MAKING GOOD PROGRESS

INTEREST INCREASING IN THE BUSINESS MEN'S ASSOCIATION.

The Association to be Incorporated to Increase Its Usefulness—A Connection With the Soo Road—Other Matters.

The meeting of the Business Men's Association last Monday evening gave assurance of the permanence of the association and hope of good results for the city. It was more largely attended than any previous meeting and it was resolved to take out papers of incorporation under the statute in order to be able to own property, enter into contracts, etc. Many suggestions were made and discussed, among them one to aid John Symons to erect and operate an iron foundry in connection with his machine shop, but the chief, and most important action was that towards establishing a connection with the Soo railway. It was agreed that the connection was imperatively necessary, that until it was secured all endeavor to induce the location of manufacturing here would be met by the objection that such location left the manufacturer at the mercy of a single company as to transportation—that the west door is not open—and it was determined that such connection must be made, at our own expense if not otherwise. To that end a committee, consisting of Messrs. John Semer, A. R. Northup and Ole Erickson, was appointed and directed to secure the right of way for a line to North Escanaba station (or other point on the Soo road), to employ a competent engineer to run out the line and make estimate of the cost of the work, and, generally, to set the ball rolling.

The earnestness of the members gives promise of success. The line will be constructed, and the Business Men's Association will have been the instrument by which it was accomplished. That done other good works will follow; having become convinced that we must help ourselves in order to be helped, and having determined so to do, the work is half done. A better day than this has yet seen dawn over Escanaba.

That Normal School.

The bill to establish three normal schools, one of which shall be located in this peninsula, has been favorably reported by the house committee on ways and means and will probably pass. We are told that the school for this peninsula will be, in all probability, placed in this part of the peninsula (our informant said either at Escanaba or Menominee) and we should have matters so arranged, at once, that we can make a good claim for the location here. The subject is under consideration by the B. M. A. and our new mayor and council can do nothing which would give their year of service greater relief than such action as may be necessary to secure the school. Besides Menominee we shall have to compete with the bustling cities of the iron range, and, while we hold to the belief that we can show plenty of reasons why it should come here, we must have our showing ready and good men selected to present it whenever the commission is ready to hear it. The state will not expect to pay for the land to put the school upon; we can rest assured that sites will be offered it, free, by Menominee and Iron Mountain; we must have one to offer, and it should be a good one—the Tilden house property would be our choice.

Cheeky, But Disastrous.

One evening last week a tramp entered the residence of John P. McColl, none but the ladies and children of the family being present, and demanded coffee. Being refused, he proposed to "see about that" and went about to help himself. In doing so he entered the pantry, whereupon the door was shut and locked, the "hurry-up wagon" sent for and the man yanked. At the same time another man was making himself obnoxious in the same manner at the residence of J. S. Rogers, near by, and the police made one job of the pair. Next morning Justice Glaser dealt with them and they now board at the Delta county retreat at Wells avenue and Harrison.

Death of "Dick" Conway.

Richard D. Conway, a well-known operator in pine and cedar, who had for a year or more conducted a business at Kennedy, on the line of the Soo road, died, on Thursday of last week, at his home in Kewanee, Wis., of consumption. He was but 37 years old and leaves a widow but no children. Many in our city were saddened by the intelligence, for "Dick" had friends wherever he was known.

They Have Learned the Lesson.

Escanaba republicans have come to our way of thinking, at last, about "straight party work." From all sides come assurances that hereafter there will be, among republicans, no fooling with so-called "reform" or "non-partisan" schemes. One active member of the party

who has hitherto opposed our idea and has plead for and worked with the mugwumps said to the editor of this paper, a day or two since, "When you have nothing else pressing, write an article on 'straight work', I'm with you from now on." We need not explain that he has been a "tax-reformer"; that goes without saying.

The arguments in favor of such a course are trite—we need not now rehearse them. The only fault with "the machine" lies with the best members of the parties and is their neglect of the primaries. That is, of course, capable of correction and will, we believe, be corrected as far as our city is concerned. The temper of our republican brethren promises it, now, at any rate. Hereafter, when the bugles sound assembly we shall not have to hunt out our men from "non-partisan" hiding places, they'll come to the colors.

The Odd Fellows' Anniversary.

The celebration of the 74th anniversary of American Odd Fellowship by Escanaba Lodge and the brethren from the other lodges of this peninsula is going to be a grand affair. The lodge has received acceptance enough to be sure of a crowd and has made up its program. The committees are: Arrangements, J. J. Sourwine, P. M. Peterson, Ole Erickson, B. Rich, J. E. Huss, L. G. Gohbe, F. B. Lavaley, E. Hoffman and L. Norton; Reception, O. V. Linden, J. Hewlett, Lew A. Cates, John Moe and C. J. Carlson; Floor managers, P. M. Peterson, P. Olson, L. Heirik, O. E. Kavam, E. Olson, J. Peterson, C. H. Brown and Geo. R. Blake.

The lodge will receive its guests as they arrive and escort them to the lodge room and their quarters. After the guests have brushed off the dust of travel, at about midday a procession will be formed and will march through the principal streets, all the marching being to music provided by John Sourwine and his associates of the Odd Fellows' band. In the afternoon the brethren, local and visiting, and their friends resident here will assemble at Peterson's opera house and listen to an address by the Rev. Mr. Todd, pastor of the Presbyterian church, addresses by visiting brethren, and music. In the evening the assembly will be at the other end of the opera house—Peterson's dancing hall—and the business dancing, with an interlude of feasting in which the sisters of the order—the Rebekahs—will "shine," resplendent, they being in charge of the loaves and fishes, as is eminently proper and desirable they should be.

All to occur, remember (with much, no doubt, that we have not told), on Wednesday, the 26th instant.

Opinions of Local Fishermen.

Concerning the proposed legislation for the preservation of food fishes, our old friend Capt. John Lutz and other fishermen of the vicinity are frankly and heartily in favor of the proposition to suspend fishing entirely during the spawning season, the month of November. They hold the artificial propagation carried on by the state a failure and regard the plan proposed by the big fishermen as promising no better results. Leave the fish undisturbed, say they, during the month of November and they will attend to the propagation of their kind—they know how and men do not. If that does not preserve the species nothing can.

The Market for Iron Ore.

The spurt of ten days since seems to have been a spurt only; since then the market has been as lifeless as before. The great buyers—Carnegie and the Illinois companies—have not taken a ton as yet and insist on a price below four dollars for Gogebic bessemer, a concession which producers declare impossible. Meantime the lake carriers insist on rates equal to those of last year and the railways which deliver from dock to furnace talk of advanced rates. Things will shape themselves by and by, meanwhile there is nothing for it but patience and grit.

Belanger Brings Suit.

The suit against the city referred to heretofore as likely to be brought by Seraph Belanger for injuries received by a fall from the high walk at the east end of Ludington street, has been actually begun by service of summons upon the city clerk. The hearing is set for Wednesday, the 19th. The new city attorney, whoever it may be, has a job to begin with.

The Maccabees' Party.

In spite of the postponement made necessary by the death of a brother and of the nasty weather prevailing when it finally came off, the dancing party given by U. P. Tent was a thoroughly enjoyable affair. The only point in which it could have been better was that of attendance, the receipts barely covered expenses.

The Charges Not Presented.

At the last meeting of the Board of Education the written charges which had been preferred against Superintendent O. R. Hardy by Stanley Tyrrell and placed in the hands of the secretary of the board were not presented to the meeting, probably through some oversight.

Three Gala Days.

Grand opening of spring millinery at Erickson's Thursday Friday and Saturday, April 13, 14 and 15.

ACTION IS NECESSARY

ESCANABA HAS THE ADVANTAGES BUT THEY MUST BE MADE KNOWN.

Something About the Way Other Towns Have Been Built Up and Made Prosperous—Work for the Business Men.

Half a century ago 4,000 souls was all Chicago's population, while twenty-five years since Milwaukee possessed no more than the number now composing the population of Escanaba. Since the locality then known as Sand Point attained the dignity of a town site, about three decades ago, the inland metropolis has grown from a frontier village to a commercial giant, numbering within its borders more than a million people, constituting a community rivaling any on the continent in the immensity of great financial enterprises, while Milwaukee has become a populous and prosperous city of a quarter million. In the meantime innumerable towns and cities have sprung into existence throughout the north west, and with advantages less favorable than those possessed in this locality, have outstripped Escanaba in material growth and municipal advancement. Thus it will be readily comprehended that an ordinary western infant city, with a convenient geographical situation and which has some natural advantages, becomes a full-fledged city within the limited span of a quarter century. If this were true during a period when the nation's population numbered less than forty millions, how much more true will it prove from this time forward when we number sixty-five millions. Milwaukee twenty-five years ago did not offer the advantages possessed by Escanaba to-day.

It will require no extended argument to convince every Escanaban that cities, like individual enterprises, are developed only by judicious management, persistent work and a wise but liberal expenditure of money. Escanaba, as has not infrequently been remarked in The Iron Port, is advantageously situated for the successful prosecution of manufacturing articles of a diversified character, but its resources must be made known to the outside world, and this, we hope, will be one of the first steps taken by the newly organized Business Men's Association. As a manufacturing state Michigan ranks high. Capitalists are beginning to appreciate the indisputable fact that the northwest is the greatest consumer of manufactured articles, and Escanaba is conveniently located thereto, with fairly good facilities for touching the entire territory. There are cities within our knowledge that were absolutely dead so far as business was concerned. Take for instance Rockford, Freeport, Sterling, Aurora, in Illinois, and others that might be mentioned in other states. Today those cities are booming. What has brought about this desirable change? Simply that the business men realized what was plainly inevitable if a movement was not inaugurated to add to their agricultural resources, and they began to cast about for new branches of business that would provide lucrative employment to hundreds of idle hands during each month in the year. The result was the reward that diligent labor always brings. One manufacturing institution opened the way to another, until these cities are what might properly be called self-sustaining, and every branch of business is in a healthy condition. This locality has advantages equal to any of the cities mentioned—possibly not for the manufacture of the same commodities, but others even more important—and capital can be had.

The towns that better themselves and show a disposition to encourage enterprises are the ones that will be benefited. There is no denying the fact that by the proper effort we can secure manufacturing that will double our present population in an almost incredibly short time, and place us where we properly belong—among the enterprising and progressive young commercial centers of the great and growing Northwest. To bring about this much desired result there must be concert of action on the part of our foremost and influential citizens, and therefore it is important that everyone who has the best interests of the city at heart should become a member of the Business Men's Association. The question to be decided by that organization is: Shall Escanaba come to the front and occupy a commercial position to which its location and surroundings entitle it, or shall we be content with the thought that we have a beautifully situated city, and the largest ore docks in the world? That Escanaba cannot grow to much greater proportions with its present industries is a foregone conclusion; in fact the mercantile establishments are already too numerous for the population, and workmen are not now engaged here the year round support them as they should be.

Turner's English Girls.

Turner's English Girls will in third appearance in Escanaba Opera Grand, next Monday evening, of course, call out a large audience.

PERSONAL AND SOCIAL

CONCERNING THE MOVEMENTS OF OUR OWN AND OTHER PEOPLE.

The Iron Port Reporters Gather in a Goodly Grist of Items Concerning Well Known People and Their Movements.

A. A. Kirkpatrick, supervisor elect of Bark River township, was in town, and called on us, on Friday last.

Mrs. Tuttle, of Boston, is in the city.

John T. McCumby goes mate on the Moore the season; went to Green Bay to outfit last week.

Mrs. Cates is visiting in Wisconsin, having departed thither last Friday.

Will. McNaughtan is very ill with a typhoid fever.

Mrs. J. Hillier is visiting in Illinois, to be gone for ten days to come.

I. K. Haring visited Chicago last week.

C. E. Mason, of the Delta, was in town on Saturday last.

John Powers, of Appleton, was in town Friday.

R. P. Mason, of Gladstone, was in town on Friday last.

Robt. Hall, of Gladstone, was in Escanaba Saturday looking for machinists for his shops at that place.

Chas. M. Thatcher will soon sever his connection with the Escanaba Lighting company.

Charlie Haskell was in town, shaking hands with former schoolmates and renewing old friendships, last Saturday.

L. N. Booth, of Metropolitan, in town on Saturday last, found time to call on The Iron Port.

Joe. Hillier and wife were recent Block Creek, Wis., visitors.

F. H. Van Cleve went to Chicago last Monday evening.

Mrs. Packer visited here last week, returning to Menominee on Monday.

Miss Lucy Prekham gives up her effort to establish a "Kindergarten" here, has gone home for a rest, and will make a new venture, at Menominee, soon.

Wm. Kauthe, of Garden, represented that township on the county board of canvassers last Tuesday.

John Craig, being in town on Tuesday, hunted us up for "a dish of chat." Come again, John.

Mr. Spielmacher, of Cook's station, on the Soo road, was in town on business Tuesday.

Azel Lathrop, of that ilk, was the representative of Maple Ridge township Tuesday.

They might manage to count the vote, somehow, without Peter Groos, but they don't; he's there every time and everybody is glad.

Mrs. E. G. Dixon, who had spent some time with her daughter, Mrs. Geo. Cook, returned to Marquette yesterday.

Mr. Hall, the insurance rate maker, has been in town this week.

Mr. McColl was called across the bay last week, on business of the estate of R. W. McClellan.

Harry Bushnell took the first case from here to the Keeley cure at Menominee yesterday.

Alderman Hamm is out again after a siege of quincy and an after touch of sciatia.

John Stephenson came out of the woods Tuesday. He will be clerk of one of the Hart steamers, as usual.

John Finnegan is visiting in the copper country.

Misses Marian Selden and Marion Tracy are visiting at Evanston, Ill.

Delayed Election Returns.

TOWNSHIP OF FAIRBANKS. Total number of votes cast 56, of which the democratic state ticket received 35, the republican 15 and the people's 6. The officers elect of the township are Joseph Mercier supervisor, Eugene Gill treasurer, Emeril Trudeau clerk, Frank H. Collinson commissioner of highways, Peter Laux justice of the peace, and Wm. Watson school inspector.

MAPLE RIDGE TOWNSHIP.

Total number of votes cast 41, the democratic state ticket receiving 25 and the republican 16. The officers elect of the township are Basilio Lenzi supervisor, A. Lathrop clerk, Joseph Lusardi treasurer, John Britz highway commissioner, John B. Kleiber school inspector and Herman Johnson, Henry Desjarlais and Owen Curran justices of the peace.

Missing Since Sunday.

John Myers, who had been employed at Wixson's gallery, left on Sunday, without notice and without his personal belongings, and up to the time we go to press nothing is known of his whereabouts. There is no reason, so far as we have information, for thinking that any harm has befallen him, and it is probable that, tiring of his employment, he has sought another location and will be heard from in good time.

Later. Our supposition was correct. He is at Fond du Lac, where he has secured a position.

Promotion Again.

D. M. Philbin (our "Phil") is the years when he was fitting himself for it) has taken another step of promotion having been appointed General Manager of the Duluth, Mesabi & Northern railway, the appointment taking effect on the 11th. We congratulate "Phil," but do not envy him; a new road, an outlet for a new iron

range, will keep him awake o' nights, like a baby, and need nursing (and perhaps spanking) for about the same length of time. Mr. C. E. Lytle, late train dispatcher, takes the superintendency of the South Shore road vacated by Mr. Philbin's resignation.

City News.

The supper at the Episcopal church was a success in every way; the tables looked inviting, being made home-like and beautiful with flowers, etc., and the eggs, served in every way imaginable, were delicious. In short the whole affair was evidence of the fact that the ladies of St. Stephen's can cook and serve to perfection. The next supper is to be given by the men—look out for it—it's going to be unique.

Mr. Peterson's address last Saturday evening was interesting as well as instructive. That the "vikings" of the Northland found the American coast five hundred years before the Genoese navigator is indisputable, but they did not hold it, or we should all be speaking the Norse tongue to-day. Erik the red and his son, Leif, were the first to land, from Europe, on the shores of the western world.

School commissioner Smith "cooks up his beaver and cooks it in 'braw'" because his vote in the county was larger by three than that for Judge Stone. There was no opposing candidate to either and it looks a little as though Alfred had "put up a job" on the court. Canvasser Hancock warned him that it was his last "snap," that he'd have to fight for what he wanted in future.

The record shows that the auditors of the school board sent the bill of the Iron Port back "for correction." The bill, as rendered, showed every item of service rendered and each amount of money received, with dates in all cases, and most people would consider such a statement "correct," in form at least.

The street gang begun the job of cleaning Ludington street Monday, and the round, honest faces of the cedar blocks are visible from Hodges' windows. Rain has hindered the work.

On Tuesday came rain, almost an inch having fallen, and yesterday fog, dense and pervading; just the weather to clear the bay of ice and bring down the logs.

The Peruvian affair took place at Molendo and was the outcome of a quarrel between the church and the free-masons. The injury to the consal was an accident.

Mr. Lillie arrived here Tuesday and is at work upon the extension of the street railway system; getting a route from Ludington street to the South park.

Mrs. S. Van Patten was thrown from the Cedar River stage at Menominee on Monday, the team running away, and her neck broken.

Miss Greene has opened her school in the basement of St. Stephen's church. Hours 9 to 12 and 1:30 to 3. Tuition \$2 a month.

We hear of a cantata in preparation and soon to be given, but nothing more definite as yet.

McCarthy has received his commission as shipping master for the Vessel Owners' ships.

Sailors' wages are fixed at two dollars a day by the union.

One Thing and Another.

A gigantic steel manufactory, with a hundred millions of capital, is proposed. James Harvey, the patentee of the "Harvey" process for tempering armor plates, is the principal promoter and the capital is said to be ready. The plant will probably be located near Pittsburgh, in the valley of the Monongahela.

The president announces a special session of congress not later than October 1st. Springer supposes that he will have the handling of the tariff legislation but he may be mistaken.

Last Sunday evening Mrs. Barker sang a song at Boston and sixty listeners at Chicago heard every trill over the long-distance telephone.

Germany proposes to annex the Samoan islands, the Cleveland administration hesitates about Hawaii.

The Choctaws conclude to postpone killing each other until they hear from Hoke Smith.

It is said that "Squire Abington" left his wealth, by will, to Mrs. Langtry.

A. A. Kirkpatrick's Residence Burned. On the day following the election last week the residence of A. A. Kirkpatrick, at Section 2, on the Felch Mountain railway, in the township of Bark River, was burned. The fire took in the roof of the kitchen, from the chimney (which extended for quite a distance above the roof and had been strained by the high winds) and was uncontrollable from the start. Loss about \$2,500, insurance \$1,600. Mr. Kirkpatrick will rebuild at once.

Return It: It Is Needed.

The person who borrowed the flag belonging to C. F. Smith poet G. A. R. is requested to return it, by leaving it at the store of A. H. Rolph. The request is made in this manner for the reason that the janitor has forgotten to whom it was lent and so can not call for it.

Green Bay Ice Solid Yet.

On Saturday last three teams crossed Green Bay, from Menominee to Sturgeon Bay, on the ice. A little open water was seen near Chambers Island and "the big crack" is quite wide, but the opening can not occur much before the first of May.

Marrriages, By Pastor Eekstrom.

On April 1st, John Johnson and Anna Fredericson. April 4th, Andrew Peterson and Caroline Anderson. April 6th, Andrew Danielson and Edith Eckroth. April 10th, John Anderson and Ingeborg Carlson.

FROM THE RURAL REALM

NOTES CONCERNING THE GOINGS-ON AT VARIOUS PLACES.

Paragraphs of General Interest By The Iron Port's Corps of Correspondents—Oth'w Neighboring News-Notes.

RAPID RIVER.

"The boys" have been arriving in vast numbers from the various camps which are so far as known, all "broke up." It is said that something like six hundred woodsmen have "come down" here, many hurrying on to their homes in your city, Wisconsin, and elsewhere and some waiting for "the drive" to break the monotony of their weary existence. It must be admitted however, that for the class of society from which this human-kind is usually drawn they are fairly orderly, not a single arrest having yet been made by the authorities for misconduct. Adam Schaibel has moved his office from Masonville to this place which he will hereafter make his headquarters. This removal together with that of the entire store of A. P. Waldo a few months ago is strong evidence of the superior advantages possessed by Rapid River as a center for lumber operations.

It is astonishing to learn how few Escanaba papers come to this town. Most families take instead, the paper of their native country in the lower peninsula or in Wisconsin. Yet, inquiry will satisfy one that this state of affairs is owing to the conservatism of the publishers rather than the lethargy of our citizens. They freely admit the superiority of The Iron Port over their "home" papers, but they must have an opportunity to subscribe. In these days of business pressure people are not likely to make even the smallest investment outside of the actual necessities of life until the matter is presented to them in a business way. Hear ye, editors.

"Hank" Cole's experience in the grocery business although moderately successful has fully convinced him that such a line exclusively is a much too narrow trade. He will therefore at an early date put in a complete stock of general merchandise and devote his entire time to the business.

We were a trifle previous in announcing last week that James Gokey had purchased the corner north of the Michigan house. He will secure some lot however, and the remainder of the item is substantially correct.

The marl quarries (mud mines) under the direction of Dr. Pennock of Gladstone have just filled their warehouse at the depot with their first product, but exactly what is to be done with it cannot be ascertained.

NAHMA.

Mrs. F. Greenwood, of Lake Mills, Wisconsin, and Mrs. George Harris, of Escanaba, are guests of Mrs. John Schlesser. Mr. and Mrs. Hannigan, of Manistique, were the guests of Mr. and Mrs. Will Barlow the first of the week.

Miss Lizzie Jackson, who spent the past month with her sister, Mrs. Jas. Cook, is home from Oconto.

G. J. Farnsworth is enjoying a week's hunt near Ripon, Wis.

Walter Stratton becomes proprietor of the hotel on May 1st.

Born, April 3, to Mr. and Mrs. Will Trowasel, a boy.

Miss Rose Forrest, of Escanaba, is visiting her parents.

Mrs. Van Dyke is visiting relatives at Depere.

L. Campbell has a new bicycle.

GREEN BAY.

From the Advocate: The ice went out of the Fox river Monday. D. McQueen died in the Brown county asylum on Thursday at the age of 74 years. Wm. Seims died on Sunday at the age of 88 years. The old Morris house was struck by lightning on Monday. No one hurt. The residence of F. W. Geise was also struck and much damaged. Paul Fox, one of the oldest citizens of Green Bay, died on Wednesday. J. H. Elmore chosen mayor without opposition. John Krause, wounded by his own gun, died on Wednesday. George Dukett, of Morrison, died Sunday at only 29 years of age.

Millinery Opening.

Erickson's opening of spring millinery commences to-day, and every lady should attend this magnificent exhibition of new and novel styles. Mr. Erickson's stock is complete in every detail, and the department being in the charge of competent trimmers, ladies will certainly find their ideal of a pretty hat or bonnet.

PROBATE ORDER—State of Michigan, County of Delta, ss. At a session of the Probate Court for said county, held at the Probate office, in the city of Escanaba, on the 17th day of April in the year one thousand eight hundred and ninety-three. Present, Hon. Emil Glaser, Judge of Probate.

In the matter of the estate of John F. Nelson, deceased. On reading and filing the petition, duly verified, of Elizabeth Nelson praying that a certain instrument now on file in this court, purporting to be the last will and testament of said deceased, may be admitted to probate, and that letters of administration with the will annexed may be granted her. Thereupon it is ordered that Monday, the eighth day of May next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the legatee and heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be held at the Probate office, in the city of Escanaba and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof by causing a copy of this order to be published in The Iron Port, a newspaper printed and circulated in said county, three successive weeks previous to said day of hearing. (A true copy.) EMIL GLASER, Judge of Probate.

Legal Notices.

First Publication March 16, 1893. MORTGAGE SALE—Default having been made in the conditions of a certain mortgage made by David Laviolette to Herman Winde dated November 10th, A. D. 1882, and recorded in the office of the register of deeds, for the county of Delta and state of Michigan, on the 14th day of November, A. D. 1882, in Liber C of mortgages, on page 258, on which mortgage there is claimed to be due at the date of this notice the sum of one hundred and eighty-two dollars and 74 cents, and an attorney's fee of thirty dollars provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage, or any part thereof. Now, therefore, by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, notice is hereby given that on the 12th day of June, A. D. 1893, at ten o'clock in the forenoon, I shall sell at public auction, to the highest bidder, at the front steps of the court house in the city of Escanaba (that being the place where the circuit court for Delta Co. is holden) the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with ten per cent. interest, and all legal costs, together with an attorney's fee of thirty dollars, covenanted for therein, the premises being described in said mortgage as all that certain lot, piece and parcel of land situate in the township of Baldwin in the county of Delta and state of Michigan, and known and described as follows: The northwest quarter of the southwest quarter (n w 1/4 of s w 1/4) of section six (6) in township forty-one (41) north of range twenty-two (22) west of the principal meridian of Michigan, and containing forty (40) acres more or less according to government survey. A. R. NORTHUP, HERMAN WINDE, Attorney for Mortgagee. Mortgagee.

First Publication March 16th, 1893. NOTICE OF COMMISSIONERS ON CLAIMS.—State of Michigan, County of Delta, ss. Probate Court for said County, Estate of Robert W. McClellan, deceased. The undersigned having been appointed by the Judge of Probate of said county, commissioners on claims in the matter of said estate, and six months from the 10th day of March, A. D. 1893, having been allowed by said Judge of Probate to all persons holding claims against said estate, in which said estate is now open for examination and adjustment. Notice is hereby given, that we will meet on Monday, the 5th day of June, A. D. 1893, and on Monday, the 11th day of September, A. D. 1893, at ten o'clock, a. m., of each day, at the County Clerk's office, in the city of Escanaba, in said county, to receive and examine such claims. Dated March 10th, A. D. 1893. WILL L. BROWN, THOMAS J. TRACY, Commissioners.

First publication March 23, 1893. ORDER OF HEARING, FOR LICENSE TO SELL REAL ESTATE TO FAY DEBET—State of Michigan, County of Delta, ss. At a session of the Probate Court for said county, held at the Probate office in the city of Escanaba on the 21st day of March in the year one thousand eight hundred and ninety-three. Present, Hon. Emil Glaser, Judge of Probate. In the matter of the estate of Amede LeDuc, deceased. On reading and filing the petition, duly verified, of Marceline LeDuc, the administratrix of said estate, praying that she may be authorized, empowered and licensed to sell that certain piece or parcel of land known as lot number three (3) of block numbered forty-five (45) in said city of Escanaba, according to the recorded plat thereof, as described in said petition with the hereditaments and appurtenances for the purpose of paying the debts, expenses, and charges of said estate. Thereupon it is ordered, that Monday, the 24th day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be held in the Probate office, in the city of Escanaba and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in The Iron Port, a newspaper printed and circulated in said county, four successive weeks previous to said day of hearing. (A true copy.) EMIL GLASER, Judge of Probate.

First Publication March 30, 1893. ORDER OF HEARING—STATE OF MICHIGAN, County of Delta, ss. At a session of the Probate Court for said county, held at the Probate office in the city of Escanaba on the 25th day of March, in the year one thousand eight hundred and ninety-three. Present, Hon. Emil Glaser, Judge of Probate. In the matter of the estate of Joseph E. Martel, deceased. On reading and filing the petition, duly verified, of Michel D. S. Martel, brother and one of the heirs at law of said deceased, praying that an administrator may be appointed in the estate of said deceased. Thereupon it is ordered, that Monday, the 24th day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be held in the Probate office, in the city of Escanaba, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in The Iron Port, a newspaper printed and circulated in said county, three successive weeks previous to said day of hearing. (A true copy.) EMIL GLASER, Judge of Probate.

First Publication March 30, 1893. SALE OF STATE TAX LANDS—AUDITOR General's Office, Lansing, Mich. March 24, 1893. Notice is hereby given, that at the office of the Auditor of the State, in Lansing, Michigan, on the first Monday of May next, at the time and place designated for the Annual Tax Sales, if not previously redeemed or cancelled according to law. Said statements contain a full description of each parcel of said lands and may be seen on application at the office of the County Treasurer after they are received by him. The land struck off to the State for Taxes of 1892 or other years, at the Tax Sales in May next, will be offered subject to the right of redemption prescribed by law. STANLEY W. TURNER, Auditor General.

First Publication March 30, 1893. PROBATE NOTICE FOR HEARING CLAIMS Before Court.—State of Michigan, County of Delta, ss. Notice is hereby given, that by the order of the Probate Court for the county of Delta, made on the 27th day of March, A. D. 1893, the claims from that date were allowed for creditors to present their claims against the estate of Isabella O'Brien, late of said county, deceased, and that all creditors of said deceased are required to present their claims to said Probate Court, at the Probate office, in the city of Escanaba, for examination and allowance, on or before the 27th day of September next, and that such claims will be heard before said Court, on Monday, the 5th day of June and on Monday, the 5th day of October next, at ten o'clock in the forenoon of each of those days. Dated Escanaba, Michigan, March 27th, A. D. 1893. EMIL GLASER, Judge of Probate.

Escanaba Oyster House and Family Resort Restaurant. Furnished Rooms, with or without board, at reasonable rates. Sample Room connected. J. B. DUFORT, Proprietor.

THE COMMON COUNCIL

OFFICIAL REPORT OF THE LAST SESSION OF THE BOARD.

The Tie Between Daniel Tyrrell and John M. Wright for Supervisor Decided in Favor of the Former. The Proceedings.

The charter meeting of the city council was held in the council chamber Thursday evening, April 6, 1893. Present the Mayor and Aldermen Cleary, Gamache, Hess, Jepsen, King, Lapine, Lindquist, Powers and Walsh.

Alderman King offered the following resolution and moved its adoption; Hess seconding, which motion prevailed by the following vote: Ayes Cleary, Gamache, Hess, Jepsen, King, Lapine, Lindquist, Powers, Walsh—9. Noes none.

WHEREAS there were an equal number of votes cast for Daniel Tyrrell and John M. Wright, two candidates for the office of supervisor for the seventh ward of the city of Escanaba, therefore

RESOLVED that lots be cast to determine the one elected.

Ald. Cleary moved, Powers second, that the mayor draw the lots, which motion prevailed without dissent.

The mayor then proceeded to draw lots in open council, which resulted in favor of Daniel Tyrrell.

Ald. Powers offered the following resolution and moved, Hess second, that it be adopted, which motion prevailed: Ayes—9. Noes none.

RESOLVED that the council hereby determine that the following officers are duly elected to the respective offices as follows:

Mayor Ole Erickson, clerk Henry Wilke, treasurer Emanuel St. Jacques, justice of the peace, full term, A. R. Moore.

First ward: Wm. Hamm alderman, school inspector Wm. Godley, supervisor Chas. J. Emba, constable John Gorman.

Second ward: Alderman, full term, B. D. Winegar, alderman, fill vacancy, D. A. Oliver, school inspector H. A. Barr, supervisor John P. McColl, constable Henry McFall.

Third ward: Alderman John Walsh, school inspector Peter Olson, supervisor Andrew S. Sanberg, constable Ezra Valentine.

Fourth ward: Alderman F. J. Hamacher, school inspector Harry H. Allyn, supervisor D. A. Brotherton, constable Geo. Hovea.

Fifth ward: Alderman James McPherson, school inspector, full term, John C. Peterson, school inspector, to fill vacancy, John N. McNally, supervisor Anton H. Olson, constable John A. Johnson.

Sixth ward: Alderman Olat R. Johnson, school inspector Peter Holmes, supervisor Phil J. McKenna, constable Bernard McLaughlin.

Seventh ward: Alderman, full term, J. W. King, alderman, to fill vacancy, D. N. Harvey, school inspector, full term, Geo. Wiltzie, school inspector, to fill vacancy, James Champ, supervisor Daniel Tyrrell, constable Geo. McCulvey.

Ald. Cleary offered the following resolution and moved, Powers second, that it be adopted; which motion prevailed. Ayes—9. Noes none.

RESOLVED that the question as to raising a tax for the building of a bridge over the Ford river be declared carried, and the tax is hereby ordered to be levied.

Ald. Cleary moved that a vote of thanks be tendered to Mayor Greenhook, which motion prevailed: Ayes—9. Noes, none.

Ald. Powers moved that a vote of thanks be tendered to the outgoing aldermen; which motion prevailed: Ayes—9. Noes, none.

On motion the council then adjourned without day. HENRY WILKE, Clerk.

Matters of Local Interest.

In order to make room for new spring goods, which are now arriving by the car load, P. M. Peterson offers some extraordinary bargains in furniture of all kinds.

Ed. Erickson is indisputably the leader in the dry goods trade of this county. No other stock can "hold a candle" to his in magnitude or quality.

The immense line of new spring clothing shown at The Model is more complete, richer in selection and more worthy your attention than ever before.

Gentlemen it will pay you to visit our Young but famous Clothing department. Nobbiest and most improved patterns in suits ever before seen. W. J. BELL.

Remember that Green & Allen do plumbing of every description, and guarantee first-class work in every respect.

Bargains in furniture for a few days in order to make room for new goods, at Peterson's.

Our X Dollar Suits are a soft mark for any person wanting a good suit. W. J. BELL.

Do not fail to attend Ed. Erickson's military opening to-day.

Just received at Rolph's 50 Boxes Florida Indian River and California Navel Oranges.

The house passed the bill establishing a home for the feeble-minded on the 7th and gave it immediate effect.

The senate committee has reported favorably the bill to establish the state weather service and appropriating \$2,000 a year to defray its expenses.

John Northwood has been confirmed as a member of the soldiers' home board, vice B. F. Groves, who becomes commandant of the home.

another the "valued policy" bill.

The house committee of the whole has agreed to Mr. Baum's bill for the establishment for a home and training school for the feeble-minded and epileptic. The bill as agreed to, appropriates \$50,000 for running expenses for the year 1894. Of the amount first set in the bill for running expenses for 1893, the sum of \$12,000

was struck out for the reason that the present year is so well advanced that the building cannot be completed.

The bill authorizes the governor to appoint three commissioners to locate the site and erect the buildings for the home. The commissioners are to receive their necessary traveling and official expenses, but no pay.

The house committee on state prisons reported favorably the bill of Mr. Sumner of Kalamazoo for the procurement of "proper electrical apparatus, machinery and appliances by the wardens of the state prison at Jackson for the execution of convicted criminals."

The proposal to send a special committee to Jackson to investigate the management and affairs of the prison there was finally dropped and the matter left to the regular committee.

The new oil inspection bill was ordered to take effect July 1st. Refiners and dealers in oil will take notice accordingly. The new test is 125 degrees in a Foster cup.

The committee on labor interests reported without recommendation a bill providing that all prison-made articles when offered for sale—or delivered from the prison—be so branded; a bill for the compilation and collection of statistics of indigence and poverty and a bill providing that all persons employing female help in stores shall provide seats for such help when they are not actually employed.

The house committee on ways and means has reported favorably the bills to establish three new normal schools and appropriating for each school \$25,000 for site and buildings, or \$75,000 in all. One of these schools is to be located in the Upper Peninsula. The governor is to appoint three commissioners to locate each school and erect the first buildings.

Sailing Masters Protest.

The proposed location of the new life-saving station for "the door" on Plum Island does not meet the views of the men for whose benefit it is intended. We find in the Sturgeon Bay Advocate an earnest plea for its location on the southerly point of Detroit Island and the following reasons given for preferring that location to the one proposed: 1st.—Its location is such that it commands a view of the dangerous places in the vicinity of Pilot Island and Fisherman's Shoal—Plum Island does not. 2d.—It is almost centrally located among those dangerous places. Plum and Pilot Islands on the west side, Washington Island and Fisherman Shoal on the east and Detroit Island point right at the station.—Plum Island is at the western extremity of this group of dangerous rocks. 3d.—Landings can be made for the life-boat on both sides of the island, so it matters not which way the wind blows the landing is easy on one side. I would also say that if a vessel should get onto Pilot on a dark night so it could not be seen at the station, the keeper of said light could be supplied with rockets for signaling so that the life-boat could be of assistance in a short time.

We have consulted sailing masters and pilots resident here and long familiar with "the door," and find them of one mind with regard to Plum Island—that it is too far in for a station upon it to be of much use, and unanimous as to the propriety of the location either on Detroit or Pilot Island.

Trimming Machines.

Mr. R. Thew of Cleveland, who has been at work for a long time past on a machine intended primarily for handling iron ore in the holds of lake vessels, has placed two of the machines in the wooden steamer Nimick, owned by the American Transportation Company of Fairport, O., and it is understood that two more of them will be put into the Harper, a sister ship, as soon as possible. The apparatus, which has been referred to several times in the Review, is a combination revolving and traveling derrick and dredge, which is attached to overhead rails in the hold. It is first intended to make use of it for trimming purposes and then endeavor to apply it to the loading of buckets in the hold. Mr. Thew has made several improvements in the machine, and several vessel men who were at first skeptical about it are now inclined to think that it will shortly come into general use on ore-carrying steamers. Trimming charges alone form a big item of expense on such vessels.—Marine Review.

Well Done, Republicans.

On the head of the state ticket, the candidate for justice of the Supreme court, the republicans of Delta outvoted the democrats by 316 in a total vote of only 1,810—a good showing for so light a vote. We congratulate them, and pray them to be steadfast—not to be "scared" by lies nor seduced by ephemeral parties, so-called, which are not parties in any proper sense of the word, but merely factions or at most political mobs, without cohesion or promise of continuance. There are but two parties—the American, progressive republican, and the Anti-American, reactionary democratic—choose ye on which side you will be counted and be steadfast.

PENINSULA NEWS NOTES

THE LIBERAL SCISSORING OF EXCHANGES FOR PORT READERS.

The Exchange Editor Profits From Careful Perusal of the Newspapers Published in this Peninsula. Latest Intelligence.

The Iron Mountain boy has things "down fine." One of them explains that "winter is the best time to throw stones at windows, because, you see, all the houses have double windows and you can break two panes with one throw, and you only get one licking, just the same as if you had only broken one pane."

The Ropes mine is "in bonanza" it seems. It has prepared a specimen of its vein stuff, taken from the lowest level of the mine, which is two feet by five by one and which carries \$60 to the ton of gold. A drift sixty feet long is in stuff like the specimen. The Michigan mine will show smaller but much richer specimens.

They're a new way to raise cash for charity or the church at Menominee. The girls and boys are paired (for the evening) by lot; then the lass is weighed and the lad pays three cents a pound for excess over a hundred pounds or five cents a pound for any deficit. It's a gun that kills with both barrels.

The Range-Tribune, successor to the pioneer paper of the Menominee range, started by Penderbury at Quinnesec, has just entered upon its 15th year. It deserves all the success it has achieved and indefinite continuance and prosperity.

A "People's" ticket won at Norway. Richard C. Browning is mayor. Out of 195 ballots for state officers sixty were wasted, having no mark. The city gave Durand and the democratic candidates for regents eight plurality.

The municipal contest at the Soo was hot and the republican candidate for mayor got there by three votes. Otherwise the democrats maintained their hold, they have control of the council and of the county board.

The Volunteer mine, near Negaunee, will let its force 600 men, go and be closed. It can not market its ore at a profit, yet that blooming idiot of a legislator, Woodruff, wants to tax its output five cents a ton.

A dispatch from Detour says the ice in the St. Mary's river is weak and will soon go out. True as to the river, no doubt, but doubtful as to the lakes, George and Mud. There's where it holds longest.

Capt. Cundy, working a mine on the Mesaba range the output of which is too high in phosphorus for bessemer proposes to wash out the excess. It is an experiment, with the chances against him.

St. Ignace chose a republican mayor and reduced the democratic majority on the state ticket fifty per cent. Straight work, for the first time, too, and the republican saints are pleased.

When Representative John Jones went home to vote the Ishpemingites chained and cased him—gold chain and ebony cane gold mounted. He said he liked such treatment, too.

E. Kreig, pattern maker at the shops of the South Shore road at Marquette, was severely injured by a fall one day last week. He will come through all right, however.

Wm. H. Acker, of Shingleton, paid a fine of \$50 and the costs of the prosecution for killing a deer out of season. Game Warden Hampton came in person to prosecute.

St. Ignace republicans elected their candidate for mayor on a "straight" ticket and have done fooling with "fusion" and "non-partisan" arrangements, for all time.

There were but 1,722 votes cast at Ishpeming and almost 400 were defective. The republican vote was 882, the democratic 468 and the prohibition 372.

Fifield acknowledges defeat but says "next time." He has sold his building but will build another; his faith in Menominee and the G. O. P. is unshaken.

Ives was re-elected mayor of Marinette, but Sherman, a prohibitionist ran him close and might have beaten him had there been no republican candidate.

"Not guilty, but you mustn't do so any more," was the outcome of the libel suit against the publishers of the Calumet Conglomerate.

The democracy had its own way in Menominee, re-electing Mayor Taylor and held the council, and gave a majority of 110 for Durand.

Jansen, democrat, beat Chamberlain, republican, for mayor of Bessemer and the city gave 14 majority for the democratic state ticket.

The new hall of Zenith Lodge, K. of P., at Ishpeming, was dedicated on Tuesday of last week. Hon. J. Q. Adams, delivered the address.

W. S. Laing, for mayor of Iron Mountain had no opposition. The republican majority on the state ticket was 250.

Sharp contest at Lake Linden—671 votes cast and G. W. Orr elected supervisor by three majority, only.

Lively day at Manistique, on the 3d—Hill and Hair for the supervisor—Hill got it by 17 majority only.

Crystal Falls proposes to dam the Paint river and make its waters drive the water and lighting plants.

Miss Hargreaves, an out-door employe of the Calumet Conglomerate, was shot at on the road between Lake Linden and

Calumet. That is her story, at any rate, but the correspondent of the Mining Journal says the public thinks she merely imagined herself in danger.

The frozen body of a man was found last Saturday near Eagle Mills. It was identified as that of Sakris Pakka, a Finlander who wandered away while insane some six weeks before.

The light-keepers who winter on Mackinac Island and at St. Ignace have gone to their several stations.

The redstone quarries at Marquette and Portage entry have been brought under one ownership.

An electric storm burned out telephones and electric lights in the copper country Monday, April 3d.

An Iron Mountain cook is so handsome that she makes the potatoes by simply smiling at them.

Fire bugs are making trouble at Marquette. They operate on barns, chiefly. Close thing in Houghton, too; Sheldon beat Fox only nine votes, for supervisor. No contest at Red Jacket and the vote 900 less than in November.

Julius Anderson, Manistique, took arsenic enough and died.

The County Canvass.

The board of county canvassers met at the courthouse on Tuesday and canvassed the vote on state and county tickets, arriving at the following results: For circuit judge Hon. John W. Stone received 1,908 votes. For county commissioner of schools Alfred P. Smith received 1,911 votes (the largest number cast for any office). For justice of the supreme court Frank A. Hooker received 1,063 votes. George H. Durand 747, Edward S. Grece 60 and Myron H. Walker 32—Hooker's plurality 316, his majority 224. For regents of the university Frank W. Fletcher received 1,072 votes, Henry A. Harmon 781, Myron O. Graves 65 and Robert C. Safford 32—Fletcher's plurality 286. Herman Keiler received 1,067 votes, Robert E. Bunker 783, Byron S. Ashley 62 and Joseph F. McCulloch 32—Keiler's plurality 284. For the amendment to Sec. 1, Art. 9 of the constitution there were 481 "yes" and 213 "no"; for that amending Sec. 9, Art. 14 there were 481 "yes" and 163 "no"; for that amending Sec. 49, Art. 4 there were 461 "yes" and 165 "no" and for that amending Sec. 8, Art. 6 there were 398 "yes" and 150 "no."

Having ascertained and certified to these facts the board adjourned.

Just the Thing.

This is an expression the traveling public generally use when they find something that is exactly what they want. This expression applies directly to the Wisconsin Central Line, which is now admitted by all to be "The Route" from Chicago to St. Paul, Minneapolis, Ashland, Duluth and all points in the Northwest. Their double daily train service and fine equipment offers inducements which cannot be surpassed.

This is the only line running both through Pullman First Class and Tourist Sleepers from Chicago to Pacific Coast Points without change.

For full information address your nearest ticket agent or JAS. C. POND, Gen. Pass. and Tkt. Agt., Chicago, Ill.

Mrs. Cleveland will not be present at the opening of the Columbian exposition, as had been hoped.

For years the editor of the Burlington Junction (Mo.) Post has been subject to cramp colic or fits of indigestion, which prostrated him for several hours and unfitted him for business for two or three days.

For the past year he has been using Chamberlain's Colic, Cholera and Diarrhoea Remedy whenever occasion required, and it has invariably given him prompt relief. 25 and 50 cent bottles for sale by Bert Ellsworth. 21

Senator Gorman tells Marylanders who want office and ask for his aid that he has no "pull" with Grover.

The promptness and certainty of its cures have made Chamberlain's Cough Remedy famous. It is intended especially for coughs, colds croup and whooping coughs, and it is the most effectual remedy known for these diseases. 25 and 50 cent bottles for sale by Bert Ellsworth. 21

To Keeley Believers.

Persons wishing the Keeley home treatment remedies can buy them of The Keeley Institute, Menominee, Mich., and make a considerable saving on express charges. They are all made at Dwight.

Electrical Appliances.

UNTOLD SUFFERING AND MISERY RELIEVED AND CURED.

THE MESSENGER OF HEALTH HEARTILY ENDORSED.

A STATEMENT UNDER OATH.

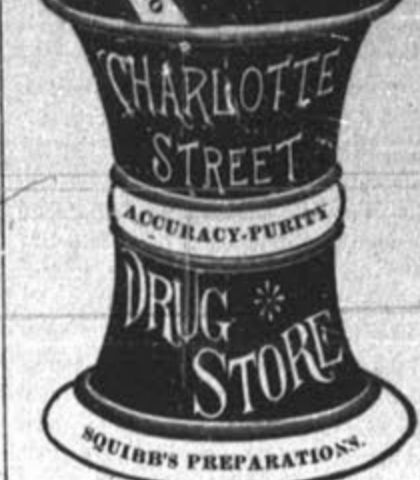

MOUNT PLEASANT, MICH., August 13, 1892.

THE OWEN ELECTRIC BELT AND APPLIANCE CO.: Dear Sirs:—I am now able to say, after having purchased one of your No. 4 Electric Belts with Spinal Appliances about one year ago, that I thank God I have found relief from my terrible suffering through the wonderful healing influence of your wonderful Body Belt. August 28, 1891, at which time I was a great sufferer, and had been for more than four years, from extreme nervous prostration, so much so that, on the least exertion, my whole nervous system would be all of a tremble from head to foot, and unable to control myself in the least, and would affect me to tears like a little child. I am a farmer by profession; in the fields, or at work on the farm, or at any excitement, it had the same effect. I could not lift the weight of five pounds. It so continued with increased suffering until I was unable to help myself, and for eight long months my suffering was intense. My stomach was so weak that I could not take any food but crackers and warm water for the above time. My kidneys were so weak that I could not retain my urine, it would pass from me continually, and I was under the necessity of leaving my couch from six to eight times a night to void my urine, which was very painful. I was also troubled with severe constipation and piles, so that I was obliged to use injections to produce evacuations of the bowels. It was very distressing, so much so that I had to be lifted in and out of my bed for several months. The doctors could do me no good whatever, and I had made up my mind that this was no help for me this side of the grave. My limbs would become numb and cold, seemingly as ice, and I would try with hot bricks, rubbing and all other methods to restore the circulation and natural feeling, but all to no effect, and then it would pass off. Then again another attack would occur which would leave me helpless, and so continue periodically, and I could get no relief. The doctors told me that I must not do any work, and that it would be three years at least before I would be able to work. I agreed with them, for I could not, nor did I ever expect to again. The whole world seemed to me a blank, and my vital forces all had left me, and my life was fast ebbing away from me through the loss of my life fluids, which doctors were unable even to check. I had given up all hope of ever getting help, and death in all its terrible forms stared me in the face, from which there seemed to be no avenue of escape from this living horror, of which no living person is able to know or feel, except his sufferings be as mine has been. In this state of suffering and agony I continued until about one year ago now I met a friend who, on seeing my helpless condition, advised me to try one of the Owen Electric Belts. For several

DANIEL J. HOPKINS.

DR. A. OWEN.

weeks I doubted his statements about what he told me of the wonderful healing properties of it, but he was so earnest and persistent that I finally consented to send for one. He advised me to send for a No. 4 with spinal appliance, which I did, at a cost of \$20.00, which, to your price for No. 4 and spinal appliance, I will say here that it is the best \$20.00 investment that I ever made in my life in the way of doctor's remedies or anything else, as I had spent dollars, up into the hundreds, but could get no relief whatever. As soon as I received the Belt and Appliance, I had it charged and adjusted and put it on, and in a short time after putting it on I began to feel wonderful soothing and gentle currents of its healing power passing all through me, clear to the end of my toes and fingers, a prickling sensation like thousands of needles. Many were the sleepless nights I had passed, unable to sleep but from one to two hours through the whole night for months. On the third night after wearing the Belt I slept until morning and awoke greatly refreshed. I was not disturbed, nor had I to void my urine once through the night, and I have not been bothered in that way since. All the drains upon the system have ceased, and constipation and piles all have left me as if by magic. My nerves have regained their former strength, my eyesight and mind have become clear, and I have gained in weight about 15 pounds, and I feel like a new man. My stomach has got back its power of digestion, and I can eat almost any kind of food that my appetite craves, without pain or distress. I am gaining daily and I feel better and weigh more than I have for the past ten years, and it seems I have a new lease of life. I cannot say enough in favor of your wonderful Electric Body Belt. It is far superior to all medicines compounded for the relief and cure of chronic and complicated diseases and broken down constitutions. I would not take \$200.00 for my Belt if I could not get another like it. There is nothing like it for relief and cure where all other remedies fail. I can not praise your Belts enough, for what it has done for me words can not express. I will say here that I recommend the Owen Electric Belt to all suffering humanity who fail to find relief from other remedies. It is the messenger of quick relief and certain cure of all nervous debility and other nerve troubles. I know it will cure all diseases which you advertise it to cure.

This you may publish to let suffering humanity know there is relief and cure to be found in your wonderful Belt and Appliance.

DANIEL J. HOPKINS, Notary Public.

Subscribed and sworn to before me this 17th day of August, 1892. D. E. LYON, Notary Public.

In and for Isabella Co., Mich.

Persons making inquiries from the writers of testimonials will please inclose self-addressed, stamped envelope, to insure a prompt reply.

OUR ILLUSTRATED CATALOGUE

Contains fullest information, list of diseases, out of Belts and Appliances, prices, sworn testimonials and portraits of people who have been cured, etc. Published in English, German, Swedish and Norwegian languages. This valuable catalogue will be sent to any address on receipt of six cents postage.

The Weekly Iron Port

THE IRON PORT COMPANY.

THE VOTING MACHINE.

Voting machines are the "coming method;" in New York they have one in use, called the "Myers ballot machine," the arrangement and method of use of which is thus described:

"The machines are inclosed in sheet-iron booths about five feet square. On one side are two doors, one for entrance and the other for exit. The voters are formed in line, and are admitted one at a time through the entrance door by an inspector who stands beside it. The voter goes in alone and the door locks behind him. He sees in front of him vertical rows of cards of different colors, each bearing the names of the candidates of a political party, and to the right of each name a knob to be pressed in. Thus the Democratic ticket is all in yellow, the Republican all in red, the Prohibition all in blue. If the voter is illiterate, he has only to know the color of his ticket to vote intelligently; provided he wishes to vote straight. When the voter pushes in the knob to the right of the name of a candidate for one office, he registers his vote automatically for that candidate, and at the same time locks the knobs of the candidates on all other tickets for the same office, thus making it impossible for anybody to vote for more than one candidate for any office. The knobs then pressed in remain in that position till the voter passes out of the booth. When he has completed his balloting by pushing in the knobs opposite the name of every candidate for whom he wishes to vote, he opens the exit door, which opens only from the inside, and in doing so unlocks again the entrance door and at the same time releases all the knobs on all the ballots. The machine is thus ready for the next voter, whom the inspector is able to pass in through the unlocked entrance door. The total vote for each candidate is recorded automatically as the election proceeds, and all the poll clerks have to do is to transfer to their books the totals of the different machines used, in case more than one is necessary to an election, verify them, and announce the result."

FAVORS UNIFICATION.

It is indisputable that a large portion of the citizens of the Dominion are in favor of absorption into the American republic, and it is also a matter of fact that many others, not now favorably disposed toward such union, regard it as inevitable and merely seek to delay it as long as they may. One Myers, a promoter of the plan of union, has issued an appeal to Canadians in the U. S. to assist in what he designates as "the great movement for the unification of the North American continent." He says of the present condition of the Dominion: "We are forced to rely on Great Britain for our development, but unfortunately for us, that empire is in the position of an overgrown man whose heart is too small and weak to propel the life blood to his extremities, which consequently wither and decay."

Of the advantages to the U. S. of the "unification" he says: "The union would for all time free the people of the United States from all danger and menace of foreign wars. Canada with a population which may in time reach 35,000,000 or 40,000,000 of people, united with the rest of the British Empire, in alliance, possibly, with another European country jealous of America's supremacy could, with its 4,000 miles of boundary incapable of defense at all points, inflict untold injury on the United States. Should this occur the people of the latter country would, when too late, realize the criminal folly of not having saved themselves from so great a calamity when they had the opportunity of doing so with but little effort." We hold with him, mostly, and entertain no doubt that whenever the people of the Dominion express a wish for union, with any approach to unanimity, they will find the people of the United States ready to meet them halfway; the doors at the north, as well as that of Castle Garden, "swing inward."

DEPEW ON ELLIOTT.

The late Elliott F. Shepard had made in his lifetime, many enemies, even in the party to which he adhered, by his radicalism, but he was a man of mark. C. M. Depew says of him:

"He had the courage of his convictions, and no opposition, argument, threat or ridicule could deter him or drive him from what he thought he ought to do. He was the most devoted and faithful of friends, ready at all times to enter the lists in defence of a man in whom he had confidence. He was the most amiable and genial of companions, and had a lively and equable temper. In his family circle as husband and father he was everything that was ideal. He was at his best at home. A more faithful husband, a more tender, affectionate and wisely discriminating father, never lived. His domestic life was perfect. That he made enemies in his public career and incurred an unusual amount of criticism was because of the positiveness of his views and his determination that the world should hear them, and, if possible, be converted to them. He was generous in numberless beneficences to the poor, who will miss one of their best friends. It only needs a little inquiry to ascertain how large a place he filled in New York, and how much his loss will be felt."

Men who know no compromise are difficult men to deal with but they are the

men who move the world, in the end, though their work is seldom appreciated until they are gone.

Those duifers whom certain lower peninsula constituencies (we can't imagine why) send to the legislature insist on meddling with a matter they know nothing whatever about—the matter of the mining industries of this peninsula. One, named Woodruff, proposes a return to the practice of taxing the product of our mines—twenty-five cents a ton on copper ore (he is so ill-informed that he proposes a tax on an article not produced—a p. copper mine produce copper, not ore (and five cents a ton on iron ore. Of the copper we will not speak—Judkins and Wilson and Mackenzie may do that—but as to iron we do say that the mines can't stand it. Many of them can not now raise ore at a profit and are idle, waiting for a better market. Those that are wrought are compelled to practice the closest economy to keep the balance on the right side of the ledger. Mr. Woodruff and those, if there are any, who support his bill are by so doing oppressing, or proposing to oppress the wage-worker, for nothing is more certain than that the burden, if it should be imposed, would be borne by the laborers, a reduction of their pay equal to the tax would follow as certainly as night follows sundown; the mining concerns would be compelled to it.

The republic of Mexico has for many years maintained a "free-zone" along her northeastern frontier, into which imports came duty free, a line of custom houses at inland points demarking it from the rest of the republic. It served as a warehouse for importers, from which their goods could be sold in the free zone and from which they could pass them into the inner country in lots as required, paying duty at the inland custom houses or smuggling past them. It was a snap for the importers and the inhabitants of the zone, in Tamaulipas, Nuevo Leon, Coahuila and Chihuahua, had all the benefits of free trade, but now these inhabitants say that the arrangement operates to keep them poor, to retard the development of their locality, and ask that the free zone be abolished and they be taken under the protection of the tariff, like the other citizens and regions of the republic. Mr. Cleveland should send Roger Q. Mills to talk to those fellows; they are evidently "way off" as to what ails them; if we should happen to annex those four states they'd all vote with the republicans, for protection.

When, at Chickamauga, the right was gone, the center pierced and dispersed and the field lost, the left, under glorious "Pap Thomas" withstood the onset of the enemy and prevented defeat from becoming rout. So, in the defeat of last fall stood Michigan, steadfast and true, while the foe overran Wisconsin and Illinois like a flood and Ohio was saved but by the skin of her teeth; and last week she showed Grover that the sending home of the Michigan office hunters from Washington, to "win some democratic victories," was in vain. The democracy is beaten in the state and in its strongholds, Wayne and Kent counties. Michigan ranks, among republican states, next to Vermont, "the star that never sets."

It is said that Messrs. Carlisle and Gresham regret their acceptance of places in the cabinet of Mr. Cleveland not only because Grover wants to "run" both the treasury and the state department but because, also, he reserves for himself all the appointments in those departments above the grade of scrub-woman or errand-boy. We can believe so much, but when it is suggested that both the old parties are going to wreck and a new one is to arise of which Grover will be leader and which will swallow up the republicans and democrats except such as go to the populists, our credulity gives out, entirely. Grover is in no wise, in no degree, a leader of men. A "boss" he is—a tyrant he might be, but a leader—not much.

The attitude of the president towards the newspaper men is very much the same as was that of Gen. Sherman thirty years ago, in Dixie. Last week he caused an order to be issued that the list of changes of postmasters, heretofore given to the press daily, should no longer be given out. Like the general, too, he finds out that the demand of the public for "the news" is imperative, and the order is suspended—will probably be withdrawn. The president is getting thin-skinned, it would seem. The chaff about "the axe" and the "basket full of gory heads" annoys him. He'll meet with annoyances worse than that when congress meets.

This beats Keeley. Buck Dufore says: "Why garter snakes will stop a man from drinking quicker than anything else. If a man wants to see what he is putting inside of himself when he is drinking whisky let him take a saucer full of whisky and drag a garter snake through it twice. It will kill the snake and then you take a teaspoonful of the liquor and put it in a glass, pouring out a comfortable drink of whisky with it. Drink this and I'll bet my life a man will never take another drink to his dying day."

Advices from South America indicate an alliance between Brazil and Chili which threatens war upon and the possible dismemberment and partition between them of the Argentine republic. Those fellows are never at peace, with themselves, unless they're fighting some outsider; it seems to be a question of foreign or interneine war, only.

Grover has paid his errand-boy. As D. Dickinson, Don's brother, goes out as consul to Nottingham, England. It is not "a big thing" for As, though, if he could earn a decent living at home.

JAMES CORBETT.

He was born September 1st, 1866, in San Francisco; his father, Patrick Corbett, who is still alive, came to this country from Ireland in 1850. Young James received his education at Sacred Heart college in San Francisco, and when 16 years old accepted a position as clerk in a bank. He always was fond of boxing and after becoming a bank clerk he took part in

many amateur tournaments. When eighteen he joined the Olympic club of which he afterwards became instructor in boxing. Corbett has fought Jack Burke, Joe Choyanski, Mike Brennan, James Daly, Jake Kilrain and Dominick McCaffrey and next Sullivan. He has never as yet been beaten. He is now preparing to meet Mitchell and the battle will probably come off in September.

The following forcible and axiomatic paragraph, from a letter of Sir Edward Sullivan to the secretary of the Tariff League, will be read with much interest: "The tariff argument is the same in all countries. It is very simple. It is that 'employment is of more value than mere cheapness.' Employment means wages; wages means money; money means the power of buying. Want of employment means no wages, no money, no buying; it means, in fact, 'going without.' Everything is cheap, comparatively, for the man who has money to buy; nothing is cheap to the man who has no money with which to buy."

It was not a clean sweep; here and there a democrat got away, and among them was "the Mendon kid," Hon. Geo. L. Yapple, who is chosen circuit judge of the 15th circuit. On the bench he will serve the people well, we doubt not; as congressman he might do a deal of mischief for he really believes in free-trade and all the other democratic heresies. As judge his honesty is his best recommendation—as a law-maker it would be his worst point.

It would appear that the destruction of the only safe banking system the country has ever had and return to the old "wild-cats" system is determined upon by the democracy. Bland says so, Fairchild (who was Cleveland's secretary of the treasury) says so, and deploras it. Perhaps Grover will use his veto: we shall see.

The New York World, democratic organ, says of the necessary qualifications of a foreign minister that they are three—"wealth, a charming wife, and some ability as an after-dinner speaker; and the greatest of these is wealth." Mr. President Cleveland seems of the same mind.

One of Mayor Kaufman's friends says, by telegraph "next comes state [?] and congress." It doesn't follow, necessarily, as ex-Mayors Adams and Nester can testify. "Let not him who putteth on his armor boast" says the scripture. Mayor Kaufman's trouble is just beginning.

On the third day following the election the Free Press began to entertain doubts as to democratic success. By and bye it will find out that it was "kicked out of its boots" and to wonder how it could have occurred.

Max Judd, Cleveland's consul-general at Vienna, being of Jewish blood, will hardly receive his "exequatur" from the Austrian government, and so will come home, or be transferred to some other post.

Mead sells all the good Patent Medicines, Toilet Goods, Stationery, Books and Wall Papers.

BOILED-DOWN CITY NEWS

MANY MINOR MATTERS PERTAINING TO CITY AND SURROUNDINGS.

The Iron Port Reporter staff finds a goodly batch of interesting items in their wanderings about the city—short bits.

The street cars will be in operation this week, or the first of next. The delay is caused by the company's inability to get such building material as is necessary. The line will be extended to Eden Park, and perhaps beyond at an early day.

Escanabans can not invest the same amount of money in any other way so well as in paying for a branch line to connect with the Soo road. It need not be a great sum, either, but it will be a great thing for the town.

As five woodsmen were riding on a wagon on Ludington street Saturday, one of their number lost his "equilib" and fell off, the wheel passing over him. He scrambled out of the slush with slight injuries.

The Odd Fellows' celebration on April 26th is bound to be a grand success. Every citizen should assist in making it such, as hundreds of visitors from neighboring towns will be present.

John K. Stack's building on West Ludington street, occupied by a saloon, caught fire early Thursday morning last, but the fire ladders soon extinguished the flames. Loss, slight.

The Iron Port's compositors had an "enjoyable time" last week setting Swedish for the Medborgaren, that paper being short of help on account of an accident to Mr. Axelson.

A. H. Rolph has the exclusive agency in this city for Chase & Sandborn's teas and coffees. These brands are to be used exclusively on the world's fair grounds, during the big show.

The Sheridan Mining company has a force of sixty men at work at the Sheridan mine, and will soon increase the number to one hundred. No ore has been sold as yet.

The common council decided the tie vote for supervisor of the seventh ward in favor of Daniel Tyrrell. Mr. Tyrrell and John M. Wright each received 32 votes.

M. N. Jones sold, on Thursday last, eighty acres of land on the Northwestern road, near Gladstone, to the Gladstone company, the consideration being \$2,500.

John O'Donnell and Jas. Boyle were arrested last Thursday for disorderly conduct and Judge Glaeser assessed each \$25 and costs. O'Donnell is serving time.

Not a single Chinaman in this city has registered. Unless they comply with the law before May 5 they are liable to expulsion from the United States.

Word from Mr. Bunn, the directory publisher, is to the effect that he will come thither to commence work on an Escanaba directory about May 1st.

The difficulty of procuring material has delayed the erection of the power-house for the street railway, but it is well along toward completion now.

When asked to give the right of way for the branch road to connect with the Soo line, say "yes," of course. We must have the connection.

Sullivan & O'Brien will soon commence repairing their gravel dock across the bay preparatory to filling their graveling contract.

County Clerk Linden has bought the property of Dr. T. L. Gelzer on Elmore street, and will occupy the same in the near future.

P. M. Peterson & Co. have an announcement to-day. On and after May 1st the firm will do a strictly cash business.

Peter Jordan will discontinue his store at Big River, and may move to Escanaba in the near future.

Escanaba Lodge, I. O. O. F. issues invitations for the anniversary party. If you get one use it.

R. P. Mason, of Gladstone, is building a small boat—35-foot keel, 10-foot beam, with a 7x9 engine.

Several lumber-jacks were given a gratuitous ride in our red wagon during the past week.

Last Sunday was the 28th anniversary of the surrender of Lee at Appomattox courthouse.

Geo. W. Kaufman is erecting a warehouse in the rear of his place on Ludington street.

John Christie has just papered thirteen rooms at the New Ludington with Mead's wall paper.

Ten dollars was paid for the use of tools to pave the engine house floor. Pretty expensive.

The new city map is completed, and has been sent to the lithographer in Chicago.

City Clerk Wilke officially notified city and ward officers of their election on Friday.

It is said that the Gladstone Express will soon be resurrected by Jos. LeClaire.

The Metropolitan Lumber Company cut thirty-six million feet the past winter.

A son of Albert Nelson was quite seriously bitten by a dog the other day.

No 1 was nearly two hours late on Friday, owing to a washout on the line.

Lozging is at an end and driving is in order. Plenty of snow in the woods.

axe for woodmen, and orders for them are pouring in upon him at a rate that keeps his Gladstone Novelty Works busy.

That very accurate and trustworthy authority, the Engineering and Mining Journal informs its readers that the Hamilton mining company "will use its building tank" in an endeavor to unwater the mine. Heretofore we know that "building" should have been "bailing," but the paragraph must have set some of its readers to guessing.

A new three-story, a brick building, was begun at the corner of Central and Wisconsin avenues, Gladstone, this week.

The Soo can have a ship-yard and dry-dock if its people will give a sufficient bonus, which they will probably do.

Little blaze, soon out, in Schrudund's saloon, one day last week.

It is "Mayor Erickson," now; he has taken the oath of office.

Attorney Gallup will build a residence in the sixth ward.

Geo. W. Kaufman has an advertisement to-day.

Col. Parker's laundry is doing good work.

Martin Faunce has quit the fire department.

I. Kratze has a change of "ad" to-day.

AMONG THE CHURCHES.

General Intelligence Gleaned From the Various Denominations.

Our friends of the M. E. church have concluded that "Methodists are as good as anybody" and their place of worship not quite in line as to attractiveness, will proceed to improve it by a new carpet, stained windows and new paper (or other finish) upon the walls. It is needless to say that the ladies are foremost in promoting these improvements; the churches, one and all, would be but small affairs but for them.

There will be a literary and musical entertainment at the Swedish Lutheran church to-night, for which extensive arrangements have been made. The proceeds are to go to a fund for the purchase of a beautiful oil painting, "The Resurrection," by Wm. Bystedt, of Chicago, for the church.

Rev. E. Johnson, pastor of the Mission church will depart for West Superior, where he has accepted a call, on the 24th inst. He will be succeeded by Rev. Mr. Bowman, of Minneapolis, who will arrive here about May 1st.

There was no meeting of the Ladies' Aid society of the Presbyterian church yesterday. The society will meet with Mrs. Cram next Wednesday afternoon, at which time refreshments will be served.

The Woman's Christian Union will give a musical and literary entertainment in the M. E. church, the evening of May 3d. An interesting program is being prepared for this occasion.

Rev. Mr. Strong, pastor of M. E. church in Negaunee, will preach morning and evening at the Methodist church in this city next Sunday. Sacramental service in the morning.

The ladies of the Mission church will hold a sale of their handiwork, at the church, on the 15th.

Confirmation at the Mission church next Sabbath.

W. C. T. U. Items.

The next meeting of the W. C. T. U. will be held at the home of Mrs. Robt. McCourt, Mary Street Saturday afternoon April 22nd.

And still the quarters come, in answer to the quarter appeals sent out, a few every week. Nearly \$110 have been received, up to date, in response to these appeals, and they bid fair to keep coming all summer. Let them come.

At the last union meeting, it was decided to send for 100 mite boxes, for distribution among members of the union and friends, so that those who can may add their mites to this work and aid the building fund. These mite boxes will be left out among the people for some time, and when they are called in an interesting entertainment will be given and the mite boxes opened and the contents counted.

In the Ditch, But No One Killed.

Passenger train No. 2, south bound, last Saturday evening, found an open switch at Wilson station and the engine and five cars went into the ditch, plowed along for a couple of hundred feet and came to a stop right side up. Everybody was shaken up but no one seriously hurt. The engineer (the veteran, Wm. McKeever) limps a little on account of a sprained ankle, and that was the extent of the damage to persons. To the railway company the loss is small—the cost of replacing the train upon the track and some trifling repairs. Lucky, but McKeever's luck is no new thing—we remember his Oconto experience.

The Whalebacks Don't Suit 'Em.

From an article in the Marine Review we gather that the Soo line people are not satisfied with the performance of the two whalebacks built for them last year; they do not stow flour enough; and that they proposed to stand a law-suit before paying for them. The article says, that McDougall too proud of his whalebacks to go into a lawsuit with the people for whom the Pillsbury and Washburn were built. It really looks as though he will take them back rather than fight. The "Soo" line is not expected to make any move towards getting more vessels till the whalebacks are off their hands.

Held Up On Charlotte Street.

Gust Nord, a lumberjack, was held up on Charlotte Street one night last week, by five men who attempted to rob him of his hard-earned dollars, but were frightened away by approaching footsteps, said to have been those of the police.

THE REGULAR MEETING

THE BOARD OF EDUCATION CONVENED THURSDAY EVENING.

Auditing Committee's Report Accepted and Bills Paid—Over \$5,000 of Indebtedness Wiped Out—The Normal School.

The regular monthly meeting of the Board of Education was held April 6th 1893. Present Inspectors Embs, Rolph, Morrell, Wixson, Olson, Tyrrell, Pariseau, Kraus and Fitzsimmons.

On motion of Inspector Embs, seconded by Pariseau, J. C. Morrell was appointed secretary pro tem.

Motion made that the report of the auditing committee be accepted and the following bills allowed: P. H. Tormey, salary as secretary of the board for one year, \$150; C. J. Embs, brooms, \$3.00; Escanaba Coal Co., 6 tons coal, \$43.50; I. Stephenson Co., lumber, \$2.25; James Drusch & Co., brick and lime for vault, \$65.65; W. H. Van Dyke, window shades, \$1.25; Green & Allen, repairing water pipes, \$1.35; Oliver & McNaughtan, hardware, \$1.90; Bert Ellsworth, mdse, \$3.25; and that the bill of P. H. Tormey be made payable to Lena Tormey, his wife,—carried.

Motion made that the bill of F. Kraus for 8 livery rigs and 5 loads manure, \$11.25, as read, shall be allowed—carried.

Motion made that the bill of The Iron Port Co. for printing, be referred back for correction, and that the bill of Emier & Amend be laid over to next meeting and that the bill of L. Morrison for livery rigs, \$3.50, be rejected—carried.

Motion made that the question of the purchasing of the organ for the balance due, \$25.00, be referred to the committee on instruction and discipline,—carried.

Motion made that the annual report of Treasurer St. Jacques be referred to the finance committee for report at the next meeting—carried.

On motion of Wixson, seconded by Kraus, the following resolution be adopted:

RESOLVED that the president and secretary of the board of education be instructed to draw an order on the school treasurer (general fund) for the sum of \$4,500, to take up bonds due Dec. 29th, 1892, to the amount of \$2,500; also to take up bonds, due July 15th, 1892, to the amount of \$2,000 and that said officers be instructed to draw an additional order against the interest fund for the sum of \$151.19 to pay interest on said bonds to April 7th, 1893—carried.

On motion of Kraus, seconded by Morrell, that a committee of three be appointed to investigate the charges against Supt. Hardy, preferred by Mr. Stanley Tyrrell, committee to report at next regular meeting,—carried.

Motion made that Inspectors Wixson, Pariseau and Olson act as such committee,—carried.

Motion made that the following resolution be adopted and that the secretary forward a certified copy to both Representative Fuller and Senator Flesheim.

RESOLVED that the need of a Normal school for the training of teachers in the upper peninsula of Michigan, is important, and that we urge upon our representative and senator, that they spare no effort to secure the passage of an act authorizing and directing the establishment of such a school—carried.

Motion that we adjourn—carried.

J. C. MORRELL, Secretary pro tem.

The Prelude at New York.

The naval demonstration which is to occur in New York harbor on the 37th, the prelude to the opening of the Columbian exposition, is all arranged for and Admiral Gherardi has issued his orders:

The fleet will be in readiness for the sail to New York from Hampton Roads April 24th, and on that day at an early hour will steam to New York, keeping in fleet formation during the day, separating at night, coming together in the morning of April 25 and proceeding in fleet formation to the anchorage in the lower bay. On the morning of April 26th the signal for the start for the anchorage in the North River will be given at about 9 o'clock, and with patrol steamers on all sides of the fleet, the fleet will proceed up the bay at the rate of about eight miles an hour.

On the day of the review, April 27th, the ships will hoist colors and dress ship at 8 a. m. At 10:30 o'clock President Cleveland will embark on the Dolphin, firing her signal gun at that time, and being answered by the 10-inch gun on the Mian. tonomah, which will be the rear ship of the port column. When the Dolphin's bow is opposite each ship's stern four "flourishes" will be sounded, the band will play the national air, and on the last "flourish," the first of a salute of 31 guns will be fired. After the Dolphin has passed up the river she will come to anchor and will be visited by flag and commanding officers to pay their respects. In the evening there will be an exhibition of search lights until 8:30 o'clock and during the succeeding half hour night signals will be shown.

Mrs. President Hollister is Hot.

The president of the Detroit W. C. T. U. is wrath; as the boys would say, she is "on her ear." The way it we give in her own words as we find them reported: "Not long ago," said she, "somebody, I don't know whether it was a lady or

gentleman, is said to have made this remark: 'Mrs. Hollister is very active in temperance work. I wonder if her husband drinks.' A lady who heard the remark repeated it in this fashion: 'I wonder if Mr. Hollister's intemperate habits have anything to do with his wife's activity in temperance work.' Then another lady went the whole length of this city to ask another lady if she had heard that Mr. Hollister was drinking very hard. If they had come direct to me I could have told them that Mr. Hollister never drank in his life. I think if I couldn't control my tongue I would never talk, but would carry a pad of paper and write my questions and answers upon it. If I couldn't write I would talk about the weather."

City News.

The magnificence of Ed. Erickson's new spring stock of dry goods is beyond description. It must be seen to be fully appreciated. It absolutely has no equal.

The marvelous success our clothing department has attained in so short a time is attributed to variety, elegance, workmanship and low prices named.

W. J. BELL.

Green & Allen carry a large stock of plumbing goods. In patronizing them you do not order from catalogue, but see exactly what you are buying and paying for.

Latest Style in millinery at Erickson's. Attend his opening to-day, to-morrow and Saturday.

Lovers of fine Cigars should ask for Geo. Moeb's & Co.'s Ben-Hur (10c. or 3 for 25c).

Green Vegetables Tuesday, Thursday and Saturday of each week at Rolph's.

Bar gains in Furniture and a great stock to select from at P. M. Peterson's.

New and novel things in millinery and trimmings at Mrs. Roberts.

Get your photos at Lokke's gallery. First class work.

Hats, in all approved styles, at The Model.

He Made a Bad Break.

A hungry democrat who wanted a post-office, wanted it badly, and wanted it right away, sent his application direct to the president and with it a ten dollar note.

In explanation, he said that he knew that the president's time was occupied with more important matters, and if he stopped to consider the subject in question, he would probably deprive the country of his services during the period so occupied. The \$10, it was explained, was to defray the expense for any time lost in the transaction.

He had got beyond his depth—that was all. He knew "how the old thing worked" in the sphere of political action with which he was familiar, and he made the very natural mistake of supposing that the same methods prevailed everywhere. He was lucky to get his money back, as he did, but he won't get his postoffice.

Medbury is All Right.

Regarding reports, that have been published in some of the Upper Peninsula papers about James Medbury, his father-in-law, Antoine Nerschback, of this city, called at The Eagle office a few days ago and said that Medbury was now living with his family in Chicago. He also stated that if any one had claims against his son-in-law, they should be sent to him and he would attend to them. Mr. M. is said to have a good position with a piano firm in the World's fair city.—Eagle, Marinette.

Woman's Relief Corps, G. A. R.

The Woman's Relief Corps of C. F. Smith Post, G. A. R. will give its first annual ball on Friday, April 21, at Peterson's hall. Every one knows the purpose of the Corps—the relief of the families of indigent Veterans, and many of us know of the good work accomplished in the past. "Fall in" then, on the evening of the 21st, and give the ladies a benefit; spend a pleasant evening and contribute to a fund every dollar of which will be applied to the relief of the needy and the deserving.

It's Our George McCarthy.

The announcement was made last week that Geo. McCarthy "of Milwaukee" had been appointed shipping master at this place for the Vessel Owners' Association. It was an error. Ex-Sheriff Geo. McCarthy is the man, and the Sailors' Union won't bother him a bit. He was looking for the city marshalship, but his new job pays better—\$100 per month.

Something For Nothing.

Our spring catalogue of the latest standard fashions is now ready and will be mailed free to any lady in Delta county upon receipt of a postal card, or presented to any one calling at our store. It is complete in every detail, handsomely illustrated and should be in the hands of every family. Get one at once as the supply is limited. ED. ERICKSON.

Dry Goods and Clothing.

Grand Spring Opening!

Two Mammoth stocks just purchased in the Eastern market and now open to inspection at

DOUBLE KRATZE'S STORE

608-610 LUDINGTON STREET, ESCANABA.

To describe these goods in detail would be impossible, as they comprise the largest assortment of Ladies' and Gent's goods ever brought here.

A FEW GENERAL REMARKS

May be needed to direct outsiders to the right place, in fact to the only place where you can buy goods at New York prices.

One of Our Stocks. Our Other Stock

The Ladies' department is composed of an endless variety of the choicest goods that money could purchase; the stock is large, the goods the finest, the prices the lowest. Below are a few of our specials. 5,000 yards remnants at half price.

- 1,000 yds. of Bleached Sheetting at 5c per yd.
- 1 Lot of Dress Goods at 10c a yard.
- Good Black Satine at 10c a yard.
- Best Light Prints at 4c a yard.
- Remnants of Shirtings at 7c a yard.
- English Suitings at 18c a yard.
- 50 doz. Child's Collars at 15c each, worth 50c.
- Toweling, very good, 5c a yard.
- Lace Curtains, 3 yards long, 65c a pair.
- Best Table Oil Cloth, 18c a yard.
- Ladies' Dongola Shoe, \$1.25.
- Ladies' Grain Shoe, \$1.00.
- Child's Tan Color Shoe, 50c.
- Children's School Shoes, best 90c; sizes 6 to 12.
- Children's fine Shoes, patent tip, 50c.
- Infants' Cloaks, 1.75; worth \$3.
- Also a full line of Ladies' Trimmed Hats.

Call and Convince Yourself Before Buying Elsewhere.

Our Radiant Home Ranges will be in a few days. If you contemplate buying wait for them.

Yours for business,

E. OLSON & CO.

Cor. Ludington and Mary Streets.

STATE BUILDINGS.

How Exhibits of Great Commonwealths Will Be Housed at the Fair.

New York and Pennsylvania are the greatest states of the Union were given the front center of the tract reserved for state buildings at the Columbian exposition, and their structures face the great Art building on the south, New York having the eastern end of the plot and Pennsylvania the western. The latter's building, designed by Thomas P. Lons-

PENNSYLVANIA BUILDING.

dale, of Philadelphia, is a combination of various styles, the square and massive predominating. All the materials are of Pennsylvania production, and the cost is \$60,000.

The New Jersey building is, like most of the state structures, designed chiefly for social purposes and a place of writing and registration, and is made so far as possible representative of the state. It is modeled on the old house at Morristown, N. J., which was Washington's

NEW JERSEY BUILDING.

headquarters, but there are additions for convenience sake. There are large and inviting piazzas front and rear, and the main entrance leads into a large hall two stories high, with a circular balcony around the second story.

The Texas building is meant to be emblematic of the state so far as possible. It is therefore large, massive and plain in the main portion, but topped with considerable ornament, and in its materials the visitor will find an epitome of

TEXAS BUILDING.

the state. With some slight exceptions every particle of wood, stone and other material in it will be of Texas production. The cost is to be \$100,000, and the location is a fortunate one to show the structure with the finest effect.

The Minnesota state building will be in the Renaissance style of architecture. The framework of wood will be coated with stuff to give the effect of stone construction. The main entrance will be in plain style, but the opposite side will

MINNESOTA BUILDING.

more faithfully represent the state. The entrance there is through a portico having rusticated dome columns, and on the entablature over the center the name "Minnesota" will appear in a raised panel.

Nebraska was fortunate in securing about the best site on the exposition grounds for her state building, as it fronts south on Fifty-seventh street, while a magnificent boulevard borders it on the east and a large lake on the west. It is 60 by 100 feet and two stories high, covers 6,000 square feet and has 12,000

NEBRASKA BUILDING.

feet of floor space. The east and west fronts have wide porticoes, on each side of which are wide steps covering one-third of the length of the building. Over each portico is a large gable on a line with the main cornice, and in each gable, in bas-relief, is the Nebraska state seal, five feet in diameter.

Vermont is to have a building which will indeed represent the state, as its walls are to be of blue, white and variegated marble from her various quarries, chiefly from those of West Rutland. The structure will have but one story, and be in the familiar Queen Anne style.

VERMONT BUILDING.

The cornices facing the windows and the heavy oak doors will be polished and elaborately carved. The plan was drawn by Architect Jarvis Hunt, of Westfield, and the expense will be borne by 100 prominent citizens. It will contain some great curiosities.

Sick Headache.

Attacks of sick headache could often be avoided if the cause of them were known. In many instances the cause is a disordered condition of the stomach. In such cases there is often a regular recurrence of the attacks, the person in the meantime feeling perfectly free from the complaint.

Here it will often be found that by some error of diet the patient is gradually accumulating in his system some noxious substances, which it takes a special effort of nature to throw off. Then the whole internal machinery refuses to do its ordinary work. The stomach, the intestines, the liver and other organs which produce the digestive juices almost entirely cease their regular task of rendering the food taken into the mouth fit for absorption into the system at large.

Sometimes habitual overeating will produce this result, or a person who has been constantly active may continue to eat his usual amount of food after exchanging his occupation for some more sedentary one. In either case the result is the same—the overburdened organs become partially paralyzed, the undigested food acts as an irritant, and headache and general disorder in the digestive tract prevail.

A person who has no symptoms of stomach disorder, or who has been taught by his physician to avoid indiscretions which formerly resulted in trouble, and who still has regularly recurrent attacks of sick headache, must look to some other than these, the most common causes of such attacks.—Youth's Companion.

Strangely Saved by a Dream.

It is related that a Waterville woman, Mrs. J. M. Cook, once had a very remarkable vision. In her dreams she met a man with a peculiar physiognomy, who said to her, "Your turn next," and then disappeared. The next morning she remembered the man's face perfectly, but could not recall under what circumstances she met him. Again she dreamed the same thing. For weeks and months after she would occasionally have the same dream without the slightest variation. She began to be seriously troubled over the occurrence and at length decided to leave town.

She had been in Philadelphia a few days when she had occasion to go into one of the large buildings. Upon the second floor she noticed that there was an elevator and decided to wait for it. Just at that moment it came down, and as it went by the second story landing a voice within said, "Your turn next."

This startled Mrs. Cook, but she thought it merely accidental that these were the precise words of her dream and resolved to repress her fears. The elevator came up and stopped. She almost fainted when she saw that he was the perfect image of the man of her dream. Her terror can better be imagined than described. She recovered herself quickly, and ordering the elevator to stop at the next landing she got out. The elevator went on, but a short distance from the third story something gave way and the elevator crashed to the basement, killing the man instantly.—Lewiston Journal.

He Was Too Smart.

The boarding house joker has at last met with a setback. He has been crushed by the landlady, and it came about in this way.

He was the only man at the table full of lovely girls, and like all only men he was spoiled. So when the belle of the table remarked that she was very fond of pepper and then sifted half the contents of the pepper box over her food he sprang an old gag on her:

"It won't hurt you. This pepper is half peas."

"What is that you say?" asked the landlady from the next table. "Speak a little louder, won't you?"

He reiterated his remark.

"That isn't true," retorted the landlady hotly. "I do not use adulterated goods on my table."

"My dear madam," said the bland joker, "there are always a lot of p's in pepper."

There was an impressive pause; then the landlady said in a crushing tone:

"Oh, yes; just as you always furnish part of the dessert."

"I don't understand."

"The chestnuts."—Detroit Free Press.

The Cowboy's Accomplishments.

One of the chief sports of the cowboys is snatching a sombrero from the ground on a horse running at full speed. This is done by many. They have become experts in the use of a 6-shooter (revolver), and a cowboy on the plains is seldom seen without one or more, often two, buckled to his waist. It becomes a weapon offensive and defensive. Sometimes a roped bull becomes so furious that the cowboy is compelled to shoot him. Usually the cattle on the plains are not dangerous. They will seldom attack a man on horseback unless they have been roped. If a man was on foot, a herd would run over him trying to find out what he was. A cow or bull is dangerous when roped. It is not much of a trick to throw a lasso and catch a cow, but the skill, courage and strength comes after the cow has been lassoed.—Cor. Richmond Dispatch.

The Influence of Light.

The boy who is put off with the tallow dip in the mountain cabin or the wee taper in the city tenement will in all probability seek the store in the canyon or the saloon in the city for their brightness, because there is that within him which leads him straight to a brilliant light, wherever it is placed. A strange pedestrian on a dark night will instinctively bend his course to any light which he may see, and you may be sure the devil always has his lantern out.—Margaret Lemon in Godley's.

About Riding.

Bjackson—Did you know young Books-much had joined the Psychological society?

Bjohngon—Never heard of him even riding a cycle.

Bjackson—Dear dear! You don't understand. Psychological persons ride hobbies, not wheels.—Shoe and Leather Reporter.

LIGHT AND AIRY.

The Worst.

We have read of men whose fame will no'er decay,
Who for daring broke all records of the day,
Whose audacity so grand
Was of Himalayan brand
And would efforts of all others overlay.

But we're ready now emphatically to say
That they none of them were "in it" with the Jay
Who is bold to that degree
That he owns himself to be
The man who wrote "Ta-ra-ra Bocc-de-ay."
—Boston Courier.

With or Without.

"Stamps, please," curtly said the young lady.
"With or without?" queried the facetious drag clerk.
"With or without? Without what?" was the indignant inquiry.
"Whiskers, ma'am. One-centers has no whiskers on Columbus. The 2-centers has."—Philadelphia Call.

Presence of Mind.

"Jennie, did I not hear Mr. Porkchops kissing you last evening in the parlor?"
"No, mother."
"Are you sure? It sounded very much like it."
"Quite sure. There was a box of candy on the table, and the noise you heard was caused by his eating a piece."—Pittsburg Dispatch.

A Question of Pride.

"So the painting which you showed me last week has been sold to the baron for \$3,000?"
"Yes, sir."
"Well, give me one for \$4,000. I want folks to see that I am a better art connoisseur than the baron."—Fliegende Blatter.

Reunion of Tramps.

Out on the dumping grounds of time,
Far from abodes of taste,
Two ghastly relics met and frowned
As each the other faced.
"And who are you?" each groaned aloud
In dismal voice and damp.
"I'm the souvenir spoon," one coldly said,
"And I the souvenir stamp."
—New York World.

Explained.

Four cent a fly on a lady's face, remarked the insect was indulging in a des(s)ert.
And this is how Fenderson repeated it to his innamorata when he saw a fly on her face: "That fly is crossing the plain. Isn't he?"—Boston Transcript.

An Illustration.

"Papa," said Jack, "what is extravagance?"
"Well, my son," returned the wise parent, "if you have a 75-cent straw hat blown off into the sea, it would be extravagant to hire a boat for a dollar to go out and get it."—Harper's Young People.

A Matter of Doubt.

How oft do people undertake
To interest or teach
On things which wisdom most profound
Can never hope to reach.
See how remarks on gentle spring
Appear in rhyme or prose,
Though when and how this spring will come
Is what nobody knows.
—Washington Star.

Didn't Agree With Him.

Clara—I see the fellow you rejected last year has gone out to the Cannibal Islands as a missionary. I wonder if he has succeeded with any of the inhabitants?
Maude—I understand by the last accounts that he was making the king very uneasy.
—Detroit Free Press.

Not Responsible.

Jess—Stalato threatens Miss Sears with a breach of promise suit.
Bess—What is her defense?
Jess—That on the night he proposed she was too sleepy to be responsible.—Brown-ing, King & Co's Monthly.

Her Protector.

Of all the innovations bold
That women have been trying,
The hoopskirt is the worst for men,
There is no use denying.
For when a girl has got one on—
No truth could be profounder—
There isn't any man on earth
Can ever get around her.
—Cloak Review.

Appropriate.

Tommy—There's a girl at our school, mamma, they call Postscript. Do you know why?
Mamma—No, dear.
Tommy—Because her name is Adaline Moore.—Brooklyn Eagle.

Finding Out.

Dawson (to stranger at Mrs. de Noo's reception)—Who the devil is this Mrs. de Noo anyhow?
Stranger—She is Mr. de Noo's wife.
Dawson—And who on earth is De Noo?
Stranger—I—Truth.

A Recluse.

"Will you give me your heart, pretty maid?
It would fill all my life with content."
And she smiled and blushed as she said,
"Oh, I can't now, sir! It is Lent."
—Kansas City Journal.

An Awful Example.

Clara—Mr. Montrose leads a life of wasted opportunity.
Maud—How so?
Clara—He lives out of town and has to pass through a long tunnel twice a day all by himself.—Truth.

Hotel Towels.

Hotel Keeper—Yes, sir, you'd be surprised at the number of towels we lose—hundreds every year, sir—hundreds.
Traveler—Ah, yes, I see. Guests mistake 'em for handkerchiefs.—New York Weekly.

On Exhibition.

From all the world they're coming—
Prince, peasant, noble, churl—
To see the exposition
And the Yankee summer girl.
—New York Herald.

The Real Meaning.

G. Whittaker—I see the weather bureau reports "no storm in sight."
G. Willkins—Sorry to hear it. That generally means that we are going to have a storm that is "out of sight."—Buffalo Express.

Honest.

He—Don't you think you could love me just a little?
She (decidedly)—No; I'm one of those impulsive creatures who never do things by halves.—New York Press.

LATEST LOCAL MATTERS.

Escanaba Business Houses Are Enterprising and Progressive.

Higley & Lee, proprietors of the Escanaba Business College, have dissolved partnership and Prof. J. S. Lee becomes sole proprietor of this school, thus making it a principal college and an Escanaba institution.

Wishing to retire from the furniture business I will sell my entire stock at a bargain. A good opening. H. W. Van Dyke.

Ed. Erickson's millinery department is teeming with beautiful things, and must be seen to be appreciated.

Highest grade Clothing New and fresh, prices unequalled. W. J. BELL.

The reports from the life-saving stations at Deer Park and Two Heart river are that there is much more ice in Lake Superior than usual and a late opening is probable.

All the most desirable shades in dress goods at Erickson's.

The best photos in town at Lokke's gallery. Nothing inferior turned out.

Mrs. Roberts has a large line of fashionable millinery.

Neckwear, in all the newest shades and latest designs, at The Model.

Lokke, the artist, makes only first-class pictures.

Very serviceable all wool suits from VIII to XII Dollars at W. J. Bell's.

Grand sale of Fine Ready-to-wear Clothing made by the best makers in the world at prices that can't be approached.

W. J. BELL.

He was apparently coming from the direction of Mackinac Island directly across the channel made by the transfer boat, entirely ignorant of the dangerous condition of the ice.

Columbian Hats in all colors at The Model.

Wear one of our suits and you will wear no others. W. J. BELL.

Never before in the history of Escanaba has there been such a complete stock of dress goods as is now shown by Ed Erickson.

It is conceded by many that the noblesse of Children's Suits in the city is to be found at The Model.

Pleasant at Rolph's.

Two wise things to do: see our line of cassimere suits from XII to XV then buy one. W. J. BELL.

If you have plumbing, steam or gas fitting to be done, see Green & Allen. First-class work only.

An unknown man was drowned near St. Ignace last Friday.

If you want Furniture—a single article or an outfit for a hotel—call on P. M. Peterson. He can meet your want, and he does not expect to make a fortune off one trade; you will find prices as well as goods satisfactory.

Call on Mrs. Roberts for millinery.

Strawberries at Rolph's every Saturday.

H. W. Van Dyke is going out of business and will close out his stock of wall paper at greatly reduced prices. Buy now. Some beautiful patterns at low prices.

John Nicoli was killed by a fall at the Chapin mine last Friday. His neck was broken.

Call at Peterson's furniture store and get his prices in furniture and carpets.

Prof. J. S. Lee, proprietor of the Escanaba Business College, a long experienced and very successful instructor of shorthand, will take charge of the Shorthand Department of the above school April 17.

Flower and Garden seeds, Onion tops and Onion sets at Rolph's.

The Escanaba Business College solicits your attention and patronage.

Baby carriages at lowest prices at Peterson's.

You can buy a better baby carriage for the money at Peterson's than elsewhere in Escanaba.

For a number of years I have been subject to violent attacks of inflammatory rheumatism which generally lasted about two months. On the first of this month I was attacked in the knee and suffered severely for two days, when I procured a bottle of Chamberlain's Pain Balm and it relieved me almost instantly. I therefore most cheerfully recommend it to those who are similarly afflicted everywhere.—R. D. Whitley, Martindale, N. C., Feb. 1888.

Mr. Whitley is a very prominent man in this place and his disease was very widely known as he suffered severe pain.

W. M. Houston & Co., Merchants, Martindale, N. C. 50 cent bottles for sale by Bert Ellsworth.

Death of a Septuagenarian.

John Bager, of Saginaw, died on Monday last, April 10th, at the residence of his son-in-law, Alex. Pariseau, in the 7th ward of our city, and funeral service was held in St. Anne's church yesterday, April 12. Mr. Bager was born at what is now the village of Malone, in St. Lawrence county, New York, on Feb. 25th, 1819, and had therefore just entered upon the 75th year of his age. He removed to Michigan in 1866 and has since that time resided in that state continuously, his latest domicile having been at Saginaw.

Last fall he came hither to visit his daughter, Mrs. Pariseau and his health failing, he was unable to return and the end came, as has been told. French by blood and lineage, Mr. Bager was in all things true to the land of his birth, the American republic, for president of which he had voted fourteen times; was a good citizen, a good neighbor, a kind parent and a devout Christian, and passed to his long rest in peace.

The Opera house is now nearly completed and Mr. Peterson can give his entire attention to his Furniture business. Call and see him.

A GIRL'S SELF SACRIFICE.

She Was a "Spoiled Child," but She Surprised the Whole Family.

There is a sweet girl I know who is a bit self-willed. She is the youngest of four sisters, and—oh, speak it low—is a bit spoiled, though she doesn't think so, but what spoiled child ever does? Well, her eyes had been troubling her for a long time, but no amount of persuasion on the part of the family could induce her to see an oculist. She is young and pretty and could not bear to think of putting on the "horrid things." The family all thought her a bit frivolous and grew quite impatient over the affair, but that dear child proved herself a heroine in a way—and went up several pegs in the estimation of the family.

Supplied with her monthly allowance, she went shopping with a list long enough to swallow up all her shakels. There was a new gown, a hat and gloves and innumerable accessories to be bought; so, after informing the family of her departure and dropping out a hint that she might perhaps stop at the oculist's, she urged one of the sisters to go with her and called forth. They wended their way to the oculist's first of all, hoping the while that there was nothing serious the matter. But the oculist looked grave and gave so many tests that the girls began to doubt that wishing made any difference, and when he announced a grave disorder in the sight of the pretty blue eyes and that it was absolutely necessary that she should wear glasses constantly their last hopes fled, and the girls fell to discussing the advisability of eyeglasses or spectacles and finally decided upon the latter as much more sensible, since they were to be worn constantly.

After being fitted and paying the bill that "spoiled child" tore up her shopping list, with the remark, "It's no use; papa cannot let me have any more money just now, you know, so I'll have to go without those things." So away went the principal part of the list—the new gown an impossible luxury, and only a few necessary articles being purchased.

Maybe I wasn't proud of Dolly, and maybe the whole family—father, mother and all—weren't proud of her self-sacrifice and didn't think her a brave, sensible girl and weren't a little bit surprised that she had spirit enough to do it!

Well, I only said, "maybe they weren't." So they were, and do you know, I think she will turn out a sweet, sensible woman yet, in spite of the fact that she has always been the family pet and had her own way pretty much all her life.—Buffalo News.

Position of the Feet in Walking.

There is but one opinion among physiologists as to the proper position of the feet, and that is thoroughly opposed to the opinions of the dancing master or the drill sergeant. A study of ancient sculpture will show that no such conventional method of standing or walking was known among the Greeks. Here the feet are turned straight ahead, with no inclination to the right or left. This is the position which our sculptors prescribe for their models as the most natural and graceful one in standing and walking.

Dr. Thomas Ellis, one of the highest authorities, in a monograph on this subject names the "fair, square" position in walking as the most easy and natural one, giving the greatest support to the body with the least exertion. In this position the feet are placed "straight ahead," and the lines of the footstep are slightly apart and are parallel. This is the light, alert walk of the Arab and is different from the stealthy step of the "Red Indian."

While the Indian holds his feet straight out, he steps so that a single line could be drawn through his footprints.

Dr. Ellis goes so far as to attribute the deformity of flat footedness to the habitual turning out of the toes. He calls attention to the arched foot and fine carriage of the Arab as the result of the manner of planting his feet on the ground.—Chicago Tribune.

Insect Traps.

Superintendent Forbush of the gypsy moth commission says that a band of burlap tied about the trees has proved an efficient trap for the gypsy moth, and that as many other species of insects injurious to trees were also found in these traps he urges farmers to apply them generally. Among the insects caught were many borers, and the application of this simple trap will be further efficacious in preventing the spread of the borers. The trap consists simply of a piece of burlap a few inches wide tied about the tree, the bark having been first scraped so as to furnish a smooth place to tie it on the tree.

The upper part of the burlap is then loosely turned over the string, and all those insects which crawl up the trunks of trees to secrete themselves in the loose bark or other hiding places will be found in the burlap if it is put on at the right time. It must be applied at the season when insects are ascending. The traps should be looked after every few days.—Orange Homes.

Fusses Don't Pay.

Fusses about taxes don't always pay—a truth that is as forcible on the Maine side of the border as in Canada. It is illustrated by the experience of a Canadian farmer whose land, mostly in one parish, extended a little within the bounds of another parish—St. Ours—in which he was subjected to a tax of 41 cents. He refused to pay, and a suit ensued. He won at first, but an appeal was taken, with the result that after a long fight the case was decided against him, and he had not only the tax to pay with interest, but \$1,200 in costs and expenses besides, taking his whole farm. He probably will have one satisfaction from the suit—he will not have any more taxes to pay.—Lewiston Journal.

His Opinion of Girls.

Teacher—Spell heroine.
Little Boy—H-e-r-o-i-n-e.
"Correct. What does it mean?"
"I—I forgot."
"If a little girl should do something heroic, what would you call her?"
"A freak."—Good News.

Proclamation by the Health Officer.

WHEREAS there is danger of the introduction of cholera from regions where it is now raging, and whereas cleanliness is one of the most effective precautions against the development and spread of that plague, if it should be introduced, therefore I, by the authority conferred upon me by the city council, direct and command each and every owner or occupant of premises in the city of Escanaba to proceed at once to put such premises in a sanitary condition by the removal of all filth, of whatever nature, from such premises and the disinfection and deodorization of all sinks, privies, urinals or other places in which ordure or stagnant water may be contained. The authority given the council by the charter is ample as may be seen by the following extracts therefrom and will be exercised vigorously.

The council shall have power to prevent and remove or abate all nuisances dangerous to life or health, within the city; and may require any person, corporation, or company causing such nuisance or cause of disease, may be found, to remove or abate the same, upon such notice, and within such time and in such manner, as the council may by ordinances or resolution direct.

If any cellar, vault, lot, sewer, drain place, or premises in the city shall be damp, unwholesome, offensive or filthy or be covered during any portion of the year with stagnant or impure water, or shall be in such condition as to produce unwholesome or offensive exhalations, the council may cause the same to be drained, filled up, cleaned or purified; or may require the owner or occupant or person in charge of such lot, premises or place, to perform such duty.

If any person, corporation or company shall neglect or refuse to remove any nuisance or to perform any requirement to be made by or in accordance with any resolution of the council or by the board of health of the city for the protection of the health of the inhabitants, and if any expense shall be incurred by the city in removing or abating such nuisances, or in causing such duty or requirement to be performed, such expense may be recovered by the city.

Charge the same, or such part thereof as they shall deem proper upon the lot or premises upon, or on account of which such expense was incurred, or from which nuisance was removed or abated, and cause the same to be assessed upon such lot or premises and collected as a special assessment.

H. C. LONG, Health Officer.
Escanaba, April 11, 1893.

ELEGANCE AND EASE

are a delightful combination, but they're not always found together. They are completely united, however, in our stock of furniture. Elegance is always desired in the household appointments, and especially at this time, when the annual polishing up of Spring is everywhere in order. To be perfectly in order, and to be counted among the majority, you must brighten up your house by ordering some of our new Spring furniture in the latest styles. Our stock is thoroughly up to date and includes the most elegant parlor, bedroom, and dining room suites that have been brought out this season.

A Rare Occurrence.

On Thursday evening of last week occurred a phenomenon very seldom witnessed, in this latitude at any rate, a thunder-snow-storm. Winter thunderstorms we have, not infrequently, with rain, but we do not remember to have seen three inches of snow shaken out of a leaden sky by rattling electric discharges; does any reader?

CHANCERY SALE.

State of Michigan, Circuit Court for the County of Delta, in chancery.

FAIRBANKS LODGE No. 305, INDEPENDENT ORDER OF ODD FELLOWS,

Complainant,

vs. CHRISTIAN KNUDSON and BERTIE KNUDSON, Defendants.

In pursuance of a decretal order of the court of chancery, made in the above cause on the twenty-second day of April A. D. 1893, there will be sold under the direction of the subscriber, a circuit court commissioner for said county of Delta, at public auction, at the front door of the court house in the city of Escanaba, in said county of Delta, on Saturday, the twenty-seventh day of May, A. D. 1893, at eleven o'clock a. m., all those certain premises situated in said county, known and described as follows, to-wit:

All that certain parcel of land, situated in the township of Garden, county of Delta and state of Michigan, bounded and described as follows, to-wit: Commencing at a point on the west boundary line of the Point Detroit and Mackinac, via e road, sixty-six and one-half feet (66 1/2) south of where the said west boundary line crosses the north line of the northwest quarter of the southeast quarter of section seventeen (17) township thirty-nine (39) north of range eighteen (18) west, thence southerly along said west boundary line one hundred and fifty (150) feet, thence west one hundred and fifty (150) feet, thence northerly parallel with said east one hundred and fifty (150) feet, thence east one hundred and fifty (150) feet to the starting point.

Dated, Escanaba, Mich., April 13, 1893.

ALFRED F. SMITH, Circuit Court Commissioner.

J. F. CAREY, Solicitor for Complainant.

Soap.

"White and dazling In the moon's fair light she looked."

Nothing remarkable about that! She was fair to look upon, as a matter of course; and the dazling effect was produced by her white robes—cleansed and brightened by a liberal use of

That's one of the peculiarities of KIRK'S Soaps. Clothes washed by them always attract attention by their purity and brightness.

PROBATE ORDER FOR HEARING FINAL Account—State of Michigan, County of Delta, ss. Probate Court for said County. At a session of Probate Court for the county of Delta, holden at the Probate office, in the city of Escanaba, on Monday the twentieth day of March, in the year one thousand eight hundred and ninety three. Present, Honorable Emil Glaser, Judge of Probate.

In the matter of the estate of Bartholomew Cahill, deceased. On reading and filing final report and account of Honors Cahill, administratrix of said estate; Thereupon it is Ordered, That Monday, the 17th day of April next, at 10 o'clock in the forenoon be assigned for the hearing of said report and account and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, there to be held at the Probate office in the city of Escanaba, Michigan, and show cause, if any there be, why the said report and account should not be confirmed.

And it is further ordered, that said administratrix give notice to the persons interested in said estate, of the pendency of said report and account, and the hearing thereof, by causing a copy of this order to be published in The Iron Mountain newspaper printed and circulated in said county of Delta for three successive weeks previous to said day of hearing.

NEWS OF THE WEEK

GLEANINGS FROM ALL QUARTERS OF THIS GLOBULAR WAD.

The Most Readable News of the Week Briefly Chronicled.—The Countries Across the Big Pond Contribute Their Share.

A terrific wind tore down some cheap buildings in Chicago on Friday last and hail smashed much glass. Three children were hurt and one will die. On the same day a wave from the lake swept up the river and did some damage, snapping mooring lines like packthread. The storm passed eastward, across Michigan, doing much damage to orchards and destroying some buildings. At Romeo, Ill., nine men were killed by the fall of a great derrick upon a building in which they sought shelter.

Lloyd Brezee, well known in Michigan and not unknown in a wider field; a newspaper writer and manager of undaunted energy and considerable ability, died in Chicago last week. His last venture in Michigan was the Telegram-Herald, at Grand Rapids.

A mob sacked an American consulate at a place not named in Peru, and wounded the consular agent. It was not primarily an attack on the consulate and the incident will result in nothing more than an exchange of notes between the governments.

The body of Mikey Flannery, missing from Detroit since October last, was found in the woods fifteen miles north last week. It throws no light on the manner of his death.

The German government has an explosive which will supercede powder. It is a viscous substance which explodes only when in contact with another substance—does not heat the gun and is smokeless.

Cadwallader, who wrecked the First National bank of West Superior, of which he was president, and got away to Brazil with his plunder, has been brought home again. We swap rogues with Brazil.

Uncle Sam has a bone to pick with the Turk, too. An American missionary school in Anatolia was burned by a mob, the Turkish officials looking on but not interfering.

The Hekla, of the Thingvalla line of steamers, is disabled at sea and so long overdue that much alarm is felt. She left Copenhagen March 9 and is full of people.

The health officer of Milan, Washtenaw county closed all schools and churches and forbade any public assembly for a week to prevent the spread of scarlet fever.

The Mormon temple, which has been forty years building, was dedicated last week, the saints gathering from far and near to participate in the rejoicing.

Judge Wm. Lochren, of Minnesota, a member of the famous "1st Minnesota" and a credit to his regiment, has been made commissioner of pensions.

Miss Nellie, daughter of Senator Vilas, died last week. The senator is in Florida, out of reach, and ignorant of his daughter's death.

Sec. Morton last week bounced Robert Blaine, a brother of the late James G. Blaine, from a subordinate position in his department.

White-caps attempted to discipline one Black, a half-breed, and the leader was killed by Black and Black, afterwards, by the gang.

Tim Tarsney and a Bay City preacher named Sims are "shooting their mouths" at each other. Foolish—no money nor honor in it.

The boiler of the Anchor flour mill at Jacksonville, Ill., exploded last week. The engineer was killed and the mill wrecked.

Bowen and Burke "jabbed at each other" during 110 rounds at New Orleans and then the referee called it "no contest."

L. C. Hughes is appointed governor of Arizona and Wm. T. Thornton of New Mexico. Both are residents of the territory.

Dan Donovan was killed in a "glove contest" near Syracuse, N. Y., on the 4th. The other man and the referee are in custody.

Andrew Campbell, of Bangor, shot his divorced wife and then himself last Friday. Couldn't live with nor without her.

The birthday of Gen. Grant, April 27th, will be celebrated at Galena. Major McKinley will be the orator of the day.

The provisional government of Hawaii has recalled its minister (a hold-over of the monarchy) from Washington.

Tom Ryan boxed the Australian, Dawson, in a five-round contest at Chicago. They will now meet for "a finish."

An earthquake, not a severe one, shook the Rio Grande valley between Albuquerque and Fort Craig last week.

The men of Ulster are organizing and drilling, to be ready to fight if "home rule" wins in parliament.

The mob at Montreal went wild over Jim Corbett and smashed things in the theatre in which he played.

Joseph W. Ady contests John Martin's seat in the U. S. senate. It is the Kansas imbroglio in a new field.

DULL TIMES PRICES.

ERICKSON'S SPRING ANNOUNCEMENT

Leaders in Our Line.

We are showing this season the largest and most complete line of goods ever opened in Escanaba, our commodious store being crowded from "cellar to garret" with the latest styles and most fashionable goods, all selected in the Eastern market under our own supervision. We assert without fear of successful contradiction that we are the **leaders** of this city in this branch of the mercantile trade, and have the goods to back up the statement.

Silks and Dress Goods.

The spread of novelties in this department is beautiful, and must be seen to be appreciated. Includes everything that is new and novel, and is undisputably the strongest stock ever opened in Escanaba. If you cannot be pleased from our great variety of patterns there is no need of searching further. Every lady is invited to come and inspect, whether they contemplate purchasing or not. It is a feast for your eyes; one seldom seen outside of the larger cities.

Spring Wraps.

The richest and most winning styles upon any market is found in this department, which is full to overflowing. New Cloaks, Capes and Jackets after the latest New York patterns—lovely beyond description. These spring garments are triumphs of fashion, and being selected with care are sure to meet the approval of the buying community, both as regards quality, style and price. Children's wear of every description is shown here in great variety.

MILLINERY—This department is more attractive than usual and this is saying much. Birds and blossoms, and fruits, and flowers in magic beauty at once excite the admiration of all. The ladies are lavish in their praises of the novelties here displayed. What more can be said? New shapes, new trimmings, new ideas, new fancies, two competent trimmers. You will always find the latest here, as neither pains or expense has been spared in making our millinery department the most complete north of Milwaukee.

ED. ERICKSON.
