

THE RUIN OF CHICAGO. Half the City in Ashes.

The extent of the fire—scenes and incidents—Times Building destroyed—No Water, No Shelter—The Wealthy Becomes a Beggar—A Thrilling Account.

The only buildings left intact between the river and the lake and Madison street are Hathaway's coal office, one of the Buckingham elevators, on the lake shore, and the Lind block, at the corner of Randolph and Market.

Van Buren, Congress, and Michigan avenues, where it was checked, the Michigan avenue hotel being saved. On Wabash it burned through to Harrison street.

As he rushed southward along Michigan and Wabash avenues like a race horse, and freemen and people were paralyzed, a new leader suddenly burst upon the scene.

The plan of devastation must be accorded to the wind. Had it not been for the force of that element the ravages would have been checked before they became serious.

On the South Side the southern limit was, practically, Harrison street. From that it swept northward as long as there was any thing for it to feed upon.

The severity of water in the city is one of the most deplorable and alarming features of the situation, as in the event of other fires, occurring in the river or lake, the most deplorable results would be inevitable.

As a specimen of what the legal profession of this city has lost, we state that Gen. H. N. Eldridge, of the firm of Eldridge and Tourtelote, the attorneys for Field, Leiter & Co., lost all his papers, not a scrap left, after having practiced law for fourteen years in Chicago, and in the same office.

The Russian government evinces a pronounced desire to raise the educational state of its empire, which is to judge from the statistics published by the Board of Education, recently appointed, seems sadly needed.

At 7:45 yesterday morning officer Hill, of the West Side police force, found the charred remains of a man supposed to be that of a man who died in the cellar of a brick wall, lying on the corner of Clinton and Harrison streets.

My vaulting ambition took me to the very top, and came near leaving me up there. The journey up the staircase, through the square part of the tower, was only fatiguing without being in the least degree dangerous.

The Str. Geo. L. Dunlap laid at Oconto Thursday on account of heavy winds. Frank Bacon calls attention through these columns to his Meat Market.

The first Chicago paper we have had for weeks was received last night. And we now feel as though we were again in communication with the outside world.

Our business men are making due arrangements for getting in their winter supplies and are calling on the people for indebtedness due.

The Tribune has made arrangements to club with several of the leading Magazines at greatly reduced prices. Look out for list next week.

The water in Little Bay du Noquet is lower this year than it has ever been heretofore. During the recent fire, while a stiff southerly breeze had animated the water was 4 or 5 feet higher than it has been for several years before.

We call the attention of our readers to the Prospectus of the Atlantic in another column. It is a first-class art Journal, and is all, and more than is represented by its advertisement.

It is an old saying that "it never rains unless it pours," and thus it has been with Job Work for the past two weeks. So hurried have we been the past week that it has been impossible for us to collect the local incidents transpiring in our midst.

E. P. Lott the originator of the Tribune, left this week for Minnesota, where he intends to permanently settle. He has made arrangements to publish a paper, and also intends to practice law. The journalistic and law professions make due obeisance to him in his new role.

S. Gagnon, at Clement's Jewelry Store has just received a fresh lot of fine watches, and Jewelry of the latest styles. "Johnnie" has taste, and knows how to select goods in his line. Give him a call.

Dave Oliver has put us under obligations for a quantity of large potatoes, grown on his farm, a few miles from the village. They were "whoppers" and were further proof that the U. P. is the best potato producing country in the known world.

The Ore Shipments have materially decreased during the past six weeks. Other duties have prevented us from getting and publishing the shipments from this Port for the past few weeks but we shall endeavor to resume their publication again next week.

Look Out.—Clothes-line thieves have commenced deprivations in this Village. A poor washer-woman had her line on last Thursday night, and line, clothes and all were taken.

Rev. Mr. Ludholm delivered a sermon to his Swedish brethren at the Presbyterian Church last Thursday Eve. He goes from here to labor with the Swedes at Ishpeming and vicinity.

FILE AT FAYETTE.—At about 6 o'clock Thursday morning, the Jackson Iron Co.'s saw mill was discovered to be on fire. It is not known to a certainty how the fire originated, but is supposed to have been caused by some person putting ashes, in which there were coals into a pine box, the coals burning through the bottom of the box, and catching in the saw dust. The machinery, with the exception of the engine and boiler are in a badly damaged condition. Nearly \$100,000 worth of lumber had piled near the mill, was saved by the heroic efforts of the men. The tug Ramage also done effectual service by throwing water through both her pumps on to the fire.

Geo. Harris Jr. and another young man whose name has escaped our memory received quite serious injuries while engaged in tearing down and removing the lumber piles.

First snow of the season at Escanaba Thursday evening and continuing at intervals on Friday, melting as fast as it fell.

Seven Hundred dollars in cash, besides several 10's of clothing &c., have been raised for the sufferers of the fires at Peshtigo and surrounding country, which has been forwarded to the Relief Committee at Green Bay and Menominee. We would here say that it has been mainly through the efforts of Mr. A. J. Smiley so much money has been raised, he having thoroughly canvassed the Village. We have not had time this week to learn the names of the ladies who contributed, but were instrumental in raising clothing and other necessities, but as soon as we do shall endeavor to give "honor to whom honor is due."

MARINE. The Schooner Escanaba, a namesake of the village, arrived at this Port during the week Capt. Thompson says she could not be held back after she was headed this way.

The Sch'r Cuyahoga which went aground at Portage Point a few weeks since, has been stripped, and her crew gone home. She lies in good shape, and may possibly be got off in the Spring.

The Prop. Coburn, Capt. Gil Demore, was lost near Thunder Bay last week. Out of 70 persons, 28 are reported as saved.

Several vessels have been lying at anchor in this harbor for the past 3 or 4 days waiting for the fogs to raise, and for settled weather. The Bark Jas. F. Joy, and Sch'r's Escanaba and Delaware sailed yesterday morning.

The Fog on Wednesday evening when the Saginaw was entering the harbor, was so dense that it was almost impossible to see a boat length ahead, but by exercising great care she was finally brought to the wharf.

The Chicago Times of last Monday, contains a startling article on the origin of the Great Chicago fire, which for ingenuity of composition, is ahead of all the sensations of the day. It purports to be a confession of a member of the Societe Internationale, which originated in Paris, and from there has spread to this and other countries.

The object of the Society are ostensibly to labor for the elevation of the working classes, and to establish the principles of socialism, to put down all distinction between rich and poor.

In order to do this in Chicago it was thought necessary to burn the property of the rich, that they might be brought down to a common level. He tells how they fired the city, where they sunk mines, and laid trains to destroy the city. He refers to a recent speech of Geo. Francis Train in Farwell Hall, who made use of the following words: "This is the last public address that will be delivered within these walls! A terrible calamity is impending over the city of Chicago. More I cannot say; more I dare not utter," and then says it was well for him that he closed as he did, for there were half a score of pistols that would have checked any further utterance.

The article is well worthy of perusal, and we wish we could spare the space to reproduce it entire.

NEW RULES IN THE UNITED STATES COURTS.—Under the new rules of the United States Court, notices of trial are required to be served and notices of issue to be filed, as in the State Courts, to enable the causes to be placed upon the docket. No case will be placed upon the docket unless the rules are thus complied with, and as this is a new arrangement, it is desired that attorney's take notice of the change.

Proceedings of the Village Board of Trustees. Adjourned regular meeting of Village Trustees was held at the residence of D. Langley Jr., F. O. Clark Pres't in chair. Board reported present except D. Keane and M. Stephenson.

Minutes of last meeting were read and approved. A Petition from Timothy McCormick and others was read asking that a walk be ordered laid on the west side of Campbell St. from Thomas' to Wells Ave.

On motion of J. N. Hiller the petition was granted said walk to extend from the south side of Thomas St. to the south side of Wells Avenue and to be completed by the 1st day of May 1872, in accordance with the ordinance filed last week.

On motion of J. N. Hiller, the President was instructed to return the assessment roll to the assessors for correction, and require that they give notice according to the laws governing the levying of Village Taxes.

On motion of D. Langley Jr. the Marshal was ordered to conduct walks on lots where the owners have been notified and the time expired for completing such walks.

On motion the meeting was adjourned. J. A. C. DOUGHERTY, Clerk.

The Shooting of Colonel Grosvenor.—A Jamesville Boy on Patrol Duty in Chicago Obeyed Orders.

Col. Thos. W. Grosvenor, Prosecuting Atty for the city of Chicago, was shot on the night of the 21st, inst. by one of the patrol's guarding the city. The circumstances as related by the Chicago Post are as follows:

About 12 o'clock last night Colonel Grosvenor descended from a Cottage Grove car and walked toward the Douglas Hotel where he had been residing with his family. As he neared the house a patrolman called upon him to halt at the same time presenting a rifle. The Colonel replied haughtily or indifferently that he would pass on whereupon the patrolman demanded the password. The Colonel said something about his having no knowledge of the password, and of his intention to pass on into the hotel. The patrol said he would fire; the Colonel replied that he might; and was moving on when a bullet from the patrolman's rifle broke his arm and lodged in his body. The Colonel held strength enough to pass to the hotel and to gain his own room, where at six o'clock this morning, surrounded by his wife and little ones, he breathed his last.

The fatal affair was reported to Sergeant Barrett, of the Cottage Grove station, who sent out, arrested the patrolman, and locked him up. The unfortunate assailant is a young man named Theodore Treat, a student at the Douglas University, who belonged to a militia organization formed since the great conflagration. His statement of the sad affair does not differ from that made above, except that he insists that the Colonel, when asked for the watch word replied "that he might go to the devil."

The Chicago papers seem inclined to create an ill feeling towards the patrol who done the shooting, and are loud in their denunciations of the authorities for issuing such preemptory orders to the Militia. Bosh! We actually believe some men would find fault were they in Heaven. If Chicago was in such a state as to require Martial Law at all, it was in a state to require it to be carried out in the strictest manner possible, and while it is to be lamented that any person should meet his death through violation of that law less excuse can be offered for Colonel Grosvenor, than many unacquainted with his workings. Col. Grosvenor was a Military man, very competent during the late rebellion, and must have known the strict impartiality of military rule, and in violating its provisions, took the responsibility of his death upon his own head. The wrong man was shot, that is all. If the guard had shot some miserable sneak thief, or even a person of doubtful character or some unknown person, let him have been ever so honest, newspapers and the people generally would have lionized him, and would have been loud in their praises of those in command, who gave the order which this patrol, so faithfully obeyed.

OCTOBER TERM OF THE U. S. COURT TO BE ANNOUNCED.—It is believed that the disasters which have visited a considerable portion of Michigan within the past few days, the fires which have prevailed and that are still prevailing in many sections, render it inexpedient to require jurors, witnesses and suitors to absent themselves from their homes and business at the present time. The District Judge has therefore authorized me to give notice that said court will be postponed to the 14th of November next, at 10 a. m. All persons will take notice accordingly. Jurors and witnesses are excused from attendance until the adjourned day. JAMES HENRY, U. S. Marshal, Western Dist. of Michigan.

STOPPING A NEWSPAPER.—One of our exchanges has the following allegory, which we commend to the careful consideration of those gentlemen who, the moment they see anything which displeases them in the columns of their local journal, rush to the printing office and cry out, "Stop my paper." It is certainly a new song upon the old subject.

"A certain man lit his toe against a pebble and fell headlong to the ground. He was vexed, and under the influence of anger and self-obliviousness, he kicked the earth right saucily. With imperceptible gravity he looked to see the earth itself dissolve and come to naught. But the earth remained and only his poor foot was injured in the encounter. This is the way of man. An article in a newspaper touches him in a weak spot, and forthwith he sends it to stop his paper. With great complacency he looks to see the crash, when he finds he only hit his own toe against a world that does not perceptibly feel the shock, and injures no one but himself."

CHEAP MUSIC.—It is seldom that cheapness is associated with merit and real value, but we must make an exception in favor of Peters' Music Monthly. This valuable work comes to us regularly each month, overflowing with choice new Music—some fifty pieces in every number. It is printed from 34 full size music plates, neatly bound, and sells for the modest sum of 30 cents. The publisher offers to send six back numbers, containing from 80 to 90 pieces of choice new Music, for \$1. Address J. L. PETERS, 599 Broadway New York.

Think of it, 100 to 100 pieces of good Music (224 pages) for \$1. J. A. J. McPHEE, Proprietor.

SPECIAL NOTICES. Q.—How can a man sell goods on time at low prices and wait from 30 days to 90 years and at last loose ten per cent of the whole amount sold on time? A.—It can't be done. Now if you want goods cheap just go to Wallace's and tell him you want a cook stove or a box of axes double or single bitt, or a dozen good shad' heives, or a fanning mill, plow, scraper or anything else in the Hardware line and tell him you want to pay cash and I will guarantee you will be pleased with both goods and prices. Subscribe to the Tribune.
