ed is the gospel of the under-world. The belief that holds the tight-mouthed wrongdoer a man of merit is false hero-worship. The belief that holds a man who confesses as worthy of praise is the correct creed of hero-worship.

MORE HONOR TO 'SQUEALERS'

It is high time that society's tendency to condemn and despise the criminal who confesses his sins be corrected. For years the general public has been prone to look down upon any wrongdoer who has confessed, given state's evidence and really done great work in helping law enforcers to carry out their task.

HANDS ACROSS THE RIO GRANDE

In ancient times, when the ruler of a kingdom wanted to get a half-Nelson on the affections of some neighboring monarch, ministers used to get together and arrange for a wedding between one of the boys of the one royal house and one of the girls of the other royal house.

TOO FEW CURVE BALLS.
Is "Lefty" Grove, star southpaw of the Athletics, pitching too few curve balls?
The rather unkindly manner in which Grove has been treated in his last few starts gives rise to the thought.
When Rube Waddell was at the top of his game, as the greatest southpaw in baseball, he boasted a most deceptive curve of which he made much use. Waddell's fast ball was his best bet, but the curve more or less made it so.
Waddell threw almost as many curve balls as he did fast ones. There was no getting a toe-hold with Rube pitching; he mixed up his stuff in the most approved style.
Grove has a curve that compares very favorably with that used by Waddell, yet Grove is content to throw three or four fast ones to every curve.
That may explain why he hasn't been able to get his fast one by the batters with the ease he did last season.

CASE OF WALTER JOHNSON.

There is a bit of a parallel in the case of "Lefty" Grove and Walter Johnson.
When Johnson joined the American League he had so much stuff on his fast ball there was no need for him to resort to anything else. He literally threw the ball past the batters.
Likewise, Johnson was noted for his excellent control. In later years when his speed began to fall off a little, batters who were once easy for him began to take liberties with his fast ball.
The reason is easy of explanation—the batters, knowing Johnson didn't have a worth-while curve, that his control was excellent and his speed not quite up to standard, began to hug the plate and take a toe-hold, anticipating his fast ball.
It didn't take Johnson long to realize this, so he worked hard to develop a curve and a change of pace. When he acquired these two very necessary assets, he added many years to his pitching career.
Johnson, in his twentieth year as a big leaguer, is still one of the greatest in the game. He went to strategy when nature began to fall him.

MUST MIX THEM UP.

I have noticed of late that certain batters who have no great liking for speed, invariably get a toe-hold with Grove pitching and are all set to hit speed by hugging the plate.
It is at such times that a curve or a change of pace completely upsets the batter. It is also very obvious that if you pitch him what he expects, he is going to be in a position to take advantage of it.
Grove has baffling speed but if the opposing batters know that speed is going to be their exclusive diet they can assume a stance to make the best of such knowledge.
If you continue to serve a batter a steady diet of curves, slow ones or speed, he is finally going to accustom himself to such pitching and hit it.
If a pitcher has the three above named assets and mixes them up, he has a decided edge on the batter, who never knows what to expect and therefore is unable to set for any particular delivery.

I AM SURE MORE CURVE BALLS, INDISCRIMINATELY MIXED IN WITH HIS FAST ONE, WOULD TEND TO MAKE "LEFTY" GROVE FAR MORE EFFECTIVE.

BASEBALL

BY BILLY EVANS

1. When two outfielders collide going after a fly ball and are rendered unconscious, when can the umpire call time and suspend play?
2. Baserunner tries to score from third on a squeeze play or a theft of home, catcher runs in front of plate, gets ball and retires runner, what is proper decision?
3. It is permissible for runner to pass behind fielder who is about to make a play on a batted ball?
4. Can any other player aside

from the batsman start a force play?
5. Who has the power to forfeit the ball game?
THIS TELLS IT
1. He shall not call time until the ball be gotten back into the infield and in his judgement there is no further chance for action.
2. A balk and interference is called. The balk scores the runner from third, the interference entitles the batsman to first.
3. Surely, he can run behind or in front of the fielder making the play. He must avoid him or be called out for interference, for the fielder has the right of way.
4. The batsman is the only player who can start a force play.
5. Such authority is supposed to be vested solely in the umpire-in-chief, but the base umpire can request such action on his part.

The judge congratulated the fellow. Later, we understand, he was awarded the Nobel prize.

Some day a great football team is going to sweep the country. It never will lose a game. More than that, it never will be scored on. More than that, it will annihilate each team it meets and leave the field a shambles of broken bones and cracked spines. It will be a team made up of computers who use the New York subways.
O'Goofy just bobbed in again to ask why these collegians insist on shipping their oars. "Couldn't they take them by train, as well?" the querulous old gent inquired. He was told they couldn't.

'BENDIGO' WAS ENGLAND'S MOST COLORFUL 'PUG'

Novel Makes Thrilling Romance of His Career.

In the annals of the prize-ring there is perhaps no more remarkable record than that achieved by William Thompson, better known as Bendigo, the victor in 19 out of 20 bare-knuckle battles, and twice champion of England in the first half of the 19th century. His fighting career which began in 1832 reached a climax in 1853 when he beat "Duff" Burke and won the Championship of England, a fistie battle vividly described by Paul Herring in his new novel "Bold Bendigo" (Lippincott). A year later, while doing some somersaults down the highway for the amusement of his friend, he fell and broke his knee-cap. The champion was then counted out of the ring for good, and his title passed to Ben Caunt, his nearest rival. The wisecracker who counted him out, however, did not count his man. For five years he nursed his broken knee, and then, in 1845, challenged Ben Caunt. The challenge was accepted and on September 9th a terrific bare-knuckle battle took place. After 93 rounds and at the end of two hours and ten minutes, Bendigo was again acclaimed Champion of England. Herein lies one of the most remarkable and dramatic "come-backs" in the annals of sport, especially in view of the fact that Bendigo throughout the championship battle was handicapped by a decided limp, and was out-weighted by Caunt nearly forty pounds.
Many Accomplishments.
In addition to being a champion prize fighter, Bendigo possessed a number of other accomplishments—was a famous badger-baiter and cock-fighter, as well as a noted cricketer, runner, thrower, fisherman and life-saver. These activities were only matched by his battles with "demon" rum, which usually ended in his defeat, for legend has it that he was jalled no less than twenty-eight times. Strong drink turned

him into a wild man, and made him the terror of the town. On one occasion he raided a butcher shop and proceeded to hurl chunks of meat at passersby who made fun of him.
Bendigo's latter years were grotesque by contrast to the violence of his earlier ones, for he became an ardent evangelist and travelled about the country preaching the gospel. In this he was handicapped by the lack of the teeth that he had lost in some of his fistie battles. He was, however, a good drawing card and when called on to speak, would strike a fighting posture and proclaim that: "Al my life I have been fighting for the devil, but now I am fighting for Christ."
Knee Falls at 69.
In 1850 at the age of 69 years, Bendigo's bad knee suddenly gave way with him while he was going upstairs and thus ignominiously fate rang down the curtain for the last time on the career of this remarkable English champion.

EXPERT SPEARMEN.
Seattle—N. Leavett Harris, explorer and sportsman, who recently returned from a trip into the interior of Borneo, told a luncheon club here that he spent several weeks with a tribe of natives whose warriors are able to throw a seven-pound spear a distance of 250 to 375 feet with sufficient force and accuracy to drive the sharp head into a tree. The tribe, Harris said, knows nothing of firearms or even of bows and arrows, the spears being their only weapons.

A Coming Champion.
Tennessee is boasting the heavyweight champion of 1926. This dangerous puncher is now five years old but he already has several knockouts to his credit. He is Joe P. Kimsey, of Knoxville, Tenn., son of a former fighter, who is now a referee in that state.

Cornell Should Top Other Eastern Teams In National Meet

Ithaca, N. Y.—Cornell's track team looms as the strongest team in the east for the I. C. 4-A track meet at Philadelphia late this month.
The Ithacans can hardly expect to lead either Stanford or Southern California in the big meet, but they have a good chance to top all eastern entries.
Cornell's strength rests on the showing of John Anderson, Horace Hensen and Norwood Wright. Others expected to grab a point or two are Worden, Caruthers, Spelman, Bradley and Reed.
This group of track athletes grabbed off several points at the Penn. Relays, especially in the field events, and Coach Jack Moakley is confident that they will grab off several points in the Philadelphia meet.
As it stands now, with no team

in the east outstanding like Stanford and Southern California in the west, the Ithacans look the best of the lot.
Real Sportsmanship.
An athlete accused of roughing an opponent in a track meet between Stanford and Southern California has been duly reprimanded for his tactics. When Stanford made the complaint, the Trojans apologized for the athlete's tactics and barred him from further races this season.
According to the estimate of one specialist there are 14,000,000 bobbed heads in America from which 25,000 tons of hair have been sheared.

APRIL 27, 1927.

Dear Mr. Harper:

I believe that if records were available for each month, you would find that our company was one of your first purchasers when you began operations in Michigan about fifty years ago.

That our connection with your company of the past and of the present has been profitable is attested by the fact that our long lines have increased fifteen fold since the day of turning the crank in order to talk.

A great deal of our business comes from throughout the state, and it is almost needless to say that we use long distance service continuously.

We know that the Michigan Bell Telephone Company is doing all in its power to keep pace with the rapid growth of our city and state.

Let's get down to cases

YOU don't need a degree from Oxford to figure out why so many men smoke pipe today—and enjoy them. Pipe-smoking has increased at least three-fold since Prince Albert came into the picture. And pipe-pleasure has increased a thousand-fold. And with good reason!

Prince Albert in the bowl of your pipe means pipe-joy coming up the stem. That's the story of P.A.'s tremendous popularity in a pipe-bowl. You suspect that Prince Albert is wonderful tobacco the instant you open the tidy red tin and set free that rich, rare fragrance. That's a treat in itself!

Your "suspicions" are confirmed the minute that cool, comforting smoke comes rolling over your tongue. Never did pipe-tobacco taste as good as that. Cool and sweet and mellow and mild—long-burning—why, P. A. just has everything you ever wanted in a smoke, including complete satisfaction.

No matter how hard you hit it up, P.A. never bites your tongue or parches your throat. You can start in right after breakfast and stay with it until bedtime. You may think your pipe is delivering capacity pipe-joy now. Never mind. Until you've tried P.A., you won't know.

SUPREME COURT GIVES DECISION

Upholds Law Prohibiting Soliciting of Personal Injury.

Lansing, June 6.—(P)—The state supreme court today upheld the constitutionality of the 1925 law prohibiting the soliciting of personal injury claims in the case of Joseph A. Kelly versus Judge J. A. Boyne of recorder's court in Detroit.

Judge Boyne had refused to issue a warrant for the arrest of John T. McNamara, Detroit attorney, on a charge of soliciting on the ground that the law represented class legislation and was thus unconstitutional. Judge Boyne contended that the legislature had no authority to discriminate between persons soliciting for personal injuries and injuries to property.

The court reduced the verdict of \$1,000 damages granted Marie Fisher of Kalamazoo county to \$600, but upheld the decision of the lower court. The plaintiff had charged Arthur Rumber and Fred Mertens, members of the state police, with assault and battery in connection with a raid on the farm house which she was leaving. It upheld the conviction of Elmer McDonald in Grand Rapids of a charge of violating the liquor law.

The supreme court ordered the superior court of Grand Rapids to place on trial John G. S. P. Weiden of Grand Rapids, charged by a Grand Rapids magistrate with the murder of his adoptive father, Stephen Weiden. The superior court had granted a motion quashing the information against Weiden.

WORKMAN DIES IN CAR CRASH

Northland Man Sustains Broken Neck; Driver Questioned.

Marquette, June 6.—(Special)—Sheriff Sam Ford and Coroner Irving H. Argall were called to Northland today to investigate the death of William O'Donnell, a lumber camp worker, who was found dead in an automobile Sunday morning between Northland and Watson.

O'Donnell, the officers were told, was riding in the car Saturday night with L. LaRock. The car skidded off the road and ran into a ditch. It was reported O'Donnell and LaRock, unable to get the car out of the ditch decided to stay there until morning, so they got into the back seat and went to sleep.

When LaRock awoke Sunday morning, he told Sheriff Ford he found LaRock dead.

O'Donnell was unmarried and about middle aged. He had worked in lumber camps in the vicinity of Northland for several years. The body was taken to Escanaba where a post mortem disclosed that O'Donnell died from a broken neck. Coroner Argall said that an inquest will be held later.

LaRock came here today and was questioned by Sheriff Ford. He is not being held.
