Even President Coolidge, "Silent Cal," as they call him, has to smile when Harry Daugherty tells him a funny story. Photo above was snapped while Daugherty was talking on a recent visit to the White House. It's an unusual photo for a president.

NEW TIMBER IS NECESSARY IN DEMOCRACY

FEAR M'ADOO RECORD IS TOO VULNERABLE.

Washington, Mar. 1.—It is anybody's race now for the democratic nomination for the presidency. While William Gibbs McAdoo, former secretary of the Treasury, has by no means been eliminated and his supporters insist that the recent attacks on him for receiving large fees as attorney for corporations involve no wrongdoing, there is no question but that he has been injured politically.

Both Progressive. Both men were close friends and appointees of the late President Wilson and both are of the progressive school in politics.

In favor of Mr. Brandeis is the fact that he has been on the bench for several years and therefore not in any way mixed up in recent administrative controversies, that he is a liberal and commands the confidence of the western progressives who want the next presidential campaign fought out on progressive lines as opposed to conservatism and what has been termed reactionary tendencies.

Against Mr. Brandeis is the fact that he was a progressive republican rather than an old-line democrat before he became a Wilson man. Also he has no organization support in the democratic party as a nucleus for the campaign, though this might prove an asset.

Former Justice Clarke's name has been continually coming up ever since he left the bench. As he is a native of Ohio and is held in high repute there the democrats who favor him think a man who could carry Ohio is worth considering.

Free From Oil. The mention of both these men is due to a desire to get candidates who have had no affiliations whatsoever which could be attacked and to carry to the people men of integrity as a pledge of good government, the theory being that the oil scandal will bring them ever before the political X-ray on personal character and business affiliations.

Many democrats are already counting on a victory by means of the western and southern electoral votes and to win the west they think candidates of the Brandeis and Clarke type will be necessary.

The friends of John W. Davis of West Virginia have renewed their efforts in his behalf arguing that if Mr. McAdoo's corporation does not make him politically ineligible, they also can not disqualify Mr. Davis. The latter was president of the American Bar Association and is considered one of the ablest lawyers in the country and his friends say that if he received large fees they would not be incommensurate with those received by Charles Evans Hughes after he retired from the supreme court bench and practiced law in New York, or those of Elihu Root in his days of activity.

Smith Is Popular. Besides the foregoing names, there is a noticeable rise in interest in the candidacy of Governor Al Smith of New York whose supporters are counting a good deal on the "wet" atmosphere of New York to win over the democratic delegates when the convention meets in the Metropolis next June.

Newton D. Baker of Ohio, former secretary of war in the Wilson cabinet, is being talked of more and more and it would not be surprising if he won the vice presidential nomination.

This would not be likely to develop, however, if an Ohio man—either James M. Cox or Justice Clarke—were to be named to head the ticket. Mr. Cox is getting into the race again and is expected to do a good deal of speaking in the primary campaign. He is in the type of political personality

Photo copyright, Harris & Ewing

DIRECT DESCENDANT—William Henry Harrison as our ninth president lived in Washington of course. Among his direct descendants still living in the capital is Miss Margaret Harrison (above), daughter of Mr. and Mrs. B. E. Harrison. The beautiful young school girl is one of the most popular of the younger set.

LOOK AT THIS, AND THEN PITY THE TEACHER!—Lakeside Ward School at Pine Bluff, Ark., claims the world's record for twins in these seven sets. The five sets at the left are all in the fifth grade, taught by Mrs. T. H. Davies, who mother of the twin set of little girls, third from the right.

AND SHE WANTS TO BE TALLER!—Usually girls who dance on the stage like to be small. But Allene McGill (above), a perfect blonde who dances in "Lollipop," the Broadway play, is almost six feet and she dresses to accentuate rather than decrease her height.

IN THESE ROARING 'TWENTIES—Shepard Snel of Darby, Pa., and Hildagarde Gillespie of Bryan Mawr, Pa., were married by a preacher in his nightie at Elkton, Md., after Snel had proposed over the telephone and carried his bride to the altar in her pajamas.

SWIFT!—This shows Mrs. Frank J. Gould, wife of the American millionaire, in action during her recent tennis game at Cannes, with the French marvel Suzanne Lenglen. Suzanne won.

LET'S LIGHT UP!—Say, Gertie, let's have a little smoke! They'll be doing it this summer along all the beaches. It's now the fad in California. Little waterproof cases, like the one Bonnie Becker of Los Angeles is wearing in this picture, make it possible for bathers to enjoy a few puffs when they come out of the water. They're also handy as receptacles for money or jewelry.

LUCKY ARTISTS—Dorothy Herriman forgot about the cold winds off Lake Michigan and wore this costume to the "Wonderland Fantasy" given by students of the Art Institute of Chicago.

ARISTOCRATS OF DOGDOM—Many wonderful specimens of dog-flesh were in evidence at New York City's annual dog show. "Oak Wall Model" is the husky looking pup on the left. Governor Al Smith's "Jeff," a great Dane, shown upper-right with Walter Smith, also is entered, as is the friendly little pup shown in lower right. His name is Peaster's Little Chicuelo II.

SOME CONCERT WHEN THEY GET STARTED!—But George R. Hudak of Youngstown, O., would qualify for a floor-walker's job in any department store. Certainly must be tough on him when all these youngsters begin their early morning caroling. George Jr., on the extreme left, Angle, on the extreme right and Mary, in the center, are triplets. And Edna, on Mary's left, and Emma, who's wasting no time completing her lollipop luncheon, are twins.

"GLINT!"—"Glint of the Sea," the piece of sculpture shown above, won Chester Beach the 1924 Gold Medal as the finest exhibition of the Architectural League of New York.

SEARCHING—Authorities are looking for Maye Cookson (above) of Needham, Mass., alleged white slave victim of Dr. Edwin C. Ruth, former federal narcotic agent, who also has disappeared.

A QUEEN!—She was only a shop girl a few weeks ago. But now all New Orleans bows in homage to Mae Kissinger's feet. For she is a queen. She is ruling over one of the...

HE KISSED HER—An innocent little kiss has created quite a furore in Kansas City (Kas.) educational circles. But Miss Margaret Pratt, 17-year-old high school senior, the...

High Spots of WFAF Program for Next Week. Mar. 1 to Mar. 7. Schedule. Mornings—Tuesday to Friday, inclusive—10:00 to 11:00 a. m. Afternoons—Monday to Saturday—3:00 to 4:30 p. m. Evenings—Monday, Tuesday, Friday, Saturday—6:30 to 9:00 p. m. Evenings—Wednesday and Thursday—6:00 to 8:00 p. m. Sunday—1:45-4:30 and 6:30 to 9:00 p. m.

WEAF presents the New York Federation of Churches program at 1:45 p. m. as usual on Sunday afternoon, followed by an address by Dr. S. Parkes Cadman speaking at the Sunday Men's conference. In the evening the Capitol Symphony orchestra will play followed by a special program from the Capitol Theatre Broadcasting station.

Monday. A feature of the program on Monday afternoon will be a debate "RESOLVED: That the Coal Miners Shall Receive More Wages," with Ellis Searles, Editor of the United Mine Workers Journal of America on the negative side of the question and Hon. Byron R. Newton, former assistant secretary of the Treasury and now legal advisor to the mine operators, on the positive. The debate will be held under the auspices of the Government Club

Iron Trade Review

Cleveland, Ohio, Feb. 29.—Iron Trade Review today says: Conservative buying policies which are being followed painstakingly by many consumers tend to keep the iron and steel market on an even keel. Spectacular movements of new tonnage and prices which often have marked similar conditions of flush demand in the past, are conspicuously absent. The day-to-day tonnage coming from a variety of sources is maintained at a large aggregate. This evidence of steady consumption and the general prospects have led to the opinion in high places in the industry that the present full rate of operations may be expected to continue to July or August at least.

In the Mahoning Valley, openheart steel works of independent producers are 92 to 94 per cent engaged which represents practically maximum capacity. For the entire industry the average remains 85 to 86 per cent. Settlement of the bituminous wage scales for a period of three years has been favorably received by the steel industry. This removes a prospective disturbance of the market.

Reports from the automotive industry are mixed. The Ford Motor Co. has cut down its production schedule to below 8,000 daily but other leading builders either are maintaining or increasing theirs. The New York Central has distributed its large order for 14,500 cars which includes the 8,000 reported last week. This order calls for 277,500 tons of steel. It has also placed 100 locomotives additional making 170

Local Insurance Man Wins Eastern Trip

J. H. VanWolff left Saturday evening for New York city, where he will represent the Prudential Insurance Company at a special convention of Top Notchers. The Escanaba District having lead in the state of Michigan, Mr. VanWolff has been chosen to represent this district. He will be accompanied by his wife. They expect to be gone about two weeks.

"I thought," said the disappointed friend, "you told me this election was going to be a walk-over." "Well," answered the defeated candidate, "it was. And I was on the doorstep." Exchange.

SWEPT OFF HIS FEET.

"Price Tendency Is Sharply Upwards"

A NUMBER of the leading automobile manufacturers, including several building six-cylinder cars in the thousand dollar class, have recently increased their prices. Certainly this indicates the present tendency.

It is our fixed policy to give the public the biggest possible dollar's worth, to operate on a reasonable margin of profit and to avoid price increases. We cannot promise, however, that the present low prices for Paiges and Jewetts can long be continued.

We have seen many indications of a shortage of six-cylinder cars in the popular priced field during the coming Spring. Attempting to give the

biggest dollar's worth of motor car in our price classes, we have built the most modern and efficient factory of its kind for the exclusive production of the Jewett. And Paige production, increased 300%, is now going on again in the big plant that made Paige Quality Reputation.

Every possible effort has been made to be certain that we can supply quality cars at reasonable prices. But no manufacturer can make during April, May and June all the cars needed during those months.

The wise buyer should recognize that there is likely to be a Spring shortage of desirable makes of motor cars and that the price tendency is sharply upwards.

H.M. Jewett President.
