## FRANCIS NOT IN FAVOR OF RECOGNITION

### Corroborates Testimony of Raymond Robins in Most Particulars.

Washington, March 8.—David R. Francis, American ambassador to Russia, told the Overman subcommittee of the senate today that it was at his earnest solicitation that the United States was the first nation to accord recognition to the Kerensky government.

He is unalterably opposed, however, to giving any sort of recognition to the government of Lenin and Trotsky.

### Tells of Embassy's Plight.

The ambassador gave an interesting recital of the plight of the allied embassy to Volodga and later to Archangel, when the attitude of the Bolshevik leaders became threatening. He declared the Bolsheviks planned to hold the diplomats as hostages, in the hope that this action might force the allied countries to support their government.

Lenine and Trotsky, in the opinion of Ambassador Francis, have been in the pay of Germany ever since they began their operations in Russia. Kerensky's fatal blunder, he said, was in not ordering them arrested and tried for treason when they first became active; had this been done the Kerensky government would have continued and would have been supported by all of Russia, as well as by the foreign powers which had recognized it.

### Corroborates Robins' Story.

The story related to the committee by Col. Raymond Robins of the efforts made by the American and English officials in Russia to prevent the ratification of the Brest-Litovsk treaty and to keep Russia in the war against Germany was fully corroborated by Ambassador Francis.

He said that although he had refused to have any transactions at all with Lenine and Trotsky, he had sanctioned the negotiations conducted by Col. Robins and had hoped they might bring definite results.

After the United States government had issued an order forbidding Red Cross officials from being in communication or association with the Bolshevik leaders and an order to the same effect had been issued by Henry P. Davison, head of the Red Cross, the ambassador said he cabled to the state department advising that Col. Robins be permitted to continue his negotiations.

### Differ on One Point.

Upon one point ambassador Francis' testimony differed from that of Col. Robins. The latter said in his testimony that he never advocated recognition of the Bolshevik government, but merely urged "economic co-operation" to the end that the railway lines might be kept open. The ambassador stated that Col. Robins had repeatedly urged recognition of the government by the United States.

### Calls Them Deadly Menace.

Ambassador Francis asserted that 90 per cent of the Russian people are against the Bolshevik government and that only the reign of terror instituted by Lenine and Trotsky enabled them to retain control. He predicted dire consequences to the world if they remained in power much longer.

"If this order continues in Russia," he said, "there will be no peace in the world. If the Lenine and Trotsky government remains, Germany will have won the war and not lost it. Ten years from now Germany will be stronger than ever."

The ambassador declared that the present government in Russia should be destroyed. When asked, however, if he believed the United States and the allies should send troops for that purpose, he insisted it was a question which could not be decided publicly.

Mrs. Adam Krutch and daughter, Iona, and niece, Mildred, of Harris, visited here Saturday.

John Lambert left for Battle Creek called by the illness of his son, Gordon.

## RICKEY

Branch Rickey, president and manager of the St. Louis Cardinals, has assumed a tremendous task. He is taking hold of a partially wrecked team and will be subjected to a real test. Rickey managed the St. Louis Browns for several years before they were sold to Philip Ball, who succeeded Rickey with Fielder Jones.

## Marshall Man Choice Of School Board To Succeed Supt. King

W. B. Olds of Marshall, Mich., will in all probability be the next head of the Escanaba school system, succeeding F. E. King, who resigned a short time ago to take a position as superintendent of schools in an Illinois city.

Mr. Olds' election took place at a meeting of the board of education early last week. He has been notified of the board's action and contracts are now on the way to Marshall. There is little doubt as to his acceptance.

### Discovered by Chance.

In its search for a superintendent, following the resignation of Mr. King, the board learned from "foreign" sources, something of Dr. Olds' capabilities. After his investigation, of which the Marshall man was not advised, he was asked if he would accept the position here at a salary of \$3,500 per year. He replied that he would and immediately made a formal application for the place.

Two weeks ago he came to Escanaba. The visit strengthened the board's desire to secure his services and the candidate was favorably impressed with the appearance of the job.

At the next meeting, the board unanimously voted to engage him. The contracts were at once forwarded.

## Michigan Man.

The superintendent-elect is a Michigan man and a graduate of Michigan University where he was awarded his doctor's degree.

His experience has been broad and his career remarkably successful. The board is much pleased with its good fortune in securing his services and believes that the public in general will be equally pleased.

Dr. Olds will probably come to Escanaba about August 1, when Mr. King's resignation becomes effective.

## Final Peace Treaty To Come Before May

London, March 8.—Indications that the government expects the final peace treaty to be signed within two months is seen, according to the Daily Express; in the fact that King George has written Mme. Melba, the prima donna, asking her to return from Australia to sing at a gala peace performance at Covent Garden in May.

## FARMER AIDED HURLEY TELLS THE COUNTRY

### Explains Advantages the Agricultural Interests Get in Ships.

Washington, March 8.—How the new American merchant marine is aiding the farmer and stock raiser was told by Edward N. Hurley, chairman of the United States shipping board, today. He declared that more than 1,500,000 tons of surplus farm products are being shipped to Europe and more than 80 per cent in American bottoms.

### Caused Big Price Drop.

Because of inadequate ocean transportation, the prices of farm products had an appalling drop at the beginning of the war, he said. "The armistice brought similar conditions, but the situation was saved by the ships of our own merchant marine, those ships carrying overseas the greatest shipments in the history of American commerce."

"Our merchant marine was never as large as it is today. It is growing faster than it ever grew before. And the faster we build ships the greater will be our commercial independence."

### Dependent Upon Rivals.

"America leads all other countries in agriculture. Before the upbuilding of our merchant marine we had been likened to a department store without a delivery system, depending on rivals for use of delivery wagons. The war has opened our eyes to that. "Our commercial independence can only be maintained by having ships of our own."

### Two Held For PART IN PLOT

Russian "Black Flagger" and Woman Planned to Kill President.

Newark, N. J., March 8.—Nicholas Micheloff, who was arrested in Bayonne last night and a woman giving the name of Mrs. Fischer, who was taken in custody here tonight, are being held pending investigation by federal authorities of an alleged plot against the life of President Wilson.

The woman, who admits being an anarchist, was said tonight to have informed the police that at the meeting of extremists in South Bethlehem, Pa., two years ago, it was decided that the government of the United States could be overthrown if the president and several other officials of the administration were removed. Whether any further steps were taken by the anarchists is not disclosed.

Micheloff was arrested while distributing pamphlets among the employees of an oil company at Bayonne. Most of the pamphlets were in the Russian language.

In the man's room the police found a quantity of anarchist literature, a revolver, and several red flags. He had been in this country only two years.

## China Asks Parley To Curb the Japs

Paris, March 8.—China asked the peace conference to curb Japanese militarism and restore China to the Chinese.

Unless this is done, the Chinese say, another war will break forth which will again encompass the whole world.

## Red Flag Bearer Is Among the Rioters

London, March 8.—A Russo-Canadian soldier, carrying a red flag, was among those killed in the riot of Canadian troops at the Kinmel military camp in Wales yesterday. The damage done by the rioting, which arose from complaints by the soldiers over delay in demobilization, is estimated at \$25,000. About 25 were killed and 40 wounded. Quiet has been restored at the camp.

## Ebert Government Emerges Victorious From Bloody Battle

### BULLETIN.

London, March 8.—Occupation of Berlin by the Allies by May and the policing of the whole of Germany by allied troops are probabilities involved in the final armistice terms, Reynolds Newspaper says it learns on reliable authority.

### BULLETIN.

Paris, March 8.—The Allies have accepted the American viewpoint that food is the only effective means to kill the incipient Bolshevism in Germany. The American estimate is about 400,000 tons of food should be sent into Germany each month.

Berlin, March 8.—Blood and iron once more have proved an efficacious cure for terrorist outbreaks in this capital. With utter ruthlessness, working on the theory that no price in lives was too high to pay for saving the fatherland from anarchy, War Minister Noske has put down the Spartacan rebellion, and tonight Berlin is quiet and orderly again, though some of its principal streets and squares resemble the bloodiest battlefield in France.

The week was the worst in the city's history. The battle reached its climax yesterday morning and began to simmer down at noon, the rest of the day being spent in "mopping up" the mess of Reds holding out to the bitter end.

The price came high—150 killed and at least 600 wounded. The death toll may prove higher.

From a pile of debris which was a stately structure before the government's war planes swept down upon it and dropped bombs, rose the muffled groans of wounded rebels, and the rescue work is necessarily slow.

The general strike is still in force, but the majority of workers are expected to return to their jobs by Sunday at latest.

### GREEK KING FLAT BROKE

Geneva, March 8.—EX-Queen Sofi of Greece, sister of the ex-kaiser, is compelled to pawn her jewels to help out her husband, ex-King Constantine, who is "flat broke."

### Cook Opens Battle For a New Trial

Chicago, March 8.—J. Norman Cook, found guilty of the killing of Billy Bradway for the latter's attention to pretty 18-year-old Norma Cook, began a fight for a new trial when the verdict of the Jury was read in court today.

The verdict was reached on the first ballot.

Cook was unprepared for the verdict of guilty. He had heard the rumor that came from the court room last night that a verdict of not guilty had been reached.

### Verdict Startles Him.

A broad smile wreathed his face as he came into the court room today. The world seemed bright for him and he saw himself walking away in a few minutes, a free man. He pushed his way through the crowd and took a seat beside the attorney. A moment later, the jury filed solemnly in. The foreman handed the clerk the verdict.

Cook, smiling happily, stood up. Slowly and distinctly the clerk read the verdict.

"We, the jury, find the defendant, J. Norman Cook, guilty of manslaughter in the manner and form as charged in the indictment, and fix the punishment at imprisonment in the penitentiary."

The smile faded from Cook's face. It came first a look of astonishment and then of despair. He sat in the seat, pale and trembling.

Cafe Man Missing; Girls Want Wages

Dan West, who for the past eight or nine months had been proprietor of the Home cafe, was missing yesterday.

Employees of the place operated it until late in the afternoon before they fully realized that they were without an employer.

Among the claims against West are \$161.50 in overdue wages to dining room girls.

Although many had known that his financial circumstances were not the best, his sudden departure came as a surprise to his acquaintances.

Marriage

Re-establish Marriage as Sacrament to Preserve Republic, Says Priest.

DETROIT.—"The world is passing through a terrible crisis that may be numbering the days of this republic, while it plunges Europe into anarchy."

"All is Not Well." "Unthinking men may say the American people will not tolerate conditions such as exist and daily increase in Europe...

"Matrimony is a sacrament and all the legislation of the church groups itself about this dogmatic fact."

"We must re-establish marriage as a sacrament over which the state has no control if we would preserve this republic from the anarchy abroad," the priest concluded.

In his opening noon-day Lenten discourse at St. Aloysius' church, the Rev. Fr. Emmett Hannick stressed the Christian graces of self-denial and penance that he said disciplined the will to that sort of self-restraint and self-denial possible only in those fortified by faith.

"The church teaches her children to say no in things legitimate that they may say no in things illegitimate when the hour of great temptation comes," said Fr. Hannick.

HERE ARE HINTS FOR THE GARDEN

Timely Suggestions to Give Thought to Now Before Season Comes.

Plants for second crops may be raised in an outdoor seed bed occupying small space. These plants may be grown while the space allotted to them in the garden plot is still in use for earlier crops.

When heavy frosts are over, plant early peas, onion sets and seed, early potatoes, kale, lettuce and spinach. All of these will stand light freezing.

When frosts are about over plant radishes, parsnips, carrots, beets, late peas and early sweet corn, and set out cabbage and cauliflower plants.

When apple trees have finished blossoming plant cucumbers, melons, pumpkins, lima beans and get out the rest of the indoor plants.

Laying Off Rows. Straight rows add to the garden's beauty and make cultivation easier.

Sunshine. In the location of a garden it is no ways possible to choose conditions to sunlight. It is important, therefore, that in the arrangement of the various varieties of vegetables which are to be planted, due care should be given to providing the greatest exposure to the sun for those crops which need it most.

Vary from Last Year's Plan. It is important to remember that in diseases and insects are apt to live in a spot in which they have become established.

Backachy Or Kidneys Bother. Less meat, also take glass of Salts before eating breakfast.

Japanese Idea of Music. Among the Japanese especially, a directly divine origin is attributed to music.

Try This for Sour Stomach. Eat slowly, masticate your food thoroughly. Eat but little meat and none at all for supper.

UNEMPLOYMENT STILL GAINING

Government Reports Show Increase of 31,000 for Past Week.

"While there has been but little change in the area of unemployment during the past week," says the U. S. Employment Service Bulletin, "there has been a heavy increase in the surplus of labor over demand; the number of cities reporting surpluses has increased 1 per cent and the number of cities reporting the demand equal to the supply has decreased 2 per cent."

City Reports Are Out. Reports compiled by the United States Employment Service obtained from their field offices, show however, an increased surplus in this area of approximately 31,000 over the previous week. Present reports indicate a general surplus of 349,197 in 72 cities.

Probably large surpluses exist. South Better, Fixed. Cleveland's surplus has grown approximately 6,000 during the week, now totaling 75,000. Detroit ranks second with 25,000, and Buffalo third with 19,000.

During the week ending February 1, the Federal Employment Service received 1,955 applications for jobs. Of this number 77,877 were placed in employment. This is 13,701 less than the number placed the previous week, indicating a decrease in opportunities for employment.

Detroit Situation Better. In Detroit, there is a surplus of 25,000, which is a decrease of 10,000 over last week. No explanation is given of this heavy decrease although it is known that the automobile plants are not taking on many additional men.

Grand Rapids, Flint and Port Huron all report surpluses. Jackson reports equality in labor supply and demand.

Bad Taste in Your Mouth. When you have a bad taste in your mouth you may know that your digestion is faulty. A dose of Chamberlain's Tablets will usually correct the disorder. They also cause a gentle movement of the bowels.

Hero Lists Arrive From Gen. Pershing

Minneapolis, March 8.—The 100 great acts of heroism performed by American soldiers during the fighting in France have been announced by General J. J. Pershing in a cable message received in Washington today.

The list was made at the request of secretary of the Treasury Carter Glass and was announced only after long deliberation on the part of Gen. Pershing and the board of officers who pass on recommendations for the Distinguished Service Cross.

Unparalleled Bravery. Instances of daring, declared by many men to be unparalleled in the annals of warfare, make up the document that is considered in Washington the most interesting that the Titanic struggle has produced.

"Those 100 gallant deeds should make everyone proud to think he is an American," said A. R. Rogers, chairman of the Ninth District War Loan organization. "Any one with a spark of patriotism or a drop of red blood cannot help but be thrilled at this great recital of deeds of self-sacrifice enumerated. Even those who gave to the limit in the Liberty Bond campaigns must feel how little they really gave in comparison to these brave boys who gave their bodies to the land they loved."

From All Ranks. Lieutenant colonels and untrained recruits are on the list. Valorous assaults on strong machine gun nests; single-handed attacks on automatic riflemen; voluntary offers to go to certain death and scores of other cases make up this story of brave American manhood.

Negaunee Game Will Be Worth Watching

"Get Negaunee" is the word at Escanaba high for the week. Negaunee comes for a game of basketball on the Escanaba floor Friday night and it is one of the best chances of the season. Tickets are to go on sale Monday or Tuesday and it is likely that the sale will be a large one.

The Press wire had the totals of the Menominee game a little twisted yesterday morning. The count was 18 to 14, instead of 17 to 13. Brother Tom should have had credit for one field basket and two free throws and two free throws for Buell, two field baskets.

Menominee should have had credit for an additional free toss. Japanese Idea of Music. Among the Japanese especially, a directly divine origin is attributed to music.

Iron Trade Review

Cleveland, Ohio, March 6th: The Iron Trade Review today says: Calling together of all iron and steelmakers at New York this week to discuss trade conditions has operated to raise the current expectations of buyers that definite steps toward further price adjustment may be near at hand.

If in reality one of the chief aims of the Redfield proposal is the development of lower prices for the railroad administration especially and other government departments, the failure of congress to authorize appropriations greatly weakens the effective possibilities of this plan as a trade stimulant.

Curtailment of pig iron operations is given numerical expression by the production statistics for February. With the exception of December, 1917, and January and February, 1918, when furnace operations were hopelessly upset by traffic and weather conditions, and also of February, 1917, last month was the first to show an output below 3,000,000 tons since September, 1915.

In the face of greater price uncertainties, quick delivery buying in steel products has kept in line with the gradually expanding volume of recent weeks, although there has been an immediate pause in some districts until after the meeting of producers this week.

If conditions mean anything, they denote the minimum needs of present consumption are of respectable proportions, although not sufficient to provide a satisfactory operating situation generally. Industry plainly shows signs of an impatient inclination to forge ahead.

nation to forge ahead. The increased inquiry for shop equipment, though, not yet bringing a comparable showing of orders, is a hopeful symptom. The automobile industry still stands out a conspicuous example of forward motion.

Women of Michigan This is Your Affair!

IS IT NOT PROVIDENTIAL that the first vital issue to come up since the women of this state have gained their franchise is that issue which most intimately and most seriously affects the life and happiness of woman—the booze question?

IF THERE WAS ONE QUESTION on which women have always wished they could register their convictions it was on this one of the saloon.

ON APRIL SEVENTH the enfranchised women of Michigan will enjoy that golden opportunity—and for that reason we are absolutely certain not only of success, but of a vote so overwhelmingly against this last forlorn effort of the "Wets" as to end the matter for all time.

FOR WE CONFIDENTLY expect that the most intelligent vote ever cast in this state will then be recorded—the intelligent, clear-seeing decision of the women added to that of the men who previously voted this same question down.

FOR—MAKE NO MISTAKE—while the so-called "Light Wines and Beer" amendment sounds almost harmless, it is the old question under a cloak of verbiage—it means in plain language the re-opening of the saloon.

AND YOU KNOW WHAT that means—women know only too well.

SO WE WILL NOT ATTEMPT to analyze that particular document here. Time enough for that before election day.

OUR PURPOSE NOW—our ardent desire—is to impress upon the women of the state, the necessity of registering at once.

TRUE, YOU HAVE until March 22nd—and in cities or townships of less than 10,000, until March 25th—to register.

BUT YOU KNOW how dangerous is delay. Something may come up—you may delay and then forget until it is too late—and then find yourself barred from exercising that precious privilege for which so many good women have fought so long.

DON'T DO IT—DON'T put off this matter from day to day. It is vital. You will want to vote on this amendment. We need not advise you how—there is no doubt as to what women will do on this subject.

ALL WE ARE ANXIOUS ABOUT is that you register—so you will be able to vote on this pernicious bit of attempted legislation on April seventh. And on every other issue that is to be voted on then.

IF YOU DON'T KNOW the conditions of registration, read below—we give a brief outline.

YOU WILL OBSERVE among other things that you are not asked to tell your age—merely to state that you will be 21 or over on election day.

SO THAT IS EASY—isn't it? And the rest is just as simple.

ALL YOU NEED DO IS—do it! Don't delay. Don't put it off. Exercise your voting privilege now, that you have it. Prove that you prize and that you deserve it.

REGISTER—Today is the best day.

BUT IF YOU JUST CAN'T go now, set down on your calendar a certain day and make a solemn resolve that on that very day you will go and register.

REMEMBER—MARCH 22nd is the last day, except in cities or townships of less than 10,000. Then you have till the 29th. But don't wait till the last day. Register now.

THEN YOU CAN VOTE—cast your first ballot against that dangerous bill, and as you may desire on any other—April 7th.

Simple Rules For Registering. Any woman 21 or over, an American citizen by birth, marriage or naturalization can vote—if her name is on the registration book. You must appear in person. Register with the city or township clerk any day except Sunday or holidays up to and including March 22nd.

Michigan Anti-Saloon League Headquarters, Lansing, Michigan.

Women Were Just Going to Vote

In the last days of Pompeii, when Vesuvius blew up, and spoiled everything. It's a wise thing for ladies—and gentlemen—to be safeguarded against blow ups and blow outs, especially whenspinning along a country road.

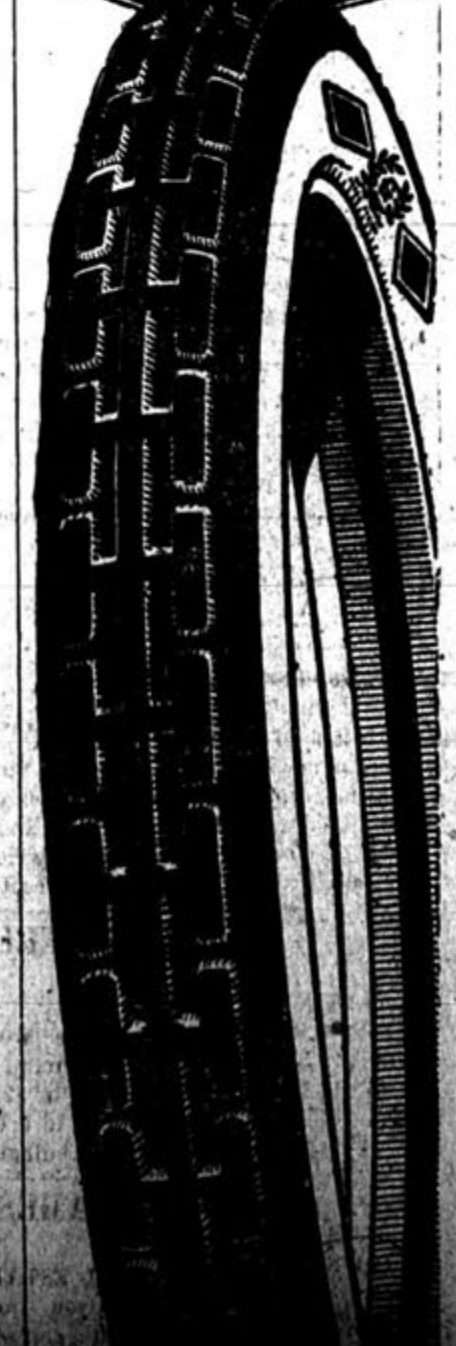

And the best protection against blow outs is Goodrich Silvertown Cord Tires, those handsome, powerful tires, you see on most smart cars—

The tires with the Twin Red-Diamonds on the sidewall.

Silvertown's cable-cord body is immune to ordinary puncture. Silvertown Cords also give a special ease, elegance, and economy, unmatched by other tires, and render the full Service Value of all Goodrich Tires.

 Mrs. G. Olson entertained a number of friends at her home, 1311 Pitta street Friday afternoon. Social diversions were enjoyed during the afternoon and refreshments were served.

**A Financial Bulwark**

The past several years have clearly demonstrated the stability and soundness of American finance.

This institution is a member of the Federal Reserve System.

As a result, not only are the funds of our depositors safeguarded in the most approved way, but their interests are served and conserved by the sound policies that have furthered the development and expansion of America's national banking system.

New accounts are invited.

**Snappy, New Spring Spring Suits**

Hats, Caps and Shoes

IN FACT, EVERYTHING TO OUTFIT MEN FROM HEAD TO FOOT

To be real honest with you—NEVER saw a better looking lot of suits. Every inch of them—suits any man, no matter how particular, would be proud to wear. No men need go away from here unsuited.

HIRCH, WICKWIRE & WALTON

Tech, Cascade, Wickwire, Colby, Liberty, McCord, etc., every single one of these models particularly suited for young men just out of the service.

None too early to pick out that new spring outfit—want you to come in at your earliest convenience—wonder to have you slip into one of the new suits! Want you to see yourself in the mirror. Want your honest opinion after you have examined the fabrics, carefully noted the details about the beauty of the patterns and the excellence of the fashions. Want you to NOTE the "littlest" of details—how beautifully turned are the lapels, how smooth and graceful is the curve of the shoulder—note the pockets, waistline, lining—yes, even button holes. Through and through a finish not found in any but highest priced custom tailored clothes. These suits are Hand Tailored throughout.

When the price is quoted to you—bet you'll ask it repeated. You could hardly believe that such beautiful suits could be sold at such reasonable prices. You'll be satisfied that they are as low or lower than those prices charged in stores you are not sure about.

OUR SUITS ARE SOLD WITH A BINDING GUARANTEE OURS AND RELIABLE MAKERS

**SOME CHARMING STYLES**

Everybody is doing it. Doing what? Buying a bottle of Escanaba Compound of grape and other antiseptic fruit juices blended to make a real drink.

**Labor Savers.**  
 Both time and trouble are saved by placing an ordinary three-arm towel rack above the right end of the sewing machine. On this rack can be hung the sewing tape, etc., and pieces of unfinished goods which otherwise slip on the floor beneath the machine.—From Good Housekeeping.

**Crude Tools, Artistic Work.**  
 The natives of Torres straits, Queensland, make numerous ornaments out of tortoise and pearl shells. Hair combs, earrings, finger rings, chains and brooches made of tortoise shell and inlaid with mother-of-pearl are given an artistic finish. And often the only tool used is a knife or a piece of broken glass.

**Turn About.**  
 Pochontas Star—Fred Jones, our worthy postman, has purchased an auto in which he carries the mails on weekdays and the females on Sunday.—Boston Transcript.

**Origin of Apple Dumplings.**  
 A dumpling is a good old English dish and comes from the word dumpen, that meant to throw down suddenly and the diminutive ending -ing. The idea was a little cake that was made by throwing raw rough dough into boiling water.

**Like as Hot; Like as Not.**  
 As children we used to think that the sardines came from Sardina. Now sardine cans and sardines out \$10,000,000 worth a year, and claims there are no better ones on the market. We suppose the olive oil the fish are packed in comes from Mississippi or South Carolina.—Brooklyn Eagle.

**Antiquity of Gloves.**  
 Gloves are of great antiquity, having been worn in England as long ago as in Saxon times. Practically the only change which there has ever been in styles of gloves has been in their decoration. Sometimes they were richly adorned with jewels, \$5 having been paid for a pair in the fourteenth century.

**Life's Minor Worries.**  
 "Frequently it's worth a great deal over the question of calling on another woman who doesn't care in the least whether she calls or not.—Boston Transcript.

**"THE BANK OF THE PEOPLE"**

Established 1871 Nationalized 1887

**The Expanding Dollar**

The dollar you earn today will buy only about half of what it would be in 1914. Today you have spend \$1.02 to get the things \$1.00 would buy four years ago.

But the dollar has shrunk about as far as it can. Authorities assert that the day of declining prices is at hand.

This means that those who are prudent enough to economize and add to their surplus today will get more for their money than those who spend today when prices are high.

This bank invites the accounts of those who reason with the dollar. They will find a service particularly helpful.
