

AGGIES WIN FROM YOST

COLORES OF MAIZE AND BLUE ARE TRAILED IN DUST OF DEFEAT 24 TO 0 IN ONE-SIDED GAME.

(Special to The Press.)
Ann Arbor, Mich., Oct. 23.—The dogs were upset today, when Daprato white-washed Yosta much noted machine, for the Aggies, running up, by his individual efforts, a score of 24 while the Wolverines never threatened.
Daprato started by dropping a perfect kick between the posts for a field goal. In the next quarter he scored a touchdown and kicked goal. He rested in the third period, getting ready for the final two scores in the last quarter.
Millard was the only man on the Michigan line to do his duty in approved fashion and Roelkm, at quarter, had five chances to save scores, after Aggie runners had evaded, the Michigan defense. He accepted every chance.

CARRANZA IS HARD PRESSED

(Special to The Press.)
Washington, Oct. 23.—Permission has been granted by the state department to Carranza to transport five thousand troops, under bond through the United States from Laredo, Texas, to Acua Prieta, Sonora, which place is threatened by the attack from the Villa troops.
Washington, Oct. 23.—The state department announced officially tonight that the Villistas had compelled the Carranzans to evacuate Naco. Confidential information is said to show that the rebel leader is gaining strength. Secretary Lansing denied he had given permission for five thousand Carranza troops to pass thru the United States, but said that if such a request be made in good faith it would be granted.

FACULTY TEAM WINS GAME

The Faculty A1 Star football team yesterday afternoon at South Park defeated the high school team 13 to 9 in a hotly contested game. It was not until the third quarter that the second string got into scoring action. Moran drop kicked a goal from the 20 yard line and Olson carrying the ball over for a touchdown after a series of plunges through the line. The faculty scored in the first quarter when Davidson caught a neatly executed pass and raced 49 yards down the field for a touchdown. Near the close of the third quarter Hutto caught a pass over the second goal line, completing the scoring for the game.
The two teams lined up as follows: Center—Kotzky; guards—Bray and Burdick; tackles—Judson and McMartin; ends—Elliot and Peterson; left half Olson; right half, Lindsay; full back—A. Moran and Cleary; quarter—N. Moran and A. Moran.
Faculty—guards, Leach and Lambert; tackles—Bemis and Lambert; ends—Stevenson and Schram; halves—Buckley and Moats; full back—Hutto; quarter—Davidson.
Referee—J. Perrin. Umpire—Brotherton. Timekeeper—H. Winnegar.

MARQUETTE WHIPS SOO

Sault Ste. Marie, Mich., Oct. 23.—Marquette's heavy football team put a crimp in the Soo High's championship hopes today by running away with the game 27 to 7. Although the locals fought hard they were unable to cope with the terrific plunging of Marquette's back and early in the game the visitors rolled up a score that their final victory certain.
Mrs. W. J. Williams, left Saturday for Ishpeming, where she will visit with her parents indefinitely. Later she will leave for Houghton, where she will make her future home.
Mrs. A. Weddick, of Green Bay, is visiting at the home of her sister, Mrs. William Blasier of this city.
Miss Alice Hansen, of Negaunee is visiting with friends in the city.

INJURED MAN'S CONDITION SERIOUS

The condition of Edward Pintler, conductor for the Escanaba & Lake Superior Railway company, who was severely crushed about the chest while engaged in spotting cars on Thursday morning, was not so favorable at St. Francis hospital last night. Mr. Pintler is 58 years of age and his age is considered by the attending physicians as a deterring influence against a quick recovery.

AGENTS ARE DESIGNATED

County Clerk A. J. Peplin yesterday completed the work of distributing allotments of deer license tags to the license issuing agents named by him throughout Delta county. In addition to the clerk's office, at the county building Mr. Peplin has designated Mackilligan's clothing store and the Mead Drug company's store, as license stations, in this city.
Agents that have been named in different parts of the county to issue the licenses are:
William Moreau, Perkins; R. L. Labre, Bark River; Tom Provost, Schaeffer; A. Lunngard, Cornell; William Laux, Fayette; Herman Squires, Garden; Chas. Olmsted, Garden; Geo. Marsil, Garden; Wm. Martilla, Rock; Harry Hall, Defiance; Clarence Malloy, Lathrop; Gertrude Darrow, Rapid River; Ruben Young, Rapid River; Otto Haberman, Gladstone; Fred C. Gorham, Ensign; J. P. Cameron, Nahma; Clas. McCauley, Wells; J. Nepper & Son, Isabella.
In addition to the above Mackilligan's Clothing store and Mead Drug Co. have been named.

BALCONY GIVES WAY, THREE HURT

Detroit, October 23.—Three persons were injured, two of them seriously, when a balcony railing broke and precipitated them to the sidewalk while they threw confetti and rice at a newly-married pair just entering the house for a reception.
Miss Ruth Homer suffered concussion of the brain. Leonard Cady, a brother of the bride, is in a hospital with a fractured wrist and several bruises. Miss Jean Andrew, who also fell, was caught in the arms of Claude Stoeffelt, best man, and escaped serious injury.
The wedding was that of Miss Hazel Cady to Russel Stevens. It had just been solemnized and the wedding party was entering the home of the bride's brother for a reception when the accident took place.

NORTHWESTERN IS HUMBLD

(Special to The Press.)
Urbana, Ill., Oct. 23.—Northwestern went down to defeat at the hands of Illinois 36 to 6 today. The Purple's lone tally came in the first quarter when they took advantage of Breneman's fumble on the five yard line and carried the ball across. The game was marked by considerable fumbling by both teams.

F. J. Domka returned to Mankato, Minn., yesterday after being called here to attend the funeral of Matthew Priestler.

Miss J. Minderhaut, of Oshkosh, representing the Bay State Milling Co., transacted business in this city this week.
Mr. and Mrs. J. E. Colman, of Manistique, were in the city Saturday on their way to Wausau.
Miss Esther Mobery, and Carl Mobery, of this city left Saturday evening for Minneapolis, where they will visit with relatives during the next two weeks.
Mrs. Thomas Farrell has been called to Fond du Lac where her father was struck by a street car and was severely injured.
Little Friends Entertained.
Little Marion Olmsted entertained a company of friends at her home, on Park avenue yesterday afternoon. During the afternoon the little folks played games and following that program a delicious luncheon was served.

ISHPEMING WAS BEATEN

HEMATITE CITY BOWLERS TRIMMED IN THREE GAME SERIES BY TOTAL OF 166 POINTS.

Escanaba's five man bowling squad last night at the Delft club alleys trimmed the Ishpeming crack team by a total of 166 points in a three game series. All of the local bowlers showed near to top form last night, in each game the team marking up a record above the 900 mark. William Matt and Van de Wiele of the local team had the highest averages in the three games with records of 203, being closely followed by Talo, of Ishpeming, whose average was 201. Van de Wiele, of the local squad rolled the high score of the series with a record of 256 in the second game.
Following are the records hung up last night:

ISHPEMING.		
E. Hendrickson	171	159
Talo	190	214
W. Hendrickson	167	171
Saline	180	169
McCulloch	183	155
Totals	891	875
ESCANABA		
Taylor	191	195
Matt	222	190
Van de Wiele	256	176
Blake	179	168
Schuldes	195	159
Totals	970	927

BADGERS WIN GAME EASILY

(Special to The Press.)
Madison, Oct. 23.—Fulfilling all expectations the Badgers beat Ohio state this afternoon. Twice the visitors were within a few yards of Wisconsin's goal, but lacked the punch necessary to put the ball over. Winter's excellent playing featured for Ohio. Byers made Wisconsin's first two scores.

TEACH STUDENTS HOW TO SHOOT

Grand Rapids, Mich., Oct. 23.—The board of education of the city of Grand Rapids took its first step toward training in the high schools last night when it voted to permit Principal J. B. Davis to establish and maintain a rifle range in the basement of Central high school.
The educational committee offered a report recommending that the opportunity be offered students to engage in rifle practice in the basement of the school. Several times the same request has been made of the board, but each time it has been rejected.
The proposed range will be 50 feet in length. Whether or not students will join the rifle club will be wholly optional on their part. Where rifles are to come from or who will be the instructor was not touched on.
The parents of students engaging in rifle practice must sign a waiver relieving the board of education from any liability of any nature arising out of the use of the rifle range.

SECOND CROP OF BLUEBERRIES FOUND

Evidence continues to accumulate of the productiveness of Cloverland's soil about Escanaba. Yesterday North Western employees in the ore yards found a quantity of second crop ripened blueberries and branches of the berries were brought to The Press office to establish the authenticity of the find.
Entertained Friends.
Mrs. William Elliott entertained at her home, at 916 Second street, on Thursday afternoon and yesterday afternoon. On the two afternoons a great number of guests were received in the home that was prettily decorated for the occasion.
Little Friends Entertained.
Little Marion Olmsted entertained a company of friends at her home, on Park avenue yesterday afternoon. During the afternoon the little folks played games and following that program a delicious luncheon was served.

EASTERN GAMES

Harvard, 0; Cornell, 10.
Princeton, 30; Dartmouth, 7.
Yale, 7; Washington and Jefferson, 16.
Penn., 7; Pittsburg, 14.

Michigan, 0; Mich. Aggies, 24.
Nebraska, 20; Notre Dame 19.
Case, 12; Oberlin, 2.
Georgia, 7; Virginia, 9.
Massachusetts, 31; Iowa, 15.

SHIPMENTS PILING UP

(Special to The Press.)
New York, Oct. 23.—Munitions and food supplies for export to Europe congest every railroad and coastwise steamship line running into this city. The Central railroad of New Jersey, has declared a two weeks embargo against all freight, which it hopes to end next Wednesday. Although most of the railroads issued no formal embargo, word is passed along to the agents to hold back all the freight they can.
Harbor conditions are at their worst. Most of the shipments are foodstuffs and the congestion is nation wide. It is said.

POLICE MAKE A REJOINER

In answer to a communication published in the Press yesterday signed by "A Business Man" taking members of the police force to task for alleged laxity in their failure to prevent boys and girls from marking windows in the downtown district, members of the police force presented the following communication to The Press last night:
"The public should know that with the police force made possible by the city's finances, an officer cannot be in every part of the city at all times. From 6 to 7:30 o'clock each evening there is but one patrolman on Ludington street and natural conditions will not allow him to keep a close watch on the whole of Ludington street between those hours. And it is between those hours that the children roam the streets and commit the offenses that are complained of. An army of officers really could not keep them from marking the windows on Ludington street unless the parents will cooperate with the officers. As long as parents allow their children to roam the streets there are going to be offenses of this kind reported. Almost daily we take in boys and girls who are caught in the act of defacing property and they have been paroled to the parents, but this does not stop the practice. The police are making every effort to curb the children running wild in the downtown district each evening and the business man who signed the letter to The Press this morning, evidently has not long been a resident here to reveal such a ludicrous lack of knowledge of local conditions. An investigation might probably show that he has not yet thoroughly warmed his feet here and the chances are strongly that he is not a taxpayer."

WOMEN NAME SAME OFFICERS

Lansing, Mich., Oct. 23.—With the exception of one officer, the report of the nominating committee of the State Federation of Women's clubs, Thursday morning, showed that the choice of officers for the coming year has been unchanged.
Mrs. Homer Blair, of Albion, corresponding secretary, has served two terms of office and therefore is not eligible for re-election according to the constitution of the federation. Mrs. Frank L. Dodge, of Adrian, was nominated in her place. Mrs. Ashbaugh had no opposition in her re-nomination for president.
The other officers were nominated as follows: Vice-president, at large, Mrs. Florence I. Bulson, of Jackson; vice-president of the first or southeast district, Mrs. Mary A. Shull, of Treadwell; second or southwest district Mrs. Burritt Hamilton, of Battle Creek; third or central district, Mrs. Ellen Morrison, of Grand Rapids; fourth or northern district, Miss Nina De Long Sands, Pentwater; fifth or upper peninsula, Mrs. Charles H. Law, of Mecum; re-ordining secretary, Mrs. Clara Waters Baldwin, of Muskegon; treasurer, Mrs. Edward Gilkey, Lansing.
The Thursday morning session consisted of work on the revision of the by-laws, reports of the department chairmen, a talk on "Civil Service Reform," by Mrs. Alexander Stock, of Hillsdale, an address by Representative W. S. Jerome and an address by Congressman Patrick H. Kelley.

FACTS NOT STATED.

Displaying a deplorable ignorance of the affairs of their own city, Escanaba's evening publication last night gravely announced that J. E. Byrns had been named to act with an appraiser of the North Michigan Water Company, to fix the price the city will be asked to pay for the water works plant. The appointment of Mr. Byrns is by no means for that purpose, as such a proceeding would be as following the wishes of the water company to force the city to purchase their plant according to the provisions of the franchise. Mr. Byrns is named to prepare for the city an independent appraisal of the value of the company's property, without reference to purchase or to any action that may be taken by the company to interest the city in the purchase of its plant.

PIRATE SHIP IS SOUGHT

REVENUE CUTER IS AFTER VESSEL MANNED BY GERMAN CREW IN GULF OF MEXICO.

(Special to The Press.)
Washington, Oct. 23.—A thrilling chase by the United States revenue cutter Miami, is being conducted tonight in the Gulf of Mexico after the steamship Zealandia which has been declared a pirate ship by the department of Justice.
The crew of this fugitive vessel is known to be German or men of German sympathies. Attorney General Gregory tonight announced that if any of the crew are shown to be men who escaped from the German interned cruiser at Norfolk, they will be arrested and tried for piracy in this country, for which the penalty is death. The department of justice received reports confirming rumors that the Zealandia, owned by the Flske Trading company of New York, but believed to be under charter to another company, had changed crews at Pensacola, Fla. and sailed from there October 7, practically converted into a German cruiser to be used for raiding the allies commerce.

BOILERMAKERS FOUGHT HARD

(Special to The Press.)
Chicago, Ill., Oct. 23.—Andy Smith's boilermakers lived up to their advance notices today by holding the Maroons to a 7 to 0 score. Despite Chicago's victory by a narrow margin, the favorable aggregation did not put a single cheer in Stage's brow. Chicago was deprived of a touchdown in the second quarter by the calling of time. A 55 yard run by Captain Russell was the greatest factor in the Maroon's score.

GIVES BIG LOAN FUND TO U. OF M.

John F. Dodge, of Detroit, has made the engineering college of the University of Michigan a gift of \$10,000, to be used as a loan fund for needy junior and senior engineering students and to be known as the John Frank Dodge loan fund.
This fund is to be administered by the presidency of the university, dean of the engineering college, and the professor at the head of the engineering section, in which the applicant is enrolled. Loans will not exceed \$100 to any one student in one year. A junior may borrow \$100 and in his senior year again borrow a like amount.
The applicant must have a satisfactory scholarship record and must be able to prove that his needs justify a loan. Payment is to be made within two years after graduation. The loan will draw five per cent interest upon graduation.
Another condition reads: "If in the future this fund shall grow to exceed the needs of its original purpose as a loan fund, the interest on such excess shall be used to encourage research and to establish fellowships in engineering."

DUCKS IN STATE ARE INCREASING

Lansing, Mich., Oct. 23.—State Game Commissioner Oates has compiled a tabulation of migratory game birds observed in Michigan this season, and reports from deputies in the field indicate an increase over recent years, particularly in rails, plover, woodcock and snipe. Ducks also show an apparent increase in number and kind. The gain is assigned to the protective workings of the federal laws.
Ducks reported are: American, red-breasted and hooded merganser, mallard, green and blue-winged teal, black, "English" (local name) teal, baldpate, widgeon, golden-eye, gadwall, Barrow's golden-eye, redhead, pintail, canvas back, lesser scaup, buffle-head, ring-neck, and woodcock. No elder, scoter, harlequin, or squaw ducks have been observed.
Braut appeared in Michigan marshes this season, mostly in lone pairs. Of the lesser birds, upland plover, Wilson's snip, killdeer, and sora rail show the greatest apparent increase. Sandpipers are numerous and greater and lesser yellow legs, king rail, golden rail and willet have been generally observed. Curlew and the Hudsonian godwit have been seen singly and in pairs. The coot or "mud-hen," formerly appearing in large numbers in Michigan, is less in evidence this season than heretofore.

GAUFIN TO SELL THE CHEVROLET

A. S. Gaufin has secured the agency for Delta county for the Chevrolet automobile and late in this week will receive two demonstrating cars. Mr. Gaufin recently returned from the factory of the company at Flint, Mich., and it was while there that he closed the deal for the local county agency. The Chevrolet is being advertised by its makers as the successor to the Ford and with special emphasis being given to the valve in head motor, with which the car is equipped. The Chevrolet has been nationally advertised for some time and the appearance of the first cars of the make here, is being awaited both by auto owners and prospective purchasers.

TAKES AGENCY FOR THE NEW DORT CAR

Charles Gunderson has taken the agency for the Dort automobile and has already received a demonstrating machine, driving the car to this city from Milwaukee early in the week. When the trip was made the roads through Wisconsin were in the worst possible condition, but Mr. Gunderson made the trip without accident, passing scores of heavy cars that were stalled in the mud. The new car has attracted much interest from autoists since being delivered here.

BIG GAME ON TODAY

Gridiron interest of the city will be centered at South park this afternoon when the Stambaugh city football team will clash with the Escanaba city team. Touted as the undefeated champions of the peninsula for several seasons, the Stambaugh team arrived in the city last night. The local team has been holding regular practices for the past two weeks and having in its line-up some of the stars who have made football history in this city in past years, a determined battle for the invaders is assured. Escanaba city teams have been repeatedly beaten by Stambaugh in past seasons and today it is hoped that revenge may be gained for indignities of former years. The game of this afternoon will be started promptly at 2:30 o'clock.

ALLIES GIVE SERVIAN AID

ENTENTE POWERS COMBINE TO INVITE COOPERATION OF GREECE AND ROUMANIA—RUSSIANS FIGHT HARD

(Special to The Press.)
London, Oct. 23.—All the allied powers are now effectively aiding Serbia in her struggle against the central powers and Bulgaria. French forces have effected a junction with the Serbians.
Eighty thousand Italian troops will be landed at Saloniki.
Russian warships are participating in the bombardment of the Bulgarian coast.
Petrograd dispatches declare Russia will have an army fighting in Bulgaria in two weeks.
British troops have crossed the Greek frontier and have arrived in Serbia.
As a result of this concentrated effort it is believed here that Roumania and Greece will now see their way clear to join forces with the allies. French forces already are engaged in a desperate battle with the Bulgarians near Valondov, according to a Saloniki dispatch via Berlin.
An Athens dispatch says the Bulgarians are hurrying heavy artillery to the Valondov section.
No further word has been made public on what progress the British troops are making.

WOMEN NAME SAME OFFICERS

(Special to The Press.)
London, Oct. 23.—In an effort to outflank General von Buelow's army and relieve the pressure on Riga, Russian warships have bombarded three towns on the Baltic coast of Courland and have landed troops ninety miles north-east of Riga. The German official statement issued today, describes these forces as small but it is believed that a serious operation is contemplated by the Russians with the object of forcing the Teutons to give up a great stretch of captured territory. Petrograd is claiming extensive successes on both tips of the battle front against the entrenched Teutons. The most important news of the day comes from the north where a decided check is said to have been administered to von Hindenburg in his drive on Riga.

WOMEN NAME SAME OFFICERS

(Special to The Press.)
Berlin, Oct. 23.—"I believe that President Wilson and the Pope could be peace mediators and practically bring about a speedy peace," declared Dr. Hans Delbrueck, German statesman, formerly tutor of the Kaiser, in an interview given to the public tonight. The interview was submitted to the German foreign office for approval and several excisions were made. It is considered significant that reference to peace was not deleted by the censor.

WOMEN NAME SAME OFFICERS

(Special to The Press.)
London, Oct. 23.—Exodus of Englishmen of military age from the country to escape conscription has begun. This morning at Euston station the boat train, connecting with the liner New York, sailing from Liverpool today, carried fifteen extra coaches to accommodate the unprecedented number of third class passengers, chiefly able bodied young men. Fully fifty saloon passengers are known to have been British subjects of military age. Inquiry at the home office elicited the information that there is no way to prevent the exodus, which, according to steamship officials has been increasing by leaps and bounds during the past month. Opinions of the man in the street is that conscription is very close at hand.
(Continued on page six.)

DECORATE STORE FOR GREAT SALE

Covered from its very summit to the base is the front of Kratze Brothers big department store with advertising banners announcing the opening of a great stock reducing sale, opening on Wednesday. The extensive placarding of the front of the big store was the subject of much inquiry yesterday indicating a wide interest in the forthcoming sales event planned by the firm.
Mrs. Thomas Farrell of this city, left Saturday for Oshkosh, where she will visit with relatives for an indefinite length of time.
Mrs. A. Chaput, of Brampton spent Saturday shopping in this city.

"Stung again," quoth Boss-Dick. Alleged deaf and dumb Eastland to read King George's appeal to the English people one might get an idea that, after all, the men who carry the guns in the trenches are really fighting for something they care about. It is likely now to find Escanaba a rather unresponsive community. One man who tried it will tell Judge Flannigan where he got the idea.

Our idea of about the most useless thing in the world is a skunk in a barrel in the back yard of a man who has no idea of starting a skunk farm and who doesn't dare kill the peaky animal for fear of being pointed out as the creator of a neighborhood nuisance.

Now that Mayor Lloyd of Menominee has solemnly deposed that he leaves the editor of the Herald Leader to be honorable and honest and the said editor has further deposed that he leaves Mayor Lloyd to be about every thing that a mayor of a city should be, one can expect a little less heat to be infused in further discussions of Menominee's water problem.

AMERICAN POTASH

At last, after many reports of difficulties and manufactures, the United States has some real production of potash. The Armour interests, the United States Smelting Co. and other capitalists are making sulphate of potash and aluminum out of a new ore—suaite, found in large quantities in Utah and Nevada. The production, it is true, is only some eighteen tons daily, but it will be possible soon to increase this output to thirty tons, which becomes formidable when we learn that potash is now worth more than \$200 a ton, five to seven times the usual price.

The American manufacturing process is a particularly fortunate thing because at the present prices of aluminum the potash costs practically nothing. Thus the large margin of manufacturing profit probably insures the success of the industry even after the war, when the trade again obtains potash salts from northern Germany.

Probably 90 per cent of the normal \$6,000,000 per year potash imports from Germany are used for fertilizers. Some of the intensive farms of the east will no doubt suffer from the scarcity and present high prices. But if the suaitite ore deposits are developed, and if the vast body of kelp plants a few feet below the surface of the Pacific from California to Alaska can be utilized, the United States will provide ample supplies for all manufactures and all our farming industries and have potash over to sell.

HOW TO BE EFFICIENT.

Nothing caps the vitality like kidney trouble. It causes backache, head ache, stiff joints, sore muscles, "all ways tired" feeling, rheumatism and other ills. To be efficient, you must be healthy. Foley's Kidney Pills strengthen the kidneys, help them do their work of filtering out from the system the waste matter that causes the trouble. Sold everywhere.

THE WAR

London, Oct. 23.—Greece has declined for the present the allies' offer to her of Cyprus and other concessions, territorial and financial in return for her adherence to the Serbo-Greek treaty of alliance, which would mean her military aid to assist in meeting the Bulgarian and Austro-German attacks against her former ally. The reply of Greece to the offer, which reached the foreign office tonight, is a long one and while it has not been made public there is reason to believe that the Hellenic kingdom bases its decline not to join the allies on the ground that the Anglo-French force landed at Saloniki is not, in the Greek government's opinion, strong enough for the task allotted it.

The refusal to accept the allies' offer was not unexpected, as it has been stated often in official circles that both Roumania and Greece were withholding their assistance until the allies either won a decisive victory or proved to the Greeks and Roumanians their ability to do so or until the operations had reached a stage which would assure them that their countries would not be overrun by the forces of the central powers or their Turkish and Bulgarian allies.

While Greece's refusal of the offer is indubitably so far as the present is concerned, it is felt by London commentators that a material strengthening of the entente allied contingent at Saloniki would have a pronounced influence on the attitude even of the Greek government. It also is believed by observers here that Greece cannot persist in her present ambiguous position and that public opinion, which is generally understood to favor the entente allies, probably will exercise its influence.

There is no inclination here or in the capitals of the other members of the quadruple entente powers to minimize the seriousness of the situation in Serbia. The Austro-German and Bulgarian campaign is developing slowly, but the plans are now fairly clear. The Austro-German center is advancing down the Morava valley from Semendria while the Bulgarians have got across this valley to the south and command the Belgrad-Nish-Saloniki railway. The Austro-Germans have three other forces engaged, one in the northwest near Shabat, one at Belgrade and the third which has not yet crossed the Danube about Orsova.

The Bulgarians also have other armies moving across the frontier near Zar, Pirobe and Nish, and farther south near Egrl Palanka and Kohane, and claim to be already in Veleze, on the Varda river. It is this latter force the Anglo-French troops landed at Saloniki probably will first encounter. On the other fronts the operations are considered to be more favorable for the allies.

The Russians, taking advantage of the removal of German troops on the front to reinforce Field Marshal von Hindenburg for his drive at Riga, which seems to have been checked, have been delivering some fierce hits at the German center on the Stry and in Galicia. In all these they have had at least partial successes.

The latest offensive by the Russians was assumed north of Tarnopol, where the carrying of Austro-German positions gave the Russian soldiers nearly 8,000 prisoners, two howitzers and a number of machine guns. These prisoners, added to those taken near Baranovichi the day before, make a total of more than 11,000 Austrians and Germans captured in two days.

The Germans on the other hand claim that their counter attacks, both on the Stry and at Baranovichi, were successful, and according to the Berlin official communication the Russians taken prisoner totalled upward of 4,000. The Germans admit, however, the loss of six guns on the Stry.

In the west another German attack according to French accounts, has been repulsed in Artols while a contemplated attack in Champagne was presented by the French artillery.

The Italians continue their offensive in Tyrol and Trentino, where it is progressing, and along the Isonzo. No advance is reported in the latter region.

During the week ending Oct. 20 only one British steamer, the Salerno, was sunk by a German submarine. This is the lowest record in British ships sunk for months. Unofficial reports say that the British submarines have added three more ships to their bag in the Baltic during the last twenty-four hours. Some mystery surrounds the sinking at Hamburg by the Germans of three British steamers which have been interned there since the beginning of the war. They were all small vessels.

London, Oct. 23.—A dispatch reaching London from Nish today says official announcement has been made at the Serbian capital that the losses of the Austro-German army of invasion have reached 60,000 dead wounded and prisoners. The Serbians are said to have repulsed the invaders.

Rome, Oct. 23.—An official statement issued here tonight by the Italian war office says: "The offensive successfully begun in the Tyrol and Trentino has been extended all along the line to the sea. Many Austrian positions have been taken." The statement adds:

OSBORN IS SURE TO RUN, FERRIS HEARS

Lansing, Mich., Oct. 23.—Speaking on politics, Governor Ferris stated, Wednesday, that he was absolutely certain that Chase S. Osborn would be a candidate for governor in 1916 on the republican ticket and would make the race on a "dry" platform. Just where the governor obtained this bit of information is not known, but when he was asked he merely repeated the statement again, "I was never more sure of anything in my life," said the governor.

More than that, Governor Ferris says that Mr. Osborn is more than getting even with his republican enemies by keeping silent. As a candidate on the republican ticket, the democratic governor believes that Osborn would make an excellent run, but avoids saying whether he, too, will make the try for a third term. It's generally admitted, in fact prominent democrats say the governor will have to make the run again, for twice the party has given him victory and if defeat would be the result of his third attempt the democrats figure that he should be willing to make such a sacrifice, though of course they do not admit that defeat even is to be considered.

FIRE OCEAN TO SAVE NEW YORK

New York, Oct. 23.—James H. Reinhardt of East Orange, N. J., inventor of mechanical appliances for commercial use, among them being the numbering machine used in the government printing office, has drawn up a plan for harbor defense which he intends to offer to the navy department. The inventor has made a test of his plan on a small scale, he says, with excellent results.

With the device installed to protect New York harbor and working in the manner that the inventor pictured it, no evidence of its presence could be seen by an invading fleet. In the event that hostile craft attempted to steam close enough to the shore to shell New York, it would be possible for an American naval officer at Sandy Hook to press an electric button which would immediately cause great walls of flame to shoot up on either side of the hostile fleet, making escape impossible.

This seemingly fantastic defense, Mr. Reinhardt, believes, can be accomplished simply and at comparative small expense. The walls of flame would be caused by great quantities of oil burning on the surface of the water, and Mr. Reinhardt said yesterday that by the use of the right kind of oil the flames probably could be made to mount from 100 to 150 feet into the air, or to about the height of a ten-story building. This barrier of fire, he said, could be made to stretch whatever distance was necessary completely to block possible escape.

The plan which Mr. Reinhardt has drawn up for this picturesque defense is as follows: For a distance of 25 or 30 miles from the outlying sections of the city he proposes that large oil pipes shall be laid on the ground be-

neath the water and directly across the channel leading to New York, or whatever other city the defense is designed to protect. His plan calls for laying the most distant pipes about a mile apart, and then placing the pipes closer together as they near the city. Each pipe, under his plan, would have perforations along its entire length for the oil to escape, and would be attached in the middle to one of a number of large feed pipes supplying all of the cross-sections with oil.

"The problem of igniting the oil would be comparatively simple and could be met by several different methods. Probably the best method would be to have a small amount of potassium, protected by some waterproof coating such as paraffin, in such a position at each junction of the feed pipe and the cross section that the paraffin coating could be broken by the operation of the electrical device turning the oil into the cross section and the potassium would be sent to the surface.

"Potassium reacts when it comes in contact with water and forms hydroxide and hydrogen, the latter gas being released in such quantity and with such speed that it immediately takes fire, because of the heat created by the chemical reaction. This is a simple operation well known to all chemical laboratories. The oil, of course, would be ignited instantly by the potassium, and would burn viciously as it spread over the water."

DAILY LETTER

Ishpening, Mich.—Markets today were inclined to be erratic. Baldwin Loco and Car Foundry were the features among the New York specialties, the former made a gain of 7 points and latter 6 points. Most of these gains however, were lost before the closing. In the Boston market, American Zinc and Butte & Superior were the features, both making substantial gains with considerable activity. Utah Metals sold up to 9 1/2 and advance of 2 1/2 points from the low made this week. Trinity was higher, selling up to \$10.00. There continues to be steady liquidation in inspiration. Grains: Grains were weaker today. December wheat selling off 2 1/2 cents at present prices. Wheat looks an attractive purchase.

Boston Markets

Boston, Mass.—All interest centered in the zinc stocks. American Zinc sold at a new high of 68 1/8. Mass Consolidated Mining Co. sold 1,000,000 pounds around 18 cents to New York parties. The company has sold output up to January 1st, 1916. Directors of St. Mary's are expected to meet shortly to declare another dollar cash dividend making a total of \$9.50 a share in cash and cash equivalent to North Lake and Hancock stock distribution which will have been paid since last march. Copper shares had a good undertone.

OUR JINNEY OFFER—This and 50 DON'T MISS THIS. Cut out this slip, enclose with five cents to Fole & Co., Chicago Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup, Foley Kidney Pills, and Foley Cathartic Tablets.

Morning Press Want Ads.

WANTED
WANTED—1 large room on or near Ludington St. by five young men for club room purposes. Inquire at Morning Press Office. 238-41

FOR SALE
FOR SALE—Driving mare. Five years old. Sound and safe. Will sell reasonable. Inquire of Alex Williamson, Windstone Mich. or phone 128-L. 2618-296-01

FOR SALE—Choice 70 ft. front lot on Michigan avenue. This lot is beautifully situated overlooking the waters of Green Bay, and is one of the most desirable locations in the city. For further particulars, inquire Jas. S. Doherty. 195-11

FOR SALE—One of the finest residences in the city with beautiful lot. Anyone desiring a modern home in most desirable residence locality, should look this up. The above property will be sold at a very cheap price. Inquire Jas. S. Doherty. 239-11

OR SALE—120 acre farm 60 acres clear, and in high state of cultivation. Good house, barn, and stables 9 head cattle, 3 horses, fine equipment of arm machinery, including plow, mow, hay rake disk harrow plows, etc. Good roads 1-2 miles from R. station. If you want an A. No farm look this up. Price \$5500.00 inquire Jas. S. Doherty, Morning Press. 141-11

FOR SALE—Four forty acre tracts of heavily timbered land, 10 miles from Iron River two miles from Beechwood on the Iron County and Gogebic county road. Will sell in parcels of 40 acres. Right on the mineral range, 1-4 mineral rights given with land. A rare chance for a man of moderate means to run a chance to acquire an interest in an iron mine. For further particulars, address James S. Doherty. 264-11

FOR SALE—40-acre timbered land 3 miles from Harris. A good investment. Timber on land is worth more than the price asked. This is within the reach of a poor man. Price \$600 Inquire of Jas. S. Doherty. 171-11

SHINGLE MILLS ARE TO RESUME

Racine, Wisconsin, October 22.—Wisconsin and Michigan manufacturers of white cedar shingles are elated over reports and photographs which they are now receiving from New Orleans showing the effect of the recent hurricane on wooden buildings and shingle roofs. The strain upon all classes of structures was extremely severe and some surprising facts were developed. It appears that although hundreds of houses were unroofed, that roofs made of wooden shingles remained intact to an extent which is the source of much comment in the stricken cities. This phenomenon is reported not only from New Orleans at the time of the recent storm, but also at Galveston and Houston which had similar hurricanes a few months earlier. In response to the desire to provide for fire proof construction so far as possible, a number of cities have adopted building codes which prohibit the use of shingle roofs within certain limits. The damage caused in unroofed buildings by these storms has proved so great and so strongly emphasized by the experiences of these different cities that it is now questioned whether the loss through damage from unroofing is not greater than the possible fire hazard of the shingle roof. As a result of these experiences a strong demand has developed in Southern cities for a revision of the building codes and a recognition of this peculiar advantage in wood. In order to effectively cooperate with the local authorities in the building code revision, the shingle manufacturers are preparing to turn out a fire proofed product.

"The contention that shingles are more inflammable than other forms of roofing has received a setback with the progress of modern science," said O. T. Swan, secretary of the Northern Hemlock & Hardwood Manufacturers Association. "Dr. Herman Von Schrenk of St. Louis, cooperating with the lumbermen of that district, has been conducting a series of experiments which show that shingles properly treated with fireproof paints resist heat and flames better than many so-called fireproof materials. Similar experiments have been conducted by the government at its laboratory at Madison.

"With that argument against the use of wooden shingles successfully refuted, manufacturers of white cedar shingles are preparing to inaugurate an active campaign of education and start the cedar mills which have been closed down.

"The manufacture of lumber products in Wisconsin and Michigan is one of the leading industries of those states. It has been hard hit, however, because of the action of congress in the adoption of its recent tariff schedule. Under that law Canadian shingles of red cedar have been admitted to the United States free of duty, while shingles shipped to Canada have been subject to tariff. The result has been that the market is being flooded with Canadian products at war prices and the local manufacturers have suffered in proportion. "It is to be a part of the effort of the manufacturers to educate the peo-

OWNERS LOSE 40,000 PROVE GAME HONEST

Philadelphia, Oct. 22.—If it still were necessary to call attention to proofs of the honesty of baseball, the series of 1915 world series should be sufficient. Success of the Red Sox in the fifth game, cost the ownerships of each of the contending clubs close to \$40,000. Were there any jockeying Boston could almost just as well lose, as it still would have two chances to land the series.

Receipts of the first day at Boston exceeded \$83,000, and those of Tuesday were about 1,000 less. It is fair to assume that a sixth game would draw \$82,000, a least. On that basis the two ownerships are losing \$36,900 each and the national commission \$8,200. And they are actually losing this because most of the money is now in the Boston club's possession. Its reserved seats are sold for the third day, and now that money must be refunded.

Including the money that they got for the final game, each of the two ownerships drew down \$71,712.90 as its share. That's a nice bit of money, but both clubs could stand a little more. The Phillies have not been coin-producers in the past. And Boston, because of a high salary list and unusual expenses would not have been on velvet when the season needed were it not for the great crowds that its Detroit series drew. And, incidentally, there was better ball in those games than in this series.

There was nothing in it for the players, in the financial way, after Tuesday. They simply were battling for glory.

FRENCH IMPORT STEEL FROM U.S.

Paris, Oct. 22.—The French shell makers have had some difficulty in obtaining the necessary quantities of steel suitable for projectiles. The largest iron-producing region in France is in German occupation and home production has had to be supplemented by orders abroad, chiefly in the United States, the French shell manufacturers have also bought there most of their hydraulic machines for shell forging. Most of the shells ordered for France in America have been unfinished, the finishing of them being committed to French industry with the object of helping out the small manufacturer who would otherwise be idle and whose works are not equipped for the production of the shell from start to finish.

The cost of producing shells has been greatly reduced since the war began, by the immense scale on which they are produced and by the use of the most modern machine tool imported from the United States. The price paid for the 3-inch shells at the beginning of the war was equivalent to \$7.60. This price has been reduced to 1-8. American makers of larger size calibers are, it is understood, receive for 6-inch shells about \$10 apiece. These prices are for unloaded shells; the charging of them is not trusted to the makers from the private contractors but is done in the private arsenals. All these shells must be made with extreme precision for long range work but for short range to pitch shells at the trenches from half a mile to 3 miles old guns can be used and cast iron shells.

The two children of J. W. Nix, Glenland, Ga., had croup. He writes "Both got so choked up they could hardly breathe. I gave them Foley's Honey and Tar and nothing else and it completely cured them." Contains no opiates. Gets the phlegm; opens air passages. Sells everywhere.

Ann Arbor, Oct. 22.—The ire of Johnny Maulbetsch is up to the boiling point as a result of unfavorable newspaper criticism of his work in Wednesday's game and he threatens to turn in his suit to Coach Yost as a result.

"If they can't appreciate the best a man can do on a team, they can at least refrain from unfavorable talk," says Maulbetsch. "I have been advised to quit the team and I will if this unjust talk doesn't stop.

"Anybody knows that I never got to going right this early in the season, even when I was in high school. Even last year I was of no account until the Vanderbilt game, when I finally got to going right. "And now they are blaming me because Michigan was scored on Wednesday. There were three men there to receive that pass and I had instructions to block two. As it happened, the third man caught the ball and now I get the blame because I didn't get him." Adverse comment has been more or less frequent since the opening game, but what has really rolled Johnny up is what appeared Thursday morning in the write-up of the

Firestone Faith

The Firestone ideas of motor-ing are founded on a belief in the wisdom and common sense of the motorist—and this faith has been justified. Firestone success has proven that the car owner wants safety, comfort and life at 100 miles per hour. He wants the quality that costs less to use.

The Non-Skid lettering is an important safety feature. You need it always—but particularly at this time of year. It holds the standard for endurance and economy. The letters prevent spin or skid in any direction, they radiate the heat of road friction, insure perfect traction with gasoline economy, car-protection and maximum comfort. Everywhere experienced motorists praise Firestone performance.

Theatrical Gossip

THE DELFT.

Blanche Sweet, is a brilliant pictur-
ization of Margaret Turnbull's emoti-
onal drama. Stolen Goods, will be the
big flier at the Delt on Monday.

Margaret Huntley, a poor girl work-
ing in a dressmaking establishment,
is sent to match some samples at a
store. While she is standing at a
counter Helen North, a rich girl klep-
tomaniac, steals a piece of lace, and
noticing that it is missed, saves her-
self by thrusting it into Margery's op-
en bag. Thus Margery goes to prison
for the crime which she did not com-
mit. When Margery leaves prison she
becomes a trained nurse, but her "pri-
son record" is discovered and she
feels that her best field for work is in
the Belgian hospitals under the red
cross. There she again meets Helen,
who has lost all her money but who
has received a ticket to America and
some cash from a friend to whom her
father wrote before his death. Helen
is apparently killed by a shell, and
Margery determines to go to America
under the name of the woman who
caused all her misery. Helen is not
really slain, and when she seeks to
claim her own the drama develops to
a most unexpected climax.

Blanche Sweet plays the role of
Margery and House Peters is the red
cross surgeon who loves her and re-
mains true under all conditions.

VILLAGE BURNED IN 'MAN TRAIL' LAST ACT.

Essanay completed its work on the
six-act photoplay, "The Man Trail,"
adapted from the recently published
novel by Henry Oyen, by burning
down a whole village. It was a "real"
village, however, and was built espe-
cially for scenes in this picture at
"The Pines," at the mouth of Dead riv-
er, near Waukegan, Ill. It consisted
of two score houses for the logging
camp officials, several large bunk
houses for the lumberjacks, a large
office building, stores, bar rooms,
gambling places and dance halls. The
powder house was fired and blew up,
scattering burning boards in all direc-
tions. The other buildings quickly
caught fire and the village was re-
duced to ashes in two hours. The
flames could be seen for miles around
and attracted 5,000 persons from Wau-
kegan, Chicago and the surrounding
country. "The Man Trail," featuring
Richard C. Travers and June Keltie,
will be seen at the Strand Theatre on
Monday.

THE GRAND

The Courtyard Stock company will
today stage their final presentations
of that favorite play, Lena Rivers,
which has been the attraction for the
latter half of the week at the Grand.
Also today a special feature picture,
in four parts, Cohen's Luck, will be
offered. On Monday evening the
stock company will open the first half
of the week's program with The
House That Jack Built.

THE BIJOU.

Owing to the fact that a lens for
use on the new picture machine, in-
stalled at the Bijou, was delivered
here yesterday, it was impossible to
reopen that amusement place yester-
day. It is probable that a lens of
proper size will be delivered this
morning, making possible the opening
ing this afternoon.

Mrs. James Rouse of Lathrop, who
has been visiting at the home of her
daughter, Mrs. A. Wasmar, of this
city, returned to her home Saturday,
accompanied by her daughter, Mrs.
Wasmar, who will spend the week vis-
iting at the home of her mother at
Lathrop.

Mrs. Geo. Little of Miss Moreau, of
Stephenson, spent Saturday shopping
in this city.

Miss Florence Needham of Lena,
Wis., is visiting with her father for
a few days.

William Abramson, of Buffalo is vis-
iting with relatives in the city for a
few days.

Mrs. Amos Parkhurst left yesterday
for Negaunee to spend Sunday with
friends.

The condition of Mrs. S. J. Todd is
most critical at the home of the fam-
ily, at 417 South Elmore street.

Edward Gustafson will leave tonight
for Kenosha, Wis. where he will take
a position with the Postal Telegraph
company.

Walter Hansen of Negaunee is in the
city on business.

Attorney and Mrs. James S. Wood,
of Manistique visited with friends in
the city yesterday while enroute from
Chicago to their home.

ALLIES GIVE AID

(Continued from page one.)

London, Oct. 23.—According to a
statement issued by the Serbian min-
ister to England, cables from his gov-
ernment at Nish this morning an-
nounced that the Austro-German of-
fensive south of the Danube, and along
the Save river had been suspended
and that in some places the Serbians
had begun offensive movements.
The news was received with ming-
led feelings by military observers here
who while confident that the Serbians
had not yet begun their general re-
sistance, were of the opinion that far
more allied assistance would be ne-
cessary to accomplish the results an-
nounced by the Serbian minister.

Color is given the Serb reports by
the fact that Berlin's official state-
ment today contained no reference to
operations south of the Danube and
along the Save, and that the Bulgari-
an statements admit that the Serbs
have developed strong resistance.

Further cheering word came from
the Serbian headquarters when it was
announced that the Russian general
attached to the Serbian headquarters
had announced that Russian forces
would land on the eastern coast of
Bulgaria within two weeks.

Rome, Oct. 24.—The Italian fleet is
taking part in the bombardment of
Dedegatch and other points on the
Bulgarian coast. The allied fleet is
bombarding several points. Sofia re-
ports that little damage has been done
thus far, but it is believed that Dedeg-
atch, which is poorly fortified can be
reduced at any time the allied fleet
desires to accomplish that result. For
the present, however, military ob-
servers say, there is little to be gained
by so doing and it is believed the
bombardment is more or less a demon-
stration calculated to keep both Tur-
key and Bulgarian in a state of uncer-
tainty compelling them to maintain
troops in coast towns and thus prevent
ing their being used in the Serbian
campaign.

London, Oct. 23.—Reports were re-
ceived here today that General Von
Hindenburg's drive against Riga, up-
on which the Germans were pinning
their hopes of forcing the Russians to
cease their offensive in the south, had
been checked by fierce Russian on-
slaughts and that at several points
the Russians succeeded in forcing the
Germans to retreat slightly. Mean-
while, Berlin admits that the Germans
and Austrians in Galicia have again
retreated before the Russians and
lost an additional number of cannons
but field artillery and machine guns
were saved.

That the Russians are carrying on
a most vigorous offensive everywhere
is evidenced by the reports from Ber-
lin, which say that near Tarnow,
the Russians made a desperate attack
but were repulsed over the greater
part of the line of attacks. This leaves
the inference that the Russians forced
the line at some points.

The Russian successes are said to
have created a strong impression in
Roumania, and also in Bulgaria, where
where the entrance of Bulgarian into
the war on the side of the central
powers is unpopular.
