

OVERLAND MEN IN FINE TRIP

EVERY OVERLAND DEALER IN U. S. INCLUDING PRACTICALLY ALL CLOVERLAND DEALERS TO BE GUESTS OF COMPANY—START FROM ESCANABA DEC. 5.

What will be the greatest gathering of automobile dealers ever held in this country at one time, will be a gigantic entertainment of Overland dealers, near 6,400 in number, given by the Willys-Overland Inc., at the factory in Toledo, Ohio, starting December 4.

Transportation for these dealers will be provided for by special trains of solid Pullman equipment, starting from about twenty central points throughout the United States. These trains upon their arrival at the Toledo factory will be parked in the factory yards and the visitors will be entertained right in the factory, as the Overland company in their new seven story office building recently completed, have their own dining room as well as their own auditorium.

All expense of the trip from central points even to cigars will be borne by the Overland company.

There are thirty-two Overland dealers in the northern peninsula working under the Escanaba distributing branch, and nearly all of them have already signified their intention of being among those present on this trip.

These dealers will leave Escanaba on the morning of Dec. 5 over the Chicago & Northwestern railway, traveling in a special car that at Chicago will be switched onto a special train leaving for Toledo that night, and arriving in Toledo at 6 a. m. All expense of this trip between here and Chicago will be taken care of by E. J. French, the distributor at this point.

During their stay in Toledo which will be about four days, the dealers will be shown the new 1917 models to be announced January first of which there will be a production of 300,000. Also at this time, the dealers will be taken through the factory and given the opportunity to watch the manufacture of Overland cars from the raw material to the finished product.

The Overland factory with the various addition recently completed, is the largest and one of the most modern automobile manufacturing plants in the world, covering in all 103 acres of floor space; employing over 20,000 people and having a production of over 1,000 cars per day.

WITH DRAW

(Special to the Press.)

Washington, D. C., Nov. 25.—The national guard will not be withdrawn from the border until General Pershing has withdrawn his troops from Mexico.

The exact time of the withdrawal will be set by Pershing and Funston.

G. W. Waterman of Kenosha, transacted business in this city Saturday.

CHILD DIES AFTER A SHORT ILLNESS

After but a short illness Irene Polkey, two and a half year old daughter of Mr. and Mrs. Joseph Polkey, of Wells, passed away on Friday night at the home of the parents. Funeral services will be conducted over the body at St. Anne's church at 2 o'clock on Monday afternoon. Interment will be at St. Anne's cemetery.

PREPARE FOR BIG BATTLE

(Special to the Press.)

Washington, D. C., Nov. 25.—The legal battle over the administration of the eight hour law, has been transferred to Washington, as the result of the agreement reached between the lawyers of the railroads and the government. The attorneys have come here to prepare papers for the case of the Missouri Oklahoma & Gulf road which is to be presented to the supreme court on Dec. 4.

The four chiefs of the brotherhoods will be here early in the week. It is believed that they intend to keep close watch on the government's handling of the case so that they may be better able to know which course to pursue in the event that the case is decided against them.

HOLD FUNERAL THIS AFTERNOON

Funeral services over the body of Peter Backlund who passed away at the family home at Groos, will be conducted at Unity hall at 2 o'clock this afternoon. Rev. Louis Johnson, pastor of the Swedish Methodist church will officiate at the service. Interment will be at Lakeview cemetery. The body of Mr. Backlund will be removed from the home to the hall this morning and will lie in state there until the hour of the funeral. Mr. Backlund for eleven years resided in this city being engaged as a cabinet maker and was employed at Wilkinson's furniture store and in the furniture department at Kratz Brothers' store. Eight months ago he took a position with the Escanaba Traction company at Groos and it was while in that position that he became ill and passed away.

Mr. Backlund was known to a large number of people in the city and it is expected that the funeral of this afternoon will be largely attended.

For Escanaba and vicinity: Generally fair and warmer Sunday; fresh south and southwest winds.

Highest temperature yesterday 22 degrees.

Lowest temperature yesterday 13 degrees.

Precipitation yesterday, trace.

Mrs. F. K. Klinger returned to the city last evening from Menominee, where she had been the guest of friends, the past week.

Mrs. George K. Carney will leave this evening for Milwaukee, where she will spend the coming week visiting relatives.

Escanaba Needs Boosters

The doom of the knocker in Escanaba must be sealed. The day of the optimist and the booster is at hand. Escanaba in the past has suffered more from internal abuse than from outside criticism. Escanaba has endured its pessimists and its knockers and has progressed in spite of them. Today the boosters and the optimists must join in a determined effort to wipe out the opposition. The knocker is of no great comfort to himself and useless as an asset of the city that harbors him. The knocker is always "agin" the government and he never yet saw the silver lining to the clouds that float through the heavens. The optimist is a desirable citizen. He may not have a lot of money. He may not move in the highest social set, but if he possesses a sterling boosting spirit, he is a valuable citizen and an honored citizen of the community in which he lives. Let us have more boosters and fewer knockers. Escanaba needs the former and may be well rid of the latter.

HIDE MARKET TO TAKE A SLUMP

Isaac Schram, district buyer for one of the largest hide purchasing concerns in the United States received a message yesterday announcing that the crest of the hide market has been reached and a sharp slump in the market is expected. In the past month the highest prices in history have been paid for hides and a gradual return to near normal conditions is now expected.

ALD. BEAUCHAMP AGAINST RESOLUTION

Ald. Zephyr Beauchamp of the Third ward was the only member of the council to vote against the resolution adopted at the last meeting of the city's governing body to provide for the submission of a proposition to the people for issuing bonds for the construction of a new water plant. It has not been here-to-fore mentioned that Mr. Beauchamp was opposed to the resolution and he desires the public to know his position.

MARKED INTEREST IN TOURNAMENT

Marked interest is being shown in the billiard tournament that has been launched with 38 entries at the Olmsted-Scanlon billiard parlors. Sylvester now leads the tournament players with a record of six straight victories. Trousant has a record of 5 wins and 2 losses; F. Stok, 3 wins, and 1 loss; Pepin 3 wins and 1 loss; Vande Wiele, 3 wins and 1 loss and Corcoran 4 wins and 2 losses. Trousant holds the honors for the high run of the tournament with a record of 20.

BANQUET ENJOYABLE

An event that will take rank as one of the most enjoyable ever held at the Masonic temple in this city, was the Past Masters' banquet held on Friday evening when 200 members of the Masonic order participated in the affair. By far the most interesting feature of the evening's program was an especially brilliant address delivered by Rev. W. J. Datson, rector of the St. Stephen's Episcopal church, on Constructive Masonry. The address was called by critics, the best that has ever been delivered on the subject of Masonry in this city and aroused the enthusiasm of the members to an unusual degree. Two vocal solos by Joseph Ferte were delightfully rendered and the appreciation of his hearers was eloquently shown. At the conclusion of the program H. C. Essington, worshipful master of Delta lodge, presented a Past Master's jewel to W. L. Bacon, with a most appropriate address. Charles W. Ellsworth served as toastmaster and most effectively filled that position. The invocation at the opening of the banquet was delivered by Rev. Datson. The banquet, which opened the program of the evening, was an elaborate affair and was most delightfully served by members of the Eastern Star. At the conclusion of the speaking program a social hour was enjoyed by the members at the club house.

OHIO STATE CONFERENCE CHAMPIONS

CHICK HARLEY LEADS TEAM TO VICTORY OVER NORTHWESTERN—YALE TEAM DOWNS HARVARD IN HARD FOUGHT BATTLE—CHICAGO SMOTHERED BY MINNESOTA—ARMY BEATS NAVY.

WISCONSIN TIES ILLINOIS

(Special to the Press.) Columbus, O., Nov. 23.—Chick Harley and the rest of the Ohio State team killed Northwestern's championship claims 23 to 3 today. Harley did it. He scored two of the touchdowns and booted a pretty drop kick. One of the touchdowns was a seventy yard run. The secondary honors of the game go to Paddy Driscoll, the leaders of the Purple. He couldn't get away today but he was always good for steady gains and his field goal, from the thirty yard line. The game was marked Harley got stated the result was never in doubt. Northwestern's line couldn't stand up under the heavy plunging of the Ohio backfield. Yale Downs Harvard. New Haven, Conn., Nov. 25.—Yale won. In a game without spectacular plays and with just the steady old fight to rely upon, Yale downed Harvard here this afternoon to the tune of 6 to 3. Right off the bat Horween put Harvard in the lead when he booted the ball between the poles from his thirty yard line. The game was marked by the kicking of Legore and Horween. Neville left half for Yale plunged over the goal for the only touchdown of the game and the only touchdown Yale has scored against Harvard in eight years. Oliphant is Star. New York, Nov. 25.—Oliphant—that was what they were shouting when the Army trimmed the Navy here today. It was Oliphant here and Oliphant there, even everywhere. He is too good for the average team to stop and that's the end of it. The score was 15 to 7 and the Army wonder had one of the touchdowns to his credit and most of the ground gaining. Right off the kick-off he trotted 85 yards to the navy goal line. Vidal also starred. Maroons Smothered. Chicago, Ill., Nov. 25.—In a game of varied attack, backed by the best driving the west has seen in many a year, Minnesota today hopelessly outclassed the Maroons. It wasn't exactly a sprinting match, although there was a score of 49 to 0, because the Maroons fought all the way. But the mass driving attack was too strong to stop. Wyman and Easton starred for the victors. Struggle to Tie. Madison, Wis., Nov. 25.—It was the brilliant offensive backfield of Illinois pitted against the stonewall defense of the Badgers here today. The score was a tie, but the Badgers won on a point, they set out to keep the orange and black from scoring and they succeeded. Twice Bart Macomber was within kicking distance and twice he failed because the Badger forwards were on him before he could get set for the kick, and he isn't slow at kicking either. The Illinois field wasn't strong enough to break through the Badger defense and they had to be satisfied with a tie. Raymond Gregory of the Soo, arrived in Escanaba last evening, and will be the guest of local friends throughout the week end. Mrs. V. Sturgeon and daughter, Minnie, who have been visiting in this city returned to their home in Rapid River.

ESCANABA MAN ILL IN DETROIT

Mrs. Arthur Kamrath will leave this morning for Detroit, called there by the serious illness of her husband, Mr. Kamrath, who is employed by the National Grocer company, left for Detroit a week ago on business for his company. He became ill soon after his arrival in Detroit and word was received yesterday that his condition was serious.

FOOTBALL SCORES

- Eastern Results. Yale, 6; Harvard, 3. Army, 16; Navy, 7. U. of P., 16; West Va., Wesleyan, 0. New York, 6; Columbia, 0. Lehigh, 16; Lafayette, 0. Syracuse, 20; Tufts, 13. Washington-Jefferson, 41; Chattanooga, 0. Haverford, 10; Swarthmore, 5. Rutgers, 34; Dickinson, 0. Susquehanna, 13; Lebanon Val. 0. Georgetown, 70; Bucknell, 0. St. Johns, 6; John Hopkins, 3. Penna State Freshmen, 7; Pittsburg Freshmen, 0. Holy Cross, 9; Worcester Tech, 6. Western Results. Minnesota, 49; Chicago, 0. Ohio, 23; Northwestern, 3. Wisconsin, 6; Illinois, 0. Purdue, 0; Indiana, 0. Notre Dame, 46; Alma, 0. Okla., 14; Arkansas, 13. Iowa, 17; Nebraska, 31.

MAIL ROUTES ARE INSPECTED

Postmaster John O'Meara will on Monday complete a personal inspection of all of the mail routes in the city of Escanaba. To comply with an annual order of the department Postmaster O'Meara has been traveling the routes of the different carriers and after yesterday's final delivery there was but one route to be covered on Monday. The postmaster on his trips of the territory of each carrier is required to register the number stops and the time that is required to cover the route.

ISHPEMING NOSED OUT

By a margin of 46 pins the Escanaba bowling team last night at the Delft club alleys defeated the Ishpeming five man squad in a series of three games. The Escanaba team got away to a bad start in the first game and up to the final game the Hematite city pin toppers were leading in the scoring. In the final game the Escanaba team came into the lead with a rush, while the leaders were falling back. The teams meet in another three game series at the Delft club this afternoon. The individual scores in last night's games follow:

Table with 2 columns: Name and Score. Escanaba: E. Moersch (160, 188, 190), Lahe (164, 203, 194), J. Boyer (132, 150, 135), Blake (158, 168, 186), Taylor (166, 167, 139). Total: 780, 866, 894. Ishpeming: Talo (160, 152, 166), Embloom (148, 180, 162), Thompson (162, 150, 149), Dobbs (169, 191, 144), Saline (168, 203, 190). Total: 667, 827, 811.

JUBILEE SINGERS PLEASE AUDIENCE

The Cary-Williams Jubilee Singers thoroughly pleased an audience at the First Presbyterian church last night, appearing under the auspices of the Men's class of the church. The company is beyond doubt the most accomplished combination of colored singers ever to come to Escanaba and each of the numbers presented last night was vigorously encored.

ROUMANIA TO SEEK PEACE

London, Nov. 25.—Von Mackensen has crossed the Danube, and is advancing on Bucharest from the southwest toward a juncture with Falkenhayn, who is sweeping toward the city from the southwest. Mackensen is less than 70 miles from his objective and Falkenhayn 90 miles. The Rumanian government is expected to flee Bucharest and to form a temporary seat of government at Brailia. It is anticipated that small parts of Rumania will sue for peace within a short time.

Miss Mae Murray of Marquette, left last evening for her home, following a two days' visit with friends and relatives here. Mrs. H. W. Greene of Manitowoc left Saturday for her home after spending the past week visiting friends here.

PEACE TALK GETS HEARING

(Special to the Press.) Washington, D. C., Nov. 25.—The man has been raised from "peace talk" in Vienna the newspapers of that city are indulging in comment which talks of peace in a positive way, commending President Wilson on the stand he has taken for peace. The Vienna Arbeiter Zeitung says: "Each belligerent nation can accept Wilson's invitation without appearing to be at the end of its resources." "We earnestly desire that Wilson may not be discouraged by the difficulty of his undertaking but that conscious of the hope of humanity he may prosecute the work courageously." Vienna, Nov. 25.—The ultimate success of peace efforts on the part of President Wilson was predicted today by Count Adam Tarnowski Von Tarnow, the new Austro-Hungarian ambassador to the United States. In an interview with the Sofia correspondent of the Pester Lloyd. The diplomat described the American as "a mild man who loves his fellow men."

ADDRESS WAS FINE EFFORT

KALAMAZOO GAZETTE - TELEGRAPH EXTOLLS ABILITY OF REV. FATHER BARTH OF THIS CITY.

Of the sermon delivered by Rev. Father Barth of a city, at St. Augustine's church at Kalamazoo, on Sunday night of last week, the Kalamazoo Gazette-Telegraph says: "Woe to America when the mothers of the country cease to fall on their knees and pray to God for the welfare of their sons. It is the power of a mother's love demonstrated through prayer, sacrifice and suffering that is doing more than any mortal condition to save the souls of mankind. The above utterances was only one of a hundred powerful statements made Sunday night at St. Augustine's church by Very Rev. Dean Barth in his sermon on 'The Power of Mother's Love' For over an hour an audience that filled over available foot of space in the big auditorium sat enthralled by the words of the speaker. Father Barth is a most unusual man. As speaker he is philosophical and convincing. Sincerity marks every statement. His truths crash home with the power of a gigantic projectile. In addition he is intensely dramatic and a painter of wonderful word pictures. 'Mother's love is the greatest human agency for the uplift of mankind. The few instances that you may know to the contrary are only the proof of this statement,' said the speaker. Just the good, old-fashioned mother, the kind every son is proud to boast of, was the basis of his argument. Step by step he led his auditors through the stages of prayer, suffering and sacrifice, showing the wonders that are performed for mankind by a union of these qualities in a mother's heart. He said that every mother must be a priest and that every priest must be a mother, if he is to succeed in his work and carry the burden of his congregation successfully. He insisted that the power of a mother's prayer is so great and far-reaching with the Almighty that no matter how far a son may stray from the paths of rectitude, that if a mother persists in her appeals for Heavenly intervention that man will be finally saved and assured a life of eternal happiness. Instance after instance were quoted not only from the Scripture but also from secular history, to prove this statement. His last word picture gave the instances in life of St. Monica mother of St. Augustine, and showed how this frail little Christian woman by her power of prayer had been able to overcome the influence of a brutal pagan father and so guide her son's life that he became a great factor in the work of the church for the uplift of humanity. Fred Thornton of Bay City, Mich., was in Escanaba attending to business matters Saturday, returning to his home last evening.

Must Protect Our Interests

To allow officials of the city of Escanaba to protect the interests of the people of this city, the electors at the coming special election must endorse the proposition to issue bonds in the amount of \$400,000 for the construction of a new water system.

Until that proposition is endorsed the people of Escanaba must submit to the arrogance and continue to pay toll to officials of the North Michigan Water company.

Because of the fact that the state tax commission has been engaged in making a revaluation of property in Escanaba and has lately completed its work, it was impossible to prepare earlier for the submission of a bonding proposition to the people. Until actual valuation of the city was determined it was impossible for city officials to know whether or not bonds in the necessary amount could be issued, as an amendment to the charter provides that bonds in an amount not to exceed five per cent of the city's assessed valuation may be issued for the purpose of providing a municipal water plant.

The city's valuation has been fixed and the city can now legally proceed to the issuing of bonds in an amount necessary to provide an entirely new water plant.

The authorization of the issuance of bonds sufficient to build a new water plant would in no way prevent the city officials from later submitting a proposition to purchase the plant of the North Michigan Water company, if that company at a later date sees fit to place a reasonable price on its property.

But it is necessary at this time for the protection of the interests of the city and of the interest of the people that the bond issue for the construction of a new water plant be endorsed by the electors.

This Helps Your Business

The population of Delta county has increased rapidly in ten years. The total value of our farm products has increased 300 per cent in five years. The census each year shows a more rapid increase.

Every new settler is an added asset to Escanaba. He buys from Escanaba's business men; he supplies the city with fresh products from the farm; he creates a market which contributes hundreds of dollars yearly to the city. He increases the value of his farm and makes the county's property valuation become greater every year and makes the distribution of taxes broader.

The growth of Escanaba is intimately related to the development of agriculture in the surrounding country.

The Commercial Club of Escanaba has already taken a start in the development movement.

It will help your business. If you are not a member, you have not done your part. Put YOUR shoulder to the wheel.

Entered as second class matter April 4, 1909, at the postoffice at Escanaba, Michigan, under the Act of March 3, 1917.

Instruct the carrier to deliver The Morning Press or order it by postal card or telephone. Tell 693. Make complaint promptly if delivery is irregular.

Latest time of subscription payments are indicated to out-of-town subscribers on the labels of the Morning Press. The local subscribers by date indicated on their card.

The Escanaba Morning Press Co. will not stand responsible for any indebtedness incurred except on an order signed by the president of this company or by the secretary.

It's alright. The bond issue for a new water plant will carry Baldwin's "agin" it.

The warring nations have "approved" of our League to Enforce Peace, but that's as far as they care to go just now.

If there's going to be a fuss about it, why change the names of the city's streets? This is no time to start a ruction over any question in Escanaba, no matter how trivial its importance.

The American troops are to be withdrawn from Mexico in 40 days. Wonder if that's the date for the withdrawal of the national guard from the border. The date can't be set ahead too far.

The Manistique Pioneer-Tribune says editorially:

"The Escanaba Morning Press feels that Escanaba will undergo a crisis when the sixty or more saloons located there will go out of business. The Press is certainly giving its constituency very valuable advice at this time, and is paving the way for a bigger and better Escanaba no matter what the outcome of the temporary penalty prohibition may inflict upon the present metropolis of Cloverland, may be. We believe that Escanaba, in common with every other city of Cloverland, will be bigger, will grow more rapidly, and shall be a better town in which to live as the direct result of the banning of the saloon. However, the present campaign of the Press is to be commended, and only by a united and harmonious action upon the part of the citizens of any community, can satisfactory results be achieved."

TURKEYS BOOSTING HIGHER.

In Chicago, where turkeys are wholesaling at thirty-two cents a pound, and where the retail price can not be kept below thirty-five cents, many people with an eye to thrift have decided that their Thanksgiving bird this year shall be the goose instead of the turkey. Fine geese are quoted at twenty-five cents a pound.

Women's clubs in and about Chicago have taken up the matter for discussion. The annual Thanksgiving dinner of the West End Woman's Club is likely to present goose instead of turkey as its central feature. The president of the Englewood Woman's Club has called a special meeting for the purpose of "making the Thanksgiving

dinner a less elaborate and expensive feast in the homes." It is calculated that by buying a twelve pound goose instead of a turkey of the same weight anyone may effect a saving approximating a dollar and a quarter.

In agitating against wasteful profusion in the things of the table at holiday time American women will be in the line with thoughtful people throughout the world. In great Britain the government is intervening to enforce conservation of food supplies. At a meeting of leading hotel-keepers held in London last night Walter Runcliman, president of the Board of Trade, demanded an immediate curtailment of menus and a decrease in the use of imported foods. He said he had seen a specimen Christmas menu in the advertisement of a London hotel which would be wasteful in time of peace and which he considered scandalous in time of war. At the conclusion of the meeting the management of the celebrated Savoy Hotel announced the cancellation of its plans for special Christmas and New Year's dinners.

SAYS CITY MUST HAVE A WEAPON

The Mining Journal of Marquette says editorially:

Escanaba will vote on \$400,000 bonds to be used if necessary in putting in a municipal water plant. The water company at Escanaba is operating without a franchise, the one it held having expired. The city desires to buy the plant, but the company and city are a matter of well over \$100,000 apart as to the price that should be paid. What the city officials now desire is a weapon to fight the company with. As long as there is not concrete proposal to put in another plant, the company can regard the situation without being much concerned. When there is authority to go ahead with a plant, the company will, perforce, have to be concerned. The company is entitled to a fair price, and the city to get one. The trouble is the difficulty in agreeing on a fair price. The city has the whip hand if it desires to force an unfair advantage and is not particular what price it pays to force it. If the city should build a plant the company's assets in Escanaba would be worth their value as scrap. But the situation is not likely to come to such a pass. The company will finally sell at some price or other.

Ishpeming, Mich., Nov. 25.—The opening was higher and stocks continued to advance all through today's short session, closing at the top. Steel Company sold at \$129, Utah Copper 126, Inspiration, \$72, etc. All of the New York Coppers were very strong at advanced prices and Steel shares again made further gains. According to reports there are more inquiries in the market for the metal and some are predicting even higher than present prices. The action of these copper shares marketwise, compare with the war stocks when they were skyrocketing. Several times during the bull movement in the war issues the eastern banks discriminated against these stocks as collateral and they would break quite rapidly only, however, to seek a very much higher level at a little later date. Hancock was one of the features in the copper, Mohawk also opened up higher indicating but few stocks for sale.—J. A. Minnear & Co.

WOMAN IS BRANDED AS GANG LEADER

Chicago.—Mrs. Elvin E. Stiles, a real estate operator and wife of William E. Stiles, foreman of the general delivery department of the postoffice sat in Judge Pam's court and heard herself branded as an associate of thieves and a "fence" for the "automobile thieves' trust."

Walter E. Reihan, confessed 'fence' who turned state's evidence, gave the damaging testimony. Mr. Stiles appeared undisturbed, but suggested several questions when her counsel cross-examined.

Mrs. Stiles not only shared in the profits in the sale of stolen machines, Reihan charged, but acted as agent for the "trust" and got buyers for the cars. She would get a prospective "customer" and then give the order to the thieves for the kind of machine wanted, according to the testimony.

WERE YOU EVER OFFERED A GROCERY STORE? OUR PROPOSITION IS BETTER

Let us tell you how you can handle Flour, Canned Goods, Provisions—an entire line of Groceries, as well as Paints, Roofing, Stock Foods, Automobile and Machinery Oils and Greases. No rent to pay, no investment in stock. Large orders taken from samples; goods of guaranteed and proven quality. Selling experience not necessary. Very profitable work for "workers". Address R. S. Hill, president Hitehook Hill Co., Chicago, Reference: Any bank or express company.

MENOMINEE STAR HALFBACK HURT OUT FOR SEASON

Menominee, Nov. 25.—As a result of an accident to Dumochelle in which the star halfback on the Menominee high school eleven fractured his right collarbone and dislocated his shoulder during practice last night thus ending his usefulness this season gobs of gloom settled down over Menominee football fandom completely enveloping it in one of the darkest outlooks the Wolverines have ever faced.

Dumochelle was injured during scrimmage, participated in by the first and second teams. He was playing on the secondary defense when Dittmore fullback on the second team came tearing through his side of the line with the ball. Dumochelle made straight for the halfback and just as he tackled him, both men slipped on some ice, which was covered with straw and fell heavily to the frozen surface. Two more second team men piled on top of the two prostrate players.

When an inventory was taken of the injuries it was found that Dumochelle was out of the game for the remainder of the season and Dittmore sprained an ankle so badly that he will be unable to take his place at fullback again this season.

As a result of the injury to Dumochelle Coach Hedgecock of the Michigan team is up against one of the worst problems he has faced in his experience as a coach at Menominee. The halfback was counted upon by Menominee fans to bear the brunt of the offensive and defensive work in the game on Thanksgiving day. Added to the most recent addition to the hospital list is "Ick" Erdlitz trouble from injuries received in the Green Bay game three weeks ago. At that time his knee was injured and he is still suffering from the results. He will take his place in the lineup but it is doubtful if he will be able to play the entire game.

BENTON HARBOR MAN HEADS RESERVE

Lieutenant Charles K. Farmer of the Benton Harbor naval reserve, has been elected commander of the Second battalion of the Michigan Naval brigade to succeed Grant T. Stephenson, resigned.

The Second battalion has been reorganized and is now made up of Hancock, Traverse City, Benton Harbor and Grand Rapids, the last two being new divisions given berths in the battalion. Both cities have had divisions for several months, Benton Harbor having been a part of the First battalion while Grand Rapids is comparatively a newcomer.

The new commander of the battalion has been in the service for fifteen years is well qualified for the new duties he will assume and is planning to inject new life into the organization. Lieutenant Farmer was one of the navigating officers detailed to bring the Yantic to Hancock when the Second battalion was awarded the ship ten years ago. Lieutenant Farmer says advice received here, will begin the selection of a staff within the next two weeks and the personnel will be forwarded to the senior officer of each division.

Paul J. Ruppe, executive officer of the Second battalion for the last four years, and a member of the division almost since its inception, has received an honorable discharge from the military board. Mr. Ruppe has been placed on the retired list, his resignation having been accepted a couple of weeks ago.

SIR HIRAM MAXIM PASSES AWAY

London, Nov. 24.—Sir Hiram Maxim aged 76, inventor of the automatic system of firearms, died at his home here early today.

Sir Hiram was most popularly known as the inventor of the rapid fire gun, which is now used in many forms throughout the world, and the automatic system of firearms which makes the recoil of the gun serve as the power for reloading.

Lord Welsley in England was one of the first to recognize the enormous possibilities of the Maxim gun. The famous old field marshal paid a high tribute to Yankee ingenuity, declaring "They beat all creation. There seems to be no limit to what they are able to do." When the Kaiser first saw it, he exclaimed "That's the gun. There is no other." When Li Hung Chang saw it and learned that it would cost \$650 a minute to fire it, he sighed and said the gun was far too fast for China.

Many other inventions were given to the world by Maxim, and his work in aviation gave great impetus to aerial navigation. He is credited with being

the first man to make an aeroplane that actually lifted from the ground. This was long before the gasoline engine had been perfected to its modern lightness and made the operation of the aeroplane more practical. He fitted his machine with the lightest engines and boilers then obtainable. One of his passengers was the late King Edward, when he was Prince of Wales. Sir Hiram was born at Sangerville, Maine, February 6, 1840, the son of Isaac Weston Maxim. He was sent to public school and then was apprenticed to a carriage builder. Although he lacked the means for a college education, his thirst for knowledge and love of science were satisfied in the libraries. He was related to Hudson Maxim, also a noted American inventor, who produced the first smokeless powder in the United States. The family of inventors was further extended in Sir Hiram's son, Hiram Percy Maxim of Hartford, Conn., who has produced electrical devices, automobiles and ordnance improvements. Sir Hiram's daughter, Mrs. Florence Maxim Cutter, became a prominent composer of music.

A remarkable but little known achievement of Sir Hiram was his solution of the problem of the incandescent light filament. But his American patents were overruled and the European patents were allowed to lapse and an income of a million a year was thus lost to him. In electricity he further shone as the inventor of self regulating devices for currents. His studies on the rapid fire gun brought him into touch with the possibilities of smokeless powder, and he produced it successfully under the name of "Cordite." He discovered a new form of coal gas, and made important improvement in the fire engine.

In 1881 Maxim went to England. His automatic gun had made him famous, and honors were showered upon him. The British war office once called on him to discover why a certain British gunpowder of exact composition as German powder was so much more quick burning. All the scientists of the time had failed to offer a solution. Sir Hiram took the matter in hand, found the solution in one evening's investigation, and saved the British government, \$175,000, which was the price of the German secret.

Queen Victoria knighted Sir Hiram in 1901, and France honored him as a Chevalier of the Legion of Honor.

Howard Lewis of Appleton, Wis., who has been spending the past two weeks here transacting business matters, left last evening for his home.

Miss Elsie Quarters of Ishpeming is visiting with friends here a few days before leaving for Milwaukee, where she has accepted a position.

SHEBOYGAN PASTOR QUILTS "FOR GOOD"

Sheboygan, Wis., Nov. 24.—The Rev. Claude O. Booth, former University of Chicago student, whose radical translations of the bible have aroused considerable excitement in church circles here, quit Sheboygan "for good" on Friday, following the action of trustees of the First Baptist church Thursday night, when they voted 7 to 1, to ask the Rev. Booth's resignation.

Dr. Booth declared that, while he felt sorry to leave Sheboygan, he still was of the opinion that "there is nothing to the damnation theory." He said it was not true that he did not believe in miracles and the divinity of Jesus Christ.

Called upon to explain statements in sermons, the Rev. Booth likened himself to John Calvin, and declared that the trustees were setting a precedent by deciding "whether you are going to live in an unreal world or in a practical world."

Dr. Booth resigned last week, only to recall the resignation at his wife's insistence. Dr. Booth does not know what his plans are. He will stay in Chicago, where his wife is engaged in business, for a while, he said.

HAS ANY ONE ELSE SEEN A BLACK DEER

Munising, Mich., Nov. 25.—John T. Thornton, sheriff-elect of Alger county and deputy state game warden, spent the week end with his family in this city.

Since the opening of the deer hunting season, up to last Saturday, Mr. Thornton has visited 200 hunters in the woods between this city and Grand Marais. By far the larger part of the hunters in that district were from Detroit. They have had excellent success so far, a considerable number of them filled their licenses and returning home last week. Mr. Thornton says, at a conservative estimate there were 400 to 500 hunters in the woods of Alger county last week.

As a rule one or more white or albino deer are shot during the hunting season in the upper peninsula of Michigan. But as far as the writer knows this is the first season any Clo-

verland hunter has reported seeing a black deer.

A short time before the present deer season opened 'twas reliably reported a black deer had been seen in this county.

Mr. Thornton reports that one of a party of Detroit hunters told him that he had seen recently near Pickerel lake, in Burt township, a few miles from the New club house, a herd of five or six deer one of which was a jet black and had a coarse flowing mane. The hunter was so astonished at this extraordinary freak of nature that he let all the deer get away without firing a shot.

Needless to say the killing of such a deer as that the Detroiters claim to have seen would excite widespread attention throughout the country.

City Clerk Carl Anderson left yesterday for Menominee to attend the funeral of an uncle.

GIRL DEFIES COURT FOR CHICAGO CABARETS.

Chicago.—The star in the star chamber session in the private office of Judge Fisher of the Morals court was Miss Gertrude Sporn. Pretty and alert, girl gave the chosen company a battle for their wits, and came out well, not yet victorious.

Bob Sporn, a real estate dealer and father of the girl, rated, she says, as worth a quarter of a million, grew so exasperated that he screamed, "I'd like to kill you. I'll put a bullet in your head." But Gertrude looked him calmly in the eye answering "You're too big a coward," and then told the judge why she left home.

"He beat me till I was so bruised I couldn't wear clothing for days," she said. "I'm earning my living, behaving myself, and I'm not going to let my father or this court tell me what profession to pursue. I'm playing the piano. Formerly I worked as a stenographer, got less, worked longer hours, and didn't like the work. I like this."

NATION FACES POTATO FAMINE

Milwaukee, Nov. 24.—Local produce wholesalers, after vainly searching the immediate vicinity, the state, and the entire northwest for potatoes, yesterday asserted that the country is almost face to face with a famine in this commodity. Prices, they predicted will soar to unprecedented marks when the seriousness of the situation becomes known with the rapid decrease in the country's supply.

That the prices and the supply in Milwaukee have been influenced by an exceptionally good crop in the state compared with other sections of the country, tending to keep down the cost below the figures of other markets, were statements made by commission men. They, however, claimed that this supply is rapidly becoming exhausted and that soon this city will feel the effects and experience the same conditions prevailing in the markets of the large eastern cities.

The nation's populace is buying from hand to mouth, they say, and it is this fact which gives to the potato market its most serious aspect. In previous years the demand for potatoes during the winter months has been greatly decreased by the purchase of the winter's supply in the fall of the year, by the housekeeper. This year, according to the sales recorded, those who dared to purchase this supply with the existing high prices have been few.

Added to this cause for worry it is said that larger shipments than usual have been made to Atlantic seaports, indicating European shipments, while in other years this commodity has been imported, which have helped to supply the demand.

Mr. and Mrs. S. R. Kauffman of Marquette, were the guests of friends and relatives here Saturday.

G. J. French of Manistique who has been the guest of friends in this city the past week, has returned to his home.

REPORT ANOTHER HOSPITAL SHIP SENT TO BOTTOM

London, Nov. 24.—The British hospital ship Braemar Castle, a vessel of 6,300 tons, bound from Saloniki to Malta with a load of wounded Allied soldiers has been mined or torpedoed in the Aegean sea. All aboard have been saved.

Athens, Nov. 24.—All nurses on board the British hospital ship Britannic which was sunk two days ago off the coast of Greece were saved so far as is known. Those drowned were all stokers or engineers, it is reported.

JIM JEFFRIES, EX-CHAMP, NOW REAL DAIRYMAN

Jim Jeffries is a real dairyman these days. Once the terror of all the fighting men, Big Jim has hied away to Burbank, near Los Angeles, where he has tacked his 105 acres of land with 150 head of the finest Holsteins that money could buy. The other day Jeff paid \$3,500 for a Holstein bull. He intends to invest \$50,000 more in his pets.

"I'm just a farmer these days," said Jeff.

"I've moved up to Burbank in order that I could attend strictly to my plant and I intend that an occasional hunting or trout trip shall be my only diversion. I've spent \$70,000 on my plant, not counting \$20,000 that the house cost me. All my milking is done by electricity. In time mine will be the finest dairy in the west.

"Fights? Lads' sake! I never think of them any more. Perhaps it is because the sport is under wraps here just now. I doubt if I'll ever be connected with it in any way again. Farming is my trade now, and I intend to top the list as a dairy producer."

And what of Tom Sharkey? Ah, sure the terrible sailorman that was in now running a safe in Kearney street, San Francisco. Tom is enjoying a little profit in the town where he became famous over night. It was there that the tar gave Jim Corbett the fight of his life for four rounds. Corbett was the heavyweight champion of the world at the time, and he took the pride of the navy on for a soft one. The police came to Corbett's rescue when it seemed that Sharkey would tear the ring posts out by the roots in his effort to stop Gentleman Jim. Corbett was kidnapped just in the nick of time for the sailor was fighting mad and within a stone's throw of the championship. From that time on Tom Sharkey's name always appeared in big electric letters, even to this day.

COMMISSIONERS TO MEET ON DEC. 1.

Manistique, Mich., Nov. 25.—Altho not definitely settled it is probable that the meeting of the road commissioners from all the counties in the southern end of the upper peninsula, Menominee, Delta, Schoolcraft, Luce, Mackinaw and Chippewa counties, will be held here at the court house on the first of next month.

R. P. Mason, road commissioner of Delta County and secretary of the organization was in this county this week on a hunting trip and conferred with Chairman, F. N. Cookson of this city on his return and plans for the meeting were discussed then and the official announcement of the meeting will possibly be made in few days.

The meeting of the road commissioners of the upper peninsula will take place at Marquette on December 5 and it is necessary that the meeting here be held before that time.

The purpose of the meetings is to decide as to the possible division of the federal aid road fund which is to be used in road building in the state. There has been nearly half a million set aside for this part of the state and the counties where the roads are built appropriate an equal amount which will make it possible to improve many of the roads in the upper peninsula.

COMFORT ON TRAINS

TRAVELING PUBLIC HAS LITTLE CAUSE FOR COMPLAINT.

Railroads Make Consistent Efforts to Please Their Passengers—Some Minor Deficiencies That Might Call for Correction.

Attention of the railroads has been called to the deficiencies of the dining service, Kathleen Hills writes in Leslie's. Among others the suggestion has been made that a neatly framed sign be placed in each car announcing the time for the respective meals and the kind of service—a la carte or table d'hôte—to take the place of the noisy "calls" so familiar to all travelers, and that when a train nears its final stopping place around meal hours no table in the dining car shall be dismantled while any passenger remains at a table.

On some lines, it has been noted, the starting and stopping of trains is done in a jerky manner, which does not conduce to the comfort of passengers and the coupling of sleepers in the night is often accompanied by crashes that awaken the traveler with fright.

It has been suggested that when lines traverse interesting scenic or historic country, trains should be equipped with small phonographs to announce points of interest, or that informative placards be conspicuously displayed stating on which side of the train the various points of interest lie and at what hour the train is due to pass them. At way stations, where two or more trains pull through at approximately the same time, instead of having an announcer call the trains and their various stops, the use of a small sign on each car might give the train number, the various stops to be made and the destination.

There is another side to this situation which most of us do not consider. We pay for our tickets and think it should buy everything for our comfort; we give little heed to the fact that the transportation companies take great pains to make us comfortable as we would be in our own homes—often more so. Small electric lamps with frosted globes to relieve the glare on the eyes are furnished for one to read by in his berth; there is plenty of distilled ice water provided, with individual drinking cups, individual towels and soap, and on some roads and steamships even electric curling irons for women. There are screens for the windows, comfortable seats, haseocks for the feet, steam heat and electric fans. On Christmas and other holidays every endeavor is made to make the journey noteworthy. On all through trains and all first-class passenger steamers there are menus particularly appropriate to the day. Sometimes these are elaborate and are given to the passenger in the way of a souvenir, and can be mailed to friends free of charge. This year we noticed holiday banners and posters wishing the traveler the season's greetings. If anything for the comfort of the traveler has been overlooked, it would almost seem to be accidental.

Electricity on Trains.

Those who wonder how the electricity used for lighting trains, operating fans in coaches and the like is generated should know that it comes from a turbine generator which is usually geared to the axle of the car, the motion of the train operating it and supplying the current at no cost but that of "deterioration of machinery."

SAFETY-FIRST TRAIN BEGINS TOUR

President Wilson and his cabinet witnessed the start of the United States government Safety-First special, which left Washington May 1 for a visit to 200 cities and towns. After it has been over the lines on which it started it will be switched to some other trunk line. The train, consisting of 12 steel coaches containing exhibits which illustrate the work of the various federal bureaus in saving life and property, is drawn by two engines. Each car carries the United States seal, shown partially in this picture. On the left, reading toward the center, are Secretaries Redfield, Gregory, Lansing, and Daniels. In the center is Daniel J. Willard, president of the line. On the extreme right is Secretary Baker, and next to him Secretary Wilson.

DEATHS DUE TO TRESPASS

Fatalities on Railroad Lines, Caused by Carelessness, Constantly Show a Substantial Increase.

Fatalities in railroad accidents so far as passengers are concerned have decreased in this country. Several of the most important railroad lines in their campaign for safety have been able to announce that no deaths have resulted to travelers upon their roads for periods ranging from one to five years. Fatalities to trespassers, however, have increased proportionally seven times as much as have deaths of passengers.

A recent report gives the number of trespassers killed last year as 5,471, and for the preceding 25 years as 113,480. This appalling figure represents 53 per cent of all the railroad fatalities in the United States. This percentage is remarkably constant. As the Railway Age Gazette expresses it:

"The more railroads there are and the more trains there are run the greater is the hazard that they will kill persons who persist in walking on the track, and apparently the more people there are in the United States the more trespassers there are."

The railroads have endeavored to have the states act and have also attempted to deal with it themselves. They have policed their tracks and have arrested trespassers, but according to the court records these persons went unpunished because the judges refused to convict them and local authorities refused to stand the expense of their imprisonment.

At a meeting of the Association of Railroad Superintendents in San Francisco E. W. Camp said that his efforts to interest various state legislatures in a bill to make trespassing a misdemeanor were in almost every case futile. Where it received any favor at all the bill was made almost inoperative by limitation. One instance that he mentioned was a proviso that it "should not apply to pickets during a strike."

SET A NEW SAFETY RECORD

Year 1915 Showed a Gratifying Decrease of Accidents on the Country's Railroad Lines.

Nineteen hundred and fifteen set a new record. The greatest improvement in safety of railroad operation ever recorded for a year is shown by the annual accident bulletin of the Interstate commerce commission. The total number of persons killed was in excess of 3,500, but of these only 222 were passengers, the others being employees of the lines, including freight as well as passenger service, track workers and employees at division points, and trespassers on the rights of way, including pedestrians and passengers of the genus hobo, riding either on the trucks or in "side-door Pullmans." The striking fact in the figures is that of approximately 1,000,000,000 passengers carried only 222 were killed. The number of persons injured was much greater, but the cause of the decrease in the number of passengers injured in any way is to be found in the reduced number of the train accidents. The number of such accidents in 1915 was 11,542, as against 15,096 the year before, a decrease of 32 per cent. The number of collisions fell more than 33 per cent; showing, as we may suppose, a much wider use of the block signal system as well as higher grades of efficiency in many mechanical and dispatching departments.

Thousands of Passenger Cars.

There are 51,490 passenger cars on the railroads of this country.

COMFORT ON TRAINS

TRAVELING PUBLIC HAS LITTLE CAUSE FOR COMPLAINT.

Railroads Make Consistent Efforts to Please Their Passengers—Some Minor Deficiencies That Might Call for Correction.

Attention of the railroads has been called to the deficiencies of the dining service, Kathleen Hills writes in Leslie's. FRENCH MEET TO PAY HONOR TO AMERICANS

Paris, Nov. 24.—The great amphitheater of the Sorbonne, with a seating capacity of 3,500, had not been so crowded since Theodore Roosevelt spoke there several years ago, as it was today when a brilliant assemblage of French men and women assembled to give evidence of their recognition of what Americans have done for France.

The audience, which was composed of those who had assembled by invitation, was largely persons of distinction. The stage was occupied by members of the French academy, the official representatives of President Poincare, members of the cabinet, many ladies and officers in uniforms.

When the Band of the Republican Guard played the Star Spangled Banner the entire audience rose and remained standing until the American national anthem was finished. Then rousing cheers were given for the United States.

The reading of telegrams of salutation from Americans was greeted with applause, also were references to the individual cases of devotion sacrifice by Americans made by Alexandre Millerand and Emile Boutroux, who presided. After the more formal part of the program had been carried out, a poem by Walt Whitman was read. Another poem entitled "To Our Friends in America," which was written for the occasion also was read.

USES GASOLINE TO LIGHT FIRE

Iron Mountain, Nov. 25.—Mrs. John Lidbeck, who resides on a farm at Homestead, Wis., was terribly burned at 6 o'clock yesterday morning when by a mistake she used gasoline, thinking it was kerosene, to light the fire to prepare breakfast. As soon as possible, her husband and Charles G. Anderson placed her in an auto and rushed her to the Scandinavian hospital in this city where she died at about 3 o'clock p. m. Dr. Alving stated that there was not a square inch of her body but what was badly burned. Part of the top of one of her shoes was burned off. Just as Mrs. Lidbeck poured the gasoline on the fire the can exploded and set her clothes on fire. Her son immediately rushed to her assistance and made a vain effort to extinguish the flames and sustained burns to both of his hands and face, but they are not serious. He was given treatment at the hospital. In a moment of excitement Mrs. Lidbeck rushed out side the house and started for the barn where her husband was attending to his morning chores. The flames were finally put out but not until her entire body had been badly burned. As soon as the unfortunate woman reached the open air the flames rapidly spread over her clothing.

When the can of gasoline exploded part of the contents were scattered about the kitchen and started a fire which was put out after much difficulty.

FORFEITS FORTUNE OF \$281,000 BY MARRIAGE.

New York, Nov. 25.—By her marriage to Edgar Lockwood, Mrs. Elizabeth H. McCutcheon of Greenwich, Conn., lost a fortune of \$281,000. The legacy was left to her by her father-in-law, the late James McCutcheon, head of a Fifth avenue line house, on condition that she forfeit the bequest by remarrying. The money goes to Mr. McCutcheon's 4-year-old daughter, Elizabeth.

BABE'S NURSE WAS THREATENED

Lansing, Mich., Nov. 25.—Although those close to the Bruce E. Anderson and R. E. Olds families here still insist that the alleged attempt to kidnap the infant grandson of the auto manufacturer last week was not a serious thing, it is admitted on all sides that whoever is at the bottom of the "joke" has been highly persistent at least.

It was learned today that for almost a month letters demanding the child have been coming to Mr. Olds and to other members of the family. Then came the presence of the strong man on the porch and the climax last Saturday afternoon when Miss Mabel Ruby, the trained nurse in charge of the child, received a letter threatening her personally.

"Unless you take the child in the tuggy to the postoffice Saturday evening and leave him outside for a moment, you will be shot," the letter said.

A postscript informed her that she would be paid \$500 for her trouble.

It was this letter which so frightened everybody and caused the rumors in Lansing.

On the return of Mr. and Mrs. Anderson, the child's parents, Sunday night, Miss Ruby left the case. She had agreed to take care of the youngster only until its parents returned.

Absolute secrecy has been demanded in all quarters and although there are indications that the matter is in the hands of private detectives, this is officially denied. Today no person in authority would discuss the case.

The story leaked out as tea cup gossip at some society gatherings, and in the inner circles of society close to the Olds and the Andersons the threatening letters and the supposed attempt to kidnap little Ransom E. Olds-Anderson have been common talk for several days.

The families insist that the whole affair was intended only to scare the nurse and was engineered by some of the servants.

P. & H. B. LAING LAND POSTOFFICE LEASE

Gladstone, Mich., Nov. 25.—Postmaster Otto Mertz has received word from the postoffice department at Washington to the effect that P. & H. B. Laing are the successful bidders for the postoffice lease. The present lease will expire on the last day of December and on January 1, will be renewed for a period of 10 years. The yearly rental has not been made public, but it is believed to be slightly in excess of the terms of the present lease.

Among other bidders for the lease were: M. Jacobs, M. Anderson and P. Duchaine. Had he been successful in securing the lease, Mr. Jacobs would have erected a new business block on Delta avenue, having secured an option on the vacant property owned by D. Kratze between Seventh and Eighth streets. Mr. Jacobs has not yet given up the idea of the new building and should business conditions warrant it he may decide to erect the building during the coming year.

In granting the ten year lease to Messrs. Laing, the department has set forth several requirements which will have to be met. The specifications call for a thoroughly modern heating plant, private office for the postmaster as well as much new equipment. The lobby space will be decreased in order to provide more room in the office proper. Lockers will be provided for the postmaster, clerks and carriers.

While the lease does not specify it, a new front will very likely be constructed. In the event this is done, the entrance will be from the corner of Delta and Seventh instead of on Delta as is now the case. The build-

REPORT ANOTHER HOSPITAL SHIP SENT TO BOTTOM

London, Nov. 24.—The British hospital ship Braemar Castle, a vessel of 6,300 tons, bound from Saloniki to Malta with a load of wounded Allied soldiers has been mined or torpedoed in the Aegean sea. All aboard have been saved.

Athens, Nov. 24.—All nurses on board the British hospital ship Britannic which was sunk two days ago off the coast of Greece were saved so far as is known. Those drowned were all stokers or engineers, it is reported.

WOMEN'S EXCHANGE

A full line of Home Baking all the time. Orders filled promptly.

GIRL WEDS HER SOLDIER BOY 3,000 MILES AWAY.

Portland, Ind.—Miss Bessie Inez Butcher was married recently in the office of A. G. Lewis, Justice of the peace here to David H. Goff, who was in the camp of the Indiana national guard in Llano Grande, Tex., more than 2,000 miles away.

The ceremony was witnessed by the bridegroom's mother, the brides sister, and other guests.

Lewis filled out an application blank for Miss Butcher and sent it to Goff, with instructions to go before a notary public and make the proper affidavit. Goff also signed a statement that he took Miss Butcher to be his lawful wife.

PACIFIST ARE SCORED BY T. R.

Washington, Nov. 24.—Lieutenant General S. B. M. Young, retired, made public here a letter from Theodore Roosevelt saying:

"I most cordially and emphatically approve your efforts, as president of the Association for National Service, to secure the passage of a law making it obligatory upon every male American citizen between the age of 18 to 21 to serve six months or a year—as the case may demand—in the field with the colors.

"I believe no one should be allowed to vote who has not thus served—politicians and professional pacifists are out of place in a free republic.

"There should be education towards military training along the lines followed in Australia, Argentina, Switzerland and Japan.

"No man is fit to be a free man unless he has fitted himself to fight efficiently for his freedom."

LANDIS SEES NATION DRY TREATING EVIL VANISHING.

East St. Louis, Ill.—National prohibition, will be a good thing for this country," said Federal Judge Kenesaw Mountain Landis, here.

The judge, sitting in the court here while Judge Wright is sitting in Chicago, said that W. J. Bryan's Prophecy, of a vote on the question in 1920 was a reasonable prediction.

He declared nation-wide prohibition would abolish bootlegging because the federal government would more stringently enforce the law.

"The fact that many young men and quite a few old-timers do not feel embarrassed in refusing an invitation to drink is a sign of the times," said Judge Landis. "A very large portion of the country is dry now, and the remainder will soon be."

H. C. OF L. HURTS NAVY RECRUITING

Washington, Nov. 24.—High wages ashore and the increased cost of living have seriously hampered navy recruiting, Rear Admiral McGowan, paymaster-general, told the house naval committee today, in explanation of why there are only about 55,000 enlisted men in the service, although congress has authorized a total strength of 77,000. He said it was hoped that a total of 70,000 could be reached by the end of 1918.

"Their inability to send home enough money to keep those dependent upon them is the governing factor in preventing many men from enlisting," said the admiral.

Representative Kelley, of Michigan, asked if an increased pay scale would not aid recruiting. The admiral said it undoubtedly would but that pay was not the only consideration. He agreed to submit later suggestions as to ways and means of speeding up recruiting.

WAITS THIRTEEN YEARS; SEEK ANOTHER HUSBAND

New York.—I have waited thirteen years for my husband, Bernhard, to obtain a final decree of divorce, and now I have found a man whom I wish to marry, but I can not unless the interlocutory decree be obtained in June, 1903, is made final. I ask your honor to do this in order to help me out of my predicament.

This was the plea made to Supreme Court Justice Gavegan by Mrs. Mary Foerster. She explained that after gaining an interlocutory decree her husband left for "parts unknown."

Justice Gavegan told Mrs. Foerster that he knew of no authority permitting the losing party in a matrimonial action to file a final decree against herself.

The justice, however, indicted to Mrs. Foerster that if her husband did not take the desired action within a prescribed period she might move to set aside the interlocutory decree.

"GET THERE AND BACK" MOTTO OF U.S.

Field Headquarters American Punitive Expedition in Mexico, Nov. 25.—"Get there and back," is the motto of the punitive expedition's aero squadron. Consorship restrictions have placed an almost impenetrable hedge about the army aviators, but it may be said the squadron has lived up to its motto.

Flights are not begun at sea level, where the propeller blades can grip the air, but at a height of 5,000 to 7,000 feet, where the atmosphere is thin. The mountains, canons and sun-baked plains plus the altitude, combine to produce air currents and pockets that are a constant source of peril.

In one case a pilot went through that nightmare of all aviators, a spiral nose dive. The machine was flying at an altitude of 5,000 feet, which is more than 10,000 feet above sea level, when it struck an air pocket. Clouds obscured the pilot's vision and he had no idea where he was. When he realized that manipulation of his controls produced no effect, he glanced at his compass. It was turned sideways, indicating that his plane was falling with its wings at right angles to the earth. Carefully he reversed his controls, fearing that too quick a reverse would crumple the planes. Several times he did that. At last he felt them take hold.

Just then the clouds thinned and he saw the earth not more than 500 feet beneath him. He had fallen like a plummet at least 4,000 feet.

Another pilot at an altitude of several thousand feet early one morning noticed a sheet of flame shoot from the hood of his machine. Startled, he began to volplane down, seeking a place to land. He throttled down the motor and the flame receded. When he gave the engine gas a few moments later to regain momentum, the flame reappeared. Several times this occurred. Finally he glided to earth and got out to inspect the aeroplane. Every thing seemed in good shape. There were no signs of fire. The flame he had seen had been the rays of the early morning sun gleaming on the highly polished, red blades of his propeller.

Helping Each Other.

Sometimes we can help each other best by letting each other alone. At other times we need the friendly hand-clasp and the word of cheer. Men are under the domain of natural law as much as bees. Bees live only through co-operation—a frictionless, efficient working together. Men also succeed only by working harmoniously with other men, and for other men as well as for themselves.

That New Disease.

One of our eminent medical authorities announces a brand new fatal disease, which he calls angina of effort, brought on by overwork, and we suppose the government employees will soon be organizing a movement for 120-day vacations, including sick leave, instead of 60-day ones, so as to lessen the risk somewhat.—Ohio State Journal.

Empty Words.

"What was the substance of his speech?" "I can read my stenographic report if you care to hear it. The speech had no substance."

A Tonic King.

"He's worth a million, you say?" "And every cent of it blood money." "Made in war stocks?" "Oh, no; he manufactures one of the patent purgatives."

WILL POSTPONE ADAMSON LAW ENFORCEMENT

Washington, Nov. 25.—Under a tentative agreement said today to have been arranged between department of justice officials and railroad attorneys, the government will not insist on the railroads' putting into effect the provisions of the Adamson act until the supreme court has determined the law's constitutionality. The measure becomes effective on January 1, but prosecutions for violations would be withheld.

The agreement is conditional on the ability of the counsel for the government and the railroads, who are in Kansas City today to appear before the federal court there in the Santa Fe suit to decide on what case should be appealed to the supreme court for a test.

Kansas City, Mo., Nov. 24.—A tentative agreement on a test case of the Adamson eight-hour law has been reached by the attorneys of the railroads and the government, who have been in conference here since yesterday. The agreement's terms, which were undisclosed were forwarded to Attorney General Gregory.

DAVE FULTZ SAYS LEAGUES MUST AGREE

New York, Nov. 25.—That major and minor league players in all leagues protected by the Baseball Players' fraternity will refuse to sign their contracts unless the national association governing the body of the minor leagues grant requests recently made upon it by the fraternity was again indicated by a statement made here Thursday by President David Fultz of the fraternity.

"The national association simply must grant these requests; that is all there is to it," said Fultz. "We have pledged from virtually all our players not to sign contracts unless they get word from officers of the fraternity. I am more sure than ever that we have the majority of the players behind us on this issue. Since the minor league conference ignored our requests in New Orleans I have received letters from dozens of players asking that 'we sit tight.'"

Fultz also said he had sent Chairman Herrmann of the national commission copies of contracts entered into last season by Ray Keating of New York and John Henry of Washington. Both of these contracts had clauses exempting the club from paying the players' salary in the event of injury met while playing ball. Fultz declared.

QUEEN LIL, STILL ACCORDED ALL HONOR

Honolulu, Nov. 24.—The condition of Liliuokalani, the 78-year-old former Queen of Hawaii, continues to cause her friends grave concern. Her illness began with a cold some time ago, and she has been weakened so by its inroads that her attendants fear she may never fully recover. Though now seen occasionally in her carriage, she is easily exhausted and often falls to sleep along the drive.

Possess of no more actual sovereignty than the meanest Hawaiian stevedore, she is still accorded all the deference of royalty. On state occasions at her own home she is accompanied by ladies in waiting who keep peacock fans over her, while kakili bearers stand motionless at her side holding the royal habilis—feather-topped standards. No person is permitted to pass behind "Her Majesty" nor must the shadow of any human being fall upon her.

In th e years immediately following the overthrow of her monarchy, Queen Liliuokalani struggled bitterly against the fate that had befallen her. Her attitude toward American was hostile. But age has healed these wounds and today her constant advice to her people is that they be loyal to the country that has adopted them.

The former queen has in recent years occupied herself largely with literary labors. She is the author of both the words and music of "Aloha Oe" the Hawaiian song that is now well known in the United States. She wrote it as a farewell tribute to her brother, King Kalaquaa, and it is a matter of grief to her that the song is being synecopated and played irreverently as dance music on the mainland.

Most recently Liliuokalani has been assisting the Rev. Henry Parker, a native minister, in compiling a dictionary of the Hawaiian language, for which an appropriation was made by the territorial legislature. They already have compiled about 15,000 words, several thousand of which Liliuokalani has defined in English and Hawaiian, with all the finer shades of meaning and accentuation. The difficulty of the work is that many Hawaiian words have a dozen different meanings, dependent upon their juxtaposition to other words and upon gestures and inflections.

DUPLICATE OF BONDS MAY BE GIVEN

Marinette, Wis., Nov. 25.—Application has been made to the city of Marinette by the Jackson City bank of Jackson, Mich., for duplicate coupons on certain bonds which that city held amounting to about \$500 and which were stolen in a train robbery near Detroit on September 27.

City Attorney H. R. Goldman of Marinette has informed the Jackson bank officials that the city of Marinette will furnish duplicate of the bonds providing the Michigan bank agree to furnish an indemnity bond.

It is expected that the Jackson bank will agree to this proposition as payment has been stopped on the bonds which were lost in the robbery. The bonds were stolen from the Michigan Central railway train near Detroit on September 27.

Subway Development.

The first "subways" were cuts for pipes and wires, large enough for a man to walk in, and supplied with inspection openings. These were installed in Paris by Napoleon III. The Chicago street traffic subways were first built in 1866-71. But in our general modern acceptance of the word, the first "subways" were those of the deep underground steam railway of London, built in 1825. The first "real subway" in the United States was that in Boston, 1827.

How It Happened.

"How did you happen to vote for prohibition?" "I did it 'cause I got the general state of grouch," replied Gulch Bob. "Everybody in Crimson Gulch got sort o' huffy with everybody else 'an' we seem to get some kind o' satisfaction out o' standin' around 'an' seein' one another suffer."

Of Course Paw Knew Little Lemuel.

"Paw, what's a lawyer?" "Paw—'A lawyer, son, is a sort of an umbrella for use in a brain storm."

CAN'T GET FARMS; FOREIGNERS GO

New York, Nov. 25.—The United States may become an "emigrant" rather than an "immigrant" nation at the close of the war, predicts Frederick C. Howe, commissioner of immigration. He bases his belief on the ground that the immigrant is not being treated justly. In an address here he took the stand that immigration was purely an economic question. He said that those who opposed immigration did so because they desired to limit the competition of unskilled foreign laborers; those who favored the wide open door did so because it made labor cheap.

The immigrant no longer went to the farm, Mr. Howe said, because all the available land of the country had been taken up. "Hundreds of millions of acres being held for purely speculation problem never existed so long as the land was free for the asking," said Mr. Howe, "and it is this scarcity of land which makes immigration an economic question. Most of the men now employed in our shops and factories, who at home worked as farmers, are saving their money to return to the old country. They have always wished to own their own farm—and they figured after the war land will be cheap over seas."

Commissioner Howe urged the creation of a fund by congress so that they may establish themselves on farms, and asserted that this was the only solution of the immigration problem.

ATTENTION!

Sir Knights of the Maccabees and members of U. P. Tent No. 4: Tuesday evening, Nov. 28th, our next regular review will be held in Greiner's Hall, corner of Charlotte and Ayer streets. You are earnestly requested to be present owing to the fact that nominations of officers for the ensuing year will take place, also other business of importance.

Duncan, P. Mac Rae, R. K. M. U. P. Tent No. 4, K. O. T. M. 329-3t.

His Gratitude.

A collector of subscriptions for the brass-band fund once came across a farmer who was noted for his meanness. To his surprise the farmer, once consented to subscribe fully as large a sum as any he had yet received. "Mr. Harditt," he said, "addressing the farmer, 'you are surely very fond of music, to give so much?'" "Oh, yes," said the farmer; "they're good for scaring the crows from me 'tates when they're practicin', an' I'm grateful!"—London Tit-Bits.

The Scarlet Poppy.

The typical flower of the British grain fields is the scarlet poppy. In June when the wheat stalks have not yet reached their full height, many grain fields appear from a distance to have nothing but poppies in them, and are a sheet of blazing scarlet. The long deeply cut leaves of the plant, of which each division ends in a bristle, are in themselves handsome.

Hardships of War.

Two hundred and twenty-two articles besides rations are carried by British soldiers sent into the trenches, sixteen items being worn on the person, eleven carried in the pockets, nine in the haversack, sixteen in the valise and nine in the "hold all," besides sixteen items of equipment.

Child's Doll House.

A doll house which will please almost any child can be made with small expense by fastening together two orange crates. This will form a four-room house. Cover the outside with oatmeal paper, which will resemble the new cement houses. Paper the inside with wallpaper of a small pattern. Cover floors with denim. Furniture can be bought at a 10-cent store.

Fresh Cut ROSES

It is a real pleasure when we greet the stranger in our services. A kind and urgent invitation extended to all who should worship with us. You will be made welcome.

R. Stanley Brown, pastor.

THEATRES

THE DELFT.

Mabel Tallafiero, one of the most charming and talented young actresses of the stage or screen, will be the feature attraction at the Delft today when she will be seen in the stellar role of "The Dawn of Love," a five-part Metro wonderplay. Miss Tallafiero is supported by an unusually strong cast which includes Robert W. Frazer, Leslie M. Stowe, Peter Lang, Martin J. Fause, D. H. Turner, Frank Bates and Jack La Mond. The story which is from the pen of Channing Pollock and Renold Wolfe, is one of romance and intrigue, and deals with the strife between the smugglers and customs officers along the northern coast of Maine. Miss Tallafiero has the role of the daughter of a fisherman, who is involved with the smugglers. There are plenty of thrills and suspense throughout the entire picture. The feature was photographed along the picturesque and rugged Maine coast, where the Metro players remained for several weeks, living near a lighthouse. The burning of the lighthouse and the numerous exciting scenes in the smugglers' cave are a few of the big moments in this really big screen play.

Miss Tallafiero is seen at her best in this colorful photodrama. In the early part of the story she is shown as a care-free, hoydenish fisherman's daughter. Later she affords a marvelous contrast in her powerful portrayal of a wronged and indignant woman. Miss Tallafiero's wonderful versatility is put to a supreme test in this feature. She was last seen on the Metro program in "God's Half Acre" and before that in "The Snowbird." Edwin Carewe who directed Miss Tallafiero in both of these pictures also produced "The Dawn of Love."

NON-CRYING BABIES ARE NOVELTY OF ST. LOUIS.

St. Louis, Mo.—The patented non-crying baby is the product of St. Louis City hospital. Non-crying babies are being turned out at the rate of five or six a day. Part of the new system is the elimination of caresses from bewhiskered Uncle Exras and joggling by doting Aunt Lizlies. Relatives may peek at a new baby, but must keep hands off. The babies are never fondled. They are fed at regular intervals. After the feeding the baby is taken from the mother for a time and put in a separate bed. When the mother leaves the hospital with her baby, she takes with her a printed list of nurse's "don'ts." If the baby forms crying habits at home—well, that's the mother's fault.

A NEW SERIAL IP BOOKED UP

In announcing the engagement of "The Yellow Menace," the sixteen episode motion picture serial released by the Standard Film Service company, which will commence at the theatre early in December, Manager Hines states the following:

"The topic with which 'The Yellow Menace' deals is easily the most important submitted to public notice in the United States during the present generation. In a nutshell, it is a case of preparedness. But a picture serial with all its wonderful developments, has also the limitations of the screen; it can only depict; it cannot argue. So in the marvelous happenings featured by 'The Yellow Menace' authors, producers, and actors have collaborated in an appeal to the intelligence of the people.

"Thus, the audience is shown how a leader evolved from the teeming masses of the East—a creation entire ly possible—a scientist of real ability, and a thinker of depth and originality, can nevertheless become a brutal fanatic who stops short of no means to exalt the Yellow Races at the expense of the white.

"All Singh, the miscreant who figures throughout every episode of 'The Yellow Menace' is just such an abnormal individual. What he succeeds in doing throughout these exciting scenes indicated to the thinking mind a real danger lurking in the future. If this lesson can be driven home, it is series of films will render a national service. There can be no question their excellence and dramatic effect, and pains have been taken to insure that their political significance will also make itself felt."

JOSEPH'S DEATH PERILS

AUSTRIA, BERLIN ADMITS

Amsterdam, Nov. 25.—Commenting on the death of Emperor Francis Joseph, the Lokal Anzeiger of Berlin, says:

"The Austrian emperor's death will create a great gap, especially as it occurs at a moment when immense events are deciding Austria's future. 'There is, therefore, no doubt that the enemies of Germany and Austria will joyfully record this event on their credit side in the war balance, but the future may show them that their calculation is mistaken.'"

The KITCHEN CABINET

Something is wrong with everything. We live upon the planet of mistakes. Most of us are mistaken. The rest are excused. I know of no ideal condition except the condition of someone else. No human being ever had things just exactly to suit him. The sooner we awake to this truth and make up our minds that if ever we are to find contentment at all, it will be among things as they are and not among things as they ought to be, the better it will be for us—and also for the unfortunate people who have to live with us.—Frank Crane.

DAY WITH PANCAKES.

If pancakes are to be light, more mixing will not do. The batter must be thoroughly beaten for five or ten minutes. The frying pan should be very smooth and fairly hot so the cakes may cook quickly without getting soggy.

Plain Pancakes.—Sift one cupful of flour into a basin; add a quarter of a teaspoonful of salt, one unbeaten egg, and half a cupful of milk. Mix until smooth, then begin to beat with a wooden spoon for a few minutes; then add another half cupful of milk and continue beating until air bubbles rise to the top. Fry on a hot griddle and serve with lemon juice and sugar.

Rice Pancakes.—Boil a quarter of a pound of rice until quite soft, then drain. Mix with it one cupful of cream, four well beaten eggs, a quarter of a teaspoonful of salt, nutmeg to taste, a half cupful of melted butter and sufficient flour to form a smooth batter. Fry and serve.

Serving a thin slice of orange sprinkled with sugar on the nice brown cake, which is but little larger than the orange is a most attractive and delicious cake.

Scotch Pancakes.—Beat four eggs with four tablespoonfuls of sugar. Have six tablespoonfuls of flour and a pint of sweet milk, mix a little of the milk with the flour until smooth, add this to the beaten eggs, then add a little salt and mix all together. Put a tablespoonful of butter on a smooth griddle and pour a cupful of the well beaten batter on to the pan, cook until well browned, then spread with butter and orange marmalade, roll up, sprinkle with sugar, serve on a hot dish. Chopped pineapple or other fruits may be served on these cakes, even grated chocolate added just as they are taken from the griddle, dusted with sugar, is a cake liked very much.

Nellie Maxwell

People You Know Things You Don't

Mrs. Floyd Lockard and daughter Margaret, returned yesterday to their home in Green Bay, after spending the past ten days visiting with friends in this city.

Miss Martha Durgin left Saturday evening for Stephenson, where she will spend the week end visiting relatives.

BARK RIVER GIRL WEDS IN THE EAST

Buffalo, N. Y., Nov. 25.—Miss Della Laveau of Bark River, Mich., near Escanaba, and Joseph Mittermiller of Antigo, Wis., secured marriage license late Thursday here in icy clerk's office. The couple stated, that they would be married later in the day and that after a brief trip they would reside at Antigo, Wis.

CHICAGOANS' GLASS EYES SEIZED BY THE BRITISH.

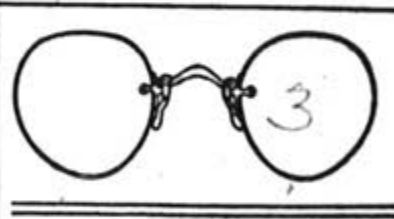

London, Nov. 25.—Release of a consignment of glass eyes made in Germany and seized in transit to a Chicago concern is being urged by American officials here. Chicago importers contend that some of the eyes were made to order to fit special cases and unless they reach their destination several clients will be forced to use substitutes, which will not match the color of their good ones. It also is pointed out that it is possible to get the right tints only in Germany.

DECOMPOSED BODY FOUND IN LAKE

Iron Mountain, Mich., Nov. 25.—The body of a man so decomposed as to make it impossible to identify it was discovered in the water near the shore in Dead Man's lake two miles from Floodwood yesterday morning by two hunters. Only a small part of the head and a small part of the body were left. Undertaker J. B. Erickson and Coroner James D. Cudlip of this city, were notified and went to Floodwood yesterday afternoon but the condition of the corpse was such that nothing could be done and the remains will be buried at that place. The body could not be brought here unless it was placed in a metallic casket and it was decided that this county should not be put to that expense in view of the fact that the identity of the corpse could not be determined. It is said that a man employed at a camp at Floodwood wandered away one night last summer clad only in his underwear. However, when the body was found a small portion of a

BAN WOULDN'T LET OSCAR MAKE SOME EASY MONEY

Detroit, Nov. 24.—Oscar Stange, the big Californian, who has been the catching mainstay of the Detroit Americans, is a downhearted athlete this winter. Oscar had two opportunities to pick up easy money with barnstorming teams but Ban Johnson, president of the American league, said "No." The first was to have been with John Dubuc's team which hoped to tour the Canadian northwest—but didn't. Later Oscar arranged to make a trip to Honolulu but called the journey off, also.

YOU CAN BEGIN WITH THE LARGEST PAYMENT FIRST AND DECREASE YOUR PAYMENTS EACH WEEK

The Reasons for the Club

- To provide a way for those of moderate and even small means to bank their money.
- To teach "the saving habit" to those who have never learned it.
- It makes your pennies, nickles and dimes, often foolishly spent grow into dollars; dollars grow into a fortune.
- Start your fortune today.
- To give you a Bank connection and show you how our Bank can be of service to you.

For Old and Young The sensible thing for all parents to do is to join our Christmas Banking Club and also put every member of their family into it. This will teach them the value of money and how to bank and HAVE MONEY. Maybe this little start you give them now may some day set them up in business or buy them a home.

How often have you wished that your parents had taught you early the value of banking your money. You would be well-off today. Don't make the same mistake with YOUR children.

WE PAY 3 PER CENT INTEREST IN OUR CHRISTMAS BANKING CLUB

"THE BANK FOR SAVINGS"

SOCIAL .. EVENTS

GORDON-HUTCHESON.

Mrs. Edna Gordon and Mr. Charles R. Hutcheson were quietly married at 8 o'clock last night at the rectory of St. Patrick's church. Rev. Father Barth officiating. Immediately after the ceremony Mr. and Mrs. Hutcheson left for a wedding trip to Milwaukee and Chicago and after a week or ten days will return to Escanaba to make their permanent home.

Although the wedding which occurred last night had been rumored the plans of the couple were maintained in deep secrecy until after they had left for the city of Chicago. The bride of last night is one of Escanaba's most estimable young women. In the business world she demonstrated her ability in building up the most successful business college in the northwest and disposing of that business last summer. The groom is one of Cloverland's sterling boosters, who came to this city from Iowa about two years ago, and engaged in the real estate business. He has made a specialty of dealing in farm lands and

has been unusually successful. Both the bride and the groom have a host of friends in this city.

AMUNDSEN-JOHNSON.

A decidedly pretty home wedding was celebrated at the Gaynor home at 520 Murray avenue yesterday afternoon, when Miss Inga I. Amundsen, of Calderwood, became the bride of Mr. Anton L. Johnson of Park Falls, Wis. The ceremony was performed by Rev. T. C. Hoakley, pastor of the First Baptist church, in the presence of a number of friends and relatives of the bride and groom. The bride was attended by Miss M. G. Stone-

house while Mr. Cecil Campbell officiated as groomsman. The bride was prettily attired in a gown of pink tulle with an overdress of light blue silk marquisette, trimmed with pink rosebuds. Following the wedding ceremony an elaborate wedding dinner was served at the home and at 8:35 o'clock the bride and groom left for a wedding trip. After the conclusion of their honeymoon the couple will go to Park Falls, where they will make their home permanently. Both the bride and the groom have a number of friends in this city who appeared at the station when they departed last night to shower them with

congratulations and other more substantial matter.

GUEST ENTERTAINED.

Miss Elma Nelson entertained a group of friends at her home on Sarah street a few evenings ago in honor of Miss Evelyn Moore, of Menominee. Games and music were indulged in after which a dainty luncheon was served by the hostess.

Rev. Mr. Simpson of St. Ignace, Rev. Mr. Compton of Manistique, were callers at the home of Rev. W. J. Datson yesterday, en route to Manitowoc, Wis.

The Misses Corretta and Luella Hartho, of Wilson are guests at the home of Mr. and Mrs. H. T. Hanson.

November, 1916, the price for setting horseshoes shall be advanced ten cents for each shoe set. The present prices are 25 cents for setting an old shoe and 50 cents for setting a new shoe. Our new prices which takes effect Nov. 15, 1916, will be 35 cents for setting an old shoe, 60 cents for setting a new shoe, and \$1.00 each for setting a new bar shoe of any size. And for packing a horse's hoofs, 25c cents for packing and 25 cents for the leather. Respectfully submitted.
