

REISS FIRE BOAT RELIEVES FIREMEN

SEVERAL STREAMS OF WATER ARE POURING INTO PILE OF HARD COAL; DANGER REMOVED

HUGE QUANTITY OF BITUMINOUS COAL IS SAVED; FIRE DEPARTMENTS RETURN TO THEIR HOMES

With the arrival from Manitowoc, Wis., late yesterday of a Reiss fire-boat, the motor-pumpers and men of the Escanaba, Marinette and Menominee fire departments and the locomotive pumper of the Escanaba & Lake Superior railroad were withdrawn from the Reiss coal dock. The Gladstone and Rapid River pumps had been relieved earlier in the day. The fire, which Thursday night had swept the No. 3 and No. 4 ore docks of the Chicago & North-Western, wrecked the unloading equipment of the Reiss company and threatened for many hours to eat its way into more than 100,000 tons of coal, with the cost of one life and an estimated property loss of more than \$1,500,000, had been subdued by the time the tug put into the harbor. It had taken equipment from six fire departments and hundreds of organized and volunteer fire-fighters to check the advance of the most disastrous blaze in Escanaba's history. The Gladstone department had responded to the appeal of the Escanaba fire chief early Thursday evening. The Rapid River pumper arrived about midnight and the E. & L. S. locomotive outfit came down when the blaze leaped across from the ruins of ore dock No. 4 to the Reiss property. The Menominee truck and its personnel reached this city shortly before daybreak, making the trip in the remarkably fast time of one and three-quarters hours. It was followed closely by the Marinette outfit, which had been delayed for a time at Powers because of the blowing out of a tire.

Body Recovered. The body of George Ingram, foreman for the Peppard & Burrill company, who lost his life in an attempt to take a line of hose from No. 4 dock, before the flames had reached that structure, to the outer end of No. 3, which had been cut off by the widening gap eaten by the fire, was found about 11 o'clock by a dredging crew sent to the spot where Ingram was seen to fall. The body was buried under a huge mass of timbers and smouldering wreckage. It was terribly charred and mangled.

SPRINKLE ARMY WITH RESERVES

Bill Will Come Before Congress at Session, Is Decision.

(By The Associated Press.)

Columbus, O., Oct. 24.—Presentation of a bill to congress providing for sprinkling the entire army with reserve officers on active duty and appointment of a new chief of staff to promote and coordinate reserve affairs, was the first business to come before the convention of the Reserve Officers Association of America, in session here. The suggestion was embodied in a special committee report introduced late today. The report recommends that a committee of five officers be appointed to draw up the measure and present it to congress. A motion by General Edward Orton, of Columbus, to take the report until Sunday, was amended to bring it before the reserve officers tomorrow. Objections by some officers, who contended that legislation was unnecessary, under the existing national defense act, were answered by other officers with a report that investigation had revealed the act does not cover it fully. There are now \$3,186 reserve officers and 3,573 enlisted reservists. Brigadier General Hugh A. Drum, assistant chief of staff of the army, told the convention in pointing out the need for eventual recruiting of 10,000 reserve officers a year. Appropriations this year will make possible the training of 14,550 officers for 15 days, and 815 officers for longer periods, he said.

Burnham Confesses He Participated in Apartment Robbery

(By The Associated Press.)

Detroit, Oct. 24.—Russell Burnham confessed today, according to the police, that he participated in the robbery October 12 in the apartment of Clifford Greaves, in which Greaves was killed and nine of his guests at a card party robbed. He also confessed, police say, to participating in three other robberies. Burnham blames his wife, who divorced him a year ago, he said, and the fact that a garage he owns at Novi, Mich., was not making a profit, for the fact that he "went bad." What effect the fire will have upon the North-Western's program of rebuilding the docks, so one in an informed quarter would wonder. It seemed to be the consensus of opinion, however, that the No. 3 dock, which was to have been rebuilt, will be a permanent loss.

AN ALL-DAY FIGHT

Throughout the morning the flames, which had been held in the ruins of the hard coal storage shed, where 5,000 tons of anthracite were stored, threatened to break away into the stocks of nearly 90,000 tons of soft coal. The streams of water, taken from the bay and poured upon the blaze, however, proved adequate to halt the progress of the fire. By early afternoon, it was no longer a question of preventing the spread, but of how much of the hard coal could be saved. When the Reiss tug arrived, she took over the task of saving. If possible, the company's anthracite stock is the fire loss will have no serious effect on Escanaba's anthracite coal supply, company officials declared yesterday. Sufficient coal is on hand to meet the immediate needs of the city, and take care of the few customers whose bins are not now full. This loading will be done by the two big "clam shells" which were unburned by the fire, and repairs to the tracks on the docks, started yesterday, are completed. Coal will be moved with accustomed rapidity, to the establishments of local retail dealers. Renewals to the unloading towers, badly damaged by the fire, will be speedily made. It was said. Officials of the company, who left Manitowoc at 1 a. m. yesterday morning by automobile, arrived in the city in time for breakfast, another record-breaking trip.

No Plans Announced

Curious crowds thronged the scene of the disaster throughout the day. Watchmen, posted at most of the points of entry, did their utmost to keep them out, but failing to approach through the usual avenues, the visitors clamored over embankments and found other means of reaching the spot where the smouldering wreckage lay at water level. Railroad men said the yards, with the busy switch engines darting about and the trestle approaches to the docks, which had been weakened by the fire, were not safe and they desired to take no chances on more tragedies.

Help Europe To Help Herself, U. S. Aim--Coolidge

BENEVOLENCE ISN'T WANTED, PRESIDENT ASSERTS BEFORE RELIEF ASSOCIATION DINERS

AMERICAN RELIEF IN DEVASTATED AREAS HIGHLY PRAISED.

(By The Associated Press.) Washington, Oct. 24.—The "hope and aim of America" is to help Europe to help itself, President Coolidge declared tonight in an address referring to international relations to a golden rule dinner of the Near East Relief Association. Speaking before an audience which included many members of the diplomatic corps, Mr. Coolidge outlined at some length the attitude of the Washington government in foreign affairs, which he declared followed the golden rule. "Europe does not want our benevolence," the president said. "It does want our help and we are ready to give it. America wants the peace of good will and of the golden rule; not the peace of force imposed by those who have power. It wants peace, as the normal, the right, as the assured state in a world from which a wiser generation shall have forever outlawed aggressive war."

Recalling that this country had expended millions in charitable relief, Mr. Coolidge called attention that it also had extended to other governments loans and credits, which they are beginning to repay. "There is a moral obligation," he added, "to make such repayments."

Loans Not Backed. The president took occasion also to restate that while this government had given its "general approval" to numerous loans made by its private citizens in aiding the remnants of European countries, the loans were made "without the assumption of any obligation whatever by our government."

"American investors receive no assurances that their loans or investments will be supported by American arms," Mr. Coolidge explained. "It is gratifying that American capital has been able to facilitate the carrying into effect of the Dawes plan with its promise of economic recuperation abroad from which we, as well as the peoples abroad, will benefit. But loans are made without commitments on the part of this government."

Going into a detailed account of the errands of mercy by this government in Europe, and the far East in recent years to its accomplishments in stabilizing economic conditions generally, the president referred to those "exceedingly modest souls" who "constantly deprecate their own assumption that our country has done nothing for Europe."

Relief Work Praised. American relief during the past periods in Russia had prevented, he said, the spread of bolshevism over a large proportion of Europe. But for this relief, he added, civilization, "which has been set back a generation in Russia, would have had the same setback over a half score of other countries. "Peace would have been impossible."

"We disapprove of the Russian government," he declared, "but America has held humanity higher than international laws." America in the past eight years has expended more than \$1,000,000,000 through various wartime and relief agencies in charities, donations and loans, Mr. Coolidge recalled.

"We might have taken the attitude," he continued, "that we had completed our obligation to Europe, the day armistice was signed."

GENERAL WU IS SHORN OF TITLE BY GOVERNMENT

President of Central Government Retains Post Under Feng.

(By The Associated Press.)

Mukden, Oct. 24.—It is reported here that the Ancient Walled City within the city of Shanhaikwan, on the Chihli-Manchurian border, is burning following the dropping of 50 bombs by Manchurian airplanes. The surrender of the Chihli forces at Shanhaikwan was reported today. Chang Tso Lin, the Manchurian leader, intends to send 1,000 of his constabulary to Peking Saturday and expects to proceed there himself within ten days. It is reported that Tuan Chih-Jui, former premier, who has been living in retirement at Tientsin, has arrived in Peking. Wu Pei-Fu, chief military power of the central Chinese government for the past two years, was shorn of his title of commander in chief of the Chinese armies issued through a presidential mandate issued in Peking. President Tsao Kun remained in office but apparently was under the domination of Peking's new master, Feng Yu Hsiang, "The Christian General," who with a picked contingent of troops surprised and took possession of the city Thursday morning.

Most authentic reports late Friday said Wu was on his way to Tsingtau, Shantung province, with 10,000 soldiers—all he could crowd on the available ships in the harbor at Chihwang-tai, his field headquarters, when he was faced with the choice of escape or surrender.

Official announcement that hostilities had ceased was made Friday both in Peking and Mukden, headquarters of the Manchurian government headed by Chang Tso Lin, whom Wu was trying to crush. Restored communications with Peking brought information that all foreigners there were safe.

Forest Fires Are Threatening Homes

(By The Associated Press.)

Standish, Mich., Oct. 24.—Numerous farm homes, tourists' camps, and summer cottages were endangered tonight by forest fires, out of control, and were sweeping through Arenac county, near Alger, Twining and Turner. Owing to the long dry spell and the falling leaves, the fire spread rapidly today and efforts made to block its progress had failed thus far. Reports received here tonight told of fires near Emery Junction and Melvor and fear is felt for the residents of some of the isolated farms and settlements in that district. Several forest preserves of young timber are reported as threatened.

Heirs Battle Over Insignificant Sum

(By The Associated Press.)

Detroit, Oct. 24.—Four heirs to \$2,500,000 were battling in the Wayne county court here today over \$1,600. Arthur E. Stott, son of David E. Stott, Detroit miller, who died in 1916, claims this amount is due him from his brother, David Stott, co-trustee day over \$1,600. Arthur E. Stott, and Julia Stott Orloff, of the father's estate. Arthur claimed that David failed to account for stock to the amount of \$1,600 rightfully due him, which claim was sustained by the probate court in July 1922. David appealed the decision in circuit court. The probate court ordered the trustees in June 1920, to file a final accounting, showing the amount still due Arthur to be \$261,303.18. Snow Storm Halts Marine Activities (By The Associated Press.) Quebec, Oct. 24.—Marine activities have been stifled by a blinding snow storm sweeping the eastern Canadian coast, according to advices from Belle Isle, with no signs of abatement. Two liners are reported at anchor awaiting clearer weather before proceeding. Men who don't pay as they go have a hard time coming back.

Wheat Supply Will Run Above Demand

(By The Associated Press.)

Rome, Oct. 24.—Predictions concerning the world's wheat supplies and requirements for the wheat year from August 1, 1924, to July 31, 1925, made by the international institute of agriculture in a statement issued today, show that the wheat available may be estimated at 494,000,000 quintals, with requirements of about 485,000,000 quintals. (A quintal is about 220 pounds.)

Campaign Against State Tax Proposed

(By The Associated Press.)

Lansing, Mich., Oct. 24.—Plans for an extensive campaign against the proposed state income tax amendment were approved by the board of directors of the Michigan Real Estate Association meeting here. Local boards throughout the state will co-operate in bringing to the attention of the voters the alleged faults of the income tax plan, it was said. The real estate organization contends the amendment is loosely drawn and objects to what it terms an attempt to write legislation into the constitution.

France Is About to Recognize Soviet

JUST A THOUGHT The Constitution of the United States has been held by the people of the United States as a sacred document since it was written by the founders of this government. It delegates to the people of this nation, exclusively, the right to amend that sacred declaration of principles. Robert M. LaFollette proposes, should he be elected as president of the United States, to take that fundamental power from the people and vest that right in a politically controlled congress. Such a proposal could have been conceived only in Soviet Russia, now furnishing funds to back LaFollette's candidacy. Will the people of the United States allow a religious bigot, supported by every element of Socialism and radicalism that can be mustered in this nation, to establish the beginning of a Soviet regime in this nation. The people of the United States will give their answer on Nov. 4.

CHIH LI (central government) troops on the Shanhaikwan front, as Tientsin lies across the natural route of the retreat which unconfirmed reports declared already has begun. The local police commissioner established an armed police cordon around the city today to keep out military stragglers. The pawn shops have been closed.

be reconstructed with new timber instead, but it was pointed out that if such a course is adopted, it will probably be delayed by the shipment of the fir timber from the Pacific coast.

SOCIAL

The Ladies' Aid will hold their social meeting at the Swedish Mission church of Bark River Saturday evening, October 25, at 8 o'clock.

COOLIDGE MAY SEE LIVESTOCK SHOW OPENING

Washington, Oct. 24.—President Coolidge is arranging to attend the opening in Chicago of the latter part of November of the American Livestock Exposition.

Work of cleaning up the debris and salvaging what may be found, is expected to begin without delay. It was the second time the company had lost its No. 4 dock by fire.

The president also hopes that he may be able to attend the annual football game between the Army and Navy to be held at Baltimore, November 29.

A \$20,000,000 TARGET

The U. S. S. Washington, only partially completed at a cost of more than \$20,000,000, will be sunk during a drill practice off Virginia Capes in December.

CORROBORATION BEING SOUGHT

Washington, Oct. 24.—Senate investigators of political campaign contributions set the machinery in motion today in an effort to corroborate circumstantial stories told by two men from Chicago, which, it was indicated, might have a profound effect upon the Republican national campaign if they are substantiated.

# "Fire Would Have Inspired Nero To A Poetic Frenzy"

The following colorful description of Escanaba's most disastrous fire, was received by the Press yesterday from an author whose unwarranted modesty presumably prevented him from signing his name:

The blaze was at its height when I arrived. Hurriedly I scaled the embankment that marked the lone last vestiges of a former fire that blazed sky-high, so people tell me, some twenty-seven odd years ago. On top of this long, undulating sand dune, a madley array of strange, silent spectators gazed with open eyes at the phantasmagoric flames that leaped and danced in joyous unconcern a scant hundred yards from them. I, too, awe-inspired, riveted my attention to the starling scene before me.

With difficulty I turned to observe the reaction of others, those in my immediate vicinity, to this tremendous blaze. A pompous individual puffed stolidly at a glowing cigar; a high pitched voice of a woman ejaculated exclamation after exclamation in a shrill voice; a group of young men debated pro and con as to the advisability of approaching nearer the blaze; a hoarse sputtering coughing attracted my attention; a lonely stranger approached, paused for a moment, selected a grassy plot and squatted down unconcernedly. Subconsciously, the psychology of this suggestion affected the gathering and singly and in droves they seated themselves such as if to better observe this urid phenomena of nature.

Churches Reflect Grandeur.

The reflected rays of the blaze illuminated the entire vicinity with a subdued mellow glow. I gazed for a moment, to observe the stirring spectacle of a city coughed, so it seemed, by a Master's hand with an indescribable symphony of light and shadow, gliding and flickering at the whim and fancy of the breeze.

The commercial buildings ran rue to form. Their very sameness, so stereotyped, inwardly spelled one, but still, tonight, on an occasion as rare as this, the haze supplied the deficiency lacking and lent them a pictorial vividness and beauty that defy truck the imagination dumb.

The many houses, awakened as if aroused from the heavy lethargy of extended sleep, reacted splendidly, vivid windows flared and enhanced the unconscious beauty so simply portrayed.

The various churches with spires reaching upwards resembled knobby cathedrals thrown up in an orderly, but hasty confusion. Each structure a glowing rose window, each pulsating with religious fervor and ecstatic flames that rose like hidden vaults upwards to a starry sky. I, too, sat down and again riveted by gaze to the blaze before me.

Nor shall I attempt to describe in detail. To do it justice it must be dwelt upon in the aggregate.

Reminded of Dante.

The heat blanched my face, but I continued to watch. To me, presented an actual picture of the doomed in Dante's "Inferno." I drank deep of the spectacle. The unconventionality of it awoke in me a latent, an almost responsive chord. Oh, to be as wild, and as uncontrolled, and as unfettered as those erie flames—in spirit—in imagery—in daring! How feeble were the trifled limitations of men, coping with all human ingenuity against an elemental urge, that hardened back to the days when the childlike minds of hairy men came in contact with this range, lurid manifestation of natural phenomena. These thin, dark specters in human form hiding a threadlike hose from which steamed out a wavering stream of water—they labored incessantly to head off as far as humanly possible further spread of the conflagration, and in a measure succeeded.

Condors, Spoils-Laden.

Meanwhile, the intensity of the blaze seemed to gain momentum. A flash sent sparks flying skyward. Momentarily, these falling sparks seemed to hesitate—then, after due consideration, they plunged heavily downward as a reeking, flaming abyss. Tongues of flame hungrily licked the midnight air and suddenly flickered away into nothingness. Loud, coarse shouts from frenzied loaves, imprecations and demands dwindled down to agitated whispers through the twilight. The very water seemed to boil and boil. Smoke, too, scarcely noticeable at first, now

# MARSHALL WILL NOT CRITICISE ANY PRESIDENT

(By The Associated Press.)

Cleveland, O., Oct. 24.—Declaring that he "took the serum treatment on criticizing presidents when Woodrow Wilson was in office," and made a vow "never to utter one word against any president," Thomas R. Marshall, former vice president, satirically discussed the Republican party and Senator Robert M. LaFollette in an address here today. He also discussed the Ku Klux Klan. "I have no criticism for Calvin Coolidge," Mr. Marshall said, after opening his address with a declaration that "what he was saying he had said for Tilden in 1876." "Maybe if I'd been a little more like Mr. Coolidge, I'd have some luck when I was vice president.

"But I do not say that the state of things in Washington is the legitimate outcome of principles of the Republican party. If you do not know what's been going on in Washington, you're a moron.

"God Made Men."

"The Democratic idea is that God made men, not classes. He might not have picked the best kind of clay, but it's the same stuff.

"Now, I don't like reformers, up-lifters or down-pushers. These up-lifters always charge you so much a push. I have but one objection to wealth—I haven't it myself. I didn't know how easy it was to get when I was in Washington. So I think what we need is better than reform—it's a rededication of regeneration in the service of God, our country and common humanity.

"You've had too much protection. You'd better quit blowing about being great Americans when you're not even big enough to take care of yourselves without protection. It's a fine thing to talk about the 'open door' in other countries when you've locked your own doors and thrown away the key.

"If we'd knock down every customs house and let men trade where they please there'd be no more wars.

"Bob" is Powerless.

"You're awfully scared about LaFollette now. Think the goblins are going to get you. He could not do anything if he got in, except work his fingers and roach his hair. I don't think LaFollette is so much of a menace as a nuisance. He caused Wilson more trouble than all the Republican party. I don't see how a Wilson Democrat could vote for him. I should think one who did would go to Washington, spit on Wilson's grave and retire from business.

"I don't want class legislation, but the supreme thing I don't want is interference with the religious beliefs of the American citizens. You're worried about the Ku Klux Klan. Well, I have no respect for a man who sleeps on a mattress so as to use his sheet to express his opinions with.

"And you who think there will be chaos if nobody has a majority in the electoral college have never read the constitution. The electors of Davis and LaFollette could agree and choose anybody they wanted."

"We have more luck in Indiana than you," Mr. Marshall continued.

"We put our governor in the penitentiary. He said before election that he was going to apply the principles of his business to the administration of the state—and he did. That was once a Republican office holder did not lie."

# CITY BRIEFS

Thomas Richer is attending the reunion, in Milwaukee, of the 310th Supply Train, attached during the war to the 85th Division. The reunion opens today and will close Sunday night.

# Newspapers Vote "The Blue Bandits" Real Record Breaker

The newspaper critics in the cities where "The Blue Bandits" has been given are partly responsible for the enormous popularity the big musical show is enjoying. Here is what the Appleton Post-Crescent said: "Without a doubt it is the best show of its kind ever seen here. All promises about the play being different, about the high class musical numbers, about the splendid talent, and the professional way everything was put across, were absolutely fulfilled. Too much cannot be said for it."

The Fond du Lac Reporter also was lavish in its praise and said in part: "It is the unanimous opinion that it is the best amateur show ever seen here. The audience was in a perfect storm of laughter and applause for over two hours."

The Milwaukee News-Telegram in a lengthy article said: "It certainly was a triumph for the players, singers and author-composer who commanded the offensive from the orchestra pit."

The Salt Lake Tribune said: "The production would rival the very best traveling professional companies."

The Wausau Record-Herald said: "The opera merits almost unbounded praise. Its dramatic action is admirably carried out and it is filled with bright, beautiful, snappy music and songs."

The Sheboygan Press-Telegram said: "It puts amateur theatricals at a new high level." The Marinette Eagle-Star said: "It has a real briskness and sparkle and it is one of the best amateur shows ever given here."

Every city in the Northern Peninsula gave it extraordinary praise. The Daily Globe of Ironwood said: "It is the most successful and unusual show of its kind ever attempted here." The Daily Mining Gazette of Houghton, said: "It is the best and most appreciated home talent show ever offered in the Copper Country." The enthusiasm increased until it reached a point never before attained in an amateur show here.

The Daily Mining Journal of Marquette, said: "It establishes a new standard for home talent shows. It elicited more laughter and applause than any home show has done in years."

The reservations for tickets opens Monday morning at 9 a. m. at the Delt. The sale of exchange tickets has been very large and there is a big rush expected at the box office.

# SOCIAL

Junior Mission Band.

The Junior Mission band of the Swedish Lutheran church will meet at 2 o'clock this afternoon. Refreshments will be served by the leader, Miss Ethel Carlson.

Marriage License.

Marriage licenses have been issued at the court house to the following:

Herman LeDuse, of Gladstone, and Rose Carlson, of Ironwood; Frederick Paulke, of Gladstone, and Delia Lamourie, of Cooks.

Terrace Gardens.

Another dance which will attract many local dancers will be given tonight at Terrace Gardens. The installation of an electrical crystal ball, which is a new innovation in electrical decorations will be the feature attraction, along with new Arcadians, who have selected an entirely new program of music for the occasion.

# St. Joseph's High Will Give Circus

Pupils of St. Joseph's high school will give an indoor circus on October 29. It is billed as "the largest aggregation of skillful performers and trained animals ever brought together for the amusement and enlightenment of the American public."

Featuring the affair will be acrobatic and aerial performers, trained animals, skilled riders, wild Indians, clowns, strong men, and other thrill and laugh makers. "Hi Jenks" is advertised as the owner and manager.

# Newspapers Serve Icelanders Well; Are Well Informed

(By The Associated Press.)

Reykjavik, Iceland.—Iceland, isolated from the rest of the world by hundreds of miles of stormy seas, is yet one of the best-informed countries with regard to current political and social problems, and to the icelanders, even in the remote villages, the newspaper is a most valued adjunct of modern life.

In this little capital city of 22,000 inhabitants, three newspapers are published daily and there are half a dozen weeklies. In each of the important towns one or two newspapers are published and distributed throughout the contiguous district.

The Icelanders, all of whom are literate, and most of whom are inveterate readers of the classic as well as the modern literatures, are intensely interested in events of the world at large, and in Reykjavik a press association has been formed to bring in by cable dispatches from the principal capitals. Domestic news is handled by telegraph and telephone, and in the case of some remote districts, by couriers who travel by horseback over the rough mountain trails, fording glacial rivers and oftentimes risking their lives to reach the nearest telegraph or telephone office from which their dispatches may be filed. When the American world flyers reached Hornafjord in their recent flight across the Atlantic, they found awaiting them one local newspaper correspondent who had traveled by fishing boat from Seidisfjordur, nearly two hundred miles to the eastward.

Although mails are slow in the remote districts, there is an unusually comprehensive telephone and telegraph system, and most of the smaller towns are in direct touch with the capitol in this manner.

Bargains in the Classified Ads.

FARM PROPERTY DOWN.

Farm property in this country, within the last five years has gone down from nearly \$80,000,000,000 to less than \$60,000,000,000, according to official government estimate. The farmer's own capital investment has gone down during the same time from 61 per cent to 56 per cent of the total property value.

BALLOONS IN PARIS.

More than 5,000 taxicabs in Paris have been equipped with balloon tires. Some 3,200 of them, owned by the largest company, were changed recently from twin-cylinder to four-cylinder cars, and had front wheel brakes attached.

# No Developments In Robbery Case

There were no new developments yesterday in the Escanaba mail robbery case. There was no trace of the pouch, stolen Tuesday from the Chicago & Northwestern station here, the rifled contents of which were found the following day. Officers were still at work on the investigation, but had nothing to make public concerning the progress they had made.

# Prominent Baptist Comes Here Sunday

Dr. J. C. Smith, director of Baptist work in Michigan, and former pastor of the First Baptist church in Kalamazoo, will be in Escanaba Sunday morning and will preach in the First Baptist church. Dr. Smith is one of the able pulpits men of the denomination.

# Four Cows Pinched by Police Yesterday

Four cows, which were found wandering on the beautiful lawn and flower garden of the Birds Eye Veneer Company, destroying considerable property, were brought to the police station by the city pound master last night. There has been considerable complaint, recently, by the company about live stock running at large and destroying its property. The police said. The cattle will be held until the pound fee and costs of impounding, \$16 in all, has been paid by the owner.

# Profits Returned

Wool growers have so far received \$44,574 returned to them from the excess profits collected by the U. S. Department of Agriculture from dealers who handled the 1918 wool clip under government regulations. Under these regulations the price of wool was fixed and the profits limited.

LAPOLLETTE UNWORTHY.

If any of the qualities considered by the people of the United States since the establishment of this nation, as necessary attributes in the life and character of their president, Robert M. LaFollette, so-called "Progressive," is woefully lacking in every one of those qualities.

He has proven himself a religious bigot of the most common type by his support of legislation in his own state to abolish parochial schools in Wisconsin.

His out-standing disloyalty to the government of the United States during the world war, is a matter of public record and is such a record that can never be explained away.

If he believes in the rule of the people, why is he proposing to delegate to congress the power to amend the constitution, a power which is now lodged exclusively with the people?

If he believes in helping the west in national politics, why is he asking the western states to give up their present advantage through the electoral college and thereby transfer the balance of power to the densely populated region of the east? (Election of President by direct vote.)

If he believes in common honesty, why does he propose to scrap his own railroad valuation law, upon which investors have relied in good faith for more than ten years?

If he believes in the rule of the majority, why did he attempt to either obstruct or dictate all legislation in the recent congress by means of his own vote and his eleven congressmen from Wisconsin?

If he believes in the rule of the people, why is he trying to throw this election into congress where a small minority bloc may dictate the choice of our next President?

And why did he refuse to submit his candidacy to the nationwide primary of the party of which he has claimed to be a member during his entire political career?

If at heart he is against the communists, why did he not raise his voice against their activities until he decided to run for President?

And why did he encourage disloyalty during the war?

LESSON FOR FARMERS. Every right thinking person rejoices in the fact that the farmers are getting higher prices for their products this year and that their conditions promise to be much improved as a result.

What has caused the change of the past few months. Not legislation, nor the adoption of fads or fashions—it is simply the inevitable working of the old law of supply and demand.

When farmers produce more of a given crop than the world needs, the price will be low. When a given crop is short, the price will be high. All other causes are insignificant compared to these.

It can not be denied that there are other influences which have some effect, such as a just system of farm credits, fair transportation rates, co-operative marketing in an orderly manner and so on.

But the farmer must learn the lesson that politicians do not make good times. He must study to produce his crops at lower cost, by adopting modern methods of farm management.

He must not plunge on one crop just because the price was high the previous year. He must raise his own living, his food and stock feed, at home. He should market his crops cooperatively when such a plan seems best.

Trusting to luck or to politicians will never bring success on a farm or anywhere else.

It is reported that Jack Johnson, the former negro heavy-weight champion, dive keeper, jockey, etc., has become an evangelist. Our readers may make their own comments.

Some men seem to think the two goldfish should be sufficient company for friend wife's evenings.

BRINGING UP FATHER

By George McManus

AMUSEMENTS

AT THE DELFT. The outstanding features of Paramount's "Wanderer of the Wasteland," which will be seen again today at the Delft theatre, are the all-color photograph and the flawless acting of a superb cast. This Zane Grey story has lost none of its vitality by its transfer to the screen. As a matter of fact, under the capture brings out with effective vividness all the dramatic strength of the story. Of course, the fact that it was more entirely in color—there isn't a black and white sequence in the entire feature—in the actual locations described in the books adds to its realism and pictorial beauty. All of the featured roles are in the able hands of excellent players. Jack Holt's characterization of the title part is a notable one. Billie Dove fits perfectly into the picture; Noah Beery does a splendid bit of character acting, and Kathryn Williams, as usual, does very good work.

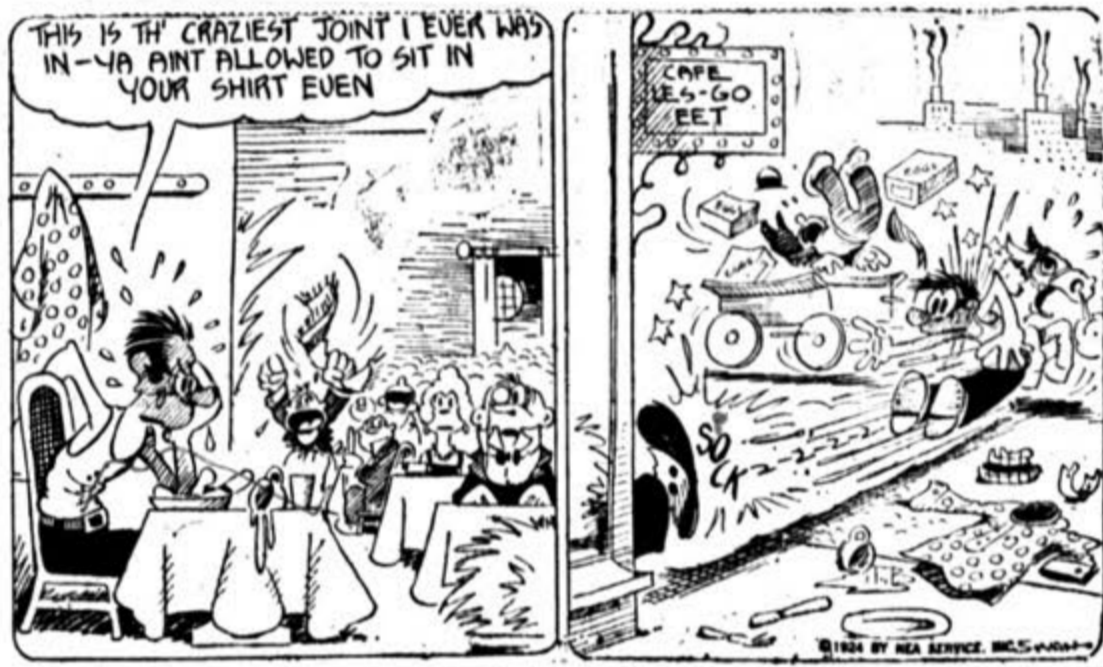

AT THE STRAND. The Poor Simp, a Selznick revival featuring Owen Moore, will close its two day run at the Strand theatre today. This is a corking good farce comedy, teeming with farcical and oftentimes dramatic situations, and scintillating with comedy, suspense and all that goes to make a good screen story. There is considerable heart interest, and while the spectator may concur with the title and mentally repeat it after watching the leading character's actions, Owen Moore, as Melville Carruthers, arouses considerable sympathy by the predicaments in which he finds himself. The many characterizations are most human and true to life, and the situations and climaxes are well worked up and developed. The principal role of Melville Carruthers offers excellent opportunities for the talents and personality of Owen Moore, and it is difficult to conceive of any one else in the part.

ST. JOSEPH'S AUDITORIUM. The screen version of the famous novel "A Girl of the Limberlost" by America's most deeply beloved authoress, Gene Stratton Porter, is the feature attraction at St. Joseph's Auditorium Sunday. Gloria Grey, a demure, blonde beauty, is the "Elnora" in this picture while Gertrude Olmsted is the pampered daughter, flouting her social position. Cullen Landis, a player of excellence, has the major male role, assisted by Raymond McKee. The histrionic ability of Virginia Boardman, Jack Daugherty and Harry Pat O'Malley are well recognized so as to comprise a most excellent cast. The settings are highly artistic so that this great picture can be placed into the worthwhile class.

MISS—OR MRS.

BY JANE PHELPS.

HAYDEN WOOD REFUSES TO GIVE VIRA UP.

Chapter XXX.II.

Hayden Wood was not the sort to give up easily and although Vira had told him there was someone else he did not despair. His sister, Mrs. Marlowe, was in his confidence and did all she could to help further her brother's suit with Vira.

Mrs. Marlowe admired Vira, respected her reticence as regarded herself. She was a woman of the world, a good judge of character and had been immensely attracted to Vira from the first.

"She is pure gold, Hayden, or else I don't know it when I see it." She is intelligent, accomplished, beautiful and good. I should very much like her for a sister-in-law.

In some ways Hayden Wood reminded Vira of Deering. He had that same delicacy, the chivalry he showed women and the same pleasant companionship that Deering gave her. But Deering was so firmly enshrined in Vira's heart, her thoughts, that when Wood asked if there was anyone else she had given the only answer possible.

Vira caught him looking at her hand, the hand whose fingers held but one ring, the little band that had been Aunt Drucilla's. She flushed reading his thoughts. She had said there was someone else yet she wore no engagement ring.

Unobtrusively Hayden Wood wooed her. He was always at hand when needed, effaced himself when Vira showed she wished to be alone. She had been

embarrassed for a day or two after his declaration, but he soon resumed his old manner and she soon felt at ease with him. They danced together, were included in Mrs. Marlowe's swimming parties on the beach, rode around the island, or took long walks sometimes in the early morning when Vira declared she felt as if the island belonged to her.

One day Wood persuaded her to try the monoplane and Vira was delighted with the experience, the gentle motion as they rose in the air, the swift gliding as she skimmed the water. Another time they went out in the swift motor boats that looked so perilously dangerous when watched from shore but proved so deliciously exhilarating when one was in them.

Mrs. Marlowe ventured at Vira's daring, afraid to gape. But Vira had no thought of fear. She was delighted as a child with each new experience and grateful to Wood for seeing to it that she enjoy her stay in Catalina.

But this close intimacy broke down Wood's resolution to give Vira time to learn to care for him, and once more he begged her to be his wife.

"Have you given your promise to another?" he asked when she again told him it could not be.

"No, but—I can't marry you. I don't care for you in that way."

"I could teach you, dear," very gently Wood said, using the old plea of disappointed lovers. "I can't let you go, Vira—not so long as you are free. Not until I know you have promised yourself to another shall I cease to

hope."

Distressed, Vira tried to make Wood see how futile it would be, yet what she said seemed to only make him the more determined. She could not tell him she loved a man of whom she knew so little, whether he were married or not, a man who had never told her he loved her, never asked her to be his wife.

Seeing Vira's distress, Wood refrained from pressing her but she knew from the set of his firm chin that he had not given her up; that he would not until she proved herself unattainable because she belonged to another.

Vira decided to leave Catalina. She had been there a month and to stay longer would only be to distress Wood and herself. Both he and his sister begged her to remain longer but she was determined and left.

Wood took her to the boat, saw that she was comfortable, then taking both her hands in his said: "I haven't given you up. I shall see you again."

As the boat moved away from the dock Wood waved and half blinded with tears, Vira waved back. Wood thought her good, noble, and she was living a lie. She had deceived another good man. He thought her Mrs. Vira Anderson, a widow. His sister, the lovely Mrs. Marlowe, who had been so kind to her, thought so too. What would they say, what think, if they knew?

Tomorrow—Vira Finds She Has Been Too Extravagant.

A THOUGHT

Be ye therefore wise as serpents and harmless as doves.—Matt. 10:26.

Let gentleness thy strong enforcement be.—Bhagopara.

# STATE LIBRARY IS FUNCTIONING

### Extension Division Offering Fine Service, Mrs. Thomas Points Out.

Announcement that the extension division of the Michigan State Library, which had been inactive for two or three years because of lack of funds, has now resumed its service, was one of the outstanding features of the annual convention of the Michigan State Library association, held recently at Saginaw.

Mrs. Nancy B. Thomas, of Escanaba, who represented the Upper Peninsula Library association at the session of the parent body, not only attended the convention sessions, but made a special trip to Lansing where she was the guest for a day or two, of Mrs. Mary E. Frankhauser, state librarian. Mrs. Thomas inspected the state library, and spent considerable time in familiarizing herself with the service offered by the institution to the various municipal and school libraries throughout the state.

**Aids Rural Communities.**

The extension division of the Michigan State Library was reorganized this summer. The principal function of the department will be to carry on the work of the old library commission, which has been in existence for three years. Its purpose is to encourage the establishment of libraries and increase their efficiency.

The state institution offers to help, through conferences, visits, correspondence and other means, in the establishment of new libraries; in the cataloging and classifying small book collections; in installing loan systems and instructing librarians for schools and cities; and by advising on administrative and financing problems.

All tax-supported libraries, subscription and association libraries and college and high school libraries are eligible for this aid. The work is carried on by a director and an organizer.

**Other Service.**

Traveling libraries—collections of books for free circulation—will be sent to any place in Michigan which lacks other library facilities. These books may be kept in a community from three to nine months. This service also is offered to public schools, who also may receive collections of books in history, literature and natural science. Study clubs and other organizations may have libraries made up to cover their study programs. Applications for this service should be made to the state library at Lansing.

**PRINTED VELVETS.**

Printed velvets will be more popular for winter than printed silks. They are less bizarre as to coloring and more rich in effect.

**MOST NEWLY WEDS PLAN ON GETTING A CAR BUT END UP WITH A BABY CARRIAGE**

## Road Report

M-12—Sault Ste. Marie-St. Ignace, gravel and macadam. St. Ignace-Moran gravel. Morgan-Gilchrist gravel construction in progress with detours via Coffey to Rexton. Gilchrist and concrete with construction in Norway and west of Gogebic and east of Wakefield.

M-15—Gravel and macadam, Escanaba to Menominee. Unimproved between Trenary and Carlsbad, remainder gravel, stamp sand, and macadam and concrete.

M-91—Pavement and Gravel.

M-94—Gravel.

M-98—Gravel and pavement.

## Chinese Eager To Prevent Famines

(By The Associated Press.)

Peking—A report recently issued by the engineering department of the China International Famine Relief Commission, organized four years ago as a result of the great famine in central China, gives the following interesting data as to preventive work done in conjunction with the American Red Cross:

Two thousand miles of new road were built and 750 miles of roads repaired. The total cost of this work was over \$4,000,000, Chinese currency, or about \$2,000,000 gold.

In regions subject to drought, approximately 25 miles of irrigation ditches were constructed, at a cost of \$51,000 and over 370 miles of drainage ditches were dug or cleaned at an expense of \$220,000. Five hundred miles or river dykes were built or repaired, entailing an outlay of more than \$500,000. Wells were sunk to the number of 6,872, at a cost of \$405,000.

In addition the commission contributed \$360,000 toward the work of confining the Yellow river to its channel at Lichin, where it had broken its dykes and flooded the surrounding country.

**EVENING WRAP.**

A youthful evening wrap is made of silver lame cloth edged with fluffy white marabou.

## ACQUIT TWO IN ASSAULT CASE

### Lawrence Primeau and Fenton Kelley Found Not Guilty.

Lawrence Primeau and Fenton Kelley did not resist assault. Patrolman Glenn Peterson, of the Escanaba police department, according to a jury which heard the case against the two men in circuit court yesterday. The jury was out about a quarter of an hour and it was understood the verdict for acquittal was reached on the first ballot.

The information against Primeau and Kelley accused them of attacking Peterson when he attempted to arrest Joseph Hoffman on a charge of drunkenness on a Sunday night late last winter. Police officers, including Peterson, testified that the men attacked Peterson and the latter lost a tooth and suffered other injuries in the scuffle, which took place in an alley near police headquarters.

**Rushton Flays Cops.**

Primeau and Kelley testified they did not know Peterson was a police officer and that Peterson attacked them with his club. In the summing up arguments, Attorney H. J. Rushton, with characteristic vigor, flayed the police department in general, and Peterson in particular, and denounced the activities of the department in recent months along the lines brought forward by the trial.

Forteen minutes was required for the jury to bring in a verdict. Re-trying McKinnon.

Retrial of the case of Clarence McKinnon, of Gladstone, on a charge of robbery while armed, in connection with the hold-up of a gasoline oil filling station, was begun yesterday afternoon. It will be the last case of the week, court having been adjourned last night until Monday. A jury, Wednesday, disagreed in the McKinnon case.

First on the docket Monday will be the trial of Peter Niemi, charged with robbing a cash register in a local "soft-drink" establishment. Following this, Clarence Cartwright will be placed on trial on a charge of robbing the Hub store at Gladstone.

The lengths of a mile vary in different countries.

Nothing shows less consideration for others than to whisper and rattle programs and giggle throughout a theater performance. Very young people like to go to the theater in droves and ruin the evening for others about them.

## Women Advised To Vote, Quit Kicking

(By The Associated Press.)

Chicago.—The 3,000,000 women in the General Federation of Women's clubs were urged to vote in the November election by Mrs. John D. Sherman, their president, in a statement given out in this city. If any of them had a voting family apathetic or indifferent to good citizenship, they must arouse "him" to his civic responsibility, Mrs. Sherman asserts. Voting is a duty, not a job or politics. It also is the best possible demonstration of good citizenship.

"The woman who does not take the trouble to go to the polls on election day certainly should never raise her voice in protest over anything that goes wrong in Washington of her own state capitol," said Mrs. Sherman. "By her vote she earns the right to an expression of opinion in national and state affairs."

Mrs. Sherman said that without question the American family controls the future of America, but she asked how much does the family care about that proposition when less than 50 percent of the registered voters went to the polls at the last presidential election.

## JOHN J. O'HARA K. OF C SPEAKER

### Urges Members of Order to Visit Polls at November Election.

John J. O'Hara of Menominee, nationally known Knights of Columbus worker, in an address before members of the Escanaba council of the order Thursday night, portrayed the ballot not only as a right by an obligation which is held in the highest regard and respect by all good citizens. He urged those in his audience to demonstrate their patriotism by going to the polls at the November election.

The proposed amendment to the Michigan constitution which, if adopted, would abolish parochial and private schools in the state, never can summon sufficient votes to even threaten its passage if the right-thinking people of all religious creeds exercise their suffrage rights, Mr. O'Hara declared.

The distinguished visitor was the principal speaker on an excellent program, which included music by St. Joseph's high school orchestra, vocal numbers by Frank Hirn, Mrs. Thomas St. Jacques and Victor Moreau, and group singing led by Mrs. George Casey.

The entertainment was preceded by the installation of new officers of the council.

There was a large attendance.

**PUSH OUT STEAM.**

When filling a rubber water bottle with hot water, press the side of it before putting in the stopper so as to allow the steam to escape. This mitigates the possibility of the seams coming undone.

**BLACK LACE.**

Some of the most lovely dinner and evening gowns are of delicate black lace over tinted tissue cloth.

## ACTOR DEMPSEY SPURNS GLOVES

### Rehearsing Vodvil Act With Bobbed Haired Partner.

BY JOE WILLIAMS.

New York, Oct. 23.—If you are one of the elect and "belong" in Tin Ear Alley you will be permitted to step into the highly aromatic suite of Jack Dempsey in the Alamac here and observe the champion in dress rehearsal for his newest histrionic knock-out, entitled "Punches and Partner."

At the present moment Mr. Dempsey's mind is as far removed from the business of crunching hostile jaws as bread pudding is from the category of French viands.

Mr. Dempsey is to do a "double" in vaudeville with an attractive partner of the bobbed sex, for which he is to receive, according to Marcus Loew, theatrical magnate, a mere matter of \$20,000 per week. This means he will actually get about \$2500 a week. There is, you will perceive, a vast difference between per and a.

**No Sordid Fighting.**

But that is unimportant. Mr. Dempsey is signed for a period of many weeks and there is more chance of La Follette leading three cheers for the Morgans than there is of Mr. Dempsey allowing anything so vulgar and commonplace as a prize fight to interfere with his bookings.

If Mr. Dempsey is seen in the ring growling savagely at a professional enemy before next May at the very earliest, it will be due to a widespread antipathy on the part of the customers for the champion as a talented vaudevil-

lian who combines, according to his manager, Jack Kearns, the top-most merits of Jolson, Barrymore and Turpin.

You may care to listen in on a part of the act.

Miss Whoosit: How do you like the ring?

Mr. Dempsey (blushing behind his fluttering ears): Who told you I had bought her one?

**Demonstrate Punches.**

This is supposed to knock the boys right back on their Scotch, and is a fair, or unfair example, of what the outlying cities have in store for them this winter, besides the usual hardships that accompany a long winter.

Mr. Dempsey presently sheds his soup and halbut and steps forward in silk fighting trappings. He proceeds to demonstrate the punches with which he knocked out Willard, Brennan, Miske and Firpo.

It is hoped that no roughneck will spoil the performance by demanding that Mr. Dempsey demonstrate how he did a backward-standing-sitting dive out of the ring, the night Firpo cracked him on the tonsils.

As a novelty Mr. Dempsey will make further demonstrations of his knockouts after the manner of slow motion pictures. Messrs. Altrock and Schacht of the Washington champions have been pulling this stuff for years but there may be a few tax dodgers who haven't seen it yet.

You may be more interested in knowing exactly what the champion's fighting plans are. In which event the answer is that he has none. There will be no Dempsey fight of any kind this winter. By May he will be ready to take on either Tommy Gibbons or Jack Renault, as a warm-up for a Labor Day mill with either Firpo or Wills.

**Snooking Up Firpo.**

Promoter Rickard still thinks he can build up Firpo sufficiently to make a return meeting with the champion more desirable than

one with Wills, the really logical contender.

For some reason or other the Dempsey-Kearns combine are cold on Wills. They will take him only when they have to. If Firpo can come back far enough Wills will be kept in the background, a position in flatland which the solemn Senegambian is not entirely unacquainted with.

**WASH WITH VINEGAR.**

A good way to clean the mica in a stove that has become blackened by smoke is to take it out and wash it with vinegar.

**ORGANDIE PUFFS.**

White organdie puffs give a feminine touch to the sleeves of a black satin or taffeta frock.

**USE AIR PUMP.**

A bicycle or automobile pump is valuable for blowing out the lint that collects on the working parts of a sewing machine.

**SPRAY FOLIAGE.**

For watering ferns use water with the chill taken off, especially in winter. Spray the foliage occasionally with tepid water, using a plant syringe that throws a fine mist.

**TO AVOID PULL.**

When stitching on very thin foods like organdie or chiffon, if there is a tendency to pull or pucker, lay a piece of paper under the goods and stitch through both. The paper may easily be torn away.

# DANCE!

Whur Yuh Go'in? Where D'yuh S'pose?

## JAEGER'S BARN DANCE

Where Everybody Goes.

### Michigan Warblers

PLAYING SATURDAY NIGHT,  
**OCTOBER 25th**  
WHAT DELIGHT.

South of Escanaba four miles or so. Watch for the sign. It tells you where to go.

# Ye! Ho! Ye Hunters!

## -Here is the Car you have been looking for

You have got to go where the hunting is good and any one of these cars will give you the best of service. They are reconditioned, being placed in first-class condition in our own shop. Our guarantee goes with them.
