MEMORANDUM
July 10, 1972

TO: Allan Niemi
Vice President, Student Affairs

FROM: James L. Carter
Assistant Director, R&D

Now that the Office of Research & Development is no longer involved in the American Indian Program (other than having certain transitory duties) you might want to designate another budget from which payments can be made for minor program expenditures.

These include funds for postage for regular daily mail, postage due on returned newspaper mailings, telephone calls, office supplies, xerox and quick copy service and transportation.

The Nishnawbe News office is being staffed this summer by an Indian student whose wage is being paid by the Concentrated Employment Program (CEPS) of the Michigan Employment Security Commission.

Until a decision is made, postage and phone calls are being financed by the R&D office, and all bills on accounts payable are being forwarded to Mr. Bailey's office.
