BYRNS TO BE APPRAISER

MAYOR AND COUNCIL SELECT MAN TO UNDERTAKE WORK OF DETERMINING VALUE OF WATER WORKS SYSTEM

J. E. Byrns, successful businessman and for a number of years a member of the board of public works, was last night named by Mayor B. J. Mackillikan and members of the city council, to undertake immediately the work of preparing the city's appraisal of the valuation of the property of the North Michigan Water Company in this city. Mr. Byrns will undertake the work at a cost not to exceed \$750 and his appraisal report will be submitted to the council as soon as it is completed.

Opposition to the appointment of Mr. Byrns, inspired by an individual whose name Friday night's local weekly paper, made the selection of Mr. Byrns certain at last night's session of the council, but three votes being cast against the appointment. Incidentally the interests that opposed the plan of Mayor Mackillikan and the council came in for a sharp grilling by the mayor and council members. Immediately following the appointment of Mr. Byrns as appraiser, his resignation as a member of the board of public works, was submitted to the council and was promptly accepted. The appointment of an appraiser opens the actual work of the municipality toward either the purchase of the plant of the North Michigan Water Company, or the construction of a new water works plant.

The making of the appraisal requires a statement of the approximate value at this time of all the property of the water company in this city. Mr. Byrns, as a member of the board of public works, has had a wide experience in determining pipe and machinery values that will prove of value to him in undertaking his present work. Mr. Byrns also is known as one of the most able businessmen ever to come to this city, and whose influence extends to the municipality is far more to his credit than his discredit in the opinion of those who know him best.

SWINDLER IS CAUGHT

"I was made deaf and dumb when caught in the terrible crash on the steamer Eastland, when that boat sank in the Chicago river. I am trying to secure funds for medical treatment. Please help me."

This printed on a card and landed about the city supplied Gust Anderson an able bodied woodsman, with cash for several days. In spite of the fact that he probably never saw the Eastland, or the Chicago river, he demonstrated that he could curse volubly and noisily when his clever ruse was discovered by the police and he was placed under arrest. In Anderson's pocket a long list of the names of his victims and the amounts given by them, was found, demonstrating that he found the "Eastland victim" ruse, a money-getting proposition. He was arraigned before Judge Emil Glaser yesterday afternoon on a charge of obtaining money under false pretenses and was bound over to the circuit court for trial.

KNUTSEN WINS SECOND TIME

For the second time this season John Knutsen, of the Home Electric Company has been awarded a prize in a window display contest. Yesterday Mr. Knutsen received a check for \$25 as second prize in the Western Electric Company's "fan window" contest that was held in August. The contest was nation wide in its scope and the display prepared at the Electric building was selected by the judges as the next to the best in the United States. In May Mr. Knutsen was awarded \$5 as second prize in a "Hot-Point" window display.

Mrs. M. Bear, of Maple Ridge, spent Friday shopping in this city.

GIRLS LEAGUE HELD FIRST MEET

Tuesday the first regular meeting of the Girls League of the Escanaba High School met under the new officers for the year. The officers elected a few days ago are as follows: Pres., Margaret Riley; First Vice-Pres., Leta Shaw; Second Vice-Pres., Mary Nee; Third Vice-Pres., Nina Vestina; Sec. Helen Starrine; Treas., Grace Folio; Advisory Board, Miss Fenton and Miss Henry.

STARS MEET SECOND TEAM

Local football interest will be centered at South Park this afternoon when a team of the Escanaba high school faculty will meet the second high squad. The second team has demonstrated unusual strength in the past week and against the faculty-all star aggregation today, will be certain of a stiff battle. The high school faculty squad is packed for the game against the second stringers with such stars as Leell, Moats and former high school players together with some of the members of the first team. The faculty team will be lined up as follows: Leell, right end; Hett, right tackle; Lambert, right guard; Leach, center; Bailey, left guard; Bacl, left tackle; Lambert, left end; Davidson, quarter; Houghitt, right half; Moats, left half and Hutto, full back.

MAN WAS INJURED

While at work in the yards of the Escanaba & Lake Superior railway at W.E.s. shortly before noon yesterday, Edward Pinter, received injuries that will cause his confinement to St. Francis hospital for some time. Mr. Pinter, who is a conductor, was sorting cars when he was caught and badly crushed about the chest. Several ribs were broken and the broken end of one rib pierced the lung. Dr. A. S. Kitchen, the company's surgeon, rushed to the scene immediately after the accident and the patient was taken to St. Francis hospital. Last night it was announced that while Pinter's condition was serious it is believed that he will recover unless unexpected complications develop.

A PROTEST MADE BY BUSINESSMAN

The following communication was yesterday received by the Press from a businessman of the city:

Do We Get What We Pay For? We have finished, for the third morning in succession, cleaning off the tallow, soap, or whatever it may be, that has been smeared on by young vandals who are allowed to roam the streets nights and disfigure the store fronts of business men, who are spending much time and money decorating their windows in an effort to make them attractive.

We have a regularly constituted police force whose business it is to preserve the peace and protect property in our city but we never hear of any of these young rowdies being called to account for any of these depredations that cost busy business men so much money, work and worry. If a businessman should catch one of these boys in the act of smearing up his windows and should box his ears for it, he would be lalled into court and fined or imprisoned for assault and battery and yet the police are either unable or unwilling to give us any relief. If they would catch a few of these boys and make their parents pay a stiff fine they could put a stop to it. I make this protest, not in the spirit of finding fault, but I feel I am expressing the honest conviction of most of the business men of the city, that we are not getting the service from the police department that we are entitled to.

A BUSINESSMAN.

AMENDMENT IS ADOPTED

COUNCIL TAKES FINAL STEP TO ALLOW PEOPLE TO AMEND CHARTER FOR PURCHASE OF WATER PLANT

Members of the city council last night took final action looking to the amendment of the municipal charter to allow the issuing of bonds either for the purchase of a waterworks plant or the construction of a new plant. The amendment will be submitted to a vote of the people after it has been formally passed upon by the governor and which step is now to be taken.

To provide for the construction of the long awaited and much discussed Delta avenue sewer members of the council last night instructed the board of public works to prepare plans and specifications and estimates to cost for a sewer, beginning at S second street and Delta avenue and running south-west on Delta avenue to Seventh street and west on Seventh to Norris where it will connect with the main trunk line sewer.

Moore & Matthews in a communication sent to the council last night gave formal permission for the extending of the trunk line sewer through property owned by them in the western part of the city.

WILL OPEN NEW STORE

To take class as one of the most magnificent stores of its kind in the northwest, is the new jewelry shop to be thrown open to the public at 9 o'clock this morning in the Delft block, by Blomstrom & Petersen. The work of preparing the new quarters has been in progress for several weeks and the members of the firm can well take pride today in welcoming patrons and friends to their new business home. The store has been fitted out with new furnishings throughout. All of the furnishings are of mahogany, set with mother of pearl and constructed in a design that is most attractive. The wall cases are built with hohlum effects, with miniature alcoves at state intervals. An immense horseshoe show case occupies the center of the salesroom, giving free access to the glass enclosed wall cases. To the right of the entrance is arranged a small rest room while to the left is located the firm's watch repairing department. Office quarters are provided to the right of the rear while spacious workrooms take up the entire back portion of the building. In addition to the lights arranged in the wall cases, at their summit are mounted vari-colored, indirect lighting globes. The main lighting system is of the indirect type, immense bowls, hung in fixtures of gold, giving a most pleasing effect. Opportunity is given to provide a wonderfully good display of the stock in the center and side cases and it was not until late last night that the work of placing the stock in position, was completed.

The store is one that would be a credit to any large city and is truly a notable addition to Escanaba's list of modern stores.

CARD PARTY BIG SUCCESS

One of the most successful card parties ever arranged in this city was that given by the women of St. Anne's church at St. Anne's hall on Thursday evening. The hall was packed to overflowing with patrons and every feature of the program planned for the evening was carried out without a hitch. The musical program was particularly enjoyable. The numbers included in the program and each of which was most delightfully rendered were as follows: Duet, the Misses Anna and Florence Mulvaney; violin, William Peterson; vocal solo, Louis Trotter. The prize winners in the card contest were as follows: Mrs. Oliver Beauchamp, A. Gabourie, Mrs. F. Beaudoin and Mr. Lalonde. Peter Genesse, of this city, left Friday evening for a short business trip to Chicago.

SORROWING PEOPLE ATTEND FUNERAL

A large number of sorrowing people yesterday morning attended the funeral of Peter Sullivan, pioneer of Escanaba at St. Patrick's church, at 9 o'clock. Following the impressive services the body was escorted to St. Joseph's cemetery. A large number of relatives and friends from outside the city attended the funeral together with a host of people who had known Mr. Sullivan through the half century of years that he had made this city his home.

FIND WOMAN UNCONSCIOUS

After lying helpless in her home, at the rear of 1011 Escanaba avenue, probably since Thursday morning, Mrs. Caroline Schondlund, a widow, was found near the point of death by the police last night. Neighbors took her to the home of the aged woman on Thursday morning and she appeared then to be in her usual health. Yesterday morning efforts by neighbors to enter the house were futile and it was thought that she was sleeping. No particular attention was paid to the matter until early last evening when the neighbors notified the police. Officer E. J. Brunelle went to the house with Officer Elmer Swanson and after removing an outer door from its hinges, gained access Mrs. Schondlund was found lying, partly conscious, on the floor in one corner of her bed room. There had been no fire in the house for some time and the aged woman was but scantily clad. Dr. A. J. Carlson, health commissioner was called and he immediately ordered the patient taken to St. Francis hospital.

YANKS WILL JOIN ALLIES

Ottawa, Oct. 22.—Sir Hughes tonight sanctioned the formation of a battalion to be composed entirely of citizens of the United States who have settled in Canada. Repeated requests had come to him to allow this. "Many brilliant deeds have been done at the front by former citizens of the United States," said the Minister of Militia, "but now for the first time a battalion of their own will be formed. Judging by offers reaching me it will be a crack battalion."

FOUNDLING MADE HEIR

New York, Oct. 22.—Detective Hampton Silcox of Philadelphia, today related a nation-wide search made by him at the instigation of Finley Jay Shepard husband of Helen Gould, for the paragon of a foundling picked up on the steps of St. Patrick's Cathedral and yesterday legally adopted by Mr. and Mrs. Shepard. Unlimited funds were at his disposal but no trace of the boy, now presumably heir to \$20,000,000, could be found. "That boy simply dropped from the clouds," Silcox declared. "But his tattered clothing could not hide the fact of his refinement. I believe they were put on him to conceal his true identity." Mr. Shepard, who has named the boy Finley Jay Shepard, Jr., doesn't know who he was or if he does, he steadily refuses to tell.

CARD OF THANKS

We wish to extend our sincere thanks to our relatives and friends who so kindly aided us during the illness and at the time of the death of our beloved husband and father. We feel that his suffering in the final hours was relieved by the knowledge of the kindly sympathy, and interest held by all, and to all who in any way aided by word or deed, we will ever be thankful. (Signed) Mrs. M. Priestor and family.

VILLA GETS MORE FUNDS

PRESIDENT WILSON TAKES ACTION TO HALT ATTEMPT TO AID MEXICAN FACTION LEADER

(Special to The Press) Washington, D. C., Oct. 23.—Attorney General Gregory informed President Wilson today, that the Villa junta, here and in New York had obtained funds to finance another revolution in Mexico. The informant was obtained by special agents of the government, who watched every move made by the representatives of the Northern leader. The result was an order sending the twenty-eighth infantry to the border to aid in making effective the embargo against arms. In addition to the troops the President ordered an additional corps of the department of justice agents to be sent to the border to investigate. It will be the chief duty of these men to report whether or not it is possible for General Panston's men to prevent filibustering operations. Gen. Panston's last report to the war department tells that the members of the most recent raiding bands, wore uniforms of both the Carranza and Villa armies.

TO TEST OUT FIRE TRUCK

Members of the Escanaba city council, in a body on Sunday afternoon, at 2 o'clock, will witness a complete demonstration of the city's new automobile fire truck. Members of the council last night in an informal discussion of the matter of accepting the truck, expressed the belief that the truck will do all that is claimed for it and additions who have had individual demonstrations of its operation, were unanimous in the assertion that the machine is fully up to the specifications and will accomplish for the city all that any truck could be expected to do. Mayor Mackillikan last night appointed Oscar Proen, as driver No. 1 of the truck with John Carlson, John O'Donnell and Arvid Johnson, as auxiliary drivers. The expert, who accompanied the truck here, will first test each of the four men named by the mayor and confirmed by the aldermen. In the operation of the machine that an experienced driver may at all times be on hand in the department.

DIED LIKE A HEROINE

(Special to The Press) London, Oct. 23.—The foreign office made public tonight the report made by Rev. H. S. T. Ghan, British chaplain in Brussels, on his last interview with Miss Edith Cavell just before her execution. "Miss Cavell was perfect in calm and resigned," he said. "We partook of Holy Communion together and she received the general message of consolation with all her heart. At the close of the service she joined me in singing 'Aldie with Me'." "When I left she smiled and said, 'We shall meet again'."

CHILD DIES AFTER BUT SHORT ILLNESS

After being ill for but a week Viola Gardner, four and a half year old daughter of Mr. and Mrs. Joseph Gardner, of Danforth, passed away at the home of the family on Thursday night. The child's condition was not more hit than the winners but when complications developed all efforts to save the life were futile. Funeral services will be conducted over the body at the Holy Family church, of Flat Rock, at 3 o'clock this afternoon. Rev. Father Beauchamp officiating.

HALLOWE'EN PARTY AT FLAT ROCK

It is expected that a large number of pleasure seekers of the city will attend the Halloween ball to be given at the new grange hall at Flat Rock on Friday evening of next week. De-morest's orchestra will furnish the musical program for the evening and everything possible will be accomplished to make the event an enjoyable one for all who attend.

GREAT GAME STAGED TODAY

An Arbor, Mich., Oct. 22.—Tomorrow, the Michigan state university title is to be settled so far as the gridiron sport is concerned when the Wolverines from the state university and the Aggies from the state college clash in their annual gridiron battle. Interest in this yearly clash has never before been at such a high pitch, and it is safe to say that 13,000 people will be in attendance when the referee's whistle starts the clash. Yost has been working hard all week in preparation for this game. The same holds true for the activities in the Aggie camp at East Lansing. The Wolverines will go into this game on Saturday with more plays in their repertoire than they have ever before possessed in a tilt with the Farmjags, and it is safe to say that the Michigan coaches will have but few excuses to offer if the victory goes to the Ann Arbor enemies.

Injuries have played havoc with the practice drills on Ferry Field. There is hardly a player in the Michigan camp who is now not on the hospital list for some hurt or other. Smith Calvin, Maubetich and Raymond of the backfield are not in the best of condition. Catlett is far from form on the line the ends are weaker than ever before because of bad ankles. Eugene Stratz and Benton are all more or less banged up. Rejman of the tackles has not yet been in a scrimmage. Millard reported less than a week ago.

These are the men whom Yost must stand against the conditioned Aggies. Mackillikan has been pointing his players for this game alone, while Yost is forced to save his players for the more important games with the eastern universities, still on the Michigan schedule.

MRS C. C. FLINT HAS PASSED AWAY

Word was received in the city yesterday of the death at Rock Island, Ill., of Mrs. C. C. Flint, formerly of this city. A week ago Mrs. Flint suffered from a paralytic shock and from which she could not rally, death coming at the home of the family yesterday morning. Mrs. Flint was about 55 years of age and is survived by her husband and two sons. One son resides in Monominee and the other at Green Bay. Arrangements that have been made for the funeral have not been received in this city. Mrs. and Mr. Flint made their home in Escanaba for a number of years, leaving here less than two years ago, in the hope that Mrs. Flint's health would be benefited by a change in climate. Apparently she had enjoyed excellent health until a week ago, when the sudden shock came and death followed within a few days. Mrs. Flint numbered her friends by the score in this city and the announcement of her death is received here with the deepest regret.

TACOMA LEADS FOR A TITLE

(Special to The Press) San Francisco, Cal., Oct. 22.—The South Tacoma Tigers won the first of a three game series from the Cleveland White Autos for the amateur championship of the United States today 3 to 2. The Cleveland team made one more hit than the winners but Eley, the Tacoma southpaw, had their number in the pinches and pitched a heady game. Crowley was also in fine form for Cleveland, striking out eight men but hits made off him were timely.

KING GEORGE MAKES APPEAL

HEAD OF ENGLISH GOVERNMENT ASKS FOR UNITED SUPPORT AND MORE MEN, ALLIED SHIPS SHALL BELIEG GARIA

(Special to The Press) London, Oct. 23.—King George last night issued an appeal as follows: "To my people: At this grave moment in the struggle between my people and a highly organized enemy, who has transgressed the laws of nations and changed the ordinance that binds civilized Europe together, I appeal to you."

"I rejoice in my empire's effort. I feel pride in the voluntary response from my subjects all over the world who have sacrificed home, fortune and life itself, in order that another may not inherit the free empire which the ancestors of mine built."

"I ask you to make good these sacrifices. The end is not in sight. More men, and yet more are wanted to keep my armies in the field and through them to secure victory and enduring peace."

"In ancient days the darkest moment ever produced in the men of our race the sternest resolve. I ask you men of all classes to come forward voluntarily and take your share in the fight."

(Signed) "GEORGE, R. I."

(Special to The Press) Athens, Oct. 22.—It was officially announced here this evening that the bombardment of the Bulgarian coast, from De-devatch to Port Lazo, a distance of 38 miles, was commenced on Thursday by the allied fleets.

The Daily Telegraph, a source, on what it terms authoritative information that British troops have entered Serbia. Dispatches from Nish to the Serbian minister at Athens, state that a great battle is raging between the Serbians and Bulgarians at Velest, and that Turkish cavalry is taking part in the engagement. The Berlin official report today, however, states that "Bulgarian troops have occupied Kumarovo and Vles."

(Special to The Press) London, Oct. 22.—Greece has informed the entente powers that she cannot at present accept the proposals made in return for her participation in the war. These proposals include the ceding of the island of Cyprus, in Greece, as well as other territorial and financial concessions. In return for Greek military cooperation with Serbia.

(Special to The Press) London, Oct. 22.—Violent cannonading along the entire front in Belgium and northern France is reported in the Paris communique today. The French, by accurate fire succeeded in breaking up a contemplated German attack in Belgium and the French guns have mastered the Tonton batteries in the Thure district of Champagne the statement says.

ISHPEMING WILL COME

The IshpeMING bowling team will come to Escanaba tonight to clash with a local five man squad at the Deft club alleys. The IshpeMING team is touted as one of the strongest in the peninsula and the games of tonight, which will be started at 9 o'clock, will attract a great crowd of fans. The members of the local team to meet the IshpeMING bowlers tonight will be selected from the following:

Schuldes, Van de Wiele, Driscoll, Matt, Taylor or Blake.

KLUQUALLY PARTY MOST ENJOYABLE

One of the most pleasing functions of the season was the roller skating party, given by members of the Kluqually Klub at the Peterson roller rink last evening. A special musical program was provided for the evening and a select company of guests thoroughly enjoyed the plans made for the evening.

EDISON PROPOSES PLANTS FOR WAR

Chicago, Oct. 22.—"America is a country of ideas and the greatest machine nation in the world," said Thomas A. Edison, chairman of the United States naval advisory board. Mr. Edison, who with his party passed through Chicago on their way to San Francisco, gave a startling vision of the part he expects the United States to play when the nation is next called upon to defend itself.

"The best war will be a machine war—a war of brains rather than brawn," said the inventor. "It is my opinion that we should substitute machinery for men, so that the efficiency of each man in time of war could be multiplied by twenty through the use of machinery."

"The country must be prepared for the future. The two largest factors in bringing about this preparation are the newspapers and congress. The newspapers must arouse the people so that congress will act in the right direction."

Edison has opinions on preparedness, continued the inventor. "We are a nation of ideas. Many of these opinions are good. Since the formation of the advisory board, suggestions and ideas have been flooding in upon me from all walks of life. There are many good ones, among them: I was surprised to learn how many tank presidents carried in their heads ideas of marvelous improvements that could be made on aeroplanes and submarines.

"One illustration will give my opinion of preparedness better than anything else. There is a certain amount of powder that is shot up in Europe every day. None of the nations has a shell. All of them need more than that. But we know how much powder we can make."

"It would be economy for us to erect factories with a capacity for turning out only just twice as much powder as is being shot up in Europe every day. These factories would not be so big as the ones that don't turn any powder out, but just keep the factories ready to go off when it is needed."

"Instead of making the individual shells on lathes, as they are being produced in Europe today, perfect machines that will be capable of making three shells at a daily rate twice as great as all the shells that are used every day in Europe. Only don't make any shells, just keep the machinery ready to go up, so that it can be put to work any day turning out the shells. Don't start storing up steel and copper. They won't spoil. Amass a large supply of them, so that the production factories could be put to work at any time and kept going for a long time on material in hand."

"In other words, have the potentiality rather than the thing itself, to the capacity, but don't put it in use until the time arrives. I am sort of down on great military establishments with the storing up of enormous standing armies, but we do need a number of trained officers."

FORMER MARQUETTE MAN AT THE FRONT

James O'Neil, formerly of Marquette and now with the English army in Belgium, has written a letter to his sister in the Lake Superior City that gives an illuminating insight as to conditions that exist on the western battle front.

The letter is brief, and the writer makes little effort to give a detailed account of life in the trenches. However, it contains a few statements that indicate the terrible losses at the front. It is as follows:

"France or Belgium, Sept. 1, 1916.

Dear Sister Nell,

"I now take pleasure in dropping you a few lines, hoping you are all well. Life is very exciting here at times, with announcing going on all the time. Yesterday we lost nineteen men out of a company of fifty. We get five days and five nights on the firing line, and then we go back for five days rest, unless we are called upon before then. We have to sleep in the trenches with all our clothes on, and with just an overcoat to cover us."

"It is hard to tell when the war will be over. Our battalion has only a little over 300 men now, out of a full strength of 1,116 officers and men. This is the second time it has been cut up."

"We are having a rest for five days now, so there is not much news here. I hope Si and all the children are well. Hoping to hear from you soon, and with love to all, I am

"Your Brother,
"JIM."

The envelope containing the letter indicates clearly the rigid system of censoring all correspondence. On the left hand side of the envelope is the following certificate, which must be signed by the writer:

"I certify on my honor that the contents of this envelope refer to nothing but private and family matters."

This in itself, however, does not suffice to insure the delivery of the letter, as another note on the envelope states that while the contents need not be censored regimentally they are liable to examination at the base. The letter was twenty days en route, and the postage was paid at this end, as stamps are not provided for the soldiers in the trenches.

Cupid got busy with his bow and arrow yesterday with the result that four licenses to wed were issued at the office of County Clerk A. J. Pepin. Those who received the licenses were: Arthur L. Dault and Anna Turner, of Escanaba; William E. Thompson, of Fayette and Fossele O. Miller, of Parkersburg, W. Va.; Norman J. Malville and Katherine Klein, of Garden; and Carl Christensen, of Park River and Flora Casmore, of Manistique.

CUPID HAD A VERY BUSY DAY

Recommends Chamberlain's Cough Remedy.

"Last winter I used a bottle of Chamberlain's Cough Remedy for had bronchial cough. I felt its beneficial effect immediately and before had finished the bottle I was cured. I never tire of recommending this remedy to my friends," writes Mrs. William Bright, Ft. Wayne, Ind. Obtainable everywhere.

WOMEN RULE THAT BABY HAS A RIGHT TO CRY

New York, Oct. 22. Babies have a right to cry, even if they live in apartment houses and their crying is irritating to other tenants.

John J. Young, landlord of an apartment house, brought action to evict Mr. and Mrs. Lester W. Eisenberg, tenants, on the ground that their 20-months son, David, was a nuisance when he cried. The court found that the baby seemed to have a pair of leather shoes which he used frequently, and that his crying made their life unbearable.

We Confidently Expect Saturday to be the

BANNER DAY

AT THE GREAT

CLOSING OUT SALE

OF THE

**STIFF SCHEDULE
 AHEAD FOR YOST**

Ann Arbor, Oct. 22.—When the whistle blew on the Case game Saturday Michigan's early season play was brought to an end, and from now on the Wolverines can look forward to only the keenest of opposition. M. A. C., Syracuse, Cornell and Pennsylvania, will attack the Michigan eleven in the next four weeks.

Up to the present time the Wolverines have stuck to straight football, and now that the big teams are swooping down on Ann Arbor, Coach Yost will chance his tactics. During the week the squad has been drilling on forward passes, long and short. The defensive experience against Mr. Union and Marietta in this form of attack was proved beneficial.

Ever since the Michigan Aggies started practice at the lake back in September their slogan has been, "beat Michigan," and with this idea in mind they are coming to Ann Arbor next Saturday. Not the least factor against the Wolverines will be the work of Huebel at quarter for the Aggies. Huebel has had a year's training under Yost while he was in Michigan, and knows the tactics of the Wolverine mentor.

Michigan's offensive will lie mostly in the speed of her backfield. Smith is gone for a week or two. His absence at full probably will result in shifting Benton to that post. Benton's end runs have rivaled Catlett's work in that line this year, and Catlett is the best exponent of the end run that Michigan has seen for years.

Mauetsch has a distinct ability to get there on time, and with these three men to carry the ball Michigan will have to rely less on open tactics than is generally supposed.

With "Morrie" Dunne and Staats back in the game Yost has ends who have received forward passes for one year under his tutelage. Roehm at quarter has developed accuracy in juggling the spheroid.

SIR EDWARD CARSON SAYS BALKAN POLICY CAUSED RESIGNATION

London, Oct. 22.—Coming direct from Buckingham palace, where he landed to King George the seals of his office on his resignation from the cabinet, Sir Edward Carson appeared in the house of commons this afternoon and set at rest all conjecture regarding the reasons for his retirement.

Rising from his old seat on the front Opposition bench the former attorney general in a few words made the house conversant with the cause of the ministerial crisis, which, he said, was due entirely to the fact that he found himself in complete variance with the cabinet on questions of near eastern policy. He felt, therefore, that his presence in the cabinet would be a source of weakness and not of strength.

Sir Edward added that he never had had the slightest personal differences with any of his colleagues.

THEIR DIFFERENCES

A man makes fun of the cigars his wife buys. Yet many a woman suffers in silence while a man smokes the cigars he bought himself.—Wash. Post.

The black mourning border you seem to have received for American bankers seeking to render a disinterested service to their country by helping to keep its industries going through credits to its foreign customers.

Table with weather data: 2 a. m. 53, 12 noon 62, 4 a. m. 50, 2 p. m. 61, 6 a. m. 50, 4 p. m. 59, 8 a. m. 49, 6 p. m. 56, 10 a. m. 60, 8 p. m. 54.

Precipitation one year ago yesterday 0 inches.

If there's no championship to play for, anyway, what matters it, if we do see a game or two now and then.

A speech made by the president inspired Sousa to write a stirring march but it is to be hoped that the people are saying won't be a mistake to further the cause.

We don't just understand this thing of exchanging the exchange, but if it means taking things up so you have some thing left on the second of the month we're for it strong.

Chapman Clark says Roosevelt will be the next Republican "nominee." It's probable that events will prove that Clark should be more careful in his use of verbs.

A telephone conversation was held between the United States and European Thursday and it only got in the front pages on a par with the news of killing thousands.

BONFIRES

Autumn brings more joys than the first and flame and chrome and unbroken woods, or the hills seen blue in the distance. There is an invitation of autumn to us as well, and for our part we like to see the little fires of fallen leaves lighting up the earlier evening. We have just a hint of frost invigorates the air. There is something gay about the leafy bonfires; they seem to sing at the word that though winter comes, we'll not be mournful, but make our farewell to summer a welcome to new joys. The flames are bright and the rustling of our feet in summer's discarded glory is not melancholy. But most of all, there is the odor of the bonfire that brings memories of pleasant things long ago. Not the vivid memories of particular events, but the feeling we had then, or youth and something doing, an unconscious recollection perhaps of running from fire to fire and getting lost in the dusk and staying out later than we should. For all these things, the bonfire is a carnival to youth, and when the fires are lit once more to burn the leaves, their brightness and fragrance

'WE ARE IN A HOLE' EXCLAIMS ENGLISH MILITARY CRITIC

London, Oct. 22.—'We are in a hole,' says the military correspondent of The Evening Standard, commenting on the present situation.

'It is not the first time we have been in a hole, for it was touch and go at Cambray and Landreocles, on Aug. 26, 1914, and again in Flanders a year ago, but we did not know it then. This time we do know it.

'We have lost faith in the ability of our statesmen, in the strategic conduct of the war and in the willingness of the people to support the war. Three or four very serious questions now exercise the minds of politicians and public alike, and threaten to wreck the government.

'On the enemy's side we find unity of purpose; singleness of control and constant willingness to sacrifice everything and take all risks. The Germans have been held up here and there, but they can claim that, whereas they have never been badly beaten anywhere since the battle of the Marne, they have added Poland to their conquests and threaten to overrun Serbia.

'The writer argues that the only way for Great Britain to meet the situation is to cease attacks on her statesmen and face the facts with quiet determination, bearing in mind that if England is suffering, Germany is suffering more, and that 'on the fronts which matter most, they (the Germans) are doing no more than holding their own,' and are now unable to increase their forces in the field and soon will be unable to maintain them.

'Of the Serbian situation, the writer says: 'The question of the moment is the extent to which we can or should assist Serbia with reinforcements. Unfortunately the long southern arm of the railway crossing Serbia runs very close to the Bulgarian frontier at several places, and troops are urgently needed to protect this line throughout its length; but to do any real good we must send her at least 200,000 men. If that number is immediately available, well and good; if not, we must remember that it will take time to withdraw men from the western front and get them in action in the Balkans and therefore we may be as powerless to save Serbia as were our efforts to defend Belgium.

MARTHA WASHINGTON'S WILL IS RETURNED TO ARCHIVES IN VIRGINIA.

Fairfax Court House, Va., Oct. 22.—Martha Washington's will, which was taken from the court house here by a Union trooper during one of the battles of Bull Run, and later found its way into the collection of the late J. Pierpont Morgan, was returned to the county archives today with elaborate ceremonies.

Recently the state of Virginia sued J. P. Morgan in the supreme court of the United States to recover the historic document. Mr. Morgan suggested that it be placed in Mount Vernon, Fairfax county folks, however, claim it as part of their court records and today it was restored to its place beside the will of General Washington. The case against Mr. Morgan will be dropped.

WOMEN AND GIRLS INVITE PRESIDENT

Washington, Oct. 22.—President Wilson received a delegation of women and girls from California, who gave him a piece of gold from California mine and also a bar of gold to make a wedding ring for Mrs. Norman Galt, his fiancée.

The delegation also brought petitions signed by 300,000 Californians urging the president to visit the San Francisco exposition before it closes in December. Later the women gave to Mrs. Galt a cluster of California orange blossoms.

The president told his callers he wanted to visit the San Francisco and San Diego expositions, but had been too busy to go west. He said that he did not think he could go, but would change his plans if it were possible.

The petitions were presented by Altha McCuen, 11, schoolgirl of San Francisco, whose letter of invitation to the president was the best of those written by the grammar school children of that city.

POWDER BLAST KILLS 14 MEN IN BUTTE MINE

Butte, Mont., Oct. 22.—Fourteen men were killed at the Granite Mountain mine of the North Butte Mining company at 1:30 o'clock today by the explosion of 500 pounds of giant powder.

Eight other men, working on the surface, were seriously injured. One of them, Edward Bray, a shift boss, probably will die. The bodies recovered and identified are: James A. Blow, assistant foreman. J. D. Leahy, nipper.

John M'Cauley, rope man. John Winston, shift boss. Lacey Grisham, shift boss. Ernest Watson, shift boss. R. I. Watson, sampler. Richard Gendle, electrician. Ed. Carlson, top car man. Pat Morrissey, shift boss. William Benton, electrician. William Butcher. James Powers.

The cause of the explosion has not been determined. Three men were engaged early this afternoon in lowering powder to the 2,800 foot level. One car containing about 500 pounds of giant powder was at the collar of the shaft waiting to be lowered after which a number of bosses and miners were to go below. Five of the men were waiting in the 'dog house,' a small room near the shaft, when suddenly the explosion occurred.

John Davey, the only one of the three at the surface to survive the explosion, left the car to get a timber 100 feet back from the shaft. He was thrown to the ground by the explosion, but was not badly hurt.

The blast swept away the frame structure in which the men were waiting at the shaft, together with the air shaft beside the steel gallow's frame. Two painters were at work on this airshaft at the time of the explosion. Neither was killed, but both were injured. Many of the bodies were in fragments.

John D. Pope, general manager of the North Butte company, said tonight that he had no theory as to the cause of the explosion. 'To the best of my knowledge,' said

SENATOR CUMMINS WITH WILSON ON DIPLOMACY.

Davenport, Ia., Oct. 22.—The mid-west preparedness conference closed at noon today. Senator A. B. Cummins, Iowa, received long applause when he said:

'It has so fallen out that I have been compelled to be aligned against President Woodrow Wilson on nearly every question of domestic policy that has arisen since he has been in office, but I think that I speak for every patriotic citizen, as I know I speak for myself, when I say that the nation is to a man behind our chief executive in his policy with regard to the warring nations of Europe.'

John D. Pope, general manager of the North Butte company, said tonight that he had no theory as to the cause of the explosion. 'To the best of my knowledge,' said

FIND LOST BABY, UNDER HAY STACK, FAST ASLEEP. Oconomowoc, Wis., Oct. 22.—All Thursday night and yesterday 100 farmers or more, with their wives and daughters, sought George Shattler's little boy of 2, who had wandered away Thursday after being seen at play in a cornfield. Yesterday morning a young woman of the party came on the wee lad, under a haystack, fast asleep, his curls all tangled with burrs. He half-opened his eyes, stretched out his very dirty hands and murmured 'mamma.' He rode home in the young woman's arm, none the worse. And he has a new sister now, too.

Thursday Afternoon—1:30 o'clock.—"Marketing, as to Grading and Sorting Commercial Table Stock"—J. G. Milword, assistant professor of horticulture in University of Wisconsin.

2:30 o'clock.—"Agricultural Possibilities of U. P."—Dean R. S. Shaw, of Michigan Agricultural college.

Thursday Evening—8 o'clock.—Annual banquet. F. H. Vandenberg, secretary of Marquette County Potato Growers' association, toastmaster.

Friday Morning, Oct. 29.—9 o'clock.—Reports of placing awards.

9:30 o'clock.—"Serious Potato Diseases in U. P."—Prof. G. H. Coombs, professor of plant pathology in M. A. C.

10:30 o'clock.—Discussing of potato marketing by dealers and growers led by J. G. Milword.

Friday Afternoon—1:30 o'clock.—Meeting of Marquette County Potato Growers' Association, open to the public. Addresses by W. S. Ewing, president of the association, and discussion of work by potato associations led by C. W. Ward and J. Wade Weston.

All meeting will be held in Guild hall and all will be open to the public. The committee urges every citizen of Marquette and of Marquette county to attend the exhibition, which will be the largest of its kind ever held in the Upper Peninsula, and to hear the addresses by the noted authorities on agriculture and potato growing who are included in the program.

You make no mistake when you get your job printing at the Morning Press. Nothing but first class work.

WAR LOANS SAFE IF WIN OR LOSE

Berlin—Assurances that subscriptions to the German war loan are safe no matter what the outcome of the war may be, are given by The Cologne Gazette, which appeals to the people to support the loan. It says:

"There is no need for anybody to be anxious about his money in the event of Germany losing the war.

"In the first place, it is no longer possible for us to lose the war, because our enemies will never succeed in taking away from us what we have already conquered in one year in Belgium, France and Russia. The only question must be how great our gains will be in the end, and whether or not our enemies will have to make good to us the whole of the enormous war cost, as we will and must compel them to do.

"Secondly, even if Germany did not achieve this aim—yes, even if, to make for once an assumption which is unthinkable, Germany lost the war, it would not become bankrupt; and even in this quite improbable event it undoubtedly would pay the interest on the money loaned in the hour of need, and first of all on the savings of the workmen; Germany would pay off the loan little by little.

The guarantee for this is our reichstag, in which the whole German people has a voice, and Germany's ability to bear taxation is in any case great enough to cover the interest on the war loans. So let there be no anxiety."

You are invited to attend the opening of the new Jewelry Store of Blomstrom & Petersen at 911 Ludington Street on Saturday, October 23rd, 1915

MUCH RED TAPE FOR AUTO OWNERS
Secretary of State Vaughn is sending out a letter of instruction accompanied by an application for motor vehicle licenses under the new law which takes effect January 1. A copy of the new law is also enclosed and all present automobile owners of record will receive a copy of the application and law.
By this method applicants for licenses under the new law can send in their applications after November 1 and licenses will be issued and assigned consecutively in order of receipt of application, thus avoiding confusion at the first of the year. Plates will be mailed before January 1 to all who have made application by mail or appeared at the Lansing or Detroit offices.
Under the new law gasoline and steam automobiles are taxed at the rate of 25 cents per horse power and in addition are required to pay at the rate of 25 cents per hundred-weight. Electric cars are taxed \$1 per horse

power and the additional 25 cents per hundred-weight.
Numerous questions are to be answered by the applicant and sworn to before a notary public. For its own protection the state department requires the answering of numerous questions so as to make a comparison with previous licenses issued and ascertain whether the applicant is telling the truth about his or her car.
For instance, here are some of the questions to be answered, which must be sworn to: Name of manufacturer, trade name of vehicle, style of body, kind of motor power, serial factory number, 1915 registration number, year vehicle made, weight given by manufacturer as shipping weight fully equipped or weight as shown on standard scale, manufacturer's rating of horse power.
Omit Egg Yolk When Billious.
People who suffer from biliousness will find that the elimination of the egg yolk from the usual breakfast dish will help relieve this trouble. Have the eggs cooked medium soft and have the yolk removed before serving. The whites contain all the essential tissue-building qualities and are more easily digested.

The Power behind the dough

You may use an old favorite recipe and the best of materials and make it carefully, the oven may be just right, but you will have a failure if "The Power behind the Dough" is not the right one to leave it properly and make it light, digestible, wholesome.

Good baking without good baking powder is one of the questions. K.C. Baking Powder has wonderful leavening power, and the double action—in the bowl and in the oven—makes good results doubly certain.

Take no chances of failure—use K.C. and have "good luck" every time. At all Grocers.

MUCH WANTED MAN IS JAILED

Grand Haven, Mich., Oct. 22.—John Hayes, alias Welch, wanted on sufficient charges in four states to keep him behind prison bars during three natural lifetimes, has been brought here from Stockwood, Ill., by Deputy Sheriff Fortney on an immediate charge of having obtained money under false pretenses in Cooper'sville last July.

Hayes had demanded requisition proceedings. When the Illinois authorities informed the Ottawa sheriff's department that Hayes was arrested and held here, there were endless requests for the man all over the state of Michigan, Indiana, Ohio, Wisconsin and Illinois. Hayes at first said he would return without requisition, then changed his mind when Special Officer Bishop arrived to take him.

When brought through Chicago he made every effort to escape from Deputy Fortney through various schemes. Once he tried to get the police to take him in a saloon and another time he wanted to telegraph a man in an Indiana town to get out habeas corpus writ, which would get him off the train when they passed through later. But these things failed the much-wanted man.

FORD INVENTION TO CHEAPEN ALL MAKING OF STEEL

Detroit, Oct. 22.—The Ford Motor company today announced a new discovery in metallurgy of great importance to the iron and steel industries of the United States. Hereafter the iron ore consumed at the Ford plant, from 700 to 1,000 tons a day, will go into the blast furnaces in its raw state and be refined by one "heat" into both pure gray iron and malleable iron. On Mr. Ford's return from California his associates said today, he would give his secret to the world free of all royalties.

From the time the crude ore enters the furnace until it is turned out in the form of completely milled parts for motor cars it will not be allowed to cool. One process, instead of two or more, accomplishes this result. For experiments, which have been going on under the personal direction of Mr. Ford, a big steel plant in Detroit was commandeered, with its working force, so that the daily production schedule of the Ford plant might not be disturbed. The new discovery it is asserted will save the Ford Motor company \$3,000,000 a year.

Charles A. Brownell, one of the officials of the Ford company, tonight issued the following statement regarding the discovery:

"Today the Ford Motor company announces that the making of gray iron and malleable iron direct from the initial heat of the blast furnace has been accomplished. The elements while still in a molten state are changed and refined into molds for gray or malleable castings as the case may be. This has worked out to an actual fact and work produced. What seemed to be an impossibility has been accomplished."

General von Blissing issued a long proclamation containing references to "attempts by Belgians to endanger the safety of the German army," and threatening penalties of the utmost severity against any person detected committing offenses against the specially devised code of regulations for the conduct of civilians.

SEVEREST OF PENALTIES. London, Oct. 22.—Recently there has been a sweeping roundup of spies and suspects of various kinds by the German authorities in Belgium, recording to messages from the Dutch frontier. It is said there have been hundreds of arrests and scores of executions. The roundup followed the beginning of the Anglo-French activity on the western front.

WOODLAWN NEWS

R. L. Vachon former operator at Watson is relieving Miss Marion Sparks while she is confined to her bed from injuries received in an accident here a few weeks ago.

Miss Viola Quarstrom, instructor at the Hendricks school, spent Sunday in Woodlawn.

Miss Esther Quarstrom of Daggett, Michigan is visiting at the home of Mr. and Mrs. Geo. Minnie.

Miss Ruth A. Starrline instructor of the school at the Finn settlement returned to Woodlawn after spending the week end in Escanaba.

Oral T. Ferner made a business trip to Cornoll Tuesday.

Miss Clara Themel Esther Quarstrom, Messrs. Oral and Dewey Ferner and Roger L. Vachon spent Sunday evening with Mr. and Mrs. Fred Kibbusch and Miss Viola Quarstrom.

Mrs. C. W. Ferner who has been sick at the St. Francis Hospital at Escanaba for some time is able to return to her home here.

Roger L. Vachon made a short visit to Ralph Sunday.

Mrs. F. J. Truex returned from a trip to Escanaba Wednesday.

Harvey Kivi who has been employed at Escanaba returned to his home here Wednesday.

Mrs. George Minnie is on the sick list.

Miss Clara Themel is some hunter hunted a week and got one bird, but thinks she could have done better if a red fox hadn't chased her home.

The Ladies Aid met at Mrs. George Graves' Tuesday afternoon.

Reports state that Miss Marion Sparks is rapidly recovering from the injuries sustained in an accident a while ago.

GERMANS AFTER SPIES IN BELGIUM, IMPOSING

General von Blissing issued a long proclamation containing references to "attempts by Belgians to endanger the safety of the German army," and threatening penalties of the utmost severity against any person detected committing offenses against the specially devised code of regulations for the conduct of civilians.

SEVEREST OF PENALTIES. London, Oct. 22.—Recently there has been a sweeping roundup of spies and suspects of various kinds by the German authorities in Belgium, recording to messages from the Dutch frontier. It is said there have been hundreds of arrests and scores of executions. The roundup followed the beginning of the Anglo-French activity on the western front.

HOW TO BE EFFICIENT.

Nothing saps the vitality like kidney trouble. It causes backache, head ache, stiff joints, sore muscles, "all ways tired" feeling, rheumatism and other ills. To be efficient, you must be healthy. Foley Kidney Pills strengthen the kidneys, help them do their work of filtering out from their system the waste matter that causes the trouble. Sold everywhere.

ORDINANCE NO. 225.

An Ordinance to regulate and control the construction of house sewer connections and house drainage.

The City of Escanaba ordains:

Section 1. House drainage, and the construction of all house sewer connections; and all sewers, drains, vaults, urinals, and all sewer gas waste and grease traps in and about houses, buildings and premises in this city, shall be under the supervision and directing control of the City Engineer. No sewer, drain, vault or urinal; and no sewer gas, waste or grease traps in or about any house, building or premises in the city, shall be connected with any public sewer, without a permit thereof in writing, issued by the city Engineer who is hereby authorized to issue permits therefor, conditioned that such work shall in all respects conform to the requirements of the ordinances of this city, and the directions of said City Engineer.

Sec. 2. Permits shall be taken out in each special case in the name of the owner, agent or person in whose interest the work is to be done, before the work is commenced, and in no case shall such work be commenced or prosecuted unless such permit is on the grounds and in possession of the person using the work. Each permit shall designate the street number of the house and sublot, and shall include such definite description of the premises as to clearly define the location of the same, upon the map.

Sec. 3. All houses, buildings and premises in this city which are, or which are declared by either the Common Council, the Health Officer or the sewer committee, to be so situated in relation to any public sewer as to necessitate sewer or drainage connection of the same practicable, shall as soon as practicable, and within thirty days after notice thereof given to the owner or his agent, be caused by such owner or agent to be properly provided with sewer and drainage connection with such public sewer.

Such notice may be given personally or by publication once in each week for three successive weeks, in a newspaper published in this city. Upon the expiration of thirty days after the giving of any such notice, it shall be unlawful for any person having knowledge of the giving of such notice, or of such declaration by the Common Council, health officer or sewer committee, to maintain or use upon any premises in respect to which such declaration is made or notice given, any water closet, privy, cess-pool or urinal, which is not properly connected with a public sewer.

Sec. 4. All sewer connection with a main or branch sewer, shall be made at the regular connections or junctions built in the same, except by special permission of the common council or the City Engineer. All branches shall be made with slant or "Y" junctions; and in no case shall square or straight junctions be used, nor shall openings be cut or broken into the sewer for the purpose of making such connections; but in all cases where connections are to be made where no junction has been provided a length of pipe shall be removed and a piece inserted, with the proper junction upon it. The junctions not intended for immediate use shall have their ends closed water tight, with brick or stone and cement.

All cess-pools, vaults and other like receptacles for sewer drainage now constructed, and those which may hereafter be constructed upon streets where no proper sewerage is provided, shall be under the care and control of the health officer, and shall be constructed, ventilated and emptied as he shall direct.

Sec. 5. On and after the passage of this ordinance, no sewer drain or waste pipe from any buildings or premises shall be discharged into any cess-pool, vault or other like receptacle, where such building or premises is provided with proper sewerage accommodations with which the same can be connected, and if at any future time such premises are provided with proper sewerage accommodations, the turner use of such cess-pools, vaults, etc., shall be discontinued, and the proper sewers and drains constructed whenever the health officer shall deem the public health demands it. It shall be unlawful for any person or persons to maintain or use upon any premises in the city where there is a public sewer and water main or service pipe available for the use of such premises any system or means of disposal of sewage in any building or premises connected with such sewer and water main.

Sec. 7. Every person violating any of the provisions of this ordinance, or disobeying or neglecting to comply with any lawful direction given under this ordinance by any officer of said city, shall upon conviction thereof before any court of competent jurisdiction, be punished by a fine of not less than Five dollars, nor more than One Hundred dollars, or by imprisonment in the City or County Jail not more than thirty days, or both, such imprisonment and fine in the discretion of said court.

Sec. 8. This ordinance shall take effect twenty days from and after the date of its passage.

Conserving Force.

SMALL BUT BUSY SPOT IS ALLIES' PART OF BELGIUM

Dunkirk, France, Oct. 22.—On the map of Europe the portion of Belgium that remains to the allies is not large, but now it is such a busy part of the world that one who whirrs through it for several days in a military motor car, as an Associated Press correspondent is now doing, is likely to think that it is a very large part of Europe, the villages are so full of French, Belgian and British soldiers, there are so many camps, hospitals and bases of one sort or another—here a aviation camp, there an ambulance station and so on—that to visit the country is to realize the many sided activities of warfare as one perhaps could not realize them in any other way. For one man in the trenches there seem to be 50 carrying supplies, and ammunition, building roads, repairing bridges, stringing telephone wires and constructing barbed-wire entanglements. This trip comprised almost two hundred miles of travel in what may be roughly described as a triangle with Nieport, Dunkirk and Ypres at the three corners. "I don't suppose we can go into Ypres," asked the correspondent. "You would be a fool to try and you would be a dead man if you got there," was the chauffeur's answer. Between Dunkirk and Ypres one can find all grades of demitition. What happened to Dunkirk by the action of a Krup gun over twenty miles away almost everybody in the world knows now. But what happened to that gun it would be of greater interest to know and neither the French nor the Germans are saying anything about it. But the people of Dunkirk know that it has not been in action for two months. As one travels inland from Dunkirk towards the southeast through Bergues he can readily appreciate why France, Holland and England are full of refugees wearing their hearts out with thoughts of their demitished homes, for there are to be seen little villages with not a building inhabited, hardly one unmarked by shell fire. Handsome sixteenth century facades, modest brick structures, artistic little churches have all gone into war's melting pot. The streets are as devastated as the sections of San Francisco or Baltimore after their conflagrations. The French are holding the dunes along the coast, then come the Belgians, then more French, then the English, then still more French, then the English again, and finally the long line of French reaching to Switzerland. It is not often pointed out that the French are sandwiched in between their allies in this fashion. Stopping before a 105m. gun, cleverly concealed in a grove, a gun which had been silent but a few moments and was "doing its bits" in an artillery action, sprading over one hundred miles, a correspondent asked Lieutenant in charge when he intended to fire again. "Whenever they telephone us," was the reply. "We have fired only twice this morning." When the line of action is as long as the route from New York to Philadelphia, each gun has an easy time of it and there is plenty of time for conversation. Indeed, when the correspondent approached the group they were laughing at a story of the lieutenant. He was telling them of a devoted orderly. The lieutenant had been sent to the hospital, "but my orderly would not let me." "Have any shells burst around here yet?" "Not very near, this big gun is pretty well concealed and if the enemy's aviators see it we can easily move it." "You can't see any Germans from here, can you?"

Perkins News

Charles Nordstrom made a business trip to Escanaba Monday. Jim Lanour went to Escanaba Monday. Joe Sayen of Rock was in town Monday. Miss Irene Lanour went to Escanaba Saturday. Don't forget the dance at Sovla's hall Friday evening, October 22. Miss Agnes Carlsson went to Escanaba Saturday. Emer Dugas of Detroit is visiting friends here. John Gustafson drove to Gladstone Friday. J. Miller of Gladstone was in town on business Monday. Miss Hiljan Carlsson is visiting friends in Escanaba this week. Fred Krason of St. Nicholas was in town Monday. The P. S. C. club will meet at the home of Irene Lanour on Tuesday night. The dancing party that was given at town hall, Friday night, was well attended and every one had a good time. A. G. Wink of Marinette transacted business here Friday. Miss Agnes Carlsson shopped in Escanaba Saturday. Miss Irene Lanour visited in Escanaba Saturday. Elmer Dugas of Detroit has arrived here to spend the winter. Miss Vivian Carlsson is staying in Escanaba for a few days. Supervisor H. H. Lanour returned Friday from Escanaba after attending the county meeting. The members of the Priscilla Sewing club met Tuesday evening at the home of Miss Irene Lanour. The evening was pleasantly spent after which refreshments were served by the hostess. The next meeting will be held at Fairfield avenue with Miss Lottie Beaulamp as hostess. A dance will be given at Sovla's hall Friday evening Oct. 22. A large crowd is expected and a good time assured. Miss Ruth Schafer has returned to her duties here after a week's absence due to the death of her father. Mrs. Fred Gorou and daughter Pearl visited in Escanaba Monday.

SKILLED LABOR HARD TO OBTAIN CANVASS SHOWS

Lancing, Mich., Oct. 22.—Reports to Commissioner Cunningham of the state labor and statistics gathered by members of the industrial accident board show that Michigan, industrially and commercially, is making a tremendous industrial spurt. The commissioner of labor is able to show that skilled men and common labor is difficult to obtain in many parts of the state, while the automobile business and the gas engine factories are making such a demand on the ranks of mechanics that experienced men are hard to obtain. With the industrial board members traveling about the state in arbitration cases keep well in touch with the industrial situation, yet the records of the board for the last few months is more indicative of actual activity since the records are compiled from all parts of the state. The work of the industrial board is heavier now than at any time in its history and the mass of compensation cases, growing out of quickening of industrial life has buried the board's force, especially in the last three months. As an illustration of the growing activity the September report of the board shows a total of 448 new employers coming under the compensation act. These employers represent 4,229 employees. That there is much activity in the building world is indicated in the business of the employers who came under the act in September. Among the number is a big percent of men engaged in construction business.

DAILY LETTER

There was more activity in the copper and metal shares today with Butte & Superior and American Zinc and Green Cananea the features. Greene Cananea broke off sharply selling down to 36 3/4 in Boston. The big market for this stock now is in New York as Green Cananea is now listed there and the low sale in New York was 37. It rallied sharply from this figure and closed 39 bid. There was no news to account for the drive against Greene. While it is true Vela is fairly strong in the Northern Provinces of Mexico, it does not seem possible that he will be able to hold out very long, with the embargo on arms and ammunition, and further Carranza will receive both real and sentimental support from this government as well as from the South American republics.

Boston Markets

The Boston coppers were very quiet but held their own well. American Zinc and Butte & Superior were very active and higher. The copper metal outlook seems better than it has been for some time. Large orders are now pending from Europe and brass and ammunition manufacturers are also sounding market for supplies. Belief seems general that a big buying movement is not far off although good sales are already being made at 18 cents.

Morning Press Want Ads.

WANTED FOR SALE sections containing various real estate and service advertisements. Includes listings for rooms, houses, farms, and vehicles, along with a 'MISCELLANEOUS' section for lost and found items.

The Iron Review

Cleveland, O., Oct. 22.—The Iron Trade Review says:

From all the leading centers comes the same story of increased activity in the pig iron market, with advancing prices. Low phosphorus pig iron in eastern territory has reached the highest quotation in history. Several furnaces are figuring on going into the manufacture of this grade of iron, but it is attended with considerable difficulty, especially in the obtaining of ore of the desired analysis. Sales of the past week have included 2,000 to 3,000 tons of standard low phosphorus iron and about 10,000 tons of Lebanon grade. The Lukens Iron & Steel Co., which recently purchased 45,000 tons of basic for first quarter delivery, is in the market for about the same tonnage for the second quarter, but it is expected that furnaces will be conservative about quoting. In the Pittsburgh district, there is much more activity in steel-making irons. The West Penn Steel Co. has purchased 10,000 tons of basic and the Andrews Steel Co. and the Portsmouth Steel Co. are in the market. In the valley, the \$14.50 price for No. 2 foundry has disappeared and higher quotations are expected at Cleveland. Prices have been marked up at Chicago and in the south. A sale of 200 tons of southern No. 2 iron was made at Cleveland at \$13.50, Birmingham.

Several furnace companies have contracted for their coke requirements for the first half of next year, including a Cleveland firm, which has bought 32,000 tons for three furnaces. A number of other furnaces are figuring their requirements.

Car building companies and ship builders are contracting for large tonnages of plates to cover recent orders. Contracts for vessels include three large freighters on the lakes, four schooners to be built at Toledo and a 12,000-ton boat placed by the Coastwise Transportation Co. with the New York Ship Building Co. Other orders for vessels are pending at both lake and ocean ship yards. There is active inquiry for sheets for export. Plans for the portable houses to be erected for the use of soldiers and of inhabitants of devastated districts in Europe are under consideration. Fabricators are quoting higher prices, following a period when many contracts were taken at or below cost.

Foreign countries are showing renewed activity in placing orders for rails and cars. Russia has ordered 85,000 tons of rails from the Lackawanna Steel Co., making a total of 25,000 tons ordered from different companies during the past few months and is still in the market for from 50,000 to 60,000 tons. France has renewed inquiry for from 40,000 to 50,000 tons of rails and 1,500 box cars. The Reading railroad has ordered 2,500 cars from the Pressed Steel Co. 1,900 from the American Car & Foundry Co. and 500 from the Standard Steel Car Co. The Pennsylvania is expected to announce within a week or two its requirements for rails.

WOUNDED SOLDIER LEAVES A FORTUNE TO KIND STRANGER.

London, Oct. 20.—A legacy of \$50,000 has just come to Mrs. John Wareham of Golzar, Yorkshire, as a sequel to her kindness to a wounded Austrian soldier, Robert McClure. McClure, who was a ranchman from New South Wales, was seriously wounded during the Turks' attempt to cross the Suez Canal. He was sent to England and lodged at a hospital not far from Mrs. Wareham's home. Mrs. Wareham, whose husband is serving in the army, paid frequent visits to the hospital and did several small services for the wounded McClure, who died about a month after reaching England. He made Mrs. Wareham his sole heir.

TWO CHILDREN HAD CROUP

The two children of J. W. Nix, Cleveland, Ga., had croup. He writes "Both got so choked up they could hardly breathe. I gave them Foley's Honey and Tar and nothing else and it completely cured them." Contains no opiates. Cuts the pylegm; opens air passages. Sold everywhere.

The New and the Old.

The old-fashioned man who used to get mad when his wife had had supper now has a son whose wife makes hash in a casserole, calls it a French name and makes her husband enjoy it.

The Corn of Long Ago.

Many ways of cooking corn are known, but the simpler is the better. A sturdy race of pioneers threw on a mush and milk and corn pone and hoe cake. Civilization and luxury have led the children of these pioneers to look with disdain on corn, and to prefer to secure its great health-giving properties through other mediums. We have been taking our corn by way of pork and beef—Mayville (Ky.) Bulletin.

Mortified.

"What is the matter with your old cat? She looks disconsolate these days." "Paw hurt her feelings dreadfully. Brung home a mouse-trap last week. I told him not to do it. Cats has got their feelings same as anybody else."—Louisville Courier-Journal.

Mrs Margaret Gallagher

A. BIG DAY FOR MONEY-SAVERS!

ELECTIONS ARE NEAR

(Special to The Press.)

Washington, D. C., Oct. 22.—In elections to be held on November 2, full tickets are to be voted upon in only three states. Women's suffrage will be voted on in three states and five vacancies in the house of representatives are to be filled.

New York, Massachusetts and Pennsylvania will decide whether women shall have a vote. In each of these states the women are making a hard fight and are hopeful of winning.

Massachusetts, Maryland and Kentucky are to elect governors. Politicians are especially interested in Massachusetts, Kentucky and Maryland, where it is conceded by both parties that the vote may be reasonably close.

PERVERT IS HELD TO CIRCUIT COURT

Charged with exhibiting symptoms of disgusting depravity, Joseph LeClair, a woodsman, was arraigned before Judge Emil Glaser yesterday and was held to the circuit court for trial. Complaint against the defendant was made to the police by several little girls and his arrest followed promptly.

FAIR STORE ADS WORTH 5 COUPONS

The Fair store's advertisement in this issue of the Press if cut out and taken to the Fair store today will be worth five turkey coupons. The Fair store management is to give away 70 turkeys on coupons issued by the store and a long start may be gained today toward a collection of the coupons by taking the firm's add of today in the Press, to that store.

MARKED INTEREST IN SUNDAY GAME

Marked interest is being aroused in the football game of tomorrow between the local city team and the Stambaugh City squad, champions of the peninsula. The game will be staged at South Park, opening at 2:30 o'clock. A large number of tickets have already been sold in advance of the game and a record breaking crowd for a gridiron contest in this city is anticipated. The Stambaugh team comes to Escanaba as the undefeated champions of the peninsula for the past several years and against them will be sent an aggregation of former high school and college stars who should be able to give the visitors a hard battle.

JEWES HAVE HARD LIVING IN RUSSIA

Washington, Oct. 22.—Russia has the largest Jewish population of any country in the world. Although their lot has not always been an enviable one under the rule of the Tsars, the great war has found them loyal citizens of their northern fatherland, willing and anxious to contribute their sacrifices to the success of its cause. According to private letter and dispatches from Russia, many Jews have come forward to enlist; they have opened and equipped hospitals for the soldiers and displayed an eagerness to aid with their goods and their labor. The worth of their patriotism has been a surprise in Muscovy. The position of the Jewish subjects of the Tsar, as it was before the war, is told in a bulletin just prepared by the National Geographic society. It reads as follows:

"More than one-half of the world's total Jewish population, numbering about 6,500,000, dwells within the Russian empire. The total number of Jews in the world numbers about 13,000,000. The United States and Austro-Hungary each with more than 2,000,000; Germany with 600,000, and the British empire with 400,000 are the other important homelands of this scattered nation. Russia, however, today might be looked upon as the true fatherland of the Jewish people.

THE BIJOU

The Bijou theater will be reopened to the public this afternoon under the direction of the Bijou Amusement Company of Chicago, with Carl J. Tolian as manager. The opening performance will be staged at the matinee at 2:30 when the following bill will be presented: A Slice of Life; In The Open; and Shadows and Sunlight.
