Huron	9,275
Porter	8,275
Total	69,450
Previously reported	12,750
Grand total	82,200

The shipments of pig iron have been as follows:

Mine	Tons
Michigan	6,000
Delaware	5,000
Cleveland	4,000
Lake Superior	3,000
Huron	2,000
Porter	1,000
Total	21,000
Previously reported	2,500
Grand total	23,500

LETTER FROM JOHN BURT, Esq.

EDITOR MINING JOURNAL:—In the last issue of your paper you quote from the Pittsburgh Review, (with reference to my letter to you on the subject of the iron business of this country and its prospects for the future,) the following: "It is warranted by the facts," and give it as your opinion that the facts do not warrant—conclusions, "since we hear no complaints from other manufacturers." Now the article referred to did not confine itself to Lake Superior manufacturers, as would appear from the quotation, but to the manufacturing interests of the whole country. I do not admit that iron cannot be manufactured at Marquette profitably, when it is manufactured with a fair profit at the general manufacturing centres of the country. But on the contrary, maintain that it will be manufactured here profitably, just so soon as the business itself assumes a healthy condition, which will not be and cannot be, in the nature of things, until the price of iron is raised to the level of manufactured iron. The price of iron must either go up, or the price of labor go down. I firmly believe that the price of iron should be maintained at such a figure as to give the laborer a fair compensation for its production, and capital at least as much as is realized in other departments of business in the country. And this can only be done by a sufficient high tariff to protect this cheap labor of Europe. If the common laborer can get \$1.50 to \$1.75 per day in the more plain pursuits, we cannot expect he will work for less in the manufacture of iron; and we should not ask it for he cannot afford to, if he desires to be and live like an American.

In the manufacturing districts of England, the laborer is content with just enough to keep him from starvation and nakedness, and seldom, if ever, thinks of sending his children to school, or learning to read or write himself. But it is and should be different in this country. Every man is a freeman, and is capable, by our laws, of rising to the highest position in our country, and to maintain our noble institutions, and be educated. In order to do this, and have and enjoy the comforts of life, which every American citizen is entitled, he must be much better paid for his services than European laborers. Congress, instead of reducing the tariff on iron and creating interior bonded ware houses, where it can be held in store until sold to its duty, would have better served the interests of the people by increasing the tariff on iron, equal at least to the difference of exchange, resulting from the depression of gold as compared with our currency, and to have refunded the bonded warehouse system so hastily passed to the great detriment of the country. The creation of these warehouses, in my opinion, is a great blow to the iron manufacturing interest of the country than any other interest, and equal in its effects to the reduced tariff on pig iron, and more so in its moral effect upon the political issues of the country. For it cannot fail to increase the importation and free trade spirit, already strong enough in the west and consequently operate against the young manufacturing establishments about in operation, and prevent the establishment of others that would have followed. I have been informed by a gentleman of honor and integrity, that Scotch pig has already

been delivered in Pittsburgh at \$27.00 currency, per ton, and it is plain enough to be seen that it can be delivered in Chicago for \$30, as the cost in Glasgow is only \$12 to \$14 per ton. I find as reported by the *Iron World and Manufacturer*, Pittsburgh, Pa., Aug. 16th, the following statement of raw iron continues inactive, most of the mills are now idle. Lake Superior forge iron, inferior, \$25, mottled, \$26.50, favorite gray, \$31, four days, \$32.50 four months. Now I think it will not take an iron manufacturer long to figure up the profit on that pig, for it will be done by the following figures: 000000 to 1000. It costs to deliver enough iron ore for a ton of pig iron in Pittsburgh \$18; coal \$6; flux \$1; interest 4 months \$1; cost \$30; of machinery \$1. Profit, 0000. It is a noticeable fact that many merchant rolling mills, not only in Pittsburgh, but at other points in the manufacturing districts of the country are idle, and some of them are offered for sale at less than half price. Also that many furnaces are out of blast that would not be but for the low price of pig iron, and that several blast furnaces commenced have been either abandoned altogether, or operations suspended for the present, from the same cause.

So much for the pig iron business, about which so much was said by the free trade skirmishers, in and out of Congress during the last session, which has resulted so disastrously to that great interest. It is an old saying, "what is one's loss is another's gain," but it is hard to see it in this case, unless it is the free traders or rather importers, and that must be prospectively, if ever. It has been admitted, I believe, by all intelligent persons that the profit on merchant bar iron for the past year or two, has been very small, and frequently profitless. It has been equally admitted that there has been a fair profit on pig iron. This having been found out by Commissioner Wells and the free traders, they at once went to work to destroy it, and have for the time being, accomplished their object. Were it not for the fact that in the wisdom of congress, American iron is required to be used in the construction of all land grant railroads, it is more than probable that the whole iron business of the country would be completely prostrated. But the demand for rails being large, that branch of the iron business may be considered good, and consequently ear wheel, or in other words charcoal iron, still bears a moderate profit where it is produced under the most favorable circumstances—very low ebb, and the prospect from the present stand point is not flattering. Will congress do anything next winter to remedy the evil? I hope so but fear not. If not, there is only one remedy left, if we continue to manufacture iron and that is the price of labor must fall to correspond with the price we get for the manufactured article. If we can have stability even a moderate profit it will much towards increasing confidence and regularity, the standard of wages that can be paid in the manufacture of iron in this country, which I have no doubt will soon assume a healthy condition. But if we are to have free trade constantly paraded before our eyes, and the ghost of protection to American industry constantly haunting us, we may continue to look for disaster to American manufactures of iron for many years to come. Hoping, however, that in the wisdom of the people a proper remedy may be found, we must patiently abide our time.

Very respectfully yours,
JOHN BURT.
Sept. 1, 1870.

TEA AND COFFEE.—Taking into account the habits of the people, tea and coffee for breakfast add to human health and life, if a single cup be taken at either meal. Science and fact unite in declaring them to be nutritious, as well as stimulant; hence they do good to the system every day, to end of life, just as bread and fruits; hence we never get tired of either. But the use of bread and fruits is daily abused by multitudes, and dyspepsia and cholera morbus result; yet we ought not to forego their employment on that account, nor should we forego the use of tea and coffee because their inordinate use gives neuralgias and other ailments.

But the use of tea and coffee has another advantage. We will drink at our meal, and it we do not drink these, we will drink what is worse—cold water, milk, alcoholic mixtures. The regular use of the latter will lead to drunkenness; the considerable employment of simple milk, at meals, by all except the robust—will either constipate or render bilious; cold water, especially in cold weather, attracts to itself so much of the heat of the system, in raising said water to the temperature of the body, that the process of digestion is arrested in the meanwhile, giving rise to a deadly sickness of the stomach, twisting pains, to vomiting purgings, even to cramps, to fearful contortions and sudden deaths. But as tea and coffee

AT WALLACE'S HARDWARE STORE,

May be found the following goods besides many other articles to numerous to mention. Cook Stove, Box Stove, and Parlor Stove, both for wood and coal. Mrs. JOHN STONHOUSE.

LOCAL ITEMS.

DELTA LODGE NO. 195, F. & A. M. Regular communication of this lodge are held in their hall over Barras' Store in Escanaba on the third Thursday of each month.

HOPE OF OUR VILLAGE LODGE NO. 315, I. O. G. T. Regular meetings of this lodge are held in the C. M. Fellows Hall in Escanaba, every Saturday evening.

ESCANABA LODGE NO. 118, I. O. O. F. Regular meetings of this lodge are held in their hall in Escanaba, every Monday evening.

EXCELLENT ENCAMPMENT OF PATRIOT ARCHES, I. O. O. F. Regular meetings of this encampment are held at the Odd Fellows hall in Escanaba, Mich. on the first and third Tuesdays of each month.

RELIGIOUS.

S. JOSEPH'S CHURCH. Rev. CHARLES LANGRISH, Pastor. Services: Morning at 10 o'clock; afternoon at 3 o'clock; at 7 P. M.

Rev. N. E. PIERSON preaches in the Presbyterian Church every Sabbath at 10 A. M. and 7 P. M. Sabbath school at 2:30 P. M. Weekly Prayer Meeting Wednesday at 7:30 P. M. Young People's Meetings, Tuesday evening at 7:30.

We notice a large amount of Fresh Vegetables, Fruit, &c., at Darling's Stand.

The population of Menominee County according to the late Census was 1,792.

F. O. Clark Esq., has the Agency for the Putnam Fire, and Knickerbocker Life Insurance Co.'s, both reliable.

SCHOOL is to open next Monday with Mr. and Mrs. Woodward of Illinois, as teachers.

A letter from Ontonagon says that last week's Escanaba Tribune brought them their latest wire news. Subscription price \$2.50 per annum.

There is still a small amount of sidewalk unfinished, that were ordered built by the Village Board last spring, and we think it time that some steps were taken to prove whether the Board is a power in the land, or not.

The "Mining Review" failed to make its appearance on our table last week, and we regret to learn that there is another break in that unfortunate institution, whereby its publication under the old firm has ceased.

Quite a number of new buildings are being erected at the Jackson Mine, some of which are intended for dwellings and others for store-houses for charcoal, which is coming in, in large quantities.

GO AHEAD WITH YOUR NOMINATIONS. We are anxious to see the County Nominations made soon for six reasons. We will pass the first five and come to the sixth.

NOTICE. The regular meeting of the Board of Supervisors for the County of Delta, will be held at Escanaba, on the 13th day of September, Tuesday next, at which time it is hoped and expected that all the members of the Board will be present.

STRESS is advertising a large lot of new goods which he proposes to sell cheap. He is talking about leaving again, and from the preparations we saw being made in Milwaukee when there we are inclined to believe he is in earnest.

A SAILOR fell from the top of the ore dock to the deck of the St. Lawrence on Monday last, breaking one of his arms and otherwise injuring himself. This is the fourth accident of the kind during the summer, and, we believe, all to sailors.

We have received from T. H. Kinsman a picture of the Tilden House, which is well executed, and we notice that he has very much improved in his work of late. He is permanently to live in our midst, is a good workman, and should receive our entire patronage.

IMPROVEMENTS. The building owned by John Stonehouse, and occupied as a residence and Milliner Store, has been improved in a manner that its neighbors would do well to imitate. The Store too, is well fitted with the necessaries, so necessary to a female toilet.

M. J. Moore has removed his Barber Shop into the Basement of F. O. Clark's new building where he may be found at all times. Although the entire building will not be devoted to Tonsorial purposes, yet we suspect there will be some leaving going on in each story.

The Ford River Mill people have covered the Ford with sawdust for a mile and a half in this direction, and a little more work in the same line will give us a drive down the bay shore that will not only be pleasant to our own people, but attractive to visitors.

At a meeting of the Presbyterian Society, held last Tuesday evening, Messrs. Langley, Selden, and F. O. Clark, were appointed a building Committee, to superintend the erection of the new church.

An Indian Hunting party, consisting of seven "braves," and a small army of squaws and paposes, passed through here on Thursday last, bringing with them the salted meat and skins of 128 deer and five bear, as the result of their summer's hunt, in the eastern part of this county.

In another column will be found the advertisement of John Semer who has lately established himself in business in our midst and now asks the aid of the people in building up a business that will be profitable, both to him and them. He is a pleasant

man to deal with, keeps a good assortment of goods, and proposes to sell at reasonable rates.

The Railroad Company have been doing some very good and commendable work in "Macadamizing" some of our streets with refuse from the shops, and it now remains for our street commissioners to finish the work. Let them apply to the Co. to preserve everything of that nature, and haul it off and use it as fast as it can be obtained.

F. O. CLARK'S new building across the way is being rapidly put in shape by John H. Hart & Co., who have put up quite a number of buildings during the summer, and will probably complete several more before snow falls. We understand it is Mr. Clark's intention to finish off the upper story of his building for a hall.

We understand that the Marquette Land Office authorities have not yet received official instructions regarding the late law of Congress giving land to the soldiers. There are a good many of the "boys in blue" in the Upper Peninsula who are anxious to reap the benefits of the law, and the Land Office people will confer a favor on these by procuring the necessary instructions and blanks immediately.

As we intimated some weeks ago, the Jackson Company have at last accepted the resignation of M. H. Brown Esq., for some time past Agent at the Jackson Furnace, and he left for below last Sunday morning. We sincerely regret that he has left and hope that he will be able to make arrangements which he is contemplating, and return to this country again. If he does not, we can sympathize with the Company, for while they have lost a good servant, Delta County has lost a good citizen.

SCHOOL MEETING. A report of the above meeting will be found in another column, and it has been decided to build a suitable addition to accommodate the very large increase in scholars since the present building was erected. The late enumeration gives nearly 400 between the ages of five and twenty. We were glad to see so many present and so much interest taken in the matter, and hope that it will not be allowed to flag until we have the champion union school of the state.

On Sunday last Mr. Dumlap took away his horse justly number of our summer visitors at the Tilden House, among whom were the Mrs. Prestons of Rockford, Mr. Ruddy and sister, of New York, and F. M. Clements of Chicago, and we have rarely with the same number of persons, who were their equals in general intelligence, and other qualities requisite for making life pleasant and society agreeable. The evening previous to their departure, Mr. Hutcheson gave them a farewell supper at which toasts were drank, remarks made, and the good things of life enjoyed, while the guests all expressed the determination to assemble under the pleasant roof of the Tilden House again next season. The invalids of the party were very much improved by their summer's sojourn.

POLITICAL. Hon. T. W. Ferry has been nominated for Congress by the Republican party for this district. The Democrats have made no nomination, and, we believe, have issued no call. Mr. Ferry is regarded as Michigan's best representative in Congress, and will undoubtedly be re-elected.

Hon. John F. Briggs has been nominated by the Republicans of the Sixth district. He is an old politician, and has formerly worked hard for the Lake Superior interests. We believe the Democracy of the district intend putting a Lake Superior man in the field in opposition to him.

No political meetings have been held in this county as yet, but we presume there will soon. We hear of many aspirants for the county offices. May the best men be elected.

HURRAH for a Grist Mill. Feeling patriotically inclined and willing to do something for our country, we wended our way up to the residence of Mr. Langley, and canvassed with him the chances for a grist mill, to be located at or near the saw mill on the Escanaba River, and about four miles from this village. We learned to our surprise that they have now a good stone, capable of grinding 15 bushels per hour, and need only a bolting machine to enable them to make first class flour. Mr. Langley further states that if 100 acres of wheat were planted so as to be harvested in 1871, he would have a grist mill in readiness and good millers employed to turn the product into flour as soon as it was ready for market. And now, farmers, it rests with you to decide whether we shall have one or not, for the proposition is made in good faith, and by a reliable man. Do not wait to see what your neighbor will do, but every one do what you can, and the result is sure, we shall have the mill. After that will come the agricultural societies, the markets, the fruit, the fast horses, the fine cattle, and Escanaba will be known as not only the greatest iron shipping port in the country, but as the point who possesses penetration enough to avail herself of her agricultural advantages.

Circuit Court. The Circuit Court for this county will be in session from Monday next, in F. O. Clark's new building. Among the cases to be tried is another transfer from Houghton county. The following is a list of cases:

The People vs. H. G. Squires. Larceny.

Richard Mason, Jr., contestant, vs. The Heirs of Richard Mason, Sen., deceased. Appeal from Probate Court.

Richard Mason, Jr., vs. James Mason et al. Injunction.

Ellen Nolan vs. James Sweeney et al. Transfer from Houghton County Circuit. Ejectment.

F. J. Dunn vs. J. R. Elliott. Trespass.

Chas. M. O'Malley vs. Elliott & Hiller. Assumpsit.

Eugenie Pich vs. Emanuel Thomas. Assumpsit. Appealed.

Elliott & Hiller vs. John McHale. Assumpsit. Appealed.

Francis Dausey vs. Antoine Lousell. Assumpsit. Appealed.

SCHOOL REPORT.

Annual meeting of School District No. 1, was held in the school house, commencing at 8 P. M., H. B. Smith, Moderator, in the chair; James C. Dougherty, Director, as clerk. Minutes of last meeting were read and approved.

Annual report of the receipts and expenditures for the year just closed, were read by the director, which were as follows:

Table with columns: RECEIPTS, EXPENDITURES, and Total receipts.

On motion, the report as read by the Director was accepted.

The board then presented the following as their estimate for the expenses of the present school year:

On motion, it was resolved that a tax be voted for \$900, the amount estimated for teachers wages; also for \$300 for incidental expenses, and \$150 for fuel.

On motion, it was resolved that a tax of seven mills (.07) on a dollar be voted for school building purposes.

On motion, it was resolved that the matter of enlarging the present school building be left in the hands of the school board.

On motion, David Langley, Jr., was elected Assessor for the ensuing term of three years.

Minutes of the meeting were read by the Director, and, on motion, were approved.

On motion, the meeting adjourned. JAS. C. DOUGHERTY, Director.

Escanaba, Sept. 5th, 1870.

At a meeting of the District Board, held at the office of H. B. Smith, the following list of text books were adopted:

- List of books: Spellers—Wilson's, Readers—Independent, Writing Books—Spencer's, Arithmetics—Davies, Book Keeping—Bryant & Stratton's, Algebra—Davies, Geography—Mitchell's, Grammars—Clark's, Philologists—Steele's, (14 weeks course), Physiologies—Steele's, (14 weeks course).

We have made arrangements with Mr. C. C. Royce to furnish the readers at half price during the first two weeks of school. JAS. C. DOUGHERTY, Director.

SPECIAL NOTICES. The Five dollar Sewing Machine purchased by me January, 1866 from the Family Sewing Machine Company, 50 Nassau Street, N. Y., has been in almost constant use ever since. It has not been out of order since. Has cost nothing for repairs, and I find it simple and reliable in operation, and always ready to sew. Those friends of mine who use them with the new improvements are very much pleased. The one I have I would not part with. Mrs. ANN W. UTHURST, 128 West 96th Street, New York.

SPECIAL NOTICE. Parties wanting credit at my store will ask if they can be accommodated before the goods are sent; also those who do not run monthly accounts will settle their bills without further notice. I propose to stop selling goods and then sending their value again in trying to make collections, considering it a favor to accommodate from one day to the next, and if this is not sufficient, the next time you want to buy bring your change. C. B. STRASS, Escanaba, Mich., Sept. 7th, 1870.

The sure, steady and rapid growth of the village of ESCANABA, is the best guarantee for its future, and we feel assured that its increase in the future will be even greater than it has been in the past, believing that a small beginning has been made. The extension of the C. & N. W. R. R. Westward in Marquette county, the establishment of a Railroad, Foundries, &c., the early building of a Railroad Westward to the Menominee and Lake Superior, and the erection of one and other Docks, Grist Mills, Planing Mills, &c., all point with unerring finger to an increase of business and population in the village.

We have no hand business and building lots, excepted by few, if any that have been sold, and are prepared to dispose of these at fair prices and on the most liberal terms, to parties buying for the purpose of improving.

The village has recently been incorporated by the Board of Supervisors, and contains about 1,175 inhabitants, with five General Stores, two Hardware stores, one Drug store, one Tailor shop, one Meat market, three first-class foundries, which is the finest on the Upper Peninsula, and five second-class Hotels, one Livery Stable, one Harness shop, two Cabinet and Carpenter shops, two Barber shops, one Bakery, one Photograph Gallery, or Printing Office, and several Saloons; besides the R. R. Co's Round-house, Machine shops, &c. There are also Presbyterian and Catholic Churches, a good School, and a considerable amount of literary culture for a place so young. In this and many other respects it challenges comparison, and it can be claimed for it also, that there are few places if any that have grown up so rapidly to which a gentleman can go with his family, and have the advantages of education and social intercourse that he can find here.

To all therefore who are in search of a good business point, a rapidly growing village, and one that is certain to continue so, we say come on, we will welcome you with open hands to hospitable homes. DAVID LANGLEY, Escanaba, Mich., Sept. 5th, 1870. Agent for Proprietors.
