Nishnawbe News

Dear Sirs

I have just received my copy of Nishnawbe news and after reading its contents and ending by reading the artical top of front page "FINANCIAL SUPPORT NEEDED TO CONTINUE PUBLICATION" I realize only to well that others must have overlooked this artical and just read the news just as I did. after folding the papers to put it away the artical caught my eye, after reading the artical I thought of all those who must enjoy reading Nishnawbe news as I did, how would I feel if it were no longer available to me, I would not like it. for things I should now about and learn would no longer be available to me. Nishnawbe News is not just a news paper to be read and then tossed aside, its news and contents become a part of your life and anything that is a part of your life should be acted upon.

I know that my donation is not going to save the paper as one person alone, but many donations such as mine could so I would like to urge your readers and subscribers to join in in a Save the Nishnawbe News crusade. that when they subscribe just add an extra dollar or two to what they usually send and after they get through reading the paper to pass it on to a friend or send it to them and to urge them to subscribe to it also and to pass the paper on and to urge their friends to do the same. Let us all help Nishnawbe News grow, not to struggle. Dont wait help now, after it is gone, its to late, Dont let that time come when we say to ourselves "I wish I had done something about it"

(over)

Do it now while there is still time, Don't be sorry later that you sat back and said to yourself "my donation isn't going to help that much so I won't send any." WRONG. your donation no matter how large or small will help. Please help me to <sup>continue</sup> receiving my copy of Mishnawbe News, I enjoy it so very much. Send your subscription donation in today. I thank you for your interest and concern.
