

RICH GIVEN LIFE TERM AT JACKSON

AMITY GUIDES NEGOTIATIONS WITH MEXICO

NEITHER NATION WILL SURRENDER ITS RIGHTS.

BY DAVID LAWRENCE

(Copyright 1926, by the Escanaba Press) Washington, March 9.—Mexico and the United States have reached a point in their negotiations which make it possible to say that a friendly understanding rather than an explicit settlement has been developed.

Each of the many cases under the agrarian and oil lease laws will be treated on its merits. Mexico does not surrender its sovereign rights as expressed in her constitution or her December laws to assert her jurisdiction over land owned by aliens. Nor does the United States waive for its nationals the right to express objections to laws that are unjustly executed.

The senate has inquired for the details of the correspondence and some senators want to know, for instance, why Charles E. Warren, former ambassador to Mexico was brought into the matter. The whole story is a simple one. Ambassador Sheffield came to Washington last year and immediately after his visit a statement was issued warning Mexico against its policy of discriminating against American interests. Mrs. Sheffield was held responsible for the issuance of the statement and the criticism contained therein. And when he went back to Mexico City there was some ill-feeling in Mexican quarters about the ambassador's action.

When the dispute broke out again in December Mr. Sheffield had several talks with the Mexican government officials but did not succeed in persuading them to take the argument seriously. Whether it was due to the earlier incident or to the stubbornness of the Mexican officials is difficult to say. But matters grew steadily worse until it was officially admitted that a crisis was being reached. The question of withdrawal of recognition was being agitated.

Warren Assisted. Mr. Warren came to Washington to assist the secretary of state in the preparation of notes. This was because Mr. Warren together with John Barton Payne, former member of the Wilson cabinet and negotiated the agreements which preceded the extension of recognition. But Mr. Warren so far as is known did not appear in the correspondence any more than did Mr. Payne. Both advised the secretary of state who incidentally established a precedent by taking the whole question up directly with the Mexican minister of foreign affairs. The communication was not carried on either through the Mexican embassy or through the American embassy in Mexico City.

This put an element of personal friendliness into the negotiations which is believed to have had an important effect in changing the atmosphere from one of hostility to one of amity.

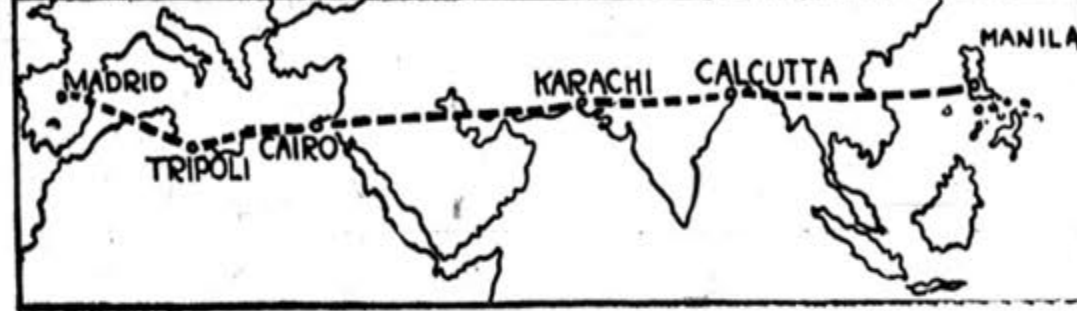

The effect of the correspondence has been to establish the fact that while Mexico has the sovereign right to pass any laws or constitutional amendments she pleases, the United States on the other hand has the sovereign right to express her protests against such acts as affecting her nationals. Also the regulations causing into effect the December laws have not yet been drawn. Some of them may never be. The whole matter resolves itself into a question of what the constitution or the laws of Mexico say but what they actually do. As each case develops it will probably be treated on the basis of international amity rather than asserted rights.

Colonel Coolidge Improved, Report

Plymouth, Vt., Mar. 10.—(AP)—Improvement in the condition of Col. John C. Coolidge, father of the president, was reported tonight. Dr. Albert W. Cram, the colonel's physician, said that pain in the lower abdomen had subsided; the patient was "very comfortable," and there was no immediate cause for alarm. The doctor did not come to Plymouth today, confining his watch over Colonel Coolidge to frequent telephone calls. He will visit him tomorrow morning.

In the past four days, Colonel Coolidge, ill for several months, and with his legs paralyzed by a heart affection, has had considerable more pain. Dr. Cram reported, and his appetite had not been up to the usual standard. But relatives helped to remove his discomfort, and today the appetite improved. Dr. Cram felt that there was no radical change in his patient's condition, but said he would continue his close observation.

SPANISH FLYERS TO TRY NEW ROUTE TO MANILA

Three Spanish flyers are preparing to try a new overland route to the Philippines. The airman are, left to right, Capt. Eduardo Gonzalez, Capt. Rafael Martinez Estevey and Capt. Don Joaquin Loriga. Their route, as shown by the map, runs from Madrid through Tripoli and Cairo, across Arabia and down the Persian Gulf to Karachi, overland to Calcutta and thence in a nearly direct line across to Manila.

Butler Charges Officer of Marines With Being Drunk

FARM LEADERS ARE SATISFIED

Agricultural Relief Measure Is Nearing Completion.

Washington, Mar. 10.—(AP)—With the draft of their bill nearing completion, farm relief leaders of the middle-west expressed satisfaction tonight at the progress they have made since invading Washington a week ago. The house agriculture committee continued hearings today on the plan of the delegation to have the government levy on agricultural interests an equalization fee for insurance against losses on surplus crops.

It was indicated that the bill would follow the lines of the McNary-Haugen measure which passed the house but failed in the senate at the last session, and the Dickinson bill, pending before the committee, with some added features, such as provision for a contract method of placing the cotton crop.

Recover Children's Bodies from River

Ionia, Mich., Mar. 10.—(AP)—The bodies of Ernestine and Gilbert Randall, aged eight and ten, were recovered today from Grand river, where they were drowned Saturday afternoon. Sled marks leading to the river bank revealed the children had slid onto the ice of the river on their sled, and had crashed through the thawing ice. Clam drags were used to drag the river bottom after a power-ice-cutter had been employed to clear the river of ice.

WEATHER

Former Philadelphia Safety Chief Wars on Drink.

San Diego, Cal., Mar. 10.—(AP)—Brig. Gen. Smedley D. Butler, who topped off his war record as a "devil dog" to fight vice and liquor in Philadelphia as head of the police there for two years, continued his crusade against drink here today when he filed charges of drunkenness and conduct unbecoming an officer against Col. Alexander Williams, of the San Diego marine base.

General Butler's action followed a dinner given Saturday evening at Colonel Williams' home in Coronado in General Butler's honor. Cocktails, it is said, were served at the dinner, which was attended by a number of officers of the marine corps and their wives. It is said that General Butler made some comment regarding the cocktails. The charges against Colonel Williams were based on a party which was held later in a hotel in Coronado, all of those at the dinner having been invited.

Physician's Affidavit Needed.

General Butler's charge was sent today to Rear Admiral Ashley D. Robertson, commanding the eleventh naval district here. Admiral Robertson said he would send the charges to Washington for final action by the navy department. Several affidavits accompanied the charges. General Butler and some other officers declared in the affidavits that Colonel Williams was intoxicated. Other affidavits declared he was not. It was said at eleventh naval district headquarters that regulations require that affidavit of a navy physician in such a case. No such affidavit had been filed at district headquarters today, it was reported.

Under Technical Arrest.

Colonel Williams was placed under technical arrest at the hotel and was summarily removed from command of the fourth regiment of marines, to which command he reverted when General Butler relieved him as commander of the marine base a few days ago.

Should the navy department take cognizance of General Butler's charges and order Colonel Williams tried by general court-martial, the board, it is announced, will convene either at district headquarters in San Francisco, or at the marine base. The board, under the law, must comprise no fewer than five nor more than 13 officers, all of them, except the recorder, senior to the officer being tried.

Colonel Williams has had a long and distinguished career in the marine corps. General Butler was not at the marine post today. It is understood that after filing the charges with Admiral Robertson, he left for San Francisco to confer with General Neville.

Gives \$100,000 for Church at Capital

Chicago, Mar. 10.—(AP)—An initial cash gift of \$100,000 toward a memorial church to be established at Washington, D. C., by Presbyterian churches of the United States was announced tonight to the general council of the Presbyterian church in session here. Mrs. Medill McCormick, wife of former Senator Medill McCormick and Republican national committee woman from Illinois, is the donor.

DIVERSION ROW HEARING OPENS

Right of Supreme Court to Hear Case Is Questioned.

Washington, March 10.—(AP)—The supreme court devoted most of its session today to arguments on the question whether it has authority to go into the merit of the quarrel over diversion of water from Lake Michigan to Chicago.

Sustained by all the lake states with the exception of Illinois, Wisconsin contended that it had raised questions within the jurisdiction of the court to decide, while the Chicago sanitary district and Illinois, supported by Missouri, Kentucky, Tennessee and Louisiana, asserted that the diversion was proceeding lawfully under a permit granted by the secretary of war, within his powers enacted by congress.

Baker and Others Argue.

The gravity of the controversy was pressed home by attorneys for the lake states who declared that had such a dispute developed between nations, it might have resulted in war. Counsel for the various states crowded the limited space available for lawyers, but the burden of the argument was borne by former Solicitor General James Beck and Assist. Atty. Gen. Hugh S. Johnson of Illinois for the sanitary district, and by Newton D. Baker, former secretary of war, and Attorney General Ekern of Wisconsin for the lake states.

Navigation Injuries Pictured.

Counsel for the lake states pictured the serious effect upon navigation which they asserted was incident to the present diversion, declaring that 39,000,000 people, interested in industries of the Great Lakes, were opposed by 17,000,000 along the proposed inland waterway from the lakes to the gulf.

They insisted that the present diversion was not in aid of navigation, asserting that there was practically no commerce whatever upon the sanitary canal and challenged the right of the secretary of war to grant the permit under which the water is being diverted.

Jurisdiction Questioned.

Admitting that the diversion had affected the lake levels, counsel for the sanitary district insisted that the court had no jurisdiction. The federal government, it was pointed out, was not at present complaining of the impairment of the navigation of the Great Lakes and Chicago was operating under a valid permit which had been issued after the decision of the supreme court in the suit which the government had brought and in which the court had explicitly stated should not impair the right of the secretary of war to permit the withdrawal of a larger quantity of water than was covered by his first permit.

LEAGUE CRISIS VERY CRITICAL, OBSERVERS SAY

SPAIN, BRAZIL AND JAPAN CAUSING BREAK.

Geneva, Mar. 10.—(AP)—The crisis in the affairs of the council of the League of Nations was considered critical late tonight. Contrary to the somewhat rosy reports given out by some of the members that the situation was "ripening toward an accord," reliable information indicated that three members of the council, Brazil, Spain and Japan, declined today at the unofficial meeting of the council to say that they would vote for the election of Germany as a permanent member.

The greatest gloom prevails among all the delegations, and it is thought that only the master hand of Briand can save the situation, which, in the view of many of the leaders, threatens the very existence of the league itself.

Brazil States Position.

Afranio Mello Franco of Brazil informed the council that he had explicit instructions from the president of the Brazilian republic that if he voted in favor of giving Germany a permanent seat he must simultaneously vote Brazil the same privilege.

According to one report, Mello Franco told the council that if Brazil was not accorded a permanent seat now she would withdraw from the league, but would vote the election of Germany, while she remained a member of the council. Mello Franco refused tonight to confirm or deny whether he had made the latter statement.

The climax of the session came when one member, hoping to get some tangible result from the debate, put the direct question to all members of the council, "are you ready to vote for the election of Germany?"

Spain Maintains Silence.

Brazil answered as indicated in the foregoing, while Count Quinones de Leona, of Spain, refused to answer at all, believing, as a prominent Spaniard said, that "silence is golden."

Japan was also absolutely non-committal, to the surprise of many.

The big powers, who are committed to vote for Germany, by the agreement reached at Locarno, all announce they will do so. M. Paul-Boncour, of France, spoke of "a possibly collapsing league" and warned his colleagues of the dangerous repercussion on Europe of any breakup of the League of Nations. Appeals to the British and French statesmen met with no response and the council found itself, not in the situation of deciding whether states would be given to other states than Germany, but confronted with the possibility that in no event Germany could be admitted unless the demands of some of the other countries were satisfied.

Today's direct action on the German question followed what virtually was a German ultimatum that if Germany did not enter the council alone, Chancellor Luther and Dr. Stresemann would return to Berlin.

Japan Is Cautious.

It is learned that Japan is not necessarily opposed to the election of Germany to the council, but, viewing the problem from another angle would like to know how many members the council will contain before definitely announcing that she will support Germany. Japan wants to be certain whether it is the council's intention to create other permanent seats, so that, reviewing the entire field of candidates, she may select the countries, including Germany, whom she believes best fitted for chairs.

The Japanese spokesman, incidentally, explained tonight that Japan is not under the same obligations as the Locarno signatories to support Germany's candidacy as she did not participate in the Locarno negotiations.

May Ask U. S. Seat.

A bird's eye view of the complicated and dangerous deadlock shows the existence of a fear on the part of the majority of those well informed of Brazil's stand, for it is apparent that if Brazil does not obtain a permanent seat in her own right, she will at least insist on temporarily filling the chair held for the United States.

Leaders seem to feel that both Japan and Spain can be handled properly when it comes to a show-down, with Briand present, perhaps by some definite assurance that Spain will later have a permanent chair, and that China, whom Japan does not desire to fall into the hands of soviet Russia, will find an opportunity to become at least a non-permanent member of the council.

The cause of Poland for a permanent chair, has apparently fallen into the background, with her only hope election to a non-permanent seat in the reorganization of the council.

Nation-Wide Vote on Prohibition Question Proposed in Congress

Washington, Mar. 10.—(AP)—The prohibition question agitated congress again today, with discussions in both the senate and house punctuated by bitterness and laughter.

Centering on the value of a newspaper poll in progress on the question of modification, the day brought forth introduction of a resolution calling for a nationwide referendum on modification. Scriptural quotations, references to George Washington's beer recipe, a recipe for a Manhattan cocktail, a lengthy poem entitled "Ode to a Cherry," criticisms of the activities of enforcement agents, personal exchange between Senator Bruce, Democrat, Maryland, and Senator Glass, Democrat, Virginia, another difference over senate rules between Vice President Dawes and Senator Reed, Democrat, Missouri, and mention of the cost of the congressional record.

Referendum Proposed.

The house expended approximately three and one-half hours on prohibition discussion with most of those present participating at various stages in the attack on and defense of the eighteenth amendment and the Volstead act.

It was during this discussion that Representative Somers, Democrat, New York, introduced the resolution calling for a referendum on modification of the Volstead act, which would be effected through a poll of registered voters in each congressional district by its representative in the house. Ballots and envelopes for the purpose would be furnished each house member. First works in the senate started when Senator Bruce offered for the record, for the second successive day, a clipping giving the latest results in the newspaper poll on prohibition. A wave of laughter swept the floor and gallery.

Wants Editorial Recorded.

Senator Willis, Republican, Ohio, dry leader, thereupon fulfilled a wish that the editorial be recorded.

(Continued On Page Five.)

Menominee Chief Has Jug, But Law States Jug Does Not Exist

Menominee—Prohibition laws and those relating to search and seizure have placed Police Chief Riedy of Menominee where he no longer believes the evidence of his own eyes, and he declares his eyesight is good.

In a big safe in a rear room of the Menominee police station he believes he has a five-gallon jug containing moonshine liquor. The law, however, says he hasn't; that it is impossible for him to have it.

The chief is seen occasionally going into the back room, opening the safe and apparently examining something inside. Then he comes back into the front office, sits on a bench and shakes his head. He is sorely puzzled, trying to convince himself that the jug is not in the safe. His eyes and his reason tell him the jug is there. The law says it isn't. Therefore, he must be suffering from a delusion. He was seen coming from a doctor's office this morning.

If he has that jug, he believes he has evidence on which to obtain a warrant for the arrest of a Menominee beverage shop proprietor, but the law has denied him a warrant, declaring he hasn't the jug, that the jug does not exist, that it simply can't exist.

Some time ago the wife of a seaman keeper came to the chief and complained she was having trouble with her husband. She said he was selling moonshine and if the chief would come to the house she would show him the moon. The chief accompanied the woman home and was shown the alleged jug containing alleged liquor. The chief asked what he declares was the jug and liquor and carried it to the police station. Since then he has been endeavoring to obtain a warrant, but without success.

The law declares the chief cannot get a warrant on his own "information and belief," that he has no right to take the jug without a search warrant and further that a search warrant testifies against the husband, but what is getting the chief dizzy is that the law says there is "no property" in ill-gotten liquor because it does not legally exist. If what he has in his safe is "no property" then it can't occupy space and consequently it can't be there. If the stuff existed, and so long as he can't use it as evidence even if it did exist, he might give it back to the person he believes he got it from, but he can't give back something that "ain't." He can't destroy it, he

CLANCHES TITLE

New York, Mar. 10.—(AP)—Columbia clinched the championship in the eastern intercollegiate basketball league here tonight by defeating Princeton, 46 to 27.

cause it is impossible to destroy anything that does not exist. It was suggested that he try drinking it or letting some of his friends drink it, but if it does not exist, how can he, he asks.

Prophesy Briand's Cabinet Will Last Only Short Time

Premier Leaves for Geneva; Foes Start Attack.

Paris, Mar. 10.—(AP)—With Aristide Briand's ninth cabinet only a few hours old and the formal ministerial declaration still a week away, maneuvers had been started tonight to make its life short. One attack centers on Louis Malvy, who holds the portfolio of minister of the interior.

Deputy Ybarraeray served notice on M. Briand that he would interpellate the premier "upon the presence of M. Malvy in the cabinet."

It likely will be a hard task for the premier to attain a stable working majority, since the nucleus of the left center deputies forming the backbone of his supporters is insufficient and must be reinforced either from the right or the left.

FOUND GUILTY OF ATTACK ON LOUISE KING

JURY DELIBERATES FOR ONLY 28 MINUTES.

Mason, Mich., Mar. 10.—(AP)—Arthur C. Rich was sentenced to life imprisonment in a Jackson prison immediately after a jury in Ingham county circuit court late today found him guilty of criminally assaulting Louise King, 29-year-old coed. A plea for a stay of sentence by defense attorneys, that the state supreme court was taken, the state supreme court was denied. The sentence becomes effective immediately and plans were made by state police and Sheriff Hugh Silsby to rush the prisoner to Jackson.

Jury Out 28 Minutes.

The jury deliberated only 28 minutes. After a brief charge by Judge Charles B. Collingswood, it retired at 4:26 Wednesday afternoon. At 4:56 the foreman pronounced the verdict "guilty as charged." Charles Collingswood took the youthful defendant into his private office for a conference. A moment later they emerged and Rich took his place before the bench to receive sentence. He had nothing to say. The judge pronounced the sentence of confinement "from and including this day for the period of your natural life."

Sentence Jolts Rich.

Rich reeled as though from whiplashes. He staggered and tottered. A deputy sheriff conducted him to a chair. Mr. and Mrs. George Rich, a few feet away from their son, showed an unbroken stolidity of countenance for a moment. Then, as the sting of the sentence penetrated, they broke down and wept. The older Rich, his body racked with unquenchable sobs, had to be assisted from the courtroom. He was taken to a consultation room where young Rich was permitted to join his family for a few moments, under the custody of sheriff's officers. Commitment papers had been made out prior to the conclusion of the trial and everything was in readiness to rush him to the prison where he must, according to the sentence, spend the remainder of his life. The trip to Jackson probably will start early Thursday morning, it was said.

Appeal to the state supreme court for liberty on bond for young Rich pending a motion to reverse the Ingham court conviction and sentence will be made by defense attorneys. It is not likely, however, that an action on such a motion can be had prior to the June term of the high court. In the meantime Rich must remain in prison.

Louise Is Jubilant.

Louise King, the Battle Creek coed, listened to the verdict with a smile. She rushed into the press room where telegraph wires were ticking and talked animatedly with newspapermen. She addressed wires to friends telling of the outcome of the case. The members of the jury filed by one by one and shook her hand. She is going back to the Battle Creek college, she said.

The crowd in the courtroom fairly whistled with amazement when the jury returned in less than half an hour with a verdict of guilty and the judge, in almost less time than it takes to tell, pronounced a life sentence. Long after court adjourned, spectators who had listened to the final arguments all day, packed in like sardines, loitered around the corridors, discussing the case, looking furtively at young Rich or Miss King when opportunity offered and apparently reluctant to desert the inauspicious moral entertainment for trial afforded them. An hour after the verdict, women

BLIMP FALLS; NO ONE HURT

Escaping Gas Causes Inevitable to Dive at Norfolk.

Norfolk, Va., Mar. 10.—(AP)—Escaping gas and failure of her motors caused the army dirigible TA-5 to drop nose first late today into lower Hampton Roads, near Thimble Shoal light.

The three men aboard had narrow escapes, but were rescued without serious injury by the coast guard patrol boat 2314. The crew was composed of Lieutenant Rowland Kribartz, pilot; Technical Sergeant C. J. Johnson and Joseph Winter. Lieutenant Kribartz was first reported badly injured but was found to have been only slightly hurt, after the TA-5 had been towed to Langley Field, where the craft is stationed, by the army tug Reno from Old Point.

Gas Bag Damaged. The TA-5 was observed to be in trouble 20 minutes before she fell and four planes from the naval base here went up to offer assistance but could do nothing. When the ship struck the water, her stern was left high in the air and the gas bag was damaged to some extent.

The ship was 1,200 feet in the air when trouble developed, but Lieutenant Kribartz maneuvered her to within 500 feet of the surface before she went down out of control. She was towed to Langley Field, where she has been used for training purposes, by an army tug, after the accident.

The law declares the chief cannot get a warrant on his own "information and belief," that he has no right to take the jug without a search warrant and further that a search warrant testifies against the husband, but what is getting the chief dizzy is that the law says there is "no property" in ill-gotten liquor because it does not legally exist. If what he has in his safe is "no property" then it can't occupy space and consequently it can't be there. If the stuff existed, and so long as he can't use it as evidence even if it did exist, he might give it back to the person he believes he got it from, but he can't give back something that "ain't." He can't destroy it, he

spectators, red-eyed from tears shed in an overflow of emotion, still tarried in the courthouse. Rich's father and mother also were still there, and Sheriff Hugh Silsby granted his youthful prisoner an extended leave taking.

Four Crimes Charged. The case was given to the jury Wednesday afternoon after a day of impassioned arguments by state and defense attorneys. Judge Charles B. Collingwood charged the jury that it could find young Rich guilty on any one of four counts or could return a verdict of acquittal. In crimes listed in addition to the one charged were assault, assault and battery, assault with intent to rape.

Miss King was as pure when she went out with Rich the night of the alleged attack, as when she was born, he asserted. The issue in the case, he continued, is whether Miss King resisted or consented to the defendant's advances.

Smith Bared Young Rich as a falsifier and a flouter of laws. "He admitted he violated the Volstead act so many times he could not remember. He has no more regard for his oath than for the Volstead act. He deliberately falsified in his testimony."

W. J. Barnard, who presented the defense plea, stormed up and down the courtroom scale as he summed up the argument in behalf of the youthful defendant. "The body of George Rich, father of Arthur, shook with sobs as the attorney drew a despairing picture of the future in store for the young man unless he is given his liberty. He characterized the state's characterization of Louise King as a 'clear-eyed innocent girl,' by branding her as a schemer, a shrewd actress and a woman seeking to reap the shame of a drunken petting party in which she was a willing participant."

Barnard sucked a lemon to keep his throat clear. Time after time he looked his glasses over his ears only to remove and brandish them. He waved a blanket as he described the departure of Miss King and Rich onto the golf links.

"Old, Old Story." They went hand in hand into that dark spot as two silent seekers after truth. It is the same story from the Garden of Eden down.

Barnard ridiculed the story of the prosecution that Miss King left the car with Rich to view the golf course. He shouted that if the testimony is to be believed the Battle Creek college is a "bawdy house."

"This case was manufactured to railroad young Rich to Jackson and to protect Miss King after she voluntarily indulged in a drunken petting party," he declared.

The defense chief charged the Battle Creek sanitarium with being "the power behind the trial."

With merciless thrusts the attorney attacked the testimony given by Jean McBeth and Dorothy Wheeler, former classmates of Miss King's in the nurses college.

"You saw these girls on the witness stand in their artificial complexions. They tell not, neither do they weave, but they go on forever. Birds of a feather flock together."

Continued Work to Find Trapped Men

Essex, W. Va., Mar. 10.—(P)—Officials of the state department of mines and of the Crab Orchard Improvement company, with volunteer workers, were tonight gradually forging ahead in the tedious task of penetrating the distant workings of the No. 5 mine of the Crab Orchard company in an effort to locate two of the five men still unaccounted for, and who, it is believed may be found alive. Twenty-nine men were entombed by an explosion in the mine Monday, and of this number ten were brought out alive while 15 bodies have been recovered.

McNamara Team Is Leading Bicyclists

New York, Mar. 10.—(P)—Reggie McNamara, veteran from Newark, N. J., and his youthful Italian partner, Franco Gergetti, at 10 o'clock tonight held the one-lap lead they had gained in the six-day bicycle race at Madison Square Garden during early today. One lap behind were the Stockely-Gosens and Grimm-Winter combinations, while Walker-McBeath, Egg-Eaton and Coburn-Petri were two laps in arrears.

FLAPPER FANNY says

Settle for \$4,000 While Jury Is Out

New York, Mar. 10.—(P)—While a jury in Brooklyn supreme court was deliberating today on the \$50,000 alienation of affection suit brought by Albert Stone against Charles Z. Weiner, Stone and Weiner settled the matter between themselves for \$4,000. Five minutes later the jury announced that it had decided to award Stone \$20,000. Justice Strong disregarded the verdict and authorized the settlement.

INSTALLS TICKER SERVICE. New York, Mar. 10.—(P)—The Western Union Telegraph company announced today that its stock quotation ticker service between New York, San Francisco and Los Angeles would be put in operation on March 15. Under the extended system, stock, grain, cotton and other market quotations will appear on tickers in San Francisco and Los Angeles a few seconds later than in New York, Chicago, New Orleans and other important points.

### BRITISH COAL REPORT MADE

#### Government Supervision of Industry Is Advocated.

London, Mar. 10.—(P)—State ownership of Great Britain's coal mines, but continuance of their development by private enterprise under government supervision, is recommended in the anxiously awaited report of the royal coal commission. The commission was appointed six months ago to evolve schemes which would put the coal industry on a sound basis and eliminate the constant disastrous disputes between the miners and the owners.

At the same time, the commission declares against nationalization as commended by the miners' federation. The commission's finding on the question of nationalization was perhaps the one in which the whole country was most vitally interested.

Oppose Wage Cuts. The report declares drastic reorganization of coal industry necessary and takes numerous recommendations in a document covering 2,000 pages. The report, which is unanimous, assigned by the chairman, Sir Herbert Samuel, Sir William Beveridge, Gen. Sir Herbert Lawrence and Kenneth Lee. All of these men are prominent in British industrial life, but none of them is associated with the coal industry.

The depression in the industry, says the report, cannot be attributed to the political unrest or restriction of output by the miners or inefficiency of management but it disagrees with the view of the mine owners that the only practicable remedy is to reduce wages, lengthen the hours of work and decrease the railway rates by lowering the wages of the railwaymen.

Cooperation Urged. It says that the way to prosperity lies in three chief lines of advance, namely, greater application of science to the mining and using of coal, larger units for production and distribution and fuller partnership between employees and employers.

With respect to nationalization, the members of the commission say they see in it "grave economic dangers;" they contemplate accordingly continuance of the industry under private enterprise, but in the reorganization scheme they declare that "the error which was made in times past in allowing the ownership of coal to fall into private hands should be retrieved."

The state, it is recommended should acquire coal by purchase, where it has a market value, and by a declaration of state ownership in case of unproved coal or coal at deep levels, which has no market level. A commission should be appointed to acquire and administer mineral property.

### P. M. DIVIDEND NEW OBSTACLE

New York, Mar. 10.—(P)—Another obstacle was placed in the path of the proposed Nickel Plate merger, already under the ban of the interstate commerce commission when directors of the Pere Marquette Railway, one of the five roads involved in the unification plan, today increased the annual dividend rate on the common shares from \$4 to \$5 and declared an extra dividend of \$2 a share. The action insures better terms for the Pere Marquette stockholders if the merger is reconstructed on a new financial basis.

Financial interests close to the Van Swearingens, indicated that the higher dividend policy of the Pere Marquette would not be an insurmountable barrier to a revision of the Nickel Plate plan. Now leasing terms, it was said, would be based upon actual earning power rather than dividend rates. Meanwhile the increased return on the stock will help to carry the Van Swearingens holdings of about 150,000 shares or will net them a profit of several million dollars if the merger is abandoned.

O. P. and M. J. Van Swearingen returned to Cleveland today without maturing definite plans for their future course of action so far as their banking associates were informed. The Nickel Plate executives, it was intimated, were still anxious to proceed with the merger unless unexpected difficulties developed.

### 200 Reach Safety After Fire Breaks Out in Coal Mine

Fairmont, W. Va., Mar. 10.—(P)—Two hundred men made their way to safety today after fire broke out in Mine No. 63 of the Consolidation Coal company of Monongah. The blaze, a severe one, company officials said, was being battled to-night by fire fighters from all over the Fairmont region, directed by state mine inspectors.

The miners, who were working beyond the fire zone, made their way from the mine through abandoned workings. Twenty-three horses were led to safety in the same manner.

The fire, about a mile from the entrance, was discovered by a motorman, who gave the alarm. Officials, while not prepared to definitely state what caused the fire, expressed the belief that short-circuited wires were responsible.

On December 6, 1907, more than 350 men lost their lives in an explosion in No. 63.

### JESSE FAVRE IS CONVICTED

#### Newspapers Will Not Be Prosecuted for Publishing Trial.

Bay St. Louis, Miss., Mar. 10.—(P)—Decisions that Jesse Favre should spend the rest of his life in the penitentiary and that no newspaper representative should be held in contempt of court for having caused to be published testimony developed in the trial were made here late today.

Favre was found guilty of the murder of J. A. McLemore but the jury was unable to agree on the punishment. Under the Mississippi law this automatically resulted in a sentence of life imprisonment. After the Favre case was disposed of Judge Walter A. White, who issued an order before the trial began that newspapers having a circulation in Hancock county should refrain from publishing testimony, announced that the question of liberty of the press could not be properly determined by a test of newspapers' disregard of his order since anticipated cases had not developed.

"When the order was made against the publication in Hancock county of the testimony in the Jesse Favre case," said Judge White, "it was confidently expected that at least one other indictment and trial for the same crime then under investigation would follow at the present term of court and I anticipated great difficulty in securing a fair and impartial jury in any event."

"It happened, however, that no other indictment was returned and it has now developed that the necessity for the order was apparent rather than real and hence no actual wrong to the public has resulted from the disregard by the press of that order."

### Woman Is Elected Mayor of Seattle

Seattle, Wash., Mar. 10.—(P)—Seattle voters apparently have rejected a proposal to adopt the city manager form of government and have elected a woman for mayor.

This was indicated today when a complete unofficial tabulation of ballots in yesterday's city election was made, and upset earlier calculations that the city manager proposal had carried by a narrow margin. As announced, the vote showed 48,700 for Mrs. Henry Landes, for mayor, as against 42,802 for Dr. Edwin J. Brown, incumbent.

The vote on the city manager plan was 35,606 for and 36,709 against.

The unicorn mentioned in the book of Job probably was the aurochs, a kind of wild cattle now extinct.

More than 1,000,000 trees were planted by New York state during 1925.

### ALL-AMERICAN CANAL OPPOSED

#### Tidewater Association Protests at War Department.

Washington, Mar. 10.—(P)—The row stirred up over the relative merits of the proposed all-American lakes to the sea ship canal across New York state and the international route via the St. Lawrence river brought a delegation of St. Lawrence advocates to the White House and the war department today to protest against injection of what is termed an international issue into the controversy.

Headed by Senators Lenroot of Wisconsin and Willis of Ohio, the delegation, which also included representatives of the Great Lakes-St. Lawrence Tidewater association, told the president it would be "absurd" to carry out the all-American project, which they contended would be too expensive. The St. Lawrence association in a statement later charged Secretary Davis had endorsed the all-American at the behest of Chairman Dempsey of the house rivers and harbors committee, "a bitter opponent of the St. Lawrence for purely local reasons."

Considered Military Aspects. It was said at the war department that Secretary Davis had no intention of favoring the all-American over the St. Lawrence, but that, having been asked for an opinion by Mr. Dempsey, he had only attempted to cite military advantages that would accrue in an emergency through possession of such a waterway, in view of the lessons learned during the war.

Secretary Wilbur, who also has written Chairman Dempsey giving his opinion relative to the military aspect of the all-American canal, today prepared a second communication to him in which he is understood to have expressed the view that his communication was intended to be confined only to the military questions raised by Mr. Dempsey and was not intended as an expression of view as to the desirability of the New York route as compared with the St. Lawrence.

Mr. Dempsey produced letters from Secretaries Davis and Wilbur at a hearing yesterday at the war department in which it was urged that an adverse report by army engineers who examined the New York project should be modified.

### HANGS SELF IN BARN ON FARM

Mrs. Paul Zimmerman, 53, ended her own life late yesterday by hanging herself in a barn at her farm home near South Ford River. Relatives were unable to ascribe any reason for her act as there had been no trouble in the family and the woman had been enjoying good health.

She had been a resident of the Ford River community for about thirty-five years.

Surviving besides the husband are the following children: Mrs. George Hartwick of Los Angeles, Hilda of Escanaba, Clara and Malina of Milwaukee, Elsa of Chicago, and Cecelia and Harold at home.

### Report Merger of Lake Boat Lines

Montreal, Mar. 11.—(P)—The Montreal Gazette today published an interview with W. H. Coverdale, president of the Canada Steamship company, in which Mr. Coverdale is quoted as announcing a merger of the Canada Steamship lines with the Great Lakes Navigation company and the George Hall Coal company.

Montreal, Mar. 11.—(P)—The Montreal Gazette today published an interview with W. H. Coverdale, president of the Canada Steamship company, in which Mr. Coverdale is quoted as announcing a merger of the Canada Steamship lines with the Great Lakes Navigation company and the George Hall Coal company.

### Thermite Has Only Slight Effect on Massive Ice Gorge

Oil City, Pa., Mar. 10.—(P)—Eight more charges of thermite were placed in the Allegheny river gorge here today by aides of Dr. H. T. Barnes, McGill university scientist, and all the shells exploded, but with lack of uniformity in effect. Meanwhile, the sun, shining brilliantly most of the day, thawed the surface ice to a considerable extent.

Some of the thermite shells went off with one detonation, some with a series and some with none at all. One set balls of fire into the air and others were accompanied with rumblings and heavings of the ice. Still another exploded with three cracks not unlike those of a pistol.

Dr. Barnes left for a visit at his home in Montreal today. Before departure he expressed himself as satisfied with the results of the work on Tuesday, when two shells were exploded. Observers, however, said they could see no evidence of any destruction of the ice in the region where the shells were set off.

Blasting operations were suspended today while workers loosened an ice pack formed of ice floating from the cut channel. Dynamiting will likely be resumed tomorrow.

### ALL IS QUIET IN HAMTRAMCK

State Police on Guard After Political Disorders.

Detroit, Mar. 10.—(P)—With 15 state policemen on duty in Hamtramck, a suburb, all was quiet there today. State police went into the city late last night after Acting Chief of Police Marquardt had shot Charles Budds, a patrolman, following a political argument late yesterday.

Marquardt, who last Saturday succeeded William Berg, discharged as chief, was suspended following the shooting. The prosecuting attorney's office said that the question of issuing a warrant for the acting chief would be taken up at a conference between county officials and Hamtramck authorities tomorrow.

Budds admitted striking Marquardt before the acting chief shot, inflicting a flesh wound in Budds' leg. The argument started when Stephen A. Majewski, who is opposing Mayor Peter C. Jozewski for re-election at the municipal elections next month.

Marquardt was appointed acting chief last Saturday after William Berg had been discharged as chief. The change was said to be due to political friction following the city primary last week when Majewski ran several hundred votes ahead of Jozewski for the mayoralty nomination.

Berg was appointed chief of police two years ago after the state police had made a "clean up" of the city. His appointment was made when Gov. Alex J. Groesbeck withdrew over proceedings against Jozewski on condition that the police department be headed by a man approved by the state department of public safety.

Jozewski is under sentence in federal court to two years' imprisonment for conspiracy to violate the prohibition laws, stay of sentence having been granted pending an appeal.

51st Arrest Made in Rum Ring Quiz

Cleveland, O., Mar. 10.—(P)—On the eve of the return of the federal grand jury to its deliberations here in its investigation of an alleged nation-wide bootleg alcohol conspiracy, the fifty-first arrest in the case was made today in St. Paul.

Tom Brown, police detective, was arrested on a federal warrant charging conspiracy to defeat the prohibition act. Brown was asked last week by A. E. Brownstein, district attorney, to come to Cleveland. Brown declined unless subpoenaed. His arrest was reported in St. Paul to be in connection with alleged removal from a police station there of a large quantity of alcohol seized in raids. The investigation reportedly has linked activities of a supposed St. Paul and Minneapolis "rum ring" with the alleged conspiracy.

The indictment will be presented to the grand jury for action early Friday, it was indicated today, as assistants of the district attorney rushed the document to completion.

### TWO SUICIDES IN SANDUSKY

#### Woman Kills Self While at Funeral of First Suicide Victim.

Sandusky, Mich., Mar. 10.—(P)—Fear that she might be called to testify concerning the mysterious shooting Saturday night of 18-year-old Roy Lee, is believed to have prompted the suicide today of Mrs. Pearl Dorland, Jr., who swallowed poison while attending the boy's funeral.

Lee was found shot to death in an automobile outside the home of Albert Sager near here, where his brother, two other men and three women were holding an oyster supper and party. He had been shot with a .22 caliber bullet, but no gun could be found, either in a holster which the boy wore, or in the automobile. His brother had gone outside to persuade Roy to come in and join the merriment, but returned to tell the party "Roy has shot himself." Disappointment in a love affair was considered by the police to have caused Roy to shoot himself.

Mrs. Dorland was one of the women in the party, and her husband and the other men were arrested, charged with liquor law violations. The woman's parents, Mr. and Mrs. William Martin, said they believed her act was prompted by fear of investigation.

A coroner's jury which investigated Lee's death, returned an open verdict.

Many Cars Sold on Installment Plan

New York, Mar. 10.—(P)—Automobiles valued at more than three billion dollars were sold on the installment plan during 1925. It is shown by a survey made public today by the American Bankers' Association Journal. The customary plan was to collect one-third cash, leaving two billions dollars as deferred payment.

C. C. Haehn, general manager of the National Association of Finance Companies, who prepared the survey, said that so far the automobile paper had been sound, but warned that lowering the down payment and extending the period for the balance would seriously affect the present favorable loss ratio.

Pipe smoking in China is giving way to the cigaret.

### Move Started to Regain Citizen's Rights for Debs

Washington, Mar. 10.—(P)—A movement has been started to have citizenship rights restored to Eugene V. Debs, Socialist leader, who served more than two years in the Atlanta penitentiary for opposing American participation in the World war.

Representative Berger, Socialist, Wisconsin, after a conference today at the White House, said President Coolidge had shown sympathetic interest in an appeal for Debs. Tomorrow, Berger plans to discuss the question of amnesty with department of justice officials.

One of the stumbling blocks to restoration of citizenship rights is Debs' refusal to make a personal application for a full pardon. He adheres to the belief, expressed during his trial when he refused to employ counsel, that he committed no crime in voicing his opposition to war in his famous Canton, Ohio, speech.

The main object of Mr. Berger's visit to the department of justice will be to determine whether someone else can initiate a pardon application.

### Soviets Have Hard Time Selling Shoes of Czarist Regime

Leningrad, Russia, Mar. 10.—(P)—The local soviet authorities, continuing their liquidation of the properties of the czarist regime, have placed on the market 124 corsets and 600 pairs of shoes once worn by the ladies of the imperial court. About one-tenth the original price are asked, but so far there have been no takers, since the articles are at least 20 years behind the styles.

The corsets date largely from Victorian times, while the shoes were stylish during the earliest years of the present century.

### RECONDITIONED LINER IS BURNED DAY BEFORE RELEASE DATE

Newport News, Va., Mar. 10.—(P)—Fire swept through the palatial United States liner America as she lay at her berth at the plant of the Newport News Shipbuilding and Drydock company, burning three decks and damaging others. The loss was estimated between one and two million dollars, but no loss of life resulted, although 250 members of the crew were aboard when the fire started.

The America, which registers 21,000 tons, has been reconitioned throughout at a cost of approximately half a million dollars and was to have been delivered to her owners tomorrow to leave in the afternoon for New York. She was to have sailed from New York, March 24 and 500 passengers already had been signed for the trip.

The blaze was discovered about 7:30 a. m. and a few minutes later most of C deck was in flames. Efforts to check the blaze were unavailing for seven hours.

# SCHOOL CENSUS BEING TAKEN

## New State Law Requires Early Count of Children.

Miss Carrie Wallace, and two or three assistants, will start today to take Escanaba's school census it was announced by R. E. Cheney, superintendent of schools. The job, under the provisions of a new law which emanated from the "Escanaba Plan" must be finished before the first of April. Heretofore the census has been taken the last twenty days in May.

The new law—Act 301 of the Public Acts of 1925—provides that hereafter the superintendent of public instruction shall designate annually, the time for taking the school census. Accordingly the above dates have been fixed for 1925 enumeration.

The purpose of the census is to obtain the names of all people from five to twenty years of age. This number is used as basis for the primary school money apportionment. Last year this amounted to over thirteen dollars per capita. The sum of \$52183.20 was received from the state.

A new child accounting system has been adopted throughout the state. Previously the forms used by different systems were not uniform. Now they will be. More than that it will be possible for the state to follow a pupil from Sault Ste. Marie to Detroit, for instance, and keep a check on his location—something which has not been done adequately in previous years.

Each enumerator when calling at the homes will require the names and ages of all children who are five years and under twenty years, together with the names of parents or legal guardians, giving the street and residence number in each case.

As has been done in the past a house-to-house canvass will be the means by which the enumerators will obtain their information. Teachers will be used to do the canvass, and the cooperation of the public is desired so that the census may be finished in due time.

# HER OWN WAY

## A GIRL OF TODAY

**A NEW HOME.**  
"No," I answered Mamie's query, "I don't want to go home if I can keep from starving here. You see, Mamie, I guess I'm not like other girls. I want to lead my life in my own way. I want to be independent. My father would think that I had gone straight to the devil if he knew I was working in a restaurant checking men's hats, but I will stick it out until I can find something better."

"Good for you, Julie! I knew you had the right stuff in you the minute I saw you. If you were going to give up the very first minute that anything comes up that makes you angry or hurts you, you're not fit to be a working girl. But I expect you're going to be a success. You'll soon learn to weather the hard knocks as I have. You were almost frightened to death at Sterns, but you were determined not to lose your nerve."

"You'll work it out, old dear, and I'll help you all I can. If you can stand the gaff, stay with me on the job at the restaurant until you get a little money ahead."

"Why are you so good to me, Mamie?" The words came straight from my heart.

"Because—because—oh, sometime, my dear, I'll tell you my story. I cannot do it tonight. It's too long. We must go to sleep now."

With this, Mamie Riley left me, but for a long time I was wide awake wondering what her story was. Behind every girl who goes out into the world to work, is there a story?—A story which either makes character or destroys it?—Of that I was soon to learn.

I found the next morning that Sellers had been over to the Blackstone telling all about me when he found I was not there. But, Mamie went over and fixed things up at noon. She presented my order and paid my bill, asked no questions and answered none.

When her mother saw my trunks coming in, I could tell she was very much displeased. She was one of those selfish women who thought she was showing her love for her daughter by making her life miserable with advice on every subject she knew nothing about. If she thought Mamie wanted to do something, it was just the reason Mrs. Riley decided it was the worst possible thing for her to do.

The moment she saw me, she looked upon me with suspicion, and coming back from my room after I had deposited my trunk near the closet door, I heard Mrs.

# Telephone Exchange Is Visited by Big Crowds of Local Subscribers

Scores of visitors were shown through the local plant and offices of the Michigan Bell Telephone company yesterday, the "open house" being a part of the company's observance of the fiftieth anniversary of the invention of the telephone.

A committee of employees consisting of Manager O. Sundquist, Miss Laura Larson, chief operator; Miss Violet Gardiner, assistant chief operator, and Albin Carlson, mechanical chief of the plant, served as a reception committee. They were assisted by O. H. Otis of Menominee, superintendent of the Menominee division; Miss Joan Bellam of Houghton, service operator; Phil Colosanti of Marquette, battery expert; I. Grabhorn of Milwaukee, representing the Western Electric company, and Mrs. Grabhorn.

The event has a local anniversary significance, also, for it was just 40 years ago—in 1886—that the first telephone was installed in this city. Among yesterday's visitors were several of the original subscribers.

The "open house" and the exhibits will be continued throughout the week.

**Unique Display.**  
A large assortment of parts used in telephone equipment was shown to the visitors. Some of these recalled the days of the first telephone in this city when one had to wind a small crank at the right of the wooden wall box which was about 4 1/2 inches by 5 1/2 inches and had a hole cut in the center for the transmitter. The receiver at the time measured about seven inches long and was a cumbersome article to handle. This was known as the Blake transmitter and was an Edison patent. Later an improved wall box with a projecting transmitter was installed and a shorter receiver was used, the new apparatus having a solid back with carbon granules in the transmitter. The various types of desk phones were also shown. The first ones used were a wooden box-shaped affair with receiver attached and a crank outside. It occupied about five inches of space on the table or desk as compared with the improved desk phone requiring only half as much space.

There were also samples of old magnet generators used in the earlier type of phones, old switch-board indicators which are now replaced by a small electric light which signals the operator when a patron takes down the receiver.

A very interesting article shown at the exhibit was a mass of iron cable which had been burned by an iron wire falling on the cable, severing 200 pairs of cable wire. It took four men three days to repair it.

The old-fashioned wooden boxes which were used on the telephone poles were also exhibited. The new iron box which has replaced this part of the equipment is a compact container where the outside line from the subscriber's premises is connected with the line leading to the central office.

**Storm Protector.**  
The modern protector which is attached to each phone is a porcelain block with fuses and carbon blocks separated from the ground by a small piece of mica. If lightning hits the wire, it is carried through to the ground to save damage to the building and telephone equipment. Before this small apparatus was used, after each severe storm from 500 to 600 telephones were put out of commission, requiring the services of a crew of men from five to six days to repair. Most of this trouble is now eliminated by this late invention.

Samples of cable wire and other equipment was shown and all proved very interesting to the visitors.

**Old Directories.**  
There were also a number of directories dating as far back as 1903 when the total number of telephones in this city was 400 and this directory contained 27 Rapid River names. In 1908 a few subscribers advertised on the covers of the directory and these included advertisements of the A. J. DeGrand Flour and Feed store, T. J. Martin, the provisioner, J. H. London, blacksmith, Delta Hardware company, Charles Flint, broker, L. M. Beggs, Delta County Bottling Works, I. Stephenson Co. Shilling Electric company, and J. F. Oliver, coal dealer.

The new directory now contains 2855 subscribers and almost every page contains an advertisement of some kind.

The offices are located in the rear of the building with good light and plenty of fresh air. The offices of the manager and the commercial department are in this large room where Miss E. Starrin and Miss E. Blomberg are in charge of the business department of the exchange.

The operating room is large and Riley saying in that querulous voice of hers:

"I can't understand why you take in a strange girl, Mamie, who will probably work you out of your job at the restaurant. She looked like a designing mix to me."

**TOMORROW: Kean and Riley, Inc.**

# OLD FIDDLERS' ENTRY BLANK

I am an old fiddler. I am more than 40 years of age and I am not familiar with the new-fangled foolishness called "playing by note."

I desire to enter the Old Fiddlers' contest to be conducted by the Escanaba Elks the first week in April.

**OUTDOORS.**  
Tween the place we call the heavens, and the place we call the earth, labors good old Mother Nature for us all for all she's worth. Picking out for every season just the proper sort of dress, she's, no doubt, the real main reason why the world's worth while, I guess.

All the color schemes we think of are suggested by the sky, through a fan-like spreading rainbow, when a storm has passed on by. Even the clouds that seem to gather when the dark of night is due, always clear and make things brighter when the moon comes shining through.

Like a soft and easy carpet is the grass that grows so green, and the white and cheerful clover adds its beauty to the scene. Picturesque the ranky mountains that are towering to the sky, as they act to make the level lands more pleasing to the eye.

Giant trees that tower so manly; then the slender, meeker type that, with blooms, in early spring time, say that fruit will soon be ripe. Nature knows that we're depending on the drink of life she pours, and that joy is quite unending in her wondrous great outdoors.

Novel way for a farmer to find out how many cows he has is to count all their feet and divide by four.

**CONSTANT CURLING, WAVING DRIES LIFE FROM HAIR**

Girls just must curl and wave bobbed hair to appear their prettiest. But constant curling and waving burn and dry the luster, vitality and very life from the hair.

To offset these bad effects, just get a 35-cent bottle of delightful, refreshing "Danderine" at any drug store or toilet counter and just see for yourself how quickly it revives dry, brittle, lifeless, and fading hair.

"Danderine" is a dependable tonic and will do wonders for any girl's hair. It nourishes, stimulates and strengthens each single hair, bringing back that youthful gleam, glint and vigorous luxuriance. Falling hair stops and dandruff disappears. "Danderine" is pleasant and easy to use.

**Old Fiddlers Still Entering Names for Contest April 7th**

Manistique will send at least one additional contestant to the Old Fiddlers' contest to be staged under Elks' auspices here April 7. He is Charles Terran and his entry was received yesterday. Thirteen Old Fiddlers are now entered in the contest. Several more entries are expected.

There is an entry blank on this page for the convenience of any old-timers who desire to use it. Entries also may be made in person at The Press office or the Elks' club.

**Cautious Reply but Literally Correct**

"How are the roads?" inquired an Escanaban yesterday as he observed a prominent farmer alighting from a snow-covered automobile in front of the State Savings bank.

"Couldn't tell you," replied the visitor. "I haven't seen them for three months."

# Women's Peace-of-Mind

under trying hygienic conditions is assured this new soap. Gives absolute protection—discards like tissue

**A DANCER, a sheer gown to be worn; a difficult hygienic situation. You need no longer give this complication a second thought.**

The hazards of the old-time sanitary pad have been supplanted with a protection both absolute and exquisite.

It is called "KOTEX" . . . five times as absorbent as ordinary cotton pads.

Absorbs and deodorizes at the same time. Thus ending ALL fear of offending.

✓ You discard it so easily as a piece of tissue. No laundry. No embarrassment.

You get it for a few cents at any drug or department store simply by saying "KOTEX." Women ask for it without hesitation.

Try Kotex. Comes 12 in a package. Proves old ways an unnecessary risk.

# AMUSEMENTS

**AT THE DELFT.**  
Hobart Henley altered his method of direction when he was filming "Exchange of Wives," the production now playing at the Delft theatre.

In this picture, Henley had a cast of only four people and they all appeared in nearly every scene. So he began shooting at the beginning of the story, not at the end or in the middle as is so often the case, and filmed the scenes in almost the exact sequence that they now appear on the screen.

Henley believes that the actors are able to get into the spirit of the story and work up sympathy for their roles to a far greater degree if they are played in the order in which they naturally appear.

The four leading roles in "Exchange of Wives" are portrayed by Eleanor Boardman, Lew Cody, Renee Adoree and Crighton Hale.

**AT THE STRAND.**  
Circumstantial evidence has been said by famous judges to be good evidence—if it's complete enough. But it convicted an innocent man and nearly sent him to the gallows in "The Other Woman's Story," a B. P. Schulberg picture which will be shown at the Strand again today, before the "other woman" in the case had a chance to tell her story. It

was produced with an excellent cast, including Alice Calhoun, Robert Frazer, Helen Lee Worthing, Mahlon Hamilton, Riza Royce, David Torrence, Gertrude Short, Joan Standing, Charles Clary and Joseph W. Girard. No wise movie fan will miss the opportunity of attending this entertainment treat.

Three pants only, the scarlet pimpinel, daisy, and the chickweed, are believed to give a correct forecast of rain by closing their petals and leaves.

# If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small and You are on the Road That Has Convicted Thousands.

**Sent Free to Prove This**  
Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 510 E. Main St., Adams, N. Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to knit together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt. Use prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try and write a once, using the coupon below!

MARKET NEWS STOCK PRICES SOAR UPWARD

Table with columns: Date, Industrials, Railroads. Rows: Wednesday, Tuesday, Week ago, Year ago, High 1926, Low 1926, Total stock sales.

New York, Mar. 10.—(AP)—Stock prices made further recovery in today's market with the strength of the standard industrials as one of the distinguishing features.

Several motors were bid up briskly at the expense of an overcrowded short interest which had been attracted by recent announcements of price cuts.

Copper shares also took on a new lease of life on predictions of higher red metal prices. American Smelting advanced nearly 4 points to 130 1/2.

Foreign exchanges were irregular demand sterling ruled slightly higher around \$4.85 13-16 but French francs sagged a few points to around 3.64 cents.

Chicago, Mar. 10.—Despite temporary sharp setbacks, the wheat market today scored a material advance. Buying for houses with eastern connections became notably active and export demand for North American wheat broadened out.

Chicago, Mar. 10.—Potatoes, receipts 69 cars; total United States shipments 540; trading fairly active, market firm.

Chicago, Mar. 10.—Butter, market today ruled steady on top grades and firm on medium and under-grades.

## TEAM LEAVES FOR TOURNEY

### Escanaba Meets Ironwood Friday Morning at 10:30.

Ten members of the Escanaba high school basketball squad will leave this afternoon at 2 o'clock for Marquette where Escanaba will be represented in the U. P. basketball tournament. The ten members who will make the trip are Capt. Matt Lawrence, Willard Rockburg, Arnold Johnson, Edward Berrigan, Raphael Carlson, Austin Stegath, Kenneth Gunderman, Harold Smith, George Roche, and Richard Redstrom.

On Friday morning at 10:30 Escanaba will clash with Ironwood in the eliminations. Ironwood has an exceptionally strong team this year and Coach Roells has had little trouble in making the local squad realize that they would have to fight every minute of the time in order to come out on top. The playing will be supervised by very competent officials and every team will have to be careful of fouling because in many of the games it will mean victory or defeat.

The Roellers were given their final workout last night in preparation for the tourney and they practiced especially on shooting baskets from difficult angles and with speed and precision. It is the hope of the high school students that the team will live up to the form that it showed against Iron Mountain and will go at its best form of the season in the first game. A large number of local fans will make the trip to Marquette with the team and they are confident that if Escanaba can gain accuracy in shooting in the large gymnasium at Marquette that they will easily go to the finals.

Each Roells will probably start Lawrence and Rockburg at forwards with "Tarzan" Johnson at center and Berrigan and Carlson holding the defense.

"PUGGIE" PAOLINO

This is the famous Spanish heavyweight fisticuff you've been hearing much about lately. Over in Europe they call him the "Lion of the Pyrenees," which may or may not mean anything startling, all depending on how you take it. Paolino contemplates a visit to this country in quest of the world title. He's under the management of Francois Deschamps, the perpetual chatterbox, who guided the ring destinies of "Georgious Georges" Carpenter.

## WORTH IN SPORT KNOWING

Boston university had a rather odd record on the football field in 1924. It played six games, winning only one. It counted but 13 points all season.

The sole victory was obtained over Maine, 6-0. Holy Cross, Brown, Army, Harvard and Dartmouth whipped the B. U. eleven. Holy Cross was the single foe, failing to gain a shutout. Holy Cross won, 16-7.

Dartmouth piled up the largest total—33. Brown was close behind with 35. Boston did its best work against Harvard, holding the Crimson to a 13-0 count.

## Helen Wills Keeps up Winning Streak

Nice, France, Mar. 10—(P)—Helen Wills, America's tennis champion, continues to show that she stands far beyond the class of any player left in the Nice tournament. She won three matches today by one-sided scores, losing only two games out of 38.

In the singles she disposed of Miss Helen Hurley in two love sets, and Miss Saily Maynard, 6-0, 6-1. In the mixed doubles she and her partner, Charles S. Kingsley of England, defeated Mr. and Mrs. Debrun Kops, 6-1, 6-0.

While the best of the French players and other visiting stars have been dropping out of Riviera competition through illness or staleness, the American champion has remained in good form.

## Ryan and Browne to Tennis Finals

Tampa, Fla., Mar. 10—(P)—Miss Elisabeth Ryan of Santa Monica, Cal., and Miss Mary K. Browne of New York, advanced to the finals in the women's Dixie tennis singles tournament here today.

Miss Ryan defeated Mrs. Louise Raymond, New York, 6-3, 6-1, and Miss Browne beat Mrs. Hildogarde Taylor, Boston, 6-3, 6-2.

Paris claims to have the world's most efficient fire-fighting system.

## Stribling's Speed to Prevent Knockout in Bout With Tunney

MIAMI BEACH, Fla., March 10.—Speed, rather than savagery, probably will be the tempo to which the glove battle between Gene Tunney and Willie Stribling, to be held here March 12, will be geared.

In other words, Stribling generates entirely too much speed to the square yard to be knocked over for a considerable length of time in a limited-round fight—

Especially by a hitter the Tunney type, who wears his opponents down scientifically and systematically.

Local promoters, who are building an outdoor arena capable of holding 25,000, have advertised the meeting as an elimination contest between "Dempsey's two foremost challengers."

Good Battle in Prospect. It ought to be a worthwhile fight, but the outcome is not likely to affect the present status, if any, of the dormant heavyweight situation.

The most tolerant attitude one can take in regard to Dempsey is that he is in a hesitant mood. If this is so, a spectacular victory by either Tunney or Stribling certainly will not stimulate his desire for immediate action.

This is an angle which prompts me to believe both Tunney and Stribling will be on their feet at the end of the fight, with their respective reputations as well as their backs intact and unaltered.

I watched Tunney going through his training paces at the fashionable Deauville Casino today. Walter Monaghan, who trained Johnson for the Jeffries fight at Reno in 1910, and Willard for the Dempsey fight at Toledo in 1919, stood with me.

"What do you think of Tunney?" Monaghan asked me. "A great boxer but not a great hitter," I answered.

"Tunney will surprise the world in another six months," commented the old gray-haired trainer. "He gets better every day, and in that respect he is the most remarkable heavyweight I ever saw. For Tunney, you know, is going on 28 years of age. I think he has improved his punching ability fully 30 per cent since last spring when he trained here for the Gibbons fight."

"The answer to this is that Tunney is a WORKER. Nothing short of absolute perfection ever will satisfy him. Watch him against Stribling, you will see him hitting with even greater precision and force than he did the night he flattened Gibbons."

Looks Heavier Than Ever. As I watched Tunney bringing over a straight right and hooking the bag with a left, I found myself agreeing with Monaghan that Tunney is still improving.

Tunney also looked bigger than at any other time I had seen him, an observation that did not prove misleading. Stepping on the scales after a perspiry ordeal under a beaming sun, Tunney notched the beam at 192 pounds.

"That's about five pounds more than I ever weighed before," he admitted. "And I haven't any flesh to take off either."

Who is manager of Eddie Shea, Chicago boxer, and where can he be reached?—G. H. K.

Ray C. Alvis and can be reached at 3263 Wrightwood ave., Chicago, Ill.

Have "Bud" Houser and Glenn Hartman, famous west coast athletes, completed their college careers?—F. W. E.

Houser is still in school but Hartman has graduated.

When did Jack Bentley, former Baltimore star, make his major league debut with the Giants?—H. J. K.

In 1923.

Who won the intercollegiate tennis title in 1924?—D. W. E.

Wallace Scott of Washington.

Did "Stuffy" McInnis of the Pirates ever play shortstop, and if so, when?—F. G. T.

McInnis broke in as a shortstop with the Athletics in 1909 but later switched to first base.

## German Swimmer Sets New Marks

New York, Mar. 10—(P)—Eric Rademacher, Germany's invading breast stroke champion, and Walter Lauffer and Harry Glancy, aquatic aces of the central Y. M. C. A. of Cincinnati, shattered several world swimming records in the 75-foot pool of the New York Athletic club tonight.

The German star's exceptional performance came in a 100-meter (109.3 yards) breast stroke handicap in which he conceded allowances to Charles LaFarge of the New York A. C., and Harold Clurbe of the New York Boys' club.

On the way to the full distance Rademacher passed 100 yards in 1:08 3/5, beating the listed mark of 1:09 2/5 made by Walter Spence of the Brooklyn Y. M. C. A., but failing to equal the latter's newly claimed record of 1:05 2/5. Then Rademacher won the event in 1:15 4/5, clipping one-tenth of a second from his own international standard of 1:15 9/10. Experts present were of the opinion that Rademacher's kick did not comply strictly with requirements, but the judges passed his stroke.

## BASEBALL

Exhibition. At Lakeland, Fla.: Score: R. H. E. Cincinnati (N) ..... 3 4 3 Cleveland (A) ..... 12 17 2 Lucas, Day, May and Pichish; Speca, Shaute, Karr and Myatt, L. Sewell.

## 3 New Yorkers and Jap in Semi-Final of Tennis Tourney

Palm Beach, Fla., Mar. 10—(P)—Three New Yorkers and a Japanese will meet in the semi-finals here tomorrow to determine who will meet in the finals of the annual tournament for the men's singles tennis title of Florida.

Francis T. Hunter of New Rochelle, N. Y., will meet Takechi Harada of Japan and Jerry Lang, New York, opposes Vincent Richards of Yonkers.

Hunter today defeated Manuel Alonso, Allentown, Pa., 6-4, 3-6, 8-6. Harada won from S. Howard Voshell, Kew Gardens, N. Y., 6-3, 6-4.

Lang beat A. Chapin, Jr., of Springfield, Mass., 6-0, 6-2. Richards eliminated Roy Coffin, Philadelphia, 6-3, 6-3.

## Tunney and 'Strib' Fight Friday Night

Miami, Fla., Mar. 10—(P)—Gene Tunney and W. L. (Young) Stribling, contenders for the heavyweight championship now held by Jack Dempsey, took light workouts at Miami Beach today preparatory to their fight scheduled for Friday night at Hialeah park.

Tunney took a four-mile jaunt up the beach and back as his part of the training, and Stribling sparred three rounds with Fred Mace. Stribling has taken on savagery with his additional weight and is hitting hard and often. Mace, who is fast on his feet and a good boxer, was no match for the Georgian.

Stribling finished off the afternoon's training with shadow boxing and a stiff run.

## SETS RECORD

JOHN KUCK

Star athlete at Kansas State Teachers' college who established a new world's indoor record for the 16-pound shot put. Kuck heaved the leaden pill 49 ft., 3/4 in. The former mark was 48 ft., 9 in., and was made by Ralph Hills, Princeton, in 1923.

## ONE OF BEST

HARRY GILL

As you probably know, Harry Gill is track team coach at University of Illinois. He's been there over an extended span and is heralded one of the best mentors in the country. Gill's Illinois teams have long been feared regardless of the competition. This season another strong squad is expected, some mighty promising material being at Gill's disposal.

## COLLEGE HATTER

My mail the other day brought this question: "What are the three best college basketball teams in the country this season?" That's a tough one to answer. Offhand, however, I'd say Syracuse, Columbia and Notre Dame. Syracuse has been sweeping all opposition aside. So has Notre Dame, including several Big Ten teams. Columbia has one of the best in its history. It looks like a certain winner in the eastern intercollegiate league.

In this connection I'd like to see a Syracuse-Columbia tangle, the winner to meet Notre Dame. It won't come to pass though. That is, not as far as the naked optic can discern.

## REMEMBER—

Charley Dvorak, Michigan pole-vault of 25 years ago? Dvorak was one of the best vaulters of his day. Could do around 11 feet, six. Prep school lads are topping that mark now. What a difference in a quarter century of competition!

Michigan won't have Hubbard and Wittman, its two sprint stars, this season. But in the youthful Hester it has an able replacement. Hester, a Detroit boy, is exceptionally fast over 100 yards. He ran for Canada in the last Olympics. After winning his first heat he drew Abrahams of Great Britain. Abrahams, the ultimate victor in the event, barely nosed Hester out. Watch this lad!

## INTRODUCING—

Walter Steffen, Chicago's All-America quarterback of close to 20 years back. Old-timers will recall Steffen. He succeeded another Walter—Eckersall—at the pilot post. And, incidentally, did a swell job of it. Steffen is now a member of the Carnegie Tech coaching staff. Finds time for both.

Wisconsin won four of its first five Big Ten basketball brushes. It seemed well along the championship trail. But the Badgers then did a complete dipsey-dew, dropping the next five. Terrific tumbles come even in the court pastime.

Southern California, as you'll probably recall, won the eastern intercollegiate track and field classic last year. Don't be terribly startled if the Trojans make it two straight this spring. Dean Cromwell, illustrious coach, has lost several stars, 'tis true, but he still has "Bud" Houser, Leigh-ton Dye and a flock of others. As has been the case for the last few years, it looks like another "western menace" this season, with U. S. C. again playing such a role.

## Cobb Dickering to Buy Clayton Sheedy

Baltimore, Md., Mar. 10—(P)—Ty Cobb, manager of the Detroit American League club, when told today that Jack Dunn had decided to put Clayton Sheedy on the market, said the Tigers would be willing to pay \$5,000 for the lanky Oriole first sacker. Dunn made his announcement in regard to Sheedy at Punta Gorda, Fla., the Oriole training camp. Sheedy is one of this spring's holdouts.

The Detroit manager is in Johns Hopkins hospital recovering from an eye operation.

Man paid \$196,000 for a Gutenberg Bible. That's cheap. Any Bible is worth more than that.

## SCORE STANDS 1,000 TO 636

### 1,500 Point Title Match Ends Tomorrow Night.

Philadelphia, Mar. 10—(P)—Jake Schaefer of Chicago, rallying in defense of his world's 18.2 ballline billiard title, tonight reduced the lead of Eric Hagenlacher, German challenger, 119 points in the second block of their 1,500 point championship match. With the score standing 1,000 to 636 in favor of Hagenlacher, Schaefer will be required to make 864 points tomorrow night before Hagenlacher gathers 500 in order to retain his crown.

In sharp contrast to the opening night's play, when Hagenlacher ran out his string of 500 points in five innings with a masterful display of stroking, both men played poor billiards tonight, the champion falling to take advantage of many opportunities during their four and a half hour stretch at the table.

Twenty-two innings were required for the block. Hagenlacher saving an advantage which Schaefer was steadily cutting down, by a closing in an unfinished run of 87.

Jake Occasionally Flashy. Hagenlacher, adding a string of 148 to the unfinished run of 160 with which he closed the first block last night, lapsed in his play immediately after establishing the best run of the match at 308.

Schaefer, however, was able to show only occasional flashes of the brilliant stroking he revealed two months ago against Edouard Horemans of Belgium.

Sports of 105 and 113 were his best runs of the night, while the German champion was able to pass the 50-point mark only three times. Schaefer led in the night's play, 619 to 500.

Working on an unfinished run of 160, with which he closed his one-sided victory over Schaefer in the first block last night, 500 to 17, Hagenlacher started from excellent position to nurse the zeroes cleverly. After cool and careful stroking had carried him 145 points more, he fouled one of the white balls in attempting a masse.

This string gave the challenger a new high run for the match of 308.

Schaefer flashed his best run of the match in the next inning, posting a string of 44 before missing a short draw. Hagenlacher then added seven more to his eighth stroke failing to take the balls out of bank and leaving the fives in such poor position that the champion was compelled to attempt a three-cushion bank shot, which failed.

Hagenlacher, returning to the table, collected 27 more caroms, making the score read at the end of the seventh inning: Hagenlacher 682; Schaefer 61.

Spectacular shots, overcoming faulty position play, netted the champion 35 more points in the eighth frame, while Hagenlacher stopped at six with a safety shot which limited Schaefer to a brace of long caroms in his ninth inning.

Hagenlacher Unsteady. Hagenlacher showed signs of unsteadiness for the first time at this point, missing a one-cushion play on his fourth stroke and making the ninth inning score: Hagenlacher 691; Schaefer 101.

Hagenlacher continued in a slump from the ninth inning through the fourteenth, adding only 32 points to his string. Schaefer, doing slightly better, posted 97, with runs of 53 in the tenth inning and 31 in the twelfth.

Schaefer added only nine more in his fifteenth turn at the table, missing on a simple draw, but Hagenlacher in his half of the same frame braced and clicked off 76, making the score: Hagenlacher 799; Schaefer 207.

Schaefer rallied to championship form for the first time during the match in the sixteenth inning and brought off his best run thus far, with 195 points. He added 56 more in the seventeenth, while Hagenlacher, counting but once on long three-cushion attempts, gathered only one point in his turns during the same two frames.

The score at this point was: Hagenlacher 809; Schaefer 368.

Jake Runs 113. Schaefer cut still further into the challenger's big advantage by again exceeding the century mark in the eighteenth inning with 113. Hagenlacher, blanked in his half, stopped at 2 in the nineteenth, after Schaefer had harvested 13, making the score: Hagenlacher 822; Schaefer 494.

After the champion had posted a run of 59 in the twentieth frame, Hagenlacher drew up to within 95 points of the required 1,000 for the second block by running 16, 15, 27, 39, and 3. Schaefer fell off to 12 in the twenty-first and then took a total of six for the next three sessions as both men resorted to safety play.

## WINS HOCKEY TITLE

Minneapolis, Mar. 10—(P)—Minnesota won its third Big Ten hockey title in four years with a 4 to 2 triumph over a Wisconsin six here tonight.

Bulk fuel oil vapor when mixed with air is explosive.

## GIRL LEADER

MISS FRANCES JAY

If good looks count for anything you can readily see why Miss Frances Jay is not only captain of the Bryn Mawr girls' college basketball team, but that she's one of the best and most popular players in the squad. Be it known that she's an all-round star, a sport enthusiast and a real winner. She prefers the court game to all others, however.

## The NUT CRACKER

We see where Jimmy Goodrich took a fight the other night. Jimmy will be remembered (by close friends and relatives) as the former nominal lightweight champion.

This is the time of the year when teams like the Boston Red Sox are just as important as any championship outfit.

America seems to be losing its prestige as an indoor tennis power. If it isn't one thing it is frequently another, as Col. Socrates so aptly phrased it.

Don't mind if your next door neighbor thinks you're queer. Everybody in Dayton laughed at the Wright brothers.

Australia refuses to enter a tennis team in the Davis cup matches. This is unquestionably a rebuke to American headline writers who refer to them as "Aussies."

Of course there is one nice thing about being a six-day bike racer. It at least saves you a week's room rent somewhere.

Two American women golfers accepted eight bisques from Massey and Compton and were duly defeated. "The bisquets were probably badly cooked," comments Mr. O'Goody.

One of the Cubs' new players is a song-writer, a banjoist and a Charleston king. It remains to be seen if he is a ball player.

The Dempsey-Tunney fight is now virtually cinched except that neither has signed, no money has changed hands, no date has been set and no site has been selected.

Is golf bad for ball players? It is if taken inwardly at the nineteenth hole.

Frank Moran is now a sports writer in Havana. And we can remember when he used to be considered an intelligent heavyweight.

Headline says: "Hoff clears bar at 13 feet, 5 inches." What had the young man been drinking?

## Horween Named Grid Coach at Harvard U.

Cambridge, Mass., Mar. 10—(P)—The committee on regulation of athletic sports at Harvard tonight announced the appointment of Arnold Horween, 21, of Chicago, as head coach of Harvard football.

## Rain Mars Racing at New Orleans

New York, Mar. 10—(P)—Rain poured down upon today's card at New Orleans and Brilliant and Tangara, in the fourth race, were out of the money. Golden Mac led to within 50 yards of the line when Guest of Honor rushed by to win. George was four lengths behind Golden Mac in third place. The time for the mile and 70 yards was 1:45 2/5.

Don Honero scored another victory in the fifth at Miami, leading Ben Omar and Canney over the 4 1/2 furlongs in 54 seconds to equal the track record.

Heavy going at Tia Juana found Roy Crofter leading the mile handicap by five lengths, the 100th victorious mount of the meeting for Munden. Sandy Man was ten lengths ahead of Russell Gardner for the place. The time was 1:41.

Modesta, North Breeze and Captain Sam finished in that order in a claiming event of 1 1/8 miles at Tampa. The time was 1:59 1/5.

## NATION-WIDE VOTE ON DRY LAW PROPOSED

(Continued From Page One.)

threat made yesterday and countered with a request to insert into the record exhibits intended to show that prohibition was successful, including an editorial headed "Lincoln, the Prohibitionist."

This brought objection from Senator Reed, who asked the nature of the article, explaining he did not "want history falsified."

After an argument, Senator Willis shouted "all right, lead the editorial back here and I'll read it myself."

Senator Reed objected to that procedure and an argument started. Vice President Dawes cut it short with announcement that the rule called for a vote on the Willis request without debate, and over the protest of the Missouri senator he invoked this rule. The senate decided that the Ohio senator should read the editorial.

Senator Smoot, Republican, Utah, pointed out that every page of the congressional record costs about \$48, and Senator Bruce returned that "correct information on this subject" would save the government \$25,000,000 a year which "is being expended in its vain and futile effort to enforce prohibition."

Senator Glass challenged the correctness of Senator Bruce's information and the latter remarked that the Virginia member's opinion "does not give absolute finality to an opinion on any subject."

"If the senator charges me with foisting incorrect information on the congressional record, he is out of order," Senator Bruce added.

Senator Glass asked whether Senator Bruce knew "anything more about the correctness of the figures than I know."

"I should be sorry to have the extent of my information on any subject measured by the extent of that of the senator from Virginia," replied Senator Bruce.

## Training Camp News Reveals Few Rookies With Bright Futures

New York, Mar. 10—(P)—If any newcomers to major league baseball ranks this spring have been showing symptoms of becoming second cobs, Speakers, Hornsby or Johnsons, the reports thus far from correspondents on the southern battle fronts have failed to indicate it.

This is not because of any lack of rookie material, much of it promising. Glowing reports of the work of some of them have drifted northward this week with the conditioning combinations in full swing over the area from Catalina Island, Cal., to Tampa, Fla. On the whole, the critics with the various clubs have found little to startle them into telegraphing the rhapsodic sort of praise usual to this stage of the baseball season.

Brooklyn, which is doing as much, if not more, rebuilding than any other major league club, seems to have found a partial solution to

its pitching problem in the form displayed by two newcomers. One of them, Douglas McWeeney, from the Pacific Coast League, is not in the rookie class. He was up with the White Sox for some time and is apparently ready for a comeback.

New Nose, right-hander obtained from Memphis by Brooklyn, also is displaying ability.

The White Sox, reports indicate, are placing high hopes on Alphonse Thomas, pitcher, who was a big factor in Baltimore's seventh straight pennant victory last season.

Other new faces prominent in the training picture so far include Joe Buskey, shortstop for the Philadelphia Nationals; Al Tyson, outfield product of the Louisville American Association and who is counted upon by the New York Giants to fill the centerfield berth, and Clarkson, a giant pitching prospect from the Virginia League.

WELL, ANYWAY I'M INSURED

CURVE TAKE IT

A MAN can get all bunged up and still feel pretty well satisfied with the world if he has realized that auto insurance is as necessary in his auto-life as gas.

### CAMPAIGN FOR GIRLS' SCHOOL

#### Want Legislature to Reconsider Brower Measure.

Lansing, Mar. 10.—(P)—A campaign to get members of the Michigan legislature to return here of their own accord on Monday, March 15, for the purpose of having the house reconsider its action in defeating the Brower senate bill to appropriate \$200,000 for the completion of the women's training institution near here, is under way by leaders of clubwomen throughout the state. It was said, Mrs. George Hunter, of St. Johns, head of the federation of women's clubs, stated every effort would be made to get a sufficient number of the legislators back on the date set for final adjournment of the extra session to pass the measure.

In support of the present location of the institution, Mrs. Cora Reynolds Anderson of L'Anse, a member of the house, said: "To oppose this location on the grounds it is too close to Michigan State College, is an insult to everyone of the young men who attend that state school. This Okemos site is four and a half miles from Michigan State College and that is just as safe as if it was 100 miles away."

The state legislature located this institution at Okemos 120 years ago. The state owns a 120-acre tract of land. Work on the institution was deferred because of the war. Afterward the state constructed a drive around the farm, a concrete bridge across the Red Cedar river, and erected a modern power house, the improvements representing an investment of around \$100,000.

Senator Burney E. Brower of Jackson, in a published interview Tuesday, suggested this course to save the Okemos appropriation bill, declaring he believed a sufficient number of house members favored a modern and decent place for women prisoners to answer such a call at their own expense to return and pass the bill.

### Collegians Acquire Snappy New Outfits

Billy Bink is back from Chicago where he purchased new equipment for his "Collegians." Escanaba's newest dance orchestra. The boys will wear special monograms and there will be other novel and snappy "trademarks," he announced. The orchestra will make its first appearance at the dinner, tonight, in the Delta hotel, at which heads of retail and wholesale establishments will hear an address by Anderson Pace. The first dance engagement will be the Gladstone Firemen's ball.

### THE DAY IN WASHINGTON

Prohibition was debated in both the house and senate. Federal patronage in the south drew renewed fire in the house.

The senate agriculture committee favorably reported six farm and forestry measures.

The house agriculture committee continued its hearing on the crop surplus problem.

The Chicago sanitary district water diversion case was argued in the supreme court.

President Coolidge received a delegation protesting the proposed all-American ship canal through New York state.

Renomination of Charles W. Hunt, of Iowa, to the federal trade commission was confirmed by the senate.

Irish women have the same rights as men to sit in juries, but excuses have been numerous. The courts have shown a willingness to grant exemption to women on many grounds. The National Council of Women has appealed to women to accept their responsibilities.

### AGED WOMAN PASSES AWAY

Mrs. Caroline Haberle, 85, Dies at Home of Her Son.

Mrs. Caroline Haberle, 85 years old, died at the home of her son, George M. Haberle, 303 Ogden avenue, at 12:15 o'clock this morning. Death was due to complications attendant to old age from which she had been ailing for some time, although she was not taken seriously ill until about two weeks ago.

Mrs. Haberle was a resident of Winona, Minn., for many years. For the last year she had been making her home with her son here. She was born in Germany on June 9, 1841, and came to the United States with her parents when she was 13 years of age. Later she moved to Winona, Minn. Surviving are two sons and two daughters, George M. Haberle of Escanaba, Louis of Minneapolis, Mrs. Henry Wunderlich of St. Paul, and Mrs. C. L. Tscherner of Minot, N. D.

The body was taken to the Allo Funeral Home to be prepared for burial, and will be later sent to Winona for burial.

### OBITUARY

#### MRS. SWAN ANDERSON.

Mrs. Swan Anderson of Menominee, mother of Mrs. Alfred Johnson, 1114 Fourth avenue south, died in Menominee yesterday morning, relatives here were notified.

Mr. and Mrs. Alfred Johnson and O. H. Anderson, 1096 Wisconsin avenue, Gladstone, a son, left yesterday to attend the funeral. Five other sisters and one other son survive.

#### MRS. JOHN SRACHTA.

The body of Mrs. John Srachta was shipped last night from the Allo Funeral Home to Chicago where services will be held this afternoon and burial will be made in a Chicago cemetery.

### Miss Maud Swett Speaks at Meet of Woman's Club

Miss Maud Swett of the Wisconsin Industrial commission addressed the members of the Escanaba Woman's club in an open meeting at the K. C. clubrooms yesterday. Miss Swett is field director of the women's and children's departments.

In an interesting manner, the speaker outlined the progress of child labor reform in recent years, but stressed the point that there is still room for improvement.

Following the talk, coffee was served.

### HOLLYWOOD

Tonight they are diamond studded stars in a brightly lighted and heavenly firmament. Tomorrow—charred remnants and drifting ashes in a world entirely oblivious of them. Billy Franey and Billy West, star comedians, once upon a time headed their own productions. Their salaries ran into the thousands. Franey is an "extra" today, and gone are the luxuries which once linked him to his starring cast.

West, who wore the famous chaplinesque garb—battered derby, and baggy trousers—and many years ago claimed authorship of his creation, is cinematically dead. Oblivion swallowed him with a single gulp.

Max Linder and Lester Cuneo lived as gay comedians. Through their films they made the world laugh. Then they killed themselves. At the height of their careers they had money to burn; death found them penniless.

VITAL STATISTICS: There are more bunions per square foot in Hollywood than in any other place on earth. Careful investigation reveals that casting directors are responsible for this ailment. They keep aspiring players returning to their offices day after day for work they never intend to give them.

Greta Garbo, imported Swedish actress, caused a mild sensation upon arriving in Hollywood when she was asked if she intended to take a house in Beverly Hills, the home of star aristocracy. "A house?" replied Greta. "My no, I am looking for a furnished room."

Beverly Hills is the residential rendezvous of the Hollywood

great. Lillian Gish, Francis Marion, Marion Davies, Harold Lloyd, Corinne Griffith, Herbert Howe, Tom Mix, John Gilbert, and countless others live there. Each home boasts a different architecture.

Fred Niblo, the director, is building a house on the Hills just below that of Frances Marion. "What style of architecture is it to be—Spanish, Italian, or Arabic?" he was asked.

"I am going to be very daring and original," replied Niblo. "I am building an American house." Now everyone is wondering just what sort of freak edifice it will be.

For all their rolls-royce royalties the kings and queens of Hollywood are not without the common touch. No one is really of Hollywood until he has consumed the celebrated corn beef and cabbage served by Lew Cody in the downstairs rathskeller of his bungalow. What is home without a rathskeller? Say the stars—today, and every new home is boasting one.

Pola Negri confesses that when she first arrived here and was a very haughty queen, she used to steal off at night to the amusement park at Venice and shoot the chutes! Marion Davies loved the same hilarious place, particularly the chutes and the shooting galleries. And one evening the

crowds were startled to behold the beautiful Alice Terry shoot out on the pavement from Crazy Castle, a hot dog clutched in her queenly hand. While blessed are those who have attended Bessie Love's wiener roasts and heard her sing to the lit of her ukulele, "Ah, Willie the Weeper."

American meat packer met the king in London. Wonder if the king thought to call him Sir Loin.

Job Is Found for "All-A" Student

four rival claimants for the honor of having invented the water frame and Eli Whitney had to defend his invention of the cotton gin against a dozen rivals.

The enemies of the late Colonel Roosevelt were accustomed to say that the advocate of the strenuous life did not invent any ideas, issues or causes—that he appropriated popular ideas and made them his own.

Great is the man who knows how to put a good idea in action. He is as important as the man who invents the idea.

A fox-terrier in Philadelphia is on trial for killing a cat. Even if he isn't convicted, almost any judge could be persuaded to issue an injunction restraining him from doing it again.

Pola Negri says Rudolph Valentino is "the perfect man." This, then, must be love, traditional blindness and all.

It remains to be decided whether Countess Vera made the immigration authorities look foolish, or whether she merely called attention of the public to something which already existed.

Night-riders flogged a Florida photographer the other day. Couldn't he have pacified them by showing them the cute little birdie?

Nothing elementary about Iron County killers. They shoot 'em in pairs.

Look at the snow! Then look at the calendar! Then order a duck-boat for intra-city navigation next month.

A THOUGHT

Whose is partner with a thief hateth his own soul. — Prov. 29:24.

A plague upon it when thieves can't be true to one another! — Shakespeare.

WOMEN WIN AGAIN. London—Woman finally has been admitted to the only branch of sport from which she had definitely been denied.

PENINSULA DOZING?

The Upper Peninsula is still asleep to the possibilities and opportunities presented by the tourist business, George E. Bishop, of the Development Bureau, told an Ironwood luncheon club the other day.

Figures show, he said, that the automobiles average 3.8 persons per car and the average stay is three days with the average expenditure placed at \$5 per day.

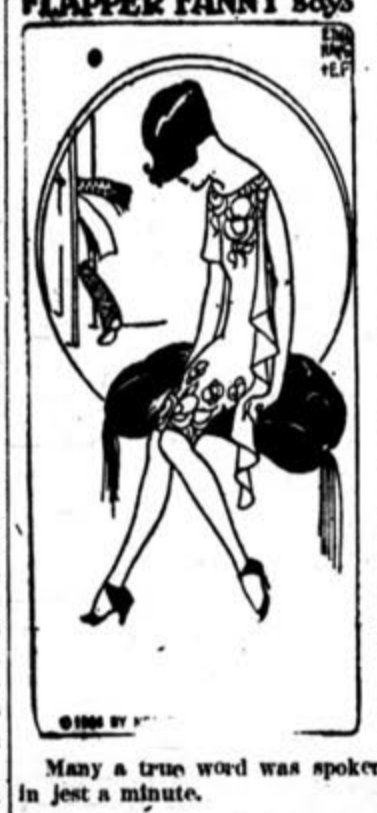

The real estate men of the Upper Peninsula have not yet had the vision of the possibilities of the tourist trade and the sale of the lake-shore line in the Peninsula, he declared.

FLAPPER FANNY says

Few men ever discovered a big idea and undertook to market it who did not discover several others who thought of it first but never put it over.

John Fitch invented the first steamboat twenty years before Fulton put his vessel on the Hudson. The constitutional convention, at Franklin's suggestion, adjourned one afternoon to see this strange craft proceed under its own power up and down the Delaware.

By Douglas Malloch

THE LONELY MOON. A million stars, and one moon only. And yet at night, when hearts are lonely, It always is the moon, somehow, To which we turn, as I turn now.

A million planets fill the aerie, But only one can give her pleasure, The lordly sun, and him she seeks; But, even as she climbs the peaks, He slips behind them farther west, While still she follows on her quest.

A million stars, and one moon only, And she the saint of all-the lonely. For we know separation, we know absence, or may absent be.

THE YELLOW STUB

BEGIN HERE TODAY
HENRY RAND, 55, a business man, is found murdered in a cheap hotel in Griffin. Police find a woman's handkerchief and the stub of a yellow theater ticket.

some time. Remember? The last time we were out together. "But you might not believe me. You might not understand." She was still turned away from him.

Paris.—The sentence of eight years solitary confinement imposed on Countess de Kerinon for the murder of her husband has been reduced to five years. The reduction also removes the solitary confinement clause of the

BROTHERHOODS APPROVE OF CANDIDATES

Representative Edward R. Carter of this city, who is a candidate for the State Senate and the Frank G. Bohn who is a candidate for Congress from this district were both given the unqualified approval of the four big brotherhoods, at a recent conference in Lansing, it was made known yesterday.

Officers of the legislative boards representing the four brotherhoods held their conference for the purpose of looking over the records of certain candidates for the legislature and for Congress. While the thought that the time was somewhat early to make arrangements they checked the records of both Representative Carter and Dr. Bohn, whose records attested that they had answered the roll call during the last two sessions of the legislative bodies, and they made it known that the brotherhoods will be behind these candidates and that their endorsement of their candidacies will be made later.

PASTOR WILL GIVE LENTEN SERMON TONIGHT

The regular Thursday night Lenten services at the Alice Memorial Methodist church will be held this evening beginning at 7:40 o'clock. The fourth of the series of sermons being delivered by Rev. H. W. Colenso, pastor of the church, will be on "The Stewardship for All of Life."

ONE DAY BRINGS THE END TO A COLD DO THE RIGHT THING

You can end a cold within 24 hours if you will. Not only that you can open the bowels, check all the discomfort, eliminate the poisons, tone the entire system. That way is with HILL'S the only way. It is so efficient that millions have come to employ it. It is so supreme that we paid \$1,000,000 for it.

MARBLE ARMS AND OFFICE MEN WINNERS

The Marble Arms defeated the Saw Mill and the Office Men won from the Rotarians Tuesday night at the Community alleys.

Table with 2 columns: Name, Score. Marble Arms: H. Marten 136, L. Kopp 111, W. Haglund 141, L. W. Renard 161, A. Curtis 155. Office Men: J. F. Richardson 179, E. A. D'Amour 170, O. J. D'Amour 135, E. Rothshields 172, W. VanDeWeghe 162.

MRS. M'DONALD IS RE-ELECTED FORESTER HEAD

Mrs. James D. McDonald was re-elected Chief Ranger of the Woman's Catholic Order of Foresters, Sacred Heart Court, at the regular annual election held at Tuesday night's meeting.

ICE SLIDE WILL CLOSE FOR WINTER

Closing of the ice toboggan slide at Sheridan Park, South Gladstone, after a successful season, was announced yesterday by E. M. Perkins, owner, who has found it impossible to maintain the service at the slide after the recent heavy snows.

PASTOR GIVES REASONS BACK OF OBJECTIONS

Reasons for his serious objections to dances on St. Patrick's day, March 17, which have been made known were yesterday given out by Rev. Fr. S. Meier, pastor of All Saints Catholic church.

SILVER CUP ON DISPLAY AT DEHLIN'S

The silver cup won by Coach Keil's five in the district tournament at Norway was placed on display in one of the show windows of Dehlin's Drug store yesterday where it is attracting considerable attention.

MUSICALS TO BE GIVEN ON MARCH 23

March 23 has been named as the date for the Musicals which will be given for the benefit of the Central Parent-Teachers' association playground fund. It was announced yesterday by Mrs. C. H. Teague, chairman of the committee arranging for the affair.

FEEL SPLENDID! NICEST LAXATIVE, "CASCARETS" 10c

Don't stay head-achy, dizzy, bilious, constipated, sick! One or two pleasant candy-like "Cascarets" taken any time will mildly stimulate your liver and start your bowels. Then you will both look and feel clean, sweet and refreshed.

TO THE VOTERS OF BRAMPTON TOWNSHIP

Notice is hereby given that a township caucus will be held Saturday, March 13, 1926 at 2 in the afternoon, at the Town Hall at Kipling, Mich., at which time the following officers will be nominated:

BANQUET HIGH SCHOOL BOYS OF MANISTIQUE

Ray Johns, "Y" Secretary, Present at Gathering.

An enthusiastic gathering of Manistique high school boys... about 75 of 'em—cramped the Odd Fellows' hall dining room Tuesday evening for a big banquet...

CITY BRIEFS

Miss Lulu DeMara and Lillian Cowman returned to Manistique Tuesday morning... Andrew Erickson is reported seriously ill at the home of his daughter, Mrs. M. Klugstad.

URGES WOMEN TO KEEP EVEN WITH POLITICS

Three Speakers at Manistique Club on Tuesday.

"Just how much does the woman of average intelligence know about the laws which govern her?" This question was put to members of the Manistique Women's club on Tuesday by Mrs. James C. Wood...

LEGION POST TO HAVE FEED AND STUNTS TONIGHT

Members of Manistique Post 83, American Legion, have received a call to turn out in numbers for the regular meeting to be held tonight in the Pythian hall.

Garden Peninsula News

H. HEAFIELD, Editor

POLITICAL NOTICES

I am again offering my services to the voters and taxpayers of the Garden township. I have enjoyed your confidence and support during past years and shall again appreciate a continuation of such support at the Caucus to be held on Saturday night.

PERSONALS

Wallace Birk of Hermansville arrived in Garden on Tuesday. He was on his way to his parents home at Fayette where he will visit for a week or two.

ONE MAIL TRIP

Postmaster Joseph Deloria has received word from Washington stating that the Post Office Department have considered weather and road conditions prevailing here and have decided that only one trip daily, while present conditions exist, will be required of the carrier operating between this village and Cooks.

ROADS BLOCKED

The big storm of a few days ago has choked up all of our highways and byways. A crew of men, including Harry Hennessy, Dave Gray, George Farley, Mike Latulip and William Latulip, left here on Monday morning with four teams, breaking the road between here and Cooks.

TIRED OF IT

At least one man in town is tired of the winter and that is Robert McDonald, one of the oldest of Garden residents. Fearing lest the weight of the snow on his veranda in front of his big hotel building, would be too heavy and crush in the structure, for exercise on Sunday, he armed himself with a shovel and made himself busy for several hours.

WALKS TO COOKS

Unable to get any communication with his wife who had gone to a Green Bay hospital to undergo an operation, Edward LaMotte walked the while of the distance to Cooks over badly drifted roads.

WATCH WOOD PILES

A large number of local householders are anxiously watching their wood piles, and also the weather. Very little wood has been brought into town during this month on account of the condition of the weather and the roads.

RIGHT COUGHS

are usually due to causes which ordinary cough syrups do not touch. A new prescription called Thosine working on a different principle goes straight to the cause and is guaranteed to stop night coughing in 15 minutes or money back.

Gas on Stomach May Cause Heart Trouble

"I had gas (from stomach) pressing on my heart and was told I had heart trouble. Adlerika did more for me than anything else." (signed) Mrs. A. H. Harris. ONE spoonful Adlerika removes gas in TEN minutes and often brings astonishing relief to the stomach.

People's Drug Store Offer To All Who Suffer Stomach Agony, Gas and Indigestion

Money Back if One Bottle of Dare's Mentha-Pepsin Doesn't Do You More Good Than Anything You Ever Used.

DEATH CLAIMS FRANK RICE, 62, TUESDAY P. M.

The death of Frank Rice, Sr., 603 Alger avenue, occurred Tuesday at his home in Manistique. The deceased was 62 years of age, and had resided in this section for a period of 40 years or more. He was born in Galatia, Poland, in December 1863.

PRESENT IS GOLDEN AGE OF LINGERIE

By NEA Service. New York.—Women are turning their hours of ease into a gold rush. The amount of gold and silver lace, ribbon, metallic cloth and gold brocade being used for negligees and lingerie must cause the United States mint to view the situation with alarm.

RUSSIAN PREMIER ONLY GETS \$28 PER WEEK WAGES

Moscow.—Soviet Russia pays smaller wages to its government officials and public servants than any other country in the world. Premier Rykoff and all the other members of the Soviet cabinet receive \$23 a week, while less important officials get as low as \$5 a week.

Announce Program at Swedish Baptist Church Saturday

Following is the program to be presented at a social in the Swedish Baptist church, Manistique, on Saturday evening, March 13, starting at 7 o'clock: Song—Unison. Bible Reading and Prayer—Albert Carlson. Welcome—Superintendent. Dare to be a Daniel—Booster Choir. Vocal Duet—Evelyn Oberg and Roy Nelson. An Outgrowing Sunday School—Eather Peterson. Piano Duet—Elizabeth Falk and Eleanor Swanson. "Little Feet May Follow Jesus"—Beginners' Class. Solo—Helen Wilhelmson. Clarinet Solo—Elsie Lofgren. Papa's Letter—Mrs. Edwin Sundell. Higher Ground—Booster Choir. Viola Solo—Agda Wilhelmson. Good Night—Eather Olson. Benediction—Mrs. O. Sandstrom.

DI-JO STOPS SOUR STOMACH

You can free yourself of sour stomach in just 30 minutes. Go to your druggist and get a bottle of Di-Jo. Follow directions and if you don't get immediate relief take four more tablets in half an hour. Then you'll know what it is to be free of such distress. Thousands of stomach sufferers are taking Di-Jo and getting relief. If the bowels are lazy get a bottle of Di-Vac. It expels the poison from the system and relieves the whole system. If your druggist hasn't Di-Jo or Di-Vac write Drug Products, Marshall, Mich. Adv.

PISO'S FOR COUGHS

Quick Relief! A pleasant effective syrup. 35c and 60c plus. Available only at FISO'S Street and Chase Salvo, 35c.

GERO TONIGHT "Streets of Forgotten Men"

Perry Marmont, Mary Erien. Comedy "CHEAP SKATES" Admission 10c and 20c.

ELDERLY CONJURE UNIQUE PROGRAM AT THE CHURCH

Some surprises are promised those who attend the entertainment to be presented at the Presbyterian church in Manistique tonight by the trustees of the church.

QUET ELECTION.

The village election held here on Monday was a very quiet affair, with only 26 votes cast, as against 121 of a year ago. The big attraction of that time was the contest for President, and when James Dotsch who attained his twenty-first birthday on the day of the election, won with a comfortable majority over his slip opponent after a hard fought struggle at the caucus. Mr. Dotsch was re-elected as President on Monday. Others elected were Aristides Thibault for Clerk, Charles Olmsted for Treasurer, Kholman Casper for Assessor and Henry Deloria, George Joque and Napoleon Boudreau, Jr., Trustees for two years. Mondays election board consisted of Charles Gauthier, Chairman; Harry J. Greene, Inspector; Mrs. Charles Gauthier and Miss Eva Gauthier, Clerks and Joseph Deloria, Jr., Officer of the day and gatekeeper.

FAYETTE MAILLES.

The mail was delivered at the Fayette Post Office as usual on Saturday but the return trip taxed the strength of the team to its capacity. The last big storm, continued over the week-end, made the roads altogether impassable and no mail went down there at all on Monday.

### Deafness Due to Catarrh of Air Passages

Authorities Blame Nasal Catarrh for 90 Per Cent of Deafness Throughout the World

Free Trial Offer to All Sufferers

DAVENPORT, Ia., March 11.—According to authorities who base their assertions on years of research and actual medical observation and practice, 90 per cent of the deafness in the world today is due to catarrh—catarrh of the air passages.

Not only is catarrh of the air passages generally termed nasal catarrh, blamed for deafness, but at its door is laid many other diseases, such as stomach catarrh, poisoned conditions of the body, and a generally diseased condition.

#### This May Be Relieved

This condition may be relieved. It is possible now that Dr. W. O. Coffee, a physician of this city, has developed his home treatment for deafness, head noises from nasal catarrh and catarrh to relieve the condition—to get rid of the catarrhal condition in many cases and make hearing possible once more. It is proven that in the majority of cases this is true.

#### Great Success

Phenomenal success has attended Dr. Coffee in his work since he first developed this home treatment. It is stated that more than 500,000 cases of deafness, head noises due to nasal catarrh and catarrh have been treated by this physician in all sections of the country and

out of this number a huge amount have reported complete satisfaction.

Many of his patients have been people whose hearing was bad in one ear and was rapidly getting bad in the other. With every cold, the hearing was worse. Quickly this condition was relieved; relieved not only for the time but the catarrhal condition was bettered and in many cases all traces of catarrh were gone.

Deafness strikes at young and old—and this home treatment of the Davenport doctor has been used by young as well as old. By this method many who were destined to a life of handicap, due to deafness, were made normal once more.

#### Improvement General

Physicians state, authoritatively, too, that doubtless other diseased conditions were combated and defeated by the retreat of catarrh; for it no longer poured its daily portion of poison into the human system and the body was no longer necessary to use a great portion of its blood in throwing off this poison. As a result it was better able to combat new disease and the general physical condition was bettered in addition to the relief given for deafness.

### Noted Deafness Specialist

This is Dr. W. O. Coffee, as he looks today after 44 years of active practice—he wants every sufferer to try his home treatment free.

### Thousands Say They Hear Again After Many Years

Young People and Old People Made to Hear, After Giving Up Hope

Free Trial to All Sufferers

Amazing Letters from Many Who Thought Their Cases Hopeless, Received

DAVENPORT, Ia., March 11.—Included in the thousands of letters received by Dr. Coffee, the deafness and catarrh specialist, from people who tell of their relief from deafness, head noises, from nasal catarrh, and from catarrh, he has given a number which are reproduced below.

All of the letters shown in this article are on file in his office.

The letters practically as they came from the writers, follow:

#### After 17 Years

"Mrs. M. S., aged 64, of St. Louis, came to me personally with a history of losing her hearing about 48 years ago, caused from a catarrhal condition that started when she was a girl. She had been treated by the best doctors in St. Louis, and finally went to Berlin, Germany, and France, trying to find relief from the deafness.

"She was practically totally deaf in her right ear when she came to me and almost in the left. She hadn't heard a telephone in 17 years, and people usually had to write to her. She complained of the most intense head noises. She started my treatment and used it regularly. At the end of two months' time she could not see that she was hearing any better; in two months and a half, she sat down and cried, she was so discouraged; at three months she thought she could hear a little better. She kept up the treatment for about a year, and at the end of that time could hear a telephone plainly in either ear, the first time in 17 years.

"This was one of the worst and long standing severe cases of deafness that I ever treated, and it shows the possibility of what may be done if the structures of

the middle ear are not damaged by the disease. She had a long standing catarrh, but the ear drums were not seriously damaged."

#### Relief at 87 Years

"Mr. J. C. P. of Elmer, Mo., wrote that he suffered with catarrh of the nose and head. Made him deaf quite rapidly. He suffered with severe head noises. He used my home treatment five months, and wrote me that he was completely relieved and says 'I will surprise you by telling you that I am 86 years old.'"

Dr. Coffee says that most people past 80 years of age do not obtain complete relief from long standing deafness and catarrh. Usually they are not strong enough and vigorous to throw off long standing weaknesses.

P. A. N. of Galeburg, Illinois, writes: "Just a few lines to let you know that your medicine has done me lots of good. The noise in my head is all gone now, and I feel fine. I am an old lady, 82 years old and I thank you very much for your trouble." She used only one month's treatment.

Mrs. Fanny B. W. of McKenney, Va., writes she was afflicted with head noises and with itching of the ears, periodical deafness, sometimes almost totally deaf. "I have not been deaf since using your treatment. Your medicines are wonderful." She used three months' treatment.

A. W. B. of East Chicago, Ind., writes, "I have used the one month's treatment received from you just as directed. It has relieved me of all my trouble of ear noises and throat trouble. I can truthfully say with thanks to you that it is a wonderful treatment for catarrh of the nose, head and ears." He used one month's treatment.

causes of the deafness, and when the causes were removed, I was able to hear normally again.

#### Relief to Thousands

"Acquaintances and friends of mine inquired as to the treatment, and soon I was overwhelmed with requests for the method. To treat this number of people in time allotted to office hours would have been impossible and I started to develop a home treatment. After careful consideration I effected a course which I believed to be effective. I allowed a number to try it at home, without the assistance of a physician, and found that they could do the work with almost the efficiency and the good results that a doctor could.

#### Tells of Home Treatment

"Changing the treatment and developing it—adding here and taking away there, after several years, the 'perfected home treatment' was developed. Now it is possible for anyone, anywhere, with just ordinary household surroundings, to treat themselves for relief of deafness, dullness of hearing or head noises from nasal catarrh."

#### Thousands Tell of Relief

Because of the horror of deafness and because of the great number of people who are yearly afflicted with this terrible condition, it was hard at first for sufferers to believe that they could be bettered by a simple home treatment. But the thousands of people who have been bettered by the treatment—by using the free treatment method—have at last est-

ablished Dr. Coffee as a leader in his field. His name is known to thousands of people throughout the United States.

#### Explains Free Offer

To prove that this treatment is effective—that deafness, dullness or hearing, head noises from nasal catarrh and catarrh can be treated and banished at home, Dr. Coffee will give away 15,000 home treatments. He makes these announcements in newspapers throughout the entire nation and quickly the free demonstration packages are gone.

Many people have been given freedom by using the free treatments; they have told others, and in that way the giving away of free treatments is explained by this physician. Many who have been bettered by the free treatments have written for more of the splendid system which removed the "bugaboo" and fear of being forever deaf.

Those who are suffering with deafness, dullness of hearing, head noises from nasal catarrh, may try free, at no cost to them whatever, this original treatment. Even the parcel post charges are prepaid by Dr. Coffee and they arrive at the home of the deafness sufferer free of all charges or obligations.

#### It Is Sent Free

So send in today and tell Dr. Coffee your trouble. If you are a sufferer of deafness, head noises from nasal catarrh or catarrhal conditions which may cause you to become deaf, tell him and he will send you a free treatment for this distressing condition. It is sent free at no cost and without obligation.

### Sidelights on New Treatment for Deafness, Head Noises from Nasal Catarrh

Literally thousands of people from different sections of the United States have used this special, original home treatment and have found relief from distressing head noises and restoration of good or normal hearing.

A huge file, containing thousands of letters from sufferers in all sections of the country has been placed in Dr. Coffee's office. Here are kept the record of each case treated and Dr. Coffee personally investigates the various reports brought to his attention. In this way, a careful check is kept of the effect and results of the treatments.

Contrary to the general belief, deafness or head noises due to nasal catarrh lends itself to treatment and relief very readily. The peculiar construction of the ear in its relation to the nasal passages both creates a condition which results in deafness and makes possible a ready relief when that is corrected. This was the basis of the home treatment as perfected by Dr. W. O. Coffee which has resulted in relief to thousands of sufferers of deafness, head noises from nasal catarrh, and from catarrh.

Dr. W. O. Coffee appeals especially to those who are just beginning to find that they are losing their hearing in one ear and with the coming of a cold find the other ear affected. Many who are now stone deaf could have been made to hear again if their case had been properly cared for at the first showing of dullness of hearing.

Many cases of deafness are caused by dry catarrh—a type which gives no noticeable discharge or symptom.

Insurance authorities place deafness in the list of those defects which add to the risk of the insured life. Many railway accidents, accidents in the street with automobiles and in practically every walk of life are due to deafness or dullness of hearing. This condition in many cases can be corrected—if the condition is due to nasal catarrh. Nasal catarrh is responsible for practically 90 per cent of the deafness today, authorities state.

There is no obligation attached to the plan in any way. It is simply a means, the doctor explains, of spreading the news of his treatment and proving to the world that such a thing as relief for deafness, dullness of hearing, head noises from nasal catarrh and catarrh is possible. He is sure of what his treatment will do; the sufferer is not sure and unless it is proven, the fact that it is effective and has given relief in thousands of cases will never be known by victims of this terrible thing.

#### Restored Hearing in One Month

Mr. George Bishop of Sask., Canada, says, "I had been growing deaf for 12 years and had been to some of the best hospitals in all Canada and even submitted to operations without success. I spent hundreds of dollars but gradually grew worse. I became so bad that people had to talk directly into my ear, if I was to hear. By using Dr. Coffee's treatment, my hearing was restored in one month's time. I wish that every sufferer everywhere who is afflicted as I was would give this wonderful treatment a test. It is wonderful."

#### Deaf Since Childhood; Hearing Restored This Way

Mona McBride

#### Chronic and Acute Deafness Ends

Mrs. Mona McBride of Illinois says, "This is to certify that since having scarlet fever when a little girl, I have been hard of hearing, and for the past four or five years I have been almost entirely deaf. A few months ago my left ear began to discharge. I found it to be abscessed and discharging a foul fluid. Nothing seemed to stop it and finally I tried Dr. Coffee's treatment. To my surprise and delight the hearing in the ear which was partially deaf for nearly 20 years has returned and the abscess has healed. Now I can hear a conversation six feet away. I didn't believe it possible and I certainly advise anyone suffering with deafness to try this treatment. I obtained relief in one month's time."

### Deafness and Catarrh Successfully Banished by Davenport Doctor

Prepares 15,000 Treatments Which Will Be Given Away Free for the Next 30 Days to Sufferers from Deafness, Head Noises, Nasal Catarrh, Dullness of Hearing and to Catarrh Sufferers

#### (Special Correspondent)

Davenport, Ia., March 11.—(Special)—A proven treatment for deafness, dullness of hearing, from nasal catarrh and for catarrh has been developed by Dr. W. O. Coffee, an eye, nose and throat specialist of this city, which has resulted in the restoration of hearing to thousands.

Basing his treatment on the fact that in practically 90 per cent of the cases, loss of hearing is due to a catarrhal condition, Dr. Coffee by concentrating his efforts in that field has proven that restoration of hearing is not a myth. Literally thousands of people from all sections of the United States have taken this original home treatment and have been restored. Letters from hundreds of these people thanking the doctor for his treatment and attesting to the effectiveness of his work are on file in his Davenport office.

Dr. Coffee does not claim that his original treatment will restore hearing to all cases of deafness, but he says if the deafness or head noises is caused from a catarrhal condition and the tissues of the middle ear are not damaged, the hearing should be restored real good or normal. Basing his experiments in his office on this practical relief of these conditions, he has positively demonstrated and proven that the restoration of hearing to a large majority of people is an easy, practical fact for any sufferer to prove to himself at home.

Literally thousands of people from different sections of the United States have used this original special home treatment and have found relief from distressing head noises and restoration of good or normal hearing.

#### Tells of Development

In telling of the development of this effective treatment for deafness, Dr. Coffee says: "More than 25 years ago, I began to suffer with head noises, dullness of hearing and with catarrh. I was rapidly losing my hearing. I was bad in one ear and with every cold I would get bad in the other. Slowly but surely my hearing was leaving me. I naturally tried every treatment that I knew of, as deafness in my profession would have been fatal to my success. After a great loss of time and when two operations had failed to give me permanent relief I calmed my fears and began to analyze the cause and effect of my trouble.

"Basing my treatment on the results of this study I evolved a system which I believed would remove the handicap of deafness if anything would. There was nothing magical about it. It was a logical, scientific treatment, and within a short time I began to improve. After some time, I was normal again and I have been since that date.

#### 500,000 Sufferers of Deafness and Catarrh Is Doctor's Record

A remarkable record has been established by Dr. W. O. Coffee, the Davenport, Iowa, eye, ear and nose specialist, who has developed the treatment for deafness, head noises from nasal catarrh, and catarrh.

During his 44 years as practicing physician, he has probably established a record which no other physician in the country can match. His records show that he has treated more than 500,000 people suffering with deafness, head noises from nasal catarrh, and catarrh, and eye diseases. These people live in all sections of the country and have been treated, in the majority of cases, at home, using the home treatment for this distressing condition, as developed by Dr. Coffee.

The results of these different cases have been gone over and compiled and the results of this home system of treatment have been absolutely proven. When the average physician has treated fifty cases with one definite system of treatment, it is sufficient to be proved as an established fact what it will do. Dr. Coffee has thousands of such cases. Letters from people that have used this home treatment are on file in his office that show the wonderful results.
