Smith-M'Adoo Deadlock Puts John W. Davis In Favorable Position, Lawrence Thinks

BY DAVID LAWRENCE (By The Associated Press.)

Madison Square Garden, July 1.—(12:30 A. M.)—William Gibbs McAdoo and John W. Davis appeared before the Democratic convention after fifteen ballots from early morning till past midnight.

At the conclusion of the announcement of the fifteenth ballot, Chairman Kerner of the Missouri delegation, a McAdoo floor leader, moved an adjournment until 10:30 tomorrow morning. The convention adjourned to wait for the motion to be put and carried. It merely puffed out while it was being done. The next ballot was "Home Sweet Home," and the convention hall was emptied quicker than it would have been if a troupe of elephants which after storm there had suddenly got loose. Some changes were predicted for tomorrow's balloting. Whether there would be a nomination or not was anybody's guess.

McAdoo and Smith together had more than two thirds of the delegates, so unless the favorite sons were to break in a body which was improbable because their own hopes lay in helping to defeat both McAdoo and Smith, the nomination of the New York governor appeared highly unlikely.

THREE DAYS TO LIVE

Price On Hair Shingles Go Up

At the regular meeting last night of the Barbers' Union, action was taken by members and master barbers, whereby shingling of the hair for both ladies and children will now cost \$1.00. This was explained by members whose separate hair cuts, first shingling then the shingling, consequently taking twice the time. Members of the union state that Escanaba is one of the few cities that charge less than \$1.50 for hair shingles, and feel that a charge of \$1.00 is reasonable. Hair boys will remain the same price as heretofore, as well as the price for the cutting of men's hair.

What the scientific experts in the United States and Canada have failed to do has been accomplished by an Englishwoman, Miss Mackenzie, an experimenter employed by the Ministry of Agriculture. Her discovery concerns the method of preserving fruit in liquid in such a manner that it retains its natural colors.

There is a tendency to set a deep scalloped or diamond-shaped design about the hem of the new coats in place of the fur band.

Delicious "Strawberry Jam Easily Made in 15 Minutes New Certo Method Never Fails

Preserves the Natural Flavor and Color of Ripe Strawberries. Requires Only One Minute's Boiling, and Makes 12 Glasses of Jam from Two Quarts of Fruit

Five days of hard work over a large and the guess work with very little—often with its loss of sugar and fruit—in jam and jelly making is past and gone. A nationally-known jelly maker has found the way to extract pectin, the substance in fruit which makes it "jelly" or set when boiled with sugar—and then to remove and concentrate it for American housewives. So wonderful is this product called CERTO (Sure-Jell) that over five million women have adopted its use within three years. With it anybody who will follow a simple recipe can now make jam or jelly with any kind of fruit without failure in a few minutes.

The CERTO method is as simple and accurate as "two and two make four." With CERTO you only boil one minute, not the long periods of the old method. The one minute's boiling saves you nearly your precious time, but it also saves the juices, the flavor and the color of the fruit, which was formerly boiled away. Consequently with CERTO you make about one-half more jam and jelly than the old method, with the same amount of fruit. For instance, with two pounds of berries you now make five pounds of jam as against the three pounds made by the old method. That is why more sugar is needed for the CERTO method, although your jam and jelly will not contain any more sugar per glass than by the old method and the cost per glass is actually less. This one minute boiling also preserves the real color and flavor.

Home grown strawberries are now plentiful at a low price, and housewives should be putting up strawberry jam and jelly for next winter. To make twelve glasses of strawberry jam:

Try This Simple Recipe.

Crush about 3 quarts ripe berries in separate portions, so that each berry is mashed. Allow this fruit to quickly absorb the sugar during the short boil. Measure 4 level cups crushed berries into large kettle, add 7 level cups (3 lbs.) sugar and mix well. Use hottest fire and stir constantly before and while boiling. Boil hard for one full minute, remove from fire and stir in 1/4 bottle (about 1/2 cup) CERTO. From time jam is taken off fire allow to stand not over 5 minutes by the clock, before pouring. In the meantime, skim, and stir occasionally to cool slightly. Then pour quickly and seal.

Use same recipe for Raspberry, E-lackberry or Dewberry Jam.

CERTO is pure concentrated fruit pectin and contains no gelatin or preservative. As a matter of fact, CERTO is the "commercial pectin" so frequently advocated by food authorities and cooking experts in their articles on jam and jelly making in the leading magazines and newspapers of the country.

Grocers will supply you with CERTO—in a little brown bottle. In the recipe book attached you will find recipes for nearly 100 jams, jellies and marmalades—some of which you have never tasted before, like strawberry jelly, rhubarb jam, pineapple jam and combinations like strawberries and pineapple, etc.

Make a lot of strawberry jam this year. No home ever has too much of it, with its varied uses. As a spread on bread, etc., or on ice cream, puddings or fruit salads nothing is more tasty. Children love it. Be sure to get fully-ripened strawberries—the kind with the best flavor—and follow the recipe carefully. Not how much it makes and how inexpensive it is with CERTO. Then you will do all of your preserving the new, easy and economical CERTO way.

Thousands Hear Song Of Chimes At Dedication Ceremonies At Sw. Lutheran Church Sunday

Thousands of Escanaba people heard the song of the chimes, many for the first time in their lives. Sunday afternoon, when a repertoire of sacred music as part of the dedication service, was played on the chimes recently installed in the tower of the Swedish Evangelical Lutheran Bethany Church.

Over a thousand friends and members of the church gathered in the spacious auditorium to attend the dedication in addition hundreds of others gathered outside and thousands of others stopped and listened wherever they happened to be when the chimes were played.

The formal dedication services opened with a hymn by the audience, followed by scripture reading and prayer by the Rev. C. E. Olson of Gladstone.

"Message of Chimes."

The dedicatory address was delivered by the Rev. C. G. Olson, pastor of Gladstone. He spoke in a forceful and eloquent manner, choosing as his topic "The Message of the Chimes." He pointed out that the message of the ringing of the chimes is fourfold. It first of all is an invitation, secondly a warning of the inevitability of death, third a proclamation of rejoicing and last of all a call to service.

Short addresses were also made by Rev. C. A. Lund, pastor of the church, and Owen I. Bandeen, secretary of the Chamber of Commerce.

The Rev. Lund reviewed the history of the movement for the installation of the chimes and described the manner in which the funds were raised to make it possible for the local congregation to purchase them.

Bandeen Praises Church.

Mr. Bandeen gave a short, interesting talk on the value of the church to the community in general. He also congratulated the local congregation of the Lutheran church the progress it had made in the last few years, pointing out that the present occasion stands with but two others as days of rejoicing in the history of the local congregation—the first the dedication of the present church, and the other the dedication of the new parsonage, so recently completed. The choir also rendered the anthem, "O Lord God of Hosts" in a very pleasing manner.

The dedication ceremony followed. This was in charge of the Rev. C. A. Lund, local pastor, assisted by Rev. C. E. Olson and Rev. C. G. Olson.

To Be Heard Often.

At the close of this ceremony a number of sacred songs were played on the chimes, which were deeply enjoyed by the thousands who heard them.

The chimes will be heard every Saturday evening at 7:00 o'clock, every Sunday morning at 10:00, and during the morning worship every Sunday evening at 7:00, and on any special occasions when the playing of the chimes will prove appropriate.

The bride was charmingly crowned in a beautiful dress of orchid color georgette crepe with hat of corresponding color and hose and slippers of silver brocade. The shower bouquet was of bride's roses and baby breath.

Telegram Tells of Wreck of His Home in Ohio Tornado

OUR HOME demolished! All safe! was the message received here yesterday from Lorraine, Ohio, by F. J. Wurmsler, a salesman for the National State Company of Lorraine, who had spent Sunday in Escanaba.

Mr. Wurmsler had not read any of the Sunday newspapers and did not know until he received the telegram that a tornado had swept the city where he had lived for 20 years, taking a toll of 199 lives, injured thousands and destroyed millions of dollars worth of property.

ROTARIANS IMPRESSED
Two Escanaba Men Furnish Principal Addresses

Twenty-five members of the Escanaba Rotary club returned on Sunday from Grand Island, where they attended the annual upper peninsula Rotary conference. Two of the principal addresses of the conference program were furnished by Escanaba men. Atty. A. H. Ryall of the Escanaba club, delivering what is described by those in attendance as one of the most inspirational talks ever given at a similar gathering in the peninsula, and O. I. Sandeen, secretary of the Escanaba Chamber of Commerce, explained the "Escanaba Plan" for distributing the state primary school interest fund and won for that plan the united support of every individual at the gathering. The Grand Island Rotary conference was considered by officers of the Escanaba Chamber of Commerce as offering an unusual opportunity for placing before leading citizens of the peninsula the fundamental principles of a plan, which when adopted will prove a tremendous boon to this section of Michigan.
 Governor Bert Laffin, of Milwaukee, was the guest of honor at the conference and with the two Escanaba men delivered the outstanding addresses of the meeting.
 Members of the Escanaba club describe the meeting of this year by far one of the most successful ever held.

BURGLARS MAKE HAUL AT HOME OF DR. DEFNET
Thieves Escape With Jewelry Valued At \$1,000

Burglars on Sunday night entered the home of Dr. and Mrs. H. J. Defnet, 324 Seventh street south and escaped with jewelry valued at more than \$1,000. All of the jewelry was taken from a dresser in the room in which Dr. and Mrs. Defnet were sleeping but they were not awakened until the burglar or burglars flashed a light in passing down a stairway leading to the first floor of the house.
 Entrance was gained by either pressing the key from the lock in the rear door of the house and using a skeleton key to unlock the door or by using some instrument to turn the original key in the lock. After opening the door the burglar or burglars made careful preparations for escape. A screen door was propped open and the inner door turned back against the wall.
 A careful search was evident of the entire house, leading finally to Dr. and Mrs. Defnet's sleeping room which was entered and the dresser ransacked without awakening them. The burglar had left the room and was descending the stairs when a shaft of light from a flash light awakened Mrs. Defnet. She immediately aroused Dr. Defnet who leaped from the bed and rushed to the doorway of the bedroom. A screen door was propped open and the inner door turned back against the wall.
 Police Are Called.
 Members of the police department were at the home within three minutes after the call was received and the entire force was concentrated in that section of the city from the time the call was received at 2 o'clock. The remainder of the night, but no suspicious characters could be found. Yesterday fingerprint found-up on the rear door upon the dresser from which the jewelry was taken, were photographed yesterday at this morning when prints are developed several suspects will be called in by the police department for a grilling.

OUR NEW RESPONSIBILITY.

Another step in the fulfillment of its promise to the public to try to be "A Better Paper Every Day"...

This is merely a step in conformity with the existing tendency all over the country. It is not a consolidation, but a straight-out purchase...

A few years ago the Marquette Mining Journal purchased the Chronicle and the public is thoroughly satisfied. A few years ago the Green Bay Press purchased the Green Bay Gazette...

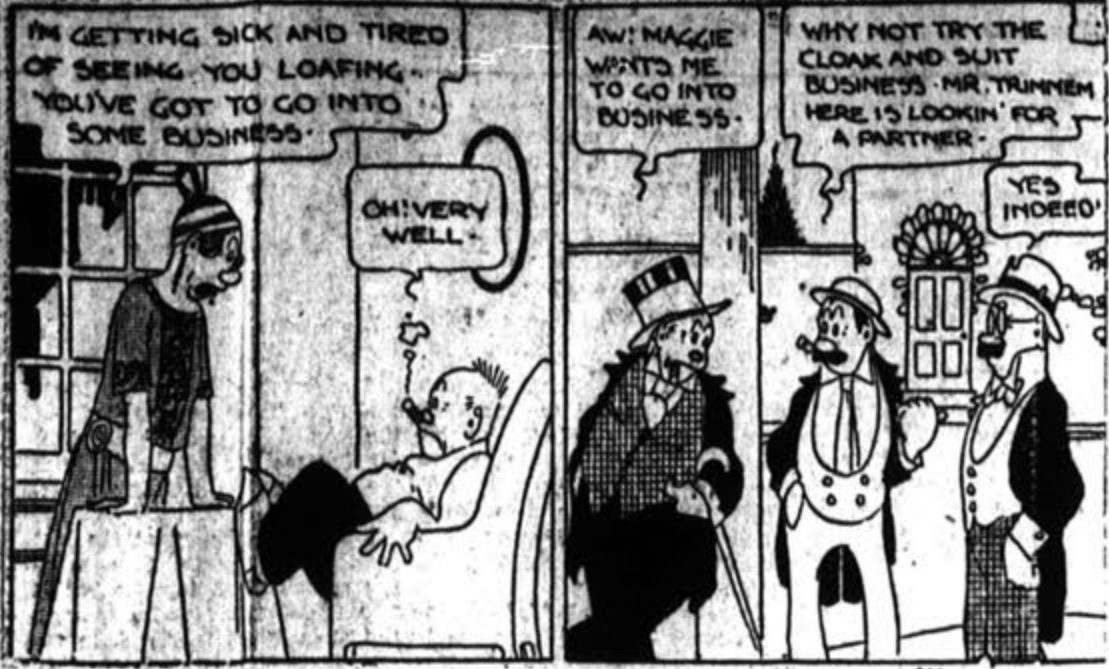

These instances are mentioned merely to indicate the tendency of the times—elimination of a duplication of effort and expense...

We feel that we have achieved much in the past few years and yet it is but trivial in comparison with what we hope to become eventually.

The Press will continue to be conducted along lines of broad-mindedness, tolerance, helpfulness and civic cooperation...

We want Escanaba to be one of the towns where people are glad to go and visit, or go and live, and we want to bear our fair share of the burden in helping to bring that about.

AMUSEMENTS

AT THE DELFT.

Presenting the popular Mae Murray in the interesting role of two sisters, "Fashion Row," a Metro picture, opened a two-day engagement at the Delft Theatre yesterday. As a Broadway actress who marries into an old aristocratic family, Miss Murray has the opportunity to wear endless stunning gowns and delight Murray fans with the Murray dances, while the role of a plain little Russian peasant girl who comes to America to find her sister is of striking contrast.

Earle Foxe, Freeman Wood, Elmo Lincoln and Mathilde Brundage are importantly cast, and the production was directed by Robert Z. Leonard, director general of Tiffany productions, of which M. A. Hoffman is general manager. "Fashion Row" was written by Sada Cowan and Howard Higgen and photographed by Oliver T. Marsh. Horace Jackson was art director.

COMING WEDNESDAY.

The Delft will present Richard Bartholmes in "The Fighting Blade," Wednesday and Thursday. At the Strand the feature on those days will be Ora Carew in "Three Days to Live." At St. Joseph's the Wednesday picture will be "The Mail Man," starring Ralph Lewis.

AT THE STRAND.

Lester Cuneo and Mrs. Wallace

Miss Viola Lefebre of Gladstone is the guest of her sister, Mrs. A. O. Cole.

A. E. Ferguson of St. Paul is spending the week-end here with friends.

held are the featured players in the western comedy drama, "The Masked Avenger," which opened a two-day stay at the Strand Theatre yesterday. The play has novel plot and it is developed rapidly with plenty of thrills. Strand audience liked it immensely.

The condition of Mrs. Joseph Weingartner, Sr., of Manistique, who was taken seriously ill while visiting here, was much improved yesterday.

Many of those who will stand for anything will stop with nothing.

A THOUGHT

He that smothereth his words, smothereth his spirit, and his words shall be as a wound to him, is like one that fasheth a man by the ears.

Ah, how happy would many lives be if individuals troubled themselves as little about other people's affairs as about their own.

What this country needs most is a law against men wearing coats.

UNITED STATES TIRES ARE GOOD TIRES

Scene on a United States Rubber Company Plantation in the Far East. After the rubber trees are tapped the latex is brought in cans to these Field Stations and weighed.

The Beginning of Better Tire Service

WHEN the U. S. Rubber Engineers discovered that raw rubber latex in its natural state was a better tire material than the old bulk form of crude rubber it marked the beginning of better tire service. U. S. Royal Cords built of cords solutioned in raw rubber latex have now been in use over three years. These tires have shown remarkable strength and wearing quality. The use of latex in tire building is commercially possible because of three things: 1-The processes and equipment for using latex developed by the United States Rubber Company. 2-The discovery of a method of shipping latex to this country by the U. S. Rubber Engineers. 3-The development of the U. S. Rubber Plantation in the Far East providing an unfailing source of supply of latex of a peculiarly uniform quality especially adapted for tire building. The latex treatment is particularly valuable in the building of low air-pressure flexible-wall Balloon and Balloon-Type Tires.

Rapid Unbars Door, Writes License for Wells Girl to Wed

Detroit, June 30.—Faith may be a mountain, but love will move massive and official doors and the heart of a somewhat reticent county dignitary.

It was 5:10 p. m. in the county clerk's office. The closing hour was 5:30 and none remained but Thomas F. Farrell the county clerk himself, who sat in his private office and a contemplative young man.

A thumping and clatter arose in the great main doors. "It's some tardy lawyer," remarked Mr. Farrell, "only that nothing more."

Had to Have It. The banging increased. The stability of the wall was menaced. Mr. Farrell arose and rolled up his sleeves, which he had just rolled down, walked to the door and suddenly threw it open, confronting him, not at all embarrassed, were a charming young woman and a man.

"We want a marriage license," explained the latter easily, mopping his face with his handkerchief.

Mr. Farrell's jaw dropped in astonishment at his temerity. "The door was locked," he said. "That means the office is closed. I can't do anything for you."

"But, my gosh," said the man,

"Here I've brought this license from Wells, Mich., and she can not stay overnight without being married."

Mr. Farrell was impressed with this reasoning.

"But even if I was in the mood to give you a license, which I am not," he argued, "there is no typist here to fill out the papers."

Girl Writes It.

The girl pattered forward, gazed up sweetly and purred, "I'm a typist."

Into the inner recesses they all went, and the girl wrote the names, "Walter Hunter, 39, 334 Dickerson-av., engineer, and Leota Shanks, 21, Wells, Mich., in the proper places, and Mr. Farrell affixed his signature and seal.

"Now," he said, having become interested, "let's see if there's still a justice of the peace in the building."

There was, Arthur E. Gordon.

CARD OF THANKS.

We wish to extend our most sincere thanks to all the kind neighbors and friends who so willingly assisted us during our hour of sorrow when we lost our little daughter, Margaret Geraldine. The floral offerings and other acts of kindness and sympathy will never be forgotten.

"STOP" SIGNS ON PAVEMENT

"Stop" signs were painted by city employees yesterday at all street intersections with arterial highways about the city, as a command to traffic of every kind to heed the provisions of Escanaba's new traffic ordinance. Thirty-eight signs to mark arterial highways have been received but the number required is considerably in excess of that and until additional signs can be delivered the police must depend upon signs painted on pavements for the control of traffic at arterial highway intersections.
