SEEING BY ELECTRICITY

Possibility That Friends May Yet See Each Other Across the Sea.

We can write by electricity, can send pictures and designs by the same agency, and talk to our friends at a distance by means of the electric wire. When the British Association visited Newcastle, England, says the Chronicle of that city, Professor Perry told his auditors that seeing by electricity was a possibility of the future, and he had shortly before drawn a picture of scientific achievements which would enable friends divided by large continents and oceans, not only to talk with each other, but to look upon their features. Even before that Professor Bell was known to have been at work in his laboratory endeavoring to solve the problem, and though ten years have elapsed since the possibility of applying the well-known principles of light in the same way as the principles of sound have been applied as in the telephone was first suggested, the professor is still as hopeful of success as ever. There is no theoretical reason why light may not be conducted in the same way as sound, but Professor Bell tells us that it will be very much more difficult to construct an apparatus for the purpose, owing to the immensely greater rapidity with which the vibrations of light take place when compared with the vibrations of sound. The difficulty, however, is merely one of finding a diaphragm sufficiently sensitive to receive these vibrations and produce the corresponding electrical vibrations, and it is encouraging to have in the authority of such a man as Professor Bell that at least a dozen men, eminent in science in various parts of the world, are at present engaged

in endeavoring to find the solution of this problem. Professor Bell himself, who has never ceased to grapple with the difficulty, candidly admits that up to the present his labors have been in vain, but he is full of hopefulness as to the successful issue of his own research, as well as that of the other scientists who have taken the matter up.

ESCANABA TOWNSHIP.

A Meaty Letter From Our Correspondent in That Rural District.

Mrs. Frank Wilson of Escanaba has been visiting during the past week with Mrs. D. Carroll.

The first snow storm of the season, and the first real indication of the approaching winter occurred last Saturday. The weather that day had all the characteristics of a January blizzard.

Clark Williams killed a bear a few days since near his homestead at the "Burned Camp."

Frank Kraus of Escanaba was in the township last week selling and putting in several pumps for farmers who had lately dug wells on their farms. In this country a well is no small item of expense. A well is liable to cost anywhere from fifty to seven hundred dollars. The country is underlain with limestone into which wells must be bored.

The farmers of this township have not apparently suffered on account of "hard times." More money has been expended for improvement in the way of barns, houses, fences, etc., during the past summer than during any like period in the history of the township.

The agents of the Brown Brothers continental nurseries, of Rochester, N. Y., delivered quite a large quantity of fruit trees and other nursery stock to the farmers here last week.

Peter Budinger will have 200 cords of wood cut on his place this winter.

Harris Belanger of Escanaba is spending a few days in the country, presumably for his health.

Chas. Duranseau sent to Green Bay for a stock of poultry which arrived last Saturday. Charley will go into the poultry business now in good earnest. May success attend him.

Miss Florence Budinger returned from the World's Fair last Sunday.

The following names appear on the roll of honor of school No. 3 (Florence Budinger teacher) for the month of October: Eleanor Sovey, Louise Marenger, Mary Manore, Emma Bussineau, Willie Manore, Albert Gilmet, Alphonse Gilmet, Joseph Sovey, John Budinger, George Budinger, Arthur Bussineau.

School No. 1 has closed for the winter, and Miss Winnie Procunier, the efficient teacher of that school, has returned to her home at Hunter's Brook.

Last Monday evening as Mr. Budinger was returning from Escanaba his horse for some unaccountable reason became unmanageable and ran away. The vehicle struck a telegraph pole and Mr. Budinger was thrown from the rig but fortunately sustained no injuries. The horse was captured by the blacksmith at Duranseau's place. The rig was found on the road only slightly damaged.

There was a raffle for a horse at Duranseau's place last Monday evening. No. 34 was the winning ticket and was drawn by Ted Garrett. Mr. Garrett having no use for the horse kindly gave it to a friend.

Maple Ridge News.

Herman Johnson and wife returned home from the Fair last Saturday they having been absent about a week.

Mrs. E. D. Bridges has been quite ill for some time with pneumonia and bronchitis but at this writing is somewhat better.

Miss Mamie Bridges returned from Lathrop last Wednesday, she having been visiting friends and relatives there for the last three weeks.

John Gillis recently purchased a horse from Andrew Roppet of Trombly. Consideration \$145.

Owen Curran of Lathrop has accepted a job of taking out square timber for McArthur Bros. the coming winter and has already started operations. He intends banking his material at this place.

A party was given at the residence of Mr. St. John the other evening and quite a number of the young folks attended, the program for the evening being music and card-playing.

Jos. Baraba, Sr., and wife, of Negaunee, were here a few days last week, they being the guests of L. Trombly.

J. T. Bagnall visited your city last Thursday returning home the same day.

A wedding is reported in town to take place in the near future. For further particulars call on or address Box 2 or 3, Rock Mich.

Mr. Stephenson Seriously Ill.

Hon. S. M. Stephenson is in such condition that rest and a change of climate are indispensable and he will go soon, to a southern location; Hot Springs, Arkansas, or some other. "Sam" has only just found out that there is a limit to the work he can do.

Channing Promoted.

J. Parke Channing, a well known mining engineer who has been in the employ of several of the large iron mining companies of the upper peninsula, has been appointed by the Calumet & Hecla, assistant general manager under S. B. Whitting.

Thursday's Storm.

It was necessary to light the gas in the printing office of this paper at 9:30 Thursday morning. There was not much "electric energy" developed but the cloudbank was dense and cut off the sunlight, and a slow rainfall followed, spoiling an Indian summer day.

The Model's immense stock of clothing must be sold at once.

Snatched From Death AND THE GRAVE. A YOUNG WIFE RESTORED TO HER LOVING HUSBAND AND FRIENDS IN GOOD HEALTH. Mrs. Hattie H. McGowan. KEELSEVILLE, Mich., Feb. 1, 1893.

Dr. A. OWEN: Dear Sir—I take pleasure in stating that the Owen Electric Belt purchased from you last May has been worth more than all the medicines in the world to me. On the 27th of January, 1892, I was taken with La Grippe and from that to nervous prostration of the stomach and spine, liver complaint, exhaustion of the lungs and constipation. About this time I went to consult the best doctor in the county for treatment. I stopped at my mother's home on my return, as my prostration was so great that I could not reach my own home which I dearly loved. I was a young married wife of six months and had kept house only four months. My hopes seemed all blasted and I gradually failed under the care and treatment and nursing by my kind and willing husband and mother, one of the best of mothers. I could not get up or be moved, so my husband sold his farm and turned all of his attention to me. Time passed, and I suffered more than tongue can tell. I could eat nothing to speak of, and what I did eat hurt my stomach. At times I seemed better and then I would get worse. I remained in this condition about sixteen months, or up to the time I purchased your Belt. Then I commenced to improve at once, and life has been brighter ever since. My husband has purchased another farm and we commenced to keep house on Thanksgiving Day, and I have done our work with my husband's help ever since. Before I purchased one of your Belts I could hardly stand on my feet. May God bless you, as the Owen Electric Belt was the means of saving my life and giving me health and strength to live and enjoy life with my husband once more. I cannot say enough for your Belt if I should write half a day. My sudden improvement caused a good deal of excitement, as the doctors and every one around said I would die of consumption. I can eat my meals every day. If you wish to publish this letter we will answer all correspondents who wish to inquire fully about my case, by sending directed and stamped envelope. Yours very truly, MR. EDWIN and HATTIE MCGOWAN, KEELSEVILLE, MICH.

READ THE NEXT LETTER SIX MONTHS LATER. KEELSEVILLE, Mich., Aug. 21, 1892.

Dr. A. OWEN: Dear Sir—Six months has passed since I wrote my first testimonial letter in praise of your Electric Belt. I cannot say enough for your Belts. I have been improving rapidly since I wrote you the first letter six months ago. Now I am able to do my work, and this week I rode 52 miles to day over hills and rough roads, 44 miles in all, through the hot sun. I could not have done the same one year ago for the wealth of Michigan. My health has improved so rapidly that others are waking up to the idea that the Owen Electric Belts are the only means by which they can be cured. I remain as ever your friend, HATTIE H. MCGOWAN.

Persons making inquiries from the writers of testimonials will please inclose self-addressed, stamped envelope to insure a prompt reply. OUR ILLUSTRATED CATALOGUE Contains fullest information, list of diseases, cut of belts and appliances, prices, sworn testimonials and portraits of people who have been cured, etc. Published in English, German, Swedish and Norwegian languages. This valuable catalogue will be sent to any address on receipt of six cents postage.

The Old and Reliable GROCERY HOUSE. FRANK H. ATKINS & CO. 402-404 Ludington Street, Escanaba.

We wish to announce to our many patrons that we are prepared to give closer prices and better values than any other grocery firm in Escanaba. All we ask is that you call and see what we can do for you.

TEAS: We handle all grades, and offer special prices in five and ten pound lots. A trial will convince you that our teas are exactly as represented.

COFFEES: The market has ruled strong and shows a marked advance over last weeks. But we purchased large lots when prices ruled much lower than at present and consequently can make prices that will suit. We propose to give our patrons the benefit of our foresightedness, and will do it.

SUGARS: We do not sell below cost and make good the loss by overcharging you for some other article, but we get only a living profit, and you get 16 oz. of the pound.

SPICES: In this line we handle the best goods that money will buy and sell them at prices you generally pay for inferior grades. Every housekeeper should try them.

CANNED GOODS are to be found in great variety. Our stock is unquestionably the best in the city, taking quality into account. Having purchased a large stock of Standard canned corn and tomatoes we have special drives to offer, and invite you to get prices.

BARGAINS In every department. We have just received a large invoice of shore mess mackerel at 12 1-2 cents each. Other dealers ask 20 cents for similar quality. We offer many other goods too numerous to mention at equally low prices. People who are in the habit of sending outside for goods would prefer to leave their money at home, we know, could they do as well. Come and see us with the cash, and buy in the same quantity and we will match price and quality.

Frank H. Atkins & Co. Frank H. Atkins & Co. FRANK H. ATKINS & CO. Crockery and China Department. Never was our China and Crockery Department so complete as now. SHEPP'S WORLD'S FAIR PHOTOS.

James W. Shepp and Daniel B. Shepp, Authors of Shepp's Photographs.

We take a great pleasure in calling the attention of our readers to "Shepp's World's Fair Photographed," the official Photographic Panorama of magnificent buildings, fresh from the hands of genius; the wedded architecture of a wondering world; Glittering Domes, Minarets, Towers and Pinnacles, reaching upward to the kisses of the sky. Arches delicate in design as spiders' webs or massive as tunneled mountains; interiors exquisitely clear, each delicate detail admirably defined; exhibits ranging through every branch of science, art, agriculture, industry, ancient and modern; Statues, the frozen thoughts of noble minds; Fountains jutting their jeweled jets in diamond strings; Pavilions of all nations; Foreign Villages, Streets, Theatres, Cafes Chantant, Race Types, Beauty Shows, Gondolas gliding over deep lagoons between snowy edifices, the Glittering Lake flashing back the glories of the sun, wooded islands, and a thousand other attractions of the dream city by Lake Michigan; a glorious book and a glorious subject.

It is the only original, authorized and complete photographic panorama of the marvelous buildings, exhibits, scenes and surroundings of the World's Columbian Exposition. A sublime spectacle, sublimely illustrated.

This magnificent gallery consists of copyrighted photographs, six by eight inches, of the World's Columbian Exposition, the use of which is authorized by the official management. In one oblong volume. The text matter covers the entire page opposite each photograph and expands into an amount of reading matter that surpasses anything of its kind ever before produced.

Fifty nations and thirty-seven colonies are represented. Added to these are the United States Government, and the various States and Territories of the Union. The principal architectural colossal wonders are the Agricultural building, costing \$618,000; Machinery Hall, costing \$1,285,000; the Administration Building, the gem of the Exposition. Its cost was \$435,000. The Manufacturers and Liberal Arts Building, which is the largest on the Exposition Grounds. It costs \$1,500,000, and covers 44 acres of floor. The Electricity Building, costing \$401,000; the Mines and Mining Building; the Transportation Building; the Horticultural Building; the Woman's Building; the United States Government Building; the Fisheries Building; the Art Building; the Forestry Building; the Dairy Building; etc., all treated with ample fullness.

This magnificent volume of over 500 massive oblong pages is illustrated with over 250 full page copyrighted photographs, size 6x8 inches, of the World's Columbian Exposition, the use of which is

authorized by the Official Management. It is printed on the finest coated paper, handsomely and luxuriously bound in one royal oblong volume, size 9x11 inches. The text fills the pages opposite the pictures, and presents an unrivaled mass of instructive and descriptive matter, most beautifully and simply expressed.

The work is issued by the Globe Bible Publishing Co., of Philadelphia, and Chicago. The publishers, who are wide awake, and know how to meet the wants of the masses, have placed the retail prices marvelously low, ranging from \$3.25 to \$7.00, according to the style of binding, giving every one an opportunity to purchase a copy.

Mr. Chas. Iggestrom of this city, is the local representative for this community, and we trust that at this announcement to our many readers may prepare every one to receive him cordially.

A Dog, or Drummer, Story.

One Case, who travels for Wild & Co., cracker bakers, of Fond du Lac, has at his heels at all times a spaniel of which he makes use in this way: Going into a grocery store or restaurant Mr. Case will casually take out a few crackers from an open barrel. Tossing them on the floor his dog will naturally make a dive for them. Just before the crackers are reached the artful agent cries out sharply "those are Johnson's crackers," whereupon the dog turns away in seeming disgust. Other crackers are tossed to the well-trained canine with the suggestion that they belong to Wild & Co., and the spaniel forthwith eats them greedily.
