THE TRIBUNE.

Published every Saturday
Escanaba, Delta County, Michigan.
CHAS. D. JEWELL, Editor.
TERMS: \$1.50 PER ANNUM IN ADVANCE.

The House of Representatives has
unanimously resolved that the Pacific
Mail contract of 1872 shall be
annulled. This well.

It is said that the President will
soon issue a proclamation calling an
extra session of Congress immedi-
ately after the 4th of March.

The Cincinnati Commercial com-
miserate William Cullen Bryant for the
President with the remark "he is
not as old as eighty as the majority
of men at sixty."

The following amounts have been
submitted by the House Committee
on Commerce, and referred to the
committee on appropriations for the
purpose of improving the harbors of
the Upper Peninsula: Duluth \$35,
000; Ontonagon \$25,000; Eagle Har-
bor \$10,000; Marquette, \$15,000; Me-
nominee \$25,000.

The senatorial report published
by the Chicago Saturday Times, giv-
ing an account of a supposition that
likely to occur there any evening at
any one of the theatres, was prob-
ably the most stupendous hoax ever
sprung on the reading public. Not
one in ten a probably see the sell un-
til they had waded through between
5 and 6 columns of matter, and even
then there were some who failed to
see the point.

The War Department has been
ordered for the enrollment of the
greater victims of the western
hopper, preparatory to the distribution
of the \$150,000 relief recently
granted by Congress. The number of
sufferers has been estimated as high
as 50,000 and if the sum is equally
distributed it will not last a great
while. We fear very little of the
money will reach those who are
actually needy.

William B. Ogden, a former Pres-
ident of the C. & N. W. R. R., who
has always lived a bachelor until
last Monday, surprised the country
at large, by taking unto himself a
wife in the person of Miss Mar-
jorie E. Arnot of Elmira, N. Y. Mr.
Ogden is only 70 years of age, while
50 summers have passed over the
head of his fair bride. Mr. Ogden
has long been known throughout the
country as the railroad King of the
West.

The Asiatic cholera is reported to
be raging on the borders of Mexico,
and may be expected to spread over
this country as soon as the warm
weather sets in—a not very pleasant
prospect. A bill has been intro-
duced in Congress directing the Sec-
retary of War to detail competent
medical officers of the army to investi-
gate the report and give due notice
of the spread of the disease.
The bill also provides for an approp-
riation of \$5,000 to defray the ex-
penses of such investigation.

The Homestead Act.
The Lower House of the State
Legislature lately passed the follow-
ing joint resolution—
Resolved, The Senate concurring,
That our Senators and Representa-
tives in Congress be requested to
use their best endeavors to have the
act enabling honorably discharged
soldiers and sailors, their widows
and orphan children, to acquire
homesteads on the public lands of
the United States be amended so as
to allow them to obtain in perfect
title of homesteads on complying
with requirements of said act as to
settlement and cultivation through
agents.

They also ask Congress to amend
the homestead law, giving soldiers
and sailors disabled by loss of limb
or other equivalent disability, the
amount of land to which they would
be entitled, without settlement of the
same as now required.

The Jackson Furnace.
There has lately been a slight
change in the management of affairs
at the Jackson Iron Co's furnace at
Fayette. Mr. H. J. Robson who un-
til lately has had the contract of
manufacturing a majority of the
coal used at the furnace, has had
the entire contract. He also has
purchased all the horses and teams
and other like implements belonging
to the furnace, and will hereafter
have the contract for hauling all
ore from the large and loading all
pig iron on vessels—he has also les-
sed the sawmill, and will have full
charge of the entire wood business
on the location. The furnace itself
still remains under its present man-
agement.

Stock No. 1 is now in blast and
since being blown in has turned out
a remarkably large quantity of iron
—that week the daily yield was 36
tons per day. Heretofore this stock
has always been considered a little
inferior to stock No. 2, but it is
now fairly outdoing itself and is
making a reputation for itself second
to none in the county, which
is a good thing for the furnace, and
for the country.

May matters throughout our pro-

gress than favorably and may the de-
mand for iron soon become so great
as to necessitate the building of sev-
eral more like them in that im-
mediate neighborhood, and for that
matter Escanaba would be minded
having half a dozen like them within
her borders.

The De Perre Iron Works, having
been forced into bankruptcy, and as
the general idea connected with a
concern in the clutches of the law,
under that act, is that it is de-
sired to be taken up by the fees and
costs, we have been so much troubled
to pick up some information as would
give some clue as to what were the
prospects of the works. We find that
the application of bankruptcy was
made by its friends, as a measure of
caution to avert the action of those
creditors who were inclined to push
their claims for collection; and the
detriment of the rest of the creditors,
and that there are enough of them
representing a sufficient amount of
the indebtedness, to insure the ad-
justment of the affairs of the com-
pany in such a manner that the
works will be in operation again in
a month or six weeks. It may be
under a different management, but
it is one that will be a sufficient
guarantee to all that it will be a suc-
cess.

Republican State Convention.
A Republican State Convention, to
nominate two Justices of the Supreme
Court in place of Isaac P. Christianity
and Benjamin F. Graves, and two
Justices of the State University in
place of Hiram A. Burr and Thomas
D. Gilbert, will be held at the Opera
House, in the city of Jackson, Wed-
nesday, March 30, 1876, 11 o'clock
A. M. The several counties will be
entitled to two delegates for each
Representative in the lower branch of
the State Legislature, and every
county having no representation will
be entitled to one delegate.

Under the resolution of 1855, no
delegate will be entitled to a seat who
does not reside in the county he
represents.

S. D. BINGHAM, Chairman,
S. S. OLDS, Secretary.

Territory of Superior.
After consultation with many of
the prominent men of the Upper Pen-
insula, it has been decided to call
a convention for the purpose of taking
into consideration the question of
petitioning the State Legislature and
Congress for the cession of the Up-
per Peninsula to the general govern-
ment, and the creation of the same
into a territory, to be known as the
"Territory of Superior." Notice is
therefore given that such a convention
will be held at Austin's Hall, in the
city of Jackson, on Thursday the
17th day of March, 1876, at 10 o'clock
P. M. It is to be hoped that every
town and county interested will send
delegates, so that the question may
be fully and thoroughly discussed.—
It is not intended that this shall be
a convention of those in favor of sepa-
ration merely, but those who are
opposed to the scheme are likewise
invited to be present and present
their views. By request of
MRS. CRITCHFIELD.

The Niagara Falls Gazette gives the
following account of a mysterious fire
which was discovered in a house oc-
cupied by Mrs. P. A. Potter, at that
place: "About noon, one of the ser-
vants noticed a little smoke issuing
from the floor in the butler's room,
which affords the dining room, on the
first floor of the house. Smoke had
been noticed in the house the day
before, but no indications of danger
were observed. It was reported to
Mrs. Potter, who was at the time
business manager, who was at the time
upon her arrival search was instantly
made for the fire, which was evi-
dently making headway somewhere
between the floor and ceiling below.
The trouble was finally found under
the dining room floor, in a place
where it would seem impossible for
fire to originate. The floor has a
deep layer of sawdust beneath for
the purpose of deadening sound. Be-
neath the sawdust, and about an inch
and a half above the ceiling beneath,
is a thin flooring, keeping the saw-
dust from the lathing and plaster.
The fire was found burning between
the flooring and the ceiling. It had
evidently been smoldering for two or
three days, but had burned through
to the sawdust in only two or three
small places. How fire could origi-
nate in such a confined place, several
feet from any chimney or flue re-
mains an unsettled question. The
only plausible theory that has been
advanced throws the responsibility
for the trouble upon some mischief-
maker's mouse."
A copy of the above, a French
paper states that quite an alarming
proportion of the number of persons
killed by fire in the world is to be
traced to the theft of mice, who are par-
ticularly fond of the wax matches which
are chiefly in use in Europe. They
steal these matches and carry them
away to their nests, where, at some
more convenient time, they com-
mence their meal, and a single nibble
in contact with the phosphorus may
ignite the whole collection.

Iron Items.
The Green Bay Advertiser announces
that at the special election of the
stockholders held in that city on Mon-
day last, Messrs. E. Decker, Anton
Klaus, G. A. Lawton, of Green Bay,
and A. Carter of Chicago were elected
Directors, of the Green Bay Iron Co.,
after which, at a meeting of the new
directors, Anton Klaus was elected
President and G. A. Lawton was ap-
pointed Secretary and Treasurer.
We shall look for good things under
his management.

The Upper Peninsula has the follow-
ing in regard to the Furnaces at
that place:—After several publica-
tions, the recent excessive coal short-

er, the Fox River Furnace finally got
into blast Tuesday, and is now run-
ning smoothly with a fair pros-
pect of a very successful run. Cold
weather has also made some very ex-
pensive pranks with the machinery
of the National Iron Co's furnace,
which is not yet in blast but will
probably blow in Monday.

The De Perre Iron Works, having
been forced into bankruptcy, and as
the general idea connected with a
concern in the clutches of the law,
under that act, is that it is de-
sired to be taken up by the fees and
costs, we have been so much troubled
to pick up some information as would
give some clue as to what were the
prospects of the works. We find that
the application of bankruptcy was
made by its friends, as a measure of
caution to avert the action of those
creditors who were inclined to push
their claims for collection; and the
detriment of the rest of the creditors,
and that there are enough of them
representing a sufficient amount of
the indebtedness, to insure the ad-
justment of the affairs of the com-
pany in such a manner that the
works will be in operation again in
a month or six weeks. It may be
under a different management, but
it is one that will be a sufficient
guarantee to all that it will be a suc-
cess.
