual Outing on Tuesday, July 27, stated to the reporter of this paper, that while there he talked with L. P. Peterson, secretary of one of the Granges, who says that the Grangers from the entire community have made all arrangements for the welcome of the Employee's and their friends, who will leave the Fair Store at 8:00 a. m. headed by the Escanaba Military Band, that has been engaged for the day, marching in a body to the boat and leave promptly at 8:30, arriving at Fayette at 11:00, where they will be met by not less than 1,000 residents of the Big Bay de Noc district.

Supervisor Chas. Olmsted of Garden has been appointed Marshall of the day and says that the entire town will close and go to Fayette. Every farmer on the other side of the Bay, interviewed, is planning to lay down his pitch fork, hitch up the old horse and take the whole family to the picnic, with the intention of having a jolly good time, and he will not be disappointed.
R. N. Seward of Stephenson, well known Grange organizer will deliver the address of welcome.

The baseball game between the fast Garden team and the Northern Beanties of Escanaba is arousing a great deal of enthusiasm. Another special feature will be the watermelon, a colored man from the south, will surely please all. Games and races have been arranged for all to participate in and valuable prizes will be awarded to the winners.
With the good will of the weather men, they hope to make a day never to be forgotten, for all who attend.

CROPS THRIVE AT GARDEN

Garden is beautifully situated on Garden Bay, a body of water extending into the land, from Big Bay de Nocquet. The name could not be more appropriately given as the land for miles is a veritable garden, in nature, and needs only the proper tillage to produce wonderful results. Unlike any other section of Delta county, the surface is a broad level plain of several thousand acres. Diversified farming is fast taking the place of grain and hay farming as formerly conducted. Perhaps the most beneficial factor to insure permanent prosperity to this favored community is the Garden and Northern Railway, which connects with the Soo Line at Cooks. Next in importance, the creamery, which is owned and operated by a stock company composed of local people. The average output of the creamery for the past year was 200 lbs. of butter daily. The butter is sold on the market twice monthly, and the proceeds of the sale is distributed among the patrons. The State Bank established about six years ago, lends stability and establishes a financial rating which has proved to be of vast benefit, in doing a very satisfactory business. The flour mill meets the demands of all concerned and is a substantial asset to the place. A telephone system, owned and operated by George Joque, is well patronized and is a great convenience, connecting with the long distance telephone at Manistique. Two good general stores, two hardware stores, several grocery stores, two good hotels, meat market, harness shop and all other stores usually found in a village of that size. Taken as a whole, enough progress of a substantial nature has been made in the past, to insure a prosperous future.

STANDARD OIL WORKMEN TO RETURN TO WORK

(Special to The Press.)
Bayonne, N. J., July 24.—Arrangements to arbitrate the strike in the Standard and Tidewater Oil Company plants here were made late this afternoon. At a meeting of the strikers the men voted to return to work Monday, pending a settlement.
Gerite Sheehan enjoyed a weeks visit at Vans Harbor visiting with Mrs. William Foster.
Mrs. Margaret Heggerty of Scranton, Pa., is visiting with relatives here.
Magnus Munson of Danforth was in the city yesterday on business.
Ed. Zastrow of Bark River transacted business here yesterday.
Mrs. Noc Dene of Flat Rock made a shopping trip here yesterday.

THE ESCANABA NATIONAL BANK
ESCANABA-MICH.
THE BANK OF THE PEOPLE

Young Business Men

do not overlook the fact that a good banking connection is of vital importance to your success.

The fact that you transact your financial affairs through the bank will give you prestige among successful men. You will at all times have at your disposal the advice of its officers and every service and accommodation in keeping with sound banking.

Every depositor in this bank receives prompt and courteous attention no matter whether his account is large or small.

SMALL AS WELL AS LARGE ACCOUNTS INVITED

15,000 LOST

(Continued From Page One.)
Hundreds of women and children were trapped in the cabins. The tragedy occurred so quickly that comparatively few persons were able to jump from the decks and clear the overturning boat. Firemen who were rushed to the scene with ladders and axes began chopping through the side of the boat into the cabins and soon scores of dead women and children were being hoisted out; some of them drowned; others smothered or crushed to death; few living. Over two hundred physicians were called in by general alarm; hundreds of policemen were rushed to the scene and scores of volunteers in boats were busy from the instant the steamer overturned. Fifty Catholic priests and as many more Protestant ministers were called into service for the last rites for scores who died shortly after being removed from the vessel.

LOCALS BEAT

(Continued From Page One.)
will be on the mound, in all probability for Escanaba, prepared to pitch the game of his life time. All of the "old vets" will be in Escanaba's lineup today which means that the locals are scheduled to register another win. The box score for yesterday's game is:

WOMAN GUILTY OF CHARGE

Mrs. Flora McKenzie, charged with violation of the liquor laws was yesterday found guilty by a jury in circuit court. Much evidence was submitted in the case and after it was placed in the hands of the jury, they were out for but a brief space of time before they returned the verdict named.
Yesterday noon the court was adjourned until Monday noon.

FORMER LOCAL BOY TO PREACH TODAY

Rev. Roy Thelander, son of a former pastor of the Swedish Lutheran church of this city, who was ordained a minister a year ago, will occupy the pulpit of the local Swedish Lutheran church this evening. He will deliver his sermon in English tonight.
The announcement that the former Escanaba lad is to occupy a local pulpit will draw largely to that church this evening.
The Swedish Lutheran church will also conduct branch services today at the chapel at North Escanaba, with Mr. G. Carlson, a theological student, in charge.

"CAST" PARTY FOR YOUNG WOMEN VISITING IN THE CITY

Mrs. John P. Norton of South Campbell street was last evening hostess at a "cast" party at the Stephenson Charcoal and Iron Company at the Chemical Plant location honorary to Miss Georgia VanMatre and Miss Luella Hartho, who are visiting at the Norton home.
After watching the cast at the furnace the members of the party returned to the home of the hostess where refreshments were served.
