RE: Keweenaw Bay Trail Council
DATE: March 23, 1973

We did not develop a story on the Keweenaw Bay Trail Council, but will be doing so in the next several days.

I want to include some quotes in the story from the Chief Fred Dakota. I was unable to consult him and I feel that the story would be incomplete without some kind of communication for the story.

Also, we did not have any pictures to use with the story.

I will be getting together with Jim Carter to see if we can get pictures of Chief Dakota and some of his people actually using the equipment donated. This will give us a much better story. That hopefully will receive some play in the Upper Peninsula papers and downstate as well.

cc: Jim Carter
