Alfred Champ Attacks Brother; Is Shot Down

WOUNDED MAN NEAR DEATH AT HOSPITAL; OPERATION TRIED TO SAVE HIS LIFE

AGED MAN IS LOCKED IN CELL AT CITY JAIL MEANWHILE.

Alfred Champ, 52, lies at the point of death in St. Francis hospital with a bullet wound in his stomach, and his brother, James, aged 72, is being held at police headquarters on a charge of having fired the shot which surgeons last night feared will prove fatal. The shooting occurred about 6:15 p. m., at the home on the north bay shore where the family has lived for more than fifty years.

Alfred, it was said, came home in an intoxicated condition and became quarrelsome. He was greatly incensed because one of the three other brothers had started to cook beans. He attacked James the oldest who told Prosecuting Attorney George W. Carr and Chief of Police John J. Tolan, he fired the shot in self-defense.

Three Brothers At Home. The four brothers have made their home for more than a half-century on a tract of land near the ore docks, between the Chicago & North-Western the yard and the bay. It is known as the "Champ homestead." None of the four brothers had ever married and since the death of their parents, they lived together.

At the shooting, Oscar Miller, a neighbor, rushed the wounded man to the hospital and James, accompanied by his brother, John, went immediately to the police station. They said, "to report the matter."

"About six o'clock this evening John and Alfred and I were at home together. The other brother, Ambrose, was down town," said James Champ's formal statement. "Alfred had come home very drunk a short time before. About 6:15, Alfred came into the living room from the dining room and asked me why I hadn't told him that Ambrose had put some beans on the stove."

JUST A THOUGHT

If the people of the United States want as president an individual who expressed his admiration for and described the "beauties" of the Soviet state when he returned from a visit to Russia, a year ago, they will vote for Robert M. LaFollette.

If the people of the United States want as president an individual who branded himself as a common bigot when he supported the Bennett law in his own state for the abolishment of parochial schools, they will vote for Robert M. LaFollette.

If the people of the United States want as president, one who lent comfort to the enemy during the prosecution of the world war and exerted every ounce of his power and influence to obstruct his government in the prosecution of that war, they will vote for Robert M. LaFollette.

If the people of the United States will give their answer next Tuesday.

RECOGNITION OF SOVIET RUSSIA IS MADE PUBLIC

France Announces Step Via Radio to Tchitcherin

Paris, Oct. 28.—France's recognition of the Russian soviet government was flashed at noon today from Eiffel Tower in a brief message addressed to M. Tchitcherin, foreign minister at Moscow. The French government promised to make public the text tonight, together with the text of the soviet reply, but up to 10 o'clock neither text had been received, as the Russian answer had not been received, and the government was firm in its resolve to publish the two simultaneously.

A message was even sent to M. Rakovsky, the Russian soviet charge at London, requesting him to refrain from issuing the texts of the notes until he was assured they had been given out in Paris. The next step will be the nomination of ambassadors. But apart from that, according to the Matin, a Franco-Russian conference for next week is under consideration, at which the economic and financial questions raised by recognition will be studied. M. DeMonzie is likely to preside at this conference and M. Tchitcherin may possibly head the Russian delegation.

NOTE RECEIVED. Moscow, Oct. 28.—M. Tchitcherin, commissioner for foreign affairs, today received from Premier Briarcliff a note conveying France's full and unconditional desire of the soviet government. An immediate exchange of ambassadors is suggested.

KLAN DROPPING DEMO NOMINEES

Movement in South for Their Defeat Is Alarming.

Atlanta, Ga., Oct. 28.—Officials directing the presidential campaign in behalf of Davis and Bryan Tuesday were considerably exercised at what appears to be an organized movement of the Ku Klux Klan to lead the vote away from the Democratic party nominees, the Atlanta Constitution says in a story that will appear in its issue tomorrow morning.

"It has been rumored for some time," the Constitution will say, "that word had been sent to Klan leaders of various counties to 'cut the Democratic presidential nominees and that there is some basis for the report appears to be substantiated by receipt this week of clipping from last Saturday's Searchlight, official organ of the Ku Klux Klan, being sent from all parts of the state, indicating that the paper has been broadcast on the eve of the election with a view of injuring the Democratic nominee."

"This issue of the paper contains conspicuously on the front page a heavy headed article charging that in a recent address at Indianapolis, John W. Davis, in appealing to the negro vote of that state declared for 'complete equality regardless of race or creed.'"

New York, Oct. 28.—On the ground that the language of his Indianapolis address contained nothing that would in any sense bear out the charge made by the Searchlight, John W. Davis, emphatically declined tonight to take notice or reply to the allegations made by that publication.

MAIL CARRIERS AREN'T BEHIND MR. L'FOLLETTE

Rural Association Head Returns from Trip to Washington.

Lansing, Mich., Oct. 28.—Rural mail carriers of the United States have delegated the right to speak for them in political matters to no one, L. G. Blackman, secretary of the National Rural Letter Carriers' Association declared here today. Mr. Blackman returned today from Washington where he said he discovered a rather widespread idea that the 300,000 postal employees of the United States were a unit in supporting the candidacy of Senator Robert M. LaFollette for president.

Speaking for the 45,000 Rural Letter Carriers of the United States, Mr. Blackman declared "that the representatives of other postal organizations have no authorization to speak for the rural carriers, and any such assumption of right to speak is resented; that the rural letter carriers have an enviable record for devotion to duty; for devotion to and a settled belief in the fundamental and settled institutions of our government, with a desire for the continuance thereof, and could not easily be led to support the many radical proposals being advanced by certain candidates for office in our government."

The Rural Letter Carriers realize their best method of gaining recognition, financial and otherwise, is a one-hundred per cent performance of their duties, Mr. Blackman declared.

ALLEGED MAIL ROBBER TAKEN

Surrenders To Officers Without Struggle; Is Surprising.

Butte Creek, Mich., Oct. 28.—Admitting his identity, Brent Glascock, 40 years old, alias "Little Mizion", alleged member of the gang of robbers that held up a Chicago, Milwaukee and St. Paul train at Rondout, Ill., and stole \$2,000,000 in cash and securities, was arrested here today and agreed to go back to Chicago with officers from the postoffice inspection department. Glascock's wife was arrested with him. Both say they are ready to face trial.

Glascock is ill, partly from stomach trouble, with which he has long been afflicted, and partly from worry due to knowledge that he was being hunted. It was this illness that brought him here as a sanitarium patient under the name of Brent Howard, some three weeks ago. Through forged credentials, police say, he secured a room at a fashionable west end home where the owners had never before been bothered. With large rolls of money, many jewels and a showy automobile, the "Howards" made quite an impression. Mrs. Glascock was carrying \$3,651 in bills and a large bag of diamonds when arrested with her husband.

Chicago operatives here today say no one ever dreamed that Glascock would be arrested without a battle. He has twice been acquitted of murder, police state, while he also is known as a bank robber and gunman with many aliases. By a strange turn of fate, the original of a picture used to help run him down, was found in his wife's baggage. When arrested, he readily admitted his identity.

The Glascocks have been spending their time in Canada, fishing and hunting, before coming to Battle Creek, and among their effects are photographs showing the game they bagged. Both are crack shots.

EFFORTS TO SHOW ASSISTANT SECRETARY HAD BIG PART IN NEGOTIATION OF DEALS FAIL

BRITAIN GIVES VERDICT TODAY ON PARLIAMENT

Is Third Election Held in Last Two Years

London, Oct. 28.—The people of Great Britain will provide their verdict tomorrow with their third parliament within two years. What kind of a parliament it will be after the votes of the nation are counted no prominent politician or political observer has been audacious enough to predict publicly. That the labor government will go the way of all governments seems to be the opinion held almost everywhere, but some of the laborites still appear confident that their party will be given a mandate to remain in office.

Whether the conservatives can recoup their losses of a year ago and return to the house of commons with a majority over all other parties and thereby put themselves into office without the assistance of the others is a question non-haven any means of determining, or even reasonably forecasting, until the returns come in.

FINNEY SUBJECTED TO STRENUOUS EXAMINATION.

Low Angeles, Cal., Oct. 28.—That Albert B. Finney, acted alone and without the customary advice of Edward V. Finney, first assistant secretary of the interior department in the making of the Teapot Dome Sinclair naval oil lease and the Elk Hills Pan-American naval oil lease which the government charges were issued in a conspiracy to defraud, was testified to today by Finney. Resumption of the trial of the government suit to cancel the \$100,000,000 leases and contracts to the Edward L. Doherty concern, in negotiations for which Doherty is accused by the government of giving \$100,000 to Fall, today led to the work in the interior department concerning the leases.

Denies Knowledge.

Owen J. Roberts, government counsel, questioned Finney in an effort to show that Fall acted unannually independent and alone in negotiation of these leases. He asked Finney whether or not he knew generally of and participated in preparation of contracts previous to December 11, 1922, when the Pan-American supplemental contract on Elk Hills and Pearl Harbor development work was let.

"The only lease I know of which I did not participate in was the Sinclair lease in Wyoming," Finney testified, referring to the Teapot Dome leases which is subject of another government suit for cancellation.

"Did you have anything to do with the lease of December 11, 1922?" Roberts questioned, referring to the Pan-American leases. "None whatever," the witness replied.

Finney then underwent a stiff cross examination by Frank J. Hogan of the defense, the tendency of cross questioning apparently being directed at an attempt to show that Finney and not Fall was the active figure in the lease negotiations.

ALFRED CHAMP IS NEAR DEATH AFTER BATTLE

Continued from Page One.

for a minute and then started for the kitchen. He followed him, fearing that he was going for his rifle which was in the bedroom of the kitchen. He had gone only a couple of steps into the kitchen when he turned suddenly and came for me. I then fired a second shot. As I did so, he turned away from me. I laid the gun on the table and John and I grabbed him. He said, 'I want to go outside and die.' We released him. He rushed to the table, seized the revolver, but we grappled with him again and managed to get possession of the gun.

Pioneer Family. Alfred then went outside. I came down town with John to report the matter to the chief of police.

About four years ago, Alfred flew into the same kind of drunken rage and threatened my life with a rifle. 'I carried the revolver for general protection on account of the neighborhood where we live and the loneliness of the trip to town.'

While James Champ was making the foregoing statement at police headquarters, the wounded brother was undergoing an operation, upon the success of which his life hinges. Surgeons declared that the chances for recovery are slight.

The Champ family—originally called Beachamp—was one of the first to settle on the site of what was destined to become the city of Escanaba. For many years they operated a butter and egg business. This was suspended after the father's death a few years ago. Only the four bachelor brothers remain in this city, occupying the "homestead" property.

"Moon" Ruined Life. James Champ was a rug weaver. Hiding his bicycle about the city he collected rags and other material which he wove into rugs for housewives who desired that service.

He has always been regarded as eccentric, but he never has had any difficulties with the law. "My life has been hell since Alfred started drinking heavily about four years ago," he declared last night. "He has been drunk a great deal of the time. The moonshine almost always made him crazy and I was afraid of him when he was intoxicated."

"I didn't want to kill him. I hope he doesn't die. But I was frightened. He was beating me and I knew of no other way to protect myself against him."

John Corroborates Statement. James' statements were substantiated in every detail by the other brother, John.

"I've known John for more than forty years. You know I hate to do this," said Chief Tolson as he placed his aged prisoner in a detention cell at headquarters. "I know how it is, John," Mr. Champ replied. "It is as comfortable here as I would any place."

There were tears in the chief's eyes as he turned the key.

CRIMINAL TERM IS CONCLUDED

Trial of criminal cases at the October term of circuit court was concluded yesterday afternoon and members of the jury discharged. When the last verdict—that in the case of Clarence Cartwright—had been returned, Judge Richard C. Flannigan ordered a recess until this morning.

Cartwright was charged with having participated, with Clarence McKinnon in the burglarizing of the Hub Store in Gladstone. The jury found him guilty, but recommended that the court be merciful in pronouncing sentence. Cartwright was defended by J. L. Loel. The youth previously had pleaded guilty to the charge but later changed his mind and requested a trial, whereupon he was permitted to withdraw his first plea and enter one of not guilty. The case was given to the jury early in the day and the twelve men were out several hours, announcing their decision about 3 p. m. McKinnon had been convicted earlier in the term of burglary in connection with the same robbery, and also with armed robbery in connection with the hold-up of the Perkins gasoline filling station in the up-bay city.

Sentences This Week. More than 20 pleas of guilty were received by the court on the opening day of the term. Convictions in about a half-dozen other cases were recorded last week. There were no civil cases demanding the attention of the jury, but chancery matters scheduled for airing will probably consume another two or three days. Judge Flannigan is expected to pronounce sentences before the end of the week.

Deaths of Three from Gas Are To Be Probed, Report

(By The Associated Press.)

New York, Oct. 28.—Discussing the deaths by gas poisoning of three workers employed in the research laboratory of the Bayway Plant of the Standard Oil Company of New Jersey, Dr. Frank J. Monaghan, health commissioner of New York City, said tonight that the New York health department for some time past has been making experiments with certain materials used in gasoline mixtures to increase the power of automobiles. If it is discovered, he asserted, that there is anything in the compounds, which poisons life, their sale no longer will be permitted by the department.

The workers' health bureau tonight received the following telegram from Dr. Vandell Henderson, professor of applied physiology at Yale University:

"The sale to the public of gasoline containing lead is now reported in New Jersey, Maryland, the middle western states and elsewhere. It should be stopped immediately and prohibited until the subject is fully investigated by scientific experts.

Otherwise there is great danger of widespread poisoning among men at gas filling stations, garages, repair shops, and even among the general public. Public health authorities everywhere should take immediate action."

Action Is Begun To Recover Boat Plus Liquor Cargo

(By The Associated Press.)

Boston, Oct. 28.—Counsel for Captain Harry Ritchie of the British schooner Marjorie E. Bachman, seized by the coast guard cutter Tampa off Cape Cod last Friday as a rum runner, declared today in federal court that they would ask for the extradition to Canada on charges of piracy of the schooner by the Tampa unless 200 cases of liquor taken from the Bachman are returned, together with money and personal effects alleged to have been taken from the schooner's crew.

According to statements of counsel the prize crew sold overboard from the Bachman 150 cases of champagne, sent another 150 cases to the cutter and took nearly \$1,000 in money from members of the crew of the schooner. In a statement today Lieutenant Commander S. S. Yeandle, aide to the chief of the coast guard service, admitted the prize crew had sold two cases of champagne in the manner described, but did so for the purpose of obtaining evidence against the purchasers. Indictments charging conspiracy to violate provisions of the tariff act of 1922 relating to transportation of liquor were reported by the federal grand jury today against Captain Ritchie and supercargo Harold Young of the Bachman, both of Lunenburg, N. S., Philip S. Keating and David R. Keating, of Gloucester and Joseph Tarry and Peter Kostan, of Salem, Mass. The four Americans were captured in motor boats said by the coast guardsmen to have been plying between the rum row and the shore when the Tampa bore down on the rum fleet last Friday. The Bachman and five motor boats were captured and brought to Boston. Wheldon Howman, mate of the Bachman, also was arrested, but no indictment was found against him.

REED CAMPAIGNS FOR DEMOCRATS

(By The Associated Press.)

Kansas City, Oct. 28.—Senator James A. Reed of Missouri, who for several months has been out of the political arena because of protracted illness, tonight took the platform at Convention Hall here in his first public address since prior to the Democratic national convention. He pledged his allegiance to the national and state Democratic tickets.

Still showing the effects of his illness, but with much of his old time characteristic fighting spirit, the senator fired political broadsides at both LaFollette and President Coolidge and denounced the Republican administration for what he termed its "reactionary policies."

Characterizing Calvin Coolidge as the "Napoleon of about twenty legislative Waterloo's" he declared the president "has harkened to the reactionary element of the Republican party which has represented the standpatism of capitalism."

Senator Reed said he had no desire to say harsh things about President Coolidge whose committee has adopted the campaign slogan: "Calvin Coolidge—cool as a cucumber," nevertheless, I am content that his friends, if they please, compare him with that criminal of the garden, which being composed entirely of seeds and water, and completely devoid of all sustenance produces only starvation in animals and colic in humans."

Raising the question of the Ku Klux Klan, the senator said that Davis, LaFollette and even Taft has spoken, but "Coolidge is silent because he wants the votes of the Ku Klux Klan." He charged that Coolidge is silent on the Klan "because he places his own election over the vindictive of the constitutional rights of the American people."

Detroit, Oct. 28.—Four men are being held in Escorse for investigation and as material witnesses and a fifth is held in the Wyandotte jail for investigation following the shooting at Escorse this morning of Jake Cutler, an alleged bootlegger. State police are acting on the theory that Cutler was shot by another alleged bootlegger, believing that Cutler had given the information that resulted in a raid on his place by state police yesterday.

Cutler was shot by an unidentified man in his home on the river front. He was taken to the Delray Hospital where his recovery is considered doubtful.

Those arrested today are: John Boyd, alleged proprietor of a blind pig in Escorse; "Doc" Woodruff; Carl W. McKuhn; Frank Grossman and P. Pederzoli, all of Escorse.

The state police are also investigating a theory that Cutler was shot by a man who is said to have hi-jacked one of his rum running launches in the Detroit River last Sunday night.

CONNECTICUT DEMOCRATS IN BITTER FIGHT

(Copyright 1924, by the Escanaba Press.)

Hartford, Conn., Oct. 28.—Out west state after state showed a distinct friendliness to the Mc Adoo cause and democratic leaders said if he had been nominated, the democratic party would not be third. Here in Connecticut is the other side of the story. Had Al Smith been nominated this would have been a doubtful state.

The democracy of Connecticut is not exactly shirking its task. That would imply something deliberate. Far from it, the democrats of Connecticut have been disheartened and while the leaders and organization workers are laboring to poll a good democratic vote, for it has a bearing on future campaigns, the rank and file are dividing as between LaFollette and Coolidge.

Bryan Not Popular. The conservative democrats are turning to the latter because they cannot swallow Bryan on the vice presidential end of the national ticket. Other democrats, especially from the ranks of labor, are planning to vote for LaFollette as a protest.

Opinions vary as to the probable size of the LaFollette vote in this state but most of it will come from the democratic party anyhow. So far as affecting the ticket the figures will have only an academic value.

Talking with some well informed persons from Waterbury, a democratic stronghold, the writer was assured that Davis would run stronger than Cox did four years ago. This might still be true and yet the totals in the state be less than Cox had. Comparisons between the Cox and Davis votes will be difficult to make for the temptation is to add the LaFollette and Davis vote together to get an idea of what the non-Coolidge vote really is but one cannot be sure how many republicans, especially among the workmen, will have voted for LaFollette.

Al Smith Well Liked. Al Smith meant something to the democracy of Connecticut. Labor would have been solid for him. The "wet" sentiment which is by no means negligible would have been his. This is one of the states which has no particular objection to Davis, in fact he is admired by those who have really studied his career, but the masses look upon him somewhat as they do on an aristocrat—someone apart from them. His advocacy of the League of Nations retains for him, of course, a large number of women voters who feel they must constantly strive to support that cause irrespective of whether it triumphs immediately or in the years to come. But among the democrats of Irish extraction there is dissatisfaction because of the league issue. It is not as intense as four years ago. Then, all the Irish vote with few exceptions went to Harding as a protest against the possibility of American entrance into a league.

AMUSEMENTS

AT THE DELFT.

"The Blue Bandits," a comic opera, produced by local talent by Jack McDonough for the American Legion. More adequate notice of the event is given elsewhere in this issue.

AT THE STRAND.

Picture lovers who recall the pleasure they invariably get from the screen production of a remarkable stage play, will welcome the announcement that William Fox has built a drama about "Cameo Kirby," the lovable Mississippi river gambler, novelized by Booth Tarkington and Harry Leon Wilson. The picture comes to the Strand theatre today.

Originally a stage play, it was produced first at the Hackett theatre in New York, with Dustin Farnum in the title role. Nat Goodwin also played the character. The production became one of the most popular shows on the road. Now comes the screen version, which obviously incorporates scenes and incidents impossible on the stage.

John Gilbert, a notable screen artist, is a realistic Cameo Kirby. Gertrude Olmsted, as the belle of old New Orleans, is equally someone who will alienate the independent vote of the state.

Coolidge Is Safe. Connecticut is overwhelmingly republican and the majority vote for Coolidge, while probably not as large as Harding probably will be substantial.

Big Public Utility Concern Is Planned by Chicago Concern

(By The Associated Press.)

The properties to be acquired, including "important hydro-electric power sites, strategically located to supply large interconnected power systems," are now under immediate and favorable consideration, the announcement said.

Subsidiaries of the Standard Gas and Electric Company now serve more than 900 cities and towns in 17 states, and have combined annual gross earnings in excess of \$53,000,000.

Don't Burn Leaves on Your Pavements!

Burning leaves in the streets is the quickest way possible to destroy pavements, a statement by the municipal government of public works said yesterday. Neither asphalt nor macadam will withstand the heat. It was said that two or three cases where fires have been lighted on the pavements have been brought to the attention of the department, and that it was believed that if property owners knew what the damage to the street certainly must be, no further warning would be necessary, as streets are built in Escanaba by special assessment.

THE NOKOL GUARANTEE IS BONDED BY THE FIDELITY AND CASUALTY COMPANY

This Nokol
was installed in 1918 and has given 6 years of unflinching heating service at a saving in heating costs.

In 1924
It is still in use. Meanwhile it has paid back its original cost of installation in actual savings.

Nokol
has stood the test of time

There are today more than two hundred oil burners on the market, and a new one springs up nearly every day. And because the industry is new the public confuses one oil burner with another, and to the inexperienced buyer, any other oil burner may seem as good as Nokol.

Five years from now the public will shop for oil burners. They will judge them on performance not claims. They will know there is as much difference between oil burners as there is between cash registers or adding machines. They will know which oil burner can give an efficient heating service and which cannot. Meanwhile remember this: Nokol has stood the test of time. There are today more than 20,000 Nokols installed in the United States. In six years, Nokol has become a nationwide institution and taken its place with gas, running water and electric lighting as the fourth great household service. And Nokol furnishes the most economical heating service known. Its fuel cost is less than that of hard coal. It is, to the best of our knowledge, less than that of any other oil burner—in many cases the saving is as much as 40%.

Live in comfort this Fall and Winter. Only Nokol can give you heating comfort with economy.

There are many oil burners, but only one Nokol

WOULD TEAR DOWN

No candidate for the presidency of the United States has ever gone to the people upon a platform more seriously challenging our Republican form of government and the fundamental principles of our constitution.

The proposal in his platform to give to congress the right to veto a majority decision of the United States Supreme Court, is a direct challenge to one of the most vital principles in our form of government.

If Mr. La Follette were President and should succeed in destroying the courts as interpreters of the constitution, what would be put in their place?

If he should abolish the tariff on sugar, how, by the same token, could he avoid the same policy as to the dairy industry of his own state?

In his own state he has created 123 boards and commissions, with corps of inspectors, regulators and investigators, thus creating a political machine that is unbeatable.

If he is in good faith about "special interests," why does he champion the cause of the sugar refining monopoly immediately following campaign contributions from Mr. Spreckles, the millionaire sugar refining magnate, as reported in the Literary Digest, Sept. 6?

If he is loyal to the American farmer, why has he blacklisted every congressman who did not vote for the Howell-Barkley bill—no matter how loyal such congressman may have been to the farming interests?

The American share of the loan to Germany under the Dawes plan was oversubscribed a few minutes after the books were opened. And yet we hear some soured Democrats saying from the stump that the United States does nothing to help Europe.

Possibly some good from the Republican standpoint may come out of the La Follette clamor about "slush funds." It made an occasion for Chairman Butler to point out just how poorly financed the Republicans are this year.

Bryan would not win in the Senate without La Follette aid, and that aid would not be given unconditionally. The only safe time to place the trust in Coolidge and have it count as placed in on election day.

"There's billions in it" might be said of the La Follette scheme for government ownership of almost everything. Undoubtedly; but could the taxpayers stand the strain?

Vote for John W. Davis and the League of Nations—and make the United States safe for Japan!

Some folks are so wrapped up in themselves that they make a very small package.

The Piffle Hook

By HJALMAR O'REILLY (Special to The Piffle Hook) NOTE: This is the thirty-ninth of a series of fifty-two articles summarizing expert opinion on the election which well-substantiated rumors declare is likely to be staged within the fortnight.

Koromo, Ind., Oct. 25 (By Carrier Pigeon)—I had planned to write this dispatch from the center of population of the United States which I understand is somewhere in this locality.

At length I found a gentleman who recently had moved back into the state from Illinois. Hoosiers always move back into the state sometime.

"A windstorm came the other day and blew the gravel road away. So you will find the going rotten if you try to reach the Spot."

Consequently, at the present writing, I am in a hotel room with a bath and a typewriter, several miles removed from the place for which I started. If my predictions are slightly off center, so am I.

I have learned, definitely, however, that the election is to be carried on as I predicted in my earlier articles. The clerk of Madison township received his ballots from the county clerk the other day. There will be no last minute change in the arrangements.

I find no substantial basis for the prediction of some observers that Red Grange will carry the central portion of the state, even though Kaute Rockne, the well known South Bend school teacher, is said to have admitted that Grange will make a better man than anyone heard of to date at Purdue or Wabash.

In his next article, Mr. O'Reilly will discuss the situation as he found it in Illinois.

TODAY'S EVENTS: Centenary of the birth of Gen. Joseph H. Lewis, Confederate commander and a representative in Congress from Kentucky.

One hundred years ago today died Charles Pinckney, famous South Carolina statesman, governor, senator and U. S. minister to Spain.

Every member of the Knights of Pythias will recognize this date as the 85th anniversary of the birth of Justice H. Rathbone the founder of their fraternity.

Whether the present Labor Government of Ramsay MacDonald shall be given a renewed lease of power, or supplanted by the Opposition will be determined by the results of the parliamentary elections in Great Britain today.

BIG COAL PILE BEING MOVED

The work of moving the gigantic stack of anthracite coal in the C. Reiss Company's yards, which had been burning since the dock fire Thursday night, was started yesterday afternoon. The tracks laid by a large crew of men, working night and day since Friday, had been completed only a few minutes when the big cranes moved in and began their job of separating the "coal from coals."

This process, it was estimated yesterday, will require most of Wednesday. The new coal pile is being drenched, as it grows, by streams of water from the motor pump of the Escanaba fire department, which will remain on the ground until all the danger of property loss has passed.

The coal is being cleaned as it is transferred, all debris, rubbish and ashes left by the fire being taken out.

A new shed for hard coal will be built by the company in the near future, it was said yesterday.

Holy Name Men Keep Open House Election Day

Members of the Holy Name Society of St. Anne's parish will keep open house to St. Anne's hall Tuesday evening, Nov. 4th, Election Day, when a direct vote will carry all election returns to them. They are making plans to entertain all persons who are interested in hearing the returns.

The invitation is not only for Holy Name members but for the general public regardless of denomination or creed. Every one will be welcome.

Better Wives And Mothers

The emancipation of women as evidenced by the evolution in dress from steel stays that made a twenty inch waist and the long street sweeping skirts to the sports clothes of the present day has certainly had its effect upon the health of women. With proper attention to diet and exercise a race of better wives and mothers is assured by it. If, however, ailments develop as evidenced by irregularities, backache, headaches, nervousness and irritability, Lydia E. Pinkham's Vegetable Compound may be depended upon to overcome them. Thousands of women testify to its success.

Stadium Fund Will Grow, Patrons Of Carnival Will Have An Enjoyable Time

The care-free carnival spirit, blended with the Halloween atmosphere, will pervade the high school Friday night when students will stage their second annual carnival, proceeds of which will be placed in the athletic stadium fund.

There will be shows—good shows, carefully prepared, built and rehearsed. There will be hot dogs and ice cream cones, free attractions, bands, rides, in fact, everything which goes to make up a carnival. All of the noises, the color and the other elements which make up the carnival atmosphere will be there.

Each class is furnishing four shows. Some of the young people have worked on their stunts for weeks. The result will be a series of attractions which will be well worth while. The whole affair will be topped off by a feature vaudeville show to be staged by the Orange and Black Society at 10 o'clock.

It isn't often that the public is given the opportunity to help a good cause along financially, receiving in the same transaction more than its money's worth in pleasure.

Another Tax!

Do you realize the burden that the proposed tax amendment will put on YOUR shoulders? On the shoulders of all of us who live and work here?

The tax will be piled on top of all other taxes. Real estate owners will pay doubly. *That means higher rents!*

The proposed amendment will reduce the taxes that public utilities now have to pay---money that now goes into the primary school fund. It lets the big utility companies off but claps a heavy tax on churches and charities. On food and clothes. Do you favor that?

The tax will raise the price of everything we use, eat and wear. It will be piled onto regular inheritance taxes and it will tax the widow's life insurance! The worker, the consumer, he pays it.

If you want to eliminate uncertainties and fearful consequences, VOTE NO.
