LASKER QUILTS COVETED POST ESCAPES TAPE

COL. HOUSE OF HARDING ADMINISTRATION RETIRES.

BY DAVID LAWRENCE.

Washington, June 9.—Albert D. Lasker, chairman of the United States Shipping Board...

Taken into the presidential bosom from the outset, Mr. Lasker's intimacy with the Hardings...

Albert Lasker's part in the Harding administration does not have an exact parallel in either administrations...

Subsidy Plan Harding's Own. President Harding promised Mr. Lasker when he came to Washington that he would give him his fullest support...

To an unusual extent, Albert Lasker has been the subject of conversation and of controversy in the inner life of political Washington...

President Harding probably has felt that he was more or less under obligation to Albert Lasker in bringing him to Washington with a sacrifice to his own business...

Maintenance Men Of Northwestern Get Pay Increase

Chicago, June 9.—Approximately 15,000 maintenance of way employees of the Chicago & Northwestern railroad will receive a wage increase...

YOST RECALLS LOCAL "M" MEN

Will Visit Escanaba Without Fail on His Next U. P. Tour.

"The one regret of my Upper Peninsula tour was that I was unable to get to Escanaba and some of the other towns I had hoped to visit," said Pleading H. Yost...

"Escanaba has given me some of the most valuable men I have ever had at the university," he said, "and five Upper Michigan quarterbacks, among them Tommy Hughitt of Escanaba..."

"I was much disappointed when I found that I could not get the Escanaba trip in on this tour. Many of the men who have helped to make Michigan famous..."

"Since the closing of the football season last fall I have been from coast to coast and from north to south, and the imperative call of work which is to be done at Ann Arbor forced me to cancel a large part of my Upper Michigan tour..."

"The purpose of my visit to the peninsula is not that of 'spotting' potential varsity material. My mission is to sell interscholastic athletics to the public of Michigan, and I am trying to impress everywhere the importance and value of competitive athletics in character building and citizenship work..."

"I have been pleasantly surprised by the records made and the spirit shown in this meet. Wilkins of Marquette, McGuire of Escanaba, Erickson of Menominee and many others have appealed to me as men who will go far in their field of athletics if they will follow the rules of rigid training and consistent practice..."

Opinions differ as to what Albert Lasker's influence at the White House has been apart from shipping matters...

Dr. G. A. Brandelle, Rock Island, was reelected president from a field of several candidates on the second ballot. His closest competitors were Dr. S. G. Ohman, New York, and Dr. P. Mattson, retiring vice president and head of the Minnesota conference...

Rockford, Ill., June 9.—Dr. G. A. Brandelle, of Rock Island, today was reelected president of the Augustana Synod, defeating Dr. S. G. Ohman, of New York City.

BEER STREAM FLOWS EASILY INTO DETROIT

Callow Youths Vie With Old Timers in Illicit Traffic.

Detroit, June 9.—Pettit Cote, a snug little harbor five miles down the Detroit River from Windsor, is the Canadian terminal for the mosquito fleet that daily transports from 2,000 to 3,000 cases of Canadian beer into the United States.

The runners operate on businesslike principles. Their movements are guided with the same precision that might control a fleet of liners. There is none of the reported glamour of the Spanish main. The little crafts that supply the thirsty of Detroit with beer labeled "seven proof" and "nine proof" are mostly row boats rigged with outboard motors.

While he rolled a cigarette, he talked to newspaper men on the wharf. The youth was looking for business. He asked his audience if anyone wanted to get "some stuff" across. In answer to questions, he volunteered a guarantee to land any cargo entrusted to him on the American side.

"This will be my fourth trip today," he said, "I carry an average of about 40 cases and get 50 cents a case. I have been running for three years and have never lost a bottle."

A man came out of a warehouse and waved his hand. The youth turned over his tiny motor and sputtered out of the slip into the river toward the American shore. An hour or two later he was back, his cargo gone. He had landed, he said, and unloaded his cargo at a houseboat in Wyandotte.

Foreign ship owners, pending protest by their governments, will meet the terms of the law, they announced.

Rockford, Ill., June 9.—Dr. G. A. Brandelle, of Rock Island, today was reelected president of the Augustana Synod, defeating Dr. S. G. Ohman, of New York City.

COURT RULING ENFORCEMENT IS INITIATED

MIDNIGHT ZERO HOUR FOR LIQUOR ABOARD VESSELS.

Washington, June 9.—Beverage liquor, which found asylum aboard foreign merchant men in American waters after it had been shouldered, from American soil by the Volstead act, now is officially driven out into the open sea.

After the stroke of midnight, under regulations drafted by the treasury, to make effective the mandate of the supreme court, there is no substantial legal foothold for alcoholic drinks, within the jurisdiction of continental United States, ashore or afloat.

A reminder of the zero hour as fixed in the regulations was given by treasury officials today to "all concerned with prohibition enforcement." It was pointed out, too, that the regulations, in the face of representations by most of the maritime powers of the world, are to be applied as rigidly, as a literal reading of the highest court's opinion will warrant.

Under the regulations, custom officers are authorized along with prohibition agents to seize and confiscate outlaw liquor. A shipowner and her master are alike amenable to the full penal provisions of the Volstead act upon conviction of violation.

New York, June 9.—The port of New York became officially dry at midnight tonight when customs officials put into effect the supreme court ruling, prohibiting all merchant vessels, foreign and domestic, from possessing liquor within the three mile limit.

Palmer Canfield, federal prohibition director for the state, made it clear that the law prohibits within territorial limits the possession of liquors not only for beverage purposes but also as cargo and ship stores. It is permitted, however, he said, to have "a reasonable quantity of wine for sacramental purposes and of intoxicating liquor for medicinal purposes."

Although no definite instructions came from Washington, and despite the admitted inadequacy of their forces, customs officials said the law would be rigidly enforced. It was stated that the seven or eight hundred men in the customs service probably would not be able effectively to cope with their many new tasks.

Foreign ship owners, pending protest by their governments, will meet the terms of the law, they announced.

Deputy Cleared In Student's Slaying

Watsoka, Ill., June 9.—Edward Holkes, a former deputy sheriff, charged with killing Earl Jennings Wendell, of Chicago, a university student, was found not guilty by a jury here today.

Hoover Leaves To Meet Challengers

Duluth, Minn., June 9.—Walter Hoover, world's amateur singles sculling champion, left today for New York, enroute to London, England, where he will defend the Diamond Sculls trophy in the English medly regatta early in July.

A system of adapting criminal fines to the income of the offender, as well as to the seriousness of the crime, is a unique provision in the proposed revision of Sweden's criminal statutes which has been recommended by the criminal law commission.

"SILENT TOUR" ENDS AT FIRST WELCOME TALK

"Speechless Trip" Now Becomes Round of Oratory.

Millford, Dela., June 9.—The heart of Delaware was opened today to President and Mrs. Harding, and an almost continuous ovation was given them as they traversed the state.

The president reached Wilmington by special train from Washington shortly after noon, firm in his declaration that he positively would make no addresses during the trip. An hour after he had reached Wilmington, moved by the reception tendered him at a luncheon given by the Young Men's Republican Club, he was making a speech exclaiming that no man could remain dumb in the face of such a welcome.

Five other speeches followed before he boarded the Presidential Yacht. Mayflower, tonight at Lewes to cruise back to Washington, greatly thanking those who gathered to welcome the party but concluding with some emphatic assertions to the duties of American citizens and the responsibilities of the American republic.

Mr. Harding referred to information given him by Senator Dupont and his host for the day, Senator Hall, that Wilmington was faced by a scarcity of labor and said the city and other cities confronted by similar conditions should be congratulated.

Reaching Dover, the old and quaint capital of Delaware, late in the afternoon, Mr. and Mrs. Harding were received at the state house by Gov. Denney.

It was early in the evening before the party arrived at Millford, the principal objective of the trip, to find the little town filled to overflowing with members of the Tall Cedars of Lebanon, a branch of Masonry, into which the president and Secretary Christian were initiated.

After the initiation ceremonies, at which the president made another informal speech, the party motored to Lewes and boarded the Mayflower.

RUSS FERRY DROWNS 40

Moscow, June 9.—Forty persons, including some women and children, have been drowned in a ferry accident on the River Tom, in the Kuebas concession area, according to the Workers Gazette. The Moscow office of the Kuebas colony has no information as to whether any Americans are among the dead.

Deputy Cleared In Student's Slaying

Watsoka, Ill., June 9.—Edward Holkes, a former deputy sheriff, charged with killing Earl Jennings Wendell, of Chicago, a university student, was found not guilty by a jury here today.

The jury returned its verdict after deliberating an hour and 15 minutes.

MAYOR HILAN BACKS UP ON OFFER OF AID

NEW YORK MAYOR SCORES DRY OFFICERS.

New York, June 9.—Mayor Hylan, who recently pledged this city's support to the enforcement of the Volstead law, told Federal Prohibition Director Palmer Canfield in a letter tonight that all liquor should be stopped at the port of entry and that enforcement was up to government officials.

"Enforcement of the Volstead act is your job in this locality," said the mayor's letter, "and you should go at it honestly. Do not try to shift the burden on the shoulders of anybody else. Do not rip open the feather bed and let the feathers be strewn to the seven winds and then expect the peace officers to go out and gather in the feathers. Keep the liquor from coming at the port entry so that the peace officers of any locality will not have to go for the liquor violators. Get the hooch and rum runner. The people of this country are sick and tired of being humbugged. They have been 'horn swaggled' more on the enforcement of this law than on any other that ever was placed on the federal statute books."

A. S. L. Head Scored. Mayor Hylan launched a bitter attack on William H. Anderson, state superintendent of the Anti-Saloon League, declaring that if he "and a few others of his kind, who, of course, need the salary which they derive from contributions paid in by well intentioned people," would give their aid to the federal authorities in stopping liquor at its sources, the people would get an honest enforcement of the Volstead act.

State Investigators said they put no faith in the statements of cult leaders, which were made to newspaper men.

Belief of the authorities that Benjamin will be in hiding not far from here, grew today when a member of the cult, represented as being disoriented, told an officer Benjamin was at the colony five weeks ago.

The name of the cult member is withheld.

TRAFFIC CODE IS EFFECTIVE ON AUGUST 29

Lansing, June 9.—A uniform traffic code, to regulate the operation of motor vehicles in all cities and towns, and to supersede many local ordinances which have differed in various localities and caused confusion to drivers will go into effect in Michigan August 29. The act establishing the code was adopted by the recent legislature, under the sponsorship of Representative Milton J. Palmer, of Detroit. It has the endorsement of the state police and police officers through the entire state.

An important section of the code provides that after August 29 motor vehicles must stop behind street cars in all cities and communities where the car tracks traverse the center of the street. The code says:

"Within the limits of any incorporated city or village having a street railway system, including motor bus street cars excepting busses loading or unloading at the curb, and on any paved highway outside village or city limits where a street railway traverses the center of the highway, it shall be the duty of motor vehicle drivers, approaching in the same direction, to bring their vehicles to a dead stop not nearer than six feet in the rear of the rear door of such street car or bus until all passengers are taken on and until all descending passengers have cleared the driveway."

It provides that when an automobile is traveling beside a street car when the car stops, it shall halt and hold its place until passengers are out off the way. Other provisions of the code are:

Drivers shall give suitable arm signals when stopping or turning. Vehicles on state trunk lines shall have the right of way over vehicles on intersecting roads. When two trunk lines intersect the vehicle on the right of the driver shall have the right of way. Left turns shall be made as near the center of the corner as possible.

"Dangerous Corners." The public utilities commission may designate "dangerous corners" throughout the state and require erection of suitable warning signs.

SAY PURNELL WILL ANSWER ALL CHARGES

Cult Leaders Protest Innocence of House of David Head.

St. Joseph, Mich., June 9.—Declarations that Benjamin Purnell, missing head of the House of David colony, would return here and face the statutory charge preferred by the state, were made today by officials of the colony, including Mary Purnell, wife of the cult leader.

None of those who made the prediction would say when they expected the cult leader to return, and each professed to know nothing of his present whereabouts.

The warrant against Purnell, issued following the statements at the state's grand jury hearing here by Gladys Hamford Rubel, has been used as the basis for the search extending as far away as Australia recently.

Protests Innocence. "Benjamin will be back," says Mary Purnell, known as the "queen" of the cult. "He has nothing to fear. Having lived with him all these years I am not one to know he is innocent of these charges?"

J. D. Tucker, a leader in the colony, said: "Benjamin is too busy spreading the word of God right now to come back here. But when it is time for him to appear he will do so. He has nothing to fear."

State Investigators said they put no faith in the statements of cult leaders, which were made to newspaper men.

JEALOUSY IS MURDER CAUSE

New York, June 9.—Jealousy over the friendship of Blossom Martin, his sweetheart, with a married man led him to strangle her in the home of the doctor where they were both employed, Eluigo Locade, a Filipino houseman, told the police today. The married man, whose name was not divulged, told the district attorney he had known the young girl for more than two years, during which time he said, she had frequent quarrels with Locade because she would not give up her friendship with him.

The dapper, undersized Filipino, was arrested at Staten Island early today as he bore the body, wrapped in a bundle much heavier than himself to a place of concealment in New Jersey. In his confession to the police, Locade said his jealous rage had centered on the dead girl's contention that he was financially unable to support a wife and nerved him to strangle her when she refused to listen to his pleadings last night.

Locade was arrested as he tried to toss his human burden into the river.

Summer Snow Chills Town of Leadville

Leadville, Colo., June 9.—Huge peaks of the Rocky Mountains were blanketed with fresh snow today as a result of a snow storm which fell in Leadville, ten thousand feet above sea level, yesterday, sent the temperature down to two degrees below the freezing point. The snow melted rapidly here but remained on the higher levels.

Churchmen Discuss Sectional Problems

St. Paul, Minn., June 9.—Problems of the individual sections were considered today at nine district meetings of the delegates attending the triennial convention of the Norwegian Lutheran church of America.

PREMIER AND MINISTRY ARE HELD CAPTIVE

RESERVE OFFICERS AND ACTIVE ARMY STAGE COUP.

Sofia, Bulgaria, June 9.—The Agrarian cabinet headed by Premier Stambouliak was overthrown today, the plot being carried out by reserve officers with the assistance of the active army. Although there was no bloodshed, the new regime proclaimed a state of siege and issued a proclamation to the nation saying "Bulgarian liberty dawns again. The regime of deceit, violence and murder has collapsed under the weight of its crimes, and a new era of law, harmony and peace has arrived."

Take Premier Prisoner. Premier Stambouliak, who has been living in semi-retirement, returned to Sofia last night. His arrival at the station was found troops drawn up and he was received with silence. The premier asked for an explanation the officers ignored the question. He then tried to telephone to police headquarters to obtain an explanation, but he covered the wires had been cut when he understood he was a prisoner.

Take Yellow Guard. The coup was carried out with military precision, members of the reserve officers organization and units of the active army surrounding parliament houses and arrested the ministers and deputies, while those ministers who were absent were arrested later at their homes. Among those arrested were the members of a powerful organization known as the "Yellow Guard," and a legend to be staunch supporters of M. Stambouliak.

All the frontiers are closed and no trains are allowed to leave the capital. The military junta which led the movement, issued a statement this afternoon denying rumors of a general mobilization; it said calm prevailed among the population making such a step unnecessary.

MISSING GIRL HAD FINE TIME

New York, June 9.—Emma Ruth Smerling, eight year old daughter of Mr. and Mrs. Smerling of Brooklyn, who disappeared last Thursday and since has been returned to New York from Washington, unaccompanied, today as mysteriously as she had disappeared from sight.

The child was met at the train by her parents and detectives after a telegram had been received from Washington earlier in the evening saying she was on her way home and safe. The telegram was signed "H. F. J." the initials of a man, the police said, who the girl met at a friend's home in Brooklyn and became friendly with him. She had a "wonderful time" she said.

BOBBED HAIR; HUBBYS OBJECT

Detroit, Mich. June 8.—Bobbed hair, and the strenuous resultant disapproval expressed by their husbands, drove two Detroit women to suicidal attempts today.

Mrs. Julia Alamore, 22, had her hair bobbed Wednesday. Yesterday, she said, her husband beat her and otherwise showed his objection to the bobbing. She said she swallowed 25 anti-pain tablets and then took a poison tablet from the effects of which she was recovering at a hospital tonight.

CREATING DEMAND. Her hat obscured his view at the theater and he leaned forward and asked if it would be possible to remove it.

And, with a swift movement, the woman unfastened her hatpins and removed her hat.—New Orleans Times-Picayune.

Come the Opening Day!

Look over the high-grade assortment of groceries—the generous quantity of nationally famous foods and necessities described above—that we are giving away absolutely free. View the newly built, conveniently arranged latest models of genuine Napanee Dutch Kitchenets—in snow white enamel, French gray enamel, and golden oak—that we offer at exceptionally attractive savings. See

the 40-inch wide model D with white porcelain table-top at \$39.75, and the other equally alluring values.

You have probably read in the magazines that these famous cabinets hold the world's record for time- and step-saving due to their unexcelled arrangement—that Harrington Emerson, the great efficiency expert, found a Napanee actually saves a woman 1,592 steps a day in her kitchen.

Come in and see why. Visit the exhibit—a wonderful sight in itself. Have a demonstration of the Napanee superiorities—all without obligation, of course. Don't miss this for anything!

Purchases Held, if Desired

You may select any model Napanee Dutch Kitchenet and have it delivered later, with the glassware and the free assortment of groceries; or for you—Mrs. Newly-wed—we will be glad to deliver them when you are ready to go to housekeeping.

ARCHIBALD SMITH HALL, WITH AND WITHOUT

By NEA Service. Weatherford, Tex. — If you usually get a haircut every two weeks and happen to miss a day, don't worry. Think of Archibald Smith Hall here.

He waited 57 years! Hall recently celebrated his 92d birthday by getting a haircut and shave—the first he's had since the close of the Civil War.

Hardly had the boom of the last cannon died away, than Hall swore by the beard he wore that never again would he bear a barber shop until a Democratic president was chosen who suited him. Election after election followed. But whenever an incumbent was ushered into the White House, Hall would turn thumbs down.

Until Woodrow Wilson, none passed inspection. But by that time the veteran's children had become so endeared to their dad's facial adornment that they dissuaded him from keeping his half-century pledge. A birthday, however, when one gets up in the nineties is an event. So Hall decided there was no better way to celebrate than to renew his acquaintance with clippers and razor.

And what a difference a few

hairs make. (Note the accompanying photos for corroboration.) Should Hall maintain his present ratio, next time he visits the domain of the striped pole will be on his 120th birthday. The third when he's 148 and the fourth trip at 176.

The barber who next shaves him probably isn't born yet. But look at all the money he's saved. And time, too.

He's one of the few who've never had to listen to a barber's jokes, nor insist that he didn't need a shave, a shampoo, a clay-pack, a massage, a tonic or his eyebrows pulled.

On Stephenson and Hartnett

PRIMARY LINE NEARLY READY

The work of rebuilding Escanaba's municipal primary electric circuit in the alley between Ludington street and First Avenue north, which has been in progress for several weeks, has now reached the point where the work of changing the wires from the old poles to the new line is to begin. A pole line that has been in service for over 20 years is replaced by a line of 45 foot Class A poles, mounted with new cross arms and insulators, that will make possible the carrying of a complete additional commercial circuit and properly care for the rapidly increasing business of the city electric department.

The condition of the old commercial power line, north of Ludington street, is blamed by City Manager Harris for many interruptions in electric service in the past and it is confidently expected that the new work will eliminate much of the former trouble. As soon as the wires can be transferred to the new poles, the old poles will be removed and the appearance as well as the efficiency of the city's main power line greatly enhanced.

To Start Work. As soon as the glass globes, which have already been shipped arrive in Escanaba, the work of constructing the new boulevard lighting systems on Fourteenth street and Hartnett and Stephenson avenues will be started, according to an announcement made yesterday by City Manager Fred R. Harris.

Both the wooden poles for Hartnett and Stephenson avenues and the iron poles for Fourteenth street have been delivered, and the remaining material is expected to reach here within a week.

avenues especially selected Idaho cedar poles are to be set at the curbing on both sides of those streets and the big light globes attached to the poles with iron arms of attractive design. The new Stephenson-Hartnett avenue circuit will be fed from overhead, similar to the arrangement on Ludington street and when the new work is fully installed, it will be possible to eliminate many of the poles at present on the street, greatly improving the appearance of that thoroughfare.

Cable 14th Street.

On Fourteenth street the 50 lights, surmounted on iron posts to be erected on that street, will be fed from an underground cable. Through a unique plan worked out by City Manager Harris, the Fourteenth street circuit will be fed by underground cables at intervals of two blocks from the regular power circuit in the alley, allowing current of but 300 volts to run to the light poles, instead of the regular 6,000 volt current. The Fourteenth street circuit will be operated by an automatic switch placed in that district, which will turn on the lights at a certain hour each evening and turn them off again at a definite hour each morning. As on Stephenson and Hartnett avenues, the lights will be staggered on Fourteenth street, set five to each block.

TIRES WITH 500 NAIL HOLES LEAK NO AIR.

Mr. R. B. Milburn of Chicago has invented a new puncture-proof inner tube, which, in actual test, was punctured 500 times without the loss of any air. Increase your mileage from 10,000 to 12,000 miles without removing this wonderful tube from the wheel, and the beauty of it all is that this new puncture-proof tube costs no more than the ordinary tube, and makes riding a real pleasure. This Year-Round Jewett Pleases All the Family

Jewett Sedan is breezy and cool on hot days. All side windows lower, as illustrated. You enjoy all the "openness" of a touring car. In the dusty stretch or sudden storm, raise the windows and you are just as snug and clean as at home. Lock the doors and luggage is safe. When Jack Frost comes, this Jewett Sedan is doubly prized by all the family. With windows closed tight—they do close tight—you are comfortable on the bitterest days. You will go out often, keep in closer touch with your friends, really use your car. But Jewett Sedan gives more than weather comfort. With the longest springs of any car its size—and costly, deep seat cushions—it defies rough roads. Its rugged construction—Jewett is 200 pounds heavier than comparable cars—gives big car riding ease. It is finished, fitted and built to please and endure. Slam the doors. The sound speaks substantial worth.

Escanaba Drops To Fifth Place In U. P. Meet

MENOMINEE MEN AGAIN LEADERS

Red and Black Take 48 Points, Marquette Second, Soo Third.

Menominee wins against twenty-three Menominee athletes, thoroughly at home on their fine conditioned and wonderfully equipped Walton Blech field, swept their way through all opposition yesterday afternoon in another year's championship in upper peninsula interscholastic track and field work.

Menominee gathered in 48 of the available points with five firsts, one second, four thirds, three fourths, and a number of split point ties. Her nearest competitor was Marquette, with 30 and one half. The Soo ran third with 17, Vulcan fourth with 15 and Escanaba fifth with 14 markers.

Easy for Menominee.

The meet was a "walkaway" for Menominee, although there were few easy points recorded. In every event, the men who placed were closely bunched. "Dark horse" winners from some of the smaller schools injected an air of uncertainty into the proceedings and in some of the events completely upset the dope kettle.

Menominee took first in the 220 low hurdle, the 120 high hurdle, the 880 dash, the running high jump and the pole vault. Escanaba's closest approach to a first place was in the 220 hurdles when Erickson fought his way to second place, bringing in three valued points, the first recorded. Baker and Bergman tied with Stannard of the Normal high for second in the pole vault, dividing the six points equally among them.

Escanaba took third in the half mile relay, the team being made up of McGuire, Bray, Savard and Pfitzer. Fourth place in the century and the 220 dash went to McGuire and third in the mile to Smith. Savard's dropped in over the line for fourth place in the same event. His exhibition of pure grit brought comment from every official and coach present.

U. P. Records Fall.

Upper Peninsula interscholastic records in all but four events were tumbled, some by substantial margins, the most notable being the increase of an even foot in the pole vault record hung up by Iatas of Menominee last year. Iatas did it again. Eight tenths of a second were also clipped from the 440 yard time, by Gilbert of the Soo, lowering it from 56 seconds to 55.2.

The tracks were fast and the field in general was in fine shape. Three hundred Menominee school girls staged a wand drill on the fields as a preliminary to the main contests. The only fault found with the handling of the meet was the starting of the high jump and pole vault eliminations at too low a figure, forcing the players to tire themselves with repeated shooting, at the low marks. The high jump was started at slightly over four feet, according to report, and the pole vault at eight.

First place earned five points in each event, second taking three, third getting two and fourth drawing a consolation prize of one point. In all cases of ties the points were split.

All contestants were guests at a banquet given in the Menominee high school gymnasium immediately after the meet. Fielding H. Yost, of the University of Michigan, presented the prizes to winning individuals and teams. The list of prizes is given herewith.

Derouin Leading Wisconsin League

Pete Derouin, formerly of Escanaba and playing this season with the Marinette-Menominee team of the Wisconsin State League, is leading that entire league with the number of assists to his credit in all games played up to June 1. The former Escanaba third sacker is credited with 27 assists up to June 1, the greatest number of assists credited to any other player in the entire league being 20. Derouin is charged with four errors and is given a fielding average of .895. Ernie Bourke, also formerly of Escanaba and now playing left field for Marquette-Menominee, in the fielding averages announced is credited with 14 putouts, 3 assists and one error for a fielding average to June 1 of .944.

STORE KEEPERS LEAD LEAGUE

The Storekeepers of the local Northwestern baseball league, are now leading the six teams in the league by a wide margin, having an unbroken string of five victories.

FAST GAME AT IRON MOUNTAIN

The management and fans at Iron Mountain are expecting one of the fastest games of the season in that city today when Escanaba's players will battle with the Ford Athletics in the first game of the season between the two aggregations. Capt. Perrin will take with him to Iron Mountain today the fastest team to represent this city on the diamond this season and last night he expressed confidence that his warriors will be able to take the measure of the Ford players. "We got all the hard luck and poor playing out of our systems a week ago and every man on the team is rearing to go," said Capt. Perrin last night. "Our lineup against Iron Mountain tomorrow I confidently believe will prove the strongest of the season. Anyway we will trim Iron Mountain on Sunday as the first step in getting revenge from Marquette when we meet that team again."

Looks For Fast Game.

Of the game today the Iron Mountain News said yesterday: "Manager Pitt today expressed the opinion that fans would see a real baseball ball Sunday. Brisbane, lanky flivver heaver, is slated to start the contest for the Fords, with Tedeschi being held in reserve.

"Billie" Butts, former City team player who came here this spring from Menominee, has signed with the Ford club and will hold down the short stop job. Butts is a good addition to any club and his work with the stick and his fielding performance should materially improve the Flivver aggregation.

The remainder of the lineup will be as follows: Ekholm, catcher; Lompre, first base; Kinney, second; Brisson, third; Swelgett, Annear and Becker field.

Take Over City Team Games.

With the announcement of the disintegration of the Iron Mountain City team following its game Sunday at Houghton, Manager Pitt declared that he would endeavor to take over the games booked by the City men to round out a complete home schedule.

Pittsburgh, June 9.—Bentley was in great form today and New York won from Pittsburgh by the score of 6 to 0.

Score: R. H. E.
New York 002 100 003—6 12 0
Pittsburgh 000 000 000—0 7 1
Batteries: Bentley and Snyder; Meadows and Gooch.

WELLS SCOUTS DEFEATED.

The North Escanaba team defeated the Wells Scout team yesterday in a hard fought battle, the score being 6 to 5, which was played at the Wells diamond. Batteries for the North Escanaba team were Jensen and Norell, and for the Wells Scout team, Ellingson and Beaton.

Then there is the matter of small ball parks. At the American League park in Philadelphia, the making of a home run is now a far more difficult matter than in former years, due to a higher wall in front of the left field bleachers. The small park of the Philadelphia Nationals has made for many home runs in that league. The enlarging of the seating capacity of the Chicago National League park has also encroached on the playing territory. Many more home runs are being made there because of the smaller playing field.

FLATTERED.

Bertie Whiffenpoof had completed his first story, a masterful piece of fiction which, he felt, could not find of acceptance from some metropolitan magazine—provided the editor had the slightest judgment at all. Therefore he took the slim envelope to the post office, explained proudly that it was a masterpiece, and asked what postage would be required. "Two cents an ounce," replied the postmaster. "That's first-class matter."

Bertie beamed. "Oh, thank you, sir," he gushed.

"The Eternal Flame"

From Honoré de Balzac's "La Duchesse de Langeais"

GORGEOUS TO BEHOLD -- YET NEVER TO BE HELD -- vivid to love, yet never to be won; pure beauty asking only the fealty of one man, but when he wagered on her faith as he would upon a falcon -- exotic exile to the intrigue, glamor, scandal of France's gayest courts. They the playground, mien the baubles of the glorious Duchesse of Langeais. A WISE PRECEDENT.

While there may have been an honest difference of opinion as to the type of pavement to be constructed on Tenth street among the members of the council, the final determination of that body to accept the recommendations of the city manager, is as it should be in that action a precedent established that should prove valuable in the future.

Reclamation Service "BEST IN WORLD."

Adding a state to the nation without using a soldier or a gun, even without looking to the taxpayer for money, is a national project worth while.

In 1902 a Republican Congress passed and President Roosevelt signed the Federal Reclamation Act, which made no draft on taxes but put to use this combination of arid region and public lands.

The Reclamation works so far built offer irrigation water for nearly three million acres, for two-thirds of which the government systems furnish the entire supply.

While the Nation's products have thus been enhanced by large

Derisoping

'She's one dark night on dat ol' Green Bay, an' dem wind she's blow, blow, blow!'

Five Escanaba youths, enroute from this city to Menominee in the sloop Venus, with their mainsail blown to ribbons fifteen miles out in the lake Thursday night, parographed the old song of the voyageurs, interspersing their chanted by subdued supplications for Divine aid and with sessions at swinging the bailing dipper.

The five set sail at 8:30 Thursday night in the tiny sloop, Pascoe Vizens, skipper of the craft, with Donald Burns, Corval Parisau, John McGillis and Robert Shelton comprised the crew. The wind was fair and the little ship walked smartly along towards Menominee.

Fifteen miles out from Escanaba came a sudden blow, ripping the mainsail to shreds and leaving the craft at the mercy of wind and wave. With nothing around but darkness and water, there was naught to do but wait till the wind died down.

At daybreak on Friday they set to work throwing together some sort of "jury rig," resuming their trip by 5 o'clock. The same wind which had threatened to pick their sail out of the water and blow it to pieces the night before had carried them a great distance toward their destination, and at 6:30 that night, after a day of tedious tacking they entered the Menominee river and ran up to the handiest dock in sight.

Seasickness added its terrors to the perils of the night, according to the report reaching here. Everybody was thoroughly soaked with good, old Green Bay water and their first objective in Menominee after telephoning word of their safety to their parents here, was a restaurant. The second, and the one in mind at the starting of their trip, was taken this morning when they passed the gates at Walton Bleach field where the Upper Peninsula track meet was being held.

ON TO MENOMINEE!

values and millions of these dollars come east to buy manufactured products, the irrigated crops differ so from those of humid regions that they do not in the main compete. Alfalfa is the basic crop on the irrigated land; it is rare in eastern markets; the Indian corn of the Middle West occupies less than four per cent of the irrigated lands, which produce milo, kaffir, and other varieties strangers to most other localities.

Thus the state added to the nation by irrigation is a new—different state, but it is peopled by typical Americans with a sense of adventure and a determination to make homes on the newly cultivated land. In building and operating large works successfully, the Reclamation Service of the Interior Department has brought expert engineering and good business into government operations, but the greatest credit for the result of irrigation is due the hardy American families that are creating farm homes in new places and by repaying the government's irrigation costs making possible the construction of other large projects.

The Socialists have not formally admitted it, of course; but the plain fact is that the Soviet experiment has cost them their chance for power in the world, and beyond question it has done so in America. The average American looks at that colossal rubbish heap that used to be Russia and turns his back upon it and its bloody foundations. The fine and split-hair distinctions between communism and socialism do not interest him. What the Socialist party of America needs is a coffin and a spade. It is walking around to save funeral expenses and is cheating the undertaker.

ALL THE SIGHTS OF COUNTY FAIR AT METROPOLIS JUBILEE CELEBRATING 25TH ANNIVERSARY AS GREATER CITY. MAKE ONE DIZZY TRYING TO SEE ALL

ARTIST E. R. HIGGINS' VIEW OF NEW YORK CITY'S FAIR

BY JOSEPHINE VAN DE GRIFT NEA Service Staff Writer.

New York, June 9.—That noise you hear as you get off the train coming into this town is New York blowing her horn.

Statistical wizards have figured out on a nice diagram that there's a birth in New York every three minutes, a wedding every six and a half minutes, and a death every seven minutes. Other things, too—for instance that it requires two million tons of food annually to feed the people in New York, not counting visitors and commuters, and that among other things they eat 25,000 tons of watermelon and 13,000 tons of cheese every year.

Such as the garbage disposal plant, for instance. There's a diagram that shows you that a 25 years ago you could throw away a soup bone and say, "Well, thank heaven, that's the last of that!" But what a change these diagrams show: Today a fellow comes around and collects the soup bone, et al, and next summer or so you get it back as soap or fertilizer for the front lawn.

Two little booths depict the joys of getting married in New York in 1923 compared to the sad ordeal of 1898. One shows the old-fashioned license office, with a gloomy looking clerk and a cell window with four iron bars right behind him, evidently as a symbol of imprisonment impending. In the modern license office there are no prison bars, and the wallpaper is a neat pink and gold, and a few choice palms are scattered about.

Pictures and maps tell how even the streets have changed. Especially the Bowerly. Twenty-five years ago McGurk's place was one of the toughest in New York; today it's a mission. Then, you see by the exhibits, there used to be signs in front of saloons showing men diving into beakers of suds; today the district is plastered with signs advocating more bathing pools for kiddies.

DOCTOR GRAYSON APPEARS OPPORTUNELY. Chapter LXXXIX

Dick stood on the porch looking after the three receding figures, a blank look on his face. He knew that in spite of Ann's seeming meekness, that once she declared herself, she meant what she said.

"Ann missed her calling! She should have been an actress instead of a rancher's wife," she said. "What an act! Nora, with her bare arms, holding me out; poor little innocent me, trying to get in to have a nice chat with Ann; Ann, just because she is jealous of me, marching out like a tragedy queen. Oh, Dicky, how do you stand it?"

"I wish Ann would be friends with you," Dick replied soberly. "It makes it damn unpleasant. She's overworked, nervous. That Norton here, and all," he finished peevishly.

"Oh, Norton's being here didn't bother Ann. She wouldn't even let me go into his room unless Ned was along. She was afraid I'd steal him. She needn't have worried—how she could look at him I don't see. You are worth a dozen of him any day."

"I'm hungry," Dick said. "Let's go in and see if there's anything to eat."

"Where we going, Ma'am?" Nora asked. "I don't know, Nora. Stay here, I guess." Ann laughed a bit wildly.

"I've got my money with me. Perhaps we can go somewhere and pay, if an auto would come along and give us a lift."

"How much have you, Nora?" "My two months' wages. I ain't spent none, was waitin' to go to San Bernardino to put it in the bank. It's lucky I didn't get a chance." Nora took from the bosom of her dress a small purse and laid it in Ann's lap.

"The trouble is I don't know myself," Ann said. "I am going to remain away, doctor, until Miss Edmunds leaves my home. I would try to hide things if I could, but it is no longer possible. I forbade her the house; she insisted upon coming. So I left. That is all there is to it, and please don't ask me any questions."

"You get in, all three of you," the doctor said. "I'll take you home with me, and then we'll talk things over. It is getting late. You can't stay here," as Ann seemed about to object.

"This is a surprise! I didn't know the old tub would hold so many," he said gaily, then as he saw the distress in Ann's face he added: "What is it, Ann?"

"Wait until we go into the house, then we'll talk," Doctor Grayson told him, with a nod toward Nora.

"No, Hugh, I can't stay here," Ann said firmly, a half hour later. She had told him no more than she had told the doctor. She had not once mentioned Dick's name. It was, as she told it, simply a matter between her and Grace.

"Neither can you leave Dick and Grace in your home alone. You'd better call Ned and send him over. I'd go, but Ann, Dick doesn't like me, resented my being at your house. I don't know that I blame him, making you so much trouble and extra work, but my going there now might complicate matters. You go call Ned up. He's the proper person to talk to Grace."

Ann did so. She told Ned Grace was at the ranch alone with Dick, that she would not go back while she was there.

"You and Grace quarreled?" Ned asked. "I shall never go back while she

TRUE TALES OF WAR'S SECRET SERVICE MORE INSPIRING THAN FICTION

"HE DRANK TO THE HEALTH OF THE KAISER"

DEAN REVIEWS. TRUE ADVENTURES OF THE SECRET SERVICE, by Major C. E. Russell (Doubleday, Page).

Others mentioned are MOTOR CAMPING, by J. C. and John D. Long (Dodd, Mead); THE SCUDDERS, by Irving Basherler (Macmillan); THE VICTIM AND THE WORM, by Phyllis Bottome (Doran); THE HIDDEN ROAD, by Elsie Sigmaster (Houghton, Mifflin).

By James W. Dean. New York, June 8.—Nothing makes such interesting reading matter as life itself. Fiction is only entertaining when it either approximates or parallels fact. The old saw, "Truth is stranger than fiction," is true.

Thus "True Adventures of the Secret Service," by Major C. E. Russell, is as inspiring an adventure tale as has been printed in months. I have no doubt that at times the truth is aberrated by the writer's imagination. All of the facts do not come to him first hand and when he fills in, the ground does not seem solid enough for the structure of fact the author erects.

Fictional names are given real characters. In several of the stories the names Lupin and Le Blanc are used. It may be only a coincidental matter, but it so happens that Le Blanc wrote the Arsene Lupin detective stories. The flavor of those stories are the style of writing is evident in Major Russell's work.

By far the most engaging of the stories are the first two which concern the capture and escape of Prince Joachim, late son of ex-Kaiser Wilhelm.

A Swiss Red Cross worker, named Freytag, was stationed at Neu Rochelle, France. He worked among the German prisoners of war. A number of fires at that point endangered the E. F. supplies at a time when their loss would have marked a turning point in the war.

Members of the army secret service discovered that Freytag gave the prisoners acids to disinfect their clothes. When they took off their blouses to work, another acid in a bottle in the blouse would eat through the paper stopper. When the two acids combined the fire was started.

Execution of Freytag was delayed because of the frantic offers of trades made by the Germans to effect his release.

In May 1918, Marshal Foch told the allied commanders that success of the cause depended on gaining information concerning plans of the German High Command. Secret service of other allied countries had failed. The discredited American secret service was the last resort.

A major of the secret service force was arrested at Hendaye, a town near the Spanish border. After news of the arrest had been noised about, he escaped into Spain. He arrived in San Sebastian, seat of the Group of Five that ruled the German interests in Spain, and succeeded in gaining their confidence. He drank to the health of the Kaiser and the success of the German arms. He took the oath of allegiance to the Fatherland and signed it in his own blood.

Then he was assigned to return to France and effect the escape of Freytag, who was Prince Joachim He did this and also brought back another officer, posing as a traitor who declared he had the blueprints of the Liberty motor.

These two men with Prince Joachim were carried to Kiel on a German submarine and eventually reached the High Command at Coblenz, where they were to tell of allied plans and explain the Liberty motor blueprints. The Germans planned to murder them when this information had been given.

Two women in the German secret service had been assigned to shadow the Americans. In the end they fell in love with the American officers. The women arranged for two traitorous colonels of the German headquarter's staff to accompany the Americans to the front line where they sneaked over to No Man's Land and delivered to the allied command what details they had learned of the German strategy and troop distribution.

The retreat of the Germans which followed ended the war. The two traitorous Germans were promised immunity. They were sent to the United States on the transport Agamemnon. Prince Joachim committed suicide. The American officers who were the heroes of the adventure believe that he killed himself because he realized he was the means of the American secret service reaching the High Command. And the two women who, all

Husbands and mosquitoes seldom take vacations. For the love of Mike, the Irish are getting things straight. China, poor China, she almost has no government to cuss at. The sad thing about spending vacations is spending money. Turkey is trying to slip up on Greece again. Stop listening to idle rumors and give your ears a vacation. If Henry Ford is running for president, he is going a long way on very little gas. Stay away from China and give the bandits a vacation. An ideal business combination is a doctor and a lawyer with their offices near a bootleg joint. Nothing looks sadder these days than a coal dealer wondering if winter really has gone. Women wearing knickerbockers indicate trousers are not for men only. Getting out in the open is fine, but never keep your teeth out in the open too long. You can't keep a good man or a good weed down. Quit wearing high collars and give your neck a vacation. Being snowed under with work doesn't keep a man cool. Diamonds are beautiful chiefly because you can't get them. Quit looking at the dresses and give your eyes a vacation. It is spring, and the farmers are feeling their oats. Take your voice out to the ball game and let it exercise in the open. Things could be worse just suppose now that you had to lather your lawn before cutting the grass? STAR SHORTSTOP GIVES POINTERS ON HIS POSITION

"Play the Ball, Don't Let It Play You" Says Scott.

Always play the ball, never let it play you. If you do, you are lost.

Get the high bound. It is the easiest to handle and invariably leaves you in the best position for a hurried throw.

Never play a stationary position. Shift your position with the style of pitch about to be used and the tendency of the batter to hit to certain fields.

In touching a runner always try to be in such a position that you can shift in order to adjust yourself to the runner's style of slide, thus greatly eliminating the chances of injury.

Save your arm. The history of most star ball players shows that at some time in their career their arm goes bad.

Always play the game fair. An infielder who resorts to unfair tactics to gain his point, is merely courting constant danger.

When you make a misplay, immediately dismiss it. Don't allow the failure to handle a ball properly affect your style.

Anticipate your plays whenever possible. In a great many cases the score and the inning determine the way a play should be made.

AS HE SAW IT.

"Do tell me something about the play," she said to the young man. "They said the climax was superb."

"Yes, I am inclined to think it was very good," said Percy, she asked.

"Can't you describe it to me?" "Well, the heroine came stealthily on the stage and knelt, dagger in hand, behind a clump of ribbons. The hero emerged from a large bunch of purple flowers and as soon as she perceived him she fell upon him, stabbed him and sank half-conscious into a very handsome alight. This may sound queer, but the woman in front of me wouldn't remove her hat and that's how it looked."

MUNISING TO COME TODAY FOR BATTLE

Undeclared Alger County Team Plays Here Today.

Munising's undefeated baseball team comes to Manistique today, and at the fair grounds this afternoon will attempt to add Manistique to the list of teams they have defeated. Manistique, however, has an imposing line of sluggers, who so far have garnered 38 hits off opposing pitchers in three games played, and the exhibition at the local battle ground promises to be one that will gladden the hearts of local fans.

Probably Jack Meiers will pitch, making his bow to local fans, and throwing his second game of the season. It was he who opened the season for DeWitt's Legion men at Marquette, allowing but seven singles to the Marquette men, half as many as the locals took from the Marquette pitcher.

Fans who attend the game here this afternoon will find some surprises awaiting them in the way of new equipment and arrangements at the local diamond, which is now undisputedly the best in the upper peninsula circuit.

Soon on Schedule.
A recent addition to the schedule of the Manistique team is Soo, Mich., who readily accepted dates with the locals that were thrown open by Newberry's recent repeated cancellation.

Followers of the game in this city are advised to cut out the appended schedule of games, which is revised to date, and use it for future reference, instead of bothering busy Bill Dehut with foolish queries like: "Where do we play next, Bill?"

To be a real fan, these facts should be tucked away in the coat.

TO MAKE PLANS FOR OBSERVANCE OF JULY FOURTH

Mass Meeting To Be Held at City Hall Tuesday Night.

With two baseball games as a nucleus, a committee of Manistique business men is working on plans for a Fourth of July celebration in this city that will prove as interesting as any ever held here. Early this season, Manager Dehut of the baseball team secured a booking with the Illinois Colored Giants, who delighted a large crowd here last year with their antics. As a Fourth of July feature, they are unsurpassed.

Additional attractions will be planned at a meeting of citizens to be held in the City Hall Tuesday evening, to which all interested residents of the city and nature of entertainment in addition to the ball games will be decided at the City Hall meeting.

CIVIC CLUB TO GET TREAT MONDAY NOON

Two well-known local entertainers will present a special program at the Monday noon meeting of the Manistique Civic Club, Geo. Brusie and M. M. Sibley having been appointed a committee to furnish amusement at the noonday luncheon.

The full details of the program planned have not been announced by the committee, but it will probably consist of vocal selections by Mr. Brusie and dancing by Mr. Sibley. Other talent of the city may be introduced by the live committee men.

A change in the closing schedule of the noon meeting was effected last week. Instead of 1:45, the meeting will now close at 12:30, the luncheon starting at 12:15 sharp.

Rev. Sidebotham Will Leave Monday

The Presbyterian church will be temporarily without a pastor after today, as Rev. R. S. Sidebotham leaves on Monday with his family on an auto trip to East Jordan, Mich., and will attend the golden wedding of his father and mother before returning to this city.

Children's Day services are to be held at the Presbyterian church next Sunday in the absence of the pastor.

Gets New Music For His Orchestra

A. J. McLellan returned Saturday morning from Minneapolis, bringing with him some new musical numbers for his orchestra, which is now playing regular engagements at Lake Millikokia.

CITY BRIEFS

Jack Ryan, of Munising, is in the city on business.
Berwin Frye has returned to his home in this city to spend the summer vacation.
Chas. Burns, third baseman for the Manistique Legion baseball team, returned Saturday from Chicago.

With the coming of the summer sun, several new awnings have been installed at business places on Cedar street.
Work has been completed on the exterior of the Sven Johnson building.
C. E. Kaye arrived here Saturday for a short visit with his family.
Miss Evelyn Gauthier returned to her home at Fairport, after visiting relatives in this city.
Dr. and Mrs. T. R. Southard motored to Menominee Saturday, and attended the track meet there.

SCOUT MOVE MOVES FORWARD IN THIS CITY

Daily progress is being made in the Boy Scout movement at Manistique, and each day sees the organization nearer perfection. Monday night, troop committees appointed by various organizations of the city which have promised to sponsor a troop are expected to meet at the Elk's Temple for the purpose of choosing scout masters.

It is also probable that the appointment of a Scout executive will be discussed Monday night, and the qualifications of available candidates considered. As to matters of finance, the committees already has a good start, and in a few days will announce the opening of their financing program.

FREE TOURIST GARAGE READY.

Offering accommodations for 10 autos at one time, the free tourist garage at the Hiawatha Hotel will be ready for use by June 15.

The progress made in construction work started last week indicates that the end of this week will see the garage completed, and ready for occupancy.

Travelers will appreciate the convenience offered by a garage in connection with a hotel, where cars may be safely placed in separate partitioned garages, and the owner is free to give his car such overhauling as it needs at the end of a trip.

The local hotel is one of the first in the upper peninsula to offer its patrons garage service of this type.

METHODISTS TO USE K. P. HALL

Beginning today, and extending through the greater part of the summer, the First Methodist church of this city will have the distinction of being the only church in the down-town business district, when services will be held in the K. P. hall on account of alterations now in progress at the church building on North Cedar street.

Ample seating arrangements have been provided in the spacious Pythian hall, and the change will cause no inconvenience to church-goers.

POPULAR YOUNG WOMAN PASSES

Friends of Miss Loraine Rapin, 16, weep sadly yesterday to learn of her death, which occurred Saturday morning.

The deceased is a daughter of Mr. and Mrs. Joseph Rapin of this city, and has been a life resident of Manistique, where she made many friends among the younger people. Her recent protracted illness was borne with great fortitude. Funeral services will be held at St. Francis church at eight o'clock Monday morning, Rev. Schevers officiating, and interment in Lakeview cemetery.

Entertains Friends On His Birthday

Master Carter White entertained 137 of his friends Friday afternoon, in honor of his seventh birthday.

The party was held at the Hixson home on South Lake street, and the guests had a very enjoyable afternoon. Appropriate refreshments were served, and the young host was the recipient of many fine gifts.

BIG CROWD TO SEE MARQUETTE CONTEST TODAY

Bud Kessler Takes Leadership of Gladstone Team.

Peterson at short will be the only change in Gladstone's lineup against Marquette at the Gladstone ball park this afternoon. He will replace Blazing who played with the locals against Manistique last Sunday. The other two players who showed to good advantage at that time, Hilgman at third and Curley in center, will again be in the lineup.

The resignation of Lefty Gervais as field captain was officially announced this week. Gervais asked to be relieved following the second game with Munising and last Sunday Bud Kessler acted as field captain. Kessler will remain as captain, temporarily at least.

"I want to continue to play for Gladstone," Mr. Gervais is quoted as saying, "but prefer to be relieved as captain. I shall play just as hard for the team and for the management as I have at all times in the past."

Fans are urged to get their seats early as the largest crowd of the season is expected to turn out. With no game at Escanaba, many of the fans there will want to come here to watch the locals, especially since the changes made last week. Fully 1200 are expected to be in the stands when the game rings at three o'clock.

Gladstone followers of the game will be in attendance en masse as the team will be away from home on the two Sundays following.

Benefit to Raise Funds for Scouts

A theatre benefit to raise funds for Rainbow troop, Girl Scouts, will be held Monday, June 18, at the Lyric theatre. More definite plans for the affair will be announced later by the scout leaders in charge.

FAIR EXCHANGE.

On a train from Canada a nervous young man sat in the smoker, shifting his feet and gazing mental anguish at the bag between them. Finally he approached an older man who had all the earmarks of an experienced traveler.

"Sir," he said, "this is my first trip over the border since the coming of prohibition. Now, my wife is exceedingly fond of ale and I have put two small bottles in this bag, but I am worrying about getting them through the customs. You have made the trip many times and know all the roads. Would you mind exchanging grips with me until we get through?"

The other agreed willingly and the customs officers allowed them to pass without a word. The nervous man breathed a sigh of relief.

"Awfully good of you," he said. "But what the dickens have you got in your suitcase? The thing weighs a ton."

"Only a dozen quarts of Scotch," grinned the other.

The Detroit club paid \$750 for Ty Cobb in 1905, which is some contrast to the huge sums paid for minor league talent nowadays.

SCOUT LEADERS WILL TRAIN AT WEEK END CAMP

Mrs. J. Paul Bushong to Aid Direction of Activities.

Applications are coming in fast for the Girl Scout Leaders' Week-End Training camp which will be held at Garth the weekend following July 4, under the direction of Miss Ann Hynes, regional director of Region Seven.

The camp will be open to any woman wishing to become familiar with girl scout work and will have its object the training of prospective scout leaders in the upper peninsula, while at the same time it will provide the amusement and spirit of comradeship associated with camp life.

The training will begin Thursday afternoon, July 5, at 5 o'clock and will close Monday afternoon, July 9 at 3 o'clock. Escanaba campers will go to Gladstone where busses will leave the corner of Ninth street and Delta avenue at 4 o'clock.

The training course will include troop management, girl psychology, principles of leadership and tenderfoot work. All communications should be addressed to Delta county girl scouts, 716 Lunington street, Escanaba, Mich.

BACCALAUREATE TONIGHT OPENS COMMENCEMENT

Commencement week at the Gladstone high school which will see the graduation of thirty-one seniors from the high school will begin tonight with Baccalaureate services in the high school auditorium.

The Baccalaureate program to which the public is invited will begin at 7:30 o'clock. The Rev. H. W. Colenso, pastor, will deliver the Baccalaureate sermon, his address to be directed particularly to the graduates who will attend in their caps and gowns.

The following program has been announced for the first night of graduation activities: "America, the Beautiful"—professional.
Anthem—Methodist church choir.
Invocation—Rev. J. M. Bolton.
Solo—Miss Marion Whipple.
Address—Rev. H. W. Colenso.
Selection—"Girls' Quartet."
"Come Thou Almighty King"—recessional.

Monday night will inaugurate a new custom in class night at which a program entirely different from anything before presented will be given by the upper classmen.

Tuesday night, commencement night, at which the seniors will receive their diplomas will have as speakers, Prof. McKinney, president of Ypsilanti State Normal.

Reception Wednesday.
Commencement week will end Wednesday night with the reception and dance to be given in honor of the seniors by the alumni.

Entertain At Picnic Supper

Mrs. H. W. Colenso and Mrs. C. Nye entertained at a picnic supper Friday evening for a number of the Gladstone school faculty who are soon leaving to spend their summer vacations at their homes. The young people enjoyed a camp fire supper followed by various picnic amusements.

Welfare Elects Officers Monday

Election of officers to head the Child's Welfare League of Gladstone during the coming year, will be held at the regular meeting of the club members Monday evening at the kindergarten building. This will be one of the most important meetings of the year. Every member is requested to attend.

Washing Globes of Delta Avenue Lights

Washing of the globes of the boulevard lighting system on Delta avenue was started by a crew of men Saturday. The globes have not been cleaned for some time and their washing will add considerably to the brilliancy of the lights.

TWO ORDINANCES COMING BEFORE COMMISSIONERS

Meeting Monday Night Follows Short Board Session.

Regular meeting of the city commission will be held at the city hall Monday night, following a short session of the board of review.

It is expected that Mayor I. N. Bushong will return to the city in time to attend the meeting, but in case he is unable to, his place will be taken by Claude Hawkins, mayor pro tem.

The commissioners, sitting as the board of review, will meet at 7 o'clock for a brief session in which to finish up matters not taken care of when the board adjourned Wednesday night. The council meeting will follow the board session, starting at the usual time.

Among the matters which will come before the commissioners Monday night will be the introduction of two new city ordinances. The traffic ordinance prepared by City Attorney Glenn W. Jackson under the direction of the city administration will govern all traffic regulations for the city, fixing the speed limit, penalties for violation, parking rules and other traffic observances.

Raise Fine.
A second ordinance on the fines imposed for drunk and disorderly conduct will raise the maximum of the fine from \$25 to \$100.

Other matters requiring the attention of the commission will also be introduced at Monday's meeting.

LEGION WILL GIVE DANCE MONDAY NIGHT

The August Mattson Post has arranged a big dancing party for tomorrow night at the Wassa hall. The plans were not completed until late on Friday of last week but the Legion entertainment committee avers that this is all the more reason why it is going to be made one of the most enjoyable parties of the season.

Gunnar and his Syncopators have been engaged to furnish the musical program for the evening. Dancers are assured of a fine bunch of musical selections.

Two Fingers Are Taken Off by Saw

Carl Brown, owner of a lumber and shingle mill at Trenary, suffered shingle injuries to his left hand Friday morning when he caught it in a shingle saw while he was at work, severing the two middle fingers and the tip of the thumb. Mr. Brown hurried to Gladstone for medical aid and on Saturday returned to his home. He suffered a similar injury in January when the tip of the middle finger severed from his hand on Friday was taken off by the saw.

TAKE SALTS IF RHEUMATISM IS BOTHERING YOU

Tell Rheumatism Sufferers to Take Salts to Get Rid of Toxic Acid.

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat no sweets for awhile, dress as warmly as possible, avoid any undue exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid or body waste matter, and is often generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather, the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this toxic acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste and stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. Adv.

SHOCKER EARNS LEATHER MEDAL ON NEW "BONER"

Snap Throw to Home Called Prize " Ivory" Stunt.

St. Louis, June 6.—Pitcher Urban Shocker of the St. Louis Browns is regarded as one of the best pitchers in the American League. Not only has Shocker a world of stuff but also plenty of pitching knowledge.

When American League players discuss Shocker as a pitcher, special stress is laid on his ability to mix them up, his great control, and his knowledge of the weakness of the opposing batsmen. In other words, Shocker is known as a brainy pitcher, who uses the old noddie as well as the arm.

All of which is preliminary to the statement that even the wisest of heads can make the most ludicrous mistakes. In a recent game with Washington, Shocker pulled a stunt that shapes up well with stealing a base with that particular sack occupied by an-

other rubber. With the score a tie, the bases filled and one out, the Browns infield moved in to cut a possible run off at the plate. In gase a ground ball was hit to the infield, St. Louis fans were confident that Shocker would pitch himself out of the hole, because it is in the pinches that he does his best work. At a tense moment with the count two balls and two strikes on the batter, Shocker made a quick turn in the direction of first and snapped the ball directly over the head of the bag. Unfortunately no one was within 10 feet of the throw. Two runs crossed the plate and the runner on first reached third.

"Just pulled a bone," was the only alibi Shocker offered, "ball players do those things occasionally."

Since the Browns won the game in 10 innings the "bone" will soon be forgotten, yet it is a classic from the ivory point of view.

An amateur photographer in Maine, before going to the rescue of his wife who had lost her balance and fallen into a lake took a nap shot of her.

NEW OVERLAND RED BIRD HERE

Realizing the demand for a lower priced sport car the Willys-Overland, Inc., built the Red Bird. Building a more powerful motor, increasing the wheel base together with the Overland features they have succeeded in fulfilling this demand. The maroon body with a harmonious khaki top is a combination of beauty—it is also roomier and its fleet and graceful lines has been responsible for much comment. L. F. Peppin, local dealer, received an Overland Red Bird Friday and it is on display in his show window.

K. of C. Class To Be Initiated Sunday, June 17th

The local council Knights of Columbus are making elaborate plans for the reception of a large class of candidates who will be initiated into the order Sunday, June 17, at the local club rooms.

A banquet will be given and prominent speakers will be here to deliver addresses to the members.

Meetings have been held every evening last week to complete the plans and a complete program of the ceremonies will be published in this paper at a later date. It is expected that a large number of K. of C.'s from all sections of the peninsula will come to the city to attend the affair, which, according to the plans formulated, will be the largest one of its kind ever held in the upper peninsula.

AN EX-GOB ON FINDING AN OLD FLAT HAT.

Old boy, you've been around a bit, Aslant my starboard eye, On every liberty you stuck, And when the wind was high You never left me once, but now Forgotten, torn you lie.

The war is over, dear old lid, Discarded, you are mused, Your broken grommet pierces through And it is red with rust.

But hat, we are akin, at that, For when like you I'm blue It is because like you I'm flat, Quite flat, and broke, like you, George A. Paravieini, in The American Legion Weekly.

Orphans of Commerce

ON nearly every merchant's shelves are a few unknown left-overs. They have been there a long time. No one remembers just how long. Dingy, faded and soiled, they seem to be edging away from their more brightly dressed neighbors to a place of seclusion. There is a story behind these shabby little strangers.

A story of how once they were proud and new, dressed in clothes as gaudy and bright as the latest vial of perfume from Paris.

They were sold to a merchant by a salesman who knew their merits. For a time the merchant remembered their merits and told his customers. But little by little these merits were forgotten. The merchant, with his many items, slowly forgot even their names. New clerks never heard of them.

When some of their more fortunate shelf mates were advertised, merchants began to display these lines more prominently and shoppers selected the goods they became acquainted with through printers' ink, leaving uncalled for and unsold the unknown. It takes little effort and little time to sell goods which everyone knows about.

The shabby little orphans are gradually disappearing. They are being given away or thrown away to make room. Tomorrow they will be gone.

Cuts Tire Prices 10%

Effective June 11

We announce a 10% reduction in tires and tubes effective June 11th. The lowered cost of crude rubber and the special Firestone manufacturing and distribution advantages make this possible.

Firestone factories are organized on a basis of large volume and effective production. Costs are down but quality is at its peak. Stockholder workmen are daily building many thousands of Gum-Dipped Cords—the best tire Firestone ever produced and, we believe, the leader on the market today.

Firestone Cords took the first four places and eight of the ten money positions in the Indianapolis Sweepstakes, May 30th, without a single tire failure.

Firestone Gum-Dipped Cords have set new standards in mileage, traction, comfort and safety. Car-owners have expressed their approval of the extra value in Firestone Gum-Dipped Cords by increasing their purchases 194% in the past six months.

We have replaced many expensive branches with warehouses. We now have 108 distributing points which are delivering Firestone tires to the consumer at the lowest cost in our history.

Follow the tide of economical tire buying—equip with Firestone Gum-Dipped Cords—and learn what Most Miles per Dollar means to you today.

MOST MILES PER DOLLAR

TO WED CHIEF OF SCOTTISH CLAN—Miss Kathleen Metcalf, New York society girl, is to marry the MacNeil of Barra, fifth chief of his clan, June 14. Barra is an island of Inverness-shire, Scotland

A CAT STORY—Mistah Meyer generally travels with the milk steward of the S. S. President Harding. He boarded the S. S. President Polk by mistake in New York, but when he arrived in Bremen he returned to the Harding, which was in dock. Here he is with Miss Marie Simpson, Stewardess on the Harding.

"AIR LIZZIE" FOOLS DOGS WITH ITS NOISE—The first dog that heard the first motor of Barbot's air flier in France cocked his head to one side as though listening to another dog. Here is a photo of Barbot's first flight in America—at Roosevelt Field, Long Island. Two stray dogs heard the sound of the motor and raced along with the machine until it soared off in the clouds.

PRIME PULCHRITUDE PICKINGS—Miss Hazel Keener, shown herewith, was adjudged the prize winner at a recent Chicago beauty show. She's now on her way to Hollywood in search of further laurels.

SALIAAM—Conrad Dykeman, Brooklyn, newly elected Imperial Potentate of The Shriners.

FLOOD PROVIDES SWIMMIN' HOLE—When waters of the North Canadian swelled recently and surged through the Walnut Grove section of Oklahoma City, Okla., some got out their swimming suits and went in. Five hundred families were made homeless by the flood, which caused \$1,000,000 damage and broke all protection levees.

OCEAN SPORT—Decks of the giant ocean liners make excellent bicycle tracks and a new sport for ocean travelers is promised. Here Miss Laura Walters is taking a turn around the Majestic.

POPULAR AT CAPITAL—Miss Anna Hamlin, daughter of Charles G. Hamlin of the Federal Reserve Board, is one of the most popular of the younger set in Washington, D. C. This is her latest photo.

LION CUBS JOIN FOLLIES—No wonder expression on these three cubs of the Central Park Zoo, New York, are so placid! The young woman holding them is Miss Peggy Davis, former Follies star. Picture was taken on first day the cubs came out of their winter quarters. It's a great world, they say.

EDISON RECALLS THE OLD DAYS—THOMAS A. EDISON visits his old shop in New York City and sits in the electric auto Leon Mendel built 13 years ago when Edison was first experimenting with his electrical lighting system.

SHE'LL BE CLEOPATRA—This pretty maiden, Grace Gloria Ahr, will take the part of Cleopatra, in the caravan of desert nobility that will wend its way through the streets of the national capital during the annual Shriners' convention.

JAMES STILLMAN AND JAY LEEDS—This picture shows James Stillman, the Banker, holding little Jay Leeds, son of Florence Leeds. The baby will soon be five years old, his mother says.

REAL BOA—A boa for the neck? Miss Peggy Dunn, of Philadelphia, Pa., has a real one, a baby boa constrictor. Black and red, it goes very well with her gray dress and red shoes.

UNUSUAL PHOTO—Pope Pius XI's convention at Washington, D. C., may proceed. Mittl is the stopped for the photographer to snap this unusual view of him in the gardens of the Vatican.

HER TOES RAKE IN THE DOUGH—Ina Anson, youthful dancer, has educated toes. Here she is—signing a movie contract with them. No, she isn't armless.

INTERNATIONAL SUFFRAGE CONGRESS—Mrs. Carrie Chapman Catt, American woman leader, photographed as she addressed the Congress of the International Women's Suffrage Alliance in Rome. Premier Mussolini presided at the meeting and promised to extend suffrage with certain limitations to the women of Italy.

GENTLEMEN, I PROTEST!—You can have your old Shrine convention if you want to and you can come around here to see me, but please leave off those funny red hats with the tassels. They scare me. Our infant interpreter tells us that that is what Barney Old Coyote is saying. Barney is the youngest of the Indians at Washington, D. C., for the Shrine convention.

MITZI'S READY—And the pet of Mrs. Charles Cassidy Adams of Louisiana.

GOVERNOR SAYS "NO" TO 18 BILLS 330 ARE SIGNED Many Measures Meet Grosbeck's Displeasure.

Lansing, June 9.—Three hundred and thirty of the 348 bills passed by the recent legislature will go on the statute books of the state as law. When the time limit expired for vetoing measures, the governor had vetoed 18. The other, the "odds and ends" bills for minor commissions and expenses, was vetoed partially, but will stand as amended.

In addition to the laws enacted by the legislature one constitutional amendment was made. The resolution passed early in the session initiating the port and port districts amendment to the constitution was ratified at the spring election.

Disapproved Bills. The 18 bills disapproved by the governor were: Representative Warner — To provide a two cent tax on gasoline. Representative Smith — To permit utility corporations to acquire rights by condemnation. Representative Thomas — To permit boards of supervisors to regulate activities of county road commissioners. Representative Hoyt — To authorize county road commissions to acquire and improve wayside parks and sidewalks. Representative Howarth — To provide for the deduction of the amount of mortgages against property held on contract when computing the contract tax. Representative Stevenson — To provide that the minimum term prescribed for crimes under the indeterminate sentence laws shall be the term served. Representative Lee — To provide for the physical connection of interurban and city street railway lines. Representative Dacey — To amend the housing code. Representative Meggison and Sargent — To provide for a reduced tax on cut-over land to encourage reforestation. Representative Lennon — To levy an annual specific tax of 3 mills on foreign securities. Senator Young — To provide for the platoon system of labor in fire departments. Senator Bahorski — To permit any court of jurisdiction to admit persons to bail. Senator Gettel — To restore riparian rights to owners of water frontage. Senator Sligh — To repeal the acts exempting certain securities from taxation. Senator Gettel — To insure the payment of sub-contractors for labor and equipment on public works. Senator Wood — To provide for superior courts in counties of 100,000 or more population. Senator Ripelle — To prescribe the liability of municipal corporations carrying passengers for hire.

UNOFFICIAL MEDICAL GUIDE.

I-TROUBLE.—Tels disease is chiefly confined to non-cases and second loeys, although no one is exempt. It is caused by enlargement of the ego and is almost always accompanied by acute swelling of the head. An X-ray of the skull will show a large vacuum in the brain. The disease is never fatal—unfortunately. It is annoying to those under the command of the afflicted one, and as a rule is not noticed by the patient until his attention is called to it by a superior. Hard-boiledness, caused by the patient's being often in hot water, is frequently a complication of this ailment. The cure is largely climatic, necessitating an early fall, which, of course, cannot be effected by the pillsbooter. —American Legion Weekly.

THE WHY OF IT.

"I'm not so crazy about Harry any more." "Why not?" "Because he knows so many of those songs he learned in France." "And does he sing them to you?" "No—darn it all—he just whistles the tunes." —American Legion Weekly.

AIRPLANES SUB FOR OLD JUPE PLUVIUS

RICHARD RINGLING. Great Falls, Mont., June 9.—Richard T. Ringling of circus fame is making it rain in Montana's "dry triangle." He's wooing Jupe Pluvius by air. He has purchased ten planes from which his professional mis-

ture purveyors will turn on the faucets. Ringling's planes will make trips to different parts of the state and by the induction into the air of electric current, positive and negative, will discharge ions from the upper wing of the machine traveling at fast speed. These ions will form the nuclei of raindrops which hover over the earth in form of clouds. Ringling says he will be able to cause precipitation by a process which scientists have developed for him in New York.

There is a possibility that the forestry department at Missoula, Mont., may take up his project with the view to fighting forest fires. Aviator Earl Vance, who helped Loy J. Molamby bring the Dempsey-Gibbons fight to Shelby, is chief of the rainmakers. Two of the ten machines Ringling has ordered already are in service. And they're accomplishing results, even the most skeptical of fanciers admit.

Ringling is one of the biggest ranchers in the west. Landing facilities will be provided on his property. But the main field will be just outside Great Falls. Mrs. Ringling flew here to break first ground. PERFECTED IGNORANCE. Examiner: "So you are entirely without knowledge of the new tariff law?" Witness: "Yes—I've read it." —American Legion Weekly.

The Big New

Pay Rent To Yourself

One-Fifth of sixty-five billion dollars—the total yearly earnings of the United States—is spent to provide dwellings for ourselves. The tendency—and it's bad—is to pay more and more of this to others, to pay rent.

What are your feelings? Wouldn't you rather spend one-fifth of your income on your own home? You can not only have things the way you want them, you are not only making the best kind of investment, but above all, you have a home of your own.

Let us figure with you on just the kind of home that you want. You have wanted it for a long time but the thought that it would be too expensive has kept you from investigating. Let us show you that you can afford to have that home of your own.
