

### Ninth District Has Selected Its Heroes

Minneapolis, March 11.—Among the 100 bravest men who participated in the Great War with the American army are six from the Ninth Federal Reserve District, according to word received by Chairman A. R. Rogers of the district's War Loan organization.

Of the thousands of brave deeds performed by the sons of America on French battlefields, General Pershing and a staff of his generals selected 100 as the most brilliant of all. The choice was made after long deliberation and consideration of all the cases reported, at the request of Secretary of the Treasury Carter Glass.

The list was cabled to Washington this week and government officials say it will show even the most liberal purchasers of Liberty Bonds that they did little for their country in comparison with these boys who laughed at death for their country's sake.

The Ninth District men whose names will live as long as history is written follows:

**THEODORE PETERSON**, Sergeant medical detachment, 151st Field Artillery, killed in action while giving aid to wounded comrades. Home address: Minneapolis.

**LT. LOUIS CUKEA**, 5th Regiment Marines. Single-handed, he bayoneted to death an entire machine gun crew that was inflicting heavy losses on his company. Home: Minneapolis.

**NILS WOLD**, Private 138th Infantry. Killed in action after destroying alone five machine gun nests and taking 11 prisoners. Home address: Kelly Lake, Minnesota.

**CLAYTON K. SLACK**, Private 124th Machine Gun Battalion without aid he captured 10 prisoners and two machine guns that were mowing down his comrades. Home: Lambeau, Wisconsin.

**WILLIAM R. PECK**, Sergeant 354th Infantry. Killed in action when he shielded an officer from machine gun fire with his own body. Home: Washburn, Wisconsin.

**WALTER S. SEVALIA**, Corporal 7th Engineers. Swam the Meuse with a cable for a bridge under murderous fire. Repeated his performance later and crossed an open field with an important message although wounded. Home: Brule, Wisconsin.

The stories of the 100 bravest acts have aroused wide interest in all parts of the country and their publication has been awaited with interest for several weeks. The list shows that the heroes are not all among the ranks of the officers and it also shows that no matter how high their grade, that American officers are just as brave as their men. The heroes mentioned range in rank from privates to colonels.

John Olson of Stonington visited here yesterday.

Clifford Pulver left Tuesday morning for his home at Norway.

Jane Kennedy, eldest daughter of Mr. and Mrs. W. J. Kennedy submitted to an operation for appendicitis at Laing hospital yesterday. The patient is doing nicely.

### Meat Injurious To The Kidneys

Take a Tablespoonful of Salts If Back Hurts or Bladder Bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

**Robert Pryal** left Monday night for a few days' visit at St. Paul.

## DEALERS RALLY TO ROLL CALL

County Organizers for the C. A. D. A. Are Getting Good Results.

Reports to the officers of the Cloverland Automotive Dealers' Association, received from workers in other parts of the peninsula, indicate that the program for promoting the tourist business in this section, arranged at the initial meeting of the organization here Thursday night, will be enthusiastically supported by dealers not represented at the convention.

**Hundred Per Cent is Goal.**  
"One hundred per cent." is the goal towards which the membership gatherers are working. This has practically been attained in Delta county—every dealer who has a claim to a seat in the "live wire" section has placed his name on the roll.

Reports from Menominee and Schoolcraft counties are also very encouraging. The other counties are farther away and reports of the progress made are more or less incomplete.

**The Organization.**  
County organizers, who with the officers will constitute a board of directors for the association are:

Delta—J. H. Knutsen.  
Schoolcraft—Nels Johnson.  
Dickinson—E. J. Kingsford.  
Chippewa—R. A. Morrison.  
Mackinaw—C. B. Wing.  
Luce—J. C. Foster.  
Alger—M. A. Doty.  
Menominee—Charles Janson.  
Iron—Edward Lindwall.  
Baraga—J. C. Menard.  
Ontonagon—C. J. Crocker.  
Gogebic—John Kluck.  
Houghton—James McClure.

**Canvass To Be Thorough.**  
A thorough canvass of all the dealers will be made. In the meantime plans for a large scale publicity campaign will be arranged and the machinery set in motion to put Cloverland on the tourist map of the country.

**Poultry Deserves Your Thought**

The day is past when hens were expected to live on what they could pick up, sleep in a shack and lay an egg a day. It can't be done; and with feeds at present prices it doesn't pay to let your poultry burn up all its food to keep itself warm, either.

Poultry houses built of "Old Faithful" HEMLOCK Lumber cost so little and increase the laying so much that nobody ought to be without one. Special designs for this climate.

**Draft Board Is Now Rearranging Cards**

"Did you ever play solitaire with a deck of 14,000 cards?" asked County Clerk Albert Pepin, yesterday as he arranged, rearranged and then rearranged a tall stack of original registration blanks. On receiving a negative reply, he said:

"Well, it's some game."

This "game of solitaire" is practically all that stands between the members of the draft board and completion of their jobs. When the cards are arranged alphabetically so that they can, at any time be used as an index for the questionnaires that have been stowed away in the cedar packing cases, the records will be ready for sealing.

All that will then remain will be to notify the government and await a shipping order.

The board had believed its work practically completed last week. On Monday, a change in instructions made it necessary for them to do a part of the work over.

**Mayou Prepares to File Delinquents**

City Treasurer Arthur Mayou is preparing a report on delinquent taxes of the city, to file with the county treasurer. It will be in readiness early next week. The total delinquent taxes this year amount to about \$28,000, which is about the same amount as last year.

**Escaped Hun Agent Sent to Oglethorpe**

Cincinnati, O., March 11.—Emma Campden, alias Mary Hanson, aged 50, alleged German alien, arrested here, was ordered taken to Fort Oglethorpe, Ga., by government officials at Washington today. The woman was arrested in Chicago last October, but escaped. As secretary to the New York branch of the German Aid society she is accused of activity in sending relief to German prisoners of war and spreading German propaganda.

**LIME MUST BE ORDERED EARLY**

**Quarantine Held Against Corn Borer in States of East.**

There appears to be a disposition on the part of farmers, for one reason or another, to delay ordering fertilizers and lime. The bureau of soils of the United States department of agriculture calls attention to the fact that unless lime is ordered early farmers may have much difficulty in securing their requirements both because of the fact that lime plants are unable to store up supplies and because of the strain on transportation. Somewhat the same situation exists as to fertilizers. The regional

director of railways for the southeastern district recently called attention to the fact that fertilizer movements are greatly delayed. Ordinarily, 40 per cent of the whole fertilizer tonnage, he says, has been shipped by February 10, but this year less than 15 per cent had moved by that date. The normal yearly movement is about 160,000 carloads and, at the date of the director's appeal, it was 50,000 cars short of what it should have been. "It is easy," he continues, "for you to see what I fear. A flood of business at the last moment cannot be moved to the satisfaction of our patrons and complaints will follow."

It is apparent, therefore, that delay in ordering either fertilizers or lime may have serious results.

**Attempt to Unite All Revolutionists**

Chicago, March 11.—Government investigators let it be known today they have evidence to consolidate all radical groups of the country under the red banner of the I. W. W. In advance of the announced "Soviet convention" in Chicago May 1.

"The government's scrutiny of the effort to unite all revolutionary factions" said acting Superintendent Berry of the federal department of investigations. "If the union has not been affected by May 1 it probably will be completed at the 'Soviet meeting.'"

"There is nothing alarming in the situation, especially in Chicago. Chicago, although the center of I. W. W. activities is not a Red stronghold. At present it is strongest in northeastern coast cities and in the west."

Investigation today disclosed eight of the radical newspapers published in Chicago, named by Solicitor General Lamar in his testimony before the senate committee sitting in Washington, are all printed in a scheduled I. W. W. printing office.

**May Show Michigan Road Picture Here**

County Highway Engineer R. P. Mason is taking steps to secure bookings for the Michigan Good Roads association's film, "The Road to Yesterday and Tomorrow," which is meeting with a flattering reception in all parts of the state. The film is an expensive one and tells silently but eloquently of the need for better highways. If it can be secured, it is planned to exhibit it at one of the movie houses, in connection with the regular program.

**No Plans Made to Improve Streets**

No street improvements have been contemplated by the city for the summer of 1919, according to Walter Hodson, city engineer. Street Commissioner John Garrity will make a number of minor improvements, however, which were started before snowfall this winter. Both Maple and Elm streets, where shortcuts have been made to the county roadway, will be finished. Earlier in the season the street commissioner hauled slag and filling to the streets with a view to completing them in the spring or summer.

**CONGRESS WILL CURB THE REDS**

**Bolshevik and Anarchist Propaganda Will Be Barred by Law.**

Washington, March 11.—The urgent necessity of enacting legislation to check a distribution of Bolshevik and anarchist propaganda advocating the overthrow of the government will be one of the first matters brought to the attention of the next congress. The amazing boldness with which literature of this kind is being circulated has aroused members of the senate and house to a realization of the menace and the need of acting with promptness to suppress it.

**Shown Many Samples.**

A great many samples of the insidious propaganda were placed in the record of the Overman subcommittee of the senate today at the request of Solicitor Lamar of the postoffice department. They were numerous papers, circulars, handbills and pamphlets printed in the United States and widely circulated.

In most of these publications the acts of the Russia Bolshevik are lauded and American working men are urged to follow their example and organize to fight the government. The movement is designated as the war of capitalism and internationalism and workers are solicited to give their aid to the revolutionary movement in order to "free themselves from the shackles of slavery."

**No Law Covers It.**

Senator Overman of North Carolina, who is chairman of the subcommittee which has spent several weeks investigating the subject of Bolshevik propaganda, pointed out today that there is no law in the United States to punish those who print and circulate such literature.

The authority of the postoffice department extends only to the power to prohibit the use of the mails from distributing pamphlets or circulars. There is no law penalizing persons who may distribute it from hand to hand.

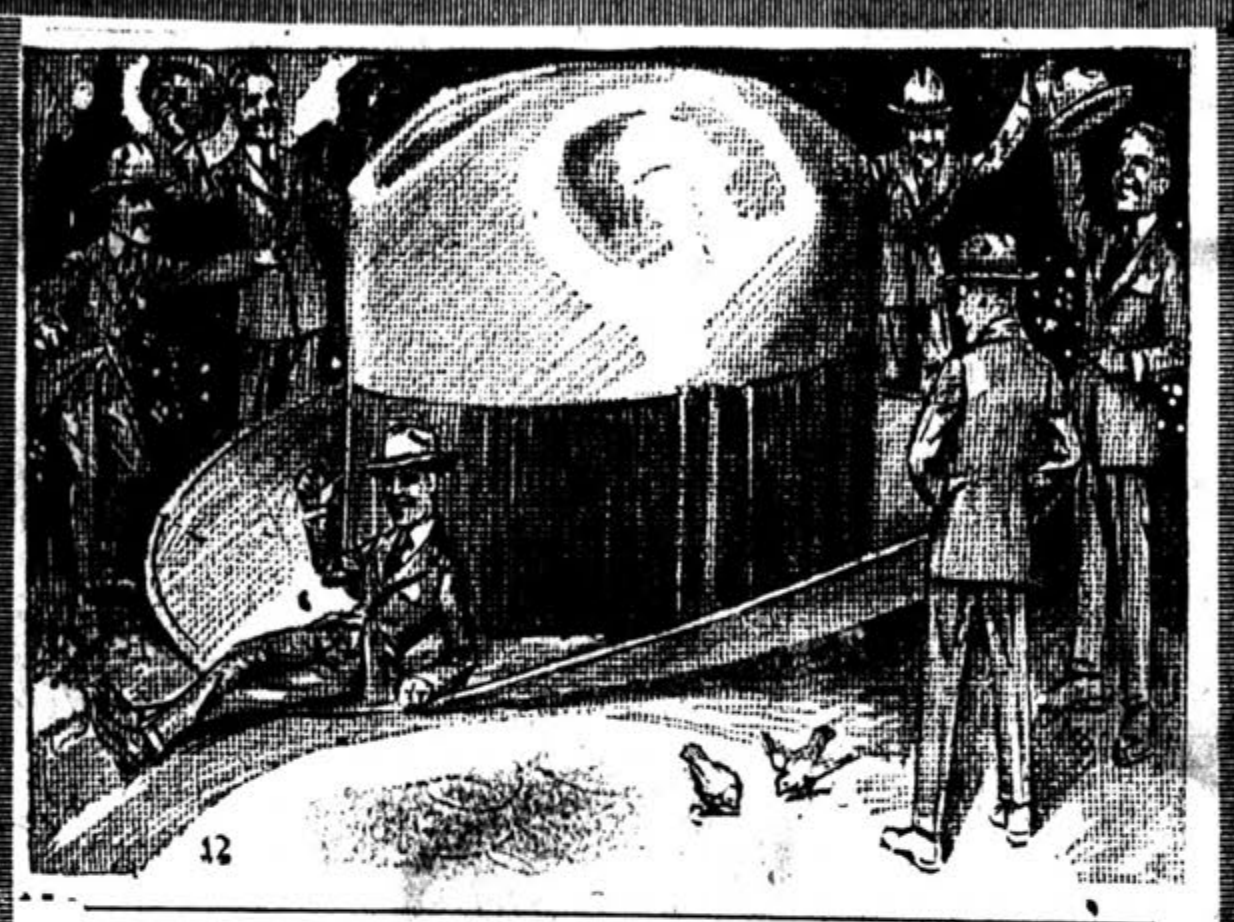

**Amend Espionage Act.**

Senator Overman tonight gave out a forecast of the report which his committee will make to the next senate on the investigation. The first recommendation in this report will be, he affirmed, an amendment to the espionage act to prohibit such distribution.

The committee also will recommend that the publication anywhere within the United States of a newspaper, pamphlet or circular in any language except English should be prohibited. The law would be especially framed to prohibit the publication of foreign language newspapers.

**Teach More Americanism.**

A final recommendation in the committee report will be a strong pronouncement in favor of teaching Americanism throughout the United States. Laws to provide for more intensive teaching of Americanism in the schools will be recommended also.

**Fire on Roof of Novak Building**

A small blaze in the roof of the Novak building, 305 Ludington street, probably resulting from a spark from a chimney alighting on the decaying shingles, gave the fire department a short chase late yesterday afternoon.

A few pails of water thrown on the roof before the arrival of the department, however, had the fire practically out of the running, and the firemen finished the job.

The damage was slight.

**Eagles Open Their "Spring Campaign"**

The "spring drive" of the Eagles is on.

A class of 20 candidates in May is the finish line and officers last night were confident that it will be reached. Enthusiasm is at fever heat. "Every member get a member" is the slogan and some of the members have asked for as many as half a dozen application cards already.

Charles O. Folio, head of the organization, mailed a snappy circular letter enclosing a blank application to the members yesterday morning. Within half an hour after these left the post office, several cards had been returned.

The drive will close in May with a big jubilee celebration.

**Clover Crop Is Hit By a Mild Winter**

East Lansing, Mich., March 10.—The clover crop in many sections of the state has become heavily damaged as a result of the unusual weather condition that have prevailed within the last year, the Michigan Agricultural college has been informed by its field agents. Much injury was done by the draught of last summer, but more has been caused by the mildness of the present winter, it is said. Because of the unusual openness of the season, the reports declare that much "heaving" has occurred.

As substitute one-season hay-crops, the farm crops department of the college is recommending corn millet, peas and oats, sorghum, sudan grass, soy beans, or oat hay if it is desired, information as to which of these crops are best for given localities, can be obtained from county agricultural agents, or by writing to the department of Farm Crops, M. A. C. East Lansing.
