LOCAL OPTION TO BE ISSUE

COUNTY BOARD VOTES TO SUBMIT QUESTION TO PEOPLE ON DECISION RENDERED BY PROSECUTING ATTORNEY

Members of the Delta county board of supervisors yesterday by a vote of 15 to 9 decided that the question of the adoption or rejection of local option should be submitted to the voters of this county at the election of next April.

The final vote was taken on a secret ballot after Pros. Atty. H. J. Rushton had ruled that the petitions presented to the board were in legal form and proper and which ruling it is held by the opposers to the petitions, was in direct opposition to a ruling submitted by the attorney general of the state. The legality of the petitions was attacked on the grounds that in several wards of this city and in several of the townships more than one petition had been circulated in securing signers and which petitions had been pasted together to form, before the supervisors, more than one petition from each ward and voting precinct.

When the matter developed before the supervisors the prosecuting attorney sent the following message to the attorney general: "If more than one petition was circulated in any ward or election precinct and affidavits were made to each of the petitions and subsequently pasted together and filed with the county clerk can they be legally considered?"

The attorney general replied in substance as follows: "The local option law provides that only one petition can be circulated in any precinct. If more than one petition was circulated, neither can be counted."

Pros. Atty. Rushton ignored that opinion and instead gave to the board his own individual ruling.

The submission of the local option question was opposed before the board

(Continued on page six.)

WILL CUT THE COST

According to an estimate filed yesterday with the supervisors by Judge Yelland it will cost Delta county approximately \$7,500 for mothers pensions for the coming year against over \$11,000 last year. Because of the excessive cost aid has been refused to some and the amounts given each in many instances have been cut down to bring the fund within reasonable bounds. In the future Judge Yelland announced to the supervisors that he will refuse aid in all cases until the supervisor of the township or ward has been consulted as to the necessity of extending aid in the particular case. At the present time 60 mothers with 183 children are receiving aid.

The average amount given to each family is \$2.35 a week or 75 cents a week for each child.

BANQUET ELABORATE

Members of the Hoi Polloi club last night celebrated their opening of their new quarters at the Pythian club rooms with the serving of an elaborate banquet. The banquet was served at 7:15 o'clock and was most elaborate as well as most delightfully served. Following the banquet a program of toasts and musical numbers was carried out.

SUPERVISOR ENGLUND IS SLOWLY GAINING

Word has been received in the city that the condition of Supervisor Andrew Englund, who has been seriously ill at his home in Ford River township, is slightly improved. It was at first thought that Mr. Englund was suffering from typhoid fever but later symptoms of small pox developed and he is now believed to be on the road to recovery from an attack of that

TAKE BODY TO FORMER HOME

The body of Louis Voss, who passed away at the home of his daughter, Mrs. Frank Greenlaw, on Wells avenue on Wednesday evening, was taken to his former home at Neenah, Wis., last night. The body was accompanied by a party of relatives and funeral services will be conducted at Neenah today. Interment will be in the family lot of the cemetery at Neenah.

BRAVERY IS SHOWN

Attacked by a purse snatcher while walking to her home late on Wednesday night, Mrs. J. L. Nolden bravely fought off her assailant and forced him to beat a retreat. Mrs. Nolden, with a woman friend, were walking to their homes after attending a card party shortly before 12 o'clock. On South Jennie street near Ayer, a stranger, wearing a cap, pulled down over his eyes, suddenly stepped out of the dark and grasped Mrs. Nolden's purse. She kept her head and began to struggle with her assailant. He continued to attempt to jerk the purse from her hand and she proceeded to pummel him with the free arm while her companion set up a cry for help. The handle to the purse was broken but Mrs. Nolden clung to the purse until the would-be-robbler gave up the effort and hastily ran down the street. Mrs. Nolden was able to give an excellent description of the robber to the police, but when officers reached the scene he could not be found.

RECEIVES CHECK FROM HIBERNIANS

Mrs. William Rogers yesterday received a check for \$1,000 from the Ancient Order of Hibernians in settlement of an insurance policy carried in the order by her husband, the late William Rogers. The check was delivered exactly four weeks from the date of the death of the policy holder.

MRS. GALT DESIGNS HER OWN GOWNS

(Special to The Press.) Washington, D. C., Oct. 14.—It became known today that Mrs. Norman Galt, the President's fiancée, is designing most of the gowns and hats for her troupe herself. The elaborate ones are being made by a well known Washington modiste. Washington continues to be on the qui vive for hourly is expected the announcement of the wedding date.

SIGN CONTRACT FOR HISTORIC LOAN TODAY

(Special to The Press.) New York, Oct. 14.—The contract for the Anglo-French \$500,000,000 loan will be signed at 2 p. m. tomorrow. The signatures to this historic document will be affixed at Morgan & Company's office.

BARK RIVER REFUND HELD UP BY BOARD

By a vote of 15 to 8 the supervisors yesterday decided to hold up action on Bark River township's request for a refund of the county road taxes assessed against that township, that the amount might be applied on the principal of the township's good road bonds. The action was taken after a prolonged discussion of the matter in which it was held by some of the supervisors that the county was not required to make the refund. A committee was named to investigate the matter and report to the supervisors at their January session.

P. R. Legg, of Gladstone, ex-county commissioner of schools, spent yesterday

LIMIT LOADS ON CO. ROADS

BOARD OF SUPERVISORS YESTERDAY TOOK DRASTIC ACTION TO STOP INJURY TO STONE HIGHWAYS.

Members of the Delta county board of supervisors enacted a measure yesterday that will bar all heavily laden trucks and other vehicles that carry unreasonable loads, from all of the highways of the county road system in Delta county.

The ordinance adopted by the county board yesterday will immediately be forwarded to the governor of the state for his signature and approval and will become effective 60 days from the date of its passage by the county board.

Appearing before the supervisors this week members of the board of road commissioners claimed that already great damage has been caused to the roads of the county through the overloading of trucks and asserted that if the practice was allowed to continue, within two years every road traversed by those vehicles would be ruined beyond repair. The action taken by the local board yesterday is in

(Continued on page six.)

DELEGATES TO LEAVE

Delegates from the Escanaba and Gladstone lodges of Odd Fellows and Rebekahs will leave this morning for Bay City where they will attend the state grand lodge meetings of those organizations. The local Odd Fellows lodge will be represented by Matt Peterson and C. F. Kimber, while the local lodge of Rebekahs will be represented by Miss Minnie Christensen. The Gladstone lodge of Odd Fellows will be represented by Mr. and Mrs. John Neville of Gladstone.

FRANCHISE IS VOTED

A franchise was yesterday unanimously voted by the supervisors to H. E. Pfeiffer, of Rapid River for a term of 20 years to erect a power transmission line at the side of the county road from Kipling to Rapid River. The action was taken to allow Mr. Pfeiffer to transport power from the terminus of the Gladstone city power line to Rapid River, where Mr. Pfeiffer holds a franchise for furnishing lights and power.

COMMITTEE WILL MEET

The Charity Committee of the Women's club will meet at the Library Friday afternoon at 3:15. All members are requested to be present as important business will be transacted.

ELKS PLAN FOR PARTY

Members of the Escanaba lodge of Elks are making plans for a big Thanksgiving ball to be given at the Elks temple on Thanksgiving night, Nov. 25. At the meeting of the lodge last night preliminary plans for the function were made and a committee was named to assume charge of details.

HIGHS WILL TRAVEL TO THE LOCK CITY

Members of the Escanaba High school football team will travel to Sault Ste. Marie on Saturday to battle with the high school team of that city. The Lock city squad is said to be both heavy and fast and Coach Hutto has been putting his charges through a grueling course of sprouts

WRITE FINIS TODAY

Finis will today be written for the Wells post office. Today the Wells post office goes out of existence to satisfy the whim of one man who happens to control a town in which he would allow no one but himself to hold the office of postmaster. Today, in fulfillment of a childish boast, Boss Dick will see the man who took the postmaster's title from him, out of a job. He will see the people, whose destinies he controls, walk to North Escanaba to post letters and receive mail and all because there was no room for a post office at Wells when Boss Dick could no longer hold the postmaster's title.

MARINETTE MAN IS DEAD AT GREAT AGE

Edmund Roy yesterday received word of the death at Marinette of his step father, A. H. Benedict, at the advanced age of 108 years. Mr. Benedict was one of the oldest men in the United States at the time of his death.

COUNTY WOULD AID THE CITY

Members of the county board yesterday voted unanimously in the event of the adoption of a municipal court system in the city of Escanaba, to pay the city the sum of \$1,000 a year toward the salary of a municipal judge. At the present time under the justice court system, it was claimed yesterday, it was costing the county \$1800 a year for the support of the justice courts in this city. In return for the donation of \$1,000 to the city it would be required that all fines collected in county cases in the municipal court would be turned in to the county treasury. Mayor B. J. Mackillican announced that the meeting that he would immediately investigate the steps that would be necessary to establish a municipal court and at the next meeting will take that matter up with members of the city council.

TAKE RECESS TILL MONDAY MORNING

That the action of the county board yesterday in voting to submit the local option question to the people at the spring election, might not be invalidated the supervisors when they completed the work of the October session last night, took a recess until next Monday morning. The law requires that to make any action of the board legal the proceedings of the meeting must be transcribed and signed by the clerk and chairman before the close of the meeting. The great volume of business that developed at this session made it impossible to complete the record of the proceedings with the close of the session and the recess until 9 o'clock on Monday morning was taken.

It will not be necessary for a quorum of the supervisors to be present at that time as the attendance of one member to make the formal adjournment motion and one to second that motion, is all that will be required.

LAST ECHO OF "STUBBIE"

What will probably be the final entry in the case of little "Stubbie" White, lost near the Lome of his uncle, William White, near Oser and never found in spite of a determined search by an army of men, was written by the Delta county board of supervisors yesterday. The board yesterday ordered paid bills totaling \$175 that were incurred in conducting the search for the child. The greater portion of the expense was incurred in hiring blood hounds; in purchasing estates for the army of men who were engaged in the search, without pay and in hiring automobiles to take the searchers to and from the scene.

Mrs. Edward Brunelle, wife of Om. Edward Brunelle, submitted to a critical operation at St. Francis hospital on Monday and yesterday, her

TO SUBMIT PROPOSITION

COUNTY BOARD ACCEPTS RECOMMENDATIONS TO LET PEOPLE VOTE ON ROAD BONDING MATTER

Members of the Delta county board of supervisors yesterday voted to submit to the people of Delta county at the election of next spring a proposition to bond the county for \$100,000 to complete the county road system of highways, according to plans inaugurated by the board of road commissioners. The recommendation that the bonding proposition be submitted was carried in the report of the board's finance committee and was unanimously adopted.

A formal resolution, providing for the submission of the question and prescribing the form of the ballots and details of the bond issue, will be prepared by Pros. Atty. H. J. Rushton and submitted to the supervisors at their annual January session.

The budget of the county, as presented to the board by the finance committee and adopted, carries an appropriation for general county expenses of \$94,400. The amount previously appropriated for county purposes was \$80,000 but in the last year the county's expenses exceeded the appropriation by approximately \$30,000 and to meet the contingency it was found necessary to increase the appropriation over the old level. The budget for the coming year also carries the regular three mill tax appropriation for county road purposes, which will produce a fund of \$31,329.30. The budget in addition carries an appropriation of \$1028 for the Delta County Agricultural Society and the usual amounts for other county purposes together with the regular township and city assessments.

CONTRACT IS MADE

Sheriff Andrew Iverson will board all of Delta county's prisoners from Nov. 1 of this year to Nov. 1, 1916 for the sum of \$2600, which amount will be paid to the sheriff in monthly installments. In the past the sheriff had received 50 cents a day for boarding the prisoners and under that system the cost to the county has varied from \$3,000 a year to \$3,900 a year.

The board also voted yesterday to place the undersheriff on a regular salary of \$75 a month in lieu of mileage and per diem fees when in service for the county. That action was taken upon the recommendation of Pros. Atty. H. J. Rushton and with the consent of Under Sheriff Frank O'Dess.

PICTURES ARE HUNG

Eleven handsome pictures, purchased from the proceeds given by the pupils of the Webster school last spring, were hung in that building yesterday. The collection represents a most admirable selection and are the source of marked pride to both the pupils and the teachers at the building.

The Age of Innocence, by Reynolds and The Gleaners, by Millet, are hung in the halls of the building. In Miss Norton's room the subject is Hope, by Knaut; in Miss Ford's room, Sir Galahad; in Miss Germain's room, Ruyscaal; in Miss Leper's room, Song of the Lark; in Miss McCauley's room, Christ and the Doctors; in Miss Henry's room, Spring; in Miss Sheedlo's room, Feeding Her Birds; in Miss Atkin's room, Baby Stewart and Miss Gibb's room, Fear and Trembling.

BARR MOTHER'S CLUB TO ELECT OFFICERS

Members of the Mother's club, of the Barr school will hold their annual meeting at the school building this afternoon at 3:30 o'clock. Officers for the coming year are to be selected and the work of the year is to be planned. The officers issued the following

FRIENDS ATTEND DELIGHTFUL PARTY

A number of friends met at the home of Mrs. D. H. Gunderman last night on North Fannie street, the event being planned on celebration of the anniversary of her birth. Luncheon was served and the hostess was the recipient of many useful and pretty presents.

TURN DOWN THE SYSTEM

Delta county is not to adopt the county system of caring for its poor in preference to the township and city system now in vogue. That fact was determined by the supervisors yesterday, when they recorded an adverse vote against the proposition 8 to 10. Objection was made to the adoption of the system by some of the township supervisors on the grounds that it would remove a considerable burden in caring for the poor from the city of Escanaba and two or three of the townships and when the vote was taken it was nearly a division of the issue between the Escanaba city supervisors, in favor of the proposal and the township and Gladstone supervisors against. Supervisors Bruce and MacLean voted with the city supervisors on the proposal.

CONVENTION WAS CLOSED

After two days of highly successful meeting, representatives of the Woman's Relief Corps, chapters of the upper peninsula, closed their annual district convention here yesterday afternoon. Last night the visiting delegates and local members formed a theater party at the Delta and this morning the visitors will scatter to their homes.

WILL BRING BODY HERE THIS MORNING

The body of David Powers, pioneer resident of Escanaba, who passed away at Green Bay on Wednesday after a short illness, will be brought to Escanaba this morning, accompanied by his son, Thomas Powers, of this city, who was called to Green Bay by the death. The body will be taken to the home of the son, on Stephenson avenue, and funeral services will be conducted at St. Patrick's church at 9 o'clock on Saturday morning. Interment will be at St. Joseph's cemetery.

FORD MANAGER QUILTS COULDN'T SEE VIEWS

(Special to The Press.) Washington, D. C., Oct. 14.—The navy league directorate today sent a telegram of congratulations to James Couzens, of Detroit, who resigned as vice president and general manager of the Ford company because of his disagreement with the anti armament views of Henry Ford.

MANY FRIENDS ATTENDED FUNERAL YESTERDAY

One of the largest funerals held in Gladstone in some times was that which yesterday morning marked the laying to rest of the body of Mrs. Stephen Carren, for many years a resident of the Upper Bay City. Funeral services were conducted over the body at All Saints church and following the services the body was escorted to its final resting place at the Gladstone cemetery.

PYTHIAN SISTERS TO MEET TODAY

Members of the Escanaba Temple of Pythian Sisters will hold a social session at the Pythian Temple this afternoon when an enjoyable program will be carried out. The hostesses for the afternoon are Mrs. Fred Olmsted, Jr., Mrs. F. M. Johnson and Mrs. Chas. Folio. All members of the temple are

ALL ALLIES FIGHTING HARD

DESPERATE EFFORT IS BEING MADE TO PREVENT GERMANY FROM SENDING REINFORCEMENTS TO SERBIA

(Special to The Press.) London, Oct. 14.—Screened by smoke clouds and gas, British troops yesterday vigorously attacked the entire German line from Ypres to Loos, a distance of about 25 miles.

Violent fighting occurred within a radius of two miles north and west of Loos. In this territory the British captured the main trench of Hohenzollern redoubt, west of Loos, took a number of trenches on the edge of quarry south of Hurlus, expelled the Germans from the trenches south of the Vermelles-Hulluch road, and, further south, in the direction of Loos gained a temporary foothold in one thousand yards of the Germans first line.

This last position they were forced to relinquish owing to the intensity of the German shell fire, according to the admission by Field Marshal Sir John French. Berlin claims the British were expelled from most of the trenches they captured. Evacuation by the French, with a loss of 400 prisoners, of the position on the heights east of Souchez, is reported by Berlin.

(Special to The Press.)

London, Oct. 14.—The desperate plight of the Serbians apparently has spurred the Allies into renewed activity on all fronts in order to prevent Germany and Austria from sending reinforcements to the Balkans, until the France British troops have had time to arrive in the Serbian fighting zone. The allies in France have been engaging the Germans to their utmost while the Russians, both in Galicia and in the north, are particularly active.

(Special to The Press.)

London, Oct. 14.—Diplomatic rather than the military side of the situation was the subject of Sir Edward Grey's eagerly awaited statement relative to the Balkan situation which he delivered today to a crowded House of

(Continued on page six.)

PRESIDENT PRUNES BILL

(Special to The Press.) Washington, D. C., Oct. 14.—Reducing by one third the estimates of Secretary Garrison, the President today enlisted the support of Chairman Hay of the House military affairs committee for the National Defense program for the army, which calls for a "citizen reserve" and a nominal increase in the standing Army. Generous allowances for aeroplanes, field artillery and ammunition are made in the appropriating bill for the next session of Congress, the total approximating \$182,000,000. Secretary Garrison wanted an army bill of \$250,000,000. The President pruned it down to \$182,000,000, which means that the forthcoming army appropriation bill will be about \$85,000,000 more than the average.

BOAT IS ON SAND POINT

In the thick fog that covered the bay last night, a large ore carrier ran on Sand Point and despite repeated effort was unable to release herself. In the fog it was impossible to make out the name of the boat but it is believed to be either the Saxon or the Nef, both of those vessels being scheduled to reach port last night.

CONTINUE WORK ON ABSTRACTS.

The board of supervisors yesterday authorized the finance committee to continue its negotiations for the establishment of a tract index abstract system for this county. A proposition has been received from the

THE WAR

Paris, Oct. 14.—Private advices are to the effect that a Bulgarian division was almost annihilated in a fierce battle near Krajewatz, Serbia, says dispatch to the Havas agency from Bucharest, dated Tuesday, and delayed in transmission.

London, Oct. 14.—While there has been little real change in the western theater of war Petrograd reports severe fighting. Another striking victory has been won by the Russians on the southern front in eastern Galicia. They have pierced the last line of Austrian defenses on the Stripa river and have stormed one of the strongest points on the Austro-German right flank, says a Petrograd dispatch. Between two thousand and three thousand prisoners were captured.

The Russian war office estimates that upwards of three divisions of the Austrians were disorganized. It characterizes this success as a tactical, strategic and political victory, asserting it will compel German von Luden to regroup his forces on the whole front, which will affect operations in the entire southeastern district. The greatest importance is attached here to the political significance of the Russian accomplishments in eastern Galicia, inasmuch as large Austro-German forces had been concentrated on the Galician front, apparently to impress Roumania.

In the north the Russians have pushed Field Marshal von Hindenburg several miles farther west of Dvinsk and are again approaching the Dvinsk-Vilna railway. A strong German force attacked the French lines around Spuech and Vimy today. A violent bombardment preceded the infantry attacks, which were renewed from time to time and desperately carried out. The German succeeded in penetrating some of the trenches, which had been badly shattered by the shells, but, according to the French official statement issued tonight, were repulsed everywhere else with heavy losses.

The activity of the British submarines in the Baltic continues and Germany is now conveying her steamers to and from Sweden. London, Oct. 14.—The Near East, with the Austro-German and Bulgarian invasions of Serbia, the Anglo-French landing at Saloniki, the promised active intervention of Russia and the diplomatic possibilities in Greece and Roumania, continues to be the center of interest throughout the belligerent countries.

The Serbians, although greatly outnumbered by armies with superior equipment, are making a stubborn defense of their country, and while the Austro-German progress is steady, it is very slow and probably will become slower still when the mountains, where the Serbians are strongly entrenched, are reached.

Of the Bulgarian campaign nothing new has been received since Nish reported the repulse of the invaders, while the movements of the Anglo-French and Russian forces have thus far been kept from the knowledge of the public. The Russians have no easy task before them if they intend to land in Bulgaria. Varna and the other Bulgarian ports on the Black sea, where a landing might be made, have been strongly fortified under the direction of German officers and are protected by the Danube, as that is an international waterway, but it is doubtful if they have the necessary transports; while to come through Roumania would require the consent of the government of that country, which, although considered friendly to the entente powers, might not wish to risk the displeasure of Germany.

Some disappointment is expressed here at the decision of Italy not to participate. Italy has laid claim to great influence in the Balkans and is known to have aspirations in Asia Minor, which the junction of Germans and Turks, it is pointed out, would virtually bring to an end. With superior forces and excellent transport facilities, the view is held in London that Italy is in a better position than any of the allies to lend a hand, and the hope is expressed that she will yet do so.

CHANCERY SALE.

State of Michigan: The Circuit Court for the County of Delta. In Chancery.

Matt N. Smith, vs. John Dausey, and Cora Dausey, his wife.

Defendants.

In pursuance of a decree of the Circuit Court for the county of Delta, in chancery made and entered on the 16th day of January, A. D. 1915, in the above entitled cause, I, the subscriber a Circuit Court Commissioner of the county of Delta, shall sell at public auction or vendue to the highest bidder at the front door of the Court House in the city of Escanaba, in said county of Delta on the 7th day of December, A. D. 1915, at ten o'clock in the forenoon of that day all of those certain lands and premises situate in the city of Escanaba, County of Delta, and State of Michigan and described as follows: The Southeast one quarter of the Southeast one quarter (S. E. 1-4 of S. E. 1-4) of Section Sixteen (16), Township forty (40), North of Range twenty-three (23) West.

ALFRED P. PIERSON, Circuit Court Commissioner.

SEES "BLIND PIG" PROBLEM IN STATE

"It is work went want, not talk," said John J. Gannon, president of the Detroit Federation of Labor and delegate to the recent convention of Michigan Federation of Labor, in replying to the statement of Grand M. Hudson, of the anti-saloon league, demanding that the breweries of the state make boots and shoes instead of "shoots and booze."

Mr. Gannon's interview published in principal part in the Free Press follows in full: "Is it necessary to point out to Mr. Hudson that the breweries do not make 'booze' which I understand to be vulgar synonym for whiskey? "In Michigan there are about eighty breweries. To suggest that all of these eighty breweries begin to make boots and shoes is absurd. What would we do with this tremendous over-supply of shoes? Even if this impractical suggestion were possible the established boot and shoe concerns would put up a strong fight for their established trade and customers. A competitive war would result as a cause of so many new entries in the industry.

"Then we would like a feasible and legally tenable suggestion from him as to how he will take care by compensation or otherwise of property which he proposes the state shall expropriate. After thinking on the subject the expensive special brewing machinery and flouting the losses entailed in stopping the operations of going concerns, how will, without additional expenditure, the expensive machinery for the proposed boot and shoe factories be supplied?"

"But we are especially interested in the entry of so many new workers competing with one another for jobs which would cause a lowering in wages. I wish Mr. Hudson would give some tangible and practical suggestion as to just how the frictionless transformation of workmen, skilled in the technical details of brewing, bottling and matting over into competent and skilled shoe workers will take place.

"It is work we want, not talk from the anti-saloon league. We want steady jobs so we can provide the necessities of life and a few of the pleasures for our wives and children. We want security in our work and stability in our wages, which is just what Mr. Hudson and the Anti-Saloon League agitators are out for themselves.

"And all this destruction, turmoil, industrial revolution and war, for what purpose? The consumption of alcoholic drinks and beverages goes on just the same. Mr. Hudson and the Anti-Saloon League know that and play to that element which is dry politically only but not personally. If we were voted 'prohibition,' intoxicants would come into the State of Michigan as they do now in other so-called 'dry' states. The wrestling with the blind pig problem now going on in every, mistakenly called 'dry' county in Michigan, would simply be made a state-wide problem.

"Mr. Hudson need have no solicitude about our being inveigled by anyone. This remark is an insult to the intelligence and independence of the Michigan Federation of Labor. We have more fear of our exploitation by so-called 'efficiency' agents who are working for the same cause that the Anti-Saloon League is alleged to be receiving a share of its support from. We look upon the concerns who are overplaying the 'efficiency' game as our only real and dangerous exploiters. We laborers have taken this stand against state-aided prohibition to prevent the exploitation of our freedom and personal liberty and to prevent as far as possible the continuing reflections that have been cast upon labor by such talk as Mr. Hudson has indulged in."

LOAN TO ALLIES OF BIG BENEFIT

New York—The most important immediate effect of the half billion dollar loan to the allies was a very positive relief in the sterling exchange situation, which had reached a stage that was rapidly making international trading impossible. Now that exchange is nearer normal conditions, the currents of foreign trade should run with more smoothness.

The season is opening when the floodtide of exports begins. Shipments of grain, cotton and other natural products will continue to run on a heavy scale for several months to come.

Europe needs our big surplus, and fortunately we have plenty to spare. Indeed we must sell, for if our farmers do not find a good market for this surplus, the result here would be disaster and discontent. This loan is therefore, quite as much a benefit to ourselves as to the allies.

Our exports are also being stimulated as every one knows by heavy shipments of war materials; so that in view of continued small imports the outlook is for a continued huge excess of exports running at the rate of about \$100,000,000 to \$150,000,000 per month. Some experts already calculate that if the war continues, the surplus when the fiscal year ends will have reached anywhere from \$1,300,000,000 to \$1,500,000,000.

Continued small imports due to Europe's limited ability to sell, are a problem that time alone will solve.

The war has been largely, if not entirely, discounted. We are now discounting the approach of peace. Owing to the numerous cross currents in trade, it is almost impossible to predict what the ultimate effect of the war will be upon this country.

The world at large cannot benefit from wholesale destruction. Nevertheless, the United States, unhampered by the derangements and interruptions falling upon other nations, will be free to continue the natural development of its resources and to aid reconstruction abroad, which will inevitably make large demands upon American manufacturers. Undoubtedly the early future of this country promises a period of prosperity resulting from renewed internal development, as well as from a larger share in the world's trade.

Our harvest as a whole is the largest and best on record. This means continued prosperity on a large scale in the agricultural districts. The wheat crop is estimated at 1,002,290,000 bushels, or 111,000,000 bushels above the record crop of 1912. Corn is figured at 3,026,000,000 bushels, or only 93,000,000 bushels below the record. Oats are expected to reach 1,517,000,000 bushels, or 891,000,000 above last year.

These three crops show an increase of about 20 per cent over the average of the last four years upon an expansion for the year of about 6 per cent in acreage. Prices are lower, but the farmers are sure of satisfactory results, and the masses will secure cheaper food; while the railroads must benefit unusually in the carrying of crops and in the stimulus to general business they afford.

This big harvest is the best thing that has happened to the railroads in a long period, and may be of more value to them than the small concessions granted by the Interstate Commerce Commission.

The activity of the steel trade, the largest industry in the country, and the prospects of its continuance for months to come, are already matters of common knowledge.

The speculative situation has been materially improved by the setback to the war group, many of which had been advanced to hazardous figures. Liquidation waded out weak accounts and infused a desirable spirit of caution respecting this particular group.

PLAN TO DOUBLE AMERICAN NAVY IN FIVE YEARS

Washington, Oct. 14.—Fifteen to twenty fighting ships of the dreadnought and battle cruiser type, with a proportionate number of sea-going submarines, coast-submarines, scout cruisers, destroyers and auxiliaries—enough to make a new American fleet—is contemplated by Secretary Daniels for recommendation as a five-year building program for the United States navy.

President Wilson and Secretary Daniels have discussed informally the needs of the navy, and are agreed that in order to be adequately prepared for defense the present strength of the fleet must be almost doubled in the next five years, with the addition of many of the latest type of fast and powerful fighting craft.

Details as to numbers have not yet been finally worked out, but the idea of fixing ratio for a continuing program over a period of five years is the basic principle upon which the general board of the navy and Secretary Daniels now are planning their recommendations. Another conference between the president and the secretary will be held Friday, at which the total number probably will be fixed.

The five-year navy program, when completed, would add, in addition to dreadnoughts and battle cruisers, nearly a hundred submarines, about seventy destroyers and several scout cruisers and a proportionate number of fuel and hospital ships.

The total cost of the proposed program for the first year, according to present plans, is estimated at nearly \$248,000,000, or about \$100,000,000 increase over last year. Just what construction should be provided for the first year has not been determined.

Morning.

A perfume of flowers is wafted gently from the mountains. The sun is new risen and the dew still glistens on the leaves of trees and the petals of flowers. A road like a gray ribbon thrusts into the quiet mountain gorge—a stone paved road which yet looks as soft as velvet, so that one almost has a desire to stroke it.—Maxim Gorky.

Appreciation.

The curtain descended slowly. Hamlet had died a beautiful death and was being carried out shoulder high and by his loyal friends the audience sat with bated breath, impressed with the solemnity of the occasion. Not a whisper was heard and the silence was so intense you could hear the beating of your own heart. All at once a shrill whisper was heard distinctly, "My, ain't that just swell!"

THINK LEGISLATURE SHOULD MEET YEARLY

Lansing, Mich., Oct. 14.—If he returns to Lansing as a member of the legislature next year, Representative A. E. Petermann, of Calumet, will offer an amendment to the constitution providing for a session of the legislature each year.

While in Lansing today Representative Petermann discussed the plan with several friends and he has reached the conclusion that an annual assembly would cure many of the defects in the present system of law-making.

It is Representative Petermann's idea that each year following the regular session the members of the house and senate should be called to Lansing for a session of four weeks. He points out that at such times emergency bills could be put through and any of the defects in bills passed at the previous session could be remedied.

Before Petermann's plan can become operative it will be necessary for two-thirds of the members of each branch of the legislature to vote favorably on the proposition and then it must be submitted to the people and must be adopted by a majority vote.

To-Day Matinee & Night Saturday--Matinee Only

WORLD FILM CORPORATION, Presents

The Eminent Dramatic Star **GEORGE NASH**

In a 5 Part Picturization of Sutton Vane's Greatest Stage Success

"The Cotton King"

The intensely interesting portrayal of a "big man's" heroic attempt to prevent a stock market corner which threatens ruin and misery to thousands of his neighbors, interwoven with an appealing love story. An impressive blending of action and atmosphere.

PRODUCED BY WM. A. BRADY PICTURE PLAYS, Inc.

Matinee 2:30-3:30
ADMISSION: Matinee 5c.

Evening 7:15, 8:15, 9:15
EVENING 10c

People You Know; Things You Don't

Rev. C. J. Karl, of Marinette, is attending the district meeting of the Swedish Lutheran church here this week.

Miss Ruth Summerfield, of Brampton, spent Thursday shopping in this city.

Mrs. Herman Strasser, of Perkins spent Thursday visiting relatives in this city.

Miss Elsie Rouseman, of Trombley spent Thursday and Friday visiting friends in this city.

H. Cotnoir, of Bark River, transacted business in this city Thursday.

A. Upland, of this city, spent Thursday transacting business at Carney.

Kevill Murphy, of this city, left Thursday morning for Green Bay and Appleton, where he will spend a few days visiting relatives.

Atty. J. H. Primeau will return to his home in Negaunee today after transacting business in the city.

Joseph Brown and Richard Trotter, employes of the Escanaba & Lake Superior Railway, left yesterday morning for Detroit.

George Ayers motored down from Lathrop yesterday.

C. Hall, of Lake Forest, Ill., who has been in the city transacting business during the past three weeks spent Thursday at Bark River.

H. P. Lea, of Chicago, transacted business in this city Thursday.

Mr. and Mrs. H. Sidell of New York, who are the guests of their aunt, Mrs. Lawrence M. Snyder, of Gladstone, spent yesterday in the city.

Dr. A. L. Laing has left for Chicago to attend the convention of the National Association of Railway Surgeons. Dr. Laing is division surgeon for the Soo Line.

Prompt auto service is our specialty. Call us whenever you're too tired or have too far to walk. Phone 981

Miss August Pepin, of this city, left Thursday for Green Bay, where she will visit with friends for the next two weeks.

Mrs. M. LeBlanch of Perkins, who has been visiting in the city during the past two days returned to her home Thursday.

Mrs. Mary Bohmann, of Green Bay, is visiting at the home of her daughter Mrs. Chas. Folio, of this city this week.

Laura McEnroe of Ishpeming, who has been visiting at the home of Mrs. Schrader of this city, returned to her home Thursday.

Mrs. Sarah Nelson of Marquette, who was in the city as a delegate to the W. R. C. convention, returned to her home Thursday afternoon.

Mrs. A. W. Fillion, of this city, left Thursday for Brampton, where she will visit with relatives for a few days.

M. Dorin, of Toledo, O., representing the Arme Mfg. Co., transacted business in this city this week.

Chas. Duncan of New York city, representing the Colorado Iron Mining Company, transacted business in this city Thursday.

See the country either on business or pleasure in one of our new comfortable Overland cars. Our rates are exceptionally reasonable. Phone 981

Rev. Father LeGlaive, of Ishpeming, who has been in the city during the past few days, returned to Ishpeming Thursday.

W. J. Mundy of Ishpeming transacted business in the city this week.

Jos. Berino, the new manager of the L. C. S. transacted business in this city this week.

Mrs. M. Hoffman of Bark River, was in the city Thursday.

Mrs. B. L. Voberg of Dagett is visiting relatives in this city.

Mrs. J. Kosinski and daughter Eugenia, of Wilson, were in the city Thursday.

Mrs. Geo. Doser of Portland, Oregon, arrived in this city Thursday with relatives during the next three months.

Leo Vassau of this city, spent Friday with friends at Marinette.

The Misses Rachel and Beatrice Yeaden and brother Clyde of Wilson, spent Thursday with friends in this city.

Mrs. A. Lindberg, of this city, is spending a few days with friends at Bark River.

Mrs. W. J. Smith, of Wilson, spent Thursday shopping in this city.

Miss Hilda Olmsted, of Nahma, spent Thursday and Friday in this city visiting at the home of Miss Anna Plant, of this city.

Mrs. John Nelson and Mrs. C. A. Lond, of this city, left Thursday night for Chicago, where they will spend a few days.

Mr. and Mrs. G. F. Dutton of this city left Thursday for Chicago, where they will spend a few days.

Mrs. Henry Hagner of Appleton, who has been spending a few days visiting her husband in this city, returned to her home Thursday night and was accompanied by Mr. Hagner.

YOST SELECTS GRIDIRON CREW

Ann Arbor, Mich., Oct. 14.—Coach Yost selected the official Wolverine varsity squad in accordance with the time-honored Michigan custom of wooding the sheep from the goats following the first game of the season.

The announcement was lightly delayed, owing to the necessity for a faculty ruling in a couple of cases.

The Wolverine coach chose 31 men to remain under his personal direction, banishing the others to the Ferry field bus league presided over by Reserve Coach McGinnis. Of the 31, however, seven are still on trial, only an even two-dozen candidates being given seats at the training table.

The training table squad follows: Capt. Cochran, Maulbetsch, Benton, Catlett, Rastian, Dunne, Watson, Staats and Reimann, all "M" men, and Whalen, Millard, Norton, Smith, Raymond, Calvin, Johnson, Hildner, Howe, Warner, Zeiger, Sharpe, Nleman, Rehner and Roehm. The other men on the varsity squad are: Boyd, Loucks, Eberwein, Hendershot, Bixler, Ingham and Pobanz.

THINK ANTHRAX SERUM HAS SAVED MAN'S LIFE.

New York, Oct. 14.—Physicians who have been attending George F. Stackpole in his fight against anthrax, announced that the serum used by the government was slowly overcoming the disease which has threatened to choke the man to death. Physicians only fear that the poison in Mr. Stackpole's system would materially weaken his heart action, but stimulants appear to have offset this. The throat swelling has decreased and the temperature is lower.

New York, Oct. 14.—Dummy battleships have been used by the British as decoys to bring out German torpedo boats and locate land batteries along the German coast according to passengers from Glasgow arriving here on the steamship California, from Liverpool.

Several said that six dummy battleships recently returned to Glasgow from service with the British fleet. They were made by taking freight steamers and building over them false woodwork and canvas so they resembled war vessels. They are now being dismantled because the Germans discovered the ruse.

Theatrical . . . Gossip

THE DELFT

"Should A Mother Tell?" Perhaps never before had a woman been called upon to face a problem of such vital importance to herself and her dear ones as presented itself to Marie Baudin.

Faced with the tragic responsibility of choosing between her daughter's happiness and the life of an innocent man, there comes into play the world-old, primitive instinct of the mother to protect her child.

Her first wild impulse is to sacrifice all for her own. Later comes a reaction. Can she stand by and permit the blood of an innocent man to be shed?

So the cruel struggle rages within the mother's breast. Now her instinctive mother-passion is uppermost. Now her sense of right and justice.

It is a big question. Miss Nansen, in "Should A Mother Tell?" has one solution for it. You may or may not agree with it, but you certainly want to see it.

THE STRAND

George Nash is the star of the World Film offering, "The Cotton King," a photoplay based on Sutton Vane's well-known stage play of the same name.

Sutton Vane (now dead) was a British dramatist of the school who wrote thrillers that delighted lovers of strong theatrical meat on both sides of the Atlantic. He was a thorough stage craftsman—one who could build up from familiar materials a play that would hold an audience in virtue of the power of a plot and the surprising sequence of striking situations.

"The Cotton King" in the play and the film is a dominating character which, in the hands of George Nash, stands out clearly by reason of its strength and importance. Mr. Nash has had stage and film-play experience which enables him to register, with certainty, the action and the mentality of the character.

A corner in cotton is attempted by a number of unscrupulous men in the business, and John Osborne, the Cotton King, sells out and makes money. Becoming the owner of some great mills, he falls in love with one girl, and is wrongfully accused of the ruin of another. The bottom falls out of the cotton market, and this disaster breaks him financially.

A villainous rival attempts to murder the cotton king's fiancée, but she is saved. The villain is unmarked and the cotton king and his girl are married.

The producer, Oscar Eagle, has exerted himself to provide some effective settings for this powerful story, and the cast is a very strong one, George Nash finding in Julia Hay a splendidly sympathetic "opposite."

"The Cotton King" will be presented at the Strand theater today.

PREPARE TO ENFORCE GUN LICENSE LAW

Lansing, Mich., Oct. 14.—Deputy game wardens throughout the state will maintain a vigilant watch, according to the department's officials for infractions of the gun license law. Three prosecutions for violations of this law already have been made in the upper peninsula. The gun license law which went into effect August 24 makes it prohibitory for persons to hunt off their own enclosed property without first obtaining from the county clerk or other officials a license to carry a gun. The penalty for violation is a fine of not less than \$10 and not more than \$100 and a jail sentence with a maximum of 90 days.

The resident of the state are compelled to pay \$1 for a license, while non-residents are taxed \$10. All those who have not signified their intention to become citizens of the United States, are treated as non-residents and must pay \$10 for the license.

There seems to be a misunderstanding relative to the rod license. Any resident of Michigan may fish anywhere without license while non-residents must obtain a permit when fishing within the state.

Two children had croup. The two children of J. W. Nix, Cleveland, Ga., had croup. He writes "Both got so choked up they could hardly breathe. I gave them Foley's Honey and Tar and nothing else and it completely cured them." Contains no opiates. Cuts the phlegm; opens air passages. Sold everywhere.

Melting Human Fat. The only chemicals that will melt human fat are boiling gasoline and superheated alcohol; but there are practical difficulties in the way of their application during life.

KAISER WEEPS FOR THE FRENCH

Budapest, Oct. 14.—Emperor William, with tears in his eyes, is reported to have said France was the greatest disappointment in his life and that he was sincerely sorry for that country, which, he thought, was destined to ruin. The emperor is quoted as saying:

"The French method of warfare is of terrifying nature, brutal and inhuman, the details of which will only be known after the war.

"The aim of this war is that Germany, in its great unity, shall become the heart of Europe and lead in the work of civilization and humanity."

MICHIGAN WINS FROM MARIETTA

Ann Arbor, Mich., Oct. 14.—Battering football gave the University of Michigan football eleven a 28 to 6 victory over the speedy Marietta (Ohio) college team here today. Smaun, an old-fashioned play enabled the Wolverines to obtain a winning margin in the first half after which the visitors braced and gave Michigan a merry fight.

Clever forward-passing gave Marietta a touchdown in the third period. A few moments after the quarter began, a toss of forty-five yards put the ball in Michigan territory. Another toss of twenty yards to Richardson produced the score. After Maulbetsch carried the ball over for Michigan in the last period, Marietta again tried the open game, but with indifferent success. Michigan's lineup was:

Ingham, left end; Watson, left tackle; Whalen, left guard; Howe, center; Cochran, captain, right guard; Norton, right tackle; Hildner, right end; Roehm, quarter; Maulbetsch, left half; Benton, right half; Smith, full.

FORMER AUDITOR GENERAL TO WED

Eaton Rapids, Oct. 14.—Dr. J. B. Bradley, of this city, former auditor general of Michigan, who went to Howell, Monday, was united in marriage Tuesday morning at 8 o'clock, to Miss Pearl Parshall, one of Howell's prominent young women.

The marriage was solemnized at the home of the bride's father, Chester A. Parshall, a Howell business man, the ceremony being performed by Dr. E. C. Littlejohn, pastor of the Howell Methodist church. A wedding breakfast was served after the ceremony, following which Dr. Bradley and his bride started on a wedding trip that will include New York city, Boston, Washington, D. C. and Philadelphia, and after Nov. 1 they will be at home at the Dr. Bradley home on East Knight St., Eaton Rapids.

A reception will be tendered Dr. and Mrs. Bradley by their friends in this community when they return from their trip through the east.

FIND MAYOR BELL ISN'T GUILTY OF ELECTION FRAUD.

Indianapolis, Oct. 14.—Mayor Bell, who has been on trial for the last five weeks on a charge of election conspiracy, was found not guilty about 2:30 o'clock this afternoon, the jury announcing its verdict after deliberating since 10:30 o'clock this morning.

Bell was indicted June 22 with Thomas Taggart and more than 100 others.

JAPS SEND TO RUSS 20 TRAINS OF ARMS A DAY. New York, Oct. 14.—Russian has been receiving munitions of war from Japan at an average of twenty train loads a day for three months, according to Cyrus Robinson, London, a mining engineer, who arrived on the California, from Liverpool.

Mr. Robinson said he was in Petrograd for two months on government business.

PLACE EMBARGO UPON ARMS FOR GENERAL VILLA

El Paso, Tex., Oct. 14.—An embargo on the exportation of arms to any territory controlled by Villa or his associates was put into effect today.

While no direct orders were issued at El Paso, to the effect that an embargo was on, it was admitted in local official circles that no arms had been exported to Juarez since Saturday and that if an application should be made to send arms over it would be help up.

At Nogales and Douglas, Ariz., the customs collectors were not so secretive and openly admitted that an embargo was on. The searching of all transportation passing to Mexico was undertaken and several attempts to get arms over the line were frustrated at Nogales today.

Orders from the state department are said to have been sent today to American Consul Letcher at Chihuahua City, to order all Americans in this district to leave Mexico at once. In the past his instructions have been to "advise Americans to leave." Mr. Letcher himself is to come out at once.

He is the last remaining American consul in Villa territory except Consul T. D. Edwards, at Juarez.

Another appeal from the American Mormons still at the colonies in the vicinity of Casas Grandes for some means of transportation to get them out, was received here today. Others who came up last week reported that the Villa troops were killing their cattle, taking all their farm products, destroying their crops and causing general consternation.

U. S. A. AVIATOR FALLS 1,000 FEET TO HIS DEATH. San Diego, Cal., Oct. 14.—Lieutenant Walter D. Tallierro, stationed at the United States army aviation corps school, at North Island, fell 1,000 feet into San Diego bay today and was killed. His body has not yet been recovered.

Tallierro ascended from the army hangars on North Island early today and had been almost continuously in the air, when about 11:30 o'clock his machine suddenly became unmanageable and fell into San Diego bay about a quarter of a mile from shore.

Are Young People as Nice to Live With as They Used to Be? In the November Woman's Home Companion Kathleen Norris writes an interview with Margaret Deland who is probably the foremost woman novelist in America. In the following extract taken from the interview Mrs. Deland comments on young people of to-day as compared with the young people of the past generation:

ASKING U.S. COURT TO INTERFERE IN LOANS TO ALLIES

Mutual Life Insurance company, of New York, contemplates investing \$10,000,000 of its trust funds in the Anglo-French loan of \$500,000,000, of which \$1,000,000 is to be loaned to the Mutual by the Anglo-French loan commission, J. P. Morgan individual unit, and J. P. Morgan & Co., were named as defendants.

Frank S. Monnet, former attorney general of Ohio, who prosecuted the anti-trust suits in Ohio against the Standard Oil company, is attorney for the plaintiff.

The petition, which was filed by Mrs. Walsh in person, sets forth that among the thousands of policyholders in the Mutual Life Insurance company are many persons of various nationalities, and that the investment of the trust funds of these policyholders in the Anglo-French loan would tend to produce antagonism among the policyholders, which might lead to disruption of the company thereby depreciate the value of her interest in the company.

The bill asks that the officers of the company be restrained from directly or indirectly investing its trust funds in the loan, or from investing its trust funds or suffering any of its assets to be used for the purpose of aiding the manufacture of munitions of war, aeroplanes, submarines or any naval outfit or appliances to be used by the English or French nations for belligerent purposes.

Do's and Don'ts in the World of Courtesy In the November Woman's Home Companion appears a page devoted to fifty "do's" and "don'ts" in the world of courtesy and good form. Following is an extract:

"Don't seal any social note or letter of introduction given to deliver.

"Don't invite a friend without consulting your hostess.

"Don't invite a friend visiting in town without her hostess.

"Do leave a card for the hostess when calling on a friend who is a guest.

"Don't accept any invitation, however informal, without consulting your hostess.

CHRONIC CONSTIPATION.

"About two years ago when I began using Chamberlain's Tablets I had been suffering for some time with stomach trouble and chronic constipation. My condition improved rapidly through the use of these tablets. Since taking four or five bottles of them my health has been fine," writes Mrs. John Newton, Irving, N. Y. Obtainable everywhere.

HEINZ Tomato Ketchup

Free from Salts of Soda. The relish that takes the lead over all others for use with hot or cold meats, game, fish and many other foods. It is pure—wholesome—appetizing.

Visible Hoops. The idea of overdress is favorable to volles which show the under color very prettily, and one of the new ideas which was recently exploited at a leading exhibit was materially helped by the use of voile for the outer dress.

This idea was the introduction of visible hoop skirts. The hoops were covered with ribbon and run between the outer and inner skirts.

Of course, the covering was plainly visible from the outside and it is safe that the idea will be reproduced in lingerie dresses.

Melting Human Fat. The only chemicals that will melt human fat are boiling gasoline and superheated alcohol; but there are practical difficulties in the way of their application during life.

Must Build One's Own Fortune. Men are the architects of their respective fortunes. It is the fiat of fate, from which no power of genius can absolve you. Genius, unexercised, is like the poor moth that flutters around a candle till it scorches itself to death.—William Wirt.

Necessity of Labor. Labor is not only requisite to preserve the coarser organs in a state fit for their functions, but it is equally necessary to those finer and more delicate organs on which and by which the imagination and perhaps other powers act.—Edmund Burke.

The Morning Press

Is read daily by more people than all the other newspapers in Delta County combined.

WHY?

Because

The Morning Press prints the news when it is news

Because

The Morning Press presents each morning the news of the entire previous day and previous night.

Because

The Morning Press, with its unsurpassed telegraphic service, gives each morning the complete story of the great European war, up to the early morning hours.

Because

The Morning Press guards its columns from all matter not fit to be read in the home.

Because

If its news and is right and fit to print, you see it first in The Morning Press.

Daily since the first issue of the Morning Press, its army of readers has steadily increased. Each day brings its new names to the circulation list, people who want their money's worth of newspaper.

There's a Reason

The Reason Is---The Press Itself

Subscribe for it today and join the ever growing Press army of readers.

INTEREST RATE NOT "TOO HIGH"

London, Oct. 14.—A loan bill to confirm the action of the government in raising a loan of \$500,000,000 in the United States in conjunction with France passed unanimously through all stages of the house of commons this evening. It is expected to receive the royal assent as soon as the house of lords has formally passed it.

Previous to the passage of the bill Reginald McKenna, the chancellor of the exchequer, explained the reasons for the loan and its terms.

During the debate there was some criticism of the rate of interest, which is 5 per cent. John Dillon, supporting the terms, declared the success of the loan was an index of popular sentiment in America toward the allies.

"It was a business transaction, and more than that," Mr. Dillon said, "and 7 or 8 per cent would not have succeeded in obtaining the money. If it had not been for a deep wave of sympathy in America in favor of the allies, it is, therefore, a mistake to criticize the loan, to which we are now committed, as if the people of the United States had taken advantage of our necessities."

REMOVES SHELL SPLINTER FROM BERTEBRAL CANAL

Paris, Oct. 14.—An operation, unparalleled in surgical practice, for the removal of the splinter of a shell embedded in the whole width of the vertebral canal and the suturing of the severed spinal cord, has been performed by Dr. Emil Girou.

In communicating the details of his achievement to the Academy of Medicine, Dr. Girou said he had undertaken the operation when the man apparently was dying and that it had resulted in a manner exceeding his greatest hopes. The patient, Dr. Girou said, is now able to move his legs; his sensory powers are gradually returning and the wound which ordinarily should have killed him was healing. The patient, the doctor added, is now without fever.

The Iron Review

Cleveland, O., Oct. 14.—The Iron Trade Review says:

The building of several hundred thousand portable houses of structural steel and galvanized sheets is proposed by several of the allied governments and eastern manufacturers are now considering inquiries calling for very large tonnages for this purpose. France alone plans to build 100,000 houses, requiring about a ton each, and other entente powers are expected to build a proportionate number. These buildings are to protect the front and also to provide shelter for inhabitants of territory which has been devastated by war.

The Pig Iron market has continued active in the Chicago district with prices advancing. In St. Louis, sales have aggregated about 25,000 tons, mostly steel-making irons. In Pittsburgh, buyers are showing much more interest in deliveries for the first half of next year and inquiries for about 20,000 tons of steel-making irons are pending. Low phosphorus iron is steadily advancing. A leading cast iron pipe interest has about decided not to purchase the 15,000 tons of foundry grades for which it has been inquiring, as it considers quotations too high. A widespread buying movement for delivery during the first half of 1916 may be expected in the near future.

A Canadian buyer has paid several dollars per ton for the prompt delivery of structural material and the demand in this country shows decided improvement. Railroads are buying freely. An interesting inquiry for plates is for 50,000 tons for the French government which, it is understood, are to be used in the protection of trenches. Eastern mills are overwhelmed with orders and prices are stronger throughout the country.

An eastern Pennsylvania steel company has contracted for 5,000 tons per month of Connellsville furnace coke at \$2.25. A Pittsburgh company is understood to have contracted for 18,000 tons per month for delivery throughout next year. The market for furnace coke is developing considerable strength.

Eastern Pennsylvania mills have before them from 100,000 to 150,000 tons of bars wanted for the manufacture of expanded shells and a large part of this business is about to be placed. The demand for domestic purposes is very heavy. Bar prices are firm and tending upward.

The placing of an order for 62,000 tons of rails by the Baltimore & Ohio railroad is expected to be followed by the purchase of 30,000 kegs of spikes by this company and many other railroads will probably be in the market for their requirements at a not far distant date. The Great Northern is inquiring for 30,000 tons. The Southern Pacific has placed 5,000 additional tons with the Tennessee company. The New York Central has placed an order for 1,000 additional hoppers.

DAILY LETTER

Fitzgerald, Hubbard & Co. Ishpeming, Mich. Prices were reactionary all day today and the closing shows declines of about a point from last night's figures. The market was also less active than recently and while there were no severe declines in any part of the list, the tendency was downward. Studslaker was an exception, advancing over 5 point, thought it lost a portion of its gain in the last few minutes. There was considerable activity in Greene Cananea. This issue was listed on the New York exchange this morning. There seems to be some discontent among copper shareholders on account of the delay in the declaration of the Ahmeek and Allouez dividends. As near as we can understand, the delay is due to a desire on the part of the management to await developments in the metal situation. The Lake companies realize that the consumers must have their copper and have been holding for better prices. We would not be surprised to see increases in the dividends to be declared on both Ahmeek and Allouez.

Boston Markets

Boston, Mass.—Local market was steady and strong at opening except for gyrations in TRINITY which opened off a point, dropped to 93-4. Tannack was fairly active in the coppers at 55 on rumors that the offer to be made for the property by Calumet & Hecla would be a much lower figure than had been expected. Zinc down a point and half on lower speited in London. All around coppers fractionally lower but we have confidence in the metal and think we will have higher prices.

 LOST—On Sunday pig, seal hand with purse containing small sum money. Finder return to Mrs. T. Strom or phone 477-J. 2591-286

STOP MANY MAIL FRAUDS; MILLIONS ARE DUP
 Washington, Oct. 12.—Fraudulent schemes ranging from offers of \$100,000 to girls for the use of their photo in advertising a new brand of chewing gum to the sale of finger rings supposed to cure everything from vitus dance to adenoids have given the American public of more than 225,000,000 in the last four years, according to postoffice officials. In an effort to reduce this widespread sale of mail frauds, the postoffice department has issued fifty-six fraud orders during the last year. The orders deny the persons named the use of the mails.

COURT TAKES HAND IN NEW ERA FIGHT

Lansing, Mich., Oct. 13. The supreme court has issued an order requiring Coleman C. Vaughan, secretary of state, to show cause why a writ of mandamus should not issue compelling him to put into effect the Ogg bill passed at the last session of the legislature.

When the New Era association, of Grand Rapids, availed itself of the opportunity afforded by the referendum provision of the constitution and obtained sufficient signatures to petitions to render the bill in operative until it would be submitted to a vote of the people at the general election next year, the Fraternal Voters' league appealed to the supreme court.

SAYS EGYPT NOW REAL OBJECTIVE

London, Oct. 13.—There arrived in London yesterday Miss Lorette Weir, a young American woman who has just left Berlin after studying music there for a couple of years.

"Ten days ago," she said, "400 picked men were sent toward Turkey. Their ultimate destination, so I am told, was Egypt, which they intended to seize."

Recommend Chamberlain's Cough Remedy. "Last winter I used a bottle of Chamberlain's Cough Remedy for bad bronchial cough. I felt its beneficial effect immediately and before had finished the bottle I was cured."

CONVENTION OF G.O.P. TO HAVE 988 DELEGATES

Washington, Oct. 14.—In a few days the chairman of the Republican national committee will issue a call for the quadrennial meeting in Washington to fix the place and date for the next Republican national convention to nominate candidates for the presidency and the vice-presidency.

Chicago probably will be the selection. There is no other really active contender for the honor; the Windy City has been the scene of eight of the 16 Republican national conventions held in past years.

When the committee assembles in response to the call—the meeting will take place in December—there will be additional work for the national committee in the way of ratifying the arrangement already tentatively made whereby the 1916 convention will be purged of the features to which the progressive wing of the party has taken so much objection and which led in 1912 to the Roosevelt bolt and the Bull Moose split.

Hawaii, the Philippines and Porto Rico had delegates with voting powers at the last gathering; this time these three possessions will be denied the right to vote, although being accorded delegates.

Of the 988 voting delegates in the 1916 convention, 574 will be elected at primaries. Advocates of the primary system in national convention politics are professing great satisfaction over the fact that the next Republican ticket may be chosen by primary delegates, for the 574 primary delegates will be 79 more than a majority.

TOLL OF PELLAGRA MORE THAN TYPHOID

New York, Oct. 14.—Today the insidious disease pellagra causes more deaths than typhoid fever in this country," said Dr. Manton M. Carrick, the public health expert, at the Hotel McAlpin yesterday.

In reply to an inquiry as to the estimated number of pellagra cases in the U. S., Surgeon General Rupert Blue of United States health service told Dr. Carrick there were between 25,000 and 100,000 pellagra cases.

"The disease," said Dr. Carrick, "is essentially of dietary origin, being caused either by the absence of protons or the presence of some intoxicating substance, the nature of which is still undetermined. I maintain that pellagra never develops in those who consume a mixed, well balanced and varied diet, such as that furnished to our soldiers. Observation has shown that in this country and in Italy, no man in the army, navy or marine corps has developed pellagra."

Fresh Air Is Life. No man ever successfully made love when he had a cold in the head. Also no man ever devised a great business scheme when he had asthma.

NEGLIGENCE IS NECESSARY TO GET DAMAGES

Lansing, Mich.—An opinion of the supreme court rendered today affects automobile owners throughout the state in dealing directly with the oft-occurring incident of a child suddenly running from a curb or roadside in front of a machine.

The court ruled that the mere accident itself is not proof that the driver of the car is negligent, that his negligence must be absolutely proven in order that damages may be recovered.

The case was that of Orilla Barger, a six year old child, injured on Grafton avenue, Detroit, in 1911. She was struck by the automobile owned by Edward H. Russell. A Wayne county jury gave the child through her mother, \$975 in damages, but the high court reversed this judgment and sent the case back for a new trial.

The girl, according to the testimony, came into the street from behind a grocery wagon. She was obscured to the driver until he was within twenty five feet of her. A sudden stop did not prevent the accident.

The supreme court held that the chauffeur, Edward Denemeyer, was not negligent. His car was running at eight or nine miles an hour and was under control. It was shown that he operated the car without a chauffeur's license, but the court says this makes no difference in the case as it stands.

BRITISH SPARE BOY

Washington, D. C., Oct. 14. Kenneth G. Triest, a Princeton student, who is under arrest in England on a charge of being a German spy, will escape the punishment of death. His father has expressed willingness to have him sentenced to prison, and such action will undoubtedly be taken by the British authorities.

Through the intervention of Sir Cecil Spring-Rice, British ambassador young Triest's trial has been postponed until October 18. His preliminary examination, resulting from seizure of letters in which he wrote that he had enlisted in the British navy as a wireless operator to obtain secrets for transmission to Germany, convinced the British authorities that he was a spy, though not, perhaps, in the employ of the German government.

Triest's father is a German-American. He called on the secretary of state and British ambassador last week and said the boy was mentally unbalanced.

Postponement of the trial is understood to have been granted by the British, that time might be afforded Triest's father to supply evidence to the British court martial regarding the son's mental condition. An examination of the prisoner made by experts shows that he has a quick mind, and, while perhaps unbalanced in some particulars, was sane in his purpose to help the German cause.

"Ignorance of the Law." Take an innocent little statute. One lawyer (maybe a counfey counselor) says it is dead. Another lawyer says it is alive. The poor little statute does not know whether it is coming or going, whether it is alive or dead, afoot or horseback. And yet "no man can plead ignorance of the law." A man may go to jail if he does not know the law—unless he is a lawyer. Oh, you Exact Science!—Kansas City Times.

VILLA TO FIGHT CARRANZA RULE TO LAST DITCH

Washington, Oct. 14.—The government of Bolivia, Uruguay and Guatemala remained to be heard from today in approval of the action of the United States government in refusing to recognize the Carranza government in Mexico. The other countries which participated in the Pan-American peace conference through their diplomatic representatives—Argentina, Brazil and Chile—already have sanctioned the work of the first and named governments is momentarily expected.

The next step to be taken by the United States will be determination of the form in which recognition shall be recorded. It is expected to be extended this week, possibly through formal notification to Elisse Arredondo, Carranza's official agent here. Prohibition of shipment of arms to factions opposed to Carranza's government then will follow.

Although an arms embargo will materially weaken the resources of the Villa element, M. Diaz Lombardo, foreign minister of the convention government in a formal statement given out here, announces that the struggle will be continued in Mexico. Similar advice have been received by the state department from American Consular Agent Carothers following an interview with Villa.

Recognition brings up the question of who will be sent to Mexico as the United States ambassador. It is not believed Nelson O'Shaughnessy, former secretary will be retained. Among those mentioned for the ambassadorship are Paul Fuller, Consul Silliman and Shauklni and former Gov. John Lind, of Minnesota. The latter war especially favored because he has always staunchly recommended Carranza, and it is believed, would have peculiar influence with the "first chief" in reconstruction work.

OLD 'SANTA' WILL HAVE HIS CHANCE

Washington, Oct. 13. The British embassy issued an order permitting Santa Claus to bring over 10,000,000 toys stamped "Made in Germany" to decorate American Christmas trees. A telephone message to the state department from the British embassy announced that cargoes consisting chiefly of holiday goods to the value of \$375,000 might leave Rotterdam.

It was announced also that other importers had been similarly favored, and that permits would be granted to all entitled to them as fast as possible. The state department sent the applications of several hundred American importers for the release of cargoes lying in Rotterdam and other neutral ports in Europe to the British embassy yesterday afternoon.

Goods of German origin valued at \$167,000,000 are on the Rotterdam wharves awaiting permits for shipment under the new British regulations, which allow American importers to receive merchandise contracted for and shipped prior to March 1.

...appointed to investigate the local option petitions had been ignored. Mr. Mason spent three hours in preparing an option that embodied the findings of the committee made at nearly an all night session only to learn that three members of the committee had signed another report in which no notice was taken of the definite committee findings but rather was a report which accepted the legality of the petitions and recommended that the matter be submitted to a vote of the people. The signers of that report were Supervisors F. H. Atkins, H. Halvorson and Helmer Bruce. J. P. Miller, another member of the committee presented a minority report in which he called attention to the illegal circulation of more than one petition in some of the precincts of the county and which if taken from the list would remove 986 names from consideration by the board. Supervisor Mason did not sign either petition.

Atty. T. E. Strom appeared before the board yesterday in behalf of the objectors to the petitions while Atty. A. H. Ryall and Atty. James C. Baker appeared for the drys, with Pros. Atty. Rushton serving as official advisor for the board. After a lengthy discussion of the matter and after considerable jockeying to get the matter up for a final vote, it was decided by a vote of 13 to 7 to take the final vote on the adoption of the majority report of the committee by secret ballot. Supervisors Mackilligan and Pederson were appointed as tellers and when the ballots were counted 15 had voted in favor of the report; 9 against and with one blank vote cast.

At the afternoon session the supervisors by a unanimous vote adopted a formal resolution to submit the local option question to the people at the spring election and which action closed the incident.

ALLIES ARE FIGHTING

(Continued from page one.) Commons. "At the outset we desired that the war should not spread and in common with our allies we assured Turkey that if she remained neutral Turkey nor her territory should not suffer." This situation was completely changed by the entrance of Turkey into the war.

(Special to The Press.) London, Oct. 14.—Fifty-five persons

were killed and 114 injured in the raid by German Zeppelins over London last night, according to official figures compiled by the Press Bureau tonight. Of the dead 14 were soldiers, 27 civilians, nine women and five children. The toll in casualties was the highest of any of the Zeppelin raids on England. In all the previous raids 112 persons have been killed and 322 injured. At the city meeting tonight the under government was urged to adopt aerial reprisals.

(Special to The Press.) Rome, Oct. 14.—(Special to the N. S. and London Daily Telegraph)—In well informed Italian circles it is thought that during the winter no great decisive military action can be attempted on the northern fronts. The Balkans will be the only important theater of war, therefore the Allies must follow the Austro-German example and concentrate the maximum of their efforts on the east.

ROCK PLANS A BASKET SOCIAL

Practically all arrangements are completed by the Catholic Ladies of Maple Ridge for their basket social, which is to be held at that place Friday night, Oct. 15, 1915, in Berth Bridges new hall.

Anderson's orchestra of Gladston will furnish a musical program throughout the evening. The ladies take this occasion to extend you a cordial invitation.

SUPERVISORS GET SALARIES BOOSTED.

For the first time in the history of the county, members of the county's governing body received \$4 a day for their services at the session which closed last night. At the last session of the legislature the compensation for county board members was fixed at \$4 a day and six cents a mile for all necessary travel. Under the old law the supervisors received \$3 a day and 12 cents a mile.

LIMIT LOADS ON ROADS

(Continued from page one.) line with similar action recorded in other counties of Michigan. Following is the ordinance adopted by the supervisors yesterday and which will become effective in 60 days.

AN ORDINANCE to regulate the operation and use of vehicles on the roads in the County of Delta; to provide penalties for not observing these regulations. And to provide the means of enforcing these regulations:

THE BOARD OF SUPERVISORS OF THE COUNTY OF DELTA, MICHIGAN RESOLVE:

Section 1. It shall be unlawful to move or operate any vehicle upon any county road in the county of Delta.

(a) Which weighs more than eighteen tons.

(b) Which has more than twelve tons weight on any one axle.

(c) Which has tires on any wheel less than two inches in width, when the combined weight of the vehicle and load exceeds two thousand pounds.

(d) Which has tires on any wheel less than three inches in width, when the combined weight of the vehicle and load exceeds four thousand pounds.

(e) Which has tires on any wheel less than four inches in width when the combined weight of the vehicle and load exceeds six thousand pounds.

(f) Which has tires on all wheels four inches or more in width, when the combined weight of the vehicle and load divided by the sum of the width expressed in inches of all tires, exceed five hundred pounds.

(g) Which has wheels, the tires of which are fitted with flanges, ribs, clamps, cleats, lugs or spikes. Provided, that this provision does not apply to rubber projections or pneumatic rubber tires.

(h) Or which will damage the road during a period when the road by reason of the thawing of frost, excessive rain or repairs to road in a condition to be cut up or injured by heavy hauling. Provided, That provision (h) shall not be operative until notice regarding it has been given by the Board of County Road Commissioners, which notice shall contain the words, "Heavy Hauling Prohibited," in large type, and a copy of this act shall be posted in at least five conspicuous places on roads within the

of supervisors only through a desire that the petitions should be required to comply with the law as nearly as lay in the power of the opponents to require them to do so. This position was taken with the positive knowledge that if the drys had been required to confine signatures to their petitions to qualified voters in Delta county and had not been permitted by an unfair law to take the signatures of Huns, Slavs, Poles, Russians and other foreigners, who are not citizens of this country and are not voters, it would have been impossible for them to secure the required number to appear before the board of supervisors.

Even a cursory inspection of the petitions shows score upon score of unpronounceable names, written in the handwriting of one man and bearing

only the marks of the certain non-voters.

The local option law provides that opponents to the petitions are not permitted to go back of the signatures and inquire either as to their legality or as to the voting qualifications of the signers.

The opponents to the petitions before the board at this time were satisfied to give to the drys the unreasonable privileges granted them by law and their only request was that the matter in dispute, as to the number of petitions circulated, might be submitted to the attorney general to determine finally if the petitioners had complied with every step the law required them to do. That privilege was denied the opponents to the petitions through the interposition of the prosecuting attorney's own opinion.

At the hearing before the board yesterday morning it developed that Chairman C. P. Mason's effort to prepare a report of the special committee

jurisdiction of said Board of County Road Commissioners. Provided further, that this act shall not be operative when the roads are frozen so that wheels make no impression on the surface of the roads.

Section Two. Any person, firm or corporation which moves, or causes to be moved any vehicle over or along the public highways contrary to the provision of this Resolution, is guilty of a misdemeanor for each and every time said vehicle is moved contrary to the provision of this resolution, and on conviction thereof in any court having competent jurisdiction, shall be subject, for the first offense to a fine of not less than five dollars, nor more than twenty-five dollars, or ten days imprisonment in the county jail. And for the second offense to a fine not more than fifty dollars, nor less than twenty dollars or thirty days in the county jail. And for the third or any subsequent offense, to a fine of not less than fifty dollars nor more than one hundred dollars, or ninety days in jail, or both such fine and imprisonment in the discretion of the court. Provided, that the provision of this act shall not apply to the moving of any vehicle for which a permit has been granted by the Board of County Road Commissioners of this county. Any permit so given shall state all conditions thereto; shall be in writing and shall have effect not longer than thirty days from the date when issued, and shall require the licensee to give bond to save the County harmless from any damage done by him, it, they or them to the road.

Section 3. The provision of paragraphs (f) and (g) of Section "1" shall not apply to vehicles used exclusively for agricultural purposes, or to traction engines when hauling threshing machines or other agricultural implements along the highways, or to road rollers, hauling engines or other machinery that is being used for road construction, or any engine or machine which is being run upon portable rails, planks or skids.

Section 4. No vehicle which has a combined weight of vehicle and load exceeding eight thousand pounds shall be moved or operated upon any County road in this county at a speed exceeding fifteen miles per hour.

Section 5. For the purpose of this Resolution, the term "vehicle" shall be deemed to include every motorcycle, buggy, carriage, wagon, cart, automobile, truck, traction engine, machine or other contrivance operating upon two, three or four wheels, or such contrivance equipped with a trailer, and the width of the tire will be measured as the width which actually comes in contact with the road surface.

Chairman of the Board of Supervisors of Delta County, Michigan. Certified to by Clerk of the Board of Supervisors of Delta County, Michigan. I hereby approve of the above and foregoing resolution adopted by the Board of Supervisors of Delta county, Michigan.

Governor of the State of Michigan.
