The law of the State of Michigan provides that the Assessor and Township Clerk of each township, shall, at the time appointed by law for reviewing their assessment roll each year, make a list of persons to serve as petit jurors, by selecting from the assessment roll the names of suitable persons having the qualifications of electors, and such as are not exempt from serving on juries, and who are in possession of their natural faculties, and are not infirm or decrepit, of fair character, of approved integrity, of sound judgment, well informed and free from all legal exceptions. The persons whose names shall be so returned, shall serve as jurors for one year, and until other lists from the respective townships shall be returned and filed. The lists thus drawn are to be put into the hands of the proper officers, who shall conduct the drawing according to the law provided.

If we are not misinformed, this manner of impeaching juries in Delta County has never been very closely lived up to, but on the contrary, it has been the custom to go out upon the street, and pick up a jury taking men just as they might be found, and taking them all from this part of the county. This surely is not a correct way of doing business. Each township in the county has a right to, and should be represented in this matter of making up juries, and it is the duty, and a very important one of each Supervisor to attend to the furnishing of proper lists to the County Clerk, from which the jurors shall be drawn. We hope our Supervisors will attend to this matter, and furnish a set of men that will be a credit to whichever part of the county they represent.

Nearly every day we are questioned as to what provisions have been made in relation to soldiers' land claims—whether there has been any law passed protecting the soldier's interests. The following which we copy from the Detroit Commercial Advertiser will show just what has been done:

"No law was passed at the last session of Congress, as some have supposed, giving land bounties to soldiers who served during the rebellion. A bill giving soldiers some advantages under the homestead law passed the House, but it failed to get through the Senate, so that the only provision of the homestead act, which does not apply equally to citizens and soldiers, is one passed last July, giving soldiers and sailors who served during the rebellion the right to enter 160 acres of land at \$2.50 an acre, instead of 80 acres, the maximum amount of this land which others are allowed to enter."

Railroads of narrow gauge are coming into vogue. Wales has a road, the rails are but two and a half feet apart, and Canada one of three feet and a half feet width. The advantages of such railways are that they are cheaper than those of wide gauge, curves may be made sharper and more frequently, and without so much loss of tractive power by the engine. The first of these roads in the United States is about to be made between Buffalo and Springfield, and it is said that some gentlemen of Reading, Lebanon, Harrisburg and Allentown, in Pennsylvania, think of building a two and a half feet gauge road from Allentown to Harrisburg, to carry freight and passengers.

Hon. Willard D. Foster is probably elected as Representative in Congress, 4th Dist., by about 4,000 majority. We are unable to state how the State election went generally, as the returns have not all been received as yet. The general impression is however, that the Republicans are in the ascendant.

Five new Locomotives and sufficient iron to complete the Wis. Central road from Doty's Island to Stevens Point has been purchased to be delivered by the first of June.

The Detroit & Milwaukee company's steamers, Lae la Belle and Ironsides, have been refitted and went into service on the first of April between Grand Haven and Milwaukee. Capt. Nichols, who has commanded the Saginaw since she has been in the Green Bay line, until this season, is in command of the Ironsides.

There were only 6,000 applications for appointments on the Police force at Fond du Lac, Wisconsin.

The Bill on Compulsory Education passed the Senate on the 10th Inst. The following is the full text of that measure as it has finally been passed:

SECTION 1.—The people of the State of Michigan enact, That every parent, guardian or other person in the State of Michigan having control and charge of any child or children between the ages of eight and 14 years shall be required to send any such child or children to a public school for a period of at least 12 weeks in each school year, commencing on the first Monday of September, 1871, at least six weeks of which shall be consecutive, unless such child or children are excused from such attendance by the board of the school district in which such parents or guardians reside, upon its being shown to their satisfaction that his bodily or mental condition has been such as to prevent his attendance at school or application to study for the period required, or that such child or children are taught in a private school, or at home, in such branches as are usually taught in the public school: Provided, In case a public school shall not be taught for three months during the year, within two miles by the nearest traveled road, of the residence of any person within the school district he shall not be liable to the provision of this act.

Sec. 2. It shall be the duty of the director of every school district, and president of every school board within this State, to cause to be posted three notices of this law in the most public places in such district, or published in one newspaper in the township for three weeks, during the month of August in each year, the expense of such publication to be paid out of the funds of said district.

Sec. 3. In case any parent, guardian or other person shall fail to comply with the provisions of this act, said parent, guardian or other person shall be liable to a fine of not less than five dollars nor more than \$10 for the first offence, nor less than \$10 or more than \$20 for the second and every subsequent offence, said fine shall be collected by the director of said district in the name of the district, in an action of debt or on the case, and when collected shall be paid to the assessor of the district in which the defendant resided when the offense was committed, and by him accounted for the same as money raised for school purposes.

Sec. 4. It shall be the duty of the director or president, to prosecute any offence occurring under this act, and any director or president neglecting to prosecute for such fine within 10 days after a written notice has been served on him by any taxpayer in said district, unless the person so complained of shall be excused by the district board, shall be liable to a fine of not less than \$20 or more than \$50, which shall be prosecuted for, and in the name of the assessor of said district, and the fine when collected shall be paid to be accounted for as in section three of this act.

Nearly every day we see accounts of experiments being tried in England, upon the effect of cold upon iron and steel, where the metal has been exposed but a few minutes to the severe cold of a freezing mixture, the structure of the iron is affected only close to the surface, whereas in cold countries, where the iron is exposed to severe cold for weeks at a time, at a temperature below zero, the structure of the entire mass is changed, as the experience of any practical Railroad engineer will prove. Below we give the opinions of the Editor of the Engineer on this subject:

"In nearly all the experiments of which we have any knowledge, that have been carried on in England, freezing mixtures have been used for a few hours, or the bars to be tested have been exposed to a night's frost. We do not go so far as our correspondent, and hold that only the outer skin of the iron is in such cases affected; but we do hold with him that, were the cold long continued its influence on the metal might be very different from that due to the action of frost for a few hours only. It is well known that the long-continued action of a moderately high temperature, as in the case of boiler plates, tends to render iron brittle, by inducing some obscure molecular action; is it not possible that long-continued cold may act with equal force on the atoms of which the metal is made up? There is sufficient ground to think, for inquiring further into this matter. It cannot be denied that more rails and tires break in winter than in summer; but it is equally undeniable that many laboratory and shop experiments go to show that cold has no injurious effect on the metal of which tires and rails are made. Various attempts have been made to reconcile these conflicting facts, but up to this moment no one has attended to the influence of the time of action of the cold on the metal; yet it is quite possible that it may solve the whole difficulty. One point in favor of the theory may be advanced, which is that tires and rails seldom break until a frost has lasted some days, and the continuance of frost is always attended by a progressive increase in the number of accidents arising from this cause. That is to say, it may be safely predicted that more tires and axles will break in the second week of a hard frost than in the first. Probably a limit is very soon reached, however, beyond which the time of action of cold ceases to have any further effect in deteriorating iron or steel.

Whatever the nature of the change effected by the action of low temperatures on iron and steel may be, it seems to be pretty well proved that it depends for its amount very much on the chemical composition of the metal and its attending components. Iron cold-short at ordinary temperatures becomes still more cold-short as the temperature falls. Last year the Swedish Government appointed a commissioner to visit Russia in order to investigate the effects of winter temperatures on the rails and tires used in that country. The evidence he collected goes to prove the startling fact that iron containing phosphorus in appreciable quantity does not contain more than one-third the power of resistance to concussive strains in winter that it manifests in summer. It further appears that steel is not so susceptible to the influence of frost as iron, and that the tensile strength of neither metal, when submitted to a gradually increasing force, is much affected. The Swedish commissioner arrived at the conclusion that for northern climates it is essential that only ductile metal whether iron or steel, should be used; and that it is especially necessary that the quantity of carbon present should not exceed a half per cent. Russian railway engineers express no doubts regarding the influence of cold on iron and steel, scarcely a day passing in winter without broken rails and tires; and it may be safely assumed, we think, that Russian engineers know quite as much on the subject as any other individuals, whether engineers or men of pure science."

Judge Brown has granted a change of venue in the Vanderpool trial, from Kalamazoo to Barry county.

An Iowa wife fooled her husband the 1st. In the morning he left her as well as usual. At night he came home and found his wife in bed with four newly born girls. He says it's the last 1st of April he will go away from home. That sort of April fooling beats him.

Mrs. Stanton wants to remove to Ann Arbor, Michigan, that her daughters, as well as her sons, may have the benefits of a university education, but says it depends upon whether she can get her husband started.

Over 18,000 copies of German newspapers published in this country circulate in Germany.

ASCENOTE OF DANIEL WEBSTER.—It is well known that the late Daniel Webster was a man of luxurious tastes and expensive habits, which frequently brought him into pecuniary difficulties. Apropos of this a friend sends us from Washington the following anecdote, which we do not remember to have seen in print: A western gentleman, shortly after the great statesman's death, inveighed seriously to a mutual friend, against these habits, and enforced his remarks with a practical illustration. "Why sir," he exclaimed, "I travelled all night with Webster in a stage-coach out West, not long ago, and in the morning we all got out at a little hotel to stretch our legs and get breakfast. Webster took up a traveling case, with combs, hair-brush, tooth brush, all of which he used vigorously. When he'd got through, I asked him to lend me his tooth-brush, as there wasn't any at the sink where we washed, and Mr. Webster courteously complied. After using and rinsing it off, I handed it back; and will you believe it? The extravagant fellow just pitched it over into the bushes. It was a good new brush, too, and might have lasted him two or three months longer. No wonder he was always in debt."—Editors DRAWER in Harper's Magazine for May.

1870. LAKE SUPERIOR 1871.  
Stage Company,  
GREEN BAY AND ESCANABA  
During the winter, carrying the United States Mail, the Express and Passengers for BIG & LITTLE SUAMICO, PENSACOLE, OCONTO, PESKITIGO, MARINETTE, MENEKANEE, MENOMINEE, CEDAR RIVERS, FORD RIVER, AND ESCANABA,

All bills must be approved by MARK ENGLISH, Sole Agent, and all collections must be paid by him. He will also act as Agent for the celebrated W. J. FISK, Manager.

VILLAGE Lots For Sale.

The sure, steady and rapid growth of the village of ESCANABA, is the best guarantee for its advancement, and we feel assured that its increase in the future will be even greater than it has been in the past, believing that a small beginning has yet been made. The extension of the U. S. W. R. R. Westward in Marquette county, the establishment of Furnaces, Foundries, &c., the early building of a Railroad Westward to the Menominee Iron Range, and the erection of ore and other Docks, Great Mills, Planing Mills, &c., all point with unerring finger to an increase of business and population in the village.

We have on hand business and building Lumber, excelled by few, if any that have been sold, and are prepared to dispose of those at fair prices and on the most liberal terms, to parties buying for the purpose of improving.

The village has recently been incorporated by the Board of Supervisors, and contains about 1,100 inhabitants, with five General Stores, one Hardware store, one Jewelry store, two Wholesale Liquor stores, one Drug store, one Tailor shop, one Meat market, three first-class ones of which is the finest on the Upper Peninsula, and five second-class Hotels, one Livery Stable, one Harness shop, two Cabinet and Carpenter shops, two Barber shops, one Bakery, one Photograph Gallery, one Printing Office, and several Saloons; besides the R. R. Lumber House, Machine Shop, &c. There are also two Presbyterian and Catholic Churches, a good school, and a considerable amount of literary culture for a place so young. In this and many other respects it challenges comparison, and it can be claimed for it also, that there are few places if any that have grown up so rapidly to which a gentleman can go with his family, and have the advantages of civilization and social intercourse that he can find here.

To all therefore who are in search of a good business point, a rapidly growing village, and one that is certain to continue so, we say come on, and we will close you with open hands to hospitable houses.

DAVID LANGLEY, Agent for I. F. Rietzsch, Escanaba, Feb. 25, 1870.

LEGAL  
The Eleventh Judicial Circuit Terms of Court for 1870 and 1871.  
STATE OF MICHIGAN, ss.  
Notice is hereby given, that in pursuance of the laws of the State, I have fixed and appointed the times of holding the several Terms for the year 1870 and 1871 of the Circuit Court in and for the Counties constituting the Eleventh Judicial Circuit, as follows to-wit:  
In the County of Mackinac, on the second 3rd day of May, and the first Monday of September.  
In the County of Ionia, on the third Monday of May, and the second Monday of September.  
In the County of Charlevoix, on the first Monday of June, and the first Monday of August.  
In the County of Cheboygan, on the second Tuesday of June, and the second Tuesday of August.  
In the County of Benzie, on the third Tuesday of June, and the third Tuesday of August.  
In the County of Emmet, on the fourth Tuesday of June, and the fourth Tuesday of August.  
Witness my hand and seal of Office, this 15th day of October, 1870.  
FRANCIS LEWIS WAIN,  
Circuit Judge.

Mortgage Sale.  
WHEREAS default has been made in the conditions of a certain Mortgage made and executed by LEONARD D. SQUIER and Sally Squier, his wife, to ELLI P. ROYER, which Mortgage was recorded on the 23rd day of December in the year 1867, in the office of the County Clerk of Delta County, Michigan, at 1 o'clock P. M. in Liber 20, County of Mortgages, on page 176 and 177, and made to secure the sum of Five hundred dollars, and bearing even date with the said Mortgage, and due in ten years from date to pay and satisfy, which said Mortgage and note was duly assigned by the said ELLI P. ROYER, to JOSEPH W. EDWARDS on the 23rd day of December in the year 1867, in the office of the County Clerk of Delta County in the year 1867, at 1 o'clock P. M., recorded in the office of the County Clerk of Delta County in Liber 20, County of Mortgages, on page 178.  
And whereas there is now due and unpaid on said Mortgage, and the same accompanying the same, the sum of Five Hundred dollars and interest thereon from the date thereof, amounting in all to Five Hundred and seventy Eight dollars and seventy five cents; and also an Attorney's fee of Two Dollars, provided for in said Mortgage, should no proceedings be taken to foreclose the same; and whereas no proceedings in law have been taken to recover the same or any part thereof, and the power of sale contained in said Mortgage, having become operative by reason of said default.  
Notice is hereby given, by virtue of the power of sale contained in said Mortgage, that on Monday, the Nineteenth day of January next, at one o'clock in the afternoon of said day, at the front door of the Court House of Delta County, being the place for holding public Auction, the COURT, the undersigned, the premises described in said Mortgage, or so much thereof as may be necessary to satisfy the interest thereon, the costs and expenses of said sale, and the Attorney's fee provided for in said Mortgage, shall be sold, being described in said Mortgage, to-wit: A certain piece of land situated in Delta County, State of Michigan, and known as the East side of East Hill in Delta County, Town of Ship Thirteen, No. 13 of Range Thirteen, Town and containing one Hundred and Thirty-four and one-half Acres, more or less.  
Escanaba, March 14, 1871.  
R. P. ROYCE,  
Attorney for Assignee, WM. H. HARRIS, Sheriff Delta County.

Rev. N. E. FLEMING preaches in the Protestant Church every Sabbath at 11:30 A. M. and 7:30 P. M. Sabbath school at 9:30 P. M. Weekly Prayer Meeting Wednesday at 7:30 P. M.

Rev. WM. MAHON, Methodist Episcopal Minister, preaches in Clark's hall at 10:30 A. M. and 7:30 P. M.

Legislature adjourned last Tuesday. St. Martin's and the Gull Islands are situated to this County.

A wolf hunt was a late amusement among the Marinette sports.

New York is luxuriating in strawberries from California.

The Sault Ste Marie contractors have received orders to open the Canal as soon as the ice leaves the River.

In another column will be found the Proceedings of the Village Fathers at their meeting of the 18th inst.

Last Monday some 14 or 15 warrants were issued against various owners of dogs for non-compliance with the Village dog-law.

Capt. Stevens with the little schooner Emily, of Sag Bay, was caught in the ice last Tuesday night, just off the Light House stake, and was obliged to lay there all night much to his disgust.

PERSONAL.—The Hon. Representatives White, and Swineford passed through on their way home yesterday.

Mr. H. A. Downs of Marquette looked in upon us last Wednesday on his way outward.

Prof. Gordon of Marquette, has been giving lessons to his singing class since Tuesday evening in Clark's Hall.

Remember the Sabbath School Concert next Tuesday evening. Let there be a large turn out.

Conrad Lins is doing a good class of work in the Boot & Shoe line at his shop, one door east of T. Killians Grocery store.

Mr. O. D. Sloat went to Ishpeming to take charge of R. R. station at that place, on Monday last.

The steamer Keweenaw, Capt. Stewart arrived here Tuesday morning, from Detroit, loaded with about sixty tons of freight for Marquette, and ports above on Lake Superior.

H. B. Smith has a few more of those non-explosive lamps for sale. Call and get one soon, as they are going with a rush.

Oranges, lemons and other tropical fruits in abundance at our stores, at prices to suit the times.

The schooner Forest City cleared from this Port on Saturday last, loaded with 1,307 tons of ore, the largest cargo ever taken out.

The drive on the Escanaba is pretty safe, and will probably be in the course of a day or so.

The Harbor was full of floating ice the fore part of the week, the Dunlap experiencing a considerable trouble in making an entrance on Tuesday evening.

The Tug Escanaba succeeded last Sunday in breaking the ice which had drifted into the docks, thereby letting the Saginaw back into her natural element, and liberating the Tug Rummage and Prop. Co. in Campbell.

The Steamer Dunlap was obliged to turn back, after getting out a few miles last Wednesday morning, on account of the rough weather. She left Wednesday evening at 6 o'clock.

The Propeller Rocket of the Buffalo and Gen Bay line, called at this Port Thursday morning, unloading 92 head of cattle, beside a number of sheep and hogs.

We owe our readers an apology for the late issue of our last paper, which we had not even energy enough to offer last week. The delay arose from our suffering with a severe cold and bilious attack, and being thus incapacitated from doing business. This week we commence to feel like ourselves again, and shall endeavor to run her on time hereafter.

DEPARTED.—Carl Johnson, a shoemaker and a native of Sweden. It is supposed that he has gone where all wicked shoemakers go, either to Oshkosh or Chicago. Poor Carl! His loss appears to be universally regretted. His creditors knock upon his shop door, and it is not opened unto them; they seek, and find him not; they mourn and refuse to be comforted, for he is non est come ut us. Oh Carl! Carl! Why did you do this thing? Why did you not pay us that seven dollars and a half you owe us for advertising?

Considerable excitement was created on our streets last Wednesday morning by an alarm of fire being given. At about two o'clock A. M., the smoke-house belonging to T. Killian in the rear of his new store was discovered to be on fire, and was entirely burned down before the flames could be subdued. No other damage was done; Mr. Killian informs us his loss was about twenty-five dollars.

A HORRIBLE ACCIDENT ITEM SPOTTED.—When the accommodation train coming south from Negaunee arrived at Centreville last Saturday, it was discovered that the head brakeman was missing. Of course the first thought that struck the engineer and conductor was that he had fallen off the train, and probably lay on the track horribly mangled &c., as is generally the case on like occasions. Leaving the train on the main track, the engine was backed through the siding, and taking on a certain newspaper man they started back in search of the missing man. Back, back, they went, the boys keeping a sharp lookout, expecting every moment to behold the bleeding and lifeless remains of their comrade, the newspaper man with note book and pencil, all ready to jot down the particulars. After heart-rending suspense on the part of the Railroad men, they finally reached Little Lake, a distance of 11 1/2 miles from Centreville, where Johnnie was found—alive and well, buying himself by inspecting R. A. Conolly & Co's saw mill, located at that station. He reports favorably on mill business—thinks it will probably pay a dividend this year, although he disclaims that it was his intention when he left Centreville to give his personal attention to milling interests. He merely went back to get a pipe-full of tobacco, and the train pulled out and left him; that was all.

The last we saw of Crozer he was still lamenting over the loss of this "item horrible."

MARINE NEWS.

The following named vessels have cleared this port since the opening of navigation: Apr. 12, Prop. E. J. Hackett, 1063 tons ore. " Sch'r. Eagle Wing 450 " " " " EC Roberts 462 " " " " Exlle 715 " " " " Fayette Brown 976 " " " " Oak Leaf 513 " " " " S. J. Tilden 1056 " " " " H. J. Webb 745 " " " " Forest City 1307 " " " " Bark James F. Joy 951 " " " " Sch'r. Alva Bradley 1215 " " " " Chas. P. Mine 708 " " " " David Stewart 920 " " " " Sun L. Mather 987 " " " " Bark Wm Jones 691 " " " " Gen. Sherman 765 " " " " Prop. Berthely 350 " " " " Campbell 600 tons Fayette Pig Iron.

The Steamer Dunlap has been making regular trips, and the Saginaw commenced running on her regular time last Thursday. The Propellers St. Joseph and Truesdel, and the side-wheel steamer Keweenaw were all here last week.

REPORTED DISASTER.—On Thursday the 13th the Prop. Roanoke arrived down and brought the report of several disasters. The most serious is the sinking of a large Sch'r. near Hammond's Bay. The vessel displayed the signal of the Windward fleet and was supposed to be the Charles Wall bound down from Chicago for Buffalo with a load of 43,000 bushels of corn. The disaster was probably the result of a collision with her gibbon was gone, and a large bark was ashore near by. At Point St-Augustine a schooner, the Thos. Kingsford, was seen high and dry ashore, and two others were in the Straits. The schooner Moutank arrived down having lost her main-mast on Huron, and the schooner A. C. Marswell came up with her foremast gone at the head. Other disasters occurred during the heavy gale of Tuesday and Wednesday, the amount of which cannot be reported as yet.—DET. JOURNAL OF COMMERCE.

LARGE FLEET.—On Wednesday night a large number of vessels, (lump loaded), passed down having been wind bound on Lake St. Clair for nearly two days. More are yet due, but the aggregate of those passed is over 60, most of which are bound for Buffalo.

A large and enthusiastic Railroad meeting was held at the Menominee House Hall, in Menominee, last Thursday evening, when the Bonus subscription was swelled to about \$30,000.—They desire, and will endeavor to have the road run from Menominee, through the Menominee Iron Region direct to Negaunee.

GOODEY'S LADY'S BOOK.—Although this is really a lady's book, it is not the less worthy of the perusal of the general reader. Its illustrations are specimens of the highest type of art; and the reading matter contained in its fascinating pages is from the pens of writers of acknowledged merit and of high repute in the literary world.

The steamer Saginaw, spoken of in our last issue as being disabled by the floating ice, was in running order Wednesday evening, and started on her regular trip Thursday morning, making connections with the train on her return trip, the first time it has been done this season.

To Rent. A fine Hotel property, known as the Michigan House, can soon be rented on reasonable terms. The house will be repainted, papered, and otherwise fitted up in first class style. For particulars, enquire at the residence just in the rear of the premises, of Mrs. P. Murray.

On and after May 1st, 1871, I shall do a strictly cash business. Having become convinced that the cash principle is the true one for all parties, both dealers and customers, has induced me to take this course. By following a strictly cash system I shall have no bad debts to lose, and consequently reduce my prices in proportion. Thanking the people for their past liberality and support, I trust they will uphold me in the course I have marked out, by a continuance of the same. J. HEITZMANN.

In regard to lumbering operations on the Peshtigo and Menominee Rivers the Herald says: The drive on the Peshtigo River and its branches, is all in except on one or two small streams and they are safe. The Drive on the Menominee and its tributaries is all safe now, and coming along very well.

Two of the Bents of the Pier at the Ingallston Mill, went out in the great blow of Sunday evening last, the spiles having been drawn up by the ice, during the winter.

A chap who was told by a clergyman to remember "Lot's wife," replied that he had trouble enough with his own without interfering with another man's wife.

A Yankee has recently invented a rat-exterminator, consisting of a sort of snuff. The animal is expected to jerk his head off at the third sneeze.

Proceedings of the Village Board of Trustees. ESCANABA, April 18, 1871. At a meeting of the Village Board of trustees, held at the office of the County Clerk. The following gentlemen were present, F. O. Clark, Pres't, J. N. Hiller, H. B. Smith, W. W. Beech, M. Stephenson, and Edw'd P. Boland, Clerk.

Meeting called to order by F. O. Clark and minutes of last meeting read and adopted. The petition of O. D. Sloat and others praying that a side-walk be built as follows, viz.: Beginning at the south side of Thomas Street, and running south as far as the south side of Wells Avenue, and beginning again at the south side of Hale street, and running south and east, until it intersects with the walk on the northwest side of Michigan Avenue. The petition was granted, and the walk ordered built according to the specifications of similar walks previously built.

The bill of Hart & McFall for six (6) dollars for building cross walks was allowed, and the clerk requested to issue an order for the same. The bill of Wm H. Radcliff of \$19.12 for boarding prisoners, jail fees and wood, was allowed with the exception of \$2.50 for wood, and the Clerk was instructed to issue an order for \$16.62.

On motion the Commissioners were instructed to build cross-walks to connect with the above mentioned walks, and also with the walks ordered built March 21st.

On motion of J. N. Hiller that a committee be appointed to direct the construction of cross-walks, D. Langley Jr. and M. Stephenson were appointed such committee.

On motion of H. B. Smith that the Street Commissioners require the owners of corner lots to build their walks eight (8) feet beyond the line of their lots, so as to connect with the street crossings, also that the Marshal notify those persons who have not built side-walks ordered built last year, that unless built at once they will be built by the corporation and the expense of such walks charged to the lots.

It was ordered that a walk be built on the north side of Wells Avenue, from Tilden Avenue to East Court St.

On motion of J. N. Hiller that the Marshal be requested to notify C. B. Strass and M. Bond to remove posts and other obstructions on the sidewalk within twenty-four hours after receiving such notice.

Resolved That the Marshal be requested to use diligent and effective measures for closing saloons on Sundays.

On motion of H. B. Smith the Marshal was instructed to demand from the Pound Master, the key of the Pound, and that he be authorized to perform the duties of the Pound Master.

On motion it was ordered that the Proceedings of this meeting be published in the Escanaba Tribune.

On motion Board adjourned sine die. F. O. CLARK, Pres't. E. P. BOLAND, Clerk.

It is a fact not easily accounted for that at parties, after supper, the guests begin to grow thin.

Grand Rapids, Mich., was visited by a terribly destructive fire on the 13th inst. The loss is estimated at upwards of \$300,000.

The oldest stove probably in the United States is the one which warms the capitol at Richmond, in Virginia. It was made in England in 1770, and warmed the House of Burgesses for sixty years, before it was removed to its present location, where it has been for thirty years. It has survived three British monarchies; has been contemporaneous with four kingly monarchies, two republics and two Imperial Governments in France. The great American Republic has been torn by internal strife, the breach partly healed, and still the old stove remains the same, unmoved in the midst of all.

Look HERE.—We have many subscribers on our books who have not paid a cent on their paper, since it was started, over a year and four months ago. We want that money to do business with, and must have it, not that we are in a starving or bankrupt condition, but because we have earned it, (or others have, and we claim we are justly entitled to our own. Our creditors give us no time on stock, and we, under these circumstances, cannot afford to give more than three or four years time to those who are indebted to us. We expect to receive at least \$500 from this call, so each man is cordially, most humbly and respectfully solicited to send in his \$2.50 for last year's subscription, and the same amount for this, and thus help to swell the grand total.

N. B.—Persons living at a distance will have the amount expended for stationery and P. O. stamps in writing to us, refunded to them by return mail; also a brand new, finely illustrated receipt, well worth the money, will be forwarded on receiving their cash.

CASH SYSTEM. On and after Monday, May 1st, 1871, I shall do a STRICTLY CASH BUSINESS, and shall reduce my prices accordingly. I have become convinced that the cash system is the true one, both to the dealer and his customers, as the dealer who does a credit business has to add an additional per cent. to his goods to pay the losses on his bad debts; so the paying class have to pay for the goods bought by the non-paying class, which is all so small amount, as the best and most careful dealer will get a great many bad accounts. I shall keep no books, and shall give credit to no one, consequently will have no bad debts to lose, and can consequently reduce my prices in proportion.

I hereby thank the citizens of Escanaba and vicinity for their past patronage, and hope they will sustain me in this new undertaking, as I shall endeavor to make it an object for them to do so. All persons having accounts with me, will please call and settle them on, or before May 1st. J. N. HILLER.

TIME.—Having had some considerable experience in the credit business, and having demonstrated to my entire satisfaction that it is a very poor way of doing business. I have made up my mind that after the first day of May, 1871, I shall commence on the cash principle, and I would like all who possibly can, to come up to the rack with their stamps by that date. Thanking my customers for their past patronage, I hope by strict attention to business, to merit a continuance of the same. F. E. BACON.

ORDINANCE No. 25. The rates of such license fee shall be as follows viz. For retail Pedlars with packs, bundles, valises etc, going about from house to house. Five dollars for the first day, and three dollars for each succeeding day. For Auctioneers or those selling or procuring to be sold at auction, Ten dollars for the first day, and Five dollars for each succeeding day. ESCANABA March 2, 1871.

ORDINANCE No. 31. The Clerk shall be required to give bonds in the sum of One Thousand Dollars, conditioned upon the faithful performance of his duty, and turning over all moneys coming into his hands, by virtue of any of the ordinances or laws of this Village.

NEW ADVERTISEMENTS. FOR SALE. My house, corner of Hale St. and Douglas Avenue. House neatly two stories, commodious, well built, and has every convenience. New boiler well in kitchen, and a good well and pump outside. Good garden &c. Terms easy. Call and examine the property. O. D. SLOAT.

ESCANABA HOUSE. HENRY MIER, Proprietor. The Undermentioned would announce to the traveling public that he has recently refurnished his Hotel with good beds, has GOOD STABLING, BOARDS AT REASONABLE PRICES. His bar is furnished with the best of all kinds of liquors. HENRY MIER, Corner of Douglas and Ludington Streets.

MENOMINEE HOUSE. J. LEROY & Co., Proprietors, Menominee, Michigan. This House, recently much enlarged and repaired, has been newly fitted for first class travel, and will be commensurate at 250000 DOLLAR PRICES. We will have the special attention of chamberlains to the fact that we have the largest Hall between Green Bay and Marquette. The Hall is 38 feet, with high ceilings, and is capable of seating 500 persons. It will be found to be the most eligible Hall on the Menominee, for Concerts, Lectures, &c. J. LEROY & Co., 547

BANK MURRAY, Dealer in Wines, Liquors, Cigars, &c. &c. Having refitted the building recently occupied by Sam. Kauffman, is now ready to receive new orders as may be pleasant to call. I solicit a share of public patronage. Escanaba, March 15, 1871.

BARBER SHOP. BY E. GLASER. On Tilden Avenue, opposite the Jewellers Store where I shave, cut, curl, trim, and dress the hair, dye the mustaches from a sickly yellow to a jetty black, and in fact strive to attain the highest perfection in THE ART TONSORIAL.

BLACKSMITHING. H. ROBERTSON. Been pleased to inform the people of Escanaba and surrounding district, that he has started a Blacksmith shop on the Lake shore, in front of the Ludington House, and is ready to do all kinds of Blacksmithing and horse shoeing in good style. All kinds of gun repairing, &c. H. ROBERTSON, 45-1/2.
