

# RAILROADS GET BIG LOAN

## STATE BUYING DEPARTMENT IS ASKED IN BILL

### White Urges Exemption of New Buildings From All Taxes.

Lansing, March 21.—Exemption of the bill introduced by Representative Frank Moore, of St. Clair, to abolish the state board of health and to create the position of state health commissioner, with an advisory house council, were able to register only 40 votes. When the measure came for final passage in the house of representatives, 68 voted in favor of the bill.

A different phase was met by the bill from Representative Henry Ross, of Livingston county, to abolish the board of fish commissioners. It was killed by a vote of 70 to 16.

### Humane Act Introduced.

Cutting off horses' tails, by some considered a beautifying necessity, would be prohibited in Michigan except for breeding purposes, by a bill which was introduced in the house by Representative Lagg, of Grand Traverse. The only other circumstances under which the bill would legalize cutting off horses' tails would be upon advice of a veterinarian that such a step was necessary.

Representative Watson introduced a bill which would legalize acts done by banks on Saturday afternoon. With the law in its present form it is illegal for banks to cash drafts, checks, or other negotiable papers unless two thirds of the directors have authorized it. The bill is part of a program to unify the laws of every state in the union on commercial papers.

### Freedom from Taxation.

Freedom from taxation until 1925 for all buildings, alterations and additions began before June 1, 1922, if the method sought by Representative Fred J. White, of Detroit, to solve the unemployment problem. He introduced a bill in the house which would grant such exemption.

Representative White believes the saving in taxes will do much to wipe out the increased cost of building materials, which is now causing many persons, firms and corporations to delay erecting buildings and making other improvements upon real estate which would otherwise be made.

### Cause Building Boom.

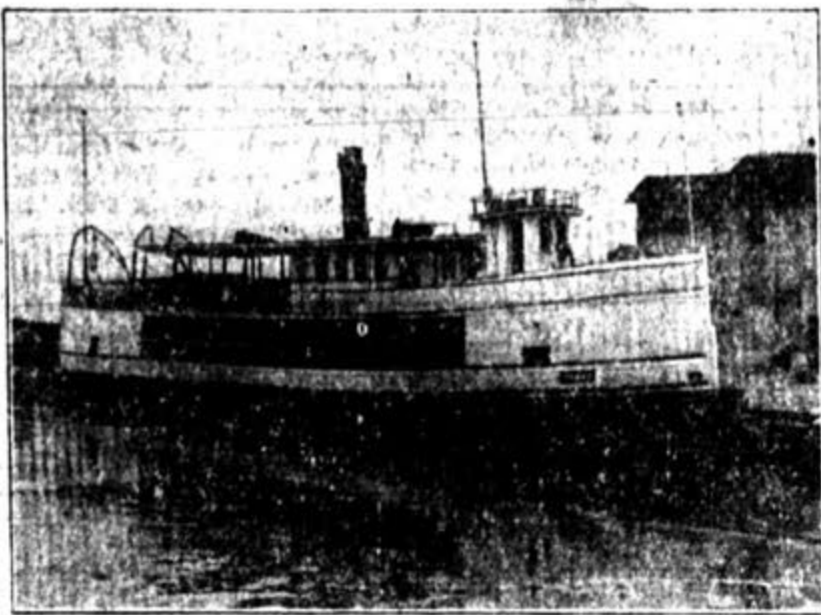

This, the legislator thinks, would cause a building boom, which would absorb the surplus of labor which now is a growing problem as more and more soldiers return from the service.

The bill provides that the exact valuation of real estate, improved or unimproved, as it appeared on the assessment rolls on June 1, 1919, shall not be increased prior to making the assessment rolls for the taxes to become payable in 1925 by reason of any structures erected or improvements, repairs, alterations, additions, or betterments. This is provided that actual work of construction shall have been begun after Jan. 1, 1919, and on or before Jan. 1, 1922. The bill was referred to the committee on general taxation.

Centralizing the purchase of all supplies, merchandise and articles of every description and character needed for the maintenance and operation of all state departments, penal, reformatory and charitable institutions in one state purchasing department is the purpose of a bill by Senator Lyman H. Holmes, of Romeo.

One of the outstanding recommendations of the budget committee was the creation of such a department, with a view to saving each year for the state many thousands of dollars. This bill is similar in many respects to one introduced in the house some weeks ago by Representative Carl Young, of Muskegon.

## NEW STEAMER COMING

The steamer "Hazel," which will be placed on the run between Escanaba and Big Bay points as soon as navigation opens, will connect this city with a large and progressive territory, previously handicapped by the lack of transportation facilities.

The "Hazel" is 100 feet long, 18 feet of beam and has a capacity of 92 gross tons, with a draft of 8 feet when light. She has just been overhauled by her owner, Capt. S. A. Carow of Cheboygan, preparing her for a large freight and passenger patronage, which should be hers when she begins her daily trips.

Capt. Carow was induced to bring the steamer to this territory, largely through the efforts of Fred Van Remortal of Fayette, who was aided in the project by a number of citizens of Escanaba and the more or less isolated points on Big Bay de Noc.

## Woman Gets \$25,000 As Insult Balm

Chicago, March 21.—Damages of \$25,000 was the award given Mrs. Margaret Reeves by a jury today which heard her story of how two detectives had dragged her from her flat to jail. Mrs. Reeves is the wife of Melville Reeves, upon whom the police have fastened the name of "side scraper" burglar. A crime had been committed. Reeves was suspected. In the raid on the flat Mrs. Reeves was found in a bathroom, and, according to her testimony the door was broken down and she was dragged to the patrol wagon without being given time to dress properly.

Arrest and imprisonment followed and Mrs. Reeves brought suit for \$25,000 against Nicholas Hunt, former chief of detectives and Detective Sergeant Charles Gratton. A judgment for \$25,000 was returned by the jury. "It was an outrage," said Mrs. Reeves. "They came into our apartments while I was in the bath. They broke down the door and forced their way into the bath. They dragged me out unclothed. They were not even going to allow me to dress and when I got permission I had to dress before them."

## 4 SHIPS CLEAR DOCKS ABROAD

Washington, March 21.—Two battleships and two transports, carrying a total of more than 4,500 homecoming Yankees cleared from French ports on March 19, the war department announced late this afternoon. They are: Transport Henderson, with 59 officers and 1,465 men, due at New York, March 31.

The Liberator, with 26 officers and 1,233 men, due at New York, April 1.

The battleship Kansas, with 27 officers and 708 men, and the battleship George, with 40 officers and 1,068 men, both due at Newport News, April 3.

## ATLANTIC CALL TOLL COST, \$5

London, March 21.—"Within three months you from your hotel room in London, will be able to call any New York telephone number and get it inside of 25 minutes and then talk for three minutes for \$5," said Guglielmo Marconi today in a conversation regarding possibilities of the wireless telephone.

## Police Hold Two in Bad Man Holdup

Hit was a bloody, bloomin' day, ol' timer. Friday was a record day in police court here since the state went dry, and the arraignments were on charges varying from the wielding of a knife with no intent to caress anyone, to highway robbery. But it was the "knock-em-cold-Dick" sort of robbery that held the boards.

The robbery was brought to the attention of the police several days ago and it culminated Friday in the arrest of George Steinmetz. His hearing was postponed until this afternoon when it is likely at least one of the two men he implicates in the holdup will be in court.

### His Wad—Just \$87.

Steinmetz, it is charged, with the assistance of several other men, attacked one Joseph Zalar a few nights ago in North Escanaba and got away with \$87 that Zalar had on his person.

According to the story told the police, Zalar appeared in the Johnson place in North Escanaba a few nights ago and asked if he could buy some whiskey. He was told he couldn't buy any in the former saloon, but about that time somebody gave him a kick in the shins and he rently took the hint and followed a fellow who assured him he could get some whiskey for him.

### He Wanted Whiskey.

Well—Zalar wanted the whiskey, so the story goes, and he accompanied the man to a dark corner not far distant from the former Johnson saloon. In the meantime, however, two other men are said to have followed in the shadows of night.

"How many bottles do you want?" Zalar was asked.

"Two," he replied.

Zowie—Zalar got a clout over the head with something about as soft as a brick and fell to the ground.

From that time on—for several minutes—he had a bad attack of something worse than "sleeping sickness."

### Bad Taste Awakening.

When he awakened from his lazed state, he missed \$87. Also—he missed the man who was going to get him some whiskey.

Now—Steinmetz is held in jail because he can't furnish bail in the amount of \$1,000. He implicates Angus Ard, Jr., in the deal, but Angus stoutly maintains his innocence. And Angus is kind of peeved at the world, but more especially Escanaba, for to sort of condemn the town in general he remarked in a sarcastic manner.

"Ya can't get a square deal around here."

### Another Man Wanted.

Whether Ard was one of the three men who attacked Zalar has not been found out by the police as yet, but until he establishes his innocence he will be retained.

One other man is wanted in the deal and late last night the coppers expected to have him in their toils before the clock made the circuit many more times.

Outside of the bad man act, the police had several little side shows.

Otto Anderson and Victor Kraski were given 30-day sentences yesterday by Police Judge Emil Glaser for being drunk and disorderly. They commenced their period of inactivity at the county jail Friday morning.

### Yes, It Was a Fine Time.

"Let me out, I say," yelled one inmate of the jail Thursday night. He threatened to tear down the cell, but failed, according to an investigation Friday morning. He had a bad case of "pain killer" overdosing.

All told—the cops had a nice time Thursday night and Friday. Seven men were in jail and Sergt. Brunell was given the post in command, so he had to listen to the discord of irate prisoners.

### Cool Miners Thank Wilson and George

London, March 21.—The coal miners' strike conference held up its deliberation today to compose a resolution of thanks to President Wilson and Premier Lloyd George.

The resolution declares that in face of the opposition worked up in America the miners want to convey their appreciation and support of President Wilson and Lloyd George's efforts to secure a league of nations.

## 100 MILLIONS ANNOUNCED AS PAID TO HINES

Washington, March 21.—In response to an appeal for assistance from Director General Hines, the war department today turned over to the railroad administration \$100,000,000.

Acting Secretary of War Crowell said that it would temporarily relieve the financial difficulties of the railroad administration resulting from failure of congress to pass the deficiency bill, adding \$750,000,000 to the railroad revolving fund.

### Owed Much of It.

The war department owed the railroad administration approximately \$68,000,000 for the transportation services during the past few months. The \$42,000,000 was turned over as an advance to cover future obligations to be incurred in demobilizing the army.

Another announcement of great interest to the business interest of the country was that the war department was no longer confronted with the necessity of holding up payments on obligations of any kind.

### Stop Some Payments.

Owing to the failure of the deficiency bill, which also carried a large appropriation for the war department, Mr. Crowell said it had been necessary to stop payments in certain cases and make a recast of all the figures and transfer of money from one fund to another to meet the situation.

The department is now paying all bills which were held up and is prepared to pay others as rapidly as they are sanctioned for the remainder of the fiscal year. Settlement of claims growing out of war contracts is proceeding rapidly, said Mr. Crowell. Failure of the contractors to file their claims is the only thing holding back the work.

### Review Most Claims.

Except in two districts, less than 50 per cent of the claims have been presented. In all districts the claims are paid almost as rapidly as they come in. In the New York district where about 50 per cent of the claims have been filed, all but one per cent of those filed have been reviewed.

## RAYMOND LANDS LOTS OF LOGS IN WISCONSIN

In spite of unfavorable weather conditions, O. L. Raymond, who has a landing contract with the Bissel Lumber Co., at Tripoli, Wis., reported that 13,000,000 feet have been landed and decked high over the mill pond there.

Mr. Raymond has been in charge of the work, returning home yesterday morning. He stated that the finest kind of hauling was done. The company ran two log haulers most of the time and the weather conditions were, to a great extent, overcome by the use of machinery.

The Raymond gasoline machines working on top of the railway, piling the logs, made it possible for the firm to make room to handle the larger quantity of logs and the rapid decking eliminated time wasted in waiting for sleights.

Consequently, the work completed in a short season, was as large as would have been possible in a normal upper peninsula winter, by slower methods, Mr. Raymond said.

### Lloyd George Wants Peace Immediately

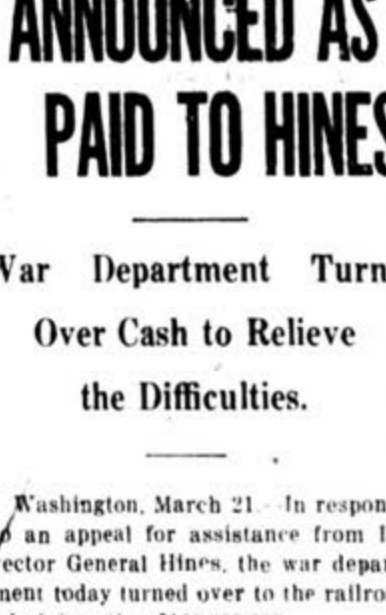

Paris, March 21.—Premier Lloyd George, in a statement here today, said:

"The first result to be obtained is peace, and the quickest peace possible."

He said all internal events in every country, allied and enemy, depend on how soon peace can be made.

"Pending this," he said, "everyone is living in expectancy and suspense."

## GOVERNOR

Dr. John H. Finley, who will be the first governor of the new State of Palestine to be created by the Allies out of the old Turkish Empire. Dr. Finley was formerly president of the College of the City of New York and State Commissioner of Education in New York.

### Trick Flyer Booked For Appearance

Dexter Adams, one of the leading civilian aviators of the country, will come to Escanaba guaranteed to make six airplane flights at the county fair.

The formal contract for the appearance of the aviator were signed last night by officials of the Delta County Agricultural society with the F. M. Barnes Co. Inc. Adams will make two flights each day on three days of the fair. Under the contract signed last night he will be required to loop the loop, fly upside down, do tail spins and side slips at each flight. No pay is to be allowed for any scheduled flights that are not made.

Representatives of five county fair organizations of the peninsula met here last night and practically completed plans for their fair amusement programs and discussed preliminaries for the horse racing cards that will mark each of the fairs.

Representatives of the five counties attending the conference of last night were: Schoolcraft, F. M. Orr, O. W. Hupper, Robert Atwood, George Kinstin; Luce county, B. Gormley; Crippewa, William Tapert, Richard Lark; Delta county, Arthur Peterson, A. J. J. C. Baker, Matt Petersen, August Erickson, J. A. Allo, W. W. Berry, R. E. MacLean, Marc Pepin and J. P. Norton.

### Street Railway Line in Receiver's Hands

New York, March 21.—The Interborough Consolidated Corporation, which is the holding company for the Interborough Rapid Transit Company operating the subway and elevated lines in Manhattan and of the New York Railway Company, which latter went into receivership yesterday, was placed in the hands of a receiver late today. James R. Sheffield was named as receiver by Federal Judge Julius M. Mayer, who fixed his bond at \$250,000.

### "Wood Presidential Club" in Michigan

St. Joseph, Mich., March 21.—Major General Leonard Wood's first Michigan endorsement for president was given him today by the Young Men's Republican club, of this city. Plans are laid for a "Wood for President" organization to be extended all over Michigan.

### MEXICAN LAND SALE TO JAPANESE IS DISTURBING

Washington, March 21.—The state department demanded today of California and Mexican Land Company, of Los Angeles, Calif., a explanation of its reported proposal to sell to a Japanese syndicate 800,000 acres of land in Mexico fronting on the California border.

Attention of the land company was called to the senate documents which carry warning to foreign governments against making land purchases on the continent. These documents are entitled "Land on Magdalena Bay" and "Purchase of Land on Magdalena Bay." They were adopted by the senate at the time of the Magdalena affair.

### Get More Telegrams.

Several additional telegrams from Senator Phelan, of California, giving further information on the plan, allow Japan a foothold in lower California, have been received by the state department.

This information, with other advice the department has, confirms the department's belief that acquisition of the large tracts of land in Mexico Japanese interests would be a violation of the Monroe doctrine. There is no longer any doubt that confirmation of the scheme would also be in contravention to the Lodge resolution setting forth the policy of the state with regard to foreign colonization in the Americas.

### Investigate Whole Affair.

Representatives of the state department have been ordered to make thorough investigation of the proposed deal. The department is deeply concerned over the question of whether or not the Japanese government back of the syndicate. Even should it appear, however, that there is no visible connection between the Japanese government and the syndicate, it is certain that the consummation of the transaction will not be permitted to avert the serious situation which would arise from the completion of the purchase, is based on the Lodge resolution, which was ratified by the senate August 2, 1912. It follows:

### Here's the Resolution.

"Resolved, that when any harbor or other place in the American continent is so situated that occupation thereof for naval or military purposes may threaten the communication or safety of the United States, the government of the United States cannot see without grave concern the possession of such harbor or other place by any corporation or association which has such relation to another government, not American, as to give that government additional power, control for naval or military purposes."

Owned by Otis Estate. The holdings which are involved in the deal are owned by the estate of General Harrison T. Otis, late owner of the Los Angeles Times, and his son-in-law, Harry Chandler. The land was acquired a number of years ago and consists of 1,000,000 acres, all a portion of which is on the California side of the Colorado river, the balance on the Mexican side. It is the 800,000 acres on the Mexican side, which it is said, the owners the land company are willing to sell to Japanese interests.

Among senators who are familiar with Pacific coast affairs and who the Japanese ambitions with respect to gaining a foothold on this continent the revelations of the projected sale of land arouse great resentment. They expressed surprise, not that Japan should seek to establish a colony on American soil in defiance of the plain language of the Lodge resolution and the Monroe doctrine, but that American citizens should be willing to dispose of their holdings in Mexico for such a purpose.

## WEATHER

SATURDAY, MARCH 22, 1919.

Forecast: Saturday fair with rising temperatures.

## ESCANABA WINS INITIAL CLASH

Escanaba wins in North State Tournament at 9 A. M. Today.

Marquette, March 22.—(Special.)—A score of 12 to 9, Escanaba high school eliminated Gwin in the upper basket, basketball tournament at Yvette Normal today and won the right to meet Ishpeming in the semi-finals tomorrow.

The game was a stubbornly contested battle in which iron-hoopering kept the score from mounting, but it was pronounced one of the best of an interesting day.

**Day's Scores.**  
The scores for the day were: Marquette, 19; Iron River, 10. Iron Mountain, 38; Munising, 10. Soo, 31; Normal High, 7. Ishpeming, 19; Newberry, 10. Escanaba, 12; Gwin, 9. Menominee, 14; Michigan, 11. Soughton, 33; Ontonagon, 12. Negaunee, 25; Manistique, 7. Escanaba will open the semi-finals tomorrow at 9 o'clock with Ishpeming in the morning at the home of the Ishpeming team at Escanaba three weeks ago. A single basket, is advance dope at guarantees a scrappy opening to the day's play.

**Saturday Schedule.**  
The day's schedule is: Escanaba vs. Ishpeming. Soughton vs. Soo. Menominee vs. Negaunee. Marquette vs. Iron Mountain. The four winners of the morning will clash Saturday afternoon for the first and second places and the two morning losers will meet tomorrow night to settle the third and fourth place rating. So far the tournament has shown a high class of basketball and is moving forward speedily and smoothly.

## Dr. Wilkins Held in Jail Without Bail

Mineola, L. I., March 21.—Dr. Walter Keene Wilkins, the wealthy and socially prominent physician accused of murdering his wife, Mrs. Julia Wilkins, at their Long Beach country estate the night of Feb. 27, was arraigned before Justice Seeger in the supreme court here late today. He pleaded not guilty and was committed to jail without bail to await trial.

Extreme depression characterized the accused man's demeanor before his arraignment. The bars of his cell appeared to take all the spirit out of him and he was close to a complete nervous collapse, attendants in the jail declared. He refused all food.

He was permitted the freedom of the corridor at times by Sheriff Seaman, who feared the effect of keeping his prisoner too closely confined. But the depressing influence of the bars had its effect in the corridor. Once the physician retreated from the corridor to the cell, and resting his head on his hands as he seated himself, gave vent to spasms of weeping.

## Voice Told Him to Attempt Bank Holdup

Menominee, Mich., March 21.—(Special.)—"A voice that I could hear and couldn't see where it came from told me to do it."

So declared Ole Nelson, arraigned here today on a charge of having attempted to force an employee of the First National bank to give him \$2,000 at the point of a revolver a few days ago.

It is probable Nelson will be sent to a state hospital.

## O'Leary Jury Fails to Reach Agreement

New York, March 21.—The jury holding in its hands the liberty of Jeremiah O'Leary was sent to the hotel McAlpin for the night at 11 o'clock when it became apparent to Judge Hand in the federal court that no agreement could be reached tonight.

The jury, which is considering the evidence supporting and against the charge that O'Leary was guilty of conspiracy to defeat military draft, had been in consultation for nearly 14 hours.

## CROOKS GRAB "TAX" MONEY

St. Louis, Mo., March 21.—Swindlers, posing as internal revenue agents, today hoarded transcontinental trains leaving the union station and collected hundreds of dollars from passengers as "tax" money.

## MASHEK BACKS ROAD BONDING

George M. Mashek, former member of the county road commission, yesterday declared that he endorsed the road bonding issue in every respect and looked for its passage by an overwhelming majority.

"It is a good thing," said Mr. Mashek, "particularly because the bonds don't have to be issued all at once—and it is probable that all of them never will be issued."

**Want State Benefit.**  
"Every dollar the county puts into roads will bring two dollars from federal and state aid. The state issue undoubtedly will carry, in my estimation. It would be a bad thing for the county not to be in a position to take advantage of the state aid, because with the passage of the state bonding issue the county will have to pay its proportion without getting any benefit from it. Therefore, unless the county issue passes, the county will not be in a position to get state aid, toward which it will have contributed its share."

**Rewards Are Greater.**  
"The rewards, I understand, will be a good deal larger under the new law than the old law. If the county bonding issue passes, it will give Delta county 210 miles of splendid surfaced highway—the biggest advertisement it can get."

## GOVERNOR GOT A \$5,000 BRIBE, WITNESS SAYS

Des Moines, Ia., March 21.—The greatest political sensation in Iowa's history came today when, at the Iowa House judiciary committee investigation of the Rathbun pardon case, it was charged \$5,000 was paid an attorney to buy the pardon of Ernest Rathbun from Governor W. L. Harding.

William Rathbun, Ida county farmer, swore in an affidavit that he gave his attorney, George Clark, the money for the express purpose of delivering it to the governor for the pardoning of his son.

The affidavit was presented as evidence by Attorney General Hadner and was dated Feb. 25, 1919, and dictated in the presence of five other members of the Rathbun family.

The Rathbun pardon had, previous to today's charge, brought threat of impeachment against the Iowa executive, and though no evidence had been presented to show that the \$5,000 was ever paid to the governor, it was reported tonight action to unseat would now be brought.

Governor Harding tonight branded as "utterly preposterous" any intimation that he acted corruptly in granting the pardon.

## ITALIANS MAY WITHDRAW FROM PEACE PARLEY

Paris, March 21.—Italy has threatened to withdraw from the peace conference. This action was decided unanimously by the Italian delegation to the conference, unless Fiume is assigned to Italy.

Col. E. M. House promised Premier Orlando today to present within a few days a project concerning the Italian-Jugo Slav frontier which he hopes will satisfactorily settle the dispute between Italy and the new states.

There has been an extended controversy between Italy and the Jugo Slav state concerning the disposition of the strip of land along the Adriatic, both nations claiming the former Austro-Hungarian territory.

## George Fish Is Named Head of Elks Lodge

The following officers were elected to serve for the ensuing year at the meeting of the Escanaba lodge of Elks last night:

- George Fish, exalted ruler.
- George F. McEwen, esteemed leading knight.
- George Harvey, esteemed royal knight.
- W. P. Belanger, esteemed lecturer.
- John Bartella, secretary.
- Ed. J. Norcus, treasurer.
- John Harris, tyler.
- Arthur P. Hoffman, trustee.

## Income Tax Man Is in Escanaba Today

Daniel Riordan of the federal revenue service will be at the court house all day today for the purpose of assisting all who failed to make their returns on or before March 15.

Mr. Riordan stated that those who pay their taxes to him during his stay in Delta county can avoid the penalty for delinquency.

## CHARGE BAKER WITH AIDING HAYWOOD GANG

Kansas City, Mo., March 21.—Direct accusation of Secretary of War Baker as an aid to the I. W. W., International Socialists, anarchists and other objectors to military service, was made in an address before the city club at a luncheon today, by Major Dick Foster, former head of the zone activities at Camp Funston, Kan., and a member of the general court martial.

Major Foster, who in private life is a prominent architect here, explained court martial proceedings. He related testimony taken in trials, read army orders from the secretary of war and told of what objectors had said and done.

**Knew Secret Orders.**  
He declared the objectors knew many secret orders the officers had. He also declared the National Civil Liberty bureau, of New York City, circulated many pamphlets and bulletins on how to get around the army regulations. Major Foster said of Secretary Baker.

"I now directly accuse the secretary of war of aiding and assisting the I. W. W., International Socialists, and Humanitarians in their program of blocking the construction of the army by extending and preventing the acts of congress for the protection, comfort and solace of the obstructionists." One of these secret orders was in part an absolute immunity for any man who showed to refuse military service. In part it reads:

**To Be Treated Kindly.**  
"With reference to their attitude of objection to military service these men are not to be treated as violating military laws, thereby subjecting themselves to the articles of war, but their attitude in this respect will be treated with kindly consideration."

"Officers of the army were dumfounded that the war department should order violations of military laws to be quietly ignored and that violators of the law should be treated with kindly consideration." "The number of objectors and numerous complaints and the peculiar conditions went from army officers to Washington."

## Capt. Norcross With the 27th Engineers

Menominee, Mich., March 21.—(Special.)—Capt. Junior Norcross, son of Col. Norcross of this city and captain of the Michigan varsity football team in 1905, was among the 27th Engineers who arrived in New York yesterday. Word to that effect was contained in a wire message received here today.

## Government Plans Universal Training

Washington, March 21.—The war department has decided to abandon all national guard camps and keep cantonnments in anticipation of some form of universal military training, it was announced today.

## Swedish Societies of City Hold Big Meet

One of the biggest events in the history of the North Star and Morning Star societies was held last night at the North Star hall when a 19th initiation brought the membership of the North Star society to more than 500, and the membership of the other organization was increased to about 200. Several outsiders were heard in addresses. A social period followed the initiation, with a luncheon and dance.

## Buy Bonds or Pay Money Out in Taxes

Chicago, March 21.—Carter H. Glass, secretary of the treasury, who appeared here today in the interest of the Victory Liberty loan, said the people had the choice of lending money to the government at good interest, or paying it out in taxes with no interest and no return.

"The government has to have the money," he said, "and the savings and earnings of the people should take care of this loan."

The secretary declined to announce the rate of interest and it is believed this and other conditions of the loan will not be announced until near the opening of the drive in April, to fit conditions then prevailing.

This will be the last popular loan, according to Secretary Glass, and hereafter a new plan of raising funds will be adopted by the government.

## Milwaukee Girl's Body Floats Ashore

Manitowoc, Wis., March 21.—After a week of unabated search, following the finding of her hat on the lake shore, the body of Viola DeClary, pretty Milwaukee stenographer, was found floating in Manitowoc harbor today.

Her death was the culmination of a motor party with two men who called at her place of employment shortly before the closing hour March 12. She was seen to leave the office in a big machine with two men and was not heard from again until her mother received a letter postmarked Manitowoc, in which Miss DeClary informed her of her determination to end her life.

## Townley Warns His Flock of Treachery

Fargo, N. D., March 21.—A. O. Townley, president of the National Non-Partisan League, in an open letter addressed to members of the league in North Dakota, today issued a challenge to the group of state officials who have recently declared themselves against certain of the laws adopted by the recently adjourned legislature.

## CALLS ARMOUR DEVELOPER OF LABOR UNREST

Frank Morrison, Federation Secretary, Rakes Meat Packer.

Washington, March 21.—J. Ogden Armour, of Chicago, was charged with developing social unrest in this country in a statement issued tonight by Frank Morrison, secretary of the American Federation of Labor.

"The packer and his associates bring joy to the hearts of every believer in revolutionary methods," said Secretary Morrison.

Mr. Morrison called attention to the attitude of the Kansas City railway company, which has on two occasions rejected an award by the national labor board, with the result that the 2,500 employees are unemployed.

**Armour Owns Stock.**  
The strikers point out that Mr. Armour is the majority stockholder of this company. They have been denied the right to negotiate with the company on working conditions, it is stated.

"Kansas City's situation," says Secretary Morrison, "illustrates the position of the American Federation of Labor on the question of social unrest; that the cause of this unrest must be removed, rather than rely on legislation and deportation."

**Balm to Revolutionist.**  
"Mr. Armour and his associates bring joy to the heart of every believer in revolutionary methods. The

## HERE'S AN IDEA OF WHAT COAT HAD IN POCKET

One of the little human touches that make giving away your old clothes something more than mere charity, was discovered at the Red Cross headquarters yesterday.

While sorting and packing some used clothes for Belgian refugees, the supervisor felt something bulky in the pocket of an overcoat.

She investigated and found a small bible. Written on the fly leaf was the simple inscription, "Read and Remember."

revolutionists look upon these business men as their best propaganda because their hostility to any form of collective bargaining on the part of the worker makes it unnecessary for the revolutionist to prove his point that constitutional methods are of no avail.

"Mr. Armour, of course, would resent the charge that he is developing an unnecessary unrest in this country. He and men of a similar mind refuse to see that whenever the American ideal of orderly and elemental rights are replaced by autocracy the revolutionist is handed his strongest weapon—practical illustration."

## First Day of Spring and the First Robin

With the official calendar arrival of spring yesterday, came the first report of the arrival of a robin, slighted by residents near the south bay shore. The robin is more universally trusted as a weather dopster than the calendar, but whether he wishes he had waited remains to be seen.

## ASKS A MILLION FOR CLOVERLAND

Milwaukee Rotary Club Is Urged to Aid Colonization Work.

The Upper Peninsula Development Bureau has announced that the Milwaukee Rotary club is considering an appropriation of \$100,000 for the purpose of aiding in the colonization of Cloverland and the northern half of Wisconsin.

Secretary Leuning of the Milwaukee club, who attended a recent meeting of railroad land agents, Development Bureau and county officials, put up a strong plea in behalf of the movement at a meeting of the Rotarians held in the Milwaukee Athletic Club rooms.

**Dr. Ely in Service.**  
The plan, as proposed by Mr. Leuning would call into service, Dr. Richard T. Ely, of the University of Wisconsin, one of the greatest students of economics in the college and university world.

In his address, Mr. Leuning referred to Cloverland as "the last American frontier" and said:

"The project offered for your consideration is a study of colonization. This is far more important than most men appreciate. In the past, men have been dumped into the wilderness, given an axe and asked to work out their salvation alone."

**Business for Milwaukee.**  
He added that the colonization movement would aid materially in the taking up and improving of cut-over lands.  
He also told the Milwaukee Rotar-

ians that Milwaukee will lose out on the Cloverland trade if their commercial organizations do not aid in the building up of the upper peninsula and northern Wisconsin. He brought out the fact that Canada and eastern organizations are already taking from Cloverland the trade and money that rightfully belongs to Milwaukee.

Ishpeming, Mich.—Trading on the New York Stock Exchange continues on an enormous scale and it is reported the largest single order in the history of the stock exchange was handled today, when 100,000 shares of steel common was bought at market. Our New York friends who called attention to the scarcity of Steel yesterday were right for this issue jumped four points today and closed at the top indicating an unsatisfied demand for the stock. All Steel shares made gains of from 1 to 4 points and the announcement regards the steel conference was construed as very bullish. There are several in this New York list that are due for a good advance and among them Westinghouse, Corn Products, Midvale Steel and Crucible

Steel and United States Rubber look best to buy. It is reported that 50 per cent of the Copper now being produced is being sold. Today's New York market even Utah, Anaconda and Kennecott made good advances. The close study of the Alouez annual report is causing some selling in this issue. Alouez Copper contents per ton of rock have fallen off 5 pounds in the past four years. Do not overlook the opportunities in this New York list.

New York, March 21.—The American Socialist society was fined \$3,000 by the federal court today by Judge Julius M. Mayer, on a conviction Jan. 19 for violating the espionage act. The company was a co-defendant with Scott Nearing, also accused of violating the espionage act. Nearing was acquitted.

GET RID OF EXTRAVAGANCES.

The finances of this city are in a deplorable condition and we denounce the extravagant methods that have been employed in the past.—Taxpayers party platform.

Every plank of the Taxpayers party platform is a pledge for lower taxes for the property owners of this city. Extravagant, loose business methods, coupled with political influences, have formed a combination that have piled up a burden of taxation that today makes it unprofitable to own property in this city.

To make Escanaba advance it will be necessary to bring in new people, new blood, new money. Escanaba has got none of them as long as city taxes remain at their present high level.

PRESIDENT OF THE U. OF M.

The presidency of the University of Michigan is a big job at any time. The man who holds it contributes greatly to the atmosphere, the policy, the value of an institution that turns out highly trained men each year by the hundreds; lawyers, doctors, engineers, writers, teachers; men and women expected and equipped to influence the communities into which they go to live.

Especially at this time is the job a big one, with old standards crashing and crumbling to oblivion, new conditions arising that need for their solution the best minds the times can produce, with the necessity to guide new conditions that they will be adapted to old slow changing human nature.

It is to assume this responsibility and opportunity that James Rowland Angell, of the University of Chicago, has been called by the regents of the University of Michigan. Dr. Angell is thinking it over.

The memory of Dr. Angell, the father, cannot fail to be an inspiration to Dr. Angell, the son, to preserve, enhance and enrich the traditions of obligation to serve humanity that a University of Michigan student absorbs.

THE WILSONIAN WAY.

President Wilson is a skillful rather than an over-scrupulous opponent in the method he employs in a public controversy. By nature, training, and experience, he is dogmatic, even dictatorial in practice, for all his urbanity of utterance, pleasing platform manners, and other engaging qualities.

THE NEED OF CRITICISM.

At a time when there is a peculiar need of honest and constructive criticism of government officials in this country, a storm of protest goes up from Democratic sheets, whose opinions are plainly influenced by the ever-present hope of favors at the hands of the administration.

The trend toward autocracy has gone altogether too far in the United States, and it is the proper function of criticism to point out that fact and do what it can to prevent a wholesale return to former conditions.

of lapsing into mere captiousness, there is a larger danger of shutting our eyes to conditions and tendencies which, if persisted in, will bring about our national humiliation. Neither Mr. Wilson nor any other public official in the United States can expect by virtue of his position to escape the vigorously expressed verdicts of his fellow citizens.

UNTIL HE HAS GIVEN EVERYTHING.
Guynemer, France's ace of aces, who made the supreme sacrifice, used to say:

"No man has given anything until he has given everything. There is no limit to the duty of a man when his country needs him."
Would that we could have that gallant Frenchman impart that spirit to that small number of our workers who are thinking or talking about resigning.

RIDDANCE OF RUBBISH.

A great majority of the foreigners who came to this country to enjoy the larger opportunities and the larger personal freedom which this country affords, have been loyal supporters of the government from the day they landed. There were a few, however, who were not satisfied with government in their native lands and will not be satisfied with any form of government in any other land.

MENOMINEE—The feature of the afternoon's session of the women's department of the farmers' institute held in Menominee this week was the address yesterday by Mrs. T. E. Strom of Escanaba, Mich., on "Women and the Ballot." Mrs. Strom is chairman of the upper peninsula of Michigan women voters' campaign committee.

Mrs. Strom's address was received with a round of applause from the enthusiastic audience. The hall in the girls' dormitory where the women's meetings are being held was packed to capacity. Chairs were placed in the aisles and even on the tables in the rear of the room to accommodate the large crowd, and still many were turned away. Mrs. Strom said in part:

"Many years ago, woman was not permitted to have any property or estate separate from her husband. She could not make a will; she could not enter into a contract without her husband's consent. In the administration of the great interest of the community her part was nil, and her voice was still. When she finally began to ask for recognition and for a new adjustment of rights and responsibilities she was hissed and scoffed at. She was pointed out as something unlovely and unfeminine; she was called an eccentric and forced into a position of social isolation. And so through all the years woman held a most unenviable position."

Another Prisoner Strolls Away at Marquette.

MARQUETTE—Joseph Dames, aged 32 years walked away from the garage at the Marquette branch prison at about 10:30 Thursday night, and up to an early hour this morning had not been located. Fifty dollars reward is offered for his capture and return to the prison.

Dames is five feet and one-half inches in height; weighs 143 pounds, has black hair and hazel-colored eyes. As a mark of identification he has a brown mole, 1-8 inches in diameter on his left cheek and another 1/4 inches in diameter directly left of the mouth. He also has a horizontal scar 1 1/2 inches long on the right side of his neck.

Two Big Ranches Have Been Started.

MARINETTE—Two big cattle ranches are to be started in this neck of the woods, one of 10,000 acres near Wausaukee and the other of 12,000 acres near Armstrong Creek in Forest county. The J. W. Wells Lumber Co. of Menominee will establish the first one and the Girard Lumber Co. the other one. The Wells interest of Menominee control both corporations.

Commercial Fishing Opens at Marquette.

MARQUETTE—Commercial fishing in Marquette harbor for the season of 1919 was opened early Thursday morning, when the boats of four local fisheries, Anderson's, Parker's, Belong's and Ocha's, put out on their initial trip. The first tug left its moorings at about 6 o'clock.

All of the boats had returned to their docks late Thursday. The Parker and Anderson tugs, Theora and Columbia, will make the first "life" early next week, at which time the local market will be open and shipment to outside points will begin.

Marquette Probably to Maintain Bureau.

MARQUETTE—What would seem to be the final word on a municipal employment bureau was given Thursday in the declaration by Mayor Clark that if the city takes up the work it will be carried on at the municipal electric shop, on Front street. This would mean a saving of the rental involved in the maintenance of the bureau at its present location, and also of the salaries now paid, as any clerical work could be handled at the city hall, if the commissioners should adopt the mayor's proposal.

PAINESDALE—John Walakal o Painesdale missed \$300 worth of Liberty bonds that he had in his trunk last Saturday. As the missing was coincident with the departure from Painesdale of Joseph Brokis, a fellow boarder, Walakal made some inquiries.

He reported the matter to Under sheriff Heikkinen and the latter sent out a tracer. Brokis was found at Muskegon and was held there for a Houghton county officer. The sheriff's office is not informed whether he had the bonds in his possession or not.

Practical Recipes.

Banana Pie.

MAKE a rich pastry, bake on an inverted pie plate, prick with a fork before baking and bake a delicate brown. For filling, put on the fire in a double boiler one cup of water, mix together one-half cup of sugar, butter size of a walnut, three tablespoons flour, one pinch of salt, well-beaten yolks of two eggs; mix 'till well blended, add to the water and cook and stir constantly till it thickens. When cooked remove from the fire. Spread a layer of filling on the crust, then a layer of bananas, etc., until you have three layers of filling and two of banana. It takes about two bananas.

Make a meringue of the whites of the two eggs and two tablespoons of confectioners' sugar. Cover pie and bake to a light brown.

Hancock Nurse Is Home From France.

HANCOCK—Miss Frances McLean, first Copper Country nurse to go overseas with the Red Cross arrived in Hancock Wednesday after an absence of almost two years. Miss McLean served with the Harper base hospital unit of Detroit and in testimony of her record is wearing three gold chevrons, insignia of 18 months' active service on and behind the battlefields of France. She was overseas 30 months.

Harper unit arrived in New York last week and proceeded to Detroit by special train following the customary routine after landing. A wonderful reception was tendered the nurses upon their arrival in Detroit. Efforts of the police failing to keep friends and relatives back of the station gates, many crowded the grounds and

broad-minded folk in the town of Sycamore, has banned the show, despite the word of Sam Lipman, manager of the burlesquers, that "there ain't a more respectable and clever show for young folks on the face of the earth."

AT THE STRAND.

"The Price of Applause," Triangle's feature production of The Saturday Evening Post story to be shown at the Strand theatre today, contains some of the most beautiful trench "shots" ever seen on the screen. Many of the "shots" were taken at night so as to get the full benefit of the lighting effects. "The Price of Applause" pictures the psychology of a poet whose just for applause is so great that he sells his very soul for a word of praise, is forced to go into the trenches with a veritable Spartan American, finds himself hurled through the terrific crash of battle into a German prison camp, returns to America to claim the fame gained by his poems, and under the shadow of his grace redeems himself by a noble act.

Frills and Furbelows

WYFORD has come from Paris that beaded bags are more in demand than ever, and following this lead, M. Markel of the American Art Embroidery Co. has made some elaborate and interesting designs. Among the smart shops there is still a demand for the drawstring bag, a demand which had slackened to some extent during the last season; these are made quite long, full and pouchy.

They are not made in the old way however, but are drawn through bone rings instead of through the bag itself. Rather deep fringes are noticed on many bags, made of frames, and it is interesting to note that the bone frame in color is much in evidence.

Pouchy and Commodious.

All of the bags themselves are made pouchy, with large commodious pockets, and the beads shirred into the frame with exactly as much fullness as a fabric.

Misier bags are popular at present in the better shops and Mr. Markel has them in many sizes from the large ones that the French first sent over, to tiny ones. Some of these are what he calls pick-pocket proof, with the bag portions suspended on strands of floss that automatically draw together with the weight of the bag.

Rich Color Blendings.

The most interesting thing always in this line is the richness of color blending, the bags never showing any of the garish colors, but are always in the deep tones that are the choice of the well dressed woman. Many of them tend to the Chinese and the Egyptian patterns.

Fabric bags are seen in moires on metal frames, satins both plain and steel beaded, and faille and taffeta. One bag that gives the effect of a solid fringe all over and which Mr. Markel calls the "porcupine bag," is accomplished with loops of beads over the entire surface; every fifth row showing a different blending of color.

Suffered Thirty Years With Stomach Trouble and Hemorrhages of the Bowels.

The Story of a Wonderful Recovery

There is hardly any one who does not experience some trouble with the stomach. It is so common that we frequently pay little or no attention to it. Yet, the stomach is very easily upset, and catarrhal inflammation of the mucous lining develops; grows worse—the pain and distress is incessant and the truth dawned that we have chronic stomach trouble.

The case of Mr. Louis Young, 205 Merrimac St., Rochester, N. Y., is typical. He writes: "I suffered for thirty years with chronic bowel trouble, stomach trouble and hemorrhages of the bowels. We bought a bottle of Peruna and I took it faithfully. I began to feel better. My wife persuaded me to continue and I did for some time as directed. Now I am a well man." Mr. Young's experience is not unusual.

If you suffer from catarrh in any form, whether of the head, stomach, bowels or any other part of the body, try Peruna. It may be just what you need. Peruna comes in either liquid or tablet form and is sold everywhere. Your dealer has it or will get it for you. Ask for Dr. Hartman's World-Famous Peruna Tablets and insist upon having it. If you want your health accept nothing less.

NOTICE TO CONTRACTORS.

Sealed proposals will be received at the office of the State Highway Department, Lansing, Michigan, until 1:30 o'clock p. m. Tuesday, April 15, 1919, by Frank F. Rogers, State Highway Commissioner, for improving approximately 8 miles of road in Delta, and Schooner Counties, on Federal Aid Project No. 25. The improvement will consist of shaping the road, constructing the necessary drainage structures, and surfacing it to a width of 16 feet with waterbound macadam. Plans may be examined, and instructions to bidders, specifications and proposal blanks obtained at the office of the State Highway Department, Lansing, Michigan, and at the district office of the State Highway Department, G. C. Dillman, District Engineer, Escanaba, Michigan. Plans will be furnished by the undersigned upon receipt of a deposit of Five (\$5.00) dollars which will be refunded upon their safe return.

A certified check in the sum of One Thousand (\$1,000) dollars, made payable to the State Highway Commissioner of Michigan, must accompany each proposal.

The right is reserved to reject any or all proposals.

**Endeavor Society Gives Good Play; Big Crowd Attends**

One of the most successful and largely attended entertainments, "Ye Tea Party of Ye Olden Tyme," was given by the Christian Endeavor society at the First Presbyterian church parlors last night, under the direction of the Rev. R. Stanley Brown. The church was crowded with a large number of Escanaba and Gladstone people.

The play was a clever and amusing series of stunts by each of the characters. Members of the cast wore old fashioned costumes. Especially good was the characterization of Christina by Doris Greene, the hostess, Guida Berrigan, Grandmother Longnecker, Gladys Crebo and the twins, Mary Cobb and Helen Meler.

Following the play, refreshments were served under the direction of Mrs. R. Stanley Brown and a program of music and games was enjoyed.

**Gladstone Election Officials Selected**

**32nd Never Known to Retreat, Tells Co. L Man in City**

"We had the satisfaction of driving the Huns before us every move we made," declared Lawrence Reiter, formerly member of Co. L, who is here on a visit. Reiter's home is in Menominee, but he came to this city to visit friends for several days after having been discharged from the service.

"I left Co. L on April 11, 1918, and went to Escanaba to attend a divisional signal school," said Reiter. "A month later I saw Co. L. They were at a little town called Pericourt, in area, six miles from Champlaine. From here they went in Alsace-Lorraine and went into the trenches about the middle of May. I was with the battalion at that time. Two months later I learned of my mother's death. I was assigned to the third battalion in command of Major Charles Mathews of the 800. He later died of pneumonia, but not before he was relieved and sent to the rear.

"The last time I saw Falk was at Chateau Thierry on July 31, shortly before he was wounded and died. I saw John Teichler, Peter Foxin and Albert Johnson—all of whom later said the supreme sacrifice.

"We went in at Chateau Thierry on July 31 and came in contact with the enemy on that date. The 32nd division fought practically all the time from July 31 until the armistice was signed. Our engagements with the Germans would be at the average of from ten to 16 days without relief. We put in 14 days at Chateau Thierry and came out of there and laid in our reserve.

"Later we went on auto trucks and rode 60 kilometers, arriving late one afternoon on the Solissons front. Then the 32nd, not half of its full strength remaining, went into the fighting here. The French at that time had their best colonial troops and for two weeks had been trying to stir up the Germans, but were unsuccessful.

"The 32nd came along and put over a barrage lasting 48 hours—it was a rolling barrage. 'A' 5 in the morning it lifted and the division advanced, driving the Germans back continuously for 14 days.

"Shortly before we went on the Artois front I saw Co. L again." Reiter is perhaps the first 32nd man to arrive here with the singular armband insignia. He tells that Lieut. Grover Thompson has been made a captain, after having been in charge of Co. L or the greater part of the time it was in action. Lieut. "Tug" Wilson, he says, is a first lieutenant.

Reiter corroborates Jack Daley's story—Daley is a Menominee lad—to the effect that Co. L lost 42 men killed and 100 wounded in a period of five hours. "We were called the 'Baby Division' because most of the men were from 17 to 28 years old, says Reiter. "The French called us 'Les Miserables' and 'many called us 'Lumberjacks.' Before we left for France we were dubbed the 'Iron Jaw' division." Reiter asserts he was permitted to bring souvenirs of the war with him, except firearms and explosives.

**Big Eaters Get Kidney Trouble**

Take Salts at first sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a table-spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Graceful Lines Characterize The New Spring Suits  
Individuality Is The Keypnote of Every Spring Coat Mode  
Dolman—Capes—Capecoats

Straight lines are the favorites of fashion and the youthful new suits, now specially offered for early Spring wear, adhere to this modish ruling. All have loose and semi-fitted backs in box and blouse effects. The pockets in novelty and multiple effects. Jackets in various lengths. Navy heads the suit color world with a number of tan shades and black. The fabrics are: Wool Velour Checks, Serges, Tricotines, Porte Twills, Poplin and Gabardines. Prices,

This collection comprises many smart Spring Coats that fastidious women take especial pride in selecting and wearing. Every mode is exquisitely developed along fashionable lines, and fabrics are all that one could possibly want in quality and color. Pockets, new ideas in belts and novelty sleeves are a few of the characteristics which lift these timely offerings from the commonplace into the ultra chic class.

Of the coat colors, navy stands very prominent, also a number of tans and browns, such as Pershing tan and cedar. High-grade fabrics in Serge, Poplin, Covert Cloth, Suede-Velours, Gabardines, Tricotines, Porte Twills and Velvets. Attractively priced.

# A Great Showing of Newest Spring Styles for all Occasions---Women's and Misses Coats, Suits, Dresses, Skirts

## Blouses, Capes, Etc.

Unmatchable Values Await All Early Buyers.

Not only best values—but best and smartest new styles also go to women who elect to choose from our now most comprehensive assortments.

A most cordial invitation extended to women readers of this paper to visit our beautiful sun-light Cloak Parlor (second floor), now the largest and best appointed display room in the peninsula—devoted to the showing of Women's and Misses' Apparel and Millinery.

WE KNOW you'll like the place very much—visitors who have seen the new metropolitan arrangement have been most generous and outspoken in their praise. During the day time it's the most ideal place for seeing and choosing colors. New lighting arrangement at night and during dark days will make it equally convenient to select and decide on different colors and color combinations in garments as well as millinery. Not only will you like the display room, but we know you'll also fall in love with the classy Spring garments shown.

The Bigger Variety of our new Spring stock is one of the many reasons why you should come here—and come before deciding to buy elsewhere. Here selection is twice as big as in any former season.

You can feel sure of finding just what you want. We are quite sure you'll find many garments especially adapted to your ideas and requirements.

Prices in every instance are positively unmatchable—a comparison will prove it.

## Spring Hats

Whether your taste and income call for the most beautiful, original Paris models; if your taste but not your purse demands Paris style, or if your needs are for the every-day hats that sacrifice nothing of beauty in becoming practical—here they all are and in a variety of styles that leaves no preference unnoted.

—hats that slant to the side, trimmed with quills and pompons. —the desired mushroom styles, trimmed with flowers and feathers.

—short black sailors, very smartly trimmed with flowers or tips. —close fitting hats with varied trimmings of wings and flowers.

A Really Wonderful Display

## Handsome Spring Silks

The varieties offered in this special showing are truly wonderful—qualities the highest, and the colors and patterns are rare demonstrations of the skill and ability of America's best silk looms.

Some of the Spring Season's most popular Silks are—Baronettes, Satin Duchess, Satin De Chene, Belding Taffeta, Georgette Crepe, Chiffon Taffeta, Nanncetta Silks, Wool Satins, Etc.

The newer colors are Joy Blue, Victory Red, Lilac, Rose, Navy, African Brown, Taupe, Mouse, Tans, Peacock Blue, Etc., and of course Black and White.

The prices at which we offer these new Spring Silks are the lowest on record this season. Buy liberally—many of the attractive special values offered now—not to be had if you delay buying very long.

Also a Particularly Interesting Showing

New Spring Gloves, New Spring Neckwear, New Spring Hosiery, New Spring Corsets, New Spring Ribbons—

And, of course, a full line of trimming materials. Truly, can feel proud of our showing this season. Women shoppers who to date have seen the new merchandise have complimented us on our showing in more than one way. Sales to date of new Spring merchandise far exceed our fondest expectation.

One woman said: "You got the goods—and I have to admit your prices are low, too." You, too, will say the same thing when you see the new goods.

## SPORTSMEN DO NOT LIKE NEW FISH-NET BILL

Two-Inch Mesh Would Result in Clearing Lake of Small Fish, They Say.

Escanaba sportsmen are voicing considerable opposition to the provisions of the Dufoe bill on fish and fisheries, introduced in the house February 13, which permits commercial fishermen to use a two-inch mesh net in the pocket or crib of other nets for the purpose of aiding in lifting the fish out of the water.

Such a net, sportsmen declare, would result in the trapping of all small fish such as speckled trout, steel heads and rainbow trout which usually follow the lead of the larger schools.

### Fatal to Fishing.

Although the smaller mesh would be an aid to the fishermen in their work, sportsmen claim that eventually such a net would clean the lake of smaller fish. The two-inch net, they argue, is not large enough for the smaller fish to pass through with the result that with every "lift," a large quantity of the small illegal-sized fish would be pulled out of the lake to die.

The "stream fisher" is claiming that his sport is doomed if the measure passes.

### May Organize Movement.

It is pointed out that the smaller fish, traveling in schools to the mouth of the streams, naturally follow the lead of the bigger fish into the cribs of the nets.

At Marquette, sportsmen declare that an organization movement should be launched to kill the provision, but no definite step has been taken to bring the objectionable features before the committee on fish and fisheries at Lansing.

## OBITUARY.

Funeral services will be held this morning at 9 o'clock at the St. Ann church.

## 200,000 Shares of Steel Sold in Hour

New York, March 21.—With a turnover approaching 1,250,000 shares today's stock market centered on the people's favorite Steel common. Although it has been freely predicted that the buying of this stock was of the best professional trades accustomed to the short side insisted on anticipating a reaction, with the result that when a heavy covering movement started early in the morning the market was practically bare of stocks. The urgent buying of Steel Common was reflected in transactions of more than 200,000 shares in the first hour of the session.
