TREASURY TO INSIST UPON TAX SURPLUS

DEBT RETIREMENT IS USED TO "SELL" THE IDEA.

BY DAVID LAWRENCE

Washington, Mar. 19.—(AP)—The success which has attended the government's refunding policy in the last fortnight and the forecast that a billion dollars will be cut from the public debt this year may vitally affect the size of the next tax reduction.

Until the dramatic example was given of how a surplus may cut indebtedness and indirectly reduce interest charges for the future, the tendency in Washington to regard the surplus as a logical prey for the advocates of tax reduction.

The treasury has all along been favorable to this idea of using the surplus but has yielded to the clamor for tax reduction.

Complicated by Politics. The problem is complicated by the fact that 1928 is a presidential campaign year and members of congress who are up for re-election will wish to appear before the electorate in the most favorable light.

Prosperity Expected. Congress has rarely been confronted with the possibility of a cut of a half billion in taxes, yet if the present tax rates should continue as productive as they are now, the next revenue bill will be based on the idea that a cut of at least \$400,000,000 would be safe.

Defunct Company. Will Repay Money to Lot Purchasers

Fort Lauderdale, Fla., Mar. 19.—(AP)—W. W. T. Stotesbury and Mrs. Hugh Dillman.

Canadian Reciprocity Suggestion Greeted by Silence in Washington

Washington, Mar. 19.—(AP)—The cloak of official silence which is wrapped about anything official Washington is unprepared to discuss, was thrown today over the shoulders of Premier Mackenzie King's suggestion for a reciprocity arrangement with the United States.

Canada is ready to arrange a reciprocal trade treaty to cover tariff duties charged on mutual coast products and fish, the premier told the Canadian parliament, and is also willing to meet President Coolidge half way in reducing certain duties without awaiting congressional sanction.

There were a few closely associated with tariff matters who said that under the law Mr. Coolidge could not change the tariff merely for reciprocal purposes; that he had the power only to give the flexible provisions of the tariff act to meet competitive trade problems.

THREAT LETTER AUTHOR CAUGHT

Eastern Man Confesses Blackmailing Edsel B. Ford.

Gulfport, Miss., Mar. 19.—(AP)—Edmund Grant Goodwin, 35, giving his address as Portsmouth, N. H., arrested here last night after a nine-months' hunt by detectives, was said to have confessed to police today to writing a series of letters demanding money from Edsel B. Ford, Detroit manufacturer.

Warrants for his arrest were issued after he had been trailed by private detectives. They were based upon affidavits made by L. P. Harris, assistant superintendent of the New Orleans branch of the Ford Motor company, after a conference with the county attorney.

MAKES NO COMMENT. Sudbury, Mass., Mar. 19.—(AP)—Henry Ford tonight declined to comment on news dispatches from Gulfport, Miss., reporting the arrest there of Edmund Grant Goodwin, charged with writing letters demanding money from the automobile manufacturer's son, Edsel.

Detroit, Mar. 19.—(AP)—The arrest in Gulfport, Miss., today of Edmund Grant Goodwin on charges of sending letters to Edsel B. Ford demanding money for information concerning the date upon which the latter's son would die, recalls an attempt three years ago by Vasily Simek to blackmail Ford. Simek was arrested here after sending Edsel Ford a series of letters demanding \$1,500,000 and threatening to "blind" his children in event the demand was not complied with.

CROWDS JAM COURT DURING FORD'S TRIAL

Detroit, Mar. 19.—(AP)—Crowds that daily have tried to "crash the gates" at the trial of the \$1,000,000 libel suit against Henry Ford preaches a serious problem to court attaches as the time for Ford's appearance on the witness stand draws near.

Although the proceedings thus far have not been of a sensational nature, there has been a spirited fight each session for seats. No injuries have been reported in jams at each door, but clothes have suffered.

The beautiful little courtroom accommodates but a handful. When the federal building was built there was \$50,000 yet unspent, so the story goes, and it was decided to put it into lines A, B and C.

Sapiro Appears Regularly. Aaron Sapiro, who claims his reputation as an organizer of co-operative farmers' organizations was injured by articles in the Dearborn Independent, has been the only one of the principals regularly in court.

A FLOYD COLLINS WHO ESCAPED

After 13 hours in an almost airtight tomb at the bottom of a 55-foot well, Jeff Ashworth, 22-year-old well digger of Harnett County, N. C., was brought out alive. Ashworth, bruised and torn from an avalanche of rock that fell upon him—eight tons of it—is shown in the upper photo on a cot just after his rescue. The rock avalanche, hauled out painstakingly in crude wooden baskets, is pictured below. Air reached Ashworth during his imprisonment through a tiny crevice in the rockpile above him.

BIG BLIZZARD LASHES WEST; 2 PEOPLE DIE

Denver, Colo., March 19.—(AP)—Two persons were dead and three to seven inches of snow covered Colorado and Wyoming tonight as one of the biggest storms of the winter began to abate.

As snow flurries fell today on the Colorado plains, assuring sufficient moisture for crops, a crew continued to clear the Denver and Rio Grande Western Railroad tracks near Silverton, isolated a month ago by blizzards and snow slides and the end of their labors was in sight.

Another quarter of a mile and the tracks into the snowbound town of the San Juan basin will have been cleared provided a snowfall forecast for tonight does not undo the crew's work of several weeks.

Efforts to re-establish railroad communication with Silverton cost one life. Antonio Legato, laborer, died today from exposure suffered while shoveling snow.

The blizzard, beating down from the north, caused another death at Laramie, Wyoming. Miss Ella Brucher was killed and eight persons were injured when two automobiles, the drivers' vision obscured, collided.

Aid mail planes added another victory to the countless contests against the elements. Despite the storm which dropped nearly five inches of snow in southeastern Wyoming, the pilots battled through with a minimum of delay, officials at Cheyenne reported.

More than four inches of snow fell in Denver and seven inches at Casper, Wyoming.

This Daring Would Shock Jesse James

Chicago, Mar. 19.—(AP)—If Jesse James were alive today he would have marveled at the boldness of seven men who early today held up 25 men and women in the Continental Can company, shot off the locks of the cashier's cage and obtained \$12,463 in payroll funds.

One man with a huge handkerchief concealing his features, led the robbers. Firing, apparently just for effect, he cowed the employees while six companions quickly secured the money.

TELLEZ DELAYS KELLOGG VISIT

Mexican Minister Silent on Possible Developments.

Washington, Mar. 19.—(AP)—Developments in Mexican-American relations which may be expected to flow from the hurried visit of Ambassador Tellez to Mexico City for conferences with President Calles and other government officials were deferred today by the ambassador's decision to postpone his call on Secretary Kellogg until next week.

Neither the ambassador nor the state department would throw any light whatever upon the present status now in dispute between the two countries at least pending the conference. Both maintained complete silence as to the subjects discussed in the recent mystery correspondence between Washington and Mexico City that has been linked with the ambassador's sudden trip to the Mexican capital.

BANK ROBBERY IS FRUSTRATED

Bank Manager and Bandit "Shoot It Out"; Two Injured.

Baltimore, March 19.—(AP)—Two bank employees were shot, one seriously, in a fruitless attempt of three robbers to hold up the Monument Street branch of the Provident Savings Bank today. Precipitous action of the lone gunman who took the leading role, in cutting loose with a blasting fusillade of shots before he had gained access to the bank's funds, acted to frustrate the robbery. He was driven off in a gun duel through plate glass.

Leaving two companions outside, one at the wheel of an automobile with the engine running, the bandit quietly approached the cage of Robert J. McNally, Jr., 20 year old teller and fired point blank through the glass. A bullet tore through McNally's throat and another smashed his jaw. He crumpled to the floor as Damon L. Gaskin, the bank manager, whose coat had been clipped by a bullet, leaped into the fray with a revolver. With bullets from Gaskin's gun spinning about him, the bandit retreated, but near the door turned and firing the length of the room, struck Gaskin in the side. Gaskin kept his feet, however, and continued to fire. That one of his bullets may have found its mark was indicated by a spatter of blood on a divan near the doorway. Hospital physicians said neither McNally nor Gaskin would die. McNally was the most seriously hurt.

hour of each other, this city is decisively out of the real tornado area and it has the lake to thank for its safety.

Arkansas Is Leader. From figures gathered from 1916 to 1924, Arkansas leads the country in the number of tornadoes. During the eight years, 74 storms originated in the state and 76 others cut into it. These storms occurred in March, proving beyond a doubt that this month is the most prolific of the year.

March also is the month for tornadoes and abnormal storms in Kansas which ranks second having 68 storms in the eight-year period. Texas is a close third.

"So many people get the idea that a tornado is a cyclone, and that a cyclone is a tornado. As a matter of fact, a tornado is much smaller, covers less ground and its intensity in spots is far greater than a cyclone. A cyclone is a storm more general and covers a greater area, for instance the storm of 1896 that swept a path a mile wide through the business section of St. Louis."

though perhaps not as high as 1926 will be encountered in the measure of 1927 and in 1928. The recommendations of the treasury as to the size of the tax cut will be based on the thought that if the estimates are too conservative and a large surplus results it can be effectively used for tax reduction and judging by the reaction of the people to what was done with this year's surplus such a course in the view of the treasury will not be unfavorably received.

May Drop Charges Against Dr. Cook

Fort Worth, Texas, Mar. 19.—(AP)—A move to have Dr. Frederick A. Cook, convicted here of using the mails to defraud, tried under similar charges in Cleveland, Ohio, probably will be dropped as a result of a decision reached today to leave Cook in the penitentiary at Leavenworth, Kan., until the government's appeal from his five year probation is carried to the United States supreme court.

Cook will stay in Leavenworth as the result of a "gentleman's agreement" reached by Federal Judge James C. Wilson, District Attorney Henry Zwisel and H. C. Wade and S. J. Callaway, counsel for the former explorer. It was decided that no formal motion should be made for a stay of the probation order, but that Cook will simply remain in prison until the outcome of appeal.

"In our opinion, the attempt to revive the Cleveland cases against Cook will be dropped, now that it is decided that he shall stay in Leavenworth," said Wade.

"We were not, as a matter of fact, worried about these cases, anyhow, as we are confident Cook could not have been removed from Kansas to Ohio for trial. He is under the jurisdiction of this court, not of any court in Ohio, and will be until he serves his sentence or is pardoned."

Payroll Bandit Held for Trial

Pittsburgh, March 19.—(AP)—Paul Jaworski, confessed driver of the automobile in which a bandit gang escaped with a blowing up a Pittsburgh terminal blowing up a Pittsburgh terminal coal company armored car at Coverdale, today was held for court on a charge of highway robbery. District Attorney Samuel H. Gardner said he expected to place a murder charge against Jaworski later as a result of the bandit admitting he was also a member of the gang which shot and killed I. L. Gump, a guard, in a holdup of the same company's payroll more than a year ago.

County detectives today failed to find additional trace of the loot on the Joe Weckoski farm in Washington county where \$37,000 has already been dug up. Weckoski who was arrested in Detroit early this week was cleared by Jaworski of participation in the Coverdale robbery. Weckoski lent his farm to conceal the loot, the confessed bandit said.

No Funds, Federal Court Shuts Down

Detroit, Mar. 19.—(AP)—Because of the shortage of funds in the office of the U. S. attorney general, the federal court of the eastern district of Michigan will not accept for trial any more cases, brought in by the Detroit police or state police, John A. Baxter, chief assistant U. S. attorney, said today.

Coincident with Baxter's announcement came a statement from Federal Judge Charles C. Simons that the March jury, available for duty until next July, would be excused next week to be recalled only in case of extreme emergency.

The shortage of funds was made known through a letter to Baxter from John G. Sarzent, attorney general, which set forth that the attorney general's appropriation for the present fiscal year had run so low that extreme economy would have to be practiced in the trial of cases. The shortage of funds, the letter revealed, was due to the defeat in the last congress of the second deficiency bill.

Arbitration Board Hears Rail Dispute

Chicago, Mar. 19.—(AP)—The dispute between 65 western railroads and their 65,000 conductors and trainmen who demand a \$1 a day wage increase, today was referred to a board of arbitration.

The proposals of both sides for changes in the rules under which the employees work were withdrawn.

The announcement came from E. P. Morrow, former governor of Kentucky and S. E. Wislow, members of the U. S. Board of Mediation.

SHANGHAI ROAD IS UNGUARDED

Important Route Open to Cantonese Attacking Troops.

Shanghai, Mar. 19.—(AP)—By the collapse of the Shantungese defense on the Sung Kiang front, the road to Shanghai has been opened to the attacking Cantonese armies and military authorities here anticipate they may reach the prize city within a couple of days. Their advance, however, may be delayed by adverse weather conditions such as have been responsible for the delays in the nationalist operations for the capture of Soochow, about fifty miles west of Shanghai.

The collapse of the northern line at Sung Kiang which had been defended by about 7,000 troops of the army of General Chang Tsung-Chang, was brought about through an outflanking movement by the southern, or nationalist forces. This maneuver rendered untenable the northern positions at Minhang and farther eastward. The northerners retreated hastily without the slightest attempt at resistance. Two thousand of them had arrived in Shanghai tonight.

The collapse, though not unexpected as the northerners had been heavily pressed on all fronts the past week, was not looked for so quickly. It had been generally believed the nationalists eventually would gain control of Shanghai by some sort of political bargaining.

Cremated Body of Minister's Son Is Found by Children

Chicago, Mar. 19.—(AP)—The unidentified body of a boy was found on the remnants of a bonfire along a lonely roadway in Forest Park, a suburb today.

The body was burned beyond recognition, the collar bone and breast bone were broken and the police said that the youth undoubtedly had been slain. Labels had been cut from the clothing, which was of good quality, but a belt buckle bore the initial "M."

The body of the boy was found in the suburb today by four small boys playing along the banks of the Des Plaines river. Police said they believed the boy had been dead for several days.

Down State Players Handball Champions

Detroit, Mar. 19.—(AP)—Handball's highest honors were lifted from Pacific Coast holders in the finals of the national tourney here today.

Willis Kammon and Herman Dwan of Detroit captured the double title held by Lane McMillan and Jack Donovan of San Francisco, by winning the finals match from Al Spiegel and Pete Revelt, a local team. Donovan and McMillan vacated their title Monday in order to compete in the singles.

The singles championship, formerly held by Maynard Lawwell of Los Angeles, went to George Nelson of Baltimore, who defeated Frank Burke of San Francisco in the final match. Burke, a comparatively unknown in championship circles, made a sensational bid for the title. The Pacific coast player appeared off form and dropped the contest to Nelson, 21-9, 21-4. Nelson, with an uncanny twist shot, won all his games in straight sets and was never extended. He held his opponents in the week of tournament play to a total of only 99 points for 13 games. Burke, whose cannon ball service had upset some of the country's best players was able to count only 13 points against the champion today.

Helen's Good Name, But Not for Him

Hartford, Conn., Mar. 19.—(AP)—Helen L. Sales would seem a good enough name for almost anybody but Helen didn't think so and yesterday the board of registration agreed to carry the name on the voting list as H. Lewis Sales.

When Helen appeared to register he explained that his parents had been looking forward to having a daughter and had decided to name her Helen. When a son arrived instead they decided to give him the name anyway. So as Helen L. Sales he has been known until the board took pity on him.

WILL CAL REST IN MICHIGAN?

Question to Be Answered After Snow Melts Away.

Washington, Mar. 19.—(AP)—An answer to the all-absorbing question of where President Coolidge will establish his summer residence must await the melting of the snow. When the spring sun has brought out to their true summer settings, the numerous sites in the west now under consideration, Mr. Coolidge will send a man in whom he has confidence to inspect the locations.

Meanwhile, each new invitation arouses more speculation about the White House as the staff who must accompany the president wonder where it will be living during the summer.

The invitations include sites from Michigan to the Pacific coast. To all those bringing invitations, Mr. Coolidge emphasizes that the location must have adequate accommodations for the large number who must go with him, and this, along with his desire for a cool climate and high altitude will be a big factor in his final choice.

Those who have talked with the president about his plans believe Colorado is the most likely candidate among the farther western states and that Wisconsin or Michigan will get the call if Mr. Coolidge decides to go to the middle-west. It is the belief of some that he will be reluctant to go more than a 48-hour train ride from Washington.

POLITICAL POT BEGINS TO BOIL

Cal Center of Attraction at Meet of G. O. P. Leaders.

Washington, Mar. 19.—(AP)—The political pot boiled here today under stirring by Republican leaders. President Coolidge was the center of attention, the Ohio delegation to the Republican convention next year was offered to the president by Fred Warner, chairman of the Ohio state Republican committee, in case Mr. Coolidge desired to become a candidate.

A report on the national situation also was in the hands of the president as a result of a conference with Charles D. Hillis of New York, former national Republican chairman, who recently made a swing through the country to survey conditions. He later declared Mr. Coolidge in a strong position. A bid by Cleveland for the next convention added to the political atmosphere of the day. Carl Thompson of Cleveland urging selection of that city.

Mr. Coolidge was silent at all stages. He smiled at the suggestions of Mr. Warner and invited him to luncheon. Mr. Thompson also declared the president was in a strong position in Ohio. Neither he nor Mr. Warner would discuss the possible candidacies of Vice President Dawes or Speaker Longworth, also of Ohio, for the Republican nomination.

Wants to Pay for Watermelon Stolen Over 60 Years Ago

Veedersburg, Ind., March 19.—(AP)—Conscience is a persistent thing. Mrs. Joseph G. Glascock of this town has received a dollar from a person living in Illinois in payment for half of a watermelon stolen from her father's farm sixty years ago.

Accompanying the dollar was a letter which stated that the writer, then 13 years old and a companion, age 18, now dead, stole the melon out of the patch of Henry Cade, father of Mrs. Glascock.

"I am on my way to Heaven," the writer continued, "and on my way ran up against that melon. It got so large I could not get over it. Forgive and forget is the prayer of your humble servant. Luke XIV, 1-10."

Tonopah, Nev., Mar. 19.—(AP)—The two extremes of the nation, attracted by Weepah's gold, met here today when a car from Miami, Fla., and one from Nome, Alaska, parked in front of a restaurant before starting on the final lap to Weepah.

The Florida man said he had made money in Arizona boom, put his money into Florida ranch land and unloaded during peak prices.

The Nome man confessed he had been in a dozen booms without saving a dollar.

FORD MAY AID GARDEN WORK

Automobile King Confers With Mayor of Worcester, Mass.

South Sudbury, Mass., Mar. 19.—(AP)—A garden cities project started in Worcester 20 years ago with the purpose of teaching self-reliance to future citizens of Worcester, probably will have the active aid of Henry Ford, Detroit automobile manufacturer, as the result of a conference at his Wayside Inn here this afternoon between Mr. Ford and Mayor Michael J. O'Hara of Worcester. Mr. Ford promised eight weeks to view the work of the 800 youngsters which last year produced more than \$10,000 worth of agricultural products.

The work, Mr. Ford said, is akin to that which has been doing in Detroit where 1600 youths between the ages of 15 and 18 are learning the manufacture of automobile parts. He said some of them have risen to positions as foremen in

his plants and that the Ford Motor company owes these apprentices about \$90,000 for their work.

Mr. Ford took occasion to repeat his belief in teaching youths to work rather than making them objects of charity.

With Mayor O'Hara were several men on their way to a meeting of the Clover club in Boston. They told Mr. Ford it was "Irish night" at the club.

He was interested at once and noted that his grandfather was a native of Ireland.

"My best employes are Irish," he said.

AMUSEMENTS

TODAY'S PROGRAMS. AT THE DELFT: "Women Love Diamonds," a drama with a cast which includes Lionel Barrymore, Pauline Starke, Owen Moore and Douglas Fairbanks, Jr.

AT THE STRAND: William Fairbanks, the athletic actor, in a secret service melodrama, "The Hawk."

With a comedy cycle now seeming to hold sway in cinema circles, it is still refreshing to herald the coming of a worthy drama. Such a picture is Herbert Brenon's latest Paramount production, "God Gave Me Twenty Cents," which arrives at the Delft Monday, with Lois Moran, Lya De Putti, Jack Mulhall and William Collier, Jr., in featured roles.

AT THE STRAND. "The Lightning Reporter," starring Johnny Walker, Sylvia Bremer, Burr McIntosh, Joseph Girard and Mayme Kelso, will be the feature at the Strand Monday.

A vivid and entrancingly colorful story of the titanic struggle of two of Wall Street's biggest figures for control of a world famous railway system, this picture is said by those who have had the good fortune to see it, to be realistic to the last degree while the resourcefulness and nerve of Jimmy Blayne, the "Lightning Reporter" himself, is a thrilling detective tale in itself.

The Piffle Hook PERHAPS some of those panics, radishes, robins and arbutus blossoms acted with the rashness which too often is the handmaiden of haste, but we admire their courage, anyway.

DAUGHTERS OF MIDAS by Trine Austin "Yes, sir, that's what I mean." Clay Curtis stood his ground. "You had a little argument before I showed off for Chicago, the other day. When I arrived in the village where they think nothing of stealing our bathing beach, I decided I'd offer the little woman a peace offering which would help patch things up. So, into a candy store I black-bottomed, and asked for the big box in the middle with the nine yards of ribbon around it. Jesse James' widow wrapped it up for me and gave me the latest figures on the French war debt. I explained to her that I already knew the price of the box of candy as I was in a hurry and she said she was too busy to argue so I paid her for the half-interest in the joint and made a mental note to look up and see what dividends the stock ought to pay me the first year. When I got back to Escanaba and handed the package to the ball and chain she took one look at it and she says—'maybe I'd better not try to tell you what she said because she talked for an hour and I didn't take any notes.'"

CHAPTER II "Oh, I could run!" Clay Curtis dismissed the subject with an angry gesture. "But a man can't make his living running in track meets. And while I was wasting my time at the stadium, the professors were railroading me through every course I took. Oh, I was a great guy at college, because I could play piano and saxophone and the flute, and could sprint faster than any other rich man's son. I don't know what boys working their way through college have done on the track or in the football field. They didn't, had to make their grades if they got 'em."

EUROPEAN FARMS PAY. "The common idea that European farmers live in hovels in poverty is no longer accurate," says Dr. Galpin, of the U. S. department of agriculture. "Conditions are bad in some cases, as they are in the United States, but there is a great number of farmers abroad whose living standards are comparable with what we have in this country."

THE FRONTIER COMES BACK. We thought we had lost the brave, romantic old west; we thought the untamed frontier had gone the way of the wild buffalo and the scalping Comanche. But it seems we were mistaken. They have found gold again in Nevada. Let us be thankful. Our life has grown standardized and monotonous. We turn to the movies and to books for our thrills; we enshrine saw-toothed desperadoes as the James brothers; we know no adventure higher than talking back to a traffic cop.

CHAPTER III "Well, I guess it comes down to this," T. Q. said in that mild, dangerous voice of his; "that I ought to have kicked you out of the house when you were twelve or fourteen, and told you to root, hog, or die! I gather that's what you mean—that you're blaming me now for not doing that. That right, boy?"

CHAPTER IV "The mayor of Batavia, O., is going to see a film version of Goethe's Faust and decide whether the picture is immoral. What the mayor rules is going to be tremendously important to Goethe's literary reputation."

CHAPTER V "I have a hunch she'd be glad," Clay Curtis stood over his father and offered his hand. "Guess I'd better get going alone. Dad, I'll clear out tonight, if you don't mind."

CHAPTER VI "I believe the young people of today are better than those of previous generations," says the Bishop of Lichfield. This confirms the opinion already held by the young people of today.

POLICE LOCATE STOLEN AUTO

Officer Goes to Rhinelander to Bring Back Machine.

Assistant Chief of Police Mike Pfenhofer, who left Saturday night for Rhinelander, Wis., is expected to return to the city this morning after having taken John Clark of Rhinelander into custody. Clark is charged with the theft of an automobile, the property of Thomas Tounignant of this city, which was stolen from Escanaba, October 26, 1925.

The recovery of this car keeps the record of the Escanaba department clean as far as recovery of stolen cars is concerned. This was the first case of an automobile taken from Escanaba where it was not returned to the owner within a short time.

The local department has known for some time that the car was near Rhinelander, but officials in that city were unable to locate it until recently.

Novena in Honor of St. Therese Ends

The novena in honor of St. Therese which was held at St. Patrick's church during the past nine days came to a close Saturday morning. During the nine days more than 5,000 communions received the sacrament. This morning there will be general communion and it is expected that another large crowd will attend.

This evening at 7:30 o'clock Rev. Fr. R. Bergeron will speak on the sacrament of penance as instituted by God and the way man would like to have the sacrament today.

Father Bergeron will give a full explanation of confession, as this subject requires a more definite explanation than any other sacrament of the church.

It is expected that the church will again be filled to capacity and a hearty welcome awaits the general public.

SAVE WILD FLOWERS!

Escanaba, Mar. 19.—(To the Editor)—When the word conservation is used, the public in general immediately thinks of trout, deer, partridge and perhaps the trees of our native forests. I wonder how many ever give a thought to the wild flowers?

The state department of conservation has asked the legislature to protect certain species of wild flowers, just as deer and trout and birds are protected. Botanists, who have made close study of the subject, say that unless something is done, several of our most beautiful native plants face extinction. Among these wild flowers which are in danger are the trailing arbutus, the bittersweet, the wild holly, the Christmas fern, the fringed gentian, the trillium and the pink lady's slipper. The conservation department proposes that the sale of any of the above-named be prohibited and would make the gathering of any of them illegal unless the owner of the land upon which they were growing gave his written consent.

To many of us, perhaps this is a trivial matter. But you can recall how, a quarter of a century ago, a large number of people declared that restrictions on the taking of partridge and trout never would be necessary.

It seems to me that the Inak Walton League, the Wild Life Conservation League, the Woman's club, the Parent-Teacher associations, the Rotary and Kiwanis clubs and other public-spirited groups might do Michigan conservation a tremendous favor by letting our members of the legislature know that they are interested in Michigan flowers.

strong castor cups are adequate to "take up" vibrations of the machine when the dryer is being used. One of the castor cups is oval-shaped and has a groove in it so that the machine can be rolled a few inches one way or the other, to be placed in front of the rinse tub or the bluing tub.

An Automatic Pump

An automatic pump, which is slung under the machine, along with the motor and operating mechanisms, operates all the time the motor is turned on pumping the wash water out of the machine into a drain or from the drying cylinder to another tub.

The water, whirled from the clothes placed in the drying cylinder, may be directed to any one of three different tubs, by means of a control lever placed on top of the machine. When the lever is turned to a point on the frame marked "suds" the water is returned to the washing tub; similarly, the water may be directed into the rinse tub or the bluing tub according to the adjustment of the lever.

A noteworthy attachment on the machine is a small gas heater under the washing tub to keep the water at a good heat for effective washing.

Another important feature for a machine of this size and strength is an overload relay to turn off the current in case the machine is too heavily loaded for safety to itself or to the clothing. This is but one of many points which characterize this washing machine as one of the best on the market. It is well constructed, durable, easy to operate and quiet, all four important requisites of a machine for household use.

More forceful sousing of the clothes is obtained by the action of suction cups which are used in some washing machines. The cups—two or three is the number usually used—are pivoted on a central driving shaft which has a reversible rotating motion, as well as an up and down action. Thus the cups operate over the entire area of the load of clothes, forcing water through the clothes with the downward motion and sucking it back on the upward swing.

The vacuum cups are also employed in certain of the centrifugal dryer washing machines, the cups being removed when the clothes are to be spun for "wringing." The Institute recently tested a water-power washer of this type as well as two electric machines.

Two-Tubs Used

An unusually efficient washing machine has recently been tested and approved in the Institute laboratory. This machine is a combination of the vacuum-cup type of washer with a centrifugal dryer. With the perforated drying cylinder spinning in a tub of its own, the washing can go on simultaneously with the drying of the clothes, and the laundry work be done in almost half the usual time. To be sure, the clothes must be lifted over a partition wall from the tub in which they are washed into the drying cylinder, but this can be done easily and quickly, and wooden sticks or spoons for labeling the clothes out of the water spare the hands and save time.

The two tubs—a large, capable-looking tub for the washing and a deep slender one for the drying—are securely fastened in juxtaposition to each other on a heavy iron frame. The tubs are made of heavy copper and nickel-plated on the inside.

The iron frame stands on three legs which are carried on large, heavy casters, so that, although the machine is a heavy, sturdy one, it can be easily moved about without undue exertion. Two

THE TINYMITES Story by Hal Cochran—Pictures by Knick

The Tintymites left the dish and spoon and walked away 'til pretty soon they reached a funny little house with door swung open wide. Said Scouty, "Say, I wonder who is living here. I wish I knew. If it is someone friendly, I would like to go inside."

But, Copsy snapped, "We'd best beware, and wait 'til we are asked in there. It never is polite to walk right into some one's home. Let's sit out here and rest a bit, 'til all of us are feeling fit. I'd really rather loaf a while and rest myself, than roam."

The other Tintymites quite agreed and all of them showed lots of speed in racing to a nearby tree where there was lots of shade. A dandy spot was shortly found. They squatted down upon the ground. And then they quickly realized how hard they all had played.

In just about an hour or two a little shrill voice said, "Oh, hoo," and looking over toward the house, they saw a little boy. He waved and they began to grin. "Come over here and walk right in." And, were the Tintymites tickled? Why, they all were filled with joy!

To get there first, each Tiny tried, and when they all were far inside, they found the little youngster sitting cozily on the floor. Said he, "Just kindly wait 'til I have finished with the Christmas Pie. I'd gladly offer you some, but there isn't any more."

Then, in the pie he stuck his thumb, and with a jerk pulled out a plumb. "Oh, I know who you are, young man," said Scouty ver yloud. "You're wee Jack Horner. That's my guess." "Hurrah! You're right, so I'll confess," replied the boy, and then he said, "To meet you I am proud."

New York—Vaudeville this month celebrates its birthday. It is 100 years old.

Banners will snap in the breeze in theater fronts throughout America. Hoofers, black-face comers, song-and-dance men, jugglers, prima donna headliners, animal acts, acrobats, jazz orchestras, cross-fire and hoke zagers, aerial novelties, girly-girls, revues and all that colorful colony of players whose names are so familiar to the great American public will shoot an extra shot of zip into their numbers.

Why should vaudeville feel like celebrating? Pat Rooney has the floor. Old Pat with his rollicking good humor and nimble feet has been amusing audiences with his jokes and dances from Hoboken to San Francisco for more than a quarter of a century.

His father, the say and hearty Pat Rooney, was the idol of Henry's "Bobby" in the early 70's when pink tights and ta-ra-ra-boom-dee-a spiced the popular variety bills.

The current Pat was born and bred on the stage and while he is approaching 50 he is still as peppy as ever. He has Pat III, a smart lad in his teens, off to an auspicious start to keep the Rooney name shining as brightly as ever in the incandescents.

"The future? ... I think vaudeville will come to the road show—a great bill traveling in fact—just as in the old days of variety," chirps Pat.

"It is the same cycle coming around again, dressed up to knock 'em stiffer with better talent, wow 'em with flashier costumes. That's a bill of a dream! But just the same that's what it will be."

"People come to go goo-goo at the sight acts and snicker themselves silly at the laughing acts. Programs of the future will have more of them both."

"Expensive show houses are a frost. People can go to the museum of art or a tall forehead furniture shop for nothing. If a bill is terrible the people stay away, no matter how much dough it took for the drapes in the lobby or the oils on the stairway."

"The traditional sucker birth-rate is too low. Think of it, \$27.50 apiece for seats at big Broadway openings! New Yorkers say to me 'Oh, but we see the best shows—think of the poor hicks

out in the bullrushes.' Huh! "Those hicks in the bullrushes aren't so poor and are not unchaps. They pay \$1.65 to see just what the New Yorker pays \$5.50 for, plus more costumes and more legs."

"The poor hicks in the bullrushes were laughing first at Al Jolson, Eddie Cantor, Fred Stone, George Cohan, Clark and McCullough, George White, Fannie Brice, Ethel Barrymore and others in vaudeville. Now I wonder who laughs when a price of \$27.50 is hung on 'em."

"Sex fights? They're off a payoff. Think of the millions of vaude houses, of the millions of vaude fans. Do they ever see anything dirty? You bet they don't! Vaudeville is a reflection of the audience, typically clean and snappy down to the wise cracks."

"Critics high-hat vaudeville. But it has a widespread influence on the people. I step out of a stage door and hear the kids bandying about the nifties and imitating the mannerism we brought to their towns."

"Vaudeville is not something to be under-rated," and Pat's face turned serious for a moment. "It plays a big part in the shaping of American life."

"I hope to live to see the day when the old cycle, the old variety of my father comes back un-bellied with all the modern dress. It is surely coming to that with full strides. Why right now," and his eyes lit with pride, "vaudeville is the national American entertainment. I'll say it ought to enjoy a happy birthday."

Picture-Lecture Will Be Given at Methodist Church

A stereopticon lecture on Hawaii will be given at the First Methodist Episcopal church this evening at 7:30 o'clock. A very interesting service is in store for those who avail themselves of the opportunity. The lecture takes one through 71 very interesting and beautiful scenes, setting forth beauty spots, various denominational interests, and many other items of moment. It is in Hawaii that east meets west, where the population is diverse with the Orientals predominating. The story of Methodism in churches in several languages ministering to the various needs of diverse nationalities is a fascinating one. The public is cordially invited to attend the meeting.

Patrons Cards On Sale for Showing of Barton Picture

Two hundred patron's cards were placed on sale yesterday morning which will admit that number of adults to the six-reel production of Bruce Barton's famous book, "The Man Nobody Knows," which will be shown at the Delft on Saturday morning, April 2, under the auspices of St. Stephen's Sunday school. Children's tickets at 10 cents each will be placed on sale next week.

The picture was filmed in Palestine, but, as reverence demands, even though it presents the life-drama of Jesus, yet there is no attempt to dramatize His character or that of any of His disciples.

As scenes showing the very places where Jesus lived and worked and the same kind of people He knew, appear on the screen, the titles by Bruce Barton tell the simple story of His life. Alexander Savine built the musical settings from familiar hymns and great oratorios.

The picture will be shown at Gladstone in the Community Theater on Sunday afternoon, April 2, preceded by a brief devotional service, under auspices of Trinity Episcopal church school.

Transportation Monopoly Is Still Held By Railroads

BY ROGER BABSON.
Babson Park, Florida, Mar. 18.—This week Roger W. Babson discusses the opportunities offered today by the railroads both to young men seeking employment and to the older ones with money seeking investments. This is one of his series of ten articles on "Your Boy's Business," says Mr. Babson.

Government Control.
Railroads, like all other things in the world, have their advantages and disadvantages. The chief advantage held by the railroads is that they are a natural monopoly. Since the advent of the automobile and truck, this monopoly is not so great in connection with short haul business; but it still exists to a large extent. Certainly the long haul railroads have no competition and none is in sight. Even in the east of competing lines (as is illustrated by the Atlantic Coast Line and Seaboard Airline competing for Florida business) there is no rate cutting. The competition is in service and salesmanship only. The fare is the same from New York to Miami whether one goes on the Coast Line or on the Seaboard. Railroads are a natural monopoly, but this very fact makes necessary governmental supervision. Hence we have the Interstate Commerce Commission with its arbitrary rulings.

At the present time the railroads are not suffering as in the past from governmental control. Since the Transportation Act of 1920 by Congress, allowing the roads to earn 3-4 per cent on their investment, the Interstate Commerce Commission has been compelled in many cases, to advance, rather than lower rates. This has especially helped the strong roads and made them stronger. A Republican administration is also favorable to the railroads and such an administration has been in power since 1920. Everything goes, in cycles and unless the politicians use all their energies in attacking the Telephone Companies, or some other public utility, they will go back to their old football games and use the railroads for the ball.

A Democratic administration would especially be expected to do this.

Problem of Unionism.
The chief advantage facing the railroads is that they are bound hand and foot by the labor unions and constantly harassed by the farmers. This is not a criticism of the unions or the farmers. Both the fight of the labor unions and the dissatisfaction of the farmers are signs that the people are struggling for better conditions. Moreover, 90 per cent of all business depends upon agriculture and payrolls. Hence, unless farmers and wage workers are prosperous, there is little hope for manufacturers, merchants, and transportation companies. When the railroad employees received an increase last month, amounting to \$10,000,000 annually, this means that \$10,000,000 more will be spent in stores, or for homes, automobiles and savings bank books. I think that it is inevitable that the employees of the railroads be unionized. Moreover, every other industry with a natural monopoly is sure to be unionized some day.

Nevertheless, the high state of

union control existing today among the railroad employees is a serious handicap to initiative, economy and discipline. A young man with ambition and love of freedom must think twice before selecting the railroad world in which to make a living. It is an old saying, "there's plenty of room at the top" and this probably applies to railroad presidents, general managers and other officials. These men mostly are promoted from the ranks and receive princely salaries. They have private cars and beautiful offices, but very little freedom. They must be on call 24 hours a day 7 days a week and 52 weeks each year. Furthermore, their work is circumscribed by the labor unions almost as much as the work of engineers, conductors, and brakemen. Hence, I do not feel that the railroads today offer much to young men as a life's work. Very seldom do I find a railroad official who wants his boy to go into railroad.

Railroad Stocks as Investments.
The control which union labor has over the railroads ultimately harms the stockholders of the railroads. Bondholders do not suffer so much, because labor leaders dislike to throw railroads into bankruptcy and be obliged to deal with receivers. Stockholders, however, get only what is left after the Government, the employees, and the bondholders are satisfied. The stockholders today get a small share; labor gets more than half; while the government collects, in the form of taxes, six

cents of every dollar that the railroads take in. In this connection it is interesting to note that in the last six years, the large railroads of the United States have paid \$30,000,000 more in taxes than they paid in cash dividends by amounts varying from about \$300,000 in 1920 to \$35,000,000 in 1923. In 1925 the excess of taxes over cash dividends amounted to about \$18,000,000. Striking changes have occurred in the past fifteen years. In 1911, the year in which the Interstate Commerce Commission adopted the present system of railway classification, the taxes paid by the large railroads amounted to \$95,600,000 while their dividends were \$397,100,000. Then taxes started upward and dividends began to decline, with the result that in 1923 taxes had increased 253 per cent over the 1911 level, while dividends were 14 per cent below the 1911 mark.

Recently railroad stocks have been very popular—especially the lower priced ones. This has been due largely to speculation in connection with possible consolidations. It will be years before some of these consolidations ever occur; and even if they should now take place present prices for some of these stocks are, in my opinion, unjustified. On the other hand, it should be recognized that some of the large systems have been plowing back huge sums into maintenance and improvement. Roads like the Atchafalaya, the New York Central, the Southern Pacific, the Northern Pacific, the Reading and the New Jersey Central have tremendous assets. Without doubt the railroads are in better physical condition and have a greater earning power today than at any time during the past twenty years. At 7 per cent stock

today, however, is not worth what it was twenty years ago owing to the income taxes which must be paid thereon by many holders. To the extent that taxes are passed on to the ultimate consumer, so dividends of today should be discounted when compared with those of 1906.

Transportation in Cities.
Owing to the very hard times which street railways have had, almost no one today will buy traction stocks. Yet people are riding today more than ever. Of course, the great gain has been in private automobiles riding which has greatly affected street railway earnings. These companies, however, possible are fast getting back those riders. The congestion of city streets and the increased parking regulations are making travel by automobile less convenient than by street car or bus. Young men wishing to show initiative can well afford to go into the bus business if properly backed or, what is better, get employment with some discouraged street railway operator. Here is a virgin field—largely unorganized and with great possibilities. Travel by motor coach will grow by leaps and bounds for many years to come. Another most interesting field for young men desiring to move passengers is air transportation. Someday the helicopter will be developed and then transportation by air will become more popular. Personally, I feel that motor coaches and air transportation offer better opportunities today both for young men and for investors than do some of the so-called "cheap rails" now being built.

The railroad industry is very dependent upon business conditions. Receipts from both freight

and passengers increase and decrease gently with business conditions. Railroad receipts are so affected much more than are receipts of traction companies with bus auxiliaries. Railroads discharge their employer very ruthlessly when business becomes bad and when discharging employees seniority counts for more than ability. The last one employed is the first one discharged; while the oldest in service is the last discharged. Just now the Babson-chart shows both railroad earnings and general business to be above normal. General business registers 9 per cent above normal and railroad earnings register considerably more above normal. Hence if history repeats itself, when the next decline comes, railroad earnings will decline at a more rapid rate than general business as railroad earnings have recently advanced at a more rapid rate. The railroads have many advantages, but other lines of business have many more.

Italian Flyer in West Brazil Town
Manaos, Brazil, Mar. 19.—(AP)—Commander Francesco DePinedo, intrepid Italian long distance aviator who was thought to have been "lost" in the tropical jungle of western Brazil, landed this afternoon at Guajara-Mirim, about 650 miles northwest of the place from which he started Thursday and about the same distance southwest of Manaus.

Only the bare announcement was received that he had arrived at Guajara-Mirim and that he hoped to continue his flight northward to Manaus Sunday morning, but it was enough to allay anxiety.

Automobile registrations in Texas during the first nine months of 1926 show an increase of 45,263 over the total number of registrations for the entire year of 1925.

"CAR-OPERATING ECONOMY DRIVE" OPENS

Local Oil Wholesaler Employs Unique Method to Prove Oil Value

At least a marketer of lubricating oil for use in engines, autos, tractors and trucks has hit upon a way to let his product speak for itself and prove its own worth in actual results under actual running conditions.

This oil wholesaler knows that it requires a 2 to 4 months "continuous use" test to show up oil merit. So at a very low "bulk" price, he furnishes car owners with 15 gallons of the oil to be tested, and supplies them FREE with an accurately measuring leak-and-drip-proof pump, a lock measure and an oil storage drum. He makes the oil user a present of this equipment easily worth \$12.50, saves the oil user several dollars on fleet oil; and places the full drum and free equipment in the car owner's garage all assembled and ready to operate.

This, we think, is one of the most intelligent methods ever to come to our attention in connection with proving oil worth. The consumer makes his own tests—he will paid for doing it—great his motor a real "apple" of good care and good, fresh oil—has no wobble or trouble in filling his car and no drips or leaks—and keeps his oil supply under lock and key. The oil marketer wins a new and really convinced customer. This continuous use of one good brand of oil also enables the car owner to check up on gasoline consumption when his motor is properly lubricated and will prove to him the direct effect of good oil in cutting car operating costs from the fuel, power and maintenance angles—the purpose of this oil wholesaler's "economy drive."

HOW GOOD OIL SEALES-IN POWER AND LENGTHENS MOTOR LIFE

Go Every Car Owner

Details of Escanaba Oil Company's GREAT FREE OFFER

THIS advertisement actually is worth \$12.50 to every reader. To induce every possible person to make a real continuous-use, motor test of finest LIBERTY or VEEDOL OILS, we are giving a full set of dispensing equipment, while they last, worth at least \$12.50 plus oil at bulk price meaning 20 to 30% saving to every car owner.

You can pick up your FREE set at our filling station—or you can mail the attached mail order coupon—or you can phone 1526. The free equipment will be placed in your hands or delivered and set up in your garage, fully assembled and ready to use. Bennett pump in place on the storage drum with lock and keys and spill-proof, funnel spout quart measure—the drum containing your test supply of good LIBERTY or VEEDOL OIL. Bear in mind that the oil furnished at low bulk price is the same fine lubricant that has built up such a wonderful record for lengthening the same grades that are used in high-speed engines and for heavy-duty work in trucks, tractors and stationary engines. It is furnished in light, medium, heavy, tractor and Ford grades at very low prices.

There are no "strings" on this offer. We get our compensation from the gallons of GOOD LIBERTY or VEEDOL OILS you will buy after making this test. At the low cost of this oil and with a fresh supply handy in your own garage you can give your motor real lubricating service. And after you have done this for several months CONTINUOUSLY (with no poor oil mixed, as is the case when you buy a quart of ordinary oil here and there) we know LIBERTY or VEEDOL OIL WILL WIN YOUR LASTING FRIENDSHIP. All car owners can have this free equipment so long as the supply lasts. We have several hundred pumps on hand, but if the public knows a real bargain we will have people here from within a 100-mile radius and the pumps will go like hot cakes.

Carlson made a trip to St. Jacques Saturday evening and found driving very difficult owing to the dense fog. Mr. and Mrs. H. E. Pfeifer visited at the Shores home Sunday. Miss Bernice Colburn had to borrow men's high rubbers to get to her school Thursday morning as the water caused from the jam of ice at the railroad bridge was running across the road. She managed all right even if the rubbers were not.

Garden and Fairbanks

get here, most of the time being taken up in looking at the scenery between Valentine Creek and Garden. Nature is wonderful right now. The Garden Motor company has opened their place of business for regular garage work during the coming season. Their repair department has been closed during the winter. John Christensen returned on Wednesday from Green Bay where he was called on account of the sickness and subsequent death of his mother. Mr. and Mrs. Eugene Russell left here Friday morning for Marquette where they will visit for a while at the home of their son, Alton Olmsted and wife, after which they will return to their home in Detroit, Minn. Busson Freytag of Isabella was a business caller in town on Thursday. Osaie Hazen, Mrs. Theodore Hazen and Mrs. Charles Olmsted motored to Escanaba. Mrs. Osaie Hazen, who has been in the city several days, having dental work done, returned to Garden with them. The Garden Auto Sales and Service company announce that in addition to the line of Hudson and Essex cars which they are handling, they will also handle the complete line of Ford cars and Fordson tractors. W. B. Richter of Escanaba, representing the Marshall Wells Hardware company, made a business trip to town Friday. Ed Goff has returned to his home at one of the camps near Nahma. Angus McDonald of Fayette made a business trip here on Wednesday. Arsen Mercier of Puffy Creek made a business trip to Fairport on Wednesday. He found the roads so bad that at one point he could not get through without the help of a team. Peter Jacobson and Mike Collins of Fairport made a business trip to Escanaba on Thursday. The former's daughter, Mayme and Miss Beatrice Casey, students at Fairport with them and spent the week end at the home of their parents. The Goodwill society of the Fayette Catholic church held their regular meeting on Thursday afternoon at the home of Mrs. Anna Casey of Fairport. In spite of the conditions of the road, there was a large attendance and a pleasant time was spent. Refreshments were served. The next meeting of this organization will be held at the home of Mrs. Frank DeVet on Thursday, March 31. Clevis Raymond of Burnt Bluff is still confined to his bed with a severe attack of rheumatism. It is believed that he is slowly improving. Fishing is in full swing at Fairport. The catches are just about normal. Most of the fish are trout, caught on the hooks. Mrs. Peter Jacobson of Fairport returned to her home on Saturday after spending a week with friends in Escanaba. John Rochefort is building a new cottage just a little distance east of Fairport village. He expects to have it ready to occupy early in April. A boy was born to Mr. and Mrs. Dave Thill on Saturday March 5. He has been named Virgil Erwin. Frank DeVet, wife and sons, Francis and Myron also Walter Collins of Fairport made a business trip to Garden on Wednesday. Alfred Thibault, wife and family expect to move out of their present home some time during this week. They will occupy the farm home owned by the former's uncle, Nelson Thibault. Nelson Thibault will move into the small cottage nearby. Emil Anderson and family expect to move soon into the Lemire farm home, just outside of town. The place is at present occupied by the Thibault family. State trapper Ansell states that he has just captured two timber wolves and one large coyote. It is extremely difficult to get back and forth to his traps.

ISABELLA NEWS

SHE: What disguise shall I wear for the fancy dress ball? Can't you give me an idea? HUSBAND: Why not go as a woman?—Le Journal, Paris. THAT'S EASY. TEACHER: Can you tell me three things in which starch plays an important part? STUDENT: A collar and a pair of cuffs.—Kasper Stockholm.

COOKS

Joseph Levine, Marinette cattle buyer, arrived in Cooks on Monday evening. He has recently arrived from a prolonged business trip through some of the western states. One of the school buses is again on wheels but there is still too much snow on the side roads to make wheel traffic practicable. Joseph Spielmacher is driving the main road bus. The new township snow plow is now being used on some of the side roads. Farmers, young folks and old, are hoping that they will hasten the glad day when they will be able to reach the main road with their autos. L. C. Ames left here on Monday for his home in Marinette. Omar Lamourie has purchased a new horse for use in his general farm work. Herb Olson, wife and family visited at the home of John Hamd and wife on Tuesday. Mrs. Mabel Lausten and daughter Evelyn and Mr. Charles Lausten visited with friends in Garden on Sunday. They went in company with John Heric and family of Manistique. Some of the Cooks radio fans heard Secretary Hoover's address from Connecticut on Saturday evening as plainly as if he had been in the living room where they were assembled. They could even hear him take a long breath during his speech.

CORRECTION

Cooks, Mar 19.—Following is a list of candidates nominated by the Inwood Township People's ticket, correcting some errors which appeared in the item printed by The Press recently: Supervisor, Del Smith; clerk, William Strasser; treasurer, Axel Mortensen; highway commissioner, James Kelley; board of review, George F. Gray; justice of the peace, John Roberts; overseer, Edward Bodreau; constables, Bertha Gray and William DePars; poundmaster, Arthur Gray. that he will make his future home in Pontiac. On Saturday night a surprise party was given at the home of William Winter, Sr., and wife in honor of the former who had just attained the age of seventy-nine years. The evening was pleasantly spent in playing cards the prize winners being Charles Olmsted, Eddie Lester, Mrs. Elmer Winter and Mrs. Chester Winter. An excellent lunch was served at the close of the gathering. Those present included Chester Winter and wife of Manistique, Patrick Purtil and wife, Paul Lamkey and wife, Elmer Winter and wife, Eddie Lester and wife, Fred Rost, Ernest Lankey, Alvin Lester of Mrs. Lankey, Robert McPherson, wife and daughter Betty of Rapid River, Charles Olmsted, wife and daughter Laverl, Charles Winter and wife, William Winter, Jr., wife and son Raymond, Mrs. Osaie Hazen, Fred Winter, Leroy Winter, Virgil Winter, Meta Winter, Harold Winter, Marcella Winter, Vernon Winter of Garden, V. E. Hazen and wife of Kates Bay, Fred Hazen of Sylvan Dell, Mrs. Lela McKenzie of Manistique and Jean Russell of Detroit, Minn. Mr. Winter's birthday was two days previous to the celebration which was a complete surprise to him. He has been confined to his home during a large part of the winter on account of injuries received from a fall but he is much improved and able to get around again. His many friends not only here but throughout the county wish him many more years of health and happiness. Herbert Flath of the Economy Light Co. of Escanaba, was a business caller in town on Tuesday. Henry Baker has commenced work as helper, and driver, at the Garden Motor Co.'s garage here. School Commissioner C. U. Woolpert and truant officer, Carney, of Escanaba, visited local schools on Tuesday. Morgan Farley, ten year old son of Louis Farley and wife of Kates Bay met with what might have been a quite serious accident while playing with some companions. A shot gun in the hands of one of the youths who was standing about eight rods away from Morgan was discharged, hitting him right near the eyeball. He was taken up to Dr. Saunders of Manistique. The shot was extracted and the youth is doing as well as can be expected. It is not feared that any serious consequences will follow. William Ryan of Escanaba transacted business in Garden on Tuesday. Miss Sarah Longline has returned from Escanaba where she has been employed during the winter. She will remain here indefinitely. Word has been received here that Omer Dickson, formerly of Garden is a patient in a Battle Creek hospital but is improving satisfactorily. He expects to be out in a little while, and as soon as he is able to stand the trip will go to California where his wife and her daughter Margaret, are making their home. A number of the pupils of the Hennessey school east of town have been unable to get to school during part of this week, on account of so much water in the roads. Ed Bryant of Fayette made a business trip to town on Wednesday. Mrs. Walter Hornstein of Chicago and formerly of Garden has been spending a few days at the home of Dave Pulcher and wife of Kates Bay. Bert Farley has returned to his home here after spending a part of the winter at a camp near Hunt's Spur. Albert Cousineau and wife have returned to their farm home here after spending the winter cooking at Camp 24, operated by the Bay De Noc Co. of Nahma. J. McPhale, foreman of Camp 24, of Nahma is spending a few days at the home of Albert Cousineau and wife. While on the way to Garden on Wednesday night Ed Bouchard and wife had the misfortune to strip the gears of their Chevrolet car. They were stuck in the mud near the Herman Haas farm at Kates Bay when the car was damaged. Vera E. Hazen of the Garden Auto Sales and Service Co. was a business caller in Isabella and Nahma on Wednesday. Roads here are the subject of much comment. Twelve cars were towed out of the mud between Garden and Valentine Creek on Wednesday. There will yet be more before conditions are normal. Mr. and Mrs. Ed A. Laux and William Folio of Fayette made a business trip to Manistique Tuesday. One of two members of the party had dental work done. It is impossible to adequately describe the condition of the roads between Valentine Creek and Fairport. Not only in the Garden district, but also in Fairbanks, numerous motorists have been needing help to get them out of mudholes. There is still a little frost left in the ground. Joseph Beauchamp and a party of friends of Escanaba visited at the LaMotte institute Thursday. It required about five hours to

CITY BRIEFS

Mr. and Mrs. R. G. Hentschell are the parents of a son, born Saturday morning. T. C. Jachor of Gladstone was called to this city by the illness of his mother, Mrs. Jachor.

Mrs. F. W. Russell, who has been spending the winter at the home of Mr. and Mrs. R. H. Teeple, has left for Whitefish to spend a few days with Mr. and Mrs. Matthew Bready. From there, she expects to go to Toronto for medical treatment.

Clayton Allen of Detroit is the guest of friends and relatives in Manistique. Isadore Spitzer of Iron Mountain motored to this city yesterday and is spending the weekend with friends.

Miss Lenhart's presentation of Maria DeForest's story of the Pennsylvania Dutch was unusually fine. Her characters were distinctly drawn and her talent as a dialect artist was clearly shown throughout the three acts of the play.

New York, Mar. 19.—(P)—Frequent shifts of speculative sentiment characterized today's bull stock market with closing quotations decidedly irregular.

Beats succeeded in uncovering several new weak spots, but operators for the rise continued to bid up stocks in which special developments are believed to be pending.

Trading was fairly heavy for a half holiday session, total sales crossing the million mark.

Speculators for the advance laid considerable stress on Washington dispatches indicating that President Coolidge favored a substantial reduction in taxes next year if business prosperity was maintained.

Good buying support was again apparent for General Motors which closed a point higher at 179 1/2.

Studebaker, Pierce Arrow and Chandler, the last named at a new 1927 high, also closed a point or so higher, despite talk of further automobile price cuts before the year is over.

U. S. Steel common moved within a range of 1 point, closing 1/4 higher at 162 1/2.

Two of the most interesting movements of the day took place in Houston Oil which broke nearly 15 points to 108 1/2, and then rebounded to 109 1/2, and Delaware Lackawanna & Western, which jumped 6 1/2 points to 184, the highest price in six years.

The foreign exchange trading was quiet with rates for the principal currencies inclined to heaviness.

Demand sterling was quoted at 48.85 3/16 and French francs around 3.91 cents.

CHICAGO GRAIN

Chicago, Mar. 19.—Owners of all kinds of grain took the selling side today and an all around break ensued to lowest prices yet this season.

Unusually favorable crop conditions for wheat together with extreme bullish predictions from a leading speculator, accompanied the rush to sell.

Wheat closed nervous, 1/8 to 1/4 net lower, corn 3/4 to 1/2 net, oats 1/4 to 1/2 net, soybeans 1/4 net, and provisions unchanged to 1/2 net.

Rain and snow covering much domestic territory were regarded as ominous in creating the likelihood of big yields this season, meanwhile, fear of low temperatures were regarded by indications that the weather would not prove cold enough to cause anxiety.

On the downward swing of values, export call for wheat broadened a little, corn and oats gave way with wheat.

Reports from Washington suggested that crop coverage will increase 12 1/2 per cent in central states and 1 1/2 per cent in western states as compared with last year.

Producers were responsive to scattered buying based on steadiness of the hog market.

Peninsula Bowling Tournament Opens Monday

OAK PARK HIGH SCHOOL WINS INDOOR TRACK MEET

RECORD ENTRY LIST BOOKED

Cash Prizes Totalling \$500 to Be Given; Several Specials Also.

The annual Upper Peninsula Bowling Tournament—the pin-smashing "world's series" of the Upper Peninsula—will open at 8 o'clock Monday night on the Arcade alleys.

Contestants for the opening session will be Nordgren's Clothiers. Following them at 9 o'clock the Upper Peninsula Produce and the City Bottling Works teams will take the alleys.

More than fifty teams, representing cities in all parts of the Peninsula will participate in the ten days of maple spinning, and the entry list includes the names of the best talent north of the Straits.

Provisions have been made by Manager Jake Bink of the Arcade for accommodating 300 spectators in comfortable bleacher seats. The tournament will be the biggest and the most interesting the Upper Peninsula has ever staged.

Cash prizes of \$500 will be awarded for outstanding scores in the five man, doubles, singles and all-events classes. Special prizes also are being offered.

The schedules, including the names of teams and bowlers competing each day will be printed daily in the Press.

Iron River entered a six man team in the tournament yesterday. They will bowl March 23.

Following is the entry list, to date:

Iron Mountain Nightingales—Mandley, Hagen, Schwei and Parmelee.

Lloyd Dept. Store, Menominee—O. Malna, F. Wade, F. Holub, J. Evans, and F. Haines.

Lloyd Mfg. Co., Menominee—Lyle Fehrenbach, Herbert Quist, John Turner, Francis Conyne and William Eckmeyer.

Seld's Team, Menominee—George Laperriere, Milton Haines, Axel Madson, Alvin Laewicke, Frank Evans.

PENNANT WINNERS

THE E. F. U. RAMBLERS won the city amateur basketball championship, showing class throughout the season and in the tournament staged by the Daily Press. The team members are: (Top row) Stanley St. Louis, Harold Smith (Coach), Ruben Turanoff, (Middle row) Bernard Tobin, Floyd Demara, Gilbert Byrns, (Bottom row) Charles Byrns, John Pettin. The team has entered the Upper Peninsula Independent Tournament which will be staged at Ishpeming.

TWO TEAMS TO ENTER TOURNAMENT AT ISHPEMING

Ramblers and Indies Will Compete in Meet

Ishpeming, Mar. 19.—(P)—In drawings for the Upper Peninsula independent basketball tournament held here tonight, the Escanaba Indies drew Neagawee for their first game and the Escanaba Ramblers drew a bye.

The E. F. U. Ramblers, winners of first place in the Daily Press basketball tournament and the Independents will go through a number of stiff practice sessions this week in preparation for the Upper Peninsula Amateur tournament to be run off at Ishpeming, Friday and Saturday, March 25 and 26.

The Ramblers, coached by Harold Smith, will have eight players and the coach at the tourney. Who will make the trip has not yet been definitely decided, but it is probable that the following will attend: Demara and Tobin, guards; Pettin, G. Byrns, C. Byrns and Bill Smith, forwards, and Schou, center.

The Ramblers are entered in the Class B division of the tournament which is open to all teams with a team whose average is 135 pounds or less.

Manager Paul Verina of the Indies and Player-Coach I. W. Soderberg were not certain yesterday who would make the trip with the Indies. The eight players who will be accompanied by the manager will be determined in the practice drills this week.

Two teams have been entered in the Class A division, in which the Indies will compete.

Peterson, "Butts" O'Brien, Carl Franzen, Ernie Deletia, Art Nordgren.

Tilbert's Cafe—William Sheppard, Axel Anderson, Elroy Andrews, Carl Peterson, Einar (Toddy) Andrews.

Escanaba Oil Co.—Dr. C. J. Corcoran, Marshal Perrin, William Klein, Sam Cahoe, Con Driscoll.

Escanaba Daily Press—Rene Sabourin, Tony Gress, Dan Hawkins, "Red" Traverso, Walter Holtrath.

E. J. Vincer's Tigers—Nic Evans, John Gafner, Mike O'Brien, Irving Gibbs, Leo Brunelle.

Escanaba City Team—Edward Olson, Roy Vanenkevort, Wilfrid Sandborn, Joseph Peterson, John Finn.

Other teams to send names of men are Gladstone, three; Manistique, three; Munising Community club, I. Stephenson Company, Hoyer & Baur, Hansen & Jensen Oil company, Northern Motor company, Hancock Elks, Manistique Elks, and Shermanville.

One of the big features of the tournament is the Menominee City council, who will bowl here and at that time the Escanaba city council will be invited to the recreation parlors to get acquainted with the Menominee men.

Seats have been provided on elevated stands to accommodate hundreds of spectators. Ladies are especially invited to come and see the games rolled.

BALL PLAYERS IN FINE CONDITION

Fourth Week of Major League Spring Practice Ends.

Atlanta, Ga., Mar. 19.—(P)—The fourth week of the spring training grind of major league baseball clubs closed today and found most of the stars and lesser lights in fine fettle. With the opening of the National and American Leagues now less than a month away, the work cut out for the next fortnight is of a finishing nature and will find managers expecting veterans and youngsters alike to show "under fire" qualities.

Jack McAllister, pilot of the Cleveland Indians, seemed to be the only really dissatisfied leader in the south. The trip is conditioning slowly at Lakeland, as evidenced by the consistent losses in exhibition games of the last ten days.

In two other camps, those of the New York Yankees and Philadelphia Athletics, the men have not reached desired form. Several of Miller Huggins' stars are not yet able to travel the route. These include Bob Meusel and Coombs.

Collins' Pine Wobblers. As for the White Elephants at Fort Meyers, Connie Mack has noticed the underpings of Eddie Collins have been wobbly of late. The veteran second sacker, again a "rookie" in the A's camp, is noticeably apprehensive about his legs as he goes through the daily drill.

Exhibition games today engaged practically all of the fourteen clubs quartered in the south. Of the eleven aggregations in Florida all were in action save the St. Louis Cardinals. They went through a stiff workout at Avon Park in anticipation of a heavy schedule next week.

Sam Breadon, owner of the champions, said he had about decided to struggle along without Flint Rehm, pitcher, following a persistent stand from the Carolinian over the salary figure.

St. Petersburg has become the mecca of the training outfits, three clubs now being quartered there. The Yankees and Braves have been joined by the Cincinnati Reds who will be in the city for several days.

Tris getting "hot." A new note has been heard in the Washington Senators' dugout for Tris Speaker, another of the famous "recruits" of the year, is slugging with great gusto. The "grey eagle" has been clouting for an average of 57.

The Chicago White Sox, now touring Texas; the Boston Red Sox at New Orleans, and the Detroit Tigers at San Antonio, were playing exhibition games. The Red Sox were playing the New Orleans club; the Tigers met the San Antonio outfit, while Ray Schalk's men were engaged with another Texas League outfit.

PRIZES AND DEATH. Bloomfield, N. J.—Tony Lungo truck driver, who achieved fame by eating 60 meat balls at a sitting, won a \$100 bet here by devouring 25 frankfurter sandwiches in two hours. He drank two glasses of water, one of orangeade and went home under his own power. At Middletown, N. Y., on the same day, Sidney Condichini was running and eating a frankfurter, strangled and died.

DETROIT SQUADS TIE FOR SECOND

Many Compete in Michigan Interscholastic Track Events.

Yost Field House, Ann Arbor, Mar. 19.—(P)—Athletes of the Oak Park, Ill., high school won the third annual Michigan interscholastic meet here tonight with 22½ points. Detroit Northwestern and Detroit Northwestern tied for second and the Froebel school of Gary, Ind., took fourth by winning the final event, the long-drawn-out pole vault.

The winning team made stalwart showing in the track events, winning the half-mile and the mile relay and getting six points out of the 440 and the mile run.

No unusual records were made, but the feat of Toth of North Tonawanda, N. Y., of winning a place in the half-mile and then coming back to break Potter's record in the mile stood out.

Individual honours went to Beatty of Detroit Northeastern with a first in the low hurdles and first in the broad jump.

Summary of points: Oak Park, 22½; Detroit Northeastern, 16; Detroit Northwestern, 16; Gary Froebel High, 12; Flint Central, 8; Columbus Central High, 7; North Tonawanda, N. Y., 7; Detroit Western, 6½; Kalamazoo Central, 6; Ann Arbor, 5; Detroit Cass Tech, 5; Toledo, Waldo, 2; Detroit Eastern, 1½; Toledo Scott High, ½.

"KID" SMITH LEAVING CITY

Youthful Roller Skate Champion Moving to California.

Skate fans will have their last opportunity to see "Kid" Smith in action at the Coliseum tonight. Smith will leave for California next week. He will meet Roller Cobb in a three-mile match tonight to decide upper peninsula honors this year.

Lyle "Kid" Smith has been a familiar figure in the roller rink circles for the past years, and during that time he has participated in a large number of races, a large percentage of which he came out the winner. He has a large circle of friends who regret to hear of his leaving the city.

In tonight's race, Smith is matched with Roller Cobb in a three-mile event. Last year the same pair met for upper peninsula honors, and Smith won. Besides the championship race, a team race is on the program. A "kitty" party will occupy the first part of the evening, the races being called at 10 o'clock sharp.

SCHOOL PUBLIC SPEAKERS ARE BANQUET GUESTS

Affair Celebrates Fine Debating Record

Escanaba high school public speakers and their coaches were guests of honor last night at a banquet given in the school cafeteria by the Mezzobord society, celebrating the remarkably successful season the debating team has just completed.

Following the splendid dinner, there was a lively and interesting program featuring a mock wedding, in which William Peters was the bride, Ethel Gessner was the bridegroom, Margaret Eis the best man, Irene Fragile the bride's mother, Helen Snyder the rejected suitor and Harry Erickson the officiating parson.

Other numbers included a piano solo, Liebestraume, by List, played by Miss Fragile; piano duets, Diana (Holst) and Narcissus (Nevin) by Miss Fragile and Miss Gessner; a reading from "Peck's Bad Boy" by Miss Rita Auerbach; short talks by Prin John A. Lemmer, Supt. R. E. Cheney, J. M. Hoagy, coach of public speaking, and H. K. Rammel. Miss Gessner was a clever and capable toastmaster.

Mr. Hoagy was presented with a handsome pencil by the debating team.

Those present included: Harry Erickson, the school's orator and William Peters, declaimer, both of whom are also debaters; Misses Ethel Gessner, Helen Snyder, Margaret Eis, Irene Fragile and Rita Auerbach of the debating squad; Mr. Hoagy and Clarence Zerbel of the public speaking staff and several guests.

It was a most enjoyable and successful affair.

FARM YOUTHS' CAMP.

The date for the next national farm boys' and girls' club camp to be held in Washington, D. C., has been set for June 16 to 22, 1927. The boys and girls attending the camp will represent all states in the country and more than 600,000 members of the farm youths' organization.

W. B. A. Meeting—Members of the Women's Benefit association will hold their regular meeting Monday evening at 8 o'clock at Greener's hall when a short business session will be held, after which the members will enjoy a few games of cards. A small fee will be charged for the card games to help defray the expense of purchasing equipment for the guard team. The guard team will practice after the meeting. A large attendance is desired. A lunch will be served.

Daughters of Isabella—There will be a special meeting of the Daughters of Isabella in the Knights of Columbus clubrooms Monday night, March 21, at 8 o'clock. Business of importance will be transacted.

Woman's Club Meeting—The regular business meeting of the Escanaba Woman's club will be held Wednesday afternoon, March 23, in the Carnegie library at 2 o'clock. Important business will be transacted and a large attendance is expected. The delegate to the district convention will give her report.

Birthday Party—Mrs. Christ A. F. Doehler was guest of honor

when ladies of Salem Evangelical Lutheran church gathered in the church parlors Friday afternoon, the occasion being Mrs. Doehler's birthday anniversary. Games were played and a general social time was enjoyed. An elaborate luncheon was served.

Light Bearer Graduation—The annual graduation exercises of the Anna C. Smith Circle of Light Bearers took place in the First Presbyterian church Friday night. The occasion was opened with a bountiful and well-served dinner, which some forty people enjoyed. At 7:30 the formal exercises took place, which were witnessed by over a hundred people. Fourteen girls graduated from the Light Bearers, so capably presided over by Mrs. H. F. Ames, into the Westminster Guild, directed by Mrs. John B. Hubbard. The graduates gave a sample of their regular work which made a delightful program.

Balloon Party a Success—A large crowd of children attended the balloon matinee at the Coliseum roller rink yesterday afternoon. A little boys' race is scheduled for next Saturday. A pair of sidewalk skates will be given to the winner.

Sargeant in City—F. W. Sargeant, president of the North Western railroad, arrived this morning from Chicago on his annual inspection of the line. F. R. Lloyd, division superintendent, went to Green Bay last night in his special car, to meet Mr. Sargeant.

Iron Trade Review

Cleveland, Ohio, Mar. 17.—Iron Trade Review today says: In two weeks the iron and steel industry will be making the turn into the second quarter and apparently will be confronted with a bituminous coal strike yet, indicative of the new order that prevails, neither has provided any appreciable market stimulus.

Hand-to-mouth buying is so dominant in steel that little is heard of second quarter coverage, but current requirements are of such proportions as to insure a March perceptibly better than February, impart a stronger tone to all markets save some in the east and lengthen slightly the modest backlog of some producers.

Fortified by 60 to 90 day stock piles, and confident of heavy non-union production, the industry views the coal strike with complacency. It is generally believed that the strike would disturb the markets imperceptibly in the second quarter and that the repercussion, if any, would be felt in the third quarter.

The week's developments strike a balance on the side of improvement. Incoming business suffices to maintain an average steel production rate of about 88 per cent, with Steel corporation subsidiaries above 95. Steel prices generally are holding, while the tendency in pig iron is upward. Only in pig iron has demand abated but here the subsidence comes after several weeks of heavy buying. The automobile industry has

been conspicuous in the week's market activity. Practically all makers, excepting Ford and Dodge have been augmenting specifications for and expediting shipments of sheets in the Pittsburgh and Youngstown districts. Intense interest centers on Ford. Competition for plate, shape and bar business at Detroit has resulted in shading.

Semi-finished steel continues to acquire strength at Pittsburgh, \$34 now being generally quoted on bills.

A tight situation is developing in pig iron, especially basic, at Pittsburgh. Four or five steel interests are out of the market, supplies are scarcer and prices reflect proportionate strength.

Beehive furnace coke has surrendered the 25 cent gain of last week and offers of \$2.25 are fairly extensive.

Sheets are more steady at 2.09c. Pittsburgh for black, 2.20c for blue annealed and 3.75c for galvanized, although buyers still can better these levels. Tin plate production

is believed due for a letdown in April, following many months at practically capacity. For one thing, mill equipment is beginning to show the effects of this fast pace. Plates at Pittsburgh are relatively more active than other heavy finished lines. Deliveries on bars have fallen behind somewhat, two or three weeks now being asked by most makers. Bar specifications at Chicago lead those for plates and shapes and new business exceeds shipments.

Iron Trade Review composite of fourteen leading iron and steel products has risen for the second consecutive week since the long downturn was arrested. This index this week stands at \$36.87, compared with \$36.79 a week ago and \$35.85 a year ago.

Children's Eyes Should Be Examined

Parents sometimes wonder why children are backward in their school studies or do not show the necessary "pep" when at play—they very seldom think of the child's eyes. Yet, this may be the cause of the youngster's backsliding and losing ambition. The eyes are directly connected with nerve centers, causing the child untold discomfort. Children are not apt to realize this themselves—it is up to the parents to guard zealously the sight that means so much. Children always receive our most careful attention.

Get this SECRET Men~

"I NEVER got such a glow in all my life—it put pep in me when I thought I was licked—it picked me up and put me on top of the world. Now I shed worry like a duck sheds water—I've actually gained in weight and folks tell me I look like I'd struck oil in the backyard—"

"Want to know the secret—you'll laugh, but you'll know it's the truth—I didn't get it in a drug store or a gym—I got it in a bank—honest I did—"

"I got a hunch that all my pains were pocketbook pains—I got a hankering to own one thousand cool berries—so I started out to get 'em. And now I've got 'em—one thousand of 'em. I started with installments of \$4.54 a week—didn't feel it much either—paid in only \$944.32—the bank threw in the rest in interest at 3%."

"Now I've got my thousand—it's my first, not my last. It's made a new man out of me—"

"And you ought to see what it's done for the wife—we've both learned how to laugh again—thought we'd forgotten the recipe. That's what the passbook habit has done for me. Better take a treatment."
