SEEKING A NEW SILVER MARKET

Less Profitable To Dig For Silver Than Digging Potatoes.

BY HARRY B. HUNT NEA Service Writer. Washington.—Prospects for prospectors are bad, says Senator Tacker L. Odell, chairman of the Senate's special committee investigating the gold and silver industry.

shut down, due to adverse economic conditions," Oddie declares. Oddie's sympathies naturally go to the boys who try to get their gold and silver direct from the veins of Mother Earth.

He hit in Nevada in February, 1898. As there wasn't any immediate demand for his legal services, he mixed a bit in mining and prospecting.

In 1899 his big luck came. He was one of the discoverers of the great gold and silver camp of Tonopah. He was manager of the Tonopah properties for the first five years.

Goldfield, perhaps Nevada's most famous camp, came into being largely as a result of the Tonopah discovery, and there followed a revival in mining activity in Nevada that carried the state to its greatest peak of prosperity.

**JOHN O'MEARA PASSES AWAY**

**Pioneer Citizen Succumbs To Attack Of Paralysis.**

John O'Meara, prominent citizen of this city for the past 44 years, passed away Friday morning at 9:45 o'clock after an illness of over two years duration. Mr. O'Meara submitted to an operation about two years ago from which he never fully recovered. Last June he suffered a paralytic stroke and his health gradually failed. He was removed to a local hospital the first part of the week and his condition for several days had been critical.

John O'Meara was born at Watertown, Wis., June 19th, 1858 and came to this city in 1880. He was employed as a clerk in a grocery store on South 10th street and after four years purchased the store from the owner and engaged in business for himself.

**Opens a Bakery.**

He conducted this business successfully for a number of years and then opened a bakery shop at the corner of Ludington and 12th streets. This business he conducted for 25 years, when in 1916, he was appointed postmaster to finish the term of his predecessor and was afterwards appointed for a term of four years, serving this city six years in that capacity. He was city treasurer for two years and member of the school board for two terms of three years each. Politically he was a staunch Democrat and his years in public service won him the admiration of all the citizens of this city and surrounding territory. He was honest and just and was ever thoughtful of the comfort and happiness of others.

In 1886 he married Miss Belinda Tuohy who preceded him in death seven years ago. He is survived by one daughter, Miss Charlotte O'Meara, of Escanaba, and three sons, Leslie and Pierce of this city, and Harold O'Meara of Chicago. One brother, Thomas O'Meara, of Watertown, Wis., also survives.

The body was removed to the Aho Funeral Home and will be taken to the family residence probably today. Pending the arrival of relatives no definite funeral arrangements have been made.

Mr. O'Meara was a charter member of the Benevolent Protective Order of Elks, a charter member of the local council, Knights of Columbus, a member of the Catholic Order of Foresters, and of the Ancient Order of Hibernians.

The only testimony presented at the examination was that surrounding a bicycle stolen from the Charles Blixt residence several weeks ago, along with some other property. The bicycle has been recovered.

It was indicated by officers, however, that the bicycle by no means exhausted their evidence against the youth.

TODAY'S EVENTS

One hundred years ago today died Charles Thomson, who served as secretary of every Continental Congress. The second annual Pacific Radio Exposition is to open in San Francisco today and continue through next week. Today Vermont celebrates its own particularly holiday, the anniversary of the Revolutionary battle of Bennington. England today will observe the tenth anniversary of the landing of the first British expeditionary force in France. Under the name of the New York State Progressive Party the LaFollette supporters in New York are to hold a State convention at Albany, today. Church choirs and other groups of singers from all parts of the United States are to gather at Winona Lake, Ind., today to engage in a national competition in sacred music. The Special Claims Commission which will adjudicate all claims arising from loss or damage sustained by American citizens through revolutionary acts Nov. 20, 1910, and May 31, 1920, is scheduled to hold its first meeting in Mexico City today. The added healthful qualities of sea air may be attributed to the fact that sea air has more ozone than land air.

AMUSEMENTS

AT THE DELFT. What a cast! What a story! Bebe Daniels, Ernest Torrence, Noah Beery and Lloyd Hughes featured in the Zane Grey Paramount production, "The Heritage of the Desert," which is packing them in at the Delft theatre, where it was shown for the first time last evening. James Mason, Richard R. Neill and Leonard Clapham play in support. So much for the cast. Now to the story: A tale of the West at its wildest and wooliest. There's thrills, comedy, a pleasing love theme and big genes throughout. With the killing of Snap, the dissolute son of August Naab of "The Oasis" ranch, the long-kindling feud between cattlemen and rustlers breaks into flame. It's a battle to the death—with Navajo Indians collecting scalp for the ranchers. The town of White SAGE is but a thing of the past—Holliderness and his reign of terror are but memories—great things have started in the west—ambitions are about to be realized. The irrigation waters, the life-blood of the desert, on "The Oasis" have been saved—fertility is about to come to the land. But why go on? Zane Grey tells it as only he can—he knows the West and you will, too, after seeing "The Heritage of the Desert." Let the radio alone for one night and see it. AT THE STRAND. Five reels of whirlwind action is contained in "The Fighting Fool," featuring Dick Hatton, which is the current attraction at the Strand theatre. It is pleasing audiences at that theatre immensely. A Clyde Cook comedy, "The Orphan" is also on the bill.

THE Business Men who are forging ahead today are those who have learned to appreciate and wisely utilize the power of printers' ink with due discrimination between "the lowest bid" and the greatest value.

OFFICE OPEN TONIGHT FOR REGISTRATION

No Re-registration; For New Voters And Those Moved From Precinct.

While no general re-registration is required in Gladstone for the primary or the November election, the office of the city clerk will remain open from 5 o'clock this morning until 8 o'clock tonight, according to registration, for the registration of all new voters or for old voters who have moved from one ward to another.

A few registrations of persons who have moved from one voting precinct to another since the last election or of new voters have been made during the past few weeks.

The office force has put in considerable time explaining to voters already registered, who evidently did not understand the ruling under which Gladstone is exempt from re-registration, that there is no need for re-registration here as there has been formerly every year of a presidential election.

## MERCHANTS ARE BEST BOOSTERS

Support of Local Business Men Makes it Possible to Boost and Work for Larger Community Spirit Here

The necessity of working for the upbuilding of the home community should be apparent to everyone. The growth and development of each community adds to the prosperity of all. By helping your neighbor, you help yourself, and nothing contributes more to human happiness than a growing, prosperous and harmonious community where all are willing to do their part.

You are a partner in your community. If it grows and thrives, you profit in hard dollars and cents. If its growth is retarded and it goes backwards, you lose. You and your neighbors have the making or breaking in your hands.

Do your share and there will be no question as to the outcome. It means money for you and for your family; it means the same thing for your neighbors.

Frequently a community will fall into a rut of indifference, and the prosperity that might have been theirs is lost for want of a little push and enterprise. Noting these things many of the citizens realize the need of a little work to bring home the value of home community work to the people, and lead on to solid road in the future.

In another column appear the names of your "partners" who are speaking to you in these articles. Our own business men who have a great confidence in a great future here. They must have, or they would not back their faith in this place with the investments they have made, and pay heavy taxes on those investments besides spending large sums each year to maintain the establishments that stand before you, as monuments of their implicit confidence that the community can and will make good!

Our community riches deserves the confidence of our trade territory and Escanaba. This belief on the part of Escanaba business men is the cause for one of the biggest booster campaigns this place has known. The home merchants know that nobody is going to push this city except the citizens themselves. To expect this help from outside is futile.

The lines of merchandise carried by our merchants are most complete—they are bought from the best wholesale markets and sold at prices that entitle these merchants to the trade of this community.

Cash is the motor that will make Escanaba forge to the front! But not in the way you think. You will not be asked to part with your money. Not the cash that comes out of your pocket, but the cash that stays there is what will build up this community.

That heavy shipments are depleting mill stocks, so that it becomes increasingly difficult to fill mixed orders. Stocks at the west coast as of Aug. 1, according to a survey of 135 stock-carrying mills, have seldom been as light since that producing region achieved primary importance in the lumber market.

Softwood prices, in view of the expanding demand, naturally tend upward. Prices of southern pine had declined by June to 15 per cent below the level of June, 1923, so that many small operators were forced to close down, and others to curtail. And the returns realized by west coast mills had sunk to a point where shutdowns were necessary to avoid loss. Producers everywhere are conservative as regards output, and they refuse to book ahead while the market shows signs of a great strengthening.

Blaine spoke, in view of the gradual revival of interest in their purchase by industrial consumers, are jacking up firmness. Automobile body plants are preparing for fuller operations, while enlarged schedules are being considered by many car makers. Furniture plants, especially those in hardwood producing sections and thus in close touch with supply and demand, show greater interest in buying. The agricultural implement industry is confidently expected to be a strong factor in the market.

**CYCLONE'S FREAK**  
Fayetteville, Ark.—An Arkansas cyclone sucked six freight cars out of a rapidly-moving train and piled them in a heap at the side of the track recently. The force of the wind tore them loose from the couplings, but picked them up so quickly and cleanly that the rest of the train was not affected.

**DEMAND AND PRICES BETTER**  
Reports from all important lumber producing and consuming centers to the American Lumberman, Chicago, show a decided upward turn in demand and prices. Returns from the larger commercial sawmills presenting comparable statistics showed that during the week ended Aug. 2 shipments were 113 and orders 120 per cent of actual production. Orders received by West Coast Lumbermen's Association mills exceeded production by 28 per cent; those received by the mills of the Southern Pine Association were 33.85 per cent greater than their output.

Lumbermen have every reason for expecting an increasingly large demand, for reports from the grain States show large reductions in loans and rapidly mounting bank deposits; while building permits issued in 323 cities during the first six months of 1924 exceeded the total for the corresponding week of 1923 by 8 per cent.

## TWO HOMES HIT BY LIGHTNING

Heaviest Rainfall of Year Recorded Here Yesterday.

Escanaba was hit, early yesterday morning, by one of the most severe electrical and rain storms of the year. Two buildings in the city were struck by lightning, cellars in many parts of town were flooded. More than an inch of rain fell during the early morning hours.

At the T. M. Crain home, 624 South 9th St., the lightning bolt struck a chimney and demolished it, sending a shower of bricks down into an open fire place, and causing considerable damage to the heating plant. The amount of the damage had not been determined by insurance adjusters last night.

The home of William E. Griffin, 212 North 13th st., was hit by a freak bolt, which entered somewhere in the roof, traveled around the walls of the living room ripping off small bits of wall paper and scorching a picture, and finally crashing through a window and grounding itself in a hole it dug in the front lawn.

No one was injured at either of the homes.

The lightning struck the barn at St. Francis hospital, ripping away several boards from the side and splitting a two by four, killing three pet pigeons and completely destroying the pigeon house on the top of the barn. The horse, sheep, chickens and other pigeons in the barn were uninjured.

Old Hebrew inscriptions, said to be in the actual handwriting of Moses, have been found in the Sinai Peninsula and translated.
