

ALLEGED SLAYER OF BANK CLERK CAUGHT

COOLIDGE TO BE EXPLICIT IN MESSAGE TO TOUCH EVERY MAJOR QUESTION IN COUNTRY.

BY DAVID LAWRENCE. (Copyright, 1923, by The Escanaba Press) Washington, Nov. 26.—President Coolidge in his forthcoming message to Congress—he isn't sure yet whether it will be a personal address or message—will touch on every major question before the country today.

The president will answer those critics who say he hasn't done anything or said anything of consequence since he took the oath of office. Mr. Coolidge has been at work for many weeks on the first important communication which he will make to the American people, for he realizes that it will be in a sense his personal program, his pledge for the remainder of the Harding term and also a campaign platform for 1924.

Mr. Coolidge has endeavored to follow the Harding practice of consulting leaders of both houses of Congress—he will even ask them whether they prefer a personal message delivered at the White House or a message read by him in the days preceding the Wilson administration.

Taxation Paramount. While taxation is a paramount issue, not less interesting will be the president's discussion of foreign relations. Senator Henry Cabot Lodge, chairman of the Senate Foreign Relations Committee, and also the majority leader of the Senate, has been spending a good deal of time with Mr. Coolidge lately. The general impression has been that the legislative program was being discussed but it turns out that Mr. Lodge is far more interested in what Mr. Coolidge will have to say on foreign relations.

Besides the general inclination of a president to consult the chairman of the Senate Foreign Relations committee, Mr. Coolidge has an added reason for wishing to take Mr. Lodge into his confidence as the latter is just as much interested in seeing a Massachusetts man nominated for the next presidential term as is Mr. Coolidge.

The real point of the discussion between Mr. Lodge and the president, of course, concerns the measure of American participation in European affairs. Germany is on the verge of collapse. There are plans already for the feeding of the German people. Congress would have to make the necessary appropriations. The department of agriculture has statistics showing that Germany has plenty of food on hand but that is in the hands of those who have hoarded it because they are unwilling to accept worthless paper money in payment. What the Germans need is not food but money to buy their own harvest.

Tied to Reparations. Under the circumstances, whatever policy the United States government may decide upon to assist in stabilizing conditions in Germany relates in some measure to the reparations commission. It is said that the president feels he can do no better than to review the recent efforts of Secretary Hughes to secure the appointment of an impartial commission to determine what Germany's capacity to pay would be. The responsibility for the failure of that plan is not on America but on France and since the exchange of notes and diplomatic conversations occurred while Congress was not in session it is natural

RUM RUNNER FLYING BRITISH FLAG IS CAPTURED OFF ATLANTIC COAST

Coast Guards in Thrilling Chase For Six Miles.

(By The Associated Press.) New York, Nov. 26.—A rum schooner, Tomako, captured by coast guards yesterday after an exciting chase six miles off Seabright, N. J., while flying the British flag, was seized with the knowledge that her registry papers were faulty and that she positively had been identified with the landing of liquor on American shores, government agents announced today.

"Rummer Bill" McCoy, rum smuggler king; John Brophy, alias Downey, his skipper, and the seven members of the Tomako's crew were arraigned before a federal commissioner here, charged with illegally transporting liquor into the United States. They were released in \$5,000 bail each, pending proceedings in which the authorities of New Jersey will seek their removal for trial there on the charge.

"Spot Cash" Bail. McCoy also appeared in federal court in Brooklyn to plead not guilty to an indictment charging illegal liquor transportation while he was aboard the schooner Henry Marshall, the first ship of British registry to be seized outside the three mile limit on rum carrying charges. In this case he was released in \$15,000 bail which he furnished in cash from a handbag containing \$68,000, alleged to be receipts from the sale of whiskey to runners off the New Jersey coast.

The Tomako, originally was the American schooner Arcthusa and under this name she appeared in January, 1921, the first rum carrier of the American flag. Her shipping papers, and yellow sticks have been sought by government lookouts along the entire Atlantic coastline since that time, for she was known as the most adventurous runner in the business. She is charged with having carried rum to all points along the coast from Portland down to Florida.

Claim Registry Illegal. There came a time when the Henry Marshall appeared and the Marshall and the Arcthusa were said to have been run carrying mates until the Marshall fell into the hands of the government off Atlantic City. After the loss of the Marshall, McCoy is said to have arranged for the purchase of the Arcthusa, caused her to be placed under British registry and a cabin fitted out for himself. This purchase and transfer of registry, government officials said, was reported to be illegal and they be-

Detroit, Nov. 26.—Discovery that at least 25 vacant building lots described in surety bonds signed by professional bondsmen are owned by persons who never heard of the bondsmen, resulted in a decision today by W. McKay Skillman, assistant prosecutor, conducting the bond fraud probe, to call in real estate men familiar with the property. Its ownership and value to determine all the facts relating to the lots which it is alleged were fraudulently used to obtain bonds.

920 MEN ARE IMPERILED IN ORIENT SHAFT

TWO MEN BLOWN TO ATOMS IN ARIZONA.

(By The Associated Press.) Chicago, Nov. 26.—Two men were killed today and thirteen were burned, two of them seriously, in an explosion in the Orient Mine of the Chicago, Wilmington and Franklin Coal Company, near Benton, Ill., according to advisers to the coal company's officials here tonight.

The mine, one of the largest in the world, employs more than 1,000 men and 920 were reported to have been in the mine at the time of the explosion, which was believed due to gasses.

System Saves Life. Mine officials attributed the small casualty list to an elaborate system of "barrier pillars" by which the mine was worked. The damage was said to have been small and advices from the mine said that operations could be resumed almost immediately.

George E. Harrington, president of the operating company, attributed the comparatively small loss of life to the operating methods.

Series of Chambers. "By dividing the entire mine into a series of small chambers," he said, "we have reduced"

VALUATION OF RAILWAYS BIG NEW PROBLEM

(By The Associated Press.) Washington, Nov. 26.—Physical valuation is one of the main if not the principal railroad questions which will come before the new congress, in the opinion of Chairman Cummins, of the senate interstate commerce committee. It has more bearing on the movement to obtain reduced rates, he said today, than the agitation for repeal of the fair return clause of the transportation act.

PROGRESSIVES FIGHT MELLON

(By The Associated Press.) Washington, Nov. 26.—Opposition of the progressives to the organization plans of Republican leaders in the house and senate began today to take more definite form. Likewise there was increasing evidence that the progressives and many Democrats are determined that any tax revision at the coming session shall depart materially from the program suggested by Secretary Mellon.

House progressives began a series of conferences to map out their campaign for liberalization of the rates and committees, while senate progressives started a backfire on the Republican organization to continue Senator Cummins of Iowa as chairman of the interstate commerce committee and elect Senator Curtis, of Kansas president pro tempore of the senate.

LaFollette Plan. Senate progressives have let Senator Cummins know that they will have their support for reelection as president pro tempore if he will relinquish the chairmanship of the interstate commerce committee, which would place Senator LaFollette of Wisconsin, a leader of their group, in position to succeed to the chairmanship under the seniority rule. Senator Cummins has been advised by some of the regular organization leaders that they would prefer that he retain the chairmanship and leave the way open for election of Senator Curtis as president pro tempore. Senator Cummins is undecided what he will do.

In their legislative discussions today, the house progressives went on record against the Mellon tax plan as such. In a formal statement, which Representative Nelson said had been approved unanimously, they said they found "nothing in the Mellon plan which tends to stimulate legitimate business or reduce the cost of living."

Bootleggers To Be Treated As Plain Smugglers

(By The Associated Press.) Detroit, Nov. 26.—Bootleggers who smuggle liquor into the United States from Canada are to be dealt with hereafter under the Fordney-McCumber act instead of under the Volstead act. OKLAHOMA ASSEMBLY TALKS MUCH; DOES LITTLE.

Senator Tom Anglin, president pro-tem of the senate, assailed the members for what he termed their obstructive and destructive tactics. The president's speech was directed at Senator W. M. Gulager replied heatedly, declaring that his actions were the will of his constituents.

State Funds Are Called In By The State Treasurer

(By The Associated Press.) Lansing, Mich., Nov. 26.—State Treasurer Frank Gorman today called in \$1,500,000 from outside banks which are state depositories to replenish the general fund here. The reason for the call, it was stated, was that the state failed to sell \$3,000,000 worth of highway bonds last week, and that amount had already been loaned the highway department from the general fund in anticipation of the sale. New bids on the bonds will be opened by the administrative board Tuesday.

IS IDENTIFIED AS ROBBER BY EYE WITNESS

POLICE NEAR END OF \$43,000 HOLDUP MYSTERY.

(By The Associated Press.) New York, Nov. 26.—An eye witness to the actual shooting picked Joseph Diamond out of a lineup at police headquarters tonight as the man who shot and killed William S. Barlow, one of the ten bank messengers murdered in the \$43,000 holdup in Brooklyn eleven days ago. Joseph Diamond is a younger brother of Morris Diamond, Diamond brought back from Cleveland today and formally charged after hours of interrogation, as one of the murdering robbers. Joseph was brought to headquarters tonight after his brother had admitted that automobile license plates found on the abandoned murder car belonged to him. Confronted with witnesses he began to talk. Calm and unflinching he went through the examination by the inspector and Mr. Dodd.

RENT SAFETY BOX

The robbery and murder were committed at 10:15 o'clock in the morning, and at 10:34 o'clock a man identified as Morris Diamond presented himself at the Fifth National Bank, Manhattan. He said he was "Leonard Ritter of 505 Fifth Avenue" and after renting a box returned in twenty minutes with a suitcase.

Lester B. Scofield, the bank manager, said "Ritter" took a suitcase and the deposit box into the booth and remained about a minute, remarking as he left, "I'm glad that's put away." Before noon the next day he entered the booth accompanied by a young woman whom he introduced as his sister, "Miss J. Ritter" and she slipped a card of access to the box. They took the box into a booth and remained about nine minutes.

The third visit "Ritter" paid to the vault was last Wednesday. He was alone. When police opened the box it was empty.

ALTHOUGH WHISKEY RUNNING

Though denying ownership of the automobile held by the police, the older Diamond admitted that the other car kept in Brodsky's garage was used by him and Joseph in "running" whiskey from Canada and in doing other things that was not just right.

Some of the books of the Box company, for which Morris Diamond said he was a salesman, were brought to the district attorney's office and with them came a brown bag from the company offices whose significance Mr. Dodd left unexplained. Diamond said he was on business for the box concern in Cleveland when arrested.

A "Hanging" Job

Inspector Coughlin characterized the robbery as "bungler's work and worse." Assistant District Attorney Diamond was well acquainted with the two men killed, William S. Barlow and William H. McLaughlin, a war veteran, and the older brother was observed in the vicinity of the West End bank a short time before the robbery. The inspector explained the comparatively small amount of money—\$2,200—found in their first prisoner's possession was due to lavish living in Philadelphia where chorus girls helped him spend a big sum. These girls, ignorant of the identity of their friend, he said, told the detectives where to find him.

Des Moines, Ia., Nov. 26.—John Rieckman, of Mount Hamel, Iowa, won what is said to be the first interstate corn husking contest ever held in the United States when he defeated H. D. Paul of Iowa, III., in a husking match in a cornfield near here today. After deductions and corrections were made by L. D. Barnett of Iowa State College, umpire, Rieckman was credited with having husked 44.6 bushels in two hours and twenty minutes, while Paul was credited with 40.5 bushels.

# Leviathan Breaks The Atlantic Record

## COMPLAINS OF NEW YORK DELAY AT QUARANTINE

### Vessel Has Much Trouble Docking and Unloading.

(By The Associated Press.)  
New York, Nov. 26.—Completion of a record-breaking cross-Atlantic run from Cherbourg to New York, the American liner Leviathan today was delayed at quarantine under circumstances which led Captain Hartley to denounce government inspectors who were showing favoritism to British and other foreign owned passenger ships.

Edward P. Farley, chairman of the United States Shipping Board, owner of the Leviathan, returned from an official mission in Europe on the record voyage, which brought the big ship past Cape Hatteras last night, five days, seven hours and twenty minutes after she had steamed out of Cherbourg.

Boats Mauretania.  
An average speed of 24.17 knots an hour was maintained throughout the passage, beating by 13 minutes the 24.11 knots record held by the Cunard liner Mauretania.

The American vessel's troubles began when she headed into quarantine last night. Finding the roadstead already occupied by seven passenger ships awaiting inspection, the Leviathan had to head about and anchor in Caswell Bay, a mile distant. Waiting there today, expecting quarantine officers to come aboard Captain Hartley was informed by wireless that his position was unsatisfactory and that he would have to be drawn in at the pre-arranged anchorage before inspectors would board his ship.

A thousand dollars, makes a gift, but is rather expensive.

## POPE SILENT ON CARDINALS TO BE NAMED

(By The Associated Press.)  
Rome, Nov. 26.—At the Vatican there is complete silence concerning the names of the new cardinals Pope Pius may appoint at the secret consistory to be held December 20. Even the nationality of those who have received the red hat has not been made known.

If any new American cardinals are to be appointed, Arch-Bishop Hayes of New York and Arch-Bishop Mundelein of Chicago are mentioned as the prelates most likely to be accorded the honor. If only one American cardinal is to be appointed, there are many persons who express the belief that it will be Arch-Bishop Mundelein, because all the American cardinals in the past have been from the eastern states and they think the time now has come for the appointment of a member of the Sacred College from the middle west.

Ebert Criticized.  
Dr. Albert is accorded wholly negative support in the partisan organs, which declare that his membership in Dr. Cuno's non-parliamentary cabinet is a distinct liability, and also designate his selection as unfortunate in view of his pre-war activities in the United States.

President Ebert also is the subject of frank criticism because of his failure to summon the nationalists or the socialists, both of whom are viewed as responsible for Chancellor Stresemann's overthrow, immediately upon the retirement of the last cabinet for the purpose of putting the issue of the new government up to them.

## SCHAMP GUILTY OF EXTORTION

Prohibition Agent Will Be Sentenced This Week.

(By The Associated Press.)  
Grand Rapids, Nov. 26.—De-lano R. Schamp, formerly a federal prohibition agent at Kalamazoo, Saturday was convicted by jury in United States district court of extortion. Two counts of the indictment returned by the grand jury which charged acceptance of bribes had been dismissed by the court. The jury was out less than an hour.

Schamp's attorneys indicated that after he is sentenced they may appeal the case.

Four Day Battle.  
The trial, which terminated Saturday, marked a legal battle of four days between the defendant and the prosecuting attorneys.

It was charged that Schamp, while a prohibition agent in January, 1922, accepted \$200 from Mike Vorkick of Kalamazoo after a raid on Vorkick's home for liquor. He was also indicted on the charge that he received \$400 from Mrs. Nellie Mol of Kalamazoo as "bail" for the release of Joseph Mol, her son, who was being held pending arraignment on charges of violating the liquor law.

While on the stand, Schamp admitted receiving \$200 from Vorkick, but stated it was merely a loan and was not for Vorkick's protection nor as a compromise for liabilities. He denied any knowledge of other instances of alleged extortion.

## RUM RUNNER WITH BRITISH FLAG CAPTURED

(Continued from Page One)

Heved the Tomako still to be an American boat.

Many conflicting reports of the details of the capture of the Tomako were heard at different government offices. Assistant Collector of the Port Barnes said the official report of the coast guards declared that Lieut. L. W. Perkins, the boarding officer, had been threatened with machine guns which then were turned on the coast guard cutters Seneca and Lexington. This, it was said, came after Lieut. Perkins had been put aboard the schooner to bring her to shore and McCoy had given orders to run to sea. Another report had it that a machine gun and an automatic rifle were displayed but not fired.

McCoy denied that firearms were on board, or that there ever had been any on his ships, although coast guard officials reported that the Tomako had fired on government boats in other cases.

After reading some of the newspaper accounts of the Tomako's seizure, McCoy laughed and remarked that some were trying to picture him as a buccannier with flowing mustache, with a red kerchief about his head and a cutlass in his teeth.

"It's true," he said "that I love adventure and that I've been engaged in a risky business for some time, but I've always played the game square and done bodily harm to no man. They said that I threatened Lieut. Perkins with my gun when he came aboard the Tomako and offered him a bribe to 'forget it' and leave. That's untrue. I helped him over the side and offered him some coffee and a heavy overcoat so that he could be warm."

## Motor King Buys An Ox Cart Made One Century Ago

(By The Associated Press.)  
Binghamton, N. Y., Nov. 26.—Henry Ford made a purchase in Smithville Flats, Chenango county, it became known today after the automobile manufacturer's trip through this section. The latest addition to his collection of antiques is an ox-cart, 100 years old, which had been in the possession of Frank Harrison, a farmer. The cart was exhibited during a pageant at the Broome county fair in September. What Mr. Ford paid for the cart or what he expects to do with it could not be learned.

the fire and explosion hazard to a minimum. The plan requires us to leave natural walls of coal underground, so that in the interest of safety we are required to leave close to thirty per cent of the coal in the mine. But we are certain that the system saved many lives today. In the old fashioned operation, these walls would be taken out and replaced by timber supports, and in time the entire operation would be but a single air chamber, in which a gas explosion would endanger the life of every worker. In addition, the timber braces would serve as fuel for the fires which almost always follow an explosion."

The Orient arrangement, he explained, makes the entire underground workings a series of small coal chambers, any one of which can be quickly sealed, either from within or without, in case of an explosion. By this method, the disaster may always be localized.

## ARIZONA DISASTER

Ortman, Ariz., Nov. 26.—Three miners were killed today when two boxes of powder exploded in the mine of the 700 foot level of the United American Mine here.

The bodies of two men were blown to pieces while a third miner was overcome by fumes and was found dead in the mine.

The dead are: Joe Featherstone, Frank Zion, M. Thayer, J. Gibson, a miner, who also was in the mine when the explosion occurred was unconscious when found by rescue workers. He probably will live, physicians said. Featherstone and Gibson were at the top of the slope when fumes overcame them.

The cause of the explosion may never be known, according to mine officials, as Zion and Thayer were the only persons in the mine at the time.

## SEVEN SAFES IN DETROIT LOOTED

Police Believe Same Gang Guilty of All Crimes.

(By The Associated Press.)  
Detroit, Nov. 26.—Safe-cracking operations, which began at midnight Sunday, when \$100 was stolen from a safe in an auto accessories store, were continued in the downtown district until early Monday, by which time seven safes were reported looted. The same gang of safe blowers is believed by police to have been responsible for the robberies.

The largest haul was made when crackmen took \$2,000 from four safes in the Lafer Brothers' grocery. A safe in the offices of the Equitable Life Assurance Company yielded \$300 to burglars.

The Kalee and Forester Photographic Shop was looted of cameras valued at \$1,500. A safe door was slashed open in the Iris Theatre, but the crackmen apparently had been frightened off by the appearance of a night watchman and a patrolman who entered after seeing a flashlight inside.

Only files and ledger books were found by the crackmen who blew the safe in the Grand Union Tea Company's stores. Another place entered by safe blowers was the Blue Valley Creamery Company's office. The safe had been emptied of cash by the management before the offices were closed, Saturday.

to advise both houses of what has been done.

As for the world court—or rather the "league court"—as Senator Lodge prefers to call it—the proposal made by the late President Harding and Secretary Hughes is before the Senate Foreign Relations committee of the Senate. Mr. Lodge would just as soon let it remain there indefinitely as he sees no need of precipitating party discord at this time. But Mr. Coolidge cannot very well ignore the proposal and some reference from him to the effect that it is before the Senate is expected. Mr. Coolidge is said to be of the opinion that if the Senate can frame a substitute proposal entirely satisfactory to it and also to the other nations he would gladly accept the proposal but that in the absence of such a constructive action he would not like to see America adopt a negative attitude toward the present court of international justice.

London, Nov. 26.—Lloyd George's gift for apt phrases and political catch words is serving the reunited liberal party well, while his extraordinary energy in campaigning shows not the slightest diminution. ## BRAMPTON MAN BADLY INJURED

William Brouse, prominent Brampton farmer, suffered a broken nose, painful lacerations about the head and severe body bruises, Mrs. William Brouse, Miss Loretta Truckey and Miss Nellie Brouse sustained minor injuries, when the automobile in which they were riding collided with another machine, going in the opposite direction, near Chilson Sunday night.

Mr. Brouse and a party of five were returning to Brampton from a picture show in Gladstone. Lights of the approaching machine are said to have confused him and the cars clashed. A wheel was broken off of the Brouse machine and it turned over, throwing all of the occupants out.

Mr. and Mrs. Brouse and the other injured persons were taken to their home at Brampton. Medical attention was summoned from Escanaba and their wounds were cared for. All were said to be recovering last night.

The Brouse car was badly damaged.

## WATER IS FREE FROM TYPHOID

Escanaba's city water is free from typhoid germs and special precautions are being taken to head off any possibility of the contagion which has been reported in various parts of the city from reaching the city water supply, Dr. H. J. Defnet, city health commissioner, said yesterday.

"Although there has been absolutely no sign of typhoid 'burs' in the water as it comes from the filtration plant," Dr. Defnet said, "the water has been given special attention since the first case of typhoid was reported. We have had numerous inquiries concerning the safety of city water. It is pure and wholesome and there is no danger of anyone getting typhoid fever from using it."

Efforts to find the source of the typhoid germs have been made, Dr. Defnet said, but the department is not yet ready to make any announcement along this line.

## PYTHIANS TO STAGE ANNUAL VENISON FEED

Elaborate plans have now been completed for the 15th annual venison dinner by Escanaba Lodge No. 98, Knights of Pythias, to be staged in Castle Hall this evening at 6:30 o'clock. These annual affairs have always been filled with pleasure and this year's event, it is stated, will exceed all previous affairs in entertaining features.

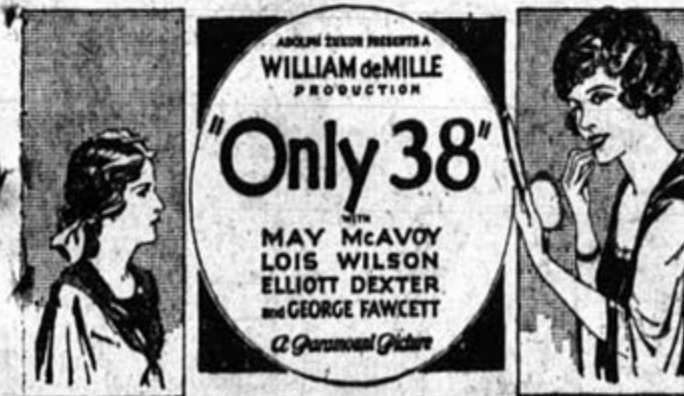

The hall has been specially decorated for the occasion and a special program has been prepared. Grand Chancellor: Fred Vos, of Grand Rapids, will be present as also will Past Grand Chancellor, James C. Wood, of Manistique. There will be other prominent Pythians from various parts of the state present and it is indicated that the attendance will break all previous records on an occasion of this kind.

This year the lodge will have as special guests, the members of the 1923 Escanaba High School football team who were awarded their letters and a portion of the program has been designed especially with reference to their entertainment and enjoyment.

The dinner is for Pythians and their friends and will begin promptly at 6:30 o'clock. And there will be plenty of good music.

## The Piffle Hook

THE OLD TIMER was talking about the good old days in football, when it was a game for giants.

"I recall," said he, "that the team I was with once went out of town to play Okawville. Okawville, you know, is ten miles up the Okaw river from Oblong. The Okawville bunch was the biggest high school team I ever saw. They couldn't get into a gymnasium and the board of education had to buy them a circus tent to use as a dressing room. They were so tall the coach rode around on horseback. They trained on a diet of hard boiled eggs and they used an oak tree in front of the schoolhouse for a tackling dummy until one of the lads hit it too hard and knocked it over.

"Their captain, the tallest man on the team, was so tall that when they held a pep meeting, instead of putting him on a platform they dug a hole for him. The game was fifteen minutes late in getting started because a bunch of fifth grade kids had stolen all the footballs and were using 'em for marbles. Okawville won the toss and decided to receive. We kicked off to them. Their quarterback received the ball on the 10-yard line and ran it back 40-yards. In the middle of the field he tripped over the gasoline barrel they were using as a water pail and fell, breaking a leg. The two teams, with the help of 30 or 40 spectators carried him to the sidelines while a couple of doctors began chopping down telephone poles to use as splints in setting the fracture.

"Their captain called our captain and the referee into consultation in the center of the field and announced that the visiting team would have to take the ball. Our quarterback is hurt," he explained, "and nobody else on our team knows the signals."

"We had possession of the ball all the rest of the game but they beat us 66 to 0. They got their points by pushing us back over our own goal line 33 times."

I wonder whether you will permit the old controversy to be reopened long enough to permit me to inquire whether you are prepared to contend that all brunettes have brown eyes?

## "THE REVELATIONS OF A PAID COMPANION"

BY JANE PHELPS.

I OCCASIONALLY DINE WITH MR. ELLWOOD. Chapter XV.

Slowly, but just as surely, Mrs. Ellwood was growing more and more of an invalid. She now spent most of her time on a couch drawn up to the window, or in a large chair. Her eyes also had grown worse, and the doctor feared total blindness, it seemed so dreadful, a woman with so much to live for, so much to make her happy. And she was so sweet and uncomplaining, even gay at times when the pain wasn't too severe.

Naturally her condition increased my duties. She had been a great reader, fond of books. I read to her for hours each day, not all light reading, but the classics as well. If I had nothing else to be grateful to her for, the cultivation of a taste for the really great books would be cause for gratitude. I said something of the sort to her and she replied: "Books are a great comfort as well as a great diversion. Rita, and the education one derives from them, is incalculable. I don't know what I should do without them, now that I am growing so helpless."

Tears filled my eyes. I whisked them away, thankful she could not see them. I had learned to love her dearly, and always there was the feeling that she had been my salvation, had taken me on trust when I had no one, no home. I felt there was nothing I wouldn't do for her, that never could I do enough.

Now that Mrs. Ellwood was confined to her room I knew more of what was going on in the family, paradoxical as it may seem,

own business. I'll look out for myself, thank you."

"Driving fast, and driving as he does when he's half drunk are two different things, and you know how dad and mother hate to have you with him."

"What they don't know won't hurt them, and anyway Larry's all right." Mollie's tone changed. "You won't tell them, Guy? It won't make any difference if you do," recklessly, "only to make trouble."

"I'm no tale carrier, Mollie. But Larry's no good. A man that will take such risks hasn't any business to be your companion, and he is drinking more heavily than usual, too."

"What a cheerful fellow you are, Guy. I'd pity any girl who falls for you. You're a regular Mr. Gloom."

I was glad when they moved out of my hearing. I had not meant to listen, but could not move without disclosing I had already heard the beginning of their conversation.

So Larry Ward was a reckless, drinking fellow? I thought now I understood Mrs. Ellwood's sadness, her fears.

Tomorrow—I Allow Guy To Think I Have a Lover.

## THE OLD HOME

By Stanley

DOCTOR PILLSBURY VISITED AUNT SARAH PEABODY TODAY AND ANNOUNCED PUBLICLY THAT SHE HAS A SEVERE ATTACK OF ASTHMA BROUGHT ON BY THE EXCITEMENT OF AN ARGUMENT WITH TWO PIPE SMOKING DRUMMERS.

## A SOUND POSITION.

It is a most reasonable position taken by the Escanaba city council, demanding that if the state legislature, at its forthcoming special session adopts a gasoline tax bill, that special consideration be given the cities of the state where the bulk of the proposed tax will be collected. According to the terms of the gas bill passed by the legislature at its regular session and vetoed by the governor, it was provided that the proceeds from the tax be divided equally between the state highway departments of the several counties in the state. Believing that the proposed gas tax will come before the special session of the legislature in somewhat the same form as at the regular session, a movement has been started in Grand Rapids and other cities by Escanaba and other cities of the state, demanding that a provision shall be included in the bill under which at least a small part of the tax collected in those cities shall be returned to those cities to be used for general street maintenance and construction work. As first framed the entire tax would be devoted to the construction and maintenance of state trunk line highways by either the state highway department or the county highway departments. Under such a plan the cities, where admittedly a large part of the proposed tax will be collected, will benefit only in the construction and maintenance of trunk line highways through the municipalities.

## CITIES JOINING IN THE PROTEST.

rightly take the position that the municipalities are entitled to greater consideration because of the necessity for building and maintaining a multiplicity of pavements for the accommodation of an ever increasing automobile traffic.

## COACH YOST.

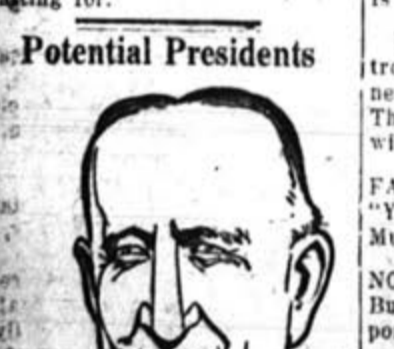

If Coach Fielding H. Yost of the University of Michigan, adheres to his announced intention of abandoning the active work of coaching future Michigan football squads, he has selected a time for his retirement when the story attached to a name to conjure with in the football world for years, is still undimmed. Michigan has just closed one of the most successful football seasons in the history of the state university.

## TO PLAY THE SEASON WITHOUT A DEFEAT, AN ACCOMPLISHMENT BEHEIVED IMPOSSIBLE TWO WEEKS AGO BECAUSE OF THE REMOVAL THROUGH INJURIES OF FOUR STARS FROM THE TEAM (IS A TYPICAL YOST FEAT. HE PROVED THE OLT REPEATED CONTENTION THAT "YOST ALWAYS HAS MORE THAN ELEVEN MEN ON HIS TEAM."

Football followers in Michigan will hardly view with compunction Coach Yost's retirement, but it is possible that this is such a year that the greatest football strategist in history, has been waiting for.

## KIWANIS CLUBS MENTAL DRILL

Charles E. Lewis, O. I. Egan and B. P. Pattison demonstrated their superior mental alertness at yesterday's meeting of the Kiwanis club, but taking first, second and third prizes, respectively, in an "intelligence test" prepared by R. R. Kenzel, of the program committee from an article in the American magazine.

Twenty problems in arithmetic were read by Mr. Kenzel. Mr. Lewis solved 13 correctly within the time limit specified, Mr. Bandeen scoring with 17 and Mr. Pattison 16.

Dr. G. A. Cotton, district governor, told the club about his recent visit to Washington as a delegate of the city council to the annual convention of the National Municipal League.

The trip included visits to Harper's Ferry, the Antietam battle field, John Brown's grave, the Washington Memorial under construction by the Masonic fraternity, Mount Vernon and points of interest in the capital city.

Visited Capital Club.

Mr. Cotton told in detail of the southern dinner served for the convention delegates by the Kiwanis club of Alexandria, Va., and the meeting which followed the meal, and of a trip to the old Washington home arranged by the club. He also attended a meeting of the Washington D. C. Kiwanis club.

## FIRE DAMAGES JOHNSON "ADS" STORE SUNDAY

Johnson's A. D. S. Store on Deer street was the scene of a damaging fire early Sunday morning.

The local fire department responded to a call at about eight o'clock, and found smoke and flames issuing through a hole which had burned in the floor of the building near the furnace radiator. The fire was extinguished before great damage had been done, but fixtures and stock in the new building were covered with smoke and fumes.

The fire is thought to have originated in a pile of paper and cardboard accumulated near the furnace, which came into contact with the heater jacket.

## BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wright's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. ## PRAISE DAIRY COW AT CIVIC CLUB MEETING

### E. G. Amos and G. E. Bishop Are Monday Speakers.

A crowded dining room greeted E. G. Amos and G. E. Bishop, who addressed the Monday meeting of the Manistique Civic Club on the dairy development question, a movement that is now being actively supported here by the local club.

Mr. Amos, who was formerly county farm agent here, and is well known throughout the city and county, was the first speaker to be introduced by President George Bruske. He explained details of the scrub bull contest which is being organized all over the Upper Peninsula, and showed the benefits derived from pure bred stock. Following the Civic Club meeting, a group representing various organizations and business enterprises held a conference at the club rooms, and launched plans to enter Schoolcraft county actively into the campaign for eradicating the scrub bull.

George Bishop, secretary-manager of the Upper Peninsula Development bureau, was the next speaker. Mr. Bishop declared that the industrial growth of a city depended largely on the prosperity of the farming community surrounding it. This prosperity, he said, could be accomplished by better dairy herds, and he cited instances where dairy cows have "made" the towns.

Mr. Bishop also commented briefly on results that had been accomplished by the Ashland plan or modifications of this plan, where it had been put into practice.

The local club has been seriously considering the adoption of some similar plan for placing better cows in this county, and a standing committee now has the matter in hand. Together with Mr. Bishop, members of this committee met yesterday to discuss the possibilities of the project.

Although the Manistique Legion basketball team has had but one regular practice, they are already receiving requests for games with outside teams, and a communication was received this week from the crack Kalamazoo quintet, asking for a place on the local schedule. Harry Potter, Manistique, is included on the line-up of the Kalamazoo team.

## Marriage Licenses Issued Saturday

A report which reached Manistique yesterday told of an auto accident which occurred at Parker's Corners, beyond Marblehead, Sunday night, when an Overland Coupe turned over completely. The occupants of the car, who were from Blaney, were not seriously injured.

## Auto Speeding Big Feature In Picture At Gero

Auto speeding is a feature of the movie which will be shown to Manistique folks at the Gero this week. It is called "The Dangerous Age."

Lewis S. Stone, who heads the cast in this photoplay, drives an automobile in a spectacular chase and on three occasions traveling close to sixty miles an hour, he just misses the big locomotive at road crossings, finally being compelled by the scenario to desert his auto on the railroad tracks and watch the engine smash it to smithereens.

Stone's life was in danger every moment during the "shooting," but inasmuch as motion picture actors become accustomed to taking chances, he considered it "all in the day's work" and did not turn a hair, even though no insurance company would have issued a policy to him after a glance at said scenario.

## RESIGNS AFTER TWENTY-THREE YEARS SERVICE

A record of twenty-three years of service for the Soo Line was completed Friday when Joseph Theriault, veteran baggageman on the road, presented his resignation to take effect at once, at the Soo Line office here.

Ill health forced the baggageman to leave his work. He had suffered several heart attacks and when his condition became worse, the decision to give up work resulted.

Mr. Theriault was night baggageman at the Soo Line station here for the past twenty-three years and was a familiar figure about the place. His absence will be keenly felt by those accustomed to see him at his work.

The condition of the baggageman was yesterday reported to be serious, but his many friends are hoping that rest will aid him in recovering his health.

## UNABLE TO FIND TRACE OF FORGER

Efforts of police have thus far failed to find any trace of Frank Lewis, lumberman, who is wanted here on a charge of passing a raised check.

The check, one of the I. Stephenson company's where Lewis evidently had been employed, had been made out for \$4.60 on October 1, and was raised from that amount to \$84.60. It was presented at the Henry Rosenthal department store a few days later in exchange for merchandise.

Discovery of the fraud led to notification of the police and a thorough search for Lewis was started but thus far authorities have been unable to locate the man.

## EASTERN STAR PARTY PROVES BIG SUCCESS

Undoubtedly one of the prettiest parties held in Gladstone in recent years was the Thanksgiving dance given last evening at Wassa hall by the Eastern Star society for members of that order, members of the Masonic organization and their friends.

The hall was decorated for the affair in a scheme, the beauty and novelty of which brought admiration from all sides. A large star, symbol of the order, with points of red, blue, yellow, green and white, formed the center of the decorations, while streamers of corresponding colors extended from the star to carry out the color scheme. Softly shaded floor lamps and greenery added to the beauty of the background.

The orchestra platform was banked with ferns and the decorative scheme was carried through here with the streamers and another large star.

Bohr's Kittens played a splendid program of modern and old-time dance music. Waltzes and old-fashioned steps, for which Earl Williams of Escanaba, called, were featured.

The affair was decidedly enjoyable throughout and much more said in praise of Mrs. E. C. Dayton, general chairman, her committee, Mrs. Glenn Jackson, Mrs. Mary Henke and Miss Hazel Peterson, and Curtis Haley who supervised the decorations.

The Orange Turnout in a low score of 58; Columbia finished second with 66 and Harvard third with 700.

The freshman race was won by Penn State, which also repeated its 1922 triumph in this event, held over a three mile course. Yale's yearlings were second and Pittsburgh third.

Verne Booth, John Hopkins' star won individual honors in the varsity event and Smith of Yale was the individual victor in the freshman contest. Booth's time of 32:10 set a record for the course.

Playing on a slippery field, in a constant rain, the South Siders defeated the Bull Dogs in their annual football game at South Park, Sunday afternoon, 7 to 0.

The South Siders' touchdown came in the third period after they had blocked a punt on the one-yard line and Gerald Snyder a Southerner end, fell on it back of the goal line.

Most of the way, the battle was nip and tuck. The Bull Dogs had difficulty in getting their passing attack under way, due to the slippery condition of the ball, and they also were handicapped in their regular formations which were not good for wet weather football.

The South Siders played a remarkable game, however, and earned their victory.

Weather Hurts Attendance  
There was no admission charge at the gate and the attendance, due to the weather, was small.

The lineups were:  
BULLDOGS—Berrigan c. H. Pariseau and Curran guards, Aley and C. Pariseau tackles, L. Londo and Strahan ends, Degan quarterback, Savard and Wurlley halves, Goulet and Burnell fullbacks.

SOUTH SIDERS—R. Christensen c. C. Aronson and R. Olson guards, Schwebach, Ashland and Witke tackles, T. Andrews, A. Andrews, Collins and Snyder ends, Hegar quarterback, Rafferty and H. Aronson halves, T. Aronson fullback.

Harris High School Victor Over Powers

Rockne Aids Old Friend Prepare Gonzago Eleven  
(By The Associated Press.)  
South Bend, Ind., Nov. 26.—Knute Rockne today lent a helping hand to his old teammate, Chas. Dorais, in preparing the Gonzago University eleven in its intercollegiate clash with Detroit on Thanksgiving Day.

The Gonzago team is stopping in South Bend until Wednesday and the two ex-Notre Dame players, famous opponents of the passing game worked together with the westerners on Cartier Field this afternoon. Gonzago was sent through a stiff workout early in the afternoon and the Notre Dame team, which plays St. Louis on Thursday at St. Louis took the field later. Rockne excused his first team from the drill and gave the reserve team only a light session.

## Soren Johnson, Jr. Named Captain Of Gladstone's Team

### (By The Associated Press.) New York, Nov. 26.—Soren Johnson, Jr., was last night elected the captain of the 1924 Gladstone football team. Johnson is one of the best players of Gladstone high and has played at left guard for two years. Not only has he filled his position in a satisfactory manner but he is also an excellent passer and punter. The prevalent opinion is that he will make one of the best leaders the Gladstone football team has ever had. He will be a senior next year.

The eight groups suggested are merely tentative. It is believed that they will form a first-class basis, however, for an industrial league, and that the method of arranging the proposed teams would be satisfactory in every way.

The city indoor baseball championship, of course, would be at stake, and it also has been proposed that the winners of the higher positions in the percentage column, when the schedule had been played off, would be the guests at some sort of banquet or entertainment staged at the expense of the tail ends.

Two Games a Week.  
The plan, as it now stands, was worked out by Principal R. E. Cheney and Coach Glenn Thompson, of Escanaba high school. The high school gymnasium will be available for the use of business men of the city on Wednesday night of each week. Two games could be played each Wednesday night.

An eight-team league were organized, each team would get into action twice a month. Discussions of the suggestion about the city yesterday were enthusiastically favorable to carrying it out, and it is confidently expected that the meeting, Dec. 5, will start things along that line.

Woman Kills Large Fox Near Garden  
Mrs. W. Rivers of Muskegon, who has been visiting at the Farley home in Garden, went hunting long enough last Friday, to kill one of the largest foxes ever bagged in that part of the county. It was learned here yesterday that the woodsman in that locality declared the pet to be one of the finest they ever had seen.

"The Fairies' Frolic" includes in its cast Ethel Beauchamp, Janet Trudeau, Blanche Richards, Lorraine Pillion, Marie Charbonneau, Lucille Gagnier, Lucille Beauchamp, Cecile Gibouneau, Bernice St. Peter, Lucille LaFleur, Lucille DeLisle, Lada DeMers, Lucille Trotter, Elsie Beauchamp, Marguerite Roberge, Helen Beaumier and Irene Cyr.

## BUSINESS MEN APPROVE PLAN

### Believe Commercial Indoor Baseball League Would Be Successful.

Retailers and wholesalers, professional men and manufacturers, City-county-state-federal employees, railroads, school teachers and men who do not come in any of the seven foregoing classes, will meet at the high school Wednesday night, Dec. 5, to talk over plans for the organization of an indoor baseball league.

The eight groups suggested are merely tentative. It is believed that they will form a first-class basis, however, for an industrial league, and that the method of arranging the proposed teams would be satisfactory in every way.

The city indoor baseball championship, of course, would be at stake, and it also has been proposed that the winners of the higher positions in the percentage column, when the schedule had been played off, would be the guests at some sort of banquet or entertainment staged at the expense of the tail ends.

## STOCK PRICES GOING UPWARD

### Bear Selling Fails to Weaken Trading Yesterday.

(By The Associated Press.)

STOCK SALES SUMMARY.  
Total sales 1,622,200 shares. Twenty industrials averaged 92.88, net gain .28. High 1923, 105.38; low 85.76. Twenty railroads averaged 84.28, net gain .35. High 1923, 90.51; low 79.53.

New York, Nov. 26.—Stock prices continued their upward movement today despite intermittent profit taking and bear selling in most sections of the list.

United States Steel, Baldwin, American Can and Studebaker, generally recognized as the pivot points, all touched new highs on the current upswing, although the early gains were materially reduced or cancelled before the close.

Bank Clearance Significance.  
Considerable significance was attached by operators on the long side of the market to the fact that bank clearances ending Nov. 26, the latest figures available, were \$242,000,000 over the previous week and the highest since October 20, whereas ten per cent of the clearances of this period shows a decrease of 5.4 per cent have been normal changes.

Davidson Chemical was again the most spectacular individual feature, closing 8 1/2 points higher at 75 7/8 after having had slightly above that figure. The stock touched 55 in the post-nominal decline last Thursday. Maxwell Motors "A" which has been fluctuating rather wildly as a result of rumors of a merger with Studebaker, broke more than 5 points to 5 1/4 in the early trading and then rallied to 7 1/2, 1 1/2 where it was off nearly 2 points on the day.

Directors are expected to meet tomorrow when some definite announcement probably will be made.

Steel Shares Benefited.  
Steel shares were benefited by the optimistic forecast of Chairman Topping of Republic Steel, who declared that the volume of business for this season of the year was better than expected, and that he could see no reason why there should not be normal business next year. Modern strength also developed in the merchandising, tire and electrical issues.

A sharp rally of more than two cents in demand sterling to above \$4.38 1/2 featured the foreign exchange market. Substantial gains also took place in the Scandinavian exchanges with the other continental currencies improving moderately.

### COUNCIL TALKS PAVE PROGRAM

#### Much Study Necessary in Framing Plans for Next Year's Work.

Members of the Escanaba city council and the members of the board of directors of the Chamber of Commerce held an informal conference at the city hall last night. No announcement was made concerning the subject under discussion. The conference was held at the request of the Chamber of Commerce and was understood to have dealt with broad matters of policy in which the council heard views of their visitors on several matters.

Following the conference, the members of the council discussed informally their plans for next year's paving program. The meeting was a lengthy one and many minor details of the program were threshed out, it was said.

**Extensive as Possible.**

The council, realizing that Escanaba, despite the amount of work completed in the last two years is still several years behind in its paving activities, is known to be anxious that as much work as possible be done during the next 12 months. While any steps which would make the program burdensome in a financial way upon any section of the city or group of citizens, and the benefit prevails that the program should be as extensive and as complete as sound business and good public policy will permit.

Except for the streets which City Manager Fred R. Harris recommended several weeks ago, no definite announcement of the scope of next year's work has been suggested.

**His Expert Advice.**

The council has sought expert opinion not only in regard to the width, type and variety of the materials, but specialists in the city planning have been asked for opinions on the streets.

### BAD BREATH

#### Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, purging cathartics are derived from Dr. Edwards' Olive Tablets without any pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 50c.

### Coughing is unnecessary and can be controlled

**C**OUGHING is frequently due to an irritation of the throat and lung tissue which persistent hacking only makes worse. You can stop coughs of this character almost at once with Dr. King's New Discovery. It relieves the irritating tickle and quiets the impulse to cough, thus giving the inflammation that is causing the cough a chance to clear up. You'll like its agreeable taste. All druggists.

which, if paved, would give the city as a whole, the most service. Generally speaking, this expert advice will be followed, but the desires of the property owners will be given the most careful consideration. No program can, of course, be put across without consulting the tax payers whose property is affected and the council has no desire to attempt anything without the advice of the citizens whose property is affected.

**Much Investigating.**

Although the paving program is being treated from a city wide viewpoint, it was pointed out yesterday that such a viewpoint must certainly consider the needs and desires of every district in the city and the council expects to do a tremendous amount of investigating and "sounding" before any definite paving plans are completed.

### REV. COLENZO STIRS MEMBERS OF CLUB HERE

Rev. Harry W. Colenso, of Gladstone, brought a most inspiring Thanksgiving message to members of the Escanaba Rotary Club yesterday at the annual Thanksgiving observance of that club.

In addition to the address by Rev. Colenso, yesterday's Rotary luncheon was marked by a most impressive impromptu ceremony when announcement was made of the appointment of E. C. Vogt as acting president of the club, to take the place of President F. B. Houston, who with Mrs. Houston, will leave Escanaba today for an extended stay in the south. The regret felt by members of the club at the retirement of President Houston was most feelingly expressed by M. K. Bissell, in a brief address, in which he told of the qualities as president and as a Rotarian that have endeared Mr. Houston to all who have been associated with him. A suitable gift from the club to the retiring president was made by Mr. Bissell at the conclusion of his address.

**A Citizen By Choice.**

Rev. Colenso, born in England and a citizen of the United States by choice, most forcibly brought home to the members of the Escanaba Rotary club the multitude of benefits for which any citizen of the United States should give divine thanks at this Thanksgiving. He reviewed the progress of the nation from its inception and enumerated accomplishments of recent years to build here the richest and most secure nation of the world.

**Praise Amendment.**

Rev. Colenso called the enactment of the Eighteenth amendment as one of the greatest forward steps for humanity of the age and insisted that every true American must as vigorously support the enforcement of that law as any other national statute. He told of the stabilizing influence and the benefits that have accrued to the nation through the Christian religion and delineated a fervent plea for a spirit of cooperation with the church from the men of the community. At conclusion of his address, the visiting speaker was rewarded by an ovation that continued for several moments.

Miss Helen Bradner of Powers returned to her home after a shopping trip in the city.

**Picture Draws Crowd.**

A large crowd attended the picture, "East Side, West Side," which was shown at St. Joseph's auditorium Sunday at two shows. The coming attraction for this week is the famous Lon Chaney, who played the part of the cripple in the "Miracle Man." He has just finished another picture, "The Hunchback of Notre Dame." In these as well as in the beautiful picture which will be shown Thursday, Thanksgiving Day, "Flesh and Blood," Lon Chaney keeps the audience spell bound, so marvelous is his acting.

The story is eloquently portrayed in "Flesh and Blood." See it and be convinced.

## Ford Trucks Are Bought On Performance Records

If you were to ask a hundred—or a thousand—Ford truck owners why they use Ford trucks in preference to all others, they would likely say, "Because the Ford stands up."

They know that under the endless grind of daily service the Ford stays on the job month in and month out, with very little mechanical care, and with practically no expense for repairs or replacements. They buy to get performance.

A few might add that the Ford is the lowest priced truck on the market. But they would emphasize the work this truck does, not its initial cost, in accounting for the fact that there are more Ford Trucks in use today than all other makes combined.
