

## DEAL CLOSED FOR BIG MILL

**BENJAMIN GERD AND L. C. HARMON COMPLETE NEGOTIATIONS WITH MINNEAPOLIS MEN FOR CONSTRUCTION OF PAPER MILL AT MANISTIQUE.**

Manistique, Mich., Nov. 15.—Manistique got another big boost yesterday when news arrived from Minneapolis through Leo C. Harmon, president of the Upper Peninsula Development bureau and vice president of the Consolidated Lumber company, to the effect that Twin City financiers had closed a deal with him whereby they would prepare to construct a fifty ton paper mill.

The construction of the great paper mill is an offspring of the deal closed last September when Francis Little and other Twin City financiers purchased the water power rights on the Manistique river from the Consolidated Lumber company and the Manistique Light and Power company. At that time they announced that there was 1,000 developed horsepower, 4,000 undeveloped and a possibility of securing 2,500 more when required.

Shortly after the announcement came the report that the same men had decided to construct a pulp mill at a cost of \$300,000. Work has been begun on this plant and it will be in operation by March 1, 1917.

Through the construction of the paper mill Manistique will undergo a growth of from 3,000 to 4,000 persons. It now has about 8,000. The city has had practically no growth for ten years but the sudden life added to it came through the vision of Leo C. Harmon. (Continued on Page Six.)

## 8 HOUR DAY FOR ALL NOW

**AMERICAN FEDERATION OF LABOR DECLARES FOR LEGISLATION TO GRANT SHORTER WORK DAY TO LABORERS IN ALL THE TRADES.**

Special to the Press  
Baltimore, Md., Nov. 15.—Resolutions introduced in the American Federation of Labor meeting here today were of nation-wide interest.

The first was that proposals of legislation be introduced whereby all laborers of mechanical, industrial and mercantile establishments be given an eight hour day.

The second was that the American Federation of Labor communicate with the federations of labor throughout the world to the end that labor be represented in the convention that will declare peace at the end of the war.

Other resolutions were offered regarding the hours of work and the amount of pay for employees of the government.

## CLOVERLAND WORTH MORE

Marquette, Mich., Nov. 15.—That Cloverland farm lands are worth from \$3.49 to \$32.60 per acre more than those of Michigan in general is the startling fact shown in the last figures issued by Coleman C. Vaughan, secretary of state, in regard to agricultural conditions.

This remarkable deduction is proven by the figures in the following table:

Crop	State	Cloverland	Cloverland Adv'd	Cloverland Value	Cloverland Mny lead
Wheat	16.19	29.10	5.31	\$32.05	\$ 8.42
Corn	21.05	24.22	3.17	26.84	3.49
Clover Seed	1.51	2.00	.49	18.00	4.41
Beans	6.71	6.78	.08	46.61	5.48
Potatoes	45.22	71.30	26.08	89.13	32.60

All of the crops are given in bushels per acre except the last two columns which are in money values based on the following prices for the crops: Wheat, \$1.45, corn, \$1.10; Cloverseed, \$9.00; beans, \$6.85; potatoes, \$1.25.

## BIG MEETING IS POSTPONED

Because of the fact that H. J. Lemcke state president of the Order of Eagles in Michigan, will be unable to come to Escanaba on Nov. 23, as planned, a big booster meeting arranged for that date by the members of Escanaba aerie, has been postponed. Word was received by officers of the aerie yesterday from Mr. Lemcke that while recent developments have forced him to cancel his engagement for this city this month, he will come to Escanaba either late in December or early in January.

On the date of his visit to the local aerie a class of at least 100 candidates will be initiated in the order.

## NIGHT SCHOOL PLANS READY

**BOARD OF EDUCATION TO LAUNCH NIGHT CLASSES DEC. 4 AT JEFFERSON SCHOOL—HOLIDAY VACATION OPENS WEDNESDAY AFTERNOON DEC. 20.**

Escanaba's night school for adults will open at the Jefferson school building on Monday evening, Dec. 4 and continue through the remainder of the school year. The school will be in charge of Prof. Leach and Miss Fisher of the high school crops, both whom have had experience in night school work.

Plans for the reopening of the night school for adults, inaugurated late in last year, were adopted at the meeting of the Escanaba board of education on Tuesday night.

The board on Tuesday night also fixed the date for the annual holiday vacation period, for the current year. Sessions in the public schools will be closed on Wednesday Dec. 20 and work will be resumed in all departments on Tuesday, Jan. 2.

A great mass of routine business was handled by the school trustees at the Tuesday night session.

Efforts to make the night school for adults an efficient success have occupied the attention of the school board members and Supt. King since the opening of the school year. The success of last year's night school demonstrated the demand for such a school and it is believed that the classes of this year will be considerably larger than a year ago.

The night school will be held on two evenings of each week, the nights to be fixed at the time of the organization of the classes, to suit the convenience of the greatest number of the students. At the outset two instructors will be engaged for the night school but if the membership of the classes warrants such action additional instructors will be hired.

Those who desire to enroll in the night school classes are urged to communicate with Supt. King if possible before the inauguration of the night classes and all who intend to participate are particularly urged to present on the opening night.

## WAR MORE THAN DOUBLES VALUE OF BRITISH ESTATE

Edinburgh, Scotland, Nov. 15.—A striking illustration of the increase in value of shipping since 1914 is given in a will contest now before the Edinburgh courts. The estate involved is that of John Gaff, a Glasgow shipowner, who died in December, 1914. At the date of his death his property was officially valued at slightly over \$400,000. The division of the estate was prevented by litigation among the heirs and it was stated at the final hearing in the case that the value of the property has increased during the time devoted to legal wrangling, to over a million dollars.

Herbert Hughitt will leave tonight for Ann Arbor to witness the Michigan-Pennsylvania football game.

Mr. and Mrs. C. P. Kaye have returned from a short visit with friends and relatives in Green Bay.

After an illness of several weeks Mrs. Henry Carlson of 723 Oliver avenue, passed away yesterday at a local hospital. The body was removed to the undertaking rooms of J. B. Wilkinson, where it was prepared for burial and today will be taken to the family home, where it will remain until the hour of the funeral. Mrs. Carlson had a host of friends in the city and while for some time it had been known that her recovery was critical, hope for her recovery had been entertained to the last. She is survived by her husband and family. Definite arrangements for the funeral will be held today.

Frank Walters has returned to his home in Marquette, after a short visit here.

## Get The Business

In giving Escanaba's lions to withstand a shock that has been willed by the people of the state of Michigan, we as the defenders of our city must look first to the conservation of the interests that we now have.

To make Escanaba stronger, more vigorous and less susceptible to undermining influences, must be the aim of every man who has the interests of his city at heart.

At Escanaba's very doors lies interests that have in the past been shamefully neglected and which if properly encouraged and developed will prove a powerful asset for Escanaba's future.

It has been established beyond question of doubt that Delta county is one of the richest agricultural districts in Michigan.

But what has the city of Escanaba ever done to encourage agriculture and get the business of the farmers, other than contributing our share toward a county fair and offering sporadic, individual evidence of friendship?

The farmers of Delta county annually spend hundreds of thousands of dollars with mail order houses for their supplies.

Why?

Because Escanaba, Gladstone and other market places of the county have ignored the farmer and his business.

To dispose of his products the average farmer is forced to come into the city and peddle his wares from door to door.

But after being forced to become a peddler, it is small wonder that he spends his money with the mail order house.

But let the business people recognize the farmer; treat him as a business equal and grant him the same privileges that you grant others and he will become a business asset for this city.

One of the crying needs in this city for the convenience of the farmer as well as for the people of Escanaba, is a public market place, a fact that was definitely proven through two market days recently arranged by a group of business men in the city.

With a market place provided and this step followed up by conscientious efforts to co-operate with the men who raise the crops to dispose of what he raises to the best advantage, is a program that Escanaba today can well inaugurate.

The bulk of the farmers' business is not coming to Escanaba today.

To get that business will be an asset and a material aid in withstanding any period of adversity that may be in store for the future.

## MAKING PLANS TO RETALIATE

**RETRIBUTORY LEGISLATION AGAINST GREAT BRITAIN WILL BE MADE EFFECTIVE AT ONCE—WILSON STANDS BY GUNS.**

Washington, D. C., Nov. 15.—The administration it was stated today, has been preparing for some time to put in for retaliatory legislation against England for acts hostile to American commerce.

President Wilson is determined to stand by the position he took in the "blacklist note." Secretary Lansing has been considering the best means of making these retaliatory measures the most effective and that the president will attempt to put through additional legislation in this term of congress to bring Great Britain to seeing his view point is believed certain.

## AMERICANS GET BONDS

Special to the Press  
New York, Nov. 15.—It was learned on high authority today that the contents of the mysterious box, which was brought on the Deutschland was American railway stocks and bonds and 4 1-2 per cent bonds of the Japanese government, German stamped.

The stock was that of Baltimore & Ohio, Erie & Great Northern. The bonds were of the Northern Pacific, the St. Paul and Central Pacific.

## PASSES AWAY AFTER A PROLONGED ILLNESS

After an illness of several weeks Mrs. Henry Carlson of 723 Oliver avenue, passed away yesterday at a local hospital. The body was removed to the undertaking rooms of J. B. Wilkinson, where it was prepared for burial and today will be taken to the family home, where it will remain until the hour of the funeral. Mrs. Carlson had a host of friends in the city and while for some time it had been known that her recovery was critical, hope for her recovery had been entertained to the last. She is survived by her husband and family. Definite arrangements for the funeral will be held today.

Frank Walters has returned to his home in Marquette, after a short visit here.

## RAPID RIVER MAN DIED YESTERDAY

Louis Hoffman of Rapid River, 50 years of age, passed away yesterday at a local hospital after an illness of two weeks from pneumonia. The body was removed to the undertaking rooms of J. B. Wilkinson, where it was prepared for burial and where funeral will be conducted this afternoon. Mr. Hoffman was 50 years of age and had no relatives in this district.

## MARQUETTE ADVANCING

Marquette, Mich., Nov. 15.—The opening of the Nuffer Cedar company's new box lumber plant and the beginning of operations on the Piqua Handle company's new factory marks the beginning of a new move toward making this city a manufacturing center.

William Cook Rogers, president of the Piqua company, turned the first shovel of ground over the new site on the north side of the city this week and now there are fifty men at work clearing up the location for the several buildings which are to be constructed.

The new organization has several handle factories in different places in the middle west and has a capitalization of \$500,000. Its headquarters are at Piqua, Ohio. The factory to be located here will take the place of the factory now at Thompsonville, in the lower part of Michigan. It will be dismantled and the machinery brought here.

The great abundance of timber in Cloverland attracted the attention of the Piqua firm. They purchased large tracts of land near Michigan, and are building a railroad through this land in order to get their timber to the Marquette factory.

The new plant will be in operation June 1 and it is expected that 125 men will be employed. By the end of another year more than 200 men will be at work. The Piqua firm plans on several large buildings and has plots of land, secured through the efforts of the Marquette Commercial club, on which subsidiary firms will be constructed.

Sixty men are at work in the Nuffer Cedar company's new plant. Lumber is secured here from the Schneider and Brown Lumber company.

Mr. and Mrs. S. E. Lyons returned Wednesday evening to their home in this city, following a two weeks visit with friends in Marquette.

K. E. Voght of Northland, deputy state game warden, was down last night on business.

J. A. Bergman, has left for Manistique, where he will be employed in that place in remodeling Julius Peterson's store.

Lester Walsh who has been employed in Chicago the past two months has returned to his home here.

## CALIFORNIA IS WILSON STATE

**REPUBLICAN LEADERS IN GOLDEN GATE STATE ABANDON HOPE OF MATERIAL CHANGE IN VOTE COUNT.**

Special to the Press  
San Francisco, Cal., Nov. 15.—Republican leaders in California have abandoned hope that the recount will bring Hughes a majority of the votes.

With the official count almost half completed President Wilson's majority is practically the same.

In Los Angeles county Hughes had a gain of 145 over the unofficial figures. In San Francisco the count has brought the president eleven more votes. In Santa Clara the complete returns gave Hughes a lead of five more votes. In the other counties no material errors were found.

## RECORD MADE ON PEA CROP

W. D. Hughes, former district agent for the Soo Line with headquarters in this city and now in charge of his Beech Grove farm at Fayette, has quarried this season as the champion Marrowfat pea grower of Cloverland. For his pea crop on 14 acres of land at his farm, Mr. Hughes has just received a check for \$97.14. The crop brought an average return to the grower of \$6.79 an acre.

## RUMMAGE SALE WILL OPEN TODAY

Members of the Ladies' Aid society of the First Presbyterian church will inaugurate a big rummage sale at the Cleary building, immediately west of the Strand theatre today. A great quantity of wearing apparel has been assembled at the building and prices have been fixed at nominal sums for the benefit of many families in the city who refuse to accept charity and are awaiting bargains in apparel. All of the articles placed on sale have been thoroughly fumigated and are considered excellent values. The sale will continue through the remainder of the week.

Mr. and Mrs. S. L. Foard and son, Raymond, have arrived in the city from St. Ignace, and are guests at the home of Mrs. Foard's mother, Mrs. C. H. Lyman, Parkie street.

Miss Jean's Burton left Wednesday evening for Schoenady, N. Y., where she will make her future home.

## A LOW RECORD IS ESTABLISHED

A new low temperature record for the winter season of 1916-17 for Escanaba was established yesterday morning when the mercury in the official thermometer registered at 9 degrees above zero. Green Bay had a temperature considerably lower than Escanaba, the low record for that city yesterday morning being 2 above zero. The cold wave that swept over this territory out of the west early in the week has moved east, losing its intensity as it advanced. Not a zero or below zero mark was recorded yesterday in either the United States or Canada.

## ROADS BLOCK 8 HOUR LAW

**FIRST OF 200 RAILROAD COMPANIES START SEPARATE SUITS AGAINST OPERATION OF ADAMSON LAW—TO DELAY ITS PLACING IN EFFECT.**

Special to the Press  
New York, Nov. 15.—If the railroads of the United States carry out their intentions, as expressed today, to file a separate suit in behalf of every one of the 200 railroads in the country, in every district they enter, the Adamson so-called eight-hour law will be from six months to two years behind in going into effect it is declared.

It is asserted that even if the law is declared constitutional the long delay in its being put into effect will come if the roads carry out their reported plans.

The railroads' brotherhoods, it is announced, will appeal at once to President Wilson and will urge him to give them on January 1, next, the eight-hour day, which they claim was promised them last summer when the general strike order was recalled.

New York, Nov. 15.—The New York Central railroad will shortly file an injunction suit to test the constitutionality of the Adamson railroad law. The suit will be directed against Federal District Attorney Marshall and the railroad brotherhoods. It was reported today that Attorney General Gregory will shortly select one of the railway suits and pass it to a decision which, if adverse to the government, will be taken up to the supreme court.

Philadelphia, Nov. 15.—The Pennsylvania railroad has filed a bill of equity in Philadelphia asking the federal district court to declare the Adamson law unconstitutional.

The railroads are contending that the Adamson law is in no sense a regulation of commerce, but a temporary ruse for the increasing of wages.

## SPECIAL MEETINGS ARRANGED FOR FORMER ESCANABAN IS STRICKEN DEAF

At the Salvation Army hall, 500 Ludington street there will be special week-end meetings conducted by Eganoy Walter Jeffrey the blind musician of Calumet, Mich., commencing Friday evening at 8 o'clock with a musical entertainment given at the Presbyterian church for the benefit of the Army. Tickets for the entertainment can be had from the offices of the Army or bought at the church that evening for 25c. Two children will be admitted on one adult ticket.

Everybody come and hear the blind musician and also some of the local talent of the city. Don't forget the time and place.

Miss Adrienne Tounignant and Master Lawrence Fillion returned last night from Iron River, where they were called by the illness of Mrs. William Hill, formerly, Miss Jennie Ethier of this city. Mrs. Hill was suddenly stricken deaf on Tuesday of last week and for several days her condition was serious. Symptoms of improvement have developed however, and every hope is now entertained by the attending physicians that she will completely recover.

H. M. Harris has returned from a short business trip to Marquette.

## RILEY'S WORK IS NOTICED

**NEW YORK WORLD FOOTBALL CRITIC SAYS ESCANABA COACH IS WORKING WONDERS WITH RECRUIT ELEVEN AT AMHERST.**

Football critics of the east are watching with deep interest the desperate effort of Attorney T. J. Riley of this city, football coach at Amherst college to develop a winning team out of an aggregation of raw recruits.

Amherst lost the first four games of the season and then broke into the winning column by defeating Trinity. Last Saturday Amherst-towed in defeat before Mt. Union and next Saturday the big game of the season will be played when Amherst meets Williams.

Of the work of Coach Riley George Daley, writing in the New York World, says:

Tom Riley, genial and roundabout has his coat off. His eyebrows are growing thin; he almost ruined one in the Brown game and kept pulling at the other against Wesleyan until it looks a bit ragged. But his weight is holding up even under the hardest work he has ever done in his coaching career.

Tom Riley has faced the hardest problem of his football life this year. Off to a late start because of the infantile paralysis scare, he has been trying to build an eleven from the rag ends of his second and third-string teams from last season.

The team which beat Brown by a score of 7 to 0, Wesleyan by a score of 10 to 7 and Williams, its dearest foe, by a score of 31 to 0 in the fall of 1915, was literally cut to pieces. (Continued on Page Six.)

## FRENCH MEET STIFF ATTACK

**GERMANS COUNTER AGAINST ALLIED FORCES IN WEST AND REGAIN SOME GROUND—FALKENHAYN DRIVE CONTINUES—CRUSH ROUMANIA IN CENTRAL POWERS CRY.**

Special to the Press  
London, Nov. 15.—The first big counter attack of the Germans was hurled today against the French on both sides of the Oenre brook. They gained some ground in the St. Pierre Vaast woods. The British claim gains north of the Ancre.

London, Nov. 15.—General Falkenhayn, reinforced with fresh troops, is again attacking the Rumanians on the whole Transylvanian front.

Bucharest admits that they have had to retire to their second line of trenches and that some territory was lost in the Alt valley. Meanwhile the Russians have attacked the Glacian line hoping that the thinning out to assist Falkenhayn would give them advantage, but their attack has not met with success.

Berlin, Nov. 15.—The opening of peace negotiations between the European belligerents may perhaps be expected with fair prospects of success during the coming winter and there are no reasons why President Wilson, of the United States should not be acceptable as a mediator, was the declaration made today by Count Apponyi, former Hungarian premier, who is on a visit here.

"Once Rumania has been crushed by the central powers" said the count, "I think both sides will be willing to consider negotiations for peace."

He added that he believes the entrance of Rumania into the war was the last card of the Entente allies.

Berlin, Nov. 15.—On the Somme front the British have succeeded in capturing Beaucourt, but the reports indicate that they have been repulsed elsewhere with heavy losses.

## HENRY FORD IN CABINET

Washington, D. C., Nov. 15.—It was stated tonight on what appeared to be excellent authority that Henry Ford will accept the appointment as secretary of commerce. Mr. Ford's name has been rumored as that of a possible cabinet member several times. The report that Secretary Redfield will resign is generally credited.

Escaaba Morning Press

James S. Doherty, Pres. and Bus. Mgr. John P. Norton, Sec. and Man. Editor

When you get a man in a corner, if he has any spirit, he will fight.

President Wilson isn't the only one following a "watchful waiting course" course just now.

There's absolutely no foundation to the report that the Escanaba hills claim the peninsula football championship.

If these men holding election bets would just open savings accounts and collect interest on the pots in the interval before the result is definitely announced.

Green Bay has snow drifts five feet in height. We never could understand why anyone would want to live in Green Bay anyway.

DIRECT ELECTION OF PRESIDENTS!

(From the Milwaukee Sentinel.) It is perhaps a little singular that the New York World which backed the winner in the presidential race, and is naturally elated over the result, should come out, as follows, for a constitutional amendment to do away with the present indirect mode of electing presidents and substitute election by direct popular vote:

The president of the United States ought to be elected like a governor or a senator—by the voters themselves.

The amendment preemptorily declares: "The right of the citizens of the United States to vote shall not be denied on account of race, color or previous condition of servitude."

"The congress shall have power to enforce the provisions of this article by appropriate legislation."

Now it is clear enough that if presidents of the United States are to be chosen by direct popular vote there will be insistence—just insistence—that will brook denial or circumvention—that the popular vote shall be entirely cast and honestly counted.

Such large and admitted suppressions of that vote in southern states as are now winked at could not be tolerated.

Unconstitutional state statutes and legalized practices in circumvention of the Fifteenth amendment would have to be set aside and there would

have to be some form of federal supervision in the disfranchising states to secure a full vote and an honest count. State rights would dwindle before national and individual rights.

### SCORES U. S. FOR LAND WITHDRAWAL

Chicago, Nov. 15.—A paper favoring remedial national legislation in connection with hardships entailed on western mining men by the withdrawal from entry of more than three million acres in California and Wyoming in September 1909, was read before the American Mining Congress this afternoon by Ray N. Bishop, Oil Industry Association, of California.

"A divided supreme court," said Mr. Bishop, "declared illegal the withdrawal authorized by act of Congress in February 1897, and he said this came as a blow to many men who had placed their entire financial resources in the western mining fields. They were under the assumption that, although it was early realized that the law passed in 1897 could not properly be applied to the prospecting and development of petroleum lands, the government would do no wilful injustice in cases where actual prospecting was in progress.

also was taken, but that did not matter.

"The letters in my possession have been delivered to the department of justice. When they are made public I assure you they will create a sensation. They will show illegal stock transactions both here and in Europe. I cannot talk of the diplomatic aspects now. I have given my word to the department of justice."

Dr. Graves denied emphatically that there is any legal basis for a charge of blackmail. He declared positively that the letters contain nothing reflecting in any way upon the Countess von Bernstorff, wife of the German ambassador. Those addressed to her, he said, were from a woman well known in court circles in Berlin. They were not in code, but according to Dr. Graves were so worded as to convey secret information of a political nature to the ambassador.

Dr. Graves was at once indignant and cheerful. At times he laughed. Once in a while he frowned. His manner was one of prevailing good humor.

"Yes," he said, "those letters will make a terrific sensation when they come out."

### GREAT TOLL WAS CLAIMED

Lansing, Nov. 14.—During the five years from 1910-14 there were 11,411 deaths from tuberculosis of the lungs in Michigan, according to figures just published by the state board of health. These figures do not include deaths from tuberculosis of other parts of the body, which would make the total considerably larger. This makes a yearly average of 2,282.

Health workers believe that during the five years beginning with 1915 there will be a material decrease in the yearly total because of the special efforts that are being put forward now in Michigan to curb the disease, especially if this work is logically followed up. As an example of what work of this kind will do they point to recently published statistics from the Netherlands, where during the twelve years ending with 1914 there was a decrease in the tuberculosis death rate for men from 210.1 per 100,000 population to 143.3 per 100,000, and for women from 176.9 to 137.2.

This tremendous reduction in the death rate in Holland is the expression in figures of the consequences of improved hygiene in workshops, improved facilities for treatment, and systematic effort on the part of the government to curb the disease influences by the governmental methods of curbing tuberculosis in Germany, which are the most efficient in the world. The correctness of these rather startling figures is vouched for by Dr. Sanders in "Nederlandsche Tijdschrift van Geneeskunde" a Dutch medical journal.

### HUGHES OR T. R. IN 1920 NOW QUESTION

New York, Nov. 15.—"Will it be Hughes or Roosevelt in 1920?" was asked of Republican National Chairman Wilcox today.

"It might be one or neither, was his answer. "Within the next four years there is likely to be an entirely new Republican alignment. New issues will develop, whether Wilson or Hughes is finally declared elected to the presidency. Mr. Hughes never sought the presidential nomination. I still believe that he has been elected. I shall await the official returns.

"You have been informed, have you not, that Progressives are already urging Colonel Roosevelt again to become a candidate for the presidential nomination?"

"My only information about that," Mr. Wilcox replied, "is gleaned from the newspapers. Should it develop that Wilson instead of Hughes is elected, the choice for the Republican presidential nominee naturally will be determined by the official acts of the present administration. On the other hand, should Hughes prove to have won the presidency, his acts

as president would count for or against him. It is too early to forecast what may happen during the next four years.

"One thing certain, I shall stick right to my job as national chairman until every vote in every close state is canvassed. Our headquarters lease does not expire until December 1, so we shall hold the fort as long as the canvass progresses."

"Then, despite demands for your scalp, you plan to remain at the head of the national committee four years more?"

"I have heard no demands for my scalp. I know of no reason why there should be any."

"It is charged that the Hughes managers chiefly yourself, were ignorant of conditions in California, Kansas, Nebraska, Ohio, New Hampshire and other states which were either carried for Wilson or are in dispute.

"As for California, I personally knew of conditions there. The moment I hear rumors of quarrels, former United States Senator Hemingway, of Indiana, and James G. Garfield hastened to California. They investigated and reported that things were in good shape.

"As for Ohio, we were warned long in advance that conditions there were such as to warrant anxiety. We took every means to remedy them. We failed.

"Up to within a few days of election we were assured that Kansas was safe by 75,000. The final returns from there amazed us all. As to New Hampshire it seems that a large number of French-Canadians settled there and voted the Democratic ticket. Minnesota seems to be all right. I hope yet for better results from New Mexico and North Dakota.

### LETTERS WOULD CREATE SENSATION

New York, Nov. 15.—Dr. Carl Armand Graves, arrested at Washington on a charge of attempted blackmail of Baroness von Bernstorff, made counter charges against his accusers.

"My rooms were entered through a window," declared Dr. Graves at his home. "The place was ransacked and papers taken.

Among them were two half sheet of decoded letters. Fortunately, I had not left the originals in my apartments, so my only loss is only time. It will take me two days to duplicate the work. A copy of the cipher code

### MAYOR PUTS DAMPER ON PLANS FOR NEW YEAR'S CELEBRATION

Chicago, Nov. 14.—Chicagoans, who are accustomed to welcome the New Year with celebrations in cafes and hotels will have to crowd all their gayeties into just one hour this year. Mayor Thompson announced that the police would permit no tilting of the lid that has allowed the one o'clock closing law to be avated in former years.

The last day of the year, coming on Sunday, cafes selling liquor will be closed until midnight under the state law. At midnight they may open, but at 1 o'clock they will have to close to conform with the city ordinance.

### NINETEEN WOMEN KILLED WHILE ON SECTION DUTY

Berlin, Nov. 14.—The Balkan express which runs between Constantinople and Berlin dashed at full speed on Sunday into a party of women section hands in a suburb of Berlin. Nineteen women were killed. There was a heavy fog at the time. The women had stepped out of the way of a west-bound train and did not observe the approach of the Balkan express.

### PULLS JUDGE'S HAIR TO PROVE CRUELTY

Appleton, Wis., Nov. 15.—Because Mrs. Hafferbecker today insisted on showing Judge Spencer just how her husband treated her the judge is short a few hairs from his head and the court has asked the jailor to build a railing between the witness box and the judge's desk.

Mrs. Hafferbecker complained that her husband beat and mistreated her and when the judge asked how he mistreated her she suddenly, in her excitement, left her seat and seized him by the hair, giving it a lusty yank. After the judge had freed himself he gave Mr. Hafferbecker thirty days in the workhouse and he ordered the railing built.

### WANTS SHERIFFS ON SALARY BASIS

The state board of corrections and charities has completed its recommendations which it will make to the 1917 legislature for new laws or changes in old ones.

At the head of the list is the recommendation asking that all sheriffs be put on the salary basis. This is an old friend of the legislature, having been up regularly only to lose out in committee or on the floor of the House or Senate. This time the board says it can furnish figures from 24 counties in the state which are now operating under the free system.

These figures, they say, show conclusively that the fee system is the more economical and obtains the best results. In some counties under the fee system the cost of feeding prisoners is as low as 25 cents a day, while in counties using the old system it runs as high as 75 cents a day.

An annual school of instruction for county agents is also urged. This is comparatively a new proposition and is caused by the fact that so many of the county agents are lax in their understanding of the laws under which they are working.

The state reformatory for women, which went into the legislature of 1915, backed by all of the women's clubs and societies in the state, is again recommended.

A state architect for state institutions is also asked again.

Uniform accounts are requested, and the board also asks for more authority over the county and city institutions. It asks to add juvenile detention homes to the list over which it has control. This would make the approval of the board absolutely necessary in the plans of county infirmaries, city and village jails and police stations, and county detention places for juveniles.

The board wants to make the Cold water public school an institution for the maintenance and training of back

### CHICAGO HUNTER MAY HAVE PERISHED IN MINNESOTA WOODS

Chicago, Nov. 14.—Horace Jackson, wealthy 70 year old member of the Chicago board of trade is lost in the northern Minnesota woods and the blizzard raging there has caused his relatives here to fear that he may have perished.

Word was received from Minnesota today that Jackson has been missing since last Thursday when he started into the woods from Ely, Minn., on a hunting trip. The storm started soon after, and although Jackson was an experienced woodsman and has been in Minnesota hunting annually for years, he failed to return.

### LAKE CAPTAINS TO DEMAND THE BALLOT

Ashland, Wis., Nov. 15.—Lake captains expect at their annual meeting at Detroit or Cleveland to agitate a move ment which will allow them to vote, especially at presidential elections.

"I have been on the lakes for a great many years," said Captain F. E. Cody, of the steamer Frank Billings, "and have never voted for president in my life. I know many captains who have never voted at any election. Lake captains and their crews comprise several thousand legal voters. It is said that of all the thousands of lake and salt sailors all are non-voters. It is expected that the vessel masters will begin an agitation which may result in legislation permitting them to vote.

### SHOW COST TO OPERATE PRISONS

Lansing, Nov. 14.—Figures of interest, in view of the increasing cost of living, are gained from statistics furnished by various penal and reformatory institutions of the state on the cost of maintaining inmates. The figures are maintained in reports made to the state department of labor.

Jackson prison reports in addition to cattle purchased for the prison farm and food raised on the farm for convicts, a cost of 15 1-2 cents per capita for food and 6 1-2 cents for clothing, a total of 21 cents per capita. The prison then had 993 inmates. Ionia state reformatory with 604 inmates gives a gross cost per capita of 65 cents, a net of 24 cents after deducting earnings of men and a further reduction of 20 cents after deducting permanent improvements and labor on roads.

Ionia state hospital with 464 patients, shows a cost of 55 cents per capita.

Marquette house of correction and branch prison with 333 inmates reports a cost per capital of keep of 43 cents.

Detroit house of correction with 519 inmates gives a report of 16 cents per day per capita for food and clothing.

Industrial school for boys at Lansing with 798 inmates has an average daily cost per capita of 36 cents.

Industrial school for girls at Adrian, 418 inmates, 39 cents.

### SEE BIG LOSS IF ADAMSON LAW IS PUT IN FORCE.

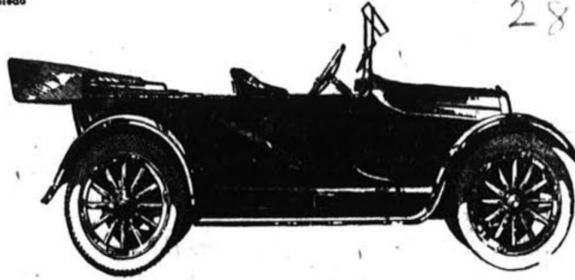

St. Paul, Nov. 15.—The Great North ern railroad today asked the federal district court here for an order preventing the enforcement of the Adamson law. The suit was the first to be filed by any road in this territory. It is similar to the suits filed by the Louisville & Nashville, the Atchinson Topeka & Santa Fe, and the Union Pacific. The enforcement of the law would result in great financial loss, the railroad's petition asserts.

\$635  
5 Passenger Touring Car  
Roadster \$620  
Loc. Toledo

# Overland

Model 75 B

31½  
Horsepower

## Speedy and Easy Riding

There's little comfort in most low priced cars. You can't use their speeds. They jostle you—they ride roughly—they don't hold the road.

The \$635 Overland is different. It is not only the speediest of low priced cars—

But you can use the full speed of its powerful motor when you need it.

It has long 42-inch, easy riding, shock absorbing cantilever rear springs. In addition the 75 B Overland is a longer car—104-inch wheelbase. And it has 4-inch tires.

Its smoothness and ease of riding at any speed would do justice to a much larger and heavier car.

Come in and let us demonstrate. That's the best kind of proof.

WANTS TO FIGHT, BUT IN AMERICA

James Bracy, Black, of Portsmouth, Doesn't Care for Foreign Legion.

SCRAPS' AROUND WHOLELOT

Isn't Afraid of the Germans, but Wants to Battle With Them at Home Where He Knows the Country.

By FRED B. PITNEY.

Paris.—"To all is Americans, isn't it?"

It was a very plaintive query, indeed, and I turned from the automobile in which I had ridden into La Vallbonne, the headquarters of the foreign legion, to see a small and very black negro in the uniform of the French army watching me anxiously.

"Yes," I replied, "we are Americans. Are you?"

"Yassuh," said the negro. "Je suis American. Parlez-vous Anglais? Ah comes from Potamo'th, Virginia. Mah name is James Bracy, sub. James Bracy, B-a-c-y. Is yo' got dat name right? Perhaps, yo' wants to write it down?"

James was not martial. He was feline. He was like a small kitten, playing around, begging to be scratched behind the ears.

"How do you come to be here?" I asked.

"Ah come in a grand ship to Bordeaux, wrestlin' hosses," he replied, "an' when Ah got there, there wasn't no way to git back, so Ah 'listed."

"How long ago was that?"

"Eight months, sub."

He knows Norfolk.

"I suppose you know Norfolk, James?"

"Norfolk?" exclaimed James. "Why, of co'se Ah knows Norfolk. Ah comes from Potamo'th."

"And Old Point Comfort?"

"Sub?"

"Old Point Comfort, Chamberlain's hotel, Fortress Monroe."

"No, sub. Ah don't know none of dem."

"But if you come from Portsmouth and know Norfolk, you must know Old Point. It's only eight miles away."

"Aw-h," said James, "you means Hampton Roads. Why, yassuh, Ah knows Hampton Roads. Ah sailed out-tah Hampton Roads when Ah come heah."

James crept a little closer, and became confidential. "Does yo' all reckon America is goin' to git into de wah?" he asked.

"Do you want America to come in?" I queried.

"Yassuh," he said eagerly. "Yassuh, Ah su' does want America to come into dis heah wah."

"Why?"

"Wants to Fight Germans."

"Cause," he replied, "ev'body roun' heah says if America comes in we all Americans 'd be 'matically released an' could go home. An," he added, pleadingly, "Ah sho' would like to weah some clo'es again—some regular clo'es. Dese heah ain't clo'es, rightly speakin', an' Ah sho' would like to weah some clo'es again, sub."

"But don't you want to fight the Germans, James?" I asked.

"Yassuh, yassuh," he said. "Yassuh, Ah wants to fight 'em at home. Ah sho' wants to lick de Germans to a finish. But Ah wants to do it in de United States of America. Ahse eager to fight de Germans. Dey ain't nobody moh eager'n Ah am to fight 'em in Potamo'th, Virginia, wheah Ah knows de country an' de people an' Ah can fight 'em right."

"You must have had some experience already, James," I said. "You have been in the legion eight months; you must have done some scrapin'."

"Oh, yassuh," he replied. "Ah done right consid'rabul scrapin'."

"What part of the front have you been to?" I asked.

Scraps Around a Whole Lot.

"Ah ain't been to de front," he said. "Theah's a couple of fellahs an' me scraps aroun' heah a whole lot. Sometimes we wrestles an' sometimes we scraps, but mostly we scraps."

We had gone to La Vallbonne to see the American members of the foreign legion who were still at the depot, and I asked James if we would see him in the squad.

"No, sub," he said, "Ah ain't goin' to be in it."

"Why not?" I asked.

"Ah heahd yo' all was comin'," he explained, "and Ah went to Sergeant Bouligny an' Ah says to him, Ah says, 'salutin' of co'se, 'sergeant,' Ah says, 'when de gemmuns comes to see de legion, Ahse ready, when yo' is. Yo' can call on me,' Ah says."

"But Sergeant Bouligny comes from New Orleans, an' he looked at me an' he says, 'We don't need you,' he says, an' he turned 'roun' an' walked away. Ah reckon it's 'cause Ah'm culled, so Ah come ovah heah to ask yo' if yo' all thinks Mistah Wilson is goin' to do anything 'bout de wah so we all can go home."

Twin Rider No Respector of Irons.

Birdsaw, Pa.—Randolph Michellott, a train rider arrested by an officer of the Reading railroad, managed to jump a freight train and escape in spite of the fact that both his hands were manacled in iron.

THIS MAN GETS HIS LIVING ON A DESERT.

Since 1885, W. E. Brown has been wrestling with the soil in Utah. In the November Farm and Fireside, a writer says:

"Not how to get back to the soil, but how to stay on desert soil miles away from big towns and yet make a living—thas was a problem confronting W. E. Brown at his little place on the Green River in Utah. He began the struggle about 1885, so it may be seen he has been at it for a good while.

"Irrigation is absolutely necessary on such a place. There is an abundant water supply all the year round in the Green River. Pumping, you say, is all that is necessary. Remember, however, that pumping machinery costs money, that gasoline or other fuel is something that must be paid for. Then consider that most settlers in such places are abundantly supplied with ready money and you have the situation at the start."

New Lookout.

When a cold hangs on as often happens, or when you have hardly gotten over one cold before you contract another, lookout for you are liable to contract some very serious disease. This succession of colds weakens the system and lowers the vitality so that you are much more liable to contract chronic catarrh, pneumonia or consumption. Cure your cold while you can. Chamberlain's Cough Remedy has a great reputation. It is relied upon by thousands of people and never disappoints them. Try it. It only costs a quarter. Obtainable everywhere.

PROVIDE "GRUB" FOR WOODSMEN

Organized, and at the outset financed by a limited number of concerned (including some of the principal land owners in the upper peninsula to protect their holdings from the ravages of forest fires the usefulness of the Northern Forest Protective association is now greatly diversified and its protection practically unrestricted.

The first aid to its scheme of timber conservation has been the unique and effective methods of advertising employed by the association in its highly successful campaign to educate and to secure the good will in particular of all who frequent the wilds of the upper peninsula and of the general public.

By maintaining road direction signs in all parts of the upper peninsula for the past few years as well as in many other ways, the association has made its mite appeal effective for the good will and co-operation of those who frequent the highways and byways of Cloverland.

By way of experiment—at the outset—the association is now seeking the co-operation of those who habitually, or even occasionally respond to the "call of the wild" in Cloverland. If appreciation and co-operation approximately general is manifested by those who have an opportunity to help the plan, now being tried in about half a dozen places, will be extended to all parts of the upper peninsula. The association is placing in hunting

camp what has been fittingly called an "Emergency Grub Box." This grub box, being of metal, is porcupine proof. Its contents will consist in part of the following: Hard tack, dried foods, including eggs, pea soup, beef cubes, Saxin (sugar substitute) drier milk, skillet pail, knives and forks, spoon, cups, matches, candles game and forest fire laws, location of camp and direction for getting out.

Those who find these boxes are urged to use their contents sparingly and only if needed and to avoid waste.

The further reasonable requests are made:

PLEASE—Keep the box closed and fastened. Leave dry wood in plenty. Leave doors and windows shut. Do not rob the box; you may need it later.

Report any one damaging or misusing it.

Register and state if it was a help to you.

Secretary Wyman of the association says the degree of appreciation and co-operation manifested during the present hunting season when the plan will be tried out in a number of places in the upper peninsula, will determine whether the plan will be generally extended throughout Cloverland, which would entail a considerable expense.

A Pessimist's Optimistic View.

"Are you looking forward to the summer with pleasant anticipations?" asked the optimistic citizen. "Yes, indeed," replied the pessimist person.

A great many people I'm tired of looking at will go out of town for the summer."

PRESS WANT ADS BRING RESULTS.

Morning Press Want Ads.

Advertisement of Least Per Sale, Wanted, To Rent, etc., not exceeding 25 words, inserted in this column three consecutive days for 25 cents, or one week for 50 cents, if paid in advance. THE NEWS THAT FIT TO PRINT YOU SEE IT FIRST IN THE PRESS.

A Pedestrian.

"There goes one man who isn't troubled by the high cost of gasoline." "Perhaps he sells it?" "No. He merely smells it. All he consumes is the fumes."

Scientific Order.

Mr. Pessimist—"What is a consulting specialist, anyhow?" Mr. Optimist—"Oh, he's the big doctor that says you are going to die and tells you how to do it properly."—Judge.

A Tonic King.

"He's worth a million, you say?" "And every cent of it blood money." "Made in war stocks?" "Oh, no; he manufactures one of the patent purifiers."

Point of View.

They were standing on a busy corner of the great city. "What a hard time men have running around trying to make a little money," remarked the pessimist. "Yes," rejoined the optimist, "but look what a good time women have running around trying to spend it."

Hardships of War.

Two hundred and twenty-two articles besides rations are carried by British soldiers sent into the trenches, sixteen items being worn on the person, eleven carried in the pockets, nine in the haversack, sixteen in the valise and nine in the "hold all," besides sixteen items of equipment.

Almost Insulted.

"What is your favorite soft drink?" asked the breezy young man. "Sir," answered Colonel Soakaby, with some degree of asperity, "those conceptions I interpret me not at all. Fortunately, I have never been in such a predicament that I could not get water for bathing purposes."

HOW APPENDICITIS CAN BE PREVENTED

Escanaba people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Ad-ler-i-ka often relieve or prevent appendicitis. This simple mixture removes such surprising foci matter than ONE SPOONFUL, relieves almost ANY CASE constipation, sour stomach, or gas. A short treatment helps chronic stomach trouble. Ad-ler-i-ka has easiest and most thorough action of anything we ever sold. A. Ellsworth, Drugist, 701 Ludington St.

FIVE REASONS WHY THE Morning Press

Stands Pre-eminent among The Newspapers of Delta County And The Section of Cloverland Served by It

- 1. It offers to its readers the news when it is news.
2. It offers more local and district news than any other newspaper in this section.
3. It offers the world's news in concise, interesting essentials.
4. Its news columns are guarded against matter unfit to be read in the home.
5. And finally and primarily because its publishers believe implicitly in the future of Escanaba and Cloverland and accept as a bounden duty the service of giving publicity, in season and out of season to Escanaba and Cloverland's multitudinous advantages.

These are the reasons why THE MORNING PRESS has become The BIG Newspaper of Delta County

Its Past is a History of Achievement; Its Future is Limitless

IF IT'S RIGHT AND FIT TO PRINT YOU'LL SEE IT FIRST IN THE MORNING PRESS

**THEATRES**

**THE DELFT.**

Marie Doro one of the most celebrated dramatic artists on stage or screen, will be seen at the Delft today in "Common Ground," a thrilling drama of social conditions written especially for the Paramount program by Marian Fairfax.

"Common Ground" shows the mental and spiritual awakening through love, of a child of the slums, employed in an artificial flower factory.

How she meets, falls in love with and eventually saves from ruin, at the hands of political grafters, a young judge, is the basis of this most unusual play. The methods of the army of parasites connected with the city institution and their dealings with the unfortunate of the underworld, are vividly exposed.

How these grafters, to further their own ends, manufacture false conditions to harm their enemies, is brought out through a series of most unusual scenes.

The Lasky company has surrounded Miss Doro with a cast of unusual excellence, consisting of such distinguished artists as Thomas Melghan, as

the young judge, Theodore Roberts, Mary Morsch, Horace B. Carpenter and Vera McEvers, and a number of other members of the Lasky all star organization.

Also Burton Holmes' Travels.

**THE STRAND.**

Frances Nelson and E. K. Lincoln, in "The Almighty Dollar," a World feature of unusual qualities of excellence is the chief picture offering today at the Strand.

Money is a good servant, but a dangerous master. Some say that even as a servant Money is master, and there is a strong argument in favor of this sentiment. Figure as you will, and you must admit that the almighty dollar is almost master of every condition. Without it, war would cease so the optimists say, but long before money was the medium of exchange, war frequently raged with as great fury.

Money in one form or the other has always existed. Between Adam and Eve it took the form of an apple, it purchased her desire but it did not mean happiness. For ages men and women have sacrificed true happiness in order to gain wealth, in the belief that it would bring contentment, but alas! if the principles of contentment are not within us—the possession of wealth or station will not provide happiness.

See "The Almighty Dollar" and you will go home with your mind focused on a new angle of life—and will suddenly find yourself grown rich.

**MISSING PACKET HELD IMPORTANT LETTERS**

Washington, Nov. 15.—The German embassy has reason to believe that a number of highly confidential official dispatches, at present missing, were in the packet from which Karl Armgard Graves extracted letters he is charged with having used in an alleged attempt to obtain \$3,000 from Countess von Bernstorff, wife of the German ambassador.

The nature of the dispatches is unknown. The German government has been sent all available information regarding the packet's contents and an investigation, it is said, will immediately be made in Berlin, with a view to ascertaining what, as well as the identity of the messenger from whom Graves secured the letters.

It was made clear today that Prince Hartzfeldt, counselor of the embassy, through whom Graves attempted to get the \$3,000, may testify against him, but would prefer not to. If this testimony is deemed essential to the prosecution of Graves, permission for him to appear in court will be asked of Emperor William.

It was learned today that the packet from which Graves obtained the letters addressed to Countess von Bernstorff had been officially sealed by the German foreign office. The letters which have so far been seen by embassy officials are dated early in September.

**People You Know Things You Don't**

Mrs. O. H. Harstad and Mrs. Carl Sanbell and son, Glen, of Bark River, have been called to Minneapolis by the death of J. Jacobson.

A marriage license was issued yesterday to Remy Fish and Miss Nelma Holmes, both of this city.

Alderman Joseph F. Pryal, Motor Cop Elmer Swanson and members of their party left yesterday for a hunting trip near Kates.

A license to wed was issued yesterday to John Maki and Hilda Eronen, both of Rock.

Walter Hamm will leave today for California, where he will spend the winter.

Miss Naomi Syverson is confined to her home on Campbell street with a severe cold.

Miss Nora Shields has returned to her home in Marinette, following a short visit with friends in this city.

Harold Thompson and Ledger Cooney left this morning on a business mission to Manistique.

Kenneth Simonson returned last evening to his home in Waukegon following a brief visit with Escanaba friends.

## INSPECT BOATS DURING WINTER

In order that some of the confusion that has accompanied the opening of navigation at the lake ports may be avoided in the future, the department of commerce has directed the local steamship inspectors to inspect the boilers of vessels which may make application for such work while tied up in harbor this fall or during the winter. The department also requests that the hydrostatic or draught, test be made at the same time. It is understood that the examination of the equipment especially that of a life saving character will be finished in the spring or early summer.

While it is not likely that all vessels will be docked at the lake ports during the winter can be given boiler inspection, a special effort will be made by the inspectors to cover as much ground as possible, and as thoroughly as the circumstances will permit, so that when navigation opens the steamers can, with little delay, fire up and go into commission.

Heretofore on the opening of navigation the inspectors have had to work early and late in order to catch up with the applications for inspection. But despite their best efforts considerable delay has been caused in many cases because of their limited source of assistance, they have not been able to make the desired progress.

The ruling will probably do away with the necessity of sending to the sea board navigation boards for experienced help, which means an added expense to the department and more inconvenience for the local officers.

Navigation is not expected to close this year until about Dec. 5. The heavy demand for ore for the lower ports and the urgent need of coal for the Lake Superior region will keep most of the freighters busy long as the lake is free from ice.

Miss Irene Cassman, left last evening for Duluth, where she will spend a few weeks visiting friends and relatives.

## BIG NINE ELEVENS TRUE TO FORM

Results of Saturday's football games, the most important of which were featured by thrilling gridiron achievements, such as the successful execution of forward passes on trick plays and accurate field goal kicking, went a long way to determine the elevens which will struggle for sectional supremacy on the next two Saturdays and Thanksgiving day.

Although, outside of the Yale defeat by Brown, there were no upsets, as has been the case all season, most of the games were evenly fought. Despite the fact that some were won by narrow margins, the losers played a brand of football which in no way brought disgrace to themselves or the institutions they represented.

Of the important struggles decided the intersectional clash between Michigan and Cornell, which resulted in a 23 to 20 victory for the Ithacans, the 3 to 0 win of Harvard over Princeton and the decisive defeat of Yale by Brown, 21 to 6, were the contests which attracted the most attention, while victories of Northwestern over Iowa, 20 to 13, and of Ohio State over Indiana, 46 to 7, were expected.

Michigan must be given credit for playing great football against Cornell. The Wolverines, who looked like certain winners after the game was half over, fought valiantly, but the breaks of the game went against them in the final stages. The opening attack sprung by the Ithacans resulted in their victory, while the great playing of Shiverick of Chicago was a factor all through the game.

Following their annual custom, Harvard and Princeton met in their customary close and hard fought struggle.

A field goal was all that prevented a scoreless tie, and this football achievement was made by Horween, who learned how to play the game and boot the ball in Chicago. Princeton met with reverses in the third period and these, coupled with fatal mistakes gave Horween his chance to make his successful goal from the twenty-three yard line.

Following the defeat of Princeton, every member of the Big "Four" now has been defeated, and indications point that Pittsburgh will be recognized as the strongest eleven in the east. The Smoky city aggregation is conceded to be the most powerful in that section by competent critics. As they have not lost a game this season and defeated all their opponents decisively, all the Pitt players have to do is to win their remaining games to be considered the eastern champions and rated as one of the most powerful gridiron aggregations in the country.

Brown was expected to give Yale a hard battle, but no one expected the Providence eleven to give the Bulldog such a lactic. The work of Pollard, Negro player, who learned the game in Chicago's High School league, was the deciding factor. He ran Yale's ends and drove off tackles for substantial gains, and was the player that Yale can blame for its defeat.

With only four of the western conference elevens going into action, all indications now point that the title will be decided at Columbus on Nov. 25, when Northwestern and Ohio State will clash. Each won decisively Saturday, and as each has a comparatively easy struggle carded for next Saturday, they should meet at the Buckeye state capital with clean slates.

Northwestern is scheduled to meet Purdue next Saturday, and if Coach Murphy employs the same tactics he did against the Hawkeyes and uses his star player sparingly, the team should put up its strongest front of late season in the Ohio State clash,

the result of which means so much to both elevens.

**FOSTER CITY NEWS.**

William J. Lawson was a camp visitor a few days this week.

The saw mill finished its cut Thursday noon for the season.

Arthur Bishop left Thursday for the state of Arkansas where he will spend the winter.

Mrs. Henry Raedler entertained the ladies of this city at her home Thursday afternoon. All enjoyed having a good time. The ladies were Mrs. Kelly, Mrs. Milligan, Mrs. Peshick, Mrs. Fillion, Mrs. Malloy, Mrs. Kortzen, Mrs. Hurley, Mrs. Lawson, Mrs. Lafountain, Mrs. Laessle, Mrs. Fenlon, Mrs. Grondean, Mrs. Olson and Miss Agnes Lajonde, Mrs. Raedler, served to the ladies.

Mr. Thepania was a visitor in town Thursday.

S. H. Bridges was in town Thursday.

T. A. Shanahan was in town this week.

**NOT MUCH HOPE FOR RELIEF OF TROOPS**

El Paso, Texas, Nov. 15.—Announcement was made two weeks ago that lumber would be issued for boarding up tents of officers and men in Michigan regiments. Nothing further was done, and those of the three regiments desirous of returning home saw hope in the fact that the lumber had not been issued.

New word has been received that the drawing of lumber will commence at once and the construction work will follow.

Coupling the import of this order with the statement of Secretary Bak-

er, that it is impossible to hold out any hope of returning the troops at present, it does not appear there is much chance of Michigan men returning home.

Probably the most impetuous unit in the desire to return home, was the Ninth Massachusetts infantry. Many of the companies held mock parades in the demand they be sent home. Finally, they, were started east. Now comes information they were taken to Macon, Ga., to occupy the camp vacated by the Georgians.

Through a committee appointed by officers, of the Thirty-third regiment, arrangements have been made for serving Thanksgiving dinner in a downtown hotel for all officers of the regiment and invited guests. Quite a number of other parties are being planned in other regiments.

**Keeps Your Stove Shining Bright**

Give a brilliant glossy shine that does not run off or dust off—that remains to the iron—that lasts four times as long as any other.

If you want a dollar to do double duty, just attend this **CLEARING OUT SALE**.

## FOOD CORNERS CRIME IN CANADA

Ottawa, Ont., Nov. 15.—Combining to raise prices of the necessities of life has been made an offense by the Canadian government, it was announced here today. Penalties are

\$5,000 fine or two years' imprisonment. The law takes effect at once. The government has taken action by orders in council under the war measures act, which gives them full powers. Food, clothing, fuel and materials for manufacture are all classed as necessities. The existing Canadian law against "combines" is strengthened. This law declared there should be no combining "unduly to enhance prices." The amendment drops the word "unduly." It is made an offense also to limit

facilities for transportation, production, manufacturing, storage and merchandising necessities of life, or to prevent or lessen competing in production, sale or transportation. No persons may accumulate or withhold from sale necessities beyond the amount reasonably obtained for the person or firm, household or business. Excess accumulations must be offered for sale at prices not higher than reasonably and just.

The prohibition as to accumulation of necessities does not apply to farmers, nor will manufacturers be required to sell to other classes or persons than those to whom they have been accustomed to sell.

Administration is largely entrusted to the minister of labor, who may require sworn returns from cold storage, packing and canning firms, factories, mines and warehouses. Municipalities may take steps to investigate local conditions; local councils may require sworn returns from local dealers and producers.

If dealers and producers refuse, the minister of labor may investigate them to force correction. He may report any case investigated to the minister of justice in the province in which the offense is committed, for prosecution at the place of offense. Directors of corporations are made liable for offenses of their firms. It is provided that nothing in the new law shall prevent the combination of workmen for their own reasonable protection.

### Riley's Work Is Noticed

by graduation or through men leaving college.

Some idea was given of what efforts are being expended at the practice this afternoon. Electric lights have been rigged up on a small plot back of the training house, and when darkness set in over the gridiron these lights were turned on and a white ball used for a long signal and formation drill.

The afternoons are all too short so that artificial means are used to prolong the practice, and he it said the players appear to be just as anxious to go on under this added handicap as Tom Riley was insistent.

In my travels from football camp to football camp the remarkable spirit of college men is going about what in so many cases amounts to real work has been emphasized in a striking way. It is this sort of discipline which is so helpful to boys in the formative period and through this spirit comes an expression of enthusiasm and loyalty to their college.

Tom Riley is a popular coach. The players on the squad are his strongest supporters which speaks for itself. He rules in a quiet way, and yet there is force back of everything he says and does. Brought up in the Felling Yost school at Michigan he knows football too, and what's more, he'll talk it by the hour.

## PAIR OF QUEENS THERE AND OVER

"A Pair of Queen," at the Delft theatre last night proved up to all that had been claimed for it and more. The play is a farce comedy, of the first water and its humor is of the brand that kept last night's audience in an uproar from the first curtain to the last. The company is well balanced and deserved a far larger audience than that attracted to the Delft last night.

### Deal Closed For Big Mill

mon and Benjamin Gero who saw in the Manistique river and the location of the city on a fine harbor in Lake Michigan, great possibilities for power and shipping.

For many months these two men have been working to close the deal with the Twin City financiers but it was only last night that final agreements were made whereby Manistique bids fair to become the most important city in all Cloverland on Lake Michigan.

Both the pulp mill and the paper mill will be located on the river. The former will be placed directly over the new upper dam on the west side of the Manistique river while the latter will be on the old Bronson mill site, the place where the first mill was built in this part of Cloverland.

Millions of feet of timber—enough to keep the paper mill in operation for many years—are still to be found near Manistique. The sudden rise in the price of paper, the possibility that it will not drop much and the great abundance of timber in Cloverland proved the most inviting proposition for the Minnesota financiers.

### FRANCES NELSON ...E.K. LINCOLN... The Almighty Dollar.

AT STRAND THEATRE TODAY.

## HUGHITT AT ANN ARBOR

"Tommy" Hughitt, formerly of this city one of the greatest quarter backs ever developed at the Michigan University and for the past two seasons coach for the Main University team, has been called to Ann Arbor by Coach Yost to assist in whipping the Wolverines into shape for the final games of the year. Hughitt arrived in Ann Arbor this week and will remain until the final game of the schedule is played.

## PYTHIANS HAD FINE EVENING

A party of fifteen members of the Escanaba lodge of Knights of Pythias were enjoyably entertained by members of the Gladstone lodge of the order on Tuesday night. In three automobiles members of the Escanaba lodge went to the Upper Bay City where they participated in the regular meeting that was held. Following the ceremonial session refreshments were served and a social hour was enjoyed. Members of the Gladstone lodge will visit the Escanaba lodge early in next month.

## SAYS CUT OUT THE MIDDLEMAN

The following letter has been received by the Press from Mrs. George Young

Our citizens should start right now and give as much help to the reconstruction by putting manufactures in the place of the liquor interests.

Why not a canning factory? Why not contract for all the milk from the farmers and make butter or cheese? Why buy goods through whole sale houses when they can be bought direct from the manufacturer? Cut out the unnecessary go between producer and consumer and buy goods in a sane way.

The one trouble with out produce business too many are getting unnecessary profits in handling all kinds of eatables. Merchandise and warehouses and storage houses are eating the life out of trade, therefore the small as well as the large business interests have to charge accordingly. Escanaba has surrounding resources where if they go about it they do not need to pay freight and express on one article they use.

You have a pulp mill, make your own boxes and paper. Make Escanaba an export center instead of an import.

Start a glove factory, a ready made women's dress establishment, get your goods from the mills cut out wholesalers or retailers, sell to everybody at the cost of production. Why gamble the hard earnings of the poor into to go between high prices? You can make a ready made garment from an engineer's overalls to a lady's silk dress, and put them on the home market at much less than cost. Why not do it.

A cracker and biscuit factory, a candy factory. Why buy from Chicago Milwaukee and New York, what you can make at home?

Winston Churchill in a European newspaper two years ago said: "Over the Canadian Pacific and the Soo rail roads at the head of the Great Lakes from the Atlantic to the Pacific oceans will be the largest travel of trade in the world. Great business and tonnage will go over these roads, large cities will spring up all along the way."

MRS. G. YOUNG.

## GIRL COMMITTED TO INSTITUTION

P. N. Peterson, county agent, returned to the city yesterday morning from Adrian, after taking Clar James a 14 year old Masonville girl to the state reform school for girls at that place, the girl was found to be a delinquent in the juvenile court and was ordered committed to the institution by Judge Judd Yelland.

### ENJOYED AUTO RIDE.

A number of young workers from the Ed. Erickson company's store motored to Ford River last evening, where they partook of a very sumptuous luncheon, served by Mrs. Wm. Peterson. After a short auto ride the party returned to their respective homes in this city.

### TO GIVE PARTY.

Escanaba Hive No. 531 L. O. L. M. Thursday evening, Nov. 16, in the is to give a card party and social Armory. Luncheon will be served. The patronage of the public is invited.

## BOY STUDENTS WIN CONTESTS

Boy students of the High school carried off honors in basket ball and relay contests with the girl students at the gymnasium yesterday afternoon. The boys' team of the High school defeated the girls' team at basket ball and a relay race between teams of freshmen boys and fresh girls, was taken by the former.

W. A. Hews has left for Manistique where he will spend a few days transacting business.

Miss Vera Lobb, left Wednesday for her home in Menominee, after a short visit here.

Miss Alma Payne, of Marinette, returned to her home Wednesday following a two weeks' visit here.

Paul Wicklund, has returned from a visit in Kenosha.

Miss Maud Whiston is visiting with friends here a few days, from Milwaukee, and will leave tomorrow for Negaunee, where she will spend a few days.

Charles Aronsen left Wednesday for Chicago, where he will transact business a few days.

We have a limited number of barrels apples and finding our sale of the two previous days a great success, we have decided to continue sale for a day longer. This may be your only chance to get good apples at a low price this winter.

MADALIA & COMPANY

## YOU SHOULD VISIT THE INTERNATIONAL LIVE STOCK EXPOSITION and Horse Fair, Chicago, Dec. 2-9

Most magnificent, educational, attractive exposition ever held. Everyone is going—the season's greatest event.

Everyone should take a vacation occasionally. And to make it worth while you must get away from home a few days. You can best combine this pleasure with business during the exposition. For almost half a century it has been the time for a sight-seeing trip to the great metropolis—the second city in the United States—which offers innumerable wonderful attractions.

10,314 Prize Winning Stock Entries—Grand Horse Fair Every Evening.

Just think of it! Over ten thousand of the very best high bred horses, cattle, sheep and swine entered in this great Exposition. Every class of finest harness, saddle, roadster and speed horses at the Horse Fair. Evening maneuvers of six-horse teams—several teams of six great big fine horses each and giant wagon handled in every sort of loop and turn with all the precision of a single trained horse in the circus arena. Indoor polo contest, novel and exciting. No farmer or stockman can afford to stay away.

Many make a few spasmodic efforts to market stock, meet with failure due to not having the right kind, and quit. Avoid this. Come to the Exposition—learn how to produce what the market demands so you will get the highest price. The United States produces the best stock in the world. The Exposition is held on the grounds where thousands are handled every day.

Exposition Educational. You Learn Stock Yards and Market Conditions. And you get acquainted with principal and successful breeders. You meet the men who are doing things in the breeding world. Thirty big convention of breeders and stockmen's associations meet at Chicago Dec. 4th to 8th.

Wool and University Exhibits Every sheepraiser should see the wool exhibit. Shows wool sheared, cleaned and treated. Extremely interesting and instructive.

Every stockman should see the university exhibit which created such favorable comment at the Panama-Pacific Exposition. It shows results obtained by foods and effect of crops on feeding stock. It is greater and more interesting than at San Francisco.

For Women as Well as Men. Take the family. The ladies will enjoy the lectures and demonstrations given by the Home Economics Experts. They will meet the families of other breeders and stockmen and learn many things of interest to all farm people.

And going via the Chicago & North Western Ry. you have all the conveniences of their palatial Chicago Passenger Terminal adjacent to the hotel and business district, every convenience of the best hotels except a place to sleep, and it is all free for your accommodation.
