## Y. M. C. A. IS DOING WORK OVER THERE

Needs of Great Organization in Serving Our Fighting Forces on Firing Lines Are Mounting Higher Each Day—Close to the Men.

### CLOSE TO THE MEN

Why the Y. M. C. A. must raise more than \$100,000,000 during its nationwide campaign in the fall to maintain war activities here and over seas, is outlined in a statement just received here by F. B. Houston, local chairman for the Young Men's Christian Association.

The statement, which is made by Dr. John R. Mott, general secretary of the national Y. M. C. A., who has just returned from his fifth trip into the war zone, is the most recent and comprehensive presentation of the aims of the Y. M. C. A. in its war work over there.

Within the first two weeks of the last German offensive more than one-fourth of the 850 foyers du soldat—known to the American soldiers as "Y. M." huts—were captured or destroyed. The Y. M. C. A. has, it is announced, appropriated \$500,000, to replace the 85 huts and dugout lost by the British Y. M. C. A. in Flanders and Picardy during the recent drive of the enemy.

Tremendous responsibilities have been shouldered upon the Y. M. C. A. says Dr. Mott's statement. "It is a marvellously comprehensive thing we have been asked to do over there. We have not only been sent over there simply to represent the ministry of the Y. M. C. A. as we understand it in this country. That is the smallest part of our task."

"It would be a great thing to extend the ministry of our Association to the men of our own country and of those of other lands who are in France, but we have been asked to do more than that—we are to represent to all of those American sons and brothers not only the Y. M. C. A. of America, but we are to represent to them and be to them for the time being, the American home, and this is a tremendous responsibility. We are to represent to them the American school and college. We are to represent to them the best phases of American club life and all that is best of the American stage. We are to represent to them the American churches, and what a responsibility that is! It is a comprehensive ministry."

**Reason Outlined.** Let me give you additional reasons why we need so much money to continue our war work.

"The first reason is that we are the only agency able to do this work on any adequate scale. We have to do 'over there' to a large extent, what twelve or fourteen agencies are trying to do on this side of the Atlantic."

"The second reason is that over here we are familiar with the great cantonments where 20,000 or 30,000 or 40,000 men are massed in each. You will find in France a division of less than 20,000 scattered in 30 or 40 villages. I heard of two divisions that had arrived in France and the Association had only one secretary to place at their disposal. These soldiers are billeted in small groups all over the villages. The floor of the stable that the cattle had occupied was cleaned up and 100 more were put there. The chicken house held even more and the carpenter's shop a dozen more. Eight hundred boys were parceled out in that particular village. The father or mother is not in this land who, if he or she had been with me and seen their boy, as I have seen him, would not be willing to mortgage house or land, if necessary, in order that the Y. M. C. A. might be established in that particular section. He or she would be saying, 'You have got to get down to the unit of 300, and not stop with serving large units of 2,000 or over.'"

**Forces Are Shifted.** "Another reason why we need large sums of money is the constant shifting that is being done 'Over There.' In six months one division of our Army had to shift four times—was put in five different positions. That means five times increased expense. In this case it meant opening up huts in 30 different villages successively for five times or a total of 150 villages."

"Another reason is the broken-down means of communication. All the French railroads are worn out. I saw the splendid double line America has stretched almost across France. (Continued on Page Four)

## State Head Makes Plea For Crops

Unity and Co-operative Effort on Part of Farmers is Quickest and Surest Way to Win.

John C. Ketchum, master of the Michigan State Grange, delivered a stirring plea for increased food production, at the institute staged by members of that order in the city court room yesterday afternoon.

"This is a time when all organizations are being weighed in the balance," he stated. "If they have done their part towards the winning of the titanic struggle against autocracy, the world will say to them, 'We honor and respect you.' If they have failed to do their part, the close of the war will mean that their history will be written in a book, the covers of which will be tightly clamped, and across the title page the word 'Fines' will be stamped indelibly. If this or any other organization is to exist after this war is over, it must do all in its power to swing the balance to the side of democracy and freedom."

Means of doing their part, he stated, was in preaching loyalty to the cause of the Allies; by uniting for better relations with each other and with the world; by better business methods on the farm and above all, by producing more food.

To the profiteer, the speaker paid his respects. "The time has come," he said, "when the country will not stand for the methods of the man who forces the prices down to the producer and up to the consumer. He has either to change his business methods or go. I believe in any middleman having a fair and honest profit. The food speculator is doing more to stir up class hatred and dissent in America than any other one individual or class."

In conclusion he asked for more concerted effort and harder work along patriotic lines.

"This war will be won," he said, "just as soon as every organization and individual in America begins to make the way the thing uppermost in his mind. In this way we can keep the American army the best fed, best clothed and best paid army the world has ever known and bring the boys back to us victorious."

W. C. Taylor of Detroit, deputy state master and Mrs. Laura Stockman of Lansing, state lecturer, were the other speaker at the institute. Mr. Taylor presided. Mrs. Stockman talked on food conservation.

Meetings were held at Bark River, Rapid River and South Ford River last night. All of them were well attended.

## Fred's Boys Are All Set For Contest

Final Workout Filled Full of That Old Pep—the Kind that Clinches Ball Games.

Manager Olmsted gave his boys a final workout last night as the last round-and-round before their clash with the Iron Mountain aggregation on the Escanaba diamond today. It was one of the kind of workouts any manager would like to see. It was one of the kind of workouts any manager would like to see. It was one of the kind of workouts any manager would like to see.

All of the pitchers expressed themselves as feeling great. Germain will probably start. It is his last chance to show here as he leaves for the army tomorrow. Hirn and Blackhall will be ready if needed. Perow, Olmsted's 16-year-old find which the manager says is another Ray Schalk, will catch. Olmsted will play first, Moody second, Dourin shortstop and Hanson third. In the gardens Perrin, Hirn, Kammette, Burge and Anderson will furnish the material for Fred to pick from.

The game will be called at 3 o'clock.

## LISTS GO TO REGISTRANTS ON TUESDAY

Members of Draft Board Get Instructions to Begin mailing Questionnaires to New Registrants.

### NO ORDER NUMBERS

The work of sending out questionnaires to the young men of Delta county, who were registered on June 5 of this year, will be started by members of the local exemption board on Tuesday.

According to telegraphic instructions received by the board yesterday the questionnaires are to be filled out by the registrants and returned to the board before order numbers are assigned to the new registrants. Neither the new regulations nor the method that will be employed in determining the order numbers have yet been promulgated by the provost marshal general and no intimation has been given as to when the rules will be made public.

In Delta county there are 229 registrants to whom questionnaires are to be sent out and later classified by the board according to their liability for military service.

### Order Numbers Blank.

The questionnaires will be given only to the registration numbers of the registrants until the order numbers have been drawn or assigned in some manner yet to be determined by the authorities at Washington. The instructions received yesterday carry directions to the board members to leave the spaces on the questionnaires devoted to the order numbers blank until such time as those numbers are assigned.

According to directions 25 per cent of the questionnaires will be mailed each day for four days beginning on Tuesday and will be placed in the mails according to registration number sequence.

## No Repairmen To Be Had At Night

The government has requested the garages and automobile repair shops to close their doors at 6 o'clock, there by releasing a great number of expert workmen for war service. The request will be complied with by the Escanaba firms. This means, either learn to fix your own car or don't have a breakdown at night.

## Business Women Plan Convention

Mobilization of all the women of business in the United States is the object of the Second National Convention of business women to be held in Cincinnati, July 16, 17, 18 and 19. The meeting is to be under the auspices of the Woman's Association of Commerce of which Florence King of Chicago, is president.

Every woman of business experience, irrespective of classification, will be asked to enroll herself so that she may be available for the service at a moment's notice. Women who are especially trained for technical work will be especially classified. An effort will be made to bring woman's work more prominently before the public.

## MANY SHEEP IN SHIPMENT

Eighteen thousand ewes and lambs from Wyoming, the largest western sheep outfit to be brought to Cloverland, are due to begin arriving in Escanaba today. The sheep are owned by B. J. L. Grey a Wyoming grazer who came to this district early this spring and backed his first impression of Cloverland by deciding to move his flocks to the district as soon as the necessary arrangements could be made.

The sheep will be shipped from this point to Ralph where they will be placed in pasture. The sheep are being accompanied by western herders with their camp equipments and they will be "run" here on the same plain as in the west.

## The Casualties

Washington, June 22.—One hundred and thirty-nine casualties in the American expeditionary forces were announced by the war department today, of which 52 were reported as killed in action. The remainder were divided as follows:

## "Let George Do It" Will Not Win Out

Everyone Must Take Full Share of War-Savings Stamps If Drive is Success, Say Officers.

"This is not a time to 'Let George do it!'" said a prominent member of the Delta County War Savings Stamp committee yesterday. "Things are moving along rapidly but they must not be allowed to slow up. To make it the success that we want it to be, it will be necessary for everyone to keep boosting and do their full share."

Delta county's quota is \$538,000. In order to fill it the subscriptions and pledges to be paid during the year must be at least \$3 per month for every person in the county. This is necessary if Delta goes over the top as we have in all other campaigns.

## TWO MILLION OVER THERE NEXT WINTER

War Department Is Now Five Months Ahead of Schedule Set Some Months Ago.

### FIVE MONTHS AHEAD

Washington, June 22.—American soldiers are moving to France at the rate of 100,000 a week.

More than 900,000 are now on the other side. Major General Peyton C. March, chief of staff of the army announced today at his weekly conference, with Washington newspaper correspondents, a week ago he announced the passing of the 800,000 mark in the overseas movement.

He left no doubt in the minds of any who heard him that by July 1, more than a million United States soldiers, combatant, supply line forces, and medical men, will be in Europe.

Already the United States is five months ahead of the ambitious schedule it set for itself to get the men across.

If the present rate of transportation is continued there is no question but that more than two million men will be on the other side by the time winter set in.

## Naval Recruiting Officer Is Coming

Ensign Colby, naval recruiting officer for this district, will arrive in Escanaba on Tuesday to receive applicants for enlistment in the naval service. Mr. Colby will reach the city on Tuesday forenoon from Ishpeming and will probably remain here until Wednesday afternoon. He will make his headquarters at the army recruiting rooms on the second floor of the federal building, during his stay in the city.

## Lawrence Pepin Again Rejects

Because he was unable to pass the physical test Lawrence Pepin will not accompany the contingent of Delta county men to Vancouver barracks on July 2. He was tentatively accepted for the service but yesterday was ordered placed in a deferred class.

He attempted several months ago to enlist in the aero service but was rejected and earlier in last week was rejected for enlistment with the contingent leaving for Valparaiso University on July 15. His second and final rejection came yesterday.

## Navy Officer Comes Tuesday

James J. Colby, navy recruiting officer, who has been in charge of recruiting for that branch of the service for some time, will be in the city on Tuesday to examine prospective seamen. He has been expected here for a week and will no doubt have a long list of applicants.

He was in the city for a short time Saturday but not on official business. He stated that this month would break all Upper Peninsula recruiting records for the number of men signed up for service.

## Convention Date Fixed In Few Days

Biennial State Convention of Ancient Order of Hibernians Will Be Held Here in August.

### Plans are rapidly going forward for the biennial state convention of the Ancient Order of Hibernians to be held in this city on some date yet to be definitely fixed early in August. A meeting of the state executive board of the order was held at Grand Rapids last week when tentative plans for the convention programs were agreed upon.

Within a few days definite dates for the convention will be fixed and members of the local committee will then be able to proceed with the prosecution of their plans.

Plans Discussed.  
At the meeting of the executive board at Grand Rapids a tentative plan for adjustment of rates was agreed upon to be submitted to the state convention and arrangements for carrying the insurance of membership in military service were discussed. The advisability of carry this insurance for six months after members have been discharged from the military service was also argued and his question will be decided upon.

The total number of members in the military service equals 11 per cent of the state membership.

Auxiliary To Meet.  
At the same time that the Hibernian convention is held here the Ladies Auxiliary of that organization will also hold its biennial state meeting. The two conventions will bring to Escanaba approximately 300 delegates included in the number will be some of the leading men of Michigan and he west, in addition to national figures, who will address the convention session.

## Boys Will Drill At Their Dance

Company F, Michigan State Troops will stage a 20 minute drill at their military hop to be given at the Coliseum Tuesday night. The boys have a lot of new ones that they are anxious to show their friends and their friends, in turn, are equally anxious to see them. More than 150 couples will enjoy the evening's dancing if the dance sale is to be taken as "sure fire dope." Olmsted's orchestra will furnish the harmony.

### Planned to Crush

Their ambitions, according to Italian correspondents, embraced the entire circling of the Italian army, so that the Austro-German reserves could be shifted in 48 hours to the western front for the hoped for last overwhelming drive against the Allies there. The heroic resistance of the Italians, the correspondent declares, have nullified this fulsome hope. The inter-relation of the front, all the way from the North sea to the Adriatic is emphasized.

Berlin Promises Food.  
Last minute attempts to heal the fissures in the Austrian "home front" seem to have been undertaken on a parsimonious scale.

Some food has been promised by Germany (The Lisentening ears in Berlin have heard)—but, it is stipulated it must be returned by July 5.

Ludendorff, enraged at the Austrian allure has wired Vienna that Germany can do no more.

### Threats Are Made.

And in the meanwhile a strong cry is going from the people of the Austrian capital and other major cities of the dual monarchy, clamoring for food; threats are made against Germany; workmen, in increasing numbers, have laid down their arms, demanding equalization of wages and hours of work. But above all the cry is for sufficient rations and cavalry and troops have taken the places of armed police in the towns and the Socialists apparently leaders in the home agitation, are roading Baron Braun, Austrian Hungarian foreign minister to enter into peace negotiations with the allies.

### At Any Price.

"Peace at any price with the Allies—they cannot treat us worse than Germany," is the cry arising from the Austrian populace.

The highest praise continue to come from Rome of the work of the American airmen who co-operated with the flyers of the allies in preventing Austrian aviators carrying food to their hard pressed troops on the western Plave bank.

### Italy Will Hold.

Italy, through newspaper correspondents, has promised to hold the enemy even if re-enforcements are sent Austria by Germany, until the consistent flow of American troops to France, turns the scale for all time.

### Sammy's Busy.

The Sammys on the west front are in the meanwhile, harassing the Germans continuously about Chateau Thierry, cleaning out garrison dugouts and bringing in prisoners. Berlin describes these attacks as partial and carried out with the aid of the French and adds that they were repulsed with great slaughter.

The British and French war officers report only local engagements.

## HUNGER MAD VIENNA MOB ASKS PEACE

"The Allies Will Not Treat Us Worse Than Germany," They Cry on Streets of Capital.

### ROME SAYS, CAN HOLD

Italy awaits with confidence the worst that Austria, goaded on by von Hindenberg and Ludendorff, may attempt in the Venetian plains. The military scale, during the past 24 hours have swung appreciably in favor of King Victor Emanuel's legions, while the disheartened troops of Emperor Carl have been compelled to suffer the brunt of heavy counter attacks.

### Gains Enlarged.

The Rome war office triumphantly announces to the world, "has been held up since Thursday evening. Enemy attacks have been crushed, prisoners taken and material seized. Our gains have been enlarged."

General Dias, it is announced, has drawn but very slightly upon his reserves. His eyes are turned toward the mountain front to the north and he is fully prepared with the Franco-British re-enforcements, for some time on the scene, to hurl back the large forces concentrated amid the pinnacles of the crown of the alps.

Forty Divisions Used.  
Hour by hour dispatches bring new light on the battle which attended the original Austrian onslaught. Forty of the divisions, the I. N. S. correspondent learns, have been used up by the Austrian command.

"The Austrian commanders" the correspondent significantly adds, "have insufficient forces for a successful continuance of their ambition against Italy."

Use More Milk Urged On People

Lansing, June 20.—"From statements appearing in the press it is evident that there are still a few people who for some reason not clear to the Food Administration are still of the opinion that in this Administration's campaigns for the increase of consumption of certain foods, milk has been neglected," says Food Administrator George A. Prescott.

"This is a false impression that should be entirely eliminated. Milk is in plentiful supply this year in nearly all parts of the country and, since it is one of the very best foods for both children and adults it should be used wherever its use will prove advantageous. The fact that some dairy products have accumulated in storage should not be cause for alarm. This is a condition which, if it applied to all staple foods, should be a source of satisfaction to all Americans, and those fighting with us, producers as well as consumers.

"No man knows what turn the war may take. Not many days ago enemy submarines sank ships almost at the entrance to some of our Atlantic ports. Twelve million pounds of sugar went down on the Texas alone. North America is now supplying about fifty per cent of the food imported by the Allies, the rest coming from more distant parts of the world, but it requires no great imagination to conceive a ship shortage which would demand that the United States and Canada furnish all the food imported by the countries fighting the Hun.

"Hungry stomachs must be filled even before hungry cannons, but if such an increased demand should come upon us without big supplies piled up for emergency, those stomachs would remain empty—and no words can picture what would ensue. The post horrors inflicted by the enemy would be mild in comparison.

"The encouragement of the consumption of certain foods does not mean that the Americans should overeat. It means that we must eat those things that are plentiful and will not keep well in preference to those that can be shipped or saved for an emergency.

"If America had a year's supply of all the necessary foods in storage we should consider ourselves lucky, for seasons are fickle and sea transportation is in spite of our progress against the undersea menace, may yet bring the Allies face to face with farmers.

"The Food Administration believes that the reduction of milk consumption is an unhealthy condition which weakens the very foundation of the country—the children. But if our herds can be made to produce more so that we may be better prepared in the way of reserve supplies of food, the cause of democracy will be safer.

"The bush season, when cows are on grass, is now on and every possible outlet has been opened to prevent waste. The ice cream makers and condensers are getting their full and regular supplies of sugar, and the public is being educated to the importance of the product of the cow, but it would be disastrous for Americans to get the idea that a surplus is to be avoided.

"Food will win the war, and good supplies of food in storage may shorten it," concluded Mr. Prescott.

—Buy War Stamps— The Doctor Away From Home When Most Needed. People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.

In Society

At St. Anne's Hall. Much interest is being manifested in the card party at St. Anne's hall Monday night to be given for the benefit of the church. A lunch will be served by the ladies of the parish.

—W.S.S.— To Enjoy Picnic. Walter Richie and Miss Edith Gareau will entertain at a picnic today in honor of Miss Irene Bangerson, who leaves tomorrow for her home in Marquette. The young people will go in cars to Danforth.

—W.S.S.— Announcements were received in the city yesterday of the marriage at Hempstead, Long Island, of Miss Katherine Stiles, daughter of Judge and Mrs. John Stiles of Menominee, to Franklin Vivian Loughton, first sergeant 173rd Aero Squadron, Signal Corps. The bride is known to a number of people in Escanaba through frequent visits to this city. In newspaper circles of the peninsula she is widely known through her service on the staff of the Menominee Herald-Leader and Cloverland Magazine.

—Buy War Stamps— ANNOUNCEMENT. I wish to take this opportunity to announce to the voters of Delta county, that I shall be a candidate for the office of sheriff at the Republican primaries to be held on August 27, 1918. I am frank in saying that I am a voluntary candidate for this nomination and that I am seeking the office and nomination, and shall be very glad to receive the careful consideration of the voters of Delta county. It would be the purest camouflage to say that my friends are urging me to run or that the nomination or the office are chasing after me. I am after the job on my own accord because I want it and for that reason, I sincerely and honestly bespeak the support of all my friends in the campaign for the nomination. If nominated and elected, I shall give the county a thorough and painstaking and at the same time, an economical administration, and will see to it that all laws are strictly enforced as they are written.

R. R. Engineers To Go Overseas

Washington—When the five new regiments and 19 battalions of railway engineers now being organized are put on duty there will be 50,000 Americans engaged in railroad construction and operation in France.

After the United States entered the war one of the first requests transmitted to this government by the French mission was for assistance in strengthening the French railways. Nine regiments of railway engineer, whose organization was started before Gen. Pershing sailed, were in France by August, 1917. Six of them have been engaged in construction work, building and rebuilding railways, building docks, and rearranging terminal facilities. The other three regiments have been engaged in operation, and some of the railway troops have been on the fighting line. The additional troops will be used partly for construction and maintenance and partly for operation.

A total of \$160,000,000 has been spent on railway materials alone. Included in the purchases are 1,727 locomotives, 22,530 freight cars, and 359,000 tons of steel rails.

This city has been no exception to the rule, and with the thousands of soldiers and sailors in training at the camps nearby Federal officials are always on the alert.

U. S. NAVY WILL LAUNCH EXPEDITION TO SALVAGE SUNKEN SHIPS ABROAD

Washington.—A new and effective method of helping our allies has been evolved by the navy department.

The navy recently commandeered the entire outfits of three of the largest wrecking concerns in the United States and it is the present intention to send at least one of these outfits abroad.

The outfits consist of ocean going tugs, pontoons, barges, etc., and the work of salvaging will probably be without cost to our allies.

There is pending now in Congress a bill which will allow the navy to make proper charges for the salvage of vessels in home waters.

Wants To Know Attitude Of U. S. On Intervention

Washington—Japan is about to lay before the United States government her Siberian intentions and at the same time request from this government a statement of its stand toward intervention.

Renewal of the demands of England France and Italy that Japan take some action to stem the German tide of influence in Asia, the open stand of the Russian constitutional party in favor of entente intervention, and the desire of the Japanese government to formulate a definite policy for presentation to the Japanese people are declared to make necessary the adoption of an American policy without further delay.

It is not the plan of the Japanese to re-establish the eastern battle line, as it is realized that such a program would call for men and resources needed in France.

It is declared that such a move would offer complete protection to China, India and all of Asia, and that the proximity of such a force in Siberia would prevent Germany from carrying out its announced policy of forcing the millions of Russian with Teutonic blood to enter the German army.

'Fee Agent' Crawl To Plead For Mercy

Washington, D. C.—Many self-acknowledged contingent fee agents appeared today at the department of justice to explain their operations and to ask leniency in any action the department may take to break up the exposed system of defrauding contractors and the government out of millions of dollars.

Many of these agents heretofore had been unknown to the department, and this fact promoted the impression that the system of making commissions out of war orders is even more extensive than officials had believed.

Letters, Telegrams and Calls. Hundreds of letters, telegrams and personal calls came to Attorney General Huston Thompson, in direct charge of the campaign against the contingent fee system.

Working on Reports. A group of lawyers, working today on the mass of the reports on raids made on manufacturers' offices found considerable new evidence of improper, if not illegal practices in connection with the soliciting of government war contracts.

Intervention In Sib Again For World Greatest Day

AMERICANS A

Washington, D. C., June 24.—Official reports tonight indicate that Italy has delivered a crushing blow to the Austrian Army.

From semi-official sources Austria's losses are placed at 200,000 men, 40,000 horses, 100,000 prisoners, 15,000 mules and pack animals.

Boise, Ida., June—Sheep shearers in Idaho are making \$40 a day, and if their demands for more wages are met they will make \$60 a day, according to J. R. Whitson, a sheepman in a complaint to the State Council of Defense. Sheepmen declare they have information indicating a State wide sheep shearing combination has been built up.

Shearers are getting 15 cents a head and by using machines each man can shear from 200 to 300 head of sheep a day. The shearers have made a demand for an increase to 25 cents a head. In addition, the boss of the crews is paid for boarding his men, which would bring the charge to about 28 cents a head, say the sheep owners.

# Be a Patriot!

## Pledge or BUY !!

Our Government needs the money to buy food and other supplies for our fighting men as well as our Allies.

## War Saving Stamps

Further pledge to save and economize in your kitchen to help win the war.

Our problem today is to feed—not only our own fighting men—but the men, women and children of our Allies as well, by sending them as much food as we can of the most concentrated nutritive value in the least shipping space. THESE FOODS ARE: WHEAT, BEEF, PORK AND SUGAR. Our Solution—to eat less of these foods more of others which we have in abundance, and waste nothing.

FIRST OF ALL you must furnish the money to buy these needed supplies—so cannot urge upon you too strongly

### Depositions Occupy Time Of Justice

The justice court of C. D. McEwen was busily engaged yesterday in taking depositions of witnesses in two cases, one to be heard in Delta county and the other in the supreme court of the state of Arizona.

The local matter was that of Doak vs Johnson, an action to recover for personal injuries received by the former in an automobile tilt. Dr. Harry W. Long, one of the plaintiff's witnesses will soon leave for military service as an army surgeon and it will not be possible for him to be present when the formal hearing of the case comes off in circuit court. Consequently, his portion of the testimony was taken by Judge McEwen for presentation in documentary form. T. E. Strom appeared for the defendant and Joseph F. Cuddy for the plaintiff.

The other witness examined was Mrs. Cecelia Boyle whose testimony was wanted in the case of "The Estate of Mike McFadden vs the State of Arizona." Mr. Cuddy appeared as counsel and conducted the examination.

There were no criminal matters disposed of in the court yesterday.

Theodore Larsen of Bark River attended the Grange meeting here, coming in by auto. It is easy for farmers to attend to their business in detail now, for the automobile serves to equalize distance and shorten time necessary to transact business at a distance.

### Y. M. C. A. Doing Work 'Over There'

(Continued from Page One)  
and I saw what America is trying to do with some of the French roads. But if we had not established our own transport system we would not be in 605 places now. We have our own camion and our own automobile service. But ever, without that service we couldn't extend our ministry to the boys. And we have got to increase this service four-fold before we can serve adequately the first million men overseas.

"Another reason why it is going to cost so much is that prices are far higher over there for everything than they are here and they are constantly rising. Apparently this will continue to be the case for the duration of the war."

**Situation Urgent.**  
"Still another reason is the urgency of the situation. We cannot say, "we will do so much now and so much six months from now." We want to keep step with the need and even anticipate it."

"But I suppose the great reason why we will spend anything that is needed is because of the extreme devotion of these men. One of the boys said to me, "I have had it out with death." That is true of every American boy. They have thought the thing through and are ready to pay the extreme price and that is what has put the strain of grandeur in every one of these boys."

"I have never been more sure than I am now that the Allies will win in
