Dear Mr. Bailey;

After seeing the new quarters assigned to the Nishnawbe News, and the Organization of North American Indian Students, I feel that at the present time these quarters will be sufficient for our needs.

We would ask that 15 of the chairs, presently located in the new quarters, along with the brown colored desk be kept their, if possible, for our use. Also that a small front office be created by forming a partition near the front facing the cafeteria. Since I have pointed these things out to you perhaps you could explain them to the proper authorities.

Thank-you
