COMMISSION ORDERS BOARD TO MEET HERE

State Tax Commissioners Come To Escanaba on Monday To Review Assessments in Delta County

SUPERVISORS CALLED

Sheriff Iverson Gets Orders To Require Every Member of County Board To Meet State Tax Men

Members of the State Tax Commission will convene in this city at 9 o'clock on Monday morning, to review the assessed valuation of all property in Delta county. Summons were received by Sheriff Andrew Iverson yesterday to be served on all of the supervisors of the county, requiring every member of the board to be present before the tax commission, when that body convenes here on Monday morning.

Each supervisor will be required to appear before the commission with the assessment roll for his township, ward or city and to submit to an examination as to the assessed valuation of all property in this township, ward or city. Simultaneously with the reconvening of the county board here on Monday, the tax commission will open at session at the court house in this city and it is probable that the members of the board of supervisors will be required to remain in the city until all of the work of the commission has been completed.

As it is probable that the assessments in every township and city of the county will be reviewed by the commission, the session is likely to continue through several days. An appeal to the tax commission for a review of property valuations fixed in the county by the board of supervisors at their recent October session, was made by Supervisor Carl P. Mason of Gladstone, following the action of the board in adding \$52,500 to the assessed valuation of the city of Gladstone, over the figures presented to the board by the Gladstone board of review.

(Continued on page four.)

LOCAL PRIESTS GO TO MILWAUKEE

Rev. Father Barth and Rev. Father Feldhaus of St. Patrick's church of this city left last night for Milwaukee on business. During their absence Father Beauchene of Flat Rock will have charge of the parish.

KLUQUALLY KLUB PLANS A SUPPER

As a fitting close of the Escanaba Menominee football game on Saturday of this week, the Kluqually Klub will give a supper in honor of the Menominee team in the building at 704 Ludington street.

Arrangements have been going on for some past two weeks for this special event, by members of the Klub, who have left nothing undone to make it a success. A large attendance has been assured as three hundred tickets have already been sold.

Returns of the larger football games will be posted, so that all who attend will know the scores of their favorite teams. A special table will be set for the Menominee visitors.

Supper will be served from 5:30 to 7:30 p. m. The menu will be as follows: Mashed potatoes, Potato salad, Baked Beans, Beef loaf, Cold ham (home cooked), Pickles, Bread and Butter, Coffee, Cake.

The Kluqually club rooms will be turned over to the Menominee visitors during their stay in the city, making that place their headquarters.

Miss Laura E. Bruhaker spent yesterday in Menominee and Marinette on business.

MATINEE PLANNED

Members of the St. Agnes Guild, of St. Stephens Episcopal church, are rapidly completing plans for the annual matinee party of that organization to be given at Clark's hall on the afternoon of Thanksgiving Day. Eugene Sullivan's orchestra has been engaged to furnish the musical program for the function and every effort is being exerted to make the affair measure up to the successes that have been scored in former years. Invitations for the party will be issued within a short time.

INNOVATION IS PLANNED

OPEN AIR SCHOOL ROOM FOR DELICATE-CHILDREN TO BE PROVIDED BY WOMAN'S CLUB AS SOON AS FUNDS ARE AVAILABLE.

Definite steps were yesterday taken by members of the Escanaba Woman's club to establish an open air school room for delicate school children of the city. All efforts of the club members for the next year are to be directed toward that object and as soon as funds can be raised the open air school room will be launched.

The need for such an adjunct to the public schools is regarded by the club members as imperative as at the present time, children of delicate health are quartered with robust youngsters in the schools, to the detriment of both those who are well and those who are not strong physically.

In other cities the open air school room plan has been carried out with marked success, removing the project in this city by the Woman's club this year through the sale of Red Cross Christmas stamps, will be devoted to the open air school room plan and other undertakings are planned to make the venture possible.

Plans for the establishment of the open air schoolroom were discussed at the first business meeting of the club of the season, held yesterday afternoon at the Pythian Temple and with a large part of the club membership present.

Mrs. C. M. Frost, delegate from the local club to the annual convention of the State Federation of Women's clubs, held recently at Lansing, read a most interesting paper on the work of the state meeting, before the local members yesterday.

The next meeting will be held on Nov. 10, when a reading by Mrs. Harrington, an elocutionist of note, will be one of the features of the meeting.

COUNTY CLERK PEPIN TURNS CHEF TONIGHT

Members of the Escanaba lodge of Moose will tonight be treated to an unusual feast, prepared by an unusual chef. County Clerk A. J. Pepin will turn chef for the night and prepare for the entire membership of the lodge an abundance of genuine French pea soup. In earlier days Mr. Pepin was a chef noted in this locality and that his hand has not lost the deft touch necessary to the pea soup art, will be demonstrated by him tonight.

LOCAL OBSERVER IS ON JOB AGAIN

H. C. Spindler, local observer in charge of the Escanaba weather office, returned yesterday from a three weeks vacation trip to his boyhood home, Olio. D. Samuelson, of the Milwaukee weather office who has been in charge of the local station during the absence of Mr. Spindler, left for his home last night.

NOTICE A. O. H. A regular meeting will be held this evening. Membership contest will be the chief topic. All members are urged to attend this meeting and help in the work of securing our banner A. O. H. class. Signed, A. J. MANLEY, Sec. A. J. HARVEY, Rec. Sec.

TAX BURDEN GETS HEAVY

TOTAL AMOUNT OF TAXES ASSESSED IN DELTA COUNTY EXCEEDS LEVY OF LAST YEAR BY \$111,163.10

The total amount of taxes assessed for all purposes in Delta county for the year 1915 exceed last year's assessments by \$111,163.10. These figures were made public yesterday by County Clerk A. J. Pepin, who has just completed a resume of the taxes assessed in the county for all purposes for the present year.

The total amount of taxes assessed in this county in 1914, including state county, city, township, school, roads and for every other purpose was \$313,333.58. This year the total tax assessments in the county amount to \$424,496.68.

The total assessed valuation of the county in 1914 was \$10,444,968, while the assessed valuation for the present year is \$10,738,998. Or on an increased valuation of \$344,000 taxes in the county are increased \$111,163.10.

COUPLE IS DRIVEN OUT

Charged with breaking into the home of Anton Klitch, at Chandler's Falls late on Tuesday night, Isaac Hagman and John Sodergren, Flat Rock farmers and Alexander Williamson, of Gladstone were arrested before Judge C. D. Melwon yesterday. When their home was attacked by three men, it is claimed by the officers that Mr. and Mrs. Klitch cut through a window and made their way to the home of a neighbor clad in their night clothes. It is claimed that the three men appeared about the house shortly after 11 o'clock on Tuesday night and with a heavy bar broke down the door. One of the men claimed that Klitch owed him \$3 and he with his companions went to the house determined to collect the amount that was due. Each of the men gave bail for their appearance in court on Nov. 3.

GARDEN PRIEST IS HERE IN NEW CAR

Rev. Father Duford of Garden, drove to the city yesterday morning in his new Buick six recently purchased from E. O. Anderson local agent.

Father Duford says that the roads are bad although he made the trip without any trouble. One feature of the trip was that he came all the way without changing gears on any part of the road, and also made it in good time.

E. O. Anderson states that the demand for this type of Buick car is so great that it is hard for him to get the full number of cars to supply his customers.

STALLED RIG IS PUSHED FROM HOLE

The unusual method employed yesterday by Dona Sly, a local drayman, to aid a delivery wagon stalled in a hole in the street on North Dousman, near Ludington, yesterday attracted much attention from spectators. The delivery wagon was loaded high with barrels of apples and the single horse was unable to pull the load through a deep hole in the street.

Supervisor J. P. Miller had called a number of men to aid in extricating the wagon when Mr. Sly appeared with his draying team. Instead of pulling on the stalled rig he backed his wagon against the load of apples and at a command to his horses they plunged backward, pushing the rig and horse out of the hole and they were able to proceed without further aid.

Mr. and Mrs. Lurdean of Bark River were in the city yesterday on business. Patrick Rose of this city, who spent the past few days in the Soo, returned to his home last night.

BODY OF FORMER RESIDENT TO COME

The body of Mrs. William Scott, formerly a resident of this city and who passed away at her home at Iron River after a prolonged illness, will be brought to Escanaba this afternoon for interment. The funeral here will be held direct from the North-Western station at 2 o'clock to St. Joseph's cemetery, Rev. Father Beauchene, of Flat Rock officiating. Those who will serve as pallbearers are: S. W. Brennan, J. S. Doherty, Charles Maloney, Michael Snyder, E. F. Riley and Paul Kelly.

Mrs. Scott spent the early years of her life in this city and among the older residents of Escanaba had a host of friends. She moved from this city to Iron River nearly 20 years ago.

WEDDING BRILLIANT

A decidedly pretty home wedding was that which occurred at the home of Mr. and Mrs. J. E. Johnson, 1813 W. E. 1st avenue, at 7 o'clock, when their daughter, Miss Linnea Johnson, became the bride of Mr. Enal Ditttrich, of Hyde. The ceremony was performed by Rev. C. E. Lund, of the Swedish Lutheran church and was witnessed only by the immediate relatives and a few close friends of the bride and the groom.

The bride appeared in the ceremony in a handsome wedding gown of white crepe de chene and carried bride's roses. She was attended by Miss Alma Larson, as honored maid and who appeared in a gown of pink crepe de chene and carrying a huge bouquet of pink roses. Torsten Johnson, brother of the bride, served as groomsmen.

The home was very prettily decorated and furnished a delightful background for the simple, but impressive ceremony.

Following the ceremony an elaborate wedding dinner was served to the guests.

Last night Mr. and Mrs. Ditttrich left for a visit in Chicago and points in the east. Following their wedding trip they will return to Hyde, where they will be at home to friends after Dec. 1.

The bride has been a popular teacher in the city and rural schools of the county and numbers her friends by the score. The groom is a prominent young lumberman and farmer of Ford River township, holding the confidence and esteem of all who know him.

CLOTHING IS WANTED

Members of the Charity Committee, of the Escanaba Woman's club, have designated Tuesday of next week as "Bundle Day," when every resident of Escanaba will be invited to donate discarded articles of wearing apparel for the use of the poor and needy of the city. The bundles of old clothing and shoes will be collected at the Carnegie Public Library on that day and those who have not facilities for delivering the parcels they wish to donate to the cause, are requested to notify Mrs. Edward Erickson, chairman of the committee and the parcels will be called for.

A number of cases have been discovered in the city where the need of clothing is imperative and it is hoped by the committee members that the response to the appeal made for old clothing will be a generous one.

ROLLER SKATERS TO MAKE MERRY

It is expected that roller skating enthusiasts will be attracted to the Peterson rink this evening in great numbers when an orchestra will furnish special music for the evening. This afternoon the rink will be open to women and beginning skaters.

K. E. Voght returned last night from a business trip to Marquette.

DRY CAMPAIGN ON FOR YEAR

DELTA COUNTY IS TO BE MADE CENTER OF BIG FIGHT THROUGH TWELVE MONTHS PERIOD

Official announcement has been made at Lansing that the campaign for state wide prohibition will be launched for the upper peninsula in this city on Nov. 4. R. P. Hobson and other luminaries of the national dry propaganda, are to come to Escanaba on that date to open a campaign for prohibition that will be continuous until the following November. For twelve months we are to be treated to an ever present campaign on an issue that should draw our attention from our ordinary business for not more than three months at the longest.

In all the counties of the peninsula, where dry petitions were an issue, before the supervisors at their October sessions, excepting Delta and Schoolcraft counties, the petitions for the submission of the local option question were turned down on the advice of the attorney general.

The dry forces of the state, for a (Continued on page six.)

HUSBAND IS IN TRENCHES

That she may be nearer her husband, who is fighting in the English trenches of northern France, Mrs. Vincent Eckles, of this city, will sail on Saturday from New York for London. Mrs. Eckles will go to the home of the parents of her husband in London and where she hopes he will be able to visit his wife and little son.

Mrs. Eckles has been at the home of her mother in this city since her husband was called to the English fighting front from their former home at Calgary. She will be accompanied to New York by her brother, Dr. C. J. B. Kitchen, who left the city last night to meet his sister, who preceded him to Chicago on Tuesday.

BUSINESS BOOMS ABOUT BRAMPTON

Business conditions about Brampton are booming this fall. Several new camps have started up in the vicinity. Albert Larson of Maple Ridge, who purchased a tract of timber west of Brampton has put in new camps and men and teams are at work. W. D. Summerfield also intends putting in a crew of men this week to work getting out timber.

Albert Cheput is starting lumbering also and the Cher-man Land & Lumber company have purchased two more forests near Brampton and will take the timber out this winter. Several families are moving in and around Brampton. W. D. Summerfield, who burned out some time ago has built up again and has a good general store and post office and will put a telephone in soon which will make it more convenient for the people in Brampton as well as the surrounding community.

RESPOND TO A FALSE ALARM

Members of Company No. 1, of the Escanaba fire department, were called out on another false-alarm last night, making the run to Elmore and Ayer streets, only to learn that the alarm had been turned in by mischievous youngsters.

MRS. GALT'S BROTHER IS HOST TO WILSON

Washington, Oct. 25.—President Wilson disappeared from Washington Saturday on another week-end automobile excursion with his fiancée, Mrs. Norman Galt. This time it was to Emmettsburg, Md., where the president was the guest at a luncheon of his brother-in-law to be, Sterling Galt, editor of the Emmettsburg Eagle, and was trailed by an automobile load of secret service men. The party returned in the evening.

GLADSTONE IS BOOKED

The Gladstone city football team will come to Escanaba on Sunday to battle with the local city aggregation at South Park. Both Escanaba and Gladstone have been defeated this season by the Isipenung city team by nearly identical scores, indicating evenly matched teams and a game that will be a battle through every quarter is thus assured. The game will be started promptly at 3 o'clock on Sunday afternoon.

GERARD TO FIX STATUS

AMBASSADOR TO BERLIN INSTRUCTED TO DETERMINE RELATION OF FAY PLOTTERS TO GERMAN GOVERNMENT.

(Special to The Press.)

New York, Oct. 27.—Fresh confessions of the German conspirator Fay, carried the inspiration for the gigantic plan post directly into German foreign office today.

Not only steamships carrying munitions of war, but railroads transporting the same, American plants by which they are manufactured and the docks from which they are transported, were involved in Fay's plans, not by direct order, but by subtle suggestion, he claims he was instructed to act.

This was learned today by the emboldened in a statement which Fay made to William J. Flynn, chief of the United States secret service during two hours that he was subjected to a third degree in Chief Flynn's office yesterday.

(Special to The Press.)

Washington, Oct. 27.—The state department is understood to have called Ambassador Gerard in Berlin today to ascertain immediately what connection, if any exists between the German government and the Fay bomb plotters, under arrest in New York. Unless the Kaiser's government formally disowns responsibility, the relations between the countries will become more acute than at any previous time since the war began.

At a recent conference held by Ambassador Gerard at the German Foreign office within past 24 hours, he is said to have already discussed the international complications which will inevitably arise if the theory of the department of justice is proven correct. Secret service reports are said to disclose close connection between Fay and at least one branch of the German government.

Notwithstanding the denial by Secretary Lansing, it is known that Ambassador Count von Bernstorff has telegraphed a personal disavowal of Fay.

(Special to The Press.)

New York, Oct. 27.—Max Bretting of this city, former resident of Marquette, Mich., the fifth man named in the alleged conspiracy to destroy munition-laden ships of the allied governments, arrived today from Chicago and presented himself at police headquarters where the warrant charging him with conspiracy was formally served on him. Bretting came here from Chicago after reading in the papers that he was wanted. The police said they were unable to find him.

Bail was fixed at \$25,000 and was furnished by himself. Attorneys were ready to look after his interests upon his arrival, having been arranged for by E. N. Bretting of Marquette, Mich., uncle of Max and a wealthy mining man, through the local office of the Bretting interests.

KRATZE BROTHERS SET NEW RECORD

All sales records at Kratze Brothers department store were smashed to smithereens yesterday when a big ten day stock reducing sale was launched at that store. From early yesterday morning until the store was closed last night the different floors were literally jammed with patrons, exceeding the crowd that crushed thru the store on the day of the opening of the firm's new building. The firm's big sales event will continue for ten days.

GERMANS HAVE OPENED ROAD

ROUTE FROM BERLIN TO CONSTANTINOPLE NOW CLEAR THROUGH SERBIA AND BULGARIA.

(Special to The Press.)

London, Oct. 28.—Thursday, 3:20 a. m. The Times this morning prints an article by Lord Charles Bessford, retired admiral of the British navy, one of the foremost naval authorities of the world in which he scathingly criticizes the present administration, declaring that "if we continue our present procedure we will head straight towards disaster before the latent energy of the nation is awakened. We are in a crisis that means life or death to us," he says. "We have no policy, no objective. No decision at any point."

The advocates a cabinet of six for war purposes, three members of which should be the present minister for war, minister for munitions, and the late attorney general.

(Special to The Press.)

London, Oct. 28.—The Germans have opened the road for troops from Berlin to Constantinople. The Teuton army, which crossed the Danube at Orsova has effected a junction east of 1022 Palanka with General Boyajeff's Bulgarians, who invaded Serbia near Ubalovo. Patrols of the two armies met today according to Berlin.

Before a through railway line for the transport can be opened, however, the Austro-Germans will face serious fighting. The opening of a direct route to Constantinople, through Serbia and Bulgaria, is hailed in Berlin as the harbinger of the total collapse of the allies. Jordan-Bel's expedition of the invasion of Egypt, and blow at the Suez canal.

It is declared to be the ending of the next stage of the war in the near East.

The establishment of a route from Berlin to Constantinople has been expected here. Military critics and officials admit the fear that Serbia is to be crushed in the north. In the south, however, in co-operation with the French, some successes have been gained against the Bulgarians.

There is talk in London of a possible attempt to land forces at Enos, in the territory recently ceded by Turkey to Bulgaria, in an effort to cut the Berlin-Constantinople route, which at this point is within sixty miles of the port, instead of sending forces into Serbia. In line with this talk it is reported that Turkey has sent ten thousand troops to Dedagatchi to oppose any move.

There is still hope here that the Allies will get Romania's aid. Berlin states the impression prevails there that Romania will join the Entente forces.

(Special to The Press.)

London, Oct. 27.—It is learned from high authorities that the British submarine blockade of the German Baltic ports is most effective. Russian submarines, cooperating in the vicinity of Lubeck, the Swedish port from which large shipments of ore have been made to Germany, German steamers at Lubeck have been ordered not to sail.

A PROTEST IS FRAMED

(Special to The Press.)

Washington, D. C. Oct. 27.—That Great Britain permits her merchants to deal in neutral European ports in articles denied to the commerce of the United States, is the key note of the document at the state department today. The report was compiled by the agents of United States industries which have suffered severely from the British orders in council and were gathered at first hand. It is understood that Attorney Wilson, representing the packers, initiated the charges.

Peter Christianson of Menominee, an employe of the Carpenter Cook Co., was in the city yesterday on business. J. Ruff, of this city left last night for Bark River where he will visit with his brother for a few days. Mrs. John Proctor has returned from a visit in Green Bay. John Fuhrman, popular merchant of Perkins was here yesterday on business.

5 per cent of our young men are fit for the navy, then certainly we are in a bad position. We could not have fought the Civil war on that basis. Of course we must make some allowances. Not anything like all of our able young men were included in this test, not many of those who would be ready to serve at need. Again, probably many of those rejected could be used in time of real need. Still, one thing is perfectly plain. With all our clubs and gymnasiums and playgrounds and school athletics, we have not begun in the cities to overcome the harm to health and efficiency that is done when a great city comes into being.

Now we need these young men, all not merely because defense is needed and that and always for men, but because we need efficient men for our nation-building far more than for war! Manifestly our cities are still a mighty and a fearsome problem. There is no ground for the man to stand on who begins to argue that "We have done enough." With Tonio's record at 5 per cent, we are at the bottom, and we cannot get out.

CRIPPLED COBBLER GIVES \$65,000 TO VILLAGE CHURCH

Oct. 27.—Wilhelm Perle, a congenital cripple, the recipient of whose life lay in his devotion to the little Methodist church at Brillion, left \$25,000 to the pension fund of the church.

Perle never was able to stand on his feet unaided, and his parents, who brought him to this country from Germany when he was 13, taught him to be a cobbler. He invested his meagre savings in land and the land grew all. All went to the church.

Perle has given me money in a wonderful manner that it became and I shall return it to the church, the cobbler's motto.

During his life he gave \$65,000 to the church. For his last years he reserved the interest on \$25,000 and upon his recent demise it was found that the principal had been left to the pension fund. For twenty-seven years he was preacher, organist and choir leader of the church at Brillion.

Fire Engine's Beginning.

It was not until the close of the sixteenth century that the hand squirt was introduced into England, and they were extensively used in the great London fire in 1666. Soon after the commencement of the seventeenth century the Londoners perceived the convenience that would arise from fixing these squirts to a movable cart, and applying their power through the means of a lever, and the first engine thus obtained was considered a most mechanical achievement.

In a Vacuum.

At the time of the great Galileo it was known that "in a vacuum a feather falls as rapidly as a piece of lead." If we could get rid of the resistance of the air the feather and the stone would be found, wherever tried, to fall to the ground in the same time.

ROOSTER ENDS LIFE AFTER COFFEE DIET

Not Only That but Ten of Tonio's Hens Were Drowned in Rain.

Harwich, Mass.—Gangway! Here comes a wonderful story about some hens that can't sleep nights. Manuel Tonio is the owner. They are brown Leghorns. It seems that Tonio has been feeding scraps from his table to his flock for some time. Lately he has noticed that the flock have been suffering from insomnia and have been crowing at all times of night.

It appears that Tonio has been feeding them, among other things, on coffee grains. Does that not account for it?

One of the roosters of this flock, suffering to such an extent from loss of sleep, ended it all the other day. He had been acting queerly for several days. After running wild for some time he dashed his head against a rock—committed suicide right be-

Dashed His Head Against a Rock.

fore his mates! It is not known what result this will have on the rest of the flock. If anything develops later we will let you know.

P. S.—Ten of Tonio's hens were drowned in the rain.

COWS FEED ON DYNAMITE

No Explosion Results, But the Meal Proves Fatal and Leaves Owner With Problem.

Columbus, Ind.—Three cows owned by Ben I. Perry, a farmer living three miles north of this city, either committed suicide or else met accidental deaths as the result of eating dynamite.

The dynamite did not explode when they ate it, but it is in their stomachs, and the bodies are being handled carefully for fear of an explosion. Mr. Perry had been blowing up stumps on his farm, and left the dynamite in a box. One of his cows arrived home sick and died in a short time. He called a veterinarian to see two other cows that were sick, and investigation showed they had eaten ten sticks of the explosive. This was five pounds of 40 per cent dynamite, and it proved too much for the cows, as the other two died also.

TAKES 36 BOTTLES A DAY

Barber's Beer Limit When He is "Not Drinking Much" and Business is brisk.

Muncie, Ind.—When he isn't feeling very well and business is brisk in the shop, Harvey Sheets, proprietor of a barber shop, says he drinks only 36 pint bottles of beer a day. At other times he may take more.

He testified to this on the witness stand in city court, where he was charged with operating a "blind tiger" in his shop. The police had confiscated considerable beer there and had seen many "empties." In response to a question as to how long three cases of beer—the amount taken by the police—would last him, he replied: "Sometimes three days—that is, when I'm not drinking much."

"Are you sure you don't bathe in it?" asked Judge Gregory in acquitting Sheets. The officers could produce no evidence of sales having been made by the barber.

IS HE CHARMED OR UNLUCKY?

Indiana Man's Experiences Leave Him Undecided as to Which He is.

Noblesville, Ind.—J. Wesley Williams believes he has either a charmed life or else he is unlucky. Recently while driving a wagon along a country road his vehicle was struck by an automobile driven by John Bert, former county treasurer. Williams was severely hurt about the back and his spring wagon was wrecked.

It has been less than a week since Williams left his home after being laid up for two months on account of injuries received when run over by a drag.

During the last six years Williams has been shot five times. Twice the attending physician regarded his condition as so serious he was not expected to recover.

HUNTING ACCIDENT PROVES FATAL

Rib Lake, Wis., Oct. 27.—Anton Scotche shot himself accidentally while hunting and died in two hours. He leaves a wife and three children.

Janesville, Wis., Oct. 27.—Laurence Novaski, aged 23, was shot through the right foot by a companion while hunting, and will lose his little toe. His companion's gun jammed as he was ejecting a shell.

Neenah, Wis., Oct. 27.—Henry Sandle and John Ingerfer had narrow escapes from drowning in Lake Winnebago while duck hunting. A launch they had been using refused to work, and they attempted to reach shore in a skiff. Off Brighton Beach their boat capsized. Their heavy hunting clothes made rescue difficult.

BRITISH LABOR LEADER DECLARES CONSCRIPTION WOULD HURT INDUSTRIES

New York, Oct. 23.—Labor troubles in England have been much exaggerated by the press and by others, whose motives are economic and not patriotic, according to Ernest Bevin and Charles G. Ammon, fraternal delegates of the British trades union conference, who arrived here today to attend the annual convention of the American Federation of Labor to be held in San Francisco beginning Nov. 8.

"Laboring men of England, affiliated with the various unions, are firmly opposed to conscription," Mr. Bevin said. "If conscription comes to pass the government would not be able to add to the army more than 300,000 men without crippling industrial conditions. Under the present volunteer system we are adding men to the forces for field duty faster than they can be equipped. Our fight against conscription is an economic one, having in view possible conditions that will exist after the war is over. What we have now represents more than one hundred years of concerted action and work and to ask us to give up these conditions and accept conscription is asking more than is required of landlords and manufacturers."

VON BERNSTORFF SLEEPS IN NEW YORK BECAUSE HE CAN'T FIND BED IN HOME.

Washington, Oct. 25.—Between diplomatic worries and the trials of house cleaning, Ambassador von Bernstorff is having a tough time. After one of his hurry-up trips to Washington to confer with Secretary of State Lansing while workmen on high ladders and scaffolds had disorganized everything, the immaculate ambassador rushed out of one door, under a ladder, dodged a paint pail and reached safety in the opposite door way.

"Will you stay here over night or return to New York?" he was asked. "I'd like to stay here, at least one night," he said and waved his arms desperately toward the workmen, "but I cannot find my bed."

Bang! Goes Ambition.

Another pathetic little feature of everyday life is the way a man at twenty-one will start out with absolute confidence that he is destined to be a leader of men and at forty will regard himself as a reasonable success if he can keep from being a goat.—Ohio State Journal.

Chronic Constipation.

"About two years ago when I began using Chamberlain's Tablets I had been suffering for some time with stomach trouble and chronic constipation. My condition improved rapidly through the use of these tablets. Since taking four or five bottles of them my health has been fine," writes Mrs. John Newton, Irving, N. Y. Obtainable everywhere.

THE WAR

Athens, via Paris, Oct. 26.—An official dispatch announces that the Serbians have recaptured the town of Veleas (Krupulu) on the railroad south east of Eskup, after desperate fighting.

London, Oct. 26.—The Serbian troops which have been so gallantly holding the little northeastern corner of their country, where the Austro-German and Bulgarian armies are about to join, are being slowly forced back as the pressure on them becomes greater. The Marquis of Lansdowne, minister without portfolio in the British, regretfully announced to the house of lords this evening that he feared the Serbians could not much longer withstand the attacks.

Great Britain and France, the Marquis of Lansdowne said, had taken up the challenge of the central powers in the Near East as elsewhere and were preparing to strike blow for blow and hoped eventually to receive the support of Greece and Roumania, although they were not depending upon them.

Sir Edward Grey, the British foreign minister, today told the house of commons that Great Britain's offer to cede Cyprus to Greece had lapsed, as Greece had not fulfilled her treaty obligations to Serbia. The British minister at Athens is reported to be taking representations to Greece with respect to the use of Salonki as a base for the allies and also with regard to Greece's future action.

On the eastern and western battlefronts, as in Serbia, heavy fighting continues. In the Riga and Dvinsk regions of Russia the German field marshal, von Hindenburg, undaunted by repeated failures during the last forty days to reach the Russian fortresses on the Dvina river, is making another furious determined effort to achieve his aim.

Reports today were that he had made further progress, particularly near Iloukst. Along the rest of the line, through the province of Vilna, Grodno and Volhynia, and in Galicia, there have been battles at many points with the advantage first on one side and then on the other.

Most Glowing.

An old man attended a public funeral in honor of an American statesman a few years ago. In describing it to a Boston friend, a close relative, he said enthusiastically: "Jim, it was grand. It was the most glowin' paregoric of words I have ever had 'caslon to listen to!"

Hackneyed Shakespeare.

"Yes," said Mr. Parvey New, "that fellow Shakespeare has some pretty good ideas and writes some very good things, but his works are full of hackneyed phrases. Why, I absolutely know that lots of them have been used as common slang ever since I was a mere boy."

Contradiction.

It is strange that men should see sublime inspiration in the ruins of an old church and see none in the ruins of a man.—G. K. Chesterton.

GOV. FERRIS HITS TEACHING METHODS

Calumet, Mich., Oct. 26.—"Our schools have made little headway in arithmetic in thirty years. Authorities would change the system, but public sentiment is against it. The average business man can't multiply, subtract, divide or add. Schools have no business fooling with arithmetic in the first, second, third or fourth grades. Eliminate useless questions. Teach some multiplication, not much long division and a great deal of short division. Eliminate the teaching of tables. People should go out in the world and find out if things aren't done in every way better than in the schoolroom."

These are "Ferrisisms" which Gov. W. N. Ferris gave out to 1,000 teachers from Houghton and Keweenaw counties. The executive, who founded the Ferris Institute and is still head of that school, told his hearers that arithmetic had been neglected more than any other study, and that it was about time that a change was made. He pointed to the poorness of the average man in adding to prove his contention.

LIST OF LETTERS.

List of letters remaining unclaimed at the Escanaba, Mich., postoffice for the week ending October 23, 1915.

- Babeock, H. E.
 - Bishop, M. W.
 - Campbell, K. O.
 - Bedeau, Leo.
 - Deaulty, Arthur.
 - Dupy, A. C.
 - Freyacca, Nich.
 - Gillett, Myrel.
 - King, Olive.
 - Kubley, Miss Minnie.
 - L. L. M., Box 640.
 - Massarel, Frank.
 - Morgan, John.
 - Murphy, A. J.
 - Oslund, Chas.
 - Richards, Miss Hazel.
 - Richie, Manwell.
 - Robichaud, Mrs. Joe.
 - Sepehen, Lillian.
 - Stephenson, N. T.
 - Walters, Robert.
 - Wyosnick, Miss Jennie.
- Persons call for any of the foregoing letters will please say advertised.

MAY PREVENT STUDENTS TRAVELING AS FREIGHT

Madison, Wis., Oct. 27.—Shipment of students as freight is puzzling officials of the Milwaukee road. There has been a movement among the students to secure a freight train to take them to the Chicago game. By this method the students would be taken to and from Chicago at a cost of about \$2 each.

But the officials are experiencing difficulty in classifying students animals. In a letter to W. J. Flag, local freight official, the students point out that the practice is used by the students of Michigan, Pennsylvania and several other institutions.

If the officials agree to allow the students to charter a freight it will leave Madison next Saturday morning at 6 o'clock, and is expected to arrive in Chicago about 1 o'clock. It will return so as to be in Madison early Sunday morning.

Quite a Difference.

Ethel—"Jack told me that he never loved anyone before." Marie—"Well, excuse me for saying so, dear, but he and I were once engaged." Ethel—"Oh, I didn't ask him about engagements; I only asked him about love."—Birmingham Age-Herald.

Writer's Style.

Style! Style! Why, all writers will tell you that it is the very thing which can least of all be changed. A man's style is nearly as much a part of him as any part of his being which is at least subjected to the action of his will.—Penelon.

MATINEE TO-DAY

Northland

V. Ferner returned to her lodgings Monday, after a few days visiting with her telegraph operator here. Ferner is a caller here Sunday. Mr. P. Feucher and daughter and Boula were the guests of Mrs. Paul Fornes Sunday. Mrs. Paul returned from a business trip to Escanaba, Monday. Mr. Fred Roesner returned Sunday with just one very scarce around here.

proprietor of the Northland here a hog Thursday 60 lbs. dressed. Mrs. G. W. Moll made a professional trip to Polly Tuesday.

Mr. and Mrs. John Lassick, Ed. Rhoads, and Miss Julia Lassick left Friday morning by auto Cleveland, Wisconsin for a short visit.

Mr. Wink from Escanaba was in town Monday.

Van Dessel completed his work this week. From one bushel which he had planted, 33 bushels. Mr. Douist has killed since last spring. He has several very plentiful in the vicinity of camp A.

BRAMPTON NEWS

Marie Haga Sundayed with Lerin Gladstone.

Mr. Hubbell, who visited in Brampton returned to Friday.

Mr. Douist has killed since last spring. He has several very plentiful in the vicinity of camp A.

Tyrrel spent Tuesday in Escanaba.

Mr. Bjorkman of Gladstone was in town caller this week.

Mr. Johnson is spending his time in Brampton.

Downey of Escanaba was in town Tuesday.

Mr. Caswell will move to Ensign.

Grand Opening!

OCTOBER 28 AND 29

We extend to the public a cordial invitation to attend the opening of our new pasteurizing and clarifying plant on Thursday and Friday of this week. On these days we will have experts in attendance who will demonstrate fully the last word in the sanitation of the milk problem.

the Ridge Pasteurizing Plant
1 So. Oak St. Escanaba, Mich.

MORAN TO SIGN WITH PHILLIES

Philadelphia, Pa., Oct. 27.—President William F. Baker of the Phillies is quite peeved at the numerous rumors in circulation referring to Manager Moran as being underpaid and dissatisfied with the new contract offered him. President Baker said: "There is no truth in the statement that there is any trouble between Manager Moran and myself. I told Moran I was ready to talk contract for one, two or three years. He said he was tired and anxious to get home and would meet me in New York in about two weeks to fix up his contract."
"Moran's salary for 1915 was a considerably larger amount than has been guessed by those desiring to make trouble. In addition, he earned a bonus, which was paid to him last Wednesday."

Foster City News

E. E. Sullivan from Fondulac was in town this week with a new line of sam. A. J. Demars left Tuesday for a few days visit at Trout Lake.
Ed. and John Lassick, Lloyd Ketchum, Miss Jennette Lassick and Miss Rosen Schapoo, motored to Escanaba for Wednesday morning.
Dr. G. W. Moll made a professional trip to Polly Tuesday.
Mr. and Mrs. John Lassick, Ed. Rhoads, and Miss Julia Lassick left Friday morning by auto Cleveland, Wisconsin for a short visit.
Mrs. Olaf Olson has been on the sick list a few days this week.
Mr. and Mrs. Jalmar Odson from Deer River, Minn., arrived here for a short visit with her mother, Mrs. Strubening.
Mr. Villmore from Escanaba motored to town Friday and spent a short visit with his sister, Mrs. Fred Fillion.
Miss Benna Rouschard was a Hias visitor Friday and Saturday.
Dr. G. W. Moll made a professional trip to Polly Friday evening.
Road Master James McKittrick and Mr. Gallagher from Escanaba was in town Saturday.
Mr. Wink from Escanaba was in town Monday.

NAHMA ITEMS

The dance given by a few of the young men of Nahma last Friday evening was not very well attended, but all reported a fine time. An Escanaba orchestra furnished the music, which was excellent.
Miss Ethel Olson entertained the "Sewing and Reading Club" last Wednesday evening.
All Pierce motored over from Foster City Saturday and spent Sunday with the Good's.
James Gardner suffered an injury of the right hand while at work in the mill here where he is employed.
James Schwartz, who has been confined to the hospital for the past two months, was removed to his home last week and is now able to be out again.
Walter Blaney of Escanaba has accepted a position as timekeeper at one of the Bay de Noquet Co.'s Camps.
Romuald Thibault of Garden is a guest at the Rushford home.
A. L. McBean, representing the Hettler Lumber Co. of Chicago, arrived in town this a. m. to transact business.
Clyde Tobin had a finger broken while engaged in work at the mill here.
Geo. Wedepohl of Marinette spent the past week in Nahma.
Howard Olmsted was seriously ill at his home Friday and Saturday.
Richards and Camerons motored over for the show last evening.

Ointment for Chills: A European physician recommends the following formula to relieve chills: Camphor, one gram; balsam of Peru, one and a half grams; white wax, 40 grams, and flaxseed oil 20 grams.

INVASION TO BE FOR BUSINESS

Louisville, Ky., Oct. 25.—Warning that the United States should prepare for a military invasion, as well as for a commercial invasion, was voiced by Charles Warren Fairbanks, former vice president, in an address delivered at a political meeting here tonight.
"The present prosperity of certain industries based upon war orders is inherently temporary," he said. "Within the period of the next administration, our own national life and the markets of the world are going to be profoundly affected by the great conflict now raging abroad. We must meet that with a constructive pro-American program which consists of: First, the restoration of the protective tariff; second, adequate preparedness for national defense; third, the restoration of the American flag to the oceans; fourth, organization to market our wares in the world markets."
"We must not only have our own ships, we must establish ample banking facilities at strategic points in both hemispheres so as to affect credits more and more through our own agencies and to extend credits. We must send young men to the different countries to learn the language of the people, to learn their wants, whims and prejudices. If we are to win new trade, we must do business as others desire rather than to try and force upon them our methods."
After the war, Mr. Fairbanks said, only one rich neutral market in the world will present itself, America.
"To our shores will roll a tide of commercial invasion which will be paralyzing under a free trade or a tariff for revenue, only policy," he said. "We are even more unprepared to resist commercial than military invasion. The weapon of cheapness, wielded by our impoverished commercial rivals, will be irresistible."
"Military invasion is remotely possible; commercial invasion is deadly certain. We believe in adequate military preparedness, but to prepare for uncertainties and not for certainties seems inconsistent. We are horrified by the distresses arising from war, but they are to be more dreaded than the despair and hunger that arise from industrial panic?"

FIRST LOAN PLANS PROVES FAILURE

New York, Oct. 22.—In connection with the flotation of the \$500,000,000 credit loan to Great Britain and France it became known today that Great Britain had endeavored unsuccessfully some time ago to establish a credit here of \$200,000,000 and that falling in this she sought \$100,000,000 and finally \$100,000,000.
She was unable to obtain a promise of more than \$100,000,000. This was utterly inadequate and the next step was the sending of the Anglo-French commissions to New York.
The work of the commission here is its close. All members, excepting Basil B. Blackett, expect to return to France shortly. Mr. Blackett will remain here to adjust any details that may arise and possibly to co-operate in establishing the proposed supplemental credit of \$250,000,000 which British bankers hope to obtain privately from American financial houses in this city.

LIBRARY PART OF PUBLIC SCHOOL

Ann Arbor, Oct. 22.—"Make public library a part of the public school system," urged Librarian Herbert Hirschberg of the Toledo public library Wednesday afternoon at a meeting of the Michigan Library association here.
"The public library is a means of public education and should be so acknowledged by the state," said Mr. Hirschberg.
"To keep incompetent teachers out of the schools the state has provided for the certification of teachers. Let the state extend this certification to the staffs of the public libraries. I do not believe in the coupling up of library examinations with civil service examinations. The latter would be more or less of a farce in connection with public library work."
Mr. Hirschberg said there was as much reason for pensioning public librarians as there was for pensioning public school teachers.

CARRANZA IS RECOGNIZED BY AUSTRIA-HUNGARY

Torren, Mex., Oct. 27.—Austria-Hungary was the first European nation to recognize the government of Venustiano Carranza. Notification of recognition was received Monday in a message from the Austrian charge d'affaires in Mexico City.

WARDENS FIND FEW PARTRIDGE

Deputy State Game Wardens Herman Lesner, of this city and John Rough, of Ishpeming, have returned from a ten days' trip through Mackinac, Schoolcraft and the southern portion of Delta county. They made a particular study of the game resources in the counties they visited, especially of the partridge coveys and breeding localities of the birds. They found that in localities where the birds had always been plentiful only a few could be found. Wherever they ran on to more than one partridge was found that, with few exceptions, the birds were all old ones. If three were seen together, only one of them usually was a young bird.

Due to the scarcity of partridge many hunters have refused to hunt this season, hoping that by sparing them the supply of the birds next season can be increased.

Old time woodmen say that they found places during the early part of the summer where the young birds had been drowned shortly after being hatched out. Deputy Warden Lesner is of the opinion that it would be a good thing if an indefinite season were provided for partridge as they are rapidly being thinned out.

It will only be a few years before the Mackinac county will be entirely said Mr. Lesner. More deer have been seen in Delta county during the past summer and the entire county. We travel through the country in Delta county and did not find a single deer.

Without a doubt, the game resources of Delta county are being depleted. The deer did exceptionally well during the past summer and the game of last season the deer have been killed illegally and very small, in comparison with other years. Wolves, which the deer's worst enemies did not kill as many in Marquette and Delta counties as in former years.

Deputy Warden Lesner says that the woods are being searched for partridge. Many rabbits are being killed and they seem to be plentiful.

GERMANS REPUDIATE THE HYPHEN NOW

Reading, Pa., Oct. 23.—That the Pennsylvania German society is bound to repudiate neutrality and should combat the hyphenated citizens, was a feature of the annual meeting here. If, he said, the society should repudiate its name to get away from the hyphenated organization of the Pennsylvania German society, the hyphenated citizens should be repudiated.

The Pennsylvania German society, a misnomer. The president of the society, B. M. Nead, Harrisburg, repudiated the hyphenated citizens at the annual meeting here. If, he said, the society should repudiate its name to get away from the hyphenated organization of the Pennsylvania German society, the hyphenated citizens should be repudiated.

Neglect Opportunity. The maple trees of the nation produce 47,000,000 pounds of maple sugar annually—about half a pound for each person. And the demand for the product is estimated, is ten times greater than the supply. Despite this fact, statistics show that less than half the trees available for the purpose are utilized. This means that a good many farmers throughout the country are neglecting to take advantage of an important source of income.

Cannot Lose Real Good. We cannot lose any real good friends pass from our sight, but our lives are the stronger and more beautiful for that friendship. Effort and achievement are forgotten, but the long-ago struggle and the victory won are armor for new contests today. Happiness lives on as sweet memories. Self-sacrifice abides as unselfishness. Whatever of good we have known, is ours as long as we love the good.

It Ne'er Runs Smooth. It was at the conclusion of the lovers' quarrel. "And now," he remarked, "I suppose we must meet as strangers." "Not at all," she replied coldly. "If we should meet as strangers, we should probably fall in love with each other again."—Judge.

TWO CHILDREN HAD CROUP. The children of J. W. Nix, Cleveland, Ohio, had croup. He writes that he choked up they could not breathe. I gave them Foley's Kidney and Bladder Remedy and they were completely cured them. Contains no opiates. Gets the pylegm; opens air passages. Sold everywhere.

MODISH AND PRETTY

NEUTRAL TONES ARE DECIDEDLY ATTRACTIVE.

Also There is Enough Variety to Enable Any Woman to Make a Selection That Will Please Permanently.

If you prefer a dark coloring for your new silk dress, are tired of blue and do not want black, there are such lovely neutral tones to choose from, such as gun-metal grays, very dark olive greens and the almost black shade of brown known as tete de negre, and seal brown. This is a very modish color, and when touched up with a bit of enlivening color of white to relieve the neck and sleeve ends some very rich effects can be achieved.

The illustrated design is a splendid one for a development in seal brown, with an interesting vestigial, and sleeves of cream-colored taffeta striped with lapis-lazuli blue.

There is a high-necked gullepe of white Georgette crepe, shirred at the neck and wrists to give a generous fullness. Frills of self-material add a soft finish at the top of the collar and sleeve ends. Over the gullepe is worn the attractive jumper blouse of brown taffeta, widely open in front, slashed over the shoulders and bloused over the top of the striped girdle. The under elbow-length sleeves of striped silk must be attached to the gullepe. A close row of silver buttons trims the center of the draped girdle, to whose lower edge the tunic and drop skirt are applied with a cord finish and narrow heading of platted silk. China silk will do for the drop skirt, to which the two lower flounces are sewed. They are circular flounces and finished with narrow platted ruffles of the goods.

The tunic is a little below knee length, and similarly bordered with a narrow plating. Unlike the two

Splendid Design for Seal Brown Taffeta.

sources, it is not circular, but is evenly gathered around the hips. The same design may be used for a thin wash fabric, such as voile, organdy or crepe de chine.

HEALTH AND BEAUTY

To remove ink from the hands wet a sponge with spirits of hartshorn or ammonia and wash the stains vigorously. Rinse at once in clear water, as soap sets in ink and other acid stains.

Cocoa butter is excellent to take the sting out of sunburn, and witchhazel cream is another fine emollient. Rub either one in well at the first appearance of the burn and then again the next day and you will not be bothered so much by the pain and itch. Eucalyptus oil is largely used as a disinfectant and deodorant. Two ounces of oil of eucalyptus placed in a porous earthenware vessel will keep the air of any chamber in which the vessel is suspended perfectly free from smell for several months. For a similar purpose it may be mixed with eight times its weight of sawdust and used to sprinkle on floors.

Two French physicians have been experimenting with the germs of typhoid fever, and a correspondent of the Lancet is able to satisfy the fears of salad lovers by advising that the germs which lurk in lettuce can be killed by separating the leaves, washing them as usual and then laying them for an hour in water containing a third of an ounce of vinegar to the quart of water.

Shirring. Smocks have taken the popular fancy this summer, and smocking is employed on many of the thinner materials. The skirt that is shirred, sometimes smocked, into a slim silhouette at the waistline and hips is very becoming to the slender woman.

COMMISSION ORDERS

(Continued from page one.) Following is a copy of the summons received by Sheriff Iverson yesterday from the State Tax commission for service on every member of the Delta county board of supervisors: STATE OF MICHIGAN In the matter of the appeal of Carl P. Mason, Supervisor of the second ward of the City of Gladstone, County of Delta, from the equalization determined upon by the Board of Supervisors of said County at its October, 1915, session.

At a meeting of the Board of State Tax Commissioners, held in the city of Detroit on the 22nd day of October, 1915, at the offices of said Board; Present: Commissioners Barnes, Horton and Kearney.

The above appeal by petition having been duly filed by said petitioner with the County Clerk of the County of Delta within five days after the adjournment of the Board of Supervisors of said County from their October, 1915, session and to wit, on the 18th day of October, A. D. 1915, and by said County Clerk duly transmitted to the Board of State Tax Commissioners; and said petition having been examined and considered by this Board, and it appearing from such petition that petitioner has made a showing to the effect that the equalization complained of in said petition is unfair, inequitable and discriminatory.

It is, therefore, ordered that the said Board of Supervisors of Delta County do reconvene at the city of Escanaba, the county seat of said county, at its usual place of meeting, on the first day of November, A. D. 1915, at the hour of nine o'clock in the forenoon, for the purpose of hearing the matter of said appeal and of equalizing the assessment of said County if a different equalization of said County shall be ordered by said Board of State Tax Commissioners.

And it is further ordered that each and every one of the supervisors of said County of Delta do take with him to said meeting of said Board of Supervisors, the assessment roll of his respective township, ward or city as the case may be.

And it is further ordered that the Board of State Tax Commissioners do hold a meeting in said County of Delta at the County Building therein, on the first day of November—A. D. 1915, at the hour of nine o'clock, in the forenoon, or as soon thereafter as can be conveniently commenced, for the purpose of hearing evidence upon said petition, and of taking such action in the premises as may be warranted by law.

And it is further ordered that each and every one of the supervisors of said County of Delta do personally appear before said Board of State Tax Commissioners at the place and on the day and hour last above set forth, and have with him then and there the assessment roll of his township for the year 1915, and to give evidence in relation to the equalization of said county of Delta;

It is further ordered that persons interested in said petition may appear in person before this Board of Tax Commissioners at its meeting to be held in said City of Escanaba to be examined with relation to the matter to be then and there determined. It is further ordered that a copy of this order be duly served upon each member of said Board of Supervisors of Delta county within two days before the date set for the reconvening of said Board of Supervisors by the sheriff of said County or by any person duly appointed by such sheriff for such purpose, and the said sheriff shall make return to the County Clerk of said County of Delta of the service herein set for the reconvening of said Board of Supervisors.

Given under our hand and seal at the City of Detroit this 22nd day of October, A. D. 1915. ORLANDO F. BARNES, GEORGE B. HORTON, THOS. D. KEARNEY, Members of the Board of State Tax Commissioners. B. S. BURTLES, Secretary.

Teach Honesty. Mothers, teach your little ones when very young to be frank and honest; show them that almost any mischief is preferable to deceit and falsehood, and then, when they realize the value of truth, trust them. You have no idea how great an influence a mother's trust can be. The very knowledge that mother trusts them will be enough to hold the little ones back from any real evil.

The Corn of Long Ago. Many ways of cooking corn are known, but the simpler are the better. A sturdy race of pioneers thrived on mush and milk and corn pone and hoe cake. Civilization and luxury have led the children of these pioneers to look with disdain on corn, and to prefer to secure its great health-giving properties through other mediums. We have been taking our corn by way of pork and beef—Mayaville (Ky.) Bulletin.

Self-Destruction in Japan. In proportion to population Japan has more suicides than any other civilized nation.

DAILY LETTER

Ishpeming, Mich.—The action of the market today certainly indicated that the coppers are to have their turn, for in the face of the general weakness in the specialties in New York list, Anaconda rallied to 78 1/4 and closed at the top. There was a much better demand for all copper shares with Shattuck and Mohawk the features. Some of the war stocks broke badly, such as Baldwin, Crucible, etc., and the fact that the coppers held up in the face of this uncertainty very pleasing. There have been no announcements of any large sales of metal, but it is usually two or three days after the sales are actually consummated before the news is given to the press, and the action of this market would indicate that this is the condition at this time. There has been a lot of selling of inspiration and the absorptive power in this stock is great.

Boston Markets

Boston, Mass.—Although many of the coppers made good gains there were recessions elsewhere in the list which gave market irregular appearance as a rule, the undertone is good. One New York house predicts 100 for Anaconda. The metal is strong.

BOOSTERS WILL COME

Menominee will see a great bunch of boosters with a brass band, to Escanaba aboard a special train on Saturday, when the Menominee high school team will play the local high school football game at South Park. The game is a vital one to Menominee as unless the visitors trim Escanaba they will be out of the running for the paper high school football championship of the peninsula.

Of plans being made at Menominee for the invasion of Escanaba on Saturday the Herald-Leader said: "Manistique gone. Next victim? Escanaba is elected. A special train, with a band furnished by the Bachelor's club will make the trip to the northern city on Saturday to encourage the Menominee high school team to do the Delta County eleven what Menominee has already done to Oconto, Norway, St. Norbert's et al.

Already more than seventy-five names have been added to the petitions which are being circulated to get this special train, and before Wednesday the one hundred mark will be safely passed, it is expected.

Football enthusiasm in Menominee will reach its height before the Escanaba game with a big mass-meeting Thursday night on Electric square. Plans will be made by the cheerleader, and probably by some of the members of the team and the coaches together with the ring and all the other trimmings of gatherings of the kind.

Although Menominee is confident of retaining from Saturday's game a victory. Still it does not belittle the strength of the northerners, who are tight and fast and who have the best attention in the world of springing a surprise on Menominee.

The Menominee team came out of Saturday's game in good shape, and with the probability of all the regulars being in the line-up, Coach Hedgecock will be able to present strong front for Escanaba. Four of the regular were out of the Manistique game.

It looks very much now as though the championship of the peninsula would eventually be between Marquette and Menominee, although Calumet is still very much in the running. Calumet is scheduled to play Marquette this Saturday. If Marquette wins this game, and Menominee defeats Escanaba, it will leave these two teams to battle for C'overland and honors.

Perhaps—we are not too hopeful yet but perhaps under those conditions Marquette may be coaxed, cajoled or induced in some manner to arrange a game with Menominee.

We'll hope so, anyway.

PARTRIDGE PROTECTED

A number of upper peninsula sportsmen are vigorously proposing a closed season for at least one year on partridge. That step is advised that the inroads made on game of that class by the unsatisfactory weather conditions of the past year, may be offset by allowing the birds to remain undisturbed for a year. One sportsman has issued the following appeal for a closed season on partridge for at least a year:

A closed season of one year would be a very good step toward the preservation of the partridge. (Ruffed Grouse.)

As usual there was a large hatch of young partridge throughout upper Michigan about the first of June but the prolonged cold rains, northeast storms and cold weather generally which set in about the fifth of June and ensued for three weeks chilled the young birds and as a result most of them died.

It is not overestimating to say that 90 per cent of the hatch was lost by reason of this cold rainy weather. In the more remote sections of the woods where the bulk of game is to be found, partridge are scarce, widely scattered and wild. The reason for this is that about 90 per cent of them are old birds.

The small predatory mammals, weasel, mink and skunk levy a heavy tax on partridge. Fox, wildcats, hawks and owls also prey upon them and this applies especially during the winter months when snow protects the mice of the woods on which the fox and owls live chiefly when there is no snow.

That is why partridge are scarce now then they were at the close of the deer season last year when all the hunting was over.

After the hunter gets through, with them this remnant of partridge must stand the toll of their natural destroyer through the winter.

What will remain of their number when nesting times arrives? Very few to be sure and if man, their arch-destroyer is again turned loose on them next fall the extinction of the ruffed grouse might follow.

All wild game can hold its own and increase if only leveled upon by its natural destroyers because trappers keep down the number of the smaller fur bearing animals. Game commissioners ought to have the power to put a closed season after a hard hatching period, without recourse to the legislature.

New York has splendid codified game laws by which a conservation commission can declare a closed season in any locality for any length of time, when the state of the game demands an emergency measure.

The state of the partridge demands a closed season and it is hoped that Upper Michigan newspapers give the conditions the publicity it deserves.

The coming month marks the beginning of our one deer law and it is a good law. What Upper Michigan needs is the establishment of two or three game preserves, for deer each about eight miles square and the preservation of the deer will be assured. Give them a semblance of a fair show and they will increase.

TO LENGTHEN SCHOOL DAY

Statistics have been compiled, showing the length of the average school day in the grade schools of the upper peninsula to be 315 minutes. In Escanaba the school day, in the grades, is 285 minutes in length, while in Marquette the school day has been but 260 minutes in length. In that city action has been taken to add 55 minutes to the school day, beginning with next Monday.

As the matter is one that is now receiving much attention from school officials the following from the Mining Journal concerning the change in that city, will be of interest:

"Fifty-five minutes will be added to the length of the school day for all grades, excepting the first and second, who will fare somewhat better. They will be dismissed at 3:40 p. m., instead of 4 p. m. The kindergarten session will be held in the morning.

The school day at present is not sufficiently long to permit the pupils to do full justice to all their subjects, said Superintendent A. R. Watson yesterday. "In order to incorporate certain things in the school course, it has been found necessary to make the day longer. The additional time will afford the children more opportunity for study besides permitting more attention to several subjects, such as writing, spelling, physiology and hygiene, which are now being taken up only superficially, because of the lack of time.

"By this change we are merely bringing back the school day to its original length. Some time ago the day was shortened to its present hours because the recess period was eliminated. Later the recess was resumed, but the school day was not altered, and as a result, it has been found that the time lost is a serious hindrance to the pupils."

After thoroughly looking into the amount of time put in by other upper peninsula schools, Superintendent

PATMONT CLEARED OF ARSON CHARGE.

Newark, N. J., Oct. 25.—The Rev. Louis R. Patmont, indicted jointly with Macar Lubich for arson in connection with a fire in the Christ Polish church here, April 10, 1917, was acquitted here today.

The minister testified that he was on his way to Europe at the time the fire occurred and submitted an affidavit by Lubich in which the latter confessed to the offense.

Patmont announced that he was going back to Wisconsin, and would never return to this part of the country.

Recommends Chamberlain's Cough Remedy.

"Last winter I used a bottle of Chamberlain's Cough Remedy for bad bronchial cough. I felt its beneficial effect immediately and before had finished the bottle I was cured. I never tire of recommending this remedy to my friends," writes Mrs. William Bright, Ft. Wayne, Ind. Obtainable everywhere.

Diet of Ancient Athletes.

The actual diet used by the ancient Greek athletes consisted of a certain kind of cheese, specially prepared from goats' milk. Later on a flesh diet was introduced. The Romans, in the early stages of training, utilized a vegetarian form of diet, consisting of dried figs, new cheese, and boiled grain. Later on, again, meat was added to the list, but only one sort of flesh was thought suitable, and that, curiously enough, was pork, an edible absolutely banned by most modern trainers. Galen most firmly maintained that pork contains far more nutriment than any other flesh food. It certainly is a very significant fact that the ancient athletes complained that if they were forced, when in training, to live upon anything else but pork for any one meal their mental and physical forces alike were seriously impaired.

DRY CAMPAIGN IS ON

(Continued from page one.)

full year, as the result of the supervisors in the two counties refusing to take the advice of the attorney general, are for a full year from Nov. 4 to center their energies in Delta and Schoolcraft counties.

A campaign that is launched to continue for a year, in the very nature of things, is a campaign for the benefit of those who will be paid to undertake the work that is outlined. In two counties of the peninsula, at least, employees of the local option forces are assured of fat salary envelopes for a year and that is the prime object sought.

The opponents to the local option forces have no criticism to offer for the citizen who desires a vote on the question of state wide prohibition but those forces are at a loss to find any Christian, charitable or financial reason why this community should be torn by an internal strife, directed by paid outsiders who have no interests in the community, for twelve long months, when the same facts could be presented in the short space of two or three months.

A Lansing dispatch says: "Richard Pearson Hobson, former Congressman, Fred W. Landis, of Indiana, and Mrs. Florence Richards, are three of the speakers who will be heard at the first big mass meeting that will mark the opening of the campaign for state-wide prohibition and which will be held in the Lyon Tabernacle, Tuesday, November, 2. Plans for the demonstration were completed at the state headquarters of the "dry" forces in this city Friday and word was sent forth by Major Arthur P. Loomis who is in direct charge of the convention and Superintendent Grand M. Hudson, that the Lansing meeting would startle the saloon forces.

The whole day will be given over to oratory and plans of strategy and the pulse of the entire state will be felt in the evening at the big banquet at which Henry R. Pattengill will preside as toastmaster. "Dry" leaders from every section of the state will speak on this occasion.

The following day the workers will move to Escanaba, where the campaign will be launched at a mass meeting to be held November 4.

Gaylord, Oct. 20.—The Otsego county supervisors have refused to submit the question of local option next spring.

St. Ignace, Oct. 20.—The supervisors of Mackinac county have thrown out the petitions asking the submission of local option to the voters in the spring, based on the decision of the attorney general.

East Tawas, Oct. 20.—Local option petitions submitted to the Isosco supervisors by the "drys" have been withdrawn because of irregularities found by the "wets".
