

NEW ARMY 21 DIVISIONS

LEGISLATION TO MEET CONDITION VITAL-FORDNEY

Michigan Solon Declares He Will Push Tariff in Next Congress.

Washington, March 29.—"Tariff legislation to meet the after-the-war conditions is one of the questions of major importance that will confront congress at the opening session," said Representative Joseph W. Fordney, of Michigan, in an exclusive interview with Universal Service today.

There is now every indication and every reason to believe, he continued, "that the next few years may witness a commercial struggle among the different nations, a struggle to retain old markets and to find new markets for export trade, and that the success of American industries and the welfare of the American people will hinge, in no small degree, on our tariff laws."

My individual belief is that tariff readjustments should be made at the earliest opportunity and this opinion, I feel, is the prevailing one among members of congress. But the nature of tariff danger and the time for such legislation is a matter that the majority should and will decide.

Must Pass Appropriations. "Appropriation bills must be passed; matters relating to the future of the army and navy will receive attention; questions of the future of our merchant marine and the railway road situation must be met. It takes no stretch of imagination to realize that the next session will be a busy one, that congress has hard work ahead."

On the tariff question I regret to note that occasionally some newspaper or writer does the unfair thing of referring to recent heavy exports and manufacturing activities as an indication that tariffs are unnecessary. They neglect to analyze such exports. They do not explain the abnormal conditions incident to war times.

Conditions Are Changing. "During the war the demand for all kinds of goods, as a general rule, far exceeded the supply. Prices went skyward. A man with anything to sell could sell it at a profit. A manufacturer, no matter how wasteful his methods, could make money. There is reason to believe we are approaching a period when supply may exceed demand; when the man or nations with goods to sell will meet with difficulty in finding a ready market."

We should not forget our experimenting with tariff legislation just prior to the war, when men out of employment became a big problem and business stagnation was everywhere in evidence. We must take stock of what transpires and seek out the causes. We should benefit by experience and prepare the country by properly meeting conditions soon to confront us."

Suffrage Convention In St. Louis Closes. St. Louis, March 29.—The annual convention of the American Woman's Suffrage Association, which has been in session here since last Monday, adjourned this afternoon.

WEATHER SUNDAY, MARCH 30. Forecast: Sunday cloudy, probably snow; Monday, clear and cold. Highest yesterday, 35 degrees. Lowest yesterday, 28 degrees. Precipitation, .01.

No Doctrine Clause Need Be Inserted?

WASHINGTON, March 29.—President Wilson has been advised by Senator Hitchcock, of Nebraska, his chief spokesman in the fight for the league of nations, that the senate will ratify the league constitution as a part of the peace treaty whether the Monroe doctrine is endangered or not.

The senator will lead the fight in the senate for the ratification of the treaty. He expressed himself in favor of it, without any changes.

In an interview today, Senator Hitchcock made the remarkable statement that the American people will not insist upon the protection of the Monroe doctrine if they find by so doing the fate of the league of nations proposed is put in jeopardy. It is believed here that it is largely on account of Senator Hitchcock's advice to the president that the latter has refused to insist upon a specific reservation in favor of the Monroe doctrine.

ENGINEER SHOT BY PEEVED BOY

Chicago, March 29.—The confession of Fred Hess, a 15 year old boy, today, cleared the mystery of the death of Frank Horan, a railroad engineer, who was shot in the cab of his locomotive while passing through Elmwood, a suburb of Chicago, in April of last year.

In his confession Hess involved John Taylor, another boy, as the one who fired the shot. The engineer had driven the boys from the railroad yard and the fatal shot was fired in revenge, according to Hess.

The confession was secured by Mrs. Horan, widow of the engineer, who continued her efforts to find the slayer after a coroner's jury decided death was caused by a stray bullet.

DOCTORS TALK AS WITNESSES

Traverse City, Mich., March 29.—Three physicians called as witnesses in the examination of Mrs. Stanislaw Lypschinski, charged with the murder of Sister Mary Johns, of the Polish convent at Iosadore, eleven years ago, testified at today's hearing that bones found beneath the Iosadore church were those of a woman. They said also the skull had been fractured by a blow severe enough to cause death.

Break in "Hi-Line" Cuts Off the Juice. A break in the high tension line to the lighting substation near the power plant about 11:30 last night put the city in the dark for half an hour last night. It was quickly repaired. The moving of a transformer today will make a recurrence of the difficulty impossible, Supt. L. D. Goddard stated early this morning.

POLE FRONTIERS NOT AGREED ON. Paris, March 29.—The "Big Four" continue to hold closed sessions twice daily. The latest report is they have been unable so far to agree on the Polish frontiers. It seems that Premier Lloyd George has not yet been convinced it is wise to include Danzig and nearly 2,000 Germans in the new Polish state.

Experts in ethereal dynamics assert that it would be as useless to take 2,000,000 men, women and children from a nation of 80,000,000 and give them to a nation of 2,000,000, as it would be trying to keep a piece of iron attached to a small magnet while a larger magnet lies close.

WORLD LABOR PLATFORM IS MADE PUBLIC

Eight Hour Day; Adequate Wage; No Child Labor Are Planks.

London, March 29.—The principal clauses of the new charter of international labor as drafted by the committee of international labor legislation are as follows, according to the Paris correspondent of the London Times:

Children should not be employed before the age of 14 in order that every child may acquire reasonable opportunity for mental and physical development.

Work Not Harmful. Between the ages of 14 and 18 persons of either sex may only be employed in work which is not harmful to their physical development, and on condition that the continuation of their practical or general education is assured.

Every worker has a right to a wage adequate to maintain a reasonable standard of life, having regard to the civilization of his time and country.

Equal pay should be given to women for work of equal value in quantity and quality.

Insure Weekly Rest. A weekly rest, including Sunday or its equivalent, for all workers. Limitation of hours of work on the basis of an eight-hour day or a 48-hour week, subject to exceptions for countries in which climatic conditions, industrial developments or industrial organizations or other special circumstances render the industrial efficiency of workers substantially different from those in other countries.

Treat Foreigners Same. The international labor conference, it is said, will recommend a basis approximately equivalent to the above for adoption in such countries.

Foreign workers lawfully admitted to any country and their families should be insured the same treatment as the nationals of that country.

SEAPLANES TO START IN MAY. New York, March 29.—One or more of U. S. naval seaplanes now being tested on Long Island will start their first clear day in May on the long flight from Newfoundland to Ireland, according to an announcement received tonight by the Manufacturers Aircraft association, from Washington.

Details regarding preparations for the flight, including precautions for the safety of the venturesome aviators in case of accident, were revealed in a statement in which Secretary Daniels is given high praise for his activity in expediting the initial cross-ocean flight.

Five More Ask Right Of the Absent Voter. Five additional applications for absent voter's privileges were received yesterday by City Clerk Carl E. Anderson, who immediately mailed the ballots with the necessary blanks to be filled out. With the additional applications Saturday, the total Escanabas now in other cities who have asked the right to vote is eighteen.

ENEMY PAYING CASH FOR FOOD. London, March 29.—A special train has arrived at Brussels from Berlin, carrying 275,000 marks in gold to pay in part for the food which the Allies are shipping to Germany, according to word from the Belgian capital tonight.

Villian Is Cleared Of Murder Charges. Paris, March 29.—Raoul Villian, on trial for the murder of Jean d'Assures, noted French Socialist leader in July 1914, was acquitted today.

Farmers Ask U. S. Control Of Shipping

WASHINGTON, Mar. 29.—The Farmers National Council today endorsed government operation of ships. They declared the plan of Edward N. Hurley to dispose of the ships built at federal expense "at the current world market price" would mean only a price fixing by the shipping combine with resulting great loss to the government.

The Farmers' National Council is a union of leading farm organizations of the country, with a membership of 750,000. It was created to assist in carrying into effect the farmers' program of national and international reconstruction adopted at the farmers' national reconstruction conference held in Washington last January.

George P. Hampton, managing director, today sent an open letter to Chairman Hurley of the U. S. shipping board, in which he submits the reason of the Farmers' National Council for opposing Chairman Hurley's plan.

FINGER PRINTS NEW EVIDENCE

Mineola, March 29.—Positive identification was today declared to have been made by experts of the finger prints on the lead pipes found beside Mrs. Julia D. Wilkins' body the night of February 27 when she was murdered at her Long Beach home.

The finger prints, it was claimed, were those of Dr. Walter Keene Wilkins, the murdered woman's husband, who is now in the jail here awaiting trial on an indictment charging him with the murder.

TRIES SUICIDE ON FAST TRAIN

Milwaukee, March 29.—Authorities can learn nothing of a woman who boarded a train at Chicago last night and who slashed her throat in the car as the train sped toward this city. Tonight she is at the point of death and will probably not survive her wounds.

She was in trouble, she told the conductor when she boarded the train at Chicago, and her relatives there had refused to receive her. She had been told to come to Milwaukee, where she claimed to have a sister in Notre Dame convent.

On the train as it neared Milwaukee the conductor noticed blood on the floor. The woman was holding a shawl over her throat with one hand to conceal the wound, while a 4-inch butcher knife was hidden on the floor by her skirts.

The women became unconscious from loss of blood before the train reached here.

Man Found Shot To Death in Automobile. Sioux City, Ia., March 29.—Authorities tonight were trying to establish the identity of a man whose body was found near an abandoned automobile in the road near the village of Perkins.

He was a stranger in the community and death had resulted from a bullet wound in the head. A whiskey bottle and a woman's dress were found in the automobile, which bore an Iowa license tag.

Twenty Sinn Feiners Break Out of Prison. London, March 29.—Twenty Sinn Feiners escaped from the Mount Joy prison in Dublin today, a dispatch to the Exchange Telegraph reports. Some of the prisoners seized the warden and held him down while their companions lowered rope ladders from the windows. Then the whole group made their escape.

DID YOU TURN CLOCK AHEAD? Did you turn your clock ahead last night? No? Then do it now. Railroad trains, street cars, churches, theatres, hotels—everything—are being opened, conducted, operated and closed on the day. Don't be an hour late.

SERBS BATTLE HUNGARIANS IN PARIS REPORT

Actual Fighting Occurs Say Reports but They Are Not Confirmed.

Paris, March 29.—Actual fighting has occurred between Hungarian and Serbian troops, according to reports circulated here tonight.

No confirmation was obtainable, previous dispatches having mentioned only the closing of the Hungarian-Serbian frontier by the Soviet government of Budapest, and the imposition of strong regulations on river craft moving from Belgrade toward Budapest.

Unconfirmed rumors have been in circulation for two days that Hungary had declared war on Serbia.

Admit Situation Grave. Admission that the situation in the east is tense again was made by the peace conference delegates tonight. A number declared they would not be surprised at any developments. Authentic information is lacking in peace conference circles.

Paris, March 29.—The peace conference now is confronting this dilemma. It must either negotiate with the Bolsheviks or constitute a definite front with trenches and barbed wire and all other grim indispensables of real warfare, from the Black sea to the Baltic.

Opponents of negotiations with and recognition of the Bolsheviks declare that to get together with the Reds would be a sign of weakness and fear, that cowardice does not assure peace, and that it would mean throwing the conservative elements of Russia into the arms of Germany, which would mean another war, with Russia and Germany combined against the entente.

Opponents of the second alternative say it means immediate war; that the soldiers are tired and will not fight the Reds; that the taxpayers will not appropriate money; that the fighting period is over; that some agreement must be reached some time, and that the war weary world demands peace forthwith so business may be resumed.

Awak Wilson's Decision. It is no longer a secret that Premier Lloyd George favors the first scheme, while the French military leaders favor the second. As usual, it is President Wilson who must be the eventual umpire.

The French militarists assert that not a single soldier of the Western Allies is needed for the new front; that the Poles, Czechs and Rumanians will furnish the fighting men, while the Western Allies would furnish the high command, which means, of course, Marshal Foch. The United States is expected to pay the money. It is a serious question.

Tug Dispatched To Aid Cargo Steamer. Washington, March 29.—The war department has been advised by the U. S. cargo vessel 'Scranton' is in distress about 500 miles off New York and that an ocean-going tug has been dispatched to her assistance.

The cargo ship 'E. L. S.' has been standing by, but has been unable to render any aid, to attempt to take the 'Scranton' in tow having failed on account of breaking of the hawser.

18 Year Old Seattle Who Poisoned Wife of Man She Loved

Just on the threshold of womanhood, yet a self-confessed murderer, that is the position of 18-year-old Ruth Garrison, who invited to luncheon the wife of the man she loved and there calmly administered to her a poisoned fruit cocktail, causing her death a few moments afterwards.

(C) Underwood & Underwood.

JURY LIST IS MADE PUBLIC

Men Who Will Hear Cases at Approaching Term of Court.

The following list of petit jurors for the April term of district court was made public yesterday:

From City of Escanaba. S. M. Johnson, George Rowe, O. O. Rollins, John Wolfe, Edward J. Kirkpatrick, John Burke, James R. Champ, A. N. Merritt, Frank Stolk, Edgar Anderson, Phil Dupont, Ted Bolander, Dan Savagone, A. J. Peltier.

City of Gladstone. A. B. Kassidy, Oscar Olson, Henry Thompson, Thomas Jones, Charles Miller, M. M. Buck, J. A. McGee, R. C. Mantz.

Elsewhere in County. George Thompson, Masonville, Theodore Olson, Nahma, Charles Cota, Sr., Wells, Henry Carlson, Baldwin, David Geroux, Baldwin, Theodore Carmody, Hark River, George Pederson, Bay de Noc, Gust Gilbertson, Brampton, Herman Kohlman, Cornell, George Niron, Escanaba township, Clem Ohmstead, Fairbanks, Fred Lambert, Ford River, Joseph Lavigne, Garden, Octave Chienail, Sr., Maple Ridge.

LIFE TERMER IS ON HONOR

Jefferson City, Mo., March 29.—Morris Lewkowicz, serving a life term in the Missouri penitentiary here, is due back at the prison tomorrow from El Paso, Tex., where he was permitted to go a week ago to visit his mother, 84 years old, it was learned tonight.

His sister was permitted to take him to visit their mother as she wanted to see him before he died.

Prison pardon officials are confident he will return on schedule time. No guard accompanied him.

CUSTER CHOSEN AS PERMANENT CAMP OF ARMY

Name Regulars After Units Which Had Best Records in Europe.

Washington, March 29.—Complete plans for a creation of an army of 500,000 men to be composed of five army corps, embracing 21 divisions with a camp for each division, was announced today by General March, chief of staff. This proposition does not include the enlistment of 50,000 three-year men to be concentrated at Camp Meade, when they are to be sent in 1,000 detachments to Europe as replacements for the army of occupation.

It is denied that the enlistment of these men has any connection with internal trouble in Central Europe, Russia or Siberia. General March stated that many men had decided they were anxious to serve in Europe but could not and that they would welcome the chance to foreign service.

In discussing the plans for the army of 500,000 General March said Plan Five Army Corps.

The scheme adopted involves the organization of five army corps comprising 20 divisions of infantry and one cavalry division. The numerical designation of the seven regular army divisions now in France will be retained, and the remaining divisions after the seventh running up to 21 will have numerical designations corresponding to certain divisions originally raised from the national guards and the national army, and will not be numbered consecutively.

They will begin with the 21st. The 26th represents the entire district of New England; the 27th represents New York and we have selected divisions which have had the battle records abroad with the idea of making their war records a permanent part of the history of the army of the United States.

Camps Are Purchased. The camps at which the divisions are to be stationed have been purchased. They are:

First division, Camp Pike, Ark. Second, Camp Dodge, Ia.; Third, Camp Lee, Va.; Fourth, Camp Tuley, Calif.; Fifth, Panama; Six, Honolulu; Seventh, Philippine Islands, Alaska and Mexican border; 26th, Camp Devens, Mass.; 27th, Camp Upton, N. Y.; 28th, Camp Dix, N. J.; 29th, Camp Meade, Md.; 30th, Camp Jackson, S. C.; 32nd, Camp Custer, Mich.; 33rd, Camp Grant III; 36th, Camp Travis, Tex.; Camp Sherman, O.; 31st, Camp Taylor, Ky.; 32nd, Camp Gordon, Ga.; 33rd, Camp Funston, Kan.; 34th, Camp Lewis, Wash.

Pershing May Command. The headquarters of the fifth army corps are now in France and will not be chosen here until the emergency period has passed. It is understood that General Pershing will be offered the command of the army of 500,000. Officers say, however, that there is no means yet knowing who will be the division commanders.

They will be centralizing points. The organization of the 500,000 army is announced as under the direction of the president and by a thrifty of the acts of congress of 18th, 1917, and July 9, 1918.

General March announced that the matter of transportation of soldiers from overseas the 240,000 mark will be passed this week.

The total number of enlisted men discharged to date is 1,460,441, or 88,649 discharged officers, bringing the total to 1,549,130.

Steal Heirlooms of Queen of Portugal

London, March 29.—Valuable the heirlooms of Portuguese were stolen from the Richmond of former Queen Amalia of Portugal last night, according to the Standard.

BEST IN THE LONG RUN

BE CAREFUL IN TRANSPLANTING

Be very careful with the seed box plants when you transplant them to the garden, says today's bulletin from the national war garden commission of Washington. The plants started indoors are tender and must be "hardened off" before setting them in the garden. Do this by setting the seed boxes and plants in open windows and reducing the amount of water given to them. Do not, however, let the boxes become so dry that the plants wilt.

After a few days you can leave the plants outdoors uncovered all day and even on mild nights. Then they are ready for transplanting. The hardening process requires about two weeks when the weather is still cool.

"Puddle" Roots.

In transplanting from the seed box take the young plants up with sufficient soil, if possible, so that their roots are not exposed. If the dirt shakes off, "puddle" the roots by dipping them into thin mud. Do this immediately, so that the roots are not exposed to the air on the way to the garden. Any reader of this paper can obtain a free garden book if they will send a two-cent stamp for postage to the National War Garden Commission, Washington.

Work swiftly in the garden, setting the plants in hollows punched with a round stick. Press the soil just enough to give the roots thorough contact with the earth, allowing no air spaces to remain under the surface.

Choose Cloudy Day.

A cloudy day or just before nightfall is the best time for transplanting. If the ground is dry it is a good plan to pour water in each hole made for a plant before the plant is put in. Unless the ground has plenty of moisture the plants should be watered as soon as set. They take hold and start growth better if the roots have plenty of water.

SPECIAL MUSIC FOR "THE GOAT"

- Musical program for "The Goat," Delft theatre, Monday and Tuesday, March 31 and April 1, by special orchestra.
- Selection from H. M. S. Pinafore, (Arthur Sullivan.)
1. Harrigan, old song (Geo. M. Cohan.)
 2. The Last Glimpse of Erin—Air "Coulta."
 3. Indian Summer Suite.
 - A—Dawn.
 - B—Dance of the Pumpkins.
 - C—Love Song.
 4. I'll Say She Does, (De Sylva.)
 5. Scattering of the Roses, (Ring & Hager.)
 6. Melody, (Friml)
 7. Ballet Sentimental, (Zamecnik.)
 8. Salut d'Amour, (Elgar.)
 9. Valse Fantastique, (Vernon Eville.)
 10. With the Twinkle in Her Eye (Chauncey Olcott.)

Hoyler Store Ready With New Decoration

Through the completion of work that has been under way for several weeks, the Hoyler Baking company's store can now be classed as one of the most attractive on Ludington street. The entire interior has been redecorated, the color scheme being gold and ivory white, producing a most handsome effect.

Champ Clark Suffers From Severe Cold

Washington, March 29.—Former Speaker Champ Clark is suffering from a severe cold, which kept him in bed at his hotel here today. He contracted the cold when traveling in New England. His condition when he returned to Washington yesterday was such that it was thought advisable that he remain in bed for several days. An early recovery is expected.

OBITUARY.

Bernice Valind.
Bernice Valind, the two-month-old daughter of Mr. and Mrs. Amos Valind of 706 Hale street, died at 9 o'clock Saturday morning after an illness of short duration. She was one of twins, her brother surviving.

Funeral services will be held at 2 o'clock this afternoon at the St. Joseph church; Rev. Father Xavier officiating. Burial will be in the St. Joseph cemetery.

About a year ago Mr. and Mrs. Valind lost a child through death.

Miller Funeral.
Funeral services will be held at 9 o'clock Monday morning at the Alloparrors for Mrs. Jane Miller, 65 years old, who died at her home, 302 South Sarah street. The Rev. W. J. Datson of the St. Stephen Episcopal church will officiate. Burial will be in the Lakeview cemetery.

Campbell Funeral.
Funeral services for Mrs. John Campbell will be held at 9 o'clock Monday morning at the St. Patrick church with burial in the St. Joseph cemetery. The body was taken from the Alloparrors yesterday to the residence at 306 South Sarah street.

BIG SHOOT HERE IN JUNE IS PLAN

Added recognition in the sporting world has been won by the Escanaba Gun and Game club. The club has been authorized by the American Trapshooters' association to hold a registered tournament here during the month of June. The tournament will be held under the direct supervision of the association and all rules applied to association shoots will govern the match here.

Preparations are now going forward to bring a good crowd of outsiders to attend the shoot in June. It is estimated that nearly 100 will be here without considerable urging, and that with additional publicity arrangements will be made by an additional forty or fifty trapshooters.

Previous shoots here have proved to be successful in every way. With several minor improvements at the grounds here, the shoot will be more attractive than in the past, when some of the best shots of the country attended.

MARKET REPORT

Chicago, March 29.—The following quotations on farm produce were issued here today:

EUTTER—60c.
EGGS—39c to 39½c.
POTATOES—\$1.70 to \$1.80.
TURKEYS—32c to 33c.
FOWLS—36c.
ROOSTERS—23c.
SPRINGERS—33c.
GEESSE—22c.
DUCKS—21c to 32c.
TIMOTHY—\$33 to \$34.
STANDARD—\$32 to \$33.
CLOVER—\$20 to \$26.

MONEY AT 5 1/2% INTEREST

The Federal Farm Loan Bank will loan money at 5 1/2% interest to any actual farmer, to pay off debts; to buy stock, tools or fertilizers; to build necessary buildings, or to clear land, and some other purposes.

Don't try to farm without equipment.

Write or call any Wednesday or Saturday on
A. W. Wolfe, Secy-Treas.
GLADSTONE, MICH.

Headaches and Eyestrain

Many who for years have suffered intensely from chronic sick headaches, using drugs of all kinds without benefit, have found immediate and permanent relief in properly adjusted glasses, because eyestrain was the cause. We take away the strain and the relief is lasting.

SAFETY FIRST PARENT CALLS

R. C. Richards, author of the slogan "Safety First," and a man who has led the great world-wide fight of the railroads against carelessness, was an Escanaba visitor yesterday, inspecting conditions in the North Western shops and yards.

Mr. Richards was employed in the claim department of the North Western when he became interested in the prevention of personal injury cases. He formulated a program of education along that line, accepted by the road with favor, and Mr. Richards was instructed to carry it out. It was more than successful and it has produced big results.

Other roads took up the idea. Mr. Richards was asked to help them put his system into operation. Foreign countries took it up. Today the name Richards and the term "Safety" are synonymous in railroad circles.

A business meeting yesterday afternoon was attended by local employees, who welcomed the opportunity of listening to what the safety specialist had to say. Many of them are numbered among his personal friends and he has always taken a deep interest in the work in the Peninsula division for that reason.

Irish Delegates To Sail Next Tuesday

Washington, March 29.—The Irish delegates named to plead in Paris for Ireland's freedom will sail from New York next Tuesday for France. The three members of the mission will meet in New York Monday. They are Edward F. Dunn, Frank P. Walsh and Michael J. Ryan. They will be officially handed their passports Monday.

BOWLING

Up to late yesterday Jos Johnson's mark of 610 in the singles was high in the upper peninsula bowling tournament. Whether that score was beaten late last night could not be learned.

Olmsted and Boyer were in second place in the doubles with a score of 1,112, which also remained second high until at least near the close of the contest.

LABOR LEADER VISITOR HERE

W. E. Jones, international secretary of the Dock Workers' union, and a labor leader of world-prominence, was an Escanaba visitor Friday and Saturday while he was in conference with leaders of the union here concerning the new wage scale for dock work in this locality.

It is likely that the scale for the coming season's work will be adjusted without difficulty and with complete satisfaction to the workers and operators.

Mr. Jones believes that the season for the docks on Great Lakes points will be a little late in opening, but that it will be a busy one for all concerned.

Kiel Canal Will Be Internationalized

London, March 29.—The British ambassador at Copenhagen has announced that the internationalization of the Kiel canal has been decided, according to a wireless dispatch. Troops are to occupy the banks. The countries designated as mandatory, the dispatch adds, are to be granted facilities based on the cost of the war.

PASTE THIS ON ON TIME-PIECE

Here is the daylight saving law which the national war garden commission of Washington fought to keep from being repealed at the last session of congress. The commission urges you to paste this on the face of the clock as a reminder and in the meantime plan your victory garden.

That at 2 o'clock ante-meridian of the last Sunday in March of each year the standard time of each zone shall be advanced one hour, and at 2 o'clock ante-meridian of the last Sunday in October each year the standard time of each zone shall, by retarding one hour, be returned to the astronomical time of the degree of longitude governing each zone, respectively.

The cast for "Oh Boy!" the first "Filimusal-Comedy" to be produced, has been chosen by Albert Capellani, June Caprice and Creighton Hale head it. Others are Kenna Keefe, Ben Taggart, Flora Finch, Joseph Conyers and Charles Hartley. There is another personality connected with the picture, but the producers are keeping his name a secret for the present.

Try This for Sour Stomach.
Eat slowly, masticate your food thoroughly. Eat but little meat and none at all for supper. If you are still troubled with sour stomach take one of Chamberlain's Tablets before going to bed.

FATHER DOOLEY WRITES LETTER OF EXPERIENCES

The following letter was written by the Rev. Father Erasmus Dooley, assistant pastor of the St. Joseph church before he was called into military service as chaplain. It was written to his brother, Patrick Dooley, of Hancock.

"Taken as a whole the work of a chaplain in the infantry was very difficult, and I found it rather disappointing. On Saturday I would publish the time for mass on Sunday, hear confessions Saturday afternoon and evening—then during the night we would receive orders to move early Sunday morning. I might be able to say mass but the attendance would not be large because the boys had to get ready to move. During the time we were in action I only said mass once or twice.

"Now I can tell you where we were during the last drive my regiment was in the Argonne, northwest of Verdun. We were in the line for one month. When the armistice was signed we were at Metz ready for an attack. Previous to the last drive we were in the St. Mihiel drive, which began September 12. On September 26 we were over the top.

"I am very glad that we are done with fighting. Anyone who has been at the front must think it next to a miracle that he came out with a whole skin. It was horrible to see the killed and the wounded. Gradually you get accustomed to such sights, but I never became entirely hardened. For the first three days and nights I could neither eat nor sleep. But after that, from being worn out, I could throw myself in any mudhole and sleep.

Losses Paraphernalia.
"I lost everything I possessed but my mass outfit. My bedding-roll was burned by a shell. I learned this after we came out of the lines; I was filled with lice and I thought I would make a complete change and feel like a human being again. But when I went for my bed-roll I was told it had been destroyed. What I mourned for most was my uniform (I wore an ordinary soldier's uniform at the front to spare the good one) and a fine pair of boots that would have proved very convenient for plowing through the mud.

"My regiment was one of those to go to Germany. I went with them as far as Mondorf in Luxembourg. I may get into Germany later. The German people that we met in Lorraine gave the Americans a warm reception. It was as though we were coming among friends instead of enemies. I stayed with a German family four days and they were the most pleasant days I spent in Europe. I spoke more German during those four days than I did in all my previous years.

Has Close Call.
"I had no idea regarding the time of my home coming. I am enjoying the best of health. The life outdoors has not injured me any, nor did the German shells. Twice I was hit, but in neither case injured. Once a piece of shrapnel tore a hole in the pack I was carrying and the second time a piece of shell hit me on the shoulder, made it black and blue but did not even cut the skin. That was near enough to trouble, I think.

"As we passed through Lorraine we learned of the food conditions in Germany, which were very bad. I have kept as souvenirs the foodcards, etc., that I received from a German buergermeister. I lost the two pieces of shrapnel that hit me, and I was so eager to keep them. German helmets are so common now that I do not think of taking one. It is just as easy to get iron crosses, especially in Lorraine. Many of the French there were German soldiers and received the iron cross; but now they do not want to be German and are willing to give them away for a few francs.

In Masonic Hospital.
"This hospital unit, I believe, is one of those established by the Masonic order, at least all the doctors belong to that society. They are extremely courteous to me and extend-

ed me every possible favor. The doctors call me if any of the boys want to see me—in fact the hospital is mine. Everything possible is done for my comfort. It is a beautiful place with all conveniences.

"Our patients are chiefly influenza, pneumonia and accident cases. The flu seems to be less severe than it was in the states. We have had no deaths from it. The weather has been anything but pleasant; damp all the time. I am glad though that I must not do any more hiking.

"During my whole stay in France I have not met a single soldier nor any other persons whom I knew in the states. I have been with the regular army and that may account for it to some extent. The hospital in which I am stationed was built by the French a few months before the war began, and was used the whole period of the war by the Germans. If I get a chance to go to Germany I will take it. It appears now that we shall remain here indefinitely. The place is to be converted into a base hospital. The shores of the United States are receding again."

ASKS REMAINS OF SON SENT HOME

Mr. and Mrs. R. A. Holmes, whose son, William A. Holmes, died of pneumonia on November 13 while serving with the American expeditionary forces in France, will request that the body of the soldier be sent to this city for burial. They are in receipt of a communication from the war department, asking them what disposition they want made of the body.

Mr. and Mrs. Holmes were given the choice of asking burial in a national cemetery in the United States, in one of France's "Field of Honor" on the battle front, or requesting shipment of the remains to this city. They chose the latter.

Full particulars regarding his death probably will accompany the remains to this city. Just how soon the body will be sent here has not been ascertained, but it is probable it will take several months at least.

Sending Casuals To States With Velets

The following news item from a recent issue of "The Stars and Stripes" is of particular interest here because of the fact that an Escanaba physician, Lieut. J. J. Walsh, is in charge of the

work at the hospital at Savenay:

"Twenty-five kilometers from St. Nazaire, at the top of a hill overlooking the broad, lazy river which makes that town possible as a base port, are 9,000 members of the A. E. F., ticketed to the states without delay."

"But G. H. Q. wouldn't think of sending them without velets, for those men can't be bothered with baggage or packs and rides, or any of the trying incidents in connection with the trip homeward. For them the winter weather, even the chow lines of the embarkation camps, holds no terrors. They will be shown places in a train at their present station, and with perhaps an overnight stop at Kerhuon, if they leave France by way of Brest, will go directly aboard a transport.

"They are the wounded doughboys and captives, honored men of the A. E. F., and now at Savenay."

Beauvais Writes He Is On Way to States

Mr. and Mrs. Dennis Beauvais received a letter Saturday morning from their son Private Arthur Beauvais, with the American forces overseas. It was dated March 9 and stated that his division was leaving for the states. Private Beauvais is a member of the 91st division, due at New York next week.

William McCarthy Arrives From Cust

William McCarthy returned Saturday morning from Camp Custer, where he has been stationed for the past seven months. McCarthy was honorably discharged from service.

Service Men Receive Their Bonus Checks

A number of Escanaba soldiers and sailors received their \$50 bonus checks from Washington yesterday. The department handling this work at the national capital has shown unusual promptness in responding to the applications of the men.

Wesley Malloch Now at Oxford University

Wesley Malloch, son of Mr. and Mrs. C. W. Malloch, cashier of the State Savings Bank, is now attending Oxford university in England, according to communications from London. Malloch was with the 23rd Engineers and is one of the young men chosen to attend a foreign school at the expense of the government. He was a student at the University of Michigan before he entered army service.

Burns to Norfolk.
"Bud" Burns left Friday night for Norfolk, Va., after spending a 15-day furlough at the home of his parents, Mr. and Mrs. J. F. Burns.

NURSE COMPLETES FURLOUGH.
Miss Ruth Pearson, Red Cross nurse, returned to Camp Dodge Friday night after spending a 15 day furlough at her home here.

Clevis Sovie of Flat Rock was here Saturday.

NOTICE TO BIDDERS.

Sealed proposals will be received by the School Board of Turin Township, Marquette County, Michigan, on or before 4 o'clock P. M. on the 25th day of April, 1919, to erect and complete a two room and basement brick school building at McFarland, Turin Township, Marquette County, Michigan. The bidders will be required to figure on the job complete as per plans and

specifications, including the general contract, plumbing, heating and painting. Each bid will be accompanied by a certified check of \$100, payable to the undersigned, which will be refunded after the bids have been opened. The successful contractor's check will be kept until the contract is signed and acceptable bonds furnished. Plans and specifications can be had at G. Arntzen's office, 716 Ludington street, Escanaba, Michigan, or from the un-

dersigned. All bids to be sealed and addressed to the Secretary.

CARL BRUNNAGRACBER,
Secretary.

FRED STONE FLASHES THROUGH THIS GREAT PICTURE

YES, FLASHES is the word. He takes some of the biggest risks you ever saw like a lightning bolt does a stunt on the roof of a building that makes your heart beat one-two-three too fast for comfort, beats up a lot of actors who had dared to don the German uniform; picks up a little girl from under the flying hoofs of a horse—and through it all does not bat an eye-lash. For honest-to-goodness thrills see "The Goat."

Phones 121-622J-678

Why today hold you up 30c per pound wholesale on lard which your packer but recently sold at 25 to 26c per pound? Does that extra 4 to 5c raise per pound increase the stock of lard on hand? It does not—all it does is to make so much more money flow into the coffers of the very people who would like to have you believe that they are selling you their products at a mere 25c per hundred over cost. If recently your packer could sell you lard at from 25 to 26c wholesale—he can do so with all the lard rendered this winter past—and if the thumb screws are to be put on anybody let them put them on the foreigner who had nothing to do with the raising of our produce.

THE PEOPLE HAVE RIGHTS.

The city of Escanaba is being operated today under the most wasteful possible form of government, not because the people of Escanaba desire such a government, because a majority of the present city council usurped power to abrogate the will of the people, as expressed at a special election.

The people of Escanaba at a special election held last fall, by a majority vote, declared in favor of a common manager form of government. At that election the people issued a decree and imposed upon the city the duty that should have been held sacred. Following the vote at that special election it was the duty of the council to carry the will of the people into operation. Instead, through purposeful neglect on the part of the council and remission of duty on the part of others, the special election was made ineffective by the failure of the council to proceed for the election of commissioners within a specified time. The vote at special election was made ineffective not because the people willed it but merely because a majority of the council who were not the will of the people on that occasion became an omission of duty that should make it hard for them to explain to their constituents. The council in this matter assumed an authority it does not possess. The people of Escanaba have already declared in favor of a common manager form of government.

The people have a right to express their wants and wishes, have a right to expect their wishes to be carried into effect. The Tax Payers party is pledged to carry out the wishes of the people of this city and to install a common manager form of government as soon as possible after being installed in power.

JUST FACTS.

The government of the United States is your government.

That government has given its sacred word to do in things.

These things require the expenditure of great sums of money.

Your government must keep its word, must spend great sums of money.

This money can only be secured now in two ways; by taxation or by borrowing.

Taxes are high enough, are they not? Nevertheless they will not produce enough to meet the present needs.

Then the only way the United States can pay for its debts is by borrowing the balance needed—probably \$10,000,000.

All right then, your government must borrow \$10,000,000 and since other countries have no money left, it must borrow this money in the United States from one of two sources.

Your government must borrow from the banks and financial institutions or it must borrow from millions of patriotic citizens.

If this money could be borrowed from the banks, is it wise? With all of their capital tied up in government securities, how could the banks perform normal functions of financing regular business enterprises and development projects? Without being financially sound, how could factories and business operate, how could the country be developed, how could labor be employed, how could people live? Think it over.

Very well then, there is one course left open. Your government must borrow from you and from every individual up to each one's limit of lending.

Hence the Victory Liberty Loan on April 21, 1919.

These are just facts. Can you see any other way out? We can't. The Treasury Department cannot, after you think it over and consider that the government is going to ask you to subscribe for an absolutely liquid, short term, good interest-bearing security, doing it help pay for victory and peace and prosperity, you won't want to find any other way out but will, as true Americans, you will step up and say— "Here, we'll finish the job! Uncle Sam can have the all my money to pay for peace! I can go over the top for the Victory Liberty Loan if my boy could do it at all."

KULTUR FINDING ITS LEVEL.

German militarism has been knocked out. German art has seen its swollen bubble punctured. German literature has been found to be enormously overdone. Even German music has been lifted down from its perch. German "Kultur" in general has been a laughing stock. And now German art is being treated as a pretentious sham. A paper by the late Dr. Cox, the distinguished American artist, read before the American Academy of Arts and Letters, after reviewing the work of Holbein and Durer, Germany's greatest artists, declares: "All the art of Germany that is really great is either grotesque or meticulously naturalistic. Nowhere in German art will you find anything that is serene or the Greeks; nowhere anything that is spontaneous and abundant outpouring of beauty like the Italian; nowhere the clarity, the logic, the restraint of the French. From the time that Germany's we of America have nothing

overdone, yet it is a great thing to shake off the German obsession brought about by years of German propaganda in this country. The prodigiously conceited and childishly boastful Germans were accepted at pretty nearly their own valuation and a correction of this lamentable error will be most salutary. Whatever is good in the German arts, after finding its proper level, will live and perform its legitimate service to the world. But the sun has gone down to rise no more on the day of extravagant German claims and the credulous acceptance of those claims.

It's an hour earlier now than it was yesterday at the same time.

May be it's because we are feeding Germany that we are paying even higher prices for what we eat ourselves.

The proposal to abolish parochial schools by law in Michigan is merely a reminder that we still have with us some people who should have lived in the dark ages.

If you are inclined to doubt your ability to buy bonds of the coming Victory loan issue, just stop and think what Germany was doing to the Allies a year ago today. If you will not make a thanksgiving purchase of Victory bonds, commemorating Germany's defeat, you do not belong to the victorious hosts. Think it over.

We have every assurance from the administration at Washington and from President Wilson, himself, that the Monroe doctrine will be safeguarded, but the reports emanating from Versailles, where the safeguarding must be done, are not so convincing.

If the government calls for 50,000 volunteers for overseas duty to relieve the Yank army of occupation, a lot of fellows who have been dilating frequently and at length on how hard they tried to "get across," will have their chance.

THE PIFFLE HOOK

By SLIM PICKENS.

WILD BILL HOHENZOLLERN will be tried in a German court, Berlin announces. But who will, afterwards, try the German court?

Illiteracy
In the United States
As shown by the
Draft camp figures
Is appalling.
And yet,
Federal agents have just
Closed up,
Two barber colleges
And one of those
"Be-a-Detective-by-mail,"
Write-Me schools.
How do they expect
A feller to get
An education?
What?

(1) No. (2) Yes

DEAR SLIM: Are you going to observe "Dress Up Week" with a new set of scenery or will it also be a "Press Up" week for you—like the rest of us?—L. J. B.

Of course women will not make as good jurors as men. Women are more intelligent.

"Chinese cabbage or Pail-sai is not a real cabbage but is more like a combination of cabbage, kale and spinach," says a Home Garden Bulletin.
Which brings us around to the weighty interrogation: "When is a cabbage not a cabbage?"

At any rate Pail-sai should make fine tobacco of first class whiskers.

ON THE RAGGED EDGE.

"The Idealist has failed to perceive that war is a recurring phenomenon and as such, among the irradicable occurrences of life."—From a speech by Henry A. Wise Wood.

"This must be the last war. Believe me, if this is not the last war, there are men here today who will see the last of civilization."—From a speech by David Lloyd George.

A man who cannot stand abuse will never be able to stand prosperity.

A Dissenting Opinion

DEAR SLIM—The Kentucky judge who decided that thewar is over, evidently has not based his decision on the decline of war prices. —MacP.

The more the German newspapers hammer the League of Nations, the more nearly convinced are we, that it must be a pretty fair proposition.

We Will Not! Glad You Mentioned It.

DEAR SLIM—Champagne is going up to \$100 a quart, the wine dealers predict. I'll be gosh dinged if I'll pay it. How about you? And by the way, on three occasions, your linotyper has insisted on making my contrib signature "Sarah." Doesn't he appreciate "dry" humor?—SAHARA?

DEAR SLIM: Excuse us. We live on Sarah Street. After a hard day's grind punching the keys we were thinking about the full meal not the "des(s)ert"—LINO.

Aint it the most natural thing in the world that the average girl finds it impossible to explain why she loves one man more than another?

Finis Is Written

DEAR SLIM—The fins has been written on Russian Bolshevik history. Lenin and Trotsky have decreed that everybody must work.—G. H. M.

Why the average woman would rather look stylish than comfortable, is one of life's insolvable mysteries.

Dr. Garfield's dollar-a-year salary would have been almost adequate if last winter had been like this one.

"What is so rare as a day in June?"
Why, pay-day, of course.

Those who object to turning the clock a hour ahead may proceed to turn it twenty-three hours back.

Little Home Helps.

PUT cold water in all sauce or stew pans when finishing using. When cleaning greasy utensils wipe off the worst of the grease with soft paper first.

In stains on carpet can be removed if of long standing, by treating it with oxalic acid.

When using an iron get a brick, a whole one preferred, for a stand; it will keep the iron hot longer.

To remove brown marks from dishes caused by burning in the oven, rub them well with common salt.

When flannels have become hard and shrunken they may be restored to their former softness by soaking them in gasoline.

When embroidering make as few knots in the embroidery cotton as possible. Instead, run the thread along the material when beginning to use a fresh length of thread.

To take grease out of leather apply white of an egg, dry in sun; repeat if necessary.

Many cooks think that a jar full of sifted flour will remain "sifted" until used up. No so. The flour must be sifted immediately before using to make the measurement of a recipe correct.

Practical Recipes.

Cheese and Tomato Rarebit.
Two cups (one-half pound) grated cheese, one cup stewed tomatoes, one-half teaspoon salt, one-quarter teaspoon paprika, one teaspoon scraped onion, one teaspoon Worcestershire sauce, one tablespoon butter substitute, one cup fresh bread crumbs, no crust. Put the stewed tomatoes and butter in top double boiler; add the cheese, seasoning and flavoring; stir until the cheese has melted, then add bread crumbs. Beat until smooth, thick and hot. Serve on thin slices of bread.

Orange Peel Dainty.
Four oranges make one quart jarful. Take four oranges, cut into quarters, and remove peeling so as not to break it. Let peeling stand overnight in cold water. Next day cut peeling into narrow strips with scissors which have been sterilized. Put strips of peeling in cold water to boil, changing the water several times. Boil for about one hour or until tender. This removes the poison in the rind. Take a good cup of sugar and put in the same dish with one-half cup of water. When melted put stripes in, syrup and boil until syrup is used up. Take out and lay on platter, stirring strips around until they are a little cool and look sugary.

J. P. Miller, of Milwaukee, formerly of this city, is visiting with friends in the city for a few days.

See, You Can Wash
NuBone Corsets
AND in addition to this immaculate cleanliness they combine supreme style with ideal comfort. Are not sold in stores; made to your individual proportions from correct measurements taken by an expert corsetier.
Based with the patented NuBone Stay which is guaranteed not to break or rust within one year. This stay is used only in NuBone Corsets; is the only woven wire stay in existence. It made in three and five wire styles and will thus support any type of figure.
NuBone Corsets are moderately priced and outwear two of the ordinary kind.

CLOSEUPS and FADEOUTS

by Imogene

At the Delft.
Ethel Barrymore, known here and abroad as America's foremost actress, has added fresh laurels to her already long list of successes in her latest screen play, "The Divorcee," a Metro production which will be the attraction at the Delft theatre today. "The Divorcee" is a screen adaptation of W. Somerset Maugham's "Lady Frederick," a stage play in which Miss Barrymore created the leading role in America and which was also a big London success.

At the Strand.
Marguerite Clark, the fascinating Paramount star, will appear in "Wildflower," at the Strand theatre, today. The photoplay is a delightful tale of sweet innocence and eternal youth, admirably exemplified in the personality of Miss Clark.
"Wildflower" is a refreshing note in the regular routine of film production. It transports the spectator into far, green fields, out into the open spaces, where the guile of the city does not penetrate.

Coming to the Delft.
A group of shapely bathing girls in a boxed set and a woman's kind if careless remark, are what caused Chuck McCarthy to be bitten by the "movie bug." Chuck is the young iron worker hero of "The Goat," the new Artcraft picture in which Fred Stone is starred, and which will be shown at the Delft theatre next Monday and Tuesday. Fred is said to give one of his finest interpretations in the character of Chuck.

Slippers Are Old-fashioned.
"What has become of the old-fashioned mother, who used to spank her obstreperous offspring with a slipper?" an interviewer asked Bessie Barriscale recently. "She may be found somewhere in America to this day," replied Bessie, "for I think she is an American institution, but out here it isn't being done any more. In the first place, women don't wear slip-

pers that make good spankers any more, and if they did they would not use them. In these days a heart to heart talk gets better results than a spanking and leaves no heartburns."

A Real Girl Picture.
Someone has said that Mae Marsh's art lies in her being typical of a million girls. If this is so, Marsh fans

will be pleased with her latest picture, "Spotlight Sadie," because it is the story of a charming human girl.

In "The Lamb and the Lion" Billie Rhodes plays the part of "Boots," a girl walf who has been raised among a band of thieves, headed by "The Lion." He is Melbourne MacDowell.

Juanita Hansen will be Tom Mix's leading woman in "The Romance of Cow Hollow." The picture will be made under the direction of Arthur Rosson at Hollywood.

Among Your Neighbors

Right among your neighbors are many who have chosen this strong bank as the depository for their savings.

They selected this bank because they believed it the best and they continue to deposit their dollars here because they like the service and safety it affords them.

You, too, will find here all that you look for in a bank. You are invited to open an account.

The State Savings Bank

ESCANABA, MICHIGAN

CITY CONVERTS JUNK TO MONEY

\$1,200 To Be Realized In Prompt Action of New Superintendent.

The transfer of \$1,200 perfectly good American dollars from the junk heap to the city's bank account will be the result of Supt. L. D. Goddard's sale of the machinery at the old municipal power plant announced last week.

The deal, which lacks only the formal approval of the board of public works and the city council, will put a sum of money into action that has been useless for a number of years.

Goddard Gets Busy.
The engines, boilers and other property came into the city's possession in 1892-95. When the contract for power was entered into for water power current, at a rate much lower than the juice could have been manufactured by steam, the plant was abandoned. Since that time it has been idle. Several attempts had been made to dispose of it. In 1917 especially there was a concentrated effort to find a buyer, without result.

Buyer to Load It.
The contract, if approved by the board and the council, sells the old machinery as it stands for \$1,200, or the city may take \$2,000 and lead the property on the cars. Mr. Goddard is of the opinion that the \$1,200 offer, without further obligation on the city's part, is the better offer.

"I have very serious doubts whether the loading can be completed for \$800," he said yesterday. "At any rate, there is an element of chance." The contract for power still has a number of years to run. The deterioration of the machinery by that time, plus the fact that it is even now entirely inadequate for Escanaba's needs, eliminates all possibility of the city's needing it again.

Will Not Be Needed.
If, when the city's contract expires, it is found that a satisfactory renewal cannot be secured, it is pointed out that there is the opportunity for the city to build a plant of its own or

construct a transmission line to Mesaukee. This at least will open the field for competitive bidding.

While the machinery could not be replaced at present for less than \$8,000 or \$9,000, it is pointed out that the price of steel and iron is declining, the market is closing and the depreciation is increasing and the \$1,200 offer is considered very fair.

Will Be Approved.
There is little doubt that it will be approved by both city bodies without debate. The board of public works will act Monday and the council will consider the board's recommendation Tuesday night.

'Don't Know Why They Would Stop Transfer'

"I don't understand why Newberry's attorney wired instructions to your city clerk to permit no transfer of ballots until April 4, when Mr. McGregory, representative of Mr. Newberry, will be here," said Neil Buckley yesterday. Mr. Buckley completed the transfer of city ballots here on Thursday, representing Henry Ford. "It may be possible," he said, "that they wanted to delay the transfer until all ballots in the county could be taken from the ballot boxes where they are now retained."

Current On At 2:30 Sunday Afternoon

In order to permit the theatres to start their Sunday afternoon performances at the usual hour, Supt. L. D. Goddard announced yesterday that he has arranged to cut the time required to move a transformer at the city sub-station and the "juice" will be turned on at 2:30. The work will begin at 12:45 and will be completed at 2:30, he stated.

MOTHERS

Should see that the whole family take at least 3 or 4 doses of a thorough, purifying, system cleaning medicine this spring. The family will be healthier, happier, and get along better if the blood is given a thro' purifying, the stomach and bowels cleaned out, and the germs driven away. Hollister's Rocky Mountain Tea is one of the very best and surest Spring medicines to take. Get it and see the difference in the whole family. Their color will be better, they'll feel fine and be well and happy. West End Drug Store.

BOSTON Market Letter

CURBS.		
Copper Mines	4.75	5.00
North Corn	15.50	15.75
Seneca	13.50	14.00

Ishpeming, Mich.—The average prices were higher today, though there was a little profit taking in a few issues in the last hour. Corn Products moved up 2 more points today. This makes an advance of seven points in the past week. The packing issues made further gains today, Swift selling to 143 and Libby to 30 3/4. This is a 15 point advance for Swift in a few days, while Swift International, has gone up 10 points. There was good trading in Anaconda, Inspiration, Kennebec, and Chino and while the Lake Superior issues are not very active, they are stronger, with Calumet & Hecla up to 410 bid. We look for the advance to continue and the purchase of all good investment shares would seem to be advisable. Grain market sold off early, but rallied sharply near the close, with last sale above yesterday's closing.

J. A. Minnear & Company.
Chino 1,100; Inspiration 2,700; Ray Consolidated 1,300; Chile Copper 10,000; Anaconda 1,600; Steel Common 90,400. Total sales 561,200.

"The Parisian Tigress" is the title selected for the latest Viola Dana picture. It was tentatively titled "Jeanne of the Gutter."

While the City

Sleeps

and even in its waking hours, there are those who go about seeking that which is not theirs.

The average burglar does not hesitate to enter the ordinary dwelling or office—but he is baffled by the ponderous strength of our massive vault.

Valuables of any description kept therein are surrounded by every modern safeguard—it is worth your while to invest.

Glee Clubs of School Start On Rehearsals

Rehearsals have been started at the high school for an entertainment to be given April 25 in the high school auditorium by the school glee clubs. The entertainment will be in two

parts. The first is a minstrel show by the Boys' Glee club and the second an operetta by the Girls' club. Miss Francella French, head of the music department in the Escanaba schools, is directing.

WHEN DAYLIGHT FADES

Just a touch of the button when dark comes on to flood your home with light.

Could there be any greater convenience than this inexpensive one of electricity and National Mazda lamps?

Our method of wiring reduces the expense to a minimum. Ask today for a free estimate of cost.

HOME ELECTRIC COMPANY

WILL CALL FOR AD COPY MONDAY

Advertisers who have contracted for space in "Orange and Black," the Escanaba High School annual, are requested to have copy ready Monday morning, when the advertising committee will call for it.

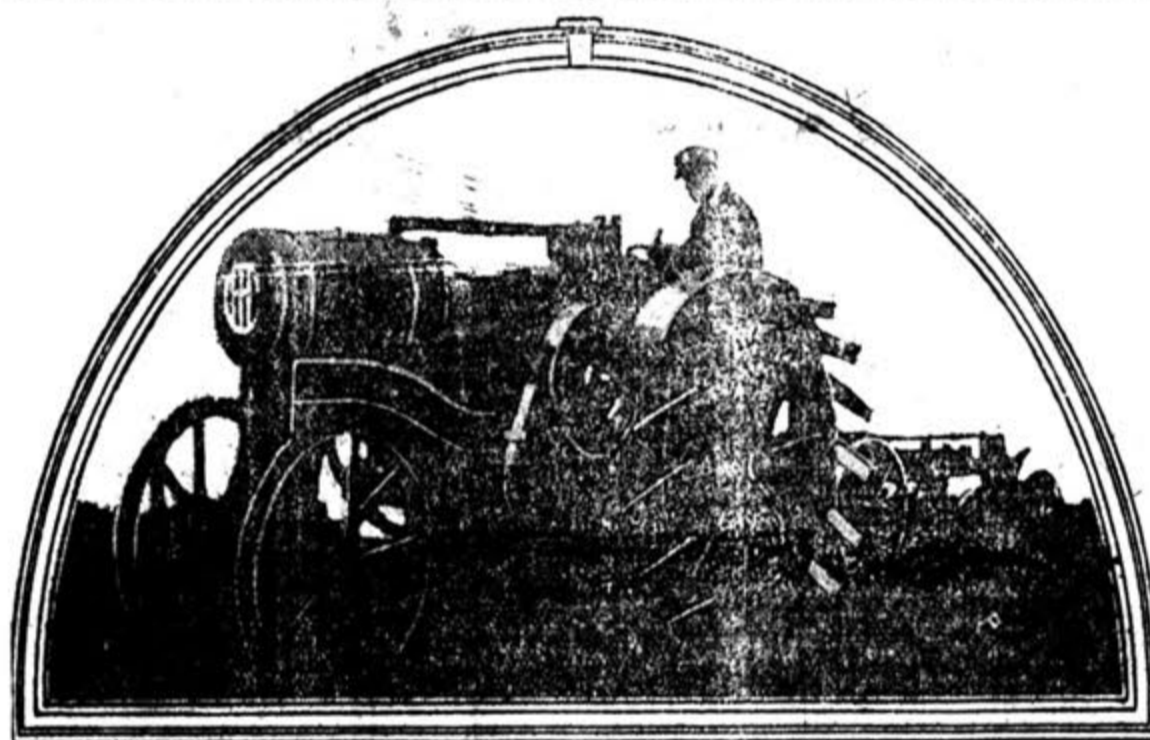

The printing classes at high school are looking forward with considerable interest to the lessons in "ad building" to be furnished by the material for the advertising section of the book.

Cameras and pens have been busy for several weeks and the art editors

announce that a great fund of material is on hand, ready for the selection of pictures and cartoons for the annual. Among the pen sketches is much work of real merit.

There is no doubt that the book will be the most interesting ever issued by high school students here, and added interest is given in the fact that it will be student work in every particular.

The Virginia Pearson Photoplays company is planning to distribute 200,000 copies of the star's picture, painted by Hamilton King.

Big Work—little cost—with a Titan Tractor

LESS expense—less time—fewer laborers required to do your work if you have a Titan tractor. Besides you harrow, seed, thresh, in fact, you have an abundance of power for every purpose. It burns kerosene, and is in every way extremely economical.

equipped, including friction clutch pulley, diagonal lugs, high tension magneto, force feed oiler, and all necessary tools. It has 10 horsepower at the draw bar—and 20 at the belt.

The Titan 10-20 tractor will fit your farm—it will prove the solution to your help problem—it will show you the way to greater profits.

Use it with an Oliver Plow—

Hitch the Titan 10-20 tractor to an Oliver plow and you will be surprised at the amount and quality of plowing which you will get done. The Oliver has many exclusive features. It buries all trash and weeds at the bottom of the furrow; it maintains an even depth of furrow; it enables you to plow clear to the ends of the field; and it is controlled easily from the seat on the tractor.

Let us show you the Oliver plow and the Titan tractor here on our salesroom floor.
