M'ADOO PLAN IS SIMILAR TO TIME TABLE INEVITABLE EARLY FIGHT IS WITH AL SMITH.

New York, June 21.—Like a railroad time table—subject to change without notice—is the list of claims of the various candidates for the democratic nomination for the presidency.

How They'll Line Up. The writer has obtained from one of the McAdoo managers a table which represents the maximum strength thus far of the former secretary of the treasury.

Table with 2 columns: State, McAdoo or Plugged. Lists states like Maine, N. Hampshire, Vermont, Massachusetts, New York, New Jersey, Connecticut, Delaware, Maryland, Virginia, N. Carolina, S. Carolina, Georgia, Florida, Mississippi, Alabama, Tennessee, Kentucky, West Virginia, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Louisiana, Texas, Oklahoma, Kansas, South Dakota, North Dakota, Montana, Wyoming, Utah, Idaho, Nebraska, Colorado, New Mexico, Nevada, Arizona, Arkansas, Rhode Island, California, Oregon, Washington, and Totals.

Look for Break. The second column contains many states who will have favorite sons but who are expected to go to McAdoo on the third or fourth ballot.

Never Pass Majority. Subtracting these differences the totals would appear to be 304 pledged to McAdoo as instructed or endorsed, and 308 friendly or a maximum of 612 votes which leaves 550 anti-McAdoo.

BOTH CAMPS ARE SHOUTING WILD CLAIMS

F. F. V. DELEGATES BOOM GLASS AS COMPROMISE.

New York, June 21.—The 90 votes strong, today elected officers and chose its leaders to conduct the fight for the nomination of Governor Smith.

Tug of War. The fight for the Democratic presidential nomination has become a resolute tug of war between the supporters of McAdoo and Smith, with partisans of a dozen favorite sons looking on with an apparent air of grim satisfaction over the prospect.

Engagements Cancelled. Dr. Defnet, in common with other public health officials of the upper peninsula, had been without copies of the official state order, and had believed that since the attractions in question were not coming to the peninsula from the smallpox stricken districts of the lower state, no difficulty would be experienced in procuring permits.

Here's Where Some Of Your Money Went

Kearyne, N. J., June 21.—Cases of tobacco totalling 1,800,000, bought for overseas troops with the contributions of patriotic citizens during the war, are being used as filler for a new road along the banks of the Hackensack river here.

Carls Lock Wheels. The accident to Leicklider occurred in the sixth lap in the third heat. His car locked wheels with the one being driven by Walter Purvis, Jacksonville, Fla.

Purvis' car was forced against a concrete wall but he was unhurt. The officials immediately flagged the other machines and called off the heat.

Burkey was hurt when he drove through a fence on the seventh mile of the second heat. He managed to keep his car upright and crawled out of the wreckage.

Walley Amundson of Minneapolis, won the second heat. The first 30-mile heat was won by Ray Claypool, Kansas City, in 27 minutes, 36 2-5 seconds. Larry Stone, Birmingham, Ala., was second.

HEAT WAVES ARE EXPECTED TO DEVELOP

Chicago, June 21.—Summer made its official bow at noon today and at the same time the middle west was promised its second taste of extreme summer weather.

Farmer Shoots Family and Self

Bismarck, Mo., June 21.—George Presley, 35 years old, his wife and their two year old son, were found dead and a four year old daughter seriously wounded in the Presley farm home in the thinly settled hill section west of here in Iron county tonight by officers who went there to arrest Presley after he was alleged to have shot his mother-in-law in a family quarrel.

20 INJURED IN TROLLEY WRECK

Detroit Car Jumps Track And Crashes Into a Tree.

(By The Associated Press.) Detroit, June 21.—At least 20 persons were reported injured, some believed seriously, here shortly before midnight when a street car jumped the track and crashed into a tree, wrecking the front half of the car. Several ambulances removed the injured to hospitals.

had cancelled their visit and were preparing to leave the state rather than submit to quarantine. Dr. Defnet immediately called the state board of health on the long distance telephone. The refusal of the state board to ever consider the granting of a permit was emphatic. The ban becomes effective today, and seems to be not the slightest chance that it would be modified for several weeks.

Not only is the lower state territory infested with the loathsome disease, it was said at Lansing, but epidemics are raging in Northern Wisconsin and Minnesota, particularly in the vicinity of Duluth. Dr. Olin is reported to have contended that the ban was applied to the upper peninsula in order to prevent the disease from getting a foothold in the only healthy part of the state.

Cancellation of the Sheesley shows is a severe blow to Cleveland Post's plans for financing the upper peninsula convention of the American Legion July 3-4-5. The Legion had a sizeable "guarantee" contract with Capt. John M. Sheesley, and had built its plans accordingly.

Small Blaze In Wooden Sidewalk

A small blaze in the wooden sidewalk across from the Ludington Hotel resulted in a call for the fire department last evening. The fire was quickly extinguished.

Figuring Way To European Peace

(By The Associated Press.) London, June 21.—New ways to a peace understanding in Europe, with the experts report on reparations figuring prominently, are being discussed at Chequers Court tonight by the British prime minister, Ramsay MacDonald, and the French premier, Edouard Herriot. The head of the French government arrived this afternoon to begin again the personal negotiations among the allied premiers which were interrupted when M. Poincare was defeated.

Neither has Two-Thirds. But from both sides it can be written down even at this date that neither McAdoo nor anyone else has a two-thirds vote assured and the McAdoo claim of a majority is disputed.

Lebouff Escapes Serious Injury In Auto Mishap

William Lebouff narrowly escaped serious injury last night when the big Hudson he was driving turned completely over in the ditch near Terrace Gardens. Lebouff was on his way to Gladstone when he was suddenly blinded by the bright lights of two cars coming in the opposite direction. He turned out to his side of the road and was suddenly confronted by a Ford car without lights parked by the road. Lebouff put on his brakes, narrowly missed the Ford, skidded into the ditch and the car turned completely over. He was uninjured but the car was somewhat damaged.

Yanks Take Some Horse Show Honors

(By The Associated Press.) London, June 21.—The American entrants in the international horse show at the Olympia had better luck today than at the opening of the competition yesterday, and when the day's program was finished they had one first prize and two thirds to their credit. Only a third place, in the jumping competition for the Daily Mail cup was taken yesterday by Major J. A. Barry, of the United States army, with "Miss America."

Competition in all the classes was exceptionally keen, especially in the officers' charger and light weight class. Pitted against some of the best officers' chargers in Europe "Proctor," ridden by Lieutenant J. L. Carr, won third place.

Miss Jean Brown Scott, of Park Kennedy, Penn., made virtually a clean sweep of the prizes in the harness, open class, events. With "Knight Commander," a perfect type of chestnut gelding, she easily won premier honors, while her "Newtown Victor," another chestnut gelding, was placed third.

The victory of "Knight Commander" was especially cheered by the crowded house.

East Recovering From Bad Storms

(By The Associated Press.) Buffalo, N. Y., June 21.—Western New York tonight was recovering from its most severe visitation by gale and lightning in recent years. Prostrate trees, strewn many thoroughfares, blackened ruins dotted many towns and villages and linemen were striving to restore disrupted wire communication.

Lightning caused a score of fires in Buffalo and the 68 miles an hour gale blew down telephone poles and trees. The fires burned fiercely, despite torrential rains.

Mallock to Speak Before Clubs At Ludington Mon.

DOUGLAS MALLOCK, famous humorist and poet, will address members of the Escanaba Rotary and Kiwanis clubs in joint meeting at noon Monday at the Ludington hotel. The luncheon line will form at the Ludington cafeteria promptly at noon and Mr. Mallock will begin to speak as early, after that hour as possible. Mallock for years has been a favorite with Escanaba audiences and the interest among Rotarians and Kiwanians in his appearance here Monday, is keen.

JEWETT MAKES GREAT RECORD

With only two gears, a high and reverse, a Jewett Six has been driven 7,205 miles, according to a report received by R. E. Allingham, manager of the Delta Motor Company, from R. C. Stowell, wholesale manager of the Paige-Ohio Company of Toledo.

Stowell told Mr. Allingham that he first started driving the Jewett with the first and second gears filed off on December 7th, 1923. The transmission was sealed by a Toledo newspaperman, according to Stowell, and the newspaperman has inspected it weekly to see that it has not been tampered with. The local speedometer service station sealed the speedometer and made affidavit to the effect that it could not be opened or changed in any way without breaking it.

"This severe test was made to prove the Jewett's wonderful power," Stowell informed the local Paige and Jewett dealers. "It surely was an acid test to the clutch which is very smooth and free from slippage on a full load. While the car did not plough through the winter snow and spring mud as readily as it would have with all the gears in transmission, never once did it get into a place where it could not get out on its own power."

"This incident gives some idea of what the car was up against all winter. It happened a few days after the car had been put into operation when I was making the first round of dealers in northern Ohio. For a number of hours it had been snowing hard and the roads were covered with a deep blanket of snow."

"There were two deep tracks down each side of the road and driving over these all traffic was making its way as best it could. No driver tried to pass the man in front of him as no one dared to risk the unbroken banks of snow outside the tracks."

"But I found a tie-up ahead. Drawing up behind the last car of the several stalled in the tracks I learned that they had been held up for some time. One of the party noticing the lettering of the Jewett asked, 'Brother, is that true? Hasn't your car got any low gears?'"

"It has not," was the reply. "Then you're going to have some time getting out of this," was the rejoinder.

"I've an appointment in the next town and I must get thru. I am going to break a way round you, I was forced to inform him. 'In that car?' exclaimed the stranded motorist. 'You are crazy.'"

"Backing the car a short distance I let in the clutch. As the car attained some speed, it climbed out of the tracks around the line-up of cars breaking a path for some distance through the deep snow before it stopped. On the third repetition of this performance the Jewett broke its way into the trail ahead."

"The car is known all over northwestern Ohio as 'The Gearless Wonder.' It is being watched by every Jewett dealer and many competitors who now have had as wondering when new clutch facings will be needed. The cylinder head and oil base have not been off since the test run was started. Today, one or sixty miles an hour are 'duck soup' for 'The Gearless Wonder of Toledo.'"

British Steamer And Crew Lost In Bay Of Bengal

(By The Associated Press.) San Francisco, Cal., June 21.—The British steamer Clan MacMillan has been sunk in Bay of Bengal and the crew of the vessel is missing, according to advices received here by the marine department of the Chamber of Commerce today. No particulars were given.

The Clan MacMillan is a steel vessel of 4,109 net tons, equipped with wireless, and her port of registry is Glasgow. Caylor, Irvine, and Company, Ltd., are the last recorded owners of the vessel.

(By The Associated Press.) El Dorado, Ark., June 21.—R. G. Vinson, wealthy oil operator and real estate dealer, is dead, and W. C. Wooley, automobile salesman, is held on a charge of murder as the result of a shooting affray which occurred today when the two men met on the public square.

The slaying of Vinson is said to have been the culmination of a feud which was the outgrowth of Wooley's attentions to Vinson's divorced wife.

Mrs. Vinson was granted a decree of divorce from her husband on May 5, on the grounds of cruelty and infidelity.

BOTH CAMPS ARE SHOUTING WILD CLAIMS

governor himself is listening at one hotel where many delegates and party leaders are congregated for the convention and in his suite receives a constant stream of visitors.

In another hotel, where the Democratic national committee is housed, there are two Smith headquarters, one on the street level just adjacent to the lobby and one in a quieter and more secluded spot several floors above. In addition, the offices of the Smith campaign manager, Franklin D. Roosevelt, occupy a suite in an uptown office building and hold open house.

His scouts are everywhere, girls are distributing "Smith for president" badges by the thousands, and a group of women are preparing to pass around Smith souvenir lavallieres and vanity cases to women delegates.

Underwood Men Hysteria. Today the Alabama organization of Senator Oscar Underwood dressed out its headquarters in a full regalia that bespoke complete confidence. The friends of John W. Davis announced that a decided swing to their candidate was definitely under way. A group of Virginians organized to actively promote the candidacy of Senator Carter Glass "as the best compromise candidate"; a "Houston information center" was inaugurated with a public statement naming David Houston, former secretary of the treasury as an acceptable nominee "in the event of a deadlock"; and first arrivals among the Nebraska delegates brought word that Governor Charles W. Bryan not only would receive the complimentary vote of his state, but would be formally placed in nomination as a full fledged candidate.

Thomas Taggart, Indiana leader, insists that his confidence in the nomination of Senator Ralston continues unabated. Meantime, conferences among those who control independent blocs of delegates multiplied throughout today and tonight and became almost as numerous and bewildering as the myriad of lights that twinkle up and down Broadway.

Many Guesses. Many of the best party prognosticators believe it will take a half dozen ballots at least, to show the convention candidates just where they stand. Predictions of a long deadlock are mingled freely with the confident claims of the McAdoo and Smith people that a nomination will come early in the balloting. In the midst of all this bustle and confusion, heightened hourly by the arrival of new delegations, Chairman Hull and his colleagues among officials of the Democratic national committee, are busy about the earliest time of all. When the committee met today to hear contested, approve the arrangements of its sub-com-

mittee for the convention and wind up its pre-convention labors it found hardly enough to occupy it for a quarter of an hour. There were no contests, the arrangements were given perfunctory approval, and adjournment was taken before some of the belated members had arrived in the committee room.

No action was taken on the proposal to let Senator Frank Harrison, the convention temporary chairman, deliver his keynote address on Tuesday evening so as to catch the ear of the greater audience over the radio. That question still is to be decided. The decision may be put up to the convention itself.

Question About Speeches. Neither has it been determined when nominating speeches for the presidential candidates will begin. Some convention officials want to go ahead with that at Wednesday's session, while the platform committee is at work, but with the understanding that there shall be no balloting until the platform has been adopted. No decision is likely until after the session of Tuesday.

Some of the favorite sons will not be placed in nomination formally, but even at that, there will be enough nominating and seconding speeches to occupy many hours. The list of those who will speak is not yet complete, but the following so far have been selected: For William G. McAdoo—Former Senator James D. Phelan of California; for Alfred E. Smith—Franklin D. Roosevelt, the Democratic vice presidential candidate of 1920; for Senator Oscar W. Underwood—Porney Johnson, Birmingham, Ala.; for James M. Cox—Newton D. Baker, former secretary of war; for John W. Davis—Judge John M. Holt, Huntington, West Virginia; for Governor G. S. Sizler—John A. Matthews, Newark, N. J.; for Senator Joseph T. Robinson—Former Senator Charles H. Brough of Arkansas; for Governor Johnathan Davis—Representative Ayres of Kansas; for Governor Charles W. Bryan—Harry J. Fleaharty, Omaha, Neb.; and for Senator Willard Saulsbury—Senator Charles F. Bayard of Delaware.

At his own request, the name of Senator Samuel M. Ralston of Indiana will not be formally placed before the convention, and the supporters of Senator Carter Glass of Virginia, David F. Houston and several others have not yet decided to present their names in formal nominating speeches.

NEW!

"A Woman of Paris" can be seen ten times and something NEW found every time. Charles Chaplin has put a story on the screen with the vigorous style and effective workmanship with which DeMoupassant might have put the same story on paper."
—JOSEPH H. MULVANEY, N. Y. AMERICAN.

RARE!

"Rare dramatic effect—big, gripping, human stories of life—holds the interest and quickens the heart. It is the most interesting motion picture. IT IS THE CINEMA'S REAL HOPE."
—QUINN MARTIN, N. Y. WORLD.

INTERESTING!

"The interesting and pleasing touches in the various scenes are like simple words used by an author to give spark and life to his story. This film lives, and the more directors emulate Mr. Chaplin, the better will it be for the producing of pictures."
—F. W. MORDAUNT HALL, TIMES.

MARVELOUS!

"A Woman of Paris" is marvelous—well, that's not half enough to say about it. Without a moment's hesitation we declare 'A Woman of Paris' the finest piece of filmy of the year."

CUTS IN RATES INCREASE SALE

Harris' Utilities Report For 5 Months Contains Interesting Facts.

The Escanaba Municipal Gas plant, operating at a lower rate than last year, manufactured 16,139,000 cubic feet of gas during the first five months of 1924, as compared with a similar period in 1923, and increased its operating revenue for the period from \$22,378.55 to \$28,570.26, the operating report of City Manager Fred R. Harris, presented to the city council Friday night, shows.

Operating expenses during the period increased less than \$600. The first five months of any year are the "lean" ones for gas plants. The plant fell short by \$7,024.20 last year of meeting its fixed charges and the other revenue deductions, but this sum was cut down this year to \$1,558.50.

Revenue jumps. Beginning June 1, and continuing until early winter, the amount of gas made and the revenue and profits, therefore, will be materially increased, due to the big increase in consumption.

The electric plant, also operating at a lower rate, sold 1,227,497 K. W. H. during the five months just closed, as compared with 1,050,033 K. W. H. during the same period of 1923, and the operating revenue was increased this year from \$57,439.79 to \$59,467.00. Increase in operating costs, however, reduced the net profits for the period from \$17,919.45 to \$15,432.06.

Weather hits Water Plant. January to June also is a "lean" month for city water. The weather also has been unfavorable, this year for heavy consumption, and the city pumped but 197,834,150 gallons during the period as compared with 227,594,655. Increase in the number of meters in the city cut the amount of water sold. This year, 95,593,325 gallons of the city's water supply passed through consumer's meters. Last year the figure was 80,038,111 gallons.

The arrival of the lawn-sprinkling and garden-watering season will boost sales materially during the next three or four months.

ONLY SIX DOGS LICENSED HERE

Six Escanaba dogs have a right to be alive. Only a half-dozen dog owners, in other words, have had sufficient regard for the welfare of their pets, to pay the license fee required under the state law.

All of which means that any constable or police officer has a right at any time, to shoot any dog in Escanaba—except the six whose owners have paid the tax.

Nor have these six dogs unlimited privileges. Unless they are kept, at all times, under leash or full control of their owner, the owner is liable to arrest, fine and imprisonment—or all three.

Law Is Severe.

Michigan's dog law—although it has been pretty generally neglected as far as enforcement is concerned—is a stringent one and it wasn't built to encourage the increase of stray dogs.

The Escanaba police department has exterminated about 200 dogs this year, more than 90 per cent of them at the direct request of the owners or other citizens. The officers, however, have not started a real extermination campaign. There are hundreds of dogs in Escanaba, who, according to the state law, are carrying their own death warrant every time they leave the premises of their owners.

May Have to Drive.

So numerous have the complaints become, that a policy of wholesale slaughter of unlicensed dogs is being considered. It may have to be adopted unless there is a distinct change in the attitude of Escanaba dog owners.

Campbell-Gorman Nuptials

Announcements were received in this city yesterday of the marriage of Miss Irene Campbell of Milwaukee and formerly of this city and Richard Gorman also of Milwaukee which took place at Holy Cross Church, Thursday morning, June 5th at 8:00 o'clock. The ceremony was performed by Rev. Fr. Schraeder, pastor of the parish.

After the ceremony at church, a wedding breakfast was served at the Hotel Republic. The couple left for a motor trip on a honeymoon to points in Wisconsin and Illinois. Mrs. Gorman was known to many persons in this city, having lived here until a few years ago when she went to Milwaukee.

A Message from Walter P. Chrysler—

When I say the good Maxwell is the best four-cylinder car at anything like its price in America today, I am thinking of specific accomplishments of the last year. For instance, vibration subdued to the vanishing point; revolutionary riding and driving results; main bearings rarely if ever replaced; 18,000 miles from a set of tires, and so on. Maxwell of today is more than the good Maxwell—it has been developed to a plane of superiority far above and beyond the dead level of previous four-cylinder possibilities.

St. Anne's Parish Will Give Shower at Delft On Tuesday

Tuesday, June 24, the feast of St. John the Baptist, will be celebrated by the French people of this city beginning with a mass at St. Anne's church in the morning and a picture at the Delft Theater in the afternoon and evening. The picture, entitled, "The Acquittal," featuring such noted film stars as Richard Travers, Norman Kerry, Barbara Bedford, Clair Windsor, Dot Farley and Ben Deely, who play the leading roles in the screen version. The story is very interesting. Kenneth Winthrop is on trial charged with the murder of his foster father. His foster brother and he are in love with the same girl. She chooses the accused man. A clock shows the murder was committed at 11:52 and the time has much to do with the testimony in the case.

A program of music and vocal numbers will be given by local talent at each performance. The matinee will be at 2:30, the two evening shows at 7:00 and 9:00. The advance sale of tickets promises an unusually large attendance. The public is cordially invited. Tickets may be procured at the theater or from members of the parish who have them for sale. The following program will be given:
Daughters of the U. S. A. — Goddess of Liberty
Accompanist, Irene Villemure
Vocal Duet — "Similar Twins" Master Donald Moreau, Master John Larsch, Accompanist Beatrice Perron
Vocal Solo — "The Valley of Laughter," by Sanders Mrs. T. Toussignant

BIG MUNISING GAME THIS AFTERNOON

Gladstone fans will be out to see a real battle this afternoon when the Munising team trots out its opposition to the Gladstone club on the local diamond.

The contest with Munising today will be the last home game the team will play before the Fourth of July game, Manager "Lefty" Gervais taking his crew to Manistique next Thursday and to Munising the following Sunday, both of which contests will be return games.

Munising is coming here today with a team that has seen considerable strengthening since its game with Manistique June 12. Weaver whose ball has been effective in recent battles will take the mound for the visitors and with good support back of him is ready to pile up a win.

Manager Gervais, however, has put his team mates through daily practice and with a shift in positions that has strengthened the line, is prepared for almost any kind of stiff opposition.

Regular Line. Fans will have another chance to see Millard on his stuff. Con Feeney will be back at his old place at shortstop.

This afternoon's contest will be a big game and Gladstone's following with the crowd of Munising fans who will come here with the team, will pack the park with a record crowd.

ALUMNI BALL FRIDAY NIGHT ENJOYABLE

Alumni of the Gladstone high school met at a most enjoyable social affair Friday evening when the Alumni association entertained at its annual ball at the Junior high school auditorium.

In a brief business session during the dance officers for the coming year were chosen, Helmer Skogquist, president; George Beach, vice president and Della Jacobs, secretary and treasurer.

The party was one of the most pleasant affairs held by the alumni in some time. A program of popular dance music was furnished by the Alumni Bands. Punch was served by a group of three high school girls. Members of the class of 1924 and the school board were the guests of the association at the party.

Considerable credit for the enjoyable party goes to Percy Cameron, general chairman, and to his committee workers, Gertrude Schustarich, Alfred Anderson, Mabel Collins, Ted Feldt, Della Jacobs and Maurice McDonald.

Miss Opal Harsh left Saturday morning for Battle Creek, where she will be employed at the sanatorium during the summer. At the beginning of the fall school term she will go to Hillsdale College in the capacity of director of physical training.

American Legion Auxiliary Of Upper Peninsula To Meet In Escanaba - July 2 And 3

In the fairest city of Northern Michigan with its newly paved streets, generous display of flags, colors and decorations, a great white way, a climate favored by lake breezes, the cooperation of merchants and business men, a community spirit warm with welcome, such is the background for the incoming Third Annual Convention of the Upper Peninsula American Legion Auxiliary that will be held in this city July 2nd and 3rd, with headquarters in Eagles' hall.

Hundreds of delegates and visitors will gather here for the interchange of experience and ideas as practiced by those women who are assisting in the due organization to bring back health and happiness to those whose lives were blighted in the World War.

Entertainment Features.
Auxiliary women prominent in department activity and representatives of the National Body will appear on the program. In the opening session of the first and second day; a large volume of business will be transacted including the adoption of several important resolutions, reports from all units of the U. P. and a more comprehensive outline for Hospital and Billet work reaching into other states.

No convention is entirely complete without entertainment and the hosts of the unit has made elaborate preparations for the recreation of its visitors. In connection with these plans is a sight-seeing tour to several points of interest ending at Gladstone. The new Legion clubroom in Wasa hall will be the scene of a reunion of all Gold-star relatives, in whose honor a Tea will be given by members of the August Mattson Auxiliary assisted by the Units of Delta County.

A complimentary banquet with novel features and musical program will close the exercises for the first day, the following day will be devoted entirely to business.

LAST FRONTIER OF CLOVERLAND IS ATTRACTIVE

Whitefish Lake Is Attracting Host of Summer Visitors.

"The Peninsula's Last Frontier," most aptly describes Whitefish Lake 49 miles east of Manistique, where a number of Escanaba residents and many outside citizens are now establishing summer homes. Completely surrounded by a virgin growth of hardwood and with sandy shores bordering its every side, Whitefish Lake is winning recognition as one of the few remaining spots in the peninsula, where the natural beauty of the section has not yet been

destroyed. The lake is five miles in length and three miles in width, with four deep bays indenting its west side. With the exception of Curtis on the north shore, there is but one farm bordering on the lake, but supplies may be secured from stores within an auto drive of 15 minutes from the lake.

Escanabans Own Frontage.

H. O. Brotherton, of this city, several years ago purchased shore property at several points on the lake and has made certain that the original growth of timber skirting the lake shall never be cut. A number of Escanaba people have either already constructed cottages along the south shore of the lake or are now building summer homes there. In addition to a magnificent summer home constructed by Mr. Brotherton, other Escanabans who either have built summer homes there or now constructing them are: Charles Glavin, L. C. Schrader, George Lehr, Edward McCarthy and Michael Farrell.

Mr. Brotherton is now engaged in clearing a road along the entire south side of the lake to his property, cooperating with the township government in constructing a highway that will directly connect with excellent roads already leading from Gould City and Corrine.

Wild Life Abounds.

The district about the lake is recognized as the natural home for all wild life, natural to the peninsula. Through the front yards of the cottages already constructed, skirting the lake, there is at present a deeply worn deer trail that is used nightly by mov-

ing to the lake from the surrounding woods, for water. Coveys of partridge are seen daily in the woods near the lake by the summer residents. In the fall of the year Whitefish Lake, has been known for years as one of the favorite resting places for veritable swarms of wild ducks, on their migration toward the south.

It is doubted that there remains another lake in Cloverland where fishing conditions so nearly approach pioneer days, as at Whitefish lake. Summer residents who have already arrived at the lake for the season are reporting excellent catches each morning and evening of wall eyed pike, grass pike and pickerel and the opening of the bass season is being most eagerly awaited.

Wells Man Lands Big One.
Oscar Anderson of Wells, who visited the lake last Sunday, landed a wall eyed pike that measured 36 inches in length and fourteen inches in girth. Six Chicago fishermen who reached the lake on Tuesday night filled their quota for pike in a single morning's fishing on Wednesday and were forced to suspend their sport.

The shores of the lake are dotted with springs from which icy cold water comes bubbling from great depths, proving a boon to the summer residents in establishing a pure water supply and furnishing natural refrigerators for the preservation of perishable food.

In addition to the Escanaba colony already on the lake, two resort hotels have been opened at widely separated points and res-

idents of Chicago, Cincinnati and other cities are finding their way to the spot, many of them planning on constructing permanent summer homes there this season.

Canada has signed a new compact, perhaps to keep the United States from shipping booze into Canada.

New Shoe Man Arrives Here

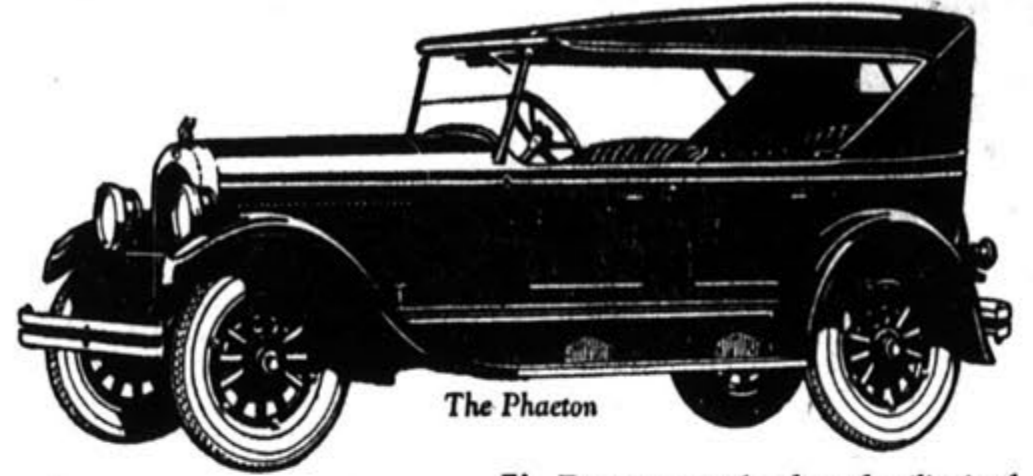

A new shoe man arrived in the city yesterday afternoon at the home of Mr. and Mrs. Med Beau-douin, 610 S. 14th St. The young gentleman weighed 8 pounds and from the noise he made since his

arrival here, he will be the chip off the old block. Mother and babe are doing nicely, and Med wears a two-by-four smile.

New York chorus girl says she has tried suicide only twice. But she should be careful. It is a very dangerous habit.

A Score of Features to Explain These Results

The Phaeton

Among Chrysler Six features which contribute to its long life and operating economy, is the centrifugal air cleaner which purges the air taken in by the carburetor. This cleaner effectively protects the cylinders and pistons from the entrance of fine, gritty dust. Of equal importance is the Chrysler oil filter, which thoroughly cleans all the oil in the crankcase every 25 miles, and contributes much to smoothness, freedom from carbon, and longer life of rotating and moving parts.

Every one who has familiarized himself with the new Chrysler Six and its extraordinary performance is convinced that this car turns the leaf of the automobile calendar many years forward.

The engine design embodies a new type of combustion chamber that burns all the gas. Also a new way of distributing the gas equally to all cylinders. A score of other features must be taken into account to explain why an engine only 3-inch bore by 4 1/4-inch stroke delivers 68 horsepower, top speed well over 70 miles an hour, and a pick-up that is electrifying.

All these things you'll understand better when you ride in the car. You'll find, also, an amazing amount of room, and an ease of handling and parking that is a constant delight.

We are pleased to extend the convenience of time-payments. Ask about Chrysler's attractive plans.

"Not Only Sales But Service"

When you need more room—it is there!

THE Big-Six Touring is a seven-passenger car—not merely a seven-passenger body mounted on a five-passenger chassis.

It was designed and built for seven-passenger service—with a motor of ample power and stamina for seven-passenger satisfaction.

Then, too, with the auxiliary seats folded away, the Big-Six becomes the most desirable five-passenger car in which you have ridden, with room enough for all the luggage you will ever need.

Big-Six appearance is attractive, distinctive, and in good taste. Its performance, acceleration, flexibility and dependability are known and respected the world over.

No car, regardless of price, surpasses it in quality or completeness of equipment.

If a smaller manufacturer or assembler were to build the Big-Six—of equal quality and workmanship—his price would be \$3,500—perhaps more.

But Big-Six overhead is distributed over six times as many units as are built by any Big-Six competitor, hence Big-Six cost and selling price are surprisingly low.

Don't buy blindfolded. Examine, ride in and drive the Big-Six before you buy any other car.

THEY'RE BITING AGAIN!

No, not the trout, but his bigger, brainier, more complex human brother—the get-rich-quick sucker.

For a time after the Texas clean-up of oil fakery, the sucker market seemed to tighten up a bit but the froxy promotion gent has simply put a new bait on the same old hook, and "they're biting again." Perhaps it might be more to the point to say "they are biting yet."

Now, men, women and children who last year contributed more than two billions of dollars to fake stock salesmen, are still at it. Oil suckers are just as numerous as ever probably, but in a great many cases, the salesmen have shifted to rubber and tires, and land, one of the latest being the fig farm fraud.

Investors are promised \$20,000 in 90 days on a \$500 investment in one acre of figs. These fig lands are located in inaccessible swamps, miles from a passable road, but day after day people respond to the old lure.

Old and worthless stocks are "traded" for new and presumably valuable ones and there is always a transfer and "registration fee." Pecan nut farms, "full blooded" hares, Muscle Shoals "development projects"—oh, there are scores of them. Even school children are being victimized by paying from \$15 to \$25 a pair for full blooded hares by firms promising to buy the numerous progeny.

Farmers seem most ready to fall for anything that savors of a land transaction. Fakery plays both the buying and selling end. Recently farmers have been getting letters stating that under separate cover would be found a Land Seller's Guide. On the envelope containing the guide was the printed statement: "Do not open. This sealed envelope contains a list of 260 farm buyers. If interested, send \$2, otherwise return." But few, if any found buyers for their farms.

In the list of victims are found farmers, widows, children, business men, professional men, preachers, teachers doctors—an endless string of the trades—but seldom a banker.

WHY WORRY?

A Rhode Island woman, who died recently at 82, left 85 direct descendants. If everybody were as prolific, in a few generations the earth would be too crowded for any one to lie down.

Why waste time wondering why we die? The answer is, to make room for newcomers. Life is a journey between two unknown stations. We don't know where they'll go after their hearts stop beating.

CREATURES OF WEATHER.

We are creatures of the weather. Small wonder we talk about it so much. Retailers blame the late spring for the business recession. Laggard weather held back the sales of spring clothing and other seasonal commodities. That put a lot of makers out of work. The weather was like a dog barking up dull business into many channels.

WHAT'S YOUR OPINION?

A check-up shows that national, state and local taxes in 1922 cost the American people over 7750 million dollars. That's over \$70 a year for every man, woman and child—\$350 for a man and wife with three children.

Uncle Sam gets most of the blame, though the war and its debt is his alibi. A far greater menace is reckless spending by states, counties and cities. The public thinks it needs more public improvements than it can afford. Mortgaging the future by bonds, to dodge immediate taxes, is just putting off the fearful day of reckoning.

Isn't it funny who will put on a bathing suit?

"Proud Of His Wife"

A DIFFICULT WEEK-END.

Chapter XXXVI.

Ellen Shannon came in with Alan and Mr. Williams, and the five sat down to luncheon. It seemed to Lois that there was some understanding between Alan and Ellen, and that they were careless if it were observed. Several times she intercepted a look Ellen threw at Alan and the ones he gave her in return. But she held herself bravely, giving her attention to her guests, seconding Alan when he accepted an invitation to dine with the Williamses the following week. They were to leave directly after luncheon, and she exerted herself to talk, hiding her fears. In 24 hours it had come to that: she was afraid! Yet not for worlds would she have acknowledged this, or have had Alan suspect it. Something was wrong with her or it couldn't have happened. Alan was true, she would stake her life upon it. Yet he was evidently growing fond of Ellen—in just a friendly way, of course. Ellen was bright, companionable, and was amusing herself by flirting with him. Yet she cared nothing for Robert Shannon—

she might be falling in love with Alan. Here Lois's thought became so poignant she had to force herself once again to push them aside.

"We've had a delightful visit," Mrs. Williams assured her as they were leaving, and her husband was even more enthusiastic. He and Alan had won their golf game again, and he had promised to come again soon and help him show those other fellows how to play golf.

When they were seated in the car, ready to drive away—Alan was to accompany them to the station—Lois was surprised to see Ellen Shannon dart out, saying:

"Wait a moment, I'm going to the station too, and ride back with Alan. You don't mind?" to Lois.

"No—why should I?" she replied, embarrassed that she had not thought of proposing that they both go.

"They drop off, waving a goodbye, and Lois turned into the house, angry at herself, her stupidity in dealing with Ellen.

But she had no time to indulge in recriminations. They would be back in 20 minutes, and she mustn't let Alan see she was hurt or that she had felt embarrassed. He invariably laughed at her, and said what she did was all right, or that she soon would learn.

Would she ever learn? Wasn't it proof that she would not that Alan knew so well what to do, while she was still so dumb? She had shared in his success from the beginning, just as she had shared his poverty. She wasn't adaptable, and he was yet even so she should by this time have been able to accommodate herself to their changed condition and not still be, at heart, the woman who lived in the old house, who did her own work, and enjoyed the society of her poor, uncultured neighbors.

The 20 minutes passed, an hour, then another. Three hours later Alan drove up alone. "It was such a lovely day Ellen and I took a ride," he said carelessly as he came in. "You should have gone with us. It was so late I left her at home. She said to explain to you."

Lois made some sort of a reply, and he went on:

"I hope you rested. You have looked tired all day. We'll get to bed early and make up our lost sleep." Then he became interested in the unread Sunday papers, and the necessity for her to talk passed.

She watched him as he read. He didn't need her any more—that calm, self-sufficient, handsome man she loved. In the old days that had been his constant cry, his need of her.

She used to be a good wife to him—that she knew. But she wasn't a good wife now, the kind he needed. That she also knew. He had something to give the world—not only his work, wonderful as it was, but himself, the

man. He was respected, admired, and justly. Was she to be a drag on him? He was big enough to stand by and let her, but was it fair for her to do it?

She gave a little unconscious cry. Where were her thoughts leading her?

"Did you speak, Lois?" Alan looked up from his paper.

"No, Alan."

"Had a nice week-end, Dear?" "Very nice, Alan."

"I'm glad you enjoyed it. My greatest wish is to make you happy, you know, Lois—to repay you for all you have done for me." Again he turned to the paper, not noting that happy tears filled her eyes.

"A Woman Of Paris" Will Open At The Delft Monday

TODAY'S PROGRAMS.

At the Delft—Lloyd Hughes and Colleen Moore in "The Huntress," a romantic comedy drama—the story of a white girl reared by Indians. Walter Long also is in the picture.

At the Strand—"Men in the Raw," in which Jack Hoxie is the featured player. It is a western picture with a fast-moving "action part" for the star.

At St. Joseph's—"The Wild Cat," featuring Robert Gordon, an unusual thriller, carrying a strong love element and a big plot-punch.

Edna Purviance in "A Woman of Paris," written and directed by Charles Chaplin, will open the week at the Delft Theater.

"A Woman of Paris," marks a new departure in almost every element that goes to make up a motion picture. The treatment of the story is entirely different from anything heretofore seen in the photoplay theater. While the theme deals with life as it really is, the psychological study presents life's problems from a viewpoint that is more one of understanding than of preaching.

The story unfolds an exquisite tapestry, woven around a woman's soul naked in its singularity though clothed in its individuality.

Edna Purviance, who has been identified with Chaplin in almost all of his comedy productions, rises to great heights in her career as the star of "A Woman of Paris." Unthought of qualities of historic capabilities have been revealed under the careful direction of Mr. Chaplin.

Adolphe Menjou, well known screen actor, plays the leading male role, while other important members of the cast include Carl Miller, Lydia Knott, Harry Northrup, Malvina Polo, and others well known in the picture world.

"The Meanest Man in the World," with Bert Lytell and Blanche Sweet will be the attraction at the Delft Thursday, Friday and Saturday.

Strand Programs.
William Desmond in "The Breathless Moment," a crook-comedy, will be shown Monday and Tuesday at the Strand Theater. Mr. Desmond is supported by a cast which includes Charlotte Merriam, former juvenile comedy star; Albert Hart, veteran character actor, and Robert Thomas, well known to both stage and screen. The story is said to contain a brand new and unusual plot. Desmond is seen as a Robin Hood, who "preys on the rich that the poor might be fed."

Wednesday and Thursday the Strand bill will feature "Hell's Hole," a western drama with Charles Jones. Jones is said to "pull" a flock of novel thrillers.

Viola Dana in "Don't Doubt Your Husband," will come to the Strand Friday and Saturday.

St. Joseph's Program.
The Holy Name Minstrel, to be given Thursday and Friday

Prisoners to Put Whitewash Coat On New Tourist Camp

Prisoners at the Delta County jail will whitewash the fence of the new Escanaba Tourist Camp early this week. It was announced yesterday by O. I. Baskin, secretary of the Chamber of Commerce, following a conference with Sheriff J. P. Carney. The sheriff will superintend the work.

Life at the county jail, this year, has not contained the hours of ease and comfort that many persons have imagined. The court house grounds have been put in a beautiful condition by the prisoners; considerable other work on county buildings has been done.

"The work you harder in the jail than in any jail I was ever in," said one of the prisoners yesterday.

Politics and the Railroads

To the present generation of Michigan Railroad men it is a grateful thought that this Peninsular commonwealth is appreciative of the fact that Railroad Service is today the best in Michigan history.

We know this appreciation by actual expressions—spoken and written—and by the gradual disappearance of that ancient hostility which featured an era of Railroad long past.

Most people realize that Railroad Service has been re-established despite laws which restrict management in every detail—laws which add huge burdens of expense to Railroad operation without assisting in any way toward Railroad progress or the development of Railroad Service.

Those who understand these facts give full credit for the achievement of Michigan's twenty-four steam Railroads and are prompt to resent selfish attacks on them. Before this defense—a defense based on facts—railroad aspersion is becoming out of date, except for spasmodic revivals at election time, when office seekers, desperately fighting for votes, sometimes endeavor to turn Railroad abuse into political capital.

Railroads have small chance to meet such attacks. Railroad men are too busy furnishing transportation and conducting negotiations with the various Government boards and commissions which so closely supervise our every act. In this extremity we must rely on you to protect and defend us, and to insure us a square deal.

Is this reliance well placed?
