Yearly advertisers will be allowed to change their advertisements from one year to another without extra charge.

SHIPMENTS.—Below we give the shipments of iron ore from this port for the month of October, and also for the season:

OCTOBER SHIPMENTS.		Gross Tons
Minn.	10,200	10,200
Mich.	1,800	1,800
Wis.	1,200	1,200
Ill.	1,000	1,000
Ind.	800	800
Pa.	600	600
Ohio	500	500
Mo.	400	400
Ark.	300	300
La.	200	200
Tex.	100	100
Other	100	100
Total	20,000	20,000

The telegraph, our reporter, and the types made a sad mess of the report from the Lake Angelina mine, published two weeks since. The explosion was caused by a premature discharge of two kegs of powder that were being used for a sand blast, and there was one man killed and two wounded. They do not use nitro glycerine at the mine at all.

Nitro glycerine is now being used at the Jackson, Cleveland, New York, Barham, New England, Washington and Edwards mines, and as the mines are becoming more accustomed to it, fewer accidents occur, more work is done, and at a less expense.

During a recent flying visit to Portage Lake, we had the pleasure of traveling on the City of Toledo, and of amusing ourselves and Capt. Dustin at his favorite game of checkers. The boat is too small for the route, but for another angle for which she is intended, she would be very popular and profitable.

PORTAGE LAKE AND LAKE SUPERIOR SHIP CANALS.—This important work is rapidly advancing toward completion. If no looks for accidents occur, the probability is that the waters of Portage and Superior will be united this fall. Of the 11,000 feet (the whole length of the canal) over 8,000 feet have dug the full width and depth, the balance of the excavation is mainly done, and what remains undisturbed is in the hands of a large force of men, who are being worked to a purpose.

The work of timbering up the sides of the canal is in a very forward state, and the company are making every exertion to have this portion of the job in readiness by the time the cut is through to the big lake.—*Mining Gazette.*

UTILIZING SLAG.—Some time ago we broached the above subject, and now we find the following in the New York Sun, in relation to the matter. What a beautiful sight it would be to see a city built of this variegated slag:

"In all iron-blasting furnaces, hard and soft or bog iron, ore, limestone and coal are thrown into the furnace in layers. A strong draught of air is kept constantly blowing underneath to keep the fire burning. The heat from the coal and limestone causes the iron ore to melt; the iron letting loose, which, being the heavier, falls to the bottom of its own weight. The remainder is a conglomeration of limestone, sand, rock and earthy substances, and is called slag. This is drawn off from time to time and hauled away, no use being made of it. When cool, it is exceedingly brittle and hard, rapidly cooled by the application of a stream of water, which is doubtless the reason of its hardness and brittleness. Its color is gray, with beautiful streaks of black running through it in every direction.

At Anvoyle, in Belgium, this refuse has been cast into slabs, for pavements and paving purposes generally, into garden rollers, and posts and pillars; and it is said in some forms to represent artificial porphyry. Now, as it has always, in this country and in Europe, involved the proprietors of blasting furnaces in considerable expense to get rid of it, the moulding of this molten lava for building, paving, architectural and ornamental purposes has opened a new field for inventive genius. American inventors have found uses for many hitherto waste materials, which have been made subservient to the comfort and luxury of man.

There is no reason why, if a slower process of cooling were adopted, slag could be made less brittle, and consequently more valuable. Of course, in drawing it off, it can be moulded into any form desired, into blocks for building, into mantels and other forms of ornamental architecture, as well as for paving purposes, and for park and garden rollers. If slag is useful for any of the purposes to which it appears to have been put in Belgium, it is useful for many, and can be moulded into a thousand forms. It is susceptible of great points, and is exceedingly beautiful.

BLAST FURNACES IN THE LOWER PENINSULA.—The people of the Lower Peninsula are waking up to the importance of Blast Furnaces, and all along the east shore of Lake Michigan they are either building or preparing to do so. The following are a series of inquiries circulated by Major Brooks in behalf of the State.

1. With what townships, counties or areas are you personally familiar?
2. What is the name and location of the nearest reliable harbor suitable for receiving ore and shipping pig iron, and is it now available for this trade? Has it been improved, what is the depth of water, ease of access, etc.
3. What railroad, built or building, can be made available for the purpose?
4. What portion of the designated area was originally covered with sugar maple, beech or other hard wood?
5. What portion of what was hard wood land is now cleared, and at what rate is it being divested of its timber?
6. What would be a safe estimate of the average yield per acre in cords (128 cubic feet) of sound charcoal timber, which includes limbs, if closely piled?
7. At what average price per acre can the entered land now be bought in large lots, with timber standing?
8. What portion is government land and what is the price?
9. What is the unimproved land worth, with the timber removed?
10. What does it cost per acre to clear land and fit it for the plow, not including fencing?
11. What would it cost to clear it if the charcoal timber were removed?

ANOTHER EXPLOSIVE FOR MINES.—We learn from the London Mining Journal that Mr. A. Noble, a Parisian engineer, has taken out a patent for improvements in the composition and fabrication of explosive compounds for mines. The following shows the composition of two types of this powder:

1. Sixty-eight parts of pulverized nitrate of barites; twelve of charcoal, of light texture; twenty of nitro glycerine. 2. Seventy parts of barites as above; ten of powdered resin; twenty of nitro glycerine. The charcoal should be carbonized at a low temperature, and, consequently, still containing hydrogen. An addition of five to eight per cent of sulphur to either of the above mixtures gives a powder which fires more briskly, but at the same time it increases the danger in the manufacture, carriage, and application of the powder, which should not be lost sight of. This method of using these powders is to place them in cartridges, like firework cases, covering the powder with a little fulminant, such as mercury, for example, before closing and priming. The cartridge has merely to be placed in the hole, and covered in the usual manner, and it may be fired either by fuse or the electric spark; in either case the fulminating powder, acting on the nitro glycerine, inflames the whole of the contents instantaneously. To render carriage of the cartridges less dangerous, a little ordinary gunpowder may be substituted for the mercurial fulminant.

The following names I give to the public as men of honor for raising assets and paying their debts:

G. W. Child, Sam. Dabell,
 Kirby C. Hitch, Niram Wetzel,
 J. B. Bennett, John Cyle,
 George E. Smith, H. G. D. Spelzer.

This is the only way I can see to proceed hereafter to make collections. I shall be obliged to establish all such parties that do not settle up when accounts are due, or each pay day.

C. E. STRASS.

WARM HOMES.—We have now a large stock of heavy and light sheeting paper, which is becoming so popular with those who desire cheap and warm buildings, which we offer at manufacturer's prices.

Also carpet paper heavy and light.

H. GORDON,
 Sole Agent for the
HALLETT and CUMSTON PIANOS
 —AND THE—
CELEBRATED AMERICAN ORGAN

Piano Tuner, Teacher of Vocal and Instrumental Music, Marquette, Mich. Oct. 1870. \$1.00.

F. D. CLARK,
SADDLE AND HARNESS MAKER AND DEALER IN TRUNKS, VALISES, &c., &c.

E. P. LOTT,
COUNTY CLERK,
AND NOTARY PUBLIC.
 Office at the Tribune Printing Office.

The sure, steady and rapid growth of the village of ESCANABA, is the best guarantee for its advancement, and we feel assured that its increase in the future will be even greater than it has been in the past, believing that a small beginning has been made. The extension of the C. & N. W. R. R. Westward in Marquette county, the establishment of Furnaces, Foundries, &c., the early building of a Railroad Westward to the Menominee L. Co. Range, and the erection of iron and other Works, Mills, Planing Mills, &c., all point with increasing vigor to an increase of business and population in the village.

We have on hand business and building Lumber, excelled by few, if any that have been sold, and we are prepared to dispose of those at fair prices and on the most liberal terms, to parties buying for the purpose of improving.

The village has recently been incorporated by the Board of Supervisors, and contains about 117 inhabitants, with five General Stores, one Hardware store, one Jewelry store, two Wholesale Liquor stores, one Drug store, one Tailor shop, one Meat market, three first-class ones of which is the best on the Upper Peninsula, and five second-class Hotels, one Livery Stable, one Harness shop, one Cabinet and Carpenter shop, two Barber shops, one Bakery, one Photograph Gallery, one Printing Office, and several Saloons; besides the R. R. Co's Round-house, Machine shop, &c. There are also Presbyterian and Catholic Churches, a good School, and a considerable amount of literary culture for a place so young. In this and many other respects it challenges comparison, and it can be claimed for it also, that there are few places if any that have grown up so rapidly to which a gentleman can go with his family, and have the advantages of education and social intercourse that he can find here.

To all therefore who are in search of a good business point, a rapidly growing village, and one that is certain to continue so, we say come on, and we will welcome you with open hands to hospitable homes.

DAVID LANGLEY,
 Escanaba, Feb. 23 1870. A real for Proprietor.

BARBER SHOP.
BY E. GLASS,
 On Tilden Avenue, opposite the Jewelry Store, where I shave, cut, and trim, and dress the hair, and give the most delicate and stylish a jetty black, and in fact strive to attain the highest perfection in the art.

THE ART FONSORIAL.

H. B. Smith has dwellings, stores and offices for rent.

S. C. Baldwin Esq., returned home on Wednesday last.

T. H. Kinsman is back in his gallery again.

There are a great many partridges in the woods.

The tug E. P. Dorr, bound from Cleveland to Chicago, called yesterday.

The men on the entire C. & N. W. R. R. are working only eight hours per day.

Register your names at the township clerk's office to-day. None who are not registered can vote.

Four.—A large building caught fire by sparks from the propeller St. Joseph at Fifth Creek on Sunday last.

The county candidates have been over to Big Bay electing the good people of that vicinity.

The Snow Queen, went ashore at Big Bay, high and dry, and was pulled off by the tug Bannockburn with little damage.

The Schooner Geo. Sherman, sprung her mainmast and split her topsail, in the same storm.

The Schooner G. L. Gross, on her down trip, lost a portion of her deck load of ore, in heavy weather.

The Bark Louisa, completed her contract with the Jackson Furnace, having made eight trips in 31 days.

The Schooner S. P. Ely made the run from this port to Cleveland in sixty-two hours and a half, the best time on record.

Sheriff Crowley, from Marquette, arrested a man in town Thursday night on a charge of seduction.

It is said that one boat that started from here electingering took along 16 gallons of "fish oil".

J. W. Hinchman brought back from Sharon, Wis., a beet that beat the other beet, weighing 41 pounds.

An artist by the name of G. H. Bailey, has been taking sketches for some days for the purpose of having a lithographic picture made of the place.

Six years ago the 7th of last month, the snow fell nearly a foot deep at Centreville, and effectually blocked up the train for nearly 24 hours.

Mr. T. T. Hurley is stocking up with the intention of running his independent street line this winter between here and Green Bay.

We have printed nearly 25,000 tickets, slips, etc., and we give it as our opinion that somebody is going to be elected.

D. F. Wadsworth and bride passed through town on Tuesday last. May his face always wear as broad a smile as it did then.

Rumor says that one of our merchants now outside, proposes to return with a small but well selected stock of dry goods.

Hon. W. P. Healy, democratic candidate for State Senator, called on us during the week. He hasn't fully decided whether to purchase a through ticket to Lansing or not.

An editorial friend who is a candidate for office called during the week. He "never asked a man to vote for him in his life, and what is more I never will, but here is a slip with my name on it."

On the 20th of last month, there was shipped from the port of Milwaukee 310,000 bushels of wheat, the largest amount ever shipped in one day.

The Hecla and Calumet Mining Co's have declared dividends of \$5 each, to be paid during this month, making an aggregate of \$200,000.

The Ontonagon Miner says that Henry Allen raised 55 bushels of oats to the acre, and thinks it can't be beat. Bring in your figures, farmers.

Capt. Dustin, of the steamer City of Toledo, informs us that he expects to run between this port and Chicago via the east shore of Lake Michigan, next season.

Our foreman wishes us to say that he has made up his ticket, and no amount of handshaking will induce him to change it. Candidates are losing time by electing a nim.

We would respectfully inform the individuals who put Wm. Radcliffe's sign up before our door, that the next time they get so drunk they can't tell a printing office from a saloon, they had better sell out.

We have not noticed a drunken Indian in the streets for some time, and are glad to know that the saloon keepers have decided to make their money in some better way, than by signing the death warrants of these poor creatures.

W. I. Boardman, of Erie, an old newspaper man, has bought an interest in the Mining Journal, and we believe, will have charge of the mechanical and financial part of that paper.

What a splendid place the light house on Huron Island would be to bring up a family; 30 miles from the nearest neighbor, four miles from shore, and 155 feet above the lake. No corrupting influences, no danger of their being lost, and a fine garden, and seems to think he occupies one of the most enviable positions in the world.

As we signed some weeks ago, Dr. Bellows, who has for several years been the popular physician at this place, has decided to remove to Fayette. He came here at the almost unanimous request of the citizens, and he leaves behind him many warm friends, among all classes. A Dr. Smith, of Vandalla Ill., succeeds him.

CENSUS.—According to the last census, the population of the State of Michigan is 1,191,461, an increase of 60 per cent in 10 years.

PERSONAL.—We have received calls this week from A. P. Swinford Marquette Journal, Frank Tilton, Green Bay Advocate; Jacob Houghton, Nitro Glycerine; E. D. Boardman, Sturgeon River; G. W. Robertson, Fon du Lac; D. F. Wadsworth, of Negaunee.

The propeller R. J. Hackett and consort, the large Forest City, came to the dock Saturday morning last with 110 tons of coal aboard, which Mr. Barr and men commenced unloading at 9 o'clock in the morning, and at 6:40 that evening they were freighted with 2,479 tons of ore. The propeller was loaded in one hour and fifty minutes, or nearly 11 tons per minute.

Dr. L. J. SMITH, having succeeded Dr. Bellows in the practice of medicine and surgery, in the village of Escanaba, respectfully solicits the confidence of the public. Office over the Post Office. Those who prefer to secure his services, by paying monthly, as they have done with Dr. Bellows, can do so by calling. 48w3

ALMOST A FIRE.—As Patrick Collins, the Painter, was engaged in melting some painting compounds of which turpentine formed the largest part, in Clark's new building this morning, the bottom fell from the basin, and the liquid ran blazing over the floor. Although badly frightened, the painter retained sufficient presence of mind and at some risk to himself, succeeded in smothering the flames. The floor is considerably charred, and the walls and ceiling badly blackened up.

We found our friend H. H. Hunt, in Marquette, up to his eyes in business, having both the Tremont and North-western hotels on his hand now. He also expects to have the new hotel now building on the corner of Washington and Front streets, which will give him accommodations for 500 guests.

A VALUABLE INVENTION.—We were shown by Dr. I. M. Rhodes, of the Franklin and Peabody mines, an easy chair and fracture bed combined, which possesses innumerable advantages over anything in the line ever invented. We know from experience the terrible pain and injury that a patient receives by being handled upon a common bed, and know also that this invention of the Dr's will relieve this in a great measure.

I. O. G. T.—The following officers have been elected for the ensuing quarter, beginning Nov. 1: W. C. T. J. P. Dodge; W. V. T. Miss Louisa Fanning; W. Sec. James Bushnell; W. M. James Kelley; W. F. S. G. H. Reilly; W. Treas. Charles Cordes; W. Chap. Mrs. E. M. Lindsay; W. I. G. A. P. Dodge; W. O. G. J. L. McLaughlin.

In the Temple the officers elect are as follows: D. T. J. L. McLaughlin; D. V. T. E. M. Lindsay; D. Sec. James Bushnell; D. F. S. Mr. George McKee; D. Treas. Louisa Fanning; D. M. James Kelley; D. Chap. T. S. Kinsman; D. G. Sarah Bushnell; D. Sent. C. Cordes.

We called upon the Editor of the Mining Gazette at Houghton, a few days ago, and found him in the enjoyment of good health and financial prosperity. Mr. Devreant is a young man of energy, well as a strong pen, and it is a good practical paper, elements which cannot fail to make his paper successful, unless the entire Copper Region should become prostrated. He is advocating the establishment of Blast Furnaces, Rolling Mills, &c., along the shores of Portage Lake, with a good prospect of success.

We were unfortunate enough to call down upon our editorial herl the wrath of the "mity," the Meacumpe Herald, who replied to our little joke about the unstamped beer keg in one of the most obscene things we have ever seen in print. The senior editor of that paper is a gentleman who has done much by his untiring energy and perseverance to make the country what it is, and a man for whom we have great respect, and as he expressed himself so strongly in favor of the enforcement of the laws, we naturally attributed the little squib to the Junior and replied accordingly.—Our advice to the latter is, keep your temper, do your own dirty work, and make your paper what it should be, the organ of the lumber region, instead of the mouth-piece for the dissemination of vile personalities.

Indian summer weather still continues.

SCHOOL REPORT.

ESCANABA, Nov. 5.

Mr. Editor: We would once more bring to the notice of parents the attendance of their scholars for the month, and again urge the necessity of more-constant attendance, particularly with those of the higher department, which has fallen back four per cent, while the primary has advanced six per cent. Fifty-three scholars out of one hundred and seventy-seven, as you will see below, have not lost a minute, and by a little care a great many more might have been just as regular. Inquiry in several cases has shown that scholars were allowed to remain at home for almost nothing and those scholars are and ever will be lagged in their classes. Those who are present all the time are getting waked up and thoroughly interested in their studies, and we think any one who will take the trouble to step in will see that the school is steadily advancing.

While we urge a better attendance on the part of the scholars, would it not be well to quietly rap our school board and those other friends of education who have not been seen within the school room doors in eight weeks that are past?

The report for the month ending Nov. 4, is as follows:

Table with columns: Department, Higher department, Primary department, Grand total. Rows show numbers in attendance for month, average for month, and percentage.

Not Absent nor Tardy.—Higher department—Celia Allgor, Jennie Beach, Jennie Black, Katie Caton, Paulina Gaynor, Alice Slaughter, Henry Black, Frank Cadman, Patrick Glavin.

Primary Department—Nellie Barney, Mattie Barney, Victoria Boudette, Mary Caton, Nora Caton, Georgiana Cadman, Honora Doyle, Mary Doyle, Ella Dinneen, Alice Kayserod, Em. Kayserod, Annie Killian, No. a Levisoe, Emma Myer, Mary Muller, Annie Nelson, Sarah Reeves, Nellie Stonehouse, A. E. Slaughter, Lizzie Sipechin, Lill Stephenson, Annie Swan, Fanny Young, Arthur Anthony, George Blanchard, Arthur Boudette, Charles Boudette, Harry Bashedel, Michael Caton, George Cadman, Charles Finnegan, Martin Duan, Willie Kaysero, Charley Moran, Levi Perrin, George Ramspeck, Eddie Slaughter, Johnny Sipechin, Jerry Reeves, Johnny Wagner, Anthony Wagner, Susie Wagner, Joseph Williams.

Respy yours, GEORGE T. WOODWARD, Principal.

MAINE INTELLIGENCE.

Oct. 28.—Bark Louisa, Fayette, 40 tons ore. P. W. Berridge, Deque, 24 tons ore. S. C. L. Johnson, Michigan City, 25 tons ore. Oct. 29.—Schooner City, Erie, 130 tons ore. George R. Hackett, Erie, 100 tons ore. Oct. 31.—S. M. Fayette, Cleveland, 301 tons ore. Scar W. O. Brown, Cleveland, 101 tons ore. Nov. 1.—S. A. Bradley, Cleveland, 113 tons ore. Bark Geo. Sherman, Cleveland, 324 tons ore. Nov. 2.—S. M. Grace Greenwood, Chicago, 64 tons ore.

SPECIAL NOTICES.

ELECTION NOTICE.

LANSING, Mich., August 15, 1870.

TO THE SHERIFF OF THE COUNTY OF DELTA:

We are hereby notified that at the next general election, to be held on the Tuesday succeeding the first Monday of November next, in the State of Michigan, the following officers are to be elected, to-wit: A Governor, Lieutenant Governor, Secretary of State, Auditor General, State Treasurer, Commissioner of the State Land Office, Attorney General, Superintendent of Public Instruction, a Member of the State Board of Education in place of Walter J. Baxter, whose term of office will expire December 31st, 1870, and a Representative in Congress from the Fourth Congressional District of this State, to-wit: your County is attached. Also a Senator for the 22nd Senatorial District, to which your County is attached, agreeable to the provisions of Act No. 22, of the Session Law of 1868. Also a representative for the Representative District for the year ending next, in the State of Michigan, to-wit: your County is attached, agreeable to the provisions of Act No. 28, of the Session Laws of 1862.

You are hereby notified that at said general election an amendment to the constitution of this State, relative to allowing the Boards of Supervisors of counties to raise two thousand dollars a year for the purpose of repairing and constructing public buildings, highways or bridges, provided for by Joint Resolution No. 41, approved April 14, 1869. Also an amendment to the constitution of this State in relation to the qualifications of electors, and to the militia, provided for by Joint Resolution No. 42, approved July 14, 1869.

Also an amendment to the constitution of this State relative to the salaries of State Officers and Judges of the Circuit Court, provided for by Joint Resolution No. 1, approved August 17, 1870. Will be submitted to the electors of this State for their adoption or rejection, pursuant to the requirements of the constitution, and of said resolution, respectively.

IN WITNESS WHEREOF I have hereunto set my hand and affixed the Great Seal of the State of Michigan, at Lansing, this 15th day of August, A. D. 1870.

O. L. SPAULDING, Secretary of State.

SHERIFF'S OFFICE.

ESCANABA, Mich., Nov. 5, 1870.

NOTICE IS HEREBY GIVEN THAT AT THE next general election, to be held on the Tuesday succeeding the first Monday of November next, in the County of Delta, the following officers are to be elected, to-wit:

- Prosecuting Attorney, Sheriff, County Treasurer, Circuit Court Commissioner, County Clerk, Register of Deeds, County Surveyor, Two Coronors.

PATRICK FARRELLY, Sheriff of Delta County.

TO THE CITIZENS OF DELTA COUNTY.

I think it my duty to announce to the citizens of Delta County, that I did not think about running for any office, until the evening of the caucus, when some of the citizens told me they were going to put me up as a candidate for Sheriff. I told them I would run if I was nominated. Now, as I am nominated I will give everybody to understand that, if it is elected, I will endeavor to serve every one alike. I will make no distinction between rich or poor or nationalities whatever, but I will try to be worthy of the office, and I, therefore, ask every good citizen to put in a vote for me at the next election. HENRY SCHROEDER.

The Five Dollar Sewing Machine purchased by me January, 1866, from the Family Sewing Machine Company, 16 Nassau street, New York, has been in almost constant use ever since. Has cost nothing for repairs, and I find it simple and reliable in operation, and always ready to sew. Those friends of mine who use them with the new improvements are very much pleased. The one I have I would not part with. MRS. ANN W. CUTBERT, 428 West 9th st. New York.

FOR LIVERPOOL AND QUEENSTOWN.

INMAN LIVE OF MAIL STEAMERS SAILING FROM New York every SATURDAY and ALTERNATE TUESDAY'S. Tickets sold to and from England, Ireland and Continent. JOHN G. DALE, AGT., New York. Or O. D. SLOAT, Escanaba, Mich.

F. O. CLARK.

ATTORNEY AT LAW AND SOLICITOR IN CHANCERY. Real Estate, Collection, & Insurance Agent, COUNTY SURVEYOR, AND CIVIL ENGINEER. Collections made with promptness. Office in Clark's Block.

CHAMBERMAIDS.

Against all chambermaids, of whatever age or nationality, I launch the charge of backbiting! Because: They always put the pillows at the opposite end of the bed from the guest who is to sleep in it, and when you go to bed they remove the pillows to the other end of the bed in the morning, they receive the suggestion in a friendly spirit, but glorifying in their absolute sovereignty, and unyielding their helplessness, they make the bed just as it was originally, and they do not even put the pillows back in their original position.

EMPLOYMENT.

WE can inform all young men who may desire to travel, but have not the means, that they can do so, by means of the "PACIFIC COAST TOUR" in any way or at any time, and can be accompanied by their families, and can be accompanied by their families, and can be accompanied by their families.

To Physicians
