

## ORGANIZATION IS LAUNCHED

### RETAILERS OF DELTA COUNTY TAKE FIRST STEPS TOWARD FORMING SOCIETY FOR MUTUAL BENEFIT

Retailers of Delta county last night launched an organization, which in two weeks will become a permanent factor in the industrial affairs of this county. Over 40 retailers of Escanaba, Gladstone and the smaller villages of Delta county, met at the Elk's temple here last night and discussed the plan for the organization that will have for its prime object the improvement of the business of its members.

Matters of mutual interest were discussed and at a meeting to be held at the Elk's temple in this city on Tuesday evening, Nov. 9, the society will select a name, elect officers and adopt a constitution and by-laws.

A committee was named last night to frame the constitution and by-laws. A committee of three Gladstone men present was named to interest all of the Gladstone merchants, while a similar committee of Escanaba businessmen was named to bring into the society all of the retailers of this city.

The society is planned for the mutual benefit of all store owners in Delta county, taking in the merchants of the villages and cross roads on a footing with the large city merchants and making the society one that will serve the owner of the small store as fully as it will the owner of the large stores.

It is believed that there is a wide field for such an organization among the merchants of the county and in its perfection, plans will be carried out similar to those that have been adopted by numerous successful combinations of county merchants in many of the counties of the lower peninsula.

## INTEREST RAMPANT

Gridiron interest is rampant through out the city in the game to be staged at South park on Saturday, when the Menominee high school team will clash with the local high. Menominee's team has this season met no high school squad of standard strength, thus making it difficult to gain a line on the playing ability of Escanaba's ancient gridiron enemy. The locals have been carefully drilled in preparation for the clash of the present week end and while Escanaba has suffered two defeats at the hands of heavier teams, much of the sting of earlier defeats would be wiped out by a victory over Menominee. The Menominee team will be accompanied here by a great band of rooters, while it is certain that Escanaba's partisans will turn out for the contest as never before, making up what promises to be the greatest crowd ever assembled in this city to witness a high school football game.

## LAST BUSINESSMEN'S MATINEE ON TODAY

The last of the series of businessmen's matinees that have been given twice weekly at the Delft theater, will be staged at that amusement place this afternoon. It was announced last night that all outstanding tickets must be redeemed at the shows of this afternoon as after today they will not be honored.

## FALSE ALARM WAS TURNED IN

Evidently hoping to see the new automobile fire truck rush to the scene, mischievous boys last night turned in a false fire alarm from the high school building. The new truck is not yet formally accepted by the city and the alarm makers were disappointed when only the team and department members from No. 1 station responded to the call.

## RUMMAGE SALE OPENS TOMORROW

The rummage sale under the auspices of the Ladies of the Presbyterian church, will start on Thursday and will continue over Friday and Saturday. The sale is to be held in the building recently vacated by Blomstrom and Petersen on Ludington street.

## MAKE THEM WASH GLASS

Police officials have adopted a unique form of punishment for boys and girls who are caught in the act of marking windows with soap and tallow about the city. Each body of culprits captured are marshaled into a window washing force and with a policeman in attendance are required to wash every window, bearing a defacing mark, in the block where the offense occurred. Two crews of involuntary window washers were at work on Ludington street, under police supervision, on Monday night and again last night another crowd of window markers was initiated into the gentle art of window cleaning.

## ABRAMSON IS PROMOTED

Harry Abramson, for the past five years manager of the local office for the Postal Telegraph company, has been promoted to the management of the Postal office at Racine, Wis. Mr. Abramson will leave on Friday for the Wisconsin city to assume his new duties. Carl Lang, for some time employed as an operator at the local office of the Western Union Telegraph company, will succeed Mr. Abramson as local manager of the Postal. The promotion from the local office to the management of the Racine office is a considerable promotion and comes in recognition of the excellent service rendered the Postal company by Mr. Abramson in this city. The promotion that has come to the local man as a reward for his energy and efficiency is a matter of great satisfaction to Mr. Abramson's host of friends in this city.

## NEW PLANT IS TO OPEN TOMORROW

Announcement was made yesterday of the formal opening to public inspection of the new milk clarifying and pasteurizing plant that has been erected by Emil Lied, of the Pine Ridge Dairy, at 504 South Oak street. The plant is the only one of its kind in the upper peninsula and several weeks have been consumed in installing the machinery in the new building here. The formal opening to the public at the plant will be held on Thursday and Friday, when experts will be in attendance to explain the operation of the machinery to all callers.

## FLAT ROCK GIRL WAS SURPRISED

Miss Flora King of Flat Rock was taken completely by surprise at her home on Monday evening. A party of fifty-one walked into her home and throughout the evening passed a most enjoyable time. Music and dancing was indulged in and until midnight the guests made merry. A most elaborate luncheon was then served, and before departing the happy guests presented their hostesses with a very handsome bracelet and a ten dollar gold piece.

Mrs. Vincent Eccles and son left last night for a visit in Chicago. Mrs. E. C. Pellow and sons, Robert and Thomas of Negaunee arrived in the city last night to visit at the home of Mrs. Mary Carroll.

## INFLUENCE WIDE SPREAD

### INTERNATIONAL COMPLICATIONS MAY DEVELOP FROM MUNITION PLOTS DISCOVERED HERE.

(Special to The Press.)

New York, Oct. 26.—The latest developments in the bomb plot investigations are:

Max Breitung, the only man named in Capt. Flynn's complaint who is not under arrest, hurried to New York to give himself up.

Three prisoners are transferred to Federal custody and held in twenty-five thousand dollar bail.

More explosives were discovered in New Jersey.

Edward N. Breitung, cousin of Max, denies he ever contributed to the Fay-Scholz fund.

Secret service officials believe Fay and Scholz carefully rehearsed their confessions to conceal men of far greater prominence.

(Special to The Press.)

Washington, Oct. 26.—Evidence that officials high in the councils of the administration regard the wide spread munition plots as potential of international complications, leaked out here tonight. The United States secret service has taken full charge of the department of justice, the facts as soon as ascertained will be submitted to the department of state.

The department of state considers the Fay bomb plot, upon the evidence thus far disclosed, as one that involves the relations toward the United States and of one of the belligerent powers, rather than one affecting mere individuals. It is feared that when all the facts are ascertained this plot may involve at least one nation as the directing force.

That President Wilson is giving this matter his personal attention, was evidenced today when he held a long conference with President Gompers, of the American Federation of Labor. Mr. Gompers, through his intimate knowledge of labor, has come into information concerning this latest attempt to stop the supply and shipment of war materials. State department officials believe the present activities to be only a part of continuing the plan of operations against the allies, by using the United States as a base.

## IS THE CHAMPION WOMAN BOWLER

Miss Litta Norton is the champion woman bowler of Escanaba. Last night, at the Delft club alleys she hung up an average for the evening of 137, making a record that has not been approached by other women bowlers of the city. A large number of women bowlers are to be found at the Delft alleys each afternoon and evening of the week.

## AUTO VICTIM GIVES THANKS TO HELPERS

W. J. Hatton, whose automobile turned turtle on the Gladstone road on Sunday, yesterday issued an announcement thanking fellow motorists and others for the assistance rendered him and members of his party at the time of the accident. Other motorists assisted Mr. Hatton in righting his machine while several volunteered to bring members of his party to their homes in this city.

## GETS NEWS OF A LUCKY PURCHASE

The management of the Fair Savings Bank store yesterday received a telegram from Joseph Zuckerman, manager of the clothing department now in Chicago, of the lucky purchase of a large quantity of goods for his department. Mr. Zuckerman will return to Escanaba at once and arrangements for a sale in that department will be announced in a few days.

## DEER SEASON TO OPEN ON NOVEMBER 10TH

Through a typographical error in the Press of yesterday morning, it was announced that the deer hunting season, this year will open on Nov. 1, when in fact the legal season for shooting deer does not open until Nov. 10, continuing to Nov. 30.

## CLUB HELD A MEETING

Members of the Catholic Women's club were entertained last night at the home of Mrs. S. W. Brennan, on South Georgia street. A literary program of marked interest was presented by members of the club and following which a delicious luncheon was served.

## QUARTETTE SCORED HIT

A capacity audience of delighted music lovers last night paid homage to the All Brothers quartette as the opening number of the winter chautauque, arranged at the First Methodist Episcopal church. The members of the quartette proved themselves to be talented musicians and the hit registered by them was well reflected in the encores that followed every number. The program was, without doubt one of the best of its kind ever arranged in this city.

## CAST READ THE PARTS

Members of the cast selected to present the home talent play that will be given here under the direction of A. Courtney White, for the benefit of the Clarity committee, of the Escanaba Woman's Club, met last night at the home of Mrs. Edward Erickson, chairman of the charity committee. The different parts of the play, that has been selected for presentation, were read over and plans arranged for the beginning of rehearsals immediately.

## KRATZE BROTHERS SALE OPENS TODAY

After weeks of preparation Kratze Brothers' big stock reducing sale will open to the public this morning. Newspaper and poster advertising have been used in abundance in this city and the surrounding district to arouse public interest in the big sales event and it is confidently expected that all sales records for the store will go by the boards today. The exterior of the front of the store has been literally plastered with advertising banners while within the store the stock has been conveniently placed on counters and tables for quick handling throughout the ten days the sale will continue.

## A HOUGHTON MAN IS CAUGHT HERE

Wanted at Houghton on a criminal charge Edward Carr, a sailor employed aboard the steamer W. J. Grammer, which is discharging a cargo of coal at the Reiss Coal Company's dock, was arrested by local police officers yesterday. The prisoner was lodged at the police station and last night an officer arrived from Houghton to take the prisoner to the Copper Country this morning.

Women's Guild of St. Stephen's Episcopal church will meet with Mrs. Leslie French 600 South Charlotte St. Wednesday at 2:30 o'clock.

## NEPHEW IS DEFENDED

### E. N. BREITUNG SAYS MAN INVOLVED IN ALLEGED GERMAN BOMB PLOT IS GUILTY OF WRONG

(Special to The Press.)

Marquette, Mich., Oct. 26.—Max Breitung, my nephew, who is accused by the New York police of being mixed up in this alleged ship-blowing plot, left the Stratmore hotel in Chicago at 7 o'clock this morning for New York city and will, upon arrival there, present himself to the officers who are said to have a warrant for him," said E. N. Breitung of this city and New York, at his office in the Savings Bank building this morning.

"The idea that Max is mixed up with bomb plotters is the height of absurdity. He is no more connected with Wilhelmstrasse agents than you are. I got a wire from him this morning. He had read the morning papers and decided to leave at once for New York to face his accusers."

"I am not at all alarmed over the fact, particularly because, as a matter of fact, I was accused of being a German spy. Almost anyone can acquire that distinction nowadays. But someone in New York made it so unpleasant by their constant insinuations and bother, that I finally appealed to the state department in Washington, where I am well known. I also went to a couple of the more persistent newspapers and after a long argument, had the matter settled."

"As far as Max is concerned, there may be an explanation for bringing his name into this ship-blowing matter; they might bring him in, for that matter, and I couldn't help it. Max has probably contributed, as I did, to various relief funds. I have given many sums of money for all kinds of charitable and relief purposes and for all nations involved in the war. Naturally, some one might have secured money under false pretenses. I have no guarantee that for instance \$100 I gave to a relief society a few days ago, just as I left New York, will be actually used to buy tobacco and other necessities and little luxuries for German prisoners in the allied detention camps. I have also given for Belgian relief, for Armenian and other relief. If some fellow got my money and bought bombs in lead, it is easy to see how I could be accused of conspiracy. And you can believe me when I tell you that if Max's name is connected with these men, it is because he contributed to some charitable or relief fund. The moneys of which were diverted to other uses without his knowledge."

## UNCLE SAM BUYS KIRSTIN PULLERS

The A. J. Kirstin Co., through their western branch at Portland, Ore., have delivered to the U. S. government to be used in their different agricultural departments and forestry service, four of the latest type Kirstin One- Man Stump Pullers. These machines were sold as a result of extensive tests of the government and shows the superiority of the Kirstin over all other methods.

The government says their pullers pay for themselves in four months which is a most favorable recommendation when coming from such an indisputable source. It is felt that a very large business will be done in this direction.

## DIRECTIONS WRONG ON BIG FLAG STAFF

It remained for County Surveyor Marcus McNabb to discover that the men who had charge of the work of erecting the iron flag staff at the court house grounds, were considerably muddled in their sense of directions, when the work was carried out. At the summit of the pole is erected a weather vane, mounted over the usual arms that are supposed to point north, east, south and west. As the pole is erected, the north arm points far into the northwest while the other directing arms are correspondingly as far out of position.

Mrs. Amos Parkhurst has returned from Negaunee, where she spent Sunday with friends, and is visiting for a few days at the home of Mr. and Mrs. W. W. Caven, before leaving Escanaba permanently.

## REBEKAHS TO HOLD A BASKET SOCIAL

Members of the Rebekah lodge are making plans for a basket social to be held at the Odd Fellows' hall tomorrow evening. The event is to have a number of unique features and it is expected that it will be largely patronized.

## HOLD WOMEN FOR SHOOTING

(Special to The Press.)

Chicago, Ill., Oct. 26.—One man was killed and two others are known to have been wounded, perhaps several in a riot between rival mobs in the garment workers' strike tonight. It was reported to the police that ten others were seriously hurt but this could not be verified. Three women were arrested charged with complicity in the shooting.

## NEW SECTION IS ORGANIZED

A new department of the Woman's club was organized at the Public Library Monday afternoon. This department will be known as the Literary and Art section. The subject for the year's study will be Modern Drama and Dramatists, but the program is only a tentative one at present. The plan is to take up one dramatist and his works at each meeting. Thus, each afternoon's program will consist of a general critical paper on the dramatist selected, and then the reading of one of his plays, or parts of it, followed by a general critical discussion by the whole section. Later some of these plays will be presented without action. A play can be made very entertaining in this way, and with practically no preparation.

The first regular meeting of this section will be held in the lecture room of the Public Library, next Monday afternoon, November first, at four o'clock. The program arranged for this meeting is: a paper on "How to Criticize a Play," the reading of a short play, the title to be announced later, and a general discussion of this play, based on points brought out in the opening paper.

A very short special meeting of those interested will be held directly after the regular meeting of the Woman's club on Wednesday afternoon. It is hoped that a large number of women will be present at this meeting and will join the section permanently.

## LIVE WIRE DANGLED IN STREET YESTERDAY

When one of the power cables on the line of the Escanaba Traction company, suddenly parted at Ludington street and Harrison avenue, shortly after noon yesterday, the end of the heavily charged wire lay unguarded in the street for some time. Officials of the Traction company rushed to the scene as soon as the alarm was given and policemen and firemen guarded pedestrians and rigs from the wire until the power had been turned off and it had been again hoisted into position.

## SURPRISE PARTY WAS ARRANGED

Last evening a surprise party has been held at the home of Mr. and Mrs. Frank Groos of Wells in honor of Mrs. Groos' birthday. A number of friends and relatives of Escanaba were in attendance.

Five hundred was played during the greater part of the evening, after which refreshment were served. All of the people who attended enjoyed the surprise of Mr. Groos. After spending an evening full of enjoyment the guests returned to their homes at an early hour this morning.

## SERBIANS GET TOWN

### RELLEGATED WARRIORS FIGHT VALIANTLY AS HELP IS PROMISED WITHIN FIVE DAYS.

(Special to The Press.)

London, Oct. 26.—Serbian troops have recaptured Vukovar, south of Fiume, the Serbian army has secured the main railway station and the town is again in their hands.

The news of the recaptured town is the out of 100,000 Serbs that are still in the hands of the German army. It is reported that the Serbian army has been ordered to retreat from Vukovar and the Balkan troops attacking from the Balkans have captured the town of Vukovar. The Serbian army has been ordered to retreat from Vukovar and the Balkan troops attacking from the Balkans have captured the town of Vukovar. The Serbian army has been ordered to retreat from Vukovar and the Balkan troops attacking from the Balkans have captured the town of Vukovar.

## AUTO DOWN EMBANKMENT

A Ford touring car driven by Mrs. Westwood, of this city, was the cause of the car, which was completely wrecked and set on fire, when it was driven into the embankment of the highway near the Gladstone city limits and plunged down a steep embankment. The car was turned on its side and sunk but both the driver and the owner of the car escaped from the accident with but minor bruises. Ecklund was driving Mrs. Westwood to Gladstone and was running at a fair rate of speed. He ran too close to the edge of the road, approaching the hill, leading into the embankment and when the car suddenly skidded it dashed down the embankment at the machine nearly buried itself in the embankment, bordering the street railway tracks, but did not turn over and to that fact the driver and Mrs. Westwood owe their escape from at least serious injury.

## RITCHIE IS DEFEATED

(By Freddie Welsh, Lightweight Champion of the World.)

(Special to The Press.)

New York, Oct. 26.—Johnnie Dundee defeated Willie Ritchie in their ten round fight tonight. It was a hard, slashing fight and Dundee deserves lots of credit for his showing when you consider he was forced to give away about nine pounds.

## CUT DOWN LOSSES ON GREAT LAKES

In an effort to minimize the dangers of fall navigation Secretary Redfield, of the department of Commerce, has asked the Great Lakes shipping interests for their cooperation. He particularly cautions them against overloading and enjoins the greatest care in handling the vessels. In reply, President Livingston, of the Lake Carriers' association, assures that nothing will be left undone to minimize the risks.

The past two years have, as a matter of fact, been seasons of great caution in the lake shipping. The lesson of the November storm of 1913, the most disastrous that ever swept fresh water, have been applied. In this storm an unprecedented number of ships went down, and the loss of life was the heaviest on record. One of the worst losses was that of the Henry B. Smith, which sailed out of Marquette harbor while the storm was still at its height and went down within a few hours, with over twenty men.

Secretary Redfield writes as follows: "If I am correctly informed pressure upon the transportation companies on the great lakes is likely to be unusually severe this fall up to the very close of navigation. This will arise from the need for transporting the largest possible tonnage of ore to supply the active iron and steel industry through the winter and also from the enormous crops of the northwest, for the prompt handling of which sufficient railway facilities may not always be available.

"The situation, therefore, may call for the fullest use of all obtainable vessels as late in the season as practicable.

"Under these circumstances risks may be taken which under ordinary circumstances would be avoided. Under the pressure of supposed necessary cargo capacity may be taxed to the utmost and precautions may be neglected in the rush of work which may well mean the loss of life and property should a severe storm catch vessels unexpectedly during the coming boisterous weeks. I refer of course to freight vessels only.

"It is not my wish to criticize in advance nor to assume any purpose of neglect. In two important respects, however, the department has no power under the law to control dangerous practices, if and when they exist and it is concerning these in particular that I now appeal to you to warn vessel owners in advance of the danger that may follow if these matters are neglected.

"As regards the overloading of vessels, the power of the department would end when the inspector called the attention of the captain or other controlling officer to the fact of such overloading. If, however, the captain or owner chooses, the vessel may proceed and the law can not stop her. The same is true as regards the trimming of cargoes and the stowing of goods. As to both these it may be said that the self-interest of owners and captain would lead to taking proper care. Experience, however, shows this is not always so. Many owners, many captains, doubtless the greater number by far of both, will take care in such matters. Some captains, however, will hesitate to take the care they wish if they feel the owners are pressing them for time and cargoes. Some owners will take risks for a great stake that their own sober judgment would not approve were the reward for passing the risk less visible. In both cases the responsibility that exists toward the crew of the vessel is overlooked, and I can not too strongly urge on you that this is a grave responsibility which can not be set aside.

"I trust, therefore, that you will take such measures as will bring these

## RUSSIA'S LUST CAUSE OF WAR

New York, Oct. 25.—Russia's "lust of conquest and of expansion" is blamed as the immediate cause of the war by County Albert Apponyi, the distinguished Hungarian diplomat, who is well known in the United States. In a letter to one of his American friends a member of the world peace foundation, published in The Times, Count Apponyi declares that this is "a Russian war of aggression and conquest, carefully planned and cunningly prepared."

"Germany was thrown into the war against Russia by her fidelity to the treaty of the alliance which binds her to us, the county says; 'she had nothing whatever to do with its origin. The German government knew nothing of the Austro-Hungarian ultimatum to Serbia before it was sent; we have not been—as you seem to believe, 'ill advised' by Germany. On the contrary, we acted entirely on our own responsibility, and before God and man we accept that responsibility with a clear conscience of having been throughout in a state of lawful self-defense.

"How on earth can you say that France and England are fighting for those principles which America upholds, when these two powers are in alliance with Russia, when the clear result of their joint victory would be the expansion of the latter, which means the expansion of all the horrors which her rule represent over territories number 30,000,000 to 40,000,000 inhabitants and enjoying now the blessings of western liberty?"

"Germany's only ambition is to live in safety, to develop in freedom and fair, peaceful competition the administrative forces of her people. If she had to set up a military establishment of the highest efficiency, it was only because she stood under a constant menace of aggression from two sides.

"It is astonishing that a great part at least of American public opinion fails to see these simple truth and to grasp these out-standing facts. It is more astonishing still that America flees the war by providing one beligerent side with its implements and that the American peace societies, verbi in denouncing nations upon whom war has been forced by wanton aggression, have not a single word to say against these unfair and homicidal practices of their own country.

"At all events the policy of her present government, the manifest unfairness of her so-called neutrality, has unfitted America to act as peacemaker, as mediator in the present world conduct. It is a splendid opportunity which has been thrown away under the pressure of Mr. Schwab and company and for the purpose of filling his bag with bloodstained money."

DETROIT YOUTH IS FINED ONLY \$500 FOR BEING A FLIRT

Detroit, Oct. 23.—The most severe punishment ever imposed upon a flirt by a police justice, was handed to Chris Obrowski, 19 years old. Justice Sellers found him guilty of accosting a woman and sentenced him to pay a fine of \$500 or serve six months in the house of correction.

According to Detectives Quinn and Gill, they were called to Michigan avenue and the boulevard Monday afternoon when a citizen complained that Obrowski was endeavoring to induce a young girl to accompany him. They followed him, and when he reached the site of the new Elks' temple, about the time the cornerstone was being laid, they saw him approach the woman.

He became very abusive when arrested.

HOW TO BE EFFICIENT.

Nothing taps the vitality like kidney trouble. It causes backache, head ache, stiff joints, sore muscles, "all ways-tired" feeling, rheumatism and other ills. To be efficient, you must be healthy. Foley Kidney Pills strengthen the kidneys, help them do their work of filtering out from the system the waste matter that cause the trouble. Sold everywhere.

The Feeling of Safety

is one that every person considers in committing his interests to a bank. Safety does not depend upon size of capital or amount of deposits. Good management, responsible stockholders, active directorate determine the question of safety, and in these attributes the State Savings Bank stands high.

The State Savings Bank  
ESCANABA, MICH.  
CAPITAL AND SURPLUS \$120,000.00

People You Know; Things You Don't

To-day is My Opening Day Any child accompanied by a parent or guardian, or one who makes a purchase will receive a fine lead pencil or ice cream cone FREE. Margaret Gallagher

# FRENCH-GERMANS RESTING TOGETHER

Paris, Oct. 23.—"We took" everything to the edge of the horizon the first day," said an officer standing on the first line French trench whence a wave of men 15 miles long rased on the morning of Sept. 25 and dashed on from one to five miles to form the tidal rush of soldiers was stopped.

The correspondent, in his first view of the field of the great battle in the Champagne, looked across a rolling land whose thin soil was studded with graves and thickly sprinkled with dwarf pines, which stood out against the almost snow white system of chalk like redoubts, trenches, traverses, communication ditches and other defensive constructions by which German military science had in vain sought impregnability. The population was meagre in this camp of Chalons, where the French army had fought to regain the old review ground, which for a year has been the theater of relentless sap warfare. Only the village of Perthes, whose slight cluster of houses have become typical ruins through shell fire, was in sight from the spot.

Walking over the course of the French advance, the correspondent witnesses the results of the most powerful defense against the most powerful attack of the war. The famous hill, the battle of Tahure, the occupation of which clinched the French success, resembled a small wooden hill in an eastern American state. Shells were seen bursting at a distance over the railroad at Somme-Py. Thus the important German transport line has been cut or destroyed by French gas fire, rendering the railroad useless.

The prodigious labor done by the French before the attack is indicated by the transport road to miles long, and a winding communication ditch six feet deep, six feet broad and five miles long, which they had cut through chalk of the consistency of soft stone to enable them to move rapidly under the cover of their shell fire for the assault. Though this took three weeks and more after the battle, the ground was still strewn with German shells and hand grenades that had not exploded and French soldiers were yet gathering and sorting piles of German war material.

Here and there, sometimes in a shell hole, some times in a dugout, the German dead had been buried. At one place 34, and at another 16, as a cross over the common grave revealed, unidentified French dead had also been laid at rest. Close to the cemeteries, where were buried Germans, who had fallen during preceding battles, are newer cemeteries for the French, the graves in both being marked by wooden crosses bearing the names of the fallen. Thus are one time enemies now sleeping close to one another.

Considering the immensity of the operation—at least 1,000,000 men were engaged on both sides along the narrow front it was amazing how apparently small had been the number of French casualties. Officers, who had participated in the charge, said the German losses had been heavier than the first official estimate

DELIGHTFULLY REFRESHING

## NEGOTIATIONS ARE NOW OPEN

New York, Oct. 25.—Close on the heels of a dying season the Hot Stove leaguers have begun their annual bombardment. Hints and rumors of big deals in baseball livestock, impossible to merit attention, were flying thick and fast in baseball circles here. One which gained more credence than others was that of a three-cornered deal in which the Red Sox, Athletics and Yanks are involved. It has Frank Beyer going to the Yanks, Fritz McLean to the Red Sox and Larry Gardner to the Marksmen. Cash, of course, figures in the switch.

Several things gave an air of authenticity of the rumblings, one of which is the fairly well known fact that Bill Carrigan would like to have a new man on third next year in place of Gardner, who is a veteran and is slowing up, as shown by the work in the big series. Another is the relentless manner in which the Yankee owners have been endeavoring to get Baker's name to a New York contract.

The Yank owners already are known to have offered \$25,000 for the home run king during the playing season. The deal, it appears would be beneficial all around.

Connie Mack is sorely in need of a third baseman and Gardner's acquisition would steady Mack's youngsters. The addition of Baker would certainly make the Yanks more popular with Gotham fans, and Maisel, would plug temporarily at least a fair sized hole in the Boston infield.

Fred Seodgrass, former Giant outfielder and now a member of the Boston Braves, will manage the Vernon club in the Coast League next season, according to a well founded report.

# CZAR IN 12 HOUR DAY RULES ARMY WIVES AND MOTHERS SMILING TO CELLS

Petrograd, Oct. 23.—The following authorized description of the emperor's life at the front has reached Petrograd: "Headquarters has been established in a small two-story house in a White Russia city, the name of which is necessarily omitted. Emperor Nicholas occupies two rooms on the second floor—one as a bedroom and the other as an office. On the same floor are minister of the court, Gen. Baron Frederick, and palace secretary Nicholas, each of whom occupies a single room. On the first floor are the emperor's physician and several persons of his suite. The number of servants has been cut to the minimum.

"Near the house in government buildings and hotels live Grand Dukes Cyril and Boris and Dmitri Pavlovitch and others of the temporary court. "At 9 o'clock in the morning the emperor, attired in a field uniform, walks to the offices of the general staff accompanied by one of his officers. With Gen. Alexieff, chief of staff, the emperor reads the reports and issues orders until 1 p. m. He informs himself concerning the conditions on all parts of the immense front, examines maps and discusses events. To the luncheon in the emperor's quarters are invited the high military officers and the foreign military observers, altogether a dozen persons. The luncheon is brief and simple. No wine is served.

"After luncheon the emperor chats with his guests. Two o'clock finds the emperor and Gen. Alexieff again occupied with reports in the emperor's private office. In mid-afternoon the emperor motors for an hour or two and then returns to work until dinner is served at 7.30 o'clock. The dinner is of three courses and is less formal than the luncheon.

"At 9 o'clock in the evening, after brief conversations with his guests, the emperor returns to his office and works far into the night. Gen. Alexieff frequently going there for a conference. The general staff works night and day."

Janesville, Oct. 26.—When Deputy Sheriff Wogan boarded the train to Waupun prison, three handsomely dressed women with him were smiling and their picture hats and tailor made gowns looked out of place. Two months were about to be separated by prison bars from their husbands and children and the third from a husband who had sacrificed honor and position for her sake. After their plea of guilty Saturday Louise Nelson, Esther Halcre and Grace Greene, three Rock county matrons, took their sentence of eighteen months in prison as a survivors of the raid on Beloit and Janesville stores, their cases were continued from time to time.

Mrs. Halcre and Mrs. Nelson expressed regret at not being able to keep engagements in Rockford Saturday evening and stated they did not have proper toilet articles in jail. They apparently enjoyed the Sunday dinner prepared in their honor. They were the only prisoners except a fellow awaiting trial for theft.

Sunday morning the three women and the deputy sheriff started for the prison. The women did not appear a bit more saddened than they had on Saturday and even laughed and joked with each other. Only Mrs. Green was a bit sad. Hers had not been a happy life. She was born and brought up in Janesville and married her first husband here. Her husband was deserted by him for another woman. At Lansing, Mich., he met death at the woman's hands when she found a letter from his wife asking him to return. The woman is in prison at Detroit.

## IOWA IS BEATEN IN LIQUOR SUIT

Chicago, Oct. 25.—A permanent injunction has been issued by Federal District Judge Carpenter restraining the Rock Island Railway Co. from refusing to accept and deliver consignments of liquor to points in Iowa and to agents of the consignees on the written order of the latter.

C. A. Robbins, assistant attorney general of Iowa, opposed the order on the ground that it compels the railroad officials to violate the law of Iowa, which directs that liquor consignments must be received by the consignees in person.

The order of the court to the receiver of the railroad, Jacob M. Dickson, provides that the consignees must designate the draymen or other carrier to receive the liquor, and that the shipment must be marked for personal use and private consumption.

The temporary injunction was granted six weeks ago to Theodore Haman Brewing Co., St. Paul; the Minneapolis Brewing Co., the G. Heileman Brewing Co., the G. Heileman Brewing Co., La. Cross, and the Rock Island Brewing Co.

## FIRING SQUADS MISS WOMEN

Amsterdam, Oct. 25.—The Telegraph publishes an article from Antwerp under the title The Paternal Administration of Belgium, in which it is said that some weeks ago a French woman, Mme. Louise Frenay, was executed at Liege.

The correspondent says that the fact of the German firing squad was not accurate, and that, as in the case of Miss Edith Cavell, the commanding officer of the firing squad was obliged to put Mme. Frenay to death by shooting her through the head with his revolver.

The Vossische Zeitung's Brussels correspondent, describing the trial of Miss Edith Cavell and the other persons accused with her, says: "The evidence showed the existence of a regular organization to bring officers and men of the allied armies who had been left behind in Belgium over the Dutch frontier. Most of the forty-five of the accused did not deny the accusation. On the contrary they declared they considered it their duty to help their country."

"The leader of the organization was Prince Reginald de Croÿ, who could not be arrested, but whose wife, Princess Marie de Croÿ was among the accused. The chief accomplice of the princess was Miss Cavell.

"British and French soldiers were smuggled over the Dutch frontier with the help of the Countess de Belleville. Regular stages were established and the officers and soldiers were escorted from stage to stage by trustworthy person to a central point in Brussels, which was the British hospital.

"Here they remained until they could safely be taken to Holland, which was done at the dead of night over the suburban tramway line to the frontier. Miss Cavell denied having compelled other persons to lodge fugitives when her own house was full.

The Norddeutsche Allgemeine Zeitung, under the heading English Press Confessions, says: "The Manchester Guardian published an editorial, Oct. 18, about the heroic deeds of a French girl, which were certified by a British officer. This girl shot with a revolver, from behind, two German soldiers who could not be reached by the British. This deed was contrary to the laws of war, but was glorified by the French and English press. If this girl had been taken by our troops and shot by process of law, the English press would never stop talking about the barbarous ways of the Germans in making war; just as it is doing now because an English woman in Belgium who was found guilty of treason, has been executed."

## CHICAGO L RAISES THE WAGES OF 40,000 EMPLOYEES.

Chicago, Oct. 25.—The elevated lines of Chicago announced an average wage increase of 2 cents an hour to their 40,000 employees. This increase was demanded by the men during the strike last summer. The new pay scale dates back to June 1. The men, said to be satisfied with the scale, will vote on the question Oct. 29. The surface men settled their wage fight some months ago.

904 LUDINGTON STREET

## The Woman's Benefit Association Of The Maccabees

The Largest, Strongest, and most Progressive Society of Women in the World.

Non-political and non-sectarian. Offers more opportunities to women than any other society. Good training and future success, love of humanity and protection of helpless little ones.

A splendid opportunity for broad-minded and sympathetic women to join this great fraternal chain of one hundred and eighty-six thousand women banded together for the betterment of their own sex. This Organization has a national reputation for this great work in the interest of women, and has already paid into homes of deceased and distressed members over twelve million dollars, every dollar going into some home in time of want and distress. We cannot begin to record the deeds of loving kindness and sympathy that have gone hand in hand with these disbursements.

This Organization has risen to high position in Fraternal Insurance through the hearty co-operation of its members and has built up by the management of its officers, a reserve of over eight million dollars.

The Woman's Benefit Association of the Maccabees was founded in Michigan by Michigan women in 1892; the cornerstone of its own building, laid in Port Huron, October 22, 1915, being the first woman's benefit association in the world to erect its own building.

Your loved ones are protected by our death benefits; we will see that you have proper burial with our burial benefits. We will take care of you when sick through sick benefits and hospital service.

**First in Fraternity, First in Stability**  
**First in the Hearts of its Members**

We want a competent woman to act as organizer in this locality. For further information write Mrs. Alberta V. Droelle, Great Commander for Michigan, 411 St. Aubin Ave, Detroit, Mich

## PROTESTS ARE NOT YET FILED

Chicago, Oct. 23.—Interference by Great Britain with commerce between the United States and European neutrals, an over supply of eggs and unusual crop conditions are said to be the cause of a sensational decline in the big market today, with a drop of 49 to 50 cents from yesterday's prices.

Washington, Oct. 22.—The fact was developed that the state department has not sent a protest to the British for ign office against the seizure and confiscation of the five meat cargoes recently passed upon by the British prize court.

Neither has it made any representations with respect to the twenty-nine other ships still held for the action of prize courts. Arbitration is what the department expects as the ultimate method of settling the questions that have grown out of these seizures.

Future negotiations with Great Britain on the subject of the packers, it was authoritatively stated, would be as follows: "The department will wait until the highest court in Great Britain has passed on the law and the facts. If the decision is against the packers, the state department, will endeavor to dispose of the question through ordinary diplomatic channels after voicing its protest against the action of the courts on the ground that this government refuses to recognize the orders in council. If Great Britain refuses to settle on that basis, the United States will accept offers of arbitration.

It was pointed out at the department today that as nearly the whole case of the United States against Great Britain refers to oppression of American trade and commerce is epitomized in the case of the packers, action in this controversy foreshadows what will be done in case Sir Edward Grey yields nothing to this government in the presentation of law and facts in the pending note to Great Britain.

## FRESHMAN END MAKES BIG HIT WITH MICHIGAN COACH

Ann Arbor, Mich., Oct. 23.—From the way a certain freshman is performing on the yearling team, Michigan will not have to worry for a reliable end for the 1916 team. This man Weimans, all-state tackle from California, used for a time at full, has been shifted to end, and showed varsity class. He blocked, tackled, and mixed in with veteran skill yesterday, and was fine. He nailed the man receiving the punt nearly every time in his tracks, and with the forward pass variety of a punt that the backs were getting off, this was no easy matter.

**PLAN TO TALK TO JAPAN BY WIRELESS WAVE**

Washington, Oct. 26.—To girdle the globe by wireless telephone is the next ambitious plan in experiments at Arlington, followed the first wireless telephone talk with Paris, announced Thursday. Apparatus at the big Arlington station was today being turned up for a talk with Tokio.

Telephone talks with the orient with out a relay at Honolulu were declared today to be practically certain. The distance of about 11,000 miles, it is believed, can be bridged eventually, although it is expected to meet considerable difficulty and require machinery adjustments taking considerable time.

The telephone company's experts at Arlington expect preliminary to the experiments with Japan and China, to attempt conversation from Arlington to Alaska. The Cordova station will be the reaching end.

Transmission across the ocean, easier than on land, it is hoped, will facilitate communication with Alaska and the orient.

Secretary of the Navy Daniels today reiterated hope that when the wireless telephone is perfected, it may be installed on the fleet and largely supplant the wireless telegraph. Changes in navy wireless apparatus can be made, Daniels said, to permit telephoning and equipment eventually of naval stations with the telephone machinery is contemplated by this means it will be possible to direct movements of the fleet from shore by telephone.

**BIG NINE HAS DWINDLED DOWN TO THE BIG FOUR**

The Big Nine dwindled down to the Big Four, and by the time another week rolls around it will dwindle down to the Big Two.

After the conference battles of last Saturday but four teams remained in the running for the title, Wisconsin (Chicago, Minnesota and the present champion Illinois team. Two of these teams will be eliminated next Saturday, as the Badgers are scheduled to invade Chicago, while Minnesota travels to Urbana to clash with the title holders.

The fine showing of the Badgers against Ohio state has caused the other contenders to fear Wisconsin. Juneau appears to have rounded out a strong eleven, and when the boys clash with the Maroons at Chicago next Saturday the students and alumni will be there in droves to cheer them on to victory. From the showing of the teams so far the Badgers have a slight edge on the Windy City eleven. Ohio State held Stagg's men to a tie, while the Badgers trimmed Wilce's men 21 to 0. The Badgers also made a better showing against Purdue than Chicago did.

Minnesota, is going to give Illinois a stiff battle, despite the fact that the Gophers have lost Solon. The Gophers eliminated Iowa on Saturday, and this week Coach Williams will have his men working hard for the battle at Urbana. These two games will keep the fans in the west pretty busy next Saturday. On form it looks as though the battle for the title will be between the two northern teams this year.

**RAINY YEARS PASSED; COLD WINTER COMES**

Paris, Oct. 26.—The world's rain cycle beginning in 1902, which the French meteorological authority, Abbe Moreaux, director of the Bourges observatory, predicted as the result of his study of the sun's face, is now, the abbe says, ended. He forecasts a series, though not perhaps quite unbroken, of twenty-six hard winters beginning the present year.

According to the abbe it is impossible to say where in Europe the winter cold will be excessive; but probabilities are France will have to face many rigorous winter temperatures many winter seasons during this period. He bases his prophecy regarding coming winter temperatures upon the supposition that the temperatures curve all over the world can be calculated on the same principles as the world's rain curve.

**TWO CHILDREN HAD CROUP**

The two children of J. W. Nix, Cleveland, Ga., had croup. He writes "Both got so choked up they could hardly breathe. I gave them Foley's Honey and Tar and nothing else and it completely cured them." Contains no opiates. Cuts the phlegm; opens air passages. Sold everywhere.

**YOUNG MAN DIES WHILE ON VISIT**

Garden, Mich., Oct. 24.—Died, at the Rutledge hospital, Manistique, Mich., of valvular heart disease, Robert Olmsted, aged 24 years.

The remains were brought to Garden on the 20th to the residence of his aunt, Mrs. Theodore Hazen, and the funeral services were held at the congregational church of this village on the 21st. The Rev. Mr. Ainslie of Rapid River officiating.

The deceased was a son of William Olmsted, formerly of Garden, but now a resident of California, and a nephew of Deputy Sheriff Alton Olmsted of this village. He was brought up and educated by his maternal uncle, Niles A. Coleman of Eagle River, Wis. He had attended a Chicago medical college for two years, but his health failing, he came up to this northern country, thinking a short vacation would place him on his feet again. He had been visiting with his relatives in this village for some weeks, but about a week before he died, he was taken to the Rutledge hospital for treatment, but the case was hopeless, and the Grim Reaper claimed him for his own.

The funeral services were attended by a large concourse of sorrowing friends and relatives, among whom were his brother, Howard Olmsted, and Niles A. Coleman, both of Eagle River, Wis.

Robert Olmsted was a fine, clean, up-standing specimen of young American manhood, and although he had been with us but a short time, his cheerful sunny disposition, and manly traits of character had won for him a large circle of friends in this village.

His sorrowing relatives wish to take this occasion to thank their neighbors for their many acts of kindness in this, their hour of affliction.

H. B. Laing was over from Gladstone yesterday.
