DRY ENFORCEMENT CREW IS READY

JAPAN IS TOLD WHY AMERICANS ARE WITHDRAWN

Purposes of Expedition to Siberia Completed, Says Note.

Washington, Jan. 16.—Reasons which brought about the decision of the United States government to withdraw the Siberian expeditionary force have been set forth in a note to the Japanese government. The note, which is in reply to a communication of the Japanese government, transmitted to the state department December 8, was made public tonight.

Japan, in its communication, inquired whether the United States proposed to maintain the status quo, or to proceed to entire or partial withdrawal of its troops or whether it was ready to send reinforcements in case of need.

In replying that under existing circumstances, it was deemed advisable to withdraw the expeditionary force, the United States asserts that reinforcements would be needed and that to maintain the status quo might involve the government of the United States in an undertaking of such indefinite character as to be inadvisable. Other aspects of the Siberian situation are set forth in the American note which follows in part:

Is Not Practical.

"The United States government agrees that for it to send a reinforcement of sufficient strength and to act on the offensive in cooperation with Anti-Bolshevik forces is impracticable.

"The government of the United States believes that for it to continue participating in guarding the districts now under allied protection is also impractical for the reason that an agreement to send such reinforcements with a view to maintaining the status quo might involve the government of the United States in an undertaking of such indefinite character as to be inadvisable.

"Consideration has been given therefore to the alternative suggested by the government of Japan of entire or partial withdrawal. It will be recalled that the purposes of the expedition as originally suggested by the United States and expressed in an aide memoire handed to the Japanese ambassador at Washington, July 18, 1918, were, first, to help the Czech-Slovak troops which had, during their retirement along the Siberian railway, been attacked by Bolsheviki and enemy prisoners of war in Siberia to consolidate their forces and effect their way to Vladivostok and, second, to steady any efforts at self government in which the Russians themselves might be willing to accept assistance.

Railway Men Stay!

"Careful consideration also has been given to the possibility of continuing after the departure of the American troops the assistance of American railway experts in the operations of the Trans-Siberian and Eastern Chinese railways.

"The government of the United States desires the Japanese government to know that it regrets the necessity of this decision because it seems to end the cooperative effort by Japan and the United States to assist the Russian people.

"The government of the United States is most appreciative of the friendly spirit which has animated the Japanese government in this undertaking and is convinced the basis of understanding established will facilitate the common efforts of the two countries to deal with the Siberian problem.

THE THREE R'S

\$1,200 IN FINES ARE ASSESSED BY FLANNIGAN Four Violators of Dry Laws Given Stiff Jolts.

Four fines, totaling \$1,200, were assessed by Judge Flannigan yesterday afternoon in circuit court to confessed violators of the state prohibition laws. Joseph Beauchamp and Hector Gauthier, who pleaded guilty to sales of liquor, were each fined \$500 and costs; Otto Letho, who confessed to having five quarts of whiskey in his possession, was assessed \$100 and costs, while \$100 and costs was the amount the court ordered Fred Clothier, owner of a still near Osler, to pay. Ninety days in jail for Beauchamp and Gauthier will be the penalty if the fine is not paid. The court gave all of the men until 2 o'clock Tuesday afternoon to settle the fines.

Beauchamp confessed to giving Percy Lund, a minor, who was also arraigned yesterday in court on a charge of robbery, a drink of whiskey. The court pointed out the consequence of this act, which resulted in Lund's theft of \$350 from a fellow boarder at the chemical plant boarding house. Gauthier admitted that he sold a small quantity of "moonshine" to a man in his room in a local hotel.

Warned by Court.

The court recalled that it has been customary for him to administer jail sentences in cases of convictions or pleas of guilty to selling liquor. Because of a misunderstanding between attorneys when the pleas were entered, it was explained, this would not be done at this term, but the statement was made in order to avoid future misunderstandings. The attention of the men was also called to the fact that in cases of second offenses the court has no alternative, but must, under the law, send the guilty man to a state prison for six months to two years, without the option of a fine.

Clothier's case resulted from a free-for-all fight near Osler and the discovery of a still in a boat which docked in Escanaba. Two of the men involved served sentences in the county jail for assault. Clothier, who purchased the copper for the still and arranged with one of his employees to have it made, explained that he, with the others involved, believed that they had a right to manu-

Sims Asks Change In Award Plan

Washington, Jan. 16.—While disclaiming any thought of making a personal attack on Secretary Daniels, Rear Admiral Sims told the senate sub-committee investigating war and naval decorations today that the morale of the service had been "knocked to pieces" as a result of methods followed in making the awards.

The underlying cause of the whole unfortunate affair, Sims said, was failure of Mr. Daniels to formulate a definite policy to govern awards in his instructions to the Knight medal board. Grave injustice had been done because of this, he added.

Asks New Rules.

He argued for withdrawal of department regulations requiring officers not to publish critical articles without specific sanction as in the best interests of the service. In connection with his original letter refusing a medal, he said Mr. Daniels had written him that no final action had been taken.

Admiral Sims reaffirmed the position taken in his letter that only commanding officers were competent to pass on the relative value of services performed under them. He said the service generally would welcome withdrawal of all medals because of the unfortunate and unnecessary controversy that had arisen.

Deserve Honor Medals.

Taking up the secretary's announced policy of awarding distinguished service medals to those who had lost ships in action where their service had been meritorious, Admiral Sims said such officers deserved medals of honor or nothing. In this connection he read a personal letter from Mr. Daniels asking what suitable recognition of the services of Lieutenant Commander Bagley (Mr. Daniels' brother-in-law) and other officers of the destroyer Jacob Jones, sunk by a torpedo, had been taken, and his own reply, stating that officers in cases like this deserved no particular recognition.

Admiral Sims will conclude his testimony tomorrow. It is indicated that Mr. Daniels would be the last witness called.

Nowhere in the world does the business of growing chestnuts receive so much attention and involve the outlay of so much capital as in France.

FIRST PAPER IS BEING MADE AT NEW MILL TODAY Mill Stands as Monument to Enterprise of Local Men.

With the new machinery turning over perfectly, it is expected that the first paper to be turned out by the Escanaba Paper company will be in the process of making by the time this is being read today. It was announced last evening that unless something unexpected occurred, the big paper machines would be whirring today and the first news print paper ever manufactured in Escanaba would be turned out.

Superintendent Dojan had everything in readiness last night. The big machines had been tested and apparently all was well with them. A supply of pulp was on hand ready to run and every condition seemed auspicious for the beginning of the actual manufacture of paper.

Record Achievement.

With this fact accomplished, a record of achievement never equaled in this part of the country has been established. Where, just a few days more than six months ago, a big vacant field lay blinking lazily up at the sunshine, now stands a great business enterprise representing an expenditure of considerably more than a million dollars. It has been a quick job, a big job and a job that has been efficiently and successfully managed from the beginning. It is a job in which the entire citizenship of Escanaba may feel a just pride, and particularly the men who made it possible, as it reflects the power of applied common sense to a big undertaking.

Prospects Brilliant.

With the present enormous demand for print paper and the soaring price of that commodity, the new mill starts its machinery under the most favorable prospects. It means a big thing for Escanaba, and Escanabans generally share with the management a just pride in the accomplishment which stands unparalleled in the annals of Upper Peninsula enterprise.

Victor L. Berger Appeals to Phillipp

Milwaukee, Jan. 16.—Victor L. Berger, who has twice been refused a seat in congress, today made an impassioned personal appeal to Governor Phillipp to call another special election.

TEN VICTIMS OF MEXICAN RAIDS ARE WITNESSES

Tell of Outrages of Bands of Outlaws Below the Border.

San Antonio, Jan. 16.—Miss Anita Whately, whose fingers and toes a bandit threatened to cut off; Mrs. H. E. McCain, whose husband was killed by a Mexican; Paul Metzger, whose mother and sister were made permanent invalids by brutal treatment; and 10 other victims of Mexican revolutions were witnesses today before the senate sub-committee investigating the Mexican situation.

Inquiry by Senator Fall developed that the majority of them considered reparation so improbable that they had not filed with the state department, statements of their losses. A few of them had been in Mexico on salaries, but most of them were property owners.

Tells of Massacre.

The greater part of the testimony was of the early years of the Carranza administration and much of it was of the period when Madero was fighting for power. The Chinese massacre in Torreon was described by two business men from that place, C. W. Enders and O. C. Rennard. The force that slaughtered 323 Chinese was commanded by Emilio Madero, brother of Francisco Madero.

H. M. Handsby, formerly with a smelting company in Chihuahua, was the first witness that has appeared before the committee to speak a good word for Francisco Villa.

"Treated Me Fine."

"He treated me fine," he said, "after describing his own capture by a Villa band who had shot his comrade and placed a rope about his own neck with a declaration of their intention to kill him.

He also described the destruction of smelters by Villa.

"Why did he do it?" he said, repeating an inquiry by one of the committee. "To show the United States that Carranza was unable to keep his promise to Americans that he could guarantee their safety. That's the message Villa gave me to bring to the United States."

INFLUENZA IS NOT SERIOUS

Washington, Jan. 16.—The outbreak of influenza in Chicago should not be occasion of any alarm, the public health service said tonight in announcing that steps had been taken to localize the disease. Admitting that little is known about influenza and that it could not forecast with any degree of certainty, the service expressed confidence that there would not be a serious recurrence of the disease, because it ran its course a year ago and left millions immune, doctors and nurses have returned to civilian work, there are no reports of serious outbreaks abroad, and because of the few cases in the United States in comparison with the 5,000,000 during the same period a year ago.

POLAND IS NOT IN GREAT PERIL

LONDON, Jan. 16.—Poland's situation as regards a possible Bolshevik onslaught, seems to be fairly secure at present in the opinion of military experts. There is always danger of a Red attack against the Poles, they point out, but there are no indications of an imminent menace. Most of the Red energy in the south is being devoted to an effort to defeat General Denikine, who is fighting doggedly and plenty strong enough to give the enemy plenty of trouble.

London Editor Dies; Veteran of Civil War

LONDON, Jan. 16.—Major E. R. Jones, a veteran of the Civil War and editor and publisher of the Shipping world, died here today. Major Jones was an author and former editor of the London Globe. He came to America at the age of 15 and located at Milwaukee. There he organized the Welsh citizens into the Lincoln Anti-Slavery society in 1860. He was appointed by President Grant as counsel for South Wales. He was the author of many historical and biographical sketches.

WALTER TABOR REPUDIATES CONFESSION

Declares His Mother Alone Is Guilty of Murder.

Lawton, Mich., Jan. 16.—Charging that he had been led to believe he was confiding in an attorney for his mother, Mrs. Sarah Tabor, Walter Tabor today repudiated the statement he gave a special deputy sheriff at Kalamazoo last night. He declared in the statement that the 80-year-old woman alone was responsible for Maude Tabor Virgo's death. Simultaneously Joseph Virgo, of South Bend, who had been taken on a charge of manslaughter, was released.

Attorneys for Tabor late today instituted habeas corpus proceedings to obtain his release. He is being held as a witness.

Tabor's statement, which he now says was "false in every particular," was that his mother chloroformed Maude Tabor Virgo to prevent the \$40,000 estate which had been bequeathed from the daughter, from passing to a prospective grand child.

Mrs. Tabor, now the only person charged with complicity in the death, is scheduled to be tried late this month.

DEFENDANT SAYS HE WAS NOT IN CONSPIRACY

Detroit, Jan. 16.—Monroe L. Burdach, one of the six defendants in the army salvage trial in federal court here, testified today that he knew nothing of the bids said to have been submitted to salvage officers by G. H. Browne, another defendant, in Burdach's name. Brown, the witness said, had acted at various times as a broker for the American Iron and Steel Co., of Albany, in the purchase of scrap metal. The indictments charged that the defendants submitted prearranged bills for salvage at which several million dollars worth were disposed of. The case was adjourned until Tuesday.

Government Offers to Restore Print Plant

DUBLIN, Jan. 16.—The government offered today to restore the printing machinery of the Freeman's Journal recently seized, on condition that the owners sign an agreement regarding the future conduct of the paper. They refused and the suppression order which the government claims was issued for the public good, remains in effect.

No Noise Will Go in Western Conference

Chicago, Jan. 16.—Boisterous cheering will be forbidden at all western conference basketball games, according to a ruling announced tonight. This rule, which will go into effect at the Northwestern-Iowa game, states that in cases where the crowd is noisy, officials may penalize the captain of the home team with a technical foul.

NEW PRESS PLAN TO BE EFFECTIVE NEXT TUESDAY

Beginning next Tuesday the new circulation plan of the Press becomes effective. It means that each carrier boy at that time enters business for himself. He owns and controls his own route. He makes all collections at the new rate of 15 cents a week, which is a slight raise of only two cents a week to the subscriber. Subscribers on his route are his own customers and it is up to him to serve them faithfully and well if he wishes to hold their patronage.

The new arrangement will result in a closer attention to business on the part of the boys, as every loss of a customer means a decrease in their income. It is believed that this fact, of itself, will guarantee better delivery service to readers of the Press.

On behalf of the boys, who are really young merchants engaged in business for themselves, the Press asks that customers be patient and considerate of the difficulties of the little business men until the new plan is properly worked out.

Persons wishing to pay in advance for the year may do so at the office and all poor delivery should be reported to the office as usual. Phone 693 for any further information wanted as to the new arrangement.

PROHIBITION LID CLAMPED UPON NATION

Kremer's Forces Are Ready to Block All Attempts to Evade Law.

Washington, Jan. 16.—Nation wide prohibition by constitutional amendment—the dream of years of those opposed to the sale of liquor—became effective at midnight with the department of justice and bureau of internal revenue ready to deal with all violators.

The final step in the work of preparing to enforce the new form of prohibition was taken tonight when Secretary Glass approved the regulations to be observed by federal agents.

Staff Completed.

John F. Kremer, general prohibition commissioner, announced that he had completed selection of his state commissioners and had been notified that they would be prepared to start tomorrow on the task of enforcing the amendment.

There was little notice by officials of the end of all licensed sales of liquor except at the treasury department where much activity was shown by enforcement officials. Their task, however, was confined to linking up detailed plans for aiding local authorities. Officials said they expected many legal tangles to ensue, but were making an effort to avoid as many of these as possible.

1,500 Men On Job.

Commissioner Kremer said he had a staff of 1,500 men ready to begin work at midnight. About 300 of these are under the state enforcement officers while the others will serve as did the internal revenue agents before war time prohibition went into effect.

In a few states the states directors have not yet been named, but Mr. Kremer has delegated their powers to internal revenue officials so the organization was regarded as complete. The bureau has \$2,000,000 with which to conduct its work until July 1.

The regulations under which the bureau will act comprise one of the largest as well as most important documents ever issued by the treasury department. Its pages are filled with definite methods for application of the amendment; the department's interpretation of all provisions is set out and no room is left for doubt as to what can and cannot be done in the future.

SINN FEINERS WIN ELECTION IN IRELAND

DUBLIN, Jan. 16.—Returns in the municipal elections show successes for the Sinn Fein candidates. Three Sinn Feiners were elected on the first count including Alderman Tom Kelly, now in prison in London, who obtained more than three times the necessary vote.

Lord Mayor O'Neill, whose term expired, although running as an independent candidate, scored a record poll, due to the fact that he supported Sinn Feiners in other sections. Results from the rural districts indicate that the Sinn Fein received the preponderance of the votes. Contests in the latter were close.

Chicago Health Chief Announces New Steps

Chicago, Jan. 16.—With 12 deaths from pneumonia and seven from influenza today, Commissioner of Health John Dill Robertson announced that steps had been taken to prevent the spread of the malady. More than 500 new cases of influenza were reported today and new pneumonia cases totaled 125. The spread of influenza at Great Lakes has been checked. It was announced tonight, and new cases at Camp Grant dropped one-half during the last 24 hours.

"Soviet Committee" Runs Federal Jail?

Kansas City, Jan. 16.—Following the testimony of witnesses today that the federal disciplinary barracks at Fort Leavenworth was governed by a "soviet committee" with the approval of the officers in charge, Judge John Pollock of the Kansas City federal court tonight ordered a sweeping investigation of the barracks.

(Continued On Page Two.)

INTERCHANGE OF SOME GOODS TO BE PERMITTED

Russian Blockade Is Partly Lifted at Paris.

Washington, Jan. 16.—Reciprocal interchange of certain commodities, including food between the Russian people and allied and neutral countries, has been decided upon by the supreme council.

The decision, announced through a communique made public by the state department, provides that facilities shall be afforded the Russian co-operative organizations to import clothing, machinery, medicines and other necessities, in exchange for grain, flax and other Russian goods.

COUNCIL ANNOUNCES IT.

Paris, Jan. 16.—In an official communication issued today, the supreme council approved recommendations to relieve the Russian population by giving them medicine, machinery and other commodities which the people need sorely, in exchange for grain and flax.

This partial lifting of the blockade is described in the official communication as an exchange of goods on the basis of reciprocity between the Russian people with allied and neutral countries, but through the co-operative societies.

"These arrangements imply no change in the policy of the allied governments toward the soviet," says the communication. Permission for the exchange of goods, the council asserts, implies no change in the policy of the allied and associated powers towards the soviet. Neither does it, as interpreted by officials here, amount to the raising of the blockade.

ONLY SURVIVOR IN SHIP WRECK TELLS HIS TALE

Paris, Jan. 16.—Georges Metayer of Bordeaux was the only passenger rescued of the 474 aboard the steamer Afrique when she was wrecked Sunday in the Bay of Biscay. He said that many others might have been saved, but that they refused to enter the boats. He described the scenes aboard the vessel when terror-stricken Senegalese prayed while many passengers took matters calmly, believing that sight of the steamer Ceylon, which was summoned to the rescue by wireless, meant safety.

With a hole in her side, the Afrique steamed toward land through a tempest. Her speed decreased as the rising water in the hold extinguished some of the fires. By night all of the fires were out and the supply of electricity stopped.

"I am persuaded that if the passengers had not refused to enter the boats," said Mr. Metayer, "a great number might have been saved."

Coolidge Offices Opened in Chicago

Chicago, Jan. 16.—Western headquarters for the presidential campaign of Governor Calvin Coolidge were opened in Chicago today by Mrs. J. L. Bennett, formerly of the Republican national committee headquarters in Washington. James B. Reynolds, former secretary of the Republican national committee, will take active charge. Mrs. Bennett plans a tour of western states.

It is at the sources of the Chindwen, or western branch of the Irrawaddy river, that the famous amber and jade mines are which have supplied China with these much-prized stones for centuries.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash poisons and toxins from system before putting food into stomach.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do. For every ounce of food taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment.

A splendid health measure is to drink, before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons from the stomach, liver, kidneys and bowels thus cleansing, sweetening and freshening the alimentary canal before eating more food.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside bathing.

42 New York Radicals Furnish Cash Bonds

New York, Jan. 16.—Forty-two men and eight women arrested in recent raids on radicals were released from Ellis Island on bail today, making a total of 59 freed since Federal Judge Knox decided Wednesday that immediate bail must be given. The Liberty bonds deposited at the island totaled \$68,000, representing \$10,000 bail in the case of Gregory Weinstein, chief of staff for "Soviet Ambassador" Martens, and \$1,000 each in the other cases.

KENYON SPEAKS IN BEHALF OF ALIEN MEASURE

Washington, Jan. 16.—One language promotes national solidarity, Senator Kenyon declared today, speaking for his own bill for Americanism and education of non-English-speaking persons. The bill is now before the senate, with indications that the debate may run for several days. The senator explained that the bill would appropriate \$5,000,000 this year and annually thereafter for three years, for cooperation of the states in the education of illiterates. Citizens between the ages of 16 and 21 and all alien residents here six months between the ages of 16 and 45, illiterate or unable to read or write English, would be required to take not less than 200 hours of instruction a year.

WITNESSES IN SHIP FRAUDS BEING CALLED

Seattle, Jan. 16.—Witnesses were being summoned today to appear before a forthcoming session of the grand jury which has been the subject of much speculation since announcement in San Francisco yesterday that federal officials were investigating alleged ship yard frauds on the Pacific coast, said to involve several million dollars.

Washington, Jan. 16.—Belief that no large sum of money is involved in suspected frauds on several Pacific coast ship yards was expressed tonight by Chairman Payne of the shipping board. The department of justice, he said, asked in November to suspend payments to builders on all ship contracts canceled. This was done by the board December 2. The ground for the request, as stated in the correspondence, was that the secret service agents considered that there was a possibility that claims against the government were "padding."

Clemenceau Changes His Mind Over Night

PARIS, Jan. 16.—Premier Clemenceau tonight sent a letter to Leon Bourgeois, formerly withdrawing from the presidential contest. The letter says: "I take the liberty of informing you that I withdraw from my friends the authority to offer my candidacy for the presidency of the republic and if they disregard my wishes and I receive a majority of votes I will refuse the mandate so conferred."

Lowden Gets Permit for Deep Waterway

Chicago, Jan. 16.—Governor Lowden of Illinois today received a permit from Secretary of War Baker for the construction of the Illinois waterway including the improvement of the Des-Plaines and Illinois rivers between Lockport and Utica. The improvement will provide a direct route for commerce from Chicago to New Orleans.

Cosgrove Appointed Saginaw Postmaster

Washington, Jan. 16.—Among the new postmasters appointed today was Edward M. Cosgrove, of Saginaw, Mich.

TOO LATE TO CLASSIFY

FOR SALE AT ONCE—The beautiful home at No. 501 Wells avenue known as the Banks Place. A ten-room house, all modern. Apply to Jos. F. Cuddy, Licensed Real Estate Broker, 1123-17-31.

WANTED—At once, young man to deliver and help in store. Do not apply if you are afraid of work. Palace, phone 126, 1115 Ludington. 1124-17-31

DANCE AT

Clark's Hall TONIGHT JOHNSON'S 4-Piece Orchestra.

EDUCATION IS URGED AS WAY TO CURB REDS

Study Hour for All of New York Aliens Is Urged.

New York, Jan. 16.—Compulsory education of all illiterate adult aliens as one means to instill Americanism and combat the growth of seditious activities is being considered for recommendation to the New York legislature by its joint investigating committee. Expert opinion was sought during the examination of educators, home mission secretaries and social workers in an all day session.

A. E. Stevenson, special counsel for the committee, declared that the turning point had come in that body's activities. Sufficient evidence has been gathered to show the wide scope and dangerous significance of the ultra-radical movement in this country. Mr. Stevenson said, and the committee has started consideration of definite ways to fight it.

State Share Expense.
Dr. J. J. Coss, of the department of extension, Columbia University, said that some provision should be made for an educational hour in the adult foreigner's working day. Night schools are not suited to the needs of his case, he explained. The suggestion involved the advisability of the state's sharing, if not assuming, the financial loss caused by the alien losing an hour of his employer's time. He said the state might be expected to pay the salaries of instructors for the aliens, and reimburse the employer for his loss. A study hour alone would not be sufficient and direct contact education by competent instructors would be needed, he said.

Others heard by the committee included Dr. Blodgett, president of Adelphi college and Prof. Galloway, of New York University. The hearing will be resumed tomorrow.

Savlo Is Taken to Hospital from Jail

John Savlo, arrested last week on a forgery charge and sentenced to the county jail for vagrancy, was taken to a local hospital yesterday, after a physician had declared his condition to be serious.

William B. Lloyd Is One of Indicted

Chicago, Jan. 16.—True bills against 42 radicals, members of the Communist Labor party, were voted today. It is expected indictments will be returned before Chief Justice Crowe next Tuesday. One of the organizers of the Communist Party is William B. Lloyd, Evanston's so called parlor red.

Hibernian Convention for 1920 in Detroit

Buffalo, Jan. 16.—The board of directors of the Ancient Order of Hibernians today decided to hold the next biennial convention at Detroit on the third Tuesday in July, 1920.

MONEY MEETING TO OPEN TODAY

Washington, Jan. 16.—The second Pan-American financial congress which opens here Monday, is presented with an opportunity to solve many world problems, Dr. E. Ayala, minister of finance of Paraguay, declared tonight. The questions which command the attention of the people of the western hemisphere are not limited to those peoples, he explained, because the relations of the people of the United States and the Latin American countries have two aspects: one affecting them alone and the other interlocked with all civilized people.

\$1,200 IN FINES ARE ASSESSED BY FLANNIGAN

(Continued from Page 1)

facture "blueberry" whiskey for their own use. This version of the affair was corroborated by County Prosecutor Strom and a fine of \$100 was fixed.

Youth Gets Another Chance.
Otto Letho was arrested in the vicinity of the Northwestern passenger station several months ago by Police Sergeant Joe Carney. His grip contained five quarts of whiskey. He told the court that the liquor was purchased in Escanaba from a man who since that time had died in a Marquette saloon. A fine of \$100 and costs was assessed.

Percy Lund, Wells youth, who entered a plea of not guilty to a charge of stealing \$350 at a Wells boarding house, was paroled to the county prosecutor and given a chance to earn the money to square the bill. He was ordered to secure Mr. Strom's permission before he changed his employment and instructed to report to the court at the opening of the next term here in April.

In sentencing the men, Judge Flannigan noted that most of the violators of liquor laws the police of Escanaba have been able to find are woodmen, transients and comparatively minor offenders under the state prohibition laws. The fellow with a few gills or a few ounces of liquor is taken up by the police, he observed, while others with barrels in their cellars apparently are permitted to slip by.

Berlin Newspaper Is Barred from Mails

BERLIN, Wednesday, Jan. 14.—(By The Associated Press)—As a result of Tuesday's disorders, the Freiheit has been suppressed indefinitely. The government does not propose to raise the embargo on the paper until owners guarantee that they will cease their propaganda. It is now proposed to establish a parliamentary guard for the general protection of the national assembly which, in addition to maintaining order, will be at the disposal of the president for the subjection of unruly members.

Gladstone Eagles Celebrate. Gladstone Aerie of Eagles enjoyed a great meeting last night which was attended by a crowd that fairly packed the hall. A class of 33 candidates was initiated and an evening of rare entertainment enjoyed following the regular business session.

Contributing to the entertainment features were the Eagles Quartet of Gladstone which rendered a number of pleasing selections. The buck and wing dancing of Rachel and Bovin made a big hit and the Dutch lunch and smoker which followed the evening's activities proved to be intensely enjoyable.

OBITUARY.
UTT FUNERAL.
Services will be held at 2 o'clock this afternoon at St. Anne's church for Leslie J. N. Utt, two and one-half year old son of Mr. and Mrs. Percy Utt, 954 Stephenson avenue.

H. D. CAMPBELL.
H. D. Campbell of Woodlawn passed away in a local hospital last night following an illness of a few days. He was brought to this city for treatment last Monday evening, but his condition had reached a stage where medical attention was unavailing.

The body was taken to the Anderson-Buchanan undertaking parlors to be prepared for burial and funeral services will be held there Sunday afternoon. Interment is to be made in Lakeview cemetery.

RADIUM, ITS DISCOVERY AND CURATIVE POWERS

Radium, one of the least known, still one of the most efficient curative agencies known to the world, was discovered by mere accident. A French experimenter had placed some well protected photographic plates in a drawer, in which he had previously placed some pieces of uranium ore. He was astonished when later attempting to use the plates, to find that they had been light struck and this too without any apparent reason.

Later experimental work, brought out the fact that rays sent off by the uranium had qualities which permitted them to penetrate any substance just as did the X-rays. Subjected to further tests, the peculiar element which brought out the penetrating ray, was removed from other elements and was named by Madame Curie, its discoverer, radium or radium salts.

The X-ray had come into common use by the time radium had been brought out, although the discovery was made in 1896. The X-ray had been discovered by Roentgen in 1895. Shortly after the fluorescent rays of the X-ray had been found efficient as a curative agent, radium with its similar penetrating light was tried and was also pronounced efficient, in fact more efficient than was the X-ray.

The radio-activity found in both the X-ray and radium will penetrate any substance. In fact the latter curative agent has proven so penetrative that for a long time it was the despair of those who wished to harness its energies and to put it to work. All of the harder metals were tried and proved no barrier to the rays. Sheet lead was finally tried and proved itself the best container.

Radium has three separate and distinct sets and types of rays. The first known as the alpha rays, when applied to the person will hardly penetrate the surface. The beta rays will go somewhat deeper into the tissues beneath the skin but the gamma rays are stronger than the strongest of the X-rays and will penetrate any tissue or part of the body.

Since its discovery in 1896, radium has become an invaluable cure for cancer, tumor, fibrous growths, skin diseases of all kinds as well as an agent for use in connection with the X-ray and to follow operations.

Tumors and cancerous growths seem to shrivel up and dry away under its powerful rays and skin diseases such as eczema, warts, moles and other disfiguring growths readily respond to radium and the radium operator.

In subsequent articles run in this space, the writer will give some interesting facts relative to the mining, handling and general use of radium, including its use in hospitals and by specialists.

CHEMISTS URGE LEGISLATION ON WOOL ALCOHOL
Ask to Cooperate with Federal Government in Campaign.

The Delta Chemical Company has received a copy of a resolution adopted at a meeting of the National Wood Chemical Association, January 5, which urges the importance of legislation governing retail sales of wood alcohol.

The resolution follows: "RESOLVED: That in view of the many cases of death and blindness caused by the criminal and unlawful misuse of intoxicating beverages made wholly or in part of wood alcohol during the past few days, we take this opportunity to express our earnest desire to co-operate with the Federal Government in its efforts to prevent the dangerous or unlawful misuse of wood alcohol, and in order that the legislation or rules and regulations aimed to control the sale, use and labelling of wood alcohol may be uniform in character, it is our wish that such legislation shall be enacted by the Federal Government, and not initiated by various state and municipal legislative bodies.

"With the understanding that this Association or its Committee be consulted previous to the presentation of any legislative act pertaining to wood alcohol, we are willing and anxious that the Department of Internal Revenue formulate a measure as an amendment to some existing legislation already enacted, or if necessary, introduce for legislative enactment a new law for the regulation of the sale, use and labelling of wood alcohol which shall be ample in its scope to protect the public and which shall not prevent or restrict the necessary and legitimate use of same.

"Wood or Methyl Alcohol is today regarded as one of the 'key' chemicals, absolutely necessary for essential industries and the entire output produced in the United States was commandeered by the Government during the war for its own use and distribution. At the present time over 75 percent of all the wood alcohol produced in this country is being used in four (4) industries, namely, the manufacture of formaldehyde, aniline colors, photographic films and denaturing ethyl alcohol."

Disorderly Woman Ordered to Leave

Mabel Marshall, charged with being a disorderly person, was arraigned in Justice McEwen's court yesterday and fined \$25 and costs which she paid. She was also ordered to be out of the city by today and not to return.

BISHOP HARRIS TO FILL PULPIT HERE SUNDAY

Bishop Harris will hold services in the local Episcopal church Sunday. It was announced yesterday. While here he will be the guest of Archdeacon and Mr. Wilder.

Bishop Harris bears the reputation of being one of the most forceful and eloquent speakers in this section of the country and it is expected that a great crowd will attend services to hear him discuss questions with which he is in such close and intimate touch.

I. S. CO. ASKS THAT VERDICT BE SET ASIDE

The I. Stephenson Co., through its attorney, H. J. Ryall, yesterday asked Judge R. C. Flannigan to set aside a verdict of a jury in the October term of district court, giving Emil Jacobson a judgment against the company for \$756.28. Mr. Ryall contended that the evidence in the case did not justify the verdict. Attorney H. J. Rushton for Mr. Jacobson defended the jury's action. The court reserved his decision.

The case was a controversy over a number of "dead head" logs placed in booms at the mouth of the Ford River and towed to Wells. There was a difference in the count at the start and finish, which furnished the basis for the action.

Bees suck over 3,000,000 flowers to gather one pound of honey.

MISS GENIESSE TAKES POSITION WITH LOCAL CLUB

Will Be County Nurse for the Escanaba Woman's Club.

The Escanaba Woman's Club has through a very fortunate arrangement, secured the services of Miss Anna Geniesse as county visiting nurse. Miss Geniesse has already started on her new duties and her services will be of great worth to the community. For the present it is expected her activities will be confined largely to the city of Escanaba but later she will do a great deal of work throughout the county.

She expects to co-operate in every way with the city health department and in every way to give the public the benefit of her experience in public nursing. Miss Geniesse was connected with the Woman's Club for a period of about one year and was then forced to give up her work due to a nervous breakdown following an attack of the "flu." She is peculiarly qualified for the work, which in addition to expert knowledge, requires a great deal of diplomacy.

Anyone desiring to communicate with Miss Geniesse can reach her by phoning 867 or the city health department at the city hall.

Delta Cafeteria to Be Fully Remodeled

Manager Heinley of the Delta Hotel has closed the doors of the cafeteria for the purpose of installing new fixtures. It is likely the place will be closed for a period of about two weeks while alterations and remodeling are in progress. Mr. Heinley has had modern furniture and equipment ordered for some time and the first shipment arrived yesterday. He at once closed the doors of the cafeteria and workmen started on the rearrangement which, when completed, will give the Delta one of the finest cafeterias in this section of the country.

In certain parts of India no girl can marry unless her father has been pacified by a gift of rice and a few rupees.

TIM DUNNE IS ACQUITTED IN CIRCUIT COURT

It required but one ballot for the jury in the case of Tim Dunne, charged with assault and robbery, to reach a verdict of not guilty. Testimony in the case which started Thursday afternoon, was completed yesterday morning and the jury was out but a few minutes.

The state's case against Dunne hinged almost entirely upon the testimony of Tom Hoy of Cooks Mills, who claimed to have been robbed. Hoy's appearance and demeanor as a witness, with his admission that he was intoxicated, when the alleged robbery

took place, apparently did not make a favorable impression with the jury. Dunne not only was able to establish an alibi, but police officials from Newberry were called to testify as to his good character.

Boys' Skating Race at the Rink Today

The matinee skate at the Coliseum Roller Rink this afternoon promises to be extremely interesting because of the boys' race in which two cash prizes are offered to the winners. A big crowd of young folks is expected to attend and it is believed a great many boys will take part in the race.

WOULD ABOLISH WAR RISK BUREAU. The intimation given out by Senator Reed Smoot some weeks ago that he would propose a plan for the abolition of the War Risk Insurance Bureau has become a reality in the form of a bill providing a comprehensive division of the work of that Bureau among other agencies of the Government now engaged in similar activities.

Senator Smoot accompanied the introduction of his measure with a statement showing in detail the various economies in time and money that would be saved by its enactment, as well as the higher standard of accuracy that would be attained by avoiding duplication and utilizing the services of Government experts long familiar with such problems.

In brief the Smoot bill provides for the transfer of all matters relating to allotments and allowances to the War and Navy Departments and the Coast Guard; those relating to the adjudication and payment of claims for compensation to the Commissioner of Pensions; to military insurance to the Post Office Department; and to marine insurance to the Shipping Board.

The Secretary of the Treasury is required to appoint present War Risk appropriations among the departments designated, and a committee of five representatives from the Treasury, War, Navy, Interior, and Post Office Departments will supervise the distribution of the files of the War Risk Bureau.

Senator Smoot has had an estimate made by each of the departments that are to take up the new work as to the number of additional clerks that will be needed. The total is 6,962. On December 15th last the War Risk Bureau had on its rolls 13,111 employees, so the apparent immediate saving of the reorganization would be the salaries of approximately 6,150 clerks, averaging \$1,264 each, a total of \$7,773,620.

Large as that sum is, it is small in importance to the people as a whole when compared to the wholesale elimination of errors in the administration of the War Risk Act which have sprung up through conflict of authority and duplication of work in the relations of the military departments and the War Risk Bureau.

The Pension Bureau is already making payments in more than 600,000 cases. Under the proposed bill 116,000 War Risk compensation awards now in force and 88,000 pending will be simply added to those cases. The War Department is already administering some 25,000 ordinary allotments. In the new bill 23,000 active War Risk allotments will be added to that number. The same is true in a somewhat different proportion in the Navy Department and Coast Guard. The Shipping Board now has control of everything pertaining to our merchant marine, with the exception of marine insurance. It can undoubtedly administer that subject also with more efficiency and economy than the separate War Risk Bureau has displayed. The transfer of the military insurance feature to the Post Office Department means the assumption of new duties by that branch of the Government, but in the utilization of the country-wide postal facilities far closer contact can be maintained with those who are paying for insurance than is possible at present. The plan is to have premiums paid directly to postmasters, and returned to Washington the same as other postal receipts.

No opposition to Senator Smoot's project has yet manifested itself, although some doubt has been expressed whether such a large number of clerks can be dropped without such a storm of opposition from their friends back home as will cause the abandonment of the plan. It is certain, however, that the bill will receive thorough consideration. It has been referred to the Finance Committee, of which Mr. Smoot is a member, and will doubtless be reported back to the Senate in the near future.

ONE HUNDRED PER CENT AMERICANISM. From all indications the action of the New York state assembly in suspending the five Socialist assemblymen may exert a wholesome influence even beyond the confines of the Empire State. As was to be expected this action has called forth an abundance of criticism from radicals and other kinds of traitors.

But should they seek food for reflection over their recent anti-red joy-riding they have but to turn to former Justice Hughes' letter to Speaker Sweet, severely criticizing the assembly's action as "contrary to principles of government." Charles Evans Hughes is not one who is easily moved to give his lions in defense of socialism. In fact he is utterly opposed to socialism. His efforts on behalf of the five suspended assemblymen are to be interpreted by no sane person as anything else than the realization that our principles of government are at stake and a grim determination to defend these principles. He states his position with a clearness that leaves no room for doubt. His letter, indeed, breathes a sanity which is highly refreshing in these days of emotionalism run riot.

"Are Socialists convicted of crime to be denied the ballot?" he asks. "If Socialists are permitted to vote, are they not permitted to vote for their own candidates? If their candidates are elected, and are men against whom, as individuals, charges of disqualifying offenses can not be laid, are they not entitled to their seats?"

How true! Haven't we told the radicals time and again, do we not make it constantly the burden of our song: "Quit this talk of armed insurrection, and of overthrowing the Government by force; make use of the ballot, thus exercising your supreme power as American citizens to bring about whatever changes in the Government you may desire. When you get a majority you can get action. This and this only is the truly American way to advocate and bring about changes in our Government." What can we say now that the So-

cialists have taken our advice and elected five citizens to represent them, only to learn that these their representatives have been refused seats in the Assembly to which they were elected?

When the judiciary committee meets on Wednesday, which is to decide the fate of the five suspended assemblymen, they are to be represented by an array of eminent counsel, of whom Charles Evans Hughes may be one. It is highly probable that we shall get from this gathering some kind of definition of Americanism to which all actively intelligent citizens of this country may subscribe. Perhaps this now much abused word may regain some of its former prestige and dignity. For it has become apparent of late that there are not only 100% Americans; there are people who act very much as though they claimed to be 125% Americans; who demand the right, not even restricted by constitutional law, in view of possessing this extra 25%, to suppress all thought and action, except their own, with which they do not easily agree. The more modest among us who lay claim to a mere 100% Americanism, await with no little interest and hope the outcome of the meeting of the judiciary committee.—Detroit News.

MR. MARTENS GETS HIS MAT. So Mr. Ludwig C. A. K. Martens is going home by request. Well, well, well. Things have come to a pretty pass when this German citizen who styles himself American ambassador of the Russian soviet government, who defied the powers of a New York legislative committee on the grounds of diplomatic exemption, and is the head of the revolutionary communists over here, can be bundled out of the country like one of his common Red dupes.

However, Mr. Ludwig etc. Martens must admit, after the first flush of annoyance has passed, that we are a patient people. It has been a standing mystery why the government has for so many months tolerated the presence and impudence of this enemy alien, who admits that he evaded registration as such under the service act. One may be permitted to wonder how long the Lenin government, with a record of 14,000 executions in Moscow during three months of last year, would have tolerated there an American bureau devoted to its overthrow and supplied with a large American slush fund with which to build the wrecking machine.

We do not know whether Mr. Martens will be deported to Germany, where he was born, or to Russia, which has adopted him as a willing tool. That is not very material, of course, but wherever he goes we should like to feel that he has learned something during his residence among us and is wiser now than those poor Russian muddleheads who fancied that we would be eager to wander around in a maze as hapless and hopeless as their own.

We should like to feel that he has learned that bolshevism will not mix with democracy and that the United States is a land of democracy—imperfect in many ways, but still democracy. And democracy means the dictatorship of nobody. The theory of democracy is an equal voice for every person and an equal opportunity, and it is the opposite of the bolshevik theory of a dictatorship of the minority. But still we suppose it will not matter much to one of Ludwig's instincts whether he has learned that or not if he can continue to work the soviet folk for an easy slush fund somewhere.—Green Bay Press Gazette.

IT STILL PAYS TO ADVERTISE. The people of the upper peninsula of Michigan have a wonderful country that they are only now beginning to appreciate. They now know that it's bound to be a great sheep and cattle raising district, the equal of the best in the United States. They understand that roots of many kinds thrive amazingly here as do certain kinds of fruits and berries. They are commencing to realize that even the scenery and the wild life have much value, because these are things that attract visitors, and visitors spend money, and some of them see opportunities in which to invest money. We have, as our advertisers of this Cloverland country, the Upper Peninsula Development Bureau, whose main duty is to let the world at large know what we are capable of in the production of the many things that can be raised here. The bureau, through its brilliant president, Leo C. Harmon, and its brilliant secretary-manager, John Doelle, is desirous of doing the very best they can in making our region better known. Already they have accomplished very much, and it is gratifying to know that last year was the very best in results achieved by the bureau. The organization is doing wonders on what it has to do with, and the financial help has been small as stacked up against the results. It still pays to advertise, and advertising costs money. If it were not worth money it wouldn't be good advertising, because the good kind pays every time. Every merchant well understands this. He knows if he has something to sell he must let it be known in some live advertising medium, such as Iron Ore. It is the duty of every owner of land for sale, every owner of sheep, cows, hogs, potatoes, etc., that are for sale to help the bureau on in its advertising efforts. Financial help is what is needed, just as it is needed by every live concern engaged in any line of trade or manufacture. Knowing we have a corking good country let us support it by helping our advertiser, the Upper Peninsula Development Bureau. It's business to do this, as it means the development of a great region that as yet hasn't even fairly started on its real foundation, the soil.—Ishtepeming Iron Ore.

Mr. Bryan has declared that he is not a candidate for the Democratic nomination, but neither by word nor sign has he indicated so far that he does not intend to be the platform.—Detroit News.

With coal and other precious things kept in the cellar, the second-story worker is liable to practice revision downward.—Washington Herald.

King Constantine says Greece got nothing by sticking to the allies. At any rate she got rid of Constantine.—Charleston News and Courier.

Richard Croker says prohibition is an outrage. Mr. Croker's opinion has no weight, however with the Anti-Saloon League of America.—Birmingham Age-Herald.

J. Hamilton Lewis forces five political parties in the 1920 campaign; and there are some thousands of irconcilables each too sulky to vote with any.—St. Louis Globe-Democrat.

The re-election of Victor Berger will serve one good purpose—it will awaken a good many complacent people to the fact that the anti-Americans mean business.

Men who drink wood alcohol have no trouble letting it alone forever after.

TODAY'S ANNIVERSARIES

FLATH RETURNS WITH NEW IDEAS

(Advertisement.) Mr. J. A. Flath, Manager of the ECONOMY LIGHT COMPANY of this city, has just returned from a business trip to Chicago and Minneapolis. A conference took place, in which twenty-two officers of the ECONOMY LIGHT COMPANIES were present.

Mr. Flath has returned to this city with new ideas of the Art of Lighting and with a plan that will reduce the high prices on all electrical goods. The meeting was considered a success, and all members of the Association feel that a step forward in quality and a step backward in prices will be the result.

A new Purchasing System has been inaugurated, by the ECONOMY LIGHT COMPANIES, whereby it will be possible to give the public better values than heretofore. The Companies have decided to establish in Chicago a Central Market, where each Branch will be able to draw stock at lower than wholesale.

TALKING IT OVER WITH SADIE

BY IMOGENE

"SADIE WAS CHAWING HARD and fast. 'Gee whis gook,' she snapped. 'It gives your little fiddle a pain where she oughta have a ache the way any poor simp that don't know enough to run the business he's gettin' paid to run, has to get generous an' hand the world dirty remarks about the way some other guy's runnin' his.

"I ain't raisin' no fierce fuss when it comes to gettin' slipped some kind advice for my own good, don't you know—an' most of the time I don't know—if the bird that's lookin' out for my welfare's gotta a line of what he ravin' about an' ain't crabbin' about the next block down sidewalk not bein' shovelled when his own ain't been all winter.

"But, take it from somebody that knows something it's the baby that's makin' a flivver of their own job that's pullin' that stunt every young time.

"It's the dame that just can't keep her house straightened up that's handin' you household hints

is great gobs, an' the hen that ain't got no kids of her own that's informin' you how to fetch your's up.

"An' them bird's ain't in the swim with the lovin' wife that wouldn't think of lettin' a day slip by her without a friendly spat with frien' husband, that's tellin' your little Sadie how to manage the baby she hooks for life when she does it.

"Or the first prize crabby professors that's gave up all hope of runnin' their learnin' houses straight an' out astonishin' the natives with inside dope on the awful way the burg's runnin' its public amusements with sure quick cures for the young people that's goin' to the dogs so fast they's startin' to bark.

"Honest the more I thinks about them cap't mind my own business, so I'm mindin' somebody else's the more I feels like showin' a little real speed an' givin' them something to rave about."

January 10, 1920 January 24, 1920 LEGAL NOTICE.

STATE OF MICHIGAN, THE PROBATE Court for the County of Delta. At a session of said court, held at the Probate Office in the City of Escanaba, in said county, on the 17th day of January, A. D. 1920.

Present: Hon. Judd Yelland, Judge of Probate. In the matter of the estate of Louis R. Krastenshain, deceased: Rachel Krastenshain, Administratrix, having filed in said court her final administration account, and her petition praying for the allowance thereof and for the settlement and distribution of the residue of said estate:

It is ordered, That the 24 day of February, A. D. 1920, at 10 o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is further ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Escanaba Morning Press, a newspaper printed and circulated in said county.

JUDG YELLAND, Judge of Probate.

A true copy. June Stanhouse, Register of Probate.

January 3, 1920 January 17, 1920 LEGAL NOTICE.

ISHPEMING WINS FIRST GAME

LOCALS FAIL TO STOP THE NORTHERNERS

Score Is 17 to 14; Game Is Rough and Full of Fouls.

Escanaba high lost its opening game of the basketball season last night in the local cage, to Ishpeeming high. The score was 17 to 14.

Failure to hit the hoop when the opportunity was presented, was the immediate cause of the defeat, for chance after chance for field baskets and free tosses were wasted by the local team. It was a case of absence of marksmanship.

On the other hand, Pascoe and MacNamara, visiting forwards, proved to be sharp shooters. Pascoe grabbed 13 of his team's points, 12 of them from the floor.

The first half ended with the score 13 to 9 in favor of Ishpeeming. Pascoe had trapped 11 of his counters. In the second half the guarding was more stringent and he got but one basket.

The game was somewhat rough and fouling was frequent. The box score follows:

ESCANABA	FB	FT	Tot.
Snyder, lg	0	0	0
Brotherton, lg	1	0	2
Gleich, rg	0	0	0
Londo, c	0	0	0

Totals	8	1	17

Yale Defeats Cornell in Basketball Game

New Haven, Jan. 16.—Yale won from Cornell 19 to 18 at basketball here tonight.

GIANTS GRAB OFF THREE STRAIGHT FROM THE COLTS

Lenz's Outfit Trims the Klinger Squad by Wide Margin.

Lenz's Giants maintained the "three straight" town which has become a habit in the bowling league recently, by taking a trio in a row from Klinger's Colts at the Delft alleys last night. Vic Kraus, with the Giants, was the only man to record a score above the 200 mark and he managed it by eight pins in his second game.

Following are the scores:

Lenz's Giants.			
L. Lawietto	166	159	152
D. Bell	171	159	160
J. Gill	174	168	136
V. Kraus	156	208	164
A. Lenz	180	180	180
Totals	807	834	791

Klinger's Colts.			
Joe Hira	144	165	161
B. Perry	141	154	127
E. Olson	115	154	127
A. Wilcox	150	150	150
J. Klinger	189	186	190
Totals	739	809	745

BASKETBALL SCORES.

Alger County Club 25, Marquette Normal 21.
Negaunee High 26, Marquette Normal high 8.
Ishpeeming "Y" 66, Gwinn Athletic Club 9.
Ishpeeming High 17, Escanaba High 14.

Eddie MacLarny and 'Kid' Palmer in Draw

Tucson, Ariz., Jan. 16.—Eddie MacLarny, of San Diego, welter weight champion of the navy, and Kid Palmer of Camp Jones fought a 10-round draw here tonight.

Columbia Winner in Princeton Contest

Princeton, Jan. 16.—Columbia defeated Princeton 26 to 16 in an intercollegiate league basketball game here tonight.

Indiana Defeats the Aggies; Score 20-19

East Lansing, Jan. 16.—Indiana won a hard fought basketball game from Michigan Aggies tonight 20 to 19.

MIKE O'DOWD WANTS TO MEET BIG FRENCHMAN

American Middleweight Is Sure He Can Hold Carpenter.

Detroit, Jan. 15.—Mike O'Dowd would meet Georges Carpenter. The middleweight champion, figures that he is every bit as good as the French heavyweight and that in meeting him he would be giving away less weight than Carpenter would in meeting Dempsey.

"I believe I am every bit as good as Carpenter," declared O'Dowd. "While I was in the A. E. F. in France I was sent over with other boxers to London to take part in the later-Allied tournament. There I met Dick Smith, an English fighter of 180 pounds. I had him out in the third round. Carpenter later fought this same Dick Smith and it took him nine rounds to put him away."

"Carpenter can make 170 pounds, while I would make 180 pounds for him and be strong. That is only 10 pounds difference weight between us. Dempsey would no doubt make 200 pounds now, so that Carpenter is giving away 30 pounds or more in meeting him."

"I chased the Frenchman all over the continent in hopes of getting him into a match with me, but Carpenter declared after seeing me whip Al Norton, the heavyweight, that there was nothing for him to gain and everything to lose to fight me. I was all set for a conference with Descamps, Carpenter's manager, but several officers wanted me to split my share of the purse with them, and when I refused they would not give me a furlough."

"Charles B. Cochran, the English promoter, has been talking to my manager, Paddy Mullins, of a bout between Carpenter and myself in England. Cochran believes that this bout would draw every bit as well as one between Dempsey and Carpenter in England."

"I am willing to take on Carpenter for any amount of money. The new International Sporting Club at New York is anxious to put me on with Carpenter at their opening show and both they and Cochran are now bidding for the bout."

TODAY'S SPORT CALENDAR.

 Boxing—Willie Ryan vs. Eddie McAndrews, 6 rounds, at Philadelphia.

MANY STUDENTS PARTICIPATE IN "GYM" SESSION

More than 100 high school boys were present Thursday night, the first "free for all" gymnasium session. The boys played basketball, wrestled, boxed, used the apparatus and enjoyed themselves generally. W. E. Olds, superintendent of schools, was an interested participant in the sport. These gymnasium nights will be made regular features of the school year. They will be held Monday and Thursday night.

American Association Will Play 168 Games

Chicago, Jan. 15.—Club owners of the American association, after wrangling all day over the details of the 1920 schedule, decided tonight to play 168 games, opening April 14 and closing October 3. Because none of the tentative schedules were satisfactory a committee was appointed to present another tomorrow.

In normal times Spain has a smaller foreign population than any other country in Europe, Norway being second in this respect.

John McGraw's catchers were the great disappointment of the year. With McCarthy, Snyder, Gonzales and young Smith to help out, the Giants seemed to be well fixed, but Snyder and Gonzales had very poor years, and McCarthy did not live up to expectations. A capable catcher is about the biggest asset a ball club can have. The manager in the National League who can develop one next from the roll call of an old soldiers' home. The season will have gone a long way toward putting his team in the winning class.

As for first basemen who have their futures before them, the only

COMEBACKS OF FIRST SACKERS WAS A FEATURE

Daubert, Koney and Merkle Upset Dope in the National.

Two things stand out as features of National League play last year, says Sporting News. One was the poor showing of the catchers generally in the Heydler circuit. The other was the comeback of veteran first basemen—the work of Daubert, Koney and Merkle, all classed as near has-beens, being notable. But even so, the National's first base dependables are of an age, generally speaking, where not much can be expected of them in future, and unless most of the managers look ahead and prepare they are going to be up against it before long.

As for catchers, the situation is enough to make the team leaders throw up their hands in despair. Outside of Cincinnati and Chicago there isn't a club in the league that isn't crying for a first-class catcher, and even the two clubs named must be looking ahead. Bill Killifer has been a major league backstop for ten years, and as catching is hard work, it takes a pretty durable article to keep up the pace after such long service. Wingo is looked on as a young man, but he too has seen ten years of major league service. Bill Rariden, though he did good service for the Reds last season, is admittedly near the point where he must retire.

John McGraw's catchers were the great disappointment of the year. With McCarthy, Snyder, Gonzales and young Smith to help out, the Giants seemed to be well fixed, but Snyder and Gonzales had very poor years, and McCarthy did not live up to expectations. A capable catcher is about the biggest asset a ball club can have. The manager in the National League who can develop one next from the roll call of an old soldiers' home. The season will have gone a long way toward putting his team in the winning class.

As for first basemen who have their futures before them, the only

Mrs. H. E. Little has returned from Green Bay, where she visited her sister, Miss Ione Tobin, who is ill at St. Mary's hospital, following an operation.

DEATH OF CHILD DELAYS FUNERAL OF BABY BROTHER

Gladstone Home Saddened Doubly Within a Brief Period.

The spirit of affliction lies heavy on the saddened home of Mr. and Mrs. Joseph Larson, of Gladstone, where death invaded the home yesterday for the second time within a period of 72 hours. Norman, aged six months, passed away Wednesday after a brief illness of pneumonia. Lloyd, aged three years and nine months, was suffering from the same disease. Arrangements were made for holding the funeral of the first child at 2 o'clock yesterday afternoon at the Larson home. The undertaker arrived about 45 minutes before the time set for the funeral and about 25 minutes later, the second child passed away. Rev. J. J. Hellin had just arrived to conduct the funeral of the infant child, when death claimed the second.

Following a brief conference it was determined to delay the funeral of little Norman until Sunday afternoon at 2:30 o'clock, when a double funeral service will be held at the home.

Mr. and Mrs. Larson, who have been up almost constantly for the past 13 days, are also suffering from heavy colds, and it is feared their weakened condition may result in their contracting the disease. There are seven other children surviving.

The sincerest sympathy of the entire community has been aroused for Mr. and Mrs. Larson and it is believed Sunday's funeral will be one of the largest ever held in Gladstone.

London's famous police-station at Scotland Yard has accommodations for three thousand policemen.

THE FINANCIAL CENTER OF DELTA COUNTY.

National Thrift Week January 17th

As the birthday anniversary of Benjamin Franklin, America's most ardent exponent of economy, Thrift Day holds a dual and deep significance.

Designated as a day not only on which to reflect upon and realize the individual and national importance of thrift, it will be primarily

A Day For United Action

when many will consider the establishing or increasing of bank accounts as particularly appropriate.

With the enthusiastic co-operation of hosts of Americans, the war waged on waste will be won—and thrift set in the place of honor.

Escanaba National Bank Escanaba, Michigan.

You Should Be Given the Benefit

These days of changing prices makes marketing an uncertainty. The public should be given the benefit on every occasion where possible. This store shall make an effort to follow out this policy, and the standard brands of Groceries and Meats at prices here quoted is a fair demonstration.

Cream of Wheat Flour

One of the Best Grades Flour on the market. You all know what kind of flour it is.
