ALL COUNTRIES ARE IN IT

Albert H. Gary, head of the Steel Corporation, while apostle of optimism and advocate of square dealing in business and an appeased government, has burst forth with the following:

"But what can truthfully be said of business conditions in this country during the last ten years? Prosperity has often been interrupted; depression has been frequent and severe; idleness has been noticeable and its results often distressing."

Forty Ways and More To The California Exposition

is the title of an attractive booklet issued by the Chicago & North Western Ry. in connection with its forty different attractive routes from Chicago to California.

casual observer, knows that business influences are international. Panics travel around the world, with their blight on industry, and the long, tedious process of recuperation. The panic of 1907 was scarcely overcome when the Balkan war opened in 1911.

WHERE NEXT? Inevitably there is a demand for a thorough-going investigation of the Eastland tragedy, for a placing of blame, and, if blame is fixed, for punishment. It boots nothing to compare this with locking the stable door after the horse is stolen.

WAR

Berlin, July 27, via London.—The imperial chancellor, Dr. von Bethmann-Hollweg, today conferred with the emperor at general headquarters. The American note was under consideration. Nothing tangible regarding the German attitude on the American communication is likely to be made known before the chancellor's return to Berlin.

Some officials are inclined to believe that the American note closes the diplomatic discussion most thoroughly. Others think that a reply of some sort will be made by Germany and that the question of indemnification for the American lives lost will perhaps be suggested for reference to arbitration.

BRITON FOE WORTHY OF FEAR

Berlin, July 27.—Germany has a hundred reasons to fear Britain, with the sort of fear that is not unworthy of a man, that is based upon respect and has nothing craven about it.

London, July 27.—Field Marshal von Mackensen's sustained effort to throw any considerable body of Austro-German troops astride the Lublin Cholm railway having to date met with no success, the Germans are now centering their main offensive north of Warsaw, and having crossed the Narw river along a forty mile front, are driving at the Russians toward the city, where it joins the Narw north of the Polish capital.

WARSAW PLACES NO LIMIT TO AID HER POOR. Berlin, July 27.—The German government officially denies the report from Petrograd that the American embassy there has been notified by Germany that funds for Germans in Russia will have to be restricted.

MOTHERS PLEASE

Memominee, Mich., July 27.—My son does not owe his life to any strange intuition I may have had that the Eastland was going to have an accident, for I did not have any. However, he has written me thanking me for writing him and advising him not to go and therefore I guess he and we all feel that it was my letter which prevented him from going down with those poor and unlucky souls who met death while bound for a joy trip.

Thus spoke Mrs. Katherine C. Sawyer, 1608 Jenkins street, Memominee today when she said that she had received a letter saying that her son Harold, 19 years old and an employee of the Western Electric company, for the last six weeks, was safe.

"I had no premonition of any particular kind that the Eastland was going to tip or have any accident, I was just nervous owing to the fact that I have a strange feeling of danger when one of these picnic lake excursions are planned. That is why I wrote to Harold and told him not to go."

Mr. Sawyer has been in Chicago six weeks, having left Hermansville for the Windy City. He was graduated from the Memominee high school in the class of 1914. He will remain in Chicago.

ROOSEVELT'S STAND PLEASURES CANADA

Toronto, July 27.—As a result of Theodore Roosevelt's very outspoken support of the Allies in the present European conflict there has been a rising sentiment in Canada in favor of the former president and his utterances are given great prominence in the press everywhere.

As an expression of the national sentiment an invitation will be extended to him on Aug. 30 to open the big annual exhibition at Toronto, the largest annual fair in the world. If he is unable to come at that time then he will be invited to occupy a place of honor with the royal party, comprised of H. R. H., the Duke of Connaught, the duchess and Princess Patricia, in the review of the troops on Military Day, Sept. 2, when thousands of troops now in training for service at the front in various camps throughout Canada will be here for the final review before leaving for "somewhere in France."

There appears to be an impression in some quarters that there is danger in crossing the imaginary line into Canada at the present time. The dominion government has taken steps to dissipate this idea and is co-operating with Washington to bring about free intercourse of the touring population of the two countries.

As a result the tourist traffic in this direction is growing rapidly and the various watering places and summer resorts have more American guests than ever before.

Hancock, Mich., July 24.—A search of nearly two months for Emil Hinkkanen, a student who disappeared mysteriously from the Finnish college here, ended on Friday when the body was found about three-quarters of a mile from the outskirts of the city.

Good Work of Humble Worm. Worms are great promoters of vegetation by boring, perforating and loosening the soil and rendering it porous to rains and the fibers of plants by drawing straws and stalks of leaves and twigs into it, and, most of all, by throwing up such infinite numbers of lumps of earth called wormcasts, which form a fine manure for grain and grass.

The Bells Co. will make a regular trip every Sunday leaving the Mackinac dock at 10 p. m. and returning to Mackinac at Escanaba, Mich., on the 27th day of July A. D. 1915.

MISSING STUDENT'S BODY FOUND HANGING TO TREE

Hancock, Mich., July 24.—A search of nearly two months for Emil Hinkkanen, a student who disappeared mysteriously from the Finnish college here, ended on Friday when the body was found about three-quarters of a mile from the outskirts of the city.

Last winter I used Chamberlain's Liniment for rheumatic pains, stiffness and soreness of the knees, and can conscientiously say that I never used anything that did me so much good.

MALE HELP NOT WANTED

Oconto, Wis., July 27.—Dolly Powell and Sadie Bundy are two Oconto county farmer girls who turn up their noses at male help and are operating 76 acres of land about a mile south of Brookside. They do all their own work on the farm, employing a woman, a sister of Miss Bundy, to keep house, while they go out and till the soil, do the plowing, dragging and seeding, as well as the haying and harvesting.

With the exception of bloomers, as substitutes for trousers, they dress like men. They wear men's shirts, coats and hats, each bloomer leg being tied just about the knee. "We are getting along just fine," said Miss Powell. "We are perfectly independent and are making a good living. We wouldn't be bothered with a man under any circumstances. He would only be in the way. We are free to do just as we please, and there is no one to boss us."

"About three years ago," she continued, "when Miss Bundy's father became so old he could not work the farm, we conceived the idea of undertaking the job ourselves, and we've made a success of it. The land is owned by Miss Bundy and her two sisters and myself, and we do all of the work ourselves that is usually done on a farm by men—that is, Miss Sadie Bundy and I do the farm work. One of Miss Bundy's sisters does the housework for us. Miss Bundy was born on this farm and I was born at Abrams."

"We have four horses, six head of cattle and two hogs. We've got the finest driving team you ever laid your eyes on. We had some sheep, but they were too much bother and so we disposed of them."

DOESN'T DESIRE ATTY. OFFICE

Senator James C. Wood of this district, of Manistique, has given out the information that he is not to be a candidate for the office of Attorney General in 1916. Considerable concern has been aroused over the state over the rumor that Senator Wood was seeking the Attorney General's job and it is with a feeling of considerable relief that the rest of the proposed timber receive the announcement from the Senator.

Senator Wood has however, made the fact plain that he desires to be returned to the Senate by his constituents.

A Lansing dispatch regarding the announcement of the Senator from this district says:

One prospective candidate for the Republican nomination for attorney general in 1916 has already declared himself out of it.

He is state Senator James C. Wood, of Manistique. During the closing days of the legislature, when booms were flying about at a great rate, the name of Mr. Wood as a candidate for attorney general was frequently mentioned. He never said a word, but his

BOYS WILL BE BANDED TOGETHER

George E. Westerman, upper peninsula Y. M. C. A. secretary of Calumet, well known in this city, has returned to the Copper Country from the annual boy's camp at Torch Lake, prepared to band the boys of Houghton county together. No boys have been named on committee's from Calumet and Laurium as that district already has an established Y. M. C. A.

Of the big work that has been started and the committee that have been named a Copper Country correspondent says:

George E. Westerman, of Calumet, upper peninsula secretary for the Y. M. C. A. yesterday returned from the state boys' camp at Torch Lake, near Potosky, and announced that he had completed the list of the committee to have charge of the proposed organized boys' work in Houghton county. The list follows:

Houghton—F. R. Bolles, James Fisher, J. A. Doelle, Dr. R. B. Harkness, C. V. Seaber, W. G. Rice, D. L. Robinson. Hancock—John C. Condon, Daniel Fisher, J. C. Jeffrey, Capt. J. Kendall,

FIGHT PROMOTOR IS SYMPATHETIC

The following telegram was sent to the Mayor of Chicago Sunday by Sam Howard, the Oshkosh Boxing promoter:

Hon. Acting Mayor Moorehouse, Chicago, Ill.

Please accept my heartfelt sympathy for the catastrophe that has overcome so many of your people. This calamity will surely leave many families in want. I will turn over to you for the benefit of those who have felt the awful sting of this disaster the receipts of the boxing show to be held here August 2nd, between Ad Wolgast and Daubert Jaeger.

Signed: SAM HOWARD.

The above message speaks for itself. Mr. Howard has completed arrangements whereby Mayor Mulva and Chief of Police Dowling of Oshkosh are to take full charge of the financial auditing of the boxing show to be held in that city August 2nd. Ad Wolgast the former light-weight champion of the world and Daubert Jaeger of Fond du Lac are the principals who head the card. This match was arranged several weeks ago and has been attracting unusual interest and a large attendance is assured. In fact it looked like one of the best "money makers" that the Oshkosh club has ever staged. Nevertheless when Mr. Howard read of the terrible disaster of the steamer Eastland he did not hesitate a second and he immediately wired his kind offer to the mayor of Chicago.

Mr. Howard has shown the true spirit and his generous offer will make him many friends. It must be remembered that he is not getting up a benefit exhibition for the occasion, but is actually turning over all the profits of one of the biggest boxing shows ever scheduled for the "Sawdust City". The boxers will receive the moneys that they have contracted for. The minor expenses will be paid by Mr. Howard and as a large crowd will surely attend this boxing show it is sure to net a sum of considerable magnitude for the sufferers of the Chicago River disaster.

The Daily Northwestern of Oshkosh in commenting on Mr. Howard's liberal offer has the following to say: "It is not Mr. Howard's first essay in the field of philanthropy. He staged at New York a gigantic athletic benefit from which some \$10,000 was raised for the Titanic sufferers. Also on the occasion of a great fire at Hoboken he put on a benefit performance which resulted in a large sum for the victims."

UNION SERVICES ON THURSDAY EVENING AT M. E. CHURCH

Union services will be held at the M. E. church, Thursday evening. Mrs. Mattie French, a W. C. T. U. field worker will be present and everyone is invited to attend and listen to her address.

In the baseball game, that was the big feature of the afternoon the Northern Beauties, of Escanaba, defeated the Garden team by a score of 10 to 2. The local players at times during the game, were treated to some unique umpiring, but the battle was finally ended without blood being shed or serious altercations developing.

Carroll was on the hill for the Beauts and had his port side slants working in great form, allowing eight scattered hits and whiffing five. When victory was sure, Chatsfield pitched the final inning. Mayville started for Garden, but was relieved by Truckey in the eighth the latter holding the Beauts safe for the remainder of the game. Mayville was pounded for 11 hits and struck out ten, while Truckey allowed no hits, gave one pass and whiffed one.

Following the ball game the great crowd of east shore picnickers were assembled at the boat where souvenirs were distributed. Supper was then served and shortly before the boat was due to leave Atty. Joseph F. Cuddy was introduced to deliver the farewell address of the day. Atty Cuddy eloquently lauded the beauties of Fayette and accorded to Mr. Salinsky every credit that was due him for his action in providing for his employes and the people of the Big Bay district such an ideal outing. At the close of Mr. Cuddy's address he proposed three cheers for the originator of the outing plan and which were given with a will that demonstrated well the pleasures that had been enjoyed by the big crowd of people.

USE PRISONERS FOR HARVESTING

Orleans, July 27.—The experimental use of German prisoners of war as harvesters has begun here in the old province Orleans. It may solve the question of the harvest without the return of the soldiers at the front.

Two hundred Germans who were captured at Carnoy and sent to prison camp at Issoudun were transferred to Malshesbes and there in groups of twenty sent to the different communes that have applied to the military authorities for farm help. Each detachment is placed under the supervision of the mayor of the commune, and is subject to the same discipline as a camp.

The men are to be paid at the rate of about \$10 per month, in addition to their board and lodging, directly by those who employ them.

Thus far the experience has developed no difficulties and if it continues to prove successful other convoys of 200 each will be sent to other farming centers.
