

STORM SECTIONS BURY THEIR DEAD

TO BLOCK OFF SIGHTSEERS IN STRICKEN AREA

Relief Measures Well Under Way in Indiana Tornado Zones.

(By The Associated Press.) Indianapolis, Mar. 21.—Relief work in the Indiana storm zones at Princeton, Owensville and Griffin was under way today. Most of those who lost their lives in the Wednesday tornado were buried.

While scores of the seriously injured still remain in hospitals at Princeton, Owensville, New Harmony and Evansville, many who were slightly hurt have been removed to homes of relatives and friends. The death list is expected to increase as several persons at Princeton and New Harmony are reported to be in a critical condition. No bodies were found and no deaths occurred today, the total remaining at 109.

To Stop Sightseers. Military authorities prepared today to prevent an influx of sightseers into the stricken area Sunday. All roads to Princeton, Owensville and Griffin will be patrolled by state troops with orders to let none but those on relief work enter.

Trucks and tractors were being employed today at Griffin to tear away the mass of debris, under which additional bodies may be found.

Offers of financial aid have been many but Red Cross and other relief workers say much money will be needed to take care of the rehabilitation and relief measures.

Carbondale, Ill., Mar. 21.—Reports from Murphysboro and West Frankfort, the two towns which suffered the most casualties as a result of Wednesday's tornado, indicated that these cities were being well cared for and the district relief organization here today turned its attention to the smaller communities where homeless and injured have asked for aid.

Thieves Reported. Supplies, provisions and tenting was dispatched to Gormham, Enfield and McLeansboro after these towns had sent word that they were in need of help. The little town of Orsiville, virtually blown away by the storm, complained of thieves and asked for some soldier guards. A detail may be sent tonight to watch the wrecked possessions of the hundred people in this village.

Disease Develops. Members of the medical regiment who have been inspecting sanitary conditions reported that they were dangerous at Murphysboro, West Frankfort, DeSoto, Bush, Enfield, Gormham and Hurst and a supply of chemicals has been sent to these cities. Seven cases of erysipelas and typhoid were reported from West Frankfort.

W. U. OFFICE BUSY. Cairo, Ill., Mar. 21.—The local office of the Western Union Telegraph Company which handles the bulk of messages concerning the storm, caught up this morning for the first time since 4 o'clock Wednesday. Approximately 45,000 messages were handled during that period, six times the ordinary volume of business. The average was 13,000 messages a day including many lengthy press dispatches.

Unsung heroes were the regular operators who worked 48 hours at their keys until relief arrived. At one time when a flood of night letters arrived, they were 1,500 messages behind their files. The lone wire to West Frankfort became so burdened that a messenger was dispatched that a messenger was dismissed.

TENNESSEE DEAD 33. Gallatin, Tenn., Mar. 21.—To-night Tennessee's death list from the ravages of the tornado Wednesday stands at 33. Late today, Velma Hughes, 7, who sustained a fractured skull, and Charlie Holmes, 35, who suffered internal injuries, died in a Nashville hospital.

In all there are 35 who were seriously injured in the storm, according to Miss Clara Kummer, field representative of the American Red Cross, directing the relief work. There has as yet been no evidence of zangerene developing among the injured, and the situation in that regard is well in hand, she said. A conservative estimate of the actual loss of property, Miss Kummer said, had placed it at \$1,000.

No Newspapers in Athens; Printers Go Out on Strike

(By The Associated Press.) Athens, Mar. 21.—No daily newspapers appeared in Greece today, owing to the walkout of printers who quit work in sympathy with railroad strikers.

Sportsman Hurt At Polo Match

(By The Associated Press.) Aiken, S. C., Mar. 21.—Harry Payne Whitney, New York sportsman, suffered severe injuries in a polo game here today when his mount tripped and threw him heavily to the ground. Mr. Whitney was knocked unconscious, receiving painful injuries about the head and face.

ARGUMENTS TO START MONDAY

Insufficient Authority To Lease Oil Lands, U. S. To Contend.

(By The Associated Press.) Cheyenne, Wyo., Mar. 21.—The contention of the government that the Teapot Dome naval oil reserve lease was executed by Harry F. Sinclair's Mammoth Oil Company without sufficient authority will be presented before Federal Judge T. Blake Kennedy beginning Monday. Owen J. Roberts of government counsel said today. According to Mr. Roberts, the lease provisions, under which the reserve was transferred from the navy to the interior department by executive order of President Harding and the ensuing contract for the Teapot Dome development, were illegal in that they provided for the acquiring of an expenditure of money by the navy department without any appropriation from congress.

Says Scheme Illegal. Mr. Roberts said that the entire scheme, under which the navy was to dispose of the crude oil in exchange for oil storage tanks, was illegal because provision for the purchase of tanks should be made in the naval appropriation bills. The contract which former Secretary of the Interior Albert B. Fall made with the Mammoth Oil Company contained a clause under which crude oil royalties, accruing to the navy from Teapot Dome, would be taken by Sinclair in exchange for tanks. This, Mr. Roberts contends, was a violation of the provisions under which congress has the sole power to appropriate money for the navy.

Pomerene Opens Arguments. Albee Pomerene is scheduled to open the government's argument Monday. He is expected to take about two hours. Defense counsel—Martin W. Littleton; George P. Hoover and J. W. Lacey—then will present their contentions. They are expected to require a day or more. Mr. Roberts will make the closing arguments for the government.

The world's oldest living animals are said to be the great tortoises of the Galapagos Islands. Some of them are believed to be more than 400 years old.

Grave Digger, Resting, Mistaken For Corpse

(By The Associated Press.) Murphysboro, Ill., Mar. 21.—Twin cemeteries high on a hill overlooking desolate Murphysboro were scenes of simultaneous funerals all day long while 150 grave diggers broke fresh ground for the burial of victims of Wednesday's tornado.

Tower Grove cemetery and Saint Andrews cemetery received more than fifty bodies today.

The voices of as many as six clergymen could be heard reciting services at the same time.

Grave Diggers Rest. The day was quiet and a bright sun warmed the soft wind which gently caressed the mourners in a manner so different from the blast that robbed this city of life and homes by the hundreds.

Grave diggers in their overall rested their shovels at times to act as pall bearers, while knots of sorrowing people watched their loved ones being lowered into graves.

Mistaken For Corpse. S. J. Howell who had driven an ambulance for twenty-five consecutive hours took advantage of a lull in the activities today to gain a few minutes of sleep. He lay down on a casket in one of the morgues.

He was awakened by a touch on his arm and the sound of a woman's tearful voice saying: "Is this one of the bodies also?" He assured the onlooker that he still was very much alive.

POTASH PRICES TAKING JUMPS AS DURING WAR

French and German Producers Control Market, Report Says.

(By The Associated Press.) Washington, Mar. 21.—Official information has reached Washington indicating that French and German potash interests have entered into an agreement as to both market and price levels. While details have not been disclosed, it was learned today that in effect, the former exclusively German business has become a joint French-German enterprise through this commercial alliance. The official reports are understood to draw a clear picture of the arrangement between the French and German syndicates, now sharing possession of virtually all of the world's potash beds, although it is doubtful that the Washington government has as yet come into possession of the text or even a paraphrase of the understanding.

Result of Probe. The potash trade has been under survey by the department of commerce for many months as one of several studies undertaken under the \$500,000 special fund voted Secretary Hoover by congress to examine the status of various industries which produce essential raw commodities and where discrimination against American users either in price or marketing arrangements might exist. Mr. Hoover referred to the rumored potash agreement before congressional committees.

The old German potash operators, known as the Kali Syndicate, was a sore point with American customers before the war. Efforts to obtain price abatements occupied both private commercial envoys in Berlin and the American embassy which repeatedly sought to exert diplomatic influence to that end. Denial of ships already loaded in German harbors when war was declared and for which American buyers had already made payments precipitated a long diplomatic correspondence with both Germany and the allied nations before the United States entered the struggle.

Prices Increase. In 1914, the United States took 702,000 tons of potash in its various forms from Germany at a valuation of \$10,700,000. In 1924, figures were 623,000 tons at \$10,449,000, which illustrates rising prices. During the war years the flow fell off to a low point of 469 tons in 1918, but bounced up again in 1920 to a new high level. The figures that year were \$29,000 tons at \$31,048,000 illustrating the high price conditions that prevailed for some time after the war.

Metcalf Undecided About Pension Job

(By The Associated Press.) Lawrence, Kans., Mar. 21.—General Wilder S. Metcalf, named last week as commissioner of pensions, said here today that he had not fully decided whether he would accept.

SEEK INCREASE OF ALLOTMENT

U. of M. Regents Say More Money Needed to Run Institution. Ann Arbor, Mich., Mar. 21.—Regents of the University of Michigan meeting with the ways and means committee of the state house of representatives today, urged an increase in the university's mill tax allotment as the most pressing need of the institution at present.

The regents declared they were willing to sidetrack for the present time the \$3,192,000 appropriation asked for a new administration building, a new museum, a new observatory, a new college of architecture and land if the appropriation would stand in the way of the increased mill tax allotment.

The mill tax allowance, which at present is limited to \$3,000,000 a year, is inadequate for maintenance purposes at the university, according to Walter H. Sawyer, senior member of the board of regents. Unless the limit of \$3,000,000 derived from a six-tenths of a mill university tax if lifted by the present legislature, he declared, the activities of the university must be curtailed.

SHEPHERD'S SISTER QUIZZED

Mrs. James E. Davidson, left, and her sister, Lena Peck, right, of Albuquerque, New Mexico, were quizzed by Sergeant James Healy when they arrived in Chicago in answer to a call from Mrs. William Shepherd, whose husband has been indicted for the death of William McClintock, his ward. The Shepherds visited the Davidson home shortly after McClintock's death.

SHEPHERD YET IN JAIL CELL

Attorneys To Continue Pleas For Release on Bail Money.

(By The Associated Press.) Chicago, Mar. 21.—William D. Shepherd, charged with the murder of William Nelson McClintock, his millionaire orphan ward, returned to his cell tonight until Monday at least, when attorneys will continue to fight out the questions of his admission to bail in the criminal court of Justice Jacob Hopkins.

Meanwhile Chief Justice Harry Olson of the municipal court announced he would subpoena several witnesses to appear at the next hearing of the inquest into the death of the young millionaire, which is set for Monday morning.

Plea For Bail. Attorneys for Shepherd today sought to impeach the testimony of Charles C. Falman, head of the National University of Science, as given in earlier hearings of the coroner's inquest. Their effort was fruitless, as it met with stern opposition at the hands of the state. Justice Hopkins finally asking both sides to present authorities to him on Monday on the question of bail for a capital offense.

A desire to blackmail Shepherd on the part of Falman and others, and a scheme to break the will of young McClintock, which gave to his foster father, are the motives for the activities against Shepherd, William Scott Stewart, chief criminal attorney, told the court in his plea for bail for Shepherd.

Vancouver Hotels Now Selling Beer

Vancouver, Mar. 21.—Eighteen Vancouver hotels today began the sale of beer by the glass. Not all the hotels were ready to begin sale of the beverage at 10 o'clock, the scheduled opening time, due to delay in obtaining the new licenses and in the delivery of the beer but the majority were open by noon.

WEATHER

(By The Associated Press.) UPPER MICHIGAN—Partly overcast Sunday; Monday rain or snow and somewhat warmer. Temperatures—Low. Alpena—24 Marquette—34 Atlantic City 40 Medicine Hat 20 Boston—26 Memphis—52 Buffalo—26 Milwaukee—26 Chicago—28 Minneapolis—26 Cleveland—49 Montreal—47 Denver—32 New Orleans—51 Detroit—40 New York—40 Duluth—22 Port Arthur—20 Escanaba—34 Saginaw—42 Galveston—69 St. Louis—52 Grand Rapids—Salt Lake—40 Jacksonville—60 San Francisco—50 Kansas City—36 Soo, Mich.—32 Los Angeles—52 Tampa—64 Louisville—44 Washington—36 Ludington—36 Winnipeg—64

Germany Will Enter League, Report States

(By The Associated Press.) Paris, Mar. 21.—The Havas News Agency learns from an authoritative source that the German government is prepared to demand admission of the Reich into the league of nations without reservations. "If this is confirmed," adds the Agency, "it will hasten the negotiations already opened with a view to solving the problem of security."

CUBAN STUDENT GROUP IN RIOT

Charges of Seditious Are Filed; Protested Hay-Quesada Treaty.

(By The Associated Press.) Havana, Cuba, Mar. 21.—Charges of seditious have been filed against the leaders of several hundred students who staged a demonstration in front of the presidential palace at noon today. Twelve of the students and three policemen were found in need of medical attention after the police received had dispersed the crowd and a group of students, including the ringleaders, who were arrested.

The demonstration started in front of the congressional court where Julio Antonio Mella, president of the Association of Students, Amelio Alvarez Recio, and Leonardo Fernandez Sanchez had been fined \$200 each for being implicated in the distribution of a proclamation against last Wednesday's celebration of approval by the United States senate of the Hay-Quesada treaty. The students marched from the court to Central Park, where Mella addressed them at the foot of the statue of Jose Marti, Cuban patriot. From there the students went to the presidential palace.

Secretary of the Interior Burdick, commending the action of the police in a statement he issued after the clash, said the Cuban people did not share the views of the students. He ordered that charges of seditious be placed against the leaders of the movement.

CANADA FEELS SLIGHT QUAKE

(By The Associated Press.) Quebec, Mar. 21.—An earthquake of such intensity as to set buildings trembling and frighten the populace, visited today the region where the more severe quakes of three weeks ago is believed to have had origin. It occurred between 10:24 and 10:26 a. m. and lasted only a few seconds. It was most noticeable in the St. Lawrence and Saguenay Valleys, in the parishes of St. Paul, Murray, St. Siméon, Lincolton, St. Roch, Lorteville, Charlevoix and St. Saviour. Although telephone service was disrupted there were no persons injured, and the property loss was small.

48 COPS DENY BOOZE CHARGE

Attorneys Insist That None Have Sought 'Immunity Bath'.

(By The Associated Press.) Cincinnati, O., Mar. 21.—Denial is entered by attorneys who have been retained by a majority of the forty-eight Cincinnati policemen arraigned in United States district court yesterday on the charge of conspiracy with liquor and narcotic violators to violate the Volstead and Harrison narcotic acts, that any of the policemen have indicated a desire to make overtures to the federal authorities and to be thus given an "immunity bath."

This denial was prompted by statements said to have been made by government officials that certain of the policemen had indicated a willingness to change their pleas of "not guilty" in a federal court.

United States District Attorney Haverth E. May will be in Washington next week to confer with the department of justice relative to additional sealed indictments reported by the grand jury in connection with the present investigation of prohibition law violations. Law enforcement officers predicted additional arrests upon the district attorney's return.

The forty-eight indicted policemen are at liberty pending trial under bonds of \$10,000 each. Several village "dry" agents are in the Hamilton jail, unable to furnish bond.

Trials of those indicted are expected to begin about April 15.

Pay Tribute To Italy At Envoy's Reception

(By The Associated Press.) New York, Mar. 21.—The ties that bind America and Italy were extolled by Thomas W. Lamont and James R. Angell, president of Yale University, in greeting Giacomo de Martino, new Italian ambassador, at a luncheon in his honor today. A personal message from President Coolidge was read before a gathering of several hundred prominent guests including three former American ambassadors and presidents of four universities.

Paris, Italy. Mr. Lamont, president of the society, said Italy commanded America's admiration for her courageous and successful efforts in meeting and solving her post-war problems. He voiced the satisfaction felt here with the Italian government's declarations that it would fulfill all its international obligations. President Angell said the world had opened the eyes of the rank and file in the United States to the superb moral qualities of Italy. Italy Modern, He Says. Ambassador De Martino, in response to his reception, said he understood the added work of a foreign envoy to be the furthering of national friendship. "I note," said the ambassador, "that you are taking a growing and intelligent interest in Italy which is no longer for you only the country of churches, museums and Roman ruins, but a modern nation which lives, thinks and struggles so as to make a place for itself in the world."

808 Are Dead 2,939 Injured Recheck Shows

(By The Associated Press.) Chicago, Mar. 21.—After some fluctuations today, the casualty list tonight from Wednesday's tornado remained the same as last night as to totals, although the distribution changed slightly. There were no changes in figures except for an addition of 27 at Gallatin, Tenn., making the total hurt 2,939, and the total dead 808. The revised death list follows:

Table with columns for TOWNS, DEAD, and Total. Lists towns like Illinois, Murphysboro, West Frankfort, DeSoto, Gormham, Paris, McLeansboro, Carum, Benton, Hurst, Enfield, Thompsonville, Bush, Akin, Grayville, Crossville, and their respective death counts.

Bankers Meeting At Detroit Next March 23 and 24

(By The Associated Press.) Detroit, Mar. 21.—The fourteenth annual conference of presidents, vice presidents and secretaries of the Central States Bank Association will be held here March 23 and 24. Officers representing banking associations in 14 states are expected to attend.

Canadian Pacific Railroad Official Dies of Pneumonia

(By The Associated Press.) Atlantic City, N. J., Mar. 21.—Henry F. Suckling, 75, treasurer of the Canadian Pacific Railroad, died here today at the 8-aside hotel. Death was caused by pneumonia contracted two days ago.

Boy Loses Arm; Ran Into Train

(By The Associated Press.) Grand Rapids, Mich., Mar. 21.—Russ H. Westgate, 7, had his left arm torn off at the shoulder tonight when he ran down a steep embankment into a Grand Trunk freight train.

ELEVEN DEAD OUT OF MINE

Fairmont, W. Va., Mar. 21.—Removal of 1 or more bodies from the Bethlehem Mines Corporation's mine at Barrackville today brought the total number of dead taken from the property up to eleven. All were found in the left head of the property which was the scene of an explosion last Tuesday night claiming 37 miners. Mine officials in a re-check today said there were eleven men in this part of the workings and that the remaining 22 who are missing are in the right headway. Hope that any escaped death has been abandoned.

22 Men Still Missing in Wrecked Shafts At Fairmont, W. Va.

Fairmont, W. Va., Mar. 21.—Removal of 1 or more bodies from the Bethlehem Mines Corporation's mine at Barrackville today brought the total number of dead taken from the property up to eleven. All were found in the left head of the property which was the scene of an explosion last Tuesday night claiming 37 miners. Mine officials in a re-check today said there were eleven men in this part of the workings and that the remaining 22 who are missing are in the right headway. Hope that any escaped death has been abandoned. Jay Wells, a member of one of the rescue crews, late today found the body of his brother, Wells came here from another camp and did not know that his brother was working at Barrackville. He still is stunned over his brother's death. Searchers tonight continued the exploration of other sections of the mine and expected to find additional bodies within a few hours. Fairmont tomorrow will bury Leonard Saunders, whose charred body was the first to be brought out. Saunders' mother, critically ill, has not been informed of her son's death.

FUNERALS HELD WHILE RESCUERS WORK GOES

Doctors Labor To Wipe Off Disease; Chicago Sends Flowers.

(By The Associated Press.) Chicago, Mar. 21.—Knots of relief and rescue workers, friends and numerous play-dolfs treating the injured, today's panorama in stricken zones of five states which on Monday yielded to tornado, and fire more than 500 dead, 2,000 injured. The evidence of the destruction was enacted in community funerals and several private services. Where there are no funerals and the trapping of bodies, were undoubtedly a rough box, a small lot of flowers and a hasty recitation of Scripture was substituted. Individual ceremonies were attended by a few, but in the more remote locations circumstances permitted only brief rituals.

End Burials Today. Reclamation, rehabilitation, relieving and comforting the aged of the injured now are in the activities of the day. Tomorrow will see nearly last of the victims conveyed to their resting places. Studies even if war and influenza in a setting of grief began to appear. Little children, a great number of whom were innocents, were the prompters. A Soto, Ill., a village practically leveled from the earth's surface where one of the worst single calamities occurred at a school, funeral services were processed. Children who have not been buried since Wednesday, re-climbered over the wooden planks beside the yawning gulf with smiles spread over the faces of some of the women.

Ward Off Disease. Disease, the cleaner which after death to claim the innocent, began to raise its head only to be hauled with the weapons of a swiftly have come to the one in other respects. Warnings of a large number of surgical and symptoms of zangerene tetanus caused the Illinois diet of health to appeal for sur and antitoxin. In less than an hour the hearty response of doctors caused the request to be withdrawn. In that same hour from far away Washington, word that the storm was away from the public health service. Prayers were the stories of funerals. Neighbors would remember the name to a cross or honorary headstone and carry the grave. Women, men and men huddled, turning from group to bodies, or a funeral procession to another.

Flowers From Chicago. Boxes of flowers sent from Chicago to Soto were sorted and everyone's small sprays by who who explained: "We have no flowers and you not want to miss anyone?" These smitten districts do desire the sightseer, curio or memento hunter who are antlered about the Sunday. Military forces are thrown about the Indiana for to keep them out. They only hinder relief. From Be and other's northern Illinois, the same word went out. "Anties there added that should succeed in entering they would put to grave digging and reclamation.

Re-check Shows 783 Dead. As the complete lists of begin to come in, an increase number of women, children and cats are shown among the dead in West Frankfort alone near of its dead were babies. The scattered Press re-checked it of identified dead tonight found it carried 783 names. It is the possibility that in traction or in the frenzied early pliations some casualties have been incorrectly included. Debris Being Removed. General satisfaction with progress of rehabilitation work reported. Needs here and were quickly as they became known were immediately filled. It

SHORT CUTS TO SATISFACTION

Do you think that the total States would have 500 hundreds of millions dollars on the Panama Canal? Short cuts didn't pay? A short cut is the short distance between two cities, or two people. A few minutes' look through the Press Classifieds will put you on a short cut to get some everyday saving, a big saving of time and money. Look up and down the Classified Ads, not up and down the streets.

lightly being removed. Some before inaccessible districts open. The generous flow of supplies apparently without parallel.

THE DAY IN WASHINGTON

(By The Associated Press.) Vice President Dawes departed for his home in Evanston, Illinois. Arrivals to night was gan-are was ordered sent into the mid-west storm area.

Expressions of sympathy for the storm sufferers continued to pour in from abroad. Senator Cohns of Michigan charged a lack of uniformity in the settlement of tax cases.

Many Send Sympathy. Determination of the general and material loss probably cannot be made for days and weeks. Funds variously estimated a total between eight million dollars. In the act, now in all fields will take many months to complete claims and arrive at valuations.

RAPID RIVER MAN NABBED

Illegal sale and possession of liquor are the charges upon which Richard Sprick, proprietor of a soft drink parlor in Rapid River, will be arraigned before Court Commissioner McEwen on Monday.

MURDER TRIAL OPENS MONDAY

Paw Paw Pool Hall Owner Charged with Killing Dry Goods Clerk.

(By The Associated Press.) Paw Paw, Mich., Mar. 21.—Both the prosecution and defense are making final arrangements for opening of the trial Monday of Joseph A. Ames, 57, charged with murdering Myron O. Cleveland, 50, South Haven dry goods clerk, Ever since Ames' arrest, Sheriff Glenn Weaver and his deputies have been busy collecting evidence for the trial, but their discoveries have not been made public.

Cleveland, found bound and dying from slashes in his throat, was said by Ames, it is charged, to have been responsible for separation of Ames and his wife, Mrs. Ames, who obtained a divorce about two years ago, is living in Chicago together with her daughter by a former marriage. It was said at the time of the murder that Mrs. Ames' picture was found in Cleveland's pocket, and that letters from here were found in his possession.

Clothing Needed by Salvation Army for Poor of City

(By The Associated Press.) The following appeal was issued by Salvation Army headquarters here yesterday: "It is rather a long time since any appeal has been made through the paper by us for old clothes. As the need grows greater we are urged to write and ask you to send any old clothes that may have been discarded, and we can assure you that the same will be disposed of amongst the needy in this—your own city. Our funds are limited, and therefore we are unable to go ahead and buy new clothes for all who come to us for help. If you are a good citizen and have everything you need here in this life, remember that there are others who are not so well off. Anything you wish to give can be sent to the Salvation Army Headquarters at 506 Ludington Street. Captain Oliver Jernberg, Chief in Charge.

C. M. T. C. DATE IS ANNOUNCED

(By The Associated Press.) Chicago, Mar. 21.—National guard units, students reserve officers and citizens' reserves of Illinois, Wisconsin and Michigan will go into encampment during late July and August in accordance with a schedule made public here today by Major General Harry C. Hale, commander of the sixth corps area.

The Michigan national guard will go into camp at Camp Grayling in August. The National Press Club Post also includes in its membership General John J. Pershing, Vice President Charles G. Dawes, Major General John A. Lejeune, commander of the Marine corps, and Colonel Theodore Roosevelt. Today's action was taken under a resolution adopted at a meeting of the executive committee of the District of Columbia department February 13, providing for the suspension of posts failing to report a paid up membership of 15 members by March 15.

Detroit Y Swimmers Win Michigan Title

(By The Associated Press.) Grand Rapids, Mich., Mar. 21.—The Detroit Senior YMCA swimming team tonight won the state YMCA swimming championship when it amassed a total of 41 points against 36 by the Grand Rapids natators, their nearest rivals. In the junior meet, the Ann Arbor teams took first honors and the state championship with a total of 21 points against 13, secured by Grand Rapids.

European Swimmer Sets New Record

(By The Associated Press.) Detroit, Mar. 21.—Arne Borg, European swimmer, set a new mark in the 440 yard free style swimming event at the Detroit Athletic Club here tonight when he covered the distance in 4 minutes, 34 2/5 seconds. The previous record, held by Johnny Weissmuller, was 4 minutes and 40 seconds. Seven new Michigan A. A. U. records were made in the meet.

Cornell Track Men Defeat Sons of Eli

(By The Associated Press.) Ithaca, N. Y., Mar. 21.—Cornell University won a dual indoor track meet from Yale University tonight by 59 1-3 points to 53 2-3 points.

Petoskey Cagers Win Class B Title

(By The Associated Press.) Petoskey, Mar. 21.—Before one of the largest crowds that ever packed its way in the local high school gymnasium, Petoskey High won the northern Michigan Class B basketball championship here tonight by nosing out Manistee high in a spectacular game, 12 to 10. Harbor Springs high school team won the Class C championship by defeating East Jordan, 9 to 2. It was a game featured by the work of the Cornell brothers for Harbor Springs. Police strove frantically to keep out hundreds of fans who struggled around the various entrances seeking admission to the games. It was estimated that upward of 2,000 witnessed the contests.

Wolverines Winners At Cleveland Meet

(By The Associated Press.) Cleveland, Mar. 21.—Michigan won both of the special events in the indoor meet held here tonight. The Wolverines took the two mile relay race in 8 minutes 39 2/5 seconds and the two mile special medley race (880, 440, 440, mile) in 8 minutes, 14 2/5 seconds. In the medley, they defeated Ames, winner of the event in the Illinois indoor relay meet, recently.

FORCE OF HABIT. "What's all the noise?" "Oh, that's just a barber shaving himself." "But why all the noise?" "He's trying to persuade himself to have a shampoo."—Penn Punch Bowl.

Michigan K. C. To Hold Pin Tourney

(By The Associated Press.) Bay City, Mich., Mar. 21.—The first annual Michigan K. C. of C. bowling tournament will be held on the Alert alleys of this city beginning April 18, Ray Karpus, president of the Michigan State Knights of Columbus Bowling Association announced Saturday. Entries for the meet will close April 11. It is expected that between 50 and 75 teams representing different councils of the organization will compete.

Izaak Waltons To Gather at Chicago

(By The Associated Press.) Chicago, Mar. 21.—Sportsmen from the furthest corners of the United States, representing the 1,500 local chapters of the Izaak Walton League of America, will gather here April 2, 3 and 4 for the third annual convention of the league. It is expected to be a record assemblage of sportsmen.

We list below a few of our USED CAR BARGAINS!

They are priced right and all are in very good condition mechanically and otherwise. A used car bought from us will give many miles of satisfactory service. Come in and look them over. The low prices will surprise you.

1 Light Six Studebaker Sedan Just overhauled and repainted a new coat of Duco. Late model. \$850.00.

1 Studebaker Special Six Touring Just been run enough to limber it up, in fact the mileage is less than 6000. Your own price for quick sale.

1 Dodge Touring Late 1923 model. Paint, tires and mechanical condition perfect. This is an exceptional buy at \$550.

2 Ford Sedans Very good condition throughout. New paint and tires.

1 Studebaker Special Six Coach Mechanically O. K. New Paint. \$550.00.

3 Chevrolet Coupes All newly painted and overhauled. Late models. \$375 up.

2 Overland Tourings Excellent condition. Ready for many miles of hard use. \$275.00 and \$300.00.

3 Studebaker Light Six Touring Newly painted and put in first-class condition throughout. Somebody's going to get a swell buy at our price. \$450.00 up.

1 Buick Sedan Late model. Just been overhauled and put in first class condition throughout. Newly painted. This car will surprise you at our low price. \$850.00.

1 Oldsmobile Coupe 4 passenger, 1921 model. Been driven very little by former owner who gave this car exceptional care. Every possible extra equipment on this one. Dandy car for salesman, doctor or small family. Priced very low. \$700.00.

All of the above can be bought on very easy terms. Look over our list and then come in and take one of these cars out and give it a careful test under any road condition.

Wolverine Motor Co. "Business Is Good" 126 Ludington St. Phone 95.

Local Station On Air Tonight

Station WRAK owned and operated by the Economy Light Co., will broadcast a musical program from their studio located at 1145 Ludington St., Escanaba, Mich., at 8 o'clock tonight.

Stephenson Avenue Paving Job to Be Done Early in Year

Work on the pavement to be laid by the city between the street car tracks on Stephenson avenue will be started by April 1, if weather conditions permit. City Manager Fred R. Harris said yesterday. It is hoped to have the pavement completed by May 1. This will be the only paving the city will do this year. It has been decided to improve this year will be confined to street lighting, electrifying the water works, and other projects having to do with the improvement of public utility service.

SOCIAL

Races on Coliseum Program. Bill Egan's chariot team will race with John Kelly's team at the Coliseum Roller rink tonight. The members of the two teams are: Kelly's—David Harwood, Hugh Kelly and George Prater; Egan's—Mel Roberts, Clement Hyatt and Stephen Lyons. All of these boys have faced against the world champion skaters, Roland Clark and George Caspari. In a previous chariot race between these two teams one of the members of Egan's team stumbled, thus giving the decision to Kelly. For tonight a close race is assured.

Hamtramck Citizens Cancel Mayor Fight

(By The Associated Press.) Detroit, Mar. 21.—Quater proceedings against Peter C. Jozewski, mayor of Hamtramck, were dismissed today by Governor Alex J. Groesbeck, upon request of petitioner, that their request for Jozewski's dismissal be withdrawn. The quarter proceedings were instituted early last year.

Notables Forget to Pay Dues to Legion

(By The Associated Press.) Washington, Mar. 21.—The National Press Club post of the American Legion of which James A. Drain, the organization's national commander is a member, today was suspended from the District of Columbia department of the Legion because of failure to report a paid up membership of 15 members.

Suit To Foreclose \$750,000 Mortgage

(By The Associated Press.) Grand Rapids, Mich., Mar. 21.—Suit has been instituted in the United States district court here to foreclose on a mortgage given to cover a \$750,000 bond issue of the Sears and Nichols Canning Company, of Chillicothe, Ohio. Action was begun by the Ohio Savings Bank and Trust Company and Frank P. Kennan, of Toledo, as trustees. Default in condition of the mortgage is alleged.

To Close Alleged Detroit Blind Pigs

(By The Associated Press.) Detroit, Mar. 21.—Paddlocking proceedings against twenty-three alleged "blind pigs" were started in federal court here Saturday by United States District Attorney D. G. Smith. All places concerned are in Detroit, except three in Saginaw and one of Ypsilanti. Those in Saginaw named as defendants are George F. Kelly, Sid Billington, Denny Caswell, Caroline M. Deerson, John Kostrzewa and William Nowaczyk. The Ypsilanti defendants are Thomas X. Power, Elizabeth Power and John A. Bartis. The 23 make a total of 250 such cases since last July.

Dedicate Scottish Rite Cathedral of Bay City Consistory

(By The Associated Press.) Bay City, Mich., March 21.—Prominent Masons from all parts of Michigan were here today to take part in the laying of the cornerstone of the Scottish Rite Cathedral being built by the Bay City Consistory. The cornerstone was laid by Ben J. Henderson of this city, grand master of the Michigan Grand Lodge F. and A. M., assisted by other grand lodge officers and the address of the day was delivered by Reverend Frank H. Cookson, D. D., of this city. A parade in which all of the Masonic organizations of this city took part, preceded the cornerstone laying.

Penn State Leads In Wrestling Meet

New York, Mar. 21.—With all of the final bouts completed, Penn State was far in the lead in the battle for the intercollegiate wrestling championship here tonight with 22 points scored. Yale was second with 13 and Lehigh third, with six. Second and third places were yet to be fought out but there was little hope of Yale's overcoming Penn State's lead.

Chevrolet Wins Florida Regatta

(By The Associated Press.) Miami Beach, Fla., Mar. 21.—Louis Chevrolet, piloting Haleap, won the Biscayne Bay speedboat races which featured the closing of the Miami Beach mid-winter regatta on Biscayne Bay today. L. L. Corum, piloting Coral Gables T, was second; Ira Vail, in Venetian Islands, was third, and Tommy Milton, in Miami Beach was fourth. Skillful jockeying enabled Gar Wood in Baby Gar V, to win three heats in the runabout race for the Dodge Memorial trophy race from R. V. Williams' Curtiss Wilgoid II, a faster boat. Wood's brother Phil in Baby Gar IV, helped Gar Wood by aiding in pocketing the Williams speedsters. Little Old Man, owned by Rodman Wanamaker, of New York, won the 20 mile free for all event. An auto oil gauge which lights a small light on the dashboard when the oil supply becomes low is a recent invention.

Which?

\$50 for Painting or \$500 for Repairing A 1000 per cent Investment That's the way to look at painting—as an investment, not an expense. Look around you at the houses going to rack and ruin. What is doing it? The weather. There is only one defense against weather and that is paint. But paint, like weather, is of many kinds. Beware of the fair weather paint. It does not protect, it only deceives. Buy a paint that has proved its staying power.

ORGANIZE FOUR SCOUT TROOPS
Boy Scout Movement Beginning to Function Here Again.

Four local Boy Scout troops have been organized here and are actively functioning with meetings being held each week. Each troop has the use of the high school gymnasium twice a month.

The troops are organized and their leaders are:

Troop 1, sponsored by the M. E. Church, George Jacobson is scoutmaster, Ryan Blount assistant scoutmaster, and Jack Williams, second assistant. Meetings are held every Thursday, alternating at the high school gym and the church.

Troop 2 is sponsored by the Swedish Lutheran Church. Victor Anderson is scoutmaster. Meetings are held every Tuesday night alternating between the church parlors and the high school gym.

Troop 3 is sponsored by the Norwegian Lutheran Church. Walter Arntzen is scoutmaster, with the Rev. Mr. Sateren and Jacob Olson as assistants. Meetings are held on Monday nights alternating between the gym and the church rooms.

Troop 4 is sponsored by the Catholic church. Ed Miller is scoutmaster. Meetings are held on Thursday nights at the

school gym and St. Joseph's alternately.

R. C. Shaw, of the high school faculty, is scout executive and is taking active charge of the work. A scout hike for all members of the local troops will be held next Saturday morning. The Scouts are asked to meet at the high school at 9:30. Further instructions will be given them at their regular meetings.

J. S. COMPHER PASSES AWAY
Widely Known Citizen Called by Death Saturday Morning.

Ludlow S. Compner, 62, weighmaster here for the Chicago & North-Western, died at his home, 316 South 16th St., at 7 o'clock yesterday morning after a brief illness.

Mr. Compner returned only last week from a visit to Florida. He resumed his duties with the railway company Monday, continuing until he was taken ill on Friday. His condition was regarded as critical only a few hours before the end came.

Mr. Compner came to Escanaba from Wakefield, O., his birthplace—about 23 years ago, and this city had been his home continuously since that time.

Surviving are his widow, one daughter, Miss Margaret, of Escanaba, and three sons, Harry and Joseph, of this city, and Frank of Detroit.

He was a member of Delta Lodge, P. & A. M., the Modern Brotherhood of America, and the Railway Clerks' organization.

Funeral Tuesday.
 Funeral services will be held at 2 o'clock Tuesday afternoon at the family residence, the Rev. R. C. G. Williams of the First Methodist Church, officiating, and burial will take place in Lakeview cemetery.

Mr. Compner had a wide acquaintance in Escanaba. His many sterling qualities made his friendship earnestly sought and highly valued, and news of his death was received by hundreds of Escanabans with expressions of deep and sincere regret.

L. S. Bowes to Speak to Sales Students
 Louis S. Bowes, of the National Cash Register company, will be the lecturer at sessions of the Retailers' class in salesmanship Tuesday and Thursday of this week. Mr. Bowes' subject will be, "Resolve to Buy." Those who heard him, when he appeared before the class before, knew that the sessions this week are going to be intensely interesting.

GIRL SCOUTS
A SERIES OF TALKS ABOUT SCOUTING IN GENERAL AND THE DELTA COUNTY SCOUTS IN PARTICULAR.

Troop 8, Washington school Miss Gengesse and Miss Oudeans leaders, won first place in a song contest at a joint meeting of all the Escanaba troops yesterday afternoon in the gymnasium of the high school. Troop 13, Mrs. Turner, leader, won second place. Each troop sang two songs, a troop song and any Scout song they wished to sing. Mrs. James Frost conducted the contest and Mrs. George Booth, Mrs. George Harvey and Mrs. T. C. Byrns acted as judges.

Troop 12, Mrs. Frost and Miss Robertson, leaders, receive two honors. Having the highest percentage of attendance they received the colors from the color guard and will act as color guard at the next general activity. The second honor was a prize given by Troop 4, of the Barr school, junior leaders acting as leaders for the greatest number of points in a bird contest.

Following the opening ceremony and roll call Troop 8 put on a Girl Scout play, "A Pot of Red Geraniums." Troop 9, St. Ann's School, demonstrated a Girl Scout law, "A Girl Scout is a friend to all and a sister to every other Girl Scout." Troop 10, Webster school sang an old ballad, "The Sailors' Song." After the stunts, Miss Mary Noy talked to the girls about the Girl Scout law. Courtesy.

Miss Myra Mason gave an outline on observation of the first birds that come in the spring. To conclude the program, Mrs. Banden and the Junior leaders played a number of games, ending with a jolly round-robin game. Troop 5 had an exhibit of business made for their homemaker's badge.

This will be the last general meeting of all the troops until May 29, when all the troops of the county will meet for a May Day festival.

The next Girl Scout activity will be a Girl Scout play, given by combined troops of the city, and will be held in the high school assembly room, Saturday, April 18. Troops 15, 12, 13, 5, 9 and 8 will have parts in the play. The play is a Girl Scout play, using all phases of Scout work. It was first produced by a troop in Boston, Mass., and is very entertaining as well as instructive.

Rapid River City Scouts.
 Troop 1, Mrs. Richards, leader, had a very successful picnic in the high school gymnasium, Thursday noon and after school. The girls were well pleased with the financial results and may give another later on. After Easter,

the troop will put on a Mother and Daughter banquet.

Troop 2, Miss Kanny and Miss Hruska, leaders, went on a nature hike last Saturday afternoon. After the hike and after studying all the various trees in the neighborhood, they met at Jane Hamilton's home and had a hot lunch.

OBITUARY

E. P. NESS.
 Impressive funeral services were held at two o'clock Saturday afternoon from the home of Mr. and Mrs. George Hebert, 819 Lake Shore Drive, over the body of E. P. Ness, veteran captain of the U. S. Navy, who passed away after an illness of two days.

Rev. Williams of the First Methodist church officiated at the services which were attended by a large number of sorrowing relatives and friends.

The casket was entirely hidden from view, so private were the floral tributes which were received at the home. Silent testimonials of the esteem in which he was held by a large circle of friends. Flow encircled high upon tables and were placed on the floor so that one could not get nearer than four feet from the casket.

The close friends who carried the casket to and from the funeral car were Messrs. Knute Kautsch, Gust Christensen, Robert Jensen, Gust Nielsen, Carl Anderson and William Peter.

Interment was made in the family lot in Lakeview cemetery in a flower lined grave. A long cortege of cars accompanied the body to its last resting place.

Out-of-town relatives who came to the city to attend the funeral were: Mr. and Mrs. Babcock, Mrs. E. A. Evanson, Mr. and Mrs. Eskell Ness, and two children, Everett, Wash. Mrs. Louis Deane, Marquette, Wis. Mr. and Mrs. P. G. Duggan, Mich.

In the passing of Mr. Ness this city loses an upright citizen, the family loses a devoted husband and father, and his friends lose a man whose friendship once gained was an everlasting treasure.

The flag at the C. & N. W. Ry. Co. yards was at half mast for three days, while the body lay in state.

AXEL JOHNSON.
 Axel Johnson, 52, a lumber camp cook who had a wide acquaintance in this vicinity, died suddenly in his room at 214 Stephenson avenue, sometime Friday night. His body was found early yesterday morning. Heart disease is believed to have been the cause. Mr. Johnson apparently had been in fair health, although he had told friends he was not feeling well Friday. Before going to his room Friday night he had talked with others in the house and there was no indication that his condition was serious.

He recently came down from Larson Brothers' camp in the northern part of the county, where he had worked last winter.

A nephew, Fred Johnson, and a niece, Mrs. William Eshaw, of Ford River, are the only relatives in this country who survive. The deceased had lived in and near Escanaba for about twenty years.

The body was taken to the Anderson funeral parlors where it will remain until Thursday when it will be removed to the Charles Magnuson home, 214 Stephenson avenue. Here the funeral will be held Wednesday afternoon, with the Rev. J.

For Your Valuables

Share the security and convenience of our vault for a few cents a week.

It costs thousands of dollars each year to maintain our modern vault—yet for a few cents a week you may share its security and convenience, with the privilege of access at any time during business hours.

DEVELOPMENT OF AUTO ENGINE IS REMARKABLE

Perfection Has Been At-
tained By Constant
Study of Faults.

The development of the automobile engine from an unreliable, expensive piece of machinery to a remarkably efficient and dependable mechanical unit is one of the wonders of an age crowded with remarkable achievements. An explosion in the compression chamber of an automobile involves five separate and distinct operations, namely, vaporizing and mixing the gas with air, drawing the mixture into the compression chamber, igniting it, and discharging the residue of the burned mixture from the compression chamber. In a high speed motor, this series of operations frequently is repeated two thousand or more times a minute in each cylinder, 4,000 times per minute in 4 cylinders, 480,000 times per hour, 5,800,000 in ten hours. Every operation involved in the production of an explosion must be perfectly performed and timed. If the gasoline mixture is too rich or too lean; if the compression of the explosive mixture is not made without leakage; if the spark arrives at the compression chamber just the smallest fraction of a second too late or too soon, the motor functions improperly. When it is considered that an automobile engine is quietly producing billions of explosions without the slightest trouble, its remarkable efficiency and mechanical excellence will be better appreciated. One of the greatest engineering and manufacturing achievements in the low-priced automobile field

is the Star motor. A Star owner reported that he drove 45,000 miles without having the slightest attention to the motor aside from cleaning carbon and grinding valves.

24 Star owners reported that they drove an aggregate of 691,317 miles with the slightest motor trouble.

68 Star owners reported driving an aggregate of 1,236 months, or total of 162 years, without experiencing any motor trouble.

These experiences are a remarkable tribute to the engineering and mechanical excellence of the automobile engine and are one of the basic reasons for the growing popularity of the Star car.

Paulson Brothers, the local Star dealer reports an increasing business as a result of the highly satisfactory performance of the Star motor. The public is rapidly learning that an automobile is only as good as its motor.

BUICK REAR AXLE TAKES ALL DRIVING STRAINS.

The Buick rear axle and the third member construction, in which the propeller shaft is mounted, takes all the driving strain. The third member connects the rear axle with the transmission through the universal joint at the front end. Struts connect the front end of the third member to the outer end of the rear axle, insuring perfect alignment.

All driving strains are transmitted to and absorbed by the universal joint ball housing. Even if the rear springs were broken, the car would still be driven.

Fans who make their annual pilgrimages to Indianapolis on May 30 for the speedway races will find interest in the announcement that T. E. Myers, general manager of the Indianapolis motor speedway, has come to Europe to enlist entries of foreign racing drivers who are to compete in the third annual international 500 mile automobile race. Myers is scheduled to visit the drivers of England, France, Italy, Germany, and Belgium and anticipates a larger entry list than at any previous year.

HERE'S A TEST YOU CAN TRY OUT THIS SUMMER

East African Tourists Put
Chevrolet Touring
to Task.

Within a few months the fly tents and the cooking utensils will have been strapped on the car and that new species of traveler—the Auto Tourist—will be on his way to live in the open and see the hidden glories of this country as they are seen only in a spy's kind of wandering.

If you chance to be one of them and think that there are many irksome duties connected with primitive living in the open, hark to the tale of a 2,000 mile trip of Mr. and Mrs. L. Blake Jolly in the Broken Hill country of northern Rhodesia, Africa. Mr. Jolly is chief recruiting agent of the Rhodesia Broken Hill Development Company, Ltd., North Rhodesia, Africa.

Even the worst roads you may have encountered are veritable primrose paths of down compared to the bush country in the land of the tom-tom and the teetse-fly. The Jollies encountered every type of annoyance and adventure in their journey of more than two months.

At the time of this trip, the middle of last summer, the Chevrolet touring car they used was the only one in the country and the only one that ever successfully left Broken Hill and got safely through to Lake Tanganyika.

Food for two weeks had to be carried, besides complete cooking and sleeping equipment, while gasoline and extra food had to be sent on ahead by 40 carriers. In addition to the tremendous weight of equipment, four persons were carried in the car through "tracks cut through the brush, full of pits and holes."

The first day out the only road was a native foot-path, at times hardly visible and every few miles a dambo (plain) was encountered, which is very marshy ground with a bog in the middle and which becomes a veritable river in the rainy season. Often a native boy had to be sent ahead to reconnoitre and then the car was piloted through.

Though the diary of the trip contains more than 3,000 words, only the most interesting extracts will be taken.

On July 22, grass from six to seven feet high, intermingled with bushes was encountered to say nothing of ant hills and holes which shook the car to its very limit. The sun was so hot that the gasoline had to be completely covered by the equipment.

On the following day the car became stuck in a bog and it was necessary to send back for a dozen natives to push it out. It never rains but it pours, it is said, and next 12 foot elephant grass was encountered which filled the radiator with grass seed, so that it was necessary to stop every few miles and dislodge the seeds to prevent the motor from boiling.

Later this same day, the party ran across a great bush fire—flames from horizon and only avoided danger by hitting a large patch of ground where the grass had already been burned.

The next day the only thing exciting was meeting a jackal, a wild cat and plynthon crossed their path and a group of baboons with the superstitious natives never kil for fear of bringing bad luck.

"The next day," writes Mrs. Jolly, "my husband went over the car which had extraordinary little the matter with it."

Mrs. Jolly explained in her diary that they often encountered great patches of burnt down timber land. The natives burn down the ground to fertilize the ground a lazy way to prepare the ground instead of hoeing it.

A ratt made of old gasoline can ferried the Chevrolet across a river the next day. Two days later another river was encountered and the wheels of the car went through a bridge up to the axle and it took two hours to unhook the car and get across.

About six miles further the same day a second bridge was encountered, and the same strenuous exercise was needed to get the car out of the rotten timber.

The party camped under Mount Sunza, the highest mountain in northern Rhodesia, after strenuous work on the bridges. In a settlement where they unpacked for the night there were 40 Airedales that were used to hunt lions.

About two days later they struck a bad belt of teetse-fly and all they could do to keep the bite of the dog—the bite of the teetse-fly being fatal to a dog.

The following day the party had to cut down a number of trees and build a 200 foot stretch of roadway. They shot some delicious pheasants for lunch.

For 25 miles the next day the car was hardly ever out of lower gear, as the journey was continually up hill—the sand hills, which made the going most difficult.

During a zebra, walking five miles to him, Myers only to find a solitary zebra, crossing more bushes and finding a sick man on the 100 miles to a doctor constituted the outstanding adventures during the remainder of the trip.

"In conclusion," writes Mrs. Jolly in her diary, "I must pay a tribute to our Chevrolet car. It has been simply marvelous and considering the tremendous loads and the roughness of the country which we have traversed, it is more than a fair test of its power and durability. We have spent extraordinarily little on repairs and it is now in excellent condition after a strenuous trip of more than 200 miles."

AUTO INDUSTRY ENTERS THIRD AGE—H. JEWETT

Stone Age Passes Into
Age of Service, and
Low Cost.

History tells of the Ages, the Stone Age and so on through various phases in the development of civilization up to the present day. Each Age represented a particular period in the development of mankind.

History also shows that in the 25 years of the automobile's existence we have three Ages representing the development of the industry. The first lasted perhaps ten years and was the engineering age, the period in which it was proven to the public that automobiles would run.

Everyone can remember or has heard how they sold automobiles in that age. Remarkable performing qualities or economy were unheard of sales points. The dealer would approach his prospect diffidently with the announcement that here was an automobile that would run from the business district to the man's home without stopping once.

When the engineering period had passed and the automobiles would run without stopping during a few miles trip, the industry entered the second age or manufacturing phase. Here it was that Henry Ford demonstrated that cars could be built more economically and just as good in huge quantities. The brains of the industry were concentrated on finding ways and means of building more cars at less cost each.

It was shortly before this age in the industry that the Paige-Detroit Motor Car Company came into existence.

Andrew Bachle, now vice-president in charge of engineering had designed and built an automobile that would run well and indefinitely which gave promise of being a revolution in motor car construction.

Harry M. Jewett, now president of the company, then a coal operator, became interested, and gathering together a group of his friends, organized what is now the Paige-Detroit Motor Car Company.

It was only three years later that the manufacturing age and its cost lowering clamour struck the Paige Company. A new car, four-cylinder type, that would adapt itself to quantity production was brought out. With the steadily increasing demand for better cars at lower prices, the inherently perfectly balanced six cylinder motor was developed by Paige and the company went into the exclusive manufacture of motor cars powered by this type motor.

The outgrowth of that six cylinder motor is the present Paige today.

Believing that the industry was about to enter another phase in its development, Mr. Jewett decided to create the new age in the industry. This is the age we see today, that of service.

Service is now the sole aim of practically every manufacturer.

In the words of Mr. Jewett, "instead of making drastic changes in the construction of their cars they are striving to reach a point of perfection in their particular lines that will be of the most service to the public."

It was the age of service he foresaw when the new Jewett Six was brought out in 1922, says the Paige president.

"We realized that a six cylinder powered automobile selling in the thousand dollar class would be a sensation," he states. "Our realization came true. Look at the sixes in that price class today."

"The average person today does not want a cheaper car, but one which will show a longer life and a lower maintenance cost. With the great majority of purchasers buying motor cars on the payment plan it is necessary for them to figure the monthly payment and upkeep as well, while paying for the automobile."

TO AID SHOPPERS.

At a cost of \$50,000 a large department store in New York City provides parking space in a private garage for its customers using automobiles. Customers who drive their own cars have their cars driven from the store to the parking garage, and from the garage back to the store by experienced chauffeurs. All cars will be fully insured against liability, property damage, fires, and other contingencies. A check of motor customers shows that there are about 1,000 a day.

Particularly on closed models is the tendency toward more fully equipped cars noted, according to Mr. Matheson. He points out that at the New York show considerably more than 80 per cent of the models displayed had windshield cleaners, approximately 68 per cent of them being actually operated. Snubbers, sun visor, transmission lock, rear view mirror, dome light and heater are some of the other features of equipment to be found on a large percentage of cars today, particularly on the closed models.

"This development has come about mainly in the past few years," says Mr. Matheson. "In my opinion, it is significant because it shows a sincere effort on the part of the motor car manufacturers to effect a saving for the owner, by removing the necessity for purchasing extra equipment at a higher price."

EUROPE LIKES NEW CHRYSLER SAYS REPORT

Authority Brands It The
Best Car Regardless
of Price.

Europe apparently has taken the Chrysler Six to its heart equally as much as has America. Chrysler Motor Corporation officials say, judging from reports reaching them from those countries abroad in which the car has been introduced.

"T. K. T.," widely known Irish automobile authority, writing in the Belfast News Letter, one of Ireland's leading newspapers, has this to say of the car: "I hinted last week that the new American Chrysler was expected in Belfast. It is here, and I have just had a run. I expected to find it a very fine car, but the reports of its performance did it scant justice. On the road I was impressed with the fact that it was the finest car I have ever driven or been driven in, irrespective of price."

"The engine is undoubtedly a masterpiece. Thirty-five to forty miles an hour can be maintained right up the Horse Shoe, which is a fair indication of the car's power on hills."

"The most remarkable part of the car is the fact that were it not that the speedometer is in front of you, when travelling at 40 miles an hour you would feel certain that the speed was no more than 25. And so fine is the suspension that the roughest roads can be travelled over without any sensation of discomfort. At 55 miles an hour into car appears to be just getting into a stride, and there is a complete absence of vibration of any kind. There is not a trace of hesitation when the throttle is suddenly opened to the fullest extent. The speed increase is also steadily maintained over the entire range of throttle opening."

"Readers will possibly have gathered from past references to four-wheel brakes that I am not enamored of them. But I really for the first time enjoyed using the four-wheel brakes on the Chrysler. They are free from all jar and work like velvet. There is a real sense of course. They are hydraulic. Therefore, compensation on account of one of the elementary laws of the science of hydraulics must be perfect. There are no rods to break and rattle; the braking power applied at each wheel must be equal and proportional to that exerted by the fluid compressed. It is comparatively simple to arrange pressure will be applied to the front wheel brakes to afford the fullest retardation effect without danger of locking them, and it follows that once this happy result has been arrived at this adjustment is not likely to alter. In fact, I cannot see how the compensating principle can be deranged. In use these brakes are a revelation of smoothness of action combined with powerful operation. They add to the delight in driving a car that apart from braking ability is quite out of the common."

"One of the big motor car manufacturers predicts that we are going to have a spring shortage of motor cars. I can bring the prediction—there is now a shortage," said A. J. DeGrand, dealer for Hudson and Essex in this territory.

"Spring has come on us all very suddenly. In the last few days the mass of orders which people have been putting off has descended on us. The registration of cars will simply bear out this statement. All the uncertainties about motor taxes and registrations—all the hand-caps of bad weather—are now past, and for whose lines of cars which deserve public patronage the spring rush is on. Motorists who want prompt deliveries of popular cars should take notice."

"Now there are various causes of motor car shortages. One of the ways to bring about a shortage is to shut down the factories and let the demand pile up. Some concerns have done that. But that isn't the reason for the shortage in Hudson and Essex. Probably the busiest spot in Detroit right now is the big Hudson-Essex plant, with many of its departments running two shifts a day and still others three shifts.

"This night-and-day activity follows a winter program of the largest business the plant has ever known. There is a shortage of Hudson and Essex cars simply because the most energetic efforts have not been succeeded in making as many as the public wanted.

"It is general all-around usefulness which the public demands in motor cars today. Nothing freakish is desired in body or chassis. The public asks for reliable transportation at the right standard of prices. When motorists are offered this combination they can be depended upon to buy. Month after month, it is this type of buying which has kept Hudson-Essex in a position of uninterested sales leadership and public demand.

"March will be the largest month we have ever known. The sales so far have been sufficient to prove that, and the last few days has shown a sharp upward trend in demand. This is the first sign of the spring rush. The greatest number of inquiries is for coaches and all types of cars. But for a long time to come the man who thinks of coaches will think of Hudson and Essex."

"This development has come about mainly in the past few years," says Mr. Matheson. "In my opinion, it is significant because it shows a sincere effort on the part of the motor car manufacturers to effect a saving for the owner, by removing the necessity for purchasing extra equipment at a higher price."

"This development has come about mainly in the past few years," says Mr. Matheson. "In my opinion, it is significant because it shows a sincere effort on the part of the motor car manufacturers to effect a saving for the owner, by removing the necessity for purchasing extra equipment at a higher price."

"This development has come about mainly in the past few years," says Mr. Matheson. "In my opinion, it is significant because it shows a sincere effort on the part of the motor car manufacturers to effect a saving for the owner, by removing the necessity for purchasing extra equipment at a higher price."

BOB BURMAN SET MANY MARKS IN A BUICK RACER

Famous Automobile Driver
Broke Several
World Records.

Away back in August, 1909, Bob Burman reeled off 250 m.p.h. on the Indianapolis speedway and finished with the world's record. In March, 1911, at the wheel of the Buick Bug, he set up records for 50 miles and 20 miles at Jacksonville.

Many other records were also made by Buick cars in 1909; 1910, and 1911, driven by such pilots as Chevrolet, Strang, Nelson and Nikrent, and in many cases Buick cars finished first and second in the same races, or swept the entire card in the different events. For example, in April, 1910, Nikrent entered the races at Los Angeles and set up records for 5, 10, 15 and 20 miles in the 161 to 230 inches pistons displacement class, and for 5 and 10 miles events in 301 to 450 inches class. Greater consistency in performance could not be asked for several records made by Buick back in these early days have never been beaten.

Since 1911 Buick cars have not been raced officially, though some racing has been done by a few dealers and private owners. But the consistent showing made by Buick cars in those gruelling tests has had a lasting effect on racing generally, and today practically all racing records are held by cars equipped with Valve-in-Head engines.

The Buick chassis, too, is old in principle, but modern in design. It is the refined product of an engineering department that accepts only well-tried-out principles in material, ideas and contrivances before adopting them to a Buick car.

Buick engineering has been the foundation of Buick success. That is why famous Buicks in the past have been winners in most contests in which they were entered. That is why the modern Buick Valve-in-Head engine produces and delivers to the rear axle more power than any other type of engine of similar cylinder displacement. That is why Buick for the seventh consecutive year was awarded first choice of space at the national automobile shows.

Blinding, swirling sand storms; broken, little-traversed desert "roads" and sharp inclines of seemingly impassable hills were not enough to prevent establishment of a new cross-country automobile road record between El Paso and Santa Fe, N. M.

Sealed in high gear, a Studebaker Standard Six duplex phaeton has just cut an hour and 21 minutes off the former record, established a little less than a year ago by a Dodge. Its 19 hours, 35 minutes is a mark that bids fair to stand for some time. The distance is 362 miles. But there is scarce ten miles of roadway that may be called paved. Broken stretches of rough, desert highway lie between these cities and LaJarda Hill, on the road, has been for years considered traversable only on low gear.

Daniel Vaughan, field representative of Southern Motors, Inc., of El Paso, made the drive. He caused the gears to be sealed in high by representatives of the El Paso Herald. It rolled away at 5:04 a. m., headed up a road never before traversed in high gear by any automobile.

At 3:39 that same afternoon, the car pulled up before the Western Union office in Santa Fe. The seal on the gearshift was still unbroken. In the interval the car had made spurts at 60 miles an hour over the desert, which in this instance means not only shifting sand, but hummocks, rocks and brush-grown, rough, raw land.

Other record runs, the time of which has not been approached by any other car, have been hung up by Studebaker, including El Paso to Los Angeles, Cal., and particularly El Paso to Phoenix and over Organ Pass in high gear, the only time this feat ever has been accomplished.

On this newest record run, anxiety was felt about the ability of the car to conquer LaJarda Hill, to climb which a few years ago on any gear was considered a feat. No car ever had made it in high gear. But Mr. Vaughan reports that it was accomplished with none of the difficulties he expected.

Critical examination of the car at Santa Fe betrayed no signs of any strain or necessity for attention. No mechanical attention was given it en route.

"The difficulties we encountered, and the manner in which this car overcame them, define it as the greatest performing automobile I ever have driven," said Mr. Vaughan as he set off to get out of his clothing and hair the sand which had been pelting into him in the desert.

SPRING CARE.
Positive lubrication of springs may be secured by jacking up the chassis and applying lubricating oil while the spring are thus relieved of their weight. In this condition the spring leaves should be open slightly in a fan shape. It may be necessary to spread the leaves a trifle with a screwdriver, knife, or any thin strip of metal. A few minutes' work with a squirt gun, filled with half kerosene and motor oil, will cut the rust and leave a film of lubricant between the leaves.

FAKE DAMAGE CLAIMS.
Motorists of the northeast have been receiving summons to answer damage charges for accidents where they have never been. The American Automobile Assn. has sent out a warning against such fakes.

James Dotsch Of Garden Is Nation's Youngest Mayor

Garden, Mar. 21 (Special)—Garden has the youngest mayor in the state of Michigan, if not in the United States.

He is James Dotsch, who was elected village president on March 9—his twenty-first birthday. Mr. Dotsch was born March 9, 1904.

The election, and the caucus which preceded it, have been the subjects of considerable controversy here. Opponents of Mr. Dotsch have claimed he was not eligible for the office. Legal opinion, however, seems to support the young man's claims to the job, and the chances are he will serve his term.

Voted at Caucus.

At a village caucus held on February 21, George Joque, whom Dotsch succeeded, received 41 votes and Dotsch received 42. It subse-

quently became known that Dotsch would not be of age until March 9—the day of election, and a dispute arose over the propriety of placing his name on the ballot. It was contended by his opponents that since he had no legal right to vote at the caucus, the result of that balloting should have been a tie. It was also contended, generally, that he had a right to run on slips. A number of legal opinions were collected. Their replies were of a nature to cause the caucus committee to place Dotsch's name on the ballot. Feeling in both camps was a high pitch.

At the election, Dotsch received 64 votes and his opponent 56. The highest number of votes recorded at recent village elections was 25, so that it is apparent that this year's election was bitterly con-

tested. Dotsch and his colleagues on the new board were sworn in last week.

Son of Late Henry Dotsch.

James Dotsch is a son of the late Henry R. Dotsch, well known Escanaba attorney. He attended school at Garden and was graduated from the Garden high school in 1920. A part of his schooling, however, was taken at Painesdale and Escanaba. Immediately upon leaving school he went to Milwaukee where he was engaged in secretarial work for a time. Subsequently, he returned to Garden and taught school one year. Then he went to Flint where he worked in an automobile plant. After the death of his grandfather, John Dotsch, he returned to Garden and has been making his home with his aged grandmother.

He is now a buyer and shipper of livestock and farm produce. He is very popular with the young people of the community, and a leader in sports and athletics. During the past winter he assisted in the organization of several basketball teams, for which he is acting as coach.

CITY BRIEFS

Mr. and Mrs. John Lindstrom left last night for Chicago where they will meet their son, Bernard.

Mr. and Mrs. Herman Gesner have returned from a visit to Hot Springs, Ark.

Mrs. John Carlson, 415 South 15th street, underwent an operation at St. Francis hospital for appendicitis. She is getting along nicely.

People along the way from Manistique to Iron Mountain will be given the opportunity to secure a small pall of "Its-Bet-Er" kraut during the coming week. Watch for the truck as it passes through Mons-Teke Kraut Co. 3910-11.

Mrs. Louise Bowman of Manistique is visiting her daughters, Mrs. Adolph Flink and Miss Flora Bowman, South 8th street, and also came to this city to attend the golden wedding celebration of friends.

Miss Pearl Lacrosse who is an instructor at the Cornell school is spending the week-end at the home of her parents at Perkins.

The Misses Lucille and Jessie Neprohr left Saturday for a week-end visit at Negaunee.

Leave your orders for hemstitching at the Boston Store, Irene Villemure, 3599-81-11.

Mrs. Allen Tyeell of Brampton was among the shoppers in the city Saturday.

Mrs. George MacDonald who has been visiting at the home of her daughter, Mrs. E. J. Ericson, 327 South 12th street, returned yesterday to her home at Republic, Mich.

Mr. and Mrs. Jay Whiting returned to their home at Negaunee Saturday after spending St. Patrick's Day with relatives in this city.

Two truck loads of "Its-Bet-Er" kraut will be distributed between Manistique and Iron Mountain, stopping a short time at Gladstone, Escanaba, Norway and other points along the way. Mons-Teke Kraut Co. 3910-11.

Mr. and Mrs. J. Shank and Wallace Starrine returned to their homes at Akron, Ohio, Saturday evening, having been called here by the death of their father, Mr. Starrine.

J. Lindstrom left last night for a visit at Chicago.

J. E. Johnson left Saturday evening for Chicago on a business trip.

Mrs. Charles Johnston and son, Craig Allen, are spending the week-end at the home of relatives at Manisting.

Word was received in this city announcing that Mrs. A. Faloy who is in Rochester, Minn., at the Mayou Brothers hospital is recovering and expects to return to her home next week.

Mrs. Joseph Lawrence and daughter Marcella of Iron Mountain are guests of Mrs. Margaret Foy, 325 South 9th street.

Mrs. U. Asselin and daughter of Crystal Falls are visiting at the home of Mr. and Mrs. J. J. Corcoran, 88 South 8th street.

Rigid winter days in this latitude make lots of heavy food a necessity, consequently the constitutional reactions of early spring days demand the use of intestinal disinfectants as a precaution against the development of serious bodily ailments at this season of the year. Fresh sauerkraut, eaten often in liberal portions, will be found a valuable first-aid to an overworked and sluggish liver.—Adv. 3910-11

J. O. Bixt of Iron Mountain spent yesterday in Escanaba on business.

B. J. Lane transacted business at Iron Mountain Friday.

C. A. Saxon of Iron Mountain transacted business in the city Friday.

Joseph Sport of Caspian was in the city this week to take his examination as a C. & N. W. switchman.

Mr. and Mrs. A. J. Bandede of Bowling Green, Ohio, will arrive here today for a week's visit at the home of their son, O. I. Bandede and family. They have been spending the winter in South Texas.

Rev. Fr. Forest McGee, O. F. M., a missionary of Cincinnati, O., is spending a few days at St. Joseph's Rectory.

Pupils in the Escanaba grade schools are manifesting deep interest in the "Know Your City" campaign which has been in progress since the first of the month. Many delegates have been sent to visit places of interest about the city where they have collected a great deal of information.

The pupils are writing descriptions of the industries and interesting places in the community which will later be put in book form for the exhibit to be held April 23-24 in the Escanaba Motor Company show rooms.

Get your wood while mill is running. Save 100%. Hardwood slabs \$6.85 per load. Also strictly hard maple rounds and butts. Steele-Wallace Corp. Phone 515. 3860-79-61

CARD OF THANKS.

We wish to express our sincere thanks to all our friends and neighbors for their expressions of sympathy and many acts of kindness at the time of the illness and death of our beloved wife and mother, Mrs. Andrew Peterson. To all who sent floral offerings we are especially grateful.

(Signed) Andrew Peterson and Family.

ELECTION NOTICE.

To the qualified electors of the City of Escanaba, State of Michigan.

Notice is hereby given that the next ensuing Biennial Spring Election will be held on Monday, April 6, A. D. 1925.

At the places in the several Wards or Precincts as indicated below, viz:

First Precinct:—Carnegie Public Library Building, corner of First Avenue South and South Seventh Street.

Second Precinct:—City's Building, in rear of lot, corner South Tenth Street and Fourth Avenue South.

Third Precinct:—City Hall Building, Corner First Avenue South and South Eleventh Street.

Fourth Precinct:—Basement of the Jefferson School Building, Cor. South Fifteenth Street and Second Avenue South.

Fifth Precinct:—City's "Building" grounds of Washington School Annex, Corner First Avenue North and North Sixteenth Street.

Sixth Precinct:—City's Building on the east side of the 600 Block on South Fourteenth Street.

Seventh Precinct:—Fire Station No. 2 on Sheridan Road.

Eighth Precinct:—High School Building Eighth Avenue South.

At which election the following officers are to be voted for, viz:

STATE:—Two Justices of the Supreme Court, full term; two Regents of the University, one Superintendent of Public Instruction; one Member State Board of Education; two Members State Board of Agriculture; one State Highway Commissioner.

Also for the purpose of voting upon the following proposition: Granting authority to the City Council to sell a store and office building known as the Thatcher Building and described as Lot 19, Block 41 of the Original Plat to the City of Escanaba, now owned by the said City of Escanaba.

Relative to Opening and Closing of the Polls.

Sec. 1. On the day of any election the polls shall be opened at seven o'clock in the forenoon, or as soon thereafter as may be, and shall be continued open until five o'clock in the afternoon and no longer. PROVIDED, That in townships the board of inspectors of election may, in its discretion, adjourn the polls at twelve o'clock noon, for one hour, and that the legislative body in cities and villages may, by resolution adopted fifteen days prior to the election and published with the notice of the election, provide that the polls shall be opened at six o'clock in the forenoon, and may also provide that the polls shall be kept open not later than eight o'clock in the evening of the same day. The polls of said election will be open at 7 o'clock a. m. and will remain open until 8 o'clock p. m. of said day of election.

CARL E. ANDERSON, City Clerk.
Dated March 19, A. D. 1925. 81-31

COME IN MONDAY—TERMS IF DESIRED.

SCHRADER'S MUSIC HOUSE

No Other Car Delivers Such Results as These

The real reason for the remarkable Chrysler Six sales record its initial year—a volume of more than 32,000 cars—is its departure from ordinary motor car practice and performance.

Its three-inch motor gives a high speed range from 2 to over 70 miles, combined with gasoline economy safely over 20 miles per gallon.

With a touring car weight, ready for the road, of 2875 pounds, the Chrysler Six can be driven in comfort at 60 miles over rutted roads or cobbled streets. A new type of spring mounting makes it possible to take a turn at 50 miles an hour. Side-sway and road-weaving are eliminated.

The Chrysler Six adheres strictly to the soundest principles. Only the results are radical. You must ride in the car to appreciate what they are. We are eager to give you a Chrysler ride.

CHRYSLER SIX

SPRING ANNOUNCEMENT

WITH the opening of Spring, and four weeks to Easter, the care and attention of the Spring wardrobe forces itself upon one's attention.

At this time let us remind you that our long experience and skilled workmen, together with the improved machinery and methods, enables us to offer you a DRY CLEANING and PRESSING SERVICE that is absolutely unequalled. "GOOD SERVICE" is the law and life of our establishment. Our prices are decidedly reasonable. LET US SERVE YOU. Parcel Post orders given prompt attention.

Ladies' Wearing Apparel

Your Spring Wraps

will soon be needed. Why not send them to us now, let us clean and press, and return them to you LIKE NEW AGAIN.

Phone call brings our auto to your door at the time required.

A dress suit, which has become soiled or pressed, is made to look like new again by our DRY CLEANING AND PRESSING SERVICE.

Skirts Kept New

The frequent dry cleaning and pressing of skirts keeps them neat and clean and makes them hang and drape just as nicely as they did when new.

Your last year's sport coat can be made to look like NEW for EASTER.

A phone call will bring our auto for the garment immediately.

Gent's Wearing Apparel

Have Your Spring Coat Cleaned

The suit you laid away in the Fall will be suitable for wear this SPRING, if sent to us and thoroughly dry cleaned and pressed.

Our service will remove the dust and dirt, take out spots, and stains, and freshen and brighten the fabric so it will look like new.

We will sew on missing buttons and make any minor repairs that the garment may need FREE OF CHARGE.

A Good Appearance

—is a matter of importance to every man. It can be best attained by the sending of your clothes to us at frequent intervals for dry cleaning and pressing, thus keeping your suit looking clean, neat, properly shaped and like new, until worn out.

We'll press out wrinkles and creases; give the material a new-like stiffness, and shape the garments so they will fit as they did when first worn.

RUGS RUGS RUGS

We are now approaching the SPRING HOUSE CLEANING and we want to kindly remind you of the fact that we CLEAN RUGS CLEAN, at 30 Cents per square yard.

WATCH OUR SPECIAL RUG AT NEXT WEEK.

Special! Special! Special!

ALL THIS WEEK, BEGINNING MONDAY, MARCH 23RD, WE WILL CLEAN AND PRESS LADIES' SPRING COATS OF ANY DESCRIPTION FOR THE EXCEPTIONALLY LOW PRICE OF \$1.50 EACH. WE ARE DOING THIS IN ORDER TO AVOID THE APPROACHING EASTER RUSH, JUDGING FROM OUR EXPERIENCE IN THE PAST TWENTY-FOUR YEARS.

Pleating Pleating

We do all kinds of pleating at home. On this kind of work we give you from two hours to one day's service.

PATRONIZE THIS HOME INDUSTRY.

Who Does Your Washing?

Why not send your family washing to our plant, where reasonable insurance when you are away from home is taken in the morning. We wash and iron all your clothes. We do your entire family washing not only at home but at the hotel, and give you economy and convenience. SOFT WATER SERVICE. Family Washing at 15 cents per pound.

Try Our Flat Work Service

See for yourself, by an actual test, just how convenient it is, how much work it will save you, and how little it costs. We wash and iron all your bed and table linen, towels and other flat pieces. This rids you of the largest and hardest and most tiresome part of the week's washing and ironing. We do this work better than you would. We wash the clothes cleaner; make them whiter and iron them with a better finish.

Let Us Launder Your Curtains

Your curtains must be laundered this Spring, if they are to look well all during the Summer. Send them to us, and avoid the bother of doing them at home, and secure better results. Your curtains will be washed very carefully, starched right to hang nicely, and dried perfectly straight and square, with the corners and points perfectly shaped. Give your curtains to our driver.

R-E-M-E-M-B-E-R

We have been established at 703-707 Ludington Street since 1901. Our plant is the most sanitary and complete north of Milwaukee. Our record of reliability is based upon twenty-four years of square dealing with the public. We solicit your inspection of our plant and facilities. We do not experiment with your garments. WE DO—WHILE OTHERS TRY.

The Escanaba Steam Laundry, Cleaning & Dye Works

Free Insurance

WE INSURE AGAINST FIRE AND THEFT. CHARGE NOTHING. WE DO ALL KINDS OF CLEANING, DYEING AND WASHING. WE DO—WHILE OTHERS TRY.

Repair Department

We do all kinds of repairing on Ladies' and Gents' Garments. Relishing a Specialty. All work done by skilled labor only.

Why We Talk About Values!

YESTERDAY--- Somebody asked us, "Why don't you do more institutional advertising, instead of always harping on VALUES?"

Our answer is: We are content to let our *better* dependable quality and *values* represent the institution, for they are the cap-stone of the structure that rests on the solid foundation of good storekeeping.

Value in particular is a word that includes much. It means the *quality* that a store of high standards will alone accept as fitting to its merchandise. It means in fashions, the *style* without which they are valueless.

It means good service—your comfort, even your pleasure in shopping here; and your satisfaction in knowing that promises are kept. (If our friends could know how constant and how untiring are the—to them invisible—efforts to provide courteous, intelligent, accurate service in ministering to their wants, they would be amazed.)

And finally, it means *lowest possible prices* for all these characteristics of excellence; prices that are compassed by our ability to make large purchases for quick sale. And this, again, is based on the greater volume of our business, which the satisfaction of our friends with our store methods makes possible.

Consequently, when this store advertises *values* in women's apparel, men's clothes or any other line or group of merchandise, it is doing the best sort of "institutional" advertising; for the values are only made possible by the institution that is back of them.

Want You to Keep These Facts in Mind When Out Doing Your Spring Shopping.

Real Estate Men Plan To Develop Detroit Section

(By The Associated Press.)
Detroit, Mar. 21.—A group of Detroit businessmen associated with men from other sections of the country and reported to have a financial backing of \$35,000,000 are planning the development of Bagley avenue, Detroit, it was made known here today.
The undertaking is sponsored by the local real estate operators. Among the projects announced as contemplated are a 12-story theatre building to cost \$5,000,000, an 18-story hotel, a recreation building, a 15-story office building, two smaller theatres and a number of retail shops.

Northwest Canada Has Bad Blizzard

(By The Associated Press.)
Winnipeg, Man., Mar. 21.—One of the worst blizzards with the past ten years swept over the prairie provinces yesterday, badly demoralizing railway transportation, telegraphic communications and vehicular traffic.
Many towns were completely isolated.
The storm centered in Manitoba and southeastern Saskatchewan, the wind reaching a velocity of nearly 70 miles an hour in the Brandon district. No property damage or loss of stock has been reported.

American Jews To Attend Dedication Of Hebrew College

(By The Associated Press.)
New York, Mar. 21.—The dedication exercises of the Hebrew University in Palestine on April 1, will be attended by 1,500 American Jews, 500 of them from New York, it was announced here today. In this country simultaneous celebrations will be held by the Jews in many cities who contributed most of the funds for the institution.

New York, Mar. 21.—The St. Lawrence waterway project probably will be undertaken at once if Canada reports favorably on the plan, it was predicted today by James P. Goodrich, former governor of Indiana. Mr. Goodrich, who arrived here yesterday, is a member of President Coolidge's commission to confer with Canada on the plan. He said the commission probably would report before the next Congress.

Educators Meet at Ann Arbor in April

(By The Associated Press.)
Ann Arbor, Mich., Mar. 21.—The thirtieth annual meeting of the Michigan Academy of Science, Arts and Letters will convene here April 1, 2 and 3, bringing together scientists and educators from all sections of the state. The conference will be opened officially Wednesday evening, April 1, when Professor H. H. Bartlett, of the University of Michigan, department of botany, will give the presidential address.

Food Shipments To Rum Runners Seized By Federal Agents

(By The Associated Press.)
New York, Mar. 21.—Rum row is to be starved out if it cannot be defeated by other means. A coast guard cutter, said to be acting under orders from Washington, today confiscated an outward bound yacht loaded with food for the carriers of illicit rum.

Chicago, Mar. 21.—The seventh international dental congress, the first to be held since the world war, will be held in Philadelphia, August 23 to 28, 1925, in connection with the sequel-centennial celebration in that city. It was announced today.
The achievement of dental science in the eleven year gap will be covered at the congress, which represents 42,000 dentists in 29 nations.

MOTHER LOVE IS THEME OF GREAT FILM

That Emory Johnson's new picture, "The Spirit of the U. S. A.," should have as its basic dramatic quality the mother love, and that this quality should be developed into motivation of great sincerity and poignancy is not at all surprising when the conditions under which the director worked are considered.

In his latest F. B. O. release, which will be shown at the Community theatre for two days beginning Monday, under the sponsorship of the Legion post, Director Johnson was surrounded by real mother love. As is generally known, his own mother, Emilie Johnson, wrote all of the stories which her son so brilliantly translates to the screen. And in this instance, with a peace idea for a background, Mrs. Johnson has risen to heights of drama which have seldom been equalled.

In addition to his continual association with his mother, Mr. Johnson had cast Mary Carr for the leading role, co-starring with Johnnie Walker. Mrs. Carr is herself the mother of six fine children. That she is able to delineate a mother role herself, all the more so, is known to those who did not see her splendid performance in "Over the Hill." And in "The Spirit of the U. S. A.," encircled as she was with an atmosphere thoroughly in keeping with her part, she is said to give an even more marvelous interpretation.

BELIEVE WAY TO OPERATE PLANT FOUND

By making certain minor changes and by installation of a type of air lift pump together with careful and consistent cleaning of tanks, the sewerage disposal plant may be operated for some time to come at the minimum of expense and without any objectionable nuisance, according to the present belief of the city administration.

City forces are completing the work of disposal of waste at the plant, undertaken a few weeks ago, and have already removed objectionable causes at the plant and are now performing final work of thoroughly cleaning out walls and slopes of the tanks.

Through this work it has become possible for the administration to obtain a thorough knowledge of the design and operation of the tanks and to work out some plan for immediate use.

Forester Court Meets on Tuesday

Regular meeting of Sacred Heart Court, Catholic Order of Foresters, will be held Tuesday evening at the regular hour at All Saints' parish hall. All members of the court are requested to be present.

Commissioners to Meet Monday Night

Regular meeting of the Gladstone city commissioners will be held Monday evening at the usual hour in the council rooms of the city hall. A number of important matters will come up for consideration.

A canary that sings and then ceases to sing until it is fed, is owned by a New Zealand man.

Rem It the Classified Way.

CITY BRIEFS

The social meeting of the Ladies' Auxiliary to the Brotherhood of Railroad Trainmen held at the home of Mrs. Milton Call Friday evening was very well attended. After a short business session a program of cards was enjoyed followed by a delicious lunch. Mrs. Leslie Davis, won first honors in the card games, Mrs. Joe Pryal of Escanaba, second, and Mrs. J. L. Chase, consolation.

GOOD FILMS BOOKED FOR THE LYRIC

The Lyric theatre announces that the offering today is the William Fox production "Ports of Call," starring Edmund Lowe. The picture is said to possess an unusual variety of stirring and dramatic scenes. It includes the film and the play "The Green Beneath" and the blue above—and dash, danger and life—and love!

"Ports of Call" has run through it a love story which the producers believe will charm every audience. Nor has the sweep of action been permitted to diminish from the beginning to the surprising end of the tale, according to reports received.

"Flashing Spurs" brings that popular young Western star, Bob Custer to the Lyric theatre Monday and Tuesday. You simply can't afford to miss this blood-stirring, soul-thrilling romance of that far-away land of the Texas Ranger, with "the green beneath and the blue above—and dash, danger and life—and love!"

In this, his second starring vehicle, the youthful star is called upon to ride a mad and dangerous ride, thru trackless space, pursued by a blood-thirsty gang of brutal outlaws—you will see him foil the cunning and unscrupulous villain at every turn. Recent contraband the Lady Fair at the risk of life itself—defend her honor in the face of terrifying odds—make hair-breadth escapes, as though endowed with the charmed life of the proverbial cat. All this—and more, is promised you, if you attend this fascinating, entertaining picture.

Knights of Pythias Will Meet Wed.

Knights of Pythias will hold their regular meeting Wednesday evening at the usual hour in the Pythian hall. All members are requested to be present.

City Budget Being Framed by Manager

Details of the proposed city budget for next year, which City Manager Fred E. Harris has been submitting, from time to time to the members of the city council, will be assembled and presented to the council on April 2. One month's consideration is required by the charter and the budget will be adopted at the second meeting in May. A public hearing will be held on it at that time. Matters pertaining to next year's financial affairs will occupy much of the city manager's time between now and May 1.

NOT SO NUTTY. Wilmington, Del. William Kraus, grocer, coaxed a squirrel down from a telegraph pole by offering it nuts. The squirrel came back daily for its meal. Curious, Kraus followed it one day and found that its nest was in a woods a mile away and that it crawled all the distance along the wires.

HE (after the honeymoon) Both pairs of my socks have holes in them, sweetheart.
SHE—Put on both pairs. The holes are in different places.
London Answers.

Fundamental Transportation

Into the vast and complicated network of Transportation in Michigan have been knit several accessory types of carriers. Yet it is noteworthy that each of these accessory carriers exists only through service by certain of Michigan's 24 Steam Railroads.

Electric railroads get their power from coal. Steam Railroads bring it to them.

Motor cars, trucks and busses use gasoline for fuel. Steam Railroads bring it from far-away refineries—bring, too, the materials for the paved highways on which motor vehicles run.

Not even ships are self-sustaining. Their coal meets them at the railhead.

Steam Railroads are Fundamental Transportation.

On their faithful performance everything else depends.

This responsibility is ever before the Steam Railroad men of Michigan. And they feel they are meeting it today better than ever before.

Does your experience confirm this belief?

Do you appreciate the absolute need of protecting this Fundamental Transportation from further restrictions adding to the cost of service?

Write this association frankly and fully,

Michigan Railroad Association

RIDE ON BALLOONS!

No Matter the Make or Model of Your Car It Will Pay You to Equip Now

Recent records on Full-Size Balloon Gum-Dipped Cords:
The 1,000 mile non-stop economy run at Culver City, California, averaging over 70 miles per hour.
New Mt. Wilson Record—24 minutes, 47.04 seconds.
Pike's Peak Record—18 minutes, 5 seconds.
Toledo to Montreal—760 miles in 19 hours and 59 minutes.
All without tire change—again emphasizes stamina and advantages of Full-Size Balloon Gum-Dipped Cords.

You'll find that Gum-Dipped Balloons save you money. They deliver longer mileage—protect your car from road vibration—reduce depreciation—increase re-sale or trade-in value.

Practically all car makers equip their new models with Balloon tires.

Firestone Gum-Dipping made Balloon tires possible. This special process insulates each fibre of every cord with rubber giving great strength and flexing endurance to the cords. This makes light, strong side walls of extreme flexibility which avoid punc-

tures by yielding to sharp objects that often drive through the stiff, bulky tires of higher air pressure.

Firestone Balloons grip the road even at high speed—holding the car steady and sure on the dangerous curves.

See the nearest Firestone Dealer. Let him show you how easy it is to equip your car—and how inexpensive.

Don't put it off any longer. Begin now to enjoy the comfort, safety and economy of these wonderful tires. **MOST MILES PER DOLLAR**

COME ON, MANISTIQUE.

Residents of the city of Manistique on April 6 will decide whether or not there shall be a general revision of the charter of that city and whether or not a way may be opened for the adoption of a council manager government for the Schoolcraft county seat.

Manistique's major problem is generally agreed, a financial problem and such was the great problem faced by Escanaba and Gladstone. Through the adoption of a council manager government order has been brought out of chaos in the affairs of both Escanaba and Gladstone.

FLAPPER FANNY SAYS

When a girl lets a man buy her only a sandwich, it's a sign she is getting ready to let him buy her meat and potatoes for the rest of her life.

SELL THAT BUILDING.

The proposal of the city administration to sell a Ludington street building owned by the municipality will undoubtedly be endorsed by the people at the election on April 6, when the question will be submitted, as provided by the charter.

A SPLENDID PROJECT.

THE GOOD OLD DAYS.

The Olympic games saw a new flock of athletic records established. Men ran faster, jumped farther, tossed the weights longer distances and swam better.

Two Billion Gold Franes Are Hidden By French People

Paris. According to conservative estimates there are two billion francs in gold coins hidden away in the traditional 'old stalling' of the French people, and if France had this hidden gold at its disposal the country's financial situation would be distinctly improved.

"A Smothering Angel"

BY JANE PHELPS.

LUCILE ADVISES DOROTHY. Chapter I. The day after Reed left Lucile went to the hotel to call on Dorothy. She feared that in spite of her promises it might be she would slip away.

"Don't cry any more, Dorothy," Lucile begged. "You will be ill. You look like a ghost as it is, you are so pale and haggard."

"I don't think I have any more tears, Lucile. I've cried them all away," Dorothy's smile was pathetic. She then told Lucile of the meeting with Bob Harris, of his obvious embarrassment.

"Bob's a goose! He'd no business to act that way, although I expect he was terribly surprised. But Dorothy, have you thought of your rights? You are Reed's legal wife. He has taken no steps to divorce you."

WEEKLY SUNDAY SCHOOL LESSON THE 40 DAYS AND ASCENSION

And as they thus spoke, Jesus himself stood in the midst of them, and saith unto them, Peace be unto you. But they were terrified and affrighted, and supposed that they had seen a spirit.

And he said unto them, Why are ye troubled? and why do thoughts arise in your hearts? Behold my hands and my feet that it is I myself; handle me, and see; for a spirit hath not flesh and bones, as ye see me have.

And when he had thus spoken, he showed them his hands and his feet. And while they yet believed not for joy, and wondered, he said unto them, Have ye here any meat?

And he gave him a piece of a broiled fish, and of a honeycomb. And he took it, and did eat before them. And he said unto them, These are the words which I spake unto you, while I was yet with you, that all things must be fulfilled, which were written in the law of Moses, and in the prophets, and in the psalms, concerning me.

Then opened he their understanding, that they might understand the scriptures. And said unto them, Thus it is written, and thus it behooves Christ to suffer, and to rise from the dead the third day:

IN NEW YORK

New York, Mar. 21.—The God-deas of Chance rules New York. Gambling is in the very fiber of the place. Monte Carlo, Desuville, and Bradley's Club "Florida" can't hold a candle to the adventures in chance to be witnessed in New York.

The game of business of risking money on purely speculative matters starts out at sea. Besides the various card games and other ordinary means of gambling to be found on the big liners, passengers wager on the number of knots the vessel will make each day.

A million dollars a day is wagered here on the horse races, a prominent bookmaker estimates. The bookmakers have "runners" in every office building in New York. These runners are paid a commission of five cents on the dollar for all the bets they bring in, regardless of whether the bets win or lose.

The "Big Book in Holoken" is really the clearing house of all bookmakers in America. It operates direct lines to the various race tracks. Apparently it functions as openly as Wall Street, unafraid of prosecution.

In addition to this there are lotteries in which each participant selects a number and color, a number and color being drawn from a box each week. If you're looking for a bet you can find it in New York, on anything from a poker hand arranged from serial numbers on paper currency or auto license numbers to an investment in a Broadway play.

A British fashion novelty is a velvet shoe, colored to imitate a leopard's skin.

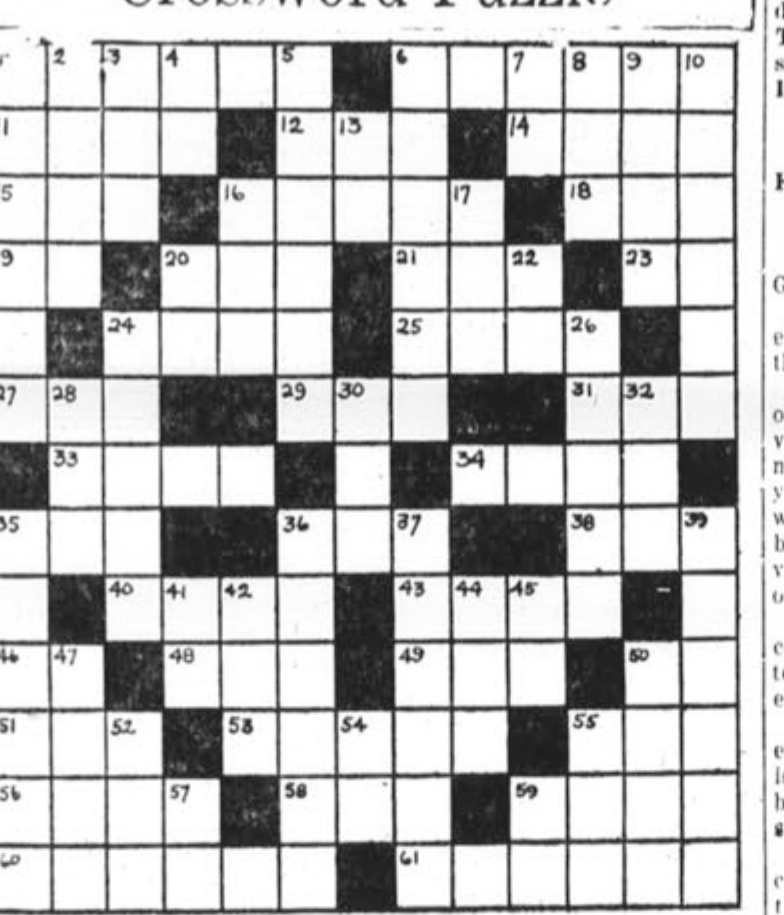

It's Fair to Ask Daddy For Help on One Word

I HAD this whole puzzle almost finished when I found I couldn't get a simple word for help.

So, if you can't get it down, or don't understand what the combination means when you get it through the words going across just ask dad, he knows.

There are a dozen or more pools being operated here in which the participants wager on the combination of numbers in the daily balance of the U. S. Treasury. Likewise several pools operate on a schedule of figures in the daily report of the clearing house.

The International Uniform Sunday School Lesson for March 22: The Forty Days and the Ascension. The Ever-Lasting Christ.—Luke 24: 6-53.

BY WM. E. GILROY, D. D., Editor of The Congregationalist. Where is Jesus? Where is heaven? Where is the right hand of God? Where is God's throne?

These are the questions that inevitably arise in connection with the story of Christ's Ascension. Who can conceive of the glory of the God of this whole universe? Who can dream of the mysteries that lie in the "beyond"? And who can estimate what marvels of association may be between our world and the vast worlds that are now beyond our ken?

There are two theories, or conceptions, of the Bible prevalent today among men and women of equal devotion to Jesus Christ. The one group, sometimes called "literalists" or "traditionalists," holds to the verbal infallibility of the Bible with all intensity.

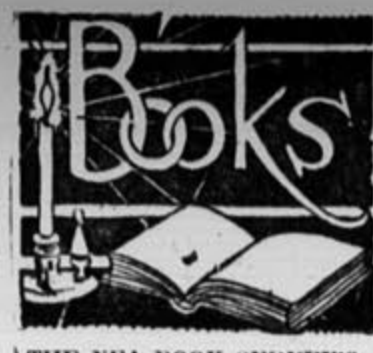

The other group sometimes called "modernists," distinguishes the essential spiritual truth of Scripture from the mass of detail. The latter group finds a human element in the Bible. In fact to many it would have seemed amazing that traditions should not have grown up around so wonderful a life as that of Jesus of Nazareth.

MILK---Nature's Masterpiece

When Nature undertakes anything she does it well. In producing milk, Nature gave to mankind a masterpiece unmatched. Concealed in its snowy whiteness is found the very essence of life, health, and beauty; The curves and dimples of laughing babyhood; The plump, rosy cheeks and rounded limbs of happy childhood; The strength, virility and alert mentality of vigorous manhood; The clear eyes, velvety skin and incomparable beauty of fair women. As a nation we owe it to ourselves to increase our consumption of this Miracle Food. As distributors of the highest quality pasteurized milk we have assumed the responsibility of guaranteeing to our customers, at all times a milk that is safe, rich, clean and sweet.

THE NEA BOOK SURVEY'S 10 BEST BOOKS OF 1925

God's Stepchildren—Sarah Millin. The Constant Nymph—Margaret Kennedy. The Pheasants—Ladislav St. Jeannot.

Prisoners—Franz Molnar. "Annette and Sylvie"—Romain Rolland.

Tales of Hearsay—Joseph Conrad. O'Mally of Shanganagh—Donn Byrne.

Orphan Island—Rose Macaulay.

A Typewriter

In the home is a convenience that is almost a necessity.

There is usually some home work that a machine is needed for, both business and social; also for the student who desires to keep up class work.

We have all makes of rebuilt guaranteed to satisfy you. If you wish you can pay while you ride—the keys.

Office Service Co. Escanaba, Mich.

Soundings—A. Hamilton Gibbs. The Matriarch—G. B. Stern.

BY THE NEA BOOK SURVEY

Of foremost literary importance this week are:

Franz Molnar's first novel, "Prisoners" (Bobbs-Merrill); "O'Mally of Shanganagh" (Century) another charming tale from the young Irish-American, Donn Byrne, and May Sinclair's "Rector of Wyck" (MacMillan).

Molnar's book has Budapest for its setting and there is a romantic pastry shop patronized by students; a cream-puffy little cashier; a student-lawyer in love with the prison warden's daughter and many minor characters. And there is a sometimes wistful, sometimes ironic story of the pretty cashier who robbed the cash drawer to get enough money to buy a dress for a party she was to attend with the young lawyer. This brings romance when he defends her and a lot of Molnarian philosophy and comment creep across the scene. It's a book for all tastes.

Donn Gyne's "Messer Marco Polo" has been read by this reviewer at least eight times. Now he introduces the wistful and tragic tale of the aristocratic O'Mally, given to drink in his old age. And it is related how he had loved the young nun; how he did not know she had taken the veil and induced her to run away and marry him; how her conscience drove her back leaving him an old man to drink and forever to carry the ashes of dead romance. It is reminiscent of Marco Polo and his glorious Chinese maiden. It is all visioned as only a poetic Irishman can vision things.

Miss Sinclair's book is about a rector whose goodness comes almost to haunt him. It might be called a companionbook to "The Cure of Souls." In this volume will be found none of the psycho-analyzing that some have objected to in Miss Sinclair's writing. To this reviewer she is an artist of first rank, whatever her subject.

If anything, he resents her present character as "too darn good."

Into the midst of prevalent discussion of the church and religious discontent has just been tossed a novel which, like April Fool candy, contains much disillusion beneath its sugar-coated surface.

It is "The Faith of Our Fathers" (Harpers) and it is written by Dorothy Walworth Carman, of New Jersey, who is the daughter of a clergyman well known in many sections of the country. It seems inevitable that much she has written has been lifted from her life and experiences.

And though it comes treading on padded feet it is a book to blast the very spires from the churches of Main street, or County Lane, or Boulevard.

To begin with the villain of the piece, it villain it can be called, is "church politics." In the 315 pages we can see two fine spirits in the process of being slowly crushed by the "church politicians." One of these is Daniel Bloom, a country preacher and humble follower of "the faith." With Christ-like meekness he goes about his way to eventual defeat, but not before the author has pictured a scene at an annual conference which is likely to be buzzed about in many a vestry room and Ladies Aid Meeting.

High, son of Daniel, follows his father. But he is a young and fiery church orator and he soon finds himself going into the pulpits of the cities. But in the end, too, is broken and we leave him in just such a place as his father had occupied and at just about the age his father had been at the opening of the book. We are left to conclude that the cycle will be repeated.

It is all done with gentle humor and sympathy—yet, somewhat, it seems that we have been watching a spiritual crucifixion.

Several weeks before the death of Dr. Sun Yat Sen, "China's Man of Destiny," a biographical monument had been erected to his memory by Judge Paul Linbarger, for years a close personal friend.

It is "Sun Yat Sen and the Chinese Republic" (Century) and in addition to the colorful and thrilling nature of the life story, this is an absolutely unique book. The uniqueness lies in the fact that it goes into the private life of a Chinese. There is nothing harder to pry loose. To get detailed facts out of a highborn Chinese is as difficult as entering the "hidden city."

Judge Linbarger has done this and thus gives us a history of present-day custom and life that holds far greater interest than half the fiction of the season.

A representative of a London charity society says that "good beggars" average more than \$4 a day.

FARM FOR SALE.

213 acres at Kates Bay, known as the Bally Farm. One hundred acres under cultivation. Balance well timbered. Good hip roof barn, granary and other buildings. House in fair shape.

WOMAN'S CLUB OFFERS PRIZES FOR HISTORIES

Students Will Write Sketches of Upper Peninsula.

History sketches of the upper peninsula of Michigan, written by local high school freshmen, are to be entered in a prize competition arranged by the Escanaba Woman's Club.

The contest was arranged for the purpose of stimulating interest in the romantic story of the upper peninsula region, and to encourage high school students to study the subject.

The papers must contain no fewer than 1,000 words nor more than 1,500 words, the club announced yesterday. They must be written in ink on one side of the paper only, and they must be in the hands of the club's committee on or before April 5.

Judges will be a committee of three Escanaba men and women, and there will be cash prizes for first, second and third place.

Teachers in the English and history departments of the high school are cooperating with the club, and interest in the contest is said to be keen.

ST. FRANCIS HOSPITAL. Mrs. Thomas Corbett was admitted as a medical patient.

Saul Spellmacher was admitted for treatment.

T. M. Judson was admitted for treatment.

Kenneth Norman, of Trenary, submitted to an operation for appendicitis and is doing nicely.

Royal Camps, of Nahma, underwent an operation for appendicitis and is resting easily.

George Rivas will go home today, having sufficiently recovered.

Miss Mildred Embs will return to her home today.

Miss Grace Gardner is doing nicely on an operation and is being nicely.

Mrs. Theodore Roberts, who is a surgical patient, is resting easily.

Charles W. Byrne was admitted for treatment.

The stork has been very liberal with girl babies this week, all babies at the hospital having been girls.

Mr. and Mrs. Jay Kleiber a daughter.

Mr. and Mrs. Morris Flynn, a daughter.

Mr. and Mrs. Carl Pearson, a daughter.

In 1890, the total annual income of all missionary societies was \$4,000,000; in 1900, it had increased to \$20,000,000; in 1923 the total was \$70,000,000.

JURORS PICKED FOR APR. TERM

Jurors for the term of Delta county court which will open April 20, were drawn yesterday at the office of George E. Harvey, county clerk.

The list follows:

Escanaba—John Fitzharris, Wilfred Belanger, Maurice Call, A. E. Peterson, E. M. Richer, William P. Kelly, Louis Linden, James Belland.

Gladstone—A. C. Miller, John M. Olson, Fred Blanchard, Isaac Wood, P. J. Lindblad, Andrew Erickson, Alex Hyland, A. G. Anderson.

Townships. Baldwin—E. B. Mann, Phillip Beauchamp.

Bark River—Ed Philon, Arthur Bondreau.

Brampton—Joseph Devet, Elmer King.

Bay de Noc—Christ Larson, Andrew Hanson, Jr., Cornell—John Ring, Wallace Campbell.

Ensign—Maurice Schaul, Julius Papineau.

Escanaba—Henry Richer, Fairbanks—Ole Follo, Ford River—Julius Flath, Garden—Andrew Cooper, Maple Ridge—Charles Carlson, Masonville—Henry Martin, Sr., Nahma—John Sheedio, Wells—Tom Jones.

It Is Wise Economy To Choose the Oakland Six In buying an Oakland Six your first economy is in its low purchase price. And you will find this to be wise economy. You can see for yourself what big, generous value you get for your money. Next you economize on upkeep costs. Any Oakland owner will tell you how thrifty his car is with gas and oil—how easy on tires. You economize further through the long life and stamina resulting from Oakland's correct design and advanced engineering. Confirm these facts by inquiries. Drive an Oakland Six yourself. Make any tests you like. We extend you an unqualified invitation. Remember, too, that General Motors' Time Payment Plan saves you money. Touring Car \$1095 at factory Glass enclosures at small extra cost. Peninsula Oakland Co. L. K. Edwards, Pres. 613-615 Ludington St. WINNING AND HOLDING GOOD WILL OAKLAND PRODUCT OF GENERAL MOTORS

Paige-Jewett Engineers Offer NEW Smoothness—Ability—Comfort Beauty—Silence—and Permanent Perfected Performance

Already—the motor-wise have learned that all this is true. They have learned that these two cars—the New Paige and the New Jewett—possess a combination of qualities never before produced—permanent qualities. New power results have been engineered without enlarging the ample-size motors. Yes, and without "speeding them up." New smoothness and silence have been created with costly balanced crankshafts, silent chain drive for pump and timing shafts, and many other engineering refinements. And—Fear No Follies—the motors are sixes. Because we, like the engineers of the world's costliest cars, can find no abler, smoother, sturdier type. Inherently balanced, amplified for their jobs, they serve long and economically. More cylinders would only complicate them—reduce efficiency—increase expense to you. New riding ease comes from springs specially designed to get the full comfort of balloon tires. And permanent steering ease is produced by ball-bearings and special gearing that offset balloon tire friction. The New Paige and New Jewett possess performance which can fairly be called perfected. Jewett gives it to you in a car of convenient size. Paige in a bigger car with the added advantage of greater size and power. As you experience this performance you realize that there is no step beyond it today. And it has been produced along proved lines—not experimental. We have retained the fine engineering features which our years of use have proved permanently satisfying. The Paige-Jewett saw-blade steel clutch that engages so softly and with Paige-Jewett transmission makes gear-shifting effortless. And practically noiseless even in shifting from high to second at 30 miles an hour! The steel universal joints with sealed-in oil lasts for 15,000 miles and postpones wear a back-lash many years. These and many other features proved millions of miles' service, could not be better. All these new advantages cost you nothing more. Paige and Jewett prices have not been increased. Judged by comparable cars—the New Paige and the New Jewett underpriced \$150 to \$200.

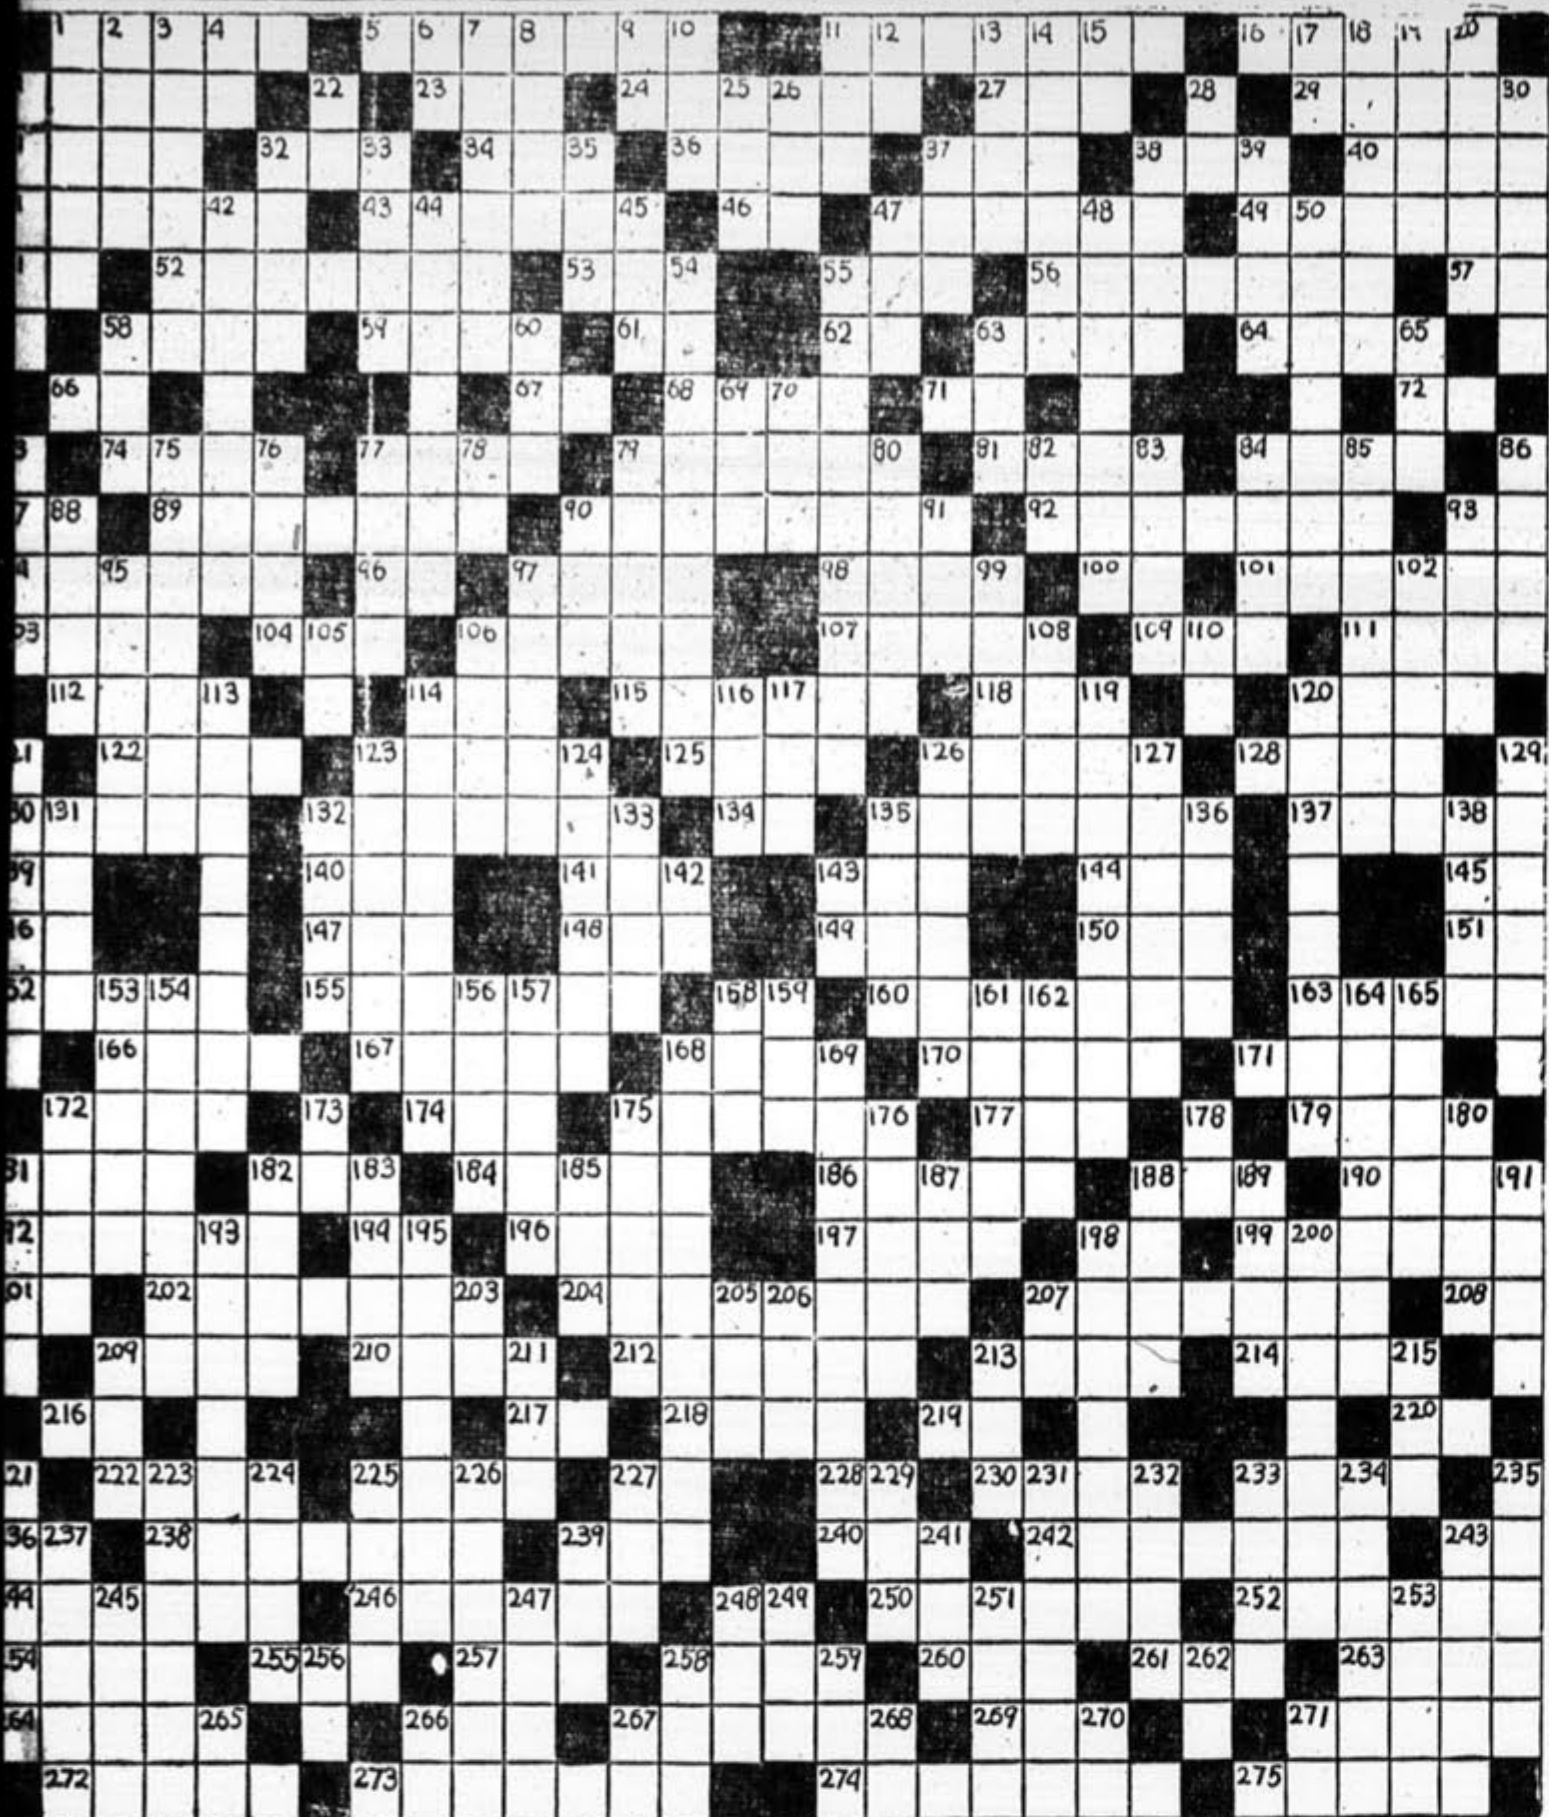

The new PAIGE Improved 70 horsepower motor—3 3/4" x 5" ... New dynamically balanced crankshaft ... New larger water circulating pump ... New increased radiator capacity ... Silent chain drive with automatic takeup ... Wheelbase 131 inches ... Rear springs over 5 feet long ... New design springs for balloon tires ... Shock absorbers at all four wheels ... Five balloon tires 33x6.75 ... Perfect self-adjusting 4-wheel brakes (Lockheed hydraulic) at slight extra cost ... New steering gear for balloon tires ... New colors—gray and green ... More beautiful bodies ... New riding comfort ... New handling ease ... New performance flexibility ... New complete equipment included at these prices. The new JEWETT New 55 horsepower motor—3 1/4" x 5" ... New counterbalanced crankshaft ... New silent chain with automatic takeup ... New silent valve gear ... New lubrication of pistons ... New double bearing wrist-pin construction ... New type interchangeable main bearings ... Perfect self-adjusting 4-wheel brakes (Lockheed hydraulic) at slight extra cost ... New larger size balloon tires 31 x 5.25 ... New spring design for balloon tires ... New steering gear for balloon tires. New deep crowned fenders—extra strength ... New style running boards—2 in. lower ... New body styles—Touring, Brougham, Sedan ... New permanent lacquer finish in new colors ... New instrument board and window trim ... New comfort positions ... New interior fittings and appointments ... New handling and riding comfort ... New performance and smoothness.

Standard Touring (5) \$1315—De Luxe Touring, \$1435—Coupe (3) \$1160 Standard Brougham (5) \$1535—De Luxe Brougham, \$1675—Standard Sedan (3) \$1720—De Luxe Sedan, \$1925. Above prices delivered and tax paid.

 - To complete.
 - Half an on.
 - Printers measure.
 - Sun God.
 - Diminutive for papa.
 - Toward.
 - Second note in scale.
 - Sixth note or minor note.

PRESIDENTS OF PAST GAVE OLD FRIENDS JOBS

Men Whose Ability They Know Intimately Always Favored.

BY DAVID LAWRENCE

Washington, Mar. 21.—The murmurs of disapproval which here and there are heard in political quarters to the effect that President Coolidge has again chosen a friend and a New Englander for the cabinet are exactly in line with what has been heard in other administrations.

First there was the "rough rider bloc" in the Roosevelt administration. Then President Wilson began the "Trenton, Princeton and New Jersey bloc" in making appointments. President Harding was criticized for the selection of men from Marion and other points in Ohio, his native state.

Those Men He Knew.

Mr. Coolidge was perplexed in making an appointment to the attorney generalship to succeed Harry Daugherty. He knew Harlan F. Stone from Amherst days. He felt he could rely on him absolutely. When the time came to name a man to the supreme court of the United States, he turned to his personal friend again. Mr. Stone had had no record in politics but Mr. Coolidge felt he was equipped for the bench.

When the senate turned down the nomination of Mr. Warren of Michigan, the president felt back to his New England friends again and chose Mr. Sargent of Ver-

mont. Now the politicians are saying there were other great lawyers available in other sections of the country whom Mr. Coolidge could have chosen and kept party spirit alive. Politicians don't like to see cabinet places go to personal friends of the executive when they think they have done so much to win his nomination, if not his election.

Same With Others.

The plight of the president in this instance is exactly like that of other presidents. They have been urged to recognize party service, but they have been compelled again and again to turn to men whom they knew personally.

Mr. Coolidge thought he was recognizing party service in selecting Mr. Warren. But he was compelled to make a personal choice after all.

Few presidents know of their own knowledge the abilities of public men available for appointment to the cabinet. They have to take the word of others. That's why they like to pick men they have known. Mr. Wilson's circle was narrowed to his Princeton friends as is Mr. Coolidge to his Amherst friends. From such friends a peculiar loyalty is expected entirely apart from political support. It is not confined to parties. Just the other day, Mr. Coolidge appointed Alfred P. Dennis, a Princeton graduate but an old friend who taught in Northampton in the days when Calvin Coolidge was unknown. They became friends then. The Tariff Commission needed a democrat. That's how Mr. Dennis came to be chosen.

Loyalty and Service.

The late President Harding picked for comptroller of the currency, D. R. Crissinger of Marion, Ohio, although he had always been a democrat. One of the bitterest disappointments in the life of President Wilson was the failure of the senate to confirm Thomas D. Jones of Chicago, a

Princeton colleague and intimate friend, to be chairman of the federal reserve board. There was no question of fitness involved but Senator Reed of Missouri, democrat, made the same fight then more or less that he made against Mr. Warren. He claimed Mr. Jones' connections with the so-called harvest trust disqualified him and the senate did not back up Mr. Wilson although he had a working majority.

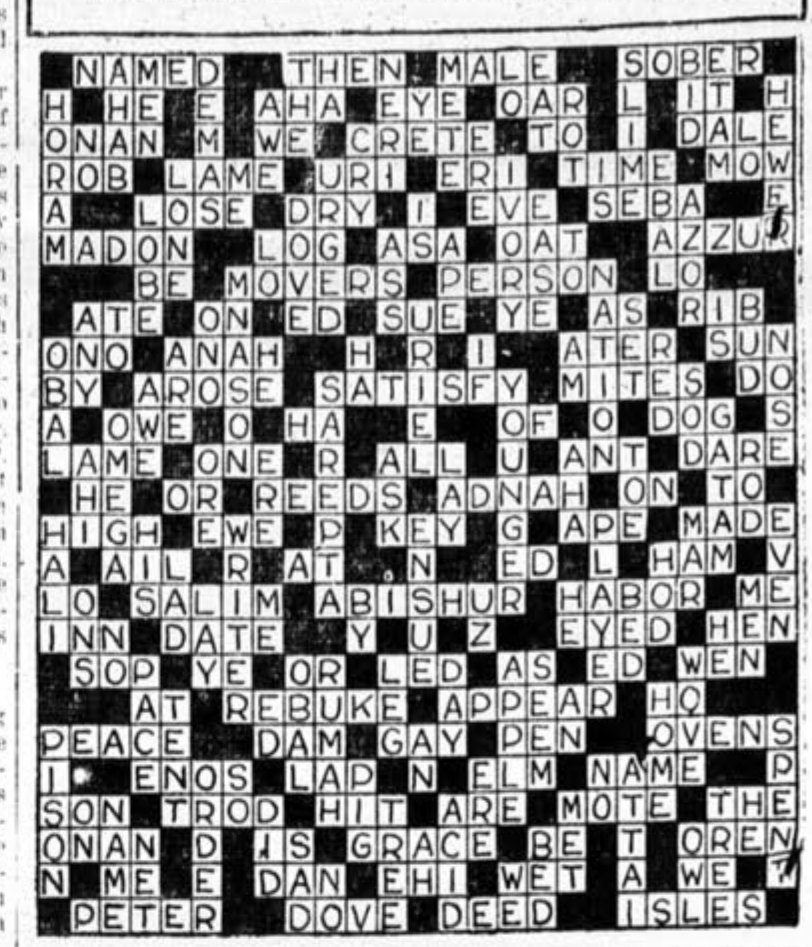

Personal loyalty or political service—what's the question every president faces. And Calvin Coolidge is going the way of his predecessors, picking the

men he can personally vouch for in every particular.

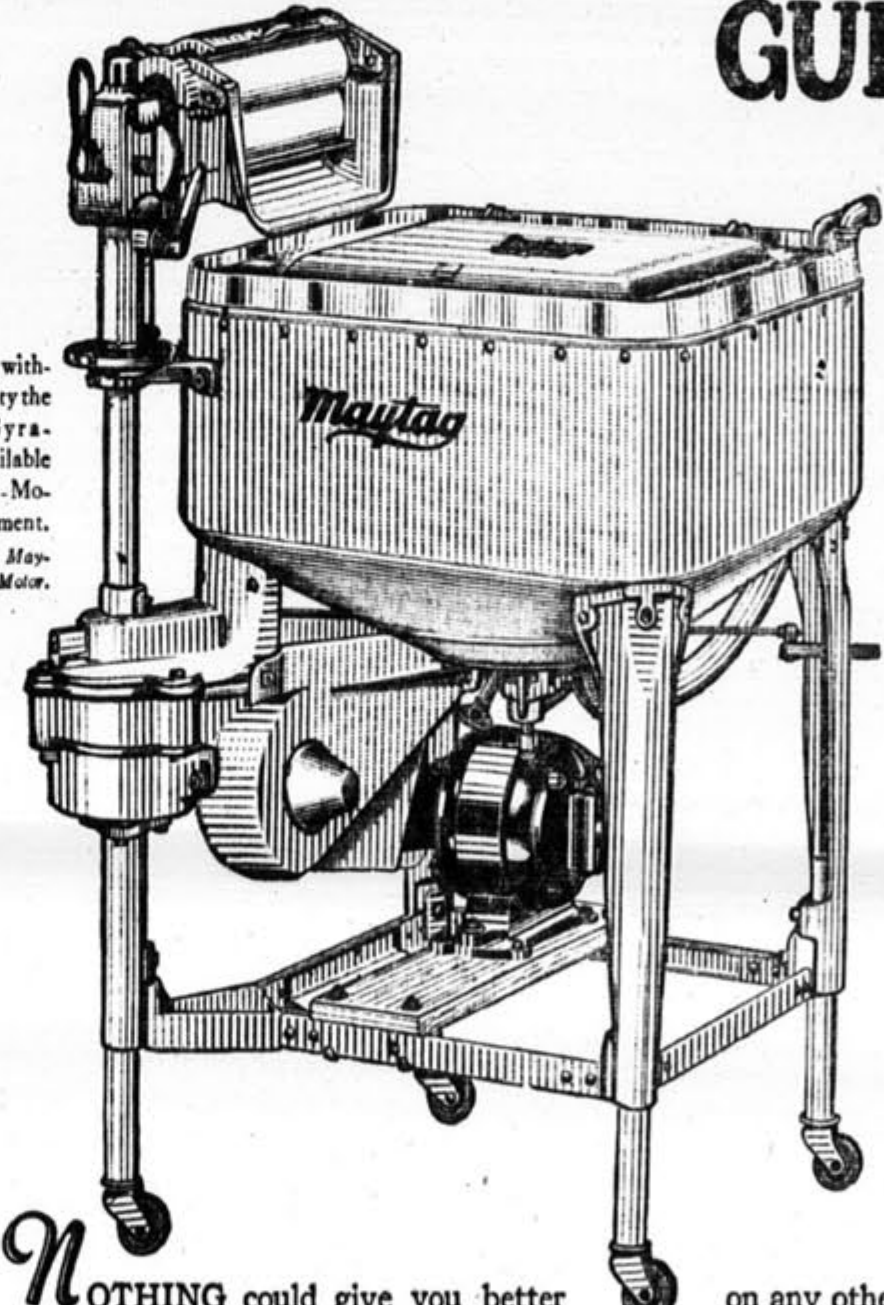

Yelland and Harvey Leave for Lansing

Probate Judge Judd Yelland and County Clerk George E. Harvey will leave tonight for Lansing where they will continue the preliminary work of the Escanaba Chamber of Commerce in behalf of the primary school apportionment measure now known as the "Bohn-Farrier" bill. The bill has passed the senate and will be voted upon in the house within the next ten days or two weeks.

ANSWER TO LAST SUNDAY'S CROSSWORD PUZZLE.

Let the Simple TRUTH told by the Washer Itself GUIDE Your Purchase

9 Outstanding Maytag Features

- 1—Washes faster. The Gyrafoam Principle creates a more highly energized, turbulent and continuously effective water action. No idle water.
- 2—Washes cleaner. The Gyrafoam Principle mixes the soap evenly through the water, and forces the super-cleaning, sudsing washing solution through the meshes of the clothes. No idle suds.
- 3—Largest hourly capacity in world—50 lbs. ordinary family wash per hour.
- 4—Most compact washer made—takes floor space only 25 inches square.
- 5—Cast Aluminum tub—can't warp, rust, rot, swell, split nor corrode.
- 6—Easily adjusted to your height, and height of tubs.
- 7—Clothes can be put in or taken out while washer is running.
- 8—Tub cleans itself in 30 seconds.
- 9—Metal swinging wringer. Low. Swings into 7 positions. Adjusts itself automatically for handkerchiefs or blankets. Automatic drainboard. Instant tension-release. All parts enclosed.

9 Reasons for World Leadership

NOTHING could give you better realization of the Maytag's remarkable performance, its features, its construction, its intrinsic goodness, than this simple test: Wash with it in your own home.

There—undisturbed—you can judge the Gyrafoam impartially. There—the washer tells its own story—simply—truthfully. Its ability, its capacity, its speed, its service become an open page to you.

"The Mad Honeymoon" Opens Beach-Jones Engagement At The Delft Theatre Monday

TODAY'S PROGRAMS.

At the Delft Theatre, the mad in "The Mad Honeymoon" made in "The Mad Honeymoon" a comedy in which the star is seen as an American heiress who attempts to dodge fortune hunting British noblemen. Ronald Coleman is her leading man.

At the Strand—"Soft Shoes," Harry Carey's latest adventure, chance to show what he can do along comedy lines. Lillian Haynes, Fred and other notable stars in the cast.

There will be several familiar faces. Miss Sitzer, Guy Beach, and M. T. Jones, of course, have hundreds of friends and admirers here. So has Dudley Miller, who again will be seen in the leading male roles. Frank

Brooks, whose tenor voice has "sold" him to the memories of Escanaba stock fans; John Daul, musical director; Forest Smith, comedian; and Mae Marston, ingenue, are among those whose work already is familiar to Delft patrons.

New members of the company include Hugh Adams and Marian Ashley, who are to be seen in character roles. Barbara Gordon, Hilton Ford, and others.

Comedy Drama First.

The engagement will open Monday night, with a brand new comedy, "The Mad Honeymoon." It gives Miss Sitzer one of the best parts of her career, the management promises. "Sweet 17," a comedy drama which enjoyed a long Broadway run, will follow on Tuesday night.

"Potash and Perlmutter," with Mr. Beach as Abo Potash, will be the Wednesday night offering. Those who saw Mr. Beach as Isadore Solomon in "Welcome Stranger" last season know his "Abo" is something to anticipate with pleasure.

"A Woman On the Jury," Thursday night is the dramatic offering of the week. Friday night Miss Sitzer will be seen as "Pat O'Leary" in "Little Old New York." Saturday night will bring a rural comedy, "Our New Minister," and Sunday, "No. 1 No. Nora," an Irish comedy drama.

Quartette Again.

"The Beach Nut Quartette" is again the featured between-act specialty headliner. Mr. Brooks, Mr. Ford, Mr. Adams, Miss Ashley, and Smith and Marston also will be seen during the week in vaudeville offerings.

The company has had long stock runs in LaCrosse and Fond du Lac during the last year. It will go into the Regent theatre at Muskegon, Mich., on May 3 for an all-summer engagement.

Strand Programs.

William Desmond in "The Sunset Trail," described as a "western wasteland romance," will be shown at the Strand Monday and Tuesday. Associated with Mr. Desmond in the cast are Gareth Hughes, Lucille Hutton, Albert J. Smith, William A. Steele, Clark Comstock, S. E. Jennings, and others well known to western fans.

"Hit and Run," a baseball picture, featuring Hoot Gibson as the "Babe Ruth of the cattle country" will be the principal Strand attraction Wednesday and Thursday. In the cast are Mike Donlin and DeWitt Jennings, whose names are familiar to all followers of the national game. The picture is a comedy, woven around the adventures of a cowboy baseball player who broke into big league company.

Richard Barthelmess in "Classmates" will be seen at the Strand Friday and Saturday. It is a screen version of Margaret Turnbull's famous West Point play, and John S. Robertson has given it an elaborate production. Charlotte Walker, former well-known stage star, has a part in the picture.

FRATERNAL

L. A. to B. R. T.

The Ladies' Auxiliary to the Brotherhood of Railway Trainmen will meet Tuesday night at 7:30 in North Star Hall.

Ladies' Aid Supper.

The Ladies' Aid of the First Baptist Church will serve supper in the church parlors, Third Avenue and 14th St., Wednesday, March 25. There will be a sale of useful articles, and sale will be held throughout the afternoon and evening. Supper will be served from 5 to 8 o'clock or until all are served. The patronage of the public is solicited.

North Star Elects Delegates.

At the meeting of the North Star Society, held Friday evening, the following past presidents were elected to represent the lodge at the bi-annual convention of District Lodge No. 8, S. E. of A., to be held at Virginia, Minn., the first Tuesday of June next.

Delegates: Hugo Larson, Elmer Peterson, Neils Ahlquist, Carl Reinquist, Henry Carlson and Martin C. Anderson.

Alternates: Gust Gustafson, Erick Fredericksen, Fred Swanson and Carl Anderson.

Church Supper.

The Older Boys' Class, under the supervision of Mr. Cheney, will serve a supper at the First Presbyterian Church parlors Thursday evening, March 26, when an excellent menu will be prepared. The proceeds are for the building fund and the boys are planning on going over the town with their share of the work. The patronage of the public is solicited.

Sale and Supper.

The Ladies' Aid society of the Wells church will hold a sale of home work and home-made rag rugs at the Community building at Wells Thursday afternoon and evening. A fine supper will also be served from 5 until 8 o'clock or until all have been served. A large attendance is desired as the proceeds are for a worthy cause.

25 Miles to the Gallon

58 Miles per Hour

5 to 25 Miles in 8 Seconds

Never before has there been an organization capable of producing at anywhere near the low Maxwell price such speed and power, economy and absence of vibration in a 4-cylinder car.

Chrysler engineers have combined with unprecedented smoothness a speed of 58 miles per hour and a flashing acceleration of 5 to 25 miles in 8 seconds.

They have engineered into this motor a gasoline economy of 25 miles to the gallon, and an upkeep economy which brings replacement and repair costs close to the zero mark.

We are eager to prove these Maxwell facts in a demonstration drive.

The New Good MAXWELL

THE FINEST ESSEX EVER BUILT

You Cannot Get Equal Style Performance and Reliability Within Hundreds of Dollars of Its Price

Essex is a totally different type. Its advantages are exclusive because patented. It gives results never before attained in any car:

- Low price, without disappointment in looks or reliability.
- Economy without sacrifice of performance.
- Stability and highest roadability without unnecessary weight.
- The riding ease of large, costly cars. The handling ease of a bicycle. Utter simplicity in design.
- The lowest maintenance cost, we believe, of any car in the world.

A Car You Will Be Proud to Own

These qualities make it the most wanted and largest selling car of its class in the world.

It is the finest Essex ever built. It is the smoothest, most reliable Essex ever built. It is the best looking, most comfortably riding Essex ever built. And the price, because of volume, is the lowest at which Essex ever sold.

Surely you cannot be satisfied with less than Essex offers when its cost is but little more than cars of the lowest price.

Trend In Mountain States Is Upward Says Babson In Survey

Babson Park, Fla., March 20, 1925.—Roger W. Babson today issued another section of his survey commenting on conditions in the eight Mountain States and their relation to the oil industry.

"Crude oil, gasoline and other petroleum products are subject first of all to the law of supply and demand," says the statistician. "If we had a constant supply, prices go up or down as the demand increases or decreases. But the supply meantime is increased by new wells coming in and improved methods of refining and distribution. Owing to the increasing number of automobiles and the widening uses for crude oil, the demand must also continue to increase for some years to come. Therefore, unless some much cheaper or more efficient method of refining is developed, the price can be checked primarily only by new oil fields being developed. This is precisely what happens. The price goes up until it pays to develop a new field. When such a new field is opened up, the price falls until the temporary surplus, which this new field produces, is needed and consumption again catches up with production.

"Oil exists nearly everywhere, the only uncertain point being as to how far one must drill to get it out. In some sections, like Oklahoma which is producing an average of 500,000 barrels per day—the oil is comparatively near the surface, in other sections, like New England, the oil is so deep that it may never pay to drill it; while in the Mountain States oil is deep but drilling is now paying. For instance, these eight Mountain States are now producing about 100,000 barrels per day with oil prices very low. If oil prices advance, it will become more profitable to develop new fields in Colorado, New Mexico, Arizona, and other states, and then a new big area will be producing. This will again force prices down until consumption catches up again with production.

"This means that it is correct to say that Oklahoma has more oil than New Mexico. Both may have identical amounts, the difference lies in the fact that the oil is nearer the surface in Oklahoma and it is unnecessary to drill so deeply as in the case of New Mexico. Then the price of oil gradually increased, until it paid to drill 2000 feet. Drilling 2000 feet brought in an entirely new group of oil fields and production for a while exceeded consumption accompanied by falling oil prices. As the demand increased, the price again rose until it paid to drill 3000 feet. Drilling 3000 feet brought in other new fields and again, owing to the increased production, the price fell. But the demand continued to increase and consumption caught up with production. Then oil prices began to climb until it paid to bore still deeper which brought in a new group of oil fields. Such a period we have just been through. But once again consumption has caught up with prices are going upward. Moreover this upward movement will continue until it pays to drill still deeper—say 5000 to 6000 feet. Such a time will soon come and then the states of Montana, Wyoming, Colorado, Idaho, Utah, Nevada, Arizona and New Mexico will reap a harvest."

Commenting on general business conditions in these eight states, Mr. Babson says the following details:

MONTANA: "Trend fairly favorable. The metal, mining and general industrial conditions report some improvement; the wheat crop showed an increase of 64 per cent; and

power developments and other engineering feats in contemplation. The population only about 500,000 is rather small for such a big state and certain problems facing the state tend to retard its growth.

NEVADA & IDAHO: "Unfavorable tendency persists. The statistics on Nevada are not as good as I wish they were; but considering the 1920 population of only 77,497 the state does exceedingly well. In the Metalliferous mining district the mine labor situation is well balanced, and

indications are that metal mine conditions will continue to improve. While building has slackened for the winter months, residential building continues fairly active. Employment in connection with municipal improvements shows a seasonal decrease. Highway construction has continued to afford considerable work in many parts of the state. Excepting a few of the ore reduction plants, which are closed temporarily, all other industrial plants continue running steadily. Railway shops are working on a five-day-a-week

schedule, with employment in connection slightly reduced. I believe that Nevada will have a better year in 1925 than in 1924. This is also true of Idaho where similar conditions exist, although it must be remembered that the recent wheat crop of Idaho shows a decrease in value of 3 per cent while potatoes and barley also show some decline. Better conditions, however, both agricultural and mining, may exist this new year.

ARIZONA & NEW MEXICO: "Conditions remain fairly fa-

vorable although statistics indicate no rapid immediate improvement. Favorable reports are coming in on metal mining, lumbering and numerous other local industries. Arizona received for its recent cotton crop about the same amount as in the year previous. More truck crops are continually being raised by irrigators and over 5000 acres are now growing lettuce. These states lead in new railway construction while additional highways are opening up new sections. Metal mining, lumbering and other in-

dustries are progressing slowly but steadily. Sheep and cattle raising is still rather inactive but oil prospecting is taking the attention of ranch men in many sections. The test well which the Frisco interests—through the New Mexico and Arizona Land Company—are drilling is creating much attention. If successful—and it is only a question of going deep enough—this may give these two states a great boom.

"These Mountain States, which are somewhat quiet at present,

have grown at a remarkably rapid rate, though still of less size than the other districts. The important thing to keep in mind is that some of the territories which seem rather dull now have great basic strength and should offer excellent opportunities at a future date.

"The Babson chart reflecting general activity shows current business for the country at 65 above normal."

Fortune telling is illegal in Indiana under a law passed in 1917.

THE only oils in Palmolive Soap are the priceless beauty oils from these three trees—and no other fats what-so-ever.

That is why Palmolive Soap is the natural color that it is—for palm and olive oils, nothing else, give Palmolive its green color. It is nature's formula to keep that schoolgirl complexion.

Wash, cleanse, launder with any soap you wish. But when beauty is at stake, use Palmolive, the soap made to protect it.

Palmolive Soap is untouched by human hands until you break the wrapper—it is never sold unwrapped.

Dear Madam:

Present the coupon below to your dealer. Accept from him, please, at our expense, an extra cake of Palmolive Soap with your purchase of three cakes. The coupon entitles you to this special offer.

The clear, fresh skins you see everywhere today prove Palmolive results... a soap made by beauty experts—more than merely soapmakers—to foster fine complexions. 60 years of study stand behind it.

Nothing is hidden in Palmolive Soap. There is nothing to hide. Men don't paint nature in order to improve it. The only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

Now, in justice to yourself, accept this special offer. Present the coupon below to your dealer. He will give you one extra cake of Palmolive Soap with the three cakes you purchase.

Then note Palmolive results on your own skin—and your children's. See what a difference even a few days will make.

This coupon may be redeemed by dealers wherever this newspaper circulates, provided coupon is presented within two weeks from date of advertisement.

Present this coupon to any dealer who handles soap

Purchase three (3) cakes of Palmolive Soap at regular price and receive in addition

One full size cake of Palmolive Soap

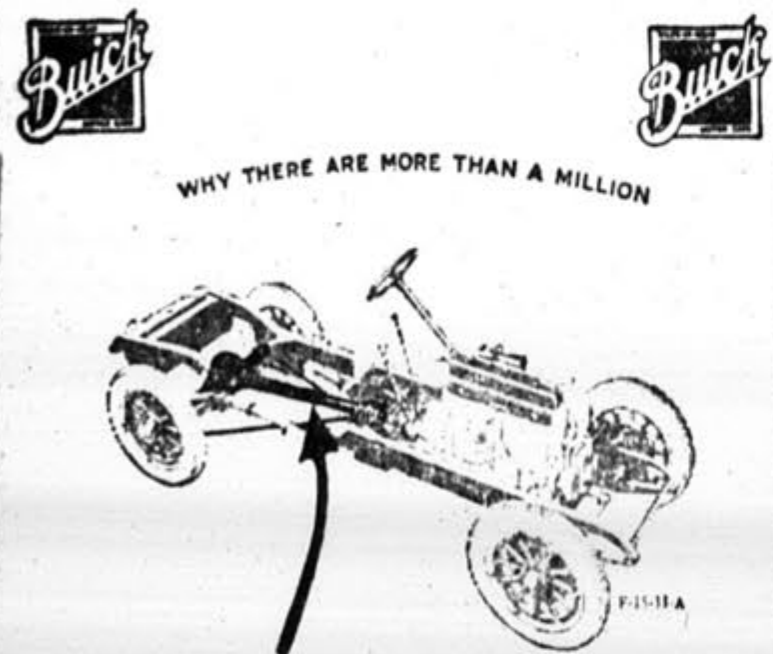

Thus you will secure four cakes for the price of three.

Notice to Dealers: Send this coupon to The Palmolive Co. (Wis. Corp.) 42-60 Fourth St. Milwaukee, Wis.

which will replace the extra cake of Palmolive Soap.

I received from my dealer one extra cake of Palmolive Soap with the purchase of three cakes at regular price.

Buick Torque Tube Drive

The fine engineering in Buick motor cars is demonstrated by the torque tube drive. This is a steel tube which transmits the drive from the rear wheels instead of adding this important duty to the burden of the rear springs. The torque tube also encloses and protects the propeller shaft. This type of construction also holds the rear wheels in alignment regardless of road conditions.

Escanaba Motor Co.

When better automobiles are built, Buick will build them
