

BOLSHEVIK WILL CONFER

STATE BUDGET IS PASSED BY THE SENATORS

Not a Dissenting Vote Cast; Would Put Censorship on Movies.

Lansing, Mich., Feb. 7.—By a unanimous vote of the 28 members of the state senate present, the budget bill providing for the establishment of a budget system of the state was passed today. It now goes to the house.

Simultaneously with the request for the senate to confirm the reappointment of Frank W. Merrick, Democrat, as banking commissioner, three bills were introduced in the legislature, one by Senator Forrester, Deckerville, and two in the house by Representative Watson, Branch county, making important changes in the banking laws.

Permits Branch Banks.

The Watson measure would permit banks having a capital and surplus of \$1,000,000 or more to establish branches in foreign countries or in substantial possessions of the United States, and to invest not more than ten per cent of its capital or surplus in stocks of corporations engaged in international banking.

His second bill provides for the making of a state and a national bank, or two state banks under certain provisions, to safeguard stockholders and depositors.

Cuts Cash Reserve.

Doing away with the present requirement of the law that all state banks in Michigan must carry a cash reserve of five per cent at all times, thereby placing them on a basis with national banks, is a big change contained in a bill introduced in the senate by Senator Forrester.

Censorship of all motion picture films and slides to be exhibited in the state is the purpose of a bill introduced by Senator Tufts, of Ludington. Immediately following this came one by Senator Brennan, Detroit, which would make it illegal to operate or engage in amusements of various kinds on Sunday after the hour of one in the afternoon. This bill also would affect motion picture theatres.

Prevent "Wilson Propaganda."

"I would like to have it plainly understood that one of the purposes of this censorship board is to give such board of censors the power and authority to suppress and prevent the display of Democratic propaganda in Republican Michigan," Senator Tufts said in commenting on his bill.

"We have had pictures of President Wilson with the words 'Stand by Wilson' displayed all over the state, as well as pictures of Baker, McAdoo and other Democrats. Through this board of censors and under the provisions of this bill all that and other propaganda not desired could be prohibited."

370,000 Soldiers Court Martialed

Washington, Feb. 7.—The fact that there were more than 370,000 court martial trials of American soldiers during the war, was disclosed by Secretary of War Baker today in a letter to the senate.

Of this number 22,000 cases were heard by general court martials, while about 350,000 were tried by special or summary court, the offenses being of a minor nature.

Secretary Baker's letter giving the figures was sent in response to Senator Borah's resolution adopted last week, directing the war department to send the courts martial records to the senate.

Wisconsin Drys Ask Prohi Commissioner

Madison, Wis., Feb. 7.—The Wisconsin legislature today received the bill prepared by the Wisconsin anti-saloon league to enforce immediate prohibition in Wisconsin. It creates the office of state prohibition commissioner at an annual salary of \$4,000 to enforce this provision.

GERMANS DRIVE BACK POLES AT BRESLAU, LISSA

Berlin, Feb. 7.—A German counter attack against the Poles along the railroad line from Breslau (capital of Silesia), to Lissa and the Silesian border, regained all territory lost to the Poles yesterday.

Fourteen hundred Berlin volunteers left for the scene of operations this morning.

Many thousand Poles are reported concentrating along the Silesian border and large scale Polish offensive is looked for at any hour.

BRITISH LABOR TROUBLE TAKES QUEER TANGENT

London, Feb. 7.—Great Britain's strike menace took a queer twist tonight, due to the repudiation by the tube workers' union officials of the settlement reached last night and the recognition of the heretofore unofficial uprisings planned along the Bolshevik pattern.

Strike is Called Off.

Late tonight the electricians' strike was called off and the men were ordered to return pending a meeting of the executive union council Sunday, at which action will be considered, calculated to secure a 40-hour week to workers. Announcement to this effect was made following a meeting of the London district committee of the Union Executive Council.

Although the tubes are still stopped it is clear that a settlement will soon be reached on the basis of an eight-hour day, not including meals.

Negotiations Are Favorable.

Announcement was made tonight negotiations are proceeding favorably. A general strike, therefore, is not expected to be called.

Many waiters are returning to work.

In Belfast warrants have been issued for the arrest of strike leaders.

In Glasgow the situation is quiet.

FORD ORDERED TO TURN OVER OLD DIVIDEND

Detroit, Mich., Feb. 7.—Henry Ford was ordered, in a decision by the state supreme court today, to pay \$1,275,385 dividends, held back by Mr. Ford for the expansion of the Ford Motor company, to his stockholders.

Dodge Started Action.

The suit was brought by John F. and Harris E. Dodge, who are stockholders in the Ford company, and who objected to Henry Ford using the dividends of the company to build blast furnaces.

The court also ruled that the Ford Motor company may, if it so desires, go into the smelting business and that it can add as much of its profits as it wishes to its capital.

The ground for the dividend distribution is that the surplus of the company is that much in excess of a reasonable amount for carrying on the business.

Judge Upholds View.

The effort made by the Dodges to prevent Mr. Ford and the Ford Motor company from building a smelter is defeated. The complaints contend that the company was incorporated only to build automobiles, and that the refining of steel is beyond the power conferred upon it. Judge Hosmer upheld this view.

German Congress is at Last Organized

Welm, Feb. 7.—Germany's national constituent assembly is a fact. The Spartacists who tried desperately to make it a failure must be disappointed tonight. The assembly was opened yesterday and continued its session today. What the future may bring it would be profit enough to say.

Automobile Supply Men Are Not Guilty

New York, Feb. 7.—Twenty-one defendant companies in the action of the government against the National Accessories Automobile Supply association under the anti-trust law, were found not guilty in federal court here late this afternoon.

DEMOCRATS NOT TO PUSH FORD SENATE FIGHT

Senator Townsend Blocks Measure and Pomerene Quits Battle.

Washington, Feb. 7.—Henry Ford's chance of getting into the United States senate by contest proceedings went glimmering today when the Democrats, quit their attempt to force adoption of the Pomerene resolution designed to unseat Truman H. Newberry, Republican senator elect from Michigan.

The Republicans stand ready to fight the resolution and contended that the proceeding was without precedence and that the proper body to decide Mr. Ford's case was the next senate.

Would Sidetrack the Rest.

It became apparent that if the Democrats persisted in their efforts to force the resolution through they would have to do so at the risk of sidetracking all important legislation requiring action before March 4.

Realizing the futility of trying to beat down the opposition, Senator Pomerene, of Ohio, announced he would not push the resolution further.

The Ohio senator explained he expected to confer with other members of the privileges and elections committee having charge of the Newberry case, but there is no indication that anything else, except possibly some perfunctory action, will be done at the present session, and it seems almost certain that Ford will not be welcomed to the senate by the Republicans after they take control of the upper house.

Townsend Blocks Measure.

Senator Pomerene said he was moved to abandon the fight at this time because yesterday Senator Townsend, of Michigan, said he would oppose action seeking merely to preserve ballots and documents to resist any attempt to force the resolution through.

Inasmuch as the Michigan authorities are to preserve the ballots and documents, there seems to be no reason for any further action. It may be that a formal resolution designed to safeguard the document in question will be framed.

In view of Mr. Ford's recently reported declaration to spend millions to keep Newberry out of the senate, some new move was looked for today outside the senate.

SOUTH AMERICAN TRADE TO HELP COAL MINE MEN

New York, Feb. 7.—Leading exporters of coal, it was learned today, have established committees through the National Coal Association with headquarters in Washington, to appeal to the shipping board for relief in the matter of increased tonnage for carrying coal to central and South America.

Report 100,000 in Distress.

It was pointed out today that approximately 100,000 persons, half of them minors and the rest dependent upon them, are in distress in West Virginia through lack of employment, due primarily to the inability of disposing of the surplus coal on hand.

Furthermore, it is claimed that other thousands are affected in other parts of the country where factories have been compelled to reduce their output because of the present impossibility of securing tonnage. It is held that the American trade in Latin America worth hundreds of millions of dollars, is in danger of being lost to England.

Put Blame on Rates.

The rates on ship space to Central and South America in many cases are said to have been doubled. In many instances they have been doubled three and fourfold. The increased rates were arranged by the shipping board to keep the ships in European trade, but now that the war is over the board has informed the owners of ships that the high rate must be maintained.

NO BEER, THEY WON'T WORK IS CRY OF MANY

New York, Feb. 7.—"No beer, no work" buttons appeared by the thousands today in the button-holes of men all over New York City. The badge wearing was started here by members of the International Bottlemakers, Shipbuilders and Helpers. The movement began in Newark a few days ago and quickly spread to Jersey City, Bayonne and Elizabeth.

SEATTLE STRIKE SETTLEMENT IS BELIEVED NEAR

Seattle, Wash., Feb. 7.—Settlement of the Seattle general strike, which directly affected 65,000 workers and inconvenienced men and women in every walk of life, is believed near tonight.

Mayor Hanson, following a conference between a committee of business men which he headed, and a special committee of seven representing the strikers, said a settlement is possible before tomorrow.

Previous to the conference Mayor Hanson issued warning to the strikers that unless the sympathetic strike is called off by 8 o'clock tomorrow he will take steps to operate all essential industries and place the city under control of the federal government.

Tacoma Situation Improved.

At Tacoma the situation is improved. Streetcar employees will return to work tomorrow, according to announcement of the local manager of the company.

In the San Francisco bay region fully 5,000 shipyards and other mechanics are idle while a vote is being taken to determine whether a strike shall be called to enforce the demand for \$1 an hour wage.

At Butte, Mont., copper miners struck today against a wage reduction of \$17 a day, recently put into effect by the mine owners of the Butte district.

WASHINGTON ANXIOUS

Washington, Feb. 7.—Action toward the settlement of the Seattle strike which is viewed as a particularly perilous problem, will be taken by the government, probably tomorrow.

Every effort to bring about mediation will be made, it was stated in official circles.

20,000 Troops Ready.

The seriousness of the situation in Seattle was reflected here in that in congress the question was discussed. Secretary of War Baker declared that the 20,000 or more troops at Camp Lewis were all at the disposal of the governor of Washington and would be moved in any numbers to Tacoma and Seattle if conditions there demanded such action.

That the Seattle strike is due not to the best labor element, but to radicals, many of them not citizens, was the charge made in the house by Representative Johnson, of Washington.

GODDARD WILL BEGIN DUTIES NEXT THURSDAY

Capt. L. D. Goddard, whose appointment as head of Escanaba's municipal utilities was ratified by the city council Thursday night, will arrive in Escanaba next Thursday to take up the duties of his new job.

Wiring from Washington where he is an officer in the army engineering corps, he stated that he would spend Monday at Ann Arbor with Dr. Riggs, Tuesday with the state utilities commission at Lansing and he will reach this city the second day following.

The water plant is now managerless, except for the supervision of the board of public works and the organization of employees. The other two plants—lighting and gas—will probably be ready for Capt. Goddard upon his arrival here, or immediately afterward, it was stated last night.

WEATHER

SATURDAY, FEB. 8, 1919

Forecast: Saturday, fair. Highest, yesterday, 21. Lowest yesterday, 11. Precipitation, trace.

DELEGATES FOR RUSSIAN MEET ARE SELECTED

William Allen White and Prof. Herron Go to Parley.

Paris, Feb. 7.—William Allen White, and Prof. George Davis Herron have been chosen as the American delegates to confer with the representatives of the Russian faction on Princes' Islands.

Prof. Herron is a New York Socialist who has been living in Switzerland for some years. William Allen White is well known in the United States as a progressive Kansas newspaper editor and author.

To Start Immediately.

They will start for Princes' Islands immediately and there wait for the Russian representatives to forgoather. They will be fully instructed on the position which they are to take at the conference.

The fact that the Bolsheviks, who first scorned the conference proposal of the Allies and associated governments are now willing to attend it, is taken here to indicate that they are beginning to feel the economic pressure. The allied leaders are much pleased with the change of attitude.

Russians Menace Allies!

Copenhagen, Feb. 7.—Strenuous efforts are being made to get direct news of what, if anything, has happened in the war zone of Northern Russia.

Throughout the day a rumor has been current, and it would not down late tonight, that Archangel had been captured by the Bolshevik forces, which if true, would present a serious menace from the rear to the allied and American forces further inland. However, there is absolutely no confirmation at hand thus far, and caution is advisable in treating all such rumors, since propaganda welcoming belief of such rumors is in full swing.

The Russian legation here states that private telegrams received by it from Russia do not confirm the report.

GERMANY RETAINS RHINE

Paris, Feb. 7.—Germany's Rhine territory will not be taken from her.

It is now certain that the Rhine is one of the water ways of Europe which will be internationalized and controlled by the league of nations.

Concentrate to Rear.

Paris, Feb. 7.—In order to avoid all possibility of disaster, the allied and American troops in Northern Russia, now somewhat scattered, will in all probability be moved back nearer to Archangel and more closely concentrated.

This information came from an authentic source.

No real danger to these troops is foreseen at this moment, but the idea is said to be that the concentration nearer to the port is desirable as a precautionary measure because nothing is to be gained by further advance with so small a force.

THREE KILLED WHEN TRAIN HITS AUTO

Jackson, Mich., Feb. 7.—Clyde Markham, his wife and the latter's father, George Keyser, were instantly killed five miles west of Jackson this afternoon when their automobile was struck by a Michigan Central east-bound passenger train. The party were on their way to Jackson when the accident occurred and a west-bound freight obscured the view of the approaching passenger train.

WAUSAU TEACHER TO BE NEW INSTRUCTOR

Miss Edith Boyce, instructor in schools at Wausau, Wis., has been named to succeed Miss Gertrude Hills, whose resignation will take effect on Feb. 14. Miss Boyce will teach Latin and English, studies taught by Miss Hills. The present instructor plans to complete the first semester. Miss Boyce will commence duties here starting with the second semester.

Jackson's Prison Is In Danger

Jackson, Mich., Feb. 7.—Fire, believed to have been of incendiary origin, destroyed the building machinery and stock of the Michigan Sheet Metal company, located within the walls of the Michigan state prison early this evening.

The loss is placed at \$500,000 with \$60,000 insurance.

The fire started in the south east corner of the building and was a seething furnace when the fire department arrived.

The convicts yelled and hammered on their cell doors, but no serious trouble occurred. Jackson's company of state troops has been summoned to guard duty.

FEAR RUIN OF NEW YORK CITY

Life of Gotham Trade is in Danger if Rivers Bill Passes, Assert.

Washington, Feb. 7.—The life of New York as America's leading export port is menaced by the pending Rivers and Harbors bill, according to the statement today of the New York delegation to the National Rivers and Harbors Congress.

The delegation charges that a plot exists between shrewd Canadians and representatives of four western states who desire to see their lake ports and ocean going ships, to seize the trade of New York and New England.

Four Canadian Control.

"Shall the St. Lawrence river, with Great Britain controlling its mouth, become the American Bosphorus?" asked the delegation today.

They declared it would if an amendment to the rivers and harbors bill now before the senate becomes a law. The amendment provides that a joint commission of American and Canadian government representatives be appointed to determine the cost of providing an ocean gateway from Lake Erie to the sea by way of the St. Lawrence.

"Would Ruin New York."

"If this project is adopted," said former State Senator Hill, spokesman of the New York delegation, "it would mean that 18,000,000 tons of commerce annually would be diverted from its natural American route to the Canadian route. It would ruin New York. All the vast supplies of grain which come from Duluth and other lake ports would be sent to Europe by way of the St. Lawrence river and New York as an export port may just as well close up shops."

RAILWAY EMPLOYEES PLAN FAILS TO PUT MARKET INTO A RUT

New York, Feb. 7.—In view of the adverse character of the business news today the stock market acted remarkably well. Even the philanthropic proposition of the railroad employees to take over the properties and operate them for half the profit, if any profit could be made, and to let the public stand the loss if operation should result, failed to shake the lift.

Strikes and rumors of strikes came from all quarter of the world but industrials held firm save in one or two issues. Prices of commodities continued to decline and pessimism had a field day.

But everything that happened was the logical thing to happen after such a war. The very badness of yesterday's news made it good, for it means that the world is finally waking up to the necessity of a quick readjustment from war conditions. The market was steady throughout the session with no net losses or gains of importance.

BROTHERHOODS SUGGEST THEY RUN RAILROADS

Employes Would Have Profit Sharing Plan Put in Effect.

Washington, Feb. 7.—Railway employees of the country had their turn today when their representatives urged government ownership and operation of the roads on a profit-sharing basis before the senate interstate commerce committee.

The plan put forward by the four great railway brotherhoods, endorsed by ten other brotherhoods affiliated with the American Federation of Labor, was laid before the committee by Glen E. Plumb, of Chicago.

Counsel for Brotherhoods.

Mr. Plumb is counsel for the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, the Order of Railway Conductors and the Brotherhood of Railway Trainmen. The big four brotherhoods have a membership of nearly a half million, while the ten affiliated with the American Federation of Labor have more than a million members.

Mr. Plumb told the committee the members are opposed to the five year extension of federal control recommended to congress by Mr. McAdoo, but that the principal objection to such an extension was Mr. McAdoo's order prohibiting employees from participating in political affairs, because it was virtually a disfranchisement, and there was no reason why they should be disfranchised any more than railway presidents, directors and other officials.

Bring in Short Lines.

If the extension were granted, Mr. Plumb thought the short line ought to be brought in and all the roads placed on equal basis. He expressed the opinion, too, that if provision were made for extension, it should be stipulated the present plan should terminate with whatever permanent policy is decided upon for the roads, that such policy might become immediately operative and the present state of uncertainty eradicated as quickly as possible.

The employees' plan, as presented by Mr. Plumb, embraces the operation of the roads by a corporation "where operating authorities constituted its sole capital."

Would Require No Capital.

Such a corporation, Mr. Plumb said, would require no capital. The roads would be purchased outright by the government and turned over to this corporation for operation.

CAN CURE ILLS BY IMPROVING RAIL SYSTEMS

Washington, Feb. 7.—J. Spencer Smith, president of Smith & Nessler Company, exporters and importers at New York City, told the house interstate commerce committee today that solution of the transportation problem would remedy the ills of the packing industry.

Control Impossible.

If the transportation system of the country is properly co-ordinated, he said, no group of men can control the packing industry, or any other industry. Mr. Smith recommended establishments of a terminal-plus-mileage charge and abolition of the carload rates.

By taking advantage of carload rates, he said, the big packing companies have been able to stifle competition.

\$500 Campaign Money.

Henry Veeder, counsel for Smith & Company, gave additional testimony as to the political activities of his company before the senate agricultural committee. The company gave \$500 to a gubernatorial campaign in Texas in July, 1912. Mr. Veeder admitted, but testified that his company had refused to contribute to the campaign fund of other applicants.

With Service Men

Hamm is Given Copy of Admiral's Letter

U. S. S. Texas, Commanding Officer, U. S. S. Texas.

To: Grant Charles Hamm. It is a great pleasure to convey to you this message from the admiral, and to express my own appreciation of your faithful service on board this ship during her operations with the British Grand Fleet in the North Sea during the War against Germany, so happily ended in the surrender of the German Fleet on Nov. 21, 1918.

As a member of the ship's company you share the credit for maintaining the ship in the high state of efficiency expressed by the admiral.

Victor Blue.

U. S. S. New York, Flagship, 16th November, 1918.

From Commander Battleship Division Nine.

To Commanding Officer, U. S. S. Texas.

Subject: U. S. S. Texas, Efficiency of 1.

The "Texas" was inspected today, and it is a pleasure to state that I have never seen a cleaner, smarter, or better looking kept ship in my life. There was not a spot nor a blemish on her. Her crew was simply immaculate, and left nothing to be desired. Her organization and efficiency are excellent. Her target practice was shown a steady improvement, and her last main and torpedo defence battery practices were excellent.

The "Texas" is a credit to the service, and a most efficient ship. The Captain and crew deserve a great deal of credit for obtaining this high standard under existing conditions, particularly when the ship for the past year has been kept ready to steam full speed on four hours' notice.

2. Please publish this letter to the officers and the men with my congratulations.

HUGH RODMAN.

Wells Boy Listed as Arrival, Co. L Man

Sergt. Chester A. Smith, listed yesterday as one of the late Michigan men to arrive in New York from overseas duty, is a member of Co. L who was injured in one of the early stages of the war. He is a son of William Smith, of Wells. For the past several months Smith has been convalescing in an American hospital overseas, and it was not until he had recovered sufficiently to make the voyage across the Atlantic that he was given an opportunity to sail.

Godley Will Speak to Methodist Folk

What should prove an interesting talk will be that to be delivered in the First Methodist church Sunday night by Corp. Joseph L. Godley, Escanaba soldier who recently returned

Just Received

Delicious Apples
Jumbo Bananas

and First Class Oranges at prices to suit your purse. Fresh Home made Candies every day.

Jos. Saykly

1820 Ludington St. Phone 981

from overseas duty. Godley was disabled by gas. The soldier plans to speak on "The Larger Brotherhood of Man," in which he probably will reveal some of the finer distinctions of a soldier on a battlefield, despite the end in view—that of killing the enemy.

Godley is well qualified to give the church a vivid description of life on the battlefield and his talk should be of great interest.

Safe at Home, This Soldier Reads Name in Casualty List

George P. Ackermann, safe and comfortable at the home of his mother, Mrs. Flora Ackermann, 418 South Sarah street, read with considerable amusement the official casualty report published in the daily papers of yesterday.

The list contained Ackermann's name as one of Uncle Sam's horsehoes who was "wounded severely in action."

Ackermann was wounded during a German bombardment of the rear area of the American lines early last summer. After a short stay in a French hospital he was sent home. He reached Escanaba several weeks ago and has entirely recovered from his injuries.

Just how his name could have crept into the published list at this late date will probably always remain a mystery.

SOLDIER IS DISCHARGED.

Joseph Gallagher arrived Friday morning from Camp Custer where he was mustered out of service. He is visiting at the home of his parents, Mr. and Mrs. C. Gallagher.

Sergt. Joseph LeQuia arrived Friday from Waco, Texas, where he has been stationed in the medical department. He has been discharged from service.

TOO LATE TO CLASSIFY

GOVERNMENT will hold Railway Mail clerk examinations, Escanaba, Mar. 15th. \$92 month. Experience unnecessary. Men, 18 or over, desiring clerkships write for free particulars. Raymond Terry, (former Civil Service Examiner) Continental Building, Washington. 4707-39-31.

High School Men in Service May Enter State University

Although the state university has in no way lowered its requirements on account of war conditions, an arrangement has just been made for the admission of young men who left high school to enter military service and because of the maturity gained in service they may be allowed the opportunity to attend the college work.

Eleven Credits Needed.

Persons whose preparatory courses have been interrupted by reason of military service or other approved war work, may during 1919, be admitted to the university on trial upon the presentation of eleven credits gained either upon examination upon official certification and recommendation of the principal of an accredited high school.

Fifteen credits are required for entrance, under ordinary circumstances.

Encourage Educations.

The plan is to encourage as much as possible, these young men to continue their education, rather than to permit them to join the ranks of the unskilled.

OBITUARY

Mrs. Imogene Markart.
The funeral of Mrs. Imogene Markart was held from her late residence at the Extract Plant on Friday afternoon, with the Rev. R. Stanley Brown of the First Presbyterian church, officiating.

Mrs. Markart was 62 years of age and had been in poor health for years, but the suddenness of her death came as a severe shock to her many friends in this community.

She was a daughter of the late F. D. Banks, who had been a resident of Delta county for more than 50 years. She is survived by one daughter, Mrs. Ward P. Crosswell of this city, a sister, Mrs. Peter N. Stryker of Gilboa, N. Y., and a brother, Lewis Squires, of New Milford, Pa.

Interment was in the family lot in Lakeview cemetery.

St. Louis Funeral.

Funeral services for Miss Myrtle St. Louis, who died at Howells, Mich., following an extended illness, will be held at 2:30 o'clock this afternoon at the First Presbyterian church. The Rev. R. Stanley Brown will officiate. Burial will be in Lakeview cemetery. A number of outsiders have arrived to attend the funeral, including relatives.

Miss Mary E. Willette.

After a long illness, Miss Mary E. Willette died at a hospital here Thursday night. Death came at 9 o'clock to relieve the suffering.

Miss Willette was about 40 years old and is survived by her mother and a brother.

The body is at the Allo undertaking parlors and will be shipped to Trombley this morning. Funeral services will be conducted at Maple Ridge Monday morning, with the Rev. Father Chouard officiating. Interment will be in the cemetery here.

Reserve Officers to Get Regular Exams

Camp Custer, Battle Creek.—Reserve officers at Camp Custer who graduated from one of the several training schools and who now desire to remain in the service, are being sent to other camps, where they will undergo training courses preparatory to taking examinations for commissions in the regulars. As a matter of fact, there are no commissions available now, but there will be if Congress passes the bill providing for a larger standing army.

CATHOLIC CLUB HAS DONE MUCH WARTIME WORK

Refugee Garment Making Among Recent Activities

—Adopt Orphan.

Since the beginning of the war, the Catholic Woman's club has set aside its regular program and engaged in war activities.

The ladies knitted last year and as a result turned in 155 garments to the Red Cross.

Write to Orphan.
Josephine Guilian is the name of the 10-year-old French child adopted by the club.

This little girl, made fatherless by the war, lives with her mother, Madame Veuve Guilian at Morbihan, France, and the members of the club are carrying on an interesting correspondence with their little charge.

Refugee Garments.
This year the members have made 30 women's garments for the Belgian refugees and now are engaged in making dresses for Belgian children. Aside from these activities, the club has contributed most liberally to the Red Cross and K. of C.

ATTENDS MEET OF WAR STAMP COUNTY HEADS

George F. McEwen, Delta county's War Savings stamp director, was in Marquette yesterday, where he attended a meeting of the heads of the county organizations of the upper peninsula.

John W. Black of Houghton, head of the loan activities for the Michigan division of the Ninth Federal reserve district, called the meeting and officiated.

Plans for an intensive War Savings campaign for 1919 were formulated.

FRANCE PLANS TO DISCHARGE ALL HER YANK VOLUNTEERS

Washington.—The French minister of war has officially notified the State Department that all Americans in the French army who volunteered for the duration of the war will be discharged upon their request.

Joseph Kassick and son of Ogon's visited friends here Friday.

CITY ATTORNEY EXPLAINS VOTE REGISTRATION

On account of a great many electors being confused about the registration laws of our state. I have been requested by the Mayor and members of the Council, to prepare this statement for the press.

Any person, not already registered, who possesses the constitutional qualifications of an elector, or who will on the Primary Election to be held on Wednesday, the 5th day of March, possess such qualifications, may make application for registration to the clerk of the city of Escanaba, on any day other than Sunday, a legal holiday, the day of any election, or special election or official primary election, and the days intervening between the third Saturday preceding such election and the day of said election.

Holidays Excluded.
In other words any qualified elector can register for the March primary any day between now and Saturday the 15th day of February, except Sunday February 9th and Wednesday February 12th, Lincoln's birthday, at the city clerk's office.

From March 6th, that being the day after the Spring Primary Election any elector may make application for registration at the city clerk's office or registration between that day and the 22nd day of March, except Sundays and legal holidays and will be entitled to a vote at the Annual City Election to be held on April 5th, 1919.

There will be a general registration in each and every precinct of the city of Escanaba on Saturday the 3rd day of April, 1919, and any qualified elector, or who will on the day of the Annual Spring Election, possess such qualifications, may register before such registration board from eight o'clock a. m., until eight o'clock p. m., of said day.

The Sole Exception.
If any person, whose name is not registered shall offer and claim the right to vote at any Election, and shall under oath, state that he is a resident of such precinct and has resided in said ward twenty days next preceding the April Election, designating the number and place of his residence and that he possesses the other qualifications of an elector under the constitution; and that, owing to the sickness or bodily infirmity of himself, or some member of his family, or owing to his absence from the city on public business or his own business and without intent to avoid or delay his registration, he was unable to make application for registration on the last day provided by law for the registering of electors preceding such election; then the name of such person shall be registered, and he shall be permitted to vote at such election.

H. R. DOTTSCH,
City Attorney.

STILL WORKING TO FINISH JOB

The Delta County draft board is probably the only war organization which is unable to tell, by its lessening volume of work, that the war is over.

End Not in Sight.
Completing of the task of filing, labeling and packing the records and material collected by the board, will require top-pace speed for several weeks. As it was put by one member of the board yesterday.

"We cannot yet see the bottom."
The government is insisting that the records be filed with the utmost accuracy. Before they are finally sealed, they will be inspected by a war department representative.

War Time Gait.
The board is almost as busy as it was during numerous periods while the machinery of the nation wide draft system was supplying the country's man-power for the army camps.

507 Women to Date Have Registered at City Clerk's Office

Registration of women at the city clerk's office Friday was brisk, but not quite as strong as in some of the previous days for registration. The registration for wards up to 6 o'clock Friday, when the office was closed, was as follows:

First	15
Second	84
Third	57
Fourth	100
Fifth	99
Sixth	90
Seventh	62
Total	507

It is estimated about one third of the total legal women voters in the city have registered thus far. Feb. 15, according to all information here, is the final day for registration.

Boy Knocked Down by Bicycle Rider, Hurt

Knocked down by a bicyclist, Carlton Valind, son of Mr. and Mrs. A. J. Valind of 706 Hale street, was rendered unconscious Friday noon. The youth recovered from the injury, however, and was able to attend the afternoon session of school.

Forty Five Years of Success The astonishing Record of PERUNA

Not a cure-all, but a rational remedy for catarrh and all inflammation and congestion of the mucous membranes.

Catarrh attacks the mucous lining in any organ, in any part of the body. It is not, as some imagine, confined to the nose and throat, although nasal catarrh is the most common form and afflicts many people.

Unchecked catarrh soon breaks down the tissue and destroys the organs or part. Evidence of the ravages of catarrh are all around us. Without desire to frighten anyone, we say: "Guard yourself against catarrh as you would against the direct plague. Fortify your system. Take Peruna."

INSPIRING WORDS FOR THE SICK FROM THOSE WHO KNOW.
A Good Medicine in the Family.
I had a bad case of La Grippe and could get no relief. Peruna cured me. It is a fine medicine. We often use it in the family and find it good.
MRS. GENTRY GATES,
East Lake Station,
Birmingham, Alabama.

FEELS LIKE A DIFFERENT PERSON.
Peruna has cured my stomach and I feel like a different person. I only took twelve bottles of Peruna and can eat anything, without distress, something I have not done for fifteen years.
I recommend Peruna to everybody suffering with catarrh of the stomach.
1029 16th St.,
Columbus, Georgia.

FOR ALL FORMS OF CATARRH.
Peruna is indicated for all forms of catarrh or catarrhal inflammation and congestion of the mucous linings in any part or organ, such as nose, throat, bronchial tubes, lungs, stomach, bowels, kidneys, bladder, etc. It is fine for coughs, colds and effects of the grip and an excellent preventive remedy.

If you want health, insist upon having Dr. Hartman's World Famous Peruna Tonic.
Sold Everywhere.

Township Clerk is Father of Sleigh Runner Width Law

Kelly Johnson, clerk of Escanaba township, who for many years has been an ardent advocate of a law in the state of Michigan regulating the width of sleighs is very much elated over favorable action taken in the senate committee rooms at Lansing, on a bill introduced by Senator W. A. Lemire at Mr. Johnson's suggestion.

The bill is now in the hands of the railway committee and there is little doubt that it will be reported favorably by that body. Back of it is a petition signed by a large number of Delta county citizens.

"With the many advantages the standard 4-foot, 8-inch sleigh has over the narrow ones, the bill should pass with its flag at high mast," Mr. Johnson said yesterday.

"A sleigh with the standard width does not topple over as easily with high loads and it glides more easily as the weight is more evenly balanced on each runner. The horses have more chance to walk and pull and single horse rigs need not drive their horses out of the hard road when meeting heavy vehicles."

Roads Not Cut Up.
"A greater advantage is in the condition of the roads. Autos will not cut it up; they could use runners in front to a good advantage and the road could be kept open more easily."

Mr. Johnson says that 1,000 feet of logs could be hauled on a single load with a narrow sleigh. From 200 to 400 feet more can be hauled by the same team on a 4-foot-8 center sleigh than on a narrower type.

Any man, he says, who is at all "handy" can in a little time replace the narrow beams and rollers for wider ones, the expense being very small, while the benefit would be quite material.

Dreadful Cough Cured.

A severe cold is often followed by a rough cough for which Chamberlain's Cough Remedy has proven especially valuable. Mrs. F. W. Olson, of Maryville, Mo., writes:

"About two years ago my little boy Jean caught a severe cold and coughed dreadfully for days. I tried a number of cough medicines but nothing did him any good until I gave him Chamberlain's Cough Remedy. It relieved his cough right away and before he had finished taking one bottle he was cured. I think it is just fine for children."

LUTHERANS PLAN FUNDS CAMPAIGN FOR EUROPEANS

With \$40,000 as the goal for the state, the Rev. C. A. Lund and the Rev. O. C. Dahlager will undertake the task of organizing the upper peninsula for procuring Cloverland's quota toward the fund for reconstruction in war devastated countries.

The two Escanaba ministers returned Thursday night from Detroit where they attended a session of district managers. Although \$22,000 was named as the state quota, it was decided at the meeting that \$40,000 should be the quota for Michigan.

It is planned to conduct the drive from Feb. 9 to Feb. 26, inclusive. Every Lutheran church organization in the peninsula will be united to raise the fund.

COUNCIL MUST ANSWER.

It now appears that in addition to securing the official appointment of the logical head for Escanaba's utilities, a movement has finally been started that reflects a refreshing interest by the taxpayers in affairs of the city.

A series of pertinent questions have been framed to be asked of the council: Why did the council fail to carry out the wishes of the people and provide for a commission manager form of government?

All of the questions are queries that the taxpayers have a right to ask of the council and to expect definite answers.

The answers cannot but show that Escanaba is being operated under about the most expensive form of government, characterized by loose inefficient practices, that could be formulated.

But Escanaba has had her house cleaned before and it will have a lot more in the future, unless the present movement is founded on the serious purpose of permanently changing the system and is backed by men pledged to see it through.

Nearly all of similar movements in the past have been mere flashes in the pan, pushed for a few weeks for political effect and then forgotten.

WAR RISK INSURANCE.

From various sections of the country comes the report that some of our returned soldiers are permitting their war risk insurance to lapse.

The home service branch of the Red Cross can re-instate a soldier's policy if he has not allowed it to run over thirty days.

It has been suggested that the friends of soldiers agree to unite in furnishing a bond protecting a bank which will keep up the payments for a group of ex-soldiers.

NO TOBACCO PROHIBITION.

Moderate opinion in the prohibition organization declares against interference with tobacco.

Dr. Wilson says that some offense has been given by the attitude of cigar makers, but that there will be no attempt on the part of public morals organizations to interfere with the habits of adult smokers.

We think the moderate opinion will prevail. There are extremists among the prohibitionists who would be glad to prohibit the use of tobacco, coffee, tea, etc., but the moderates, who are convinced, will prevail.

Coffee, tea, and tobacco may do harm, but so also may green apples.—Chicago Tribune.

The same people that used to perpetuate those witticisms about prunes on the boarding house table, are now kicking because the landlady won't give them any.

Capt. L. D. Goddard, U. S. A., is to become superintendent of Escanaba's three municipal plants. His appointment, recommended by the board of public works, was finally confirmed by a majority of the council after one of the most stormy periods in the history of Escanaba.

If he is the man the board of public works has reason to think he is, a number of changes are going to be carried out in the interests of efficiency and the good of the taxpayers who own the plants.

The farmers that are getting together to increase the price of milk, include some who have always vehemently denounced the trusts.

A reader asks us how the congressmen spent their vacation? Well, a considerable number of them have been exceedingly busy explaining why they were defeated.

Either the weather man is paralyzed or he has forgotten how to pull that snow lever.

THE PIFFLE HOOK

By SLIM PICKENS.

What has become of the old fashioned stand patter who used to call every man who believed in the right to strike, a "crazy socialist"?

It has been said that everybody knows how to run a hotel and a newspaper. The word "city" might have been added to the list.

Our idea of zero in efforts is an attempt to give a spineless man a chiropractic treatment.

The Under World—A clothes line full of woollens. No Man's Land—A meeting of the "Weekly Whist club."

Heaven—A mythical realm where the city council always agrees with the board of public works.

Hell—Where everybody has a different opinion about municipal management.

A man soon tires of his own company. Solitary confinement is the most punishing of punishments.

When a woman loses her beauty she begins to exercise her brains.

From a glance at the Pacific coast news, one reaches the conclusion that the peace conference ought to have been held at Seattle.

A bird in the hand is worth two at the butchers. A stitch in time often saves a heap of embarrassment. A rolling stone gathers no moss, but it gets over the ground.

He never tasted intoxicants in his life, yet he filled a drunkard's grave. He is a cemetery sexton.

"Why should I fight Willard?" asks Carpenter. Sure. Why should anybody fight Willard?

The sailor who has been torpedoed can't understand why folks object when their physician asks them to gargle a cup of salt water.

Topics for discussion at the club: "Shelley." "Savonarola." "The Woman Who Has Just Moved Into the House Across the Street from Mrs. Smith's."

The prohibitionists avow that they are not going to start an anti-tobacco movement.

Let's put the brass foot rails in the cigar stores.

Have those Wisconsin senators who want to erect a statue of Roosevelt in Milwaukee, no respect for the Colonel's memory?

King Alcohol must get a little consolation in the fact that he wasn't the only monarch to be dethroned during the year.

Into the governor's office stalked a man—a power in a down state district who had handed his vest pocket full of votes to the executive at a recent election.

There was blood in the healer's eye. "You promised me a job, if you were elected," he said. "Now you've been governor for a month and all I can hear from you is that there aren't any jobs. What are you going to do about it?"

The governor was silent for a moment and then said:

"Well, I'll organize an investigating committee to inquire why there aren't any jobs and you can be the chairman."

"We've got the eight hour day here round Mystery Bay" writes Abner Bangs. "We work eight hours before noon and eight hours after."

From Col. House's chair there seems to be "nothing but silence and very little of that."

After years of lecturing for the naps, Bill Bryan gets a silver loving cup. Soon the country will go dry and Bill won't have anything to put in it.

Anyway Bill won at least one campaign. Maybe now he'll cut his hair.

If you think of anything the United States senate hasn't decided to investigate you can do it a favor by tipping 'em off to the omission.

It was unintentional.

CLOVERLAND and WISCONSIN

MARINETTE—Mrs. G. M. Rickaby of Wausaukee, widow of Judge G. M. Rickaby received burns which may prove fatal. Her clothing caught fire from a lamp, and she rushed from her room to a neighbor's and from there went outdoors again.

Father Writes From Germany; Is All Right.

APPLETON—We are all in good health and getting along nicely, so do not worry about us. We all send love and greetings. That was the brief but assuring message that came to Ernest Homburger of this city from his father, Michael Homburger, Frankfort on Main, Germany.

Red Jacket to Hold. Poultry Show Soon

CALUMET—The Upper Peninsula Poultry association at a meeting in the Y. M. C. A. building this week, unanimously decided to proceed with plans for the annual exhibit which will be held in the Red Jacket town hall Feb. 20-22.

The entry fee for single birds will be twenty-five cents and for pens, fifty cents, and the prizes will consist of merchandise contributed by officers and members of the association and poultry food concerns.

Wife of Judge Waite May Be In Politics.

MEMONIEE—That women will take an active part in the coming primary and general elections this spring, is evidenced in the announcement in democratic circles that Mrs. William F. Waite, wife of the late municipal judge of Menominee, will be prevailed upon to accept the nomination on the democratic ticket for Menominee county commissioner of schools.

There are two candidates on the republican ticket for the office, Jesse Hubbard, present commissioner and James A. Muna, instructor in the high school of this city. Owing to this party opposition, it will be necessary for the county to hold its first spring primaries in years, on March 5.

In Hun Camp For Years; Is Released.

RED JACKET—Charles Penhalligan of Fifth street, Red Jacket, received word of the arrival in England of his son, John Penhalligan, from Germany where he has been imprisoned since 1914.

Finnish Speaker Tells Folk of Home Conditions.

CALUMET—Foreign-born Finnish residents of Calumet and the copper country last night received, for the first time in four years, accurate information concerning conditions in their native country.

Mining Locations In State of Unrest

IRON RIVER—Many miners in Iron River and neighboring towns are idle as a result of the closing down of mine properties and curtailment of output of those which remain working.

This School Board Is Having Battle Royal.

SHEBOYGAN—The common council has been playing "battle-door and

proposition for nearly a year, and in the meanwhile the school accommodations are so cramped that the school hours have been stretched to two hours longer to enable every student an opportunity of studying.

Menominee Solons to Consider Bond Issue

MEMONIEE—The last meeting of the present Board of Supervisors for Menominee county will be one of most importance, the session opening next Thursday, Feb. 13.

Among the matters of importance scheduled for the last meeting of the present board will be the proposed bonding of the county for \$400,000 for good roads, and the matter of the reconstruction of the poor infirmary.

The supervisors will take action as to putting up the proposed bonding of the county for good roads to the vote of the people in the spring election.

The proposed re-building of the county infirmary, destroyed by fire some weeks ago with a loss of more than \$20,000, will also be considered by the board next week.

Seeing Ourselves As Others See Us

The Escanaba council is getting a beautiful panning from the Escanaba papers, and well it may.

This week, for the second time, it refused to accept the recommendation by the board of public works of Captain Goddard, U. S. A., to have direction of the city utilities—water, gas, electric power.

Instead, it again referred the appointment back to the board, with the request that it name an Escanaba man for the post.

If the board has the courage of its convictions—and the issue will doubtless prove that it has—it will see the council in Tophet before it will do any such thing.

No board except a board that was composed exclusively of simpletons would undertake to assume the responsibility for the conduct of as extensive plants as are owned by Escanaba when the practical direction of these plants had been taken over by another body.

As the Mining Journal has pointed out, Marquette's past history shows an episode not unlike the one being enacted at Escanaba.

After the city electric plant had been installed, with fine results, by a board and had been operated successfully under board auspices for a period, the council, eyeing enviously the utility, began crowding and hampering the board and interfering with its management.

Finally the council obtained the result it, presumably, was looking for. It obtained full management of the plant, and ran it for a year. This year of the council's management is one of two black spots in the history of the utility.

Now the Escanaba council wants to horn in on the board of public works' field. If the council has the right of passing on a B. of P. W. appointment, it is given, obviously, to make certain that a bad appointment by the board will be overruled.

It is the clear intent of the Escanaba plan that the board shall conduct, and be responsible for, the utilities. This means that the board's choice of agents shall be respected by the council, unless it is obviously bad.

In designating Captain Goddard the board has made an obviously good choice, he having been recommended by Professor Riggs and apparently being fully qualified for a post that, it is clear, makes such various demands that the injunction of the Escanaba council that a local man be chosen for it is an impossible demand.

The issue will be observed with interest outside Escanaba, as well as within. The way the situation stands, the only step open to the board of public works, if the council persists in its stand, is resignation.

Restaurant hats and toques are made of iridescent sequins and beads.

Closeups and Fadeouts By Imogene

Mabel Normand is a sure fire hit in "Six Hopkins." Mabel is a broad comedy anyway, in spite of strenuous efforts on the part of producers to make her something else, and "Six Hopkins," is of course, the broadest kind of comedy.

Hal Reid, Wallace Reid's father, has an important part in "The Two Brides," starring Lina Cavalieri.

In "The Red Lantern," Nazimova has her first dual role on the screen, enacting the part of Mahlee, a girl half Oriental, half English, and that of her rival in love, an English girl.

Mae Allison objects to being pointed out as one of the sights of Los Angeles. "I may look like one at times," she said, "but being pointed out to passengers on the rubberneck wagons makes me feel like a museum or a monument or something."

"Next to the pacifist, the most despised human in the world today is a slacker," was Madge Kennedy's startling announcement after she had completed "The Service Star."

When an interviewer for the Photo-Play World asked Norma Tallmadge if she got much fun out of pictures, she replied, "Not much. It's hard work most of the time and there is the fear that your picture will not be up to the mark, and there is the worry of how you are being received."

Referring to the title of his picture, "The Great Love," David Wark Griffith, the famous producer said in a recent interview that it meant many things. "It may mean the love of country; then again, it may mean the love of individuals. At any rate I hope to show in this picture the transition from the butterfly life of British society, to that of the stern, sincere hard workers in the great cause of winning the war."

Louise Lovely is Hale Hamilton's pretty little leading woman in "Johnny on the Spot."

The Binney sisters, Faire and Constance, who gained fame in Maurice Tourneur's production, "Sporting Life," admit that screen stardom is the height of their ambitions. Constance, however, believes that the stage is the best preparation, while Faire says that only camera experience helps.

Tallulah Bankhead, a newcomer from Alabama, leading woman for Tom Moore in "Thirty a Week," broke into the movies, as they say, by winning a movie contest.

Vitagraph's production, "The Lion and the Mouse," starring Alice Joyce, is practically completed, and Tom Terriss, director, is putting the final touches on it before it is released.

"The Girl Problem," starring Corinne Griffith is a late Vitagraph feature.

AT THE STRAND.

Courage as great as that which won him the Victoria Cross in France is shown by the hero in "The Man Who Wouldn't Tell," the Vitagraph Blue Ribbon Feature, which will be the attraction in the Strand Theatre today and Sunday.

Hawtrey Burke (Earl Williams) is a colonel in the British army in this country at our entrance in the war, uncovering German plots.

A fine type of manhood and an especially good rider, he is welcomed by society—by all but one girl, Ellen Warden, just back from the horrors of Belgium. She loves, despite herself, but she spurns him as a slacker and a coward because he is

Feb. 1, 1919. Feb. 15, 1919

STATE OF MICHIGAN.

The Probate Court for the County of Delta.

At a session of said Court, held at the Probate Office in the city of Escanaba, in said County, on the twenty-fifth day of January, A. D. 1919.

Present: Hon. Judd Yelland, Judge of Probate.

In the Matter of the Estate of James Thomas Flavin, minor.

William Flavin, guardian, having filed in said court his petition praying for license to mortgage the interest of said estate in certain real estate therein described, for the purpose of repairing buildings on land owned by said ward.

It is Ordered, That the twenty-fourth day of February, A. D. 1919, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to mortgage the interest of said estate in said real estate should not be granted;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Escanaba Morning Press, a newspaper printed and circulated in said county.

JUDD YELLAND, Judge of Probate, ROSEZITA CORCORAN, Register of Probate.

not on the fighting line. And Burke, who is doing his duty as a secret service agent, takes her scorn in silence—and he loves her.

In addition to the feature, the second episode of the Pearl White serial, "The Lightning Raider" will be shown today.

AT THE DELFT.

"The Service Star" is the title of Goldwyn's newest photodrama, in which Madge Kennedy is presented at the Delft Theatre today for the last time.

Madge Kennedy is Marilyn March, who looks with envy upon the girls she knows because everyone of them has a sweetheart at the front while Marilyn has none.

When the country rings with news of the bravery of John Whitney Marshall "over there" Marilyn announces that the hero is her husband, a secret marriage having been performed before his departure.

That Terrible Headache.

Do you have periodic attacks of headache accompanied by sickness of the stomach or vomiting, a sallow skin and dull eyes? If so, you can get quick relief by taking Chamberlain's Tablets as directed for biliousness, and you may be able to avoid these attacks if you observe the directions with each package.

ROOSEVELT MEMORIAL

His Inspiration to the World, Address by Will H. Hays

Indianapolis, Feb. 7.—"As he saw the world receding, I am convinced that the only sadness he had was the thought of separation from those he loved and from the service to the people he served so well."

Will H. Hays paid strong tribute to Col. Theodore Roosevelt today when he delivered the following memorial, in part, before the joint session of the Indiana legislature:

"I have kept the promise that I made to myself when I was 21. That promise was: to live my life to the hilt until I was 60, and I have kept that promise.

"These words Theodore Roosevelt said to his sister a few days before he died. And this, indeed, he did.

Review of Superlatives.

"To follow this man's life is a succession of steps from peak to peak; to describe his accomplishments is a review of superlatives. He had more knowledge about more things than any man, amazing all with whom he came in contact by the breadth of his knowledge, prodigious beyond comparison. He was intensely human in the freedom of his unselfishness and his name is synonymous with courage and activity.

"He was as imaginative as a poet, as appealing as a child, loving to fight and fight close, at grips in the clinch; but with the deepest personal affections and the broadest love for all men. He wanted only real things. While always progressing and reaching out, quick to think and quick to act, he sought the practical method which would bring results. His alert and intense nature was always in tune to the needs of the moment, but he went deeper into the fundamentals than any one of his period. In office, while wise men were asking what might best be done, Roosevelt would reply, 'The best has been done—and he was right.'

Never Any Wavering.

"He would approach with the same assurance and equal ease the settlement of the Russian-Japanese war or a bout with a prize fighter, a social reception or the construction of the Panama Canal. As early as 1902 he spoke the language that the Kaiser understood, and never ceased to speak that language while he lived. There may have been doubt in Roosevelt's mind as to the outcome of his position in the Venezuelan matter, but there was never any wavering in his mental processes as to his duty in the premises nor any vacillation in his movements in execution.

He summoned Dr. Holleben, the German Ambassador, to the White House and told him that if Germany would not consent to arbitrate in ten days Dewey would be ordered to Venezuela. When he did not hear from von Holleben for a week he called him and told him that instead of three days more it would be two days more—and within thirty six hours the Kaiser yielded. What a characteristic Roosevelt action! With equal ease and the same assurance he undertook the Panama Canal, after four centuries of failure, and made possible its completion to the practical satisfaction of the civilized world, when without him it would still be a subject of diplomatic discussion. And the voice that called his own babies about him and that cried for justice to little children was the same voice that thundered "Perdicaris alive or Rasul dead."

Patriotism His Monument.

The lesson of the patriotism of Theodore Roosevelt, which will live forever, is his monument. This patriotism was not the kind that is born of extremities; it was not that fire, splendid as it is, which burns in the souls of men only when their country is in danger. His patriotism was not the patriotism stirred only by martial music—it was the patriotism of good citizenship, at the fireside, the plow, the mart, in low places and in high places, in season and out of season; it was the patriotism which caused him to make his country's welfare his own business and to interest himself continually in the practical politics of his community.

"He believed and acted always the patriotism of peace as well as of war, and it moved the man to measure his every act, from his earliest manhood to the date of his death, by how, in his good judgment, he could do the most for his country's welfare. This is the only patriotism which, in the last analysis, is worth while. It was this patriotism which made Theodore Roosevelt years ago begin his fight for better government, and in the prosaic times of peace make almost heroic his fight for little children, for social betterment, for economic justice, for the rights of labor, for the rights of capital, for the rights of right, wherever that fight was needed.

"Shines The Brightest."

"What a heritage is the lesson of his patriotism to the people of his country! Of all the high lights in this man's life, his patriotism shines the brightest. What a condemnation is his entire experience to those snuggly individuals who are either "too busy" or "too good" to interest themselves in public affairs, who sit with their heads folded, taking no part in governmental affairs, expect-

ing everything to be right, while they share no part of the burden in the effort to make them so. It is passing strange indeed that men have to be urged to exercise the first privilege of a sovereign citizenship—the right to help govern themselves. Yet such is the fact, and it is because of that fact that most governmental evils develop.

"I was with Theodore Roosevelt on the morning he received the word of Quentin's death. I was with him the next day at Saratoga when, with his heart literally crushed, he interposed in a speech he was reading,

Thought For Own Souls.

"The finest, the bravest, the best of our young men have sprung eagerly forward to face death for the sake of a high ideal; and thereby they have brought home to us the great truth that life consists of more than hard going pleasure, and more than hard consciousness, brutal striving after purely material success; the body and the things of the body, that while we must rightly care for yet that such care leads nowhere unless we also have thought for our own souls and for the souls of our brothers.

"When these gallant boys, on the golden crest of life, gladly face death for the sake of an ideal, shall not we who stay behind, who have not been found worthy of the grand adventure, shall not we in our turn try to shape our lives so as to make in this country the ideal which in our hearts we acknowledge, and in the actual workaday business of our world, come a little nearer together, and make this country a better place to live in for these men, and for the women who sent these men to battle and for the children who are to come after them?"

"Practice What Dad Preached."

The president of a college the other day told me that he had met Quentin Roosevelt in France a short time before Quentin was killed, that he talked with him about the fact that the four sons of Theodore Roosevelt were all fighting in France, and said, "You have done about your part, Quentin." "Well," this young Roosevelt replied, "we boys thought that it was up to us to practice what dad preached." I believe that we Americans generally may well try to practice what Theodore Roosevelt preached.

Charles Lundstrom, prominent garage man and Franc Pierson, auto mechanic, both of this city, were Thursday morning sentenced by Judge Hart at the Soo, to spend 30 days in jail and pay a fine and cost amounting to \$50 as a penalty for violating the liquor laws.

Lundstrom, who is an alderman and at that time also a deputy sheriff together with Pierson who was in the employ of the Manistique garage, were caught on an east bound train by State Deputy Food Inspector Eddy and found to have liquor in their possession which they had smuggled across the Michigan-Wisconsin border.

They were taken to the Soo and pled guilty at the first hearing but upon the meeting of circuit there this week they were found guilty and Judge Hart of Midland who also presided, sentenced them as above. They will be confined at the county jail of Chippewa county.

Manistique News

Burglars Get Bonds at Manistique Home

An event unusual in Manistique happened Thursday when burglars entered the rooms of Dan Kolach in the Riverdale addition and got away with \$250 in cash, a \$50 Liberty bond, a suit of clothes belonging to Kolach's father-in-law and a pair of trousers of his own.

Are Newlyweds.

Mr. and Mrs. Kolach who were married about three weeks ago were living in the upper rooms of the house occupied by her mother, Mrs. Gasperch. Kolach left the house shortly after noon while his wife left at three thirty and in spite of the fact that Mrs. Gasperch remained, the thief entered and made good his escape.

Upon Mr. Kolach's return at about three forty five he found the trunk in their rooms had been ransacked and the articles mentioned were missing upon which he immediately notified the local police authorities.

Arrest Soon.

Although very few clues as to the thief's identity were left the police are believed to have this morning a good description of the man and his arrest is looked for at any time.

Harry Christensen, who has been employed at the First National bank, in the Soo for some time accepted a position as bookkeeper with Matt Schneider.

Miss Aurelia B. Potts, district agent in the Home Demonstration work is expected in this city Monday. She will address the Women's Club on Tuesday and Wednesday will be in attendance at the Community Clothing Exhibit at the High school gymnasium.

January in the clerk's office at the court house proved light in the issuance of marriage licenses, only seven couples applying for them. There have been two granted up to date this month.

Mike Kieller of Steuben spent yesterday in Manistique on business.

The funeral of Mrs. Margaret Orr who passed away Thursday at her home, will be held tomorrow afternoon at two thirty from the St. Francis de Sales Catholic church. Rev. Schevers officiating. A requiem mass will be said at the same church, for Mrs. Orr at eight o'clock Tuesday morning.

Manistique Men to Serve Jail Terms

Charles Lundstrom, prominent garage man and Franc Pierson, auto mechanic, both of this city, were Thursday morning sentenced by Judge Hart at the Soo, to spend 30 days in jail and pay a fine and cost amounting to \$50 as a penalty for violating the liquor laws.

Lundstrom, who is an alderman and at that time also a deputy sheriff together with Pierson who was in the employ of the Manistique garage, were caught on an east bound train by State Deputy Food Inspector Eddy and found to have liquor in their possession which they had smuggled across the Michigan-Wisconsin border.

They were taken to the Soo and pled guilty at the first hearing but upon the meeting of circuit there this week they were found guilty and Judge Hart of Midland who also presided, sentenced them as above. They will be confined at the county jail of Chippewa county.

Much Interest in Clothing Exhibit

The Community Clothing Exhibit to be held at the high school gymnasium on Wednesday afternoon between two and four thirty promises to be one of the big events of the year. Great preparations are being made by the various committees in charge.

An afternoon tea will be served and everything done to make it a real social gathering. A special program has been arranged and will be given during the afternoon, as follows:

Welcome—W. B. Thomas, General Chairman.

Song and Drill—St. Francis de Sales school children.

Folk Dances—Lakeside school children.

Scarff Drill—Riverside school children.

Demonstration and Talk on Home Work—Miss Aurelia B. Potts, from the Michigan Agricultural college.

Folk Dances—Westside school children.

Sayings of Lincoln and Washington—Central school boys.

Closing Chorus, "America, the Beautiful"—Central school children.

CHARTIER FUNERAL FRIDAY

The funeral services of Charles Chartier, who was killed Tuesday afternoon were held yesterday morning from the St. Francis de Sales Catholic church. Rev. B. J. P. Schevers officiated and interment was at Lakeview cemetery. Eight friends of the deceased, Martin Barr, Alcide Beaudoin, Ed. Parker, William Goudreau, Clifford Beaudoin, Levi Mechaud, Floyd Gonyear and Joe Hohlak acted as pall bearers. The floral offerings were profuse and beautiful.

MENOMINEE WINS SCRAPPY BATTLE FROM ESCANABA

Outplaying the locals in both team work and passing the ball, Menominee high won from Escanaba last night at the high school gym by a score of 27 to 18.

A crowd of 500 fans saw the contest and pronounced it a first class exhibition of basketball.

Seventeen Fouls.

Giessa was the Menominee team's leading point getter, annexing 11 of the visitor's counters. For the home team, Christie marked up one more than half. Six of these were free tosses.

Fouling was frequent, a total of 17 penalties being charged to both teams, but the game was not as rough as these figures would indicate. The lads played hard—that explains it.

Escanaba Takes Jump.

Escanaba took the lead for the first few minutes of play but was unable to block the consistent offense of the Menominee players.

The box score follows:

	Menominee			
	FB	FT	FL	Tot.
Gleason, rf.....	4	0	2	8
Sjosten, lf.....	3	0	4	6

ESCANABA, MICH.

Fifty Will Dare Flu Test to Aid Science

Boston—Fifty healthy young men, volunteers from the naval detention barracks here, were taken to the quarantine station at Gallups Island today to submit to influenza tests by a board of government experts. The men will be subjected to every known method of infection in order that an exhaustive study of the "cause and mode of spread of influenza" may be made.

JACKSON—Eighteen pullets and two hens owned by Albert Meder, of Addison, made a record of 344 eggs during January.

COMING DANCES

Unity Hall, North Escanaba, Saturday, Feb. 8.
Ladies' Auxiliary Railway Conductors, Clark's Hall, Tuesday night, Feb. 11.
Company F, Military Ball, Deft Hall, Wednesday evening, Feb. 12.

Swirl-Ler Klub Dance.

The dance given by the Swirl-Ler Klub at the Clark hall last night was largely attended. The affair was arranged in honor of the Menominee basket ball team.

Cafeteria Supper.

Following the high school dance yesterday afternoon, a cafeteria supper was served at 6 o'clock in the gymnasium by the Girls' League. The proceeds of the supper will be used for the support of a French war orphan the League is making plans to adopt.

Hold Surprise Party.

Mrs. John Klinger was pleasantly surprised by a number of friends at her home on Jacob street, Friday afternoon, in honor of her birthday anniversary. The afternoon was spent in playing cards and a six o'clock dinner was served.

Entertainers Friends.

Miss Alice O'Dess entertained a party of friends at her home last night. The evening was spent in playing five hundred and dainty refreshments were served at the close of the affair.

Entertainers Junior Endeavor.

The Christian Endeavor society of the First Presbyterian church entertained the members of the Junior Endeavor at the church parlors last night. A program of games was carried out and dainty refreshments were served.

Touch a match to our Cloverland but and split hardwood and you will discover a warm good morning oozing from every pore. Telephone 810. Birds Eye Veneer company. 39-11.

George Bletz, Sr., has returned to Green Bay, after visiting with his son, George Bletz, Jr., of 1918 Hal street.

John Powers of Menominee is visiting friends here.

Julius Brandt of Stonington was a business caller here Friday.

Joseph St. Louis arrived here Friday to attend the funeral of his sister, Myrtle.

Fred Clish arrived Thursday from Gary, Ind., to visit at his home here. Herbert Sundellus of Gary, Ind., is visiting relatives here.

MARKET REPORT

Chicago, Feb. 6.—The following quotations on farm produce were issued here today:
BUTTER—45c.
EGGS—43c.
POTATOES—\$1.65 to \$1.70.
TURKEYS—30c.
FOWLS—27c.
ROOSTERS—19c.
SPRINGERS—25c.
DUCKS—29c to 32c.
GEESE—20c to 22c.
TIMOTHY—\$27 to \$28.
STANDARD—\$26 to \$27.
CLOVER—\$18 to \$25.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys bother you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding kidney disease.

Sapless wood is like a soap bubble. Prick it and you find nothing. Moral, waste no time experimenting. Telephone 810. Birds Eye Veneer company. 39-11.

Oliver Deschambeau of Bark River is spending a few days with friends here.

William Pintal, who recently returned from overseas service, has resumed his position at the George MacKillican garage.

Mrs. F. Broussier of Manistique visited here Friday.

Mrs. E. B. Mann of Clouston, Mich., is visiting friends here.

One of our would be imitators remarked the other day: "You have got to hand it to them; they sure have the key to unlock the comfort cell in this wood business. We take no credit for it though. The good Lord placed the sap in the butt end of the tree and we simply harvest the crop and pass it along to you. Birds Eye Veneer company. 39-11.

Early Feathers, Not Fine Feathers, Talk Quality of Chickens

East Lansing, Mich., Feb. 7.—It is not so much feathers that make the bird, as it is early feathers, according to the department of poultry of the Michigan Agricultural college, which has just issued a report on the results of culling experiments conducted at the experiment station in 1918.

Early Birds Are Winners. "The investigations indicated that a direct relation exists between quick maturity and egg production." The report sets forth. "Chicks taken from the incubators at the college poultry farm on March 1, 1918, commenced laying at the beginning of the second week in July, and are proving themselves most excellent producers during the present winter season.

Feathered in Six Weeks. "These layers were selected as likely birds before they commenced laying by observing certain things. At hatching time the chick is covered with down. The first feathers to appear are the wing feathers. These are followed by the tail feathers, and then come the feathers on the breast, and finally those upon the back. If the back of the young pullet is well feathered at six weeks, provided she belongs to one of the smaller breeds, or at seven weeks if she belongs to one of the larger breeds, it is a sign that she probably will come into a laying condition at an early age if she is properly fed and housed.

"Thus, one of our pullets which showed these signs of early maturity, and commenced laying on July 8, produced 27 eggs during the first 28 days in December. On the other hand one of our late maturing pullets, has not yet produced a single egg."

Short Cut to Road Nearly Completed; Fill in Two Streets

The short cut at the foot of Maple street, which Street Commissioner John Garrity is rushing to completion so far as the foundation of the roadway is concerned, will be a stretch of three blocks. The city sprinkler automobile, converted into a truck, has been engaged in hauling slag for several days.

It is planned to fill in either Oak or Norris street next, Commissioner Garrity announced yesterday, with a view to making additional short cuts to the Ford River Switch road. The Maple street short cut comes out near Butcher Creek bridge. The streets were laid out years ago but never were filled in, having been paved as far as Fifth street.

Michigan Peaches Were Severely Hit

East Lansing, Mich., Feb. 7.—Delayed reports from Michigan's fruit growing districts disclose that the peach orchards of the state came close to being wiped out last season. As compared with a yield of 298,000 bushels of peaches in 1917, only 62,000 bushels of late peaches were harvested in the state in 1918.

"The heavy losses last season in this and other sections make it look as though late peaches may become almost unknown unless new orchards are set out," declares Prof. H. J. Eustace of the department of horticulture of M. A. C., "and to set out a peach orchard in a region where trees were killed last winter is to assume a risk.

"However, for the man who has an unusually good location for an orchard, the risk may be a good one to assume."

PAYS FINE IN COURT.

Because he was drunk and disorderly, Halle Kallia paid a fine of \$5 and costs amounting to \$6.50 when arraigned in police court yesterday before Judge Emil Glaser.

MASON RENAMED SECRETARY OF ROAD BUILDERS

R. P. Mason, Delta county highway engineer, was re-elected secretary-treasurer of the Cloverland Road-builders' association in the annual convention of that organization which closed at Manistique Thursday night. Mr. Mason returned to Escanaba yesterday, reporting one of the most enthusiastic meetings the Roadbuilders have ever held.

New Vice President. Other officers named were: President—K. I. Sawyer, of Ishpeming.

Vice-president—J. E. McCarthy, of Ishpeming. Mr. Sawyer was re-elected. Mr. McCarthy's job was created under the new constitution adopted by the body.

Ironwood Next Year. The legislative and other standing committees were named and a permanent organization perfected. In the past, the association has been more of the nature of an informal "get-together" body than a working league. The 1920 convention will be held at Ironwood.

Getting Rid of Colds. The easiest and quickest way to get rid of a cold is to take Chamberlain's Cough Remedy. This preparation has been in use for many years and its value fully proven. No matter what remedy you use, however, care must be taken not to contract a second cold before you have recovered from the first one, and there is danger of this. A man of middle age or older should go to bed and stay in bed until fully recovered. It is better to stay in bed three days at the start than three weeks later on.

Women's Underwear. To close out one lot of Women's Underwear—Vests, Pants and some Union Suits—gray, white or buff colors—all sizes. Values in the lot to \$2.50—Choice from the lot—Each \$1.39
