

HUNS DRIVEN OUT OF BELLEAU WOOD

State War Boards To Fix All Quotas In Future

FOOD RULES ARE TO GROW IN SEVERITY

Peninsula Food Administrator Predicts Tightening of Lines as War Progresses—Sugar Losses Felt.

SLEEPER APPEALS

The American people at home must save and conserve to the limit some of our principal food supplies.

Such were the ringing words of Gov. Albert E. Sleeper at the county food administrators conference at the city hall yesterday morning.

Our food supply, outside of wheat and sugar, is enormous and to substitute for articles that are scarce the things that are plentiful, becomes the duty of every loyal American.

We have entered upon a war with a vital enemy. We have undertaken no easy task but the indomitable will and the intense patriotic spirit of the American people will triumph in the end.

Our nation has not entered this war to gain either territory or riches. We have entered this war only to make the world safe for free people for all time to come.

From military standpoint the German government up to this time has been successful in acquiring by subjugation a territory three times greater than that with which Germany started the war.

To sacrifice must be looked upon as a privilege by every loyal citizen. As food administrators it is your duty to see that our precious foods do not fall into the hands of greedy individuals for hoarding at your expense, at the expense of our soldiers and at the expense of our allies.

Ring with patriotism in its every note and carrying a serious appeal to guard sacredly the scarce food supplies of the nation, was the address delivered before the food administrators of Cloverland, by George W. McCormick of Menominee, upper peninsula food administrator.

Laymen have a wholly inadequate idea of the great amount of detail work that devolves upon the food administrators at work in the peninsula, who have given and are giving patriotically of their time that the rules of the federal food administration may be carried out and enforced.

Senators Want Stop The Talk

Washington, June 13.—By a vote of 41 to 34 the senate this afternoon defeated the Underwood resolution to limit debates for the period of the war.

State's Loyalty Pledged

The following resolutions were adopted at the conference yesterday:

At a conference assembled on the 12th day of June, 1918, at which the Governor of our State, Albert E. Sleeper is presiding, we the citizens of the Upper Peninsula of Michigan, members of the Boards and Committees engaged in assisting the United States to carry on war, fully realizing the crisis that now confronts our nation and the entire civilized world by reason of the determined effort of the German Empire to terrorize all peace loving peoples upon the earth, and to subject them to its cruel and unjust rule and influence by waging against them a war of frightfulness, not only against the armed forces of our nation and its allies, but also upon peaceful unarmed citizens, women and children and in the most brutal manner, by the use of every device for the destruction of human lives and property that could be developed by the application of German military talent of a half a century in preparation for this war, and well knowing there can be no honest, long existing peace upon the earth until the power of the German military party is decisively broken, do pledge ourselves to greater efforts in this war work.

We urge upon all our fellow citizens the utmost loyalty and devotion to our government; the constant application of all hands and brains in war activity; the repeated generous subscriptions to all war funds and needs; the friendly care and courteous treatment of our 750,000 boys now upon the battlefields of France and with our fleets, and for the 2,000,000 boys now training in this country, and for their mothers, wives and children left at home; the unselfish spirit in each one to do his best for our nation, and to refrain from any unjust criticism of others; the hearty co-operation of every citizen in the speedy bringing to justice of all traitors to the nation, and of any persons who bring aid and comfort to or even sympathize with the enemy of the civilized world.

We commend our President, Woodrow Wilson, for his determination to force war upon the German government with all the power of this nation. No citizen or official of our country should have any other business or purpose at this time except war upon the German Empire until this entire country is fully mobilized for war in every department and industry and in every home.

We, as citizens of a country where each one has a voice and an equal vote in the government cannot live under the domination or menace of the German government. We call upon our President and upon the representatives of our citizens in Congress and in every other branch of our government to wage this war with the utmost power and speed the nation can develop. We declare that no peace must be permitted with the German empire or with the German people who are supporting and following the present policies of that nation until the Germans have been driven from France, Belgium and Russia, and until the danger of the control of this country or any of its allies by the German Empire or its policies is forever destroyed by a complete victory over the enemy.

The people of the State of Michigan and the Nation are indebted to our Governor, Albert E. Sleeper, for his vigorous and untiring efforts in directing Michigan war activities, and for his sympathetic devotion to Michigan's soldiers and sailors and their dependents.

We recognize and deeply appreciate the kind and courteous treatment accorded the members of the conference by the citizens and officials of the City of Escanaba.

- (Signed) J. H. RICE, Sault Ste Marie. W. J. RICHARDS, Crystal Falls. JOHN JONES, Ontonagon. P. W. PHELPS, Marquette. FRED CASE, Sault Ste Marie.

WAR BOARD'S EXPENDITURES ARE DETAILED

Auditor General O. B. Fuller Presents Interesting Statement of Activities of Board Since Organization.

Auditor General O. B. Fuller, a Delta county citizen whose record in the service of the state has been a source of great pride to those among whom he lived for many years, has had a large part in the furtherance of war relief and war preparedness work in Michigan.

Up to June 1 the former Delta county man, as auditor general of the state, has paid bills totaling \$3,209,606.61, from the Michigan War Loan Fund, authorized by the Michigan War board. On June 1 there was still in the fund to meet further demands a total of \$1,049,135.77.

Auditor General Fuller most interestingly spoke of the state War Board at the general conference yesterday afternoon and offered a complete statement of the receipts and expenditures of the board up to the present time.

Heavy demands were made on the fund in the construction of roads leading to the national army cantonments in the state as well as in opening and building roads for government work in different sections of the state.

To relieve a shortage in seed corn and seed wheat that threatened to seriously curtail production in Michigan this year, the war board sent to outside state and secure a sufficient amount of seed corn and wheat.

Will Move To Powers Today

Gov. Albert E. Sleeper with members of his party, accompanied by a large number of Escanaba people will go to Powers this morning to participate in the big Flag Day fete in that city.

The address of the day will be delivered by Rev. Dr. Barth of this city. Dr. Barth's subject will be "The Ethics of the State."

Four company forming a complete battalion under the command of Major Henry Schwellenbach, will be reviewed by the governor and will drill. The companies forming this battalion are Co. E, F, G, and H of the 552nd Infantry, M. S. T. and are from Menominee, Escanaba, Rapid River and Iron River.

A special feature of the parade and exercises will be the presence of the mothers of the Spalding township boys who are in the service. They will ride in autos in the parade and occupy seats of honor near Governor Sleeper in the speakers' stand. Every mother in the township who has a son at war will share equal honors with the governor of the state on this occasion.

Township Service Flag. A large township service flag 10x12 feet and containing 46 stars made by the ladies of the Powers-Spalding Red Cross club and donated to the Commercial club, will be dedicated as will a huge American Flag and a 70-foot Liberty flag pole.

Two military bands have been engaged for the day and march in the grand parade.

Miss Tokia Fichtner of Milwaukee, is a guest at the home of Attorney and Mrs. J. W. Loel.

STAMPS GET APPROVAL IN BIG MEETING

Gov. Sleeper, Yale Professor and the State Campaign Manager Make Appeal for Baby Bond Buying.

CAMPAIGN IS READY

The War Savings Stamp campaign in this county was given a flying start at the sectional meeting devoted to "Baby Bonds" at the Delft theatre yesterday morning. Stirring addresses delivered by Gov. Sleeper, Prof. William Lynn Phelps and Frank W. Hubbard, chairman of the War Savings campaign in Michigan.

Prof. Phelps delivered a most stirring appeal in behalf of the stamp campaign and by his flights of oratory closely held the attention of the audience. Mr. Hubbard in addressing the conference said:

Gentlemen of the War Board and Workers in the War Savings Movement:

The war savings stamp is five months old; and Michigan, one of the leading states in everything patriotic, ranks forty-fifth in her sale of this most desirable of all war securities.

This is the one unpleasant truth of which I am forced to speak; but before we meet again even that doleful story will be forgotten in a flood of pledges and an over-subscribed quota, which will prove our determination to assist in the preservation of democracy and justice.

My message is one of hope; and if I can but bring you a little of the enthusiasm that is generated at our war savings offices in Detroit I will be satisfied, and you will be strengthened.

A Poor Record.

It is no small source of gratitude to me to note the formation and perfecting of the war savings organization that is now going forward in Michigan. Every county is prepared for action; every chairman is ready; every worker is eager to set forth; and the big war savings drive will soon be hurled upon the people of the state—upon those who have failed to understand the war savings movement; upon those who have thought that the purchase of Liberty Bonds excused them from every other financial obligation in the war; upon those who have looked upon the thrift stamp and the war savings stamp as a plan to catch the savings of little children; and upon those who have not yet awakened to the needs of the government in this gigantic conflict.

I want to tell you a few facts about the thrift movement and about the war savings stamps before you start out with the final determination to put Michigan "over the top." Bear this fact in mind—the war savings stamp is the best investment that our government has offered; and he is a

Many Advantages. I want to tell you a few facts about the thrift movement and about the war savings stamps before you start out with the final determination to put Michigan "over the top." The Casualties

Washington, June 13.—One hundred and eighty-eight casualties in the American expeditionary forces were announced tonight by the war department, divided as follows:

- Killed in action 19. Died of wounds 9. From disease 4. Airplane accident 1. Accidents, etc. 3. Severely wounded 137. Wounded (undetermined) 11. Missing in action 4.

Among the officers in the list are: Died of airplane accident Lieut. James A. Bayne, Grand Rapids, Mich. Among those severely wounded are Lieut. Harold K. Simon, Marshall, Mich.

Among those killed in action are Privates Harry E. Fonger, Grand Rapids, Mich.; Harley Mattox, Picketts, Wis.; Raymond Pichotta, Wabano, Wis.

RESOLUTIONS ADOPTED ARE TO SIMPLIFY

All Organizations Must Pass Scrutiny of Executive Committee Before Receiving Aid from Counties.

MET WITH APPROVAL

RESOLVED, That it is the sense of this meeting that the executive committee of the State War Board be requested to prepare and keep on file a list of the War Organizations depending on voluntary subscriptions for support whose activities are approved by the Federal government and also a list of such organizations for which the Federal Government officially requests contributions, and that copies of such lists be furnished the County War Boards on request of such Boards; and that said Executive Committee do further determine the proper quota of a just basis for the state and various counties, such information to be kept on file and to be furnished the county War Boards on request of such Boards.

It is further the sense of this meeting that Boards of Control of War Relief Associations (by whatever name the same may be called) in Counties having War Chests be requested to make no appropriations to funds and that County War Boards be requested to neither make nor authorize "drives" for funds for any organization not upon such approved list.

Provided, That it is not intended hereby to affect any plan or provision for purely local war work. Resolutions adopted by the Michigan War Board yesterday fixes on the executive committee of that body the responsibility of passing on the merit of all war organizations depending on voluntary subscriptions for support, who seek funds in Michigan. Under the terms of the resolution, also, the state War Board will fix (Continued On Page Six)

German State Terms Of Peace

London, June 13.—Here are the latest Pan-German peace terms as outlined with Krueg-Zeitung, one of the leading Junkerist organs: No. 1—British navy must be reduced to a marine police force. No. 2—Gibraltar, Singapore, Aden, and Malta must be ceded to an "international council." No. 3—Guarantees against an economic boycott against Germany. No. 4—Guarantees of supplies of raw materials to German under the most favored nation's terms. No. 5—All German colonies must be restored.

In return for this Germany would be prepared according to the Krueg-Zeitung, to retire from Belgium, provided she may pocket the Congo states.

The paper describes the plan as on the whole a "quite modest program"

Theatre Is Packed In Last Meet

Mammoth Crowd Hears Ex-Senator Colby and Other Speak Last Night.

The Delft theatre was packed last night to hear the closing session of the great war conference. It was the most enthusiastic gathering of the week. All of the talks were teeming with inspiration and patriotism and at times the applause was deafening.

Mr. Colby was the personal representative of Washington to the conference. He was one of the six men sent

Everett Colby

to Europe several months ago by Herbert Hoover to talk over food conditions with the French and British government. In a most entertaining way he told of his trip, of his visits to the battle fronts, of an air raid he witnessed on the city of London, and of the need of food in the war zone.

He predicted that the war would be won with the bayonet and with food from America.

"Remember," he charged, "that every time you put a piece of white bread in your mouth you are taking it out of the mouth of a starving Belgian baby or away from the lips of a man, who, tomorrow, may give up his life for you."

Premier Clemenceau has sent this message to the people of America, he said:

"Tell America we will wait for them, until they are ready. No matter how long it takes we'll hold the line. And they will never know how France has suffered while we are waiting."

OUR FLAG.

This year, more than any other, the United States will go honor to its flag Today. will be observed throughout the country as Flag Day.

The flag ever has meant much to us, but this year with our brave lads fighting the fight of liberty and justice with those other gallant champions of freedom on the fields of France, it is more than ever a privilege and duty to do it honor.

It is right that adults should salute it and that children should be taught to honor it as a symbol of that inner principle for which it stands.

It is the flag of democracy. It is symbolic of every great principle that today is being aligned against those forces of terrorism and cutthroat abhorrence fighting under the black piratical standard of autocracy. It is the flag of the system of rule where the power, as Abraham Lincoln said, is "of the people, by the people and for the people."

It is the people's flag, your flag, our flag. Do it honor today.

YANKEE AIR MEN AID IN GREAT FIGHT

Both Americans and British Capture Men and Machine Guns—Enemy Losses Very Severe.

GERMAN TRIAL BREAK

Washington, June 13.—The following communique from General Pershing was issued tonight:

"Yesterday afternoon our troops, north of Chateau Thierry captured the last of the German positions in the Belleau woods, taking 50 prisoners and a number of machine guns and trench mortars, in addition to those taken on the preceding day.

Early this morning the enemy launched heavy attacks on a front of more than 1 1/2 miles near Belleau-Bourches. The attack was preceded by intense artillery preparation and accompanied by a heavy barrage, but broke down completely leaving our positions intact. The losses of the enemy were very severe.

Last night our aviators bombed with good effect the stations of Dommary, Barencourt (northwest of Metz) All our machines have returned.

More Prisoners.

London, June 13.—Forty-eight prisoners were taken by the British in last night's successful operations at Norris (Flanders) says tonight's report from Field Marshal Haig. Six machine guns were captured. There was artillery activity in different sectors of the British front today.

London, June 13.—British flyers co-operating with the French on the front of the new German attack, brought down fifteen German machines, some in flames. One British machine is missing. On the British front, according to tonight's official report on aviation, seven German machines were brought down and two British planes were lost. Twenty-two tons of bombs were dropped on rail ways, as well as on such stations as Bataume, Courtail and Chaulnes, and the Bruges docks.

French Statement.

Paris, June 13.—German counter attacks on the French between Coucellies and the region north of Mery were thrown back with heavy losses, the war office announced tonight. In the afternoon the Germans temporarily succeeded in penetrating the French line north of Courcy. They were thrown back and the French positions were established.

Between the Aisne and Villers Cotterets the Germans were repulsed on the greater part of the attacked front. They succeeded, however, in establishing a foothold in Laversine. An attempt to debouch from Coevres was repulsed.

Paris, June 13.—An important allied advance on the Macedonian front was announced by the war office tonight. Progress was made to a depth of fifteen kilometers (more than nine miles) on a front of eighteen kilometers (11 1/4 miles) and eleven villages were captured.

Italian Front.

Rome, June 13.—Intermittent intense artillery activity on the mountain front between Brenta and the Piave river, was reported in today's war office statement. Aviation has been limited by bad weather.

Berlin, via London, June 13.—The numbers of prisoners taken by the Germans in the present drive has increased to 15,000 and 150 guns captured, the war office announced today in its report.

EAST COAST DANGER ZONE

London, June 13.—The Exchange Telegraph Amsterdam correspondent learns that the German admiralty proposes to declare the waters from the east coast of Mexico to Canada a danger zone. A warning to that effect will be issued to the neutrals if it is understood.

FLY THE FLAG

In all walks of life those young men of military are greatly missed. But they would be missed more if they were not doing their duty in the army.

The Germans are now publishing a newspaper in Petrograd. In some cities they're still doing it over here.

Having shown satisfactory specimens of it war work, America will proceed now to fill its contract.

Don't wait to be urged to join the W. S. S. army. What if our men in the trenches waited to be urged?

The Hun is already talking about the next war. He has made a sad mess of this one.

I pledge allegiance to my flag and to the republic for which it stands. One nation, indivisible with liberty and justice for all.

CONFERENCE IS HISTORY

The war conference which closed in this city yesterday will go down in the record of Michigan's war activities as one of the most important and successful meetings of its kind ever held in this or any other state.

The conference was founded on the serious object of co-ordinating war work in the state and through the sectional and general meetings representatives of the war board and of the counties of the peninsula will go back to their homes with a better understanding of their duties and the scope of their activities.

LIEUT. PETERSON AND WIFE ARE TO VISIT HERE

Lieut. and Mrs. Arthur Peterson will arrive in the city today from Norway, where Mrs. Peterson has been engaged as teacher in the schools of that city. They will visit at the home of Mrs. Peterson's parents Mr. and Mrs. W. A. Hews. Mrs. Peterson was formerly Miss Durell Hews of this city. Lieut. Peterson is now stationed at Camp Dodge, Iowa, and will visit here in a few days.

James E. Murphy who has been ill at St. Francis hospital has sufficiently recovered to return to his home.

Council Proceedings

Escanaba, Mich., June 4th, 1918. A regular meeting of the Council of the city of Escanaba, was held in the Council chambers on the above named date.

Present: Mayor C. M. Cuthbert, Ald. Tolan, Ramsey, Hoffman, Beauchamp, Sheahan, Pepin, Follo Jerastrom, Wood Pettier and North-11. Absent: Ald. Bisell Hodson and Pryal-3.

Ald. Wood, seconded by Ald. Pepin moved that the minutes of the previous meeting be approved without reading. Ayes unanimous.

Ald. Sheahan, seconded by Ald. Hoffman, moved that the petition signed by John H. Nicholson and Victor Kronlund, asking for sewer extension to their properties at 1102 and 1104 Hartnett Ave., be referred to the Sewer Committee, and to report at the next meeting.

Ayes unanimous. The following reports were read: The monthly report of Chief of Police John J. Tolan, showing that during the month of May, 1918, \$885.17 has been expended for salaries in the police department.

The monthly report of Arvid Johnson, chief of the fire department, showing that \$1049.15 had been expended for salaries in the fire department for the month of May.

The monthly report of John Garrity street commissioner, showing that \$988.74 had been expended for salaries in the street department for the month of May.

Ald. Tolan, seconded by Ald. Jorstrom moved that the reports be accepted and placed on file, and that the action of the mayor and clerk in issuing city orders in payment of the salaries of the fire, police and street departments be ratified and confirmed.

Ayes unanimous. (To be Continued)

FOOD RULES ARE TO GROW TO SEVERITY

(Continued from Page One) through the retail dealer and the wholesaler.

Rules More Strict. And the rules that we now have in effect are not nearly as strict as they are going to be. You cannot take armies of men from food production pursuits and place them in other lines without affecting the food situation of a nation and as long as this war lasts food is going to be scarce and our national food rules are going to become stricter with each month.

Wheat Crop Can't Help.

"America may have a monster wheat crop this season as is predicted but no crop that we can raise, or with Canada's aid can make up the shortage in the normal world supply. Our allies have been dropped out of consideration as food producers. In France every able bodied man who can carry a gun is carrying a gun. The women of France have undertaken the work formerly done by men, even to the extent of being hitched ahead of cultivators in the place of horses and other draft animals that have been swallowed up in the maw of the army. In England 300,000 loyal women are wearing overalls that never wore them before and are doing the work formerly assigned to men. England is today tilling two million acres of land that never were tilled before, but even that is but a drop in England's needs. Like the splendid women of England and France our own splendid womanhood is working here with the Red Cross and other war relief enterprises and when America needs the same sacrifice that has been demanded of the women of France and England, the women of America will stand ready to make those sacrifices.

Money Not Enough.

We have money—more money than any nation in the world. Money we gladly give, but our sacrifices in money are as nothing as compared to the sacrifices being demanded of our boys who are even there in the mouth of Hell. They are giving up their lives or facing the life of a cripple.

"How citizens of America can sit in their homes and gorge themselves with the things necessary for the maintenance of our boys over there, is more than I can understand. Such are not worth fighting for. What we need at home here is the spirit of our splendid Marines, who a few days ago made glorious history for that branch of our service. When the battle was at its height and it was believed that the Marine must fall back, their commander sent back the word "We won't give an inch, but will hold all day." They did more than that. They score an advance that has been heralded as one of the brilliant lights in the war. We need in our people at home the spirit that will make our people glad of the privilege to stand back of their government, supporting the slightest suggestion that may be made, ready to hurl into the Kaiser's face the word "We won't give an inch." When that day comes we won't need a food administration.

More Starved Than Killed.

"Statistics compiled on the war show that since August, 1914, a total of four million soldiers of all the armies engaged have been killed. Statistics compiled by the same source for the same period show that due to the war 4,750,000 people in the war ridden lands have died of starvation. And the greater portion of those who died of starvation were women and little children.

"Human beings, little boys and little girls as innocent as your little boy or little girl are starving over there and here we are forced to penalize people for refusing to save just our surplus to save those innocent lives.

"The people of Norway, of Sweden and many other neutral countries would be starving today were it not for America. America was not created merely to make money. But for 50 years our national aim was to chase the almighty dollar. Our government asked no sacrifices of our and placed no restrictions upon our money madness.

War Shows Way.

"Suddenly the war came upon us and a kind providence showed us to that divine purposes for which this nation was created was for the subjugation of a world monster. Providence gave to America the privilege of saving the world for Liberty and for Democracy.

"In the enforcement of the food administration rules I am satisfied that in the upper peninsula those rules are being more nearly lived up to than in any district with which I am acquainted in either the lower peninsula or Wisconsin.

"The sugar situation is still questionable. We had thought that our supply of sugar had been taken care of by the 30 boats sunk recently off Hatteras, four of them carried cargoes of sugar and that loss must be felt here. At the present time non-essential industries are allowed to use 80 per cent of their normal sugar supply but July 1, I believe, that percentage is going to be cut down. It is possible that no sugar will be allowed for use for non-essentials. All Must Preserve. Every household should be urged

to can vegetables and fruits and by taking the pledge placed with every dealer all can secure as much as 25 pounds of sugar at one time to be used exclusively for preserving purposes. It is up to the dealer to see that sugar hoarding does not result from this rule and it must be made plain that in all probability government inspectors will go around to the homes of those who have secured sugar on canning pledges and ask to be shown the canned stock that has resulted from the use of the sugar.

Groesbeck Speaks.

Attorney General Groesbeck, addressed the food administrator's conference briefly. He said in part: "I have always had a high regard and great esteem for the men and women of the upper peninsula. I admire you for the great enthusiasm you have thrown into your war work and the loyal manner in which you are supporting our government in the prosecution of this war.

"The spirit that you are showing here is a fair example of the spirit that is spreading throughout the length and breadth of this land. We have come to the realization that we must get busy and keep busy. The signs of the time are most encouraging but we at home must back up the land naval forces of Uncle Sam in a manner that will leave nothing to be washed.

Kennedy Is Fiery.

J. S. Kennedy, field agent for the food administration in the peninsula, always fiery and a fighter, brought a word of encouragement to the dealers and food administrators. "You don't need to worry about the west front. You don't need to worry about the territory the Germans will take there. Our boys are there and they are going ahead, not back," said Mr. Kennedy. "Our boys are there and when they give them a chance they are going into Berlin, like a cannon ball." To Gov. Sleeper Mr. Kennedy pledged the unflinching adherence to the food rules of the entire upper peninsula and was vigorously applauded by his hearers.

IN EXILE WITH HER FATHER

Daughter of Millionaire of Kieff, Accompanies Parent to Save Him From Dreaded Loneliness.

Children in the exile districts seem grotesquely misplaced, yet there were many. Sometimes the gendarmes' magic would lift a father from his too liberal bedside in Russia and set him down without the humiliation of a trial in the glorious Narjyn solitude, writes Fortier Jones in the Century. "Not infrequently his family followed him in order to share the new life, for, as elsewhere, fathers are loved in Russia. Particularly among educated men the continual, unrelieved loneliness tended to bring on insanity.

"I know one fine business man, a millionaire of Kieff, and a direct descendant of Rouget de Lisle, whose little daughter came into exile with him to save him from this dreaded loneliness. She was fourteen years old, and they lived in a dreary village by the great old river, in a log cabin with pink chintz curtains and a piano. She was a winning little thing, with happy, brown eyes and long curls, and to all appearances was no whit the worse for her exile existence. The fascinating life of the forest was familiar to her, the birds and flowers, and her father cared for her French and history. What a bright spot she was in that wretched place, and what a curious life for a little girl whose illustrious forefather had composed the 'Marsellaise'! Her mother, who joined them later when her health would permit, and they had gained permission to live in a town on the railway, was a sister of Mme. Curie."

Old Stuff Dont Seem To Get By "English Sailors" Who Are Peddling "Russian Furs" Have Hard Time Interesting Escanabans. Sometimes it is "lace smuggled through from Ireland." Occasionally it is "rugs salvaged from a shipwrecked Persian cargo." Once in awhile it is "Oriental Jewelry that were slipped past the customs officials on the Mexican border." But here's a new one. "Fishy sailors with large ship bags of Russian pelts and skins, purchased or traded for in Siberia and made up into muffs and neck pieces in this country," offered their wares to the people of Escanaba yesterday. Their story was almost convincing. Despite the fact that their English accent was punk and their "sea bags" appeared to be the brand new products of a very much American tent or awning factory, they recited their lines very cleverly. However, close observation of the size of their "Russian cargo" failed to reveal any evidences of a drain on their stock unless they had been replenished frequently from a stock somewhere near the end of the boat. And they didn't seem to live the brotherly lives of seafaring men. Two of them met in front of the Morning Press about noon yesterday. The smaller eyed his huskier partner with scorn, disgust, anger. "Say, you big stiff," he snapped "wot th' b— you doin' on my side of the street?" Not much English about that, was there?

No Pocohontas Coal This Year

Users of the well known Pocohontas brand of coal will be forced to use some other kind this year according to advices received yesterday by County Fuel Administrator Clark. No coal from the district on the C. & O. railroad where "Poco" is mined, will be shipped west. Because of its smokeless qualities it is needed for ships that sail in the submarine zone and the ships are to have first call, which means the entire output.

Races Should Draw Big Crowd

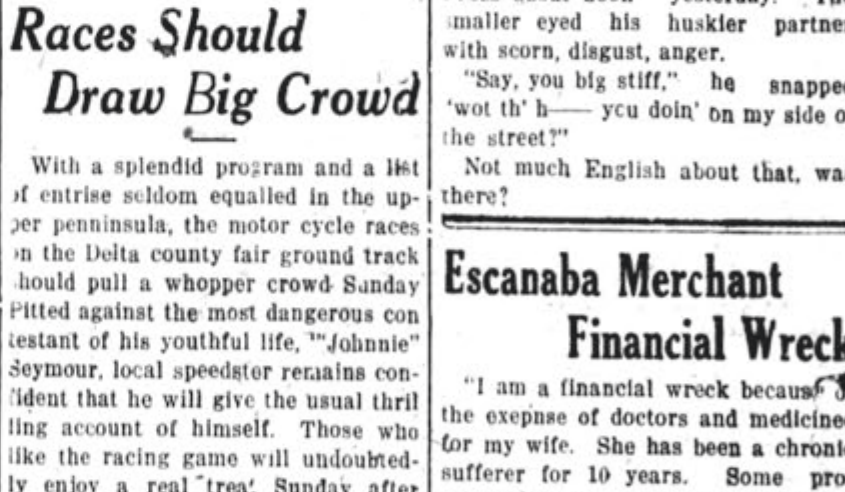

With a splendid program and a list of entries seldom equalled in the upper peninsula, the motor cycle races on the Delta county fair ground track should pull a whopper crowd Sunday pitted against the most dangerous contestant of his youthful life, "Johnnie" Seymour, local speedster remains confident that he will give the usual thrilling account of himself. Those who like the racing game will undoubtedly enjoy a real 'treat' Sunday afternoon.

Cousin Of Wells Man Is Injured

Walter Hass of Kaukauna, Wis., severely wounded in action in France on Wednesday, is a cousin of Albert Hass of Wells whose son was killed in action a few weeks ago.

Escanaba Merchant Financial Wreck

"I am a financial wreck because of the expense of doctors and medicine for my wife. She has been a chronic sufferer for 10 years. Some pronounced it gall stones, some gastritis and some intestinal inflammation. I happened to read an ad of Mayr's Wonderful Remedy and from the first dose my wife has steadily improved." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

BOY GARDENERS HELPING TO BEAT THE KAISER

SCHOOLS CONDUCT STAMP DRIVE

SUPT. OF PUBLIC INSTRUCTION KEELER NAMES DETROIT MAN TO HEAD MICHIGAN ORGANIZATION.

Strenuous Efforts Needed to Get Michigan Out of Stamp Slump. State Close to the Bottom in Sales.

Lansing, June 1.—Hon. Fred L. Keeler, superintendent of public instruction, has been commissioned by the War Savings Board of the United States treasury to institute a war saving stamp campaign among the school children of Michigan.

The state has been a leader in all work, official and charitable, with the exception of buying the little war stamp," said Mr. Keeler.

DETROIT MAN HEADS DRIVE. Mr. Keeler named Edward L. Miller of Detroit, president of the Michigan State Federation of Teachers' clubs to organize the drive and he has been meeting with splendid success.

"Uncle Sam must have raised on January 1, 1918, at least two billions of dollars by the sale of War Savings Certificates.

"We are requested, first, to continue and intensify the sale of War stamps to children, and, second, to carry it through them into every nook and cranny of the state.

"This task, however, in comparison with the Liberty Loan work is simple. It does not involve at all the handling of money.

A FEW OF THE REPORTS. Per capita sales of \$6.50 are reported by Litchfield public schools in a letter that is a bit apologetic.

There's No Profitteering in My Shop. Prices of supplies are no higher than a year ago. The same good service at the same old prices. Why Pay More. Hughson's Barbershop. Near Northwestern Station.

Honor The Dead In Face Of Hun Fire

With the American Army in France—From Flanders to Switzerland and from the battle line to the sea, the American expeditionary forces Thursday paid homage to their dead.

In Darkness of Morning. In one place in the vicinity of Luneville, the graves had been decorated in the morning darkness when the enemy could not see clearly.

Another early ceremony took place one of the largest of the base hospitals where the nurses and some of the seriously wounded men visited the graves and covered every mound with a flag and crowned each with wreaths.

Up close to the American lines northwest of Toul, khaki-clad troopers, with the dirt of the trenches still clinging to them, lined up before the hallowed spots where the fallen sleep.

On the hillside between Nancy and Luneville where the first Americans killed in the war are buried in a little enclosed plot in the Franco-American cemetery, the ceremony was also held at an early hour.

of the American flying forces swooped down and scattered flowers over the spot where Maj. Lufberry and other American heroes of the air lie buried.

"Unto the Least of These"

Contributed by Arthur William Brown.

of the American flying forces swooped down and scattered flowers over the spot where Maj. Lufberry and other American heroes of the air lie buried.

Masons Win Case For Boat Delay

Corunna, Mich.—William S. Sayers appointed by Federal Judge Tuttle, of Detroit, to compute the damages in the proceedings of Fred Kay, of Corunna, against the steamship South American, chartered by the Grand commandery Knights Templar in 1915 to take the Templars to the annual conclave at Calumet, has fixed damages at \$7,866.

WIN THE WAR WITH POTATOES

The enemy is out-eating us in potatoes—out-potatoing us. Here are the figures—per capita weekly consumption—United States, 2.3 quarts, Austria-Hungary, 8 quarts, Germany, 18 quarts.

We can beat them at their own food—which really isn't theirs; it's a native American crop. We must eat more potatoes, and that right soon, or much of our record crop of last year will be wasted.

have purchased \$1,200 worth of Liberty Bonds. Counting both in our per capita is about \$12. Sales will steadily rise.

This letter contrasts with several which seem rather proud of sales which are \$2.50 per capita.

Reports briefly stated from among the first reports received at the state office follow, showing patriotic activities:

Charlevoix high school, 100 per cent, grades fast approaching; Calumet, total sales \$19,827.54, per capita \$2.07; Boyne City, teachers are telling pupils about stamps; Republic township, Marquette county, sales average \$2; public schools of Ironwood, total sales \$5,789.58, one club having 100 per cent sales; Iron Mountain public schools, "have been putting great stress on Junior Red Cross work and have paid money enough for us to be entitled to 100 per cent membership"; Western State Normal, War and Thrift Stamps, \$839.55; Liberty Bonds, \$15,600; French Orphans' Fund, \$139.36; Y. M. C. A. fund \$200; flag pole, \$202.41; Montgomery high school, "We are almost 100 per cent. The contagion is spreading through the grades and many younger children are buying Thrift Stamps."

NOTICE

Let Your Dollars Be Patriots!

THIS war is a test of a democratic Government. It is also a trial of democracy as to its fitness to survive. A small group of autocrats within whose hands are the resources of Central Europe are attacking the principle of the right of people to govern themselves.

One of the first great steps called for by the Government is—SAVING. The American people must cease to require all of the pleasant and comfortable luxuries which they consumed before the war.

Idle dollars are SLACKER dollars, but dollars spent for unnecessary articles, the production of which require labor and materials which the government needs to save the lives of our fighting men, are TRAITOR dollars.

"EAT MORE POTATOES" URGES MR. PRESCOTT

FOOD ADMINISTRATOR APPEALS TO MICHIGAN PEOPLE TO HELP USE UP SURPLUS TUBERS.

BE LOYAL TO OUR FARMERS

"This is the Best Way You Can Show Your Patriotism at This Time," Prescott Tells Us.

Lansing—"Eat more potatoes and be sure they're Michigan grown." With that slogan, the United States Food Administration for Michigan has inaugurated a campaign to encourage the free marketing and consumption of the surplus potato stocks in the State. Food Administrator Prescott has enlisted the co-operation of all agencies of the potato trade, state and local authorities, various organizations, and the press. Similar campaigns are being held in every other section of this country and during the next few weeks the great potato crop of Michigan and America will be moved from producing centers to points of consumption as rapidly as the public will consume the delectable "spuds."

"To eat potatoes is the best kind of local, home grown patriotism," says Mr. Prescott. "The reason for a potato campaign in Michigan is that the food bins are heaped with potatoes as the answer of the farmer to last year's appeal for the bumper war crops. The potato, grown through patriotism, should be eaten through patriotism. With so many other things scarce, potatoes, which are plentiful, should not go to waste. And they will go to waste if they are not eaten in the next few weeks."

"Potatoes are a strictly made-in-America product. They grow on this continent when the Mohawks and the Cherokees ruled it with a tomahawk. They are the gift of America to Europe and Europe has gone us one better. England, France, Germany, Belgium have made the potato a naturalized citizen, while Ireland, God bless her, has almost made it a Patron Saint along with St. Patrick himself."

"In spite of its adoption in other countries, however, the potato proved it was a true American last year when the crops were called to the front for war service. It enlisted in the front ranks of the food forces, with the result that we have such a potato crop as was never known in this country. Europe does not need to share our potatoes. They are too bulky to ship at this time when ships must be saved for troops and for the more essential and concentrated foods. Therefore, the best form of patriotism is to eat our bumper crop and make it help save wheat."

"The situation, in brief, is this," continued Mr. Prescott. "We have not enough wheat for the Allies and ourselves. We have an abundance of potatoes and excess of 90,000,000 bushels over normal times. If we are to win this war the Allies must have wheat. The potato cannot quite come up to wheat in food value but it does come about as close to taking the place of wheat as any other food. Therefore by eating potatoes we can save wheat for the Allies."

"Michigan people should rally to the support of the potato, for it is a native of our State. When it is realized that the potato is one of the chief foods now sustaining Germany and that the other European countries are largely dependent upon it, its importance in the war may readily be seen."

"Americans first realized how important a part in their daily food the potato played when last year a scarcity of this vegetable drove its prices to prohibitive heights. The result of those sky high prices still has its effect this season. When the Spring came, everyone planted potatoes. The farmer was particularly urged to lay out his land in potatoes as a patriotic duty. Accordingly although the average yield per acre was not large, there was an abundance of potatoes produced which have not been sold."

"The farmer had to pay high prices for his seed. It was difficult to obtain labor for tending and digging the crop and what labor he did procure cost him two or three times as much as ordinarily. A large item of expense was the fertilizer which has advanced in price because the acids it contains are being used for munition making."

"As a result, many a potato farmer is not making as much as he did several years ago when potatoes retailed at 50c per bushel and less. They should certainly be encouraged to plant potatoes this year by consumption of the crop they have produced instead of having them rot in their barns, or left to be fed to the hogs."

"Although the potato is a native vegetable, the American per capita consumption is very low, averaging only about one-half that of Europe. This is probably largely due to the fact that bread has always been high priced abroad and low here. The present price of bread in this country will probably make the people turn more to potatoes."

"At a time when the world is so in need of food it would be criminal to waste anything so important as the potato. It becomes the plain duty of the people of Michigan and every other State to eat up their potatoes grown in response to a military necessity," concluded the Michigan food chief.

Michigan's War Activities

By Hon. Albert E. Sleeper, Governor of Michigan. (In the American Review of Reviews for April 1918.)

(One of the effective and patriotic Executives who direct the emergency work of our States in the war period is Governor Sleeper, of Michigan. What he tells our readers herewith of the efforts of that great commonwealth is most encouraging. Michigan's automobile industry and her many other manufacturing plants, as well as her agriculture, are going to make a great record for the year 1918.—The Editor.)

Hon. Albert E. Sleeper, (Governor of Michigan.)

Michigan factories are turning out huge supplies for the Government. Motor trucks are being built by the thousand, and Henry Ford is planning to construct U-boat chasers on a colossal scale. In fact the whole of the immense manufacturing power of the State is at the disposal of the President and his advisors.

Last April the Michigan State Legislature appropriated the sum of \$5,000,000 for war purposes. The State War Board, consisting of the elected State officers with the Governor as chairman, is charged with the administration of this fund; and while we have been careful in the use of our money, while we have tried to avoid useless or wasteful expenditure, we have used money, and used it freely, wherever we have felt we could help the cause of the nation by so doing.

We have contracted for the purchase of a thousand farm tractors and an equal number of tractor plows, and if more are needed they will be forthcoming. These tractors will be re-sold to individual farmers, under a guarantee from each purchaser that he will keep his machine constantly at work. Not only will he do his own plowing but he will take care of his neighbor. This arrangement will help to minimize the inevitable shortage of farm labor from which the State will suffer this coming season. The State, too, is making further arrangements to solve the farm labor problem.

We have also purchased a supply of seed corn and spring wheat which will be distributed through the various sections where the need is greatest. We have, too, a large surplus of potatoes from last year's crop which have not been marketed, and, realizing that the growers would suffer heavy loss unless something could be done to bring relief, we have undertaken an experiment in dehydration, which, if successful—and we have little doubt about that—will take care of part of the big crop now on hand and next season will enable us to handle the whole crop.

Some months ago the War Board authorized the State Board of Health to deal with the subject of venereal disease not only in relation to the soldier but among the civilian population as well. This was done under the direction of Dr. R. M. Olin, Secretary of the Board of Health; and the Michigan plan has so commended itself to the War Department that they have recommended it for adoption in all the States of the Union.

The War Board, through the State Highway Department, has expended approximately \$300,000, in the construction and maintenance of military highways.

Last summer the "I. W. W.'s" started in to make trouble in the Iron Country, but the despatch of a detachment of our mounted State Constabulary to the scene nipped the trouble in the bud, and we are assured by those in closest touch with the situation that our prompt action in this matter avoided serious disturbance in the mining region of the State. As it is, everything has been quiet there and our men are still on guard. The Constabulary was organized since our entry into the war, and the general feeling seems to be that the service rendered in this part of the State alone has furnished ample justification for their establishment as a branch of the State Military organization. They have also done effective work in other parts of the State, guarding munitions plants, elevators, docks and the like.

We have been endeavoring also to take care of the boys who have gone to the training camps. We arranged to loan a maximum sum of \$400 to each young officer in need of financial assistance for the purchase of his equipment. We take their personal notes, and all these loans will be paid back, unless, and we do not like to think of that, the boys do not come back to us. We have been taking care of the dependents of our soldiers too, the wives and the babies and the mothers of both enlisted and drafted men. We have been paying from \$10 to \$50 a month to hundreds of families where the bread-winner has gone to war or into training. The national government has been necessarily slow in getting money to the many thousands of women and children dependent on the men who have been called into the service. In the meantime, we have done what we could to tide over the period of financial stringency. We are determined to do our best for the comfort of the boys themselves and of the dear ones they have left behind. I might say in passing that we also purchased 16,000 pairs of rubbers for the boys in Camp Custer.

In each of our eighty-three counties we have established a County War Board. The County Boards in turn have recommended a Township or Ward Board in each township and ward in the State. These boards have been chosen with great care. We have done our best to secure the men who do things, and we believe we have an effective organization covering every corner of the State. It will be the business of these men to take the lead in all patriotic endeavors in their several communities.

In this connection mention should be made of the splendid work which has been done by the women of Michigan. They have risen nobly to the occasion and their efforts have been most effective. They are now preparing for a State-wide registration of women for war service.

I am glad to be able to say that our State is united in its determination to do its full share toward winning the war. We realize the serious nature of the situation. We know that there is not only hard work ahead of us but suffering and sacrifice; but we have put our hand to the plow and we shall not look back.

(Permission to use Governor Sleeper's article granted the U. S. Food Administration, Michigan Division, by the Review of Reviews Co., Albert Shaw, President.)

IF YOU ARE A PATRIOT YOU ARE OBSERVING THIS SCHEDULE OF FLOUR RATIIONS IN YOUR OWN HOME.

Flour rations for families doing their own baking; and those purchasing Victory bread from bakers, based on a maximum allowance of one and one-half pounds of flour per person per week:

Flour Rations Per Person Per Week.	Number in Family.				
	2	3	4	5	6
For families doing their own baking and using flour for all miscellaneous purposes, including crackers, macaroni, etc.	2 lbs.	4 1/2 lbs.	6 lbs.	7 1/2 lbs.	9 lbs.
Families not doing their own baking but buying Victory bread from bakers:					
BREAD	3 1/2 lbs.	5 1/2 lbs.	7 lbs.	8 1/2 lbs.	10 1/2 lbs.
Flour ration for all other purposes, including crackers, macaroni, etc.					
FLOUR	1 lb.	1 1/2 lbs.	2 lbs.	2 1/2 lbs.	3 lbs.

In explanation of the seeming disparity between flour rations permitted families doing their own baking and those purchasing Victory bread, it is pointed out, that households depending on bakeries and buying Victory bread under the one and one-half pound flour ration are permitted to use one and three-quarters pounds of Victory bread per person per week, plus one-half pound flour for miscellaneous uses, such as macaroni, crackers, etc. This is the equivalent of one and one-half pounds of flour per person per week where the family does its own baking, for the reason that bakers' bread takes on 20 per cent of moisture content, and also contains 20 per cent of substitute under the present baking rules. Therefore, one and three-quarters pounds of Victory bread contains one pound of wheat flour. This leaves one-half pound of wheat flour for all other uses, such as crackers, macaroni, etc.

American Officers Are Highly Praised

London—An officer of the Ninth Essex regiment in a letter written home, pays tribute to an American officer serving with the regiment. "Lieut. C. T. McCarthy, medical officer of our regiment," says the letter, "is one of the first Americans serving in France to obtain the British military cross. He was attracted to our regiment last December. Our 'Yank Doc,' as we call him, is one of the best of men. He is loved by all the officers and men."

"He is strict, but never has anybody been wounded or sick without the doctor going to him, no matter what the shelling or other conditions. He obtained the military cross for magnificent work in the recent Albert fighting. He went to the front with our regiment in motor buses to meet the Boche, and during the worst period our regiment has known he was always in front with his medical aid. At one time he had his aid post in a quarry right in our front line and always where the fighting was worst he was with the wounded. In slack times he made tea and carried it to those who could not make it themselves. Never does he miss an opportunity of performing a kind act. Here's to our 'Yank doc!'"

Soldier Parcels Harder To Mail

The ruling regarding the sending of parcel post packages has been slightly changed, according to a statement made by Postmaster John O'Meara.

The ruling heretofore has been that no parcel post package could be sent to a soldier in France unless there was inclosed therein a letter from the soldier requesting such parcel, signed and approved by a regimental officer. This ruling now includes a major a lieutenant colonel or a colonel. Either of these officers may sign and approve a request from the soldier for such article.

A letter censored by a captain of a company does not permit the sending of any article.

Chronic Constipation.

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take a lot of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

NOTICE!

We will buy potatoes this week and next week. For any good sound stock we will pay the highest cash prices. Hewitt Grain and Produce Co.

GIRLS AS SHEEP HERDERS SINCE MEN GO TO WAR

Cheyenne, Wyo.—Herding sheep—the loneliest job in the world—is the latest industry to attract women. Wyoming ranchers have given so many men to the war that sheepherders are very scarce. Hence Misses Lulu Munson, Belle Pattison and Grace Keenan, Campbell county lassies, have become shepheresses at a wage of \$50 a month and "found." They have been employed by B. J. Reno, and each girl acts as guardian to 2,500 "woolies." These girls are said to be the first feminine sheepherders in the United States.

Drive Auto In Open Draw; 2 Die

Manitowoc, Wis.—Miss Gretta Feizer, a school teacher, daughter of Henry Feizer, a banker of Sturgeon Bay, and Raymond Nagiedinski of Manitowoc, drowned last night when an automobile driven by William Vollin of Two Rivers and also occupied by Miss Ruth Scott, 22 years of age of New York, went through an open draw on the Tenth street bridge.

Miss Scott saved herself by swimming and Vollin caught a life buoy thrown to him from a car ferry. The members of the party had attended a musical concert and were driving home in a terrific rainstorm.

The Doctor Away From Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.

NOTICE.

Sealed bids will be received by the Highway Commissioner of the Township of Escanaba, Delta County up to 2 o'clock, June 13th 1918, in Township hall, for resurfacing one mile of 9 ft. macadam road, quarter stake of section 26, Township 40 North, Range 23 West, thence running north one mile, along centre line of section 26 in Escanaba Township, Delta County, Mich. The Highway Commissioner reserves the right to reject any and all bids.

OMER CHARBONEAU, Highway Commissioner.

STAMPS GET APPROVAL IN BIG MEETING

(Continued from Page One)
abroad investor who this month pays \$934 for \$1,000 worth of these green stickers. I need not dwell on the security back of this investment—the entire United States guarantees its payment; but I would like to remind you of the fact that the money bears interest at 4 per cent compounded quarterly, and that the investor can get his money back at any time without the trouble or formality of making a re-sale or the embarrassment of "dickering" with dealers in war-time securities.

Seventy Million. Two billion dollars must come to the United States treasury in 1918 through the sale of war savings stamps. Seventy million must come from the people of Michigan. This means that every man, woman and child must buy at least \$20 worth of stamps before the end of the year.

Must Save. I am thoroughly convinced—and I want you to get this fact firmly in your mind—I am thoroughly convinced that the only successful method of making these war savings sales is the pledge system. The people of Michigan will pledge themselves to save \$70,000,000 during 1918, and during 1918, and Uncle Sam will be satisfied.

Pledge System. The pledge system is in successful operation in every other patriotic move and is now being grappled with like success in the war savings program of other states. The monthly payment Liberty Bond sale is merely a pledge. The citizen who has not the ready cash to buy a bond makes a pledge to a bank, a corporation or an individual that he will pay a certain amount at regular intervals until his bond is paid for.

Nation of Spenders. We have been a nation of spenders; but the war and its many calls upon our finances is going to teach its habits of economy, conservation and thrift; and the thing that will establish the habit with the people is the war savings pledge—the promise made to the United States government, to lay aside a certain sum at regular intervals, saving this money for future use, and lending it for the time, to finance the war. These are some of the truth that we must carry to the people in our war savings campaign.

Figures Mean Little. It is not easy to talk to the people in figures. Two billion, seventy million and other numerical terms carry but a vague meaning. The newspapers are continually naming vast amounts of money that are used or collected or loaned in the prosecution of the war, until some of us have lost our sense of proportion when it comes to sums of money expressed in nine or ten figures. But there are still the big human facts growing out of this war. Everybody is touched by these, and as the war progresses a deeper and more terrible understanding is bound to be borne upon us.

A T THE DELFT. "Pershing's Crusaders" the big official war film of the government which was brought here from Lansing for the special exhibition in connection with the War Conference, was shown yesterday morning to the conference delegates. It was pronounced by all of them as the greatest war picture they had yet seen.

The film shows the life of the American soldier in the trenches, giving minute details of trench matters and the general conduct of the American army overseas, and show Secretary of War Baker in his inspection of General Pershing's army.

Lead Not Give. "Citizens, lend me your money, and we'll overwhelm the enemy. Only LEND me your money; I'll make you rich with accumulated interest when I return it. Lend me your money so that I

can safeguard the men who are offering their lives. Lend! Lend! Lend! But lend generously." That is what our government has said, when it might have said: "I demand your money, and I take it, just as I am taking your men. I will return it or not, according to the fortunes of war."

Must Stop Hun. At all costs the Hun must be stopped, and America will stop him, just as soon as America gets over her self-satisfied pride, which has developed since the American revolution—as soon as America awakes to a realization of the fact that we are fighting the strongest and best organized military nation on earth.

Amounts Adjusted. Returning once more to figures, am pleased to tell you that a more equitable adjustment of the amount of war savings stamps to be sold by each county has been made; and that the quotas for counties in the upper peninsula have been materially reduced. We have taken the banking sources and the population of each county; so that Michigan can sell her seventy millions. Under the previous division of the task we found in some instances that a county has been asked to raise more money than her entire banking resources. Bear in mind, also, that the quota is always based on the maturity value of the securities; so that the actual cash to be raised by each county is considerably less than the quota that is set.

Eliminate Waste. War Savings stamps are the best safest and most liquid investment ever offered to the American people. A National War Savings Day has been set, but before that time, I feel sure that Michigan will again prove herself loyal patriotic and united in the determination to bring this war to a speedy and successful issue. Every wasteful act at home is an injury to our war machine; but thrift serves many purposes which help the government. The thrift stamp is the stepping stone to the war savings stamp. Concentrate your efforts on the large sale, and urge the regular, systematic purchase of war savings stamps. This means the elimination of unnecessary expenditures in every home, the saving of small sums of money and the lending of that money to the government.

\$70,000,000 Goal. Seventy million dollars is our goal; and War Savings Day, Friday, June 28 and see the task accomplished. There are sixteen days to secure the pledges, and the remainder of the year to make the collection. Our boys are in the trenches, and this is President Wilson's call: "I earnestly appeal to every man, woman, and child to pledge themselves on or before the 28th of June to save constantly and to buy as regularly as possible the securities of the government and to do this as far as possible through membership in war savings societies. The 28th of June ends this special period of enlistment in the greater volunteer army of production and saving here at home."

"May they be none unlisted on that day."

FOR RENT OR SALE—Building at 1623 Ludington St., corner Ludington and Maple streets. Inquire Jas. Hess. 438-128-4f

FOR RENT—Building located at 1307 Ludington St., size 25x90; steam heat and electric elevator. Inquire at 1407 Wells Ave. 542-153-1f

Robert McMartin, who has been seriously ill at his home for the past several weeks is now on the road to recovery.

-THEATRES-

AT THE STRAND

Irene Castle's appearance here in the "Hillcrest Mystery" the picture in which she was working when her husband fell to his death in an American airplane school—will, for that reason be of great interest to her admirers here.

In the "Hillcrest Mystery" Mrs. Castle is at her best. Her grace and charm never were brought out to better advantage even in the dancing acts in vaudeville which made her and her husband famous. The plot is down to the minute, dealing with German plotting to check the speed with which Uncle Sam is turning out ships to defeat the U-boats.

Mrs. Castle is supported by an all-star cast of players and the production is elaborately staged.

A T THE DELFT.

"Pershing's Crusaders" the big official war film of the government which was brought here from Lansing for the special exhibition in connection with the War Conference, was shown yesterday morning to the conference delegates. It was pronounced by all of them as the greatest war picture they had yet seen.

The film will be shown today and to night at the Delft theatre to the general public. Governor Sleeper requesting that this opportunity be given the people of Escanaba. The proceeds of the exhibition go to the fund for the dependents of Michigan's soldiers and sailors.

In Society

Senior Picnic.

Members of the Junior class at the High school were guests of the Seniors at the picnic on the Escanaba river yesterday. The party left at 11 o'clock, returning late in the afternoon and reported a most enjoyable time. Members of the faculty were chaperones.

Roberts-Sullivan.

A very pretty wedding was solemnized Tuesday morning at 8 o'clock when Miss Alberta Roberts and Harry Sullivan were united in marriage at St. Patrick's church, Rev. Fr. Barth officiating.

and Peter Jungles.

Miss Laura Roberts is a sister of the bride and was gowned in blue taffeta and carried tulips and sweet peas.

A wedding breakfast was served at the bride's home. The table was decorated with red, white and blue and flags.

Hal C. Rammel.

Hal C. Rammel, city editor of the Morning Press yesterday received a message announcing the birth of a daughter at his former home at Long Prairie, Minn. Mrs. Rammel and babe will later come to Escanaba to make their home.

Mr. and Mrs. George Jackson returned yesterday to Conzance after attending the war conference sessions here.

Resolutions Are Adopted

(Continued from Page One) the quota for each county in Michigan, for the support of each war relief organization.

Herbert Roberts Is Made A Sergeant

Mr. and Mrs. Herbert Roberts of 519 Wells avenue, just received a letter from their son, Theodore Roberts of Co. F, 631st Inf., stationed at the Presidio, San Francisco, who left with the first contingent last April, stating that he has been promoted to first sergeant and enjoys army life very much.

SHORT TALKS FILLED WITH INFORMATION

Leaders in War Activities Discuss Work at Delft Theatre Yesterday Afternoon—Large Crowd.

MANY GREAT SPEAKERS

Yesterday afternoon, instead of the divisional conferences distributed about the city during the previous sessions, there was a series of short addresses on all phases of war activities at the Delft theatre. Lieutenant-Governor L. D. Dickinson presided. Attorney General O. B. Fuller, was the first speaker. He discussed the work of the state preparedness board from its beginning; told much concerning its methods; outlined the reasons for many expenditures and gave an oral report of the expenditures. The figures, which are of interest to Upper Peninsula taxpayers, may be found in a separate article, elsewhere in this issue of the Morning Press.

—DAVID ELLSWORTH, Lansing, Mich.

the toughest proposition she has ever tackled; a proposition so grave that we must put aside all sugar coated phrases and round about methods and fight like hell to handle it.

War is business. We must look at it from a business standpoint. We were forced into it and we all know why. He who does not know the reason has no excuse. It is a war for democracy and freedom. In order to save our country and our homes Germany must be licked and this is not to be done easily.

Praises Our Allies. Consider the figures. Outnumbered in population ten to one; in national wealth four to one; in military strength three to one and in actual fighting strength two to one, she still holds 500,000 square miles of the territory of the countries she is pitted against.

Is it because the Germans are superior people or supermen? No. Braver men or better soldiers never lived than the French, the British and the Belgians, the Italians and last but by the eternal gods not the least—the Americans. She has accomplished all of these things with a system of organization. Every ounce of her power has been turned towards the business of making war. Every act and deed of her officers has been obeyed without question. That is the sort of

spirit and organization we must have here.

Save Clothing. Think men before you buy that new suit of clothes. Can't you make that old one do, even if it has a few patches on the seat of the breeches? If you can you will release so much wool for uniforms and so much energy for war work. And you women—remodel that old dress; take the feather off of the back of that old hat and put it on the front. Nobody will know the difference any you'll be helping lick the Kaiser.

War takes money and the money to fight this war must come. Unless you lend it to the government, you will have to pay it in direct taxes. It is a question of whether you want a bond or a thrift stamp or a tax receipt.

This is not a question of doing what you think is your share. It is how much are you able to do. You must give until it hurts and the more it hurts, the more proof of your patriotism. Over 700,000 of the finest men the world has ever seen are now in France ready to give up their lives for the protection of your homes. That is really sacrifice. Will you back them up? Will you see that every one you know does the same?

We Will Win. If you do that, as long as there is a just God in heaven as long as there is a Woodrow Wilson in Washington with a united people to back him up, we will win.

Mark T. McKee. In a snappy and right to the point five minute address, Mark T. McKee, secretary of the county's division of the Michigan war boards told of the splendid organization that has been built.

Machinery for any war activity has been perfected, he said, to such a degree that any movement that has the endorsement of the government has an organization reaching from the three men who are responsible for the county to the three men in each school district and in some cases to every section of land. It's worth has been proven in the past Liberty Loan and Red Cross drives and will again be used in the coming War Savings Stamp campaigns. It has prevented duplication in many cases and has brought the state War Board's work home to the people, he said.

William A. Comstock. Mr. Comstock, who is head of the plan to hold 8,500 school district patriotic meetings at the school election July 8, for the purpose of informing the people regarding a number of important war activities, followed after Mr. McKee. He told of the plan to handle these meetings through the county, township and school district organizations and stated that the county war boards would act in the capacity of a speakers' bureau. He suggested that picnic be arranged where possible and insisted that the speakers selected should prepare their talks carefully after a study of local conditions. He believed, he stated, that the gatherings would be of great powers for the advancement of the cause.

Federal Bank Man. Homer P. Clark sent by the Ninth District Liberty Loan committee, thanked the people of the upper peninsula for their magnificent response during the three loan campaigns. "It shows the spirit that counts," he said. "It reminds me of the whole souled patriotism of an Indian chief on a South Dakota reservation who asked a Liberty Bond worker: 'I got boy in army. Who he fight?'

"Why, don't you know," queried the government man. "We are fighting the Germans."

"Too bad I not know," said the chieftain. "Two Germans on the reservation today and I could have shot them well as not."

"The war had come right home to the old chief. He was ready to do his bit, mistaken though he was."

John Black. Mr. Black, who handled the Liberty Loan drive in the peninsula, told of the work done by the bankers for the cause. They carried the burden gladly and without compensation, he said. And the women did more than their part in fields the men had not of could not have reached. There was a great work, he said, and the government is proud of them.

O. B. Towne. "An autocracy is built from the top down," said Mr. Towne, who was sent to Escanaba as the representative of the Committee on Training Camp Activities. "A democracy is built from the bottom up. You can totter and smash an autocracy, but you can't crush a democracy."

When Secretary of War Baker organized the training camp work, he began at the bottom and built up. He made places for the Y. M. C. A., the Knights of Columbus, the National Library association, musical instruction, physical training and everything else that would help to promote the health, morals and comfort of the men.

"He made it possible for the conditions surrounding the camps to be clean and wholesome." The work will probably be extended, later to take in the districts about the millions plants," the speaker said. In addition, he outlined, information bureaus have been established, provisions have been made to take care of the visitor to the camps;

JUDGE L. H. FEAD, Newberry, Mich.

rooming houses have been placed under the supervision of camp officials; club rooms have been built and equipped; recreation rooms have been fitted out; theatres have been arranged for; arrangements have been made to have the men entertained in homes of the best families of the camp cities and the women and girls of these cities have been organized to give the soldiers the right sort of social functions.

All these things are of vital importance to the welfare of our men in olive drab," said Mr. Towne, "and a great work is being done along this line.

The speaker had a few words of praise for the Salvation Army and the work it is conducting for our soldiers.

The Red Cross. Sidney T. Miller, chairman for the American Red Cross in Michigan submitted a most interesting report showing the activity of the Red Cross in supplying necessities and conveniences for the fighting forces of the nation. He detailed the work of the Red Cross in this country and told of the establishment of hospitals, laundries, canteens, bath houses, kitchens and supplying meals, tobacco, soft drinks and candy for our soldiers. He said that the needs of the Red Cross are measured only by the funds placed at the disposal of the organization. Up to the present time the American Red Cross has given a credit of forty million dollars to France, three million to England while Italy's credit will be close to fifteen million when war contemplated there is completed.

War Savings Stamps. Prof. William Lynn Phelps, of Yale University placed little significance in the fact that Michigan is still far below her quota in the sale of War Savings Stamps, asserting that with his conference with campaign directors in this section as well as in the lower peninsula he was convinced that Michigan will go over the top in that endeavor as she has in all war activities.

War Preparedness Bureau. Col. Roy W. Vandercook, secretary of the Michigan War Preparedness Board, directed an appeal to the people of this section of the state to report to the Board all cases in which it was found that dependents of men in the military service are in needy circumstances. Col. Vandercook asserted that it is the wish of the board to reach every such case, where allotments from the government have been delayed or where allotments given by the government are not sufficient for the needs of the dependents.

State Board of Health. R. M. Olin, secretary of the Michigan Board of Health, directed an appeal to the families of draft men to avoid with the greatest caution the exposing of men about to go to the colors to either measles or mumps. Dr. Olin asserted that the greatest number of deaths in the cantonments are caused by pneumonia following mumps or measles contracted by the men before they reported. Dr. Olin told of the work accomplished by the state board of health, backed by the war board in quarantining and treating venereal disease patients, particularly in the cantonment cities; through which work deaths from such diseases in Michigan camps have been reduced from 10 to 14 per cent to one-half of one per cent. Dr. Olin startled his audience by asserting that such diseases annually caused more deaths in Michigan than small pox, scarlet fever and tuberculosis combined.

Public Service Reserve. William E. Wreford, secretary of the public reserve service told of the work of his department in enrolling labor for necessary industries. He introduced M. LaMarche, special agent for the U. S. Employment Bureau. Mr. LaMarche announced that in all likelihood a federal employment bureau would be established in this and other cities of the peninsula and appealed to the employers of labor as well as men seeking employment to report their wants to the bureau.

State Fire Marshal. Frank H. Ellsworth, state fire marshal, said that in the past year ten million dollars worth of property in Michigan had been lost through fires

and appealed to the people to participate in a big fire prevention campaign.

Woman's Committee. Dr. Caroline Bartlett Crane, chairman of the Woman's Committee for Michigan, delivered one of the most stirring addresses of the afternoon conference. She told of the work of the woman's committee in registering 624,504 women of the state and asserted that when the work is closed one million Michigan women will be registered for loyal service. She appealed for cooperation between men and women war workers in every activity that develops in every county. She paid a glowing tribute to the women who have registered for home service, to care for their home and their children, asserting that it was as patriotic to save the life of a babe in this country as the life of a soldier in France.

Woman's Liberty Loan Committee. Mrs. D. D. Ashbaugh told of the accomplishment of the women of the state in selling twenty million dollars worth of bonds of the third issue. Mrs. Ashbaugh thoroughly charmed her audience with her pleasing manner and her earnest appeal to the men to give proper recognition to the women Liberty Loan workers of every city and township. She announced the Women's Liberty Loan committees have been organized in all but one county of the state and that county will be in readiness to join with all when the fourth loan is proposed.

National League For Woman's Service. Mrs. Sherill detailed the work of the Woman's Service League, the purpose of which is to place women desiring to do so, in needed occupations. She told of the organization of workers for canteens and motor corps for duty in the state and the work of the organization in selling \$300,000 worth of Liberty bonds in the last campaign.

Y. W. C. A. Miss C. Rader, representing the National War Work Council of the Y. W. C. A., asserted that the work of that organization was based on the desire to help the soldier in uniform helping the women of the land to give him loyal support. She told of the establishment of hostess houses at the cantonments as well as the extensive work in the war camps abroad.

Salvation Army. Ensign Ryan, in a stirring address, told of the work of the Salvation Army on the battle front. He read extracts from letters from soldiers from army officers and from The Stars and Stripes in which the work of the Salvation Army was most highly lauded. Some people say there is duplication in our work," said Ensign Ryan. "But there can be no such thing as duplication over there, unless the giving of two doughnuts to a starving man, instead of one can be called duplication."

Garfield Is Called Upon By Governor

During Governor Albert E. Sleeper's stay in Escanaba, he was bombarded with telegrams from friends of William K. Prudden, state fuel administrator and Edward L. Whitcomb, administrator for Wayne county, asking for the removal of one or the other of the men and even going so far as to suggest successors for them, it became known yesterday.

After a lengthy session at the Delta hotel Wednesday night with the other members of the Michigan War Board who were in attendance at the conference here, the governor sent the following telegram to Dr. Harry A. Garfield, United States Fuel administrator at Washington:

"Request you to send representatives for the purpose of investigating and settling controversies pertaining to fuel administration, city of Detroit. If this meets with your approval have him see Attorney General Grosbeck, who will aid in any manner desired."

All has not been well between Prudden and Whitcomb for some time. Mr. Prudden, last week asked for Whitcomb's resignation, which the latter refused to give without an investigation.

Mr. Prudden is a Federal appointee and the governor would have not authority to remove him. Also, Whitcomb, Wayne county fuel man might be classed as being in the Federal rather than the state service.

It is hoped by the Governor that the investigation will result in a manner which will satisfy both factions and will leave the fuel administrator's office harmonious with the other workers of the state.

FOR RENT—Furnished rooms; prefer gentlemen, 1406 Ludington St. 653-165-3t

BANQUET IS FINE AFFAIR

One of the most brilliant and pleasing features of the war conference, which was concluded in this city last night, was the banquet served at the Coliseum at 6:30 o'clock to Gov. Sleeper, state officers and visitors from all sections of Michigan. Over 500 guests were served at the banquet every detail of which was carried through as it had been planned.

The excellent, home cooked banquet particularly appealed to the great crowd of guests and at its conclusion those who had the plans in charge were showered with congratulations. The banquet was prepared under the direction of the heads of the domestic science department of the high school, assisted by women of the city and was served by 50 high school girls.

Following the banquet, with A. J. Young serving as toastmaster, a short program of toasts was carried out. Mr. Young told of the appreciation of the people of Escanaba at being allowed the privilege of entertaining the delegates to the first war conference in Michigan and paid a high compliment to Michigan's war governor, Albert E. Sleeper.

In responding Governor Sleeper expressed the appreciation of the war board and himself for the splendid hospitality that had been exhibited by the people of Escanaba and asserted that should the members of his party spread the news through the lower peninsula of the manner in which they were treated here, Escanaba would be the mecca for all the people of the lower peninsula seeking entertainment.

Auditor General O. B. Fuller, speaking to his home folks told of his efforts for years to convince people of the lower peninsula that Cloverland was all and more than had been claimed for it and he expressed his extreme gratification that this district is now receiving the recognition that is due it.

A \$1250 Fine For Breaker Of Food Law

Just Subscribe \$250 to the Red Cross and \$1,000 to Third Liberty Loan Immediately Is Sentence. Andrew Rian, who entered a plea of guilty to 78 violations of the food administration's edicts was sentenced to purchase \$1,000 worth of Liberty bonds and subscribe \$250 to the Delta chapter of the American Red Cross to lose his rights as a retailer of food stuffs by Upper Peninsula Food Administrator George W. McCormick yesterday.

The case of Louis LaBranche, of LaBranche, also was disposed of. Mr. Pranger, clerk and brother-in-law of the accused was told to inform his employer that the store would be closed on the unfair list unless he subscribe \$50 to the Red Cross at once. It was brought out that LaBranche had been a supporter of all other war activities and that the trouble had come about through an error of an employee, who will be required to sign a pledge to conduct himself differently.

Ford's Hat Is In The Circle

Washington June 13.—Henry Ford is President Wilson's choice for senator from Michigan. After an interview with the president in the White House, Mr. Ford decided to make the race as the Democratic candidate. He issued the following statement:

"At President Wilson's request I have decided to accept the nomination for the senate if the nomination is tendered to me. Realizing that there are exceptional opportunities for service to our people, both present and coming, I am ready and willing to do everything I possibly can to assist our president in the great war. Every man must expect to make great sacrifices and be prepared to serve wherever the great need exists."

Commencement At St. Joseph

Graduation exercises for seven young men and women of the St. Joseph's parochial high school, will be held tonight in the school auditorium. An interesting program has been prepared and there will no doubt be a large crowd in attendance. Rev. Boniface Klinger will deliver the commencement address.
