

DE VALERA ARRESTED BY SOLDIERS

UNCLE SAM IS STILL HOLDING HAND IN GAME

HAS EIGHT BILLIONS "INVESTED" IN EUROPE.

BY DAVID LAWRENCE.

(Copyright, 1923, by The Escanaba Press)

Washington, Aug. 15.—Assuming that there had been no political controversy in the United States over the League of Nations or the World Court and America were approaching the European problems without any previous connection with it, there would still be room for the widest possible difference of opinion as to what American foreign policy should be in the present grave crisis in Europe.

Anyone who has tried to form a judgment of what America should do will not have his mind cleared by a visit to Europe. The chances are he will find it even more confused. Its a good deal like trying to analyze a poker game without being able to look at the cards of any of the players. Most of the moves on the surface hardly reflect what is actually going on. America is a distinct part of the game as if there were a European country.

There seems to be no way of dissociating the United States from the matter for the very substantial reason that ten billions of dollars of American money is involved. Granting that the United States will never consider cancellation of the war debt, the problem becomes even more acute for Europe feels the burden of that debt almost as much as any factor in the entire economic situation.

British Payment Unpopular. In this connection it may be surprising to many people on this side of the Atlantic but the writer can say without qualification that about the most unpopular thing a British government ever did, was to agree to pay the American war debt and about the most unfavorable opinion that could possibly be held of the American government is held by the average man in the street because he believes the United States insisted on its pound of flesh at a time when the British are staggering and stumbling.

Just imagine nearly one half of your weekly salary being taken from you by the government and then have the government say its necessary because another country wants repayment of a war loan. Imagine also how anxious the average Britisher is to pay anything when out of the war has come a French militarism and such a terrible blow at British commerce that 1,200,000 men are out of work and must accept the charity of a government which in fear of revolution is compelled to support its poverty stricken people.

American Taxes Low. When history comes to be written ten years hence, there will be serious doubts as to the value of the British debt settlement so far as improving the relations between the American and British peoples. Americans are paying the lowest per capita tax of any of the nations engaged in the war and at the same time America is the wealthiest of them all. Under such circumstances the resentment among the common people is indescribable though to be sure in the government circle the importance of a nation paying its debts is fully realized. Indeed, the British government is endeavoring just now to see the fact of America's insistence on payment as a lever to compel France to scale down the amount of German reparations to a figure that will yield revenue at once instead of continental chaos.

Danger of Class War. The danger in all Europe today is revolution and counter-revolution—a war between classes. If the American government could be sure of what is going to happen it would act as a mediator in the European disputes. Former President Roosevelt believed the United States should have protested against the violation of Belgium's neutrality at once in 1914 and that America might have brought the war to an earlier end by intervention when the Lusitania was sunk. All this is hindsight. When the catastrophe comes in Europe there will be another series of controversies as to the part the United States should have played in averting disaster. Should a business depression follow in the United States, criticism would be even more intense.

Under these circumstances then what should President Coolidge do? The need of the hour is a clear cut statement of American opinion. There are many people in Europe who argue that the United States should morally support the British position and thus weaken France before the

Mrs. Wallace Reid Guarded in Chicago by Federal Agents

CHICAGO, Aug. 15.—Two federal narcotic agents were assigned today to guard Mrs. Wallace Reid, widow of the late movie star, after she had complained to federal authorities that she had been warned twice by telephone messages to her room in a hotel here to stop her campaign against drugs. Mrs. Reid declared to Assistant District Attorney William F. Waugh that since she has undertaken her campaign, almost everywhere she goes, threats are made as a means of coercing her to halt her efforts.

ATLANTIC WILL REMAIN MOIST

Federal Officers Do Not Expect to Use Court Ruling.

Washington, Aug. 15.—The decision of a federal court at Brooklyn that foreign craft attempting to smuggle liquor into this country may be seized, even outside the three-mile limit, is not likely to cause any change in the general policy of the government against making such seizures outside American territorial waters.

No Change of Policy. While the question has not come up for final decision, treasury officials having to do with the enforcement of the customs act, expressed the opinion today that there would be no change of policy, at least until after the supreme court had passed upon the constitutionality of the old hovering act, under which the seizures were made.

Although no announcement has been made there have been indications that official and justice department officers have been made aware of the view of the state department—that the pressing of such cases would further complicate or curtail the whole ship liquor situation through diplomatic negotiations.

Harding Fixed Policy. The present policy of the government was determined by President Harding after the seizures of British ships last year and after he had discussed fully all of the questions involved with Secretaries Hughes and Mellon and Attorney General Daugherty. Mr. Harding had determined, however, that where the foreign craft established contact with the shore through the medium of their own boats and crews, customs and prohibition officials might proceed against them.

Tulsa Inquiry on Flogging Proceeds

Tulsa, Aug. 15.—Examination of witnesses was continued today by a military court of inquiry in connection of the flogging here last Friday of Nathan Hantmann, while State Attorney General George Short began an independent investigation with the aid of the police department and sheriff's force. After a conference with Chief of Police Moran and Sheriff Robert Sanford, the attorney general promised quick lifting of martial law which was yesterday by Gen. Walton, if desired results are obtained.

Chicago Men Drown In Lake Michigan

Pewaukee, Mich., Aug. 15.—E. Austen Horn, 26, and Roy Johnson, 24, both of Chicago, were drowned in Lake Michigan near here today when a canoe in which they were riding upset some distance from the shore. The bodies have not been recovered.

KIWANIS CLUB WILL PURSUE ELUSIVE FOXES

THERE destination unknown to all except Lew Stangby and his associates on the entertainment committee of the organization, members of the Kiwanis club will "have off" at 1 o'clock this afternoon for their annual fox drive and picnic. The motor train will be assembled at the corner of Ludington and Seventh streets. Mr. Stangby will serve as pilot. Ben Kratze, commissary officer for the day, announced last night that sufficient food to feed 500 starving shipwreck refugees or 70 Kiwanians had been procured, and Guy H. Ramsey, umpire-in-chief of the barn yard golf eliminations, declared that he expected his students in that difficult art to produce some wonderful skill in ringing the gong.

DEATH TOLL IN WYOMING MINE FIXED AT 97

ALL BUT ONE BODY REMOVED FROM WRECKAGE.

Kemmerer, Wyo., Aug. 15.—(By the Associated Press)—Kemmerer tonight was in mourning for the miners—97 of them—who are known to have lost their lives in the explosion at the Kemmerer coal mine No. 1, at Frontier, near here, yesterday. Throughout today and tonight, relatives and friends thronged the I. O. O. F. hall which has been turned into a temporary morgue and also a local undertaking establishment where about half of the bodies are being kept. Tonight, however, there were but few people congregated at the portal of the mine where last evening thousands crowded for news of entombed loved ones. The latest official report of the coal company is 97 are dead, one is missing and 37 have been rescued unharmed.

Cause Not Determined. What caused the explosion in the mine has not yet been determined but officials announced that the pumps for water and air were not damaged and that work will be commenced as soon as possible.

The mine is considered one of the deepest coal mines in this section of the country, if not in the entire United States. The main shaft goes down at an angle of 16 degrees to a depth of about 5,000 feet and it was on the lowest level, or over a mile under ground, that most of the bodies were found.

Search for the body of the missing miner is being continued with all possible speed by picked crews of mine workers. It is the intention of the mining company to keep the search at top speed until the body has been located.

All Identified. Shortly after dark last night the grim task of removing the first bodies was begun. They were hauled to the surface in trip cars and then loaded on trucks for transit to two Kemmerer morgues. The last body last night was identified at 2 a. m. and immediately upon arrival at Kemmerer today they were prepared for burial.

In one of the small rooms of the I. O. O. F. building, undertakers and volunteers worked until late this morning. Leaders, experienced no difficulty in getting men to perform the duties of washing the bodies and otherwise preparing them.

Cement Probe Will Be Held by State

Lansing, Aug. 15.—A grand jury investigation into the cement production of Michigan probably will be asked by the state, O. L. Smith, assistant attorney general said today. It will seek to determine whether, as was charged at a meeting of the state administrative board yesterday, producers have entered into a combine to manipulate prices, he said. Mr. Smith already has begun to gather data concerning the producers in the state and price fluctuations. If the investigation warrants prosecution, Mr. Smith said, they will be instituted under the state anti-trust statute, which provides fines of from \$50 to \$5,000 and imprisonment of from 60 days to 5 years.

Forest Fires at Ludington Severe

Ludington, Mich., Aug. 15.—Forest fires in this vicinity brought under control last night have broken out again and an emergency call for volunteer fire fighters, was sent out, which sent 35 men into the forests. Other squads are being organized. The fire today destroyed all the buildings on the ranch of Dr. Bertram W. Slippy of Chicago. An undertaker called to the ranch because of the death of the ranch manager's mother, found the house had been destroyed and the body removed to a nearby field.

Berlin Communists Call Off Strikes

Berlin, Aug. 15.—(By the Associated Press)—The labor and food situation in Greater Berlin today showed improvement over previous days. This was due to the calling off of the general strike by the Communists. The attempt of the Reds to paralyze the city proved to be a fiasco owing to the opposition of the regular labor unions. The currency shortage continues, although there seems to be a plentiful supply of bills of large denomination in circulation.

Irish Republican Leader, Fugitive For Months, Is Captured By Free State

Ennis, Ireland, Aug. 15.—(By the Associated Press)—Eamon de Valera, "president of the Irish republic," at last is in the custody of the Free State authorities. He was arrested here today as he was starting an election speech to his constituents. He had boldly announced his coming and when he took his position on the rostrum in Market Square, Free State troops threw a cordon around him.

The crowd had given him a tumultuous reception and he had just started his address in Gaelic, when a shout arose, "The soldiers are coming." Simultaneous, armored cars rattled noisily up to the platform.

Soldiers Fired. The crowd fled in all directions as the soldiers fired several volleys over their heads. Many women fainted.

As several soldiers rushed toward the platform de Valera was seen to sway and then collapse. At first it was thought he had been shot but it turned out that he had only fainted, probably in consequence of a blow he received during the stampede.

When he recovered he was assisted down the steps by troops. He waved aside a number of persons who wanted to try to rescue him and surrendered to an officer who received him with a kindly, "Come Along."

When the first panic had subsided, the people returned to the square and hurled insults at the troops and the situation looked ugly. The soldiers took things calmly, and soon restored a degree of order.

Offers No Resistance. Then with a large crowd following him, Mr. De Valera was taken to the county jail. He offered no resistance. When he arrived at Market Square, De Valera was accompanied by his son and a priest. He seemed nervous. There was a notable twitching of his face and he seemed ill at ease. Altogether, a dozen persons were treated for injuries in the local hospital. Two of them suffered from bullet wounds and the others from cuts or bruises.

According to the report current here, the Free State cabinet was equally divided over the wisdom of arresting de Valera.

GASOLINE CUT ON EAST COAST

SOUTH DAKOTA PUTS PRICE UP TO 20 CENTS.

New York, Aug. 15.—Retail and wholesale gasoline prices were reduced from one to two cents a gallon throughout the Atlantic seaboard and New England states today as the price was spread eastward. Led by the Standard Oil Company of New Jersey, formal announcement of the cut in tank wagon prices were made successively by the larger companies operating in the east.

AUTO CLUBS ACT.

Washington, Aug. 15.—Investigation of the gasoline situation "to the end that positive and lasting relief may be had by the consumer," was advocated today by Thomas H. Henry, president of the American Automobile Association. He wrote to the 300 clubs associated with the association urging upon them the necessity of asking congress to act.

The ultimate solution of the control of the gasoline prices," said Mr. Henry, "on a basis fair to the consumer, producer and distributor, lies in federal action. I am therefore suggesting that you urge immediately upon your congressmen and senators the importance of taking up the gasoline price situation immediately on the convening of congress."

SOUTH DAKOTA RAISES.

Pierre, S. D., Aug. 15.—Gov. W. H. McMaster, who precipitated the present gasoline price war more than a week ago when he instructed the state highway commission to sell gasoline at the Mitchell supply station to the general public at 16 cents a gallon, retreated from his original position today when he consented to increase the price to 20 cents, following a conference with a committee representing the independent oil jobbers of the state.

Adjusts With Other States.

Let's this afternoon the governor announced informally that in view of the 6.6 cents cut made in the price of gasoline throughout the middle west by the Standard Oil Company of Indiana, he and the committee which conferred with him on a fair price that a similar price was justified in South Dakota. Beginning Saturday, therefore, the governor said the price of gasoline at independent filling stations in South Dakota, including the station at the Mitchell supply depot will be increased from 16 to 20 cents a gallon, including the state road tax of two cents a gallon, so that the price will have the same relative reduction as in other states.

Price Was 26.0.

Prior to the present controversy, the average retail price of gasoline in South Dakota, including the road tax was 26.6 a gallon.

MINERS UNION OPENS WAY TO NEGOTIATIONS

WITHDRAW DEMAND FOR CHECKOFF OF DUES.

New York, Aug. 15.—A way to prevent suspension of anthracite coal mining after Sept. 1, was opened today by the intervention of the United States coal commission in the deadlock between the miners union and the operators. Officials of the union proposed to the commission to abandon their demand for "checkoff" of union dues if the operators would cease their practices of collecting explosives and fuel accounts by the same method and after conferences tonight the operators agreed to the proposal in full.

Meet Tomorrow. Wage negotiations, which broke off two weeks ago, now may be resumed, the operators said in accepting the union proposal. Both miners union officials and operators representatives, however, will meet again tomorrow with the coal commission, before going ahead.

Both the miners proposal of terms upon which they would abandon the checkoff demand and the operators acceptance took the form of communications addressed to the coal commission.

John L. Lewis, president of the United Mine Workers, and union officials associated with him laid before the commission at their first meeting with it today, alternative proposals by which the wage negotiations might be resumed.

Miners Accept Offer. The first—which the operators accepted—pointed out that mining companies generally "checked off" and retained out of miners' pay checks, sums to cover the cost of explosives used by them in mining, of houses rent, fuel and general supplies of many kinds. If the companies would cease doing this, the union offer ran, the union would drop their demand that dues be collected by the same method.

"The operators accept this proposition," the answer of the coal operators said. They were prepared to agree insofar as the law of Pennsylvania will permit to incorporate in the contract, a clause discontinuing the present basis.

MEXICAN PACT IS SIGNED BY DELEGATION

Mexico City, Aug. 15.—(By the Associated Press)—The records of the conference between the representatives of the United States and Mexico, embodying an agreement designed to make possible the resumption of diplomatic relations between the two nations, were signed here at 2:15 o'clock this afternoon. The signature brought to a successful conclusion, the negotiations extending over 13 weeks between Charles B. Warren, and John Barton Payne, personal representatives of the American president, and Fernando Gonzalez Roa, and Ramon Ross, for President Obregon.

The American delegates will leave shortly for Washington for submission of the record with the accompanying claims convention, to President Coolidge and Secretary of State Hughes.

It is expected here that the Mexican government interpretation of the sub-soil petroleum legislation and agrarian laws contained in the record signed today, will be acceptable to the American administration, and that an appointment of a United States ambassador will not long be delayed.

Mrs. Harding May Quit Mansion Today

Washington, Aug. 15.—Boxes and bundles began leaving the white house today, the first of the personal belongings of Mrs. Warren G. Harding to be removed from the executive mansion, preparatory to turning the building over to President and Mrs. Coolidge. Mrs. Harding spent another day going over possessions accumulated during her residence at the white house, but was unable to complete the task. It will be another day or two before she is able to leave the mansion.

Mob Liberates All Prisoners in Jail

Berlin, Aug. 15.—(By the Associated Press)—A dispatch to the Deutsche Zeitung from Halle, says a mob today stormed the jail at Zeitz, smashed the doors, opened the cells and liberated all of the prisoners, most of whom are declared to have been ordinary criminals.

Valparaiso School Is Taken Over by Ku Klux Klansmen

INDIANAPOLIS, Aug. 15.—Negotiations have been completed for the taking over of Valparaiso university, at Valparaiso, Ind., by the Ku Klux Klan. It was announced today by Milton Elrod, editor of the "Fiery Cross", official Klan publication. The university, which is one of the oldest educational institutions in the country, will be called the National University, Mr. Elrod said.

HUGHES TO AID "KIDNAPPERS"

Promises Government Will Try to Bring Bergdoll Back.

Cincinnati, Aug. 15.—The United States government not only will do everything it can to obtain the release of Lieut. Hoover Griffiths, Hamilton, O., from prison in Germany, but will exert all its power to bring Governor Cleveland Bergdoll, draft evader, back to America. This was the gist of a telegram from Secretary of State Charles E. Hughes to Raymond A. Lasene, national adjutant of the Disabled American Veterans of the World War, received today at National headquarters here.

CITIZENS AROUSED.

Heidelberg, Aug. 15.—(By the Associated Press)—Neckar Valley has become an armed camp as a result of the Bergdoll affair. All trains are searched on the theory that other Americans may be en route to Eberbach and Mosbach with intention to rescue the two men held there from jail. Plain clothes men are assisting the Baden police in the work of inspecting passenger trains. All passengers without visas to enter Baden are taken from the train and arraigned before the passport control to have their papers regularized.

The Badeners fear an armed attempt on the part of the French military in the occupied area to rescue Carl Sperber, a Frenchman, held in connection with the Bergdoll kidnaping case and officials announced he had been moved from a hospital to jail for safekeeping.

Sperber's baggage has been searched and all the papers with those of Griffiths and Neilson have been sent to Carl Karlsruhe.

HAVE BEEN MOVED.

Mosbach, Baden, Aug. 15.—(By the Associated Press)—Hoover, Griffiths and Victor Neilson, the Americans held in connection with the recent attempt to abduct Governor Cleveland Bergdoll, draft evader, have been moved again since their arrival at the jail here. While making this announcement the authorities refused to divulge where they had been taken, declaring an attempt to injure them might be made, in view of the high state of excitement which prevails.

Zinc Mills Working in Illinois Town

Hillsboro, Aug. 15.—(By the Associated Press)—Virtually two thirds of the normal force of 500 men on duty after the night shift had reported for work tonight at the plant of the American Zinc Company at Taylor Springs which has been the center of a strike for recognition of the International Mine Mill and Smelter Workers. A full complement of men was expected by Friday night, a plant superintendent reported, today to representatives of the federal department of labor who have been here several days endeavoring to bring about a settlement. Workers who reported today numbered 186. It was said, Union spokesmen declared few men had deserted their ranks.

WEATHER

THURSDAY, AUG. 16, 1923.

Forecast.

Upper Michigan—Cloudy Thursday; Friday fair and continued cool.

Upper Lakes—Moderate winds, northeast and east, overcast weather with showers on Southern Michigan.

Temperatures.

FIRM HAND TO BE NEEDED IN COAL DISPUTE

MINERS, OPERATORS NOT IN FRIENDLY MOOD.

BY ROBERT T. SMALL.

(Copyright 1923, by The Escanaba Press)

Washington, Aug. 15.—Observers who have closely followed the negotiations between the anthracite miners and operators at Atlantic City are doubtful of the outcome of the called conference of miners and operators with the National Coal Commission.

President Coolidge has approved this first step looking to a settlement of the hard coal controversy, but the break between the miners and the operators is so wide it seems impossible that the mere presence of the coal commissioners can bring about an adjustment.

It is believed here today that only a personal appeal from the President himself can be effective. In the end it is expected that Mr. Coolidge will have to bring the operators and the miners' representatives straight to the White House and tell them just what he and the country want of them.

Miners Position Absolute. Mr. Coolidge, acting through the coal commission at this time, is extremely anxious that some sort of truce shall be patched up so as to prevent a suspension of mining in the anthracite fields at midnight on August 31. If this truce can be arranged he feels certain that longer negotiations, longer consideration of the various issues involved in the present deadlock, would bring about a settlement for a period of at least two years.

But here where is the president and the commission will write their first and perhaps their greatest snag. The miners are in no mood to agree to continue work after August 31 on the assumption that a new wage scale and working agreement can be entered into later.

The position the miners take is absolute. They say the wage agreement expires on August 31. They say there has been plenty of time, plenty of opportunity to agree upon a new scale. If there is no new scale, no new agreement, there is nothing by which the workers can be guided, and therefore, they will not work.

No New Arguments.

At the very outset of the negotiations at Atlantic City began on July 3, last, the mine owners asked the miners to agree to continue work after August 31 even if no new agreement had been reached by that time. The owners even went so far as to say that it would be understood that any agreement subsequently reached, should be retroactive to September 1 of this year. It was argued that under such an arrangement the miners could not possibly lose any of their rights or any of their pay under the new scales which might be worked out.

John L. Lewis, president of the Miners, acting under instructions of the various presidents of the district organizations, turned the operators' proposals down with a bang. There are no new arguments that the coal commissioners can bring to bear upon this subject in the New York conferences. Therefore, it is safe to say that upon this first essential point there is likely to be no agreement.

May Need Firm Hand.

President Coolidge may have to act and act drastically before the recalcitrant owners and operators can be brought into line.

It is only stating an apparent truth to say that at the Atlantic City anthracite conference, the first report of the National Coal Commission, was treated as a veritable "scrap of paper." Both miners and operators insisted they could not understand the report in many of its details. They said the language was confusing and ambiguous; that even the figures had to be studied from many angles before their meaning was apparent. Even then, as the operators and miners refused to view the report at any time from the same angle, there was no agreement between them as to the commission's findings.

The report seemed but to throw another bone of contention into the negotiations. Both miners and operators thought the report might be useful for propaganda purposes. That is, they thought each side could get out of the report something to back up its contentions. President Lewis claims that he is unable to give the miners anything to work upon. He says the miners have been unable to negotiate for months.

Washington, Aug. 15.—Appointment of C. Bascom Sless as secretary to President Coolidge was the occasion today of the democratic national committee's first attack on the executive since he took over his new duties.

UNCLE SAM IS STILL HOLDING HAND IN GAME

(Continued from Page One)

bar of public opinion. Such a course would only impair the usefulness of American mediation. There is a neutral position as between France and Great Britain.

First there is the question of French security. America might well propose that all the powers of Europe enter into a solemn treaty promising not to attack one another for a period of fifty years.

Washington, Aug. 15.—President Coolidge approved today the issuance by the post office department of a memorial stamp carrying the likeness of the late President Harding.

Washington, Aug. 15.—Appointment of C. Bascom Sless as secretary to President Coolidge was the occasion today of the democratic national committee's first attack on the executive since he took over his new duties.

ORE SHIPPING HITS LOW MARK DURING AUGUST

Dockmen, Train Crews Laid Off; Over-Production Blamed.

Ore shipping from the mines of the Menominee and Marquette ranges through the local North Western and St. Paul docks has suffered a decided slump during the first weeks of August.

Twenty-five men were laid off at the local North Western docks early this week and the St. Paul docks yesterday morning laid off twenty of their crew.

While the cut in crews on the roads and docks does not affect any great number of men, it may be taken to indicate a serious slump in the ore business.

Bottoms are still plentiful, although the grain trade is beginning its annual drag on the lake fleets.

In some quarters, the drop in ore shipping is taken to indicate a period of general industrial slackness ahead. Their prophecies are partly borne out by the action of the Cleveland, Chicago and Charcoal iron companies in shutting down a number of their chemical plants and iron furnaces in the upper peninsula.

The slump in ore shipping has increased the general labor supply in this city to some extent. City work, which has been proceeding slowly because of a scarcity of common labor, is now going ahead at good speed.

Harding Memorial Stamp Is Approved

Washington, Aug. 15.—President Coolidge approved today the issuance by the post office department of a memorial stamp carrying the likeness of the late President Harding.

Independent Oil Men Are 'Content'

Chicago, Aug. 16.—Crude oil and the whole price structure should crash very shortly because of the reduction of gasoline prices, L. V. Nicholas, president of the National Petroleum Refiners' association declared here today.

OBITUARY

OLE GANGSTED'S FUNERAL. Impressive funeral services were held at 2 o'clock Wednesday afternoon for Ole Gangsted, who died Monday evening after a brief illness from pneumonia.

Mr. Gansted had been in the tailoring business here for a number of years and friends of the trade acted as pallbearers. They were: Peter Olson, Frank Aronson, L. F. Starnine, Carl Jorkenson, John Hillin and Julius Peterson.

Auto Strikes Lad Riding Tricycle

While peddling his way across North Twelfth street yesterday afternoon at the intersection with First Avenue North, the five-year-old son of Mr. and Mrs. John Carlson, residing at that corner, narrowly escaped serious injury when he was struck and thrown from his wheel by a car driven by C. Charbonneau, whose address was given as Route 1, Gladstone.

Charbonneau claimed that the other car had forced him to swing over to the wrong side of the street, causing him to strike the lad as he came down off the sidewalk. Police claimed that no other car was in the block and that Charbonneau, an elderly man, could not see where he was driving. The lad received only minor bruises and scratches. Charbonneau was ordered to report to the police station today.

SOCIAL

Juvenile Party.
Little Miss Margaret Alice Powell, daughter of Mr. and Mrs. George Powell, 520 So. 8th St., entertained a number of her little girl friends at her home Tuesday afternoon. The occasion was her sixth birthday anniversary. Games were played and a dainty lunch was served. Margaret Alice was the recipient of many pretty gifts.

Pantry Sale.
The Ladies' Aid of the Swedish Methodist Church will hold a pantry sale Saturday at the Scandia Co-Operative Store and a fine assortment of baked goods will be offered for sale at this time.

Meeting Postponed.
The Epworth League meeting which was scheduled for Friday evening at the Swedish Methodist church, has been postponed for one week.

THE PRINCE TO VISIT CANADA
London—The Prince of Wales will leave London early in September for a visit to Canada and will spend some time at his ranch in Alberta. His visit will continue until the end of October. He will be accompanied by his private secretary, Sir Geoffrey Thomas, and by Brig.-Gen. C. F. Trotter.

A GOLF STORY.

Davidson Herron, the famous Pittsburg golfer, said at a dinner party:
"Higginbotham Brown is such a wretched golfer that, in order to escape ridicule and obloquy, he always plays around alone, thus hiding his shameful mistakes from everybody but his caddy."
"The other day Higginbotham Brown was caddied by a new boy, and to his disgust he played worse than ever before the lad."
"I suppose," he said, blushing with embarrassment—"I suppose I'm the very worst player in the world, eh, what, caddy?"
"No, sir," said the boy earnestly. "I don't think so. From what the other boys tell me, sir, there's a gentleman belonging to this club who plays worse than you do."
"Higginbotham Brown brightened up."
"Is that so? What's his name?" he said with interest.
"Higginbotham Brown, sir," said the boy.

RE-WRITING STATE CONSTITUTION
A constitutional convention in Missouri has been in session seven months re-writing the state constitution. Among the delegates are four women. Three of these are Republicans and one a Democrat. One of the Republican women, Mrs. Walter McNabb Miller, was elected a delegate-at-large by the Republican party.

Four More Needed.
There is room yet for 4 farmers, before the membership rolls close. As soon as the list of twenty-six is completed, the work of putting the organization under way will be started. It is expected to have the plan in full operation by the first or second week in September.

DAIRY FARMERS ORGANIZE FOR CATTLE TESTING

"Boarders" to Be Eliminated from Delta County Herds Under Plan.

Twenty-two Delta county dairy farmers, from every section of the county, met at the Escanaba City hall Tuesday night and organized the first Delta County Cow Testing Association. George Ferguson of Danforth was elected president, Edwin Berzman of Bark River was named vice-president and August Severinson of Danforth, secretary and treasurer.

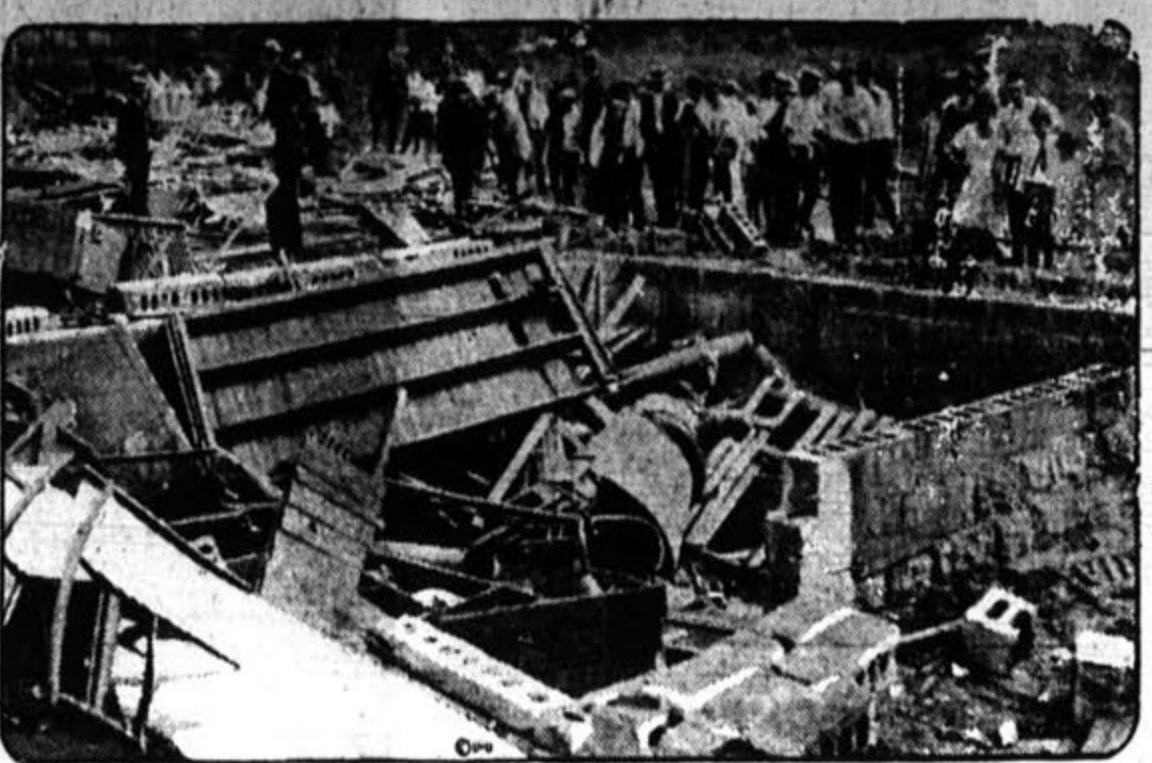

The object of the association is to raise the standard of dairy cattle on the farms of the members by systematic and regular check on feed consumption, housing and handling costs and milk and butter-fat production. Cows which do not produce enough butterfat to pay their own "board" and leave a good margin of profit besides will be eliminated from the herds.

Bye-day Tests Planned.
The plan of operation contemplates the engaging of a full time cattle expert, who will act as executive head of the organization and will also handle the testing. Membership in the association will be limited to twenty-six farms, as the executive will spend one day of each month at each farm, weighing the feed consumed and milk produced and testing the milk from each cow for butterfat content. The test will be carried on throughout the entire winter, and it is expected that by spring the figures taken will show a fair average for each cow. Those which have not "paid their board" will be disposed of by the owners.

The formation of the association is the result of many months of work on the part of Joseph Turner, county farm agent. Delta county dairymen, practically without exception, have admitted the value of the testing work and that the need for it exists in this county, but many have felt averse to paying their pro-rata share of the expense of its operation.

Joe Turk, general manager of the W. K. Judge Co., of Cleveland, Ohio, returned yesterday to Escanaba after a month's visit at Camp Phillip Cassell, where he successfully landed a large black bear.

Mr. and Mrs. John Komin motored from Cleveland and are guests at the Rowley home on North 18th St.

SPECIAL THIS WEEK—Bourjois Famous Mamon Lescout Face Powder—Today's regular \$1.50 seller at \$1.00. Limit 6 boxes to any one customer. Comes in 6 different shades—Peaches and Cream, Rachelle, Blanche, Rose and Chohr which is the natural flesh color. Don't fail to lay in a supply. Five gross won't last long. Fair Savings Bank. 6368-228-11.

Chicago—Tucked into the police record of fast moving crime was this bit of evidence that the old-fashioned crook is not passe: "Stolen—Small white mare, blind in left eye, attached to old buggy. Finder return to Cohen Bros. furniture store."

The automobile squad at the detective bureau insisted on solving the mystery. In fact, the entire police force, fed up on six-cylinder crime, had taken the trail.

Fraternal Column

Cleveland Association O. E. S. The Cleveland Association of the Order of Eastern Star will hold its annual meeting at Sault Ste. Marie, Mich., Tuesday, August 21st instead of August 22nd as had been planned.

Mrs. Hazel Hammel, worthy matron of the R. C. Hathaway Chapter No. 49 of this city will be one of the delegates from here who will attend. It is probable that other members will go to the Soc for the meeting.

Swedish Mission Ladies' Aid. Owing to the absence of the pastor, Rev. Andrew Anderson, there will be no meeting of the Ladies' Aid of the Swedish Mission Church Thursday as has been scheduled. Rev. Anderson is spending three weeks visiting at Stevens Point, Ashland and Junction City, Wis. He will return Friday.

CARD OF THANKS. We wish to thank all those kind friends and relatives for the assistance and sympathy and beautiful floral offerings given during our bereavement, the loss of our beloved son and brother, Alfred Oakman.

Mr. and Mrs. John Oakman and Family.

HARDING HELPED WILSON. One of the most significant kindly acts in President Harding's career was disclosed this week.

Just after he came to the White House he personally ordered the Navy department not to assign Rear Admiral Cary T. Grayson to duty outside Washington, regardless of the automatic navy schedule. Thereby the President made sure that Dr. Grayson would continue to be available as the personal physician to Woodrow Wilson. Dr. Grayson had been the chief medical attendant of the former President eight years and was more thoroughly acquainted with his condition than any other physician.

Mr. Harding gave the order to the navy, unsolicited, without suggestion from any source and without ever mentioning it afterward.

A great big stock of this season's newest creations in Furs—The style and beauty of this season's garments by far surpass in beauty and richness all previous models. This well known Wholesale Fur House is too well known to Escanaba people for introduction, having conducted so many successful sales in our store. Every garment bears a written guarantee which is more than backed by the corporation.

Savings that you would hardly believe until you have seen and inspected the garments yourself—

And this is made possible only through our inducing the Wolverine Fur Corporation to sell in our store to the public all of their show room samples, road samples, fur exhibit garments, and surplus stock—and you are indeed fortunate to be one that has the opportunity to buy these furs in Escanaba.

BUY NOW! Decidedly Now!

Far-sighted people will reap the benefit of this unusual opportunity. Attend this sale, we promise you great savings.

A great opportunity to save on Furs is yours this week—Come in—Look them over.

EUROPE BETTER INDUSTRIALLY, EXPERT THINKS

Politically, However, He Says Things Are in Bad Muddle.

BY MILTON BRONNER

NEA Service Staff Writer. London.—Politically Europe is going from bad to worse. Materially the condition of Europe is becoming better. One sees the political froth at the top. Superficial observers don't see the material progress beneath the surface.

This is the mature judgment of one of the most mature and far-seeing business men of New York and London—Irving T. Bush, head of the Bush Terminal Co. of New York, head of the company that built the magnificent Bush Building in London, and president of the New York State Chamber of Commerce.

Talked With Leaders. Mr. Bush has recently had intimate conversations with Trotsky and Kameneff in Russia, Mussolini and Giolitti in Italy, Chancellor Cuno, Stinnes and Max Warburg in Germany, and leading statesmen and business men in France and England.

"There are," said he, on the eve of his departure for America, "three vital things in connection with the condition of the world today—First, the French occupation of the Ruhr; second, the League of Nations; third, the World Court."

"As to the first, I think the French are absolutely wrong; I think France is sorely in need of candid friends. They are not truly friends of France who pat her statements on the back and say that everything she does is right. That way lies danger. In the present instance, I think England is right. I know there will be some who will say that England is animated by selfish motives; that she wants more favorable conditions extended to Germany so that her own business may pick up."

England Needs Aid. "Speaking from that standpoint, one could also say the United States is selfish. Our farmers are in a bad way, and we want to help them. The industries of England are in a bad way and she wants to help them and, incidentally, her workmen. So in this matter, American interests and British interests are identical. We both want the same thing—a restoration of real peace in the world. We both feel that a restored Germany, a restored Europe, means a restored world. It means more business, more work, more consumption of goods and food, and less waste on armaments; and more money for peace purposes and less money for war purposes."

"That being so, I would like to see America come out clearly, bravely and strongly. This would in no way entangle us in European affairs. In this matter of the Ruhr and the question involved in it, we should give our powerful moral support to Britain. By so doing we will prove the truest friends of France herself. It is against all our interests to sit by and see another war in the making."

American Plan. "The English are now pinning all their faith to what is virtually an American plan—the scheme to have an international commission examine the facts and report what Germany can really pay and what she should pay. This was ably set forth in a powerful speech by Secretary of State Hughes last December, in New Haven. As this plan originated in the United States, it should certainly have our backing."

"My feeling regarding the League of Nations is a mixed one. As at present constituted every time it has a meeting the military power sits on one side of the table and the money power on the other. The military power is France and her satellites—Poland, Czechoslovakia, Jugo-Slavia and Rumania, whose armies she subsidizes. On the other side sits the money power, chiefly represented by Great Britain. The League of

THE ZR-1 WILL SOON BE READY FOR FIRST FLIGHT

Latest photo of the ZR-1, nearing completion at the Naval Air Station, Lakehurst, N. J. The outer covering is made of sheep stomachs. Sixty cells contain 2,100,000 cubic feet of hydrogen which will lift 136,000 pounds, or the same amount of helium lifting 120,600 pounds. Six 200 and 300 horse-power motors will drive it at 75 miles an hour and the ship will be able to fly 4019 miles and return. One of its first flights will be an attempt to reach the North Pole. Comparative size indicated by two men (arrow).

Nations thus becomes a scene of intrigues.

"So sometimes I wish we were in the league—if we were assured that our troops would never have to go to Europe unless our own people so willed it, and if we were assured that the European nations would find no means of interfering in the affairs of North and South America. But then I have second thoughts and am rather satisfied that we are not in the league, because for our representatives to sit in with the wily old diplomats of Europe is rather like an innocent sitting in a poker game with sharks."

Backs Court Membership.

"I believe in the World Court and think President Harding was right. The World Court, too, is an American idea. We have never believed that the only two methods of settling a dispute are either arbitration or by war. American are great believers in taking matters to court rather than engaging in a physical fight about the disputed matter. So we should be prepared to take international disputes to court. It would be a fair way and would be a way by which Uncle Sam would be assured of a square deal without having to use his fists."

"On the whole, I think Europe is improving. The big fact is that quietly and unobtrusively the material condition of Europe has bettered since the war. The herds of cattle and sheep have increased. There are more horses. More acres of soil are being cultivated. Implements of agriculture and industry that were worn out are being replaced. The railway tracks are being improved. The rolling stock is being repaired. Houses are being built. Factories are being enlarged. Canals are being constructed."

"These are after all real sources of wealth. Money is merely the counter which represents wealth. It is on this very material progress and not upon the market price of paper money that I base a certain amount of optimism as to Europe's future—always provided the peace endures in the Old World."

TODAY'S ANNIVERSARIES.

- 1777—Two detachments of British and Indians from Burgoyne's army were defeated by the Americans under Gen. John Stark near Bennington, Vt.
1848—A great fire in Constantinople destroyed 2500 shops and 500 houses.
1858—Consecration of Joseph P. Machefaut as first bishop of the Roman Catholic diocese of Colorado.
1875—The asteroid Cyrene was discovered by Dr. C. H. F. Peters.

Garden Bay News

Mrs. Jack Cooper of Grand Rapids has returned to her home in the city after visiting for a few days with her father, Andrew Cooper of this place. The little son of Mr. and Mrs. Lang was kicked on the head last Friday by a horse. It was at first feared that his injuries were serious but on examination it was found that only a flesh wound was sustained.

L. P. Peterson and daughter Marie of Fayette Bluff were Manitowish visitors on Friday. The Gladstone Camp Fire Girls passed through here on Sunday on their way home after spending a ten days vacation at Fayette.

The organist of one of the local churches had a shock recently when opening the instrument she found a family of little mice, snug and cozy in their little bed. The material for the nest had been carried, with much labour, from one of the padded seats near by. Though disturbed in their efforts at home making, the mice continue to carry the cotton batting and place it on the keys of the organ.

Mr. and Mrs. George J. Truckey leave here on Tuesday for the city of Flint where they will visit for two or three weeks with their sons, Edwin and Grant. While there, they expect to see as much as possible of various points of interest in the Lower Peninsula as well as other interesting places in other states.

Most of the blueberry pickers have returned from the plains at-

ter one of the most successful seasons within memory.

Some of the families have made fabulous sums while out there. Reports are current that other patches have been located and pickers are awaiting confirmation of such report. If verified, there will be a number who will go out for a few days longer. Generally, the season is almost at an end.

Wm. Clifton, wife and son Earl of Fayette were in town on Tuesday. Motorists passing through Fayette village during the past summer have noticed that it is quite a busy place. One of the most delightful summer resorts in or out of Michigan. It is just beginning to come into its own. All the cottages in the village have been overhauled and furnished.

These have all been occupied by enthusiastic tourists from various states of the Union. The old Hotel rechristened the "Tourists Lodge" has been remodeled. A large open fire place, built entirely by Mr. Van Remortel and an assistant, adds to the "homelikeness" of the guest room. Every room in the building has been carefully renovated. The bed rooms have been furnished with all new beds, bedding, etc. Mr. Van has superintended all of the work himself. Much of it has been done by his own tireless hands. An expert and experienced cook is in charge of the kitchen and chicken and fish have a prominent place on the menu. Last Sunday, thirty four persons sat down to dinner at the "Lodge" and over one hundred have been occupying the cottages. The rooms of the Lodge are so situated that nearly all of them overlook the

waters of Big Bay de Noc. We cannot imagine a more delightful spot in which to enjoy a rest giving vacation.

TODAY'S BIRTHDAYS.

Dr. William J. Holland, president of the Carnegie Hero Fund Commission, born in Jamaica, West Indies, 75 years ago today. Charles S. Mellen, former President of the New York, New Haven and Hartford Railroad, born at Lowell, Mass., 72 years ago today.

Loeke Craig, former governor of North Carolina, born in Bertie county, N. C., 63 years ago today. His Eminence Cardinal Dougherty of Philadelphia, born at Gardenville, Pa., 58 years ago today.

Charles D. Carter, representative in Congress of the Third Oklahoma district, born in Indian Territory, 55 years ago today.

Farmers near railroads should paint their cows a bright red.

WOODLAWN NEWS.

Mayme Kivisto, night operator attended the dance given at Cornell Saturday evening.

Mrs. Hilding Nyberg and family visited friends in Brampton for the past week. Mrs. Nauman motored to Escanaba to attend to some important business affairs.

Holly Thompson who has been employed at Iron Mountain for some time has been home to visit his relatives and friends. A party was held at the Zeglis residence in honor of their daughter Anna who celebrated her 16th birthday. A party of 16 young girls from Escanaba and Gladstone attended. Music, dancing and games were the chief diversions. A good time was reported by all. Luncheon was served at eight.

Ursula Sakel of Ralph motored to Woodlawn to attend a dance. Mrs. Frank Verhyden who is in St. Francis hospital is expected home today.

Beatrice Francis, telegraph operator, motored to Woodlawn. On her return she brought her mother with her to enjoy the beautiful country.

Jess Loper and family of Northland motored to Woodlawn to spend Sunday with friends. Mr. and Mrs. John Chapes and daughter Frances have returned to Chicago after spending two weeks here with her mother Mrs. Zeglis.

Lillian Kallman motored to Cornell to attend to business and do a little shopping. Mrs. Zeglis and family were camping at Alfred and picked a great deal of blueberries.

Mrs. F. L. Troyer of Gladstone motored to Woodlawn and Cornell to visit friends of yore. Mrs. Ring and Mrs. Truxa motored to Escanaba yesterday. Mrs. Lee has left for an extended visit in Minnesota after visiting two weeks with her sister Mrs. Thompson.

Mrs. Hendricks motored to Woodlawn to pick berries. C. D. Thompson visited friends in Woodlawn for the past few days.

PRIZE WINNERS IN BOYS CLUBS ON GREAT TRIP

Schoolcraft Boys Off for Wisconsin Dairy Section Visit.

Accompanied by P. G. Lundin, county boys' club leader, three lucky Schoolcraft county boys started on a ten-day auto trip that will take them through the heart of Wisconsin's richest dairy section, starting at De Pere, Wis., near Green Bay. This is given by the Schoolcraft boys as an award for excellence in judging work at last week's Chatham club camp.

The party was driven to Powers Wednesday morning by County Agent T. R. Shane, and included M. Blandford, Billy Beyers and Carl Linderoth, all sons of progressive farmers in this vicinity.

Boys from all over the Upper Peninsula met at Powers yesterday for the start of the trip, making a delegation of about 36 embryo farmers, in addition to the club leaders and county agents that accompanied them.

The trip was arranged under the joint auspices of the Michigan Agricultural College and the Upper Peninsula Development Bureau, the latter organization having subscribed \$1,000 for the purpose.

The following itinerary is to be adhered to as much as possible, with side trips arranged at each town visited:

Wednesday, Aug. 15—Leave Powers at 1 p. m. Sleep at De Pere, Wis.

Thursday, Aug. 16—Leave De Pere for Appleton. Stop at Appleton for night.

Friday, Aug. 17—Leave Appleton for Fond du Lac, stop at Oshkosh en route, stop at Fond du Lac for night.

Saturday, Aug. 18—Leave Fond du Lac for Waunauata. Stay over night at County Agricultural School at Waunauata.

Sunday, Aug. 19—At same place. See Milwaukee on Sunday.

Monday, Aug. 20—Wauchesa County. Stay at Wauchesa over night.

Tuesday, Aug. 21—Ft. Atkinson, Janesville, Whitewater; stay at Ft. Atkinson over night.

Wednesday, Aug. 22—Visit University of Wisconsin. Sleep at Madison.

Thursday, Aug. 23—Leave Madison at noon for Waupaca. Sleep at Waupaca.

Friday, Aug. 24—Start the jaunt for home.

Considerable importance is attached to this interesting feature of the boys' and girls' club work in Upper Michigan. An opportunity will be given the boys to visit some of the largest and most up-to-date dairy institutions throughout the country. Local committees in each community to be visited are arranging the entertainment, and every effort will be made to emphasize to the Upper Michigan boys the vast possibilities of dairying as a profitable branch of agriculture for the middle western region. During the trip the boys will be in direct charge of A. G. Kettunen, assistant state leader of boys' and girls' club work.

Entertain Tuesday For Visitors Here

Mr. and Mrs. Sam Hankin entertained a group of friends at their home on Arbutus Avenue Tuesday evening in honor of their out-of-town guests.

Those present were: Mr. and Mrs. Ellis Thal of Detroit; the Misses Helen and Ruth Blumrosen, Detroit; Mrs. Abrahams, Milwaukee; Miss Frances LaBelle, Chicago; Miss Sylvia La Belle, Chicago; Mrs. Jack Gronik, Milwaukee; Miss Esther Winkelman, Detroit; Mr. and Mrs. S. M. Rubin, Mr. and Mrs. Joseph Blumrosen of this city. Delightful refreshments were served, followed by a social session which was enjoyed by all the guests.

STATE TROOPER ASKS WARRANT FOR MOTORIST

A member of the state motor police, who has been making his headquarters in Newberry for the past week, came to Manistique Tuesday, seeking to have a warrant issued for the arrest of William Hayden, said to have operated an auto without a license, in addition to driving his car in a collision with another machine at Milkokila Lake.

Upon his arrival at the justice office here, the state officer learned that Hayden was not a resident of this county, though he is well known here. Given this information, the motor cop left for Escanaba to arrange for Hayden's arrest in Mackinac county.

According to the report Hayden is charged with having damaged another man's car by backing into it, leaving immediately without stopping to see the extent of the damage done. In addition to this, it is claimed that he has been operating a car without a license for some time. The state policeman was notified of the alleged violations, and sought Hayden's arrest at once.

Several drivers have been apprehended this week at Newberry who were either running without an auto license or who were using one license for several cars. Some of the men live in backwoods settlements, and have not purchased licenses for years.

Redeeker "Carouse" Is Booked for Sault

Reports from other Upper Peninsula cities indicate the popularity of the merry-go-round owned by Paul Redecker of Manistique, which is now being booked for various county fairs throughout this section.

The following announcement comes from the Sault:

The Redecker merry-go-round of Manistique will be at the fair here this year.

This announcement was made this morning by George J. Dickson, Jr., secretary of the Chippewa County fair. The Paul Redecker amusement ride has been installed on the Cloverland Park grounds for several years and has given entire satisfaction according to officials.

The Redecker machine is now undergoing a complete overhauling so that it will be in the best possible condition for the fairs. The many jumping horses are receiving a very thorough "zooming" with bright colored paints. A new thousand dollar Wurlitzer organ is being installed to furnish the music.

Archdeacon to Speak Here Sunday A. M.

Archdeacon Scandling of Marquette will conduct services at the St. Alban's Episcopal church on Sunday, officials of the local church announced yesterday. Sunday's services will be at the usual hour, 10:30, and members of the church are urged to attend, as the Marquette man is known as a forceful speaker.

Pasco Family On Canadian Ramble

Planning a two weeks' trip through Canada, the Frank Pasco family left Manistique yesterday, northward bound. Their first destination will be Montreal. Other cities on their itinerary will be Toronto, Three Rivers, Montreal and Ottawa.

LOCAL BAND TO BE ATTRACTION AT W. O. W. MEET

Woodmen Band to Be Only "Musickers" at Encampment.

With uniforms newly pressed, horns and buttons shining, the 89th Regiment W. W. W. band will leave Manistique Saturday en route to LaPorte, Indiana, and the District Encampment at Camp Roosevelt.

At a gathering which includes delegates from four of the Central States, the Manistique band will be the only musical organization, and will be one of the main attractions.

A postcard received here from Chas. Underwood, Manistique Fire Chief, tells that he is visiting at Tomah, Wis., on an auto trip vacation through Lower Wisconsin. He characterizes the weather there as "too hot."

Six Manistique people left yesterday on an auto trip to Chicago. Those in the party were: Ed LaFave, Miss Evelyn Barrow, Mrs. O. Barrow, Mr. and Mrs. Ed LaBelle and Mrs. Delor LaFolle.

Father Schavers of the St. Francis church is enjoying a vacation at Green Bay this week.

Miss Cordelia Beaudoin is vacationing from her duties at the Pioneer Tribune shop.

Francis Davis of Engadine arrived in Manistique yesterday for attendance at the Davis-Webster nuptials.

The following Manistique people are spending the week-end at Marquette: Thomas, Fred and Kathryn Orr, accompanied by Mrs. Fallon of St. Louis.

Ferris Leonard has returned from a visit with relatives in Marquette.

After an extended vacation, Carl Logren has resumed his duties as shoemaker and repairer at Sib's Shoe Store. During his absence, Mr. Logren's work was taken care of by his brother, John.

R. Bannon has resumed his old position at the Orr Drug store.

Volney Teeple left Wednesday on a vacation trip.

Mr. and Mrs. Harold O'Hara and Mr. and Mrs. M. F. Gillan of Detroit, motored to the city Tuesday and will spend some time camping at Harrison beach with Mr. and Mrs. Martin O'Hara.

J. S. Melstrand, who recently left this city, phoned friends here that he is at present employed with the Wolverine Motor Co. at Escanaba.

Mr. and Mrs. Calvin Stevens, who have been visiting in Canada for several weeks are expected to return to the city today.

Mr. and Mrs. F. W. McNamara and family returned Monday evening from an extended auto trip through the east, touching points in Canada and the New England states covering in the entire trip, 35,000 miles.

Miss Hildur Pierson and Harold Dickinson, who have been visiting relatives and friends here for several days left Wednesday for Alpena, Mich.

Mr. and Mrs. H. B. Moulton and family expect to leave today for Menominee where they will visit for a few days, after which they will go to Neenah-Menasha to attend the annual reunion of Mr. Moulton's relatives.

Mrs. Jack Gronik and daughter returned to their home at Milwaukee Wednesday evening, after a visit with Mrs. Gronik's sister, Mrs. Sam Hankin.

Wheat is cheaper than corn. And flour is higher than meal.

EVE CURIE TO TOUR U. S.

Prospects of an old-time barbecue and homecoming are expected to attract hundreds of Manistique and Schoolcraft county folks to Curtis today, and with good weather, the attendance at the picnic today will undoubtedly break all records for an affair of this kind.

Unusual musical and speaking attractions have been secured for the entertainment of the visitors, and in addition the gathering will be unequalled as a get-together picnic for old residents of this community.

Brush Fire Reported Yesterday Near Lake

Fire Warden P. H. Miles reported a minor brush fire to be raging near the river bridge at Indian Lake yesterday.

The fire was noticed by the warden before it had assumed serious proportions, and indications were that it would be under control before great timber damage had been done. It was thought to have been caused by a match or cigar carelessly thrown by berry pickers.

Returns, Health Much Improved

Mrs. P. J. Lindblad returned Wednesday morning from Chicago where she has been recovering from an operation. Mrs. Lindblad also spent some time at the Wauchesa health resort. Her condition is greatly improved and a complete return to good health is a matter of only a short time.

Isaac Jackson is seriously ill at his home, Buckeye addition.

CITY BRIEFS

Mrs. Albert Bouchard, sons, Clarence, John T. and Robert, returned to their home in Newberry Tuesday, after a visit at the home of Mrs. Bouchard's mother, Mrs. Helen Fieberitz, Miss Kathryn Fieberitz of Menasha, Wisconsin, who is home on a vacation, accompanied Mrs. Bouchard for a week's stay at Newberry.

Francis Gorscha left Tuesday for Detroit, where he is arranging to drive home some "Big Six" Studebaker for the Landstrom Garage.

Planning a trip through Canada, Robert Atwood of this city left Wednesday for Detroit, and will drive back to Manistique in the new Studebaker car which he will use to make his Canadian tour.

Girls of the Egyptian Camp Fire in Manistique expect to open up their camp at Indian Lake this week.

A postcard received here from Chas. Underwood, Manistique Fire Chief, tells that he is visiting at Tomah, Wis., on an auto trip vacation through Lower Wisconsin. He characterizes the weather there as "too hot."

Six Manistique people left yesterday on an auto trip to Chicago. Those in the party were: Ed LaFave, Miss Evelyn Barrow, Mrs. O. Barrow, Mr. and Mrs. Ed LaBelle and Mrs. Delor LaFolle.

85 PERCENT OF CITY TAX BUDGET PAID

Final Day for Payment of City Assessments Shows Estimated \$27,258.

Gladstone city clerk's office closed last night with approximately \$27,258 of the city tax assessments paid, or eighty-five per cent of the budget \$32,145, the approved budget for the year.

The office was crowded throughout yesterday with property owners hurrying to pay their assessments before the expiration of the period free from delinquent four per cent collection fee and members of the working force were kept busy up to the closing hour.

Last night brought the end of the period extending from July 15 to August 15, during which city taxes might be paid without any fee. Taxes paid from today on will have added to them a four per cent delinquent charge.

The opening day of the period and the final days brought in the largest amount of taxes, estimates of Tuesday and Wednesday's collections coming close to \$10,000.

Eighty-five per cent paid by last night included practically all large property owners, managers of industries in particular and the majority of the small property owners. The remaining fifteen per cent, which will be paid with a collection fee added, takes in the assessments of small property owners in nearly every instance, owners who are not able to pay the assessment at this time or who have neglected the matter through indifference.

For Year.
The estimated \$27,258 received thus far, covers the bigger share of the budget of \$32,145 needed to run the city departments for the fiscal year ending April 4, 1924.

Owing to the fact that the budget was not adopted until some time later than the beginning of the year, this year's fund will be needed for only six months and this leaves a fair surplus in the treasury.

Ten thousand dollars of the fund has been placed by the city administration as certificates of deposit in the local banks where it is drawing interest at the rate of three percent. Under this plan the budget money will be earning during the time it is not in use. This sum will be increased later on, and as much of the budget as is not in immediate use for city expenses will be deposited in this manner.

Normal Rate.
The Gladstone city tax collections were about normal, it was said yesterday, the usual rate for the payment period running in the average city from 80 to 85 per cent.

With the city assessment out of the way no taxes will be levied now until December when the state county and school funds will be raised.

THE FIRST HUNDRED ARE THE BEST

Mrs. William Rogers, of Savannah, Ga., has just turned 100 years. "The first hundred years aren't the hardest, they're the best," says the optimistic centenarian as she beams among the birthday flowers sent by many friends.

PERSONALS

Mrs. James Stock and daughter, Helen, have arrived from Chicago to visit at the Louis Stock home, Kipling.

Misses Florence Mayville, Myrtle Putvin and Marie Gardner of Manistique have returned to their homes after visiting at the home of Mr. and Mrs. J. D. Burroughs.

Mr. and Mrs. William Bouchard and children have returned from a visit with relatives and friends at Neadeau.

Joseph Brunell of the Buckeye store left Wednesday for Chicago where he will spend a two weeks' vacation.

Mrs. Roy Rabe and son, Thomas, and Mr. and Mrs. Jack Norton and children returned Wednesday from Sault Ste. Marie, Mich., where they were called by the death of Mrs. Rabe's and Mr. Norton's sister.

Mrs. John Marshall and Mrs. Sam Tang and children left yesterday for Hewitt, Minn., where they will visit relatives for some time.

Mrs. Jerry LeClair of this city, Mr. and Mrs. R. J. Bellows of Manistique and Mr. and Mrs. Earl Bellows of Albion, left yesterday on a motor trip to Engadine and other points. They will be gone for a week.

Mrs. Charles Hutchinson of Minneapolis is visiting at the home of her mother, Mrs. William Galbraith.

Mrs. F. J. Rummel returned Wednesday morning to Baraboo, Wis., after visiting her parents, Mr. and Mrs. C. W. Slade.

Mrs. Carl Freeburg arrived Wednesday morning from Evanston, Ill., to visit here at the home of her parents, Mr. and Mrs. P. J. Lindblad.

Mrs. Walfrid Linne arrived Wednesday from Chicago to spend a few weeks with her parents, Mr. and Mrs. P. J. Lindblad.

Attorney Glenn W. Jackson has returned from a business trip to Grand Rapids.

Fred Scheetz left last night for Plentywood, Mont., where he will spend two weeks on business.

Mrs. L. Olive has arrived from Milwaukee to visit her mother, Mrs. John Sanford, 705 Minnesota avenue.

Mrs. Sarah Parent left yesterday for a visit with her daughter Mrs. Belanger at Iron Mountain.

Miss Lillian Mortha of Marquette is the guest of Miss Della Jacobs.

Visiting Here On Honeymoon

Mr. and Mrs. Fred McDill have arrived here from Minneapolis to spend part of their honeymoon at the home of Mr. and Mrs. Leo C. Wintell. Both Mr. and Mrs. McDill having taught school here while Mr. McDill was an engineer with the Soo line railroad.

Two Buildings Are Given Coat of Paint

Two buildings in the nine hundred block on Delta avenue, one occupied by the Union Billiard hall and the other, a corner building, by the E. A. Erickson store, have been given a new coat of paint, followed extensive repair work. Both buildings have been painted a cream color with contrasting trimmings of black.

Mrs. Schustarich Entertains Friends

Mrs. John Schustarich entertained Monday evening at her home, 1308 Michigan avenue, for Mrs. F. J. Rummel of Baraboo, Wis., who has been the guest of her parents, Mr. and Mrs. C. W. Slade. The guests enjoyed five hundred during the evening, first honors being won by Mrs. Slade while Mrs. Louis Weingartner took consolation prize and Mrs. Rummel guest prize. Delicious refreshments were served by the hostess at the close of the party.

NEW SEWER PETITION IS SUBMITTED

Michigan Avenue Property Owners Want System Constructed.

Petition for the construction of a sewer system on Michigan Ave., between Twelfth and Fourteenth streets was presented to the Gladstone commissioners at the regular meeting of the commission held Tuesday evening at the city hall.

The petition was signed by all but five of the owners of improved property located facing that part of the avenue and the matter was given the immediate attention of the commission, in accordance with its policy of obtaining quick action on matters of public necessity.

The petition was approved and August 27, the date of the next meeting, set as a time at which estimates on the cost of construction will be heard. The estimates will be made under the direction of City Manager, C. W. Ham.

Sewer systems from Eleventh street west have been a rarity in Gladstone and the manner in which that part of the town is being rapidly built up makes their construction a matter of public concern. Although in the past it has been found more difficult to get at the actual construction of the systems, as the case of the Minnesota sewer asking for the past ten years shows, the commission is making an earnest effort to start immediate work on matters of this kind where quick action is needed.

Want Bids.
The commissioners, following their approval of the special assessments rolls for the Minnesota avenue sewer, also announced that they were ready to advertise for bids on the construction of this sewer. The Minnesota avenue sewer will extend from Eleventh to Fifteenth streets.

Shipments of Cars
Received Here

Another shipment of Fords to take care of the demand which has been making the local agency one of the busiest places in Gladstone was received Wednesday by H. J. Norton. The shipment included touring cars, coupes and a truck.

Seymour Arrives For Motor Bike Speed Meet

ESCANABA BOY IS CONFIDENT

Other Stars of Racing Game Expected to Arrive Today.

"If the old track is as good as it looks, all Escanaba records will be broken Sunday afternoon," John Seymour, brightest star in the 1923 motorcycle racing firmament, said yesterday after he had inspected the fair grounds speedway.

Seymour arrived in Escanaba early in the day, and at once began preparations for showing the throng of his old home town admirers who will see him ride in Sunday's program, a glimpse of the speed which has enabled him to shatter a long list of world, national and track records during the present season in all parts of the country.

Remarkable Field.

Seymour will be pitted, next Sunday, against the greatest riders of the motorbike world can assemble. Gene Walker, who for several seasons has held national championship honors; Ralph Hepburn, and Jim Davis, track scorers whose ability and daring is well remembered by followers of the sport here, Paul Anderson and Eddie Brink, are all capable of giving the Escanaba boy some of the keenest competition imaginable. Hepburn and Davis are Harley Davidson riders, Anderson rides an Excelsior machine, Seymour, Walker and Brink are Indian performers.

Promoter Villeneuve will begin today, the work of placing the last coating of calcium chloride on the track, which, since the last motorbike meet, has been resurfaced with clay.

Track in Good Shape.

The speedway should be in the best shape for racing ever seen it with the greatest field of riders in the history of the sport here, there is no doubt that the contest will be the fastest in local history.

Seymour probably will begin the work of tuning up his bike and renewing his acquaintance with the track where he got his start as a speed rider, tomorrow. He is in excellent physical condition and looks fit for the hardest sort of an afternoon's riding.

Detroit Wins From Athletics, 7 to 5

Detroit, Aug. 15.—Although out 10 to 6 the Tigers made their blows count today and defeated Philadelphia, 7 to 5.

Score: R. H. E. Philadelphia—003 020 000—5 10 1
Detroit—300 130 000—7 6 0
Batteries: Haast, Rommel and Brusky; Perkins; Holloway, Johnson, Cole and Basler.

Babe Ruth Smashes Out 30th Home Run

St. Louis, Aug. 15.—Running up a lead in the third that New York was unable to overcome, St. Louis won today's game, 5 to 3. All the visitors' failures were scored on homers. Ruth got his 30th of the season in the eighth.

Score: R. H. E. New York 000 000 021—3 6 0
St. Louis—004 010 000—5 12 1
Batteries: Hoyt and Schang; Shocker and Severoid.

TOTALLY DIFFERENT.

For years Sam Samson had been a regular and loyal member of his colored lodge. Then he fell from grace and was haled into court.

"What's your name?" asked the magistrate.

"Mah name Samson."

"Him! Are you the Samson spoken of in the Bible who pushed the temple down?"

"Nossah, Boss," answered the prisoner gloomily. "Ah's de Samson what heid de Temple up."

Baseball's Biggest Bones

Can you imagine a player sitting on the bench through a seven-run rally and forgetting to take his place at bat?

That is what actually happened in a game between New York and St. Louis in the American League. The game was played at St. Louis.

The player who forgot to take his turn at bat was Claude Derrick, playing shortstop for the Yankees in that game.

Frank Chance was then managing the New York club. Chance came close to being the victim of Derrick's forgetfulness, or lack of interest, as you will have it.

It so happened that Chance became a hero for a day because of Derrick's "bone."

He had just as good, if not a better chance, of landing in the dub class.

It might also be of interest to know that Derrick never played another game for Chance, or in the American League after that day. It marked his passing from the majors.

NORTHWESTERNS PLAY PIRATES HERE TODAY

Ranquette, Johnson, Are Opposing Pitchers

The Northwesterns, the ball club selected from the six teams in the Chicago & Northwestern Twilight League, and the Lake Shore Pirates, will meet this afternoon at South Park in what followers of the amateur organizations here believe will be a great battle.

Billy Ranquette, a young slabster who has been under Freddie Olmstead's wing for the last two months, will pitch for the Pirates and his backers predict that he will show the railroaders a world of stuff. Wurfley will be on the other end of the Lake Shore battery.

Manager Charles O. Fello of the Northwesterns probably will send Johnson, of the Storekeepers' team, or Lemire, to the hill for the rally, with the confidence that either will prove as big a mystery to the Pirates as he has to the teams in the railway league. Berens or Frost will catch.

Considerable interest has been manifested in the encounter and the crowd, it is expected, will be an enthusiastic one.

Braves Victors Over Chicago Cubs, 3-2

Boston, Aug. 15.—With two but in the ninth, Southworth tripled and McInnis singled to give Boston the winning run and a 3 to 2 victory over Chicago today.

Score: R. H. E. Chicago—000 000 200—2 7 3
Boston—000 000 111—3 11 1
Batteries: Alexander and O'Farrell; Marquard, Fillingim and O'Neil, Gibson.

Homer in Ninth Puts Pirates Out Ahead

Philadelphia, Aug. 15.—Traynor's home run into the left field bleachers in the eighth inning today decided a pitchers' battle between Cooper and Meehan and gave Pittsburgh a 4 to 3 victory over Philadelphia.

Score: R. H. E. Pittsburgh 000 003 010—4 10 0
Philadel.—200 001 000—3 10 1
Batteries: Cooper and Schmidt; Meehan and Henline.

M'GRAW COMBS MINOR LEAGUES FOR SLABSTERS

Want to Strengthen Staff Before World Series

By BILLY EVANS

New York.—Weakness in the pitching department has been the greatest handicap of the New York Giants this season.

That alone has kept McGraw's great club from being well out in front in the National League race. In spots the pitching has been good but it has lacked consistency.

Quick to realize this fault, Manager McGraw attempted to put over several deals with other National League clubs, before the date set as a time limit on all such transactions. Pitcher Watson of Boston was the only big league twirler he was able to secure.

McGraw is strong for left handers. He has always held to the belief that every successful club must have at least one star left hander. Two star left handers is just twice as good, according to the theories of McGraw.

For a number of years Art Nehf has played the role of star southpaw of the Giants. Nehf is now a veteran in a baseball sense, nearing the end of his career as a big leaguer.

Strong for Southpaws.

McGraw, realizing he needed pitching strength—left handers in particular—set out to get it. With the major leagues closed to his bank roll, he shifted his attention to the minors.

Recently from the Milwaukee club of the American Association he purchased a southpaw, Dennis "Kewpie" Gearin. Likewise he is said to have closed a deal with Baltimore of the International League for Robert "Lefty" Groves the strike-out king of that organization. Gearin has already reported to McGraw. Groves isn't due until the close of the year, but may be handed over if McGraw is hard pressed.

Gearin is one of the smallest pitchers ever to make the big show. He stands only 5 feet 4 inches. That makes him even smaller than wee Dick Kerr.

Scouts Like "Kewpie."

When not on the mound, the "Kewpie" is available for outfield duty. He is a good fly chaser and a good hitter. His batting average in 60 games last year was .350.

The Brewers picked Gearin up from the Oakland (Cal.) team in the Pacific Coast League. They paid \$750. McGraw is said to have given Milwaukee \$15,000 for him.

Manager "Kid" Gleason of the Chicago White Sox recently tried to put over a deal for "Kewpie," but couldn't see the price Milwaukee had set.

"Gearin doesn't impress because of his size," says Gleason, "but he's a most promising recruit." "He has speed, considering his lack of stature, and a great curve ball. He is a fine fielder. You really have five infielders when he is pitching."

"For a time McGraw may be forced to pick the spots for Gearin. And if he does, "Kewpie" is almost certain to be of valuable assistance to the Giants in the closing stages of this year's pennant race."

FIVE AMERICAN PLAYERS LEFT IN NET PLY

Forest Hills, N. Y., Aug. 15.—(By the Associated Press)—Five Americans and three British for the National Women's singles championship today when the third round play was completed on the turf courts of the West Side tennis club. Competition for the doubles title was narrowed down to one British and seven American players at the end of the second round.

Misfortune wrecked the ranks of the British players when the illness of Mrs. Geraldine Beamish obliged her to default to Miss Helen Hooker of Greenwich, Conn., in the singles and also contributed later to her defeat in the doubles, paired with Mrs. R. C. Clayton, by two youthful Americans, Miss Teresa Baker of Orange, N. J., and Miss Lillian Scharman of New York, 2-6, 6-4, 6-2.

The seven other "coddled" players all came through in the singles with the exception of Miss Leslie Bandroft, of Boston, No. 2 in the national ranking, who was forced to three hard fought sets to eliminate Mrs. El. E. Stenz of New York, 9-11, 6-2, 6-3.

NEWPORT NET MEET ENTERS FIFTH ROUND

Newport, R. I., Aug. 15.—Harvey Snodgrass, of Los Angeles, provided the only upset of the day in the invitation lawn tennis singles here today by eliminating Hugh Kelleher, of New York, runner-up last year, in a fourth round match. Snodgrass won, 6-2, 6-3.

Robert Kinsey qualified to meet him in the round before the semifinal by keeping Wallace Bates, another westerner, 6-2, 6-1.

The remaining five players who qualified for the fifth round play were Howard Kinsey and G. J. Griffin of the Pacific coast continent, Bryant Izant of South Africa, R. Norris Williams of Philadelphia and Vincent Richards of Yonkers.

White Sox Acquire Mint League Heaver

Muskegon, Aug. 15.—Pitcher Claude Gillenwater, leading hurler of the local Michigan Ontario league team, has been purchased by the Chicago Americans and will report to the White Sox tomorrow. It was announced here today. The price is said to have been \$5,000. Gillenwater has won ten games and lost one this season.

Canadian Feather Defeats Joie Fox

Montreal, Aug. 15.—Kid Roy of Quebec, featherweight, was awarded a decision over Joie Fox, featherweight champion of England in ten rounds here tonight. Roy wins British title. The bout was even until the tenth when Roy almost knocked Fox out.

NEW YORK'S FEET.

New York—New Yorkers stand a chance of having the poorest shaped and smallest feet in the country on account of their dislike for walking and their constant use of automobiles, subways, street cars and other conveyances for distances as short as four blocks, according to a report made by a committee at the annual convention of the National Association of Chiropodists.

According to the report the sizes of footgear worn in various cities are as follows:

New York, average 4 1/2 for women and 6 for men; Chicago, women 4 1/2, men 7; St. Paul, women 4, men 8; Detroit, women 4 1/2 to 5, men 7 1/2 to 8; Milwaukee, women 5 1/2, men 8 1/2; Los Angeles, women 5, men 8; Washington, women 5, men 8; Philadelphia, women 5 1/2 to 6, men 8 to 9, and St. Louis, women 4 1/2 to 5 1/2, men 8 to 9.

Dr. Catherine Tepler, Wichita, Kas., who is president of the Kansas Chiropodist society, says poorly married women and those about to become mothers should not be permitted to wear high heels and pointed toed shoes.

WOLVERINE HAS CHANGE, LINKS

Michigan Hopes to Capture National Amateur Title.

Ann Arbor, Mich.—No golfer from the state of Michigan has ever won the national amateur title. Or even come close to it for that matter.

But followers of the royal and ancient pastime in the Wolverine commonwealth believe they are beginning to see daylight ahead.

Fact is, some are going so far as to say that precedent may be upset at the national amateur at Flossmoor next month, meaning a chap from their native state may bring home the bacon.

The player being banked upon to carry the Michigan colors is Carlton F. Wells of the Barton Hills Country Club here. He also is an instructor in the University of Michigan.

In Wells, Wolverine folks see one of the future greats of the golfing world. True, he is certain to go against the cream of the golfing fraternity—players who are far more experienced than he.

But that matters not to Wells, for though he has been playing tournament golf only three seasons, he has shown some exceptional ability on the links. So much so, in fact, that the wise ones say he's bound to "show" sooner or later.

Be it known that Wells is the present state amateur champion. He won the title recently over the links of the Kent Country Club, Grand Rapids, after one of the most sensational comebacks ever staged on any course.

Five down on the 20th hole, and still four behind on the 30th, Wells, by taking the 31st, 33rd, 35th and 36th, and halving the

32nd and 34th, squared the match. The next three holes were divided but on the 40th, Wells' dogged determination asserted itself, and he was returned the winner.

Wells also capped the title in 1922, winning at Flint in much the same manner. He is one of the greatest finishers ever seen in this section of the country, putting up his best game when the going is the roughest and the outlook the gloomiest. Moreover, he is as they make 'em. Which no doubt accounts for his sensational work in the pinches.

Wells made his bow in the national amateur last season, surviving the qualifying round with a card of 162. He was 18 strokes behind Gullford, the low medalist. He went down in the first round, however, losing to William McPhail of Norfolk-Boston, who was eliminated in the round before the semi-finals, by "Bobby" Jones.

This season Wells hopes to do better. That is, his friends expect him to, for Wells is of the quiet, modest type and seldom ever commits himself one way or the other.

Carlton Wells may not set the Flossmoor links ablaze next month, but those who have seen him in action predict a big future for him as a golfer. Maybe not this season, nor the next, but some time.

CINCINNATI TAKES BOTH FROM GIANTS

New York, Aug. 15.—Cincinnati winning a double header, 8 to 6 and 10 to 6. Luque, restored to good standing yesterday, won the fourth game of the year in New York. Besides he hit a home run with Pinnell on base.

First Game: R. H. E. Cincinnati 100 220 000—8 11 2
New York 000 100 020—6 11 0
Batteries: Luque and Wiggo; McQuillan, Jonnard, Barnes and Snyder.

Second Game: R. H. E. Cincinnati 100 002 061—10 13 0
New York 200 000 120—6 13 2
Batteries: Rixey and Hargrave; Ryan, Jonnard, Barnes, Scott, Nehf and Gowdy.

Brooklyn Defeats Cardinals, 7 to 1

Brooklyn, Aug. 15.—Brooklyn beat St. Louis, 7 to 1, in the first game of their series here today. Ruether pitched shutout ball, and an error by Berg, who had 11 chances at shortstop, giving the Cardinals their only tally.

Score: R. H. E. Brooklyn 100 010 000—7 11 2
St. Louis—000 010 000—1 6 0
Batteries: Ruether and DeBerry; Ainsmith; Ruether and DeBerry.

Boston Wins from Cleveland, 8 to 6

Cleveland, Aug. 15.—Effectiveness by relief Ferguson and Ehlers in the seventh and eighth innings enabled Boston to defeat Cleveland, 8 to 6.

Score: R. H. E. Boston—022 300 100—8 13 0
Cleveland—100 101 210—6 16 2
Batteries: Fullerton, Ferguson, Ehlers and Devoorn; Morrison, Bedgood and O'Neil, Myatt.

Senators and Sox Split Twin Bill

Chicago, Aug. 15.—Washington and Chicago divided a double header today, the visitors winning the first game 5 to 1 and the Sox the second 4 to 3. The first game was a pitching duel between Robertson and Mcgride, the former weakening in the 12th inning when Washington pounded in four runs.

First Game: R. H. E. Washington—000 000 100 004—5 10 0
Chicago—000 000 001 000—1 5 1
Batteries: Morrison and Garity; Robertson, Thurston and Schalk.

Second Game: R. H. E. Washington 000 000 003—3 7 1
Chicago—100 010 020—4 10 1
Batteries: Zahniser, Marberry and Ruel; Fisher and Graham.

NOTICE BY CITY CLERK.

Pursuant to a resolution of the Council of the City of Escanaba at a session held August 14th, 1923, notice is hereby given that the City of Escanaba proposes to make the following improvement:

To grade and pave South Seventh street from the South line of Ludington street to the north line of First avenue south.

That plats, diagrams, specifications and estimates of cost have been filed by the City Manager in my office and are open to public examination.

That the Council have designated as the district to be assessed for said improvement all lands, lots and parcels of land fronting and abutting upon said improvement.

The Council will meet at its regular session on the 22nd day of August, 1923, at 7:30 P. M., when it will hear objections to the improvement as aforesaid, and to the district to be assessed.

Dated this 15th day of August, 1923.
CARL E. ANDERSON,
City Clerk.

SINGER TO BE FEATURED ON DELFT PROGRAM

Howard Johnson to Appear First Time Today; New Picture Star.

Howard F. Johnson, a Marquette boy, who is making an enviable reputation in the eastern music world, will appear at the Delft theatre today, tomorrow and Saturday. Mr. Johnson, who is a pupil of one of New York's most famous vocal teachers, has been spending a few weeks in the upper peninsula and was persuaded by the management of Delft Theatre, Inc., to tour the houses in the Delft "family."

When a new and handsome screen hero is announced it is the signal for movie fans to come early, sit late and take in all of the good points of the actor in question. Alfred Lunt is the name of the star of the legitimate stage who will make his first appearance before patrons of the Delft in "Backbone," the picture offering on the bill with Mr. Johnson. Lunt is reputed to be the handsomest actor on the stage today. He is twenty-eight year old, six feet, two inches tall, broad-shouldered and dark. When he played the title role in "Clarence" on Broadway three years ago he became famous overnight.

In addition to Lunt, Edith Roberts is in the cast of "Backbone" along with William B. Mack, Frank Evans, Marion Abbott, George MacQuarrie, James D. Doyle and Charles Pang—truly a distinctive group. Miss Roberts is more beautiful than ever in this picture. "Backbone" is by Clarence Budington Kelland, who wrote it for the Saturday Evening Post. Edward Slloman directed it. The story deals with the fulfillment in the Twentieth Century of a romance which was shattered generations before. There are almost as many complications in the lives of the modern lovers as there were in the lives of the two in ancient times, but they succeeded despite all obstacles.

WHEN THE BRAKES REFUSED TO WORK

Several tramps are believed to have been killed in this wreck in the mountains near San Bernardino, Calif. But their bodies have not been recovered. Blood stains were found in the debris. The brakes failed to function as the freight train began to negotiate this steep grade.

times than any other actor, is again seen playing opposite the star, while that splendid screen villain, Charles Gerrard, has a role that fits him perfectly. Charles Clary has the part of a publisher, a character that he is said to portray with more than ordinary skill. Mona Kingsley, a recent recruit from the speaking stage and an actress of undeniable physical charm and histrionic accomplishments, proves she is destined to reach enviable heights in motion pictures. Ethel Kay, an unusually pretty young actress who has many important screen successes to her credit, is also an important member of the cast. Chet Withey directed "Heroes and Husbands" in his expert and brilliant manner and had, at the camera an able lieutenant in Joseph Brotherton.

Worcester, Mass.—Some of the funniest toys on the market today, and those that afford the greatest amusement to grownups as well as children, are made by a woman who has never seen one of her creations.

BLIND WOMAN KNITS DOGS FOR CHILDREN

Woolly Pups Amuse Many Little Ones.

BY MARIAN HALE, NEA Service Writer.

Etta Knowlton of this city is responsible for an aggregation of woolly dogs that have an irresistible appeal. Some have a warlike tilt to their heads, some look fierce and aggressive and others are cuddly ones that just beg to be taken home. No two ever quite alike because her sensitive fingers see no rudeness from her eyes.

Blind since she was 9, Miss Knowlton had a limited field from which to select her career. She became an expert knitter and rugs, sweaters, wash-cloths and other knitted articles grew under her fingers.

Then one time as she lay in a hospital recovering from an illness, a friend brought her a skein of silver-wool yarn that she might knit during her convalescence.

Instead of some useful article, Miss Knowlton evolved her first woolly dog, as much like the ones she could remember as possible. The fact that the features were slightly different only added to the charm.

It amused the nurse and the callers so much she made more for the sick children in the institution and then some interested friend sent a sample of her work to New York, to the Lighthouse Handkerchief Shop, where the work of the blind is exhibited.

Today she has more orders for dogs than she can fill, though she turns them out with amazing rapidity.

Out of Love. "You're so much happier if you are busy a day long," she says. "I love children, and it was always my dream to do something for them. Of course I wanted to teach them, or be a nurse that specialized on children's cases, but since I can't do that, I find the greatest satisfaction in being able to amuse them by supplying toys."

"I never make a dog but I try to visualize the boy or girl who will get it, and I always offer up a little prayer that they may have the gift of sight."

Miss Knowlton is now self-supporting and is teaching other blind girls her craft.

VIENNA'S HARVEST. Vienna—Coal prices have dropped 25 per cent, bread is selling at a 9 per cent reduction, and the prices of sugar, milk and vegetables also have begun to fall, ushering in what promises to be a period of greater comforts for Austrians. The abundant harvest and large offerings of cereals from neighboring states forebode a decrease in imports and a further drop in prices, and every where it is felt the country's prospects are brighter than at any time since the armistice.

NOT HIS FAULT. Mist Johnson was before the court for the third time charged with crap shooting.

"Sam," said the judge kindly, but with a touch of exasperation. "I don't know what you'll ever amount to. Don't you know that every man holds his destiny right in his own hand?"

"Ah knows it, judge," replied Sam mournfully, absent-mindedly fingering the speckled cubes, "but Ah's jes' had rotten luck."

WOMAN'S WAY. Mrs. Noolighwed: "You say Mrs. Wisser knows where her husband is at all times. How does she do it?"

Mrs. X. Prudence: "She had him sent to jail for bigamy."

"America" is omitted from Chicago school song books. Let "Yes, We Have No Bananas" take its place.

RECREATIONAL SPOTS NEEDED IN THE SOUTH

Dixie Must Learn to Take Care of Negro's Social Needs.

New York—The number of Negroes migrating from the south to northern states intensifies the need for recreational and social organization among Negroes in the north, according to the Playground and Recreation Association of America, which devotes much attention to Negro communities.

Even prior to the recent exodus northward, the association contends, there was urgent need for wholesome recreation among Negroes in every city and town where they resided in large numbers. It is said that for many reasons, recreational activities are scarce, and Negro groups are now to a degree handicapped and restless because, as yet, no agency has approached them in an effort to initiate and promote social and cultural entertainment.

Finances One Problem. "The big city with 25,000 to 100,000 Negro population has not been adequately reached because of the difficulty of securing enough money to introduce community recreation," says a statement issued by the Playground and Recreation Association of America. It continues:

Playgrounds and recreation parks are entirely lacking in many neighborhoods in the north where colored people reside, and in many sections of the south play facilities have not been widely developed for any group. The community service department of the Playground and Recreation Association of America has given its aid by sending organizers and coaches to train leaders in 47 colored communities since the World War. No funds are given, the aid of the association being limited to lending workers for brief periods.

In Dayton, O., where the Negro population is 9,000, the work has been going on for four years and has become a vital part of community life. Its activities are separated into four divisions—musical, dramatic, athletic and recreational.

Dramatics Promoted. Community recreation for colored people in the south has emanated largely from the centers operated by War Camp Community Service during the World War.

Greenville, S. C., is typical. As an outgrowth of promotion work there a community house has been purchased, and as part of the activities six clubs have been organized for women and girls. A dramatic club has also developed, and last fall a pageant called "Ethiopia" was given by a cast of 250. The women's clubs are studying music and literature. They do considerable personal service work and assist in many cases of charity.

Colored people have established the only folk music that American life has produced. Colored choruses organized under the direction of Community Service in many towns are accomplishing several things. They are keeping people alive to the beauty of these songs. They are keeping before the colored people their own contribution as a race to the culture of the world. They are giving large quantities of pure joy both to singers and listeners. A Sunday afternoon concert in a Fort Wayne (Ind.) park was attended by people of both races from all over the city.

In Cincinnati, O., over 10,000 colored people took part last year in community sings, while some 5,000 participated in special musical events.

GARFIELD'S FUNERAL BILL. Washington—President Harding's funeral has revealed that the government is still obligated for the funeral expenses of President Garfield. The undertaker's bill for the ceremonies in Washington, following Mr. Garfield's death at Elberon, N. J., has never been paid.

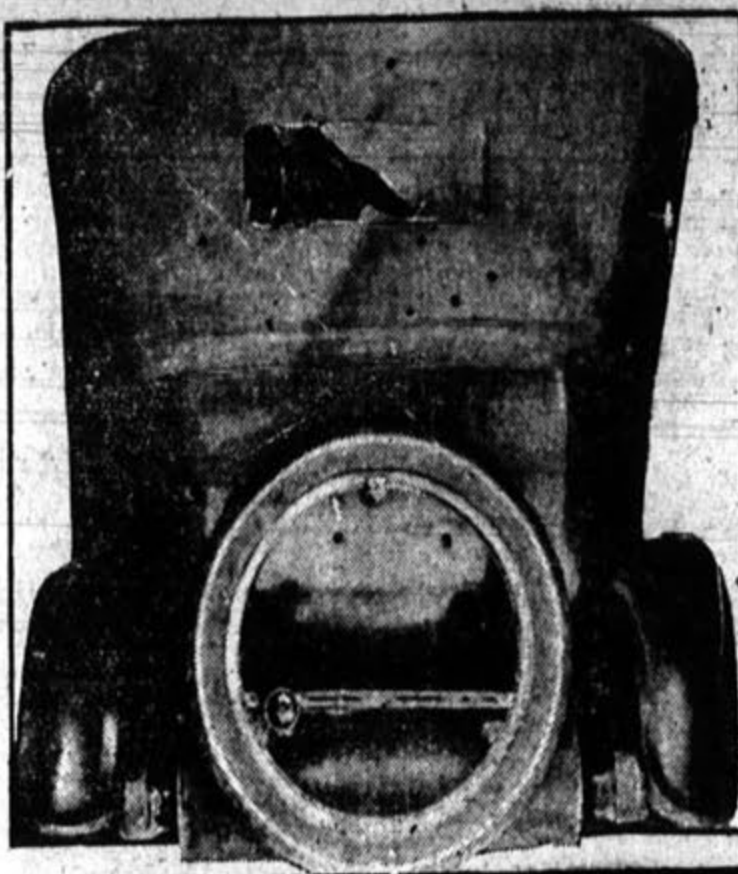

The bill was presented to the government for payment in 1881, and naturally has been outlawed by the statute of limitations long since. Information regarding it was given by Clyde J. Nichols.

"When President Garfield died," Mr. Nichols said, "the undertakers, physicians and all who had any connection with his illness or burial were asked to present their bills to the government. A large number of bills thus submitted were considered exorbitant by the government, and congress appointed a committee to settle the claims. All were instructed to present bills to this committee, together with a waiver, stating that they would accept whatever amount the committee saw fit to give them."

"Everyone presented bills with the waiver with the exception of one firm, which refused to sign a waiver. The bill for \$5,000 was never paid."

WHEAT CHIEF. Here is the man wheat growers of Nebraska, Missouri, Kansas, Oklahoma and Texas look to for guidance in their present low-price plight. He's E. E. Frisell, Larned, Kas., president of the new wheat growers' organization.

PASSING OF VILLA

Here are the last chapters in the stormy career of Pancho Villa. At the top is the bullet-riddled automobile he and his aides were riding in when the assassins attacked. Sixty-three shots hit the machine, 13 entering the rebel chieftain's body. At the bottom is the rude grave in the little cemetery at Parral where Pancho sleeps today.

A THOUGHT

As the heaven is high above the earth, so great is his mercy toward them that fear him.—Ps. 108:11.

The great fever by which to raise and save the world is the unbounded love and mercy of God.—Beecher.

TODAY'S EVENTS.

Bennington Day, the anniversary of the Revolutionary battle of Bennington, will be observed as a legal holiday throughout the State of Vermont today.

Former Senator Chauncey M. Depew of New York, who is summing in the Berkshires, will observe his annual custom of delivering an address in Lenox today, when he will speak on the times.

The completion of ten years of county agent work in behalf of better farming in New Hampshire will be commemorated today with special exercises at the University of New Hampshire.

LITTLE JESTERS.

Blunt was a salesman, a super-salesman according to himself, who could sell to anybody, anywhere, anytime. When he was assigned to new territory his first customer happened to be a rough bird, also a busy and irritable one, who resented the salesman's entrance by grabbing him by the collar, kicking him downstairs and throwing his sample case after him.

Blunt picked himself up and returned to his prospect's office. "Now, joking aside," he said, "don't you think this is the finest line of goods you ever saw?"

Miss Adele M. Emin, of Providence, has the distinction of being the first woman in Rhode Island to qualify as a certified public accountant.
