

HOUSE OF DAVID READY FOR FIGHT

"SIX TO ONE" CRY IS RAISED AGAINST COURT

BRITISH VOTING POWER BALANCED, SAYS G. O. P.

BY DAVID LAWRENCE.

Washington, April 11.—Official assurance was given today that those who have been worrying about "Britain's six votes to America's one" in choosing judges for the world court were unnecessarily disturbed.

The government feels that the United States is sufficiently protected against any supposed inequality in voting and the following explanation is given on that point: Nominations for judges are submitted to the council as well as to the assembly of the league of nations.

But with forty-five to fifty votes being cast in the assembly, no single group of six or seven votes could have any more influence in persuading others to elect a certain candidate for judge than would the United States with one actual vote but with potential influence in Central and South America, where most of 18 votes are much more likely to follow the lead of the United States than a European power.

The interesting phase of this argument which is being used by the republican administration to justify participation in the world court is that precisely the same line of thought was advanced by the democratic administration when the "six-to-one" cry was raised and it is a fact that the alleged inequality of voting and the ambiguities of article ten were as instrumental as any other factors in preventing American acceptance of the covenant of the league itself.

May Help League Friends. The only difference is that the United States would have even more protection in the council on all matters other than the selection of judges for the world court as a unanimous vote of the council is required before any action can be taken and no important action of the assembly can be taken unless there has been unanimity of voting in the council.

HOOVER, URGING MEMBERSHIP IN INTERNATIONAL TRIBUNAL, REPLIES TO BORAH'S ATTACK

Administration Begins Platform Defense of Policy.

Des Moines, Iowa, April 11.—Herbert Hoover, secretary of commerce, opening the administration's campaign for American participation in the world court, in an address before the National League of Women Voters here tonight was put on the defensive before he started to speak when Judge Florence Allen of the Ohio supreme court, who preceded him on the program declared for the outlawry of war by the nations and argued that American entry into the world court was not an appreciable step toward international peace.

Her address was so warmly received by the audience, that Mr. Hoover devoted his opening sentences to a declaration that "practical government" faced difficulties not to be overcome by mere advocacy and pleaded for the pursuit of "realizable ideals."

DEPENDS COURT. Des Moines, Iowa, April 11.—American membership in the permanent court of international justice, organized by the League of Nations, was advocated by Secretary Herbert Hoover tonight as "an essential step" in the direction of world peace.

Not Entering League. It marked the beginning of the public debate in which most of the leading men of the country are preparing to take part.

Experts Keep Books on Ruhr. Paris, April 11.—(By the Associated Press.)—The economic staff attached to the reparations commission are keeping books on the costs to Germany on the one hand, and to France and Belgium on the other, in the occupation of the Ruhr.

Rich Gold-Copper Ore Find Reported. El Paso, Texas, April 11.—One of the richest strikes in copper-gold ore in recent years was made at the 300 foot level in the United Verde extension mine at Jerome, Ariz., according to news received here today from officials of the mine.

Pennsylvania Rail Chief Drops Dead. Camden, S. C., April 11.—John G. Rogers of Chicago, vice president of the Pennsylvania railroad, died suddenly today on the golf course of the Camden Country Club.

STUDENT TELLS HIS STORY OF CAMPUS BATTLE

MIDDLETON SAYS HE SHOT OFFICER IN SELF DEFENSE.

Lexington, Ky., April 11.—Warren Middleton, of Paducah, Ky., University of Kentucky student, was acquitted of a charge of murder in connection with the slaying of Joseph Self, university night watchman, by a jury in circuit court here late tonight. The jury deliberated 40 minutes.

Lexington, Ky., April 11.—Testimony in the trial of Warren Middleton of Paducah, Ky., a student at the University of Kentucky here, charged with the murder of Joseph Self, university night watchman, was completed when court adjourned late today.

Girl Is Witness. Miss Clover Coleman, also of Paducah and a university student, who was Middleton's companion on an automobile ride, during which the shooting occurred, corroborated his testimony in most points. She said, however, that she had covered her face with her hands before the shooting began and was unable to say who fired first.

Says Fired in Defense. Middleton testified he fired only after he had been wounded by a bullet from the watchman's weapon. The trouble resulted, Middleton declared, because Self approached the automobile and assigned the defendant in profane language for violation of a university rule against driving on the campus at night.

TAMPA-MIAMI PARTY LOST?

Miami, Fla., April 12.—Three members of the Tamiami trail blazers reached Miami at 12:50 o'clock this morning. The entire party is safe and is located 61 miles west of Miami, they reported.

Miami, Fla., April 11.—An airplane sent into the Everglades today by the Miami Herald to search for the missing Fort Myers motor voyagers, returned this afternoon without finding any trace of the party, in which there are 19 men and 5 women.

Would Bar Sales. Such a development, in effect extending to all the British dominions, and the prohibition already laid down by Canada, would bar the shipping board from disposing of its surplus tonnage to any British subject, and if the example were copied by other nations, might wipe out entirely the foreign market for American ships.

HERRIN DIDN'T ASK STATE AID

Springfield, Ill., April 11.—(By the Associated Press.)—Adjutant General Carlos E. Black, testifying this afternoon before the house committee investigating the Herrin rioting, declared he had not ordered troops to be troubled area in Williamson county nor asked Gov. Small to do so, because he had no request from Herrin for the militia.

General Black, who was questioned for two hours by the entire committee, asserted that at no time did Colonel Sam Hunter, his representative in Williamson county, advise him that the situation was serious enough to warrant troops. He added that the colonel's report made July 5 was incorrect in many details but under questioning admitted he had not ordered the alleged errors rectified.

Tammany Leader Hit by Auto, Dies. New York, April 11.—Thomas F. Smith, former congressman and for more than 20 years secretary of Tammany Hall, died in Bellevue hospital tonight an hour after he had been struck by a taxicab. He was 60 years of age and for years had been one of the democratic leaders of the senate.

NEW UTILITIES RATES TO SAVE \$60,000, YEAR

All Charges Have Been Cut Under Harris' Management.

Within a year from the time that Escanaba's council manager form of government began to actually function, electric, gas and water bills of the people of this city, will have been reduced slightly in excess of \$60,000.

A reduction of \$5,000 a year in water bills of the people has already been effective and on April 1, a reduction in the city gas rate became effective that will reduce the gas bills of the people by \$10,000 a year.

Recommendation Framed. City Manager Harris yesterday framed his formal recommendations to the council on the new electric rates to be presented to the council at its next meeting, and plans are now being made for placing the new rates in effect as soon as possible after they have been endorsed by the council.

No Further Cuts. The possibility of a further reduction in the electric rate is not now seen by Manager Harris, but it is possible if the number of consumers of the gas plant can be greatly increased the rate for that utility may be given another slice. Because of heavy bond issues hanging over the water plant, it is not believed that the water rate can be materially cut until it is possible to retire a fair share of the outstanding bonds and thus reduce the high fixed overhead charges under which that plant is now laboring.

FORD'S NAME PUT ON BALLOT

Omaha, Neb., April 11.—Petitions requesting that the name of Henry Ford, Dearborn, Mich., automobile manufacturer, be placed on the primary ballot of the Progressive party in Nebraska, in 1924 as a candidate for president, were filed late today with the secretary of state. The petitions contained more than 1,600 names.

The filing of the petitions in Nebraska today was the beginning of a national mobilization of the progressive party of America, in support of Henry Ford for president, Roy M. Harrop, president of the American Economic League, which is sponsoring the Ford for President movement, declared.

On April 14, State Manager Frank Johnnes, of Boise, Idaho, will file petitions in that state requesting that Ford's name be entered on the primary ballot of the Progressive Party there. Other petitions will be filed in Iowa and Texas.

Would Make Civics Teaching Mandatory. Lansing, April 11.—A bill was introduced in the house today by Rep. Dystra to require the teaching of civics government, as well as the state and federal constitutions in public and private schools. The billion dollars on deposit in Michigan banks, trusts, deposit and security companies, would be subject to a one mill specific tax to be paid by the bank and deducted from the depositor's account under a bill introduced by Rep. Wells. The tax would raise more than \$1,000,000 annually.

Harding to Adjust Tariff Controversy

Washington, April 11.—President Harding will attempt soon to straighten out the tangle in the new tariff commission growing out of the variance of opinion among members as to procedure under the reflections of the tariff law. Mr. Harding has made a tentative engagement to confer with the commission members Friday and indications today pointed to a thorough inquiry by the executive into the controversy which has held the commission almost in a deadlock for some months.

Rodolph Valentino, the movie star, will take a rest for his nerves, but not for his nerve.

Parliament Downs Cabinet in Turbulent Session

LONDON, April 11.—(By the Associated Press.)—Perhaps never since the days of Parnellite obstruction has such a scene of violent uproar been witnessed in the house of commons as that which today transformed the ordinarily dignified chamber into absolute bedlam.

The disorders arose primarily out of the government's defeat by a small majority on a mere technical point last night.

Today Stanley Baldwin, chancellor of the exchequer, introduced a motion framed to counteract this defeat, only to meet with a storm unexampled in present day parliamentary annals, in the face of which the speaker, powerless to obtain a decision, declared the motion carried under closure and the house adjourned until tomorrow.

The Laborites clearly felt that they had a big stick to wield against the government in the interests of ex-servicemen, which was the question originally before the house. In this attitude the labor members are likely to receive the support of the whole laborite electorate.

"VET" BUREAU SCANDAL SEEN

"DISHONESTY" MAY BE UNCOVERED IN PROBE.

Washington, April 11.—Disclosure of "dishonesty" on a pretty big scale here and there, in the past handling of veterans' bureau affairs was predicted today by Major General John F. O'Ryan, special counsel of the senate investigating committee, who said he based his statement on a preliminary survey.

On the other hand, he declared he was impressed with the conscientious efforts made in many directions to carry out the purpose for which the bureau was created. Many of the difficulties encountered which brought adverse criticism, he said, probably will be traced to the incompetence of under-paid employes entrusted with the expenditure of vast sums of money.

Hearings Next Week. General O'Ryan expects the committee to begin hearings next week. Complaints reaching the committee counsel cover most of the activities of the bureau, but the principal ones, General O'Ryan said, are those charging graft in the purchase of hospital sites and those of former service men who either have not received compensation by the bureau and who are receiving sums but think they are not getting a "square deal."

Neither he nor the senate committee, Gen. O'Ryan will attempt to correct mistakes or injustices.

Watch For Fraud. These are being called to the attention of the veterans' bureau and their correction will be left to Director Hines. If anything of a criminal nature is developed, he added, it will be called to the attention of the department of justice.

FLORIDA CAMP BOSS INDICTED

Madison, Fla., April 11.—(By the Associated Press.)—Walter Higginbotham, "whipping boss" at a convict camp of the Putnam Lumber Company at Clara, Fla., was indicted here late today by the grand jury on three counts charging first degree murder in connection with the death of Martin Tabert, North Dakota youth. Tabert died three days after he had been whipped by Higginbotham in February, 1922, according to witnesses who appeared before the grand jury today, but camp officials contend the youth died from natural causes.

Higginbotham was released tonight on bail of \$10,000 pending his trial.

The former camp boss had nothing to say when informed of the grand jury's action. Higginbotham's attorneys said they would admit that the lash was used on Tabert but that the blows given him were light and were administered because of his failure to work.

Discuss Successor to Milo D. Campbell

Washington, April 11.—Available means for appointment as the third republican member of the Federal Farm Loan board were discussed at a conference today between President Harding and Farm Loan Commissioner Lobdell and Elmer Landos, a member of the Farm loan board, but whether a decision was reached was not disclosed.

ISRAELITES TO CONTEST SUITS STATE BEGINS

ATTORNEYS SERVE NOTICE OF HARD BATTLE.

Lansing, April 11.—Officials of the Israelite House of David will fight the state in its effort to curb the activities of the cult.

This was the message brought today to Gov. Alex J. Groesbeck by H. T. Dewhurst, counsel for the colony, Joseph Bully, a prominent member of the organization and William Barnard of Paw Paw, Mich., another attorney representing the cult.

Following the statements of the attorneys, the governor is understood to have replied: "Promise Hard Fight. 'You will have a fight on your hands.'"

The colony representatives agreed to file in circuit court here April 24, an answer to the state's quo warranto proceedings against the organization. The state is compelling the colony to show cause why it should not be prohibited from continuing operations in Michigan.

During the conference the governor asked the colony representatives if they knew the whereabouts of Benjamin Purnell, head of the House of David, who is missing. They replied that he had not been seen or heard of by them since January 1.

May Call Grand Jury. A second conference was entered by the visitors this afternoon, they having closeted themselves with Attorney General Dougherty. It was understood this meeting concerned the possibility of the state starting criminal proceedings against Purnell on charges of immorality and fraudulent practices.

Persons close to state officials predicted today's conference would result either in criminal action or efforts to bring a grand jury investigation of the Benton Harbor colony.

MARQUETTE BOY FOUND GUILTY IN CALIFORNIA

EL CENTRO, Calif., April 11.—Lawrence C. Campbell of Marquette, Mich., was convicted of the murder of Leslie Nichols, an insurance adjuster by a jury in the superior court late today.

DENY CAPTURE OF DE VALERA

Irish Free State Says He Was Not Taken Into Custody.

Dublin, April 11.—(By the Associated Press.)—Official contradiction by Free State army headquarters this afternoon of reports that Eamonn de Valera had been captured, brought statements tonight that the irregular leader was not a member of the party surrounded by Free State troops when Liam Lynch was captured.

The capture and fatal wounding of Lynch, who was the republican chief of staff, excited speculations of immediate peace, but there is no indication as yet of any change in the attitude of the republicans or of the government, the latter continuing to insist upon the absolute surrender of all arms.

Six Men Executed. The execution today at Tuam of six more republicans for possession of arms is pointed to as evidence that the authorities firmly intend to continue all measures they believe necessary to restore order throughout the country.

Boston, April 11.—Thomas P. Lawson, sportsman, stock market operator and author, today advertised for sale in Boston newspapers "the best car in the world." Recently Lawson's magnificent estate at Egypt was put in the hands of trustees and many of his treasures were sold to satisfy creditors.

After describing the automobile, the advertisements, signed by Lawson, said: "My only reason for selling is that I must have money. My creditors say so. This means I must confine myself to the use of my open car and four or five smaller ones. As I am completely out of cigars for summer smoking I will take 5,000 \$1 cigars in lieu of cash."

SPRING SHOWERS SPELL WINTER'S RETURN HERE

Low Temperature Is Predicted for Escanaba This Morning

Although nearly a quarter of an inch of rain fell on Tuesday night in the first shower of the year, a dropping temperature had restored near winter weather conditions when Escanaba awakened yesterday morning. Sunshine rotated with gusts of snow to make yesterday alternately approach the delightful and the unbearable. Hopes of those who have been confidently looking forward daily to coming of spring weather conditions, received another shock yesterday when "much colder" weather was predicted for this morning, but a rising temperature is expected to follow during the day.

March Like January.—In compiling statistics on March weather conditions for forwarding to the headquarters of the department at Washington Observer H. H. Spindler found yesterday that the average temperature for March was the identical average temperature record for January of this year. The morning session was called to order at ten o'clock with Lady Catherine Watson, County Commander, presiding. Much important business was taken up and the election of delegates to the state convention was held.

The following delegates were nominated: Lady Kahlow, Cora Hive, Lady C. Dwyer, Escanaba Hive; Lady Tillman, Rachel Hive, Gladstone. The alternatives are Lady Richer, No. 1; Lady Watson, No. 2; Lady Miller of Rapid River, No. 3.

After the morning session a delicious luncheon was served at the Hotel Delta to the visiting ladies and several members of the local hives. The afternoon session was called at 2:15 and a short business session was held. After the business meeting a social time was had, the ladies playing Five Hundred.

The ladies of the Escanaba Hive entertained the Macabees and their friends at a fancy dress party in the evening at Grenier's hall at which time many elaborate and comic costumes were worn. Popcorn was sold and one bag containing a dollar was given as the prize.

Officers for the county for the ensuing year were elected as follows:

Commander, Ella Harvey, Escanaba.

Lieut. Com., Maude Kamrath, Escanaba.

Past Com., Catherine Watson, Gladstone.

Record Keeper, Mary Pease, Gladstone.

Finance Keeper, Belle Harvey, Escanaba.

Chaplain, Mrs. McPherson, Rapid River.

Mistress-At-Arms, Sarah Richer, Escanaba.

Sergeant, Marie LaCombe, Gladstone.

Sentinel, Edna Young, Rapid River.

Picket, Ella Vanderweighe, Gladstone.

The out-of-town ladies who attended the convention were: Mrs. Catherine Watson, Isabel Tillman, Mary Pease, Mary Rollins, Gilda Eaton, Marie LaCombe, Ella Vanderweighe, Laura Castel, Myrtle Potariss, A. Is Sanford, Rachel Hive Gladstone, Mrs. Elizabeth Miller, Mrs. Edna Young, Mrs. Shory, Mrs. Pfeiffer, Lizzie Barbeau, Mayme McGraw, Emma Darrow, Gertrude Darrow, Rapid River; Mrs. D. N. Harvey, County Poor Farm, Groos, and many representatives from the two local hives. The County Association meeting will be held May 10th.

"A PURITAN WIFE"

BY JANE PHELPS

Chapter XXI.
Little Jack was eight months old, Dick's crops that year had been a good one, although some of the trees had been blighted beyond bearing in the frosts of the season before. But this year everything had been in readiness to care for fruits and trees, although the season had been a mild one.
Ann felt suddenly sick. Dick had done this, invited Grace Edmunds to be their house guest without consulting her.
Without waiting for Ann to say anything Grace went on: "You see I just made him say 'yes'. You couldn't refuse me could you, Dickie?"
"I guess you get what you want most of the time," Dick returned smiling into her eyes.
"But, Grace, I doubt if I can make you comfortable," Ann found her voice at last. "I have no help, and with the baby—"
"Nonsense!" Grace interrupted. "I'll not mind. I know what care you take of Dick, just give me the same, and let me bunk right in the living room on the couch. I expect I shall be so tired I'd be able to sleep on the floor. Our director is a pipper for making us work, I'll send a grip over before night."
Ann felt suddenly more helpless than ever she had felt in her life. This taking calm possession of her home staggered her. Dick seemed to have no idea she would not be pleased and stood smiling, while Grace rattled on, telling of the picture, her part, not the lead, but that she hoped soon to star.
"I've not the director going. He's half in love with me now," she bragged, "and won't be jealous when he sees Dick. You're so good-looking, Dick! I don't think I shall tell him you are married. It will be such a joke to make him jealous."
"Better be careful! You might get into trouble, instead," Dick laughingly replied.
"What a darling baby!" Grace exclaimed as little Jack tried to attract attention, thinking he had been neglected long enough. "He's the perfect image of you, Dick! I suppose he'll break all the girls' hearts too when he grows up."
"There is a good deal of Ann in him," Dick replied, "although he has my coloring. His mouth and chin are hers."
"I can't see a look of Ann. He's you all over."
Ann had stood by so miserable she could not speak. She had been so happy, and now with Grace Edmund's advent she felt her happiness slipping from her. Already Dick had neither eyes nor thought for anything but the high-spirited, beautiful girl chatting with him, ignoring Ann, just as she used to do.
"It is almost lunch time," she finally said through stiff lips. "You'd better have it before you go back to the orchard, Dick."
"All right!" Dick flung himself on the steps, taking off his wide hat and wiping his brow. "I can eat all right, I've hustled all morning."
"I'm as hungry as a bear!" Grace exclaimed as she flopped down beside him, while Ann went slowly into the house, carrying little Jack with her, and as she hugged him to her breast whispering:
"Oh, why did she come?"
In a few minutes she called them in, and while they ate of the delicious food she had prepared they talked of the pictures, Grace describing the part she was to take, and so on.
After they had finished, she declared she must get back, and walked off with Dick, who had scarcely noticed the baby, instead of romping with him for ten or fifteen minutes as he usually did at the noon hour.

PROF. CRANE TO BE GUEST OF 2 BODIES APR. 20

Man Who Rendered Valuable Aid to Escanaba Is Coming Here.

Prof. Robert T. Crane, of the University of Michigan, who assisted in the framing of Escanaba's council manager charter, and who spent several days in Escanaba when the present council assumed charge of city affairs under the new charter, is to be the guest of members of the council and members of the charter commission at a complimentary dinner to be served here on Friday evening April 20.

A response to a joint invitation extended to Prof. Crane by members of the council and the charter commission, following a meeting of the two bodies held a week ago, was received yesterday and in his letter Prof. Crane announced that it would be convenient for him to be in Escanaba on April 20.

All to Attend. It is expected that every member of the council and of the charter commission will make a serious effort to attend the event arranged in honor of Mr. Crane, as it is recognized that he rendered an invaluable service to the city of Escanaba through the helpful suggestions made by him to the charter commission and to the city council.

To Give Account. At the coming dinner an account will be submitted to Prof. Crane of the results that have been accomplished during the first year of the operation of the city's affairs under the new charter and any suggestions that the guest of the evening will contribute will be earnestly sought.

All plans for the dinner will be completed within a few days and the expense of the upper-laxing will be borne by the individual members of the charter commission and the city council.

AMUSEMENTS

DELFT TODAY. "The Message of Emile Coue," the two-reel Educational Pictures Special, the motion picture in which M. Coue gives his message of healing by means of conscious auto-suggestion, will be shown at the Delft Theatre today.

This picture is the only one in which M. Coue appears, and the only one which was authorized by him. It is from a scenario prepared under his supervision, and is a graphic illustration of the means whereby anyone can master auto-suggestion. It is a picturization of many of the examples and experiments outlined in M. Coue's lectures and cited in his work on self-mastery.

The unique comedy situation of a man going to jail to avoid being murdered is presented in "Thirty Days," starring Wallace Reid, which will also be shown at the Delft.

Mr. Reid, as John Cadwalader Floyd, a rich young man, is being pursued by an impetuous Italian butler who, thinking John has killed his wife, has sworn to kill him. John might have kept clear of Polenta without having to go to jail, but when the fiery Italian enlisted the aid of his fellow members of the secret and terrible "Society of the Thousand Eyes," John found stilletos on every hand, sleeping and waking. So he decides to go to jail until Polenta leaves the country, or gives up his revenge. But Polenta gets into the jail, and when unsuccessful in there, waits outside the gates for John, whose humorous antics, ably portrayed by Mr. Reid, are a source of continual merriment.

AT THE STRAND. Harry Carey crashes thru the thrilling situations of "Crashin' Thru," at the Strand Theatre for the last time today, marking the final showing of this thrill-thronged, excitement-crowded picture.

"Crashin' Thru" struck a responsive chord with patrons of the Strand Theatre as evidenced by both the enthusiasm shown at the performances and the large attendance.

Today offers the final opportunity to those who have not yet been thrilled by the frenzied stampede of thousands of horses charging down on Diane, her amazing rescue by Carey, sweeping directly across the surging, storming sea of frenzied, flame-driven animals, the dynamiting of a whole mountainside, the appalling avalanche, the lashing wind-storm and fear-inspiring cabin fire. Supporting Mr. Carey are Viola Vale, Cullen Landis, Myrtle Stedman, Vester Pegg, Nell Craig and Charles Le Moyné.

Earle B. Mayfield, whose election as United States senator from Texas may be contested, born at Overton, Texas, 42 years ago today.

At the coming dinner an account will be submitted to Prof. Crane of the results that have been accomplished during the first year of the operation of the city's affairs under the new charter and any suggestions that the guest of the evening will contribute will be earnestly sought.

All plans for the dinner will be completed within a few days and the expense of the upper-laxing will be borne by the individual members of the charter commission and the city council.

AMUSEMENTS

DELFT TODAY. "The Message of Emile Coue," the two-reel Educational Pictures Special, the motion picture in which M. Coue gives his message of healing by means of conscious auto-suggestion, will be shown at the Delft Theatre today.

This picture is the only one in which M. Coue appears, and the only one which was authorized by him. It is from a scenario prepared under his supervision, and is a graphic illustration of the means whereby anyone can master auto-suggestion. It is a picturization of many of the examples and experiments outlined in M. Coue's lectures and cited in his work on self-mastery.

The unique comedy situation of a man going to jail to avoid being murdered is presented in "Thirty Days," starring Wallace Reid, which will also be shown at the Delft.

Mr. Reid, as John Cadwalader Floyd, a rich young man, is being pursued by an impetuous Italian butler who, thinking John has killed his wife, has sworn to kill him. John might have kept clear of Polenta without having to go to jail, but when the fiery Italian enlisted the aid of his fellow members of the secret and terrible "Society of the Thousand Eyes," John found stilletos on every hand, sleeping and waking. So he decides to go to jail until Polenta leaves the country, or gives up his revenge. But Polenta gets into the jail, and when unsuccessful in there, waits outside the gates for John, whose humorous antics, ably portrayed by Mr. Reid, are a source of continual merriment.

AT THE STRAND. Harry Carey crashes thru the thrilling situations of "Crashin' Thru," at the Strand Theatre for the last time today, marking the final showing of this thrill-thronged, excitement-crowded picture.

"Crashin' Thru" struck a responsive chord with patrons of the Strand Theatre as evidenced by both the enthusiasm shown at the performances and the large attendance.

Today offers the final opportunity to those who have not yet been thrilled by the frenzied stampede of thousands of horses charging down on Diane, her amazing rescue by Carey, sweeping directly across the surging, storming sea of frenzied, flame-driven animals, the dynamiting of a whole mountainside, the appalling avalanche, the lashing wind-storm and fear-inspiring cabin fire. Supporting Mr. Carey are Viola Vale, Cullen Landis, Myrtle Stedman, Vester Pegg, Nell Craig and Charles Le Moyné.

SET DATES FOR COUNTY FAIR ON SEPT. 18 TO 21

Delta County Fair Not to Conflict with Others in Peninsula.

The annual Northern Michigan Fair, bigger and better in all of its departments than ever before, will be held on Sept. 18, 19, 20 and 21. Definite dates for the county fair of this fall have been fixed by members of the board of directors of the Delta County Agricultural Society, after consultation with the officers of fair societies in all other counties of the upper peninsula. The dates selected for Delta county's annual show will not conflict with the dates of any other county fair in the peninsula, allowing an interchange of attractions and the perfection of a racing circuit, that it is believed will attract many outside horses to this section next fall.

All of the free acts that will be included in the daily programs at the fair have been booked, and other preliminary plans are going forward to allow the fair of this fall to take rank as the most successful undertaking of its kind ever attempted in Cloverland.

Louis Londo, a student who has taken the course of vocational training at the Government School at Menominee arrived in town on Friday. He is most enthusiastic about his plans for the future. He states that his intentions are to start up a modern poultry plant on the Wm. McNally road, with bees and strawberries as a side line. His favorites are the Barred Plymouth Rock variety and we understand that the nucleus of his stock are already ordered. Broilers and capons will be features of this enterprise and we do not doubt that Mr. Londo will find a ready market for these delectables, with the large number of tourists expected through this season. Our new companion has the good wishes of a large number of neighbors and friends.

Wilmer Bennet of Fayette was in town yesterday. Lorraine Hennessey and her sister Elaine went up to the McPhee camp on Saturday and spent the week end with their parents. Harry Hennessey and wife, both the latter are restored to the full measure of health again.

The sacramental services at the Congregational Church were postponed from last Sunday to the coming Sunday, on account of the bad condition of the roads, caused by Saturday's snow storm. Members and friends please note.

Mr. and Mrs. Kline of the Soo left here Monday afternoon for Escanaba. From that city, they will go on to the Soo. They have been visiting at the Casper home. James Ward came in here on Saturday with nine head of horses from the Bonifas Lumber camps at McMillan. These were taken down to the Casper's farm south of town. Mr. Ward states that the amount of snow here is nothing compared with that at McMillan. Mr. Ward returned to the Casper home on Saturday. He is expected back again soon, to complete his treatment at the cancer hospital.

Curtis Johnson of Washington Island came over on Friday to visit his father at the cancer hospital. He returns today. Claude Deloria is back again for a few days at his old job at the Christensen meat market. John Christensen expects in a few days to go to Escanaba with a

line of fancy articles made by his wife. These he will offer for sale to the public. He is making a strenuous effort to raise enough funds to purchase and install his ice house. Mr. Christensen had a flourishing business previous to his misfortune with the fire last summer. The loss of an arm is a great handicap to him in his work but he has lots of the quality known as grit. He finds that his business is growing steadily and it is this growth which makes the refrigerator plant on his property a necessity. He has not been idle through the winter and in spite of the condition of the weather and the roads he has insisted on making his regular trips to Manistique, Nahma and other points, enduring hardships that would have killed ordinary men. Such pluck is bound to succeed.

Case Against Kells Again Continued. The formal preliminary hearing in the cases against Mr. and Mrs. John Kell, whose home was raided by members of the police force a week ago, was continued in Judge C. D. McEwen's court yesterday until Friday. At that time final evidence in the case will be submitted and a decision will be reached by the court whether or not the defendants shall be held to the circuit court for trial.

VENEER COMPANY

Why One Advertising Appropriation Was Increased

TWO partners were debating their advertising policy—planning the campaign for the next six months.

Theirs is a retail store which spent in one year \$12,000 on its advertising which was 5% of their yearly volume, a fair expenditure in their line of business.

In growth of sales they could easily point out the home-coming of the \$12,000 with a fair and reasonable profit in its train. For these two partners that expenditure was a profitable short-term investment.

One of the partners spoke up:

"John," he said, "we have a cash profit in the bank from that \$12,000, but we have a greater intangible profit by far—it is piled up for us in the minds of every man and woman in the city.

"It is reflected in the attitude of our bankers.

"It is present in the minds of the manufacturers who sell us.

"It is working on the minds and purses of every one of our customers."

"Why," he continued, "this business, because of the advertising we have done, is worth \$12,000 more than it was before we began."

The two partners increased their appropriation, modestly, it is true. That was five years ago. Today, for it is in a large city, their appropriation is eight times their original amount. Their standing, with bankers, manufacturers and customers is A-1. Their business has grown and grown in a healthy way. And still as one of them put it—

"In the last five years advertising has made money for us. Every cent we've spent has come back to us, and brought another with it. But, our real profit—our big profit from that advertising is hanked in the minds of the people. Ours is the best known business of its kind in town. And that is worth a lot of money to us."

The Middle West Requires One-Third The World's Supply of Gasoline

NEARLY one-third of all the motor car registrations in the world are in the 10 Middle Western States served by the Standard Oil Company (Indiana).

This amazing fact—for it is a fact—is shown by these, the latest figures published by the National Automobile Chamber of Commerce:

World registration of motor vehicles (1922)	12,750,000
U. S. registration of motor vehicles (1922)	11,500,000
Percent of world registration owned in the U. S.	90%
Motor vehicle registration in 10 Middle Western states served by Standard Oil Company (Indiana) (1921)	3,514,436
Motor vehicle registration in 39 other states of the U.S. (1921)	6,899,253
Percent of U. S. registration owned in the 10 Middle Western states	31%

And yet, in the face of these astounding figures, the retail price of gasoline is low in the Middle West.

The reason for this is obvious.

The Standard Oil Company (Indiana) has six great refineries where gasoline is manufactured in sufficient quantities to meet the major part of this demand.

The process used in these refineries enables the Company to get from crude oil a large yield of good gasoline.

Throughout this territory the Standard Oil Company (Indiana) maintains an adequate and economical system of distribution, which enables it to maintain its established practice of selling its products at a price which is fair to all.

This Company's policy of fairness and its earned reputation for efficiency have enabled it to command ample capital for needed expansion of refinery facilities; for needed storage and equipment; for proper maintenance of tank wagon service and for a constantly increasing number of service stations, which permit the Company to deliver its products directly to the motorist.

The low price of gasoline in the Middle West is tangible evidence of the fairness, foresight, efficiency and skillful management which has put the Standard Oil Company (Indiana) in position to be of maximum service to the people owning one-third of the motor registrations of the world.

LOGAN FRAMED FOR GAS WEEK IN ESCANABA

Dealers and Manager Hold Meeting Yesterday

"If It's Done With Heat, You Can Do It Better With Gas" will be the slogan of "Cook With Gas Week" to be observed in Escanaba next week.

Plans Perfected. Definite plans for the observance of Cook With Gas Week were made at a conference held yesterday afternoon by the dealers with City Manager Fred R. Harris and every indication is given that the people of Escanaba are due to receive more instruction in the use and economy of gas than in all of the previous history of the Escanaba gas plant.

At every store where gas stoves are sold, gas stoves and ranges of every type will be displayed and in addition the makers of each brand of stoves will send special demonstrators to the city to aid in showing the women of the city the proper and efficient use of gas commodity.

The memorial structure was named after the king whom it commemorated—Mausoleum.

The Latin language the word was modified to mausoleum and the English language borrowed it directly from the Latin.

Third Order of St. Francis To Be Reorganized

A large number of persons attended the opening services of the Triduum which began last night at St. Joseph's church when Rev. Fr. Fulgence, O. F. M., General Director of the Third Order of St. Francis, of Cincinnati, O., gave a very interesting and eloquent lecture on the history and aims of the order.

The order is for every one who wishes to join it, not only for members of St. Joseph's parish, but for all persons of other parishes as well. An invitation is extended to all to attend the services this evening and Friday evening. Saturday confessions will be heard and Sunday afternoon at two-thirty the enrollment will take place.

Any one wishing to join may procure the scapulars, cords and booklets in the rear of the church before and after the services this evening and tomorrow evening, at the nominal cost of 25 cents for all three articles. Money plays no part in this order, all the requirements asked are that the person who wishes to join really desires to derive the benefits and advantages gained by being a member and that that person be 14 years old or older.

In the lecture last evening, Fr. Fulgence related the history of the order which is 702 years old, and told about the 7th centenary which was celebrated at Chicago two years ago. He related the life of St. Francis of Assisi, from which the order derives its name and who also was the founder of this religious order.

Fr. Fulgence will tell the objects and obligations of the order tonight at the lecture which will be given at 7:30 and Friday he will talk about the objections and prejudices offered against the order. The public is invited to attend whether they intend to join or not and a hearty welcome is extended to all. The services will close with Benediction each evening. This is the first Triduum of this kind ever held in this city and should attract large crowds each evening.
