Mr. James L. Carter  
Assistant Director  
Research and Development  
Northern Michigan University  
Marquette, Michigan 49855

Dear Mr. Carter:

Your ideas about a workshop for American Indians in Michigan are very interesting. Certainly The Newspaper Fund realizes the need for better communication among the Indians in all areas of the country.

Unfortunately, merely providing means for communication is not within the purposes of The Newspaper Fund. Most of our programs are self-initiated and all are directly related to the job of encouraging young people to consider careers in journalism.

I have enclosed a copy of our new Annual Report which will give you more information about our foundation.

I look forward to receiving applications for scholarships from your students at Northern Michigan U. under the internship programs which are described in the Annual Report. I thank you for your interest in The Fund and appreciate your thinking of us as a possible donor for your program.

Sincerely yours,

*Tom Engleman*
