VERSAILLES TREATY STAKE IN LEAGUE ROW

FAR REACHING EFFECT IS SEEN IN ITALY'S ACTION.

BY DAVID LAWRENCE. (Copyright, 1923, by The Escanaba Press) Washington, Sept. 7.—Will the treaty of Versailles become a "scrap of paper?"

Part of Treaty.

The United States government recognized that the covenant was part of the treaty of Versailles and took special pains in ratifying a pact with Germany to exclude those portions of the Versailles treaty which embraced the League.

BOARD APPROVES RED CROSS PLAN FOR JAP RELIEF

Assurance that the \$1,500 quota assigned to Delta county by the American Red Cross for Japanese relief would be appropriated or made up in some manner at the October meeting of the county board of supervisors was given at the meeting of the board at their meetings yesterday.

Boy Loses Life in Odd Manner Fighting a Bull

Waukegan, Ill., Sept. 7.—P. S. Edson White, Junior, 15 year old son of F. S. White, president of Armour & Co., accidentally shot and fatally wounded himself when he clubbed his gun to strike a bull which attacked him at the family home tonight.

HARDING AIDES FAVOR COOLIDGE

President Proving Popular with Ohio Republicans.

Washington, D. C., Sept. 7.—The first indication of the probable lineup of the republicans in Ohio in this year's campaign occurred when two of the men who were active in the Harding prevention campaign in Ohio in 1920, issued statements of what may mean that they favor keeping Coolidge in the white house.

Restoration Of Wages of 1921 To Be Asked By Rails

Chicago, Sept. 7.—(By the Associated Press)—Restoration of wages in effect before the cut of July 1, 1921, will be asked by the various brotherhoods of firemen and engineers in this country and Canada, with the fulfillment of the present contract expiring from now until Jan. 1, 1924, it was voted today at a meeting of general chairmen of the international brotherhood of firemen and engineers.

Dempsey-Firpo Ticket Sale Is Record Breaker

New York, Sept. 7.—(By the Associated Press)—The advance ticket sale for the Dempsey-Firpo championship fight at the Polo grounds total \$500,000 so far, Tex Rickard revealed today. The promoter declared that it exceeded the advance sale for any other title match that he has ever promoted.

MINE STRIKE TO BE ENDED IN TEN DAYS

BOTH SIDES AGREED THAT END IS IN SIGHT.

Harrisburg, Pa., Sept. 7.—(By the Associated Press)—An agreement settling all the main issues in the controversy between mine workers and mine operators which has caused a shut down, was reported here today as a result of Governor Pinchot's intervention. There remained, however, a number of minor points to be settled before the agreement could be considered complete and a meeting of miners and operators, called to consider these, adjourned without final action.

Harrisburg, Pa., Sept. 7.—(By the Associated Press)—Complete agreement upon the main points at issue between the anthracite operators and miners, upon the basis of Gov. Pinchot's peace proposal, was reached here tonight.

Joint negotiations to make the agreement effective in a new wage contract and to clear up the outstanding differences of lesser importance, were called for 7:00 o'clock tonight. All participants in the negotiations believe that a settlement will be effected and the anthracite mines now shut down will be opened within ten days.

Gov. Pinchot, in discussing the still unsettled points, declared that "there is no point of dispute remaining between the two sides which is in any way likely to justify the continuation of the strike."

Any final agreement which is reached tonight or later by the union representatives and the operators policy committee, will be subject to approval by a convention of union delegates from the three United Mine Workers districts of the anthracite region.

The assembling of such a convention would require at least a week, but John L. Lewis, president of the miners, and other miners' union officials, were certain that a contract would be negotiated and that the recommendations would be accepted by the tri-district convention.

Gov. Pinchot's announcement that the major mine representatives had agreed to take a ten per cent wage increase and abandon their demand for the check-off came at the end of a brief session in which he met again with members of the operators' policy committee and the union officials.

The operators left the capital without letting the decision be known but Mr. Lewis and the governor remained in the office together.

NATION'S PURSE BEING OPENED IN AID OF JAPAN

Funds for Relief Are Poured Out in Generous Measure.

Washington, D. C., Sept. 7.—America continued today to pour out in generous measure funds for the relief of Japan. Reports received at national headquarters of the American Red Cross late in the day showed subscriptions to the relief fund had reached a total of \$2,247,000 or nearly one-half of the minimum sum of five million dollars.

At the same time John Barton Payne, chairman of the Red Cross, who has returned to Washington to assume direction of the nation's humanitarian efforts, announced that food, medical supplies and clothing to the amount of \$2,422,500 had been purchased and will be despatched without further delay.

Cabinet Discusses Situation. While experts of the department of commerce and the American Relief administration were cooperating with Red Cross officials in carrying out the purchase of national and shipping plans outlined by Secretary Hoover, President Coolidge and his cabinet discussed the relief and the Japanese situation for nearly an hour. Later it was announced that coordination of all relief measures in this country under the direction of the Red Cross would be undertaken.

Actual relief work in Japan will be in the hands of the Japanese Red Cross to which the relief supplies will be delivered. American doctors and relief workers are enroute for Japan and will cooperate with the Japanese Red Cross if needed.

Ball Players Sue Collyers In The U. S. District Court

Chicago, Sept. 7.—Outfielder Pat Duncan and infielder Charley Bohne of the Cincinnati National League club filed suit in the United States district court here today for damages of \$50,000 each against Collyer's Publishing company, owner of "Collyer's Eye," a sport weekly.

They declared that they had been damaged to that extent by a story in the weekly that said they had been approached by gamblers and offered \$15,000 each to throw several games to the New York Nationals.

HARDING WILL PROBATED IN MARION, OHIO

Marion, Ohio, Sept. 7.—(By the Associated Press)—Requests totaling \$225,000 in his will were made to relatives, life long friends, churches and the Marion Park by the late President Harding under the terms of his will, filed in Probate Court here today. The president made a stipulation that no part of his estate shall be expended for any monument other than a simple marker at his grave. The value of the estate can not as yet be estimated.

PASSES AWAY WHILE SEATED IN HIS HOME

LIFE LESS FORM IS FOUND BY MRS. DOTSCHE.

Atty. H. R. Dotsch, president of the Delta County Bar Association and former prosecuting attorney of Delta county, passed away suddenly at his home, in the Jepson building, early last night. Mr. Dotsch arrived at his home from his office early last evening, in excellent spirits and apparently in perfect health. Shortly after dinner Pros. Atty. George Carr called at the home and he and Atty. Dotsch went for a short drive about the city, while Mrs. Dotsch accompanied a party of friends to a picture show.

Pros. Atty. Carr returned Mr. Dotsch to his home shortly after 8 o'clock and left him at the entrance. Mrs. Dotsch returned to the home shortly after 9 o'clock and found her husband lying dead in a chair in the sitting room. He had apparently been reading when suddenly stricken with a heart shock, as he still held a newspaper in his hand. Physicians were summoned as quickly as possible and it was found that death had resulted instantly from angina pectoris several moments before.

ATTY. HENRY R. DOTSCHE

The announcement of the death of Atty. Dotsch will come as a terrible shock to a host of people not only in Escanaba but throughout the peninsula, where he was widely known in legal circles.

Atty. Dotsch was 46 years of age, and in addition to his wife, is survived by his parents, Mr. and Mrs. John Dotsch of Garden, and two brothers. The surviving brothers are John Dotsch, of Milwaukee, and Atty. Raymond Dotsch, of Olympia, Wash., who is to be married in that city today.

Atty. Dotsch was born at Garden and after being reared in that city, worked his way through college and was admitted to the bar of this state for the practice of his profession in 1905. He served as prosecuting attorney of Delta county in 1907, 1908, 1909 and 1910. Throughout his life he was prominent in political affairs of Delta county and of the state, serving as chairman of the Republican county committee as a member of the Republican State Central Committee.

Within the past few weeks he was honored by being named as president of the Delta County Bar Association.

Mr. Dotsch was recognized as an attorney of marked ability and held a high place in his profession not only in this county but throughout the district. He numbered his friends by the score and, to all, the announcement of his death will come as a profound shock.

Farm-Labor Party In Minnesota Said To Be Badly Split

Minneapolis, Sept. 7.—(By the Associated Press)—Division of followers of the Farmer-Labor movement in Minnesota into three well defined and separately functioning factions was evident tonight after conferences preliminary to the "official" Farmer-Labor meeting here tomorrow.

COPPER MERGER GIVEN APPROVAL BY DIRECTORS

Calumet & Hecla Consolidated to Have Capital of \$62,500,000.

Boston, Sept. 7.—Stockholders of the Calumet and Hecla mining company and its subsidiaries today approved the plan for a merger of the various companies announced by the directors last month. The subsidiaries are the Ahmeek, Allouez, Centennial and Osceola.

The companies which have contiguous property in the upper Michigan copper districts will be consolidated into the Calumet and Hecla Consolidated Copper company, with a capital of \$62,500,000.

The directors, in announcing the plan, said that it would effect great economies in operation and also indicated that if the merger was approved, the matter of acquiring facilities for the manufacture of brass and copper products would be taken up. The capital stock will be 2,500,000 shares of \$25 par value, of which 2,005,502 shares will be issued to stockholders of the constituent companies as follows: Ahmeek 536,000; Allouez 80,000; Calumet and Hecla 1,205,308; Osceola 149,994. In addition the present Calumet and Hecla stockholders will be entitled to new shares on account of stock which the company owns in the subsidiaries.

The rate of exchange of the stocks for that of the five companies is for each share of Ahmeek 2.68 shares; Allouez .80; Calumet and Hecla 1.98; Centennial .38; Osceola 1.66.

As part of the plan of consolidation, Ahmeek will pay its stockholders \$5 past dividends from its own assets; Calumet and Hecla will pay \$1.25, and Osceola \$1.00.

Coolidge Thinks Ford Offer Still Is Up To Congress

Washington, D. C., Sept. 7.—President Coolidge was said by white house officials today to regard the Ford Muscle Shoals offer still as a matter for determination by congress and not a subject upon which he on his present information is called upon to submit a recommendation. The president's view was made known during a discussion during the visit to Washington of Henry Ford at the request of the president for the purpose of submitting a proposal that he modify his offer so as to exclude the Gorgas power plant and related properties.

FIFTEEN THOUSAND HERDED INTO INTERNMENT CAMP NEAR CITY OF TOKIO BY SOLDIERS

BULLETIN. Peking, Sept. 7.—Five hundred foreigners lost their lives in Yokohama as a result of last Saturday's earthquake and accompanying fires, according to a Rueter dispatch from Osaka which quoted Roderick Matheson, Tokio correspondent for the Chicago Tribune.

BULLETIN. Shanghai, Sept. 7.—(By the Associated Press)—A news agency reported that not a single house remains standing in Kamakur and that all villas along the coast in that locality were destroyed by the tidal wave which came when hundreds were in swimming. All were reported to be swept out to sea and drowned.

Honolulu, Sept. 7.—(By the Associated Press)—Approximately 15,000 Koreans in Tokio have been rounded up and transferred to an internment camp 15 miles from Tokio under orders issued by the Sukuda emergency committee in the Tokio earthquake area, according to radio advices received by the Hawaii Shinpor, a Japanese newspaper. The order, which is an emergency measure contemplates a general concentration of all Koreans who may be found in the zone of devastation.

The Shimpor correspondent said that the Koreans were taking advantage of the conditions not only to set fires but to loot such establishments that have escaped earthquake and fire.

The activities of the Koreans, the correspondent added, led to the discovery of a gigantic rebellion movement and a plan to assassinate the prince regent on his wedding day. The assassination of members of the imperial family and high officials of the government, the wholesale murder of citizens and a widespread arson and looting were also planned. The bombing of a section of Tokio which escaped wreckage in the earthquake, also was contemplated, the advices stated.

RESTORING COMMUNICATIONS. London, Sept. 7.—(By the Associated Press)—With communications between the devastated district of Tokio and the port of Kobe and Osaka partly restored by airplanes, and road transport along the Takado road and with the pick of Japan's well-trained army divisions which have been converging at their lined camp since Sunday, exerting discipline to restore order among the hundreds of thousands of homeless, news from Japan begins to give a definite idea of the loss of foreign life.

There are approximately 100 dead or reported missing in Japan, part of whom are British but the Japanese government representatives here are still un-informed as to the number of Japs who perished in the earthquake, fire and deluge.

ITALY PLEASED WITH PROPOSAL

Settlement of Controversy May Be Affected Soon.

Paris, Sept. 7.—(By the Associated Press)—The council of ambassadors sent a note to the Greek government today embodying proposals for a settlement of the Greek-Italian controversy. The proposal somewhat modified the demands made on Greece by Premier Mussolini.

While they have not been officially announced, they contain the following conditions: "First—The Greek fleet is to pay honors to the Italian fleet and shall be accompanied by British and French warships.

"Second—A memorial service to be held in the Catholic church attended by all members of the Greek government.

"Third—Military honors to be paid when the bodies of the victims are placed on board ship.

"Fourth—Greece to deposit the sum of 50,000,000 liras as a guaranty to whatever payment they may be called upon to make.

"Fifth—An international committee presided over by a Japanese shall control the Greek investigation.

The text which was sent to the Greek government at Athens, received the unanimous approval of the allied representatives but beyond saying that the council has reached an important, perhaps decisive, decision, no official information was available.

Avezano, the Italian ambassador, made no pretense of hiding his satisfaction as he left the meeting. He told the Italian correspondent that the decision would find favor with the Italian government.

NURSE'S REWARD.

London.—Mary Granger, nurse, who has been held \$5000 a year and use of a large flat, under the will of Lord Latimer, said she became acquainted with him some time before she was asked to nurse him. She never had a single holiday during the last five years of his life, when he was an invalid, she said.

AUTOMATIC AGE.

London.—"Hello girls" are to pass out of existence in London and many other parts of England. Two large automatic telephone exchanges are to be installed in central London as soon as possible, and then this type of service will be placed in operation as quickly as the change can be made.

WHY CATS LEAVE HOME.

Newark, England.—For pinning a cat down with a pitchfork, a man named Green was fined five pounds here recently. "The most abominable case of cruelty I ever have known," the magistrate said.

Red Cross for Japanese relief was exceeded in 24 hours.

CHICAGO BURY. Chicago, Sept. 7.—Three charge of the campaign in a half million dollars for the relief fund for Japanese relief was estimated that approximately \$200,000 had been contributed.

COUNTY BOARD PREPARES FOR BUDGET MEETING

Regular meetings of the auditing and sinking fund committees of the county board and an advisory meeting of the county sinking fund committee were held yesterday afternoon at the court house.

The sinking fund committee, consisting of the chairman of the county board, the chairman of the finance committee, the county treasurer, register of deeds and county clerk, made their regular report on how the county funds and what bonds the board should prepare to meet in the next year.

The auditing committee handled their regular grist of routine auditing bills and recommending or disapproving payment. The finance committee, on receiving the county clerk's report of the standing of the various county funds, many of which are depleted, ordered him to make provision by transfers for current expenses until the October meeting, at which time the annual budget will be made up.

The budget was made up at a special meeting for a twelve month period, and was immediately "tapped" for current expenses. The result is that practically all funds are depleted. The next budget will probably be for a fifteen months period, according to George Harvey, county clerk.

CROWD ENJOYS ALGER CO. FAIR

More Than 200 Escanabans Attend Big Chatham Event.

More than 200 loyal Escanabans refused to be dismayed by yesterday morning's threatening weather and showed up at the post office at 9:30 when approximately 50 cars left in a bunch, to carry the Alger County Fair at Chatham, the glad tidings that Escanaba was glad to be with them, and that this city is to have a monster fair during the coming fortnight.

The Escanaba cars were decorated with banners and pennants and other devices, indicating that this city was sending a large delegation to Chatham and despite the rather depressing aspect of the weather, there was a manifest spirit of good fellowship and jollity in the air.

While one or two cars went as "individuals," the bulk of the crowd stuck together and were met by the Chatham Fair Band about five miles out on the road, and escorted into the fairgrounds as conquering heroes.

The day proved one of pleasant experiences for those attending and as the weather cleared during the day, the drive back was very pleasant.

It is indicated that when the Northern Michigan Fair is held in this city shortly, Alger county will send down a fine bunch of visitors to get better acquainted with what Delta county is doing in the way of agricultural progress.

Daredevil Quartet Outdoor Feature Of Northern State Fair

One of the big free attractions of the Northern Michigan Fair this year, will be the "Flying Valentines," a quartet of dare-devils who offer a remarkable routine of casting and aerial feats in mid-air in which more different double somersaults than hands to lands are accomplished than has ever before been presented by any similar attraction. Following each other in rapid succession an unprecedented series of thrills are executed with such perfect precision and infallibility that spectators are left speechless with amazement. A comedian is introduced who performs some entirely new feats that are laugh compelling surprises. Their entire presentation abounds in novelty of the most daring description, full of courageous feats, startling in their conception and graceful and audacious in their execution. They are universally acknowledged as the premier of all aerial attractions, and a challenge is open to the world to produce their equal.

The "Oom-pah's" are coming! The famous Calumet and Hecla band, of Calumet, the best known band in the upper peninsula, will be one of the main attractions at the Northern Michigan Fair, opening here Sept. 18. The band will be here on the 19th, 20th and 21st, for all but the opening day of the fair, according to advice received last night by Oscar Kraus, secretary of the Fair association.

The Copper Country band, is one of the oldest in the peninsula and has for a long time, held first place among organizations of its kind. The manager and director, John Bracco, guarantees to bring at least twenty pieces, possibly twenty-six.

The nucleus of the old organization which made the "C & H" band famous is still with the organization, with a number of younger and less widely known musicians filling out the ranks. Secretary Kraus has been "dickering" for three weeks for the services of a first class band, even going to the extreme of negotiating with the Mexican National Police Band, which was one of the features at the Milwaukee state fair.

"We wanted to give the people of Escanaba and Delta county a real band, for once, and although we have spent much more than we had planned in securing the Calumet organization, we are certain that the additional attraction will be worth while and will be appreciated," Mr. Kraus said last night.

She Charges "Petticoat Politics"

Woman Party Executive Blames Her Sex for Voting as Feminals, Not as Citizens.

MISS SARAH BUTLER

BY MARIAN HALE

New York—Petticoat politics is making the United States government paternalistic. Women must shed their sex consciousness and vote, not as women, but as sober-minded citizens if they are to prevent their country from emulating the dictatorship of foreign lands.

This is the challenge of Miss Sarah Butler, daughter of Nicholas Murray Butler, president of Columbia University, and chairman of the women's executive committee of the Republican State Committee, just back from a tour of Europe.

At 28, Miss Butler probably is America's youngest woman political executive, but she would disclaim the title, maintaining that she is working, not as a woman but as a citizen. She would have other women do the same.

Must Be Representative.
"If women persist in thinking, talking and voting primarily as women," she says, "they will bring upon themselves the same

charge which a few years ago they were leveling at men: that of creating a one-sided government. Government must represent all classes. A woman's party is fundamentally wrong.

"But there is a graver danger. Women's present habit is to throw themselves unreservedly behind any measure they particularly espouse, without caring how their end is achieved. The result has been to delegate greater and greater powers to the federal government. This happened when the Sheppard-Towner maternity bill was passed. It may happen again in the case of the national education bills."

Balance of Power.
While refusing to say whether she believes in paternalism, Miss Butler does insist it is contrary to the wish of the constitution's framers.

"They desired a nice balancing of federal against state government," she says, "and the feminine vote frequently has served to take away power from the latter and delegate it to the former."

"Women have done this because they lacked party consciousness. They must develop it if they don't want paternalism."

"The cure for governmental faults lies, not in new parties, but in new ideals for the old ones."

"Machine" is merely another name for organization. Without organization to carry them out, the best ideals are helpless."

**FASCISTI DON'T
JUGGLE WORDS,
STEFANI SAYS**

Internal Policy Decidedly Capitalistic, Minister Declares.

By NEA Service.

Rome.—"We Fascisti are not accustomed to juggling words. Our stand is clear, definite, positive."

This statement came brusquely from Alberto de Stefani, Italy's minister of finance. It came in the first newspaper interview he has given—a rare occasion when a cabinet member other than Premier Mussolini has spoken publicly for Italy.

Minister De Stefani, however, made no direct reference to the tense situation created between Italy and Greece by reason of Mussolini's ultimatum demanding indemnity and apology for the killing of five Italian officials at Janina, Albania.

"Policy Capitalistic," he said, "No, we don't juggle words," he said, significantly.

Thus he let the statement stand. And then he turned to a discussion of the Fascist internal policy, making the blunt statement that the policy of the Fascist government is "decidedly capitalistic."

"The welfare of the people," he said, "is subordinated to the accumulation of savings and to the fruitfulness of their investment."

"The persecution of capital in its various forms constitutes in reality an anti-democratic policy. The state must not steal from its citizens that which they have created with the labor of their intellect or their hands, or that which they wish to bequeath to their children."

"Italy's Financial Oasis," he said, "Therefore the Fascist government has abolished the compulsory personal ownership of titles;

it has exempted foreign capital from paying an income tax and now it has abolished the inheritance tax (in the family group). These provisions have transformed Italy into a financial oasis which extends its hospitality to the capital and patrimony of foreigners.

"The Fascist regime, which is perhaps the precursor of a general upheaval in the politics of all states, is proof of the effective utility of these provisions."

"The Italian people have faith in the government and they are obedient. Furthermore, they know from experience that when capital, the instrument of labor, was persecuted here in Italy (as it still is elsewhere) we were marching towards poverty. Our people have learned this lesson and it will stand to their credit in history. There are no more strikes in Italy. We have gained millions of days of labor, and there are only 250,000 unemployed out of a population of 40,000,000."

**SHOES DENOTE
CHARACTER, SAYS
COLLEGE WRITER**

BY ALEXANDER HERMAN
NEA Service Staff Writer.

Mr. Vernon N. Y.—"By their shoes ye shall know them."

So goes the new rule of the fapper. And mere man now must watch more than his step.

For if he wears fussy tan ties knotted in a carefully deliberate bow, he immediately is spotted as a meticulous bachelor. If he wears high button shoes, he's pitied as a hen-pecked husband.

Peggy Barclay, popular Swarthmore College co-ed, gives these shoe rules:

"There's a close connection between a man's shoes and his personality."

"The successful business man wears well-polished, sensibly designed shoe of a conservative style. Such a man makes the ideal husband."

"The man with little feet and sleek, shiny shoes is usually annoyingly self-centered, self-absorbed and self-satisfied."

"Men who wear shoes with toes turned up are very materialistic, often pessimistic, and sometimes 'don't at the heels.'"

"Broad comfortable shoes indicate that the wearer is a man with a genial disposition."

"Narrow shoes suggest a single-track mind."

"Loud tan shoes, if they are high, are usually worn by the same kind of man who displays a sparkler on his little finger."

"Brogues, both black and brown, indicate usually the collegian."

"Pearl-gray shoes mark the gay old bachelor, who in the old days used to be a stage-door Johnny or the man from the country who tries to be spruced up."

"But this rule of the shoes, like all rules, is subject to some modification. It works so well, however, that most of my friends use it for the first size-up."

Miss Barclay is one of the associate editors of the Halcyon, Swarthmore College magazine, and secretary of her class.

According to reports there is an unusually large crop of huckleberries this year of the finest variety. Local pickers have found them in abundance within a few miles from Escanaba. "It would seem a terrible waste to allow these fine berries go to waste," stated one picker who brought back several large basketsful that he picked in a few hours. "The trouble is," he said, "people don't know they are there, but they are."

**Early Closing Will

BUILD THAT PAVEMENT.

There is an apparent hoodoo following the effort continued throughout this season to provide pavement for Tenth street south.

A FAIR PLAN.

There will be general agreement with the members of the Delta County chapter of the American Red Cross Society, that the fairest manner for raising Delta county's quota of \$1500 for relief of Japanese earthquake sufferers.

PREPAREDNESS.

So long as other nations prepare for war, the United States must not carter armament below the danger mark, as many would have us do.

"We must never neglect the military preparation again. The only hope for peace lies in the perfection of arms of war."

"The great problem which our present experience has brought is the development of man power."

President Coolidge is not given to idle words and there is no mistaking his attitude.

There must be adequate national defense, especially in these days of unrest and turmoil.

While President Coolidge is expected to support to the limit military training for the youth of the land and all other measures for national defense, he has expressed himself as very much opposed to oppressive armaments.

There is a vast difference between adequate national defense and oppressive armaments and while we must be prepared for any emergency there is no necessity for the extravagant expenditure of money on excessive armaments.

"AMERICA FIRST." To safeguard America first. To stabilize America first. To prosper America first. To think of America first. To exalt America first. To live for and revere America first.

Call it the selfishness of nationality if you will. I think it an inspiration to patriotic devotion. We may do more than prove ourselves representative of democracy where the Constitution and its liberties are unshaken. We may go on securely to the destined fulfillment and make a strong and generous nation's contribution to human progress, forceful in example, generous in contribution, helpful in all suffering and distress in all conflicts. Let the internationalist dream of fundamental Americanism.

The Piffle Hook

There are occasions, during the absence of the regularly ordained conductor of this column when the presence and assistance of that same person would be highly desirable.

"Having a fine time. He a good boy until I get back," postcards the A. W. O. L. Society Reporter from Fond du Lac. We have wired back immediate, collect, to learn if the admonition expires on her return, or what does she mean?

Florence Frappe, presiding deity at the fountain of inspiration and soda water across the street, says her boss never was a baker until he came to Escanaba. "He never kneaded dough until he came here," sez she. "He says he needn't knead lots of dough before he came here but he doesn't knead dough at all now. He's got a machine to knead the dough now because he needs the dough it kneads."

Dr. Jekyll and Mr. Hyde have nothing on the august personage who directs the destinies of this struggling publication. "In the morning," he says, "I am 'Oscar,' the auditor; in the afternoon I am 'Ade,' the society reporter and in the evening I am 'Slim,' the telegraph editor. Between times I just work for the paper."

Sailors are supposed to have sweethearts in every port. We fancied we were doing you a favor by appraising you of the arrival and departure of the host in which yours is no less than kipper.

POLLYTIX AND H. K. R. "H. K. R. For Governor," third fusion. No. 3—He is a vigorous opponent of the unshining, hampering and unimproving "reform" bathing suit for women. As a newspaper man, his slogan is, "Be Brief."

The Scandinavian gentleman vic is repairing our front porch being subjected to a radio salesman's spell. "Turn this knob to here and you get Frisco, here to get Denver, here for Chicago and here or Newark. See? Easy!" said the salesman.

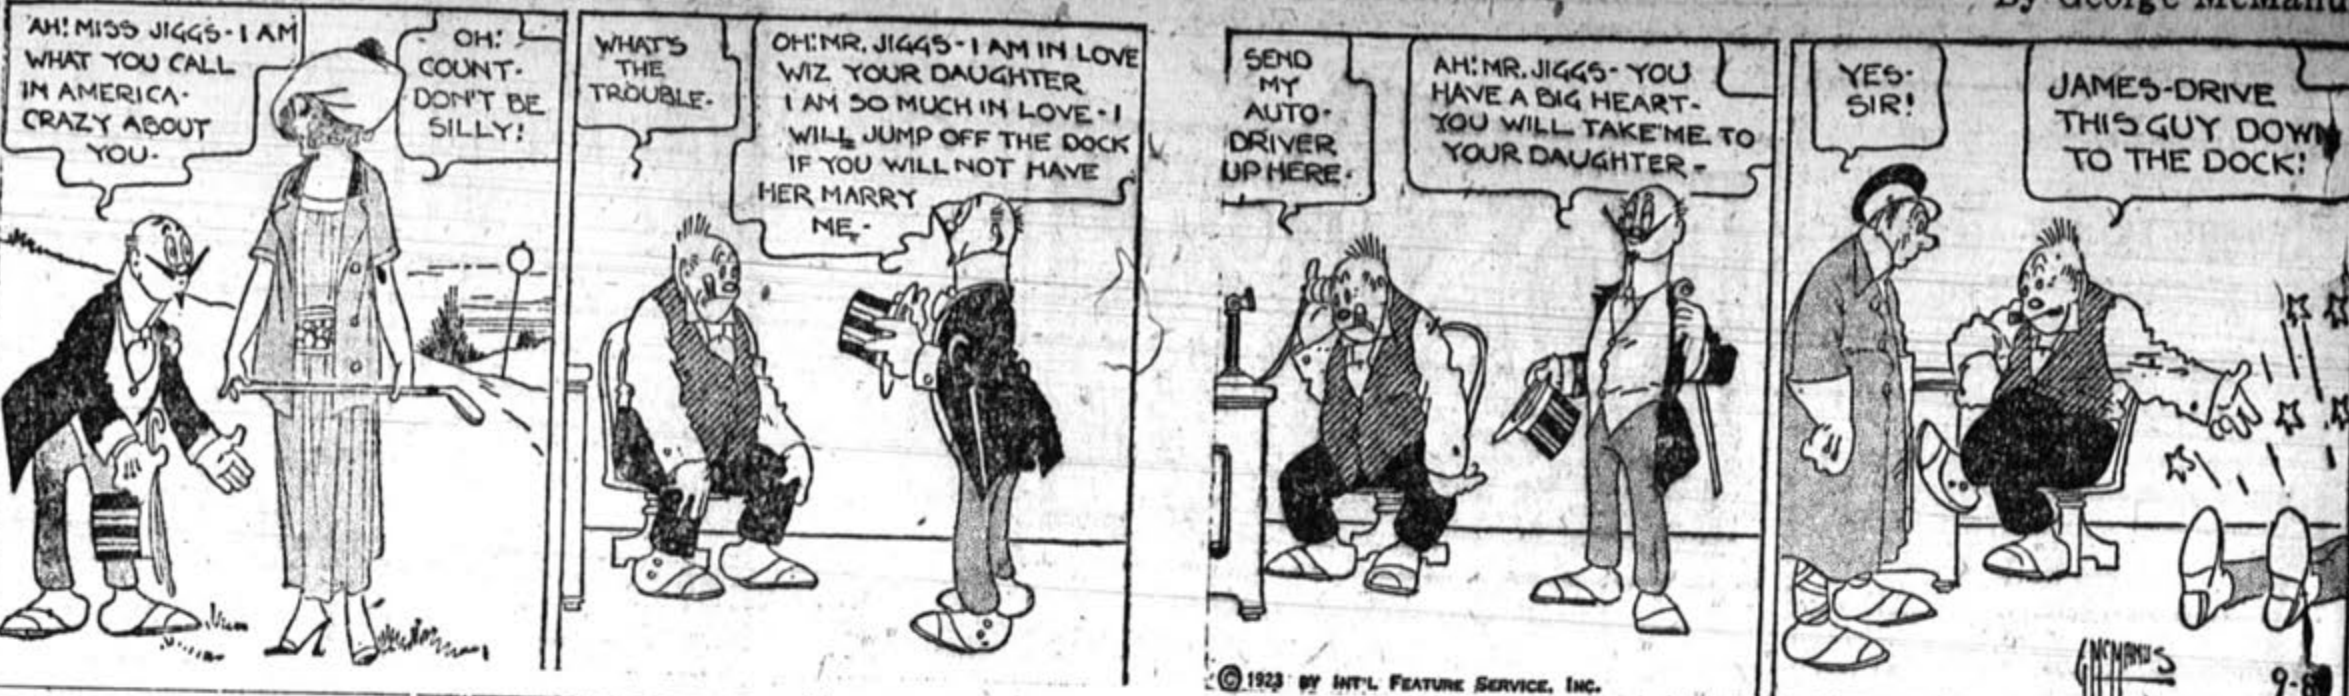

"You see das?" responded the Viking, drawing a box of "Snus" from his pistol pocket. "Ay rap him on my elbow, take off dem cover, and," (scooping up a load on his thumb nail.) "Ay, get Copenhagen!"

A magazine writer declares that the women and girls of this generation are far more particular of their appearance, particularly of their faces, than women of earlier days, and that cosmetics are playing a leading part in the preservation, not the destruction, of womanly beauty. All of which recalls, for want of a better last line, the slogan of the paint and varnish manufacturers.

"Save the surface and you save all." —THE PINCH HITTER and the bolshevist destroy. God pity him "for whom no minister raptures swell." In the spirit of the republic we proclaim Americanism and acclaim America.—Warren G. Harding.

TEACHING AMERICANISM. At the convention of the National Education Association, it is reported, a proposal that geography, history and literature be taught from a world point of view rather than a nationalist was postponed by a vote of 40 to 2. The text of the resolution and the debate thereon are not at hand, but the subject is interesting. We often wonder how much influence the public schools are exerting directly for the creation of an intelligent nationalism and how much the teaching body, largely feminine, is infected with pacifism and internationalism. So far as our experience and knowledge goes instruction in American principles and institutions is rather perfunctory. We do not read of any resolution to investigate or improve the teaching of fundamental Americanism.

"THE MISFIT"

A MISFIT NO LONGER. Chapter LXXII. Natalie felt often that Mrs. Crandell was watching her, weighing her. Daily she grew more at ease when with her, often making some daring reply or suggestion, always wondering at her temerity. Her mother passed away suddenly, and Mrs. Crandell was so sympathetic, so thoughtful, sending flowers, offering to attend the funeral if Natalie wished. Natalie felt she almost loved her. She did not grieve very young girl and had seen her mother but once since she left. But she was touched by Mrs. Crandell's sympathy and kindness.

It was an hour of confidences. Both women went back and purged their minds of all they had felt against the other, both begging pardon for what they had done. When Horace came in at dusk he found them sitting hand in hand waiting for him. For Natalie everything was changed. She no longer felt any resentment because of her position in the household—now that of a loved daughter whom the mother relieved of all care. And her happiness was augmented because she was made to realize that it was not because a grandchild was expected, someone to inherit the old name, but because she herself understood and loved. Mrs. Crandell's cold, quiet manliness changed life, but Natalie appreciated she could not expect her to change in that way. But she was no longer lonely, out of things. Horace was like a boy in his delight. "I knew once you understood each other all would be right," he told Natalie. "Mother has a heart of gold hidden under her dignified manner. And you—you know how much I love you." Left alone, Natalie murmured: "I am no longer a misfit. They have made me one of them." (THE END)

HARMONY FOUR OF AUGUSTANA TO COME HERE

Unique Musical Organization to Present Concert.

The Augustana Harmony Four, of Augustana College, Rock Island, Ill., will appear in a concert under the auspices of the Luther League, at the Swedish Lutheran church on Tuesday evening of next week.

The members of the organization are: Regina Holman, organ and piano; Clifford Anderson, cornet and vocal; Palmer Nestander, piano, accordion and cornet; Minnie Nelson, vocal and piano.

The Harmony Four is the first and only musical group of its kind organized at Augustana, and is, as far as can be ascertained, the only musical organization of similar combination in the country, which renders the best in Classical and Sacred music to church audiences only. All of its members have studied at Augustana Conservatory of Music, one of the foremost conservatories in the country, and two of its members at the present time are instructors in that conservatory.

Its repertoire is exceedingly large and varied including both sacred and secular classics. It is the aim and purpose of the organization to present only such a program as can be enjoyed by all lovers of the best in music; and only such numbers are rendered as can fittingly grace the Temple of Worship. The familiar classical Swedish selections rendered will appeal especially to those of Scandinavian parentage and to those who love the charming northern melodies. Great care has been taken to select and arrange such a sacred program as will be best suited and appropriate to the musical taste of the average audience in this section.

AMUSEMENTS

Charles Ray, chief extraordinary and creator of unusual concoctions is at the Strand Theatre with an entirely new menu entitled "The Deuce of Spades." The clever character impersonator has evolved a new dish for motion picture audiences which he makes his patrons fall for this line is one of the most humorous incidents that has ever been transposed upon the screen.

The story for "The Deuce of Spades" was supplied by "The Weight of the Last Straw," written by the late Charles E. Van Loan, who also provided "Scrap Iron," one of Ray's biggest successes. Associated in the cast with the star are Marjorie Maurer, Lincoln Plummer, Andrew Buckle, Dick Southerland, Jack Richardson, J. P. Lockney, Gus Leonard, Bert Offord and William Courtright.

Samuel Gompers, the veteran president of the American Federation of Labor, was but 15 years old when he took out his first union card.

MORTGAGE SALE. Default having been made in the conditions of a mortgage made by John Cannard to Jules J. Cannard, dated the ninth day of September, 1921, and recorded in the office of the Register of Deeds for the County of Delta and State of Michigan, on the ninth day of September, A. D. 1921, in Liber 21 of Mortgages, on page 253, on which mortgage there is claimed to be due at the date of this notice, the sum of Two Hundred Twenty-two and 17/100 (\$222.17) Dollars, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage, or any part thereof; Now Therefore, by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, notice is hereby given, that on Monday, the 15th day of October, A. D. 1923, at ten o'clock in the forenoon, I shall sell at public auction, to the highest bidder, at the front door of the Court House, in the City of Escanaba, Michigan, (that being the place where the Circuit Court for Delta County is holden) the premises described in said mortgage, or so much thereof as may be necessary to pay the amounts due on said mortgage, with six (6) per cent interest, and all legal costs; the said premises being described in said mortgage as follows: Northeast quarter of Southwest quarter (NE 1/4 of SW 1/4) of Section Ten (10), Town Forty-three (43) North, Range Twenty-one (21) West. Dated, July 11th, 1923. JULES J. CANNARD, Mortgagee.

NAVY-ARMY Ah! But They're Bitter Air Rivals

St. Louis, Sept. 8.—The army is determined that, in the international air races here Oct. 1, 2 and 3, it will wrest some of the glory and honors now held tightly by the army.

Last year, at Detroit, the army finished first and second in the Pulitzer trophy race, the world's air classic, and captured most of the honors in other events.

It now holds the world's speed, altitude, endurance and non-stop records, and is looking around for new aerial conquests.

But that it will have difficulty in realizing its rosy dream comes confidently from its friendly enemy, the navy.

Rear Admiral W. A. Moffett, chief of bureau of aeronautics of the navy, has taken steps that insure the keenest competition ever witnessed between these two branches of the service.

Mystery Planes.

The personnel of the navy contestants for those races, just made public, and this includes the marine corps, shows that it will have four entries in the Pulitzer trophy race for high-speed planes, two entries in the Liberty Engine Builders' trophy contest, for military observation airplanes and two entries in the Merchants'

Exchange of St. Louis trophy race for large capacity airships. The navy is also having built for these races two new Curtiss racing planes, which are expected to surpass anything in the speed line ever put out by the Curtiss company. The new ships will be flown by Lieutenant H. J. Brown and Ensign A. J. Williams, who finished third and fourth in the Pulitzer race last year. The other navy entries for the race will be Lieutenant S. W. Callaway and First Lieutenant L. H. Sanderson, the latter from the marine corps. All four are crack pilots and experienced racers.

The other naval entries are Second Lieutenant G. B. Hall (marine corps) and Lieutenant D. C. Allen, in the Liberty Engine Builders' trophy race, and Lieutenant M. A. Schur and Boatswain E. E. Reber, in the Merchants' Exchange trophy race.

Army to Stand Pat. Major General Mason M. Patrick, chief of the U. S. army air service, will designate the personnel of the army's pilots. Lieutenant Russel Maughan, winner of the Pulitzer trophy race last year, and holder of the world's speed record of 236.5 miles per hour, made at Dayton O., March

29, 1923, is expected to be a contestant.

The army will build no new ships for these races, but is improving and tuning up the two Curtiss racers and the Verville Sperry plane which finished first, second and fifth in the Pulitzer race last year. General Patrick expects to obtain a speed of 30 miles an hour greater from the Verville Sperry than the 189 miles per hour it made last year.

Among the foreign entries expected are Brack-Papa, the Italian ace, former holder of the world's speed record; Lieutenant Malbari, of the Italian army, winner of many European events, and Sadi-Lecointe, the French flyer, also a former world's speed record holder.

St. Louis is spending \$200,000 getting its field ready for the races.

High School Classes Electing Advisers

Annual elections of class advisers are now in progress in the high school. The seniors have elected R. E. Selkirk and Miss Gladys Morrell; the Juniors, John Lemmer and Miss Emily Crippie and the Sophomores, Miss Stella Johnson and W. J. Sullivan. The Freshmen have already elected Miss Irene Meason as one of their advisers, leaving one other to be elected.

Orange and Black to Hold Tennis Tourney

Arrangements are going forward for the formation of a tennis organization in the Orange and Black literary society of the high school. A tournament is to be conducted, beginning today and the finals will be played Sept. 15.—Roland St. Mitchell is chairman of the committee having charge of the tournament.

The Mead Drug Company is donating a first prize of a fine tennis racquet, while the Delta Hardware company will give a pair of tennis shoes as a second prize.

Terrible news for fish in British streams. Great Britain's unemployed is increasing.

Tells How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Memphis, Tenn.—"Two years ago I was completely run-down and my nerves were a wreck. I could not sweep a room without resting. I could not do my work except a little at a time, and the doctor's medicine did not help me. One day some one threw your little book on to my porch, and in it I read several testimonials of women who had been like myself. I went right out and got me a bottle of Lydia E. Pinkham's Vegetable Compound, and before I had taken the whole of that bottle I knew it was helping me. I took six bottles, and then in about three months I took two more. Now I am in perfect health. I do all of my own work and could do more. I can truly say that I know Lydia E. Pinkham's Vegetable Compound gave me my health."—Mrs. O. J. HINCKLEY, 316 Union Ave., Memphis, Tenn.

COMPARISON OF NAVIES SHOWS ITALY'S POWER

Armies Nearly Equal But Italy Excels in Naval Strength.

Washington.—What would happen if Greece falls "to give satisfaction" for the killing of Italian officers on the interallied commission for elimination of the Albanian frontiers?

How long could Greece last against Italy, provided no other nation came to the former's aid? Many experts think not long.

A few hours could take the well-equipped Italian navy through the Ionian Sea and into the harbor of Piraeus, Greek capital.

And a few well-directed shots would, these experts think, end the war.

Italy's peace strength standing army consists of 250,000 men. But it has a well-trained, ever-ready reserve of more than two and a quarter million men.

The approximate strength of Greece's army is 200,000 men. But in its reserve are nearly as many thousands as in that of Italy.

On the sea, Italy can boast of the following: First line light cruisers, 2 of 16,000 tons; destroyer leaders, 6 of 12,270 tons; first line destroyers, 12 of 11,550 tons; first line submarines, 4 of 2,600 tons.

Greece is far removed from Italy in naval strength. It has but three first-class capital ships.

YOUTH, COURAGE, CONFIDENCE, AMBITION—They're Firpo's Greatest Assets Now

BY BOB DORMAN. NEA Service Writer. Atlantic City, N. J., Sept. 7.—What had Corbett when he fought and took the title from John L. Sullivan?

Youth, courage, confidence and ambition. And those qualities sum up the chances of Luis Angel Firpo to take the same title from its present holder, Jack Dempsey.

But 27 years old, he is in the prime of life—at the height of his physical powers.

Though he has not fought men of the first class, such men are scarce in his division. And from some of those he has fought, he has been compelled to take hard wallops.

From none has he flinched. His courage has met every test to which it has been put so far. His confidence is sublime.

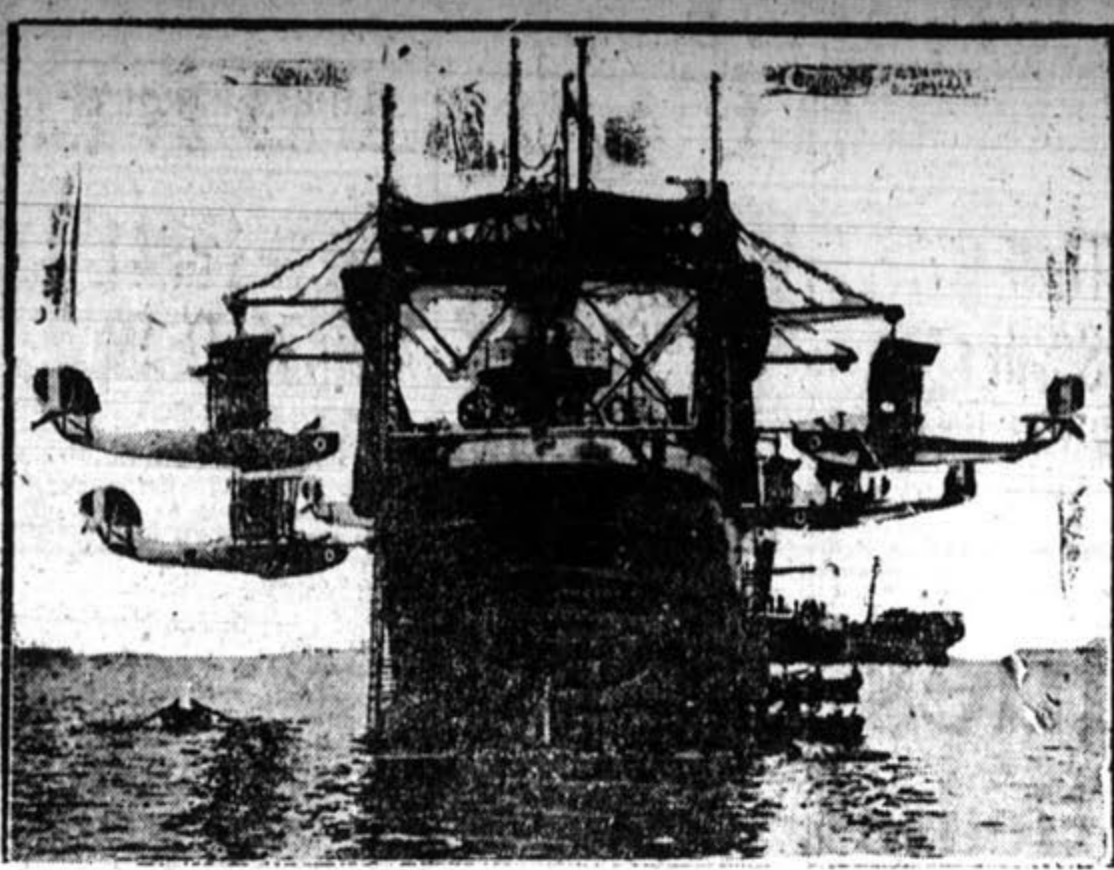

That he is to meet Dempsey, the world's heavyweight champion, means nothing in his young life. To him it is just another fight. He does not worry.

"Why should I?" he says. "Dempsey is just a man. He can be beaten the same as anyone else."

"All champions are unbeatable until they are licked. Then the new champion is unbeatable."

Firpo is ambitious. The heavyweight title is his goal. All his efforts are directed toward it.

His is a single-track mind. He permits nothing to interfere with his aims.

When Italian warships "set sail" now they carry a full complement of bomb-dropping and scouting aircraft. This shows the "Europa" under way. Any one of those planes could destroy a ship such as the "Europa."

It also has 13 destroyers, 6 modern torpedo boats, 2 submarines and a variety of miscellaneous craft. To these have been added the former Austrian destroyer, Ulau, and 7 torpedo boats, now used for police duty.

Italy Controls Air. Aviation is certain to play a big part in any such war. Here again, the Hellenic forces are overwhelmingly outnumbered.

Italy's active air forces include 37 first-line army and navy squadrons, with 370 first-class fighting planes and 8,000 men.

Besides this force, there is a large reserve. Owing to the revolution, etc., the Greek aviation strength is woefully weak.

KITCHEN CABINET. An old book case and a kitchen table can be converted into a kitchen cabinet, by the man or woman hands with tools.

Gas sold for six cents in Los Angeles. Must be the climate.

meet the right one, no one will. Youth, courage, confidence and ambition. They can carry a man far on the road to his dreams. Can they carry Firpo to his goal—can they overcome the handicaps of his boxing deficiencies?

A THOUGHT

Lo, children are an heritage of the Lord; happy is the man that hath his quiver full of them.—Ps. 127: 3, 5.

What gift has Providence bestowed on man that is so dear to him as his children!—Cicero.

The possibilities of the Soybean are limited to its value as a food. It is now used extensively in the manufacture of glycerine, explosives of various kinds, waterproofing material, linoleum, enamels, varnish, soap, celluloid, printing ink, paint and lubricating oil.

Bulgaria has a labor army of conscripted workers. Every man between the ages of 20 and 50 is liable to obligatory labor. No man, no matter what his rank of wealth, is exempt from eight months' compulsory service. The law will apply to women soon.
