Mr. James Carter
Research and Development
Northern Michigan University
Marquette, Michigan 49855

Dear Mr. Carter:

On behalf of the Board of Directors of the American Indian Press Association, I want to express our appreciation to the University and to you for your courtesies to us during our recent meetings in Marquette.

We are especially appreciative of the transportation arrangements that were made for us and for the use of one of your staff members as our driver. I took her name and address to write a letter of thanks to her, but seem to have lost the slip of paper on which it was written. Please send me this information.

I am writing today to Mr. Surrell regarding the possibility of holding a communications workshop for Indian editors at the University sometime in the future if we receive funding for this program.

I just found Marelene Ellis' address so you don't have to take care of this. She was a lovely person to work with and I hope she enjoyed her time with us.

I also want to thank you again for taking us to dinner on the first evening. It was very enjoyable. If you are ever in Washington, D. C. on business, please call me. I would like to reciprocate.

Best wishes.

Sincerely yours,

Rose Robinson
Executive Director
